International Barrier Technology Reports Second Consecutive Quarterly Profit

Fire Resistant Building Materials Company Achieves Nine-Month Revenue of \$1.6 Million

Watkins, MN, Vancouver, BC, June 3, 2003 - International Barrier Technology Inc. ("Barrier") (IBTGF: OTCBB, TSXV: IBH), a provider of environmentally friendly fire resistant building materials, has released unaudited financial results for its third quarter ending March 31st, 2003.

Sales increased 33.5% to CDN \$1,634,135 for the nine-month period ending March 31, 2003, compared to \$1,223,667 for the same period last year. Gross profit was up by \$39,003 (12.8 percent) to a total of \$342,604. The gross profit margin declined slightly to 21.0 percent versus 24.8 percent in the previous year. Barrier reported a net loss of \$27,419 or \$0.00 per share for the nine-month period, down from a net loss of \$223,097 or \$0.01 per share in the previous year. Barrier's net income was \$98,130 for the three months ending March 31, 2003. This is Barrier's second consecutive quarter of profitability.

"Barrier has achieved impressive sales growth in the year to date," said Dr. Michael Huddy, Barrier's President. "Particularly exciting is the success of our marketing strategy in our primary market of Florida, where we achieved 82.7% year-over-year growth in sales volume. We are now extending this successful marketing strategy to significant new markets and product applications, and I am confident Barrier will continue to deliver sales growth."

About International Barrier Technology Inc.

International Barrier Technology Inc. develops, manufactures, and markets proprietary fire resistant building materials branded as Blazeguard®. The award-winning Blazeguard structural wood panels use a patented, non-toxic, non-combustible coating with an extraordinary capability: it releases water in the heat of fire. The panels exceed International Building Code requirements in every targeted fire test and application, and are unique in combining properties that increase panel strength and minimize environmental and human impact. Blazeguard customers include Centex, D.R. Horton, K.B. Homes, and Lennar. Lowe's Companies is a Blazeguard distributor.

International Barrier Technology Passes Certification Hurdle to Launch Significant Market Opportunity in Mobile Offices/Modular Buildings

Fire Resistant Building Materials Company Passes Critical Fire and Wind Tests to Meet Strict Building Code Requirements for a Commercial Roof Deck System on Mobile/Modular Structures

Watkins, MN; Vancouver, BC - June 19, 2003 - International Barrier Technology Inc. ("Barrier") (IBTGF: OTCBB; IBH: TSXV), a provider of environmentally friendly, fire resistant building materials, has successfully completed rigorous fire and wind tests that will enable the company and its partner in the endeavor, Mule-Hide Products Co., Inc., to have a Class C rated commercial roof deck assembly labeled and listed by Underwriters Laboratories Inc. (UL). The UL certification will enhance the sales launch of Barrier's products into a new market: factory-built mobile offices and modular buildings for commercial use.

Building code standards and their enforcement are becoming increasingly stringent, and modular building manufacturers are demanding improved solutions to meet these requirements. Barrier and Mule-Hide formed a joint initiative to design and introduce new "rated" roof deck assemblies that would provide superior fire and wind ratings compared to existing materials. While the majority of mobile commercial buildings are required to have a Class C fire rating, most are built to the more stringent Class A standard, since an effective, cost efficient Class C system has to date not been introduced.

On June 9 and 10, 2003, Barrier and Mule-Hide completed the Class C test requirements for ASTM E-108, Standard Test Methods for Fire Tests of Roof Coverings and UL 1897, UL's proprietary Wind Uplift Test for Roof Covering Systems. Using Barrier's Blazeguard® fire rated wood panel, the system surpassed 240 psf wind uplift rates and will enable building users to locate these modular buildings in most coastal regions where wind is a structural design issue. Barrier anticipates the listing and labeling process to be completed within months. Sales efforts will begin immediately.

"There is a great need for a Class C rated roof system in the mobile/modular market. The Blazeguard-based system fits this need to a "T"," said Walt Griffin, Modular Program Manager for Mule-Hide. "I am looking forward to a great relationship with Barrier as we introduce the new Blazeguard/Mule-Hide roof deck system to the industry."

"The commercial mobile/modular building industry manufactured 67.5 million square feet of new structures in 2001. This is a market with the potential to significantly expand Barrier's sales," noted Dr. Michael Huddy, Barrier's President. "These buildings are used for construction sites, education, healthcare and many other commercial uses, and this market opportunity complements Barrier's growing success in multi-family residential dwelling construction."

Mule-Hide Products Co., Inc.

Mule-Hide Products Co., Inc., a subsidiary of ABC Supply, Inc., is a leading supplier of commercial roofing products to mobile/modular structure manufacturers. Mule-Hide distributes a variety of quality roofing materials through ABC Supply, which now has over 200 distribution centers nationwide. For more information:

**International Barrier Expands Distribution Capabilities
in Relationship with Stock Building Supply**

Fire Resistant Building Materials Company Targets Major Construction Markets in Distribution Relationship with Largest U.S. Distributor to Building Contractors

Watkins, MN; Vancouver, BC July 09, 2003 - International Barrier Technology Inc. ("Barrier") (IBTGF: OTCBB; IBH: TSXV), a provider of environmentally friendly, fire resistant building materials, has qualified as and become a "Preferred Vendor" to Stock Building Supply. This new distribution relationship is a major step in expanding Barrier's distribution channel, as Stock is the largest U.S. supplier of building materials to professional building contractors. Stock will augment Barrier's distribution capability in existing and new markets. Barrier has made its first shipment to a Stock location in Virginia, an expanding multi-family residential construction market where Barrier is achieving growing sales.

"Stock is exclusively focused on Blazeguard's end users, who are professional builders and contractors," said Dr. Michael Huddy, Barrier's President. "Barrier expects that Stock Building Supply will play an emerging and important role in Blazeguard distribution as we develop new U.S. market territories."

About Stock Building Supply

Stock Building Supply and its associated companies have been in the business of providing a full line of quality building materials for over 100 years. It is the largest supplier to professional building contractors, with over 200 locations in 24 states and sales exceeding \$2.7 billion a year. Stock's parent company is Wolseley (WOS: NYSE).
