PROXY STATEMENT FOR THE ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD MAY 30, 2002**

**This proxy statement, notice of meeting and proxy cards are first being mailed on or about

QUESTIONS AND ANSWERS

Q: When and where is the meeting?

A: The meeting will be held at the Hotel Inter-Continental Barclay New York, 111 East 48th Street, New York, NY 10017, on May 30, 2002, at 10:00 a.m. New York City time.

Q: Who can vote on the proposals presented in this proxy statement?

A: Holders of our common stock at the close of business on April 1, 2002, the record date relating to the meeting, may vote, with one vote per share.

Q: What vote is required?

A: Directors will be elected by a plurality of the votes cast. The proposal to ratify the appointment of PricewaterhouseCoopers LLP as our independent auditor for the fiscal year ending December 31, 2002 requires the affirmative vote of a majority of the shares present in person or represented by proxy at the meeting and entitled to vote on the proposal.

Pearson DBC Holdings, Inc., a Delaware corporation and an indirect subsidiary of Pearson plc ("Pearson"), owns a total of 56,423,949 shares of our common stock, or approximately 60% of the total number of shares of our common stock outstanding on the record date. Pearson DBC Holdings, Inc. has informed us that it intends to vote its shares in favor of the proposals set forth in this proxy statement. These votes will be sufficient to approve the election of the nominees for director named herein and to ratify the appointment of PricewaterhouseCoopers LLP as our independent auditor for the fiscal year ending December 31, 2002.

Q: What do I need to do now?

A: Read this proxy statement. Then, if you choose to vote by proxy, you can (i) complete your proxy card and indicate how you want to vote, or (ii) vote your shares either via telephone or the Internet, the instructions for which are set forth on the proxy card. Voting via telephone or the Internet eliminates the need to return the proxy card. If you decide to vote by mail, sign and mail the proxy card in the enclosed return envelope as soon as possible. You should complete, sign and return your proxy card or vote via telephone or the Internet even if you currently expect to attend the meeting and vote in person. Mailing in a proxy card or voting by telephone or Internet now will not prevent you from later canceling or "revoking" your proxy right up to the day of the meeting, and you will ensure that your shares are voted if you later find you are unable to attend. If you sign and send in the proxy card and do not indicate how you want to vote, your proxy will be voted FOR the election of the nominees to our board of directors and FOR the ratification of the appointment of PricewaterhouseCoopers LLP as our independent auditor for the fiscal year ending December 31, 2002.

Q: If my broker holds my shares in "street name," will my broker vote my shares for me?

A: You should follow the directions your broker provides in order to instruct your broker how you wish to vote. If your broker does not receive appropriate instructions from you, the broker may choose, in its discretion, how to vote your shares held in street name with respect to the election of nominees for director named herein and the ratification of the appointment of PricewaterhouseCoopers LLP as our independent auditor for the fiscal year ending December 31, 2002.

Q: Can I change my vote after I have mailed my signed proxy card?

A: Yes. You can change your vote at any time before your shares are voted at the annual meeting by delivering a signed notice of revocation to our corporate secretary, by delivering a later dated signed proxy card, by submitting a new proxy via telephone or the Internet or by attending the annual meeting and voting in person.

Q: Where can I find more information about Interactive Data Corporation?

A: We file reports and other information with the United States Securities and Exchange Commission ("SEC"). You may read and copy this information at the SEC's public reference facilities. Please call the SEC at 1-800-SEC-0330 for information about these facilities. The reports and information also are available at the Internet site the SEC maintains at <http://www.sec.gov>.

THE ANNUAL MEETING

General

We are furnishing this proxy statement to our stockholders in connection with the solicitation of proxies by our board of directors. Our board of directors will use the proxies at the annual meeting of our stockholders to be held on May 30, 2002 and at any adjournment or postponement thereof for the following purposes:

- To elect a board of directors of 10 members, to serve until our next annual meeting and until their successors have been duly elected and qualified or upon their earlier death, resignation or removal.
- To consider and act upon the proposal to ratify the appointment of PricewaterhouseCoopers LLP as our independent auditor for the fiscal year ending December 31, 2002.
- To transact any other business as may properly be brought before our annual meeting or any adjournment or postponement thereof.

This proxy statement, notice of meeting and proxy cards are first being mailed on or about April 30, 2002 to our stockholders eligible to vote at the meeting.

