"ReliaStar," "we," "us," "our" and the "company" refer to ReliaStar Life Insurance Company. "You" and "your" refer to the policy owner. The owner is the individual, entity, partnership, representative or party who may exercise all rights over the policy and receive the policy benefits during the surviving joint insured person's lifetime.

State Variations - State variations are covered in a special policy form used in that state. This prospectus provides a general description of the policy. Your actual policy and any riders are the controlling documents. If you would like to review a copy of the policy and riders, contact our customer service center or your agent/registered representative.

You may contact us about the policy at our:

POLICY SUMMARY

This summary highlights the features and benefits of the policy, the risks that you should consider before purchasing a policy and the fees and charges associated with the policy and its benefits. More detailed information is included in the other sections of this prospectus which should be read carefully before you purchase the policy.

The Policy's Features and Benefits

Premium Payments

See *Premium Payments*, 23.

- You choose when to pay and how much to pay, but you cannot pay additional premiums after age 100 of the younger of the joint insured persons and we may refuse to accept any premium less than \$25.
 - You will need to pay sufficient premiums to keep the policy in force. Failure to pay sufficient premiums may cause your policy to lapse.
 - We may refuse any premium that would disqualify your policy as life insurance under Section 7702 of the Internal Revenue Code.
 - We deduct a premium expense charge from each premium payment and credit the remaining premium (the "net premium") to the variable account or the fixed account according to your instructions.
-

Free Look Period

See *Free Look Period*, page 24.

- During the free look period, you have the right to examine your policy and return it for a refund if you are not satisfied for any reason.
 - The free look period is generally ten days from your receipt of the policy, although certain states may allow more than ten days. The length of the free look period that applies in your state will be stated in your policy.
 - Generally, there are two types of free look refunds:
 - ▷ Some states require a return of all premium we have received; and
 - ▷ Other states require a return of all premium we have received plus any earnings or less any losses attributable to the amount allocated to the sub-accounts.
-

Temporary Insurance

See *Temporary Insurance*, page 25.

- If you apply and qualify, we may issue temporary insurance equal to the amount of insurance for which you applied.
 - The maximum amount of temporary insurance is \$4.5 million, which includes other in-force coverage you have with us.
 - Temporary insurance may not be available in all states.
-

Death Benefits

See *Death Benefits*, page 30.

- Death benefits are paid if your policy is in force when the surviving joint insured person dies.
 - Until age 100 of the younger of the joint insured persons, the amount of the death benefit will depend on which death benefit option is in effect when the surviving joint insured person dies.
 - You may choose between one of two death benefit options:
 - ▷ Option 1 - the base death benefit is the greater of the amount of insurance coverage you have selected or your policy value multiplied by the appropriate factor described in Appendix A; or
 - ▷ Option 2 - the base death benefit is the greater of the amount of insurance coverage you have selected plus your policy value or your policy value multiplied by the appropriate factor described in Appendix A.
 - After age 100 of the younger of the joint insured persons, the base death benefit under either option will be the policy value.
 - We will reduce the death benefit proceeds payable under any death benefit option by any outstanding policy loans, accrued loan interest and unpaid fees and charges.
 - The death benefit is generally not subject to federal income tax if your policy continues to meet the federal income tax definition of life insurance.
-

Death Benefit Guarantees	<ul style="list-style-type: none"> • Generally, your policy will not lapse as long as your policy value minus any surrender charge, loan account value and unpaid fees and charges (the "surrender value") is enough to cover the periodic fees and charges, when due. • However, the policy has two death benefit guarantees which provide that the policy will not lapse even if the surrender value not enough to pay the periodic fees and charges, when due: <ul style="list-style-type: none"> ▷ The basic death benefit guarantee is standard on every policy. The length of the guarantee period is specified in your policy and is uniquely determined on a policy-by-policy basis and depends on the issue ages and risk classes of the joint insured persons, the death benefit option and any optional rider benefits. Under this guarantee your policy will not lapse provided your cumulative premium payments, minus any partial withdrawals or loans, are at least equal to the sum of minimum premium payments to the next monthly processing date. There is no charge for this guarantee; ▷ The supplemental death benefit guarantee is standard on every policy. Under this guarantee your policy will not lapse during the supplemental death benefit guarantee period if on each monthly processing date since the policy date your cumulative premium payments, minus any partial withdrawals or loans, are at least equal to 40% of the sum of minimum premium payments to the next monthly processing date. The supplemental guarantee period begins on the policy date and is equal to the death benefit guarantee period shown in your policy, multiplied by 40% and rounded to the lower whole number of policy years. The supplemental guarantee period may not exceed ten policy years. There is no charge for this guarantee.
See Death Benefit Guarantees , page 33.	
Rider Benefits	<ul style="list-style-type: none"> • Your policy may include additional insurance benefits, attached by rider. There are two types of rider benefits: <ul style="list-style-type: none"> ▷ Optional rider benefits that you must select before they are effective; and ▷ Rider benefits that automatically come with your policy. • In many cases, we deduct an additional monthly charge for these benefits. • Not all riders may be available under your policy.
See <i>Additional Insurance Benefits</i> , page 34.	
Investment Options	<ul style="list-style-type: none"> • You may allocate your net premiums to the Select★Life Variable Account (the "variable account") and our fixed account. • The variable account is one of our separate accounts and consists of sub-accounts which invest in corresponding funds. When you allocate premiums to a sub-account, we invest any net premiums in shares of the corresponding fund. • Your variable account value will vary with the investment performance of the funds and the charges we deduct from your variable account value. • The fixed account is part of our general account and consists of all of our assets other than those in our separate accounts (including the variable account) and loan account. • We credit interest of at least 4.00% per year on amounts allocated to the fixed account. • We may, in our sole discretion, credit interest in excess of 4.00%.
See <i>The Investment Options</i> , page 19.	
Transfers	<ul style="list-style-type: none"> • You currently may make an unlimited number of transfers between the sub-accounts and to the fixed account each policy year. We reserve the right, however, to limit you to 12 transfers each policy year, and transfers are subject to any other limits, conditions and restrictions that we or the funds whose shares are involved may impose. • There are certain restrictions on transfers from the fixed account. • We currently do not charge for transfers. We reserve the right, however, to charge up to \$25 for each transfer.
See Transfers , page 42.	

Asset Allocation Programs	<ul style="list-style-type: none"> • Dollar cost averaging is a systematic program of transferring policy values to selected investment options. It is intended to help reduce the risk of investing too much when the price of a fund's shares is high. It also helps to reduce the risk of investing too little when the price of a fund's shares is low. • Automatic rebalancing is a systematic program through which your variable and fixed account values are periodically reallocated among your selected investment options to maintain the allocation percentages you have chosen. • You cannot participate in the automatic rebalancing and dollar cost averaging programs at the same time. • There is currently no charge to participate in the dollar cost averaging or automatic rebalancing programs, although we reserve the right to assess a charge in the future. • Neither of these asset allocation programs assures a profit nor do they protect you against a loss in a declining market.
See Dollar Cost Averaging, page 42.	
See Automatic Rebalancing, page 43.	
Loans	<ul style="list-style-type: none"> • You may take loans against your policy's surrender value. We reserve the right to limit borrowing during the first policy year. • Generally, a loan must be at least \$500 and may not exceed 75% of your surrender value. • When you take a loan from your policy we transfer an amount equal to your loan to the loan account as collateral for your loan. The loan account is part of our general account. • We credit amounts held in the loan account with interest at an annual rate currently equal to 5.50% (guaranteed to be no less than 4.00%). • We also charge interest on loans. Interest is payable in advance and accrues daily at a current annual rate of 7.40%. • After the tenth policy year, preferred loans are available. For preferred loans interest is payable in advance at an annual rate currently equal to 5.21% on the portion of your loan account that is not in excess of the policy value, minus the total of all premiums paid net of all partial withdrawals. • Loans reduce your policy's death benefit and may cause your policy to lapse. • Loans may have tax consequences, and you should consult with a tax adviser before taking a loan from your policy.
See Loans, page 40.	
Partial Withdrawals	<ul style="list-style-type: none"> • After the first policy year, you may withdraw part of your policy's surrender value. • We currently allow only one partial withdrawal each policy year. • A partial withdrawal must be at least \$500. • In policy years two through 15 you may not withdraw more than 20% of your surrender value. • We currently charge \$10 for each partial withdrawal, but we reserve the right to charge up to \$25 for each partial withdrawal. • Partial withdrawals reduce your policy's base death benefit and policy value. • Partial withdrawals may also have tax consequences, and you should consult with a tax adviser before taking a partial withdrawal from your policy.
See Partial Withdrawals, page 45.	
Surrenders	<ul style="list-style-type: none"> • You may surrender your policy for its surrender value at any time before the death of the surviving joint insured person. • The surrender value of a policy is equal to the policy value minus any surrender charge, loan account value and unpaid fees and charges. • Surrender charges apply for 15 years from the issue date of your policy and for 15 years after each increase in your insurance coverage. The initial surrender charges are level for the first five years and then decrease uniformly each month to zero at the end of the fifteenth policy year. For any requested increase in your insurance coverage, an additional surrender charge begins at zero, increases uniformly each month until it reaches the maximum after three years and then reduces uniformly each month until it becomes zero at the end of the fifteenth segment year.
See Surrender, page 46.	

Surrenders (Continued)	<ul style="list-style-type: none"> • The surrender charge is neither assessed upon nor reduced because of a requested decrease in your insurance coverage. • If the surrender charge exceeds the available policy value minus the loan account value and unpaid fees and charges, there will be no proceeds paid to you on surrender. • All insurance coverage ends on the date we receive your surrender request. • If you surrender your policy, it cannot be reinstated. • Surrendering the policy may have tax consequences, and you should consult with a tax adviser before surrendering your policy.
Reinstatement See Reinstatement, page 47.	<ul style="list-style-type: none"> • You may reinstate your policy and riders within five years of its lapse if you did not surrender your policy, you still own the policy and each joint insured person, or the surviving joint insured, is still insurable. • You will need to pay the required reinstatement premium. • If the supplemental death benefit guarantee lapses, it cannot be reinstated. • A policy that is reinstated more than 90 days after lapsing will be considered a modified endowment contract for tax purposes. • Reinstating your policy may have tax consequences, and you should consult with a tax adviser before reinstating your policy.

Factors You Should Consider Before Purchasing a Policy

The decision to purchase a policy should be discussed with your agent/registered representative. Make sure you understand the policy's investment options, its other features and benefits, its risks and the fees and charges you will incur. Consider, among others, the following matters.

Life Insurance Coverage	<ul style="list-style-type: none"> • The policy is not a short-term investment and should be purchased only if you need life insurance coverage. Evaluate your need for life insurance coverage before purchasing a policy. • You should purchase a policy only if you intend and have the financial capability to keep the policy in force for a substantial period of time.
Fees and Charges See <i>Fees and Charges</i> , 25.	<ul style="list-style-type: none"> • In the early policy years the surrender charge usually exceeds the policy value because the surrender charge is usually more than the cumulative minimum monthly premiums minus policy fees and charges. Therefore, you should purchase a policy only if you intend and have the financial capability to keep the policy in force for a substantial period of time. • A policy's fees and charges reflect the costs associated with its features and benefits, the services we render, the expenses we expect to incur and the risks we assume under the policy. • We believe the policy's fees and charges, in the aggregate, are reasonable, but before purchasing a policy you should compare the value that these various features, benefits and services have to you, given your particular circumstances, with the fees and charges associated with those features, benefits and services.
Lapse See Lapse, page 46.	<ul style="list-style-type: none"> • Your policy will not lapse and your insurance coverage under the policy will continue if on any monthly processing date: <ul style="list-style-type: none"> ▷ A death benefit guarantee is in effect; or ▷ Your surrender value is enough to pay the periodic fees and charges when due. • If you do not meet these conditions, we will send you notice and give you a 61 day grace period to make a sufficient premium payment. • If you do not make a sufficient premium payment by the end of the 61 day grace period, your life insurance coverage will terminate and your policy will lapse.

Investment Risk See The Variable Account, page 20.	<ul style="list-style-type: none"> • You should evaluate the policy's long-term investment potential and risks before purchasing a policy. • For amounts you allocate to the sub-accounts of the variable account: <ul style="list-style-type: none"> ▷ Your values will fluctuate with the markets, interest rates and the performance of the underlying funds; ▷ You assume the risk that your values may decline or not perform to your expectations; ▷ Your policy could lapse without value or you may be required to pay additional premium because of poor fund performance; ▷ Each fund has various investment risks, and some funds are riskier than others; ▷ There is no assurance that any of the funds will achieve its stated investment objective; and ▷ You should read each fund's prospectus and understand the risks associated with the fund before allocating your premiums to its corresponding sub-account. • For amounts you allocate to the fixed account: <ul style="list-style-type: none"> ▷ Interest rates we declare will change over time; and ▷ You assume the risk that interest rates may decline, although never below the guaranteed minimum interest rate of 4.00%.
Exchanges See <i>Purchasing a Policy</i>, page 22.	<ul style="list-style-type: none"> • Replacing your existing life insurance policy(ies) with the policy described in this prospectus may not be beneficial to you. • Before purchasing a policy, determine whether your existing policy(ies) will be subject to fees or penalties upon surrender or cancellation. • Also compare the fees, charges, coverage provisions and limitations, if any, of your existing policy(ies) with those of the policy described in this prospectus.
Taxation See TAX CONSIDERATIONS, page 47.	<ul style="list-style-type: none"> • Under current federal income tax law, death benefits of life insurance policies generally are not subject to income tax. In order for this treatment to apply, the policy must qualify as a life insurance contract. We believe it is reasonable to conclude that the policy will qualify as a life insurance contract. • Assuming the policy qualifies as a life insurance contract under current federal income tax law, your policy earnings are generally not subject to income tax as long as they remain within your policy. However depending on circumstances, the following events may cause taxable consequences for you: <ul style="list-style-type: none"> ▷ Reduction in the amount of your insurance coverage; ▷ Partial withdrawals; ▷ Loans; ▷ Surrender; ▷ Lapse; and ▷ Reinstatement. • In addition, if your policy is a modified endowment contract, a partial withdrawal, surrender or a loan against or secured by the policy will cause income taxation to the extent of any gain in the policy. A penalty tax may be imposed on a distribution from a modified endowment contract as well. • There is always the possibility that the tax treatment of the policy could be changed by legislation or otherwise. You should consult a tax adviser with respect to legislative developments and their effect on the policy. • Consult with a qualified legal or tax adviser before you purchase a policy.
Sales Compensation	<ul style="list-style-type: none"> • We pay compensation to broker/dealers who sell the policy. • Broker/dealers may be able to choose to receive compensation under various payment options, but their choice will not affect the fees and charges you will pay for the policy.
Other Products	<ul style="list-style-type: none"> • We and our affiliates offer other insurance products which may have different features, benefits, fees and charges. These other products may better match your needs. • <u>Contact your agent/registered representative for information about these other products.</u>

Fees and Charges

The following tables describe the fees and charges you will pay when buying, owning and surrendering the policy.

Transaction Fees and Charges The following table describes the fees and charges you will pay at the time you buy the policy, make a partial withdrawal, surrender the policy, transfer your policy value between investment options or make certain other transactions. **See *Fees and Charges - Transaction Fees and Charges*, page 26.**

Charge	When Deducted	Amount Deducted
Premium Expense Charge	<ul style="list-style-type: none">• Deducted when you make a premium payment.	<ul style="list-style-type: none">• 6.25% of each premium payment made in policy years 1 - 10, and lower thereafter - current.• 6.25% of each premium payment - guaranteed.
Partial Withdrawal Fee	<ul style="list-style-type: none">• Deducted when you take a partial withdrawal.	<ul style="list-style-type: none">• \$25 - maximum.• \$10 - current.
Surrender Charge¹	<ul style="list-style-type: none">• Deducted when you surrender or lapse your policy during the first 15 policy years (or 15 years from an increase in your insurance coverage).	<ul style="list-style-type: none">• \$10 per \$1,000 of insurance coverage during segment years 1 - 5, and lower thereafter.
Transfer Charge	<ul style="list-style-type: none">• Deducted each time you make a transfer between investment options.	<ul style="list-style-type: none">• \$25 - maximum.• \$0 - current.
Excess Illustration Fee	<ul style="list-style-type: none">• Deducted each time you request an illustration after the first each policy year.	<ul style="list-style-type: none">• \$50 - maximum.• \$0 - current.
Excess Annual Policy Report Fee	<ul style="list-style-type: none">• Deducted each time you request an annual policy report after the first each policy year.	<ul style="list-style-type: none">• \$50 - maximum.• \$0 - current.

¹ The surrender charge remains level for the first five years and then decreases uniformly each month to zero at the end of the fifteenth policy year. For any requested increase in your insurance coverage, the surrender charge begins at zero and increases uniformly each month to the maximum after three years and then reduces uniformly each month to zero at the end of the fifteenth segment year.

Periodic Fees and Charges The following table describes the fees and charges you will pay each month on the monthly processing date, not including fund fees and expenses. See *Fees and Charges - Periodic Fees and Charges*, page 27.

Charge	When Deducted	Amount Deducted
Cost of Insurance Charge²	<ul style="list-style-type: none"> On the monthly processing date. 	<ul style="list-style-type: none"> Minimum Rates per \$1,000 of insurance coverage - <ul style="list-style-type: none"> \$0.01 - current and guaranteed. Maximum Rates per \$1,000 of insurance coverage - <ul style="list-style-type: none"> \$0.59 - current. \$1.98 - guaranteed. Rates for representative joint insured persons - \$0.01 per \$1,000 of insurance coverage. The representative joint insured persons are a male, age 55 in the preferred no tobacco risk class and a female, age 55 in the standard no tobacco risk class.
Administrative Charge	<ul style="list-style-type: none"> On the monthly processing date. 	<ul style="list-style-type: none"> \$8.25 - current. \$12 - guaranteed.
Monthly Amount Charge²	<ul style="list-style-type: none"> On the monthly processing date during the first 20 policy years (or for 20 years following an increase in your insurance coverage). 	<ul style="list-style-type: none"> Minimum rates - \$0.05 per \$1,000 of insurance coverage. Maximum rates - \$0.33 per \$1,000 of insurance coverage. Rates for representative joint insured persons - \$0.08 per \$1,000 of insurance coverage. The representative joint insured persons are a male, age 55 in the preferred no tobacco risk class and a female, age 55 in the standard no tobacco risk class.
Mortality & Expense Risk Charge³	<ul style="list-style-type: none"> On the monthly processing date. 	<ul style="list-style-type: none"> 0.08% (0.90% annually) of variable account value in policy years 1 - 10, and currently lower thereafter.
Loan Interest Charge	<ul style="list-style-type: none"> Payable in advance at the time you take a loan and each policy year thereafter. 	<ul style="list-style-type: none"> 7.40% annually of the amount held in the loan account for non-preferred loans. 5.21% annually of the amount held in the loan account for preferred loans.

² The minimum and maximum rates shown are for joint insured persons in the standard risk class. All rates shown are for the first policy year. The rates have been rounded to the nearest penny. Consequently, the actual rates are either more or less than these rounded rates. The cost of insurance rates and monthly amount charges that apply depend on the amount of insurance coverage and each joint insured person's age at issue and each joint insured person's age on the effective date of an increase in your insurance coverage, gender and risk class and the cost of insurance rates generally increase each year after the first segment year. Separate cost of insurance rates apply to each segment of your insurance coverage. A segment or coverage segment is a block of insurance coverage. The rates for the representative joint insured persons listed above may be more or less than you will pay, and you should contact your agent/registered representative for information about the rates that apply to you.

³ The current monthly mortality and expense risk charge rate is rounded to the nearest one hundredth of one percent. See Periodic Fees and Charges - Mortality and Expense Risk Charge, page 28 for the monthly rate without rounding.

Optional Rider Fees and Charges The following table describes the charges you will pay if you elect any of the optional rider benefits. See *Fees and Charges - Optional Rider Fees and Charges*, page 29.

Rider	When Deducted	Amount Deducted
Additional Insured Rider⁴	<ul style="list-style-type: none"> On the monthly processing date. 	<ul style="list-style-type: none"> Minimum Rates per \$1,000 of rider benefit: <ul style="list-style-type: none"> \$0.07 - current. \$0.08 - guaranteed. Maximum Rates per \$1,000 of rider benefit: <ul style="list-style-type: none"> \$4.28 - current. \$7.58 - guaranteed. Rates for a representative additional insured person per \$1,000 of rider benefit: <ul style="list-style-type: none"> \$0.35 - current. \$0.69 - guaranteed. The representative additional insured person is a male, age 55 in the preferred no tobacco risk class.
Four-Year Insurance Rider⁵	<ul style="list-style-type: none"> On the monthly processing date. 	<ul style="list-style-type: none"> Minimum Rates per \$1,000 of rider benefit - <ul style="list-style-type: none"> \$0.02 - current and guaranteed. Maximum Rates per \$1,000 of rider benefit - <ul style="list-style-type: none"> \$0.22 - current. \$1.98 - guaranteed. Rates for representative joint insured persons - \$0.02 per \$1,000 of insurance coverage. The representative joint insured persons are a male, age 55 in the preferred no tobacco risk class and a female, age 55 in the standard no tobacco risk class.
Survivorship Term Rider⁵	<ul style="list-style-type: none"> On the monthly processing date. 	<ul style="list-style-type: none"> Minimum Rates per \$1,000 of rider benefit - <ul style="list-style-type: none"> \$0.02 - current and guaranteed. Maximum Rates per \$1,000 of rider benefit - <ul style="list-style-type: none"> \$0.30 - current. \$1.98 - guaranteed. Rates for representative joint insured persons - \$0.02 per \$1,000 of insurance coverage. The representative joint insured persons are a male, age 55 in the preferred no tobacco risk class and a female, age 55 in the standard no tobacco risk class.

⁴ The rates shown are for the first policy year. Some rates have been rounded to the nearest penny, and consequently the actual rates may be either more or less than these rounded rates. The rates for this rider depend on the insured person's age at issue, gender and risk class (where applicable) and generally increase each year after the first policy year. The rates for the representative insured person listed above may be more or less than you will pay, and you should contact your agent/registered representative for information about the rates that apply to you.

⁵ The rates shown are for the first policy year. Some rates have been rounded to the nearest penny, and consequently the actual rates may be either more or less than these rounded rates. The rates for these riders depend on each joint insured person's age at issue, gender and risk class (where applicable) and generally increase each year after the first policy year. The rates for the representative joint insured persons listed above may be more or less than you will pay, and you should contact your agent/registered representative for information about the rates that apply to you.

Fund Fees and Expenses The following table shows the minimum and maximum fund fees and expenses that you may pay during the time you own the policy. These may change from year to year. You should review the fund prospectuses for details about the fees and charges specific to a particular fund. **See also *Fees and Charges - Fund Fees and Expenses* page 29.**

Annual Fund Expenses (expenses deducted from fund assets)

	Minimum	Maximum
Total Gross Annual Fund Expenses⁶	0.28%	2.40%
Total Net Annual Fund Expenses^{6, 7}	0.28%	1.34%

⁶ Total annual fund expenses include management fees, distribution (12b-1) fees and other expenses.

⁷ The Total Net Annual Fund Expense figures take into account contractual arrangements that require reimbursement or waiver of certain fund fees and expenses at least through the end of this year. Out of all of the funds available through the policy, 19 have contractual arrangements to reimburse or waive certain fees and expenses. Generally, these arrangements provide that fees and expenses will be reimbursed or waived above a certain level for a specific period of time. **See the Fund Expense Table which begins on the following page for more detailed information about these contractual arrangements.** The minimum and maximum total net annual fund expenses shown take into account all of the available funds, not just those with contractual arrangements.

Fund Expense Table.¹ The following table shows the investment advisory fees and other expenses charged annually by each fund. Fund fees are one of the factors that impact the value of a fund share. To learn about additional factors, please see the fund prospectuses. **See also Fees and Charges - Fund Fees and Expenses, page 29.** The following figures are a percentage of the average net assets of each fund as of December 31, 2003.

Fund Name	Management Fees	Distribution (12b-1) Fees	Other Expenses	Total Gross Annual Fund Expenses	Fees and Expenses Waived or Reimbursed	Total Net Annual Fund Expenses

* Until April 30, 2004, the Service Class of shares of the ING Liquid Assets Portfolio were available through the policy. Effective May 1, 2004, the Institutional Class of fund shares replaced the Service Class of fund shares and all amounts then allocated to the sub-account which invests in Service Class shares of the ING Liquid Asset Portfolio will be transferred to the Institutional Class of the same fund. Institutional Class shares have 0.25% lower total fund expenses than the Service Class shares, and the effect of this replacement will be to give policy owners an investment in the same fund managed by the same investment adviser at a lower cost.

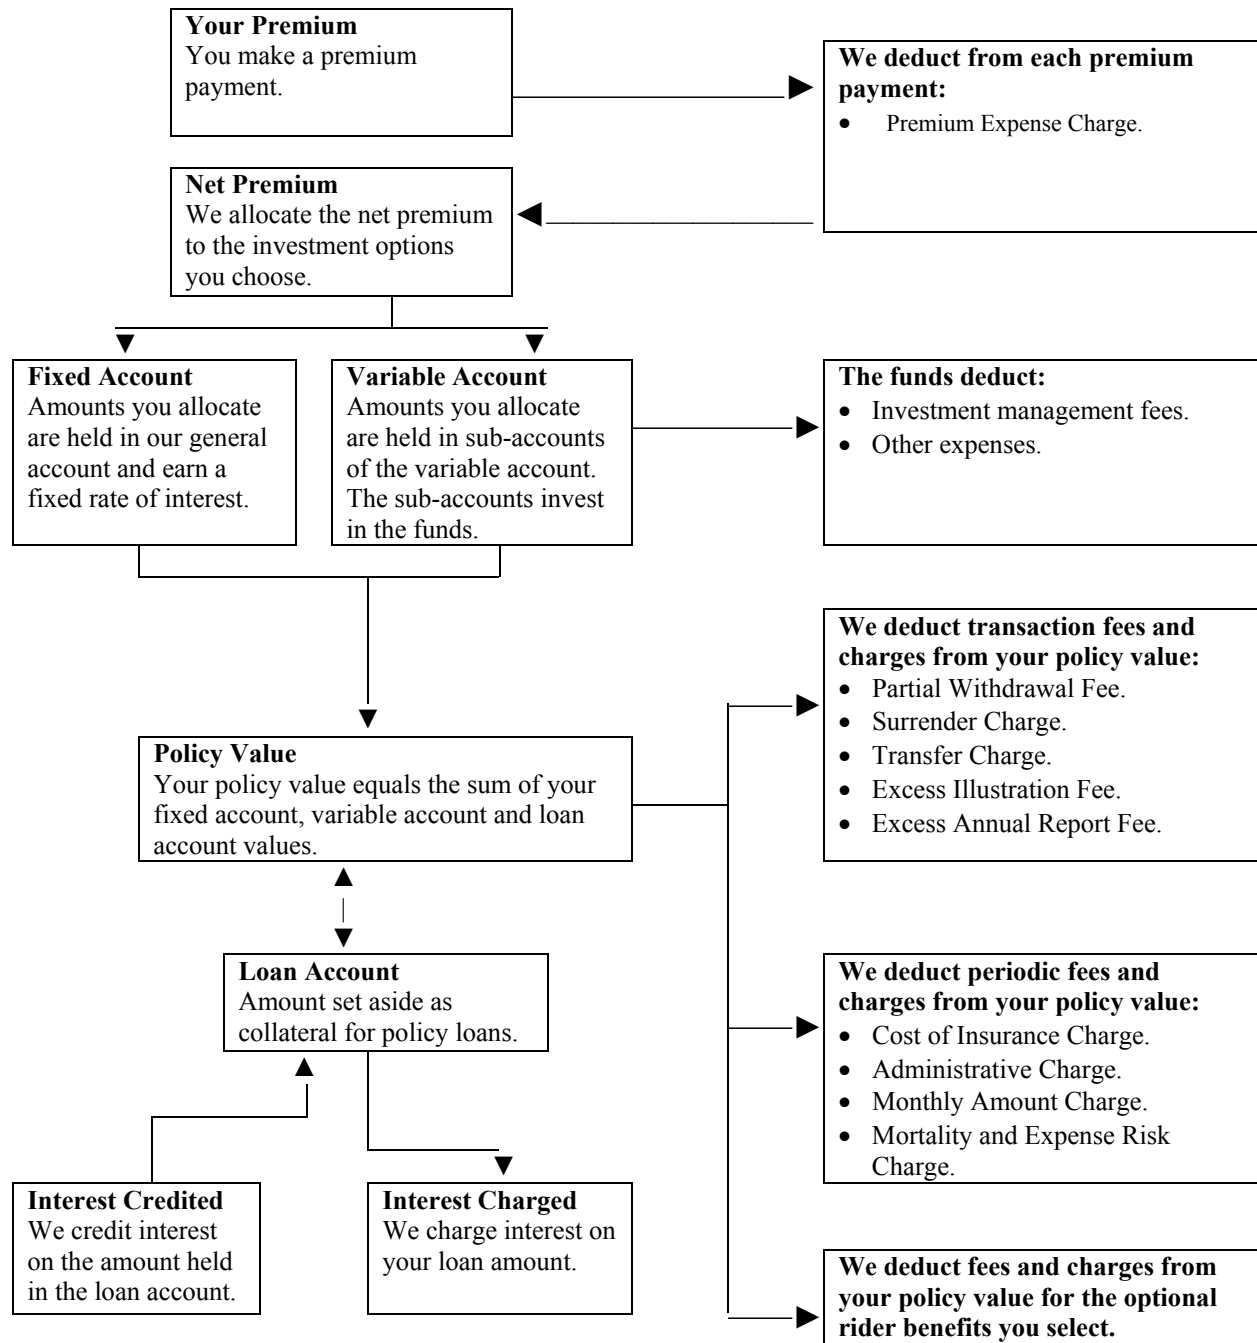

** Effective April 30, 2004, the name of the class of shares for this fund changed from Class R to Class I; however, Class I shares will not be available for investment until May 3, 2004.

