NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2003

(Unaudited)

1. Summary of significant accounting policies:

Basis of presentation:

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information and with instructions to Form 10-Q and Article 10 of Regulation S-X. The unaudited interim financial statements reflect all adjustments which are, in the opinion of the General Partner, necessary to a fair statement of financial position and results of operations for the interim periods presented. All such adjustments are of a normal recurring nature. The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that effect reported amounts in the financial statements and accompanying notes. Therefore, actual results could differ from those estimates. Operating results for the three and nine months ended September 30, 2003 are not necessarily indicative of the results for the year ending December 31, 2003.

These unaudited interim financial statements should be read in conjunction with the financial statements and notes thereto contained in the report on Form 10-K for the year ended December 31, 2002, filed with the Securities and Exchange Commission.

2. Organization and partnership matters:

ATEL Cash Distribution Fund V, L.P. (the Partnership) was formed under the laws of the state of California on September 23, 1992, for the purpose of acquiring equipment to engage in equipment leasing and sales activities.

Upon the sale of the minimum amount of Units of Limited Partnership interest (Units) of \$1,200,000 and the receipt of the proceeds thereof on March 19, 1993, the Partnership commenced operations.

The Partnership does not make a provision for income taxes since all income and losses will be allocated to the Partners for inclusion in their individual tax returns.

ATEL Financial Services, LLC, an affiliated entity, acts as the General Partner of the Partnership.

Certain prior year balances have been reclassified to conform to the current year presentation.

NOTES TO FINANCIAL STATEMENTS

**SEPTEMBER 30, 2003
(Unaudited)**

3. Investment in leases (continued):

Impairment losses are recorded as an addition to accumulated depreciation of the impaired assets. Depreciation expense and impairment losses consist of the following:

Depreciation expense	\$ 1,107,322
Impairment losses	543,426
	<u>\$ 1,650,748</u>

All of the property on leases was acquired in 1993, 1994, 1995, 1996 and 1997.

At September 30, 2003, the aggregate amounts of future minimum lease payments are as follows:

	Operating Leases	Direct Financing Leases	Total
Three months ending December 31, 2003	\$ 410,369	\$ 187,500	\$ 597,869
Year ending December 31, 2004	784,661	750,000	1,534,661

	<u>\$ 1,434,139</u>	<u>\$ 937,500</u>	<u>\$ 2,371,639</u>

Direct financing leases:

As of September 30, 2003, investment in direct financing leases consists of mining equipment. The following lists the components of the Company's investment in direct financing leases:

	September 30, 2003	December 31, 2002
Total minimum lease payments receivable	\$ 937,500	\$ 33,510
Estimated residual values of leased equipment (unguaranteed)	401	1,148,968
Investment in direct financing leases	<u>937,901</u>	<u>1,182,478</u>
Less unearned income	<u>(163,793)</u>	<u>(2,397)</u>
Net investment in direct financing leases	<u>\$ 774,108</u>	<u>\$ 1,180,081</u>

Impairments of investments in leases:

During the first nine months of 2003, the Company recognized impairment losses on covered grain hopper cars in the amount of \$543,246. The impairment resulted from decreased estimated cash flows expected to be generated by the assets over their remaining lives.

ATEL CASH DISTRIBUTION FUND V, L.P.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2003
(Unaudited)

4. Non-recourse debt:

Notes payable to financial institutions are due in varying monthly, quarterly and semi-annual installments of principal and interest. The notes are secured by assignments of lease payments and pledges of the assets which were purchased with the proceeds of the particular notes. Interest rates on the notes vary from 5.5% to 10.5%.

Future minimum principal payments of non-recourse debt are as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
Three months ending December 31, 2003	\$ 117,400	\$ 7,890	\$ 125,290
Year ending December 31, 2004	287,409	20,264	307,673
2005	162,167	7,301	169,468
2006	14,039	83	14,122
	<u>\$ 581,015</u>	<u>\$ 35,538</u>	<u>\$ 616,553</u>

5. Related party transactions:

The terms of the Limited Partnership Agreement provide that the General Partner and/or Affiliates are entitled to receive certain fees for equipment acquisition, management and resale and for management of the Partnership.

The Limited Partnership Agreement allows for the reimbursement of costs incurred by the General Partner in providing services to the Partnership. Services provided include Partnership accounting, investor relations, legal counsel and lease and equipment documentation. The General Partner is not reimbursed for services where it is entitled to receive a separate fee as compensation for such services, such as acquisition and management of equipment. Reimbursable costs incurred by the General Partner are allocated to the Partnership based upon estimated time incurred by employees working on Partnership business and an allocation of rent and other costs based on utilization studies.

Substantially all employees of the General Partner record time incurred in performing services on behalf of all of the Partnerships serviced by the General Partner. The General Partner believes that the costs reimbursed are the lower of (i) actual costs incurred on behalf of the Partnership or (ii) the amount the Partnership would be required to pay independent parties for comparable services in the same geographic location and are reimbursable in accordance with the Limited Partnership Agreement.

