SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549**

FORM 10-Q

**[X] QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended March 31, 2006

OR

**[] TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission file number 0-21554

DENMARK BANCSHARES, INC.

(Exact name of registrant as specified in its charter)

Wisconsin	39-1472124
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)

103 East Main Street, Denmark, Wisconsin 54208-0130
(Address of principal executive offices)

(920) 863-2161
(Registrant's telephone number, including area code)

(Former name, address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes [X] No []

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

___ Large Accelerated Filer **X Accelerated Filer** ___ Non-accelerated

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes [] No [X]

APPLICABLE ONLY TO CORPORATE ISSUERS:

As of April 17, 2006, there were 119,799 shares of the registrant's Common Stock (no par value) outstanding.

DENMARK BANCSHARES, INC.

Denmark Bancshares, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

NOTE 1 - FINANCIAL STATEMENTS

The consolidated financial statements included herein are unaudited. In the opinion of management, these statements contain all adjustments necessary to present fairly the financial position of Denmark Bancshares, Inc. ("DBI"), the results of operations and cash flows for the periods presented. All adjustments necessary for the fair presentation of the financial statements are of a normal recurring nature. These consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in DBI's latest annual report on Form 10-K. DBI's subsidiaries are the Denmark State Bank ("DSB"), Denmark Agricultural Credit Corporation ("DACC") and the McDonald-Zeamer Insurance Agency, Inc. ("McDonald").

Reclassifications - Certain amounts in the prior period financial statements have been reclassified for comparative purposes to conform with the presentation in the current year.

NOTE 2 - INVESTMENT SECURITIES

The amortized cost and estimated fair value of securities available-for-sale were as follows:

	March 31, 2006		
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized (Losses)
U.S. Government agencies	\$2,577,319	\$0	(\$5,210)
Mortgage-backed securities	4,457,765	1,178	(104,427)
State and local governments	4,848,636	15	(32,141)
	<u>\$11,883,720</u>	<u>\$1,193</u>	<u>(\$141,778)</u>

	December 31, 2005		
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized (Losses)
U.S. Government agencies	\$1,700,000	\$0	(\$3,850)
Mortgage-backed securities	4,880,182	3,993	(111,969)
State and local governments	4,572,398	296	(24,386)
	<u>\$11,152,580</u>	<u>\$4,289</u>	<u>(\$140,205)</u>

The amortized cost and estimated fair value of securities held-to-maturity were as follows:

	March 31, 2006		
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized (Losses)
State and local governments	<u>\$37,946,414</u>	<u>\$1,822,990</u>	<u>\$0</u>

	December 31, 2005		
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized (Losses)
State and local governments	<u>\$38,553,270</u>	<u>\$1,856,408</u>	<u>(\$689)</u>

Denmark Bancshares, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

The amortized cost and estimated fair values of securities at March 31, 2006, by maturity were as follows:

Amounts Maturing	Securities Available-for-Sale		Securities Held-to-Maturity	
	Amortized Cost	Estimated Fair Value	Amortized Cost	Estimated Fair Value
Within one year	\$6,795,740	\$6,692,577	\$1,583,768	\$1,600,952
From one through five years	4,369,792	4,346,559	6,011,633	6,255,097
From five through ten years	718,188	703,999	11,332,794	11,971,227
After ten years	0	0	19,018,219	19,942,128
	<u>\$11,883,720</u>	<u>\$11,743,135</u>	<u>\$37,946,414</u>	<u>\$39,769,404</u>

At March 31, 2006, 15 debt securities have unrealized losses with aggregate depreciation of 1% from DSB's amortized cost basis. These unrealized losses relate principally to the increase in interest rates and are not due to changes in the financial condition of the issuer. In analyzing an issuer's financial condition, management considers whether the securities are issued by a government body or agency, whether a rating agency has downgraded the securities, and industry analysts' reports. Since management has the ability to hold debt securities for the foreseeable future, no declines are deemed to be other than temporary.

