Item 6.	Exhibits and Reports on Form 8-K	18

Forward Looking Statements

Certain statements in this report constitute "forward-looking statements" within the meaning of the federal securities laws. Such statements involve known and unknown risks and uncertainties which may cause the Company's actual results, performance or achievements to be materially different than any future results, performance or achievements expressed or implied in this report. By way of example and not limitation and in no particular order, known risks and uncertainties include our substantial debt and ability to generate sufficient cash flows to service our debt; the timing and cost of plant closures; the level of cost reduction achieved through restructuring; the success of new technology; changes in market conditions or product demand; loss of important customers or volume; downward product price movements; changes in raw material costs; and currency fluctuations. In light of these and other risks and uncertainties, the inclusion of a forward-looking statement in this report should not be regarded as a representation by the Company that any future results, performance or achievements will be attained.

U.S. CAN CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2002

(Unaudited)

(1) PRINCIPLES OF REPORTING

The consolidated financial statements include the accounts of U.S. Can Corporation (the "Corporation"), its wholly owned subsidiary, United States Can Company ("U.S. Can"), and U.S. Can's subsidiaries (collectively, the "Company"). All significant intercompany balances and transactions have been eliminated. These financial statements, in the opinion of management, include all normal recurring adjustments necessary for a fair presentation. Operating results for any interim period are not necessarily indicative of results that may be expected for the full year. These financial statements should be read in conjunction with the previously filed financial statements and footnotes included in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2001. Certain prior year amounts have been reclassified to conform with the 2002 presentation.

NEW ACCOUNTING PRONOUNCEMENTS

During July 2001, the FASB issued SFAS No. 141, Business Combinations, and SFAS No. 142, Goodwill and Other Intangible Assets. SFAS No. 141 modifies the method of accounting for business combinations entered into after June 30, 2001 and addresses the accounting for acquired intangible assets. All business combinations entered into after June 30, 2001, are accounted for using the purchase method. SFAS No. 142 eliminates the current requirement to amortize goodwill and indefinite-lived intangible assets, addresses the amortization of intangible assets with a defined life, and addresses the impairment testing and recognition for goodwill and intangible assets. The Company adopted this pronouncement on January 1, 2002. This pronouncement applies to goodwill and intangible assets arising from transactions completed before and after the date of adoption. Effective January 1, 2002, the Company has ceased amortization of goodwill and indefinite-lived intangibles and will test for impairment, at least, annually. Management is currently assessing the provisions of SFAS 142 and its potential impact on the Company's consolidated results of operations and financial position. The Company will have determined if an impairment to goodwill exists by the end of the second quarter and if it is determined an impairment exists, the impact of the impairment will be quantified by the end of the year. The Company recorded goodwill amortization of \$0.7 million for the first quarter of 2001.

The FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," in August 2001. SFAS No. 144, which addresses financial accounting and reporting for the impairment of long-lived assets and for long-lived assets to be disposed of, supercedes SFAS No. 121 and is effective for fiscal years beginning after December 15, 2001. There was not a material impact to the financial position and results of operations of the Company as a result of the implementation of SFAS No. 144.

(2) SUPPLEMENTAL CASH FLOW INFORMATION

The Company paid interest of approximately \$10.3 million and \$8.3 million for the quarterly periods ended March 31, 2002 and April 1, 2001, respectively. The Company paid \$0.4 million in income taxes for the three months ended March 31, 2002 and no income taxes were paid for the quarterly period ended April 1, 2001.

(3) SPECIAL CHARGES

During 2002, restructuring programs will result in the closure of the Southall U.K. integrated plant, the Burns Harbor lithography facility, and one Custom & Specialty plant. The consolidation of two plastic facilities into a new manufacturing facility, which began in 2001, was completed in the first quarter of 2002. Total cash restructuring costs in the first quarter of 2002 were \$3.2 million and the Company anticipates spending another \$30.0 million of such costs in 2002 and beyond.

(4) INVENTORIES

All domestic inventories, except machine parts, are stated at cost determined by the last-in, first-out ("LIFO") cost method, not in excess of market. Inventories of approximately \$48.8 million at March 31, 2002 and \$48.1 million at December 31, 2001, at the European subsidiaries are stated at cost determined by the first-in, first-out ("FIFO") cost method, not in excess of market. FIFO cost of LIFO inventories approximated their LIFO value at March 31, 2002 and at December 31, 2001.

