**INTERNATIONAL BARRIER TECHNOLOGY INC.**  
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS  
March 31, 2006  
(Stated in U.S. Dollars)  
(Unaudited)

Note 1    Interim Reporting

While the information presented in the accompanying nine months to March 31, 2006 financial statements is unaudited, it includes all adjustments which are, in the opinion of management necessary to present fairly the financial position, results of operations and cash flows for the interim period presented in accordance with accounting principles generally accepted in the United States of America. In the opinion of management, all adjustments considered necessary for a fair presentation of the results of operations and financial position have been included and all such adjustments are of a normal recurring nature. It is suggested that these interim unaudited financial statements be read in conjunction with the Company's audited financial statements for the year ended June 30, 2005.

Operating results for the nine months ended March 31, 2006 are not necessarily indicative of the results that can be expected for the year ending June 30, 2006.

During the nine months ended March 31, 2006, the Company changed from Canadian generally accepted accounting principles ("GAAP") to United States GAAP and changed its reporting currency from Canadian dollars to United States dollars.

Note 2    Share Capital

Escrow:

At March 31, 2006, there are 48,922 shares held in escrow by the Company's transfer agent. The release of these shares is subject to the direction or determination of the relevant regulatory bodies.

Commitments:

Stock-based Compensation Plan

At March 31, 2006, the Company has granted directors, officers and consultants stock options to purchase 2,320,900 common shares of the Company.

International Barrier Technology Inc.  
Notes to the Interim Consolidated Financial Statements  
March 31, 2006  
(Stated in U.S. Dollars)  
(Unaudited) - Page 10

Note 2 Share Capital - (cont'd)

Commitments: - (cont'd)

Stock-based Compensation Plan - (cont'd)

A summary of the status of company's stock option plan for the nine months ended March 31, 2006 is presented below:

	Number Of Shares	Weighted Average Exercise Price
Outstanding, June 30, 2005	1,868,500	\$0.52
Exercised	(217,600)	\$0.61
Granted	670,000	\$0.74
Outstanding, March 31, 2006	2,320,900	\$0.57
Exercisable, March 31, 2006	2,125,900	

The following summarizes information about the stock options outstanding at March 31, 2006:

Number	Exercise Price	Expiry Date
50,000	\$0.90	April 29, 2006
57,500	\$0.44	May 2, 2007
150,000	\$0.66	July 19, 2007
400,000	\$0.80	October 6, 2007
20,000	\$0.50	February 23, 2008
428,500	\$0.09	March 5, 2008
120,000	\$0.69	March 6, 2008
1,094,900	\$0.65	August 24, 2009
2,320,900		

During the nine months ended March 31, 2006, a compensation charge associated with the grant of stock options in the amount of \$198,508 (2005: \$684,171) was recognized in the financial statements.

International Barrier Technology Inc.  
Notes to the Interim Consolidated Financial Statements  
March 31, 2006  
(Stated in U.S. Dollars)  
(Unaudited) - Page 3

Note 2 Share Capital - (cont'd)

Commitments: - (cont'd)

Stock-based Compensation Plan - (cont'd)

All stock-based compensation charges have been determined under the fair value method using the Black-Scholes option-pricing model with the following assumptions:

	Nine months ended March 31,	
	2006	2005
Expected dividend yield	0.0%	0.0%
Expected volatility	70.48%	85%
Risk-free interest rate	4.50%	2.00%
Expected terms in years	2 years	5 years

Warrants

At March 31, 2006, the following share purchase warrants were outstanding entitling the holder to purchase one common share for each warrant held as follows:

Number	Exercise Price	Expiry Date
1,253,000	\$0.92	August 20, 2006
1,890,000	\$0.64	March 22, 2007
<u>3,143,000</u>		

Note 3 Related Party Transactions

The Company was charged the following by directors of the Company or private companies with common directors during the three and nine months ended March 31, 2006 and 2005:

	Three months ended March 31,		Nine months ended March 31,	
	2006	2005	2006	2005
Wages and management fees	\$ 69,176	\$ 23,174	\$137,093	\$ 124,002

(Stated in U.S. Dollars)  
(Unaudited) - Page 4

Note 4 Trademark and Technology Rights

	March 31, 2006	June 30, 2005
Trademark and technology rights - at cost	\$ 1,000,000	\$1,000,000
Less: accumulated amortization	(229,171)	(135,421)
	<u>\$ 770,829</u>	<u>\$ 864,579</u>

Note 5 Subsequent Event

Subsequent to March 31, 2006, the Company issued 50,000 common shares at \$0.09 per share for total proceeds of \$4,500 pursuant to the exercise of share purchase options.

