Watkins, MN; Vancouver, BC February 12, 2007.- International Barrier Technology Inc. (“Barrier”) (IBTGF = OTCBB; IBH = TSXV), a manufacturer of proprietary fire resistant building materials, is pleased to report record January sales revenue and sales volume shipped into the Commercial Modular Industry. Four hundred fifty-five thousand, nine hundred (455,900) sq. ft. of Blazeguard products were shipped into the commercial modular market for the month ending January 31, 2007. This is a 69% increase from the same period in the previous year. Total sales for the month of January were 542,700 sq. ft. Five million, four-hundred eighty-six thousand, three hundred sq. ft. (5,486,300) of Blazeguard products have been shipped year to date, which is an increase of 34% over the 4,095,500 shipped year-to-date ending January 31, 2006.

January sales revenue in the commercial modular industry increased a substantial 74%, as the market remains strong in that industry. Blazeguard sales into the residential roof deck market were impacted by softness in the housing market. While total sales revenue for January is down, year-to-date sales revenue is up 14% to \$3,993,323 from \$3,506,716 reported last year. During January, sheathing costs, which are a pass through commodity, continued near all-time lows. This kept top-line sales revenue lower than what it could have been had sheathing prices been at or above average historical prices.

“As the inventory of vacant homes continues to fall to sustainable levels, and housing starts begin to recover, Barrier is well positioned to continue to increase sales. Improved market share in existing territories, and expansion into target development markets, such as southern California, Texas, and Arizona, will further fuel growth in sales volume,” states Dr. Michael Huddy, President. “Growth in sales volume, when coupled with the efficiencies beginning to be realized with Blazeguard production on the new, high speed production line, will translate into improved earnings as the year progresses”.

Refer to Exhibit #99.1 for additional information.

***International Barrier Technology Announces Sales Revenue Growth of 74%  
in the Commercial Modular Industry.***

*Manufacturer of proprietary fire resistant building materials reports record sales revenue and volume for January 2007.*

**Watkins, MN; Vancouver, BC February 12, 2007** - International Barrier Technology Inc. ("Barrier") (IBTGF: OTCBB; IBH: TSXV), a manufacturer of proprietary fire resistant building materials, is pleased to report record January sales revenue and sales volume shipped into the Commercial Modular Industry. Four hundred fifty-five thousand, nine hundred (455,900) sq. ft. of Blazeguard products were shipped into the commercial modular market for the month ending January 31, 2007. This is a 69% increase from the same period in the previous year. Total sales for the month of January were 542,700 sq. ft. Five million, four-hundred eighty-six thousand, three hundred sq. ft. (5,486,300) of Blazeguard products have been shipped year to date, which is an increase of 34% over the 4,095,500 shipped year-to-date ending January 31, 2006.

January sales revenue in the commercial modular industry increased a substantial 74%, as the market remains strong in that industry. Blazeguard sales into the residential roof deck market were impacted by softness in the housing market. While total sales revenue for January is down, year-to-date sales revenue is up 14% to \$3,993,323 from \$3,506,716 reported last year. During January, sheathing costs, which are a pass through commodity, continued near all-time lows. This kept top-line sales revenue lower than what it could have been had sheathing prices been at or above average historical prices.

"As the inventory of vacant homes continues to fall to sustainable levels, and housing starts begin to recover, Barrier is well positioned to continue to increase sales. Improved market share in existing territories, and expansion into target development markets, such as southern California, Texas, and Arizona, will further fuel growth in sales volume," states Dr. Michael Huddy, President. "Growth in sales volume, when coupled with the efficiencies beginning to be realized with Blazeguard production on the new, high speed production line, will translate into improved earnings as the year progresses."

**About International Barrier Technology Inc.**

International Barrier Technology Inc. (OTCBB: IBTGF; TSXV: IBH) develops, manufactures, and markets proprietary fire resistant building materials branded as Blazeguard®. Barrier's award-winning Blazeguard® wood panels use a patented, non-toxic, non-combustible coating with an extraordinary capability: it releases water in the heat of fire. The panels exceed "model" building code requirements in every targeted fire test and application, and are unique in combining properties that increase panel strength and minimize environmental and human impact. Blazeguard® provides Barrier's customers a premium material choice meeting an increasingly challenging combination of requirements in residential and commercial building construction. Blazeguard® customers include many of the top multifamily homebuilders, and commercial modular building manufacturers in the United States.
