"As we look forward to 2009, one main focus will be the California Wildfire Zones," states President Michael Huddy. "Our first major project in a California Wildfire Zone is well underway in Carmel Valley. Blazeguard Fire-Rated Sheathing is being used as the exterior wall sheathing on the entire structure. With our wide array of code reports, wildfire zone listings, and a successful case study under our belt; we are excited at the opportunity to market our products in a region where fire-resistance is so vital."

### **About International Barrier Technology Inc.**

International Barrier Technology Inc. (OTCBB: IBTGF; TSXV: IBH) develops, manufactures, and markets proprietary fire-resistant building materials branded as Blazeguard®. Barrier's award-winning Blazeguard® wood panels use a patented, non-toxic, non-combustible coating with an extraordinary capability: it releases water in the heat of fire. The panels exceed "model" building code requirements in every targeted fire test and application, and are unique in combining properties that increase panel strength and minimize environmental and human impact. Blazeguard® provides Barrier's customers a premium material choice meeting an increasingly challenging combination of requirements in residential and commercial building construction. Blazeguard® customers include many of the top multifamily homebuilders, and commercial modular building manufacturers in the United States.