Note 6 Canadian and United States of America Generally Accepted Accounting Principles

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, which do not differ with those principles and practices that the Company would have followed had its financial statements been prepared in accordance with accounting principles generally accepted in Canada.

## **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

This Quarterly Report on Form 10-QSB contains forward-looking statements. These statements may be identified by the use of words like "plan", "expect", "aim", "believe", "project", "anticipate", "intend", "estimate", "will", "should", "could" and similar expressions in connection with any discussion, expectation, or projection of future operating or financial performance, events or trends. In particular, these include statements about the Company's strategy for growth, marketing expectations, product prices, future performance or results of current or anticipated product sales, interest rates, foreign exchange rates, and the outcome of contingencies, such as potential joint ventures and/or legal proceedings..

Forward-looking statements are based on certain assumptions and expectations of future events that are subject to risks and uncertainties.

Actual future results and trends may differ materially from historical results or those projected in any such forward-looking statements depending on a variety of factors, including, among other things, the factors discussed in this Quarterly Report and factors described in documents that we may furnish from time to time to the Securities and Exchange Commission.

We undertake no obligation to update publicly or revise any forward-looking statements because of new information, future events or otherwise.

International Barrier Technology Inc. (Barrier) manufactures and sells fire-rated building materials primarily in the United States. Barrier has a patented fire protective material (Pyrotite™) that is applied to building materials to greatly improve their respective fire resistant properties. Coated wood panel products are sold to builders through building product distribution companies all over the USA. Four of the top five multifamily homebuilders in the USA currently utilize Barrier's fire rated structural panel Blazeguard® in areas where the building code requires the use of a fire rated building panel.

### **Discussion of Operations and Liquidity**

Barrier's financial statements historically have been filed with both the SEC (USA) and SEDAR (Canada). However, beginning with Form 10-QSB for the second fiscal quarter, the consolidated financial statements will be disclosed in US Dollars and prepared in accordance with US Generally Accepted Accounting Principals (USGAAP). Barrier's filings with the SEC will consist of auditor-reviewed quarterly consolidated financial statements on Form 10-QSB and annual audited financial statements on Form 10-KSB. Barrier will continue to file the consolidated financial statements with SEDAR in Canada.

Sales reported for the third quarter of Fiscal 2006 were \$1,825,087 up 53% from the same period last year. Year-to-date sales, for the nine-month period ending 3/31/2006 were \$4,777,667, an increase of 44.5% from last year's nine-month total of \$3,307,453. Gross profit has improved to \$443,679 from a three-month total of \$269,762 in the previous year. Nine-month year-to-date gross profit grew to \$1,118,116 from last year's nine-month total of \$749,915, a 49% increase. Gross margin, as a percentage of sales revenue in the nine-month period has improved to 23.4%. The gross margin for the three-month period was 24.3%.

Sales, as measured by surface volume of product shipped for the quarter, were 2,155,400 sq.ft.: an increase of 58% from the 1,361,100 sq.ft. shipped during the same period the previous year. Nine-month shipment volumes have grown to 5,626,900 sq.ft. from 3,857,900 sq.ft. the previous year: an increase of 46.0%.

Sales to Mulehide Products, Inc., Barrier's business partner in the commercial modular business segment, accounted for 43% of the total volume shipped over the nine-month period. Last year during this period, sales to MuleHide accounted for 36% of sales. Sales to Mulehide began early in Calendar 2004 and the success of the product in servicing commercial modular builders has been impressive. The private labeled Blazeguard product, *Mulehide FR Deck Panel*, is an essential component of an Underwriters Laboratories, Inc. assembly listing for fire rated roofs in commercial modular buildings. Barrier anticipates that this market will continue to provide an opportunity for sustained growth and will also provide the basis for the development of other markets, such as fire rated residential roof assemblies, during Calendar 2006.

