NOTES TO AMENDED UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Stated in US Dollars)

Note 1 **Nature and Continuance of Operations**

Creator Capital Limited (the "Company") is a Bermuda exempted company, which in June 1997, changed its name from Sky Games International Ltd. ("SGI") to Interactive Entertainment Limited and on September 27, 2000 changed its name to Creator Capital Limited. The Company is publicly listed on the NASDAQ OTCBB in the United States of America.

The Company is engaged in providing in-flight gaming and entertainment software and services by developing, implementing and operating or licensing computerized video gaming and other entertainment software on, but is not limited to the aircraft of international commercial air carriers. Gaming software is marketed using the name Sky Games® and the entertainment software is marketed using the name Sky Play

These financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At June 30 2007, the Company had not yet achieved profitable operations, has accumulated losses of \$68,453,077 since its inception, has a working capital deficiency of \$1,978,197 and expects to incur further losses in the development of its business, all of which casts substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management has no formal plan in place to address this concern but considers that the Company will be able to obtain additional funds by equity financing and/or related party advances, however there is no assurance of additional funding being available.

Note 2 **Summary of Significant Accounting Policies**

The consolidated financial statements of the Company have been prepared in accordance with Canadian generally accepted accounting principles and are stated in US dollars. Differences with respect to accounting principles generally accepted in the United States of America are described in Note 12. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates, which have been made using careful judgment. Actual results may differ from these estimates

The consolidated financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the significant accounting policies summarized below:

a) Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries:

- Creator Capital (Nevada), Inc., formerly Sky Games International Corp. (a Nevada corporation);
- Creator Island Equities Inc. (a British Columbia corporation);

The subsidiary companies are inactive. All material inter-company accounts and transactions have been eliminated on consolidation.

b) Equipment

Equipment is recorded at cost. Equipment is depreciated over its estimated useful life using the following methods:

Computer equipment	3 years straight-line
Furniture	5 years straight-line
Website	8 years straight-line

Additions are depreciated at one-half rate during the year of acquisition.

c) Website Development Costs

Website development costs relate to costs incurred in to develop a website and meet the criteria for deferral. The costs are being amortized over the estimated life of the website are subject to an annual impairment assessment.

d) Financial Instruments

The carrying value of the Company's financial instruments, consisting of cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities, accrued dividends payable and notes payable approximate their fair value due to the short-term maturity of such instruments. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest or currency risk arising from these financial instruments. For accounts receivable, the Company estimates, on a continuing basis, the probable losses and provides a provision for losses based on the estimated realizable value.

e) Basic and Diluted Loss Per Share

Basic loss per share ("LPS") is calculated by dividing loss applicable to common shareholders by the weighted average number of common shares outstanding for the year. Diluted LPS reflects the potential dilution that could occur if potentially dilutive securities are exercised or converted to common stock. The dilutive effect of options and warrants and their equivalent is computed by application of the treasury stock method and the effect of convertible securities by the "if converted" method. Fully diluted amounts are not presented when the effect of the computations are anti-dilutive due to the losses incurred. Accordingly, there is no difference in the amounts presented for basic and diluted loss per share.

f) Revenue Recognition

The Company recognizes revenues when the following criteria are met: persuasive evidence of an agreement exists, shipment has occurred, the price to the buyer is fixed and determinable and collectibility is reasonably assured.

Revenue for Sky Play is recognized each month upon invoicing.

g) Foreign Currency Translation

The Company's functional currency is the United States dollar. Monetary assets and liabilities are translated into the functional currency at the exchange rate in effect at the end of the year. Non-monetary assets and liabilities are translated at the exchange rate prevailing when the assets were acquired or liabilities assumed. Revenues and expenses are translated at the rate approximating the rate of exchange on the transaction date. All exchange gains and losses are included in the determination of net loss for the year.

h) Impairment of Long-lived Assets

Long-lived assets and intangibles held and used by the Company are reviewed for possible impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If changes in circumstances indicate that the carrying amount of an asset that an entity expects to hold and use may not be recoverable, future cash flows expected to result from the use of the asset and its disposition must be estimated. If the undiscounted value of the future cash flows is less than the carrying amount of the asset, impairment is recognized.

i) Stock-based Compensation

Effective for fiscal years commencing on or after January 1, 2004, Canadian generally accepted accounting principles require the fair value of all share purchase options granted on or after fiscal years commencing on or after January 1, 2002 to be expensed over their vesting period with a corresponding increase to contributed surplus. Upon exercise of share purchase options, the consideration paid by the option holder, together with the amount previously recognized in contributed surplus, is recorded as an increase to share capital. The Company had not granted any share purchase options subsequent to January 1, 2002 and prior to December 31, 2004 and accordingly this change in policy has no effect on prior year's operations.

Note 3 Acquisition of ETV Channels On Demand Inc.

