SAFE HARBOR STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

Certain statements contained herein may contain certain “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which reflect our current views with respect to certain events that could have an effect on our future financial performance, including but without limitation, statements regarding our plans, objectives, and future success of our store concepts, the implementation of our previously announced restructuring program, and implementation of our program to increase the sales volume and profitability of our existing brands through four previously announced focus areas. These statements may address items such as future sales, gross margin expectations, SG&A expectations, operating margin expectations, planned store openings, closings and expansions, future comparable sales, inventory levels, and future cash needs. These statements relate to expectations concerning matters that are not historical fact and may include the words or phrases such as “expects,” “believes,” “anticipates,” “plans,” “estimates,” “approximately,” “our planning assumptions,” “future outlook,” and similar expressions. Except for historical information, matters discussed in such oral and written statements are forward-looking statements. These forward-looking statements are based largely on information currently available to our management and on our current expectations, assumptions, plans, estimates, judgments and projections about our business and our industry, and are subject to various risks and uncertainties that could cause actual results to differ materially from historical results or those currently anticipated. Although we believe our expectations are based on reasonable estimates and assumptions, they are not guarantees of performance and there are a number of known and unknown risks, uncertainties, contingencies, and other factors (many of which are outside our control) that could cause actual results to differ materially from those expressed or implied by such forward-looking statements. Accordingly, there is no assurance that our expectations will, in fact, occur or that our estimates or assumptions will be correct, and we caution investors and all others not to place undue reliance on such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, general economic and business conditions, conditions in the specialty retail industry, the availability of quality store sites, the ability to successfully execute our business strategies, the ability to achieve the results of our restructuring program, the ability to achieve the results of our four focus areas, the integration of our new management team, and those described in Item 1A, “Risk Factors” and in the “Forward-Looking Statements” disclosure in Item 7. “Management’s Discussion and Analysis of Financial Condition and Results of Operations” of our Form 10-K. There can be no assurance that the actual future results, performance, or achievements expressed or implied by such forward-looking statements will occur. Investors using forward-looking statements are encouraged to review the Company’s latest annual report on Form 10-K, its filings on Form 10-Q, management’s discussion and analysis in the Company’s latest annual report to stockholders, the Company’s filings on Form 8-K, and other federal securities law filings for a description of other important factors that may affect the Company’s business, results of operations and financial condition. All written or oral forward-looking statements that are made or attributable to us are expressly qualified in their entirety by this cautionary notice. The Company does not undertake to publicly update or revise its forward looking statements even if experience or future changes make it clear that projected results expressed or implied in such statements will not be realized.

Last Year, We Announced Cost Savings and Operational Efficiency Initiatives with Expected Annual Savings of \$100-\$110 Million

Within the first year of our announced goal, we realized \$30 million of savings and we expect to save \$50 million this year

International Growth Remains a Virtually Untapped Opportunity for Us

After testing and learning with wholly-owned and franchised international operations, we are deepening our existing market penetration and focusing on entering select new markets

Phase 1: Test & Learn

Establish a presence in select lower risk markets

- ✓ Enter Canada first due to its geographical and cultural proximity to the U.S.
- ✓ Enter franchise market with geographic and cultural proximity – Mexico