- 1 We may receive compensation from each of the funds or their affiliates based on an annual percentage of the average net assets held in that fund by the company. The percentage paid may vary from one fund to another. For certain funds, some of this compensation may be paid out of 12b-1 fees or service fees that are deducted from fund assets. Any such fees deducted from fund assets are disclosed in this Fund Expense Table and the fund prospectuses. We may also receive additional payments for administrative, recordkeeping or other services which we provide to the funds or their affiliates or as an incentive for us to make the funds available through the policy. These additional payments are not disclosed in this Fund Expense Table and do not increase, directly or indirectly, the fees and expenses shown below. See Fees and Charges– Fund Fees and Expenses on page 29 for additional information.
- 2 The Fund's advisor has contractually agreed to waive advisory fees or reimburse expenses of Series I shares to the extent necessary to limit Total Annual Fund Operating Expenses (excluding certain items discussed below) to 1.30%. In determining the advisor's obligation to waive advisory fees and/or reimburse expenses, the following expenses are not taken into account, and could cause the Total Annual Fund Operating Expenses to exceed the 1.30% cap: (i) interest; (ii) taxes; (iii) extraordinary items (these are expenses that are not anticipated to arise from the Fund's day-to-day operations), as defined in the Financial Accounting Standard's Board's Generally Accepted Accounting Principles or as approved by the Fund's board of trustees; (iv) expenses related to a merger or reorganization, as approved by the Fund's board of trustees; and (v) expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement. Currently, the only expense offset arrangements from which the Fund benefits are in the form of credits that the Fund receives from banks where the Fund or its transfer agent has deposit accounts in which it holds uninvested cash. Those credits are used to pay certain expenses incurred by the Fund. The expense limitation agreement is in effect through December 31, 2005.
- 3 The fund's manager has voluntarily agreed to reimburse the class to the extent that total operating expenses (excluding interest, taxes, certain securities lending costs, brokerage commission and extraordinary expenses), as a percentage of its average net assets, exceed 0.28%. The arrangement can be discontinued by the fund's manager at any time.
- 4 The table above shows the estimated operating expenses for Class S Shares of each Portfolio as a ratio of expenses to average daily net assets. These estimates, unless otherwise noted, are based on each Portfolio's actual operating expenses for its most recently completed fiscal year, as adjusted for contractual changes, if any. "Other Expenses" shown in the table above includes a Shareholder Services Fee of 0.25%.
- 5 Through a "bundled fee" arrangement, Directed Services, Inc. (DSI), the Trust's manager, is paid a single fee for advisory, administrative, custodial, transfer agency, auditing and legal services necessary for the ordinary operation of the Portfolio. The Portfolios would bear any extraordinary expenses.
- 6 A portion of the brokerage commissions that the Portfolios pay is used to reduce each Portfolio's expenses. Including these reductions and the MFS voluntary management fee waiver the "Total Annual Fund Operating Expenses" for the year ended December 31, 2003 would have been 0.86% for ING AIM Mid Cap Growth, 1.02% for ING Marsico Growth, 0.86% for ING MFS Mid Cap Growth and 0.93% for ING T. Rowe Price Equity Income Portfolios. This arrangement may be discontinued at any time.
- 7 The table above shows the estimated operating expenses for Class I Shares of each Portfolio as a ratio of expenses to average daily net assets. These estimates, unless otherwise noted, are based on each Portfolio's actual operating expenses for its most recently completed fiscal year, as adjusted for contractual changes, if any.
- 8 Through a "bundled fee" arrangement, Directed Services, Inc. (DSI), the Trust's manager, is paid a single fee for advisory, administrative, custodial, transfer agency, auditing and legal services necessary for the ordinary operation of the Portfolio. The Portfolios would bear any extraordinary expenses.
- 9 Because the Class I Shares of these Portfolios had not had a full year's performance during the fiscal year ended December 31, 2003, expenses are estimated based on the expenses of the Portfolio's Class S Shares for the most recently completed fiscal year.
- 10 Because the Class I Shares of these Portfolios had not commenced operations prior to December 31, 2003, the Portfolios' fiscal year end, expenses are estimated based on the expenses of the Portfolio's Class S Shares for the most recently completed fiscal year.

- 11 A portion of the brokerage commissions that the Portfolios pay is used to reduce each Portfolio's expenses. Including these reductions and the MFS voluntary management fee waiver the "Total Annual Fund Operating Expenses" for the year ended December 31, 2003 would have been 0.89% for ING JPMorgan Small Cap Equity, 0.80% for ING Legg Mason Value, 0.64% for ING MFS Total Return and 0.68% for ING T. Rowe Price Capital Appreciation Portfolios. This arrangement may be discontinued at any time.
- 12 DSI has voluntarily agreed to waive a portion of its management fee for certain Portfolios. Including this waiver, the "Total Annual Fund Operating Expenses" for the year ended December 31, 2003, would have been 0.89%. This arrangement may be discontinued by DSI at any time.
- 13 DSI has voluntarily agreed to waive a portion of its management fee for certain Portfolios. Including this waiver, the "Total Annual Fund Operating Expenses" for the year ended December 31, 2003, would have been 0.65%. This arrangement may be discontinued by DSI at any time.
- 14 Because the Portfolio is new, expenses, shown above, are estimated.
- 15 Other Expenses shown in the above table include a Shareholder Services fee of 0.25%.
- 16 Management/(Advisory) Fees have been restated to reflect a decrease from 0.90% to 0.85% effective May 1, 2004.
- 17 The Administrator of the Fund has contractually agreed to waive all or a portion of its administrative services fees and/or reimburse administrative expenses for the Van Kampen Comstock Portfolio so that the Total Net Fund Annual Operating Expenses for this Portfolio shall not exceed 0.88% through April 30, 2005. Without this waiver, the Total Net Fund Annual Operating Expenses would be 0.95%.
- 18 The table above shows the estimated operating expenses for Class I shares of each Portfolio as a ratio of expenses to average daily net assets. These estimates are based on each Portfolio's actual operating expenses for its most recently completed fiscal year and fee waivers to which the Portfolio's investment adviser has agreed for each Portfolio.
- 19 ING Investments, LLC, the investment adviser to each Portfolio, entered into written expense limitation agreements with each Portfolio under which it will limit expenses of the Portfolios, excluding interest, brokerage and extraordinary expenses, subject to possible recoupment by the adviser within three years. The amount of each Portfolio's expenses waived, reimbursed or recouped during the last fiscal year by the adviser is shown under "Fees and Expenses Waived or Reimbursed" in the table above. The expense limit for each Portfolio is shown as "Net Annual Fund Operating Expenses" in the table above. For each Portfolio, the expense limits will continue through at least December 31, 2004. For further information regarding the expense limitation agreements, see the Fund's prospectus.
- 20 The above table shows the estimated operating expenses for Class I shares of each Portfolio as a ratio of expenses to average daily net assets. These estimates are based on each Portfolio's actual operating expenses for its most recently completed fiscal year, as adjusted for contractual changes, if any, and fee waivers to which the Portfolio's investment adviser has agreed for each Portfolio.
- 21 ING Funds Services, LLC receives an annual administration fee equal to 0.10% of average daily net assets which is included in Other Expenses in the above table. Estimated Other Expenses are based on each Portfolio's actual Other Expenses for its most recently completed fiscal year.
- 22 ING Investments, LLC, the investment adviser to each Portfolio, has entered into a written expense limitation agreement with each Portfolio under which it will limit expenses of the Portfolio, excluding interest, taxes, brokerage and extraordinary expenses, subject to possible recoupment by the adviser within three years. The amount of each Portfolio's expenses waived, reimbursed or recouped during the last fiscal year by the adviser is shown under Fees and Expenses Waived or Reimbursed in the above table. For each Portfolio except ING VP MidCap Opportunities, the expense limits will continue through at least December 31, 2004. For ING VP MidCap Opportunities, the expense limits will continue through at least December 31, 2005. For further information regarding the expense limitation agreements, see the Fund's prospectus.

- 23 Other Expenses, Total Annual Fund Operating Expenses and Net Annual Fund Operating Expenses in the above table exclude a one-time merger fee of 0.05% incurred in connection with the merger of another investment company into ING VP MagnaCap Portfolio.
- 24 Neuberger Berman Management Inc. ("NBMI") has undertaken through December 31, 2007 to waive fees and/or reimburse certain operating expenses, including the compensation of NBMI (except with respect to Limited Maturity Bond and Partners Portfolios) and excluding taxes, interest, extraordinary expenses, brokerage commissions and transaction costs, that exceed, in the aggregate, 1% of the Limited Maturity Bond and Partners Portfolio's average daily net asset value; and 1.50% of the average daily net asset value of the Socially Responsive Portfolio. The expense limitation arrangements for the Portfolios are contractual and any excess expenses can be repaid to NBMI within three years of the year incurred, provided such recoupment would not cause a Portfolio to exceed its respective limitation.
- 25 NBMI has voluntarily committed to waive fees and/or reimburse expenses for an additional 0.20% of the average daily net asset value of the Socially Responsive Portfolio to maintain the Portfolio's net operating expense ratio at 1.30%. NBMI can, at its sole discretion, on at least 30 days' notice terminate this voluntary waiver and/or reimbursement commitment.
- 26 Management (Advisory) Fees reflect effective management fees before taking into effect any fee waiver. Other Expenses are shown before expense offsets afforded the Portfolios. Total Annual Fund Operating Expenses for the Equity, Managed and Small Cap Portfolios are contractually limited by OpCap Advisors so that their respective annualized operating expenses (net of any expense offset) do not exceed 1.00% of average daily net assets. Total Annual Fund Operating Expenses for the Global Equity Portfolio (net of any expense offset) are contractually limited to 1.25% of average daily net assets. This agreement will be in effect through at least December 31, 2014.
- 27 The expenses in the table above reflect the contractual expense limitation in effect through May 1, 2005 under which Pioneer has agreed not to impose all or a portion of its management fee and, if necessary, to limit other ordinary operating expenses to the extent required to reduce Class I expenses to 1.25% of the average daily net assets attributable to Class I shares.

How the Policy Works

THE COMPANY, THE FIXED ACCOUNT AND THE VARIABLE ACCOUNT

ReliaStar Life Insurance Company

We are a stock life insurance company organized in 1885 and incorporated under the laws of the State of Minnesota. We are admitted to do business in the District of Columbia and all states except New York. Our headquarters is at 20 Washington Avenue South, Minneapolis, Minnesota 55401.

We are a wholly owned indirect subsidiary of ING Groep N.V. ("ING"), a global financial institution active in the fields of insurance, banking and asset management. ING is headquartered in Amsterdam, The Netherlands.

We are also a charter member of the Insurance Marketplace Standards Association ("IMSA"). Companies that belong to IMSA subscribe to a rigorous set of standards that cover the various aspects of sales and service for individually sold life insurance and annuities. IMSA members have adopted policies and procedures that demonstrate a commitment to honesty, fairness and integrity in all customer contacts involving sales and service of individual life insurance and annuity products.

The Investment Options

You may allocate your premium payments to any of the available investment options. These options include the fixed account and sub-accounts of the variable account. The investment performance of a policy depends on the performance of the investment options you choose.

The Fixed Account

You may allocate all or a part of your net premium and transfer your policy value into the fixed account. We declare the interest rate that applies to all amounts in the fixed account. This interest rate is never less than 4.00%. Interest compounds daily at an effective annual rate that equals the declared rate. We credit interest to the fixed account on a daily basis. We pay interest regardless of the actual investment performance of our general account. We bear all of the investment risk for the fixed account.

Your fixed account value equals the net premium you allocate to the fixed account, plus interest earned, minus amounts you transfer out or withdraw. It may be reduced by fees and charges assessed against your policy value.

The fixed account guarantees principal and is part of our general account. The general account supports our non-variable insurance and annuity obligations. We have not registered interests in the fixed account under the Securities Act of 1933, as amended ("1933 Act"). Also, we have not registered the fixed account or the general account as an investment company under the Investment Company Act of 1940, as amended ("1940 Act") (because of exemptive and exclusionary provisions). This means that the general account, the fixed account and interests in it are generally not subject to regulation under these Acts.

The SEC staff has not reviewed the disclosures in this prospectus relating to the general account and the fixed account. These disclosures, however, may be subject to certain requirements of the federal securities law regarding accuracy and completeness of statements made.

The Variable Account

We established the Select★Life Variable Account (the "variable account") on October 11, 1984, as one of our separate accounts under the laws of the State of Minnesota. It is a unit investment trust, registered with the SEC under the 1940 Act.

We own all of the assets of the variable account and are obligated to pay all amounts due under a policy according to the terms of the policy. Income, gains and losses credited to or charged against, the variable account reflect the investment experience of the variable account and not the investment experience of our other assets. Additionally, Minnesota law provides that we cannot charge the variable account with liabilities arising out of any other business we may conduct. This means that if we ever became insolvent, the variable account assets will be used first to pay variable account policy claims. Only if variable account assets remain after these claims have been satisfied can these assets be used to pay owners of other policies and creditors.

The variable account is divided into sub-accounts. Each sub-account invests in a corresponding fund. When you allocate premium payments to a sub-account, you acquire accumulation units of that sub-account. You do not invest directly in or hold shares of the funds when you allocate premium payments to the sub-accounts of the variable account. **See Appendix B to this prospectus for a list of the funds available through the variable account along with information about each fund's investment adviser/subadviser and investment objective. See the Fund Expense Table beginning on page 12 for fund expense information.**

Each fund has its own investment objective and risks. Information about the risks associated with investing in the funds is located in their separate prospectuses. Read the fund prospectuses in conjunction with this prospectus, and retain the prospectuses for future reference.

A fund available through the policy may not be the same as a retail mutual fund with the same or similar name. Accordingly, the management, expenses and performance of a fund is likely to differ from a similarly named retail mutual fund.

Voting Privileges. We invest each sub-account's assets in shares of a corresponding fund. We are the legal owner of the fund shares held in the variable account, and we have the right to vote on certain issues. Among other things, we may vote on issues described in the fund's current prospectus or issues requiring a vote by shareholders under the 1940 Act.

Even though we own the shares, we give you the opportunity to tell us how to vote the number of shares attributable to your policy. We count fractional shares. If you have a voting interest, we send you proxy material and a form on which to give us your voting instructions.

Each fund share has the right to one vote. The votes of all fund shares are cast together on a collective basis, except on issues for which the interests of the funds differ. In these cases, voting is on a fund-by-fund basis.

Examples of issues that require a fund-by-fund vote are changes in the fundamental investment policy of a particular fund or approval of an investment advisory agreement.

We vote the shares in accordance with your instructions at meetings of the fund's shareholders. We vote any fund shares that are not attributable to policies and any fund shares for which the owner does not give us instructions in the same proportion as we vote the shares for which we did receive voting instructions.

We reserve the right to vote fund shares without getting instructions from policy owners if the federal securities laws, regulations or their interpretations change to allow this.

You may instruct us only on matters relating to the funds corresponding to those in which you have invested assets as of the record date set by the fund's Board for the shareholders meeting. We determine the number of fund shares in each sub-account of your policy by dividing your variable account value in that sub-account by the net asset value of one share of the matching fund.

Right to Change the Variable Account. Subject to state and federal law and the rules and regulations thereunder, we may, from time to time, make any of the following changes to our variable account with respect to some or all classes of policies:

- Change the investment objective;
- Offer additional sub-accounts which will invest in funds we find appropriate for policies we issue;
- Eliminate sub-accounts;
- Combine two or more sub-accounts;
- Substitute a new fund for a fund in which a sub-account currently invests. A substitution may become necessary if, in our judgment:
 - ▷ A fund no longer suits the purposes of your policy;
 - ▷ There is a change in laws or regulations;
 - ▷ There is a change in the fund's investment objectives or restrictions;
 - ▷ The fund is no longer available for investment; or
 - ▷ Another reason we deem a substitution is appropriate.
- In the case of a substitution, the new fund may have different fees and charges than the fund it replaced;
- Transfer assets related to your policy class to another separate account;
- Withdraw the variable account from registration under the 1940 Act;
- Operate the variable account as a management investment company under the 1940 Act;
- Cause one or more sub-accounts to invest in a fund other than, or in addition to, the funds currently available;
- Stop selling the policy;
- End any employer or plan trustee agreement with us under the agreement's terms;
- Limit or eliminate any voting rights for the variable account;
- Make any changes required by the 1940 Act or its rules or regulations; or
- Close a sub-account to new investments.

We will not make a change until it is effective with the SEC and approved by the appropriate state insurance departments, if necessary. We will notify you of changes. If you wish to transfer the amount you have in the affected sub-account to another sub-account or to the fixed account, you may do so free of charge. Just notify us at our customer service center.

Important Information Regarding the ING VP Growth Opportunities and ING VP Growth + Value Portfolios. On April 16, 2004, the ING VP Growth Opportunities and ING VP Growth + Value Portfolios were closed to new investors and to new investments by existing investors. Effective April 17, 2004, the ING VP Growth Opportunities and ING VP Growth + Value Portfolios merged into and become part of the ING VP MidCap Opportunities Portfolio. Because of this merger, your investment in the ING VP Growth Opportunities and ING Growth + Value Portfolios became an investment in the ING VP MidCap Opportunities Portfolio with an equal total net asset value. Because of the merger you have an opportunity to participate in a larger fund with similar investment objectives and strategies.

There is and will be no further disclosure regarding the ING VP Growth Opportunities and ING VP Growth + Value Portfolios in this and future prospectuses of the policy.

DETAILED INFORMATION ABOUT THE POLICY

This prospectus describes our standard Variable Estate Design survivorship variable universal life insurance policy. The policy provides death benefits, cash values and other features of traditional life insurance contracts. There may be variations in policy features, benefits and charges because of requirements of the state where we issue your policy. We describe all such differences in your policy.

If you would like to know about state variations, please ask your agent/registered representative. We can provide him/her with the list of variations that will apply to your policy.

Purchasing a Policy

To purchase a policy both individuals applying for coverage must submit an application to us. On that application both individuals will, among other things, select:

- The amount of insurance coverage (which generally must be at least \$250,000);
- The initial death benefit option; and
- Any riders or optional benefits.

Additionally, on the application both individuals will provide us with certain health and other necessary information.

On the date coverage under the policy begins (the "policy date"), the persons on whose lives we issue the policy (the "joint insured persons") generally can be no more than age 85. "Age" under the policy means each joint insured person's age at the last birthday determined as of the beginning of each policy year. "Average age" under the policy means the sum of each joint insured person's age divided by two and rounded to the higher age. From time to time, we may accept an insured person whose age exceeds our normal maximum age limit. We will not unfairly discriminate in determining the maximum age at issue. All exceptions to our normal limits are dependent upon our ability to obtain acceptable reinsurance coverage for our risk with an older insured.

You may request that we back-date the policy up to six months to allow the insured persons to give proof of a younger age for the purposes of your policy.

Premium Payments

Premium payments are flexible and you may choose the amount and frequency of premium payments, within limits, including:

- We may refuse to accept any premium less than \$25;
- You cannot pay additional premiums after age 100 of the younger of the joint insured persons;
- We may refuse any premium that would disqualify your policy as life insurance under Section 7702 of the Internal Revenue Code;
- We may refuse any premium that would cause your policy to become a modified endowment contract under Section 7702A of the Internal Revenue Code without your prior written acknowledgement accepting your policy as a modified endowment contract; and
- We may refuse to accept any premium that does not comply with our anti-money laundering program. **See *General Policy Provisions - Anti-Money Laundering*, page 55.**

After we deduct the premium expense charge from your premium payments, we apply the remaining net premium to your policy as described below.

A premium payment is received by us when it is received at our offices. After you have paid your minimum initial premium, we suggest you send payments directly to us, rather than through your agent/registered representative, to assure the earliest crediting date.

Insurance coverage does not begin until we receive your minimum initial premium. The minimum initial premium is generally equal to at least the minimum premiums for the first three months. The minimum premium is based on monthly rates that vary according to each joint insured person's gender, risk class and age. Optional rider benefits have their own minimum premium rates. If you authorize premiums to be paid by electronic funds transfer, we will issue a policy upon receipt of the minimum premium for the first month and the required completed electronic funds transfer forms.

Your policy will indicate the minimum premium that applies to you. You are not required to pay the minimum premium, but payment of the minimum premium will keep your policy in force during either the basic or supplemental death benefit guarantee period. **See Death Benefit Guarantees page 33. Payment of the minimum premium may or may not be enough to keep your policy in force beyond either the basic or the supplemental death benefit guarantee period.**

Premium Payments Affect Your Coverage. During any applicable death benefit guarantee period, the death benefit guarantee lasts only if your cumulative premium payments to the next monthly processing date, minus any partial withdrawals or loans, are at least equal to the sum of minimum premium payments applicable to the guarantee. If they are not and your surrender value is not enough to pay the periodic fees and charges, when due, then your policy will enter the 61-day grace period and you must make a sufficient premium payment to avoid lapse. **See *Termination of Coverage - Lapse*, page 46.**

Allocation of Net Premium. Until your initial net premium is allocated as described below, we hold premiums in a general expense account. Premiums held in this suspense account do not earn interest.

We apply the initial net premium to your policy after all of the following conditions have been met:

- We receive the required initial minimum premium;
- All issue requirements have been received by our customer service center; and
- We approve your policy for issue.

We allocate your initial net premium according to the premium allocation instructions specified on the application in whole percentages totaling 100% on the valuation date next following your policy date.

All net premiums we receive after the initial premium are allocated to your policy on the valuation date of receipt. We will use your most recent premium allocation instructions specified in whole percentages totaling 100%.

Free Look Period

You have the right to examine your policy and return it to us (for any reason) within the period shown in the policy. The period during which you have this right is called the free look period and starts on the date you receive your policy. If you return your policy to us within the free look period, we cancel it as of your policy date.

If you cancel your policy during the free look period you will receive a refund as determined by state law. Generally, there are two types of free look refunds:

- Some states require a return of all premium we have received; and
- Other states require a return of all premium we have received plus any earnings or less any losses attributable to the amount held in the sub-accounts.

The free look refund that applies in your state will be set forth in your policy.

Temporary Insurance

If you apply and qualify, we may issue temporary insurance in an amount equal to the amount of insurance for which you applied, up to \$4.5 million, which includes other in-force coverage you have with us.

Temporary insurance coverage begins when all of the following events have occurred:

- You have completed and signed our temporary insurance coverage form;
- We have received and accepted a premium payment of at least your minimum initial premium (selected on your application); and
- The necessary parts of the application are complete.

Unless otherwise provided by state law, temporary insurance coverage ends on the earliest of:

- The date we return your premium payments;
- Five days after we mail notice of termination to the address on your application;
- Your policy date;
- The date we refuse to issue a policy based on your application; or
- 90 days after you sign our temporary life insurance coverage form.

There is no death benefit under the temporary insurance coverage if any of the following events occurs:

- There is a material misrepresentation in your answers on the temporary insurance coverage form;
- There is a material misrepresentation in statements on your application;
- The person or persons intended to be insured die by suicide or self-inflicted injury; or
- The bank does not honor your premium check.

During the period of temporary insurance coverage your premium payments are held by us in a general suspense account until underwriting is completed and the policy is issued or the temporary insurance coverage otherwise ends. Premiums held in this suspense account do not earn interest and they are not allocated to the investment options available under the policy until a policy is issued. **See Premium Payments - Allocation of Net Premium, page 24.**

Fees and Charges

We deduct fees and charges under the policy to compensate us for:

- Providing the insurance benefits of the policy (including any rider benefits);
- Administering the policy;
- Assuming certain risks in connection with the policy; and
- Incurring expenses in distributing the policy.

The amount of a fee or charge may be more or less than the cost associated with the service or benefit. Accordingly, excess proceeds from one fee or charge may be used to make up a shortfall on another fee or charge, and we may earn a profit on one or more of these fees and charges. We may use any such profits for any proper corporate purpose, including, among other things, payments of sales expenses.

Transaction Fees and Charges

We deduct the following transaction fees and charges from your policy value each time you make certain transactions.

Premium Expense Charge. We deduct a premium expense charge from each premium payment we receive. This charge is guaranteed not to exceed 6.25% of each premium payment. This charge is currently 6.25% of each premium payment during the first ten policy years and 3.75% thereafter.

This charge helps offset:

- The expenses we incur in selling the policy;
- The costs of various state and local taxes. We pay state and local taxes in almost all states. These taxes vary in amount from state to state and may vary from jurisdiction to jurisdiction within a state; and
- The cost associated with the federal income tax treatment of our deferred acquisition costs. This cost is determined solely by the amount of life insurance premium we receive.

Partial Withdrawal Fee. We deduct a partial withdrawal fee each time you take a partial withdrawal from your policy. The amount of this fee is currently \$10, but we reserve the right to deduct up to \$25 for each partial withdrawal. We deduct the partial withdrawal fee proportionately from your remaining fixed and variable account values.

This fee helps offset the expenses we incur when processing a partial withdrawal.

Surrender Charge. We deduct a surrender charge during the first 15 policy years or the first 15 years after an increase in your insurance coverage when you:

- Surrender your policy; or
- Allow your policy to lapse.

The amount of the surrender charge depends on the surrender charge rates.

When you purchase a policy or increase your insurance coverage, we set surrender charge rates at \$10 per \$1,000 of insurance coverage. The initial surrender charge remains level for the first five years then decreases uniformly each month to zero at the end of the fifteenth policy year. For any requested increase in your insurance coverage, an additional surrender charge begins at zero, increases uniformly each month until it reaches the maximum after three years and then reduces uniformly each month until it becomes zero at the end of the fifteenth segment year. **See *Death Benefits - Changes in the Amount of Your Insurance Coverage*, page 30.** Surrender charge rates will be set forth in your policy.

In the early policy years the surrender charge usually exceeds the policy value because the surrender charge is usually more than the cumulative minimum premiums minus policy fees and charges. Therefore, you should purchase a policy only if you intend and have the financial capability to keep the policy in force for a substantial period of time.

This charge helps offset the expenses we incur in selling the policy.

Transfer Charge. We currently do not assess a charge for transfers between any of the investment options. We reserve the right, however, to charge up to \$25 for each transfer. Transfers associated with policy loans, the dollar cost averaging or automatic rebalancing programs or the exercise of conversion rights will not count as transfers when calculating any applicable transfer charge.