A significant quarterly year-to-year sales volume increase was also experienced in Florida, where sales volume improved from 510,000 to 1,118,100 sq.ft., an increase of 119%. Nine-month performance improved to 2,444,800 sq.ft.: an increase from the 1,485,100 sq.ft. shipped in the same period the previous year. Florida remains the number one regional market for Blazeguard's multifamily roof deck market. Florida represents 43% of total sales volume and 76% of non-MuleHide sales. Barrier has two active independent sales representatives covering the Florida geography insuring that this market will continue to be well serviced and provide significant sales.

Barrier now sells carload quantities of Blazeguard directly to four large distribution yards in Florida that previously had been required to purchase through the local wholesaler. These distribution centers are Builders First Source, Inc. (BFS); Stock Building Supply, Inc.; 84 Lumber Company; and Jones Lumber Company. Not only will direct sales to these organizations in Florida continue to help Blazeguard be priced competitively, their national presence with hundreds of locations all over the U.S. will help Barrier attain its goal of increasing market share in Midwestern and western states.

Volumes shipped to the mid-Atlantic region (coastal states from New Jersey south through South Carolina) declined 69% in the nine-month period. Volume decreased to 556,400 sq.ft. from 940,300 sq.ft. the previous year: a decrease of 383,900 sq.ft. While this decrease is due, in part, to a modest decline in housing starts in the region, Barrier believes that the independent sales representative in the region was spread too "thin" and needed additional support. For that reason, a second representative was added as of 1/1/2006. The new representative will cover the northern part of the region (New Jersey, eastern Pennsylvania, Maryland, and northern Virginia). Barrier anticipates that these two independent representatives, working with the existing distribution network in the region, will reverse the trend and add significant sales in the second half of this fiscal year.

In July 2005, Barrier hired an experienced sales manager to help administer the national sales program out of the Watkins office and also to help develop the mid-western market for Blazeguard sales. Mr. James Kleinke has been working diligently to add sales through the introduction of Blazeguard to mid-western building products distributors and builders. During this period, Mr. Kleinke has successfully engaged local Stock Building Supply distribution yards, among others, to become local stocking distributors of Blazeguard. There are now at least fifteen builders that have elected to use Blazeguard as their product of choice on townhome building developments.

Sales to the mid-west region through 3/31/2006 were 161,400 sq.ft. Barrier expects to grow this regional market to volumes similar to those being shipped into Florida. While the total amount of multifamily starts are lower in the mid-west region than in Florida, Barrier anticipates greater market share penetration because of the proximity of Blazeguard manufacturing to the market and the resulting transportation and service advantages over competitive products.

Cost of goods sold in the three-month period increased to \$1,381,408 from \$926,784 and to \$3,659,551 from \$2,557,538 for the nine-month period ending 3/31/2006. This is directly related to the higher volume of production and shipments. Average direct costs per sq.ft. of production (including the substrate) was consistent for the respective nine-month periods year to year. Comparisons of aggregate square foot production costs, however, now need to take into account the percentage of MuleHide "C" panel produced. This is because the Mulehide C panel (which comprises approximately 90% of MuleHide's total orders), has a lower treatment weight than Barrier's traditional Blazeguard panel. Since the percentage of volume shipped to MuleHide, relative to total sales, was significantly higher in the current nine months relative to the same period in the previous year, a lower average cost of production had been expected.

With the average cost of goods sold remaining constant year to year, a declining efficiency in labor and/or materials costs is indicated Barrier has been building a new production line while the existing line has continued to run at historically record volumes. While vendor labor is a significant proportion of the total cost of developing the new line, existing Barrier labor has been used extensively in a way that the total costs of construction are minimized. A result of this shared labor, and the necessity to utilize part-time, "fill-in" temporary staff, has been a reduction in the efficiencies of production.

