Re: SPX Corporation
Form 10-K for the Fiscal Year Ended December 31, 2010
Filed February 22, 2011
File No. 001-16948

Dear Mr. O'Leary:

We have limited our review of your filing to your contacts with countries that have been identified as state sponsors of terrorism and we have the following comments. Our review with respect to this issue does not preclude further review by the Assistant Director group with respect to other issues. At this juncture, we are asking you to provide us with information so we may better understand your disclosure.

Please respond to this letter within ten business days by providing the requested information, or by advising us when you will provide the requested response. If you do not believe our comments apply to your facts and circumstances, please tell us why in your response.

After reviewing the information you provide in response to these comments, we may have additional comments.

General

1. We note that Schedule 2.6A to Exhibit 10.1 to your Form 10-Q for the quarter ended July 3, 2010 is a list of foreign trade facility bank guarantees in which one guarantee involves SPX Process Equipment Limited as the borrowing subsidiary, Iranian Offshore Engineering & Construction Company of Tehran as the beneficiary and Deutsche Bank as the issuing bank. As you know, Iran is identified by the State Department as a state sponsor of terrorism, and is subject to U.S. economic sanctions and export controls. Please update us on your contacts with Iran since your letters to us of April 4, 2006 and July 10, 2006. Describe to us the nature and extent of your past, current, and

anticipated contacts with the Iran since your 2006 letters, whether through subsidiaries, resellers, distributors, or other direct or indirect arrangements. Your response should describe any products, equipment, components, technology, and services you have provided to those countries and any agreements, commercial arrangements, or other contracts you have had with the government of Iran or entities controlled by that government.

2. Please discuss the materiality of your contacts with Iran described in response to the foregoing comment and whether those contacts constitute a material investment risk for your security holders. You should address materiality in quantitative terms, including the approximate dollar amounts of any associated revenues, assets, and liabilities for the last three fiscal years and the subsequent interim period. Also, address materiality in terms of qualitative factors that a reasonable investor would deem important in making an investment decision, including the potential impact of corporate activities upon a company's reputation and share value. Various state and municipal governments, universities, and other investors have proposed or adopted divestment or similar initiatives regarding investment in companies that do business with U.S.-designated state sponsors of terrorism. Your materiality analysis should address the potential impact of the investor sentiment evidenced by such actions directed toward companies that have operations associated with Iran.

We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filing to be certain that the filing includes the information the Securities Exchange Act of 1934 and all applicable Exchange Act rules require. Since the company and its management are in possession of all facts relating to the company's disclosure, they are responsible for the accuracy and adequacy of the disclosures they have made.

In responding to our comments, please provide a written statement from the company acknowledging that:

- the company is responsible for the adequacy and accuracy of the disclosure in the filing;
- staff comments or changes to disclosure in response to staff comments do not foreclose the Commission from taking any action with respect to the filing; and
- the company may not assert staff comments as a defense in any proceeding initiated by the Commission or any person under the federal securities laws of the United States.
