

Dear Fellow Shareholders:

2014 was an outstanding year for The Hartford. Thanks to the commitment and hard work of more than 17,000 employees, we accelerated the transformation of the company and delivered strong financial results. The Hartford's core earnings* grew 9%, or 16% on a diluted per share basis. Net income was \$798 million, or \$1.73 per diluted share, and our core earnings return on equity* increased a full percentage point.

We continued to focus on increasing shareholder value in 2014. Our accomplishments included expanding core earnings and increasing return on equity in our Property & Casualty, Group Benefits and Mutual Funds businesses; selling the Japan annuity business and thereby substantially reducing the risk in our legacy life and annuity runoff business, known as Talcott Resolution; returning more than \$2 billion of capital to shareholders through share repurchases and dividends; and, executing a seamless leadership transition.

No discussion of 2014 would be complete without an expression of our deepest gratitude to Liam McGee and his family. Liam stepped down as Chairman, President and Chief Executive Officer and The Hartford was deeply saddened by his loss in February 2015. Liam was a great leader and made an indelible impression on The Hartford. He restored the company's financial strength and set us on a path to achieve our vision: to be an exceptional company, celebrated for financial performance, character and customer value.

In my previous role as The Hartford's Chief Financial Officer, I worked in partnership with Liam and in my new role as Chairman and Chief Executive Officer, I will continue to execute the strategy we developed for creating shareholder value: 1) profitably grow the company's focused portfolio of businesses, 2) further reduce the size and risk of the legacy annuity liabilities, and 3) deliver more customer value while increasing operating effectiveness and efficiency.

In 2014, we made significant progress in each of these three areas and our strategic and financial transformation is essentially complete. We have placed greater focus on our portfolio of businesses and continue to make important investments for future growth, including investments in products, capabilities, technology and talent.

I am confident that the company is well positioned to create value for our shareholders on a consistent and sustained basis.

Sincerely,

Christopher J. Swift

Chairman and Chief Executive Officer

Dear Fellow Shareholders:

As fiduciaries of The Hartford, it is the responsibility of the Board to ensure its good governance and to oversee its strategic and operational initiatives in a manner that helps create and protect long-term shareholder value. To that end, the Board focused on a number of key initiatives in 2014, including:

Talent Development and Succession Planning

Talent development and succession planning have been and will continue to be vital components of this Board's governance responsibilities. Accordingly, we routinely discuss key talent indicators with management, meet with potential future leaders of the company, and engage in rigorous succession planning. In 2014, upon Liam McGee's decision to step down as CEO, we realized the return on our investment in talent development and succession planning. It is gratifying that we were in a position to elevate our CFO, Chris Swift, to the role of CEO and appoint from within the company a seasoned leadership team of the caliber we have leading the execution of our strategy.

Strategy and Risk Management

In 2014, the Board remained highly engaged in the company's strategic approach to creating shareholder value. In addition to overseeing the sale of the company's Japan annuity business, a key strategic milestone that significantly reduces the company's risk profile, the Board devoted significant time and discussion throughout the year to intensive review of the company's plans and investments for driving future profitable growth and of its uses of excess capital. The Board also devoted substantial time to risk management. The business and financial operations of The Hartford remain complex, notwithstanding the narrowing of its business model. Risk-taking is an essential part of an insurance business, and the Board worked closely with Chris and his executive leadership team to enable informed judgments on risk within appropriate limitations and oversight.

Executive Compensation

The Board remains committed to establishing transparent executive compensation programs that effectively align the interests of our executive leadership team with the company's shareholders. Accordingly, our programs are designed to be linked to company strategy and provide incentives that correlate with company performance. We regularly review best practices and solicit feedback from our shareholders, which resulted in several changes to the design of our compensation program in 2014.

The members of The Hartford's Board bring a diverse set of skills and perspectives to the oversight of this great company. I am proud to work side-by-side with my fellow directors as the Board's independent presiding director, to serve our shareholders.

Sincerely,

Performance Summary

Executing on our Strategy

We achieved outstanding performance in 2014. We continued to transform our business to improve profitability and reduce risk, we used our financial strength to return capital to our shareholders, and we underwent a seamless leadership transition. Highlighted below are some of our key accomplishments in 2014. We view the

transformation we began in 2012 as essentially complete, and we are focused on the future. Our primary objectives are to improve return on equity and grow book value per share to drive top quartile shareholder returns. While there is still work to be done, the Board and management are pleased with the progress we made in 2014.

Delivering Superior Shareholder Returns

Strong financial performance, a significantly improved risk profile and the financial flexibility to return capital to shareholders while continuing to invest in our businesses have helped drive superior shareholder returns. In 2014, we outperformed relevant benchmarks, including the S&P 500, S&P 500 P&C and S&P Insurance Composite indices, as illustrated on the right. We significantly outperformed these indices over three years as well. The chart on the following page illustrates our performance, and the transformative actions we have taken, beginning in 2012.

Compensation Highlights

2014 Compensation Decisions

Decision	Rationale
The Compensation Committee approved an annual incentive plan ("AIP") funding factor of 138%, making no adjustments to the formulaic calculation. (page 47 of our proxy statement)	Performance against pre-established financial targets resulted in a formulaic AIP funding factor of 138% of target. The Compensation Committee undertook a qualitative review of performance and concluded that the formulaic AIP funding factor appropriately reflected 2014 performance. Accordingly, no adjustments were made.
The independent directors approved a transition agreement providing compensation terms for Liam McGee in his role as an advisor during the leadership transition. (page 51 of our proxy statement)	In order to ensure an orderly transition, the independent directors felt that it was important to retain Mr. McGee's services beyond his resignation as President and CEO.
The Board promoted a new leadership team consisting entirely of internal candidates and the Compensation Committee (and, in the case of the CEO, the independent directors) determined target total compensation levels for their new roles. (page 50 of our proxy statement)	Our robust talent development program provided a deep bench of internal talent. The target total compensation opportunity was increased for each promoted executive to reflect their new roles and was determined using the process described in the <i>Benchmarking</i> section beginning on page 46 of our proxy statement. No additional LTI was granted at the time of their promotions.

2014 Active NEO Compensation Summary

The table below reflects the 2014 compensation package (base salary, AIP award and long-term incentive (“LTI”) award) for each active NEO. Although this table is not a substitute for the *Summary Compensation Table* information beginning on page 55 of our proxy statement, we believe it provides a simple and concise picture of compensation decisions made for the active NEOs in 2014.

Compensation Component	C. Swift	B. Bombara	D. Elliot	B. Johnson	R. Rupp
Base Salary Rate ⁽¹⁾	\$ 1,000,000	\$ 625,000	\$ 900,000	\$ 500,000	\$ 600,000