Barrier is confident that as the line project comes to a close, and labor becomes proficient in its use (estimated by mid-2006), efficiencies will improve: both in the cost of labor and in material costs. Reductions in the average cost of goods sold will be a result of not only the completion of the work required to develop the new line, but also because the new line has been designed to run much faster and with greater efficiency than the old line. While the number of required workers on the new line will be similar to the old line, the designed production capacity of the new line will be more than twice that of the old line. Waste (materials lost as a result of the production process) is expected to fall to less than half of that experienced on the old line.

Operating expenses were higher in the three-month period reported. Operating expenses in the three-month period rose to \$92,003 from \$68,501 and fell to \$213,237 from \$224,504 in the nine-month period respectively. Barrier anticipates additional R&D related testing as the new line becomes operational and new market applications are explored.

Amortization is slightly lower in this period because some of the equipment on the old line and in the Watkins office area has now been completely depreciated. An increase in the non-cash charge for depreciation/amortization will occur when the new line construction project is complete and the line is brought into production. The amortization of the world-wide Pyrotite technology (including patents, technical know-how, and trademarks) began when Barrier purchased it in 2004 and will continue at existing rates until it is fully depreciated (eight years).

Administrative expenses in the reported three-month period increased to \$350,014 from \$222,348 for the same period last year. For the nine-month period administrative costs declined from \$1,317,955 to \$1,044,612. In the previous year, Barrier was required to begin to report a line item entitled "stock-based compensation". This figure is an estimate of the value of stock options awarded to management and key personnel as a portion of their total compensation package (see section: Critical Accounting Estimates below). Since options are typically granted with a redeemable stated value less than the current market value, a formula is used to charge the company the difference. While this reporting is a new requirement, and a true reflection of value the company is granting to key personnel, it is a "non-cash" item that does not directly impact operational performance.

Administrative expenses, net of stock based compensation, for the three-month period ending 3/31/2006 was \$328,075, an increase from \$222,348 the previous year. For the nine-month period administrative expenses, net of stock based compensation was \$846,104 this year versus \$633,784 last year. While the totals are higher, administrative costs per sq. ft. stayed constant at \$0.15 per sq. ft. for the three-month period and fell from \$0.16 to \$0.15 per sq.ft. for the nine-month period. As volumes continue to increase, a further reduction in the average cost of administrative expense per sq.ft. produced is expected. Barrier expects the reduction in the average cost of administration to have a significant impact on bottom line performance in future reporting periods.

Accounting and audit fees are up considerably in both the three and nine month period just ended. Accounting requirements have increased significantly with the enactment of the Sarbanes-Oxley Act and the result is indicated in this reporting period. Insurance costs have increased due to the purchase of a Directors and Officers insurance policy. In addition, the increase in sales volumes led to additional coverage requirements. Nine month insurance costs have risen to \$64,197 from \$19,887 the previous year.

Travel, promotion, and trade show expenses are higher as a result of increased activity and the fact that Barrier has added a sales manager. Wages and management fees for the nine-month period have grown to \$358,116 from \$196,934 reflecting the addition of professional staff including a new General Operations Manager (Ms. Jan Loebel) as well as the new Sales Manager position (Mr. James Kleinke).

Legal fees are lower, and have fallen to \$43,682 from \$61,841 for the nine-month period. Legal fees, however, are expected to increase slightly in the next period because of patent work being performed in support of the new line and developing process technology. Barrier continues to invest significant resources in sales, marketing, and investor-relations activities. Web based initiatives have been increased as Barrier is in the midst of a web-site improvement project. Personnel resources have recently been reallocated with a Director of Investor Relations being added to the Watkins, Minnesota staff. Further announcements related to this realignment can be expected in future communications.

Barrier assisted MuleHide Building Products in their participation in the Modular Builders Institute (MBI) annual trade show and conference. The MBI was held in March 11-14, 2006 in Jacksonville, FL. Trade shows serve to increase product and market awareness of Blazeguard®, the Pyrotite™ technology, and Barrier's corporate achievements.

Barrier will continue to expand upon its shareholder and customer communication programs to ensure the public is informed about business development and emerging opportunities. In addition, Barrier has been featured on ongoing regional cable broadcasts of the television show, "Business and Beyond". Business and Beyond is an ongoing business information show produced by Platinum Television and hosted by the famous Fox TV broadcaster, James Brown. The Business and Beyond show will soon be scheduled for a national CNBC time slot to be broadcast prior to the end of this fiscal year. By the end of the shows running, it will have been aired at least 100 times on regional cable in addition to the guaranteed national broadcast.

