LETTER FROM INDEPENDENT DIRECTORS TO STOCKHOLDERS

The Allstate Corporation
2775 Sanders Road
Northbrook, IL 60062

March 28, 2018

Fellow Stockholders,

Thank you for trusting us to oversee the long-term health and sustainability of Allstate. We focus on continuous improvement and transparency, informed by our stockholder engagement, outside advisors and best practices. Below is a list of our major initiatives and accomplishments in 2017.

Corporate Governance

Once again last year, we reached out to stockholders representing over one-third of our outstanding shares to discuss performance, strategy, corporate governance, and Board composition, diversity, tenure and independence as part of our effort to continuously get better. Our Chair and CEO, Tom Wilson, Lead Director, Judy Sprieser, and nominating and governance committee chair, Andrea Redmond, participated in these conversations. We implemented the following improvements to our governance practices:

- *Board Composition* – We added two new directors to our Board, Gregg Sherrill and Margaret Keane. Gregg is Executive Chairman and former CEO at Tenneco. His strategic, operating and leadership experience in the automotive industry will add to our capabilities and discussions, especially related to the rapid transformation occurring in the personal transportation industry. Margaret is President and CEO of Synchrony Financial. She is an accomplished leader with financial services expertise and a passion for innovation, customer focus and employee development that will further strengthen our operating and strategic dialogue.

Mary Alice Taylor and John Rowe are retiring from the Board in May 2018. Mary Alice has served as a director for 20 years under different operating environments and management teams. The breadth and depth of her Allstate experience has been extremely beneficial to our new directors and in her role leading the audit committee for the last three years. John joined Allstate in 2012 following nearly three decades as CEO of a highly regulated business and led our compensation and succession and nominating and governance committees. We are extremely grateful for their service and dedication to Allstate.

- *Board Capabilities and Refreshment* – To effectively represent your long-term interests, we strive to maintain an appropriate balance of tenure, diversity, skill sets and experience on our Board. A comprehensive Board evaluation process is utilized to ensure governance and oversight responsibilities are updated and well executed. This includes assessing our performance at the end of every meeting, an annual Board assessment and individual director evaluations. The members of our Board reflect diverse

perspectives, experiences and backgrounds and have an average tenure of 6.8 years, demonstrating our commitment to ensure continual refreshment. Half of the Board nominees are women or ethnic minorities who currently hold four of the Board's leadership roles.

- *Sustainability Report* – In response to stockholder input, Allstate issued a Sustainability Report in 2017, detailing environmental, social, and governance practices, including diversity measures and fair pay practices.

Performance and Strategy

We regularly review Allstate's relative competitive positioning, and actively participate and discuss strategies and key initiatives for each market-facing business and the entire corporation. We also devoted significant time to Allstate's strategy and how to effectively capture opportunities presented by changes in the automobile industry, including autonomous vehicle technology and ride-sharing.

- Allstate delivered on all five operating priorities in 2017 which focused on both near-term performance and long-term value creation.
- The Net Promoter Score, which measures how likely customers are to recommend Allstate, improved.
- Investment income was strong, reflecting equity and fixed income market appreciation and increased allocations to performance-based investments.
- Allstate achieved its target economic returns on capital, despite significant catastrophe events. Particularly impressive was the increased profitability from auto insurance.
- Total policies in force increased due to the acquisition of SquareTrade and continued growth at Allstate Benefits.
- Long-term growth was enhanced through existing businesses and the creation of new businesses. Allstate agencies are being positioned as trusted advisors; Allstate Benefits continues to expand; SquareTrade is growing; and significant investments are being made in automotive telematics.

Risk Oversight

Oversight of Allstate's enterprise risk and return program is the responsibility of the full Board and the risk and return and audit committees. We implemented several enhancements:

- *Independent Review* – Allstate uses economic capital to quantify returns and provide transparency into risk-return decision making. Allstate had an

independent external review of its methodologies for determining economic capital and allocating it within the enterprise to provide insight into its business risk profile and risk-return opportunities. The review, performed by leading experts in economics and regulation, confirmed Allstate has a sound process for determining economic capital.

- *Cybersecurity Oversight* – The relationship with our independent cybersecurity advisor, hired by the audit committee in 2016, was expanded in 2017 to further strengthen Allstate's cybersecurity defenses and cybersecurity risk management practices. The full Board and audit committee participated in this important work.

Executive Compensation and Succession

We completed our annual evaluation of the executive compensation program to ensure alignment with long-term interests of stockholders. The say-on-pay proposal received 95% support at the 2017 annual meeting. No significant changes were made to our programs in 2017.

Management succession for the CEO and senior leaders is reviewed four times annually across multiple time periods (immediate, less than 2 years, 3 to 5 years, and over 5 years) and under different operating scenarios. Most recently, our robust succession strategy and careful planning resulted in several internal senior leadership promotions in connection with the retirement of Matt Winter, Allstate's President, including Steve Shebik to Vice Chair, Glenn Shapiro to President of Allstate Personal Lines, and Mario Rizzo to Executive Vice President and Chief Financial Officer. We are confident these leadership changes will enable Allstate's long-term success.

Capital Management and Stockholder Return

Capital allocation decisions are aligned with Allstate's enterprise risk and return management principles: maintain a strong foundation, build strategic value, and optimize return per unit of risk. Investments were made in existing businesses to support long-term profitable growth. With the acquisition of SquareTrade, Allstate expanded the protection products it offers to customers.

- *Dividends* – The quarterly dividend was increased 12% to \$0.37 cents per share in 2017.

- *Share Repurchase Program* – Allstate completed the \$1.5 billion share repurchase authorization that was approved in 2016 and instituted an additional \$2 billion share repurchase planned to be completed by February 2019.
- *Total Shareholder Return* – Allstate achieved returns of 43.3%, 56.8%, and 183.7% over the last one, three and five years, respectively, which compares favorably to the company's peers and the Standard & Poor's ("S&P") 500 index.

Societal Responsibilities

Allstate maintains a strong reputation by operating with integrity, serving customers and improving local communities. This includes the following:

- Allstate was named "a most ethical company" for the fourth year in a row by Ethisphere Institute, a global leader in defining and advancing the standards of ethical business practices.
- Allstate and The Allstate Foundation contributed more than \$41 million to community service projects across the nation in 2017, including funding for more than 3,290 nonprofit organizations. Over 4,700 Allstate agencies earned Allstate Foundation Helping Hands Grants to support their involvement in local causes.
- The Allstate Foundation, Allstate and its employees and agency force contributed more than \$2.1 million to disaster relief and recovery efforts in 2017, including grants to social service organizations and resources to help consumers navigate the rebuilding process.
- Our employees and agency force engage in numerous community service programs and volunteered over 258,000 reported hours to over 2,430 community groups in 2017.

We welcome your feedback on this letter or other matters important to Allstate. You can reach us by email at directors@allstate.com.

We pledge to continue to work hard for you to ensure the sustainability and success of Allstate's long-term strategies and commitment to enhance the communities it serves. Thank you for your continued support.

- ✓ Annual letter to stockholders from the independent directors on Board accomplishments
- ✓ Stockholder engagement with holders of approximately 1/3 of outstanding shares each year
- NEW** ✓ Enhanced Board and committee self-evaluation process, including at the end of each in-person meeting and annual reviews for the entire Board and each individual director
 - 🔗 See page 17 for more information, including a new annual evaluation to ensure Board effectiveness
- NEW** ✓ Comprehensive Sustainability Report with information on public policy, climate change, information security, environmental, social, and governance performance and management and inclusive diversity
- ✓ Robust global code of business conduct and ethics training for all directors
- ✓ Effective director education program
- ✓ Strong equity ownership requirements for executives

PROPOSAL

2

Say-on-Pay: Advisory Vote on the Compensation of the Named Executives

✓ The Board recommends a vote **FOR** this proposal.

- Independent oversight by compensation and succession committee with the assistance of an independent consultant.
- Executive compensation targeted at 50th percentile of peers and aligned with short- and long-term business goals and strategy.
- Compensation programs are working effectively. Annual incentive compensation funding for our named executives in 2017 was 181.4% of target, from 55.1% of target in the prior year, reflecting significant improvement in operating results.
- Compensation compares favorably to Total Shareholder Return.

➤ See pages 30-67 for further information

EXECUTIVE COMPENSATION HIGHLIGHTS

We compensated our named executives using the following elements for total target direct compensation in 2017:

	Element	Description	Further Information (pages)
Targeted at 50th percentile of peers	Salary	A competitive level of cash is provided to attract and retain executive talent	35, 40
	Annual Cash Incentive	A funding pool for 2017 of 181.4% of target was based on performance against four performance measures: Performance Net Income, Total Premiums, Net Investment Income, and Total Return <ul style="list-style-type: none"> • Amounts awarded were based on pool funding, established target amounts, and individual performance 	35, 40-41
	Long-term Equity Incentive	The mix of equity incentives granted in 2017 was 60% performance stock awards ("PSAs") and 40% stock options <ul style="list-style-type: none"> • Awards granted were based on target amounts and individual performance • Actual PSAs vesting will be determined by Average Performance Net Income Return on Equity ("ROE") (70%) and Earned Book Value (30%) results (both measured over a three-year period) 	35, 41-43

Our executive compensation programs have delivered pay supported by performance. The following charts show CEO total compensation in comparison to Total Shareholder Return and Adjusted Net Income per Diluted Common Share over the last three years.

Total CEO Compensation (\$M)
vs. One-Year Total Shareholder Return (%)

Total CEO Compensation (\$M)
vs. Adjusted Net Income
per Diluted Common Share (\$)

⁽¹⁾ As reported in the "Total" column of the *Summary Compensation Table*.

⁽²⁾ The Adjusted Net Income per Diluted Common Share measure is not based on accounting principles generally accepted in the United States of America ("non-GAAP") and is defined and reconciled to the most directly comparable GAAP measure (net income applicable to common shareholders per diluted common share) in Appendix A.

PROPOSAL

3

Ratification of Deloitte & Touche LLP as the Independent Registered Public Accountant for 2018

✓ **The Board recommends a vote **FOR** ratification of Deloitte & Touche LLP for 2018.**

- Independent firm with few ancillary services and reasonable fees.
- Significant industry and financial reporting expertise.
- The audit committee annually evaluates Deloitte & Touche LLP and determined that its retention continues to be in the best interests of Allstate and its stockholders.

➤ See **pages 69-71** for further information

PROPOSAL

4

Stockholder Proposal on Independent Board Chairman

✗ **The Board recommends a vote **AGAINST** this proposal.**

- Allstate's independent lead director provides meaningful independent leadership of the Board.
- Allstate's independent lead director is selected through a robust process, and her performance is evaluated annually.
- The Board should continue to have flexibility to determine whether to split or combine the Chair and CEO roles and not be required to utilize one approach.
- The Board has split the roles of Chair and CEO in the past.
- The lead director is just one of many structural safeguards that provide effective independent oversight of Allstate.

