ROYAL CARIBBEAN CRUISES LTD.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

As used in this quarterly report on Form 10-Q, the terms “Royal Caribbean,” the “Company,” “we,” “our” and “us” refer to Royal Caribbean Cruises Ltd. and the terms “Royal Caribbean International,” “Celebrity Cruises,” “Pullmantur Cruises,” “Azamara Cruises” and “CDF Croisières de France” refer to our cruise brands. In accordance with cruise vacation industry practice, the term “berths” is determined based on double occupancy per cabin even though many cabins can accommodate three or more passengers. This report should be read in conjunction with our annual report on Form 10-K for the year ended December 31, 2007.

Note 1. General

Description of Business

We are a global cruise company. We own five cruise brands, Royal Caribbean International, Celebrity Cruises, Pullmantur Cruises, Azamara Cruises, and CDF Croisières de France. In addition, we have a 50% investment in a joint venture with TUI Travel PLC, formerly First Choice Holidays PLC, which operates the brand Island Cruises. We also have a 50% investment in a joint venture with TUI AG which will operate the brand TUI Cruises.

Basis for Preparation of Consolidated Financial Statements

The unaudited consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. Estimates are required for the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America. Actual results could differ from these estimates.

All significant intercompany accounts and transactions are eliminated in consolidation. We consolidate entities over which we have control, usually evidenced by a direct ownership interest of greater than 50% and variable interest entities where we are determined to be the primary beneficiary. For affiliates where significant influence over financial and operating policies exists, usually evidenced by a direct ownership interest from 20% to 50%, the investment is accounted for using the equity method.

We believe the accompanying unaudited consolidated financial statements contain all normal recurring accruals necessary for a fair presentation. Our revenues are seasonal and results for interim periods are not necessarily indicative of results for the entire year.

Note 2. Summary of Significant Accounting Policies

Recently Adopted Accounting Standards

In September 2006, the Financial Accounting Standards Board (“FASB”) issued Statement of Financial Accounting Standard (“SFAS”) No. 157, “*Fair Value Measurements*” (“SFAS 157”). SFAS 157 defines fair value, establishes a formal framework for measuring fair value and expands disclosures about fair value measurements. Broadly, SFAS 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. SFAS 157 applies prospectively to fair value

measurements performed after the required effective dates as follows: on January 1, 2008, the standard applied to the measurements of fair values of financial instruments and recurring fair value measurements of non-financial assets and liabilities; on January 1, 2009, the standard will apply to non-recurring measurements of non-financial assets and liabilities such as our measurement of potential impairments of goodwill, other intangibles and other long-lived assets. On January 1, 2008, we adopted the provisions of SFAS 157 for our measurement of fair value of financial instruments and recurring fair value measurements of non-financial assets and liabilities. These provisions did not have a material impact on our consolidated financial statements. We do not expect the adoption of the remaining provisions of SFAS 157 to have a material impact on our consolidated financial statements.

SFAS 157 establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the reliability of the inputs as follows:

1. Level 1 Inputs — Quoted prices (unadjusted) in active markets for identical assets or liabilities that we have the ability to access.
2. Level 2 Inputs — Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
3. Level 3 Inputs — Inputs that are unobservable for the asset or liability.

The availability of observable inputs can vary and is affected by a wide variety of factors. To the extent that valuation is based on inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for instruments categorized in Level 3. In certain cases, the inputs used to measure fair value of a specific asset or liability may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Fair value is a market-based measure considered from the perspective of a market participant who holds the asset or owes the liability rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. For our financial instruments that are recorded at fair value, fair value is measured as follows:

Exchange-traded equity securities and mutual funds: Fair value is based on quoted prices in active markets. Valuation of these items does not entail a significant amount of judgment and the inputs that are significant to the fair value measurement are Level 1 in the fair value hierarchy.

Derivative Financial Instruments: Our derivative financial instruments consist of foreign currency forward contracts and interest rate, cross currency and fuel swaps. Fair value is derived

using valuation models that utilize the income valuation approach. These valuation models take into account the contract terms such as maturity, as well as other inputs such as exchange rates, fuel types, fuel curves, interest rate yield curves, creditworthiness of the counterparty and the Company, as well as other data points. The data sources utilized in these valuation models that are significant to the fair value measurement are Level 2 in the fair value hierarchy.

In conjunction with the adoption of SFAS 157, we adopted SFAS No. 159, *“The Fair Value Option for Financial Assets and Financial Liabilities”* (“SFAS 159”). SFAS 159 provides an option, on an instrument-by-instrument basis, for certain financial instruments and other items that are not otherwise measured at fair value, to be reported at fair value with changes in fair value reported in earnings. After the initial adoption, the election is generally made at the acquisition of the instrument and it may not be revoked. At adoption, we did not elect to apply the fair value option to any eligible items, and accordingly, the adoption of the standard did not have an impact on our consolidated financial statements.

Future Application of Accounting Standards

In December 2007, the FASB issued SFAS No. 141 (revised 2007), *“Business Combinations,”* (“SFAS 141R”). SFAS 141R requires the acquiring entity in a business combination to recognize the full fair value of assets acquired and liabilities assumed in the transaction whether full or partial acquisition, establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed, requires expensing of most transaction and restructuring costs, and requires the acquirer to disclose all information needed to evaluate and understand the nature and financial effect of the business combination. SFAS 141R applies to all transactions or other events in which an entity obtains control of one or more businesses, including combinations achieved without transfer of consideration, for example, by contract alone or through the lapse of minority veto rights. SFAS 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first fiscal year beginning after December 15, 2008. We are currently evaluating the impact SFAS 141R may have on our consolidated financial statements.

In December 2007, the FASB issued SFAS No. 160, *“Noncontrolling Interests in Consolidated Financial Statements — An Amendment of ARB No. 51,”* (“SFAS 160”). SFAS 160 requires reporting entities to present noncontrolling (minority) interests as equity as opposed to as a liability or mezzanine equity and provides guidance on the accounting for transactions between an entity and noncontrolling interests. SFAS 160 is effective the first fiscal year beginning after December 15, 2008, and interim periods within that fiscal year. SFAS 160 applies prospectively as of the beginning of the fiscal year SFAS 160 is initially applied, except for the presentation and disclosure requirements which are applied retrospectively for all periods presented subsequent to adoption. We are currently evaluating the impact SFAS 160 may have on our consolidated financial statements.

In March 2008, the FASB issued SFAS No. 161, *“Disclosures about Derivative Instruments and Hedging Activities — An Amendment of FASB Statement No. 133 (SFAS 133),”* (“SFAS 161”). SFAS 161 requires enhanced disclosures about an entity’s derivative and hedging activities and thereby improves the transparency of financial reporting. Entities are required to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity’s financial position, financial performance, and cash flows. SFAS 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. SFAS 161

will be effective for our fiscal 2009 interim and annual consolidated financial statements and the relevant disclosures will be added at such time.

Reclassifications

Reclassifications have been made to prior year amounts to conform to the current year presentation.