Other items include expenses and income not directly relate to business operations. Other items include such things as foreign exchange gain (loss), interest income and royalty fees. Now that the consolidated quarterly statement will be reported in US dollars, the impact of foreign exchange will be diminished. The majority of costs and revenues are originally booked as US dollars so there will not be a significant amount of currency that will have to be converted (e.g., Canadian funds) in subsequent financial disclosures.

Other items reported herein include \$7,779 in interest income for the three-month period and \$18,645 for the nine-month period ending 3/31/2006. Additionally, Barrier received \$51,446 in royalty fees from Pyrotite Corporation for the three-month period and \$55,399 for the nine-month period. Pyrotite Corporation reserved the rights to "integrally" treated OSB when Barrier purchased the worldwide patents and Pyrotite technology in 2004.

Pyrotite Corporation entered into a sales agreement with an OSB producer during this fiscal quarter. Pyrotite has disclosed to Barrier that future royalties, based on sales of Pyrotite "substances", can be expected while the OSB producer continues their quest to develop and market an integrally treated, fire-resistant OSB product.

Net income of \$60,887 is reported here for the three-month period ending 3/31/2006, whereas in the same period in 2005, a loss of \$11,273 was reported. A net loss of \$67,225 is reported here for the nine-month period, whereas in the same period in 2005, a loss of \$768,892 was reported. Net nine month income, without accounting for stock based compensation was a positive \$131,283 in the nine months ending 3/31/2006 versus a loss of \$84,721 in the same period ending in 2005.

Summary of Quarterly Results. The following is a summary of the Company's financial results for the eight most recently completed quarters:

	Mar 31	Dec 31	Sept 30	June 30	Mar 31	Dec 31	Sept 30	June 30
	2006	2005	2005	2005	2005	2004	2004	2004
Volume shipped (MSF)	2155.4	1820.2	1,651.4	1,305.9	1,361.1	1,290.6	1,206.3	1,278.3
Total Revenues (000\$)	1.825	1.611	1.342	1.069	1.196	1.041	1.070	1.182
Operating Income	1.7	(187.5)	46.1	(332.6)	(21.1)	(210.3)	(473.0)	(10.3)
Net income (loss)	60.9	(183.9)	55.8	(213.0)	(11.3)	(113.1)	(644.6)	(10.4)
Per Share	(0.00)	(0.01)	(0.00)	(0.01)	(0.00)	(0.00)	(0.03)	(0.00)
Per share, fully diluted	N/A	N/A	(0.00)	N/A	N/A	N/A	N/A	N/A

Sales volumes continue to increase in a significant way. Sales volume shipped in the most recent quarter was the highest in Barriers history and 18% higher than the record set in the second quarter of this fiscal year. Volume of product shipped in the nine-month period ended 3/31/2006 was 1,769,000 sq.ft. greater than in the nine-month period ending 3/31/2005: a year-to-year increase of 46%. Since Barrier's financial performance is ultimately driven by production volume and efficiency, this rate of sales volume growth is very significant and will ultimately result in higher future profits.

Capacity limits for production based on the "existing" line, however, are being reached. The continuation of significant increases in sales volume will eventually be limited by the existing lines production limit. Further increases in product shipments are dependent upon the successful startup of the new production line (estimated by mid-2006). Additionally, new market geographies, and new product application introduction initiatives have already been launched in an effort to "pre-sell" added capacity.