You should be aware that the company was formerly known as Data Broadcasting Corporation and changed its name to Interactive Data Corporation following stockholder approval at last year's annual meeting. In addition, in conjunction with changing its name last year, the company changed its Nasdaq trading symbol from DBCC to IDCO. By way of background, on February 29, 2000, Data Broadcasting Corporation completed a merger with Interactive Data Corporation (now known as FT Interactive Data Corporation), then a wholly owned subsidiary of Pearson Longman, Inc. Pearson Longman, Inc., through a series of other entities, is wholly owned by Pearson. Upon the merger, the company issued 56,423,949 shares of common stock to Pearson Longman, Inc., which were subsequently transferred to Pearson DBC Holdings, Inc., a wholly owned subsidiary of Pearson Longman, Inc. As a result, Pearson became the indirect holder of approximately 60% of our common stock. In this proxy, when we refer to the company we mean the combined business that resulted from the merger.

Date, Place and Time

The annual meeting of our stockholders will be held at the Hotel Inter-Continental Barclay New York, 111 East 48th Street, New York, NY 10017, on May 30, 2002, at 10:00 a.m. New York City time.

Record Date

Our board of directors fixed the close of business on April 1, 2002 as the record date for the annual meeting. Accordingly, only holders of our common stock of record at the close of business on April 1, 2002 will be entitled to notice of, and to vote at, the annual meeting.

Stockholders Entitled to Vote

As of the close of business on April 1, 2002, there were 90,914,668 shares of our common stock outstanding, and such shares of common stock were held by approximately 1,537 holders of record. Each share of our common stock entitles the holder thereof to one vote. Pearson DBC Holdings, Inc., an indirect subsidiary of Pearson, held 56,423,949 shares of our common stock, or approximately 60% of the total number of shares of our common stock outstanding on the record date.

Vote Required

Quorum

Representation of a majority of our shares of common stock outstanding on the record date, either in person or by proxy, will constitute a quorum for the meeting. Proxies received, even if marked with abstentions or if votes are not indicated, will be included in the calculation of the number of shares for a quorum.

Proposals and Vote Required for Approval

Proposal

Election of Directors

Ratification of the appointment of PricewaterhouseCoopers LLP as our independent auditor for the fiscal year ending December 31, 2002.

Vote Required for Approval

Requires a plurality of the votes cast. For purposes of determining which nominees receive a plurality, only those cast "For" or "Against" are included, and any abstentions will not count in making that determination. There will be no broker non-votes for this matter.

Requires the affirmative vote of a majority of the shares present in person or represented by proxy at the meeting and entitled to vote on the proposal. For purposes of determining the number of votes cast, only those cast "For" or "Against" are included, and any abstentions will have the effect of a vote "Against" the proposal. There will be no broker non-votes for this matter.

Approval

Pearson DBC Holdings, Inc., which as of the record date owned approximately 60% of the outstanding shares of our common stock, has informed us that it intends to vote its shares in favor of the proposals set forth in this proxy statement. These votes will be sufficient to approve the election of the nominees for director named herein and to ratify the appointment of PricewaterhouseCoopers LLP as our independent auditor for the fiscal year ending December 31, 2002.

Voting of Proxies

All properly executed proxies, and all proxies properly submitted via telephone or the Internet, received before the vote at the annual meeting, and not revoked, will be voted in accordance with the instructions indicated on the proxies or indicated by telephone or Internet, as applicable. If no instructions are indicated on a returned proxy, such proxies will be voted FOR the election of the nominated slate of directors and FOR the ratification of the appointment of PricewaterhouseCoopers LLP as our independent auditor for the fiscal year ending December 31, 2002. Abstentions do not affect the election of the directors but have the effect of a vote "Against" the ratification of the independent accountants. There will be no broker non-votes for these matters, as they are considered to be "routine."

Revocability of Proxies

A stockholder who has given a proxy solicited by our board of directors may revoke it by:

- delivering a signed notice of revocation to our corporate secretary;
- delivering a later dated signed proxy;
- submitting a new proxy via telephone or the Internet; or
- attending the annual meeting and voting in person.

Any written notice of revocation must be sent to Interactive Data Corporation, 22 Crosby Drive, Bedford, Massachusetts 01730, Attention: Corporate Secretary, so as to be delivered at or before the taking of the vote at the annual meeting. Attendance at the annual meeting will not, by itself, revoke a proxy.