Note 3. Earnings Per Share

A reconciliation between basic and diluted earnings per share is as follows (in thousands, except per share data):

	Quarter Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
Net income for basic and diluted earnings per share	\$ 84,749	\$128,745	\$160,356	\$137,570
Weighted-average common shares outstanding	213,482	212,633	213,404	212,478
Dilutive effect of stock options and restricted stock awards	798	1,524	994	1,623
Diluted weighted-average shares outstanding	<u>214,280</u>	<u>214,157</u>	<u>214,398</u>	<u>214,101</u>
Basic earnings per share	\$ 0.40	\$ 0.61	\$ 0.75	\$ 0.65
Diluted earnings per share	\$ 0.40	\$ 0.60	\$ 0.75	\$ 0.64

Diluted earnings per share did not include options to purchase 4.6 million and 3.0 million shares for the second quarters of 2008 and 2007, respectively, and 4.5 million and 3.0 million shares for the first six months of 2008 and 2007, respectively, because the effect of including them would have been antidilutive.

Note 4. Long-Term Debt

In April 2008, we drew in full the \$530.0 million available under an unsecured term loan due through 2015. The loan bears interest at LIBOR plus an applicable margin; currently the all-in weighted average rate is approximately 3.72%. The proceeds were used towards the purchase of *Independence of the Seas*, the third Freedom-class ship for Royal Caribbean International, which was delivered in April 2008.

Note 5. Commitments and Contingencies

Capital Expenditures. As of June 30, 2008, the expected dates our ships on order will enter service and their planned berths are as follows:

Ship	Expected to Enter Service	Approximate Berths
Royal Caribbean International:		
Oasis-class:		
<i>Oasis of the Seas</i>	4th Quarter 2009	5,400
<i>Allure of the Seas</i>	4th Quarter 2010	5,400
Celebrity Cruises:		
Solstice-class:		
<i>Celebrity Solstice</i>	4th Quarter 2008	2,850
<i>Celebrity Equinox</i>	3rd Quarter 2009	2,850
<i>Celebrity Eclipse</i>	3rd Quarter 2010	2,850
<i>Unnamed</i>	3rd Quarter 2011	2,850
<i>Unnamed</i>	4th Quarter 2012	2,850
Total Berths		<u>25,050</u>

The anticipated aggregate cost of these ships is approximately \$7.2 billion, of which we have deposited \$522.2 million as of June 30, 2008. Approximately 15.0% of the aggregate cost was exposed to fluctuations in the euro exchange rate at June 30, 2008. As of June 30, 2008, we anticipated overall capital expenditures, including the seven ships on order, will be approximately \$1.9 billion for 2008, \$2.0 billion for 2009, \$2.2 billion for 2010, \$1.0 billion for 2011 and \$1.0 billion for 2012.

Litigation. A purported class action lawsuit that had been filed in April 2005 in the United States District Court for the Southern District of Florida alleging that Celebrity Cruises improperly requires its cabin stewards to share guest gratuities with assistant cabin stewards was dismissed in March 2006 on the basis that it should be arbitrated pursuant to the arbitration provision in Celebrity's collective bargaining agreement. The suit sought payment of damages, including penalty wages under the U.S. Seaman's Wage Act. In June 2007, the dismissal was affirmed by the United States 11th Circuit Court of Appeals and plaintiff's petition requesting that the United States Supreme Court grant certiorari jurisdiction over the action was subsequently denied. In February 2008, Plaintiff submitted a notice to arbitrate the claim pursuant to Celebrity's collective bargaining agreement and arbitration is currently pending. We are not able at this time to estimate the impact of this proceeding.

In January 2006, a purported class action lawsuit was filed in the United States District Court for the Southern District of New York alleging that we infringed rights in copyrighted works and other intellectual property by presenting performances on our cruise ships without securing the necessary licenses. The suit seeks payment of damages, disgorgement of profits and a permanent injunction against future infringement. In April 2006, we filed a motion to sever and transfer the case to the United States District Court for the Southern District of Florida. The motion is pending. We are not able at this time to estimate the impact of this proceeding.

We have a lawsuit pending in the Circuit Court for Miami-Dade County, Florida against Rolls Royce, co-producer of the Mermaid pod-propulsion system on Millennium-class ships, for the recurring Mermaid pod failures. We are not able at this time to estimate the outcome of the Rolls

Royce proceeding.

In July 2006, a purported class action lawsuit was filed in the United States District Court for the Central District of California alleging that we failed to timely pay crew wages and failed to pay proper crew overtime. The suit seeks payment of damages, including penalty wages under the U.S. Seaman's Wage Act and equitable relief damages under the California Unfair Competition Law. In December 2006, the District Court granted our motion to dismiss the claim and held that it should be arbitrated pursuant to the arbitration provision in Royal Caribbean's collective bargaining agreement. In January 2007, the plaintiffs appealed the order to the United States Ninth Circuit Court of Appeals. We are not able at this time to estimate the impact of this proceeding.

The Miami District Office of the U.S. Equal Employment Opportunity Commission ("EEOC") has alleged that certain of our shipboard employment practices do not comply with U.S. employment laws. In June 2007, the EEOC proposed payment of monetary sanctions and certain remedial actions. Following discussions with the EEOC regarding this matter, the EEOC informed us that they transferred the matter to its legal unit for litigation review. To date, no legal proceedings have been initiated. We do not believe that this matter will have a material adverse impact on our financial condition or results of operations.

In July 2008, we settled our pending case against Pentair Water Treatment (OH) Company (formerly known as Essef Corporation) for claims stemming from a 1994 outbreak of Legionnaires' disease on one of Celebrity Cruises' ships. Pursuant to the terms of the settlement agreement, we will be paid, net of costs and payment to insurers, approximately \$18.0 million. This award will be recognized in our consolidated financial statements in the third quarter of 2008.

In March 2008, a purported class action was filed against us, Celebrity Cruises and a related party, Celebrity Catering Services, in the United States District Court, Southern District of Florida alleging that we improperly deducted amounts from the gratuities paid to our shipboard servers, waiters, bar tenders and other personnel in our bar and restaurant departments. The suit also alleged that such persons were not properly compensated for their hours worked. The suit sought payment of damages, including penalty wages under the U.S. Seaman's Wage Act. The suit was dismissed in June 2008 and ordered to arbitration in accordance with the terms of the applicable collective bargaining agreement. We are not able at this time to estimate the impact of this proceeding.

In connection with a review of our fuel supplement by the Florida Attorney General's office, the Company agreed in March 2008 to eliminate the fuel supplement on any bookings made on our Royal Caribbean International, Celebrity Cruises and Azamara Cruises brands prior to our November 16, 2007 announcement of the supplement. As a result, we have eliminated or refunded in full the fuel supplement for the affected bookings, the amount of which aggregated approximately \$21.0 million. The Company and Celebrity Cruises also amended their 1997 Assurances of Voluntary Compliance with the Florida Attorney General's office regarding cruise fare disclosures to address fuel supplement disclosures. The resolution of these matters did not affect the previously announced investigation by the same office to determine whether there is or has been a violation of state or Federal anti-trust laws in connection with the setting by us and other cruise line operators of our respective fuel supplements. We are cooperating with the Attorney General's office in connection with this investigation and are not able at this time to estimate the impact of this investigation.

