Dear Mr. Booth:

We have reviewed your filing and have the following comments. We have limited our review of your filing to those issues we have addressed in our comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure. After reviewing this information, we may or may not raise additional comments.

Please understand that the purpose of our review process is to assist you in your compliance with the applicable disclosure requirements and to enhance the overall disclosure in your filing. Form 10-K for the Fiscal Year Ended December 31, 2005

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Year Ended December 31, 2005 Compared to Year Ended December 31, 2004, page 22

1. We note that your dealer-partner enrollment in 2005 was impacted by a new policy that gave dealer-partners an option to enroll without paying the \$9,850 enrollment fee. We also note that you will keep 50% of the first accelerated dealer holdback payment for dealer-partners choosing this option. Please tell us in detail how you are accounting for this option and the basis for your accounting. Include in your response references to the appropriate accounting literature.

Contractual Obligations, page 28

2. Please include your contractually obligated interest payments.

Consolidated Statements of Income, page 35

3. Please present income (loss) from discontinued operations per common share under paragraph 37 of SFAS 128.

Consolidated Statements of Cash Flows, page 37

4. We note that you are presenting your United Kingdom segment as discontinued operations. Please confirm to us that the cash flows from operating, investing, and financing activities of the discontinued operations are not presented all within the operating cash flow category in the statements of cash flows. In addition, tell us why you have not reclassified the balance sheet to separately present the assets of the discontinued operations under paragraph 46 of SFAS 144. Further, tell us why you are presenting the discontinued operations segment information in Note 11 on page 62 and in your Form 10-Q for the fiscal quarter ended September 30, 2006.

Note 1. Finance Charges – United States and Canada, page 42

5. We note that the commissions received from the third party vehicle service contract administrators ("TPAs") and Guaranteed Asset Protection ("GAP") are recognized as part of the finance charges on a level yield basis based upon forecasted cash flows. Please tell us why this accounting is appropriate. Include in your response references to the appropriate accounting literature.

Note 1. Loans Receivable and Allowance for Credit Losses- United States and Canada,
page 42

6. We note that the Dealer Loan is increased as revenue is recognized and decreased as collections are received. Please disclose and tell us the nature and timing of each revenue being recognized. Also, tell us where the collections in excess of the repaid advance to the dealer-partner are presented in your balance sheet.

Form 10-Q for the Fiscal Quarter Ended September 30, 2006

Return on Capital, page 21

7. Please see your presentation of net operating profit after-tax and economic profit. Expand your discussion to disclose the following:
- identify this measure as a non-GAAP measure;
 - rename the non-GAAP measure since the title that includes “operating profit” is confusingly similar to operating income;
 - reconcile the non-GAAP measure to income from continuing operations and for the economic profit per diluted share, reconcile it to income from continuing operations per diluted common share;
 - the specific manner in which you use this non-GAAP measure to conduct or evaluate the business;
 - the economic substance behind your decision to use such a measure;
 - the material limitations associated with the use of this non-GAAP measure as compared to the use of the most directly comparable GAAP measure, income from continuing operations; and
 - the manner in which you compensate for these limitations when using this non-GAAP measure.
