(Dollars in tables in thousands, except per share amounts)

**1. Basis of Presentation**

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the 26-week periods are not necessarily indicative of the results that may be expected for the entire year. For further information, refer to the financial statements and footnotes thereto included in the Stein Mart, Inc. annual report on Form 10-K for the year ended January 31, 2004.

Certain reclassifications have been made to the 2003 financial statements to conform to the 2004 presentation.

**2. Stock-Based Compensation**

The Company has adopted the disclosure-only provisions of Statement of Financial Accounting Standards ("SFAS") No. 123, as amended by SFAS No. 148, "Accounting for Stock-Based Compensation". Accordingly, no compensation cost has been recognized for the Company's stock option plans. Restricted stock awards issued by the Company are accounted for in accordance with APB 25. The employee compensation cost is included in net income, as reported, throughout the vesting period. Had compensation cost of the Company's stock-based plans been determined consistent with the provisions of SFAS No. 123, the Company's net income and earnings per share would have been changed to the following pro forma amounts:

	13 Weeks Ended		26 Weeks Ended	
	July 31, 2004	August 2, 2003	July 31, 2004	August 2, 2003

**3. Discontinued Operations**

Two of the stores closed during 2003 and one store closed during 2004 (see Note 4) are reported as discontinued operations. SFAS No. 144 requires closed stores to be classified as discontinued operations when the operations and cash flows of the stores have been eliminated from ongoing operations. To determine if cash flows have been eliminated from ongoing operations, management evaluated a number of factors, including: proximity to a

**STEIN MART, INC.**  
**NOTES TO FINANCIAL STATEMENTS**

remaining store, physical location within a metropolitan or non-metropolitan area and transferability of sales between open and closed locations. Based on these criteria, management determined that these three closed stores should be accounted for as discontinued operations. The prior year's operating activities for these stores have also been reclassified to "Loss from discontinued operations, net of tax benefit" in the accompanying Statements of Operations.

Discontinued operations generated no sales during the second quarter of 2004, sales of \$2.6 million during the second quarter of 2003 and sales of \$0.9 million and \$5.0 million during the first half of 2004 and 2003, respectively. Loss from discontinued operations, net of tax benefit includes the following components:

	13 Weeks Ended		26 Weeks Ended	
	July 31, 2004	Aug. 2, 2003	July 31, 2004	Aug. 2, 2003

Income tax benefit	4	97	89	194
Loss from discontinued operations, net of tax benefit	<u>\$(6)</u>	<u>\$(158)</u>	<u>\$(145)</u>	<u>\$(316)</u>

See Note 4 for a description of store closing costs and asset impairment charges included in loss from discontinued operations for the first half of 2004 and 2003.

**4. Store Closing Charges and Impairment of Long-Lived Assets**

The Company closed six under-performing stores during the first half of 2004, incurring minimal lease termination and severance costs. One more store is planned to close during the third quarter and one other is planned for relocation within the same metropolitan area during the third quarter. During the second quarter of 2004, the Company recovered \$0.2 million of asset impairment charges recorded during 2003, as the actual loss incurred to dispose of certain assets was lower than previously estimated. The Company will incur minimal lease termination and severance charges during the remainder of 2004 to complete the store closing and relocation.

The Company closed 16 under-performing stores during 2003, four of which were closed during the first half of 2003. During the first half of 2003, the Company incurred a pre-tax asset impairment charge of \$0.8 million to reduce the carrying value of property and equipment of these stores to their respective estimated fair value. All store closing and asset impairment charges are included in selling, general and administrative expenses in the Statements of Operations, except for \$154,000 in 2004 and \$177,000 in 2003 which are included in loss from discontinued operations, net of tax benefit for the 26-week periods.

The following tables show the activity in the store closing reserve for the first half of 2004 and 2003:

	Jan. 31, 2004	Charges	Payments	July 31, 2004

The store closing reserve at July 31, 2004, January 31, 2004 and August 2, 2003 includes a current portion (in accrued liabilities) of \$3.5 million, \$2.8 million and \$1.9 million, respectively, and a long-term portion (in other liabilities) of \$4.0 million, \$6.4 million and \$3.9 million, respectively.

The tables below set forth the components of loss from operations for all stores closed during 2004 and 2003. The 2004 tables present the losses from the six stores that closed during the first half of 2004. The 2003 tables present the sum of the losses from the six stores that closed during the first half of 2004 and the 16 stores closed during fiscal year 2003.

