GBM INTERNATIONAL, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

GBM INTERNATIONAL, INC. ("International" or the "Company") was incorporated for the purpose of serving as an introducing broker-dealer to its customers and conduct certain investment banking activities. International is a wholly-owned subsidiary of Portfolio Investments, Inc. ("PI"), which is a wholly-owned subsidiary of Corporativo GBM S.A.B. de C.V. ("GBM Mexico"). International is registered with the Securities and Exchange Commission as a broker-dealer under the Securities Exchange Act of 1934 and is a member of the Financial Industry Regulatory Authority ("FINRA"). International is also registered with the Commodity Futures Trading Commission as an introducing broker and is a member of the National Futures Association. International executes securities trades for customers as a principal and agent, futures trades as agent, and trades securities for its own account. All customer securities and futures transactions are cleared on a fully disclosed basis through unaffiliated broker-dealers. Accordingly, International does not carry customer accounts and does not receive, deliver or hold cash or securities in connection with such transactions.

Cash and cash equivalents

For the purposes of the statement of cash flows, International considers cash and highly liquid investments with original maturities of three months or less when purchased to be cash and cash equivalents.

Deposits held by clearing brokers

During the year ended December 31, 2021, International maintained Securities Clearing Agreements with Pershing LLC ("Pershing"). The agreement with Apex Clearing Corporation, Inc. ("APEX") was terminated and the clearing deposit returned during 2021. Pursuant to the terms of each Agreement, International is required to maintain a certain level of cash or eligible securities on deposit at each clearing firm. At December 31, 2021, International was required to have a cash deposit of \$150,000 at Pershing. Should Pershing suffer a loss due to a failure of a customer of International to complete a transaction, International is required to indemnify the applicable clearing firm to the extent of any such loss. At December 31, 2021 there were no such amounts owed to the clearing firm nor did International incur any such loss during the year ended December 31, 2021.

International maintained a similar Agreement with R.J. O'Brien ("RJO") to provide clearing services for International's futures trading activities. The amount of the cash deposit maintained by International at RJO at December 31, 2021 was \$10,000. International is required to indemnify RJO to the extent of any loss incurred by RJO due to a failure of a customer of International to complete a transaction.

GBM INTERNATIONAL, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*Continued*)

At December 31, 2021 there were no such amounts owed to RJO nor did International incur any such loss during the year ended December 31, 2021.

At December 31, 2021, International maintained cash of \$158,398 and \$10,000 in the clearing deposit account of Pershing and RJO respectively.

Receivable from nonaffiliated brokers and dealers

Receivables from brokers, dealers, and clearing organizations may include amounts receivable for securities failed to deliver, certain deposits for securities borrowed, amounts receivable from clearing organizations relating to open transactions, good-faith and margin deposits, and commissions receivable.

Securities transactions

Securities owned and securities sold, not yet purchased are valued at market value. Unrealized gain or loss from marking securities owned and securities sold, not yet purchased to market value is included in income under other income.

Securities transactions and related income and expense are recorded on the trade date. Realized gains and losses from sales of securities and derivatives are computed using the first-in, first-out method.

Property and equipment

Property and equipment is stated at cost, less accumulated depreciation. Depreciation is provided using accelerated methods over estimated useful lives of the related assets ranging from 5-7 years. Leasehold improvements are depreciated over the remaining useful life of the lease. Maintenance and repairs are charged to operations as incurred.

Income taxes

International's revenue and expenses are included in the consolidated Federal income tax return filed by PI. International's tax calculations are made as if International prepared a separate income tax return. Additionally, International may record a tax benefit, if such benefit can be utilized by PI in its consolidated return. International is also subject to certain state income taxes.

International uses the liability method of accounting for income taxes that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in International's financial statements or would have been recognized in PI's consolidated tax return.

GBM INTERNATIONAL, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*Continued*)

In estimating future tax consequences, all expected future events are considered other than enactment of changes in the tax law or rates. International provides a valuation allowance, if necessary, to reduce deferred tax assets to amounts that are likely to be realized.

International's deferred tax asset represents the tax effects of taxable temporary differences in the book and tax reporting. The taxable temporary differences consist of unrealized gains (losses) on securities, depreciation methods and lives, and accounting treatment of leases.

International is subject to the Texas Gross Margin Tax. The Texas Gross Margin Tax generally is calculated as one percent of gross margin, as defined, and was \$2,544 for the year ended December 31, 2021.

Foreign currency transactions

As an agent, in the normal course of business, International enters into securities transactions which are denominated in foreign currencies, primarily the Mexican peso. Realized and unrealized foreign currency gains and losses on such transactions are recorded in the period and are included in the caption other income. There was no net material realized and unrealized foreign currency losses recorded in 2021. For the purposes of reporting cash flows, International has determined that the effect of exchange rate changes on foreign currency transactions is immaterial.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of support and revenues and expenses during the reporting period. Actual results could differ from those estimates.

Risks and uncertainties

Securities owned and securities sold, not yet purchased which are recorded at fair value have exposure to market risk, including the volatility of securities markets. Significant changes in the prices of securities owned could have a significant impact on International's results of operations for any particular year.

GBM INTERNATIONAL, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 2: REVENUE RECOGNITION

Revenues are recognized when control of the promised services is transferred to customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those services. Revenues are analyzed to determine whether the Company is the principal (i.e., reports revenues on a gross basis) or agent (i.e., reports revenues on a net basis) in the contract. Principal or agent designations depend primarily on the control an entity has over the product or service before control is transferred to a customer. The indicators of which party exercises control include primary responsibility over performance obligations, inventory risk before the good or service is transferred and discretion in establishing the price.

Commission Revenue

Commission revenue – represents revenue sharing for their clients' purchases and sales of GBM Mexico funds, as well as purchases of other investment products. The Company views the selling, distribution and marketing, or any combination thereof, of investment products to such clients as a single performance obligation to the product sponsors.

The Company is the principal for commission revenue, as it is responsible for the execution of the clients' purchases and sales, and maintains relationships with the product sponsors. GBM Mexico assists the Company in performing its obligations. Accordingly, total commission revenues are reported on a gross basis.

The following table presents our total commission revenue disaggregated by investment product category:

	Twelve Months Ended December 31, 2021	
Other commissions	\$	891,028
Options		3,366,808
Equities		5,037,086

12b-1 fees		240,179
Commissions revenue	\$	<u>10,170,847</u>

GBM INTERNATIONAL, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 2: REVENUE RECOGNITION (*Continued*)

The Company generates two types of commission revenue: sales-based commission revenue that is recognized at the point of sale on the trade date and trailing commission revenue that is recognized over time as earned. Sales-based commission revenue varies by investment product and is based on a percentage of an investment product's current market value at the time of purchase. Trailing commission revenue is generally based on a percentage of the current market value of clients' investment holdings in trail-eligible assets, and is recognized over the period during which services, such as on-going support, are performed. As trailing commission revenue is based on the market value of clients' investment holdings, this variable consideration is constrained until the market value is determinable.

The following table presents our sales-based and trailing commission revenues disaggregated by product category:

	Twelve Months Ended December 31, 2021	
Sales based		
Other commissions	\$	891,028
Options		3,366,808
Equities		5,037,086
Fixed Income		617,869

Total sales-based revenue	\$	9,912,791
Trailing		
12b-1 fees		
Total trailing revenue	\$	240,179
Total Commission revenue		240,179
	\$	10,170,847

Other income is generated by interest income from margin accounts, non-purpose loan accounts, firm account revenue, annual fees charged to customers and gains and losses on firm investments.

GBM INTERNATIONAL, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 3: TRANSACTIONS WITH AFFILIATES AND RELATED PARTIES

Occasionally, International enters into securities transactions in Mexico which are cleared by GBM Mexico, an affiliated securities dealer domiciled in and regulated by the Comisión Nacional Bancaria y de Valores ("CNBV"). However, there were no such transactions entered into during 2021. Additionally, International executes orders, either as principal or agent, on behalf of GBM Mexico and earns prime brokerage fees from GBM Mexico. Commission, dealer income, and prime brokerage fees earned from GBM Mexico during the year ended December 31, 2021 was \$2,555,036. Commissions and fees receivable from GBM Mexico at December 31, 2021 was \$201,768. GBM Mexico also charges International for overhead costs.

During the year ended December 31, 2021, International paid for accounting and administrative services to GBM Mexico of \$108,000, under the terms of the administrative services agreement.

Furthermore, International from time to time may enter into transactions with affiliates in the normal course of business which are recorded as receivable from or payable to affiliates. As of December 31, 2021, there was a \$277,269 receivable from PI, the majority of which arose as result of tax consequences of being a subsidiary of a consolidated group that files a consolidated federal income tax return.

From time-to-time advances are made to employees by International. At December 31, 2021, a total of \$34,600 of employee receivables remained outstanding.

NOTE 4: NET CAPITAL REQUIREMENTS

International is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC rule 15c3-1), which requires the maintenance of minimum net capital of \$100,000 (including subordinated indebtedness) and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1.

International is also subject to the Commodity Futures Trading Commission's minimum financial requirements (Regulation 1.17). At December 31, 2021, International had net capital, as defined, of \$8,316,968 which was \$8,216,968 in excess of the required minimum net capital of \$100,000. International's ratio of aggregate indebtedness was 0.14 to 1.0 at December 31, 2021. International is currently in compliance with these requirements.

Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1.

International is exempt from the provisions of SEC Rule 15c3-3 under paragraph (k)(2)(ii), as described in Supplemental Schedule I.

GBM INTERNATIONAL, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 6: INCOME TAXES

Federal Provision (Benefit)	
Current	\$ 1,013,764

	964,058
State Provision	
Current	<u>2,547</u>
Total Provision for Income Taxes	<u>\$ 966,605</u>

Deferred income taxes reflect the net effects of the temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for tax reporting purposes. The temporary differences consist of depreciation methods and lives, adjustment for audit fees, and unrealized gains on securities.

The Company did not have unrecognized tax benefits as of December 31, 2021 and does not expect this to change significantly over the next twelve months. The Company will recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. As of December 31, 2021, the Company has not accrued interest or penalties related to uncertain tax positions. The Company's U.S. federal and state income tax returns are open to audit under the statute of limitations for the years ending December 31, 2018 and beyond.

GBM INTERNATIONAL, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 7: COMMITMENTS AND CONTINGENCIES

Operating Lease

The Company recognizes a ROU asset and a corresponding lease liability based on the present value of the future lease payments over the lease term at the commencement date.

ROU assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. ROU assets and liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term. For determining the present value of lease payments, we use the discount rate implicit in the lease when readily determinable. As most of the Company's leases do not provide an implicit rate, we use an incremental borrowing rate in determining the present value of lease payments that approximates the rate of interest we would have to pay to borrow on a collateralized basis over a similar term.

The ROU measurement was calculated using the fixed scheduled rent payments up to the maturity date of August 2026. The agreement does contain variable rent payments composed of common area maintenance ("CAM"), insurance and utilities. The Company did not elect the practical expedient in ASU 2018-16 and therefore, was able to separate CAM fees as non-lease component. CAM fees are adjusted annually based on the company's pro-rata share of the lessor's expenses to maintain the building. Because the adjustment is not based on an index or market rate, the Company did not include the CAM expenses in its ROU calculation.

The lease agreement does not contain any material residual value guarantees, renewal options or material restrictive covenants.

The Company determines if an agreement is a lease at inception. A lease is defined as a contract, or part of a contract, that conveys the right to control the use of identified property, plant or equipment (an identified asset) for a period of time in exchange for consideration.

The Company did not recognize ROU assets and lease liabilities for short-term leases and instead records them in a manner similar to operating leases under ASC 840, Leases, lease accounting guidelines. A short-term lease is one with a maximum lease term of 12 months or less and does not include a purchase option or renewal option the lessee is reasonably certain to exercise. The Company has a sixty-eight-month lease for office space located in Houston, TX.

The Company executed a lease renewal of its office space which it will recognize in the financial statements on the commencement date of the lease on January 1, 2021.

Security Transactions

International executes securities and futures transactions on behalf of its customers. If either the customer or the counterparty fails to perform, International may be required to discharge the obligation of the nonperforming party. In such circumstances, International may sustain a loss if the market value of the security or futures contract is different from the contract value of the transaction. International does not expect nonperformance by customers or counterparties.

International clears all of its securities transactions through clearing brokers on a fully disclosed basis. Pursuant to the terms of the agreements between International and the clearing brokers, the clearing brokers have the right to charge International for losses that result from a counterparty's failure to fulfill its contractual obligations. As the right to charge International has no maximum amount and applies to all trades executed through the clearing broker, International believes there is no maximum amount assignable to this right. As of December 31, 2021, International has no recorded liabilities with regard to the right. During 2021, International did not pay the clearing brokers any amounts related to these guarantees. International's policy is to monitor its market exposure, customer risk, and counterparty risk through the use of a variety of credit exposure reporting and control procedures, including marking-to-market securities and any related collateral as well as requiring adjustments of collateral levels as necessary. In addition, International has a policy of reviewing, as considered necessary, the credit standing of each counterparty and customer with which it conducts business.

Other

During the normal course of business, International enters into contracts that contain a variety of representation and warranties and which provide general indemnifications. International's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against International that have not yet occurred. However, based on experience, International expects the risk of loss to be remote.

NOTE 8: CONCENTRATIONS

A portion of International's trading activities, as an agent, involve securities of companies domiciled in Mexico and South America. Consequently, the ability of International to maintain appropriate levels of trading activity in Mexican and South American securities and the value of such securities outstanding is impacted by economic and business conditions in Mexico and South America. For the year ended December 31, 2021, revenue from one customer represented more than 10% of International's commission. The concentration risk is mitigated through International's client's risk procedures.

NOTE 9: 401(K) PLAN

The Company maintains a 401(k) plan for employees. The 401(k) Plan does not require a mandatory employer contribution but does provide for a discretionary employer contribution. Employer contributions were \$26,165 for the year ended December 31, 2021.

NOTE 10: SUBSEQUENT EVENTS

Subsequent events were evaluated through March 7, 2022 which is the date the financial statements were available to be issued, and noted no significant subsequent events.