Inventories reported in the accompanying balance sheets were classified as follows (000's omitted):

	March 31, 2002	December 31, 2001
Raw materials.....	\$ 25,739	\$ 27,216
Work in process	39,991	40,046
Finished goods	<u>34,245</u>	<u>33,414</u>
	<u>\$ 99,975</u>	<u>\$ 100,676</u>

(5) BUSINESS SEGMENTS

Management monitors and evaluates business performance, customer base and market share for four business segments. The segments have separate management teams and distinct product lines. The aerosol segment primarily produces steel aerosol containers for personal care, household, automotive, paint and industrial products. The International segment produces aerosol cans in Europe and Latin America (through Formametal S.A., a joint venture in Argentina) as well as steel food packaging in Europe. The Paint, Plastic & General Line segment produces round cans for paint and coatings, oblong cans for such items as lighter fluid and turpentine as well as plastic containers for paint and industrial and consumer products. The Custom & Specialty segment produces a wide array of functional and decorative tins, containers and other products.

The following is a summary of revenues from external customers and income (loss) from operation for the periods ended March 31, 2002 and April 1, 2001, respectively (000's omitted):

	March 31, 2002	April 1, 2001
REVENUES FROM EXTERNAL CUSTOMERS:		
Aerosol	\$ 86,464	\$ 84,305
International.....	54,504	56,024
Paint, Plastic, & General Line	28,911	34,102
Custom & Specialty.....	<u>16,159</u>	<u>16,737</u>
Total revenues	<u>\$ 186,038</u>	<u>\$ 191,168</u>
INCOME (LOSS) FROM OPERATIONS:		
Aerosol	\$ 12,687	\$ 13,289
International.....	(216)	2,516
Paint, Plastic, & General Line	2,276	3,763
Custom & Specialty.....	629	749
Corporate and eliminations	<u>(5,739)</u>	<u>(7,708)</u>
Total income from operations	<u>\$ 9,637</u>	<u>\$ 12,609</u>

(6) COMPREHENSIVE NET INCOME

The components of accumulated other comprehensive loss are as follows (000's omitted):

	March 31, 2002	December 31, 2001
Foreign Currency Translation Adjustment	\$(47,425) (a)	\$(34,501)
Minimum Pension Liability Adjustment.....	(288)	(288)
Unrealized Loss on Cash Flow Hedges	<u>(2,572)</u>	<u>(3,862)</u>
Total Accumulated Other Comprehensive Loss.....	<u><u>\$(50,285)</u></u>	<u><u>\$(38,651)</u></u>

(a) Includes a \$15.6 million devaluation impact related to the investment in Formametal, which will not be settled in the foreseeable future. The Company used the exchange rate of 3.00 pesos per U.S. dollar to calculate the translation adjustment.

The components of comprehensive loss for the three months ended March 31, 2002 and April 1, 2001 are as follows (000's omitted):

	Three Months Ended	
	March 31, 2002	April 1, 2001
Net Loss Before Preferred Stock Dividends.....	\$ (2,382)	\$ (1,328)
Foreign Currency Translation Adjustment	(12,924)	(10,909)
Unrealized gain (loss) on cash flow hedges.....	<u>38 (a)</u>	<u>(708)</u>
Comprehensive Loss	<u><u>\$ (15,268)</u></u>	<u><u>\$ (12,945)</u></u>

(a) Net of reclassification of losses included in net loss of \$1.2 million

(7) SUBSIDIARY GUARANTOR INFORMATION

The following presents the condensed consolidating financial data for U.S. Can Corporation (the "Parent Guarantor"), United States Can Company (the "Issuer"), USC May Verpackungen Holding Inc. (the "Subsidiary Guarantor"), and the Issuer's European subsidiaries, including May Verpackungen GmbH & Co., KG (the "Non-Guarantor Subsidiaries"), as of March 31, 2002 and December 31, 2001 and for the quarterly period ended March 31, 2002 and April 1, 2001. Investments in subsidiaries are accounted for by the Parent Guarantor, the Issuer and the Subsidiary Guarantor under the equity method for purposes of the supplemental consolidating presentation. Earnings of subsidiaries are, therefore, reflected in their parent's investment accounts and earnings. This consolidating information reflects the guarantors and non-guarantors of the Issuer's 12³/₈% senior subordinated notes due 2010.

The 12³/₈% senior subordinated notes are guaranteed on a full, unconditional, unsecured, senior subordinated, joint and several basis by the Parent Guarantor, the Subsidiary Guarantor and any other domestic restricted subsidiary of the Issuer. USC May Verpackungen Holding Inc., which is wholly owned by the Issuer, currently is the only Subsidiary Guarantor. The Parent Guarantor has no assets or operations separate from its investment in the Issuer.

Separate financial statements of the Issuer or the Subsidiary Guarantors have not been presented as management has determined that such information is not material to the holders of the 12³/₈% senior subordinated notes.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following narrative discusses the results of operations, liquidity and capital resources for the Company on a consolidated basis. This section should be read in conjunction with the Corporation's Annual Report on Form 10-K for the fiscal year ended December 31, 2001 (see "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained therein).

