SCOTT'S LIQUID GOLD-INC.

ANNOUNCES PLANNED REVISION OF FINANCIAL STATEMENTS, RESULTING IN IMPROVED STOCKHOLDERS EQUITY AND WORKING CAPITAL RATIO

DENVER, Colorado (March 31, 2003) – Scott's Liquid Gold-Inc. (OTCBB:SLGD) announced today that the Company expects to file its 10-K Report for the year ended December 31, 2002 after March 31, 2003 and on or before April 15, 2003. The Company also stated that this Report will contain restated financial statements of the Company for the years of 2000 and 2001, as well as the first three quarters of 2002, to reflect certain adjustments.

The adjustments that will result in restated financial statements were identified while working with the Company's new auditor, KPMG LLP, in connection with the audit of the Company's financial statements for the year ended December 31, 2002. Some of these adjustments concern years ending prior to 2000, thus affecting the beginning balances of the Company's assets, liabilities and retained earnings in 2000, but are not part of revised financial statements expected to be in the Company's Annual Report on Form 10-K for the year ended December 31, 2002.

The Company anticipates that the net impact of the adjustments will be the following:

- A reduction of the net loss in 2000;
- A reduction in the net loss in 2001;
- An increase in retained earnings as of December 31, 2000;
- An increase in retained earnings as of December 31, 2001; and
- A reduction of net income for the first three quarters of 2002. The Company anticipates that it will have a net profit for the fourth quarter of 2002 and the 2002 year and that this profit for 2002 will be higher than the net profit previously reported for the nine months ended September 30, 2002.

The Company currently expects that the more significant adjustments involved in the anticipated revisions will involve, among other things, the Company's deferred tax valuation allowance, accrued taxes, inventory reserves, year-end revenues, corresponding changes in costs of goods sold, and accrued expenses. The Company expects the net effect of these adjustments will be to report improved working capital ratio and retained earnings positions at the year ended December 31, 2002.

The possibility of revised financial statements resulted in a re-audit by the Company's new independent auditor of the Company's 2000 and 2001 years. The time involved in this audit and a final determination regarding adjustments has caused a delay in filing the Company's 10-

K Report for the year ended December 31, 2002. This Report will contain the revised financial statements of the Company for the periods indicated above.

As a result of the anticipated restatements, the Company's financial statements for the affected periods should no longer be relied upon, including the audited financial statements for 2000 and 2001 contained in the Company's annual report on Form 10-K for the years ended December 31, 2001 and 2000, and including the non-audited financial statements for the nine months ended September 30, 2002.