NOTE 3 - LOANS

Major categories of loans included in the loan portfolio are as follows:

	March 31, 2006	December 31, 2005
Real Estate:		
Residential	\$108,463,015	\$110,666,301
Commercial	62,248,931	63,211,379
Agricultural	33,888,162	34,979,648
Construction	29,787,510	29,158,731
	<u>\$234,387,618</u>	<u>\$238,016,059</u>
Commercial	\$37,886,404	\$39,766,055
Agricultural	34,201,680	36,260,702
Consumer and other	10,671,594	11,028,556
TOTAL	<u>\$317,147,296</u>	<u>\$325,071,372</u>

Changes in the allowance for loan losses were as follows:

	For the Three Months Ended March 31,		For the Year Ended December 31,
	2006	2005	2005
Balance, beginning of period	\$6,400,480	\$5,820,150	\$5,820,150
Provision charged to operations	275,500	126,000	786,000
Recoveries	9,871	27,844	130,605
Charge-offs	(26,644)	(37,426)	(336,275)
Balance, end of period	<u>\$6,659,207</u>	<u>\$5,936,568</u>	<u>\$6,400,480</u>

(1) As of the period ending.

This report may contain certain forward-looking statements, including without limitation, statements regarding results of operations, the appropriateness of the allowance for loan losses, the amounts of charge-offs and recoveries, capital to assets ratios, capacity for paying dividends and liquidity. These forward-looking statements are inherently uncertain and actual results may differ from Company expectations. The following factors which, among others, could impact current and future performance include but are not limited to: (i) adverse changes in asset quality and resulting credit risk-related losses and expenses; (ii) adverse changes in the local economy; (iii) fluctuations in market rates and prices which can negatively affect net interest margin, asset valuations and expense expectations; and (iv) changes in regulatory requirements of federal and state agencies applicable to banks and bank holding companies, which could have materially adverse effects on DBI's future operating results. When relying on forward-looking statements to make decisions with respect to DBI, investors and others are cautioned to consider these and other risks and uncertainties. All forward-looking statements contained in this report are based upon information presently available and DBI assumes no obligation to update any forward-looking statements.

Critical Accounting Policies

The accounting and reporting policies of DBI are in accordance with accounting principles generally accepted in the United States of America and conform to general practices in the banking industry. The preparation of financial statements in conformity with these principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. These estimates and assumptions are based on information available at the date of the financial statements. Certain policies inherently have a greater reliance on the use of estimates, assumptions, and judgments and as such have a greater possibility of producing results that could be materially different than originally reported.

Management believes that DBI's critical accounting policies are those relating to the allowance for loan and lease losses and intangible assets.

Allowance for Loan and Lease Losses

The allowance for loan and lease losses ("ALLL") is an estimate of the losses that may be sustained in the loan and lease portfolio. The allowance is based on two basic principles of accounting: (1) Statement of Financial Accounting Standards ("SFAS") No. 5, "Accounting for Contingencies", which requires that losses be accrued when they are probable of occurring and estimable, and (2) SFAS No. 114, "Accounting by Creditors for Impairment of a Loan", which requires that losses be accrued when it is probable that DBI will not collect all principal and interest payments according to the loan's or lease's contractual terms. Guidelines for determining allowances for loan losses are also provided in the SEC Staff Accounting Bulletin No. 102 - "Selected Loan Loss Allowance Methodology and Documentation Issues" and the Federal Financial Institutions Examination Council's interagency guidance, "Policy Statement on Allowance for Loan and Lease Losses Methodologies and Documentation for Banks and Savings Institutions" (the "FFIEC Policy Statement").

DSB's and DACC's boards of directors have approved policies to provide management with a systematic methodology to determine an adequate allowance for loan and lease losses. This methodology includes a systematic loan grading system that requires quarterly reviews, identification of loans to be evaluated on an individual basis for impairment, results of independent reviews of asset quality and the adequacy of the allowance by regulatory agencies, as an integral part of their examination process, and by external auditors, consideration of current trends and volume of total nonperforming, past-due, nonaccrual and potential problem loans, and consideration of national and local economic trends and industry conditions.

In applying the methodology, nonaccrual loans, restructured loans and potential problem loans (other than loans secured by 1-to-4 family residential properties, loans secured by consumer personal property and unsecured loans), above a certain size, are reviewed to determine if they are impaired. Impaired loans are individually analyzed and an allowance amount is calculated for each one of these loans, based on the estimated fair value of collateral, in conjunction with FAS 114. Loans that are not impaired are segmented into groups by type of loan. The following loan types are utilized so that each segment of loans will have similar risk factors; 1) residential real estate, 2) agricultural real estate, 3) commercial real estate, 4) agricultural, 5) commercial, 6) consumer installment, and 7) other. In addition, based on internal reviews and external reviews performed by regulatory authorities, DSB and DACC further segregate loans that are not impaired by loan risk classification within each type of loan based on an assessment of risk for a particular loan. The applicable risk classifications are "special mention" and "substandard". A "substandard" loan is a loan that is inadequately protected by the current net worth and paying capacity of the borrower or of any collateral. Loans classified "substandard" have well-defined weaknesses that jeopardize liquidation and are characterized by the distinct possibility that some loss will be sustained if the deficiencies are not corrected.

