Item 5. Operating and Financial Review and Prospects

Liquidity and Capital Resources

Table of Contractual Obligations, page 41

1. We note that you have included only unconditional purchase obligations and operating lease payments in your table of contractual obligations, but you issued convertible bonds in

November 2003 that have not yet been redeemed. Please revise your table of contractual obligations to include the principal amount of the convertible bonds issued in November 2003 as well as the total interest to be accrued over the remaining term. Your tabular disclosure should be accompanied by a footnote explanation of the methodology used in the calculation of total interest. See Section IV.A of FR-72 for guidance.

2. It appears you have other debt obligations, such as bank notes payable and notes payable to affiliated companies, that should be included (along with related interest) in your table of contractual obligations. Please revise, as appropriate.

Note 3 – Summary of Significant Accounting Policies

(d) Inventories, page F-14

3. We note from your policy discussion here and elsewhere in your filing that you provide and allowance for excess and obsolete inventory. Supplementally explain to us and expand your disclosure in future filings to include how you identify excess or obsolete inventory.
4. As a related matter, we note from your statement of cash flows presented on page F-7 that it appears you have sold a material amount of previously reserved inventory. Supplementally explain the facts and circumstances surrounding the initial recognition of a reserve on this inventory as well those surrounding the sale of such inventory during 2004.

Note 11 – Property, Plant, and Equipment, page F-29

5. We note that you have recognized an impairment of RMB 10 million on property, plant, and equipment. In this regard, please revise your disclosure to include the disclosures required by paragraph 26 of SFAS 144.

Note 12 - Intangible Assets, page F-30

6. We note that from your disclosure on page F-14 that purchased intangible assets with finite lives are amortized over a period of 7 years. We also note from your disclosure in Note 12 on page F-31 that two major intangible asset classes comprise your balance: sedan design rights and component and parts technology rights. Please revise your disclosure to present the items required by paragraph 44 of SFAS 142 for each of these major intangible asset classes.
7. As a related matter, supplementally explain to us how the impairment of the intangible assets related to the Zhonghua sedan has affected your assessment of their estimated economic lives. We may have further comment on your response.