Phase 2: Expand

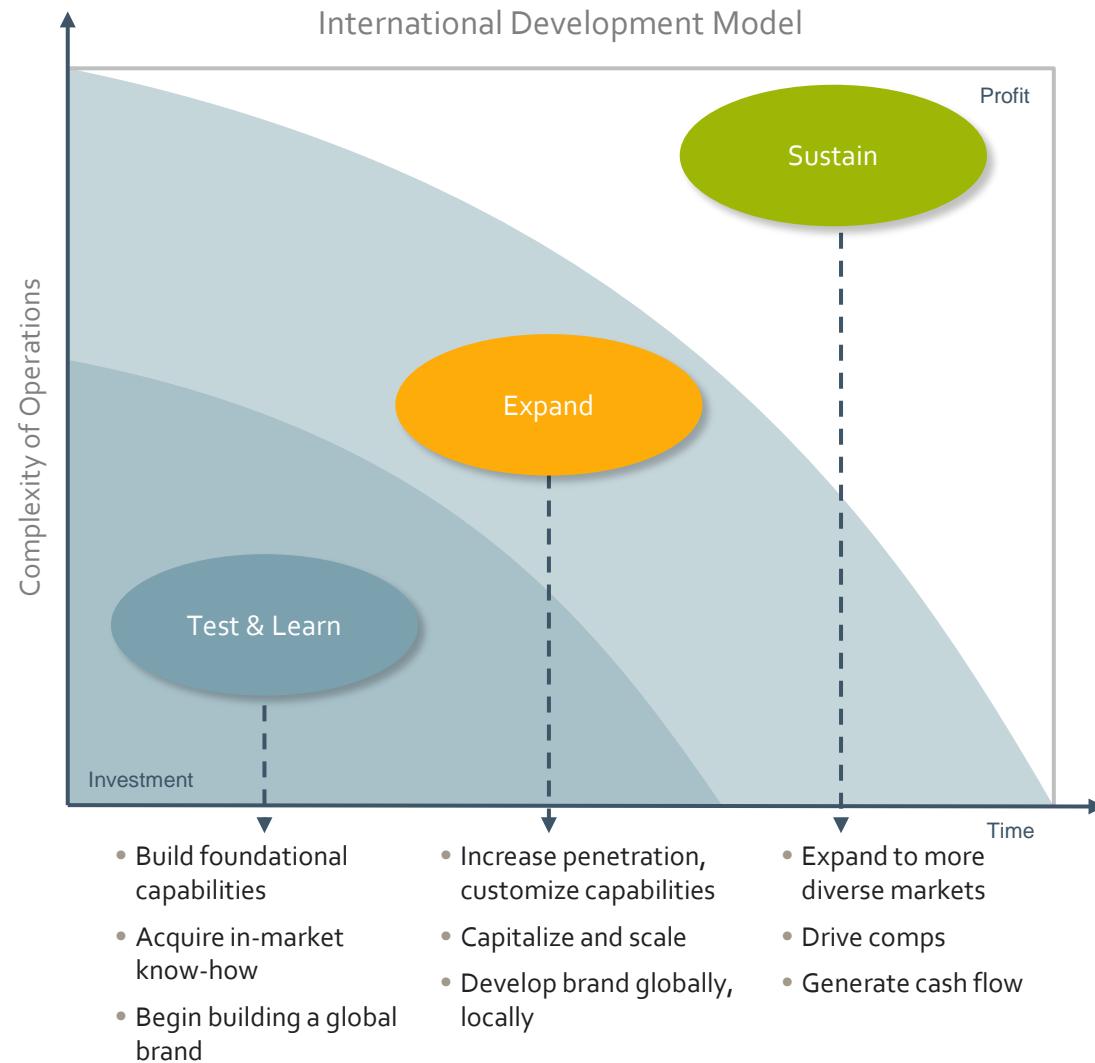

Deepen penetration in existing markets and selectively enter new markets

- Continue to expand in markets with geographical and psychological proximity and advancing socioeconomic development
- Deploy business model in geographically distant markets with similar cultural proximity

Phase 3: Sustain

Drive productivity and operational efficiency

- Improve operational efficiency with current franchisees
- Explore growth opportunities in culturally diverse markets

We Can Target International Opportunities as a Lever for Long-Term Growth

Over the Last 10 Years, We Have Demonstrated Consistent and Robust Free Cash Flow Generation...

With our announced cost reduction and operating efficiency initiatives, we expect continued improvement in free cash flow

Note: Free cash flow is calculated as net cash provided by operating activities less purchases of property and equipment

...Enabling Our Capital Allocation Strategy Focused on Value Creation

Chico's FAS Capital Allocation Strategy

- ✓ Strong balance sheet with minimal debt
- ✓ Capital expenditures declining over time (3% of revenues in the medium term) as investments in existing stores and technology replace former store growth strategy
- ✓ Active and meaningful share repurchase program, — returned 118% of free cash flow since 2010 vs. a median of 99% for peers
- ✓ Meaningful dividend program, with a 2.7% dividend yield and moderate historical annual increases

Since 2010, Over \$1.2 Billion Has Been Returned to Shareholders

Since 2015, \$491 million returned to shareholders through dividends and share repurchases, representing 1.6x free cash flow¹