ATEL CASH DISTRIBUTION FUND V, L.P.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2003
(Unaudited)

7. Line of credit:

The Partnership participates with the General Partner and certain of its affiliates in a \$56,282,201 revolving line of credit (comprised of an acquisition facility and a warehouse facility) with a financial institution that includes certain financial covenants. The line of credit expires on June 28, 2004. As of September 30, 2003, borrowings under the facility were as follows:

Amount borrowed by the Partnership under the acquisition facility	\$ -
Amounts borrowed by affiliated partnerships and limited liability companies under the acquisition facility	<u>24,300,000</u>
Total borrowings under the acquisition facility	<u>24,300,000</u>
Amounts borrowed by the General Partner and its sister corporation under the warehouse facility	<u>-</u>
Total outstanding balance	<u><u>\$24,300,000</u></u>
Total available under the line of credit	\$56,282,201
Total outstanding balance	<u>(24,300,000)</u>
Remaining availability	<u><u>\$31,982,201</u></u>

Draws on the acquisition facility by any individual borrower are secured only by that borrower's assets, including equipment and related leases. Borrowings on the warehouse facility are recourse jointly to certain of the affiliated partnerships and limited liability companies, the Partnership and the General Partner.

The credit agreement includes certain financial covenants applicable to each borrower. The Partnership was in compliance with its covenants as of September 30, 2003.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Statements contained in this Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in this Form 10-Q, which are not historical facts, may be forward-looking statements. Such statements are subject to risks and uncertainties that could cause actual results to differ materially from those projected. Investors are cautioned not to attribute undue certainty to these forward-looking statements, which speak only as of the date of this Form 10-Q. We undertake no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date of this Form 10-Q or to reflect the occurrence of unanticipated events, other than as required by law.

Capital Resources and Liquidity

In 2003 and 2002, the Partnership's primary source of cash was operating lease rents. The liquidity of the Partnership will vary in the future, increasing to the extent cash flows from leases and proceeds from asset sales exceed expenses, and decreasing as distributions are made to the limited partners and to the extent expenses exceed cash flows from leases and proceeds from sales of assets.

As another source of liquidity, the Partnership has contractual obligations with a diversified group of lessees for fixed lease terms at fixed rental amounts. As the initial lease terms expire, the Partnership will re-lease or sell the equipment. The future liquidity beyond the contractual minimum rentals will depend on the General Partner's success in re-leasing or selling the equipment as it comes off lease.

The Partnership participates with the General Partner and certain of its affiliates in a \$56,282,201 revolving line of credit (comprised of an acquisition facility and a warehouse facility) with a financial institution that includes certain financial covenants. The line of credit expires on June 28, 2004. As of September 30, 2003, borrowing under the facility were as follows:

Amount borrowed by the Partnership under the acquisition facility	\$ -
Amounts borrowed by affiliated partnerships and limited liability companies under the acquisition facility	24,300,000
Total borrowings under the acquisition facility	24,300,000
Amounts borrowed by the General Partner and its sister corporation under the warehouse facility	-
Total outstanding balance	<u>\$24,300,000</u>
 Total available under the line of credit	 \$56,282,201
Total outstanding balance	(24,300,000)
Remaining availability	<u>\$31,982,201</u>

Draws on the acquisition facility by any individual borrower are secured only by that borrower's assets, including equipment and related leases. Borrowings on the warehouse facility are recourse jointly to certain of the affiliated partnerships and limited liability companies, the Partnership and the General Partner.

The credit agreement includes certain financial covenants applicable to each borrower. The Partnership was in compliance with its covenants as of September 30, 2003.

The Partnership anticipates reinvesting a portion of lease payments from assets owned in new leasing transactions. Such reinvestment will occur only after the payment of all obligations, including debt service (both principal and interest), the payment of management and acquisition fees to the General Partner and providing for cash distributions to the Limited Partners.

The Partnership currently has available adequate reserves to meet contingencies, but in the event those reserves were found to be inadequate, the Partnership would likely be in a position to borrow against its current portfolio to meet such requirements. The General Partner envisions no such requirements for operating purposes.

As of September 30, 2003, the Partnership had borrowings outstanding on a non-recourse basis with remaining unpaid balances of \$581,015. Borrowings are to be generally non-recourse to the Partnership, that is, the only recourse of the lender upon a default by the lessee on the underlying lease will be to the equipment or corresponding lease acquired with the loan proceeds. The General Partner does not anticipate any future non-recourse borrowings.

If inflation in the general economy becomes significant, it may affect the Partnership inasmuch as the residual (resale) values and rates on re-leases of the Partnership's leased assets may increase as the costs of similar assets increase. However, the Partnership's revenues from existing leases would not increase, as such rates are generally fixed for the terms of the leases without adjustment for inflation.

If interest rates increase significantly, the lease rates that the Partnership can obtain on future leases will be expected to increase as the cost of capital is a significant factor in the pricing of lease financing. Leases already in place, for the most part, would not be affected by changes in interest rates.