Loans classified "special mention" are one step above substandard; these loans contain some weakness which if not corrected or improved upon could lead to further deterioration and a lower rating. Risk factor percentages are applied to the identified segments of each of the nonclassified and classified portions of the portfolios to calculate an allowance in conjunction with FAS 5. These risk factor percentages are based on historical loan loss experience adjusted for current economic conditions and trends and internal loan quality trends. In determining the appropriateness of the allowance for loan and lease losses at March 31, 2006, DBI utilized the same risk factor percentages for loans that it used at December 31, 2005.

The foregoing calculations in accordance with FAS 114 and FAS 5 are used to confirm the adequacy and appropriateness of the ALLL as developed through provisions for credit losses charged to expense, recognizing that the ALLL represents an aggregation of judgments and estimates by management. Such calculations also influence the amount of future provisions for credit losses charged to expense, pending reapplication of the described systematic methodology.

Management evaluates the appropriateness of the ALLL on a quarterly basis and submits to the board of directors of DSB each quarter a recommendation of the amount of a monthly provision for loan losses. If the mix and amount of future charge-offs differ significantly from those assumptions used by management in making its determination, the ALLL and the provision for loan losses on the income statement could be materially affected. Management believes that the ALLL is adequate as of March 31, 2006.

Intangible Assets

DBI has a core deposit intangible asset that was originated in connection with DSB's expansion through an acquisition of an established branch operation in 1997. The acquisition did not meet the definition of a business combination in accordance with Statement No. 141. As such, DBI continues to amortize the intangible asset related to the acquisition over a period of fifteen years. Annually DBI reviews the intangible assets for impairment and records an impairment charge, if any, to earnings.

Had management determined that this acquisition met the definition of a business combination, Statement No. 142 would have required the intangible asset not to be amortized and for DBI to evaluate the branch acquisition for impairment on an annual basis and record an impairment charge, if any, to earnings.

Results of Operations

Net income for the quarter ended March 31, 2006, was \$592,387, a decrease of \$126,197 or 18%, compared to \$718,584, for the corresponding period in 2005. This decrease was the result of a decrease in net interest income and a higher provision for loan losses, which more than offset a decrease in the provision for income tax expense, lower noninterest expenses and higher noninterest income.

Net interest income for the quarter ended March 31, 2006, was \$3,196,653, a decrease of \$208,338 compared to the corresponding period in the prior year. The following table sets forth a summary of the changes in interest earned and interest paid resulting from changes in volume and changes in rates:

	Increase (Decrease) Due to Change In		
	Average Balance	Average Rate	Total Change
<i>(In thousands)</i>			
Interest income	\$321	\$457	\$778
Interest expense	157	829	986
Net interest income	<u>\$164</u>	<u>(\$372)</u>	<u>(\$208)</u>

This decrease in net interest income was attributable to a decrease in net interest spread, which more than offset the increase in net interest income attributable to an increase in the volume of interest-earning assets and interest-bearing liabilities. The average net interest rate spread decreased from 3.34% during the first quarter of 2005 to 2.76% during the quarter ended March 31, 2006. DBI's yield on earning assets was 5.81% during the first quarter of 2005 compared to 6.28% during the quarter ended March 31, 2006. The average cost of funds was 3.52% during the most recent quarter, an increase of 105 basis points compared to the quarter ended March 31, 2005. The Federal Open Market Committee has raised short-term rates fifteen times (375 basis points) between June 30, 2004, and March 31, 2006. Long-term rates have not risen in a like amount during this period resulting in a flattening yield curve, which has put pressure on DSB's net interest spread. The average balance of interest-earning assets increased by \$21.9 million while the volume of interest-bearing liabilities increased by \$20.6 million during the first quarter of 2006 compared to the first quarter of 2005.