In April 2008, five consolidated purported class actions were voluntarily dismissed by the plaintiffs in the United States District Court for the Southern District of Florida. The actions, which

had been filed in February and March, 2008 alleged that we, other cruise lines and a trade association violated Federal anti-trust laws or state deceptive and unfair trade practices laws by conspiring to fix the prices of the fuel supplements announced by the various cruise lines or misleading consumers as to the relationship between each cruise line's fuel costs and the fuel supplements it is charging its customers.

In April 2008, a purported class action was filed against us, Celebrity Cruises and a related party, Celebrity Catering Services, in the United States District Court, Southern District of Florida, alleging that we underpaid wages and overtime pay for our shipboard personnel. The suit also alleged that we improperly deducted amounts from the gratuities paid to certain of our shipboard restaurant personnel. The suit sought payment of damages, including penalty wages under the U.S. Seaman's Wage Act. In June 2008, the court dismissed the case and ordered the parties to arbitration in accordance with the terms of the applicable collective bargaining agreements. We are not able to estimate the impact of this proceeding.

In June 2008, a purported class action arbitration claim was made against us alleging that we required shipboard personnel of our Royal Caribbean International brand to pay for their own employment commencement expenses in violation of our collective bargaining agreement. We are not able at this time to estimate the impact of this proceeding.

We are routinely involved in other claims typical within the cruise vacation industry. The majority of these claims are covered by insurance. We believe the outcome of such claims, net of expected recoveries, will not have a material adverse impact on our financial condition or results of operations.

Other. Under the *Brilliance of the Seas* operating lease, we have agreed to indemnify the lessor to the extent its after-tax return is negatively impacted by unfavorable changes in corporate tax rates, capital allowance deductions and certain unfavorable determinations which may be made by United Kingdom tax authorities. These indemnifications could result in an increase in our lease payments. We are unable to estimate the maximum potential increase in our lease payments due to the various circumstances, timing or a combination of events that could trigger such indemnifications. Under current circumstances we do not believe an indemnification in any material amount is probable.

Some of the contracts that we enter into include indemnification provisions that obligate us to make payments to the counterparty if certain events occur. These contingencies generally relate to changes in taxes, increased lender capital costs and other similar costs. The indemnification clauses are often standard contractual terms and are entered into in the normal course of business. There are no stated or notional amounts included in the indemnification clauses and we are not able to estimate the maximum potential amount of future payments, if any, under these indemnification clauses. We have not been required to make any payments under such indemnification clauses in the past and, under current circumstances, we do not believe an indemnification in any material amount is probable.

If any person other than A. Wilhelmsen AS. and Cruise Associates, our two principal shareholders, acquires ownership of more than 30% of our common stock and our two principal shareholders, in the aggregate, own less of our common stock than such person and do not collectively have the right to elect, or to designate for election, at least a majority of the board of directors, we may be obligated to prepay indebtedness outstanding under the majority of our credit facilities, which we may be unable to replace on similar terms. If this were to occur, it could have an adverse impact on our liquidity and operations.

Note 6. Shareholders' Equity

We declared cash dividends on our common stock of \$0.15 per share during the first and second quarters of 2008 and 2007.

Note 7. Comprehensive Income

Comprehensive income includes net income, foreign currency translation adjustments and changes in the fair value of derivative instruments that qualify as cash flow hedges. The cumulative changes in fair value of the derivatives are deferred and recorded as a component of accumulated other comprehensive income until the hedged transactions are realized and recognized in earnings.

Comprehensive income was as follows (in thousands):

	Quarter Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
Net income	\$ 84,749	\$128,745	\$160,356	\$137,570
Changes related to cash flow derivative hedges	93,396	17,202	198,152	37,769
Foreign currency translation adjustments	202	(2,876)	(4,064)	(3,021)
Total comprehensive income	<u>\$178,347</u>	<u>\$143,071</u>	<u>\$354,444</u>	<u>\$172,318</u>

Note 8. Fair Value Measurements

Assets that are recorded at fair value have been categorized based upon the fair value hierarchy described in Note 2. *Summary of Significant Accounting Policies*.

The following table presents information about the Company's financial instruments recorded at fair value on a recurring basis as of June 30, 2008 (in thousands):

Description	Total	Fair Value Measurements at Reporting Date Using		
		Level 1	Level 2	Level 3
Assets:				
Derivative financial instruments ¹	\$769,501	\$ —	\$769,501	\$ —
Investments ²	20,573	20,573	—	—
Total Assets	<u>\$790,074</u>	<u>\$20,573</u>	<u>\$769,501</u>	<u>\$ —</u>
Liabilities:				
Derivative financial instruments ³	\$ 66,500	\$ —	\$ 66,500	\$ —
Total Liabilities	<u>\$ 66,500</u>	<u>\$ —</u>	<u>\$ 66,500</u>	<u>\$ —</u>

¹ - Consists of foreign currency forward contracts and interest rate, cross currency and fuel swaps.

² - Consists of exchange-traded equity securities and mutual funds.

³ - Consists of interest rate swaps and foreign currency forward contracts.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Cautionary Note Concerning Factors That May Affect Future Results

Certain statements under this caption "Management's Discussion and Analysis of Financial Condition and Results of Operations" and elsewhere in this document constitute forward-looking statements under the Private Securities Litigation Reform Act of 1995. Words such as "anticipate", "believe", "could", "estimate", "expect", "goal", "intend", "may", "plan", "project", "seek", "should", "will", and similar expressions are intended to identify these forward-looking statements. Forward-looking statements do not guarantee future performance and may involve risks, uncertainties and other factors, which could cause our actual results, performance or achievements to differ materially from the future results, performance or achievements expressed or implied in those forward-looking statements. Examples of these risks, uncertainties and other factors include, but are not limited to the following:

- general economic and business conditions,
- vacation industry competition and changes in industry capacity and overcapacity,
- the impact of tax and environmental laws and regulations affecting our business or our principal shareholders,
- the impact of changes in other laws and regulations affecting our business,
- the impact of pending or threatened litigation,
- the delivery of scheduled new ships,
- the impact of emergency ship repairs, including the related lost revenue,
- the impact of problems encountered at shipyards, including industrial actions, shipyard insolvency or financial difficulties,
- the impact on prices of new ships due to shortages in available shipyard facilities, component parts and shipyard consolidations,
- negative incidents involving cruise ships including those involving the health and safety of passengers,
- reduced consumer demand for cruises as a result of any number of reasons, including geo-political and economic uncertainties and the unavailability or cost of air service,
- fears of terrorist attacks, armed conflict and the resulting concerns over safety and security aspects of traveling,
- the impact of the spread of contagious diseases,
- the availability under our unsecured revolving credit facility, cash flows from operations and our ability to obtain new borrowings and raise new capital on terms that are favorable or

consistent with our expectations to fund operations, debt payment requirements, capital expenditures and other commitments,

- changes in our stock price or principal shareholders,
- the impact of changes in operating and financing costs, including changes in foreign currency, interest rates, fuel, food, payroll, insurance and security costs,
- the unavailability of ports of call,
- weather.