➤ See **pages 72-74** for further information

PROPOSAL

5

Stockholder Proposal on Reporting Political Contributions

✗ **The Board recommends a vote **AGAINST** this proposal.**

- Allstate already provides stockholders with comprehensive disclosures on Allstate's involvement in the public policy arena (found at www.allstatesustainability.com).
- Allstate's Board has strong governance and oversight practices over the Company's public policy involvement.
- Allstate surpasses all disclosure requirements pertaining to political contributions under federal, state, and local laws.

CORPORATE GOVERNANCE

PROPOSAL

Election of 10 Directors

1

✓ The Board recommends a vote **FOR** each nominee.

- Diverse slate of directors with broad leadership experience; four leadership roles bring gender or ethnic diversity.
- All candidates are highly successful executives with relevant skills and expertise.
- Average director tenure of 5.5 years with 9 of 10 independent of management.
- Strong corporate governance practices and stockholder engagement program that receive exceptional corporate governance ratings.

The Board recommends 10 nominees for election to the Allstate Board for one-year terms beginning in May 2018 and until a successor is duly elected and qualified or his or her earlier resignation or removal. These nominees are talented, both as individuals and as a team. They bring a full array of business and leadership skills to their oversight responsibilities. Most nominees serve on other public company boards, enabling our Board to more quickly adopt best practices from other companies. Their diversity of experience and expertise facilitates robust and thoughtful decision-making on Allstate's Board.

Each nominee, other than Mr. Sherrill and Ms. Keane, was previously elected at Allstate's annual meeting of stockholders on May 25, 2017, for one-year terms. Mr. Sherrill and Ms. Keane were elected by the Board effective October 1, 2017, and January 1, 2018, respectively. The Board expects all nominees named in this proxy statement to be available for election. If any nominee is not available, then the proxies may vote for a substitute. On the following pages, we list the reasons for nominating each individual. Mrs. Taylor is not standing for re-election at the annual meeting. Mr. Rowe is retiring at the annual meeting in accordance with Allstate's retirement policy and is not standing for re-election.

Director Nominees' Skills and Experience

Our Board selected the nominees based on their diverse set of skills and experiences, which align with our business strategy and contribute to the effective oversight of Allstate.

- Tenneco, Inc. 2007–present

Nomination Considerations

Mr. Sherrill meets all of the Board's qualifications for Board service, including its guidelines on the number of other public company boards on which he can serve. In addition, the timing of his appointment at Allstate coincided with his election as Executive Chairman at Tenneco, which helped him manage the transition as a new director at Allstate. Mr. Sherrill will become the non-Executive Chairman at Tenneco in May 2018. For more information about the Board's nomination considerations please refer to page 16.

Committee Expertise Highlights

Consistent with past practice, committee assignments will be established during first year of service. It is expected that Mr. Sherrill will be assigned to the Audit and Nominating and Governance Committees after the annual meeting.

Board Composition and Nominee Considerations

The Board and nominating and governance committee believe that **each director should be well-versed in strategic oversight, corporate governance, stockholder advocacy, and leadership in order to be an effective member of the Allstate Board.** In addition to this fundamental expertise, the Board and committee seek directors with experience in the areas listed on page 10.

The Board and committee expect each non-employee director to be free of interests or affiliations that could give rise to a biased approach or a conflict of interest and be free of any significant relationship with Allstate that would interfere with the exercise of independent judgment. The Board and committee also expect each director to devote the time and effort necessary to serve as an effective director and act in a manner consistent with a director's fiduciary duties of loyalty and care. Allstate executive officers may not serve on boards of other corporations whose executive officers serve on Allstate's Board.

The Board also has limits on the number of other public boards on which our directors may sit. Directors who are active executives may serve on the board of no more than two other public companies, and other directors

may serve on the board of no more than four other public companies (in addition to Allstate's Board in each case).

Board nominees are identified through a retained search firm, suggestions from current directors and stockholders, and through other methods including self-nominations. Our newest directors, Ms. Keane and Mr. Sherrill, were identified by a search firm.

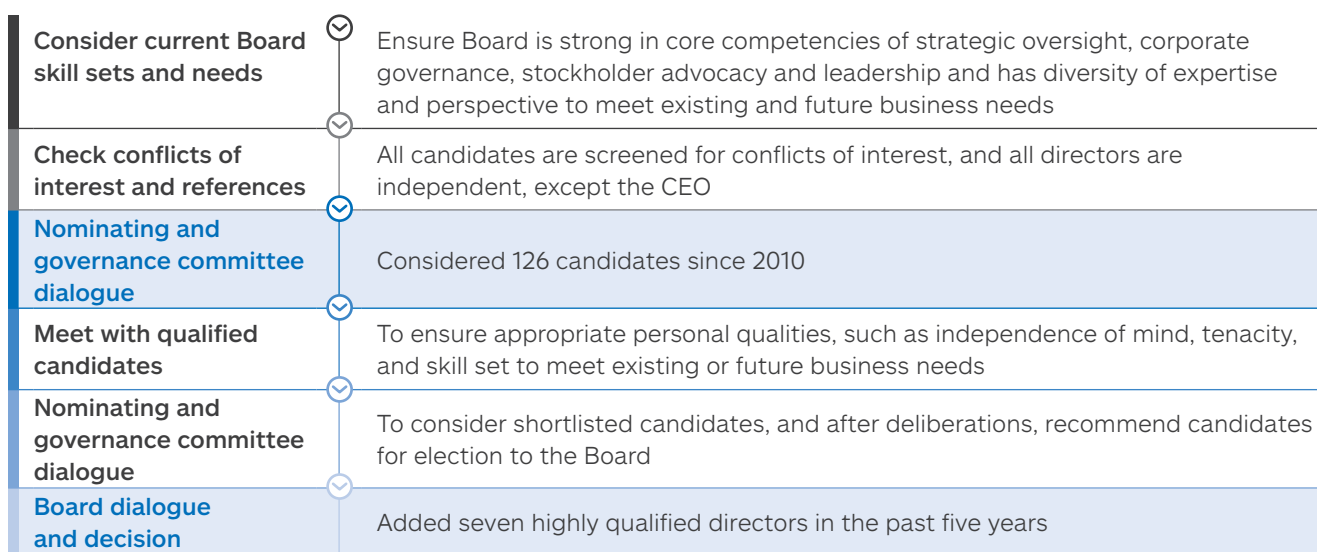

The nominating and governance committee will consider director candidates recommended by a stockholder in the same manner as all other candidates recommended by other sources. A stockholder may recommend a candidate at any time of the year by writing to the Office of the Secretary, The Allstate Corporation, 2775 Sanders Road, Suite F7, Northbrook, Illinois 60062-6127.

All candidates are evaluated and considered for their diversity, including gender, ethnic and diversity of background, expertise, and perspective, as well as the criteria described in our *Corporate Governance Guidelines* at www.allstateinvestors.com.

A stockholder or group of up to 20 stockholders owning 3% or more of Allstate's outstanding common stock continuously for at least three years can nominate director candidates constituting up to 20% of the Board in the company's annual meeting proxy materials.

Nomination Process for Board Election

The Board continuously identifies potential director candidates in anticipation of retirements, resignations, or the need for additional capabilities. The graphic below describes the ongoing process to identify highly qualified candidates for Board service.

EVALUATION PROCESS

Allstate's Board evaluation processes include multiple layers performed throughout the year. They ensure that the Board's governance and oversight responsibilities are updated to reflect best practice and are well executed. They include discussions after every meeting, an annual Board assessment and individual director evaluations.

NOMINEE INDEPENDENCE DETERMINATIONS

The Board has determined that all non-employee directors who served during 2017 and all nominees, other than Mr. Wilson, are independent according to applicable law, the NYSE listing standards, and the Board's *Director Independence Standards* (which are included on www.allstateinvestors.com). In accordance with the *Director Independence Standards*, the Board has determined that the nature of the relationships with the corporation that are set forth in Appendix B do not create a conflict of interest that would impair a director's independence. The Board also determined that the members of the audit, compensation and succession, nominating and governance, and risk and return committees are independent within the meaning of applicable laws, the NYSE listing standards and the *Director Independence Standards*.

When evaluating the independence of director nominees, the Board weighs numerous factors, including tenure. In particular, **the Board weighed the potential impact of tenure on the independence of our longest-serving director, Ms. Sprieser.** Ms. Sprieser has significant experience serving at Allstate under different operating environments and management teams, and served on the Board under two CEOs and prior to Mr. Wilson's appointment. The Board concluded that Ms. Sprieser is an effective director who fulfills her responsibilities with integrity and independence of thought. She appropriately challenges management and the status quo, and is reasoned, balanced, and thoughtful in Board deliberations and in communications with management. The Board determined that her independence from management has not been diminished by her years of service.

Board Leadership Structure and Practices

BOARD CHAIR

The independent directors periodically review Allstate's leadership structure and whether separating the roles of Chair and CEO is in the best interests of Allstate and its stockholders. When making this determination, the independent directors consider the recommendation of the nominating and governance committee, the current circumstances at Allstate, the skills and experiences of the individuals involved and the leadership composition of the Board. **The roles of Chair and CEO were split during a transition of leadership in 2007 and 2008.** The independent directors also appoint an independent lead director with robust powers and responsibilities. **A strong lead director role provides an effective independent counterbalance if the independent directors choose to combine the Chair and CEO roles.**

At present, the independent directors have determined Allstate is well-served by having these roles performed by Mr. Wilson, who provides excellent leadership and direction for both management and the Board. This promotes a strong connection between the Board and management that is subject to strong independent oversight by Allstate's independent lead director and the other independent directors. The Board believes it benefits from the considerable knowledge and perspective that Mr. Wilson has acquired from more than 23 years of insurance industry experience. Given his extensive company knowledge and his ability to effectively fulfill both roles simultaneously, he is uniquely qualified to lead discussions of the Board and is in the best position to facilitate the flow of business information and communications between the Board and management.

INDEPENDENT LEAD DIRECTOR

Allstate's Board places great importance on strong independent Board leadership and has had a strong lead director role in place for over seven years. Allstate's Corporate Governance Guidelines describe the responsibilities of the lead director and the selection process, including the characteristics that the Board considers important in a lead director.

The lead director is elected annually by the independent directors, and it is generally expected that the lead director serve more than one year.

JUDITH A. SPRIESER

- Lead director since 2015
- Member of the nominating and governance, risk and return and executive committees
- Prior chair of audit committee for seven years
- Allstate Board experience in multiple operating environments and under two CEOs

Considerations in Selecting Current Lead Director

The independent directors consider several factors, including the director's corporate governance expertise, operational and leadership experience, board service and tenure, integrity, prior Board leadership roles, and ability to meet the required time commitment. It is preferable that the lead director hold a previous position as chair of a Board committee, either at Allstate or another company. Ms. Sprieser was chosen by the independent directors as she exemplified these characteristics. She has devoted significant time fulfilling her duties as lead director since May of 2015. During her tenure on Allstate's Board, she has cultivated an expansive knowledge of Allstate in multiple operating environments. Her long-term perspective complements the perspectives of newer Board members, seven of whom have joined in the last five years. The independent directors believe that Ms. Sprieser is exceptionally well-qualified to serve as Allstate's independent lead director.