By a share purchase agreement dated March 6, 2006 the Company was to acquire all of the outstanding common shares of ETV Channels on Demand, Inc. ("ETV"), a Panama company, in exchange for 50,000,000 common shares of the Company and one share purchase warrant entitling the holder to acquire 1,000,000 common shares of the Company at \$1.00 per share from August 15, 2006 to February 15, 2008. These securities were to be issued on an earn-out basis as to one share and a proportionate amount of warrants for each \$1.00 of gross revenues realized through the ETV business. The terms of the Share Purchase Agreement were not fulfilled. On November 17, 2006, the Company deemed the Agreement null and void due to failure of the Vendor to fulfill the terms. A finder's fee of 2,500,000 common shares to be earned-out based upon the same formula as the acquisition securities were to be issued. With the failure of the Share Purchase Agreement, the finder's fee also became null and void.

Note 16 New United States of America Accounting Standards

In June 2006, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes". The interpretation clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes". Specifically, the pronouncement prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on the related derecognition, classification, interest and penalties, accounting for interim periods, disclosure and transition of uncertain tax position. The interpretation is effective for fiscal years beginning after December 15, 2006. The adoption of FIN 48 is not expected to have a material impact on the Company's consolidated financial position, results of operations or cash flows; however, the Company is still analyzing the effects of FIN 48.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements". This Statement defines fair value as used in numerous accounting pronouncements, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosure related to the use of fair value measures in financial statements. The Statement is to be effective for the Company's financial statements issued in 2008; however, earlier application is encouraged. The Company is currently evaluating the timing of adoption and the impact that adoption might have on its financial position or results of operations.

In September 2006, the Securities and Exchange Commission ("SEC") issued Staff Accounting Bulletin No. 108 ("SAB 108"). Due to diversity in practice among registrants, SAB 108 expressed SEC staff views regarding the process by which misstatements in financial statements are evaluated for purposes of determining whether financial statement restatement is necessary. SAB 108 is effective for fiscal years ending after November 15, 2006, and early application is encouraged. The Company does not believe SAB 108 will have a material impact on its financial position or results from operations.

In December 2006, the FASB issued FASB Staff Position ("FSP") EITF 00-19-2, "Accounting for Registration Payment Arrangements". This FSP specifies that the contingent obligation to make future payments or otherwise transfer consideration under a registration payment arrangement should be separately recognized and measured in accordance with FASB No. 5, "Accounting for Contingencies". This FSP is effective immediately for registration payment arrangements and the financial instruments subject to those arrangements that re entered into or modified subsequent to December 31, 2006. For registration payment arrangements and financial instruments subject to those arrangements that were entered into prior to December 31, 2006, the guidance in the FSP is effective January 1, 2006 for the Company. The Company does not believe that this FSP will have a material impact on its financial position or results from operations.

On February 15, 2007, the FASB issued SFAS No. 159 "The Fair Value Option for Financial Assets and Financial Liabilities". This Statement establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. SFAS No. 159 is effective for the Company's financial statements issued in 2008. The Company is currently evaluating the impact that the adoption of SFAS No. 159 might have on its financial position or results of operations.

The Accounting and Audit cost increase however, reflects the enormous increase in the cost of the annual audit caused by the Sarbanes-Oxley regulations in the U.S.A. The amounts noted here include the extra cost for the newly appointed Auditor, Amisano Hansen, to re-audit the December 31, 2004 Annual Statements and review the September 30, 2004 Quarterly Statements. The filing of these statements brings CCL into compliance with S.E.C. filing requirements. Also included is the accrual for the current fiscal year's audit. Hence the Accounting and Audit expense decreased from \$19,783 for 2006 to \$12,006 for the current period.

General and administrative expense for the current period's expense of \$38,637 decreased from the 2006 Six Month's expense of \$77,265.

Administration costs decreased from \$34,374 for 2006 down to \$13,708. During the six month period of 2006, the failed acquisition required additional administrative activities.

Consulting and services expenses decreased marginally from \$22,000 for the 2006 Period to \$21,000 for the 2007 Period.

The Legal expense for the Period was \$18,617, reflecting the defense of the legal action. The 2006 Six Month's expense was \$3,578.

SALES AND MARKETING COSTS

The Marketing expense for the Period was \$0 compared to \$595 in 2006.

The Net Loss before preferred stock dividends was \$51,416 for the six months ended June 30, 2007 compared to a net loss of \$49,647 for the six months ended June 30, 2006.

LIQUIDITY AND CAPITAL RESOURCES

At June 30, 2007, the Company had a working capital deficit of \$1,910,498. The accruing preferred share dividends payable contributed substantially to this deficit. The Company had negative cash flow from operations during the six months ended June 30, 2007. The diminishing revenue has been sufficient to provide the necessary funds for marketing, for continued development of the Company's products but not adequate to fund payment of the Company's dividend obligations on outstanding preference shares. The Company negotiated a restructuring and reduction of certain amounts owed to two of its largest creditors and to a best effort deferred payment plan on these obligations. One of the creditors recently entered bankruptcy proceedings. Due to the operating losses of the past years, the Company's continuance as a "going concern" is dependent upon its ability to obtain adequate financing and to reach profitable levels of operation. It is not possible to predict whether financing efforts will be successful or if the Company will attain profitable levels of operations in its current business activities.