The above examples are not exhaustive and new risks emerge from time to time. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. For a further discussion of risk factors related to our business, see Part I, Item 1A. *Risk Factors* in our annual report on Form 10-K for the year ended December 31, 2007.

Terminology

Our revenues are seasonal based on demand for cruises. Demand is strongest for cruises during the North American summer months and holidays.

Our revenues consist of the following:

Passenger ticket revenues consist of revenue recognized from the sale of passenger tickets and the sale of air transportation to and from our ships.

Onboard and other revenues consist primarily of revenues from the sale of goods and/or services onboard our ships not included in passenger ticket prices, cancellation fees, sales of vacation protection insurance, pre- and post-cruise tours, Pullmantur Cruises' land-based tours and hotel and air packages. Also included are revenues we receive from independent third party concessionaires that pay us a percentage of their revenues in exchange for the right to provide selected goods and/or services onboard our ships.

Our cruise operating expenses consist of the following:

Commissions, transportation and other expenses consist of those costs directly associated with passenger ticket revenues, including travel agent commissions, air and other transportation expenses, port costs that vary with passenger head counts and related credit card fees.

Onboard and other expenses consist of the direct costs associated with onboard and other revenues. These costs include the cost of products sold onboard our ships, vacation protection insurance premiums, costs associated with pre- and post-cruise tours and related credit card fees. These costs also include minimal costs associated with concession revenues, as the costs are mostly incurred by third party concessionaires.

Payroll and related expenses consist of costs for shipboard personnel.

Food expenses include food costs for both passengers and crew.

Fuel expenses include fuel and related delivery and storage costs, including the financial impact of fuel swap agreements.

Other operating expenses consist primarily of operating costs such as repairs and maintenance, port costs that do not vary with passenger head counts, vessel operating lease costs, costs associated with Pullmantur Cruises' land-based tours, vessel related insurance and entertainment.

We do not allocate payroll and related costs, food costs, fuel costs or other operating costs to the expense categories attributable to passenger ticket revenues or onboard and other revenues since they are incurred to provide the total cruise vacation experience.

Non-GAAP Financial Measures

Available Passenger Cruise Days ("APCD") are our measurement of capacity and represent double occupancy per cabin multiplied by the number of cruise days for the period. We use this measure to perform capacity and rate analyses to identify our main non-capacity drivers which cause our cruise revenue and expenses to vary.

Gross Cruise Costs represent the sum of total cruise operating expenses plus marketing, selling and administrative expenses.

Gross Yields represent total revenues per APCD.

Net Cruise Costs represent Gross Cruise Costs excluding commissions, transportation and other expenses and onboard and other expenses (each of which is described under the Terminology heading). In measuring our ability to control costs in a manner that positively impacts net income, we believe changes in Net Cruise Costs to be the most relevant indicator of our performance. A reconciliation of historical Gross Cruise Costs to Net Cruise Costs is provided below under *Summary of Historical Results of Operations*. We have not provided a quantitative reconciliation of projected Gross Cruise Costs to projected Net Cruise Costs due to the significant uncertainty in projecting the costs deducted to arrive at this measure. Accordingly, we do not believe that reconciling information for such projected figures would be meaningful.

Net Debt-to-Capital is a ratio which represents total long-term debt, including current portion of long-term debt, less cash and cash equivalents ("Net Debt") divided by the sum of Net Debt and total shareholders' equity. We believe Net Debt and Net Debt-to-Capital, along with total long-term debt and shareholders' equity are useful measures of our capital structure. A reconciliation of historical Debt-to-Capital to Net Debt-to-Capital is provided below under *Summary of Historical Results of Operations*.

Net Revenues represent total revenues less commissions, transportation and other expenses and onboard and other expenses (each of which is described under the Terminology heading).

Net Yields represent Net Revenues per APCD. We utilize Net Revenues and Net Yields to manage our business on a day-to-day basis as we believe that it is the most relevant measure of our pricing performance because it reflects the cruise revenues earned by us net of our most significant variable costs, which are commissions, transportation and other expenses and onboard and other expenses. A reconciliation of historical Gross Yields to Net Yields is provided below under

Summary of Historical Results of Operations. We have not provided a quantitative reconciliation of projected Gross Yields to projected Net Yields due to the significant uncertainty in projecting the costs deducted to arrive at this measure. Accordingly, we do not believe that reconciling information for such projected figures would be meaningful.

Occupancy, in accordance with cruise vacation industry practice, is calculated by dividing Passenger Cruise Days by APCD. A percentage in excess of 100% indicates that three or more passengers occupied some cabins.

Passenger Cruise Days represent the number of passengers carried for the period multiplied by the number of days of their respective cruises.

The use of certain significant non-GAAP measures, such as Net Yields and Net Cruise Costs, allow us to perform capacity and rate analysis to separate the impact of known capacity changes from other less predictable changes which affect our business. We believe these non-GAAP measures provide expanded insight to measure revenue and cost performance in addition to the standard U.S. GAAP based financial measures. There are no specific rules or regulations for determining non-GAAP measures, and as such, there exists the possibility that they may not be comparable to other companies within the industry.

Summary of Historical Results of Operations

Highlights for the second quarter of 2008 include:

- Total revenues increased 6.9% to \$1.6 billion from total revenues of \$1.5 billion for the same period in 2007. Net Yields increased by approximately 1.0% compared to the same period in 2007.
- Net Cruise Costs per APCD increased by approximately 6.7% compared to the same period in 2007.
- Fuel expenses per APCD, net of the financial impact of fuel swap agreements, increased 31.0% per APCD as compared to the same period in 2007.
- Our Debt-to-Capital ratio increased to 47.5% as of June 30, 2008 compared to 45.7% as of December 31, 2007. Similarly, our Net Debt-to-Capital increased to 45.9% as of June 30, 2008 compared to 44.7% as of December 31, 2007.
- We took delivery of *Independence of the Seas*, the third Freedom-class ship for Royal Caribbean International. To finance the purchase, we drew in full \$530.0 million from an unsecured term loan due through 2015. The loan bears interest at LIBOR plus an applicable margin. Currently, the all-in weighted average rate is approximately 3.72%.
- We finalized our contract with Meyer Werft to build a fifth Solstice-class ship for Celebrity Cruises, for an additional capacity of approximately 2,850 berths, which is expected to enter service in the fourth quarter of 2012. We have a financing commitment for approximately 80.0% of the contract price.