Solicitation of Proxies

In addition to solicitation by mail, our directors, officers, and employees may solicit proxies from stockholders by telephone or in person. These persons will not receive additional compensation for soliciting proxies but may be reimbursed reasonable out-of-pocket expenses. Arrangements will also be made with

brokerage houses and other custodians, nominees and fiduciaries to forward solicitation material to our stockholders. We may reimburse these custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses. We will pay for all of the expenses of the annual meeting proxy solicitation.

ELECTION OF DIRECTORS

At our annual meeting, 10 directors are to be elected, each to hold office (subject to our by-laws) until the next annual meeting of our stockholders and until a respective successor has been elected and qualified or until the respective director's earlier death, resignation or removal. Stuart J. Clark, John Fallon, Donald P. Greenberg, Stephen Hill, Alan J. Hirschfield, Philip J. Hoffman, Gloria Samuels, Giles Spackman, Carl Spielvogel and Allan R. Tessler were elected to serve as directors at our last annual meeting. Following the resignation of Gloria Samuels on October 24, 2001, our board of directors appointed William T. Ethridge to serve as one of our directors. If any nominee should become unavailable for any reason, the proxies will be voted for (a) any substitute nominee or nominees who may be selected by the board of directors prior to or at the annual meeting or, (b) upon motion of the board of directors, either (i) for a motion to reduce the membership of the board to the number of nominees available (if no substitute is selected by the board of directors prior to or at the annual meeting) or (ii) to elect fewer nominees than the number fixed for our board of directors, in which event the vacancy may thereafter be filled by a vote of our board of directors. Each person nominated has consented to his or her nomination.

Shares represented by executed proxies will be voted, if authority to do so is not withheld, for the election of the 10 nominees named below. Shares may not be voted cumulatively. Pursuant to our by-laws, the 10 candidates receiving the greatest number of votes shall be elected as directors.

Board Committees and Meetings

During the fiscal year ended December 31, 2001, our board of directors held five meetings and took four actions by written consent. Our board of directors has an audit committee, a compensation committee and an independent committee. Our board of directors does not have a nominating committee; such matters are discussed by our board as a whole. Other than Mr. Spackman, each of the current directors attended, in the aggregate, 75% or more of the meetings of the board of directors and of the committees of the board of directors on which they served during the fiscal year ended December 31, 2001.

The audit committee currently consists of Messrs. Greenberg, Spielvogel and Tessler with Mr. Tessler as its chairman. Pursuant to the rules of the Nasdaq Stock Market, the audit committee is generally required to consist of at least three independent directors. Messrs. Greenberg and Spielvogel are independent directors, but Mr. Tessler is not considered independent under the applicable Nasdaq regulations because he was our co-chief executive officer until February 29, 2000 and, in the fiscal year ended December 31, 2001, he received from us compensation in excess of \$60,000 pursuant to a letter agreement in connection with his termination from the company on February 29, 2000 (see "— Related Party Transactions"). Our board of directors has determined that, although Mr. Tessler is not technically considered independent within the meaning of the Nasdaq rules, exceptional and limited circumstances exist such that our best interests and the best interests of our stockholders are served by Mr. Tessler's membership on the audit committee. As a member of our board of directors for nearly ten years and a member of our audit committee for the past two years, Mr. Tessler has acquired a thorough understanding of our operations and audit and financial reporting functions. In addition, as a senior executive in the financial services industry, Mr. Tessler possesses a high degree of financial sophistication, and these qualities make him a uniquely valuable member of the audit committee. Our board of directors has reviewed Mr. Tessler's business relationship with us that disqualifies him as "independent"

under the Nasdaq Rules and has concluded that this relationship will not impair his ability to fulfill his responsibilities as a member of the audit committee.

The audit committee functions pursuant to a written charter. The audit committee is currently charged with, among other things, recommending to the board of directors the engagement or discharge of the independent auditor, reviewing the plan and results of the auditing engagement with our officers and independent auditor, reviewing with our officers the scope and nature of our internal accounting controls and reporting to the board of directors on the audit committee's activities, conclusions and recommendations, including a recommendation as to whether our audited financial statements should be included in our Annual Report on Form 10-K. During 2001, the audit committee met on six occasions and acted by written consent on one occasion.