In the first quarter of 2006 DBI's provision for credit losses was \$275,500 compared to \$126,000 for the first quarter of 2005. Net charge-offs were \$16,773 in the first quarter of 2006 compared to net charge-offs of \$9,582 during the corresponding period in the prior year.

Noninterest income for the three months ended March 31, 2006, was \$421,467, an increase of \$55,073 compared to the corresponding period in 2005. Service fees and commissions increased by \$37,301 during the quarter ended March 31, 2006, compared to the corresponding period in 2005. Commissions from the sales of mutual funds, annuities and common stocks increased by \$19,348 and insurance commissions increased by \$9,653. Gains from the sales of residential real estate loans increased by \$6,702 during the first quarter of 2006 compared to the quarter ended March 31, 2005. DSB sold \$3.1 million of mortgage loans in the first quarter of 2006 compared to \$2.2 million during the first quarter of 2005.

Noninterest expense decreased by \$86,274 or 3% during the three months ended March 31, 2006, compared to corresponding period in 2005. Salaries and benefits expense increased \$119,906 or 7% over the corresponding period in 2005. This increase is primarily the result of higher salaries and wages, which increased by \$49,924 primarily as a result of regular salary increases. Higher group health insurance expenses, which increased by \$44,701 or 14%, also contributed to the increase in salaries and benefits expense.

Occupancy expenses increased by \$9,443 or 3% during the three months ended March 31, 2006, compared to the first quarter of 2005. The increase is primarily attributable to higher real estate and personal property taxes, which increased by \$5,082.

During the first quarter of 2005, DBI recognized a write-down of \$75,453 on the branch building at Maribel. The building was vacated during the second quarter of 2005 and subsequently demolished.

Losses on the sales of other real estate properties acquired through foreclosure decreased by \$51,635 during the most recent quarter compared to the first quarter of 2005.

Directors fees decreased by \$24,350 during the quarter ended March 31, 2006, compared to the corresponding period in 2005. The decrease is primarily the result of a change in the directors' compensation policy that eliminates certain fees to inside directors for board and committee meetings.

Professional fees decreased by \$27,863 or 35% during the three months ended March 31, 2006, compared to the first quarter of 2005. Professional fees include expenditures for technology consulting, legal, audit, compliance, tax and appraisal services. DBI incurred fewer expenses during the most recent quarter for audit and compliance fees related to documentation and testing of DBI's internal controls in order to comply with Section 404 of the Sarbanes-Oxley Act of 2002. As anticipated, the second year of compliance was not as costly as the first year.

For the three months ended March 31, 2006 and 2005, DBI recorded combined federal and state income tax provisions of \$48,047 and \$138,341. These provisions reflect effective income tax rates of 8% and 16%, in 2006 and 2005, respectively, which are less than DSB's combined statutory tax rate of 39%. The lower effective income tax rates are primarily attributable to certain federally tax exempt interest earned on state and local government investment securities.

On a per share basis, net income was \$4.94 in the first quarter of 2006 compared with \$5.95 in the first quarter of 2005. Return on average assets in the first quarter of 2006 was 0.58%, compared to 0.74% for the corresponding period in 2005. Return on average equity in the first quarter of 2006 was 4.7%, compared to 5.7% for the corresponding period in the prior year.

Financial Condition

Total assets decreased by \$4,242,324 between December 31, 2005, and March 31, 2006. Federal funds sold increased by \$5.9 million. Total loans, excluding loans held for sale, decreased by \$7.9 million during the first three months. Total deposits decreased by \$3.3 million during the three-month period ending March 31, 2006.

The following table sets forth major types of loans (excluding loans held for sale) by primary collateral and the percentage of total loans for each type:

<i>(In thousands)</i>	March 31, 2006		December 31, 2005	
	Amount	%	Amount	%
Real Estate:				
Residential	\$108,463	34.2%	\$110,666	34.0%
Commercial	62,249	19.6%	63,211	19.4%
Agricultural	33,888	10.7%	34,980	10.8%
Construction	29,788	9.4%	29,159	9.0%
	<u>\$234,388</u>	<u>73.9%</u>	<u>\$238,016</u>	<u>73.2%</u>
Commercial	37,886	11.9%	39,766	12.2%
Agricultural	34,202	10.8%	36,261	11.2%
Consumer and other	10,671	3.4%	11,028	3.4%
TOTAL	<u>\$317,147</u>	<u>100.0%</u>	<u>\$325,071</u>	<u>100.0%</u>