**5. Notes Payable to Banks**

The Company has a three-year \$150 million senior revolving credit agreement (the "Agreement") with a group of lenders, with an initial term ending July 2006. Under the terms of the Agreement, the Company has the option to increase the facility by an additional \$25 million and to extend the terms for an additional year. The Company had outstanding commercial and stand-by letters of credit of \$0.9 million and \$5.3 million, respectively, at July 31, 2004. There were no direct borrowings under the Agreement at July 31, 2004.

**6. Stockholders' Equity and Earnings Per Share**

During the first half of 2003, the Company repurchased 50,000 shares of its common stock at a cost of \$212,000. No shares have been repurchased in 2004.

Basic earnings per share is computed by dividing net income by the weighted-average number of common shares outstanding for the period. Diluted earnings per share is computed by dividing net income by the weighted-average number of common shares outstanding plus common stock equivalents related to stock options and restricted stock for each period. Common stock equivalents are not included in the diluted loss per share calculations for the 13 weeks and the 26 weeks ended August 2, 2003 because they are anti-dilutive.

A reconciliation of weighted-average number of common shares to weighted-average number of common shares plus common stock equivalents is as follows (000's):

	13 Weeks Ended		26 Weeks Ended	
	July 31, 2004	August 2, 2003	July 31, 2004	August 2, 2003

## **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

This document includes a number of forward-looking statements which reflect the Company's current views with respect to future events and financial performance. Wherever used, the words "plan", "expect", "anticipate", "believe", "estimate" and similar expressions identify forward looking statements.

Any such forward-looking statements contained in this document are subject to risks and uncertainties that could cause the Company's actual results of operations to differ materially from historical results or current expectations. These risks include, without limitation, ongoing competition from other retailers many of whom are larger and have greater financial and marketing resources, the availability of suitable new store sites at acceptable lease terms, ability to successfully implement strategies to exit or improve under-performing stores, changing preferences in apparel, changes in consumer spending due to current events and/or general economic conditions, the effectiveness of new advertising, marketing and promotional strategies, adequate sources of merchandise at acceptable prices, and the Company's ability to attract and retain qualified employees to support planned growth.

The Company does not undertake to publicly update or revise its forward-looking statements even if experience or future changes make clear that any projected results expressed or implied therein will not be realized.

### **Overview**

Stein Mart's 257 stores offer the fashion merchandise, service and presentation of a better department or specialty store, at prices competitive with off-price retail chains. Currently with locations from California to New York, Stein Mart's focused assortment of merchandise features moderate to designer brand-name apparel for women, men and young children, as well as accessories, gifts, linens and shoes. Management believes that Stein Mart differentiates itself from typical off-price retailers by offering: (i) current-season merchandise carried by better department and specialty stores at value prices, (ii) a stronger merchandising "statement," with more depth of color and size, and (iii) merchandise presentation more comparable to other upscale retailers.

The Company faces competition for customers and for access to quality merchandise from better department stores, fine specialty stores and, to a lesser degree, from off-price retail chains. Many of these competitors are units of large national or regional chains that have substantially greater resources than the Company. The retail apparel industry is highly fragmented and competitive, and the off-price retail business may become even more competitive in the future.

During the current quarter, the Company continued to experience strong customer response to the full-priced spring fashion assortment, as well as greater clearance efficiency, as markdowns were taken on seasonal inventory. Second quarter 2004 earnings improvement was attributable to:

- A 10.3% increase in comparable store sales, leveraging of selling, general and administrative expenses as a result of higher sales volume, and reduced store closing and impairment charges
- An improvement in gross profit due to higher initial mark-up, a reduced markdown rate and better occupancy leverage
- The closure of 16 under-performing stores during 2003 and six stores during the first half of 2004. Those stores had operating losses of \$0.4 million and \$7.1 million in the second quarter of 2004 and 2003, respectively. For the first six months, those stores had operating losses of \$2.0 million this year compared to \$11.2 million last year.

### **Outlook**

The Company will continue its seasonal clearance activity into early September, as well as the corresponding marketing program. New fall fashion is being supported with fashion advertising circulars, direct mail and, in mid-September, a new series of national TV commercials. Management's plan is to continue spending advertising dollars to support branding and seasonal fashion/lifestyle statements, rather than promotional activity.

