Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders
of Winslow, Evans and Crocker, Inc.

Opinion on the Financial Statements

We have audited the accompanying statement of financial condition of Winslow, Evans and Crocker, Inc. as of December 31, 2020, the related statements of operations, changes in shareholder's equity, changes in liabilities subordinated to claims of general creditors, and cash flows for the year then ended, and the related notes (collectively referred to as the financial statements). In our opinion, the financial statements present fairly, in all material respects, the financial position of Winslow, Evans and Crocker, Inc. as of December 31, 2020, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of Winslow, Evans and Crocker, Inc. 's management. Our responsibility is to express an opinion on Winslow, Evans and Crocker, Inc. 's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to Winslow, Evans and Crocker, Inc. in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

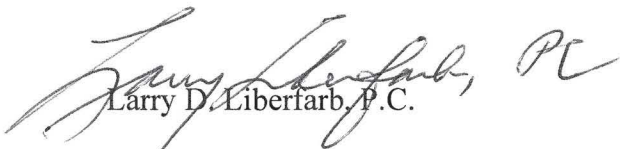

Emphasis of Matter

The Company on June 22, 2021 reissued its financial statements dated February 25, 2021. The reissued financial statements eliminate a receivable from its parent company, reimbursing it for regulatory sanctions, described in Note 8. The elimination of the receivable caused the Company to also restate income tax accruals. The result of these adjustments, do not change the auditor's opinion.

As described in Note 14 to the financial statements, the Company on March 20, 2021 will transfer all of its revenue producing assets and clients to two related companies and operate as a branch office. Our opinion is not modified with respect to that matter.

Auditor's Report on Supplemental Information

The computation of aggregate indebtedness and net capital pursuant to SEC Rule 15c3-1, and computation for and information related to possession or control determination of reserve requirements for broker/dealers under SEC Rule 15c3-3 have been subjected to audit procedures performed in conjunction with the audit of Winslow, Evans and Crocker, Inc. 's financial statements. The supplemental information is the responsibility of Winslow, Evans and Crocker, Inc. 's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with 17 C.F.R. §240.17a-5. In our opinion, the computation of aggregate indebtedness and net capital under SEC Rule 15c3-1, and computation for and information related to possession or control determination of reserve requirements for broker/dealers under SEC Rule 15c3-3 are fairly stated, in all material respects, in relation to the financial statements as a whole.

Larry D. Libertarb, P.C.

We have served as Winslow, Evans and Crocker, Inc. 's auditor since 1999.

Notes To Financial Statements

December 31, 2020

NOTE 1 - ORGANIZATION AND NATURE OF BUSINESS

Winslow, Evans & Crocker, Inc., (the Company), a wholly owned subsidiary of National Holdings Corporation (the Parent), is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority, Inc. (FINRA). The Company is a Massachusetts corporation.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements include the accounts of the Company. The Company is engaged in a single line of business as a securities broker-dealer, which comprises several classes of services, including principal transactions, agency transactions, investment banking, and investment advisory businesses.

Brokerage Commissions

The Company buys and sells securities on behalf of customers. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions and related clearing expenses are recorded on the trade date (the date that the Company fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer). The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument of purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer.

The Company clears its securities transactions through Pershing LLC and Raymond James Associates, Inc. on a fully disclosed basis.

Investment advisory fees. The Company provides investment advisory services on a daily basis. The Company believes the performance obligation for providing advisory services is satisfied over time because the customer is receiving and consuming the benefits as the Company provides them. Fee arrangements are based on a percentage applied to the customer's assets under management. Fees are received quarterly in advance and are recognized as revenue monthly at that time as they relate specifically to the services provided in that period, which are distinct from services provided in other periods.

Distribution fees. The Company enters into arrangements with managed accounts or other pooled investment vehicles (funds) to distribute shares to investors. The Company may receive distribution fees paid by the fund up front, over time, upon the investor's exit from the fund (that is, a contingent deferred sales charge), or as a combination thereof. The Company believes that its performance obligation is the sale of securities to investors and as such this is fulfilled on the trade date. Any fixed amounts are recognized on the trade date and variable amounts are recognized to the extent it is probable that a significant revenue reversal will not occur once the uncertainty is resolved. For variable amounts, as the uncertainty is dependent on the value of the shares at future points in time as well as the length of time the investor remains in the fund, both of which are highly susceptible to factors outside the Company's influence, the Company does not believe that it can overcome this constraint until the market

value of the fund and the investor activities are known, which are usually monthly or quarterly. Distribution fees recognized in the current period are primarily related to performance obligations that have been satisfied in prior periods.