Agricultural real estate loans and other agricultural loans decreased by \$3.2 million, commercial real estate loans and other commercial loans decreased by \$2.8 million and residential real estate loans fell by \$2.2 million during the three months ended March 31, 2006. Management attributes the decline in the loan portfolio to a variety of factors. One agricultural borrower substantially reduced their borrowings due to special circumstances. Higher interest rates may be slowing the demand for agricultural and commercial loans. The dairy sector faces declining milk prices and higher input costs for fertilizer and gasoline. The Board of Directors of DSB approved a revised Loan Policy that contains more stringent loan underwriting guidelines. These factors, as well as continued strong local competition for loans by area financial institutions, all contributed to the decline in loan volume.

The allowance for credit losses increased by \$258,727 during the three months ended March 31, 2006. The allowance equals 2.09% of total loans at March 31, 2006, compared to 1.96% at December 31, 2005. Nonaccrual loans totaled \$10,496,677 at March 31, 2006, an increase of \$2,908,875 compared to December 31, 2005. DBI's ratio of loans more than 30 days past due (including nonaccrual loans) to total loans was 4.98% at quarter end, compared to 3.33% at year-end.

As of March 31, 2006, management has identified \$12.3 million of potential problem loans compared to \$11.1 million at year-end. Potential problem loans are loans that are performing but have a greater risk of nonperformance.

DBI has no accruing loans that are past due 90 days or more. DSB's policy is to place in nonaccrual status all loans which are contractually past due 90 days or more as to any payment of principal or interest and all other loans as to which reasonable doubt exists as to the full, timely collection of interest or principal based on management's view of the financial condition of the borrower. Previously accrued but uncollected interest on loans placed on nonaccrual status is charged against the current earnings, and interest income thereafter is recorded only when received.

The following table sets forth certain data concerning nonaccrual loans, past due accruing loans, restructured loans and other real estate (property acquired through foreclosure or in satisfaction of loans):

	March 31, 2006		December 31, 2005	
	Amount	% of Total Loans	Amount	% of Total Loans
<i>(In thousands)</i>				
Nonaccrual Loans (1)	\$10,497	3.3%	\$7,588	2.3%
Accruing Loans Past Due				
90 Days or More	0	0.0%	0	0.0%
Total	<u>\$10,497</u>	<u>3.3%</u>	<u>\$7,588</u>	<u>2.3%</u>
Other Real Estate	<u>\$411</u>		<u>\$343</u>	

- 1) Includes restructured loans of \$2,033,385 and \$1,414,391 as of March 31, 2006 and December 31, 2005, respectively.

The increase in nonaccrual loans during the first quarter is primarily attributable to a \$2.1 million increase in nonperforming construction loans as a result of the deterioration of three residential home developers. Residential homes in various stages of construction secure these loans.

Demand deposits decreased \$6,730,109 or 17% during the first three months of 2006. The decrease is attributable to a seasonal fluctuation. Interest bearing deposits increased by \$3,478,790 between December 31, 2005 and March 31, 2006.

Stockholders' equity decreased by \$471,948 to \$50,080,704 as of March 31, 2006. As of March 31, 2006, DBI's leverage ratio was 12.0%, the risk-based core capital ratio was 15.1% and the risk-based total capital ratio was 16.3%. DBI and DSB continue to maintain capital levels well above the regulatory minimum levels.

Liquidity

Liquidity refers to the ability of DBI to generate adequate amounts of cash to meet DBI's needs for cash. Cash and cash equivalents decreased by \$1,976,072 during the first three months of 2006. The major sources and uses of cash are detailed in the accompanying Consolidated Statements of Cash Flows. The available-for-sale investment portfolio amounting to \$11.7 million as of March 31, 2006, is readily convertible to cash if needed for liquidity purposes.

In addition to on-balance sheet sources of funds DBI also has off-balance sheet sources available to meet liquidity needs. DBI has unused lines of credit of \$38.3 million as of March 31, 2006. Management believes DBI's liquidity position as of March 31, 2006, is adequate under current economic conditions.

Off-Balance Sheet Arrangements

DBI and its subsidiaries are parties to financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of their customers. These financial instruments include commitments to extend credit and standby letters of credit. Those instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the statement of financial condition. The contract or notional amounts of those instruments reflect the extent of involvement DBI and its subsidiaries have in particular classes of financial instruments.

The exposure of DBI and its subsidiaries to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and standby letters of credit is represented by the contractual or notional amount of these instruments. DBI and its subsidiaries use the same credit policies in making commitments and conditional obligations as for on-balance sheet instruments. DBI and its subsidiaries require collateral or other security to support financial instruments with credit risk.

The following table sets forth DBI's commitments to extend credit and standby letters of credit:

<i>(In thousands)</i>	Contract or Notional Amount March 31, 2006	Secured Portion
<i>Financial instruments whose contract amounts represent credit risk:</i>		
Commitments to extend credit	\$28,738	\$21,852
Standby letters of credit and financial guarantees written	2,405	2,405

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. DBI and its subsidiaries evaluate each customer's creditworthiness on a case-by-case basis. Collateral held varies but may include accounts receivable, inventory, property, plant and equipment and income-producing commercial properties.

Standby letters of credit are conditional commitments issued by DSB to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support commercial business transactions. When a customer fails to perform according to the terms of the agreement, DSB honors drafts drawn by the third party in amounts up to the contract amount. A majority of the letters of credit expire within one year. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loans to customers. Collateral held varies but may include accounts receivable, inventory, property, plant and equipment and income-producing commercial properties and residential properties. All letters of credit are fully collateralized.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

DBI's primary market risk position has not materially changed from that disclosed in DBI's 2005 Form 10-K Annual Report.

Item 4. Controls and Procedures

DBI's management, under the supervision and with the participation of DBI's principal executive officer and principal financial officer, has evaluated DBI's disclosure controls and procedures prior to the filing date of this report. Based on that evaluation, management believes that DBI's disclosure controls and procedures as of the end of the March 31, 2006, quarter are effective in ensuring that information required to be disclosed by DBI in the reports that it files or submits under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported, within the time period specified by the Securities and Exchange Commission's rules and forms.

There were no significant changes in DBI's internal controls over financial reporting or in other factors that could significantly affect these controls during the quarter ended March 31, 2006, including any corrective actions with regard to significant deficiencies and material weaknesses.

Part II. Other Information

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Following are DBI's monthly common stock purchases during the first quarter of 2006:

Period	Total Number Of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans (1)	Maximum Number of Shares That May Yet Be Purchased Under the Plan (2)
January 1-31	189	\$884	189	7,003
February 1-28	14	\$884	14	6,875
March 1-31	28	\$884	28	6,886

- (1) DBI announced a Stock Repurchase Policy on March 30, 1995, as an accommodation to shareholders.
- (2) DBI limits purchases under the Policy in any six-month period to less than six percent of the common shares outstanding. The Policy has no fixed expiration date, although DBI may terminate the Policy at any time. DBI is not soliciting or encouraging shareholders to sell shares under the Policy.

The Federal Reserve Board ("the Board") has adopted regulations that deal with the measure of capitalization for bank holding companies. The Board has also issued a policy statement on the payment of cash dividends by bank holding companies, wherein the Board has stated that a bank holding company experiencing earnings weaknesses should not pay cash dividends exceeding its net income or which could only be funded in ways that weaken the bank holding company's financial health, such as by borrowing. The ability of DBI to pay dividends on the Common Stock is largely dependent upon the ability of DSB to pay dividends on the stock held by DBI. DSB's ability to pay dividends is restricted by both state and federal laws and regulations. DSB is subject to policies and regulations issued by the FDIC and the Division of Banking of the Wisconsin Department of Financial Institutions ("the Division"), which, in part, establish minimum acceptable capital requirements for banks, thereby limiting the ability to pay dividends. In addition, Wisconsin law provides that state chartered banks may declare and pay dividends out of undivided profits but only after provision has been made for all expenses, losses, required reserves, taxes and interest accrued or due from the bank. Payment of dividends in some circumstances may require the written consent of the Division.

DSB is restricted by banking regulations from making dividend distributions to DBI that exceed the retained net income for the most current year plus retained net income for the preceding two years. Under this formula, dividends of approximately \$5,921,000 may be paid without prior regulatory approval as of December 31, 2005.

Item 6. Exhibits

(a) Exhibits:

31.1 Certification by the Chief Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

31.2 Certification by the Chief Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

32.1 Certification of Periodic Financial Report by the Chief Executive Officer and Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