Lead Independent Director Responsibilities

✓ Board Meetings and Executive Sessions

- Has the authority to call meetings of the independent directors
- Approves meeting agendas and schedules and information sent to the Board to ensure there is sufficient time for discussion of all items and that directors have the information necessary to perform their duties
- Chairs executive sessions of independent directors at every Board meeting
- Presides at all Board meetings when the Chair is not present

✓ Duties to the Board

- Has regular communications with the CEO about Allstate's strategy and performance
- Performs additional duties designated by the independent directors

✓ Succession Plans

- Facilitates the development of a succession plan for the Chair and CEO

✓ Board and Individual Director Evaluations

- Facilitates the evaluation of individual director, Board and committee performance with the chair of the nominating and governance committee and the Chair

✓ CEO Performance Evaluation

- Facilitates and communicates the Board's performance evaluation of the Chair and CEO with the chair of the compensation and succession committee

✓ Communication Between Chair and Independent Directors

- Serves as liaison between the Chair and independent directors
- Consults with the Chair and discusses items raised in executive sessions

✓ Communication with Stockholders

- Communicates with significant stockholders and other stakeholders on matters involving broad corporate policies and practices, when appropriate

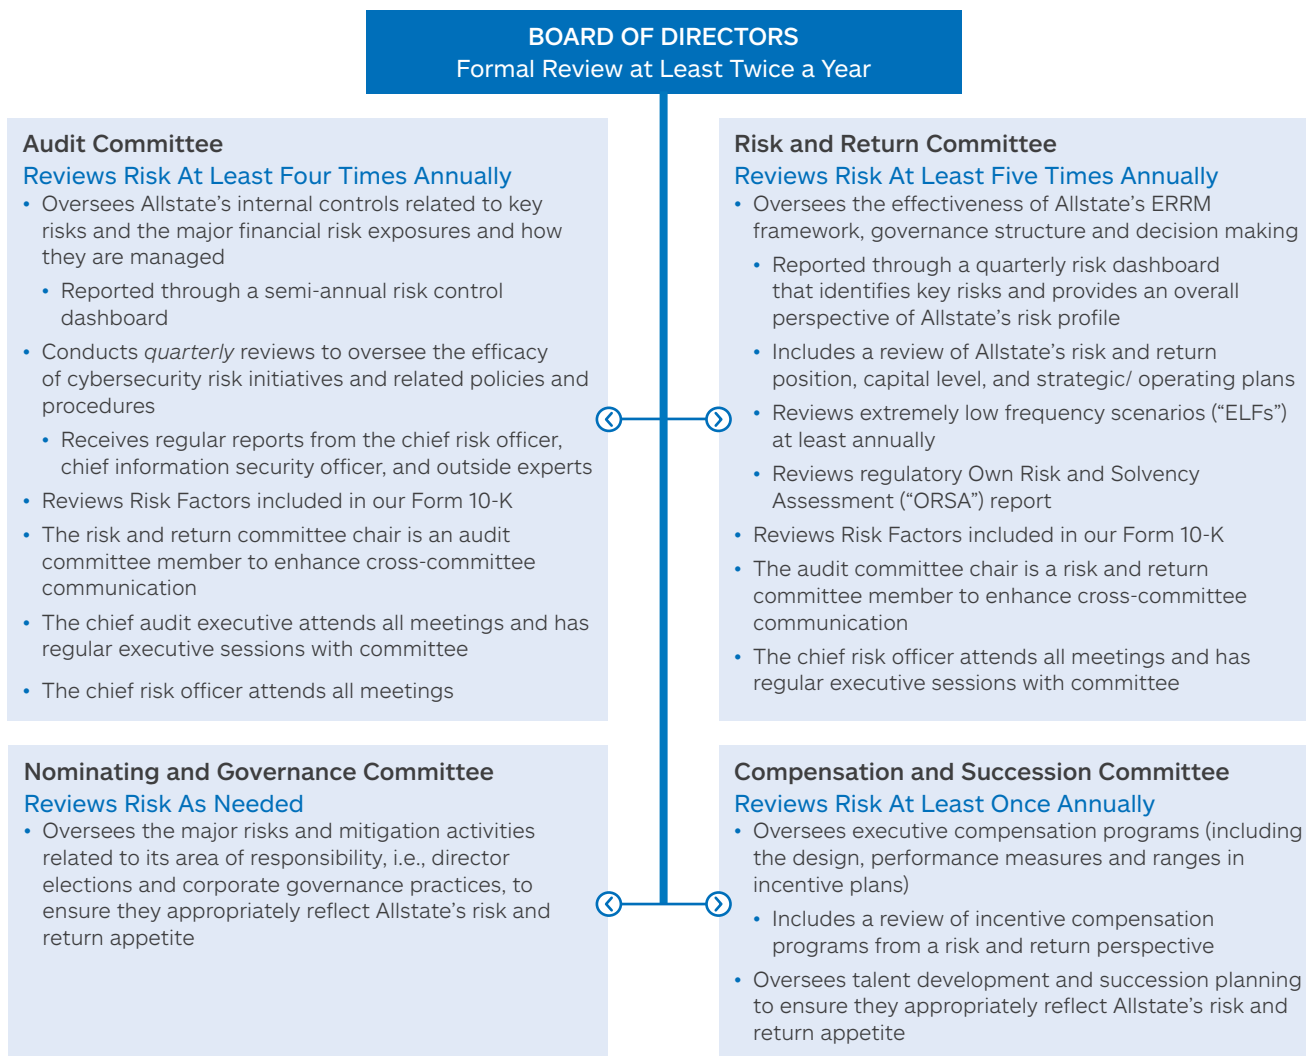

✓ Committee Involvement

- Works with the Chair and committee chairs to ensure coordinated coverage of Board responsibilities and ensures effective functioning of all committees
- Ensures the implementation of a committee self-evaluation process and regular committee reports to the Board

BOARD ROLE IN RISK OVERSIGHT

The Board oversees enterprise risk and return management practices (“ERRM”) and regularly reviews Allstate’s significant risk exposures and management’s design and implementation of ERRM. Allstate’s overall risk position and alignment with risk and return principles is reviewed twice a year. External resources are used when appropriate. Material risks, including those affected by climate, investment markets, and cybersecurity, are regularly identified, measured, managed, and reported to senior management and the Board.

The key risk areas overseen by each Board committee are included below.

Current Developments in the Board’s Risk Oversight

Independent Risk Review 	The risk and return committee oversaw an independent external review of Allstate’s methodologies for determining economic capital and allocating it within the enterprise to provide insight into our business risk profile and risk-return opportunities. The review, performed by leading experts in economics and regulation, confirmed Allstate has a sound process for determining economic capital.
Cybersecurity 	In 2016, the audit committee engaged an independent cybersecurity advisor to provide additional independent oversight. This relationship was expanded in 2017 to further strengthen Allstate’s cybersecurity defenses and risk management practices.
Severe Weather Risks 	The Board and risk and return committee continued to oversee efforts to assess and mitigate weather-related risks. The impact of several major hurricanes in 2017 validated the effectiveness of Allstate’s catastrophe response and risk management programs.

RISK MANAGEMENT AND COMPENSATION

We believe our compensation policies and practices are appropriately structured and do not provide incentives for employees to take unnecessary or excessive risks, utilizing analysis provided by an external consultant, the chief risk officer, and a review by the compensation and succession committee. Compensation plans provide a balanced and appropriate mix of cash and equity through annual and long-term incentives that align with short and long-term business goals. No one, regardless of eligibility, is guaranteed an award under the annual cash incentive program. We utilize multiple performance measures that correlate with long-term stockholder value creation and diversify the risk associated with any single performance indicator. In addition, the annual incentive program contains a funding adjustment

for senior executives in the event of a net loss, which reduces the corporate pool funding for those officers by 50% of actual performance. Likewise, for the performance stock award program, the committee requires positive net income for our executives to earn awards above target. Equity awards to executive officers after 2009 and annual cash incentive awards beginning in 2010 are subject to clawback in the event of certain financial restatements. Executives are also subject to rigorous stock ownership requirements.

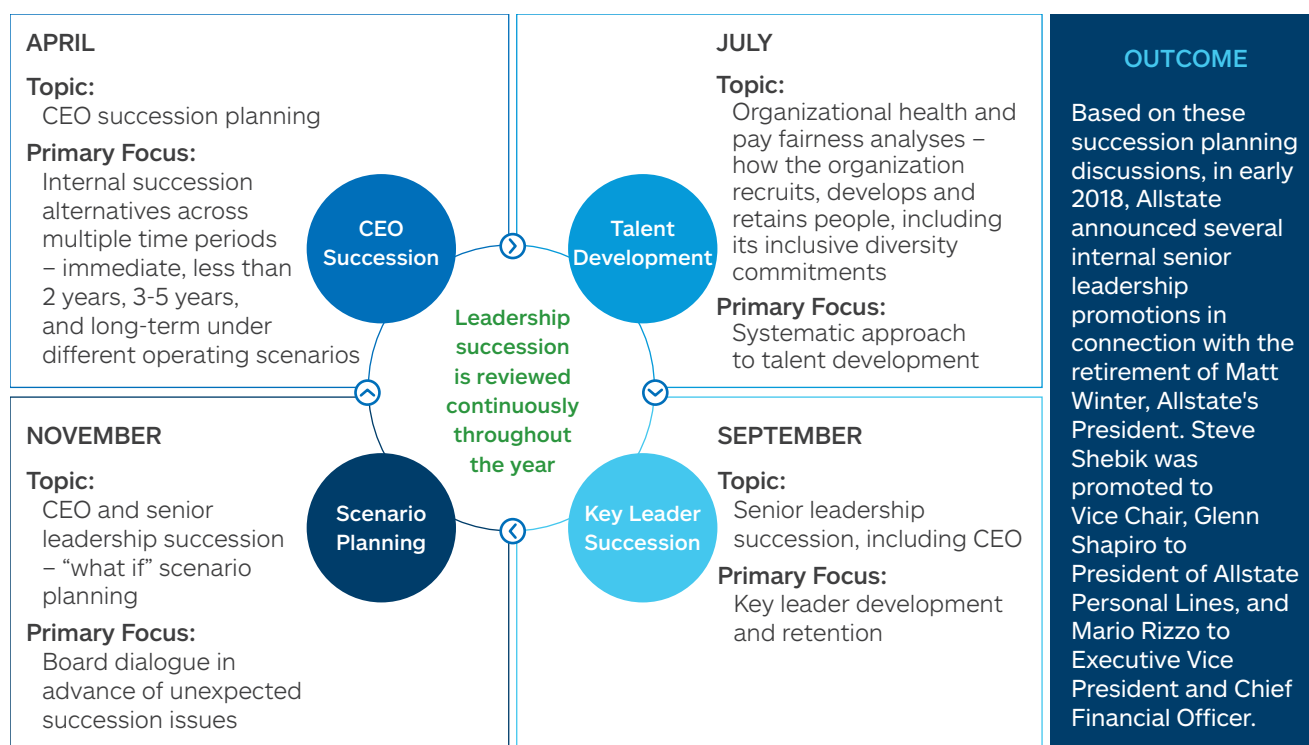

Based on this analysis, we believe Allstate's compensation policies ensure appropriate levels of risk-taking, while avoiding unnecessary risks that could have a material adverse effect on Allstate.