Cash Flows

In 2003 and 2002, the Partnership's primary operating source of cash was operating lease rents. Operating lease revenues decreased by \$1,308,196 for the nine month period in 2003 compared to 2002, primarily as a result of sales of operating lease assets over the last year. The average asset cost on operating leases for the nine month period in 2003 was \$27,597,803 compared to \$44,647,904 in 2002. Operating lease revenues increased by \$69,148 for the three month period in 2003 compared to 2002 as a result of placing previously off lease equipment on an income earning lease.

In 2003, the Partnership's primary source of cash flows from investing activities was proceeds from sales of lease assets. Such sales proceeds are not expected to be consistent from one period to another. This also holds true for the three and nine month periods.

The largest financing uses of cash were distributions to limited partners and repayment of non-recourse debt for the nine and three month periods ended September 30, 2003. Comparatively, the largest financing use of cash in 2002 was repayments of borrowings under the line of credit and non-recourse debt.

In 2002, the Partnership sold a large lease to a third party. The acquisition of the lease was financed primarily with non-recourse debt. The assets under the lease were sold subject to the existing debt. Upon the sale of the assets, the Partnership was relieved of its obligation under the non-recourse debt agreement. There were no similar sales in 2003. As a result of this, the amounts of asset sales proceeds and the amounts of debt repayments were much reduced in 2003, compared to 2002.

Results of operations

In 2003, operations resulted in a net loss of \$698,407 for the nine month period and a net loss of \$27,452 for the three month period. In 2002, operations resulted in net income of \$2,073,799 for the nine month period and \$410,056 for the three month period. The Partnership's primary source of revenue is from operating leases.

Operating lease revenues (and the related depreciation expense) have decreased as a result of sales of assets over the last year. The original cost of assets on operating leases has declined from \$33,498,832 at September 30, 2002 to \$26,156,553 at September 30, 2003. The decrease in direct financing lease revenues is also the result of sales of assets related to direct finance leases over the year.

As scheduled debt payments have been made, debt balances have been reduced. The average debt balance for the nine month period ended September 30, 2002 was \$7,470,819 compared to an average balance of \$485,608 for the nine month period in 2003. This decrease in indebtedness for 2003 caused interest expense to decrease by \$544,779 in the nine month period compared to the same period in 2002 and by \$56,753 for the three month period ended September 30, 2003 as compared to the same period in 2002.

In 2003, there were charges to net income for impairments of operating lease assets in the amount of \$543,426. The charges related to covered grain hopper cars on lease to various lessees. The impairment resulted from decreased estimated cash flows expected to be generated by the assets over their remaining lives.

For the nine month period ended September 30, 2003, railcar maintenance increased by \$288,577 over the same period in 2002. This expense also increased for the three month period ended September 30, 2003 by \$73,465 over the same period last year. These increases were a result of one time repairs required on boxcars in order to place them back in service.

Item 3. Quantitative and Qualitative Disclosures of Market Risk.

The Partnership, like most other companies, is exposed to certain market risks, including primarily changes in interest rates. The Partnership believes its exposure to other market risks including foreign currency exchange rate risk, commodity risk and equity price risk are insignificant to both its financial position and results of operations.

In general, the Partnership manages its exposure to interest rate risk by obtaining fixed rate debt. The fixed rate debt is structured so as to match the cash flows required to service the debt to the payment streams under fixed rate lease receivables. The payments under the leases are assigned to the lenders in satisfaction of the debt. Furthermore, the Partnership has historically been able to maintain a stable spread between its cost of funds and lease yields in both periods of rising and falling rates.

Item 4. Controls and procedures.

Internal Controls

As of September 30, 2003, an evaluation was performed under the supervision and with the participation of the Partnership's management, including the CEO and CFO of the General Partner, of the effectiveness of the design and operation of the Partnership's disclosure controls and procedures. Based on that evaluation, the Partnership's management, including the CEO and CFO of the General Partner, concluded that the Partnership's disclosure controls and procedures were effective as of September 30, 2003. There have been no significant changes in the Partnership's internal controls or in other factors that could significantly affect internal controls subsequent to September 30, 2003.

Changes in internal controls

There have been no significant changes in our internal controls or in other factors that could significantly affect our disclosure controls and procedures subsequent to the evaluation date, nor were there any significant deficiencies or material weaknesses in our internal controls.

Evaluation of disclosure controls and procedures

Under the supervision and with the participation of our management, including the CEO and CFO, an evaluation of the effectiveness of the design and operation of the Partnership's disclosure controls and procedures, as defined in Rules 240.13a-14(c) and 15d-14(c) under the Securities Exchange Act of 1934 was performed as of a date within ninety days before the filing date of this quarterly report. Based upon this evaluation, the CEO and CFO of the General Partner concluded that, as of the evaluation date, our disclosure controls and procedures were effective for the purposes of recording, processing, summarizing and timely reporting information required to be disclosed by us in the reports that we file under the Securities Exchange Act of 1934 and that such information is accumulated and communicated to our management in order to allow timely decisions regarding required disclosure.