- We closed on our joint venture transaction with TUI AG to operate TUI Cruises. *Celebrity Galaxy*, a 1,850-berth ship currently part of Celebrity Cruises, will be sold to TUI Cruises to serve as its first ship and will sail under a new name beginning in May 2009.
- We announced *The Scholar Ship*, our education program at sea for graduate and undergraduate students, ceased operations. *The Scholar Ship* operated a 29,000-ton ocean liner under a seasonal vessel operating lease agreement. This will not have a material impact on our financial condition or results of operations.

Operating results for the quarter and six months ended June 30, 2008 compared to the same periods in 2007 are shown in the following table (in thousands, except per share data):

	Quarter Ended June 30,				Six Months Ended June 30,			
	2008	% of Total Revenues	2007	% of Total Revenues	2008	% of Total Revenues	2007	% of Total Revenues

Net Debt and shareholders' equity	<u>\$13,032,108</u>	<u>\$12,224,831</u>
Net Debt-to-Capital	45.9%	44.7%

Outlook

On July 21, 2008, we announced the following guidance for the full year and third quarter of 2008 which remains materially unchanged:

Full Year 2008

We expect Net Yields to increase in the range of 3% to 4% compared to 2007.

We expect Net Cruise Costs per APCD to increase in the range of 6% to 7% compared to 2007. Excluding fuel, we expect Net Cruise Costs per APCD to increase approximately 1% compared to 2007.

We do not forecast fuel prices and our cost outlook for fuel is based on current "at-the-pump" prices including any hedge impacts. If fuel prices for the full year 2008 remain at the level of July 21, 2008, fuel expenses for the full year 2008 would be approximately \$772.0 million. This amount is \$86.0 million higher than our guidance provided on April 24, 2008, and represents a negative impact of \$0.40 per share versus our previous guidance. For the full year 2008 our fuel consumption is approximately 50% hedged and historically our fuel costs have correlated well over time with the change in West Texas Intermediate crude (WTI). Assuming our fuel prices move in tandem with WTI, a \$10 change in WTI would result in a change in our fuel costs of approximately \$20.0 million for the full year 2008, after taking into account existing hedges.

We expect a 5.0% increase in capacity in 2008, primarily driven by the addition of *Independence of the Seas*, which entered service in May 2008, a full year of *Liberty of the Seas*, the addition of *Ocean Dream*, which entered service in March 2008 and the addition of *Celebrity Solstice*, which will enter service in the fourth quarter of 2008.

Depreciation and amortization expenses are expected to be in the range of \$530.0 million to \$540.0 million, and interest expense is expected to be in the range of \$330.0 million to \$340.0 million.

Other income (expense) will include an \$18.0 million gain from the settlement of a pending lawsuit in the third quarter of 2008.

On July 21, 2008, we announced a cost savings initiative expected to save approximately \$125.0 million annually. This initiative is a response to the reduction in our profitability caused primarily by the increase in fuel prices. As part of this initiative, we are eliminating approximately 400 shore-side positions. In addition, we discontinued some non-core operations, including *The Scholar Ship*. The elimination of the shore-side positions and the discontinuation of non-core operations are expected to be concluded by the end of the third quarter of 2008. As a result of this initiative, we expect to incur charges, all of which are cash charges, of approximately \$15.0 million, or \$0.07 per share in the third quarter of 2008, comprised of termination benefits and contract termination costs.

Based on the expectations above, and assuming that fuel prices remain at the level of July 21, 2008 “at-the-pump” prices, we continue to expect full year 2008 earnings per share to be in the range of \$2.55 to \$2.65 including the restructuring charges.

Third Quarter 2008

We expect Net Yields will increase approximately 2% compared to 2007.

We expect Net Cruise Costs per APCD to increase approximately 10% compared to 2007. Excluding fuel, we expect Net Cruise Costs per APCD to increase in the range of 1% to 2% compared to 2007.

We do not forecast fuel prices and our cost outlook for fuel is based on current “at-the-pump” prices including any hedge impacts. If fuel prices for the third quarter of 2008 remain at the level of July 21, 2008, fuel expenses for the third quarter 2008 would be approximately \$224.0 million. For the third quarter of 2008 our fuel consumption is approximately 44% hedged and historically our fuel costs have correlated well over time with the change in WTI. Assuming our fuel prices move in tandem with WTI, a \$10 change in WTI would result in a change in our fuel costs of approximately \$11.0 million for the third quarter of 2008, after taking into account existing hedges.

We expect a 3.9% increase in capacity, primarily driven by the addition of *Independence of the Seas*, which entered service in May 2008, and the addition of *Ocean Dream*, which entered service in March 2008.

Depreciation and amortization is expected to be in the range of \$138.0 million to \$143.0 million and interest expense is expected to be in the range of \$83.0 million to \$88.0 million.

Other income (expense) will include an \$18.0 million gain from the settlement of a pending lawsuit in the third quarter of 2008.

On July 21, 2008, we announced a cost savings initiative expected to save approximately \$125.0 million annually. This initiative is a response to the reduction in our profitability caused primarily by the increase in fuel prices. As part of this initiative, we are eliminating approximately 400 shore-side positions. In addition, we discontinued some non-core operations, including *The Scholar Ship*. The

elimination of the shore-side positions and the discontinuation of non-core operations are expected to be concluded by the end of the third quarter of 2008. As a result of this initiative, we expect to incur charges, all of which are cash charges, of approximately \$15.0 million, or \$0.07 per share in the third quarter of 2008, comprised of termination benefits and contract termination costs.

Based on the expectations above, and assuming that fuel prices remain at the level of current “at-the-pump” prices, we continue to expect third quarter 2008 earnings per share to be in the range of \$1.65 to \$1.70 including the restructuring charges.

Quarter Ended June 30, 2008 Compared to Quarter Ended June 30, 2007

Revenues

Total revenues for 2008 increased \$102.4 million or 6.9% to \$1.6 billion from \$1.5 billion for the same period in 2007. Approximately \$78.7 million of this increase is attributable to an increase in capacity of 5.3%. The increase in capacity is primarily due to a full quarter of *Liberty of the Seas*, which entered service in May 2007, the addition of *Independence of the Seas*, which entered service in May 2008, and the addition of *Ocean Dream*, which entered service in March 2008. The remaining increase of \$23.7 million is due primarily to an increase in ticket prices partially offset by the 2% decrease in Occupancy.

Onboard and other revenues included concession revenues of \$60.6 million in 2008 compared to \$59.4 million for the same period in 2007. The increase in concession revenues was primarily due to the increase in capacity mentioned above.

Cruise Operating Expenses

Total cruise operating expenses for 2008 increased \$125.5 million or 13.0% to \$1.1 billion from \$965.5 million for the same period in 2007. Approximately \$51.3 million of this increase is attributable to the 5.3% increase in capacity. The remaining increase of \$74.2 million was primarily driven by increases in fuel expenses, and to a lesser extent payroll and related expenses. Fuel expenses, which are net of the financial impact of fuel swap agreements, increased 35.9% per metric ton in 2008 as compared to 2007 primarily as a result of increasing fuel prices. As a percentage of total revenues, fuel expenses were 11.0% and 8.5% in 2008 and 2007, respectively. The increase in payroll and related expenses was due to an increase in inflationary and other cost pressures.

