PART I

Item 1. Business

The Navistar Financial 1998-A Owner Trust, Navistar Financial 1999-A Owner Trust, Navistar Financial 2000-A Owner Trust, Navistar Financial 2000-B Owner Trust, Navistar Financial 2001-A Owner Trust, Navistar Financial 2001-B Owner Trust, and Navistar Financial 2002-A (the "Trusts") were formed pursuant to seven separate Trust Agreements dated as of June 4, 1998; June 3, 1999; March 9, 2000; March 9, 2000; November 1, 2000; April 27, 2001; November 1, 2001; April 30, 2002, respectively, among Navistar Financial Retail Receivables Corporation, ("NFRRC"), as seller (the "Seller") and Chase Manhattan Bank Delaware (formerly known as Chemical Bank Delaware), as owner trustee (the "Trustee"). Retail notes (the "Retail Notes") and security interests in the vehicles financed thereby were transferred to the Trusts in exchange for fixed rate notes (the "Notes") and fixed rate pass-through certificates (the "Certificates") which were registered on Registration Statement Nos. 33-64249, 333-62445, 033-50291, and 333-67112 and sold to the public in reliance on Rule 415 under the Securities Act of 1933.

NFRRC is a wholly-owned subsidiary of Navistar Financial Corporation. Pursuant to a Pooling and Servicing Agreement (the "Agreement") for each Trust, Navistar Financial Corporation acts as servicer (the "Servicer") and, in that capacity, manages, services, administers and makes collections on the Retail Notes. Each Agreement provides that collections shall be distributed to noteholders and certificateholders and otherwise used in accordance with the priorities set forth therein. Pursuant to each Agreement, the Seller established a reserve account as credit enhancement for each Trust. Amounts on deposit in each reserve account after payments to security holders and the Servicer are paid to the Seller to the extent that such amounts exceed a specified reserve account target balance. The specified reserve account target balance cannot, however, be less than a specified minimum of the initial aggregate receivables balance for each Trust. There is no cross collateralization between the Trusts.

Item 2. Properties

Not applicable.

Item 3. Legal Proceedings

The registrant knows of no material pending legal proceedings involving either the Retail Notes or the Trustee, or the Seller or Servicer in respect of the Trusts.

PART I

Item 4. Submission of Matters to a Vote of Security Holders

No matter was submitted to a vote of holders of the Certificates during the period of this report.

PART II

Navistar Financial 1998-A Owner Trust
For the Months of November 2001 through October 2002
Fiscal Year 2002

At each Distribution Date, an annualized loss percentage is computed. If the annualized percentage exceeds 1.5%, any monthly excess servicing is used to fund the reserve account to 10.0% of the ending receivable balance. When the annualized loss percentage falls below 1.5%, the reserve account requirement returns to the greater of the specified target amount or the specified minimum balance.

The loss percentage is calculated as follows:

The numerator of which is equal to the sum of the aggregate losses plus liquidation proceeds for each of the monthly periods which are the fifth, fourth and third monthly periods preceding the monthly period related to such Distribution Date, minus the sum of the liquidation proceeds for the monthly periods which are the first, second and third monthly periods preceding the monthly period related to such Distribution Date, and the denominator of which is the sum of the remaining gross balances of all outstanding receivables as of the last day of each of the sixth, fifth and fourth monthly periods preceding the monthly period related to such Distribution Date.

The annualized loss (recovery) percentages reported at each Distribution Date are as follows:

November	2001	(1.2205)%	February	2002	(2.7724)%
December	2001	(0.0541)%	March	2002	(4.2767)%
January	2002	(0.5303)%			

At each Distribution Date a three-month rolling average delinquency percentage is calculated. If this percentage exceeds 2.0%, any monthly excess servicing is used to fund the reserve account to 10.0% of the ending receivable balance. When the delinquency percentage falls below 2.0%, the reserve account requirement returns to the greater of the specified target amount or the specified minimum balance.

The delinquency percentage is calculated as follows:

The numerator of which is equal to the aggregate remaining gross balances of all outstanding receivables which are 61 days or more past due as of the last day of the related monthly period and the denominator of which is equal to the aggregate remaining gross balances of all outstanding receivables on the last day of such monthly period.

The three month rolling averages reported at each Distribution Date are as follows:

November	2001	1.80032%	February	2002	1.78304%
December	2001	1.68167%	March	2002	1.59981%
January	2002	1.72512%

For the Months of November 2001 through October 2002
Fiscal Year 2002

At each Distribution Date, an annualized loss percentage is computed. If the annualized percentage exceeds 1.5%, any monthly excess servicing is used to fund the reserve account to 10.0% of the ending receivable balance. When the annualized loss percentage falls below 1.5%, the reserve account requirement returns to the greater of the specified target amount or the specified minimum balance.

The loss percentage is calculated as follows:

The numerator of which is equal to the sum of the aggregate losses plus liquidation proceeds for each of the monthly periods which are the fifth, fourth and third monthly periods preceding the monthly period related to such Distribution Date, minus the sum of the liquidation proceeds for the monthly periods which are the first, second and third monthly periods preceding the monthly period related to such Distribution Date, and the denominator of which is the sum of the remaining gross balances of all outstanding receivables as of the last day of each of the sixth, fifth and fourth monthly periods preceding the monthly period related to such Distribution Date.

The annualized loss (recovery) percentages reported at each Distribution Date are as follows:

November	2001	0.0820 %	May	2002	(0.1114)%
December	2001	0.4688 %	June	2002	(1.1642)%

April	2002	(0.3342)%	October	2002	(8.2638)%

At each Distribution Date a three-month rolling average delinquency percentage is calculated. If this percentage exceeds 2.0%, any monthly excess servicing is used to fund the reserve account to 10.0% of the ending receivable balance. When the delinquency percentage falls below 2.0%, the reserve account requirement returns to the greater of the specified target amount or the specified minimum balance.

The delinquency percentage is calculated as follows:

The numerator of which is equal to the aggregate remaining gross balances of all outstanding receivables which are 61 days or more past due as of the last day of the related monthly period and the denominator of which is equal to the aggregate remaining gross balances of all outstanding receivables on the last day of such monthly period.

Navistar Financial 2001-A Owner Trust
For the Months of November 2001 through October 2002
Fiscal Year 2002

At each Distribution Date, an annualized loss percentage is computed. If the annualized percentage exceeds 1.5%, any monthly excess servicing is used to fund the reserve account to 10.0% of the ending receivable balance. When the annualized loss percentage falls below 1.5%, the reserve account requirement returns to the greater of the specified target amount or the specified minimum balance.

The loss percentage is calculated as follows:

The numerator of which is equal to the sum of the aggregate losses plus liquidation proceeds for each of the monthly periods which are the fifth, fourth and third monthly periods preceding the monthly period related to such Distribution Date, minus the sum of the liquidation proceeds for the monthly periods which are the first, second and third monthly periods preceding the monthly period related to such Distribution Date, and the denominator of which is the sum of the remaining gross balances of all outstanding receivables as of the last day of each of the sixth, fifth and fourth monthly periods preceding the monthly period related to such Distribution Date.

The annualized loss (recovery) percentages reported at each Distribution Date are as follows:

November	2001	0.3229 %	May	2002	(0.1489)%
December	2001	0.7127 %	June	2002	0.7169 %
January	2002	0.6674 %	July	2002	(0.0612)%
February	2002	1.1584 %	August	2002	0.3285 %
March	2002	0.6324 %	September	2002	(0.3194)%
April	2002	1.1043 %	October	2002	0.2006 %

At each Distribution Date a three-month rolling average delinquency percentage is calculated. If this percentage exceeds 2.0%, any monthly excess servicing is used to fund the reserve account to 10.0% of the ending receivable balance. When the delinquency percentage falls below 2.0%, the reserve account requirement returns to the greater of the specified target amount or the specified minimum balance.

The delinquency percentage is calculated as follows:

The numerator of which is equal to the aggregate remaining gross balances of all outstanding receivables which are 61 days or more past due as of the last day of the related monthly period and the denominator of which is equal to the aggregate remaining gross balances of all outstanding receivables on the last day of such monthly period.