This charge helps offset the expenses we incur when processing transfers between investment options.

Excess Illustration Fee. We currently do not assess a fee, but we reserve the right to assess a fee of up to \$50 for each illustration of your policy values you request after the first each policy year.

This fee helps offset the costs we incur when processing requests for excess illustrations.

Excess Annual Report Fee. We currently do not assess a fee, but we reserve the right to assess a fee of up to \$50 for each annual report you request after the first each policy year.

This fee helps offset the costs we incur when processing requests for excess annual reports.

Periodic Fees and Charges

We deduct the following periodic fees and charges from your policy value on the monthly processing date. The monthly processing date is the same date each month as your policy date. If that date is not a valuation date, then the monthly processing date is the next valuation date.

Cost of Insurance. The cost of insurance charge is equal to our current monthly cost of insurance rates multiplied by the net amount at risk for each segment of your insurance coverage. The net amount at risk as calculated on each monthly processing date equals the difference between:

- Your current base death benefit, discounted to take into account one month's interest earnings at an assumed 4.00% annual interest rate; and
- Your policy value minus the periodic fees and charges due on that date, other than cost of insurance charges.

Monthly cost of insurance rates are based on each joint insured person's age at issue, gender, risk class and amount of insurance coverage on the policy date and each date you increase your insurance coverage (a "segment date") and the policy year. They will not, however, be greater than the guaranteed cost of insurance rates shown in the policy, which are based on the 1980 Commissioner's Standard Ordinary Sex Distinct Mortality Tables. We will apply unisex rates where appropriate under the law. This currently includes the state of Montana. The rates that apply to you will be set forth in your policy. **See the *Fees and Charges - Periodic Fees and Charges* table, page 9, for the minimum and maximum cost of insurance rates and the rates for representative joint insured persons.**

Separate cost of insurance rates apply to each segment of your insurance coverage and your riders. The maximum rates for the initial and each new segment of your insurance coverage will be printed in your policy schedule pages.

In the policy form the "monthly processing date" is referred to as the "Monthly Anniversary."

The cost of insurance charge varies from month to month because of changes in your net amount at risk, changes in your death benefit and the increasing age of the joint insured persons. The net amount at risk is affected by the same factors that affect your policy value, namely:

- The net premium applied to your policy;
- The fees and charges we deduct;
- Any partial withdrawals you take;
- Interest earnings on the amounts allocated to the fixed account;
- Interest earned on amounts held in the loan account; and
- The investment performance of the funds underlying the sub-accounts of the variable account.

We calculate the net amount at risk separately for each segment of your insurance coverage.

The cost of insurance charge compensates us for the ongoing costs of providing insurance coverage, including the expected cost of paying death proceeds that may be more than your account value.

Administrative Charge. The monthly administrative charge is currently \$8.25 and is guaranteed not to exceed \$12. This charge helps compensate us for the costs associated with administering the policies.

Monthly Amount Charge. During the first 20 policy years (and for 20 years following a requested increase in insurance coverage) we will deduct a monthly charge per \$1,000 of insurance coverage. For a policy issued in New Jersey, the elimination of these charges after the first 20 policy years (or the first 20 years following a requested increase in insurance coverage) is not guaranteed, and these charges may be assessed for the duration of the policy. The monthly amount charge is based on the gender, risk class, amount of insurance coverage and each joint insured person's age on the policy date and on each segment date, as appropriate. Any decrease in insurance coverage or any change in insurance coverage resulting from a change in the death benefit option will not affect the monthly amount charge. The rates that apply to you will be set forth in your policy. **See the *Fees and Charges - Periodic Fees and Charges* table, page 9, for the minimum and maximum monthly amount charge rates and the rates for representative joint insured persons.**

The monthly amount charge helps compensate us for expenses relating to the distribution of the policy, including agents' commissions, advertising and the printing of the prospectus and sales literature for new sales of the policy. A portion of this charge may also contribute to company profits.

Mortality and Expense Risk Charge. During the first ten policy years, the monthly mortality and expense risk charge is 0.075% (0.90% annually) of your variable account value. After the tenth policy year, we currently anticipate that we will reduce this charge to 0.02083% per month (0.25% annually); however, in no event will the mortality and expense risk charge exceed 0.90% annually for the duration of the policy.

This charge helps compensate us for the mortality and expense risks we assume when we issue a policy. The mortality risk is that insured people, as a group, may live less time than we estimated. The expense risk is that the costs of issuing and administering the policies and operating the sub-accounts of the variable account are greater than we estimated.

Rider Fees and Charges

There may be separate fees and charges if you add any optional rider benefits or exercise certain automatic rider benefits. For more information about rider benefits and the applicable fees and charges, see the *Fees and Charges - Optional Rider Fees and Charges* table, page 10, and the *Additional Insurance Benefits - Optional Rider Benefits* section, page 35. See also the *Fees and Charges - Transaction Fees and Charges* table, page 8, and the *Additional Insurance Benefits - Automatic Rider Benefits* section, page 36.

Waiver and Reduction of Fees and Charges

We may waive or reduce any of the fees and charges under the policy, as well as the minimum amount of insurance coverage set forth in this prospectus. Any waiver or reduction will be based on expected economies that result in lower sales, administrative or mortality expenses. For example, we may expect lower expenses in connection with sales to:

- Certain groups or sponsored arrangements (including our employees, certain family members of our employees, our affiliates and our appointed sales agents);
- Corporate purchasers; or
- Our policyholders or the policyholders of our affiliated companies.

Any variation in fees and charges will be based on differences in costs or services and our rules in effect at the time. We may change our rules from time to time, but we will not unfairly discriminate in any waiver or reduction.

Fund Fees and Expenses

Each fund deducts management fees from the amounts invested in the fund. In addition, certain funds deduct a distribution or 12b-1 fee which is used to finance any activity that is primarily intended to result in the sale of fund shares, and certain funds deduct a service fee which is used to compensate service providers for administrative and policy owner services provided on behalf of the funds. A fund's management fees, distribution (12b-1) fees, as applicable, and other expenses are set by the fund and may change from year to year. They are deducted from the fund's assets and are not direct charges against a sub-account's assets or policy values. Rather, they are included when each underlying fund computes its net asset value, which is the share price used to calculate the unit values of the sub-accounts. See the Fund Expense Table on page 12 for details about each fund's management fees, distribution (12b-1) fees, other expenses and total annual fund expenses.

In addition to the fees and charges shown in the Fund Expense Table, we may, from time to time, receive other compensation from the funds or their affiliates. For example, the funds or their affiliates may make cash payments or provide expense reimbursements to us as an incentive for us to include the funds among the investment options available under the policy and to provide certain services to policy owners that relate to the investment options. More specifically, we may receive compensation from the investment advisers, administrators or distributors of the funds in connection with administrative, distribution, or other services and cost savings experienced by the investment advisers, administrators or distributors of the funds. It is anticipated that such compensation will be based on assets of the particular funds attributable to the policy. Some funds or their affiliates pay us more than others and some of the amounts we receive may be significant. The payments and expense reimbursements made to us by the funds do not increase, directly or indirectly, the expenses shown in the Fund Expense Table.

For a more complete description of the funds' fees and expenses, see each fund's prospectus.

Death Benefits

In the policy form the amount of insurance coverage you select is referred to as the "Face Amount."

You decide the amount of life insurance protection you need, now and in the future. Generally, we require a minimum of \$250,000 of coverage to issue your policy. We may lower this minimum for certain group, sponsored or corporate purchasers. The amount of insurance coverage in effect on your policy date is your initial coverage segment.

You can combine the long-term advantages of permanent life insurance with the flexibility and short-term advantages of term life insurance through the policy. The base policy provides the permanent element of your coverage. A term insurance rider provides the term insurance element of your coverage.

It may be to your economic advantage to include part of your insurance coverage under a term insurance rider. A term insurance rider has no cash value, however, and provides no growth potential. Both the cost of insurance under a term insurance rider and the cost of insurance under the base policy are deducted monthly from your policy value and generally increase with the age of the joint insured persons.

Changes in the Amount of Your Insurance Coverage

Subject to certain limitations, you may change the amount of your insurance coverage after the first policy year. We reserve the right to limit a change in the amount of your insurance coverage during the first four policy years. The change will be effective on the next monthly processing date after we receive your written request.

There may be underwriting or other requirements that must be met before we will approve a change. After we approve your request to change the amount of insurance coverage under the policy, we will send a new policy schedule page to you. You should attach it to your policy. We may ask you to return your policy to our customer service center so that we can make this change for you.

Increases in the amount of your insurance coverage must be at least \$5,000 and may be permitted until any joint insured person exceeds age 85.

A coverage segment or segment is a block of insurance coverage. A requested increase in insurance coverage will cause a new coverage segment to be created. Once we create a new segment, it is permanent unless law requires differently.

Each new segment will have:

- A new surrender charge;
- New cost of insurance charges, guaranteed and current;
- A new monthly amount charge;
- A new incontestability period;
- A new suicide exclusion period; and
- A new minimum premium.

In determining the net amount at risk for each coverage segment we allocate the policy value first to the initial segment and any excess to additional segments starting with the first.

You may not decrease the amount of your insurance coverage below \$250,000. You cannot request a decrease in the amount of your insurance coverage more frequently than once every six months. Decreases in insurance coverage on policies with multiple coverage segments will be made in the following order:

- (1) From the most recent segment;
- (2) From the next more recent segments successively; and
- (3) From the initial segment.

Decreases in insurance coverage may result in:

- A shortened death benefit guarantee period if a term insurance rider is attached;
- Reduced minimum premium amounts; and
- Reduced cost of insurance charges.

Decreases in insurance coverage will not result in reduced surrender or monthly amount charges.

We reserve the right to not approve a requested change in your insurance coverage that would disqualify your policy as life insurance under Section 7702 of the Internal Revenue Code. In addition, we may refuse to approve a requested change in your insurance coverage that would cause your policy to become a modified endowment contract under Section 7702A of the Internal Revenue Code without your prior written acknowledgment accepting your policy as a modified endowment contract. Decreasing the amount of insurance coverage under your policy could cause your policy to be considered a modified endowment contract. If this happens, prior and subsequent distributions from the policy (including loans) may be subject to adverse tax treatment. You should consult a tax adviser before changing your amount of insurance coverage. ***See Distributions Other than Death Benefits - Modified Endowment Contracts, page 49.***

Death Benefit Qualification Test

The death benefit proceeds are generally not subject to federal income tax if your policy continues to meet the federal income tax definition of life insurance. Your policy will meet this definition of life insurance provided that it meets the requirements of the guideline premium test.

The guideline premium test requires that premium payments do not exceed certain statutory limits and your death benefit is at least equal to your policy value multiplied by a factor defined by law. The guideline premium test provides for a maximum amount of premium in relation to the death benefit and a minimum amount of death benefit in relation to policy value. The factors for the guideline premium test can be found in Appendix A of this prospectus.

Death Benefit Options

There are two death benefit options available under the base policy before age 100 of the younger of the joint insured person. You choose the option you want when you apply for the policy, but you may change that choice after the fourth policy year.

In the policy form, death benefit "Option 1" is referred to as the "Level Amount Option" or "Option A" and death benefit "Option 2" is referred to as the "Variable Amount Option" or "Option B."

Option 1. Under death benefit Option 1, the base death benefit is the greater of the amount of insurance coverage you have selected or your policy value multiplied by the appropriate factor from the definition of life insurance factors described in Appendix A. Under this option your base death benefit will remain level unless your policy value multiplied by the appropriate factor described in Appendix A exceeds the death benefit. In this case, your death benefit will vary as the policy value varies.

Option 2. Under death benefit Option 2, the base death benefit is the greater of the amount of insurance coverage you have selected plus your policy value or your policy value multiplied by the appropriate factor from the definition of life insurance factors described in Appendix A. Under this option your base death benefit will vary as the policy value varies.

After age 100 of the younger of the joint insured persons, the base death benefit under either option will generally be your policy value.

Which Death Benefit Option to Choose. If you are satisfied with the amount of your existing insurance coverage and prefer to have premium payments and favorable investment performance reflected to the maximum extent in the policy value and lower cost of insurance charges, you should choose Option 1. If you prefer to have premium payments and favorable investment performance reflected partly in the form of an increasing death benefit, you should choose Option 2.

Changing Death Benefit Options. After the fourth policy year, you may change the death benefit option. Evidence of insurability is currently not required for death benefit option changes, but we reserve the right to require such evidence in the future.

Changing your death benefit option may reduce or increase your insurance coverage but will not change the amount of your base death benefit. We may not approve a death benefit option change if it reduces the amount of insurance coverage below the minimum we require to issue your policy. On the effective date of your option change, your insurance coverage will change as follows:

<u>Change From:</u>	<u>Change To:</u>	<u>Insurance Coverage Following the Change:</u>
Option 1	Option 2	<ul style="list-style-type: none"> Your insurance coverage before the change minus your policy value as of the effective date of the change.
Option 2	Option 1	<ul style="list-style-type: none"> Your insurance coverage before the change plus your policy value as of the effective date of the change.

Your death benefit option change is effective on your next monthly processing date after we approve it.

After we approve your request, we send a new policy schedule page to you. You should attach it to your policy. We may ask you to return your policy to our customer service center so that we can make this change for you.

If a death benefit option change causes the amount of insurance coverage to change, no new coverage segment(s) is (are) created. Instead, the size of each existing segment(s) is (are) changed. If you change death benefit options, there is no change to the amount of term insurance coverage if you have a term insurance rider to your policy. **See Optional Rider Benefits - Four-Year Term Rider, page 35; Optional Rider Benefits - Survivorship Term Rider, page 35.**

Changing your death benefit option may have tax consequences. You should consult a tax adviser before making changes.

Death Benefit Proceeds

After the surviving joint insured person's death, if your policy is in force we pay the death benefit proceeds to the beneficiaries. The beneficiaries are the people you name to receive the death benefit proceeds from your policy. The death benefit proceeds are equal to:

- Your base death benefit; plus
- The amount of any rider benefits; minus
- Any outstanding policy loan with accrued loan interest; minus
- Any outstanding fees and charges incurred before the surviving joint insured person's death.

The death benefit is calculated as of the surviving joint insured person's death and will vary depending on the death benefit option you have chosen.

Death Benefit Guarantees

The policy has two death benefit guarantees which provide that the policy will not lapse even if the surrender value is not enough to pay the periodic fees and charges each month.

In general, the two most significant benefits of the death benefit guarantees are:

- During the early policy years, the surrender value may not be enough to cover the periodic fees and charges due each month, so that the basic or supplemental death benefit guarantee may be necessary to avoid lapse of the policy. This occurs when the surrender charge exceeds the policy value in these years. Likewise, if you request an increase in the amount of your insurance coverage, an additional surrender charge will apply for the ten years following the increase, which could create a similar possibility of lapse as exists during the early policy years; and
- To the extent the surrender value declines due to poor investment performance of the funds or due to an additional surrender charge after a requested increase in the amount of your insurance coverage, the surrender value may not be sufficient even in later policy years to cover the periodic fees and charges due each month. Accordingly, the basic death benefit guarantee may be necessary in later policy years to avoid lapse of the policy.

Basic Death Benefit Guarantee. The basic death benefit guarantee is standard on every policy. It provides a guarantee that your policy will not lapse during the guarantee period, provided your cumulative premium payments, minus any partial withdrawals or loans, are at least equal to the sum of minimum premium payments to the next monthly processing date. Your policy will specify the guarantee period. The death benefit guarantee period depends on the issue ages and premium classes of the joint insured persons, the death benefit option chosen and any additional insurance benefits attached by rider. Certain policy changes may also change the death benefit guarantee period. There is no charge for this guarantee.

You should consider the following factors in relation to the basic death benefit guarantee:

- The amount of the minimum premium for your policy will be set forth in your policy (**see *Purchasing a Policy - Premium Payments*, page 23**);
- The minimum premium for your policy is based on monthly rates that vary according to each insured person's gender, risk class and age;
- Even though you may pay less than the minimum premium amount, you may lose the significant protection provided by the basic death benefit guarantee by doing so;
- A loan may cause the termination of this guarantee because we deduct your loan amount including accrued interest from cumulative premiums paid when calculating whether you have paid sufficient premiums to keep the guarantee in effect; and
- Even if the basic death benefit guarantee terminates, your policy will not necessarily lapse (**see *Termination of Coverage - Lapse*, page 46**).

We will notify you if on any monthly processing date you have not paid enough premium to maintain the basic death benefit guarantee. This notice will show the amount of premium required to maintain this guarantee. If we do not receive the required premium payment within 61 days from the date of our notice, the basic death benefit guarantee will terminate.

During the first five policy years, we currently allow a terminated basic death benefit guarantee to be reinstated. This practice may be discontinued at any time without prior notice.

Supplemental Death Benefit Guarantee. The supplemental death benefit guarantee is standard on every policy. There is no charge for this guarantee. **See *Automatic Rider Benefits - Supplemental Death Benefit Guarantee Rider*, page 37.**

Additional Insurance Benefits

Your policy may include additional insurance benefits, attached by rider. There are two types of riders:

- Those that provide optional benefits that you must select before they are effective; and
- Those that automatically come with the policy.

The following information does not include all of the terms and conditions of each rider, and you should refer to the rider to fully understand its benefits and limitations. We may offer riders not listed here. Not all riders may be available under your policy. Contact your agent/registered representative for a list of riders and their availability.

Optional Rider Benefits

The following riders may have an additional cost, but you may cancel optional riders at any time. *Adding or canceling riders may have tax consequences. See TAX CONSIDERATIONS - Modified Endowment Contracts, page 49.*

Additional Insured Rider. The additional insured rider provides level term coverage to age 100 on either of the joint insured persons. You may add this rider after your policy is issued.

You should consider the following factors when deciding whether to add the additional insured rider to your policy:

- You cannot increase the amount of coverage under this rider after issue;
- You can decrease the amount of coverage under this rider after the first policy year;
- The minimum premium for this rider is based on monthly rates that vary according to the insured person's gender, risk class and age;
- The current cost of insurance rates for this rider are different than those for the base policy (see *Fees and Charges - Optional Rider Fees and Charges table, page 10*);
- The policy's periodic fees and charges do not apply to coverage under this rider; and
- This rider does not have a surrender charge.

Additionally, before age 75 you can convert the coverage under this rider to any other whole life policy we offer at the time. No evidence of insurability will be required for the new whole life policy, and the premiums and cost of insurance charges for this new policy will be based on the insured person's age at the time of conversion.

Four-Year Term Rider. The term insurance rider provides a four year, level term insurance benefit if the surviving joint insured person dies during the first four policy years. You may apply for this rider only when you apply for the base policy.

You should consider the following factors when deciding whether to add the four-year term rider to your policy:

- The current cost of insurance rates for this rider are different than those for the base policy (see *Fees and Charges - Optional Rider Fees and Charges table, page 10*);
- The policy's monthly amount charge applies to coverage under this rider; and
- This rider does not have a surrender charge.

Survivorship Term Rider. Provides a level term insurance benefit payable on the death of the surviving joint insured person if death occurs prior to age 100 of the younger joint insured person.

You should consider the following factors when deciding whether to add the survivorship term rider to your policy:

- The current cost of insurance rates for this rider are different than those for the base policy (see *Fees and Charges - Optional Rider Fees and Charges table, page 10*);
- The policy's periodic fees and charges do not apply to coverage under this rider;
- This rider does not have a surrender charge; and
- The rider will shorten the basic and supplemental death benefit guarantee periods of the base policy.

By company practice, you can transfer your coverage under this rider to your base policy without evidence of insurability if your base death benefit is equal to your policy value multiplied by the appropriate factor described in Appendix A. Cost of insurance rates for this new coverage segment will be the same as the cost of insurance rates for the initial coverage segment. No surrender charge or monthly amount charge will apply to this new coverage segment of the base policy.

Automatic Rider Benefits

The following rider benefits may come with your policy automatically, depending on the age and/or risk class of each joint insured person. There may be an additional charge if you choose to exercise any of these rider benefits, and exercising the benefits may have tax consequences. **See *Fees and Charges - Rider Fees and Charges*, page 29.**

Full Death Benefit Rider. The full death benefit rider changes how we calculate the death benefit after age 100 of the younger joint insured person. Under this rider the death benefit after age 100 of the younger joint insured person will continue to be calculated under the death benefit option in effect. However, at age 100 of the younger joint insured person we will:

- Transfer your variable account value to the fixed account;
- Terminate dollar cost averaging and automatic rebalancing programs; and
- We will not deduct any further monthly cost of insurance charges.

There is no charge for this rider. This rider may not be available in all states. Contact your agent/registered representative or our customer service center to find out if this rider is available in your state.

The tax consequences of coverage continuing after the younger joint insured person reaches age 95 are uncertain. You should consult a tax adviser as to those consequences. See *Other Tax Matters - Continuation of a Policy*, page 51.

Policy Split Option Rider. The policy split option rider allows you, under certain circumstances, the opportunity to exchange your policy for two single life insurance policies. One single life policy will be issued on the life of each joint insured person. The new single life policies will be subject to the minimum and maximum coverage amounts and issue ages for the plan of insurance chosen. We may require evidence of insurability.

Unless law requires otherwise, you may use the policy split option within 90 days of the occurrence of any of the following events:

- A final divorce decree regarding the marriage of the joint insured persons;
- A dissolution of a business partnership of the joint insured persons; or
- A change in the federal estate tax laws which results in either:
 - ▷ Elimination of the unlimited marital deduction; or
 - ▷ A reduction by at least 50% the estate taxes payable upon death.

You should consider the following factors before requesting to exercise the policy split option:

- On the effective date of the policy split, the available death benefit under your policy will be divided between the two new single life policies. The death benefit of each new single life policy cannot be greater than 50% of the base policy's death benefit, not including riders;
- You may take less than the maximum death benefit amount available. If the total death benefit for the two new single life insurance policies is less than the total death benefit under the one policy before the split, there may be a surrender charge;
- On the effective date of the policy split, the policy value of the base policy will be divided equally and each portion will be applied as premiums to each of the new single life policies;
- The premiums for the new single life policies will be based on the age and risk class of each joint insured person on the effective date of the policy split. Premiums will be due for each new policy under the terms of the new policy;
- The new policy owner will be the joint insured person whose life is insured under the new single life policy, unless specified otherwise;
- The beneficiary for each single life policy will be the beneficiary named for the base policy, unless specified otherwise; and
- Exercising the policy split option may be treated as a taxable transaction. Moreover, two single life insurance policies could be treated as modified endowment contracts. **See *Other Tax Matters - Taxation of Policy Splits*, page 51.**

There is no charge for this rider.

The tax consequences of exercising the policy split option are uncertain. You should consult a tax adviser as to those consequences. See *Other Tax Matters - Taxation of Policy Splits*, page 51.

Supplemental Death Benefit Guarantee. The supplemental death benefit provides a guarantee that your policy will not lapse during the supplemental death benefit guarantee period if on each monthly processing date since the policy date your cumulative premium payments, minus any partial withdrawals or loans, are at least equal to 40% of the sum of minimum monthly premium payments to the next monthly processing date. The supplemental guarantee period begins on the policy date and is equal to the death benefit guarantee period shown in your policy, multiplied by 40% and rounded to the lower whole number of policy years. The supplemental guarantee period may not exceed ten policy years. There is no charge for this guarantee.

You should consider the following factors in relation to the supplemental death benefit guarantee:

- Even though you may pay less than the minimum premium amount, you may lose the significant protection provided by the supplemental death benefit guarantee by doing so;
- A loan may cause the termination of this guarantee because we deduct your loan amount including accrued interest from cumulative premiums paid when calculating whether you have paid sufficient premiums to keep the guarantee in effect; and
- Even if the supplemental death benefit guarantee terminates, your policy will not necessarily lapse (see *Termination of Coverage - Lapse*, page 46).

We will notify you if on any monthly processing date you have not paid enough premium to maintain the supplemental death benefit guarantee. This notice will show the amount of premium required to maintain this guarantee. If we do not receive the required premium payment within 61 days from the date of our notice, the supplemental death benefit guarantee will terminate. If the supplemental death benefit guarantee terminates, it cannot be reinstated.

The amount necessary to reinstate the supplemental death benefit guarantee may exceed the amount needed to create sufficient surrender value to pay any periodic fees and charges due each month.

In the policy form the "policy value" is referred to as the "Accumulation Value," the "fixed account value" is referred to as the "Fixed Accumulation Value," and the "variable account value" is referred to as the "Variable Accumulation Value."

Policy Value

Your policy value equals the sum of your fixed account, variable account and loan account values. Your policy value reflects:

- The net premium applied to your policy;
- The fees and charges that we deduct;
- Any partial withdrawals you take;
- Interest earned on amounts allocated to the fixed account;
- The investment performance of the funds underlying the sub-accounts of the variable account; and
- Interest earned on amounts held in the loan account.

Fixed Account Value

Your fixed account value equals the net premium you allocate to the fixed account, plus interest earned, minus amounts you transfer out or withdraw. It may be reduced by fees and charges assessed against your policy value. **See The Investment Options - The Fixed Account, page 19.**

Variable Account Value

Your variable account value equals your policy value attributable to amounts invested in the sub-accounts of the variable account.

Determining Values in the Sub-Accounts. The value of the amount invested in each sub-account is measured by accumulation units and accumulation unit values. The value of each sub-account is the accumulation unit value for that sub-account multiplied by the number of accumulation units you own in that sub-account. Each sub-account has a different accumulation unit value.

The accumulation unit value is the value determined on each valuation date. The accumulation unit value of each variable investment option varies with the investment performance of its underlying fund. It reflects:

- Investment income;
- Realized and unrealized gains and losses;
- Fund expenses; and
- Taxes, if any.

A valuation date is a date on which a fund values its shares and the New York Stock Exchange is open for business, except for days on which valuations are suspended by the SEC. Each valuation date ends at 4:00 p.m. Eastern time.

You purchase accumulation units when you allocate premium or make transfers to a sub-account, including transfers from the loan account.

We redeem accumulation units:

- When amounts are transferred from a sub-account (including transfers to the loan account);
- For the monthly deduction of the periodic fees and charges from your variable account value;
- For policy transaction fees;
- When you take a partial withdrawal;
- If you surrender your policy; and
- To pay the death benefit proceeds.

To calculate the number of accumulation units purchased or sold we divide the dollar amount of your transaction by the accumulation unit value for the sub-account calculated at the close of business on the valuation date of the transaction.

The date of a transaction is the date we receive your premium or transaction request at our customer service center, so long as the date of receipt is a valuation date. We use the accumulation unit value which is next calculated after we receive your premium or transaction request and we use the number of accumulation units attributable to your policy on the date of receipt.

We deduct the periodic fees and charges each month from your variable account value on the monthly processing date. If your monthly processing date is not a valuation date, the monthly deduction is processed on the next valuation date.

The value of amounts allocated to the sub-accounts goes up or down depending on the investment performance of the corresponding funds. **There is no guaranteed minimum value of amounts invested in the sub-accounts of the variable account.**

How We Calculate Accumulation Unit Values. We determine the accumulation unit value for each sub-account on each valuation date.

We generally set the accumulation unit value for a sub-account at \$10 when the sub-account is first opened. After that, the accumulation unit value on any valuation date is:

- The accumulation unit value for the preceding valuation date; multiplied by
- The sub-account's accumulation experience factor for the valuation period.

Every valuation period begins at 4:00 p.m. Eastern time on a valuation date and ends at 4:00 p.m. Eastern time on the next valuation date.

We calculate an accumulation experience factor for each sub-account every valuation date as follows:

- We take the net asset value of the underlying fund shares as reported to us by the fund managers as of the close of business on that valuation date;
- We add dividends or capital gain distributions declared and reinvested by the fund during the current valuation period;
- We subtract a charge for taxes, if applicable; and
- We divide the resulting amount by the net asset value of the shares of the underlying fund at the close of business on the previous valuation date.

Loan Account Value

In the policy form the "loan account value" is referred to as the "Loan Amount."

When you take a loan from your policy we transfer an amount equal to your loan to the loan account as collateral for your loan. The loan account is part of our general account and we charge interest on amounts held in the loan account. Your loan account value is equal to your outstanding loan amount plus unpaid interest. **See *Special Features and Benefits - Loans*, page 40.**

Special Features and Benefits

Loans

You may borrow money from us by using your policy as collateral for the loan. We reserve the right to limit borrowing during the first policy year. Unless state law requires otherwise, a new loan amount must be at least \$500, and the amount you may borrow is limited to 75% of the surrender value of your policy. At the older joint insured person's age 65, we currently allow you to borrow up to 100% of the surrender value.

When you take a loan, we transfer an amount equal to your loan to the loan account. The loan account is part of our general account specifically designed to hold collateral for policy loans and interest.

Your loan request must be directed to our customer service center. When you request a loan you may specify the investment options from which the loan collateral will be taken. If you do not specify the investment options, the loan collateral will be taken proportionately from each active investment option you have, including the fixed account.

If you request an additional loan, we add the new loan amount to your existing loan. This way, there is only one loan outstanding on your policy at any time.

Loan Interest. We credit amounts held in the loan account with interest at an annual rate of 5.50% (guaranteed to be no less than 4.00%). Interest we credit is allocated to the sub-accounts and fixed account in the same proportion as your current premium allocation unless you tell us otherwise.

We also charge interest on loans. The annual interest rate charged is currently 7.40%.

After the tenth policy year, the annual interest rate which we charge will be reduced to 5.21% for that portion of the loan amount that is not greater than:

- Your variable account value plus your fixed account value; minus
- The sum of all premiums paid minus all partial withdrawals.

Loans with this reduced interest rate are preferred loans.

Interest is payable in advance at the time you take any loan (for the rest of the policy year) and at the beginning of each policy year thereafter (for the entire policy year). If you do not pay the interest when it is due, we add it to your loan account balance.

We will refund to you any interest we have not earned if:

- Your policy lapses;
- You surrender your policy; or
- You repay your loan.

Loan Repayment. You may repay your loan at any time. However, unless you tell us otherwise we will treat amounts received as premium payments and not loan repayments. You must tell us if you want a premium payment to go towards repaying your loan.

When you make a loan repayment, we transfer an amount equal to your payment from the loan account to the sub-accounts and fixed account in the same proportion as your current premium allocation, unless you tell us otherwise.

Effects of a Policy Loan. Using your policy as collateral for a loan will effect your policy in various ways. You should carefully consider the following before taking a policy loan:

- If you do not make loan repayments your policy could lapse because your surrender value may not be enough to pay your fees and charges each month;
- A loan may cause the termination of the death benefit guarantees because we deduct your loan amount including accrued loan interest from cumulative premiums paid when calculating whether you have paid sufficient premiums to keep the death benefit guarantee in effect;
- Taking a loan reduces your opportunity to participate in the investment performance of the sub-accounts and the interest guarantees of the fixed account;
- Accruing loan interest will change your policy value as compared to what it would have been if you did not take a loan;
- Even if you repay your loan, it will have a permanent effect on your policy value;
- If you do not repay your loan we will deduct any outstanding loan account value from amounts payable under the policy; and
- Loans may have tax consequences and if your policy lapses with a loan outstanding, you may have further tax consequences. **See TAX CONSIDERATIONS - Distributions Other than Death Benefits, page 49.**

Transfers

You currently may make an unlimited number of transfers of your variable account value between the sub-accounts and to the fixed account. Transfers are subject to any conditions or limits that we or the funds whose shares are involved may impose, including:

- You may generally not make transfers until after the fifteenth day following your policy date (**see Premium Payments - Allocation of Net Premium, page 24**);
- We reserve the right to limit you to 12 transfers each policy year;
- Although we currently do not impose a charge for transfers, we reserve the right to charge up to \$25 for each transfer; and
- We may impose the transfer charge, limit the number of transfers each policy year, restrict or refuse transfers because of frequent or disruptive transfers, as described below.

Any conditions or limits we impose on transfers between the sub-accounts or to the fixed account will generally apply equally to all policy owners. However, we may impose different conditions or limits on third parties acting on behalf of policy owners, such as market timing services.

Transfers from the fixed account to the sub-accounts of the variable account are subject to the following additional restrictions:

- Only one transfer is permitted each policy year, and you may only make this transfer within 30 days of the anniversary of your policy date;
- You may only transfer up to 50% of your fixed account value unless the balance, after the transfer, would be less than \$1,000 in which event you may transfer your full fixed account value; and
- Your transfer must be at least the lesser of \$500 or your total fixed account value.

We reserve the right to liberalize these restrictions on transfers from the fixed account, depending on market conditions. Any such liberalization will generally apply equally to all policy owners. However, we may impose different restrictions on third parties acting on behalf of policy owners, such as market timing services.

We process all transfers and determine all values in connection with transfers on the valuation date we receive your request, except as described below for the dollar cost averaging or automatic rebalancing programs.

Dollar Cost Averaging. Anytime your policy value less the loan account value is at least \$5,000 you may elect dollar cost averaging.

Dollar cost averaging is a long-term investment program through which you direct us to automatically transfer at regular intervals a specific dollar amount from any of the sub-accounts to one or more of the other sub-accounts or to the fixed account. We do not permit transfers from the fixed account under this program. You may request that the dollar cost averaging transfers occur on a monthly, quarterly, semi-annual or annual basis. You may discontinue this program at any time. Although we currently do not charge for this feature, we reserve the right to impose a charge in the future.

This systematic plan of transferring policy values is intended to help reduce the risk of investing too much when the price of a fund's shares is high. It also helps reduce the risk of investing too little when the price of a fund's shares is low. Because you transfer the same dollar amount to the sub-accounts each period, you purchase more units when the unit value is low and you purchase fewer units when the unit value is high.

Dollar cost averaging does not assure a profit nor does it protect you against a loss in a declining market.

You may discontinue your dollar cost averaging program at any time. We reserve the right to discontinue, modify or suspend this program, and dollar cost averaging will automatically terminate if:

- We receive a request to begin an automatic rebalancing program;
- The policy is in the grace period on any date when dollar cost averaging transfers are scheduled; or
- The specified transfer amount from any sub-account is more than the variable account value in that sub-account.

Automatic Rebalancing. Anytime your policy value less the loan account value is at least \$10,000 you may elect automatic rebalancing. Automatic rebalancing is a program for simplifying the process of asset allocation and maintaining a consistent allocation of your variable and fixed account values among your chosen investment options. Although we currently do not charge for this feature, we reserve the right to impose a charge in the future.

If you elect automatic rebalancing, we periodically transfer amounts among the investment options to match the asset allocation percentages you have chosen. This action rebalances the amounts in the investment options that do not match your set allocation percentages. This mismatch can happen if an investment option outperforms another investment option over the time period between automatic rebalancing transfers.

Automatic rebalancing does not assure a profit nor does it protect you against a loss in a declining market.

You may discontinue your automatic rebalancing program at any time. We reserve the right to discontinue, modify or suspend this program, and automatic rebalancing will automatically terminate if:

- We receive a request to transfer policy values among the investment options;
- We receive a request to begin a dollar cost averaging program;
- The policy is in the grace period on any date when automatic rebalancing transfers are scheduled; or
- The sum of your variable and fixed account values is less than \$7,500 on any date when automatic rebalancing transfers are scheduled.

Limits on Frequent or Disruptive Transfers. The policy is not designed to serve as a vehicle for frequent transfers. Frequent transfer activity can adversely affect fund performance, disrupt fund management strategies and increase fund expenses through:

- Increased trading and transaction costs;
- Forced and unplanned portfolio turnover;
- Lost opportunity costs; and
- Large asset swings that decrease the fund's ability to provide maximum investment return to all policy owners.

Accordingly, individuals or organizations that use market-timing investment strategies or make frequent transfers should not purchase the policy.

We monitor transfer activity and reserve the right to take any necessary action if an individual's or organization's transfer activity:

- Exceeds our then-current monitoring standard for excessive trading;
- Is identified as problematic by an underlying fund;
- Is determined, in our sole discretion, to be not in the best interests of other policy owners; or
- Is determined, in our sole discretion, to be disruptive due to the excessive dollar amounts involved.

Such actions may include, but are not limited to, the suspension of transfer privileges via facsimile, telephone, e-mail and internet, and the limiting of transfer privileges to submission by mail. We will notify you in writing if we take any of these actions.

Our current definition of excessive trading is more than one purchase and sale of the same underlying fund within a 30-day period. We do not count transfers associated with scheduled dollar cost averaging or automatic rebalancing programs and transfers involving certain de minimis amounts when determining whether trading activity is excessive. We reserve the right to modify our excessive trading policy at any time, without prior notice and in our sole discretion, based on, among other factors, the best interests of policy owners, fund investors, fund management considerations and state or federal regulatory developments.

We also reserve the right to restrict, in our sole discretion and without prior notice, transfers initiated by a market-timing organization or individual or other party authorized to give transfer instructions on behalf of multiple policy owners. Such restrictions may include:

- Not accepting transfer instructions from an agent acting on behalf of more than one policy owner; and
- Not accepting preauthorized transfer forms from market timers or other entities acting on behalf of more than one policy owner at a time.

The Company does not allow exceptions to our excessive trading policy. Our excessive trading policy may not be completely successful in preventing market timing or excessive trading activity.

Limits Imposed by the Funds. Orders for the purchase of fund shares may be subject to acceptance or rejection by the underlying fund. We reserve the right to reject, without prior notice, any allocation of a premium payment to a sub-account if the sub-account's investment in its corresponding fund is not accepted by the fund for any reason.

Conversion to a Guaranteed Policy. During the first two policy years and the first two years after an increase in the amount of your insurance coverage, you may permanently convert your policy or the requested increase in insurance coverage to a guaranteed policy, unless state law requires differently. If you elect to make this change, unless state law requires that we issue to you a new guaranteed policy, we will permanently transfer the amounts you have invested in the sub-accounts of the variable account to the fixed account and allocate all future net premium to the fixed account. After you exercise this right you may not allocate future premium payments or make transfers to the sub-accounts of the variable account. We do not charge for this change. Contact our customer service center or your agent/registered representative for information about the conversion rights available in your state.

Partial Withdrawals

Beginning in the second policy year you may withdraw part of your policy's surrender value. Only one partial withdrawal is currently allowed each policy year, and a partial withdrawal must be at least \$500. In policy years two through 15, you may not withdraw more than 20% of your surrender value.

We currently charge \$10 for each partial withdrawal, but we reserve the right to charge up to \$25 for each partial withdrawal. **See Transaction Fees and Charges - Partial Withdrawal Fee, page 26.**

Unless you specify a different allocation, we will take partial withdrawals from the fixed account and the sub-accounts of the variable account in the same proportion that your value in each has to your policy value on the monthly processing date. We will determine these proportions at the end of the valuation period during which we receive your partial withdrawal request. For purposes of determining these proportions, we will not include any outstanding loan account value.

Effects of a Partial Withdrawal. We will reduce the policy value by the amount of a partial withdrawal. We will also reduce the death benefit by an amount equal to the factor from the definition of life insurance factors described in Appendix A multiplied by the amount of the partial withdrawal. A partial withdrawal may also cause the termination of the death benefit guarantees because we deduct the amount of the partial withdrawal from the total premiums paid when calculating whether you have paid sufficient premiums in order to maintain the death benefit guarantees.

If death benefit Option 1 is in effect, we will decrease the amount of insurance coverage by the amount of a partial withdrawal. Decreases in insurance coverage on policies with multiple coverage segments will be made in the following order:

- (1) From the most recent segment;
- (2) From the next more recent segments successively; and
- (3) From the initial segment.

Therefore, partial withdrawals may affect the way in which the cost of insurance is calculated and the amount of pure insurance protection under the policy. **See Periodic Fees and Charges - Cost of Insurance, page 27.**

If death benefit Option 2 is in effect, a partial withdrawal will not affect the amount of insurance coverage.

We will not allow a partial withdrawal if the amount of insurance coverage after the withdrawal would be less than \$250,000.

A partial withdrawal may have tax consequences depending on the circumstances of such withdrawal. See **TAX CONSIDERATIONS - Tax Status of the Policy, page 48.**

Termination of Coverage

Your insurance coverage will continue under the policy until you surrender your policy or it lapses.

Surrender

In the policy form the "surrender value" is referred to as the "Cash Surrender Value."

You may surrender your policy for its surrender value any time after the free look period while the surviving joint insured person is alive. Your surrender value is your policy value minus any surrender charge, loan account value and unpaid fees and charges.

You may take your surrender value in other than one payment.

We compute your surrender value as of the valuation date we receive your written surrender request and policy (or lost policy form) at our customer service center. All insurance coverage ends on the date we receive your surrender request and policy.

Surrender of your policy may have adverse tax consequences. See **TAX CONSIDERATIONS - Distributions Other than Death Benefits, page 49.**

Lapse

Your policy will not lapse and your insurance coverage under the policy will continue if on any monthly processing date:

- A death benefit guarantee is in effect; or
- Your surrender value is enough to pay the periodic fees and charges when due.

Grace Period. If on a monthly processing date you do not meet either of these conditions, your policy will enter the 61-day grace period during which you must make a sufficient premium payment to avoid having your policy lapse and insurance coverage terminate.

We will notify you that your policy is in a grace period at least 30 days before it ends. We will send this notice to you (or a person to whom you have assigned your policy) at your last known address in our records. We will notify you of the premium payment necessary to prevent your policy from lapsing. This amount generally equals the past due charges, plus the estimated periodic fees and charges and charges of any optional rider benefits for the next two months. If we receive payment of the required amount before the end of the grace period, we apply it to your policy in the same manner as your other premium payments, then we deduct the overdue amounts from your policy value.

If you do not pay the full amount within the 61-day grace period, your policy and its riders will lapse without value. We withdraw your remaining variable and fixed account values, deduct amounts you owe us and inform you that your coverage has ended.

If the surviving joint insured person dies during the grace period, we do pay death benefit proceeds to your beneficiaries with reductions for your loan account value and periodic fees and charges owed.

During the early policy years your surrender value will generally not be enough to cover the periodic fees and charges each month, and you will generally need to pay at least the minimum premium amount (to maintain the basic and supplemental death benefit guarantees) for the policy not to lapse.

If your policy lapses, any distribution of policy value may be subject to current taxation. See **TAX CONSIDERATIONS - Distributions Other than Death Benefits, page 49.**

Reinstatement

Reinstatement means putting a lapsed policy back in force. You may reinstate a lapsed policy by written request any time within five years after it has lapsed. A policy that was surrendered may not be reinstated.

To reinstate the policy and any riders, you must submit evidence satisfactory to us that each joint insured person, or surviving joint insured person, is still insurable and pay a premium large enough to keep the policy and any rider benefits in force for at least two months. If you had a policy loan existing when coverage lapsed, we will reinstate it with accrued loan interest to the date of the lapse.

A lapsed basic death benefit guarantee cannot, unless otherwise allowed under state law, be reinstated after the fifth policy year. A lapsed supplemental death benefit guarantee cannot be reinstated.

A policy that is reinstated more than 90 days after lapsing will be classified as a modified endowment contract for tax purposes. See **TAX CONSIDERATIONS - Distributions Other than Death Benefits - Modified Endowment Contracts, page 49.**

TAX CONSIDERATIONS

The following summary provides a general description of the federal income tax considerations associated with the policy and does not purport to be complete or to cover federal estate, gift and generation-skipping tax implications, state and local taxes or other tax situations. This discussion is not intended as tax advice. Counsel or other competent tax advisers should be consulted for more complete information. This discussion is based upon our understanding of the present federal income tax laws. No representation is made as to the likelihood of continuation of the present federal income tax laws or as to how they may be interpreted by the Internal Revenue Service ("IRS").

The following discussion generally assumes that the policy will qualify as a life insurance contract for federal tax purposes.

Tax Status of the Company

We are taxed as a life insurance company under the Internal Revenue Code. The variable account is not a separate entity from us. Therefore, it is not taxed separately as a "regulated investment company," but is taxed as part of the company. We automatically apply investment income and capital gains attributable to the separate account to increase reserves under the policy. Because of this, under existing federal tax law we believe that any such income and gains will not be taxed to us. In addition, any foreign tax credits attributable to the separate account will first be used to reduce any income taxes imposed on the variable account before being used by the company.

In summary, we do not expect that we will incur any federal income tax liability attributable to the variable account and we do not intend to make provisions for any such taxes. However, if changes in the federal tax laws or their interpretation result in our being taxed on income or gains attributable to the variable account, then we may impose a charge against the variable account (with respect to some or all of the policies) to set aside provisions to pay such taxes.

Tax Status of the Policy

This policy is designed to qualify as a life insurance contract under the Internal Revenue Code. All terms and provisions of the policy shall be construed in a manner which is consistent with that design. In order to qualify as a life insurance contract for federal income tax purposes and to receive the tax treatment normally accorded life insurance contracts under federal tax law, a policy must satisfy certain requirements which are set forth in Section 7702 of the Internal Revenue Code. Specifically, the policy must meet the requirements of the guideline premium test. While there is very little guidance as to how these requirements are applied, we believe it is reasonable to conclude that our policies satisfy the applicable requirements. If it is subsequently determined that a policy does not satisfy the applicable requirements, we will take appropriate and reasonable steps to bring the policy into compliance with such requirements and we reserve the right to restrict policy transactions or modify your policy in order to do so.

We will at all times strive to assure that the policy meets the statutory definition which qualifies the policy as life insurance for federal income tax purposes. **See TAX CONSIDERATIONS - Tax Treatment of Policy Death Benefits, page 49.**

Diversification and Investor Control Requirements

In addition to meeting the Internal Revenue Code Section 7702 guideline premium test, Internal Revenue Code Section 817(h) requires separate account investments, such as our variable account, to be adequately diversified. The Treasury has issued regulations which set the standards for measuring the adequacy of any diversification. To be adequately diversified, each variable investment option must meet certain tests. If your variable life policy is not adequately diversified under these regulations, it is not treated as life insurance under Internal Revenue Code Section 7702. You would then be subject to federal income tax on your policy income as you earn it. Each sub-account's corresponding fund has represented that it will meet the diversification standards that apply to your policy. If it is determined that your variable life policy does not satisfy the applicable diversification regulations, we will take appropriate and reasonable steps to bring your policy into compliance with such regulations and we reserve the right to modify your policy as necessary in order to do so.

In certain circumstances, owners of a variable life insurance policy have been considered, for federal income tax purposes, to be the owners of the assets of the separate account supporting their policies, due to their ability to exercise investment control over such assets. When this is the case, the policy owners have been currently taxed on income and gains attributable to the separate account assets.

Your ownership rights under your policy are similar to, but different in some ways from those described by the IRS in rulings in which it determined that policy owners are not owners of separate account assets. For example, you have additional flexibility in allocating your premium payments and in your policy values. These differences could result in the IRS treating you as the owner of a pro rata share of the variable account assets. We do not know what standards will be set forth in the future, if any, in Treasury regulations or rulings. We reserve the right to modify your policy, as necessary, to try to prevent you from being considered the owner of a pro rata share of the variable account assets, or to otherwise qualify your policy for favorable tax treatment.

Tax Treatment of Policy Death Benefits

The death benefit under a policy is generally excludable from the gross income of the beneficiary(ies) under Section 101(a)(1) of the Internal Revenue Code. However, there are exceptions to this general rule. Additionally, federal and local transfer, estate, inheritance and other tax consequences of ownership or receipt of policy proceeds depend on the circumstances of each policy owner or beneficiary(ies). A tax adviser should be consulted about these consequences.

Distributions Other than Death Benefits

Generally, the policy owner will not be taxed on any of the policy value until there is a distribution. When distributions from a policy occur, or when loan amounts are taken from or secured by a policy, the tax consequences depend on whether or not the policy is a "modified endowment contract."

Modified Endowment Contracts

Under the Internal Revenue Code, certain life insurance contracts are classified as "modified endowment contracts" and are given less favorable tax treatment than other life insurance contracts. Due to the flexibility of the policies as to premiums and benefits, the individual circumstances of each policy will determine whether or not it is classified as a modified endowment contract. The rules are too complex to be summarized here, but generally depend on the amount of premiums we receive during the first seven policy years. Certain changes in a policy after it is issued, such as reduction in benefits, could also cause it to be classified as a modified endowment contract. A current or prospective policy owner should consult with a competent adviser to determine whether or not a policy transaction will cause the policy to be classified as a modified endowment contract.

If a policy becomes a modified endowment contract, distributions that occur during the policy year will be taxed as distributions from a modified endowment contract. In addition, distributions from a policy within two years before it becomes a modified endowment contract will be taxed in this manner. This means that a distribution made from a policy that is not a modified endowment contract could later become taxable as a distribution from a modified endowment contract.

Additionally, all modified endowment contracts that are issued by us (or our affiliates) to the same policy owner during any calendar year are treated as one modified endowment contract for purposes of determining the amount includible in the policy owner's income when a taxable distribution occurs.

Once a policy is classified as a modified endowment contract, the following tax rules apply both prospectively and to any distributions made in the prior two years:

- All distributions other than death benefits, including distributions upon surrender and withdrawals, from a modified endowment contract will be treated first as distributions of gain taxable as ordinary income. Amounts will be treated as tax-free recovery of the policy owner's investment in the policy only after all gain has been distributed. The amount of gain in the policy will be equal to the difference between the policy's value and the investment in the policy;
- Loan amounts taken from or secured by a policy classified as a modified endowment contract, and also assignments or pledges of such a policy (or agreements to assign or pledge such a policy), are treated as distributions and taxed first as distributions of gain taxable as ordinary income and as tax-free recovery of the policy owner's investment in the policy only after all gain has been distributed; and
- A 10% additional income tax penalty may be imposed on the distribution amount subject to income tax. This tax penalty generally does not apply to distributions (1) made on or after the date on which the taxpayer attains age 59½; (b) which are attributable to the taxpayer becoming disabled (as defined in the Internal Revenue Code); or (c) which are part of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the taxpayer or the joint lives (or joint life expectancies) of the taxpayer and his or her beneficiary. Consult a tax adviser to determine whether or not you may be subject to this penalty tax.

Policies That Are Not Modified Endowment Contracts

Distributions other than death benefits from a policy that is not classified as a modified endowment contract are generally treated first as a recovery of the policy owner's investment in the policy. Only after the recovery of all investment in the policy is there taxable income. However, certain distributions made in connection with policy benefit reductions during the first 15 policy years may be treated in whole or in part as ordinary income subject to tax. Consult a tax adviser to determine whether or not any distributions made in connection with a reduction in policy benefits will be subject to tax.

Loan amounts from or secured by a policy that is not a modified endowment contract are generally not taxed as distributions. However, the tax consequences of such a loan that is outstanding after policy year ten are uncertain and a tax adviser should be consulted about such loans. Finally, neither distributions from, nor loan amounts from or secured by, a policy that is not a modified endowment contract are subject to the 10% additional income tax.

Investment in the Policy

Your investment in the policy is generally the total of your aggregate premiums. When a distribution is taken from the policy, your investment in the policy is reduced by the amount of the distribution that is tax free.

Other Tax Matters

Policy Loans

In general, interest on a policy loan will not be deductible. A limited exception to this rule exists for certain interest paid in connection with certain "key person" insurance. You should consult a tax adviser to determine whether you qualify under this exception.

Moreover, the tax consequences associated with a preferred loan available in the policy are uncertain. Before taking out a policy loan, you should consult a tax adviser as to the tax consequences.

If a loan from a policy is outstanding when the policy is surrendered or lapses, then the amount of the outstanding indebtedness will be added to the amount treated as a distribution from the policy and will be taxed accordingly.

Continuation of a Policy

The tax consequences of continuing the policy after the younger joint insured person reaches age 95 are unclear. For example, in certain situations it is possible that after the younger joint insured person reaches age 95, the IRS could treat you as being in constructive receipt of the policy value if the policy value becomes equal to the death benefit. If this happens, an amount equal to the excess of the policy value over the investment in the policy would be includible in your income at that time. Because we believe the policy will continue to constitute life insurance at that time and the IRS has not issued any guidance on this issue, we do not intend to tax report any earnings due to the possibility of constructive receipt in this circumstance. You should consult a tax adviser if you intend to keep the policy in force after the younger joint insured person reaches age 95.

Section 1035 Exchanges

Internal Revenue Code Section 1035 provides, in certain circumstances, that no gain or loss will be recognized on the exchange of one life insurance policy for another life insurance policy, an endowment or annuity contract. Special rules and procedures apply to 1035 exchanges. These rules can be complex, and if you wish to take advantage of Section 1035, you should consult your tax adviser.

Taxation of Policy Splits

The policy split option rider permits a policy to be split into two single life policies upon the occurrence of:

- A divorce of the joint insured persons;
- Certain changes in federal estate tax law; or
- Dissolution of business conducted or owned by the joint insured persons.

Using the policy split option rider could have adverse tax consequences. Before you exercise the policy split option, it is important that you consult with a tax advisor regarding the possible tax consequences.

Tax-exempt Policy Owners

Special rules may apply to a policy that is owned by a tax-exempt entity. Tax-exempt entities should consult their tax adviser regarding the consequences of purchasing and owning a policy. These consequences could include an effect on the tax-exempt status of the entity and the possibility of the unrelated business income tax.

Tax Law Changes

Although the likelihood of legislative action is uncertain, there is always the possibility that the tax treatment of the policy could be changed by legislation or otherwise. You should consult a tax adviser with respect to legislative developments and their effect on the policy.

Policy Changes to Comply with the Law

So that your policy continues to qualify as life insurance under the Internal Revenue Code, we reserve the right to refuse to accept all or part of your premium payments or to change your death benefit. We may refuse to allow you to make partial withdrawals that would cause your policy to fail to qualify as life insurance. We also may make changes to your policy or its riders or make distributions from your policy to the degree that we deem necessary to qualify your policy as life insurance for tax purposes.

If we make any change of this type, it applies the same way to all affected policies.

Any increase in your death benefit will cause an increase in your cost of insurance charges.

Policy Availability and Qualified Plans

The policy is not available for sale to and cannot be acquired with funds that are assets of (i) an employee benefit plan as defined in Section 3(3) of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and that is subject to Title I of ERISA; (ii) a plan described in Section 4975(e)(1) of the Internal Revenue Code; or (iii) an entity whose underlying assets include plan assets by reason of the investment by an employee benefit plan or other plan in such entity within the meaning of 29 C.F.R. Section 2510.3-101 or otherwise.

Policy owners may use the policy in various other arrangements, including:

- Non-qualified deferred compensation or salary continuance plans;
- Split dollar insurance plans;
- Executive bonus plans;
- Retiree medical benefit plans; and
- Other plans.

The tax consequences of these plans may vary depending on the particular facts and circumstances of each arrangement. If you want to use any of your policies in this type of arrangement, you should consult a qualified tax adviser regarding the tax issues of your particular arrangement.

Life Insurance Owned by Businesses

In recent years, Congress has adopted new rules relating to life insurance owned by businesses. For example, in the case of a policy issued to a nonnatural taxpayer, or held for the benefit of such an entity, a portion of the taxpayer's otherwise deductible interest expenses may not be deductible as a result of ownership of a policy even if no loans are taken under the policy. (An exception to this rule is provided for certain life insurance contracts which cover the life of an individual who is a 20% owner, or an officer, director, or employee of a trade or business.) As another example, special rules apply if you are subject to the alternative minimum tax. Any business contemplating the purchase of a new policy or a change in an existing policy should consult a tax adviser.

Income Tax Withholding

The IRS requires us to withhold income taxes from any portion of the amounts individuals receive in a taxable transaction. We do not withhold income taxes if you elect in writing not to have withholding apply. If the amount withheld for you is insufficient to cover income taxes, you will have to pay income taxes and possibly penalties later.

Policy Transfers

The transfer of the policy or designation of a beneficiary may have federal, state and/or local transfer and inheritance tax consequences, including the imposition of gift, estate and generation-skipping transfer taxes. The individual situation of each policy owner or beneficiary will determine the extent, if any, to which federal, state and local transfer and inheritance taxes may be imposed and how ownership or receipt of policy proceeds will be treated for purposes of federal, state and local estate, inheritance, generation skipping and other taxes.

You should consult qualified legal or tax advisers for complete information on federal, state, local and other tax considerations.

ADDITIONAL INFORMATION

General Policy Provisions

Your Policy

The policy is a contract between you and us and is the combination of:

- Your policy;
- A copy of your original application and applications for benefit increases or decreases;
- Your riders;
- Your endorsements;
- Your policy schedule pages; and
- Your reinstatement applications.

If you make a change to your coverage, we give you a copy of your changed application and new policy schedules. If you send your policy to us, we attach these items to your policy and return it to you. Otherwise, you need to attach them to your policy.

Unless there is fraud, we consider all statements made in an application to be representations and not guarantees. We use no statement to deny a claim, unless it is in an application.

A president or other officer of our company and our secretary or assistant secretary must sign all changes or amendments to your policy. No other person may change its terms or conditions.

Age

We issue your policy at each joint insured person's age (stated in your policy schedule) based on the age at the last birthday as of the policy date. On the policy date, both joint insured person's ages can generally be no more than age 85. Average age under the policy means the sum of each joint insured person's age divided by two and rounded to the higher age.

We often use age to calculate rates, charges and values. We determine the joint insured persons' ages at a given time by adding the number of completed policy years to the ages calculated at issue and shown in the schedule.

Ownership

The original owner is the person named as the owner in the policy application. The owner can exercise all rights and receive benefits before the death of the surviving joint insured. These rights include the right to change the owner, beneficiaries or the method designated to pay death benefit proceeds.

As a matter of law, all rights of ownership are limited by the rights of any person who has been assigned rights under the policy and any irrevocable beneficiaries.

You may name a new owner by giving us written notice. The effective date of the change to the new owner is the date the prior owner signs the notice. However, we will not be liable for any action we take before a change is recorded at our customer service center. A change in ownership may cause the prior owner to recognize taxable income on gain under the policy.

Beneficiaries

You, as owner, name the beneficiaries when you apply for your policy. The primary beneficiaries who survive the surviving joint insured person receive the death benefit proceeds. Other surviving beneficiaries receive death benefit proceeds only if there is no surviving primary beneficiaries. If more than one beneficiary survives the surviving joint insured person, they share the death benefit proceeds equally, unless you specify otherwise. If none of your policy beneficiaries has survived the surviving joint insured person, we pay the death benefit proceeds to you or to your estate, as owner.

You may name new beneficiaries before the death of the surviving joint insured person. We pay death benefit proceeds to the beneficiaries whom you have most recently named according to our records. We do not make payments to multiple sets of beneficiaries. **The designation of certain beneficiaries may have tax consequences. See TAX CONSIDERATIONS - Other Tax Matters, page 51.**

Collateral Assignment

You may assign your policy by sending written notice to us. After we record the assignment, your rights as owner and the beneficiaries' rights (unless the beneficiaries were made irrevocable beneficiaries under an earlier assignment) are subject to the assignment. It is your responsibility to make sure the assignment is valid. **The transfer or assignment of a policy may have tax consequences. See TAX CONSIDERATIONS - Other Tax Matters, page 51.**

Incontestability

After your policy has been in force and both joint insured persons are alive for two years from your policy date and from the effective date of any new coverage segment, an increase in any other benefit or reinstatement, we will not question the validity of statements in your applicable application.

In the policy form the "policy date" is referred to as the "Issue Date."

Misstatements of Age or Gender

Notwithstanding the Incontestability provision above, if any joint insured person's age or gender has been misstated, we adjust the death benefit to the amount which would have been purchased for the joint insured person's correct age and gender. We base the adjusted death benefit on the cost of insurance charges deducted from your policy value on the last monthly processing date before the surviving joint insured person's death, or as otherwise required by law.

If unisex cost of insurance rates apply, we do not make any adjustments for a misstatement of gender.

Suicide

If any joint insured person commits suicide (while sane or insane) within two years of your policy date, unless otherwise required by law, we limit death benefit proceeds to:

- The total premium we receive to the time of death; minus
- Outstanding loan account value; minus
- Partial withdrawals taken.

We make a limited payment to the beneficiaries for a new coverage segment or other increase if any joint insured person commits suicide (while sane or insane) within two years of the effective date of a new coverage segment or within two years of an increase in any other benefit, unless otherwise required by law. The limited payment is equal to the cost of insurance charges which were deducted for the increase.

Anti-Money Laundering

In order to protect against the possible misuse of our products in money laundering or terrorist financing, we have adopted an anti-money laundering program satisfying the requirements of the USA PATRIOT Act. Among other things, this program requires us, our agents and customers to comply with certain procedures and standards that serve to assure that our customers' identities are properly verified and that premiums are not derived from improper sources.

Under our anti-money laundering program, we may require policy owners, insured persons and/or beneficiaries to provide sufficient evidence of identification, and we reserve the right to verify any information provided to us by accessing information databases maintained internally or by outside firms.

We may also refuse to accept certain forms of premium payments or loan repayments (travelers cheques, for example) or restrict the amount of certain forms of premium payments or loan repayments (money orders totaling more than \$5,000, for example). In addition, we may require information as to why a particular form of payment was used (third party checks, for example) and the source of the funds of such payment in order to determine whether or not we will accept it. Use of an unacceptable form of payment may result in your policy entering a 61-day grace period during which you must make a sufficient payment, in an acceptable form, to keep your policy from lapsing. **See Premium Payments - Premium Payments Affect Your Coverage, page 24.**

Our anti-money laundering program is subject to change without notice to take account of changes applicable in laws or regulations and our ongoing assessment of our exposure to illegal activity.

Transaction Processing

Generally, within seven days of when we receive all information required to process a payment, we pay:

- Death benefit proceeds;
- Surrender value;
- Partial withdrawals; and
- Loan proceeds.

We may delay processing these transactions if:

- The New York Stock Exchange is closed for trading;
- Trading on the New York Stock Exchange is restricted by the SEC;
- There is an emergency so that it is not reasonably possible to sell securities in the sub-accounts or to determine the value of a sub-account's assets; and
- A governmental body with jurisdiction over the variable account allows suspension by its order.

SEC rules and regulations generally determine whether or not these conditions exist.

We execute transfers among the sub-accounts as of the valuation date of our receipt of your request at our customer service center.

We determine the death benefit as of the date of the surviving joint insured person's death. The death benefit proceeds are not affected by subsequent changes in the value of the sub-accounts.

We may delay payment from our fixed account for up to six months, unless law requires otherwise, of surrender proceeds, withdrawal amounts or loan amounts. If we delay payment more than 30 days, we pay interest at our declared rate (or at a higher rate if required by law) from the date we receive your complete request.

Notification and Claims Procedures

Except for certain authorized telephone requests, we must receive in writing any election, designation, change, assignment or request made by the owner.

You must use a form acceptable to us. We are not liable for actions taken before we receive and record the written notice. We may require you to return your policy for policy changes or if you surrender it.

If the surviving joint insured person dies while your policy is in force, please let us know as soon as possible. We will send you instructions on how to make a claim. As proof of the surviving joint insured person's death, we may require proof of the deceased surviving joint insured person's age and a certified copy of the death certificate.

The beneficiaries and the deceased surviving joint insured person's next of kin may need to sign authorization forms. These forms allow us to get information such as medical records of doctors and hospitals used by the deceased surviving joint insured person.

Telephone Privileges

Telephone privileges are automatically provided to you and your agent/registered representative, unless you decline it on the application or contact our customer service center. Telephone privileges allow you or your agent/registered representative to call our customer service center to:

- Make transfers;
- Change premium allocations;
- Change your dollar cost averaging and automatic rebalancing programs;
- Request partial withdrawals; and
- Request a loan.

Our customer service center uses reasonable procedures to make sure that instructions received by telephone are genuine. These procedures may include:

- Requiring some form of personal identification;
- Providing written confirmation of any transactions; and
- Tape recording telephone calls.

By accepting telephone privileges, you authorize us to record your telephone calls with us. If we use reasonable procedures to confirm instructions, we are not liable for losses from unauthorized or fraudulent instructions. We may discontinue or limit this privilege at any time. **See Transfers - Limits on Frequent or Disruptive Transfers, page 44.**

Telephone and facsimile privileges may not always be available. Telephone or fax systems, whether yours, your service provider's or your agent's, can experience outages or slowdowns for a variety of reasons. These outages or slowdowns may prevent or delay our receipt of your request. Although we have taken precautions to help our systems handle heavy use, we cannot promise complete reliability under all circumstances. If you are experiencing problems, you should make your transfer request by written request.

Non-participation

Your policy does not participate in the surplus earnings of ReliaStar Life Insurance Company.

Advertising Practices and Sales Literature

We may use advertisements and sales literature to promote this product, including:

- Articles on variable life insurance and other information published in business or financial publications;
- Indices or rankings of investment securities; and
- Comparisons with other investment vehicles, including tax considerations.

We may use information regarding the past performance of the sub-accounts and funds. Past performance is not indicative of future performance of the sub-accounts or funds and is not reflective of the actual investment experience of policy owners.

We may feature certain sub-accounts, the underlying funds and their managers, as well as describe asset levels and sales volumes. We may refer to past, current, or prospective economic trends and investment performance or other information we believe may be of interest to our customers.

Settlement Options

You may elect to take the surrender value in other than one lump-sum payment. Likewise, you may elect to have the beneficiaries receive the death benefit proceeds other than in one lump-sum payment, if you make this election before the death of the surviving joint insured. If you have not made this election, the beneficiaries may do so within 60 days after we receive proof of the surviving joint insured person's death.

The investment performance of the sub-accounts does not affect payments under these settlement options. Instead, interest accrues at a fixed rate based on the option you choose. Payment options are subject to our rules at the time you make your selection. Currently, a periodic payment must be at least \$25 and the total proceeds must be at least \$2,500.

The following settlement options are available:

- **Option 1** - The proceeds are left with us to earn interest. Withdrawals and any changes are subject to our approval;
- **Option 2** - The proceeds and interest are paid in equal installments of a specified amount until the proceeds and interest are all paid;
- **Option 3** - The proceeds and interest are paid in equal installments for a specified period until the proceeds and interest are all paid;
- **Option 4** - The proceeds provide an annuity payment with a specified number of months. The payments are continued for the life of the primary payee. If the primary payee dies before the certain period is over, the remaining payments are paid to a contingent payee;
- **Option 5** - The proceeds provide a life income for two payees. When one payee dies, the surviving payee receives two-thirds of the amount of the joint monthly payment for life; and

- **Option 6** - The proceeds are used to provide an annuity based on the rates in effect when the proceeds are applied. We will not apply this option if a similar option would be more favorable to the payee at that time.

Interest on Settlement Options. We base the interest rate for proceeds applied under Options 1 and 2 on the interest rate we declare on money that we consider to be in the same classification based on the option, restrictions on withdrawal and other factors. The interest rate will never be less than an effective annual rate of 3.50%.

In determining amounts we pay under Options 3, 4 and 5, we assume interest at an effective annual rate of 3.50%. Also, for Option 3 and periods certain under Option 4, we credit any excess interest we may declare on money that we consider to be in the same classification based on the option, restrictions on withdrawal and other factors.

If none of these settlement options have been elected, your surrender value or the death benefit proceeds will be paid in one lump-sum payment.

Unless you request otherwise, death benefit proceeds generally will be paid into an interest bearing account which is backed by our general account and can be accessed by the beneficiary through a checkbook feature. The beneficiary may access the death benefit proceeds at any time without penalty. Interest earned on this account may be less than interest paid on other settlement options.

Reports

Annual Statement. We will send you an annual statement once each year free of charge showing the amount of insurance coverage under your policy as well as your policy's death benefit, policy and surrender values, the amount of premiums you have paid, the amounts you have withdrawn, borrowed or transferred and the fees and charges we have imposed since the last statement.

Additional statements are available upon request. We may make a charge not to exceed \$50 for each additional annual statement you request. **See Transaction Fees and Charges - Excess Annual Report Fee, page 27.**

We send semi-annual reports with financial information on the funds, including a list of investment holdings of each fund.

We send confirmation notices to you throughout the year for certain policy transactions such as transfers between investment options, partial withdrawals and loans. You are responsible for reviewing the confirmation notices to verify that the transactions are being made as requested.

Illustrations. To help you better understand how your policy values will vary over time under different sets of assumptions, we will provide you with a personalized illustration projecting future results based on the age and risk classification of each of the joint insured persons and other factors such as the amount of insurance coverage, death benefit option, premiums and rates of return (within limits) you specify. We may make a charge not to exceed \$50 for each illustration you request after the first in a policy year. **See Transaction Fees and Charges - Excess Illustration Fee, page 27.**

Other Reports. We will mail to you at your last known address of record at least annually a report containing such information as may be required by any applicable law. To reduce expenses, only one copy of most financial reports and prospectuses, including reports and prospectuses for the investment Funds, will be mailed to your household, even if you or other persons in your household have more than one policy issued by us or an affiliate. Call our customer service center at 1-877-253-5050 if you need additional copies of financial reports, prospectuses, historical account information or annual or semi-annual reports or if you would like to receive one copy for each policy in all future mailings.

Trading - Industry Developments

As with many financial services companies, the company and affiliates of the company have received requests for information from various governmental and self-regulatory agencies in connection with investigations related to trading in investment company shares. In each case, full cooperation and responses are being provided. The company is also reviewing its policies and procedures in this area.

Legal Proceedings

We are not aware of any pending legal proceedings which involve the variable account as a party.

We are, or may be in the future, a defendant in various legal proceedings in connection with the normal conduct of our insurance operations. Some of these cases may seek class action status and may include a demand for punitive damages as well as for compensatory damages. In the opinion of management, the ultimate resolution of any existing legal proceeding is not likely to have a material adverse affect on our ability to meet our obligations under the policy.

ING America Equities, Inc., the principal underwriter and distributor of the policy, is not involved in any legal proceeding which, in the opinion of management, is likely to have a material adverse affect on its ability to distribute the policy.

Financial Statements

Financial statements of the variable account and the company are contained in the Statement of Additional Information. To request a free Statement of Additional Information, please contact our customer service center at the address or telephone number on the back of this prospectus.

APPENDIX B

Funds Available Through the Variable Account

The following chart lists the funds, the investment advisers and subadvisers to the funds and summary information regarding the investment objective of each fund. For information about each fund's expenses, see the Fund Expense Table beginning on page 12 of this prospectus. More detailed information about the funds can be found in the current prospectus and Statement of Additional Information for each fund.

There is no assurance that the stated objectives and policies of any of the funds will be achieved. Shares of the funds will rise and fall in value and you could lose money by investing in the funds. Shares of the funds are not bank deposits and are not guaranteed, endorsed or insured by any financial institution, the Federal Deposit Insurance Corporation or any other government agency. Except as noted, all funds are diversified, as defined under the 1940 Act.

Fund Name	Investment Adviser/ Subadviser	Investment Objective
AIM V.I. Dent Demographic Trends Fund (Series I Shares)	<u>Investment Adviser:</u> A I M Advisors, Inc. <u>Subadviser:</u> H.S. Dent Advisors, Inc.	Seeks long-term growth of capital.
Alger American Growth Portfolio (Class O Shares)	<u>Investment Adviser:</u> Fred Alger Management, Inc.	Seeks long-term capital appreciation.
Alger American Leveraged AllCap Portfolio (Class O Shares)	<u>Investment Adviser:</u> Fred Alger Management, Inc.	Seeks long-term capital appreciation.
Alger American MidCap Growth Portfolio (Class O Shares)	<u>Investment Adviser:</u> Fred Alger Management, Inc.	Seeks long-term capital appreciation.
Alger American Small Capitalization Portfolio (Class O Shares)	<u>Investment Adviser:</u> Fred Alger Management, Inc.	Seeks long-term capital appreciation.
American Funds Insurance Series - Growth Fund (Class 2)	<u>Investment Adviser:</u> Capital Research and Management Company	Seeks growth of capital.
American Funds Insurance Series - Growth-Income Fund (Class 2)	<u>Investment Adviser:</u> Capital Research and Management Company	Seeks capital growth and income over time.
American Funds Insurance Series - International Fund (Class 2)	<u>Investment Adviser:</u> Capital Research and Management Company	Seeks growth of capital over time.
Fidelity® VIP Contrafund® Portfolio (Initial Class)	<u>Investment Adviser:</u> Fidelity Management & Research Company <u>Subadvisers:</u> Fidelity Management & Research (U.K.) Inc.; Fidelity Management & Research (Far East) Inc.; Fidelity Investments Japan Limited; FMR Co., Inc.	Seeks long-term capital appreciation.
Fidelity® VIP Equity-Income Portfolio (Initial Class)	<u>Investment Adviser:</u> Fidelity Management & Research Company <u>Subadviser:</u> FMR Co., Inc.	Seeks reasonable income.

Fund Name	Investment Adviser/ Subadviser	Investment Objective
Fidelity® VIP Growth Portfolio (Initial Class)	<u>Investment Adviser:</u> Fidelity Management & Research Company <u>Subadviser:</u> FMR Co., Inc.	Seeks to achieve capital appreciation.
Fidelity® VIP High Income Portfolio (Initial Class)	<u>Investment Adviser:</u> Fidelity Management & Research Company <u>Subadvisers:</u> Fidelity Management & Research (U.K.) Inc.; Fidelity Management & Research (Far East) Inc.; Fidelity Investments Japan Limited; FMR Co., Inc.	Seeks a high level of current income while also considering growth of capital.
Fidelity® VIP Index 500 Portfolio (Initial Class)	<u>Investment Adviser:</u> Fidelity Management & Research Company <u>Subadviser:</u> Geode Capital Management, LLC (Geode)	Seeks investment results that correspond to the total return of common stocks publicly traded in the United States, as represented by the Standard & Poor's 500 Index SM (S&P 500 [®]).
Fidelity® VIP Investment Grade Bond Portfolio (Initial Class)	<u>Investment Adviser:</u> Fidelity Management & Research Company <u>Subadviser:</u> Fidelity Investments Money Management, Inc.	Seeks as high a level of current income as is consistent with the preservation of capital.
Fidelity® VIP Money Market Portfolio (Initial Class)	<u>Investment Adviser:</u> Fidelity Management & Research Company <u>Subadviser:</u> Fidelity Investments Money Management, Inc.	Seeks as high a level of current income as is consistent with preservation of capital and liquidity.
ING AIM Mid Cap Growth Portfolio (Class S Shares)	<u>Investment Adviser:</u> Directed Services, Inc. <u>Subadviser:</u> A I M Capital Management, Inc.	Seeks capital appreciation.
ING Hard Assets Portfolio (Class I Shares)	<u>Investment Adviser:</u> Directed Services, Inc. <u>Subadviser:</u> Baring International Investment Limited	A <i>nondiversified</i> portfolio that seeks long-term capital appreciation.
ING International Portfolio (Class S Shares)	<u>Investment Adviser:</u> Directed Services, Inc. <u>Subadviser:</u> Aeltus Investment Management, Inc.	Seeks long-term growth of capital.

Fund Name	Investment Adviser/ Subadviser	Investment Objective
ING JPMorgan Small Cap Equity Portfolio (Class I Shares)	<u>Investment Adviser:</u> Directed Services, Inc. <u>Subadviser:</u> J. P. Morgan Investment Management Inc.	A nondiversified Portfolio that seeks capital growth over the long term.
ING Legg Mason Value Portfolio (Class I Shares)	<u>Investment Adviser:</u> Directed Services, Inc. <u>Subadviser:</u> Legg Mason Funds Management, Inc.	Seeks long-term growth of capital.
ING Limited Maturity Bond Portfolio (Class S Shares)	<u>Investment Adviser:</u> Directed Services, Inc. <u>Subadviser:</u> Aeltus Investment Management, Inc.	Seeks highest current income consistent with low risk to principal and liquidity and secondarily, seeks to enhance its total return through capital appreciation when market factors indicate that capital appreciation may be available without significant risk to principal.
ING Liquid Assets Portfolio (Class I Shares)	<u>Investment Adviser:</u> Directed Services, Inc. <u>Subadviser:</u> Aeltus Investment Management, Inc.	Seeks high level of current income consistent with the preservation of capital and liquidity.
ING MFS Mid Cap Growth Portfolio (Class S Shares)	<u>Investment Adviser:</u> Directed Services, Inc. <u>Subadviser:</u> Massachusetts Financial Services Company	Seeks long-term growth of capital.
ING MFS Total Return Portfolio (Class I Shares)	<u>Investment Adviser:</u> Directed Services, Inc. <u>Subadviser:</u> Massachusetts Financial Services Company	Seeks above-average income (compared to a portfolio entirely invested in equity securities) consistent with the prudent employment of capital.
ING Marsico Growth Portfolio (Class S Shares)	<u>Investment Adviser:</u> Directed Services, Inc. <u>Subadviser:</u> Marsico Capital Management, LLC	Seeks capital appreciation.
ING Mercury Focus Value Portfolio (Class I Shares)	<u>Investment Adviser:</u> Directed Services, Inc. <u>Subadviser:</u> Mercury Advisors	Seeks long-term growth of capital.
ING Salomon Brothers Investors Portfolio (Class I Shares)	<u>Investment Adviser:</u> Directed Services, Inc. <u>Subadviser:</u> Salomon Brothers Asset Management Inc.	Seeks long-term growth of capital.
ING Stock Index Portfolio (Class I Shares)	<u>Investment Adviser:</u> Directed Services, Inc. <u>Subadviser:</u> Aeltus Investment Management, Inc.	Seeks total return.

Fund Name	Investment Adviser/ Subadviser	Investment Objective
ING T. Rowe Price Capital Appreciation Portfolio (Class I Shares)	<u>Investment Adviser:</u> Directed Services, Inc. <u>Subadviser:</u> T. Rowe Price Associates, Inc.	Seeks, over the long-term, a high total investment return, consistent with the preservation of capital and prudent investment risk.
ING T. Rowe Price Equity Income Portfolio (Class S Shares)	<u>Investment Adviser:</u> Directed Services, Inc. <u>Subadviser:</u> T. Rowe Price Associates, Inc.	Seeks substantial dividend income as well as long-term growth of capital.
ING Van Kampen Equity Growth Portfolio (Class I Shares)	<u>Investment Adviser:</u> Directed Services, Inc. <u>Subadviser:</u> Van Kampen	Seeks long-term capital appreciation.
ING Van Kampen Real Estate Portfolio (Class I Shares)	<u>Investment Adviser:</u> Directed Services, Inc. <u>Subadviser:</u> Van Kampen	A <i>nondiversified</i> portfolio that seeks capital appreciation and secondarily seeks current income.
ING JPMorgan Mid Cap Value Portfolio (Initial Class)	<u>Investment Adviser:</u> ING Life Insurance and Annuity Company <u>Subadviser:</u> J. P. Morgan Investment Management Inc.	Seeks growth from capital appreciation.

MORE INFORMATION IS AVAILABLE

If you would like more information about us, the variable account or the policy, the following documents are available free upon request:

- **Statement of Additional Information ("SAI")** - The SAI contains more specific information about the variable account and the policy, as well as the financial statements of the variable account and the company. The SAI is incorporated by reference into (made legally part of) this prospectus. The following is the Table of Contents for the SAI:

	<u>Page</u>
General Information and History	2
Distribution of the Policies	2
Performance Reporting and Advertising	3
Experts	4
Financial Statements.....	5
Financial Statements of the Select★Life Variable Account	S-1
Statutory-Basis Financial Statements of the ReliaStar Life Insurance Company.....	F-1

- **A personalized illustration of policy benefits** - A personalized illustration can help you understand how the policy works, given the policy's fees and charges along with the investment options, features and benefits and optional benefits you select. A personalized illustration can also help you compare the policy's death benefits, policy value and surrender value with other life insurance policies based on the same or similar assumptions. We reserve the right to assess a fee of up to \$50 for each personalized illustration you request after the first each policy year. **See Transaction Fees and Charges - Excess Illustration Fee, page 27.**

To request a free SAI or personalized illustration of policy benefits or to make other inquiries about the policy, please contact us at our:

GENERAL INFORMATION AND HISTORY

ReliaStar Life Insurance Company (the "company," "we," "us," "our") issues the policy described in the prospectus and is responsible for providing each policy's insurance benefits. We are a stock life insurance company organized in 1885 and incorporated under the laws of the State of Minnesota and an indirect, wholly owned subsidiary of ING Groep N.V. ("ING"), a global financial institution active in the fields of insurance, banking and asset management. ING is headquartered in Amsterdam, The Netherlands. We are engaged in the business of issuing insurance policies. Our home office is located at 20 Washington Avenue South, Minneapolis, Minnesota 55401.

We established the Select★Life Variable Account (the "variable account") on October 11, 1984, under the laws of the State of Minnesota for the purpose of funding variable life insurance policies issued by us. The variable account is registered with the Securities and Exchange Commission ("SEC") as a unit investment trust under the Investment Company Act of 1940, as amended. Premium payments may be allocated to one or more of the available sub-accounts of the variable account. Each sub-account invests in shares of a corresponding fund at net asset value. We may make additions to, deletions from or substitutions of available funds as permitted by law and subject to the conditions of the policy.

Other than the policy owner fees and charges described in the prospectus, all expenses incurred in the operations of the variable account are borne by the company. We do, however, receive compensation for certain recordkeeping, administration or other services from the funds or affiliates of the funds available through the policies. **See "Fees and Charges," page 25, in the prospectus.**

The company maintains custody of the assets of the variable account. As custodian, the company holds cash balances for the variable account pending investment in the funds or distribution. The funds in whose shares the assets of the sub-accounts of the variable account are invested each have custodians, as discussed in the respective fund prospectuses.

DISTRIBUTION OF THE POLICIES

The company's affiliate, ING America Equities, Inc., serves as the principal underwriter (distributor) for the policies. ING America Equities, Inc. was organized under the laws of the State of Colorado on September 27, 1993, and is registered as a broker/dealer with the SEC and the National Association of Securities Dealers, Inc. We pay ING America Equities, Inc. under a distribution agreement dated May 1, 2002. ING America Equities, Inc.'s principal office is located at 1290 Broadway, Denver, Colorado 80203-5699.

ING America Equities, Inc. offers the securities under the policies on a continuous basis. For the years ended December 31, 2003 and 2002, the aggregate amount paid to ING America Equities, Inc. under our distribution agreement was \$24,581,359 and \$50,355,543, respectively.

Prior to May 1, 2002, Washington Square Securities, Inc. ("WSSI"), a Minnesota corporation and an affiliate of ours, was the principal underwriter (distributor) for the policies. We paid WSSI under a distribution agreement. For the year ended December 31, 2001, the aggregate amount paid to WSSI under our distribution agreement was \$56,727,215.

Effective January 1, 2004, WSSI merged with Locust Street Securities, Inc. and changed its name to ING Financial Partners, Inc.

We sell our policies through licensed insurance agents who are registered representatives of affiliated and unaffiliated broker/dealers. A description of the manner in which the policies are purchased may be found in the prospectus under the section entitled "Purchasing a Policy."

All broker/dealers who sell this policy have entered into selling agreements with us. Under these selling agreements, we pay a distribution allowance to broker/dealers, who in turn pay commissions to their agents/registered representatives who sell this policy.

Commissions generally will be no more than 90% of the premiums paid up to the annualized minimum monthly premium, plus 4% of additional premiums for the first policy year and lower thereafter.

In addition, a trail commission of 0.10% of the average monthly policy value (excluding any loan account value) during each policy year may be paid. Further, agents/registered representatives may be eligible to receive certain overrides and other benefits based on the amount of earned commissions.

In addition to these distribution allowances/commissions, we may also pay other amounts to broker/dealers and/or their agents/registered representatives. These amounts may include:

- Loans or advances of commissions in anticipation of future receipt of premiums (a form of lending to agents/registered representatives). These loans may have advantageous terms, such as reduction or elimination or the interest charged on the loan and/or forgiveness of the principal amount of the loan, which may be conditioned on insurance sales;
- Wholesaler fees and marketing allowances based on aggregate commissions paid during the year;
- Education and training allowances to facilitate our attendance at certain educational and training meetings to provide information and training about our products. We also hold training programs from time to time at our own expense;
- Sponsor payments or reimbursements for broker/dealers to use in sales contests for their agents/registered representatives. We do not hold contests directly based on sales of this product; and
- Certain overrides and other benefits, which may include cash compensation, based on the amount of earned commissions, agent/representative recruiting, and other activities that promote the sale of policies.

We pay dealer concessions, wholesaling fees, overrides, other allowances and benefits and the costs of all other incentives or training programs from our resources which include sales charges.

PERFORMANCE REPORTING AND ADVERTISING

Information regarding the past, or historical, performance of the sub-accounts of the variable account and the funds available for investment through the sub-accounts of the variable account may appear in advertisements, sales literature or reports to policy owners or prospective purchasers. SUCH PERFORMANCE INFORMATION FOR THE SUB-ACCOUNTS WILL REFLECT THE DEDUCTION OF ALL FUND FEES AND CHARGES, INCLUDING INVESTMENT MANAGEMENT FEES, DISTRIBUTION (12B-1) FEES AND OTHER EXPENSES BUT WILL NOT REFLECT DEDUCTIONS FOR ANY POLICY FEES AND CHARGES. IF THE POLICY'S PREMIUM EXPENSE, COST OF INSURANCE, ADMINISTRATIVE AND MORTALITY AND EXPENSE RISK CHARGES AND THE OTHER TRANSACTION, PERIODIC OR OPTIONAL BENEFITS FEES AND CHARGES WERE DEDUCTED, THE PERFORMANCE SHOWN WOULD BE SIGNIFICANTLY LOWER.

With respect to performance reporting it is important to remember that past performance does not guarantee future results. Current performance may be higher or lower than the performance shown and actual investment returns and principal values will fluctuate so that shares and/or units, at redemption, may be worth more or less than their original cost.

Performance history of the sub-accounts of the variable account and the corresponding funds is measured by comparing the value at the beginning of the period to the value at the end of the period. Performance is usually calculated for periods of one month, three months, year-to-date, one year, three years, five years, ten years (if the fund has been in existence for these periods) and since the inception date of the fund (if the fund has been in existence for less than ten years). We may provide performance information showing average annual total returns for periods prior to the date a sub-account commenced operation. We will calculate such performance information based on the assumption that the sub-accounts were in existence for the same periods as those indicated for the funds, with the level of charges at the variable account level that were in effect at the inception of the sub-accounts. Performance information will be specific to the class of fund shares offered through the policy, however, for periods prior to the date a class of fund shares commenced operations, performance information may be based on a different class of shares of the same fund. In this case, performance for the periods prior to the date a class of fund shares commenced operations will be adjusted by the fund fees and expenses associated with the class of fund shares offered through the policy.

We may compare performance of the sub-accounts and/or the funds as reported from time to time in advertisements and sales literature to other variable life insurance issuers in general; to the performance of particular types of variable life insurance policies investing in mutual funds; or to investment series of mutual funds with investment objectives similar to each of the sub-accounts, whose performance is reported by Lipper Analytical Services, Inc. ("Lipper") and Morningstar, Inc. ("Morningstar") or reported by other series, companies, individuals or other industry or financial publications of general interest, such as *Forbes*, *Money*, *The Wall Street Journal*, *Business Week*, *Barron's*, *Kiplinger's* and *Fortune*. Lipper and Morningstar are independent services which monitor and rank the performances of variable life insurance issuers in each of the major categories of investment objectives on an industry-wide basis.

Lipper's and Morningstar's rankings include variable annuity issuers as well as variable life insurance issuers. The performance analysis prepared by Lipper and Morningstar ranks such issuers on the basis of total return, assuming reinvestment of distributions, but does not take sales charges, redemption fees or certain expense deductions at the separate account level into consideration. We may also compare the performance of each sub-account in advertising and sales literature to the Standard & Poor's Index of 500 common stocks and the Dow Jones Industrials, which are widely used measures of stock market performance. We may also compare the performance of each sub-account to other widely recognized indices. Unmanaged indices may assume the reinvestment of dividends, but typically do not reflect any "deduction" for the expense of operating or managing an investment portfolio.

To help you better understand how your policy's death benefits, policy value and surrender value will vary over time under different sets of assumptions, we encourage you to obtain a personalized illustration. Personalized illustrations will assume deductions for fund expenses and policy and variable account charges. We will base these illustrations on the age and risk classification of the insured person and other factors such as the amount of insurance coverage, death benefit option, premiums and rates of return (within limits) you specify. These personalized illustrations will be based on either a hypothetical investment return of the funds of 0% and other percentages not to exceed 12% or on the actual historical experience of the funds as if the sub-accounts had been in existence and a policy issued for the same periods as those indicated for the funds. Subject to regulatory approval, personalized illustrations may be based upon a weighted average of fund expenses rather than an arithmetic average. A personalized illustration is available upon request by contacting our customer service center at P.O. Box 5011, 2000 21st Avenue NY, Minot, ND 58703 or by calling 1-877-253-5050.

EXPERTS

The statement of assets and liabilities of the ReliaStar Select★Life Variable Account as of December 31, 2003, and the related statement of operations for the year then ended, and the statements of changes in net assets for each of the two years in the period then ended, and the statutory-basis financial statements of ReliaStar Life Insurance Company as of December 31, 2003 and 2002, and for each of the years then ended, appearing in this Statement of Additional Information, have been audited by Ernst & Young LLP, independent auditors, as set forth in their reports thereon appearing elsewhere herein, and are included in reliance on such reports given on the authority of such firm as experts in accounting and auditing.

FINANCIAL STATEMENTS

The financial statements of the variable account reflect the operations of the variable account as of and for the year ended December 31, 2003, and have been audited by Ernst & Young LLP, independent auditors.

The statutory-basis financial statements of the company as of December 31, 2003 and 2002, and for the years then ended have been audited by Ernst & Young LLP, independent auditors. The financial statements of the company should be distinguished from the financial statements of the variable account and should be considered only as bearing upon the ability of the company to meet its obligations under the policies. They should not be considered as bearing on the investment performance of the assets held in the variable account.

The statutory-basis financial statements of the company as of December 31, 2003 and 2002, and for the years then ended have been prepared on the basis of statutory accounting practices prescribed or permitted by the State of Minnesota Division of Insurance.

The primary business address of Ernst & Young LLP is Suite 2800, 600 Peachtree Street, Atlanta, GA 30308-2215.

--	--

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2003, by correspondence with the transfer agents. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of each of the Divisions comprising the ReliaStar Life Insurance Company Select*Variable Account at December 31, 2003, and the results of their operations and changes in their net assets for the periods disclosed in the financial statements, in conformity with accounting principles generally accepted in the United States.

RELIASTAR SELECT*Life VARIABLE ACCOUNT

Notes to Financial Statements

Organization

ReliaStar Life Insurance Company Select*Life Variable Account (the “Account”) was established by ReliaStar Life Insurance Company (“ReliaStar Life” or the “Company”) to support the operations of variable life policies (“Policies”). ReliaStar Life is an indirect, wholly-owned subsidiary of ING America Insurance Holdings, Inc. (“ING AIH”), an insurance holding company domiciled in the State of Delaware. ING AIH is a wholly-owned subsidiary of ING Groep, N.V., a global financial services holding company based in The Netherlands.

The Account is registered as a unit investment trust with the Securities and Exchange Commission under the Investment Company Act of 1940, as amended. The Account Policies consist of the Select*Life I product and Select*Life Series 2000 product, which incorporates Select*Life II, Select*Life III, Variable Estate Design and Flex Design products. ReliaStar Life provides for variable accumulation and benefits under the Policies by crediting premium payments to one or more divisions within the Account or the fixed separate account, which is not part of the Account, as directed by the Policyholders. The portion of the Account’s assets applicable to Policies will not be charged with liabilities arising out of any other business ReliaStar Life may conduct, but obligations of the Account, including the promise to make benefit payments, are obligations of ReliaStar Life. The assets and liabilities of the Account are clearly identified and distinguished from the other assets and liabilities of ReliaStar Life.

December 31, 2003, the Account had 66 investment divisions (the “Divisions”), 37 of which invest in independently managed mutual funds and 29 of which invest in mutual funds managed by an affiliate, either Directed Services, Inc., ING Life Insurance and Annuity Company, or ING Investments, LLC. The assets in each Division are invested in shares of a designated fund (“Fund”) of various investment trusts (the “Trusts”). Investment Divisions at December 31, 2003 and related Trusts are as follows:

AIM Variable Insurance Funds:

AIM V.I. Dent Demographic Trends Fund - Series I Shares

OpCap Managed	OCC Accumulation Trust Managed
OpCap Small Cap	OCC Accumulation Trust Small Cap

All contracts in the Account are currently in the accumulation period.

Significant Accounting Policies

The following is a summary of the significant accounting policies of the Account:

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments

Investments are made in shares of a Fund and are recorded at fair value, determined by the net asset value per share of the respective Fund. Investment transactions in each Fund are recorded on the trade date. Distributions of net investment income and capital gains from each Fund are recognized on the ex-distribution date. Realized gains and losses on redemptions of the shares of the Fund are determined using the specific identification basis. The difference between cost and current fair value of investments owned on the day of measurement is recorded as appreciation or depreciation of investments.

RELIASTAR SELECT*LIFE VARIABLE ACCOUNT

Notes to Financial Statements

Federal Income Taxes

Operations of the Account form a part of, and are taxed with, the total operations of ReliaStar Life, which is taxed as a life insurance company under the Internal Revenue Code. Earnings and realized capital gains of the Account attributable to the Policyholders are excluded in the determination of the federal income tax liability of ReliaStar Life.

Policyholder Reserves

Policyholder reserves are presented as net assets on the Statement of Assets and Liabilities and are equal to the aggregate account values of the Policyholders invested in the Account Divisions. To the extent that benefits to be paid to the Policyholders exceed their account values, ReliaStar Life will contribute additional funds to the benefit proceeds. Conversely, if amounts allocated exceed amounts required, transfers may be made to ReliaStar Life.

Charges and Fees

Under the terms of the Policies, certain charges are allocated to the Policies to cover ReliaStar Life's expenses in connection with the issuance and administration of the Policies. Following is a summary of these charges:

Premium Expense Charge

ReliaStar Life deducts a premium charge ranging from 3.75% to 5.00% of each premium payment as defined in the Policy.

Mortality and Expense Risk and Other Charges

The monthly deduction includes a monthly mortality and expense risk charge, a cost of insurance charge, a monthly administrative charge, a monthly amount charge, and any charges for optional insurance benefits.

ReliaStar Life assumes mortality and expense risks related to the operations of the Account and, in accordance with the terms of the Policies, deducts a mortality and expense risk charge from the assets of the Account. Monthly charges are deducted at annual rates ranging from 0.00% to 0.80% of the average daily net asset value of each Division of the Account to cover these risks.

The cost of insurance charge varies based on the insured's sex, issue age, policy year, rate class, and the face amount of the Policy.

The monthly administrative charge is currently \$8.25 per month and is guaranteed not to exceed \$12 per month.

RELIASTAR SELECT*LIFE VARIABLE ACCOUNT

Notes to Financial Statements

the monthly amount charge and charges for optional insurance benefits vary based on a number of factors and are defined in the Policy.

Surrender and Lapse Charges

As defined in the Policy, ReliaStar Life assesses a surrender charge if the Policy lapses or is surrendered before a specified period.

Transfer Charges

A transfer charge of \$25 will be imposed on each transfer between Divisions in excess of twenty-four in any one calendar year. Charges for partial withdrawals are also imposed in accordance with the terms of the Policy.

Related Party Transactions

During the year ended December 31, 2003, management fees were paid to ING Investments, LLC, in its capacity as investment manager to the ING Income Shares, ING Variable Portfolios, Inc. and the ING Variable Products Trust. The Fund's advisory agreement provided for a fee at annual rates ranging from 0.35% to 1.00% of the average net assets of each respective Fund of the Trusts. Management fees were paid to ING Life Insurance and Annuity Company, in its capacity as investment manager to ING Partners, Inc. The Fund's advisory agreement provided for a fee at annual rates ranging from 0.50% to 1.00% of the average net assets of each respective Fund of the Trust.

**** As this Division was not offered until 2003, this data is not meaningful and is therefore not presented.

A The Investment Income Ratio represents dividends received by the Division, excluding capital gains distributions, divided by the average net assets.

The recognition of investment income is determined by the timing of the declaration of dividends by the underlying fund in which the Division invests.

B The Expense Ratio considers only the expenses borne directly by the Account and is equal to the mortality and expense charge, plus the annual administrative charge, as defined in Note 3. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.

C Total Return is calculated as the change in unit value for each Contracts presented in the Statements of Assets and Liabilities. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.

Report of Independent Auditors

Board of Directors and Stockholder
ReliaStar Life Insurance Company

We have audited the accompanying statutory basis balance sheets of ReliaStar Life Insurance Company ("the Company"), a wholly owned subsidiary of ING America Insurance Holdings, Inc., as of December 31, 2003 and 2002, and the related statutory basis statements of operations, changes in capital and surplus, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 1 to the financial statements, the Company presents its financial statements in conformity with accounting practices prescribed or permitted by the Minnesota Department of Commerce, Division of Insurance ("Minnesota Division of Insurance"), which practices differ from accounting principles generally accepted in the United States. The variances between such practices and accounting principles generally accepted in the United States are described in Note 1. The effects on the financial statements of these variances are not reasonably determinable but are presumed to be material.

In our opinion, because of the effects of the matter described in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States, the financial position of ReliaStar Life Insurance Company at December 31, 2003 and 2002 or the results of its operations or its cash flows for the years then ended.

However, in our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ReliaStar Life Insurance Company at December 31, 2003 and 2002, and the results of its operations and its cash flows for the years then ended, in conformity with accounting practices prescribed or permitted by the Minnesota Division of Insurance.

1. Nature of Operations and Significant Accounting Policies

ReliaStar Life Insurance Company (the "Company") is domiciled in Minnesota and is a wholly owned subsidiary of Lion Connecticut Holdings, Inc. ("Lion"), a Connecticut holding and management company. Lion, in turn, is a wholly owned subsidiary of ING America Insurance Holdings, Inc. ("ING AIH"). The Company is principally engaged in the business of providing individual life insurance and annuities, employee benefit products and services, retirement plans, and life and health reinsurance. The Company is presently licensed in all states (approved for reinsurance only in New York), the District of Columbia, Guam, Puerto Rico and Canada.

An affiliate, Security-Connecticut Life Insurance Company ("Security-Connecticut"), merged with and into the Company on October 1, 2003. The transaction was approved by the Minnesota Department of Commerce, Division of Insurance ("Minnesota Division of Insurance") and was accounted for as a statutory merger. No consideration was paid and no common stock was issued in exchange for all of the common shares of Security-Connecticut. The accompanying financial statements have been restated as though the merger took place prior to all periods presented. Pre-merger separate company revenue, net income, and other surplus adjustments for the nine months ended September 30, 2003 were \$2,626,617,000, \$87,998,000 and \$72,927,000, respectively, for the Company and \$272,779,000, \$17,626,000 and (\$2,536,000), respectively, for Security-Connecticut.

An affiliate, Northern Life Insurance Company ("Northern Life"), merged with and into the Company on October 1, 2002. The transaction was approved by the Minnesota Division of Insurance and was accounted for as a statutory merger. No consideration was paid and no common stock was issued in exchange for all of the common shares of Northern Life. The accompanying financial statements have been restated as though the merger took place prior to all periods presented. Pre-merger separate company revenue, net income (loss), and other surplus adjustments for the nine months ended September 30, 2002 were \$1,663,577,000, \$(31,595,000) and \$108,259,000, respectively, for the Company and \$858,390,000, \$(3,977,000) and \$12,544,000, respectively, for Northern Life.

The preparation of financial statements of insurance companies requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes known, which could impact the amounts reported and disclosed herein.

Basis of Presentation

The accompanying financial statements of the Company have been prepared in conformity with accounting practices prescribed or permitted by the Minnesota Division of Insurance, which practices differ from accounting principles generally accepted in the United States ("GAAP"). The most significant variances from GAAP are as follows:

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

Investments: Investments in bonds and mandatorily redeemable preferred stocks are reported at amortized cost or market value based on the National Association of Insurance Commissioners ("NAIC") rating; for GAAP, such fixed maturity investments are designated at purchase as held-to-maturity, trading or available-for-sale. Held-to-maturity investments are reported at amortized cost, and the remaining fixed maturity investments are reported at fair value with unrealized capital gains and losses reported in operations for those designated as trading and as a separate component of other comprehensive income in stockholder's equity for those designated as available-for-sale.

In addition, the Company invests in structured securities including mortgage-backed securities/collateralized mortgage obligations, asset-backed securities, collateralized debt obligations, and commercial mortgage-backed securities. For these structured securities, management compares the undiscounted cash flows to the carrying value. An other than temporary impairment is considered to have occurred when the undiscounted cash flows are less than the carrying value.

For structured securities, when a negative yield results from a revaluation based on new prepayment assumptions (i.e., undiscounted cash flows are less than current book value), an other than temporary impairment is considered to have occurred and the asset is written down to the value of the undiscounted cash flows. For GAAP, assets are re-evaluated based on the discounted cash flows using a current market rate. Impairments are recognized when there has been an adverse change in cash flows and the fair value is less than book value. The asset is then written down to fair value. When a decline in fair value is determined to be other than temporary, the individual security is written down to fair value and the loss is accounted for as a realized loss.

Investments in real estate are reported net of related obligations rather than on a gross basis. Real estate owned and occupied by the Company is included in investments rather than reported as an operating asset as under GAAP, and investment income and operating expenses include rent for the Company's occupancy of those properties. Changes between depreciated cost and admitted asset investment amounts are credited or charged directly to unassigned surplus rather than income as would be required under GAAP.

SSAP 31 applies to derivative transactions prior to January 1, 2003. The Company also follows the newly adopted hedge accounting guidance in SSAP 86 for derivative transactions entered into or modified on or after January 1, 2003. Under this guidance, derivatives that are deemed effective hedges are accounted for in a manner which is consistent with the underlying hedged item. Derivatives used in hedging transactions that do not meet the requirements of SSAP 86 as an effective hedge are carried at fair value with the change in value recorded in surplus as unrealized gains or losses. Embedded derivatives are not accounted for separately from the host contract. Under GAAP, the effective and ineffective portions of a single hedge are accounted for separately. An embedded derivative within a contract that is not clearly and closely related to the economic characteristics and risk of the host contract is accounted for separately from the host contract and valued and reported at fair value, and the change in fair value for cash flow hedges is credited or charged directly to a separate component of stockholders' equity rather than to income as required for fair value hedges.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

Derivative instruments that meet the criteria of an effective hedge are valued and reported in a manner that is consistent with the hedged asset or liability. Embedded derivatives are not accounted for separately from the host contract. Under GAAP, the effective and ineffective portions of a single hedge are accounted for separately, an embedded derivative within a contract that is not clearly and closely related to the economic characteristics and risk of the host contract is accounted for separately from the host contract and valued and reported at fair value, and the change in fair value for cash flow hedges is credited or charged directly to a separate component of stockholder's equity rather than to income as required for fair value hedges.

Redeemable preferred stocks rated as high quality or better are reported at cost or amortized cost. All other redeemable preferred stocks are reported at the lower of cost, amortized cost, or market value and nonredeemable preferred stocks are reported at market value or the lower of cost or market value as determined by the Securities Valuation Office of the NAIC ("SVO").

Common stocks are reported at market value as determined by the SVO and the related unrealized capital gains/losses are reported in unassigned surplus along with the related adjustment for federal income taxes.

Valuation Reserves: The asset valuation reserve ("AVR") is determined by an NAIC-prescribed formula and is reported as a liability rather than as a valuation allowance or an appropriation of surplus. The change in AVR is reported directly to unassigned surplus.

Under a formula prescribed by the NAIC, the Company defers the portion of realized gains and losses on sales of fixed-income investments, principally bonds and mortgage loans, attributable to changes in the general level of interest rates, and amortizes those deferrals over the remaining period to maturity based on groupings of individual securities sold in five-year bands. The net deferral on interest maintenance reserve ("IMR") is reported as a component of other liabilities in the accompanying balance sheets.

Realized gains and losses on investments are reported in operations net of federal income tax and transfers to the IMR. Under GAAP, realized capital gains and losses are reported in the statements of operations on a pretax basis in the period that the asset giving rise to the gain or loss is sold and valuation allowances are provided when there has been a decline in value deemed other than temporary, in which case the provision for such declines is charged to income.

Valuation allowances, if necessary, are established for mortgage loans based on the difference between the net value of the collateral, determined as the fair value of the collateral less estimated costs to obtain and sell, and the recorded investment in the mortgage loan. Under GAAP, such allowances are based on the present value of expected future cash flows discounted at the loan's effective interest rate or, if foreclosure is probable, on the estimated fair value of the collateral.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

The initial valuation allowance and subsequent changes in the allowance for mortgage loans as a result of a temporary impairments are charged or credited directly to unassigned surplus, rather than being included as a component of earnings as would be required under GAAP.

Policy Acquisition Costs: The costs of acquiring and renewing business are expensed when incurred. Under GAAP, acquisition costs related to traditional life insurance, to the extent recoverable from future policy revenues, are deferred and amortized over the premium-paying period of the related policies using assumptions consistent with those used in computing policy benefit reserves. For universal life insurance and investment products, to the extent recoverable from future gross profits, acquisition costs are amortized generally in proportion to the present value of expected gross margins from surrender charges and investment, mortality, and expense margins.

Premiums: Life premiums are recognized as revenue when due. Premiums for annuity policies with mortality and morbidity risk, except for guaranteed interest and group annuity contracts, are also recognized as revenue when due. Premiums received for annuity policies without mortality or morbidity risk and for guaranteed interest and group annuity contracts are recorded using deposit accounting.

Under GAAP, premiums for traditional life insurance products, which include those products with fixed and guaranteed premiums and benefits and consist primarily of whole life insurance policies, are recognized as revenue when due. Group insurance premiums are recognized as premium revenue over the time period to which the premiums relate. Revenues for universal life, annuities and guaranteed interest contracts consist of policy charges for the cost of insurance, policy administration charges, amortization of policy initiation fees and surrender charges assessed during the period.

Benefit and Contract Reserves: Life policy and contract reserves under statutory accounting practices are calculated based upon both the net level premium and Commissioners' Reserve Valuation methods using statutory rates for mortality and interest. GAAP requires that policy reserves for traditional products be based upon the net level premium method utilizing reasonably conservative estimates of mortality, interest, and withdrawals prevailing when the policies were sold. For interest-sensitive products, the GAAP policy reserve is equal to the policy fund balance plus an unearned revenue reserve which reflects the unamortized balance of early year policy loads over renewal year policy loads.

Reinsurance: For business ceded to unauthorized reinsurers, statutory accounting practices require that reinsurance credits permitted by the treaty be recorded as an offsetting liability and charged against unassigned surplus. Under GAAP, an allowance for amounts deemed uncollectible would be established through a charge to earnings. Statutory income recognized on certain reinsurance treaties representing financing arrangements is not recognized on a GAAP basis.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

Policy and contract liabilities ceded to reinsurers have been reported as reductions of the related reserves rather than as assets as required under GAAP.

Commissions allowed by reinsurers on business ceded are reported as income when received rather than being deferred and amortized with deferred policy acquisition costs as required under GAAP.

Subsidiaries: The accounts and operations of the Company's subsidiaries are not consolidated with the accounts and operations of the Company as would be required under GAAP.

Nonadmitted Assets: Certain assets designated as "nonadmitted," principally deferred federal income tax assets, disallowed interest maintenance reserves, non-operating software, past-due agents' balances, furniture and equipment, intangible assets, and other assets not specifically identified as an admitted asset within the NAIC *Accounting Practices and Procedures Manual* are excluded from the accompanying balance sheets and are charged directly to unassigned surplus.

Employee Benefits: For purposes of calculating the Company's postretirement benefit obligation, only vested participants and current retirees are included in the valuation. Under GAAP, active participants not currently vested are also included.

Universal Life and Annuity Policies: Revenues for universal life and annuity policies consist of the entire premium received and benefits incurred represent the total of death benefits paid and the change in policy reserves. Under GAAP, premiums received in excess of policy charges would not be recognized as premium revenue and benefits would represent the excess of benefits paid over the policy account value and interest credited to the account values.

Policyholder Dividends: Policyholder dividends are recognized when declared rather than over the term of the related policies.

Deferred Income Taxes: Deferred tax assets are provided for and admitted to an amount determined under a standard formula. This formula considers the amount of differences that will reverse in the subsequent year, taxes paid in prior years that could be recovered through carrybacks, surplus limits and the amount of deferred tax liabilities available for offset. Any deferred tax assets not covered under the formula are nonadmitted. Deferred taxes do not include any amounts for state taxes. Under GAAP, a deferred tax asset is recorded for the amount of gross deferred tax assets that are expected to be realized in future years and a valuation allowance is established for the portion that is not realizable.

Surplus Notes: Surplus notes are reported as a component of surplus. Under statutory accounting practices, no interest is recorded on the surplus notes until payment has been approved by the Minnesota Division of Insurance. Under GAAP, surplus notes are reported as liabilities and the related interest is reported as a charge to earnings over the term of the note.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

Statements of Cash Flows: Cash and short-term investments in the statements of cash flows represent cash balances and investments with initial maturities of one year or less. Under GAAP, the corresponding caption of cash and cash equivalents includes cash balances and investments with initial maturities of three months or less.

Participation Fund Account

On January 3, 1989, the Minnesota Division of Insurance approved a Plan of Conversion and Reorganization ("the Plan"), which provided, among other things, for the conversion of the Company from a combined stock and mutual life insurance company to a stock life insurance company.

The Plan provided for the establishment of a Participation Fund Account ("PFA") for the benefit of certain participating individual life insurance policies and annuities issued by the Company prior to the effective date of the Plan. Under the terms of the PFA, the insurance liabilities and assets (approximately \$270,000,000 as of December 31, 2003) with respect to such policies are included in the Company's financial statements but are segregated in the accounting records of the Company to assure the continuation of policyholder dividend practices.

Reconciliation to GAAP

The effects of the preceding variances from GAAP on the accompanying statutory basis financial statements have not been determined, but are presumed to be material.

Other significant accounting practices are as follows:

Investments

Investments are stated at values prescribed by the NAIC, as follows:

Bonds not backed by other loans are principally stated at amortized cost using the interest method.

Single class and multi-class mortgage-backed/asset-backed securities are valued at amortized cost using the interest method including anticipated prepayments. Prepayment assumptions are obtained from dealer surveys or internal estimates and are based on the current interest rate and economic environment. The retrospective adjustment method is used to value all such securities except for higher-risk asset backed securities, which are valued using the prospective method. The Company has elected to use the book value as of January 1, 1994, as the cost for applying the retrospective method to securities purchased prior to that date where historical cash flows are not readily available.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

Redeemable preferred stocks rated as high quality or better are reported at cost or amortized cost. All other redeemable preferred stocks are reported at the lower of cost, amortized cost, or market value and nonredeemable preferred stocks are reported at market value or the lower of cost or market value as determined by the SVO.

Common stocks are reported at market value as determined by the SVO and the related unrealized capital gains/losses are reported in unassigned surplus along with the adjustment for federal income taxes.

The Company analyzes the general account investments to determine whether there has been an other than temporary decline in fair value below the amortized cost basis. Management considers the length of time and the extent to which the market value has been less than cost, the financial condition and near-term prospects of the issuer, future economic conditions and market forecasts, and the Company's intent and ability to retain the investment in the issuer for a period of time sufficient to allow for recovery in market value. If it is probable that all amounts due according to the contractual terms of a debt security will not be collected, an other than temporary impairment is considered to have occurred.

The Company uses derivatives such as interest rate swaps, caps and floors, forwards and options as part of its overall interest rate risk management strategy for certain life insurance and annuity products. As the Company only uses derivatives for hedging purposes, the Company values all derivative instruments on a consistent basis with the hedged item. Upon termination, gains and losses on those instruments are included in the carrying values of the underlying hedged items and are amortized over the remaining lives of the hedged items as adjustments to investment income or benefits from the hedged items. Any unamortized gains or losses are recognized when the underlying hedged items are sold.