The compensation committee currently consists of Messrs. Greenberg, Hill and Hoffman, with Mr. Hill as its chairman. The committee may take any and all actions which may be taken by our board of directors to review and approve executive and senior management compensation. During 2001, the compensation committee met on four occasions and acted by written consent on three occasions.

The independent committee currently consists of Messrs. Greenberg, Hirschfield and Tessler, with Mr. Tessler as its chairman. The committee was formed on February 14, 2001. The committee is delegated all authority of our board of directors to consider, negotiate and approve on our behalf all transactions and agreements between us and Pearson or any of Pearson's affiliates. During 2001, the independent committee met on four occasions.

Pearson Plans

As described in the foregoing footnotes, certain of our named executive officers participated in benefit programs offered by Pearson. The Pearson Reward Plan has two elements: grants of Pearson premium priced options and grants of shares of Pearson common stock. Under the plan, options granted become exercisable only if the price per share of Pearson common stock reaches prescribed levels measured at three tiers over periods of between three and seven years from the date of grant. In addition, options granted under this plan may be exercised only following an increase in Pearson's adjusted earnings per share of at least 3% per annum over a three-year period. Shares are granted under the plan only if the three-year cumulative growth in Pearson's free cash flow (defined as operating cash flow less tax liabilities on operating activities and interest paid) is above certain prescribed levels. No awards to our executive officers were made after 2000 under this plan.

Under the Pearson 1998 US Executive Share Option Plan, Pearson grants options to more employees than those covered by the Pearson Reward Plan. Options granted under this plan may be exercised only

following an increase in Pearson's adjusted earnings per share of at least 3% per annum over a three-year period. No awards to our executive officers were made after 2000 under this plan.

Under the Pearson Annual Bonus Share Matching Plan, eligible employees are allowed to take up to 50% of any after-tax annual bonus in the form of shares of Pearson common stock which, if held, and Pearson's adjusted earnings per share increases by at least 3% per annum, will be matched on a gross basis of one share for every two held after three years and another one share for every two originally held (i.e., a total of one-for-one) after five years. Our executive officers will not participate in this plan for bonuses earned after 2000.

Option Grants in Last Fiscal Year

The following table provides information concerning grants of stock options under our 2000 Long Term Incentive Plan ("LTIP") for the named executive officers for the fiscal year ended December 31, 2001. We did not grant any stock appreciation rights during the fiscal year ended December 31, 2001. No stock options were exercised by the named executive officers in 2001.

Name	Individual Grants(1)				
	Number of Shares of Common Stock Subject to Options Granted (#)	% of Total Options Granted to Employees in Fiscal Year	Exercise Price (\$ Per Share)	Expiration Date	Grant Date Present Value \$ (2)
Stuart J. Clark	500,000	9.17%	\$8.80	6/15/11	\$2,965,000
Steven G. Crane	60,000	1.17%	\$8.80	6/15/11	\$ 355,800
Raymond L. D'Arcy	200,000	3.88%	\$8.80	6/15/11	\$1,186,000
John L. King	200,000	3.88%	\$8.80	6/15/11	\$1,186,000
Andrea H. Loew	100,000	1.94%	\$8.80	6/15/11	\$ 593,000

- (1) Options vest according to the following schedule: (i) 12.5% on each of the first, second, third and fourth anniversary of the grant date; and (ii) 7.5% on the first business day after a period of 20 consecutive business days on which the closing price of the Company's stock is \$10.80 or greater, 12.5% (plus the 7.5% above, if not vested) on the first business day after a period of 20 consecutive business days on which the closing price is \$13.00 or greater, 30% (plus the 20% above, if not vested) on the first business day after a period of 20 consecutive business days on which the closing price is \$15.60 or greater. Any unvested shares vest and become exercisable immediately upon termination of employment within one year following a change in control (as defined in the option agreements) of the company (excluding termination for cause or voluntary resignation).
- (2) "Grant Date Present Value" has been calculated using the Black-Scholes pricing model, a widely recognized method of determining the present value of options. The actual value, if any, an executive officer may realize will depend on the extent to which the conditions to exercisability of the option are satisfied and the excess of the stock price over the exercise price on the date the option is exercised. It is highly unlikely that the value realized by the above employees will be consistent with the value estimated by Black-Scholes model. The estimated values under that model are based on assumptions regarding interest rates, stock price volatility and future dividend yield. The model is used for valuing market traded options and is not directly applicable to valuing stock options granted under our company's LTIP which cannot be transferred.