BOARD ROLE IN MANAGEMENT SUCCESSION

The Board oversees the recruitment, development, and retention of executive talent. Management succession is discussed four times annually in compensation and succession committee meetings, Board meetings, and executive sessions.

Discussions cover the CEO and other senior executive roles and include a broader discussion on organizational health. The Board also has regular and direct exposure to senior leadership and high-potential officers through one-on-one breakfasts and other informal meetings held throughout the year.

Board Review of Succession Planning and Talent Development Practices

BOARD ROLE IN SETTING COMPENSATION

The compensation and succession committee reviews the executive compensation program throughout the year with the assistance of an independent compensation consultant, Compensation Advisory Partners (“CAP”). CAP benchmarks Allstate’s plans and compensation payments to the market and evaluates changes to the executive compensation program. The compensation consultant also assesses Allstate’s executive compensation design, peer group selection, relative pay for performance, and total direct compensation for individual senior executive positions. Representatives of the compensation consultant participated in six out of seven compensation and succession committee meetings in 2017.

The compensation and succession committee annually evaluates the compensation consultant’s performance and independence.

The compensation and succession committee makes recommendations to the Board on compensation for the CEO and executive officers and the structure of plans used for executive officers.

The compensation and succession committee grants all equity awards to individuals designated as executive officers for purposes of Section 16 of the Securities Exchange Act of 1934 or covered employees as defined in Internal Revenue Code section 162(m). The compensation and succession committee has authority to grant equity awards to eligible employees in accordance with the terms of our 2013 Equity Incentive Plan. The Board has delegated limited authority to the CEO to grant equity awards to non-executive officers. All awards granted between compensation and succession committee meetings are reported at the next meeting.

The compensation consultant also provides the nominating and governance committee with competitive information on director compensation, including updates on practices and emerging trends.

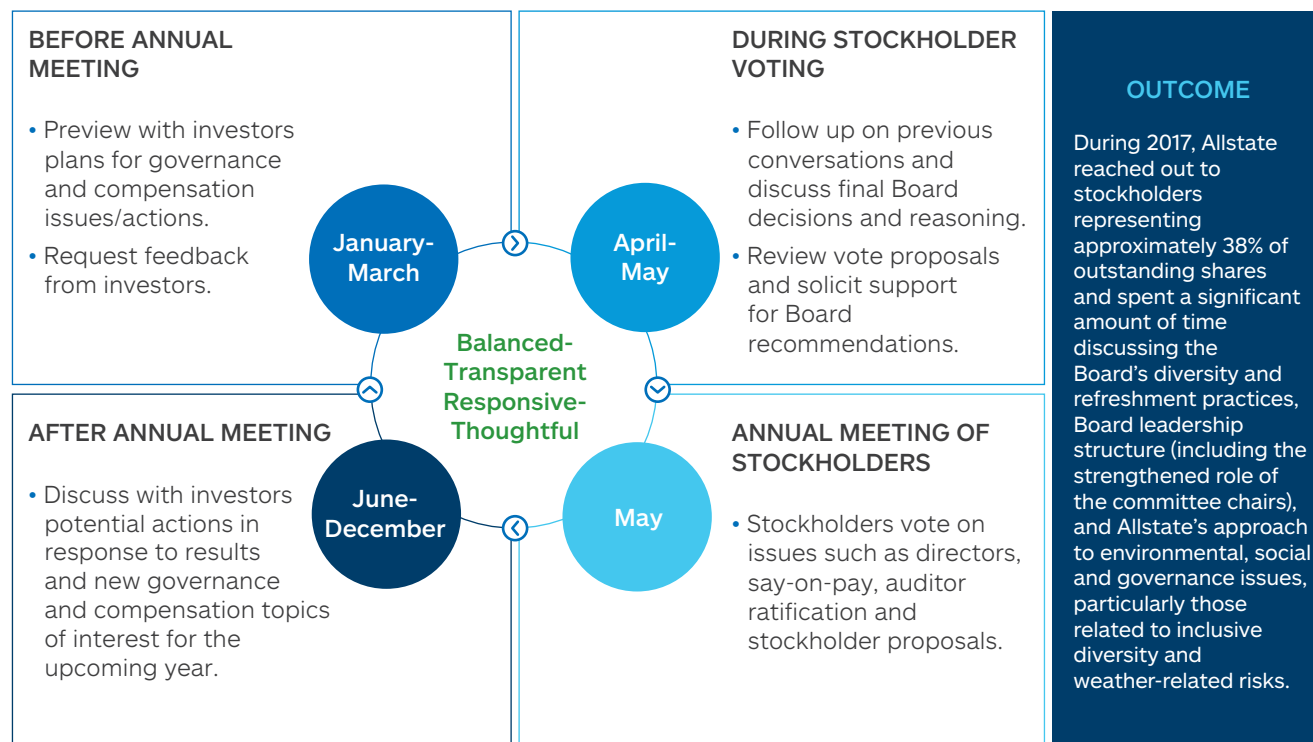

STOCKHOLDER ENGAGEMENT

Allstate proactively discusses corporate governance issues with significant stockholders throughout the year. Dialogue, transparency, and responsiveness are the cornerstones of our stockholder engagement program. Such discussions are held before the annual meeting, during stockholder voting, and after the annual meeting and include our lead director, chair of the nominating and governance committee, Chair of the Board, and other committee chairs or directors as necessary.

Direct engagement typically involves our largest stockholders representing approximately one-third of our total outstanding shares. We also engage with proxy and other investor advisory firms that represent

the interests of various stockholders. In addition to input on current governance and executive compensation topics specific to Allstate, we invite discussion on any other topics or trends stockholders may wish to share with us. Their input is reported to the nominating and governance committee, which in turn allocates specific issues to relevant Board committees for further consideration. **Each Board committee reviews relevant feedback and determines if additional discussion or actions are necessary by the respective committee or full Board.** In addition, broader investor surveys provide perspective on investor concerns.

Stockholder Engagement Cycle

BOARD ATTENDANCE

Each incumbent director attended at least 75% of the combined Board meetings and meetings of committees of which he or she was a member. Directors are expected to attend Board and committee meetings and the annual meeting of stockholders. All directors who stood for election at the 2017 annual meeting of stockholders attended the annual meeting.

99%

Average attendance of incumbent directors as a group at Board and committee meetings during 2017.

RELATED PERSON TRANSACTIONS

The nominating and governance committee has adopted a written policy on the review, approval, or ratification of transactions with related persons, which is posted on the Corporate Governance section of allstateinvestors.com.

There were no related person transactions identified for 2017.

The committee or committee chair reviews transactions with Allstate in which the amount involved exceeds \$120,000 and in which any related person had, has, or will have a direct or indirect material interest. In general, related persons are directors, executive officers,

their immediate family members, and stockholders beneficially owning more than 5% of our outstanding stock. The committee or committee chair approves or ratifies only those transactions that are in, or not inconsistent with, the best interest of Allstate and its stockholders. Transactions are reviewed and approved or ratified by the committee chair when it is not practicable or desirable to delay review of a transaction until a committee meeting. The committee chair reports any approved transactions to the committee. Any ongoing, previously approved, or ratified related person transactions are reviewed annually.

MANAGEMENT PARTICIPATION IN COMMITTEE MEETINGS

Key members of management regularly attend and participate in Board meetings, presenting on key topics for the Board. Regular attendees include the CEO, Vice Chair, CFO, General Counsel, President of Allstate Personal Lines, President of Allstate Financial, President of Service Businesses, Chief Investment and Corporate Strategy Officer, and Chief Risk Officer. Other senior leaders attend as meeting topics warrant. In addition, senior leadership also participates in committee meetings.

Audit Committee	The CFO, chief audit executive, chief compliance executive, chief risk officer, CEO, vice chair, general counsel and controller all actively participate in meetings. Senior business unit and technology executives, including the chief technology officer, are present when appropriate. Executive sessions of the committee are scheduled and held throughout the year, including sessions in which the committee meets exclusively with the independent registered public accountant, chief audit executive, and chief ethics, compliance and privacy officer.
Compensation and Succession Committee	<p>The executive vice president, human resources, general counsel, CFO and CEO regularly participate in meetings. The committee regularly meets in executive sessions that include just the independent compensation consultant or executive vice president, human resources, when necessary.</p> <ul style="list-style-type: none"> • The senior human resources executive provides the committee with internal and external analyses of the structure of compensation programs. Throughout the year, the estimated and actual results under our incentive compensation plans are reviewed. • The CFO discusses financial results relevant to incentive compensation, other financial measures, and accounting rules. • The CEO advises on the alignment of incentive plan performance measures with strategy and the design of equity incentive awards. He also provides the committee with performance evaluations of senior executives and recommends merit increases and compensation awards. • The general counsel is available at meetings to provide input on the legal and regulatory environment and corporate governance best practices and to ensure the proxy materials accurately reflect the committee's actions. • The chief risk officer reports annually on compensation plan alignment with Board-approved risk and return principles.
Nominating and Governance Committee	The CEO and general counsel participate in meetings. The committee regularly meets in executive session without management present.
Risk and Return Committee	The chief risk officer, CFO, general counsel, CEO, vice chair, chief audit executive, and operating unit risk officers participate in meetings. The committee regularly meets in executive session, including sessions with the chief risk officer.

COMMUNICATION WITH THE BOARD

The Board has established a process to facilitate communication by stockholders and other interested parties with directors as a group. The general counsel reports regularly to the nominating and governance committee on all correspondence received that, in her opinion, involves functions of the Board or its committees or that she otherwise determines merits Board attention.

In addition, the audit committee has established procedures for the receipt, retention, and treatment of any complaints about accounting, internal accounting controls, or auditing matters. The communication process and the methods to communicate with directors are posted on the "Corporate Governance" and "Management & Directors" sections of www.allstateinvestors.com.

The Allstate Board welcomes your input on compensation, governance, and other matters.

CORPORATE SUSTAINABILITY

The Board believes operating sustainably benefits Allstate's many different stakeholders and drives long-term value creation.