Marketing, Selling and Administrative Expenses

Marketing, selling and administrative expenses for 2008 increased \$3.3 million or 1.7% to \$196.5 million from \$193.2 million for the same period in 2007. The increase was primarily due to increases in headcount and other costs associated with personnel, the write-off of certain shore side assets, and exit costs associated with our decision to cease the operations of *The Scholar Ship* in the second quarter. These increases were partially offset by a change in the employee forfeiture rate assumption related to our stock-based employee compensation plans that resulted in a benefit of approximately \$8.2 million in the second quarter of 2008.

Depreciation and Amortization expenses

Depreciation and amortization expenses for 2008 increased \$5.6 million or 4.6% to \$127.3 million from \$121.7 million for the same period in 2007. This increase is primarily due to a full quarter of *Liberty of the Seas*, which entered service in May 2007, and the addition of *Independence of the Seas*, which entered service in May 2008.

Other Income (Expense)

Interest expense, net of interest capitalized, decreased to \$81.1 million in 2008 from \$85.5 million in 2007. Gross interest expense decreased to \$91.6 million in 2008 from \$94.5 million in 2007. The decrease was primarily due to lower interest rates, partially offset by a higher average debt level. Interest capitalized increased to \$10.5 million in 2008 from \$9.0 million in 2007 primarily due to a higher average level of investment in ships under construction.

Other expense increased to \$6.1 million in 2008 from other income of \$6.9 million in 2007 for a net change of \$13.0 million when comparing these periods. The net change was primarily due to a \$13.8 million gain in 2007 related to certain derivatives instruments associated with our ship construction firm commitments denominated in euros that did not qualify for hedge accounting treatment which did not recur in 2008.

Net Yields

Net Yields increased 1.0% in 2008 compared to 2007 primarily due to the increase in ticket prices as mentioned above. Occupancy in 2008 was 104.0% compared to 106.0% in 2007. The decrease in occupancy was a result of itinerary changes.

Net Cruise Costs

Net Cruise Costs increased 12.4% in 2008 compared to 2007 due to the 5.3% increase in capacity mentioned above and a 6.7% increase in Net Cruise Costs per APCD. The increase in Net Cruise Costs per APCD was primarily driven by increases in fuel expenses, and to a lesser extent, payroll and related expenses. Fuel expenses represented 5.0 percentage points of the overall increase in Net Cruise Costs per APCD.

Six Months Ended June 30, 2008 Compared to Six Months Ended June 30, 2007

Revenues

Total revenues for 2008 increased \$308.4 million or 11.4% to \$3.0 billion from \$2.7 billion for the same period in 2007. Approximately \$190.9 million of this increase is attributable to an increase in capacity of 7.1%. The increase in capacity is primarily due to a full six months of *Liberty of the Seas*, which entered service in May 2007, the addition of *Independence of the Seas*, which entered service in May 2008, and the addition of *Ocean Dream*, which entered service in March 2008. The remaining increase of \$117.5 million is due primarily to an increase in ticket prices.

Onboard and other revenues included concession revenues of \$120.6 million in 2008 compared to \$116.5 million for the same period in 2007. The increase in concession revenues was primarily due to the increase in capacity mentioned above.

Cruise Operating Expenses

Total cruise operating expenses for 2008 increased \$246.3 million or 13.6% to \$2.1 billion from \$1.8 billion for the same period in 2007. Approximately \$127.5 million of this increase is attributable to the 7.1% increase in capacity. The remaining increase of \$118.8 million was primarily driven by increases in fuel expenses, and to a lesser extent payroll and related expenses. Fuel expenses, which are net of the financial impact of fuel swap agreements, increased 33.3% per metric ton in 2008 as compared to 2007 primarily as a result of increasing fuel prices. As a percentage of total revenues, fuel expenses were 11.0% and 9.0% in 2008 and 2007, respectively. The increase in payroll and related expenses was due to an increase in inflationary and other cost pressures.

Marketing, Selling and Administrative Expenses

Marketing, selling and administrative expenses for 2008 increased \$22.1 million or 5.8% to \$401.5 million from \$379.4 million for the same period in 2007. The increase was primarily due to increases in headcount and other costs associated with personnel, the write-off of certain shore side assets, and exit costs associated with our decision to cease the operations of *The Scholar Ship* in the second quarter. These increases were partially offset by a change in the employee forfeiture rate assumption related to our stock-based employee compensation plans that resulted in a benefit of approximately \$8.2 million in the second quarter of 2008.

Depreciation and Amortization expenses

Depreciation and amortization expenses for 2008 increased \$14.0 million or 5.9% to \$251.7 million from \$237.7 million for the same period in 2007. This increase is primarily due to a full six months of *Liberty of the Seas*, which entered service in May 2007, and the addition of *Independence of the Seas*, which entered service in May 2008.

Other Income (Expense)

Interest expense, net of interest capitalized, decreased to \$159.0 million in 2008 from \$166.0 million in 2007. Gross interest expense decreased to \$182.4 million in 2008 from \$185.1 million in 2007. The decrease was primarily due to lower interest rates, partially offset by a higher average debt level. Interest capitalized increased to \$23.4 million in 2008 from \$19.1 million in 2007 primarily due to a higher average level of investment in ships under construction.

Other income decreased to \$7.3 million in 2008 from other income of \$12.1 million in 2007. The decrease was primarily due to a gain of \$19.1 million in 2007, related to certain derivatives instruments associated with our ship construction firm commitments denominated in euros that did not qualify for hedge accounting treatment which did not recur in 2008. The effect of this gain was partially offset by a \$7.0 million in foreign currency exchange gains in 2008.

Net Yields

Net Yields increased 3.8% in 2008 compared to the same period in 2007 primarily due to increases in ticket prices as mentioned above. Occupancy in 2008 was 104.2% compared to 104.9% in 2007.

Net Cruise Costs

Net Cruise Costs increased 12.2% in 2008 compared to 2007 due to the 7.1% increase in capacity mentioned above and a 4.8% increase in Net Cruise Costs per APCD. As mentioned above, the increase in Net Cruise Costs per APCD was primarily driven by increases in fuel expenses, and to a lesser extent, payroll and related expenses. Fuel expenses represented 4.4 percentage points of the overall increase in Net Cruise Costs per APCD.

Recently Adopted, and Future Application of, Accounting Standards

Refer to Note 2. *Summary of Significant Accounting Policies* to our financial statements for further information on *Recently Adopted Accounting Standards* and *Future Application of Accounting Standards*.

Liquidity and Capital Resources

Sources and Uses of Cash

Cash flow generated from operations provides us with a significant source of liquidity. Net cash provided by operating activities was \$761.4 million for the first six months of 2008 compared to \$823.1 million for the same period in 2007. This decrease was primarily a result of timing of receipts on our customer deposits and timing of payments on our accrued expenses and other liabilities. The decrease was partially offset by the timing of collection on our trade accounts receivable and the timing of payments on our prepaid expenses and other assets.