# Stein Mart, Inc.

Management expects comparable store sales for the third quarter to increase 6-8 percent. Because of the emphasis on clearance activity in August and early September, comparable store trends are expected to be more modest at the beginning of the quarter and improve as fall fashion selling becomes more prevalent in the latter weeks of the period. This trend traditionally results in a third quarter loss.

## Stores

The number of stores open as of July 31, 2004 and August 2, 2003 were 257 and 270, respectively.

	13 Weeks Ended		26 Weeks Ended	
	July 31, 2004	August 2, 2003	July 31, 2004	August 2, 2003

## Store Closings

The Company closed six stores during 2004 and plans to close one store and relocate one store during the remainder of 2004. Sixteen under-performing stores were closed during 2003, four of which were closed during the

# Stein Mart, Inc.

first half of 2003. The 2004 store closings will be at natural lease term expirations, so there will be no significant lease termination costs in 2004.

Two of the 16 stores closed during 2003 and one of the six stores closed during the first half of 2004 are classified as discontinued operations in accordance with SFAS No. 144, as cash flows of these stores have been eliminated from ongoing operations. Sales and operating losses for the six stores closed in 2004 and the 16 stores closed during fiscal year 2003 are shown below for the 13 weeks and 26 weeks ended July 31, 2004 and August 2, 2003. Included in the 2003 column are operating results of the 16 stores closed in 2003, in addition to six stores closed in 2004.

## Continuing Operations

### For the 13 weeks ended July 31, 2004 compared to the 13 weeks ended August 2, 2003

The 6.5% total sales increase for the 13 weeks ended July 31, 2004 from the same 2003 period reflects a 10.3% increase in sales from comparable stores and a net decrease in the total number of stores from 270 at the end of the second quarter 2003 to 257 at the end of the second quarter 2004.

Gross profit for the 13 weeks ended July 31, 2004 was \$84.2 million or 26.3 percent of net sales, a 2.8 percentage point increase over gross profit of \$70.7 million or 23.5 percent of net sales for the second quarter of 2003. Mark-up improved 1.0 percentage point, markdowns decreased by 1.1 percentage points and occupancy decreased 0.6 percentage point as a result of higher per store sales productivity in the second quarter this year compared to last year.

## Stein Mart, Inc.

Selling, general and administrative expenses ("SG&A") were \$78.6 million or 24.5 percent of net sales for the 13 weeks ended July 31, 2004, as compared to \$77.5 million or 25.8 percent of net sales for the same 2003 quarter. The 1.3 percentage point decrease in SG&A expenses as a percent of sales is due to the leveraging of expenses as a result of the 10.3 percent increase in comparable store sales and lower store closing costs this quarter. Included in SG&A expenses for the second quarter of 2004 and 2003 are store closing and asset impairment charges of \$0.1 million and \$2.0 million, respectively.

Income from operations for the 13 weeks ended July 31, 2004 was \$9.1 million, as compared to a loss from operations of \$(3.7) million for the same 2003 quarter. Approximately one-half of this earnings improvement is the result of eliminating the effect of operating losses of under-performing stores that were closed during 2003 and the first quarter of 2004.

Interest expense was \$487,000 for the second quarter of 2003. As a result of increased sales, decreased inventories and ongoing expense control, there were no borrowings, and therefore no interest expense, during the second quarter of 2004.

### **For the 26 weeks ended July 31, 2004 compared to the 26 weeks ended August 2, 2003**

The 8.8% total sales increase for the 26 weeks ended July 31, 2004 from the same 2003 period reflects an 11.1% increase in sales from comparable stores and a net decrease in the total number of stores from 270 at August 2, 2003 to 257 at July 31, 2004.

Gross profit for the 26 weeks ended July 31, 2004 was \$183.3 million or 26.8 percent of net sales a 2.3 percentage point increase over gross profit of \$154.0 million or 24.5 percent of net sales for the first half of 2003. The increase was due to a 1.6 percentage point increase in mark-up and a 0.7 percentage point decrease in occupancy as a result of higher per store sales productivity in the first half this year compared to last year.