#### Selected Annual Information

The following financial data is for the three most recent years ended June 30:

	2005	2004	2003
Total Revenue	\$4,376.5	\$3,035.3	\$1,516.3
Net income (loss)	(981.9)	(308.8)	(68.8)
Per share	(0.04)	(0.02)	0.00
Per share, fully diluted	(0.04)	(0.02)	0.00
Total assets	4,792.4	2,668.5	953.5
Total long-term financial liabilities	637.6	703.7	770.2
Cash dividends declared per share	Nil	Nil	Nil

New product and market development initiatives continue to provide opportunities for sales expansion and growth. Fire testing in support of new product development was completed at Intertek Laboratories (formerly Omega Point Laboratories) in Elmendorf, TX. Barrier successfully passed Class A flame spread tests (ASTM E-84) performed on sample boards produced on the new line. These tests demonstrated that the Blazeguard product being produced on the new line performs at least as well as that produced on the old line. Modifications to the Quality Control Manual have been completed and authorized so that when the new line is capable of having production runs, the testing and follow-up QC requirements are in place. This will allow Barrier to label and market the Blazeguard product produced on the new line in accordance with building code requirements.

Barrier also performed an initial R&D fire test on a two-hour fire-rated roof-truss assembly designed to be marketed to the same builders utilizing Blazeguard in multifamily roof decks. While the test results did not completely satisfy the requirements for the introduction of such an assembly, the initial test provided the impetus to redesign and do a follow-up test later in this fiscal year. Preliminary market research has indicated that this application may have a large demand all over the United States.

Progress continues to be made in engineering a modified Class A commercial modular roof deck assembly in cooperation with MuleHide Products Inc. The modified Class A system is being developed to satisfy requirements for portable classrooms in California. California uses more portable classrooms than any other state in the US. Since California's specifications are among the most stringent in the US, satisfying California requirements will enable a modular classroom manufacturer to sell the design in nearly every state desiring portable classroom buildings. Additionally, the improvements in the Class A system will provide the basis for other Class A roof assembly applications such as wood deck commercial and residential areas prone to wildfires.

Barrier has continued its work on developing a new market application for Blazeguard manufactured with a wood veneer face. These overlaid panels will be used in interior wall applications where a Class A flame spread is required: institutional and commercial office buildings. Barrier is working on this project in association with a major US producer of plywood and particleboard. Preliminary veneer trials have been encouraging. Glue compatibility with existing veneer laminating companies, for the purposes of third party manufacturing during business startup, is the current focus of R&D activity. Barrier and their partner in this endeavor remain keenly optimistic about the opportunities this market has for future sales.

Structural Insulative Panels (SIP's) was a significant business for Blazeguard from 1996 - 1999. A non-uniform surface appearance of the coating applied by the existing production line, however, created insurmountable issues in marketing the product as an exposed interior wall surface. The new line will allow Barrier to more successfully produce products to an acceptable interior panel standard. Barrier anticipates a renewed interest in Blazeguard into the SIP's market by mid year 2006.

Significant progress continues to be made in marketing Blazeguard enhanced Class C roof deck assemblies to modular building manufacturers all over the US. These portable and modular buildings are being used as temporary shelters and construction trailers in Louisiana and other areas impacted by hurricane Katrina. Barrier, and its partner in this development endeavor, MuleHide Products, Inc., believes that the growth of this business will continue to be strong throughout 2006 and beyond.

Roof decking for multi-family residential buildings is Barrier's largest and most stable existing market application, and to date, represents the majority of sales. Florida continues to be the most important U.S. geography for multifamily roof deck markets for Blazeguard and sales there continue to grow as Blazeguard gains market share. Barrier is now leveraging the success in Florida by making presentations to the same companies utilizing Blazeguard in Florida to their regional offices in southern California, Minnesota, and the Dakotas. Barrier is currently seeking to add sales representation for this application in southern California, Arizona, and Texas. Barrier management expects sales to multi-family residential construction to grow significantly as builders in these targeted areas become aware of the positive attributes of Blazeguard and begin to choose it as their preferred fire-rated sheathing.

Global licensing opportunities. With the purchase of the world technology rights, including U.S. patents, foreign patent filings, trademarks, know-how and trade secrets, Barrier is in a position to develop partners all over the globe in licensing arrangements. Interested parties in China, Saudi Arabia, Mexico, Ireland, Great Britain, and New Zealand have communicated interest to Barrier. Barrier, in turn, is responding with information about the attributes of Blazeguard, and the Pyrotite technology in an effort to assess their appropriateness in the construction of building communities (residential and commercial) in these countries.