Priorities	Recent Progress
Privacy and Information Security 	<p>An integral part of Allstate's commitment to its customers is preventing the loss of their data and ensuring that their data is protected and kept private. Allstate leverages a risk-based approach to implementing its information security program.</p> <ul style="list-style-type: none"> Allstate has established an Information Security Council, which reviews and ensures alignment of the program with regulatory and industry standards. Allstate has a clear privacy policy and requires training and annual compliance confirmation by its employees. Allstate's program maps to the National Institute of Standards and Technology Cybersecurity Framework, and International Organization for Standardization ("ISO") 27001.
Workforce and Diversity 	<p>We manage talent by providing employees with training, interesting work, mentoring, and career development; promoting from within; emphasizing inclusive diversity; retaining existing talent; attracting new employees by offering appropriate employee benefits; and monitoring engagement on annual employee surveys.</p> <ul style="list-style-type: none"> Allstate invests in training opportunities for its employees, and in 2017, employees completed 317,055 courses and 356,971 hours of learning. Allstate strives for a workforce that mirrors the diversity of its customers and communities, and in 2017, 69% of Allstate employees were diverse. In 2017, Allstate retained 86.4% of its employees. In its last annual employee survey, which measures the general health of the work environment, Allstate achieved an engagement score of 83%.
Risk and Climate 	<p>In 2017, Allstate continued its efforts to assess and refine its exposure management, pricing, modeling, and underwriting practices related to climate risks. Some of Allstate's initiatives included:</p> <ul style="list-style-type: none"> Strengthening its catastrophe response and risk management programs through technology such as drone usage, QuickFoto Claim®, and Mobile Claims Centers, which expedited Allstate's catastrophe response. Addressing the risk of loss from catastrophes by continuing to purchase reinsurance for specific states and countrywide for its personal lines property insurance. Active participation in shaping federal legislation for the Write Your Own Flood Insurance Program. Being selective with personal homeowners insurance new business underwritings in certain coastal areas, as well as other deductibles or exclusions where appropriate. Assisting customers in mitigating their carbon footprint through an endorsement that allows customers to replace covered, damaged, or destroyed items with more energy efficient ones.
Community 	<ul style="list-style-type: none"> Allstate Foundation Purple Purse is the longest-running national campaign focused on ending domestic violence through financial empowerment services for survivors. Since 2005, The Allstate Foundation has helped over 1.3 million survivors and invested more than \$60 million to help end domestic violence. Good Starts Young is The Allstate Foundation's program supporting America's youth and it was instrumental in helping over five million youth participate in service-based learning last year. Since 2014, the Allstate Foundation has invested over \$45 million in youth empowerment. Allstate employees and agency force engage in numerous community service programs and volunteered over 258,000 reported hours to over 2,430 local nonprofit organizations in 2017.

Judith A. Sprieser,
Independent Lead Director

“Oversight of risk management and strategy continued to be areas of focus for our Board in 2017, and significant time was devoted to reviewing the risks and opportunities presented by changes in the personal lines insurance industry. Management succession was also an important area of focus, and several senior leadership changes were made in early 2018, demonstrating the effectiveness of our management succession programs. With the addition of two new directors, we believe our Board is well positioned to oversee the long-term sustainability of Allstate’s business.”

Strengthened Role of Independent Committee Chairs

Each of the committee chair roles was enhanced to include the approval of meeting agendas and committee materials. Prior to each meeting, each committee chair has a separate conference call with the CEO and relevant operating executives. The committee chairs discuss meeting materials and agendas in advance of each meeting, which fosters independence and successful execution of each committee’s responsibilities.

Use of Independent Advisors

Each committee operates under a written charter and has the ability to hire third-party advisors. Outside experts such as independent auditors, compensation consultants, governance specialists, cybersecurity experts, board search firm representatives, and financial advisors attend meetings to provide directors with additional information on issues. All committees, other than the executive committee, used independent external consultants in 2017.

NOMINATING AND GOVERNANCE COMMITTEE

Meetings in 2017: 6

Chair: Andrea Redmond

Other Members:

- Kermit R. Crawford
- Jacques P. Perold
- John W. Rowe

- Comprised of lead director, committee chairs and Chair

Director Compensation

DIRECTOR COMPENSATION PROGRAM

The nominating and governance committee reviews non-employee director compensation annually and proposes changes, as appropriate, based on its review, benchmark information from peer companies and relevant compensation surveys. The following table

describes each component of our non-employee director compensation program for 2017. No meeting fees or other professional fees were paid to the directors.

Role	Quarterly Cash Retainer ⁽¹⁾	Equity
Non-Employee Director	\$31,250	The Board believes that a meaningful portion of a director's compensation should be in the form of equity securities to create a linkage with corporate performance and stockholder interests. Directors are granted restricted stock units on June 1 equal in value to \$155,000 divided by the closing price of a share of Allstate common stock on such grant date, rounded to the nearest whole share.
Lead Director	\$12,500	
Audit Committee Chair	\$8,750	
Compensation and Succession Committee Chair and Risk and Return Committee Chair	\$6,250	
Nominating and Governance Committee Chair	\$5,000	

⁽¹⁾ Paid in advance on the first day of January, April, July, and October. The retainer is prorated for a director who joins the Board during a quarter.

DIRECTOR STOCK OWNERSHIP GUIDELINES

Each director is expected, within five years of joining the Board or within five years of an increase in annual retainer, if applicable, to accumulate an ownership position in Allstate common stock equal to five times the annual value of the standard retainer.

Each director has met the ownership guideline, except for Ms. Keane, and Messrs. Mehta, Perold, Sherrill, and Traquina, who joined the Board in the last five years.

2017 DIRECTOR COMPENSATION

The following table summarizes the compensation for each of our non-employee directors who served as a member of the Board and its committees in 2017. Margaret Keane has not been included as she was elected to the Board effective January 1, 2018.

Name	Leadership Roles Held During 2017	Fees Earned or Paid in Cash (\$) ⁽¹⁾	Stock Awards (\$) ⁽²⁾⁽³⁾	All Other Compensation (\$)	Total (\$)
Mr. Crawford		125,000	155,014	–	280,014
Mr. Eskew		125,000	155,014	–	280,014
Mr. Henkel	Retired May 2017	62,500	0	–	62,500
Mr. Mehta	Risk and Return Committee Chair	150,000	155,014	–	305,014
Mr. Perold		125,000	155,014	–	280,014
Ms. Redmond	Nominating and Governance Committee Chair	145,000	155,014	–	300,014
Mr. Rowe	Compensation and Succession Committee Chair	150,000	155,014	–	305,014
Mr. Sherrill		31,250	103,399	–	134,649
Ms. Sprieser	Lead Director	175,000	155,014	–	330,014
Mrs. Taylor	Audit Committee Chair	160,000	155,014	–	315,014
Mr. Traquina		125,000	155,014	–	280,014

⁽¹⁾ Under the 2017 Equity Compensation Plan for Non-Employee Directors, directors may elect to receive Allstate common stock in lieu of cash compensation. In 2017, none of the directors elected to receive stock in lieu of cash. Also, under Allstate's Deferred Compensation Plan for Non-Employee Directors, directors may elect to defer their retainers to an account that is credited or debited, as applicable, based on (a) the fair market value of, and dividends paid on, Allstate common shares (common share units); (b) an average interest rate calculated

on 90-day dealer commercial paper; (c) S&P 500 Index, with dividends reinvested; or (d) a money market fund. No director has voting or investment powers in common share units, which are payable solely in cash. Subject to certain restrictions, amounts deferred under the plan, together with earnings thereon, may be transferred between accounts and are distributed after the director leaves the Board in a lump sum or over a period not in excess of ten years in accordance with the director's instructions. For 2017, Messrs. Eskew and Traquina elected to defer their cash retainer into common share units.

- (2) Grant date fair value for restricted stock units granted in 2017 is based on the final closing price of Allstate common stock on the grant dates, which in part also reflects the payment of expected future dividend equivalent rights. (See note 18 to our audited financial statements for 2017.) Mr. Sherrill received a prorated award when he joined the Board in 2017. The final grant date closing price was \$86.94, except with respect to the prorated award granted to Mr. Sherrill, which was \$91.91. The values were computed in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718. Each restricted stock unit entitles the director to receive one share of Allstate common stock on the conversion date (see footnote 3).
- (3) The following table provides outstanding restricted stock units and stock options as of December 31, 2017, for each director.

Outstanding Awards at Fiscal Year-End 2017

Name	Restricted Stock Units (#)	Stock Options (#)
Mr. Crawford	13,066	0
Mr. Eskew	8,405	0
Mr. Henkel	0	0
Mr. Mehta	9,544	0
Mr. Perold	5,190	0
Ms. Redmond	28,538	0
Mr. Rowe	17,687	0
Mr. Sherrill	1,125	0
Ms. Sprieser	42,196	0
Mrs. Taylor	42,196	4,000
Mr. Traquina	3,749	0

Restricted stock unit awards granted before September 15, 2008, convert into common stock one year after termination of Board service. Restricted stock unit awards granted on or after September 15, 2008, and before June 1, 2016, convert into common stock upon termination of Board service. Restricted stock units granted on or after June 1, 2016, convert into common stock on the earlier of the third anniversary of the date of grant or upon termination of Board service. Directors had the option to defer the conversion of the restricted stock units granted on June 1, 2016, for ten years from the date of grant or the later of termination of Board service or June 1, 2024. The conversion of restricted stock units granted after June 1, 2016, may be deferred for ten years or until termination of Board service. In addition to the conversion periods described above, restricted stock units will convert upon death or disability. Each restricted stock unit includes a dividend equivalent right that entitles the director to receive a payment equal to regular cash dividends paid on Allstate common stock. Under the terms of the restricted stock unit awards, directors have only the rights of general unsecured creditors of Allstate and no rights as stockholders until delivery of the underlying shares.

Non-employee directors do not receive stock options as part of their compensation as a result of a policy change effective on June 1, 2009. All outstanding stock options were exercisable as of December 31, 2017.

All outstanding options were awarded under the terms of the 2006 Equity Compensation Plan for Non-Employee Directors, which specifies that the exercise price for the option awards is equal to the fair market value of Allstate common stock on the grant date. The fair market value is equal to the closing sale price on the date of the grant. If there was no such sale on the grant date, then on the last previous day on which there was a sale. The options became exercisable in three substantially equal annual installments and expire ten years after grant. Stock option repricing is not permitted. An outstanding stock option will not be amended to reduce the option exercise price. However, the plan permits repricing in the event of an equity restructuring (such as a split) or a change in corporate capitalization (such as a merger).

EXECUTIVE COMPENSATION

PROPOSAL

Say-on-Pay: Advisory Vote on the Compensation of the Named Executives

2

✓ The Board recommends a vote **FOR** this proposal.

- Independent oversight by compensation and succession committee with the assistance of an independent consultant.
- Executive compensation targeted at 50th percentile of peers and aligned with short- and long-term business goals and strategy.
- Compensation programs are working effectively. Annual incentive compensation funding for our named executives in 2017 was 181.4% of target, from 55.1% of target in the prior year, reflecting significant improvement in operating results.
- Compensation compares favorably to Total Shareholder Return.

