NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair Value Measurement - Definition and Hierarchy

ASC Topic 820, Fair Value Measurement defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability, or in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by ASC Topic 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. The unobservable inputs should be developed based on the best information available in the circumstances and may include the own data.

ASC Topic 820 has no material effect on this financial statement.

The Company did not hold any securities as of December 31, 2023.

Concentration of Credit Risk

The Company is engaged in various investment and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty. During the year ended December 31, 2023, the Company earned no fee income. The Company maintains cash balances in bank accounts which, at times, exceed the FDIC insurance limits.

NOTE 3. INCOME TAXES

For income tax purposes, the shareholder has elected that the Company be treated as an "S" corporation under Subchapter S of the Internal Revenue Code and for state income taxes. Accordingly, no provision has been made for both Federal and state income taxes since the net income or loss of the Company is to be included in the tax return of the individual shareholder.

The Company recognizes and measures its unrecognized tax benefits in accordance with ASC Topic 740, *Income Taxes*. Under that guidance the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts, circumstances, and information available at the end of the period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change.

The Company has determined that there are no uncertain tax positions which require adjustment or disclosure on the financial statement.

NOTE 4. NET CAPITAL REQUIREMENTS

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (and the rule of the 'applicable' exchange also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1). At December 31, 2023, the Company had net capital of \$123,925 which was \$118,925 in excess of its required net capital of \$5,000. The Company's net capital ratio was .49 to 1.

NOTE 5. FIXED ASSETS

Fixed assets at December 31, 2023 consist of the following:

		Estimated Useful Life
Automobile	\$ 114,614	5 Yrs.
Office equipment	13,079	3-5 Yrs.
Furniture and fixtures	37,452	7 Yrs.

	<u>179,944</u>	
Less: Accumulated Depreciation	(156,234)	
	<u>\$ 23,710</u>

NOTES TO FINANCIAL STATEMENT  
DECEMBER 31, 2023  
(continued)

NOTE 5.      **FIXED ASSETS (continued)**

Fixed assets are recorded at cost. The cost of fixed assets is depreciated over the estimated useful lives of the related assets utilizing the straight-line method.

NOTE 6.      **RELATED PARTY TRANSACTIONS**

For the year ended December 31, 2023, consulting fees of \$86,400 were paid to related parties.

NOTE 7.      **OFF BALANCE SHEET RISK**

The Company provides representations and warranties to counterparties in connection with a variety of commercial transactions and occasionally indemnifies them against potential losses caused by the breach of those representations and warranties. The Company may also provide standard indemnifications to some counterparties to protect them in the event additional taxes are owed or payments are withheld, due either to a change in or adverse application of certain tax laws. These indemnifications generally are standard contractual terms and are entered into in the normal course of business. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statement for these indemnifications.

NOTE 8.      **USE OF ESTIMATES**

The preparation of financial statement in conformity with U.S. GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 9. GUARANTEES

ASC Topic 460, *Guarantees*, requires the Company to disclose information about its obligations under certain guarantee arrangements. ASC Topic 460 defines guarantees as contracts and indemnification agreements that contingently require a guarantor to make payments to the guaranteed party based on changes in an underlying factor (such as an interest or foreign exchange rate, security or commodity price, an index or the occurrence or nonoccurrence of a specified event) related to an asset, liability, or equity security of a guaranteed party. This guidance also defines guarantees as contracts that contingently require the guarantor to make payments to the guaranteed party based on another failure to perform under an agreement, as well as indirect guarantees of the indebtedness of others.

Except for the indemnifications described in Note 7, the Company has issued no guarantees at December 31, 2023 or during the year then ended.

NOTE 10. SHORT-TERM LOAN RECEIVABLE

It is the Company's policy to make advances to commissioned brokers. These advances are repaid as commissions are earned. As of December 31, 2023 the Company has no outstanding advances.

NOTE 11. SUBSEQUENT EVENTS

Subsequent events have been evaluated through April 15, 2024 which is the date the financial statements were available to be issued. From January 1, 2024 through April 15, 2024, no events were identified which require disclosure.