Barrier is also exploring various configurations of the process technology that will enable individual manufacturing customers to place small treatment lines in their own facilities. These small-scale processing lines will be designed to satisfy the individual's independent need for product treatment. The licensing agreements will be designed to: protect the technology, prohibit competition, and provide for royalties to be paid to Barrier on an ongoing basis.

Barrier is currently sponsoring a graduate student's research project (Masters in Business Administration) designed to create an appropriate prototype licensing model for Barrier and the Pyrotite technology. The research project will help define the most successful elements inherent within successful licensing arrangements as well as to delineate potential pitfalls. Eventually, the project will elevate to the actual identification of potential licensing partners for Barrier in selected countries where fire resistant building construction is present.

Product and technology licensing scenarios are being developed within Barrier and management is confident that licensing relationships or relationships leading to licensing contracts will be in existence prior to the end of the current fiscal year.

Financial position & financings. During the nine-month period, Barrier issued a total of 1,694,600 common shares for proceeds totaling \$1,153,877 as follows:

- a. 25,000 common shares at \$0.44 per share and 192,600 common shares at \$0.65 per share pursuant to the exercise of share purchase options; and
- b. 967,000 common shares at \$0.62 and 410,000 common shares at \$0.61 per share and 100,000 common shares at \$0.64 pursuant to the exercise of share purchase warrants.

Barrier ended the period with a working capital surplus of \$1,383,892.

#### Related Party Transactions

During the nine months ended 3/31/2006, the Company incurred wages and management fees of \$137,093 with directors of the Company and companies with common directors.

#### Capitalization

Authorized: 100,000,000 common shares without par value.

Issued as of 3/31/2006: 29,339,925 common shares at \$15,052,617

Issued as of 5/09/2006: 29,389,925 common shares at \$15,057,117

The following summarizes information about the stock options outstanding at 3/31/2006 reflected in US dollar currency:

Number	Exercise Price	Expiry Date
50,000	\$0.90	April 29, 2006
57,500	\$0.44	May 2, 2007
150,000	\$0.66	July 19, 2007
400,000	\$0.80	October 6, 2007
20,000	\$0.50	February 23, 2008
428,500	\$0.09	March 5, 2008
120,000	\$0.69	March 6, 2008
1,094,900	\$0.65	August 24, 2009
<u>2,320,900</u>		

At 3/31/2006, the following share purchase warrants were outstanding entitling the holder to purchase one common share for each warrant held as follows:

Number	Exercise Price	Expiry Date
1,253,000	\$0.92	August 20, 2006
1,890,000	\$0.64	March 22, 2007
<u>3,143,000</u>		

### **Critical Accounting Estimates**

#### **Stock-based Compensation Charge and Expense**

As described in Note 2 to the audited annual financial statements dated 6/30/2005, the Company records stock-based compensation expense in respect to the fair market value on newly issued stock options. This fair market value of the stock options is estimated at the date the stock options are granted using the Black-Scholes option-pricing model. The related stock-based compensation expense is recognized over the period in which the options vest. In addition, this is a non-cash compensation charge and the cash flow effects are realized only at the time of exercise.

#### **Other Matters**

As at March 31, 2006, the Company does not have any off-balance sheet arrangements to report.

Legal proceedings: In late December 2005, the Company was notified of a pending lawsuit in the state of New Jersey whereupon a town-home association which utilized Blazeguard in a roof replacement project in 1996 is claiming damages resulting from Company product failure. The Company is insured against such damages and has documented that incorrect product installation by the customer and the customer's builder was the cause of the subsequent water damage. The Company anticipates no material impact.

The Directors and the management of the Company know of no other material, active or pending, legal proceedings against them; nor is the Company involved as a plaintiff in any other material proceeding or pending litigation. The Directors and the management of the Company know of no active or pending proceedings against anyone that might materially adversely affect an interest of the Company.

Subsequent to 3/31/2006, 50,000 stock options were exercised at \$.09 per share amounting to total proceeds of \$4,500.

### ITEM 3. CONTROLS AND PROCEDURES

The Board of Directors has overall responsibility for reviewing the Company's disclosure to ensure the Company provides full and plain disclosure to shareholders and other stakeholders. The Board discharges its responsibilities through its committees, specifically, with respect to financial disclosure to the Audit Committee, which is responsible for reviewing the Company's financial reporting procedures and internal controls to ensure full and accurate disclosure of the Company's financial position.

