NOTES TO FINANCIAL STATEMENTS

YEAR ENDED SEPTEMBER 30, 2019

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Organization - James T. Borello & Co. (the "Company") was incorporated in the state of Illinois on February 14, 1990. The Company is registered as a broker/dealer with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). The Company is also registered with the SEC as an investment advisor. The Company's principal business activities are the sale of securities and providing investment advice.

Basis of Presentation - The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Revenue Recognition:

Effective October 1, 2018, the Company adopted ASC Topic 606, *Revenue from Contracts with Customers* ("ASC Topic 606"). The new revenue recognition guidance requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance requires an entity to follow a five step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation. In determining the transaction price, an entity may include variable consideration only to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized would not occur when the uncertainty associated with the variable consideration is resolved. The Company applied the modified retrospective method of adoption which resulted in no adjustment to retained earnings as of October 1, 2018. The new revenue recognition guidance does not apply to revenue associated with financial instruments, interest income and expense, leasing and insurance contracts.

Securities Transactions - Commission revenue and related expense arising from securities transactions are recorded on the trade date basis, which is the same business day as the transaction date.
