Form 10-Q for the quarter ended May 30, 2008

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations, page 75

1. You disclose that you tested your NYSE specialist rights for impairment in the fourth quarter of 2007 as a result of the continuing weak operating results in your NYSE specialist business. You also disclose the assumptions that you used in performing your impairment test including the assumption that overall equity trading volumes will continue to grow at a rate consistent with recent historical trends. Furthermore, you assumed that the NYSE will be able to recapture

approximately one-half of the market share that it lost in 2007. However, we note that bear market pressure has caused trading volume to decrease since the first quarter of 2008, and many believe that this trend will continue. Also, we note that the NYSE has continued to lose market share in 2008. Please tell us what consideration you gave to reassessing impairment of the specialist rights in light of the related market changes/conditions. Please see SFAS 144 for reference. Additionally, please address the effect that the weakening operating results of your NYSE specialist business and the current market conditions related to this business had on your assessment of goodwill impairment related to the acquisition of Spear, Leeds & Kellogg.

Please respond to this comment within 10 business days or tell us when you will provide us with a response. Please understand that we may have additional comments after reviewing your response to our comment.

We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filing to be certain that the filing includes all information required under the Securities Exchange Act of 1934 and that they have provided all information investors require for an informed investment decision.