Selling, general and administrative expenses ("SG&A") were \$162.5 million or 23.7 percent of net sales for the 26 weeks ended July 31, 2004, as compared to \$161.3 million or 25.6 percent of net sales for the same 2003 period. The 1.9 percentage point decrease in SG&A expenses as a percent of sales is primarily due to the leveraging of expenses as a result of the 11.1 percent increase in comparable store sales. Included in SG&A expenses for the first half of 2004 and 2003 are store closing and asset impairment charges of \$0.5 million and \$2.7 million, respectively.

Income from operations for the first half of 2004 was \$28.0 million compared to a loss from operations of \$(0.6) million for the first half of 2003. Approximately one-third of this earnings improvement is the result of eliminating the effect of operating losses of under-performing stores that were closed during 2003 and 2004.

Interest expense was \$39,000 and \$892,000 for the first half of 2004 and 2003, respectively. The decrease resulted from lower average borrowings, as well as slightly lower interest rates during this year compared to last year. There were no borrowings at July 31, 2004.

### **Liquidity and Capital Resources**

The Company's primary source of liquidity is the sale of its merchandise inventories. Capital requirements and working capital needs are funded through a combination of internally generated funds, a revolving credit facility and credit terms from vendors. As of July 31, 2004, the Company had \$39.1 million in cash and cash equivalents. Working capital is needed to support store inventories and capital investments for new store openings and to maintain existing stores. Historically, the Company's working capital needs are lowest in the first quarter and highest in either the third or fourth quarter in anticipation of the fourth quarter peak selling season.

Net cash provided by operating activities was \$58.6 million for the first half of 2004 compared to net cash used in operating activities of \$3.1 million for the first half of 2003. The increase in cash for 2004 is primarily attributable to an increase in net income including non-cash items, a decrease in inventories and an increase in accounts payable

# Stein Mart, Inc.

from the end of the year, offset by an increase in income taxes paid. On an average store basis, inventories were reduced 7.1% from the prior year due to increased sales resulting from the Company's continued focus on marketing, sales promotion and clearance strategies.

Capital expenditures were higher for the first half of 2004 compared to the first half of 2003 primarily due to enhancements of the point of sale and merchandising systems. New store capital expenditures are lower this year compared to last year due to fewer store openings. For the remainder of 2004, the Company expects to open seven new stores, including one relocation. Total capital expenditures for 2004 are anticipated to be approximately \$15 million.

Cash used in financing activities was \$21.6 million during first half of 2004 compared to \$16.3 million of cash provided by financing activities during the first half of 2003. Cash provided by operating activities of \$58.6 million enabled the Company to eliminate borrowings under the revolving credit agreement at the end of the first quarter.

The Company has a \$150 million senior revolving credit agreement with a group of lenders, with an initial term ending July 2006. Borrowings are based on and secured by eligible inventory and certain other assets. Due to the seasonal nature of the Company's business, the Company's bank borrowings fluctuate during the year, typically reaching their highest levels during the third or fourth quarter, as the Company builds its inventory for the Christmas selling season. At July 31, 2004 there were no outstanding borrowings under the credit facility and no Event of Default existed under the terms of the Agreement.

The Company believes that expected net cash provided by operating activities and bank borrowings will be sufficient to fund anticipated current and long-term capital expenditures and working capital requirements. Should current operating conditions deteriorate, management can adjust operating plans, including new store rollout. In addition, there is unused borrowing capacity under the revolving credit agreement.

## **Seasonality**

The Company's business is seasonal in nature with a higher percentage of the Company's merchandise sales and earnings generated in the fall and holiday selling seasons. Accordingly, selling, general and administrative expenses are typically higher as a percent of net sales during the first three quarters of each year.

## **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

The Company is exposed to interest rate risk primarily through borrowings under its revolving credit facility. At July 31, 2004, the Company had no outstanding borrowings. The facility permits debt commitments up to \$150.0 million and bears interest at spreads over the prime rate and LIBOR. Management believes that its exposure to market risk associated with its borrowings is not material.

## **Item 4. Controls and Procedures**

The Company's management, including the Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of the Company's disclosure controls and procedures, as defined in Exchange Act Rules 13a-14 and 15d-14 of the Securities Exchange Act of 1934, as amended, (the "Exchange Act"). Based upon this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective in alerting them to material information relating to the Company required to be included in the Company's Exchange Act filings in a timely manner. There have been no significant changes in the Company's internal controls or in other factors that could significantly affect these internal controls subsequent to the date of evaluation.