All options reported above were awarded under our LTIP. Pursuant to the terms of the plan, the exercise price per share for all options is determined by the committee authorizing such award or our board of directors. Stock option exercise prices were equal to the fair market value (as defined in the LTIP) of our common stock on the date of grant.

Aggregated Option Exercises In Last Fiscal Year And FY-End Option Values

The following table provides information concerning the exercise of stock options during the fiscal year ended December 31, 2001 and unexercised stock options held as of December 31, 2001 by the named executive officers.

Name	Number of Unexercised Options at FY-End		Dollar Value of Unexercised In-the-Money Options at FY-End(1)	
	Exercisable	Unexercisable	Exercisable	Unexercisable
Stuart J. Clark	112,756	423,498	\$672,151	\$3,597,777
Steven G. Crane	112,000	128,000	\$775,680	\$ 946,320
Raymond L. D'Arcy	40,000	160,000	\$213,600	\$ 854,400
John L. King	40,000	160,000	\$213,600	\$ 854,400
Andrea H. Loew	20,000	80,000	\$106,800	\$ 427,200

- (1) These amounts represent the difference between the exercise price of the stock options and the closing price of our common stock on December 31, 2001 for all in-the-money options held by the named executive. The in-the-money stock option exercise prices range from \$3.00 to \$8.80.

Compensation of Directors

For fiscal year 2001, Messrs. Greenberg, Hirschfield, Spielvogel and Tessler, as non-employee directors, received fees of \$1,250 for each month served as director as well as reimbursement for travel and other expenses. Additionally, Mr. Tessler received aggregate fees of \$6,000 for his service as chairman of each of the audit committee and the independent committee. All other directors, who are either our employees or are affiliated with Pearson, did not receive compensation for service on our board of directors. In addition, in February 2001, Messrs. Greenberg, Hirschfield and Tessler were each granted fully vested stock options to acquire 10,000 shares of our common stock with an exercise price of \$5.53; in December 2001, Messrs. Greenberg and Spielvogel were each granted fully vested stock options to acquire 10,000 of our common stock with an exercise price of \$13.60; and in March 2002, Messrs. Greenberg, Hirschfield, Spielvogel and Tessler were each granted fully vested stock options to acquire 12,500 of our common stock with an exercise price of \$17.89, in each instance for service on our board of directors and committees during fiscal year 2001, all in accordance with the terms of our LTIP.

Employment Contracts and Termination of Employment and Change of Control Arrangements

We entered into an employment agreement with Mr. Crane, our chief financial officer, on October 15, 1999. The term of his agreement commenced on November 29, 1999 and continues until June 30, 2003. The agreement provided a minimum base salary of \$300,000 from the commencement date through June 2001 and \$325,000 from July 2001 through the end of the agreement. Mr. Crane is also entitled to receive a performance based bonus of up to 100% of his base salary subject to the discretion of the compensation committee of our board of directors. Mr. Crane is prohibited from competing with us during the entire term of the agreement and for two years after its termination. In the event of certain involuntary terminations (i) Mr. Crane will receive a lump sum payment equal to 150% of his base salary for a period of the greater of one year or the balance of his employment term and (ii) the period under which Mr. Crane is subject to a covenant not to compete with us will be reduced to one year. In the event of a termination of Mr. Crane in connection with a change of control, all of Mr. Crane's issued but unvested options will vest immediately.

We currently have no other compensation plan or arrangement with respect to any of the executive officers named on the Summary Compensation Table, which is or will be triggered by the resignation, retirement, or other termination of such individual's employment with us or by a change in our control or a change in the individual's responsibilities following a change in control, except options granted under our LTIP. See "— Executive Compensation — Option Grants in Last Fiscal Year."

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16 of the Securities Exchange Act of 1934, as amended, requires our directors and executive officers, and any person who owns more than 10% of a registered class of our equity securities, to file with the SEC, initial reports of ownership and reports of changes in ownership of common stock and our other equity securities. Based upon the information supplied to us by such persons, we are required to report any known failure to file these reports within the period specified by the instructions to the reporting forms. To our knowledge, based upon a review of the Section 16(a) reports furnished to us and the written representations of officers and directors, all these filing requirements were satisfied by our directors and executive officers for the fiscal year ended December 31, 2001, except that Carl Spielvogel did not timely file his annual statement of changes in beneficial ownership on Form 5 with respect to the granting of two sets of options.