Use of Estimates; Critical Accounting Policies

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Estimates are used for, but not limited to: allowance for doubtful accounts; inventory valuation; purchase accounting allocations; restructuring amounts; asset impairments; depreciable lives of assets; useful lives of intangible assets; pension assumptions and tax valuation allowances. Future events and their effects cannot be perceived with certainty. Accordingly, our accounting estimates require the exercise of management's current best reasonable judgment based on facts available. The accounting estimates used in the preparation of the Consolidated Financial Statements will change as new events occur, as more experience is acquired, as more information is obtained and as the Company's operating environments change. Significant business or customer conditions could cause material changes to the amounts reflected in our financial statements. Accounting policies requiring significant management judgments include those related to revenue recognition, inventory valuation, accounts receivable allowances, restructuring reserves and interest rate exposure.

Revenue is recognized when goods are shipped to the customer. Provisions for discounts, returns, allowances, customer rebates and other adjustments are provided for in the same period as the related revenues are recorded. The Company enters into contractual agreements with certain of its customers for rebates, generally based on annual sales volumes. Should the Company's estimates of the customers' annual sales volumes vary materially from the sales volumes actually realized, revenue may be materially impacted.

Inventories are stated at the lower of cost or market and include material, labor and factory overhead. Costs for United States inventory have been determined using the last-in, first-out ("LIFO") method and costs for Subsidiaries' inventory have been determined by the first-in, first-out ("FIFO") method. The Company estimates reserves for inventory obsolescence and shrinkage based on its judgment of future realization. A large portion of the Company's inventory is manufactured to customer specifications. Losses may result to the extent the Company manufactures customized products that it is unable to sell.

Management estimates allowances for collectibility related to its accounts receivable based on the customer relationships, the aging and turns of accounts receivable, credit worthiness of customers, credit concentrations and payment history. Despite our best efforts, the inability of a particular customer to pay its debts could impact collectibility of receivables and could have an impact on future revenues if the customer is unable to arrange other financing.

Several restructuring programs are underway in order to streamline operations and reduce costs. The Company has established reserves to cover the costs to implement the programs. The estimated costs were determined based on contractual arrangements, quotes from contractors, similar historical activities and other judgmental determinations. Actual costs may differ from those estimated.

To manage interest rate exposure, the Company enters into interest rate agreements. The net interest paid or received on these agreements is recognized as interest income or expense. Our interest rate agreements are reported in the consolidated financial statements at fair value using a mark-to-market valuation. Changes in the fair value of the contracts are recorded each period as a component of other comprehensive income. Gains or losses on our interest rate agreements are reclassified as earnings or losses in the period in which earnings are affected by the underlying hedged item. This may result in additional volatility in reported earnings, other comprehensive income and accumulated other comprehensive income. Our interest rate swaps and collars were entered into in 2000, when interest rates were higher than current rates. Accordingly, these contracts are "out of the money" and may require future payments if market interest rates do not return to historical levels. In addition, if rates do increase above historical levels and the counterparties to the agreements default on their obligations under the agreements, our interest expense would increase. The Company does not use financial instruments for trading or speculative purposes.

Results of Operations

Consolidated net sales for the first quarter ended March 31, 2002 were \$186.0 million as compared to \$191.2 million in the first quarter of 2001, a decrease of 2.7%. Along business segment lines, Aerosol net sales for the first three months of 2002 increased to \$86.5 million from \$84.3 million for the same period in 2001, a 2.6% increase, due principally to increased unit volume (\$4.6 million), offset by pricing concessions granted in 2001 (\$2.4 million). The pricing concessions granted in the first part of 2001 will continue to negatively impact the second quarter of 2002, both in sales and gross profit. International net sales decreased to \$54.5 million for the first quarter of 2002 from \$56.0 million for the first quarter of 2001, a decrease of \$1.5 million or 2.7%. If first quarter 2002 sales made in foreign currencies were translated to U.S dollars using the same average exchange rates in effect during the first quarter of 2001, International sales would have reported an increase of 2.1%, due primarily to an increase in European aerosol volume. The Paint, Plastic and General Line segment net sales decreased \$5.2 million, from \$34.1 million for the first quarter of 2002 to \$28.9 million for the first quarter of 2001. This decrease was due primarily to lower volume caused by the closing of our Dallas plant in our paint and general line business (\$2.6 million) and decreased selling prices in our plastics business due to falling resin prices (\$1.7 million). In the Custom & Specialty segment, sales decreased 3.5% from \$16.8 million for the first three months in 2001 to \$16.1 million for the first three months in 2002, due to a decrease in unit volume.