We conduct a say-on-pay vote every year at the annual meeting. While the vote is non-binding, the Board and the compensation and succession committee (the “committee” as referenced throughout the Compensation Discussion and Analysis and Executive Compensation sections) consider the results as part of their annual evaluation of our executive compensation program.

You may vote to approve or not approve the following advisory resolution on the executive compensation of the named executives:

RESOLVED, on an advisory basis, the stockholders of The Allstate Corporation approve the compensation of the named executives, as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis and accompanying tables and narrative on pages 31-67 of the Notice of 2018 Annual Meeting and Proxy Statement.

- ✓ Allstate achieved all five 2017 operating priorities, and financial results improved, with net income rising to \$3.07 billion in 2017 from \$1.76 billion in the prior year.
- ✓ Total shareholder return was 43.3% for 2017 in comparison to 19.1% for the compensation peer group.
- ✓ Total 2017 compensation for the CEO increased from 2016 by \$4,830,432 to \$17,069,187 excluding the change in pension value, as shown in the Summary Compensation Table.
- ✓ The annual incentive compensation plan was funded for the named executives at 181.4% of target in 2017. Based on company and individual performance, the named executives received the following annual incentive payments, which were higher than the prior two years’ awards:

Named Executive	2015 Annual Incentive (\$)	2016 Annual Incentive (\$)	2017 Annual Incentive (\$)
Mr. Wilson	2,888,136	1,982,880	6,759,264
Mr. Shebik	850,000	600,000	2,600,000
Mr. Civgin	768,629	535,066	1,806,645
Mr. Dugenske ⁽¹⁾	–	–	1,377,908
Mr. Winter	1,600,000	1,017,513	3,625,590

⁽¹⁾ For Mr. Dugenske, only the last fiscal year is shown since this is the first year he is a named executive. The award was pro-rated based on his March 2017 start date.

Compensation Discussion and Analysis

EXECUTIVE OVERVIEW

Our Compensation Discussion and Analysis describes Allstate's executive compensation program, including total 2017 compensation for our named executives listed below⁽¹⁾:

⁽¹⁾ The titles and responsibilities for certain of these officers changed in 2018. Additionally, Mr. Winter retired effective February 23, 2018. See Appendix C for current titles and a list of Allstate's other executive officers.

Business Highlights

In 2017, Allstate delivered strong results and implemented multiple initiatives to drive long-term profitable growth. Our management team continued to advance all five operating priorities:

\$1.9 billion

Distributed to stockholders in cash through stock repurchases and common stock dividends

Operating Priorities	Results
Better serve our customers	<ul style="list-style-type: none"> Net Promoter Score increased. Customer retention improved for Allstate brand in the second half of 2017, and Esurance auto insurance improved in each quarter of 2017 compared to 2016. Expanded QuickFoto Claim® utilization.
Achieve target economic returns on capital	<ul style="list-style-type: none"> Property-Liability recorded combined ratio of 93.6 for the full year. <ul style="list-style-type: none"> Auto insurance underlying combined ratio* improved across all three underwritten brands. Allstate brand homeowners insurance generated an underwriting profit of \$725 million despite \$2.1 billion of catastrophe losses. Allstate Annuities income increased significantly, while returns remained low.
Grow customer base	<ul style="list-style-type: none"> Total policies in force increased to 82.3 million, due to acquisition of SquareTrade. Property-Liability policies in force declined as a result of profit improvement actions. SquareTrade policies grew 10 million or 35.8% for the year. Allstate Benefits policy growth of 7.4%.
Proactively manage investments	<ul style="list-style-type: none"> Total return of 5.9%, reflecting strong results from both the market-based and performance-based strategies.
Build long-term growth platforms	<ul style="list-style-type: none"> SquareTrade expanded U.S. retail distribution and European cellphone protection. Arity continued to support Allstate and Esurance telematics expansion; signed first third-party insurance carrier.

* Measures used in this proxy statement that are not based on generally accepted accounting principles ("non-GAAP") are denoted with an asterisk (*). These measures are defined and reconciled to the most directly comparable GAAP measures in Appendix A.

Allstate's one-year total shareholder return was 43.3%. The following chart shows Allstate's total shareholder return over one, three and five years relative to the market cap weighted average of the peer group used for 2017 compensation benchmarking (identified on page 45).

2017 COMPENSATION MIX

The committee designs the executive compensation program to award pay in accordance with corporate, business unit and individual performance. A large percentage of total target compensation is at

risk through long-term equity awards and annual cash incentive awards. These awards are linked to performance measures that correlate with long-term stockholder value creation. The mix of target total direct compensation for 2017 for our CEO and the average of our other named executives is shown in the chart below.

ALLSTATE'S EXECUTIVE COMPENSATION PRINCIPLES

Allstate's executive compensation program is designed to ensure that the interests of our executives are aligned with our shareholders:

We Pay for Performance

The majority of our CEO and other NEOs compensation opportunity is at-risk and based on measurable performance goals.

We Establish A Strong Link between Performance Measures and Strategic Objectives

Performance measures are linked to operating priorities designed to create long-term stockholder value.

Moreover, our program adheres to high standards of compensation governance.

COMPENSATION ELEMENTS

The following table lists the elements of target direct compensation for our 2017 executive compensation program.

Type		Element and Delivery ⁽¹⁾	Why We Pay This Element	Key Characteristics	How We Determine Amount
Short-Term	Fixed	Base Salary; Cash 	Attract and retain executives with competitive level of cash compensation.	Reviewed annually and adjusted when appropriate.	Amounts based on experience, job scope, market data, and individual performance.
		Annual Cash Incentive Awards; Cash 	Motivate and reward executives for performance on key strategic, operational, and financial measures during the year.	A corporate-wide funding pool based on performance on four measures: <ul style="list-style-type: none"> • Performance Net Income⁽²⁾ • Total Premiums⁽²⁾ • Net Investment Income⁽²⁾ • Total Return⁽²⁾ Pool is then allocated based on individual performance.	Individual awards are based on job scope, market data, pool funding, and individual performance.
Long-Term ⁽³⁾	Variable	Performance Stock Awards ("PSAs"); Equity 	Motivate and reward executives for performance on key long-term measures. Align the interests of executives with long-term stockholder value. Retain executive talent.	PSAs vest on the day before the third anniversary of the grant date.	Awards based on job scope, market data, and individual performance. Actual amounts of PSAs vesting based on performance on three-year Performance Net Income Return on Equity ⁽²⁾ and Earned Book Value ⁽²⁾ with a requirement of positive Net Income for any payout above target.
		Stock Options; Equity 	Align the interests of executives with long-term stockholder value. Retain executive talent.	Non-qualified stock options to purchase shares at the market price when awarded. Vest ratably over three years. Expire in ten years or, in the event of retirement, the earlier of five years or normal expiration.	Awards granted based on job scope, market data, and individual performance.

⁽¹⁾ Represents the average of the target direct compensation elements for all of the named executives in 2017.

⁽²⁾ For a description of how these measures are determined, see pages 64-66.

⁽³⁾ The compensation and succession committee may award cash and/or restricted stock units in connection with the hire of a new executive. Awards are typically to cover compensation amounts forfeited at prior employer.

COMPENSATION DECISIONS FOR 2017

THOMAS J. WILSONChair and Chief Executive Officer⁽¹⁾**Key Responsibilities**

Our Chair and CEO was responsible for managing the company's business operations and the oversight of senior management. He led the execution of Allstate's overall strategic direction, performance, and operations.

2017 Compensation (millions)**2017 Performance**

Mr. Wilson's total compensation and the amount of each compensation element are driven by the design of our compensation program, his experience, his responsibility for Allstate's overall strategic direction, performance and operations, and the committee's analysis of peer company CEO compensation. In conjunction with the committee's independent compensation consultant, the committee conducts an annual review of Mr. Wilson's total target direct compensation and determines if any changes are warranted.

Mr. Wilson's performance as Chair and CEO is evaluated under the following categories, which are determined by the committee: operating results, total shareholder return, developing and implementing long-term strategy, maintaining and motivating a high-performance team, corporate stewardship and Board effectiveness. Performance is assessed over one- and three-year time periods.

- **Operating Results.** Achieved all five 2017 operating priorities.
- **Total Shareholder Returns.** Strong shareholder returns over one, three, and five years.
- **Long-term Strategy.** Improved competitive position of existing businesses and building or acquiring new long-term growth platforms.
- **High-Performance Team.** Extremely competent, highly engaged team that had excellent operating performance.
- **Board Effectiveness.** Excellent governance processes, Board diversity, and shareholder engagement.

Compensation Decisions

During the 2017 annual review, the committee determined that Mr. Wilson's target direct compensation was appropriately aligned with the median of the compensation peer group. Furthermore, Mr. Wilson's annual cash incentive target of 300% of salary and long-term equity incentive target of 750% of salary remained unchanged.

- **Salary.** In 2017, the Board increased Mr. Wilson's salary from \$1,200,000 to \$1,250,000. Mr. Wilson's last salary increase was in March 2015.
- **Annual Cash Incentive Award.** Mr. Wilson's target annual incentive payment of 300% of base salary with a maximum funding opportunity for the award pool of 200% of target was unchanged in 2017. The committee approved an annual cash incentive award of \$6,759,264, which was 181.4% of target and equal to the funding level as determined by the actual results for the four performance measures. This was 67.6% of the maximum payment established by the Board.
- **Equity Incentive Awards.** In February 2017, based on its assessment of Mr. Wilson's performance in delivering strong business results in 2016, the committee granted him equity awards of stock options with a grant date fair value of \$3,599,997 and performance stock awards with a grant date fair value of \$5,400,039, which was Mr. Wilson's target equity incentive award opportunity of 750% of salary.
- **Other.** The change in pension value for Mr. Wilson in 2017 of \$1,688,142 was \$2,599,785 lower than the change would have been had management not recommended a change in pension benefits beginning in 2014, as discussed on page 46. The total value of Mr. Wilson's pension benefit as of December 31, 2017, is \$16,043,029 less than it would have been without the 2014 pension change.

⁽¹⁾ Served in these roles during 2017.

STEVEN E. SHEBIK

Executive Vice President and Chief Financial Officer⁽¹⁾

Key Responsibilities

Our CFO had primary responsibility for the management of the company's overall financial condition, as well as for financial analysis and reporting. Mr. Shebik served as interim Chief Investment Officer until Mr. Dugenske joined the company in March 2017. Mr. Shebik also served as interim Chief Risk Officer until the election of Mr. Merten in December 2017.

2017 Compensation (millions)

2017 Performance

- Exceptional performance as Chief Financial Officer and acted as an interim Chief Investment Officer and Chief Risk Officer.