Compensation Committee Interlocks and Insider Participation

During 2001, the compensation committee consisted of Messrs. Greenberg, Hill and Hoffman, with Mr. Hill serving as chairman. Messrs. Hill and Hoffman are employees of Pearson. No member of the compensation committee was an employee of our company or any of our subsidiaries.

Compensation Committee Report on Executive Compensation

The compensation committee has provided the following report to our stockholders:

The purpose of the compensation committee of the board of directors is to make recommendations regarding compensation of our executive officers.

Compensation Policies and Procedures for Executive Officers

The compensation committee seeks to set compensation at levels and through arrangements that will attract and retain qualified executive managerial talent. The compensation committee ties the compensation to both the individual's and our company's performance by rewarding employees for past contributions, and by setting goals that encourage managerial efforts consistent with corporate growth, strategic progress and the creation of stockholder value. After consultation with outside compensation consultants, the compensation committee has concluded that a mix of salary, performance-based incentive bonus and stock options will achieve those objectives.

Generally, base salaries for executive officers are reviewed annually. Calendar year 2001 salary increases were based upon a review of compensation levels for comparable executive positions using data assembled and analyzed by outside compensation consultants. In assessing compensation levels for individual executive officers, consideration was given to the executive's relative and absolute performance, experience and scope of responsibilities. This assessment was not subject to specific weightings or formulas and gave consideration to the executive's level of compensation relative to survey data provided by the consultants as well as the overall salary budget established by our company. Because the base salary level for Mr. Crane for the 2001 fiscal year was set by the terms of his employment agreement, the compensation committee did not evaluate or adjust the stipulated amount in 2001.

In addition to base salary, executive officers are eligible to participate in our company's Key Manager Bonus Plan. This plan provides the executive officers with the opportunity to receive an incentive bonus equal to a percentage of their base salary. The executive officers earn such incentive pay if our company achieves specified financial targets subject to the review and evaluation of the compensation committee.

Under our company's LTIP, the compensation committee may grant stock option awards. Options tie a portion of compensation directly to our company's stock performance. Option grant levels take into consideration various surveys conducted by our outside compensation consultants, prevailing labor market practices and an employee's individual position and ability to impact corporate financial performance.

Following a review of option grant practices by other companies and as a result of the lack of option grants to our executive officers surrounding the time of the merger with Data Broadcasting Corporation, we made larger than usual option grants to executive officers in 2001. We do not expect the size of option grants in 2002 to be at the increased levels of 2001.

Basis for the Compensation of the Chief Executive Officer

The compensation for Mr. Clark for the 2001 fiscal year was set at a level consistent with other chief executives of companies in similar businesses using data compiled and analyzed by our outside compensation consultants. Mr. Clark's bonus arrangement provided for a payment based upon our company's attainment of certain financial targets and Mr. Clark's individual performance. If performance targets were not attained, no bonus would be payable; if targets were exceeded an additional amount could be awarded. In addition, Mr. Clark was granted options to purchase shares of our company's common stock. A portion of the stock options granted under the LTIP will deliver value to Mr. Clark in direct proportion to our company's stock price appreciation. No specific formula or weighting was used to determine the distribution of compensation between base salary, bonus and long term incentives.

Report of the Audit Committee of the Board of Directors

The audit committee has provided the following report to our stockholders:

The purpose of the audit committee is to review the company's financial reporting process on behalf of the board of directors. The audit committee operates under a written charter which is filed as an exhibit to our proxy statement relating to last year's annual meeting of stockholders filed with the SEC in April 2001.