Marketable Securities

Marketable securities are valued at market, cost is determined on the specific identification method.

Marketable securities classified as trading had gross unrealized gains of \$0 and gross unrealized losses of \$1,729.

Marketable securities classified as available for sale had gross unrealized gains of \$58,093 and gross unrealized losses of \$502.

Depreciation

Depreciation is provided for on the straight-line basis using estimated lives of five to seven years. Leasehold improvements are amortized over the lesser of the economic useful life of the improvement, or the term of the lease.

Advertising

The Company expenses advertising and promotion costs as incurred.

Income Taxes

The amount of current and deferred taxes payable or refundable is recognized as of the date of the financial statements, utilizing currently enacted tax laws and rates. Deferred tax expense or benefits are recognized in the financial statements for the changes in deferred tax liabilities or assets between years.

The Company is included in the consolidated federal and certain combined state and local income tax returns with its Parent.

Statement of Cashflows

For purposes of the statement of cash flows, the Company has defined cash equivalents as highly liquid investment, with original maturities of less than ninety days that are not held for sale in the ordinary course of business.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and

the reported amounts of revenues and expenses during the reported period. Actual results could differ from these estimates

NOTE 3 - NET CAPITAL

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital, and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (and the rule of the applicable exchange also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1). The Company had net capital of \$832,277, which was \$676,727 in excess of its required net capital of \$155,550. The Company's net capital ratio was 2.8035 to 1.

NOTE 4 – OFF-BALANCE-SHEET RISK AND CONCENTRATION OF CREDIT RISK

The Company's customers' securities transactions are introduced on a fully disclosed basis with other clearing broker/dealers. The clearing broker/dealers carries all of the accounts of the customers of the Company and is responsible for execution, collection of and payment of funds, and receipt and delivery of securities relative to customer transactions. Off-balance-sheet risk exists with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments wherein the clearing broker/dealer may charge any losses it incurs to the Company. The Company seeks to minimize this risk through procedures designed to monitor the credit worthiness of its customers and that customer transactions are executed properly by the clearing broker/dealer.

The Company is engaged in various trading and brokerage activities whose counterparties primarily include broker-dealers, banks and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the credit worthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty with which it conducts business.

The Company at times maintains cash in bank accounts in excess of the established limit insured by the Federal Deposit Insurance Corporation (FDIC).

The Company maintains cash and securities in excess of the established limit insured by the Securities Investors Protection Corp (SIPC).

NOTE 9 – FORGIVABLE LOAN RECEIVED UNDER THE SMALL BUSINESS ADMINISTRATION PAYCHECK PROTECTION PROGRAM

In response to the coronavirus (COVID-19) outbreak in 2020, the U.S. Federal Government enacted the Coronavirus Aid, Relief, and Economic Security Act that, among other economic stimulus measures, established the Paycheck Protection Program (PPP) to provide small business loans. In April 2020, the Company obtained a PPP loan for \$ 973,062, which is included in the Company's loan payable balance at December 31, 2020. The note matures in April 2022 and bears interest at a fixed annual rate of 1%. The Company believes it used all of the proceeds from the note for qualifying expenses and thus expects to receive approval of its application for the loan to be forgiven in the future, at which time the Company will recognize a gain on forgiveness of the loan

NOTE 10 – LONG TERM LEASES

The Company leases office space at the rate of \$114,868 per month. The Boston, MA lease expires in July 2021. The lease also has a clause for excess operating expenses charges. Operating lease ROU assets	\$537,703

	<u>\$ 55,179</u>

Depreciation expense for 2020 was \$30,109.

NOTE 12 – FAIR VALUE

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.

Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.

Level 3 are unobservable inputs for the asset or liability and rely on management's own assumption about the assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)

A qualifying asset or liability's level within the framework is based upon the lowest level of any input that is significant to the fair value measurement. The Company's qualifying assets or liabilities are recorded at fair value using Level 1 inputs.
