Principles *and* Performance® Since 1984

Parnassus Investments is a pioneer in responsible investments. We search for high-quality businesses with increasingly relevant products or services, sustainable competitive advantages and quality management teams for our high conviction portfolios. Every investment must meet rigorous fundamental and environmental, social and governance (ESG) criteria.

Before investing, an investor should carefully consider the investment objectives, risks, charges and expenses of a fund and should carefully read the prospectus or summary prospectus, which contains this and other information about the fund and can be found in the Forms and Documents section of our website. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original principal cost, and you could lose money.

Risks: Investing involves risks, including the possible loss of principal. There are no assurances the Fund's investment objectives and ESG strategies will be successful.

ENVIRONMENTAL, SOCIAL, AND GOVERNANCE GUIDELINES The Fund evaluates financially material ESG factors as part of the investment decision-making process, considering a range of impacts they may have on future revenues, expenses, assets, liabilities and overall risk. The Fund also utilizes active ownership to encourage more sustainable business policies and practices and greater ESG transparency. Active ownership strategies include proxy voting, dialogue with company management and sponsorship of shareholder resolutions, and public policy advocacy. There is no guarantee that the ESG strategy will be successful.

The Parnassus Funds are distributed by Parnassus Funds Distributor, LLC.
