- After September 23, 2005, the effective date of the substitutions, the subaccounts which invest in the Replaced Funds will no longer be available through your variable life insurance policy.
- Prior to the effective date of the substitutions and for thirty days thereafter you may transfer amounts allocated to a subaccount which invests in a Replaced Fund to any other subaccount or the fixed account free of charge and any such transfer will not count as a transfer when imposing any applicable restriction or limit on transfers.
- On the effective date of the substitutions, all amounts you have allocated to the subaccount which invests in a Replaced Fund will automatically be reallocated to the subaccount which invests in a corresponding Substitute Fund. Thereafter, all future allocations directed to a subaccount which invests in a Replaced Fund will be automatically allocated to the corresponding Substitute Fund.
- You will not incur any fees or charges or any tax liability because of the substitutions, and your policy value immediately before the substitutions will equal your policy value immediately after the substitutions.
- The total expenses of each Substitute Fund are less than or equal to the total expenses of the corresponding Replaced Fund. The fees and expenses of each Substitute Fund are more fully described in your variable life insurance prospectus and in the Substitute Fund's prospectus.
- The investment objective and policy of each Substitute Fund is substantially the same as, similar to or consistent with the investment objective and policy of the corresponding Replaced Fund. The investment objective of each Substitute Fund is more fully described in your variable life insurance prospectus and in the Substitute Fund's prospectus.