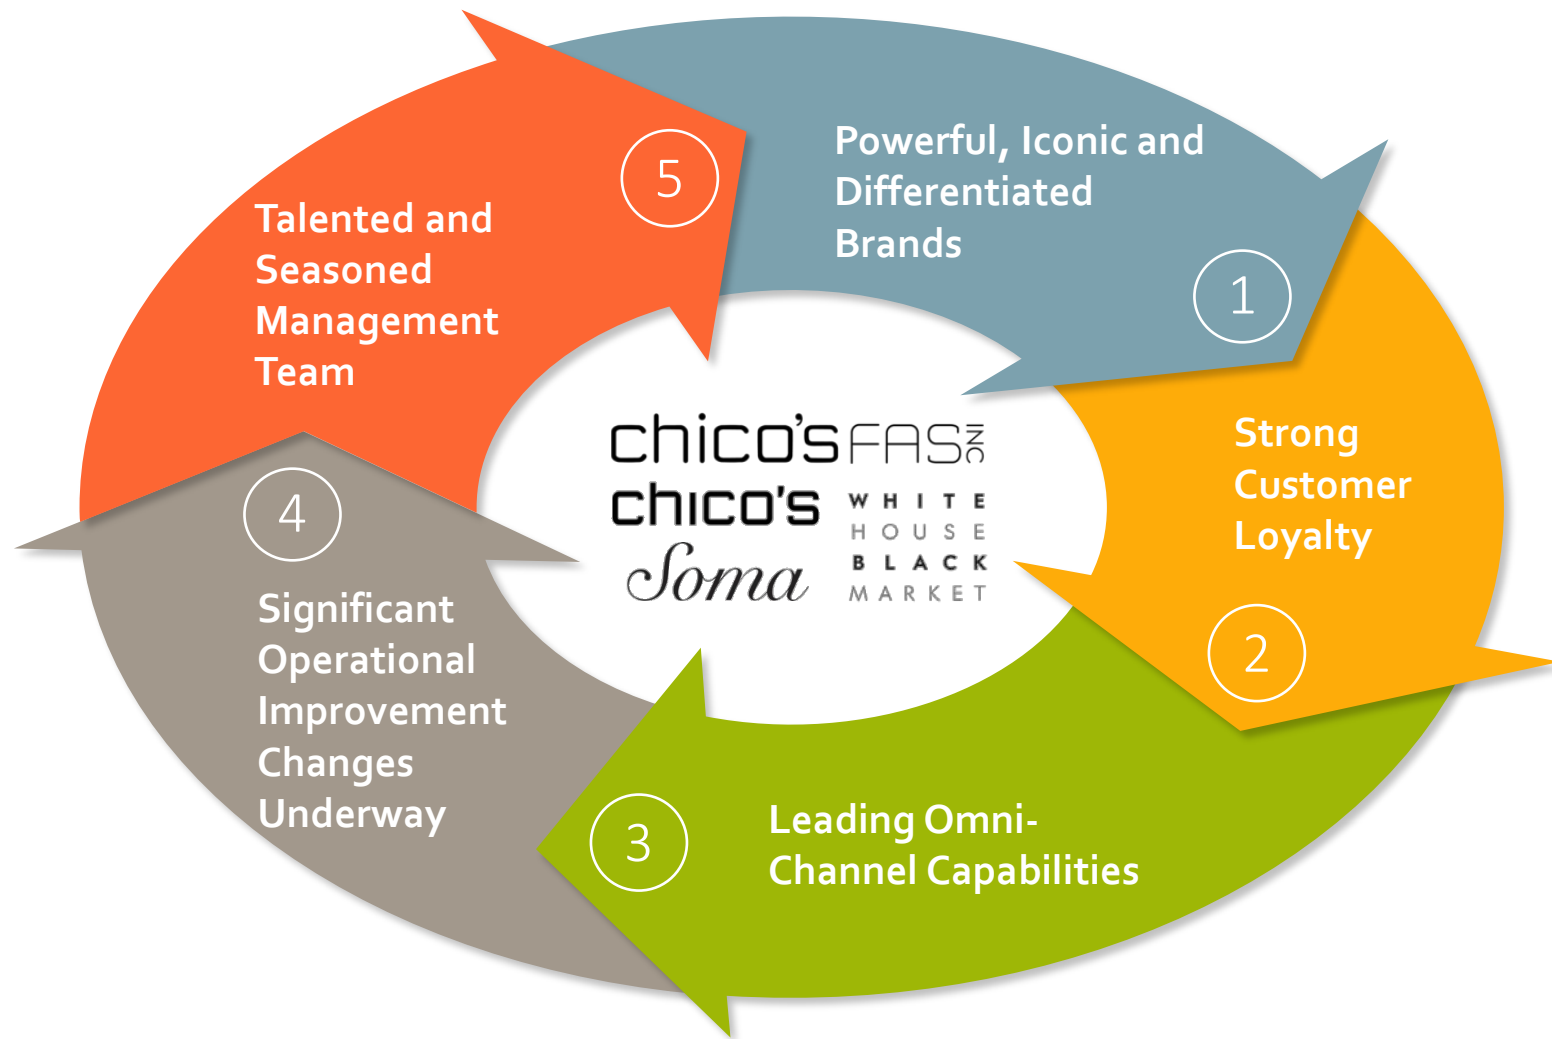

Source: Company filings and Capital IQ

Note: \$ figures may not sum to total due to rounding

¹ Capital returned includes dividends and share repurchases, which are calculated gross of withholding tax for comparability with peers; free cash flow is calculated as cash flow from operations, less capital expenditures. Peers as defined in Chico's FAS proxy statement

We Are Well-Positioned for Profitable Growth and Value Creation

Supplemental Detail on Free Cash Flow (Non-GAAP Financial Measure)

Free cash flow is a non-GAAP financial measure which the Company defines as net cash provided by operating activities less purchases of property and equipment. We believe free cash flow, when used in conjunction with GAAP measures, provides investors with a meaningful analysis of our ability to generate cash for discretionary and non-discretionary items after deducting purchases of property and equipment.

Free cash flow is not a measure of financial performance under GAAP and should be considered in addition to, and not as a substitute for, operating cash flows or other financial measures prepared in accordance with GAAP. Our method of determining non-GAAP financial measures may differ from other companies' methods and therefore may not be comparable to those used by other companies.

A reconciliation of net cash provided by operating activities on a GAAP basis to free cash flow on a non-GAAP basis is presented in the table below:
