**Kadant Reports Results for Third Quarter 2007
Increases EPS Guidance for 2007**

WESTFORD, Mass., October 24, 2007 – Kadant Inc. (NYSE:KAI) reported that revenues from continuing operations were a record \$92.7 million in the third quarter of 2007, compared with \$90.6 million in the third quarter of 2006, an increase of 2 percent. Revenues for the third quarter of 2007 included a 3 percent increase from foreign currency translation. Operating income from continuing operations in the 2007 quarter increased 7 percent to \$9.9 million versus \$9.3 million in 2006. Income from continuing operations (after-tax) increased 20 percent to \$7.0 million in 2007, or \$.49 of diluted earnings per share (EPS), versus income of \$5.8 million, or \$.41 of diluted EPS, a year ago. Including the discontinued operation, net income in the third quarter of 2007 was \$5.8 million versus \$5.6 million in the 2006 quarter, or \$.40 per diluted share in both periods.

“We had impressive operating results this quarter, exceeding the upper range of our EPS guidance for continuing operations by 10 cents”, said William A. Rainville, chairman and chief executive officer of Kadant. “We set several records this quarter, including revenues of \$92.7 million, bookings of \$106.1 million, backlog of \$102.6 million, and achieved our best EPS from continuing operations since our spin-off from Thermo Fisher Scientific Inc. in 2001. Strong performances in our stock preparation and fluid-handling product lines were major contributors to our results.”

“Towards the latter part of the third quarter, we announced \$32 million in new orders and \$22 million in pending orders, from the U.S., Russia, China, and Vietnam. Although we expect most of the revenues associated with this business will be recognized in 2008, the record EPS performance in the third quarter, combined with solid bookings and backlog, leads us to increase our 2007 EPS guidance. We now expect to report GAAP diluted EPS of \$.42 to \$.45 from continuing operations in the fourth quarter of 2007, on revenues of \$94 to \$96 million. For the full year, including the \$.02 loss per diluted share from the sale of our Casting Products business, we now expect GAAP diluted EPS of \$1.66 to \$1.69 from continuing operations, revised from our previous estimate of \$1.49 to \$1.59. We now expect 2007 revenues of \$364 to \$366 million, revised from our previous estimate of \$360 to \$370 million.”

Use of Non-GAAP Financial Measures

In addition to the financial measures prepared in accordance with generally accepted accounting principles (GAAP), we use certain non-GAAP financial measures, including earnings before interest, taxes, depreciation, and amortization (EBITDA) adjusted to exclude the loss from the sale of our Casting Products business in April 2007. We exclude this item because its occurrence is outside of our normal operating activities. We believe that the inclusion of this measure helps investors to gain a better understanding of our underlying operations and future prospects, consistent with how management measures and forecasts Kadant's performance, especially when comparing such results to previous periods or forecasts. We also believe this information is responsive to investors' requests and gives them an additional measure of Kadant's performance.

We use non-GAAP financial measures, in addition to GAAP financial measures, as the basis for measuring our underlying operating performance and comparing such performance to that of prior periods or forecasts and to the performance of our competitors. Such measures are also used by us in our financial and operating decision-making and for compensation purposes.

The non-GAAP financial measure included in this press release is not meant to be considered superior to or a substitute for the results of operations prepared in accordance with GAAP. In addition, the non-GAAP financial measure included in this press release has limitations associated with its use as compared to the most directly comparable GAAP measure, in that it may be different from, and therefore not comparable to, similar measures used by other companies.

EBITDA in the nine-month period ended September 29, 2007 excludes:

- Pre-tax loss from the April 2007 sale of our Casting Products business as we believe this charge to be outside of our normal operating costs and infrequent in nature.

A reconciliation of the non-GAAP financial measure to our most directly comparable GAAP financial measure is set forth in the accompanying tables.
