DISCLAIMER

This Supplemental Information and other materials we have filed or may file with the Securities and Exchange Commission, as well as information included in oral statements made, or to be made, by our senior management contain certain “forward-looking” statements as that term is defined by the Private Securities Litigation Reform Act of 1995. All statements regarding our expected future financial position, results of operations, cash flows, funds from operations, continued performance improvements, ability to service and refinance our debt obligations, ability to finance growth opportunities, and similar statements including, without limitations, those containing words such as “may”, “will”, “believes”, “anticipates”, “expects”, “intends”, “estimates”, “plans”, and other similar expressions are forward-looking statements.

Forward-looking statements involve known and unknown risks and uncertainties that may cause our actual results in future periods to differ materially from those projected or contemplated in the forward-looking. Such risks and uncertainties include, among other things, the following risks, which are described in more detail under the heading “Risk Factors” in Item 1A in our Form 10-K for the year ended December 31, 2011:

- We depend on the operating success of our customers (facility operators) for collection of our revenues during this time of uncertain economic conditions in the U.S.;
- We are exposed to the risk that our tenants and borrowers may become subject to bankruptcy or insolvency proceedings;
- We are exposed to risks related to governmental regulations and payors, principally Medicare and Medicaid, and the effect that lower reimbursement rates will have on our tenants’ and borrowers’ business;
- We are exposed to the risk that the cash flows of our tenants and borrowers will be adversely affected by increased liability claims and general and professional liability insurance costs;
- We are exposed to risks related to environmental laws and the costs associated with the liability related to hazardous substances;
- We are exposed to the risk that we may not be indemnified by our lessees and borrowers against future litigation;
- We depend on the success of future acquisitions and investments;
- We depend on the ability to reinvest cash in real estate investments in a timely manner and on acceptable terms;
- We may need to incur more debt in the future, which may not be available on terms acceptable to the Company;
- We are exposed to the risk that the illiquidity of real estate investments could impede our ability to respond to adverse changes in the performance of our properties;
- We are exposed to the risk that our assets may be subject to impairment charges;
- We depend on the ability to continue to qualify as a real estate investment trust;
- We have ownership limits in our charter with respect to our common stock and other classes of capital stock;
- We are subject to certain provisions of Maryland law and our charter and bylaws that could hinder, delay or prevent a change in control transaction, even if the transaction involves a premium price for our common stock or our stockholders believe such transaction to be otherwise in their best interests.

In this Supplemental Information, we refer to non-GAAP financial measures. These non-GAAP measures are not prepared in accordance with generally accepted accounting principles. A reconciliation of the non-GAAP financial measures to the most directly comparable GAAP measures is included in this presentation.

Throughout this presentation, certain abbreviations and acronyms are used to simplify the format. A list of definitions is provided at the end of this presentation to clarify the meaning of any reference that may be ambiguous.

COMPANY PROFILE

NATIONAL HEALTH INVESTORS, INC., a Maryland corporation incorporated in 1991, is a real estate investment trust ("REIT") which invests in income-producing health care properties primarily in the long-term care and senior housing industry. Our mission is to invest in health care real estate which generates current income that will be distributed to stockholders. We have pursued this mission by investing in leased properties and mortgage loans nationwide. These investments include skilled nursing facilities, assisted living facilities, medical office buildings, independent living facilities, and hospitals based on acute and rehabilitative care. We have funded these investments in the past through three sources of capital: (1) current cash flow, (2) the sale of equity securities, and (3) debt offerings, including the issuance of convertible debt instruments, bank lines of credit, and ordinary term loans.

DIVIDEND HISTORY

The Board of Directors approves a regular quarterly dividend which is reflective of expected taxable income on a recurring basis. Company transactions that are infrequent and non-recurring that generate additional taxable income have been distributed to shareholders in the form of special dividends. Taxable income is determined in accordance with the IRS Code and is different than net income for financial statement purposes determined in accordance with accounting principles generally accepted in the U.S.