Compensation Decisions

- **Salary.** The committee approved an increase from \$750,000 to \$800,000 during 2017, based on an evaluation of his performance, level of responsibility, and target compensation as compared to the peer group.
- **Incentive Targets.** Mr. Shebik's AIP Target was increased during 2017. Mr. Shebik's annual incentive target was 175% of salary and his target equity incentive opportunity was 300% of salary.
- **Annual Cash Incentive Award.** The committee approved an annual cash incentive award of \$2,600,000 for Mr. Shebik. This award was slightly above pool funding based on his expanded responsibilities in 2017. This was 36.8% of the maximum payment established by the committee.
- **Equity Incentive Awards.** In February 2017, based on a review of Mr. Shebik's performance during 2016, the committee granted him equity awards with a grant date fair value of \$3,325,020, which was approximately \$1,000,000 above his target equity incentive award opportunity.

DON CIVGIN

President, Emerging Businesses⁽¹⁾

Key Responsibilities

Mr. Civgin oversaw Allstate Emerging Businesses including Allstate Dealer Services, Allstate Roadside Services, Answer Financial, Arity, and SquareTrade. Mr. Civgin also oversaw Esurance.

2017 Compensation (millions)

2017 Performance

- Significant improvement in Esurance profitability, continued building Arity strategy and business capabilities, and strong growth of SquareTrade.

Compensation Decisions

- **Salary.** The committee approved an increase from \$780,000 to \$800,000 during 2017, based on an evaluation of his performance, level of responsibility, and target compensation as compared to the peer group.
- **Incentive Targets.** No changes were made to Mr. Civgin's incentive targets during 2017. Mr. Civgin's annual incentive target was 125% of salary and his target equity incentive opportunity was 300% of salary.
- **Annual Cash Incentive Award.** The committee approved an annual cash incentive award of \$1,806,645 for Mr. Civgin, which was at the calculated pool funding and 25.6% of the maximum payment established by the committee.
- **Equity Incentive Awards.** In February 2017, based on a review of Mr. Civgin's performance during 2016, the committee granted him equity awards with a grant date fair value of \$2,340,028, which is aligned with his target equity incentive award opportunity.

⁽¹⁾ Served in this role during 2017.

JOHN E. DUGENSKÉ**Executive Vice President and Chief Investment Officer⁽¹⁾****Key Responsibilities**

Mr. Dugenske was Executive Vice President and Chief Investment Officer of Allstate Insurance Company and President of Allstate Investments. He oversaw the company's \$83 billion investment portfolio.

2017 Compensation (millions)**2017 Performance**

- Strong investment results with a total return of 5.9%, which exceeded relevant benchmarks.

Compensation Decisions

- **Salary.** \$725,000
- **Bonus.** Mr. Dugenske received a sign-on bonus of \$4,000,000 payable in cash in two installments to offset the value of awards forfeited upon leaving his prior employer. The first installment of \$2,000,000 became payable within sixty days of his start date, with the balance of \$2,000,000 becoming payable within thirty days after the first anniversary of his start date. In order to receive the second installment, Mr. Dugenske must be employed by Allstate on the date the installment becomes payable. If Mr. Dugenske terminates his employment within twenty-four months of either sign-on payment date, he must repay a prorated amount calculated over a twenty-four month period from the payment date.
- **Incentive Targets.** Mr. Dugenske's annual incentive target was 125% of salary and his target equity incentive opportunity was 300% of salary.
- **Annual Cash Incentive Award.** The committee approved an annual cash incentive award of \$1,377,908 for Mr. Dugenske. The award was pro-rated based on his March 2017 start date. The award was calculated at pool funding and 19.5% of the maximum payment establishment by the committee.
- **Equity Incentive Awards.** Mr. Dugenske received a \$4,000,002 grant of restricted stock units on April 5, 2017, to offset the value of awards forfeited upon leaving his prior employer. These RSUs will become 100% vested on April 4, 2020. The committee also granted Mr. Dugenske equity awards with a grant date fair value of \$2,175,017, which is aligned with his target equity incentive award opportunity.

MATTHEW E. WINTER**President⁽¹⁾****Key Responsibilities**

Mr. Winter was President of The Allstate Corporation and Chief Executive Officer of Allstate Life Insurance Company. He led the personal property-liability businesses, including the Allstate agency and Encompass operations. He was responsible for all business operations and distribution, which includes the 15 field offices located across the United States and in Canada. Mr. Winter retired effective February 23, 2018.

2017 Compensation (millions)**2017 Performance**

- Significant improvement in auto insurance margins, implementation of Allstate Agency trusted advisor initiative, and meaningful contributions to corporate-wide initiatives.

Compensation Decisions

- **Salary.** The committee approved an increase from \$825,000 to \$900,000 during 2017, based on an evaluation of his performance, level of responsibility, and target compensation as compared to the peer group.
- **Incentive Targets.** No changes were made to Mr. Winter's incentive targets during 2017. Mr. Winter's annual incentive target was 225% of salary and his target equity incentive opportunity was 375% of salary.
- **Annual Cash Incentive Award.** The committee approved an annual cash incentive award of \$3,625,590 for Mr. Winter, which was at calculated pool funding and 38.5% of the maximum payment established by the committee.
- **Equity Incentive Awards.** In February 2017, based on a review of Mr. Winter's performance during 2016, the committee granted him equity awards with a grant date fair value of \$3,093,772, which is aligned with his target equity incentive award opportunity.

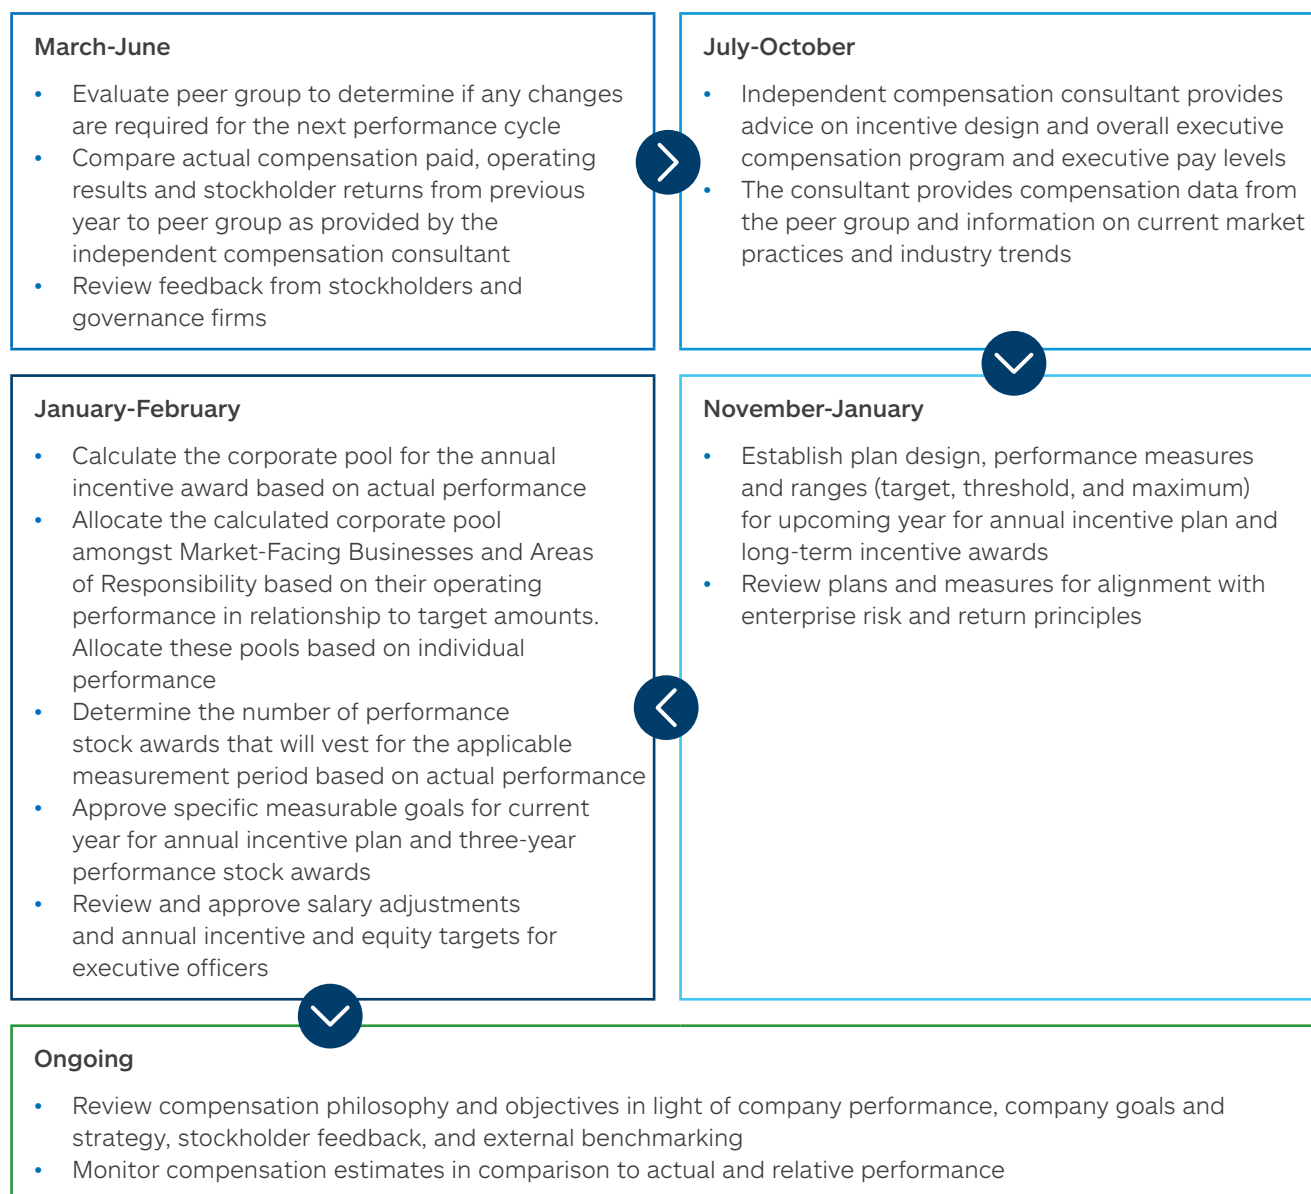

⁽¹⁾ Served in this role during 2017.

INCENTIVE DESIGN AND GOAL SETTING

For the annual and long-term incentive programs, the committee oversees a rigorous and comprehensive goal-setting process. The committee works to identify performance measures and ranges of performance in the annual and long-term programs that (1) align

with the company's strategy, operating principles and priorities, and stockholder interests, (2) support the achievement of corporate goals, and (3) reflect the company's overall performance. The following timeline of key events reflects the committee's process:

Incentive Design, Payout, and Goal-Setting Process

Salary

- In setting executive salary levels, the committee uses the 50th percentile of total target direct compensation of our peer companies as a guideline, which supports Allstate's ability to compete effectively for and to retain executive talent. Annual merit increases for named executives are based on evaluations of their performance, using the enterprise-wide merit increase budget as a guideline.