The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's President and the Company's Chief Financial Officer, of the effectiveness of the design and operation of the Company's "disclosure controls and procedures" [as defined in the Exchange Act Rule 13a-15(e)] as of the end of the period covered by this report. Based upon that evaluation, the President and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company (including its consolidated subsidiaries) required to be included in the Company's periodic SEC filings, and that information is recorded, processed, summarized and reported as and when required.

There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

There was no significant change in the Company's internal control over financial reporting that occurred during the Company's most recently completed fiscal year ended 6/30/2005 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting. Nor were there any significant deficiencies or material weaknesses in the Company's internal controls requiring corrective actions.

The Company's management, including the Chief Financial Officer, does not expect that its disclosure controls and procedures or internal controls and procedures will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

**PART II**  
**OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS**

In late December 2005, the Company was notified of a pending lawsuit whereupon a customer is claiming damages resulting from Company product failure. The Company is insured against such damages and has documented that incorrect product installation by the customer was the cause of the damage. The Company anticipates no material impact.

The Directors and the management of the Company know of no other material, active or pending, legal proceedings against them; nor is the Company involved as a plaintiff in any material proceeding or pending litigation. The Directors and the management of the Company know of no active or pending proceedings against anyone that might materially adversely affect an interest of the Company.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

- a. 1. During the nine months ended 3/31/2006, 1,477,000 share purchase warrants (issued in an private placement during the prior fiscal year) were exercised, raising \$924,453.
- a.2. During the nine-months ended 3/31/2006, 217,600 stock option were exercised, raising \$135,401.
- b. No Disclosure Necessary.
- c. No Disclosure Necessary.

**ITEM 3. DEFAULTS UPON SENIOR SECURITIES**

No Disclosure Necessary.

**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

No Disclosure Necessary.

**ITEM 5. OTHER INFORMATION**

- a. Reports on Form 8-K: File 3-10-2006
  - 1. Effective February 28, 2006, the Company filed a Registration Statement on Form S-8 with the US Securities and Exchange Commission. This filing related to the Company's 2002/2003/2004/2005 Stock Option Plans. The purpose of this filing is to "register" the Company's stock plans; thus, allowing the common shares issued upon the exercise of stock options granted under the plans to be "free-trading" in the United States upon issuance.
  - 2. On March 6, 2006, International Barrier Technology Inc. announced the filing of a patent application for their unique and innovative "new line" product and production technology. With the filing of the application, Barrier may now claim "patent pending" status and gain protection from product and technology infringements until the patent application process is complete.
  - 3. On March 7, 2006, International Barrier Technology Inc. granted stock options to consultants of the Company, in the aggregate amount of 120,000 common shares in the capital stock of the Company, at a price of US\$0.69 per share exercisable up to and including March 6, 2008.
- b. Information required by Item 401(g) of Regulation S-B:  
No Disclosure Necessary.

**ITEM 6. EXHIBITS**

- 31.1 Rule 13a-14(a)/15d-14(a)  
Certification executed by Michael Huddy, Director/President/CEO
- 31.2 Rule 13a-14(a)/15d-14(a)  
Certification executed by David Corcoran, Director/CFO
- 32.1 Section 1350 Certification by Michael Huddy, Director/President/CEO
- 32.2 Section 1350 Certification by David Corcoran, Director/CFO

**SIGNATURES**

In accordance with the requirements of the Exchange Act, the registrant caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

International Barrier Technology Inc. -- SEC File No. 000-20412  
Registrant

Date: <u>May 10, 2006</u>	<u>/s/ Michael Huddy</u> Michael Huddy, President/CEO/Director

## EXHIBIT 31.1

### CERTIFICATIONS

I, Michael Huddy, certify that:

1. I have reviewed this report on Form 10-QSB of International Barrier Technology Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information;
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.

## EXHIBIT 31.2

### CERTIFICATIONS

I, David Corcoran, certify that:

1. I have reviewed this report on Form 10-QSB of International Barrier Technology Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information;
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.