Consolidated cost of goods sold increased \$0.4 million to \$167.1 million for the three months ended March 31, 2002 from the same quarter in 2001. The principal reasons for the increase included additional volume in both U.S. and International aerosol (\$5.0 million) and production inefficiencies at one May Verpackungen facility (\$2.9 million) offset by a foreign exchange impact (\$2.5 million) and decreased costs caused primarily by reduced volumes in our paint, general line and custom & specialty businesses (\$5.0 million). Gross profit margin of 10.2% in the first quarter of 2002 decreased 2.6 percentage points from the first quarter of 2001. Gross margin was negatively impacted by pricing concessions granted in 2001 (1.2 percentage points), the operating costs of an excess facility in the U.K. scheduled for closing in the third quarter of 2002 (0.7 percentage points) and manufacturing inefficiencies in the Company's food operations (1.2 percentage points) offset by volume-related production efficiencies (0.5 percentage points). The Company expects to improve gross margins upon completion of its restructuring programs as 2002 progresses. These include the closure of the Southall U.K. integrated plant, the Burns Harbor lithography facility, and one Custom and Specialty plant. The consolidation of two plastic facilities into a new manufacturing facility, which began in 2001, was completed in the first quarter of 2002.

Selling, general and administrative costs decreased from \$11.8 million for the first quarter of 2001 to \$9.3 million in 2002 primarily due to positive results from Company-wide cost saving programs initiated in 2001 and the lack of goodwill amortization in the first quarter of 2002. In connection with the adoption of *SFAS 142 Goodwill and Other Intangible Assets*, the Company has ceased the amortization of goodwill. First quarter 2001 selling, general and administrative expense included \$0.7 million of goodwill amortization.

Interest expense in the first three months of 2002 decreased 7.2%, or \$1.1 million, versus the same period of 2001 due to lower interest rates (\$1.5 million) offset by higher average borrowings (\$0.4 million).

Payment in kind dividends of \$3.0 million and \$2.7 million on the redeemable preferred stock were recorded for the first quarters of 2002 and 2001, respectively.

Liquidity and Capital Resources

During the first quarter of 2002, liquidity needs were met through internally generated cash flow and borrowings made under credit lines. Principal liquidity needs included operating costs and capital expenditures. Cash flow used by operations was \$0.6 million for the three months ended March 31, 2002, compared to cash used of \$16.2 million for the three months ended April 1, 2001. The decreased use of cash is due to reductions in accounts receivables and inventory requirements.

Net cash used in investing activities was \$4.4 million (primarily capital spending) for the first quarter of 2002, as compared to \$14.4 million for the first quarter of 2001. First quarter 2001 investing activities included capital spending, the acquisition of certain assets of Olive Can Company and advances to Formametal S.A. ("Formametal") to finance Formametal's debt repayment and working capital needs.

Net cash provided from financing activities in the first three months of 2002 was \$15.3 million, versus net cash provided of \$25.4 million for the same period in 2001. The primary first quarter 2002 financing sources were borrowings under the revolving credit portion of the Senior Secured Credit Facility and unsecured revolving lines of credit granted by various banks to fund the seasonal working capital requirements of May Verpackungen. The unsecured revolving lines granted to May Verpackungen may be terminated by the offering banks upon given notice periods. The Senior Secured Credit Facility and the Notes contain a number of financial and restrictive covenants. The Company was in compliance with all of the required financial ratios and other covenants as of March 31, 2002.

At March 31, 2002, \$65.0 million was outstanding under the \$110.0 million revolving loan portion of the Senior Secured Credit Facility. Letters of Credit of \$10.4 million were outstanding securing the Company's obligations under various insurance programs and other contractual agreements. In addition, the Company had \$25.2 million of cash and equivalents at quarter end, \$10.5 million greater than year end

At existing levels of operations, cash generated from operations together with amounts to be drawn from the revolving credit facility, are expected to be adequate to meet anticipated debt service requirements, restructure costs, capital expenditures and working capital needs. Future operating performance and the ability to service or refinance the notes, to service, extend or refinance the Senior Secured Credit Facility and to redeem or refinance our preferred stock will be subject to future economic conditions and to financial, business and other factors, many of which are beyond management's control.

Item 3. *Quantitative and Qualitative Disclosures About Market Risk*

Management does not believe the Company's exposure to market risk has significantly changed since year-end 2001.

PART II

OTHER INFORMATION

Item 1. Legal Proceedings

New Castle, PA Self-Discovery

In April 2002, the Pennsylvania Department of Environmental Protection (PDEP) advised the Company that it had completed its review of this matter and requested a meeting with the Company to discuss final resolution of the past reported deviations from the requirements of the plant's Title V permit. The Company expects to meet with PDEP in late May or early June of 2002. Since the Company has not had this meeting, it is unable, at this time, to determine PDEP's position or the effect on the Company of any reported deviation.

National Labor Relations Board/IPJO Case

The Company has agreed with the United Steelworkers of America to settle this inter-plant job opportunity case, but the National Labor Relations Board (NLRB) is required to approve the final settlement. Presently, the Company is awaiting the necessary NLRB approval.