Management is responsible for the company's financial reporting process, including its system of internal controls, and for the preparation of consolidated financial statements in accordance with generally accepted accounting principles. The company's independent auditor is responsible for auditing those financial statements and expressing an opinion on the conformity of the company's audited financial statements in accordance with accounting principles generally accepted in the United States of America. The audit committee's responsibility is to monitor and review these processes. It is not the audit committee's duty or responsibility to conduct auditing or accounting reviews or procedures. The audit committee members are not employees of the company and they may not be, and they may not represent themselves to be or to serve as, accountants or auditors by profession or experts in the fields of accounting or auditing. Therefore, the audit committee has relied, without independent verification, on management's representation that the financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States of America and on the representations of the independent auditor included in its report on the company's financial statements. The audit committee's oversight does not provide it with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the audit committee's considerations and discussions with management and the independent auditor does not assure that the company's financial statements are presented in accordance with generally accepted accounting principles, that the audit of the company's financial statements has been carried out in accordance with generally accepted auditing standards or that the company's independent auditor is in fact "independent."

The audit committee has reviewed and discussed with the independent auditor and management the plan and results of the auditing engagement and the audited financial statements. The audit committee has reviewed with management the scope and nature of the company's internal auditing controls and has discussed with the independent auditor the matters required to be discussed by Statement on Auditing Standards No. 61, Communication With Audit Committees. In addition, the audit committee has received from the independent auditor the written disclosures required by Independence Standards Board No. 1, Independence Discussions With Audit Committees and discussed with the independent auditor its independence from the company and its management. The audit committee considered whether the provision of nonaudit services by the independent auditor is compatible with maintaining the independent auditor's independence and concluded that it is compatible at this time.

The audit committee has also reported to the board of directors its activities, conclusions and recommendations. Specifically, in reliance on the reviews and discussions referred to above, the audit committee recommended to the board of directors, and the board has approved, that the audited financial statements be included in the company's Annual Report on Form 10-K for the year ended December 31, 2001, as filed with the SEC on March 25, 2002. The audit committee has also recommended to the board of directors, and the board has approved, the reappointment of PricewaterhouseCoopers LLP as the company's independent auditor for the fiscal year ending December 31, 2002. Consistent with prior years, the audit committee will continue to meet with the company's independent auditor on a quarterly basis in connection with the independent auditor's quarterly review of the company's results of operations.

Respectfully submitted,

AUDIT COMMITTEE

Allan R Tessler, Chairman
Donald P. Greenberg
Carl Spielvogel

Stock Performance Graph

The graph presented below compares annual cumulative total stockholder return, assuming dividend reinvestment, for the five year period ended December 31, 2001, on an assumed investment of \$100 on January 1, 1997, in our company, the NASDAQ National Market Composite Index, a broad market index measuring all companies listed on the Nasdaq National Market, and the NASDAQ Financial-100 Market Index, a peer group index, of which we are a part. We believe that the NASDAQ Financial-100 Market Index is composed of domestic and international financial companies that are more representative of our business and the markets within which we operate than other more widely published indices. Stockholder return is measured by dividing (a) the sum of (i) the cumulative amount of dividends and (ii) the difference between the issuer's share price at the end and at the beginning of the measurement period by (b) the share price at the beginning of the measurement period.

Related Party Transactions

We and Pearson are party to a Management Services Agreement that renews annually. In accordance with this Agreement, beginning on February 29, 2000, Pearson and certain of its subsidiaries provide various services to us and we began providing certain services to Pearson. The Management Services Agreement has been approved by our independent committee of our board of directors on our behalf. The services provided by Pearson afford us an administrative convenience and we believe that the terms of these services are more favorable to us than if we had negotiated similar arrangements with non-affiliated third parties. The services provided by Pearson to us include administering the 401(k) and employee health benefit plans, insurance, and billing, accounts payable, accounts receivable, computer and accounting system support, financial accounting and tax and payroll services related to certain of our subsidiaries, primarily in England. A majority of these services including 401(k) administration, health insurance and certain tax consulting, are billed to us at Pearson's cost. The services provided by us to Pearson include editorial, information technology and property services. Certain of our directors are officers of Pearson. See "— Nominees." In fiscal year 2001, we incurred a net expense of \$1,749,253 for services provided for in the Management Services Agreement.

On March 7, 2001, Pearson's Financial Times Group entered into a trademark license agreement with us authorizing us to use the "FT" and "Financial Times" trademarks and logos in our business. The license grants us the right to use the FT and Financial Times brands for a five-year period for one British Pound with an automatic annual renewal thereafter, unless terminated. The license is subject to quality control standards, restrictions on sublicensing the trademarks to third parties and certain other restrictions. The agreement was approved by the independent committee of our board of directors on our behalf.