Interest rate swap contracts are used to convert the interest rate characteristics (fixed or variable) of certain investments to match those of the related insurance liabilities that the investments are supporting. The net interest effect of such swap transactions is reported as an adjustment of interest income from the hedged items as incurred.

Interest rate caps and floors are used to limit the effects of changing interest rates on yields of variable rate or short-term assets or liabilities. The initial cost of any such agreement is amortized to net investment income over the life of the agreement. Periodic payments that are receivable as a result of the agreements are accrued as an adjustment of interest income or benefits from the hedged items.

Derivatives are reported in a manner that is consistent with the hedged asset or liability. All derivatives are reported at amortized cost with the exception of S&P Options. S&P Options are reported at fair value since the liabilities that are being hedged are reported at fair value. The unrealized gains or losses from S&P Options are reported in investment income. Upon termination of a derivative that qualified for hedge accounting, the gain or loss is deferred in IMR or adjusts the basis of the hedged item.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

The Company's insurance subsidiaries are reported at their underlying statutory basis net assets, and the Company's noninsurance subsidiaries are reported at the GAAP-basis of their net assets. Dividends from subsidiaries are included in net investment income. The remaining net change in the subsidiaries' equity is included in the change in net unrealized capital gains or losses.

Mortgage loans are reported at amortized cost, less allowance for impairments.

Contract loans are reported at unpaid principal balances.

Land is reported at cost. Real estate occupied by the Company is reported at depreciated cost; other real estate is reported at the lower of depreciated cost or fair value. Depreciation is calculated on a straight-line basis over the estimated useful lives of the properties.

For reverse repurchase agreements, Company policies require a minimum of 95% of the fair value of securities purchased under reverse repurchase agreements to be maintained as collateral. Cash collateral received is invested in short-term investments and the offsetting collateral liability is included in miscellaneous liabilities.

Reverse dollar repurchase agreements are accounted for as collateral borrowings, where the amount borrowed is equal to the sales price of the underlying securities.

The Company engages in securities lending whereby certain domestic bonds from its portfolio are loaned to other institutions for short periods of time. Collateral, primarily cash, which is in excess of the market value of the loaned securities, is deposited by the borrower with a lending agent, and retained and invested by the lending agent to generate additional income for the Company. The Company does not have access to the collateral. The Company's policy requires a minimum of 102% of the fair value of securities loaned to be maintained as collateral. The market value of the loaned securities is monitored on a daily basis with additional collateral obtained or refunded as the market value fluctuates.

At December 31, 2003 and 2002, the Company had loaned securities (which are reflected as invested assets on the balance sheets) with a market value of approximately \$21,819,000 and \$40,335,000, respectively.

Short-term investments are reported at amortized cost. Short-term investments include investments with maturities of less than one year at the date of acquisition.

Partnership interests, which are included in other invested assets, are reported at the underlying audited GAAP equity of the investee.

Residual collateralized mortgage obligations, which are included in other invested assets, are reported at amortized cost using the effective interest method.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

Realized capital gains and losses are determined using the specific identification method.

Cash on hand includes cash equivalents. Cash equivalents are short-term investments that are both readily convertible to cash and have an original maturity date of three months or less. Short-term investments are carried at amortized cost, which approximates market value.

Aggregate Reserve for Life Policies and Contracts

Life, annuity, and accident and health reserves are developed by actuarial methods and are determined based on published tables using statutorily specified interest rates and valuation methods that will provide, in the aggregate, reserves that are greater than or equal to the minimum or guaranteed policy cash value or the amounts required by law. Interest rates range from 2.0% to 13.5%.

The Company waives the deduction of deferred fractional premiums upon the death of the insured. It is the Company's practice to return a pro rata portion of any premium paid beyond the policy month of death, although it is not contractually required to do so for certain issues.

The methods used in the valuation of substandard policies are as follows:

For life, endowment and term policies issued substandard, the standard reserve during the premium-paying period is increased by 50% of the gross annual extra premium. Standard reserves are held on Paid-Up Limited Pay contracts.

For reinsurance accepted with table rating, the reserve established is a multiple of the standard reserve corresponding to the table rating. For reinsurance with flat extra premiums, the standard reserve is increased by 50% of the flat extra.

The amount of insurance in force for which the gross premiums are less than the net premiums, according to the standard of valuation required by the Minnesota Division of Insurance, is \$17,079,672,000 at December 31, 2003. The amount of premium deficiency reserves for policies on which gross premiums are less than the net premiums is \$340,363,000 at December 31, 2003.

The Company anticipates investment income as a factor in the premium deficiency calculation, in accordance with Statements of Statutory Accounting Principles ("SSAP") No. 54, *Individual and Group Accident and Health Contracts*.

The tabular interest has been determined from the basic data for the calculation of policy reserves for all direct ordinary life insurance and for the portion of group life insurance classified as group Section 79. The method of determination of tabular interest of funds not involving life contingencies is as follows: current year reserves, plus payments, less prior year reserves, less funds added.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

Reinsurance

Reinsurance premiums, commissions, expense reimbursements, and reserves related to reinsured business are accounted for on bases consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts. Reserves are based on the terms of the reinsurance contracts and are consistent with the risks assumed. Premiums and benefits ceded to other companies have been reported as a reduction of premium revenue and benefits expense. Amounts applicable to reinsurance ceded for reserves and unpaid claim liabilities have been reported as reductions of these items, and expense allowances received in connection with reinsurance ceded have been reflected in operations.

Real Estate and Electronic Data Processing Equipment

Electronic data processing equipment is carried at cost less accumulated depreciation. Depreciation for major classes of assets is calculated on a straight-line basis over the estimated useful life of the assets.

Participating Insurance

Participating business approximates less than 1.0% of the Company's ordinary life insurance in force and 8.5% of premium income. The amount of dividends to be paid is determined annually by the Board of Directors. Amounts allocable to participating policyholders are based on published dividend projections or expected dividend scales. Dividend expense of \$20,975,000 and \$22,057,000 was incurred in 2003 and 2002, respectively.

Pension Plans

The Company provides noncontributory retirement plans for substantially all employees and certain agents. Pension costs are charged to operations as contributions are made to the plan. The Company also provides a contributory retirement plan for substantially all employees.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

Nonadmitted Assets

Nonadmitted assets are summarized as follows:

	December 31	
	2003	2002
	(In Thousands)	
Deferred federal income taxes	\$ 229,550	\$ 247,640
Agents' debit balances	1,439	(4,730)
Furniture and equipment	7,489	5,231
Deferred and uncollected premium	4,440	4,802
Non-operating software asset in progress	3,292	5,971
Other	13,952	14,406
Total nonadmitted assets	<u>\$ 260,162</u>	<u>\$ 273,320</u>

Changes in nonadmitted assets are generally reported directly in surplus as an increase or decrease in nonadmitted assets.

Claims and Claims Adjustment Expenses

Claims expenses represent the estimated ultimate net cost of all reported and unreported claims incurred through December 31, 2003. The Company does not discount claims and claims adjustment expense reserves. Such estimates are based on actuarial projections applied to historical claims payment data. Such liabilities are considered to be reasonable and adequate to discharge the Company's obligations for claims incurred but unpaid as of December 31, 2003.

Cash Flow Information

Cash and short-term investments include cash on hand, demand deposits and short-term fixed maturity instruments with a maturity of less than one year at the date of acquisition.

Separate Accounts

Most separate account assets and liabilities held by the Company represent funds held for the benefit of the Company's variable life and annuity policy and contract holders who bear all of the investment risk associated with the policies. Such policies are of a non-guaranteed nature. All net investment experience, positive or negative, is attributed to the policy and contract holders' account values. The assets of these accounts are carried at fair value.

Certain other separate accounts relate to experience-rated group annuity contracts that fund defined contribution pension plans. These contracts provide guaranteed interest returns for one year only, where the guaranteed interest rate is re-established each year based on the investment experience of the separate account. In no event can the interest rate be less than zero. The assets and liabilities of these separate accounts are carried at book value.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

Reserves related to the Company's mortality risk associated with these policies are included in life and annuity reserves. The operations of the separate accounts are not included in the accompanying statements of operations.

Reclassifications

Certain prior year amounts in the Company's statutory basis financial statements have been reclassified to conform to the 2003 financial statement presentation.

2. Permitted Statutory Basis Accounting Practices

The financial statements of the Company are presented on the basis of accounting practices prescribed or permitted by the Minnesota Division of Insurance. The Minnesota Division of Insurance recognizes only statutory accounting practices prescribed or permitted by the state of Minnesota for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under the Minnesota Insurance Laws. The NAIC *Accounting Practices and Procedures Manual* has been adopted as a component of prescribed or permitted practices by the state of Minnesota. The Commissioner of Commerce has the right to permit other specific practices that deviate from prescribed practices.

The Company is required to identify those significant accounting practices that are permitted, and obtain written approval of the practices from the Minnesota Division of Insurance. As of December 31, 2003 and 2002, the Company had no such permitted accounting practices.

3. Accounting Changes and Correction of Errors

Accounting Changes

Effective with the Northern Life merger, the Company's accounting policy for the Commissioners' Annuity Reserve Validation Method ("CARVM") reserves was adopted and applied to Northern Life's variable annuity reserves. The accompanying financials reflect this consistent accounting policy.

Correction of Errors

Subsequent to the issuance of the 2001 financial statements, the Company identified an error in the transfers from separate accounts due and accrued reported in the balance sheet as of December 31, 2001. The transfers from separate accounts due and accrued were understated by \$52,953,000 at December 31, 2001 (\$34,419,000 after tax). In accordance with SSAP No. 3, *Accounting Changes and Correction of Errors*, the error was corrected in June 2002 as an adjustment to the January 1, 2002 unassigned surplus balance.

RELIASTAR LIFE INSURANCE COMPANY **Notes to Financial Statements – Statutory Basis**

As of December 31, 2003, the aggregate fair values of debt securities with unrealized losses and the time period that cost exceeded fair value are as follows:

	Less than 6 months below cost	More than 6 months and less than 12 months below cost	More than 12 months below cost	Total
	<i>(In Thousands)</i>			
Fair value	\$ 1,260,418	\$ 1,296,950	\$ 248,529	\$ 2,805,897
Unrealized loss	20,232	57,141	49,683	127,056

Of the unrealized losses more than 6 months and less than 12 months in duration of \$57,141,000, there were \$12,828,000 in unrealized losses that are primarily related to interest rate movement or spread widening for other than credit-related reasons. Business and operating fundamentals are performing as expected. The remaining unrealized losses of \$44,313,000 as of December 31, 2003 included the following significant items:

\$26,444,000 of unrealized losses related to mortgage-backed and structured securities reviewed for impairment under the guidance prescribed by SSAP No. 43 *Loan-backed and Structured Securities*. This category includes U.S. government-backed securities, principal protected securities and structured securities which did not have an adverse change in cash flows for which the fair value was \$613,675,000.

\$7,536,000 of unrealized losses related to the energy/utility industry, for which the fair value was \$123,627,000. During 2003, the energy sector recovered due to a gradually improving economic picture and the lack of any material accounting irregularities similar to those experienced in the prior two years. Current analysis indicates that the debt will be serviced in accordance with the contractual terms.

\$6,320,000 of unrealized losses related to non-domestic issues, with no unrealized loss exposure per country in excess of \$1,965,000, for which the fair value was \$144,772,000. Credit exposures are well diversified in these markets, including banking, metals, food, and beverage companies.

\$1,741,000 of unrealized losses related to the telecommunications/cable/media industry, for which the fair value was \$59,428,000. During 2003, the sector recovered somewhat due to a gradually improving economy and reduced investor concern with management decisions even though it remains challenged by over-capacity. Exposure is primarily focused in the largest and most financially secure companies in the sector.

The remaining unrealized losses totaling \$2,272,000 related to a fair value of \$17,900,000.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis

Of the unrealized losses more than 12 months in duration of \$49,683,000, there were \$897,000 in unrealized losses that are primarily related to interest rate movement or spread widening for other than credit-related reasons. Business and operating fundamentals are performing as expected. The remaining unrealized losses of \$48,786,000 as of December 31, 2003 included the following significant items:

\$33,302,000 of unrealized losses related to mortgage-backed and structured securities reviewed for impairment under the guidance prescribed by SSAP No. 43 *Loan-backed and Structured Securities*. This category includes U.S. government-backed securities, principal protected securities and structured securities which did not have an adverse change in cash flows for which the fair value was \$116,226,000.

\$9,579,000 of unrealized losses related to the airline industry, for which the fair value was \$59,742,000. During 2003, the airline industry continued to suffer despite a gradually improving economy. The majority of the airline investments are comprised of Enhanced Equipment Trust Certificates ("EETC"). Current analysis indicates the specific collateral backing EETC investments are predominantly represented by newer models that are expected to be retained as individual airlines reduce their fleets.

\$1,956,000 of unrealized losses related to the telecommunications/cable/media industry, for which the fair value was \$12,015,000. During 2003, the sector recovered somewhat due to a gradually improving economy and reduced investor concern with management decisions even though it remains challenged by over-capacity. Exposure is primarily focused in the largest and most financially secure companies in the sector.

\$1,572,000 of unrealized losses related to non-domestic issues, with no unrealized loss exposure per country in excess of \$1,297,000 for which the fair value was \$24,400,000. Credit exposures are in banking in Canada and Great Britain.

The remaining unrealized losses totaling \$2,377,000 related to a fair value of \$15,292,000.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis

The amortized cost and fair value of investments in bonds at December 31, 2003, by contractual maturity, are shown below. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

	Amortized Cost	Fair Value
	<i>(In Thousands)</i>	
December 31, 2003		
Maturity:		
Due in 1 year or less	\$ 173,737	\$ 177,948
Due after 1 year through 5 years	2,703,171	2,837,263
Due after 5 years through 10 years	3,110,820	3,266,285
Due after 10 years	1,388,876	1,457,685
Total	7,376,604	7,739,181
Mortgage-backed securities	2,998,019	3,016,891
Other structured securities	618,813	657,833
Commercial mortgage-backed securities	1,097,221	1,112,157
Total	<u>\$ 12,090,657</u>	<u>\$ 12,526,062</u>

At December 31, 2003, investments in certificates of deposit and bonds, with an admitted asset value of \$135,011,000 were on deposit with state insurance departments to satisfy regulatory requirements.

Reconciliation of bonds from amortized cost to carrying value as of December 31, 2003 and 2002 is as follows:

	December 31 2003	2002
	<i>(In Thousands)</i>	
Amortized cost	\$ 12,090,657	\$ 11,551,475
Less nonadmitted bonds	(6,120)	(19,731)
Carrying value	<u>\$ 12,084,537</u>	<u>\$ 11,531,744</u>

Proceeds from the sale of investments in bonds and other fixed maturity interest securities were \$8,252,957,000 and \$10,743,639,000 in 2003 and 2002, respectively. Gross gains of \$169,481,000 and \$206,470,000 and gross losses of \$64,858,000 and \$190,854,000 during 2003 and 2002, respectively, were realized on those sales. A portion of the gains realized in 2003 and 2002 has been deferred to future periods in the IMR.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis

Major categories of net investment income are summarized as follows:

	Year ended December 31	
	2003	2002
	<i>(In Thousands)</i>	
Income:		
Equity securities - affiliated	\$ 27,600	\$ 55,000
Equity securities - unaffiliated	3,060	4,459
Bonds	742,698	833,072
Mortgage loans	154,819	145,993
Contract loans	34,862	33,090
Company-occupied property	14,826	20,634
Other	31,773	27,459
Total investment income	1,009,638	1,119,707
Investment expenses	(88,588)	(94,366)
Net investment income	\$ 921,050	\$ 1,025,341

As part of its overall investment strategy, the Company has entered into agreements to purchase securities as follows:

	December 31	
	2003	2002
	<i>(In Thousands)</i>	
Investment purchase commitments	\$ 142,518	\$ 167,893

The Company entered into reverse dollar repurchase agreements to increase its return on investments and improve liquidity. Reverse dollar repurchases involve a sale of securities and an agreement to repurchase substantially the same securities as those sold. The reverse dollar repurchases are accounted for as short-term collateralized financing and the repurchase obligation is reported in borrowed money. The repurchase obligation totaled \$398,538,000 and \$468,079,000 at December 31, 2003 and 2002, respectively. The securities underlying these agreements are mortgage-backed securities with a book value of \$398,479,000 and \$464,004,000 and fair value of \$400,498,000 and \$472,748,000 at December 31, 2003 and 2002, respectively. The securities have a weighted average coupon rate of 5.9% and have maturities ranging from December 2018 through 2033. The primary risk associated with short-term collateralized borrowings is that the counterparty may be unable to perform under the terms of the contract. The Company's exposure is limited to the excess of the net replacement cost of the securities over the value of the short-term investments, which was not material at December 31, 2003. The Company believes the counterparties to the reverse dollar repurchase agreements are financially responsible and that the counterparty risk is minimal.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

The Company participates in reverse repurchase transactions. Such transactions include the sale of corporate securities to a major securities dealer and a simultaneous agreement to repurchase the same securities in the near term. The proceeds are invested in new securities of intermediate durations. The terms of the reverse repurchase agreements call for payment on interest at a rate of 1.1%. The agreements mature prior to the end of January 2004. At December 31, 2003, the amount due on these agreements included in borrowed money is \$16,500,000 and \$16,000,000 at December 31, 2003 and 2002, respectively. The securities underlying these agreements are mortgage-backed securities with a book value of \$16,164,000 and \$16,622,000 and fair value of \$16,811,000 and \$16,807,000 at December 31, 2003 and 2002, respectively. The securities have a weighted average coupon of 5.0% and have a maturity of December 2033.

The maximum and minimum lending rates for long-term mortgage loans during 2003 were 6.05% and 3.45%. Fire insurance is required on all properties covered by mortgage loans and must at least equal the excess of the loan over the maximum loan which would be permitted by law on the land without the buildings.

The maximum percentage of a loan to the value of collateral at the time of the loan, exclusive of insured or guaranteed or purchase money mortgages was 73.1% on commercial properties. As of December 31, 2003, the Company held no mortgages with interest more than 180 days overdue. Total interest due as of December 31, 2003 and 2002, respectively, is \$2,000 and \$41,000.

The Company had impaired mortgage loans without an allowance for credit losses of \$6,420,000 and \$8,139,000 as of December 31, 2003 and 2002, respectively.

In the course of the Company's asset management activities, securities are sold and reacquired within 30 days of the sale date to enhance the Company's return on its investment portfolio or to manage interest rate risk. The table below summarizes the number of transactions, the book value, and the gain or loss of the Company's financial instruments with respect to securities sold and reacquired within 30 days of the sale date:

Bonds	Number of Transactions	Cost of Securities		
		Book Value	Repurchased	Gain/(Loss)
(In Thousands)				
NAIC 3	31	\$ 29,478	\$ 58,646	\$ 4,403
NAIC 4	1	1,974	1,974	93
NAIC 5	1	670	648	(22)
Preferred Stock				
NAIC 5	1	\$ 1,000	\$ 1,000	\$ -

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis

5. Derivative Financial Instruments Held for Purposes Other than Trading

The Company utilizes derivatives such as swaps, caps, floors, and options to reduce and manage risks, which include the risk of a change in the value, yield, price, cash flows, exchange rates or quantity of, or a degree of exposure with respect to, assets, liabilities, or future cash flows which the Company has acquired or incurred. Hedge accounting practices are supported by cash flow matching, scenario testing and duration matching.

The Company uses interest rate swaps to reduce market risks from changes in interest rates and to alter interest rate exposure arising from mismatches between assets and liabilities. Interest rate swap agreements generally involve the exchange of fixed and floating interest payments over the life of the agreement without an exchange of the underlying principal amount. Currency swap agreements generally involve the exchange of local and foreign currency payments over the life of the agreements without an exchange of the underlying principal amount.

Interest rate cap and interest rate floor agreements owned entitle the Company to receive payments to the extent reference interest rates exceed or fall below strike levels in the contracts based on the notional amounts.

The Company uses S&P options to hedge against an increase in the S&P Index. Such increases result in increased reserve liabilities, and the options offset this increased expense. The options are accounted for in a consistent manner with the underlying reserve liabilities, which are carried at fair value with the change in value recorded in the statements of operations. If the options mature in the money, the amount received is recorded in income to offset the increased expense for the reserve liabilities.

Premiums paid for the purchase of interest rate contracts are included in other invested assets and are being amortized to interest expense over the remaining terms of the contracts or in a manner consistent with the financial instruments being hedged.

Amounts paid or received, if any, from such contracts are included in interest expense or income. Accrued amounts payable to or receivable from counterparties are included in other liabilities or other invested assets. Gains or losses realized as a result of early terminations of interest rate contracts are amortized to investment income over the remaining term of the items being hedged to the extent the hedge is considered to be effective; otherwise, they are recognized upon termination.

Interest rate contracts that are matched or otherwise designated to be associated with other financial instruments are recorded at fair value if the related financial instruments mature, are sold, or are otherwise terminated or if the interest rate contracts cease to be effective hedges. Changes in the fair value of derivatives are recorded as investment income. The Company manages the potential credit exposure from interest rate contracts through careful evaluation of the counterparties' credit standing, collateral agreements, and master netting agreements.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

The Company is exposed to credit loss in the event of nonperformance by counterparties on derivative contracts; however, the Company does not anticipate nonperformance by any of these counterparties. The amount of such exposure is generally the unrealized gains in such contracts.

The table below summarizes the Company's interest rate contracts included in other invested assets at December 31, 2003 and 2002:

	Notional Amount	Carrying Value	Fair Value
		(In Thousands)	
December 31, 2003			
Interest rate contracts:			
Swaps	\$ 369,203	\$ -	\$ (4,313)
Caps owned	375,000	2,067	63
Options owned	72,204	6,270	6,270
Forwards owned	66,714	323	323
Total derivatives	<u>\$ 883,121</u>	<u>\$ 8,660</u>	<u>\$ 2,343</u>
December 31, 2002			
Interest rate contracts:			
Swaps	\$ 580,000	\$ -	\$ 31,780
Caps owned	375,000	3,974	809
Options owned	72,465	4,020	4,020
Forwards owned	42,520	-	44
Total derivatives	<u>\$ 1,069,985</u>	<u>\$ 7,994</u>	<u>\$ 36,653</u>

6. Concentrations of Credit Risk

The Company held less-than-investment-grade corporate bonds with an aggregate book value of \$926,069,000 and \$718,899,000 and an aggregate market value of \$949,663,000 and \$667,679,000 at December 31, 2003 and 2002, respectively. Those holdings amounted to 7.7% of the Company's investments in bonds and 4.5% of total admitted assets at December 31, 2003. The holdings of less-than-investment-grade bonds are widely diversified and of satisfactory quality based on the Company's investment policies and credit standards.

The Company held unrated bonds of \$200,056,000 and \$450,744,000, with an aggregate NAIC market value of \$196,679,000 and \$456,604,000 at December 31, 2003 and 2002, respectively. The carrying value of these holdings amounted to 1.7% of the Company's investment in bonds and 1.0% of the Company's total admitted assets at December 31, 2003.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

At December 31, 2003, the Company's commercial mortgages involved a concentration of properties located in California (17.0%) and Washington (7.41%). The remaining commercial mortgages relate to properties located in 36 other states. The portfolio is well diversified, covering many different types of income-producing properties on which the Company has first mortgage liens. The maximum mortgage outstanding on any individual property is \$39,192,000.

7. Annuity Reserves

At December 31, 2003 and 2002, the Company's annuity reserves, including those held in separate accounts and deposit fund liabilities that are subject to discretionary withdrawal with adjustment, subject to discretionary withdrawal without adjustment, and not subject to discretionary withdrawal provisions are summarized as follows:

	Amount	Percent
	<i>(In Thousands)</i>	
December 31, 2003		
Subject to discretionary withdrawal (with adjustment):		
With market value adjustment	\$ 354,927	3.0 %
At book value less surrender charge	1,858,390	15.9
At fair value	<u>2,945,708</u>	<u>25.1</u>
Subtotal	5,159,025	44.0
Subject to discretionary withdrawal (without adjustment):		
At book value with minimal or no charge or adjustment	5,709,734	48.8
Not subject to discretionary withdrawal	<u>841,734</u>	<u>7.2</u>
Total annuity reserves and deposit fund liabilities		
before reinsurance	11,710,493	<u>100.0 %</u>
Less reinsurance ceded	<u>13,899</u>	
Net annuity reserves and deposit fund liabilities	<u><u>\$ 11,696,594</u></u>	
December 31, 2002		
Subject to discretionary withdrawal (with adjustment):		
With market value adjustment	\$ 407,469	3.7 %
At book value less surrender charge	2,126,412	19.4
At fair value	<u>2,809,356</u>	<u>25.6</u>
Subtotal	5,343,237	48.7
Subject to discretionary withdrawal (without adjustment):		
At book value with minimal or no charge or adjustment	4,644,836	42.3
Not subject to discretionary withdrawal	<u>987,240</u>	<u>9.0</u>
Total annuity reserves and deposit fund liabilities		
before reinsurance	10,975,313	<u>100.0 %</u>
Less reinsurance ceded	<u>13,318</u>	
Net annuity reserves and deposit fund liabilities	<u><u>\$ 10,961,995</u></u>

8. Employee Benefit Plans

Pension Plan and Postretirement Benefits

Effective December 31, 2001 the qualified plan of the Company, along with certain other U.S. subsidiaries of ING AIH, were merged into one plan which will be recognized in ING AIH's financial statements. As a result of this plan merger, the Company transferred its qualified pension asset to ING North America Insurance Corporation, an affiliate. In addition, the Company maintains a nonqualified unfunded Supplemental Employees Retirement Plan ("SERP").

A summary of assets, obligations and assumptions of the Pension and Other Postretirement Benefits Plans are as follows:

	Pension Benefits		Other Benefits	
	2003	2002	2003	2002
	<i>(In Thousands)</i>			
Change in benefit obligation				
Benefit obligation at beginning of year	\$ 30,107	\$ 27,921	\$ 17,491	\$ 15,049
Service cost	-	7	1,326	1,139
Interest cost	1,952	2,007	1,125	1,166
Contribution by plan participants	-	-	5,189	954
Actuarial gain (loss)	8,997	2,750	(6,770)	4,481
Benefits paid	(2,802)	(2,578)	(6,758)	(2,148)
Plan amendments	-	-	-	(3,151)
Benefit obligation at end of year	<u>\$ 38,254</u>	<u>\$ 30,107</u>	<u>\$ 11,603</u>	<u>\$ 17,490</u>
Change in plan assets				
Fair value of plan assets at beginning of year	\$ -	\$ -	\$ -	\$ -
Employer contributions	2,802	2,578	1,569	1,195

Total net periodic benefit cost	<u>\$ 3,287</u>	<u>\$ 3,294</u>	<u>\$ 2,579</u>	<u>\$ 3,700</u>

In addition, the Company has pension benefit obligation and other benefit obligation for non-vested employees as of December 31, 2003 and 2002 in the amount of \$11,049,000 and \$11,168,000, respectively.

Assumptions used in determining the accounting for the defined benefit plans as of December 31, 2003 and 2002 were as follows:

	2003		2002	
Weighted-average discount rate	6.25	%	6.75	%
Rate of increase in compensation level	3.75	%	3.75	%
Expected long-term rate of return on assets	8.75	%	9.00	%

The weighted-average discount rate used in determining the accumulated postretirement benefit obligation was 6.25% at December 31, 2003 and 6.50% at December 31, 2002.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis

401(k) Plan

The ING Savings Plan and ESOP is a defined contribution plan sponsored by ING AIH, which is available to substantially all home office employees. Participants may make contributions to the plan through salary reductions up to a maximum of \$12,000 for 2003 and \$11,000 for 2002. Such contributions are not currently taxable to the participants. ING AIH matches up to 6% of pre-tax eligible pay at 100% and allocates expenses to the Company for their portion of the match. Amounts allocated to the Company were \$4,278,000 and \$4,101,000 for 2003 and 2002, respectively.

9. Separate Accounts

Separate account assets and liabilities primarily represent funds segregated by the Company for the benefit of certain policy and contract holders who bear the investment risk. Revenues and expenses on the separate account assets and related liabilities equal the benefits paid or payable to the separate account policy and contract holders.