Net cash used in investing activities was \$1.1 billion for the first six months of 2008 compared to \$1.0 billion for the same period in 2007. The increase was primarily due to an increase in capital expenditures of approximately \$237.4 million primarily due to the increase in number of ships under construction, partially offset by an increase in settlements of approximately \$208.8 million on our foreign currency forward contracts.

Net cash provided by financing activities was \$482.3 million in the first six months of 2008 compared to \$325.7 million for the same period in 2007. The change was primarily due to a decrease in repayments of debt of approximately \$1.0 billion, partially offset by a decrease in debt proceeds of approximately \$799.7 million during the first six months in 2008 compared to the same period in 2007. During the first six months of 2008, we drew \$565.0 million on our unsecured revolving credit facility. We made debt repayments on various loan facilities and capital leases, including a payment of approximately \$150.0 million to retire our 6.75% senior notes due March 2008. In addition, we made approximately \$245.0 million in payments towards our unsecured revolving credit facility. During the first six months of 2008, we received \$3.4 million in connection with the exercise of common stock options and paid cash dividends pertaining to the fourth quarter of 2007 and the first and second quarters of 2008 on our common stock of \$96.0 million. Net Debt-to-Capital increased to 45.9% as of June 30, 2008 compared to 44.7% as of December 31, 2007.

Interest capitalized during the first six months of 2008 increased to \$23.4 million from \$19.1 million for the same period in 2007 due to a higher average level of investment in ships under construction.

Future Capital Commitments

Our future capital commitments consist primarily of new ship orders. As of June 30, 2008, we had two ships of a new Oasis-class designated for Royal Caribbean International and five Solstice-class

ships, designated for Celebrity Cruises, on order for an aggregate additional capacity of approximately 25,050 berths. The aggregate cost of the seven ships is approximately \$7.2 billion, of which we have deposited \$522.2 million as of June 30, 2008. Approximately 15.0% of the aggregate cost of ships was exposed to fluctuations in the euro exchange rate at June 30, 2008.

As of June 30, 2008, we anticipated overall capital expenditures, including the seven ships on order, will be approximately \$1.9 billion for 2008, \$2.0 billion for 2009, \$2.2 billion for 2010, \$1.0 billion for 2011 and \$1.0 billion for 2012.

Contractual Obligations and Off-Balance Sheet Arrangements

As of June 30, 2008, our contractual obligations were as follows (in thousands):

	Payments due by period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Long-term debt obligations(1)	\$ 6,318,860	\$ 426,543	\$1,549,538	\$1,412,760	\$2,930,019
Capital lease obligations(1)	53,099	4,211	7,058	3,664	38,166
Operating lease obligations(2)(3)	536,961	62,178	114,811	314,921	45,051
Ship purchase obligations(4)	6,023,173	801,200	3,738,675	1,483,298	—
Other(5)	592,501	92,910	136,013	134,399	229,179
Total	<u>\$13,524,594</u>	<u>\$1,387,042</u>	<u>\$5,546,095</u>	<u>\$3,349,042</u>	<u>\$3,242,415</u>

(1) Amounts exclude interest.

(2) We are obligated under noncancelable operating leases primarily for a ship, offices, warehouses and motor vehicles.

(3) Under the *Brilliance of the Seas* lease agreement, we may be required to make a termination payment of approximately £126.0 million, or approximately \$251.2 million based on the exchange rate at June 30, 2008, if the lease is canceled in 2012. This amount is included in the 3-5 years column.

(4) Amounts represent contractual obligations with initial terms in excess of one year.

(5) Amounts represent future commitments with remaining terms in excess of one year to pay for our usage of certain port facilities, marine consumables, services and maintenance contracts.

As a normal part of our business, depending on market conditions, pricing and our overall growth strategy, we continuously consider opportunities to enter into contracts for the building of additional ships. We may also consider the sale of ships. We continuously consider potential acquisitions and strategic alliances. If any of these were to occur, they would be financed through the incurrence of additional indebtedness, the issuance of additional shares of equity securities or through cash flows from operations.

Under the *Brilliance of the Seas* operating lease, we have agreed to indemnify the lessor to the extent its after-tax return is negatively impacted by unfavorable changes in corporate tax rates, capital allowance deductions and certain unfavorable determinations which may be made by United Kingdom tax authorities. These indemnifications could result in an increase in our lease payments. We are unable to estimate the maximum potential increase in our lease payments due to the various circumstances, timing or a combination of events that could trigger such indemnifications. Under current circumstances we do not believe an indemnification in any material amount is probable.

Some of the contracts that we enter into include indemnification provisions that obligate us to make payments to the counterparty if certain events occur. These contingencies generally relate to changes in taxes, increased lender capital costs and other similar costs. The indemnification clauses are often standard contractual terms and are entered into in the normal course of business. There are no stated or notional amounts included in the indemnification clauses and we are not able to estimate

the maximum potential amount of future payments, if any, under these indemnification clauses. We have not been required to make any payments under such indemnification clauses in the past and, under current circumstances, we do not believe an indemnification in any material amount is probable.

Other than the items described above, we are not party to any other off-balance sheet arrangements, including guarantee contracts, retained or contingent interest, certain derivative instruments and variable interest entities, that either have, or are reasonably likely to have, a current or future material effect on our financial position.

Funding Sources

As of June 30, 2008, our liquidity was \$1.3 billion consisting of approximately \$0.4 billion in cash and cash equivalents and \$0.9 billion available under our unsecured revolving credit facility. During April 2008, we exercised our option to enter into committed financing for approximately 80% of the contract price of *Celebrity Solstice* which is expected to enter service in November 2008. We also have either financing commitments or government guarantee commitments for financing for a portion of the contract price of each of our other newbuild orders. We must elect to use these commitments within certain time frames and they are each subject to customary funding conditions.

We have contractual obligations of approximately \$1.4 billion due during the twelve-month period ending June 30, 2009. We believe these contractual obligations could be funded through a combination of cash flows from operations, drawdowns under our available unsecured revolving credit facility, the incurrence of additional indebtedness (including indebtedness under the above described commitments), and the sales of equity or debt securities in private or public securities markets. We believe our existing unsecured revolving credit facility, cash flows from operations, our ability to obtain new borrowings and/or raise new capital or a combination of these sources will be sufficient to fund operations, debt payment requirements, capital expenditures and other commitments over the next twelve-month period. However, there can be no assurances that these sources of cash will be available in accordance with our expectations. In April 2008, Standard and Poor's lowered our credit rating from BBB- with a negative outlook to BB+ with a stable outlook. The lowering of our credit rating will increase our interest expense under certain of our existing credit facilities and could impact adversely the costs, terms and/or accessibility of any new financing. We do not believe that any of the foregoing will have a material impact on our results of operations.