Gains and recoveries on sales of marketable securities	(1,090)	(2)	(9,899)	(2)
Change in fair value of interest rate swap agreement	1,188	-	922	-
Other items	-	-	-	250
Normalized FFO	\$ 20,474	\$ 20,025	\$ 58,729	\$ 56,452
Weighted average common shares outstanding:				
Basic	27,729,560	27,673,703	27,711,474	27,657,236
Diluted	27,789,725	27,737,802	27,795,150	27,716,105
FFO per share:				
Basic	\$ 0.74	\$ 0.72	\$ 2.45	\$ 2.11
Diluted	\$ 0.74	\$ 0.72	\$ 2.44	\$ 2.10
Normalized FFO per share:				
Basic	\$ 0.74	\$ 0.72	\$ 2.12	\$ 2.04
Diluted	\$ 0.74	\$ 0.72	\$ 2.11	\$ 2.04
FFO payout ratio:				
Dividends declared per common share	\$ 0.615	\$ 0.605	\$ 1.845	\$ 1.755
FFO per diluted share	\$ 0.74	\$ 0.72	\$ 2.44	\$ 2.10
FFO per diluted share payout ratio	83.1%	84.0%	75.6%	83.6%

¹ Beginning with the three months ended June 30, 2011, the Company has included in its definition of normalized FFO the change in the fair value of an interest rate swap agreement, a non-cash adjustment. Accordingly, the normalized FFO per basic and diluted common share for the three months ended March 31, 2011 is now \$0.65 rather than \$0.70 per basic and diluted common share, as previously reported.

FUNDS AVAILABLE FOR DISTRIBUTION (FAD)

(in thousands, except share and per share amounts)

DEFINITIONS

Annualized Revenue

The term *Annualized Revenue* refers to the amount of revenue that our portfolio would generate if all leases and mortgages were in effect for the twelve-month calendar year, regardless of the commencement date, maturity date, or renewals. Therefore, annualized revenue is used for financial analysis purposes, and is not indicative of actual or expected results.

EBITDA

Earnings before interest, taxes, depreciation and amortization

Facility Types

ACH – Acute-care hospital

APH – Acute psychiatric hospital

MOB – Medical office building

Funds available for distribution - FAD

FAD is usually calculated by subtracting from Funds from Operations (FFO) both normalized recurring expenditures that are capitalized by the REIT and then amortized, but which are necessary to maintain a REIT's properties and its revenue stream (e.g., new carpeting and drapes in apartment units, leasing expenses and tenant improvement allowances) and "straight-lining" of rents. This calculation is sometimes referred to as Cash Available for Distribution (CAD) or Funds Available for Distribution (FAD). Our measure may not be comparable to similarly titled measures used by other REITs. Consequently, our FAD may not provide a meaningful measure of our performance as compared to that of other REITs. Since other REITs may not use our definition of FAD, caution should be exercised when comparing our Company's FAD to that of other REITs. FAD in and of itself does not represent cash generated from operating activities in accordance with GAAP (FAD does not include changes in operating assets and liabilities) and therefore should not be considered an alternative to net earnings as an indication of operating performance, or to net cash flow from operating activities as determined by GAAP as a measure of liquidity, and is not necessarily indicative of cash available to fund cash needs.

Funds from operations - FFO

FFO is an important supplemental measure of operating performance for a REIT. Because the historical cost accounting convention used for real estate assets requires straight-line depreciation (except on land), such accounting presentation implies that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen and fallen with market conditions, presentations of operating results for a REIT that uses historical cost accounting for depreciation could be less informative, and should be supplemented with a measure such as FFO. FFO is defined as net income, computed in accordance with GAAP, excluding gains or losses from sales of property, and adding back real estate depreciation. The term FFO was designed by the REIT industry to address this issue. Our measure may not be comparable to similarly titled measures used by other REITs. Consequently, our FFO may not provide a meaningful measure of our performance as compared to that of other REITs. Since other REITs may not use our definition of FFO, caution should be exercised when comparing our Company's FFO to that of other REITs. FFO in and of itself does not represent cash generated from operating activities in accordance with GAAP (FFO does not include changes in operating assets and liabilities) and therefore should not be considered an alternative to net earnings as an indication of operating performance, or to net cash flow from operating activities as determined by GAAP as a measure of liquidity, and is not necessarily indicative of cash available to fund cash needs.

Normalized FFO & Normalized FAD

Normalized FFO and Normalized FAD excludes from FFO and FAD, respectively, any material one-time items reflected in GAAP net income. Excluded items may include, but are not limited to, impairments of assets, gains and losses attributable to the acquisition and disposition of assets and liabilities, asset write-downs and recoveries of previous write-downs.

Investment (NBV)

The term *Investment (NBV)* refers to the net carrying value of our real estate and mortgage investments.