Premiums, deposits, and other considerations received for the years ended December 31, 2003 and 2002 were \$331,182,000 and \$440,057,000, respectively.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis

Reconciling adjustments:		
Miscellaneous transfers	4,913	154,465
Transfers as reported in the Statements of Operations	<u>\$ (34,713)</u>	<u>\$ 14,036</u>

10. Reinsurance

The Company is involved in both ceded and assumed reinsurance with other companies for the purpose of diversifying risk and limiting exposure on larger risks. To the extent that the assuming companies become unable to meet their obligations under these treaties, the Company remains contingently liable to its policyholders for the portion reinsured. To minimize its exposure to significant losses from retrocessionaire insolvencies, the Company evaluates the financial condition of the retrocessionaire and monitors concentrations of credit risk.

Assumed premiums amounted to \$610,961,000 and \$575,098,000 for the years ended December 31, 2003 and 2002, respectively.

The Company's ceded reinsurance arrangements reduced certain items in the accompanying financial statements by the following amounts:

	December 31	
	2003	2002
	<i>(In Thousands)</i>	
Premiums	\$ 366,893	\$ 410,277
Benefits paid or provided	320,630	271,440
Policy and contract liabilities at year end	1,659,984	1,405,545

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis

11. Federal Income Taxes

The Company and its subsidiaries file a consolidated federal income tax return. The method of tax allocation is governed by a written tax sharing agreement. The tax sharing agreement provides that each member of the consolidated return shall reimburse the Company for its respective share of the consolidated federal income tax liability and shall receive a benefit for its losses at the statutory rate.

The components of the net deferred tax assets are as follows:

	December 31	
	2003	2002
	<i>(In Thousands)</i>	
Total deferred tax assets	\$ 411,332	\$ 440,365
Total deferred tax liabilities	(92,967)	(73,220)
Net deferred tax assets	318,365	367,145
Deferred tax asset nonadmitted	(229,550)	(247,640)
Net admitted deferred tax asset	\$ 88,815	\$ 119,505
Decrease in nonadmitted asset	\$ 18,090	\$ 12,102

Current income taxes incurred consist of the following major components:

	Year ended December 31	
	2003	2002
	<i>(In Thousands)</i>	
Federal taxes on operations	\$ 58,198	\$ 98,756
Federal taxes on capital gains	2,659	(11,255)
Total current taxes incurred	\$ 60,857	\$ 87,501

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis

The main components of deferred tax assets and deferred tax liabilities are as follows:

	December 31	
	2003	2002
	<i>(In Thousands)</i>	
Deferred tax assets resulting from book/tax differences in:		
Deferred acquisition costs	\$ 124,142	\$ 123,718
Insurance reserves	145,537	127,049
Investments	33,000	37,815
Compensation and benefits	26,278	31,110
Due and deferred premium	-	16,961
Nonadmitted assets and other surplus items	21,623	28,246
Unrealized loss on investments	-	4,968
Litigation accruals	13,927	14,856
Costs of collection and loading	4,440	6,658
Present value of insurance in force	3,645	4,860
Other	38,740	44,124
Total deferred tax assets	411,332	440,365
Deferred tax assets nonadmitted	(229,550)	(247,640)
Admitted deferred tax assets	181,782	192,725
Deferred tax liabilities resulting from book/tax differences in:		
Investments	13,599	15,695
Due and deferred premium	42,075	20,209
Depreciable assets	26,815	31,325
Unrealized gain on investments	6,169	-
Insurance reserves	1,088	587
Other	3,221	5,404
Total deferred tax liabilities	92,967	73,220
Net admitted deferred tax asset	\$ 88,815	\$ 119,505

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis

The change in net deferred income taxes is comprised of the following:

	December 31		
	2003	2002	Change
	<i>(In Thousands)</i>		
Total deferred tax assets	\$ 411,332	\$ 440,365	\$ (29,033)
Total deferred tax liabilities	(92,967)	(73,220)	(19,747)
Net deferred tax asset	<u>\$ 318,365</u>	<u>\$ 367,145</u>	(48,780)
Remove current year change in unrealized gains			9,618
Change in net deferred income tax			(39,162)
Remove other items in surplus:			
Current year change in non-admitted assets			(3,850)
Other			1,367
Change in deferred taxes for rate reconciliation			<u>\$ (41,645)</u>

The provision for federal income taxes incurred and change in deferred taxes is different from that which would be obtained by applying the statutory federal income tax rate to income (including capital items) before income taxes. The significant items causing this difference are:

	Year Ended
	December 31, 2003
	<i>(In Thousands)</i>
Ordinary income	\$ 291,594
Capital gains	15,335
Total pre-tax book income	<u>\$ 306,929</u>
Provision computed at statutory rate	\$ 107,425
Refinement of deferred tax balances	4,896
Dividends received deduction	(12,827)
Interest Maintenance Reserve	3,752
Other	(744)
Total	<u>\$ 102,502</u>
Federal income taxes incurred	\$ 60,857
Change in net deferred income taxes	41,645
Total statutory income taxes	<u>\$ 102,502</u>

The amount of federal income taxes incurred that will be available for recoupment in the event of future net losses is \$100,559,000 and \$75,806,000 from 2003 and 2002, respectively.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

The Company has a payable of \$32,750,000 and \$109,011,000 at December 31, 2003 and 2002, respectively, for federal income taxes under the intercompany tax sharing agreement.

Prior to 1984, the Company was allowed certain special deductions for federal income tax reporting purposes that were required to be accumulated in a "policyholders' surplus account" ("PSA"). In the event those amounts are distributed to shareholders, or the balance of the account exceeds certain limitations prescribed by the Internal Revenue Code, the excess amounts would be subject to income tax at current rates. Income taxes also would be payable at current rates if the Company ceases to qualify as a life insurance company for tax reporting purposes, or if the income tax deferral status of the PSA is modified by future tax legislation. Management does not intend to take any actions nor does management expect any events to occur that would cause income taxes to become payable on the PSA balance. Accordingly, the Company has not accrued income taxes on the PSA balance of \$32,641,000 at December 31, 2003. However, if such taxes were assessed, the amount of the taxes payable would be \$11,424,000. No deferred tax liabilities are recognized related to the PSA.

12. Investment in and Advances to Subsidiaries

The Company has two wholly owned insurance subsidiaries at December 31, 2003, ReliaStar Life Insurance Company of New York ("RNY") and ReliaStar Reinsurance Group "UK" LTD. The Company also has three wholly owned noninsurance subsidiaries, NWNL Benefits Corporation, Norlic, Inc. and Superior Vision Services.

Amounts invested in and advanced to the Company's subsidiaries are summarized as follows:

	December 31	
	2003	2002
	<i>(In Thousands)</i>	
Preferred stock (cost \$4,664 in 2003 and 2002)	\$ 4,664	\$ 4,664
Common stock (cost \$213,573 in 2003 and 2002)	313,686	265,486

Summarized financial information for these subsidiaries is as follows:

	December 31	
	2003	2002
	<i>(In Thousands)</i>	
Revenues	\$ 367,867	\$ 395,485
Income before net realized gains (losses) on investments	52,473	(24,153)
Net income (loss)	52,502	(34,994)
Admitted assets	2,712,832	2,656,874
Liabilities	2,399,298	2,391,309

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

The Company received cash dividends from its subsidiary, RNY, via Security-Connecticut, of \$25,500,000 and \$14,400,000 in 2003 and 2002, respectively.

13. Capital and Surplus

Under Minnesota insurance regulations, the Company is required to maintain a minimum total capital and surplus of \$2,000,000. Additionally, the amount of dividends which can be paid by the Company to its shareholder without prior approval of the Minnesota Division of Insurance is limited to the greater of 10% of statutory surplus or the statutory net gain from operations.

Lion loaned \$100,000,000 to the Company under a surplus note dated December 1, 2001. The surplus note provides, subject to the regulatory constraints discussed below, that (1) it is a surplus note which will mature on September 15, 2021 with principal due at maturity, but payable without penalty, in whole or in part before maturity; (2) interest is payable at a variable rate based upon an annualized yield rate for U.S. Treasury Bonds payable semi-annually; and (3) in the event that the Company is in default in the payment of any required interest or principal, the Company cannot pay cash dividends on its capital stock (all of which is owned directly by Lion). The surplus note further provides that there may be no payment of interest or principal without the express approval of the Minnesota Division of Insurance. For the year ended December 31, 2003 and 2002, respectively, total interest paid totaled \$4,600,000 and \$6,400,000. Accrued interest was \$0 and \$1,400,000 for the years ended December 31, 2003 and 2002, respectively.

Life and health insurance companies are subject to certain Risk-Based Capital ("RBC") requirements as specified by the NAIC. Under those requirements, the amount of capital and surplus maintained by a life and health insurance company is to be determined based on the various risk factors related to it. At December 31, 2003, the Company meets the RBC requirements.

14. Fair Values of Financial Instruments

In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases, could not be realized in immediate settlement of the financial instrument. Accordingly, the aggregate fair value amounts presented herein do not represent the underlying value of the Company.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis

Life insurance liabilities that contain mortality risk and all nonfinancial instruments have been excluded from the disclosure requirements. However, the fair values of liabilities under all insurance contracts are taken into consideration in the Company's overall management of interest rate risk, such that the Company's exposure to changing interest rates is minimized through the matching of investment maturities with amounts due under insurance contracts.

The carrying amounts and fair values of the Company's financial instruments are summarized as follows:

	December 31			
	2003		2002	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
	<i>(In Thousands)</i>			
Assets:				
Bonds	\$ 12,084,537	\$ 12,526,062	\$ 11,531,744	\$ 11,963,244

Payable for securities	1,429	1,429	6,039	6,039

The following methods and assumptions were used by the Company in estimating the fair value disclosures for financial instruments in the accompanying financial statements and notes thereto:

Cash and short-term investments: The carrying amounts reported in the accompanying balance sheets for these financial instruments approximate their fair values.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

Fixed maturities and equity securities: The fair values for bonds, preferred stocks and common stocks reported herein are based on quoted market prices, where available. For securities not actively traded, fair values are estimated using values obtained from independent pricing services or, in the case of private placements, are estimated by discounting the expected future cash flows. The discount rates used vary as a function of factors such as yield, credit quality, and maturity, which fall within a range between 1% and 13% over the total portfolio. Fair values determined on this basis can differ from values published by the SVO. Fair value as determined by the SVO as of December 31, 2003 and 2002 is \$12,478,443,000 and \$12,331,071,000, respectively.

Mortgage loans: Estimated fair values for commercial real estate loans were generated using a discounted cash flow approach. Loans in good standing are discounted using interest rates determined by U.S. Treasury yields on December 31 and spreads applied on new loans with similar characteristics. The amortizing features of all loans are incorporated in the valuation. Where data on option features is available, option values are determined using a binomial valuation method, and are incorporated into the mortgage valuation. Restructured loans are valued in the same manner; however, these loans were discounted at a greater spread to reflect increased risk. All residential loans are valued at their outstanding principal balances, which approximate their fair values.

Residual collateralized mortgage obligations: Residual collateralized mortgage obligations are included in the other invested assets balances. Fair values are based on independent pricing sources.

Derivative financial instruments: Fair values for on-balance-sheet derivative financial instruments (caps, options and floors) and off-balance-sheet derivative financial instruments (swaps) are based on broker/dealer valuations or on internal discounted cash flow pricing models taking into account current cash flow assumptions and the counterparties' credit standing.

Guaranteed investment contracts: The fair values of the Company's guaranteed investment contracts are estimated using discounted cash flow calculations, based on interest rates currently being offered for similar contracts with maturities consistent with those remaining for the contracts being valued.

Other investment-type insurance contracts: The fair values of the Company's deferred annuity contracts are estimated based on the cash surrender values of the contracts. The carrying values of other policyholder liabilities, including individual and group annuities, policyholder dividends and deposit-type contracts, approximate their fair values.

The carrying value of all other financial instruments approximates their fair value.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

15. Commitments and Contingencies

The Company is a party to threatened or pending lawsuits arising from the normal conduct of business. Due to the climate in insurance and business litigation, suits against the Company sometimes include claims for substantial compensatory, consequential or punitive damages and other types of relief. Moreover, certain claims are asserted as class actions, purporting to represent a group of similarly situated individuals. While it is not possible to forecast the outcome of pending lawsuits, in light of existing insurance, reinsurance and established reserves, it is the opinion of management that the disposition of pending lawsuits will not have a materially adverse effect on the Company's operations or financial position.

Other Matters

Like many financial services companies, certain U.S. affiliates of ING Groep N.V. ("ING"), the Company's ultimate parent, have received informal and formal requests for information since September 2003 from various governmental and self-regulatory agencies in connection with investigations related to mutual funds and variable insurance products. ING has cooperated fully with each request.

In addition to responding to regulatory requests, ING management initiated an internal review of trading in ING insurance, retirement, and mutual fund products. The goal of this review has been to identify whether there have been any instances of inappropriate trading in those products by third parties or by ING investment professionals and other ING personnel. This internal review is being conducted by independent special counsel and auditors. Additionally, ING reviewed its controls and procedures in a continuing effort to deter improper frequent trading in ING products. ING's internal reviews related to mutual fund trading are continuing.

The internal review has identified several arrangements allowing third parties to engage in frequent trading of mutual funds within our variable insurance and mutual fund products, and identified other circumstances where frequent trading occurred despite measures taken by ING intended to combat market timing. Most of the identified arrangements were initiated prior to ING's acquisition of the businesses in question. In each arrangement identified, ING has terminated the inappropriate trading, taken steps to discipline or terminate employees who were involved, and modified policies and procedures to deter inappropriate activity. While the review is not completed, management believes the activity identified does not represent a systemic problem in the businesses involved.

These instances included agreements (initiated in 1998) that permitted one variable life insurance customer of the Company to engage in frequent trading, and to submit orders until 4pm Central Time, instead of 4pm Eastern Time. The Company was acquired by ING in 2000. The late trading arrangement was immediately terminated when current senior management became aware of it in 2002. ING believes that no profits were realized by the customer from the late trading aspect of the arrangement.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

In addition, the review has identified five arrangements that allowed frequent trading of funds within variable insurance products issued by the Company and by ING USA Annuity & Life Insurance Company; an affiliate of the Company and in certain ING Funds. ING entities did not receive special benefits in return for any of these arrangements, which have all been terminated. The internal review also identified two investment professionals who engaged in improper frequent trading in ING Funds.

ING will reimburse any ING Fund or its shareholders affected by inappropriate trading for any profits that accrued to any person who engaged in improper frequent trading for which ING is responsible. Management believes that the total amount of such reimbursements will not be material to ING or its U.S. business.

Operating Leases

The Company leases office space under various noncancelable operating lease agreements that expire through January 2009. Rental expense for 2003 and 2002 was approximately \$12,030,000 and \$8,518,000.

At December 31, 2003, the minimum aggregate rental commitments under operating leases for the upcoming five years and thereafter are as follows:

Year ending December 31	Commitments
2004	\$ 11,651,000
2005	10,888,000
2006	10,493,000
2007	9,987,000
2008	9,334,000
Thereafter	1,583,000

Certain rental commitments have renewal options extending through the year 2009 subject to adjustments in future periods.

Lessor Leases

The Company owns or leases numerous sites that are leased or subleased to franchisees. Buildings owned or leased that meet the criteria for operating leases are carried at the gross investment in the lease less unearned income. Unearned income is recognized in such a manner as to produce a constant periodic rate of return on the net investment. The typical lease period is 20 years and some leases contain renewal options. The franchisee is responsible for the payment of property taxes, insurance and maintenance costs related to the leased property.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

Future minimum lease payment receivables under non-cancelable operating leasing arrangements as of December 31, 2003 are as follows:

Year ending December 31	Future minimum Lease Payment Receivables
2004	\$ 10,846,000
2005	8,815,000
2006	6,647,000
2007	4,884,000
2008	3,451,000
Thereafter	341,000

Contingent rentals included in income for the years ended December 31, 2003 amounted to \$13,623,000. The net investment is classified as real estate.

16. Financing Agreements

The Company maintains a revolving loan agreement with SunTrust Bank, Atlanta (the "Bank"). Under this agreement, which expires July 30, 2004, the Company can borrow up to \$125,000,000 from the Bank. Interest on any Company borrowing accrues at an annual rate equal to the cost of funds for the Bank for the period applicable for the advance plus 0.225% or a rate quoted by the Bank to the Company for the borrowing. Under this agreement, the Company incurred interest expense of \$16,000 and \$70,000 for the years ended December 31, 2003 and 2002, respectively. At December 31, 2003 and 2002, the Company had \$0 payable to the Bank.

The Company maintains a revolving loan agreement with Bank of New York ("BONY"). Under this agreement, the Company can borrow up to \$100,000,000 from BONY. Interest on any Company borrowing accrues at an annual rate equal to: (1) the cost of funds for BONY for the period applicable for the advance plus .35%, or (2) a rate quoted by BONY to the Company for the borrowing. Under this agreement, the Company incurred interest expense of \$7,000 and \$73,000 for the years ended December 31, 2003 and 2002, respectively. At December 31, 2003 and 2002, the Company had \$0 payable to BONY.

The Company borrowed \$1,899,331,000 and repaid \$1,899,331,000 in 2003 and borrowed \$4,103,074,000 and repaid \$4,103,074,000 in 2002. These borrowings were on a short-term basis, at an interest rate that approximated current money market rates and exclude borrowings from reverse dollar repurchase agreements. Interest paid on borrowed money was \$268,000 and \$535,000 during 2003 and 2002, respectively.

The Company is the beneficiary of letters of credit totaling \$458,531,000; terms of the letters of credit provide for automatic renewal for the following year at December 31, unless otherwise canceled or terminated by either party to the financing. The letters were unused during both 2003 and 2002.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

17. Related Party Transactions

Affiliates

Management and services contracts and all cost sharing arrangements with other affiliated ING U.S. life insurance companies are allocated among companies in accordance with normal, generally accepted expense and cost allocation methods.

Inter-insurer Services Agreement: The Company has entered into a services agreement with certain of its affiliated insurance companies in the United States ("affiliated insurers") whereby the affiliated insurers provide certain administrative, management, professional, advisory, consulting and other services to each other. Net amount paid under these agreements was \$125,174,000 and \$96,966,000 for the years ended December 31, 2003 and 2002, respectively.

Investment Management: The Company has entered into an investment advisory agreement and an administrative services agreement with ING Investment Management, LLC ("IIM") under which IIM provides the Company with investment management and asset liability management services. Total fees under the agreement were approximately \$44,759,000 and \$36,041,000 for the years ended December 31, 2003 and 2002, respectively.

Reciprocal Loan Agreement: The Company maintains a reciprocal loan agreement with ING AIH, to facilitate the handling of unusual and/or unanticipated short-term cash requirements. Under this agreement, which expires December 31, 2010, the Company and ING AIH can borrow up to \$156,100,000 from one another. Interest on any borrowing is charged at the rate of ING AIH's cost of funds for the interest period plus .15%. Interest on any ING AIH borrowings is charged at a rate based on the prevailing interest rate of U.S. commercial paper available for purchase with a similar duration. Under this agreement, the Company incurred interest expense of \$245,000 and \$391,000 and interest income of \$423,000 and \$1,194,000 for the year ended December 31, 2003 and 2002, respectively. At December 31, 2003, the Company had \$0 payable to ING AIH and \$23,600,000 receivable from ING AIH.

Tax Sharing Agreements: The Company has entered into federal tax sharing agreements with members of an affiliated group as defined in Section 1504 of the Internal Revenue Code of 1986, as amended. The agreement provides for the manner of calculation and the amounts/timing of the payments between the parties as well as other related matters in connection with the filing of consolidated federal income tax returns. The Company has also entered into a state tax sharing agreement with ING AIH and each of the specific subsidiaries that are parties to the agreement. The state tax agreement applies to situations in which ING AIH and all or some of the subsidiaries join in the filing of a state or local franchise, income tax or other tax return on a consolidated, combined or unitary basis.

RELIASTAR LIFE INSURANCE COMPANY

Notes to Financial Statements – Statutory Basis

Customer Services Agreement: The Company has entered into a services agreement with ING Financial Advisors ("ING FA") to provide certain administrative, management, professional advisory, consulting and other services to the Company for the benefit of its customers. Charges for these services are to be determined in accordance with fair value and reasonable standards with neither party realizing a profit nor incurring a loss as a result of the services provided to the Company. The Company will reimburse ING FA for direct and indirect costs incurred on behalf of the Company.

Guarantee Agreement: The Company, effective January 2002, entered into a Guarantee Agreement with two other ING Affiliates whereby it is jointly and severally liable for a \$250,000,000 obligation of another ING affiliate, Security Life of Denver International Limited ("SLDI"). The Company's Board of Directors approved this transaction on April 25, 2002. The three affiliated life insurers were Security-Connecticut (subsequently merged into the Company on October 1, 2003), Security Life of Denver Insurance Company, and the Company. The joint and several guarantees of the two insurers are capped at \$250,000,000. The States of Colorado and Minnesota did not disapprove the guarantee.

Assets and liabilities, and the related revenues and expenses recorded as a result of transactions and agreements with affiliates may not be the same as those recorded if the Company was not a wholly-owned subsidiary of its parent.

18. Guaranty Fund Assessments

Insurance companies are assessed the costs of funding the insolvencies of other insurance companies by the various state guaranty associations, generally based on the amount of premium companies collect in that state.

The Company accrues the cost of future guaranty fund assessments based on estimates of insurance company insolvencies provided by the National Organization of Life and Health Insurance Guaranty Associations ("NOLHGA") and the amount of premiums written in each state. The Company has recorded \$2,637,000 and \$710,000 for this liability as of December 31, 2003 and 2002. The Company has also recorded an asset/(liability) of \$21,000 and \$(598,000) as of December 31, 2003 and 2002, respectively, for future credits to premium taxes for assessments already paid.

Notes to Financial Statements – Statutory Basis

19. Unpaid Accident and Health Claims

The change in the liability for unpaid accident and health claims and claim adjustment expenses is summarized as follows:

	December 31	
	2003	2002
	<i>(In Thousands)</i>	
Balance at January 1	\$ 1,186,221	\$ 1,175,770
Less reinsurance recoverables	46,197	166,786
Net balance at January 1	1,140,024	1,008,984
Incurred related to:		
Current year	486,373	359,201
Prior years	(25,417)	74,988
Total incurred	460,956	434,189
Paid related to:		
Current year	203,752	212,147
Prior years	154,109	91,002
Total paid	357,861	303,149
Net balance at December 31	1,243,119	1,140,024
Plus reinsurance recoverables	40,164	46,197
Balance at December 31	<u>\$ 1,283,283</u>	<u>\$ 1,186,221</u>

The liability for unpaid accident and health claims and claim adjustment expenses is included in Accident and Health Reserves and Unpaid Claims.

20. Reconciliation to the Annual Statement

At December 31, 2002, differences in amounts reported in the 2002 Annual Statement, as revised, and amounts in the accompanying statutory-basis financial statements were due to the following:

	Net Income	Capital and Surplus
Amounts as reported in the 2002 NAIC Annual Statement	\$ 129,450,000	\$ 1,357,625,000
Effects of adopting the CARVM accounting policy change	(24,579,000)	-
Amounts as reported in the accompanying statutory basis financial statements	<u>\$ 104,871,000</u>	<u>\$ 1,357,625,000</u>

Item 28 Persons Controlled by or Under Common Control with the Depositor or the Registrant

Incorporated herein by reference to Item 26 in Post-Effective Amendment No. 2 to Registration Statement on Form N-4 for Separate Account B of ING USA Annuity and Life Insurance Company (File No. 333-90516), as filed on April 9, 2004.

Item 29 Indemnification

Under its Bylaws, Section 5.01, ReliaStar Life Insurance Company ("ReliaStar Life") indemnifies, to the full extent permitted by the laws of the State of Minnesota, each person (and the heirs, executors and administrators of such person) who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, wherever brought, whether civil, criminal, administrative or investigative, by reason of the fact that he or she is or was a director, officer or employee of ReliaStar Life, or is or was serving at the request of ReliaStar Life as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such action, suit or proceeding. Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of ReliaStar Life pursuant to such provisions of the bylaws or statutes or otherwise, ReliaStar Life has been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in said Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by ReliaStar Life of expenses incurred or paid by a director or officer or controlling person of ReliaStar Life in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person of ReliaStar Life in connection with the securities being registered, ReliaStar Life will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether or not such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

A corporation may procure indemnification insurance on behalf of an individual who was a director of the corporation. Consistent with the laws of the State of Minnesota, ING Groep N.V. maintains an umbrella insurance policy issued by an international insurer. The policy covers ING Groep N.V. and any company in which ING Groep N.V. has a controlling interest of 50% or more. This would encompass the Principal Underwriter as well as the Depositor. The policy provides for the following types of coverage: errors and omissions, directors and officers, employment practices, fiduciary and fidelity.

Additionally, Section XVIII of the ReliaStar Life Insurance Company Distribution Agreement with ING America Equities, Inc. (INGAE) generally provides that each party will indemnify and hold harmless the officers, directors and employees of the other party (and the variable account with respect to indemnity by INGAE) against any expenses (including legal expenses), losses, claims, damages, or liabilities arising out of or based on certain claims or circumstances in connection with the offer or sale of the policies. Under this agreement neither party is entitled to indemnity if the expenses (including legal expenses), losses, claims, damages, or liabilities resulted from their own willful misfeasance, bad faith, negligence, misconduct or wrongful act.

Item 30 Principal Underwriters

- (a) *Other Activity.* ING America Equities, Inc., the principal underwriter for the policies, is also the principal underwriter for policies issued by ReliaStar Life Insurance Company of New York, Security Life of Denver Insurance Company and Southland Life Insurance Company.
- (b) *Management of ING America Equities, Inc.*

Name and Principal Business Address	Positions and Offices with Underwriter
David P. Wilken, 20 Washington Avenue South, Minneapolis, MN 55401	Director, President and Chief Executive Officer
Daniel P. Mulheran, Sr., 20 Washington Avenue South, Minneapolis, MN 55401	Director
Mark A. Smith, 2001 21 st Avenue N.W., Minot, ND 58703	Director and Vice President

Anita F. Woods, 5780 Powers Ferry Road, Atlanta, GA 80203	Chief Financial Officer
Beth G. Shanker, 1290 Broadway, Denver, CO 80203	Chief Compliance Officer

(c) *Compensation From the Registrant.*

(1) Name of Principal Underwriter	(2) 2002 Net Underwriting Discounts and Commissions	(3) Compensation on Events Occasioning the Deduction of a Deferred Sales Load	(4) Brokerage Commissions	(5) Other Compensation*
ING America Equities, Inc.				\$24,581,359

* Includes payments to agents/registered representatives, broker/dealers, and regional managers/brokerage general agents and payments to Washington Square Securities, Inc. as a distribution allowance.

Item 31 Location of Accounts and Records

Accounts and records are maintained by ReliaStar Life Insurance Company at 20 Washington Ave South, Minneapolis, MN 55401 and by ING Americas Finance Shared Services, an affiliate, at 5780 Powers Ferry Road, NW, Atlanta, GA 30327. 20 Washington Avenue South, Minneapolis, MN 55401.

Item 32 Management Services

None.

Item 33 Fee Representations

ReliaStar Life Insurance Company represents that the fees and charges deducted under the variable life insurance policy described in this registration statement, in the aggregate, are reasonable in relation to the services rendered, expenses expected to be incurred, and the risks assumed by ReliaStar Life Insurance Company under the policies. ReliaStar Life Insurance Company bases this representation on its assessment of such factors such as the nature and extent of the such services, expenses and risks, the need for the ReliaStar Life Insurance Company to earn a profit and the range of such fees and charges within the insurance industry.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933 and the Investment Company Act, the Registrant, Select ★Life Variable Account, certifies that it meets all of the requirements for effectiveness of this Registration Statement under Rule 485(b) under the Securities Act and has duly caused this Post-Effective Amendment No. 11 to this Registration Statement on Form N-6 (File No. 333-18517) to be signed on its behalf by the undersigned, duly authorized, in the City of Hartford, and State of Connecticut on the 16th day of April, 2004.