As of June 30, 2008, we had a working capital deficit of \$1.5 billion which was comparable to our working capital deficit of \$1.3 billion as of December 31, 2007. Our June 30, 2008 deficit included \$1.4 billion of customer deposits received on sales of cruises collected in advance of sailing and initially recorded as customer deposit liabilities on our balance sheet. Substantially all customer deposits represent deferred revenue rather than an actual current cash liability. We generate substantial cash flows from operations and we believe we have the financial liquidity and flexibility to finance and/or refinance our obligations. This business model allows us to maintain this working capital deficit and still meet our operating, investing and financing needs. We expect that we will continue to have working capital deficits in the future.

Our financing agreements contain covenants that require us, among other things, to maintain minimum net worth, fixed charge coverage ratio and limit our Net Debt-to-Capital ratio. We were in compliance with all covenants as of June 30, 2008.

If any person other than A. Wilhelmsen AS. and Cruise Associates, our two principal

shareholders, acquires ownership of more than 30% of our common stock and our two principal shareholders, in the aggregate, own less of our common stock than such person and do not collectively have the right to elect, or to designate for election, at least a majority of the board of directors, we may be obligated to prepay indebtedness outstanding under the majority of our credit facilities, which we may be unable to replace on similar terms. If this were to occur, it could have an adverse impact on our liquidity and operations.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For a discussion of certain market risks related to our business, see Part II, Item 7A. *Quantitative and Qualitative Disclosures About Market Risk* in our annual report on Form 10-K for the year ended December 31, 2007. There have been no significant developments or material changes with respect to our exposure to the market risks previously reported in Form 10-K.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chairman and Chief Executive Officer and Executive Vice President and Chief Financial Officer, we carried out an evaluation of the effectiveness of our disclosure controls and procedures, as such term is defined in Exchange Act Rule 13a-15(e), as of the end of the period covered by this quarterly report and concluded that those controls and procedures were effective.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 and 15d-15 during the quarter ended June 30, 2008 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system will be met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there is only reasonable assurance that our controls will succeed in achieving their goals under all potential future conditions.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

As reported in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2008, in February 2008 a notice was filed to arbitrate a class action claim alleging that Celebrity Cruises improperly requires its cabin stewards to share guest gratuities with assistant cabin stewards. The claim seeks payment of damages, including penalty wages under the U.S. Seaman's Wage Act. Arbitration is currently pending. We are not able at this time to estimate the impact of this proceeding.

As reported in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2008, judgment was entered in February 2008 in favor of Celebrity Cruises in its case in New York federal court against Pentair Water Treatment (OH) Company (formerly known as Essef Corporation) for claims stemming from a 1994 outbreak of Legionnaires' disease on one of Celebrity Cruises' ships. Both parties filed notices to appeal the judgment. In July 2008, the parties settled the case. Pursuant to the terms of the settlement agreement, we will be paid, net of costs and payment to insurers, approximately \$18.0 million. This award will be recognized in our consolidated financial statements in the third quarter of 2008.

As reported in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2008, a purported class action was filed in March 2008 against us, Celebrity Cruises and a related party, Celebrity Catering Services, in the United States District Court, Southern District of Florida alleging that we improperly deducted amounts from the gratuities paid to our shipboard servers, waiters, bar tenders and other personnel in our bar and restaurant departments. The suit also alleged that such persons were not properly compensated for their hours worked. The suit sought payment of damages, including penalty wages under the U.S. Seaman's Wage Act. The suit was dismissed in June 2008 and ordered to arbitration in accordance with the terms of the applicable collective bargaining agreement. We are not able at this time to estimate the impact of this proceeding.

As reported in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2008, in April 2008, five consolidated purported class actions were voluntarily dismissed by the plaintiffs in the United States District Court for the Southern District of Florida. The actions, which had been filed in February and March 2008, allege that we, other cruise lines and a trade association violated Federal anti-trust laws or state deceptive and unfair trade practices laws by conspiring to fix the prices of the fuel supplements announced by the various cruise lines or misleading consumers as to the relationship between each cruise line's fuel costs and the fuel supplements it is charging its customers.

In April 2008, a purported class action was filed against us, Celebrity Cruises and a related party, Celebrity Catering Services, in the United States District Court, Southern District of Florida, alleging that we underpaid wages and overtime pay for our shipboard personnel. The suit also alleged that the parties improperly deducted amounts from the gratuities paid to certain of our shipboard restaurant personnel. The suit sought payment of damages, including penalty wages under the U.S. Seaman's Wage Act. In June 2008, the court dismissed the case and ordered the parties to arbitration in accordance with the terms of the applicable collective bargaining agreements. We are not able to estimate the impact of this proceeding.

In June 2008, a purported class action arbitration claim was made against us alleging that we

required shipboard personnel on our Royal Caribbean International brand to pay for their own employment commencement expenses in violation of our collective bargaining agreement. We are not able at this time to estimate the impact of this proceeding

We are routinely involved in other claims typical within the cruise vacation industry. The majority of these claims are covered by insurance. We believe the outcome of such claims, net of expected recoveries, will not have a material adverse impact on our financial condition or results of operations.

Item 4. Submission of Matters to a Vote of Security Holders

On May 13, 2008, Royal Caribbean Cruises Ltd. held its annual meeting of shareholders. The shareholders voted on (1) the election of four directors to terms ending in 2011, (2) the proposal to approve the Royal Caribbean Cruises Ltd. 2008 Equity Incentive Plan, (3) the proposal to ratify the appointment of PricewaterhouseCoopers LLC as the independent registered certified public accounting firm for 2008 and (4) a shareholder proposal set forth in the proxy statement.

The nominees for directors were elected based on the following votes:

<u>Nominee</u>	<u>Votes For</u>	<u>Votes Withheld</u>
Laura D.B. Laviada	182,030,129	889,062
Eyal Ofer	181,070,045	1,849,146
William K. Reilly	179,932,469	2,986,723
Arne Alexander Wilhelmsen	179,204,245	3,714,947

The proposal to approve the Royal Caribbean Cruises Ltd. 2008 Equity Incentive Plan received the following votes:

157,093,633	Votes for approval
17,137,484	Votes against
58,436	Abstentions
8,629,639	Broker non-votes

The proposal to ratify the appointment of PricewaterhouseCoopers LLP as the independent registered certified public accounting firm for 2008 received the following votes:

182,801,366	Votes for approval
70,735	Votes against
47,090	Abstentions
0	Broker non-votes

The shareholder proposal set forth in the proxy statement received the following votes:

44,213,871	Votes for approval
129,716,664	Votes against
357,897	Abstentions
8,630,760	Broker non-votes

Item 6. Exhibits

- 10.1 Royal Caribbean Cruises Ltd. 2008 Equity Incentive Plan.
- 31 Certifications required by Rule 13a-14(a) or Rule 15d-14(a) of the Securities and Exchange Act of 1934.
- 32 Certifications pursuant to Section 1350 of Chapter 63 of Title 18 of the United States Code.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