The three month rolling averages reported at each Distribution Date are as follows:

November	2001	0.81163%	May	2002	0.87883%
December	2001	0.87814%	June	2002	0.87373%

Navistar Financial 2001-B Owner Trust
For the Months of November 2001 through October 2002
Fiscal Period 2002

At each Distribution Date, an annualized loss percentage is computed. If the annualized percentage exceeds 1.5%, any monthly excess servicing is used to fund the reserve account to 10.0% of the ending receivable balance. When the annualized loss percentage falls below 1.5%, the reserve account requirement returns to the greater of the specified target amount or the specified minimum balance.

The loss percentage is calculated as follows:

The numerator of which is equal to the sum of the aggregate losses plus liquidation proceeds for each of the monthly periods which are the fifth, fourth and third monthly periods preceding the monthly period related to such Distribution Date, minus the sum of the liquidation proceeds for the monthly periods which are the first, second and third monthly periods preceding the monthly period related to such Distribution Date, and the denominator of which is the sum of the remaining gross balances of all outstanding receivables as of the last day of each of the sixth, fifth and fourth monthly periods preceding the monthly period related to such Distribution Date.

The annualized loss (recovery) percentages reported at each Distribution Date are as follows:

November	2001	N/A	May	2002	1.3235 %
December	2001	0.0000 %	June	2002	1.6353 %
January	2002	0.0000 %	July	2002	0.7658 %

March	2002	0.5063 %	September	2002	0.6344 %
April	2002	1.4306 %	October	2002	(0.0817)%

At each Distribution Date a three-month rolling average delinquency percentage is calculated. If this percentage exceeds 2.0%, any monthly excess servicing is used to fund the reserve account to 10.0% of the ending receivable balance. When the delinquency percentage falls below 2.0%, the reserve account requirement returns to the greater of the specified target amount or the specified minimum balance.

The delinquency percentage is calculated as follows:

The numerator of which is equal to the aggregate remaining gross balances of all outstanding receivables which are 61 days or more past due as of the last day of the related monthly period and the denominator of which is equal to the aggregate remaining gross balances of all outstanding receivables on the last day of such monthly period.

Navistar Financial 2002-A Owner Trust
For the Months of November 2001 through October 2002
Fiscal Year 2002

At each Distribution Date, an annualized loss percentage is computed. If the annualized percentage exceeds 1.5%, any monthly excess servicing is used to fund the reserve account to 10.0% of the ending receivable balance. When the annualized loss percentage falls below 1.5%, the reserve account requirement returns to the greater of the specified target amount or the specified minimum balance.

The loss percentage is calculated as follows:

The numerator of which is equal to the sum of the aggregate losses plus liquidation proceeds for each of the monthly periods which are the fifth, fourth and third monthly periods preceding the monthly period related to such Distribution Date, minus the sum of the liquidation proceeds for the monthly periods which are the first, second and third monthly periods preceding the monthly period related to such Distribution Date, and the denominator of which is the sum of the remaining gross balances of all outstanding receivables as of the last day of each of the sixth, fifth and fourth monthly periods preceding the monthly period related to such Distribution Date.

The annualized loss (recovery) percentages reported at each Distribution Date are as follows:

November	2001	N/A	May	2002	N/A
December	2001	N/A	June	2002	0.0000 %
January	2002	N/A	July	2002	0.0000 %
February	2002	N/A	August	2002	0.2940 %
March	2002	N/A	September	2002	0.3194 %
April	2002	N/A	October	2002	(0.0129)%

At each Distribution Date a three-month rolling average delinquency percentage is calculated. If this percentage exceeds 2.0%, any monthly excess servicing is used to fund the reserve account to 10.0% of the ending receivable balance. When the delinquency percentage falls below 2.0%, the reserve account requirement returns to the greater of the specified target amount or the specified minimum balance.

The delinquency percentage is calculated as follows:

The numerator of which is equal to the aggregate remaining gross balances of all outstanding receivables which are 61 days or more past due as of the last day of the related monthly period and the denominator of which is equal to the aggregate remaining gross balances of all outstanding receivables on the last day of such monthly period.

The three month rolling averages reported at each Distribution Date are as follows:

November	2001	N/A	May	2002	N/A
December	2001	N/A	June	2002	0.16350%
January	2002	N/A	July	2002	0.18233%
February	2002	N/A	August	2002	0.24403%
March	2002	N/A	September	2002	0.34706%
April	2002	N/A	October	2002	0.37617%