Annual Cash Incentive Awards

- The committee sets performance measure goals based on the operating plan. Target performance is equal to the operating plan. Threshold and maximum measures are based on a range of sensitivities relative to the operating plan. To further test the appropriateness of the ranges, the committee's independent consultant provides advice based on peer performance, market expectations and industry trends. The chief risk officer reviews the performance measures and ranges to ensure they are consistent with Allstate's risk and return principles.
- Actual performance on the performance measures determines the overall funding level of the corporate pool and the aggregate total award budget for eligible employees. In 2017, the pool was funded based on the collective results of four measures: Performance Net Income, Total Premiums, Net Investment Income, and Total Return. Funding for each measure is equal to 0% below threshold, 50% at threshold, 100% at target and 200% at maximum, and results between threshold, target and maximum are subject to interpolation.
- In the event of a net loss, the corporate pool funding is reduced by 50% of actual performance for senior executives. For example, if performance measures ordinarily would fund the corporate pool at 60% and there was a net loss, then the corporate pool would be funded at 30% for senior executives. This mechanism ensures alignment of pay and performance in the event of a natural catastrophe or extreme financial market conditions.
- Target annual incentive percentages for each named executive are based on market data pay levels of peer companies and our benchmark target for total direct compensation at the 50th percentile.
- Individual awards are based on job scope, market data, pool funding, and individual performance.
- Allstate has established the maximum awards that could be paid to any of the named executives as the lesser of the stockholder approved maximum of \$10 million under the Annual Executive Incentive Plan or a percentage of an award pool, which we refer to herein as the "162(m) Pool." For 2017, the 162(m) Pool is equal to 1.0% of Performance Net Income (defined on pages 64-65), and the percentage of the award pool for Mr. Wilson is 35%, Mr. Winter, 20%, and for each other named executive, 15%. Allstate established these maximums in order to qualify annual cash incentive awards for 2017 as deductible performance-based awards under Internal Revenue Code Section 162(m) as was in effect prior to the passage of the Tax Cuts and Jobs Act (the "Tax Legislation"). Under the Tax Legislation, the exemption for deductibility of performance-based compensation under Internal Revenue Code Section 162(m) has generally been eliminated for fiscal years beginning after December 31, 2017. The committee retains complete discretion to pay less than the maximums established by the Annual Executive Incentive Plan and the award pool.

- We paid the 2017 cash incentive awards in March 2018. The following table shows how the corporate pool was funded and distributed to individual participants:

Committee's compensation recommendations for the CEO are reviewed and approved by the independent directors of our Board in executive session. 4. Committee reviews and approves CEO recommendations for executive officers based on individual performance. 5. Individual awards for other employees are determined by senior leaders of Market-Facing Businesses and Areas of Responsibility and are subject to approval by CEO – senior leaders are tasked to ensure high-performing participants earn awards (as a percent of funding) that are at least 2.0 times the awards earned by lower-performing participants for the annual incentive plan. The same level of discretion is targeted for equity components of compensation.

⁽¹⁾ The committee has discretion to determine the amount of the awards paid from the corporate pool to the named executives. For treatment of catastrophe losses and performance-based long-term income in the funding calculation, see discussion of performance measures on pages 64-67.

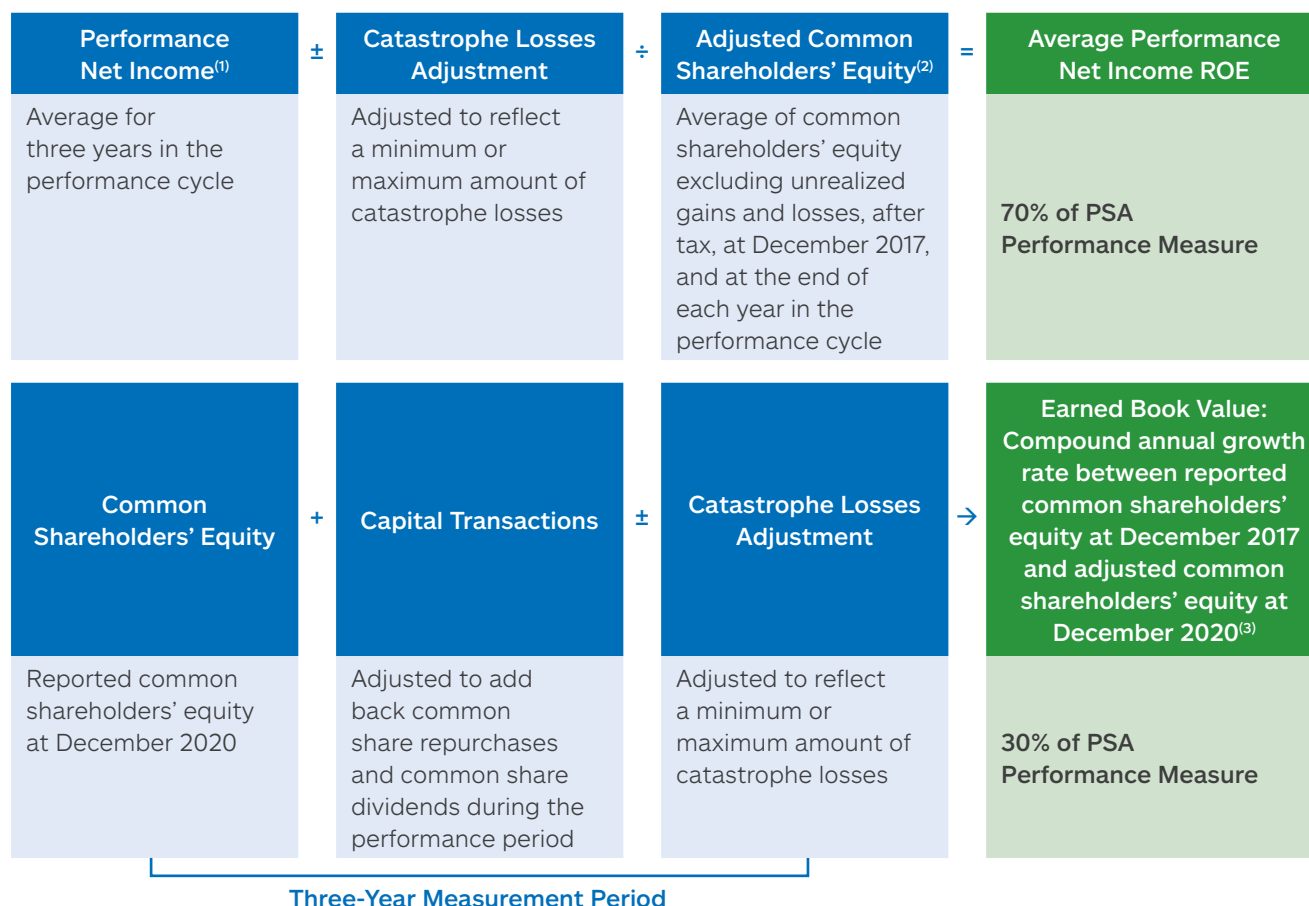

Performance Stock Awards and Stock Options

- We grant equity awards annually to executives consistent with market practice and our philosophy that a significant amount of compensation should be in the form of equity. Additionally, from time to time, equity awards are granted to attract new executives and to retain existing executives.
- Since 2016, the mix of equity incentives for senior executives has been 60% PSAs and 40%

stock options. We believe both PSAs and stock options are forms of performance-based incentive compensation because PSAs are earned based on achieving established performance goals and stock options require stock price appreciation to deliver value to an executive. The PSAs vest based on results for Performance Net Income ROE (70%) and Earned Book Value (30%) over the three-year measurement period. The actual number of PSAs vesting is between 0% to 200% of target number of PSAs granted.

- The committee selected Performance Net Income ROE as a performance measure because it:
 - Measures performance in a way that is tracked and understood by investors.
 - Captures both income and balance sheet impacts, including capital management actions.
 - Provides a useful gauge of overall performance while limiting the effects of factors management cannot influence, such as extreme weather conditions.
 - Correlates to changes in long-term stockholder value.
- Earned Book Value was selected to create greater alignment with the increase in performance-based assets in the investment portfolio.
- Both measures are further described on pages 64-67. For both measures, the committee considered historical and expected performance, market expectations and industry trends when approving the range of performance.
- For awards granted in 2015, the number of PSAs that vested depended on the three-year Average Performance Net Income ROE. Performance Net Income ROE for 2015 is defined on pages 64-67.
- For all PSA awards, Performance Net Income and Earned Book Value include a minimum or maximum amount of after-tax catastrophe losses if actual catastrophe losses are less than or exceed those amounts, respectively, which serves to decrease volatility and stabilize the measure.
- The committee requires positive net income in order for our executives to earn PSAs based on Performance Net Income ROE above target. If Allstate has a net loss in a measurement period, the number of PSAs vested would not exceed target, regardless of the Performance Net Income ROE. This positive Net Income hurdle is included to prevent misalignment between Allstate reported net income and the PSAs vested based on the Performance Net Income ROE result. This situation could occur if, for example, catastrophe losses or capital losses that are not included in Performance Net Income ROE caused Allstate to report a net loss for the period.
- At the end of each measurement period, the committee certifies the level of our Performance Net Income ROE and Earned Book Value achievement. PSAs will vest following the end of the three-year performance cycle if the performance conditions are met, subject to continued employment (other than in the event of death, disability, retirement, or a qualifying termination following a change in control).

For the 2018-2020 award, the Average Performance Net Income ROE and Earned Book Value measures are calculated, respectively, as follows:

⁽¹⁾ Performance Net Income for the 2018-2020 PSA award is defined on pages 64-67.

⁽²⁾ Adjusted Common Shareholders' Equity for the 2018-2020 PSA award is defined on page 66.

⁽³⁾ Earned Book Value is defined on pages 66-67.

Equity Ownership Requirements

Instituted in 1996, stock ownership guidelines require each of the named executives to own Allstate common stock worth a multiple of base salary to link management and stockholders' interests. The following chart shows the salary multiple guidelines and the equity holdings that count toward the requirement.

The current stock ownership guidelines apply to 94 of our senior executives and other officers as of December 31, 2017, and require these executives to hold 75% of net shares received as a result of equity compensation awards until their salary multiple guidelines are met.

Stock Ownership as Multiple of Base Salary as of December 31, 2017

Mr. Wilson	6	49	60
Mr. Shebik	3	13	8
Mr. Civgin	3	15	5
Mr. Dugenske	3	7	0
Mr. Winter	3	16	8

What Counts Toward the Guideline

- Allstate shares owned personally and beneficially
- Shares held in the Allstate 401(k) Savings Plan
- Unvested restricted stock units

What Does Not Count Toward the Guideline

- Unexercised stock options
- Unvested performance stock awards

Retention Requirements

Allstate no longer utilizes additional equity holding requirements for any equity awards outstanding. Allstate previously required, regardless of stock ownership level, senior executives to retain 75% of net shares received as a result of equity compensation awards for one year. After benchmarking peers and reviewing leading practices, it was determined that the additional equity holding requirements are not aligned with the market, and are a minority practice.

Policies on Hedging and Pledging Securities

We have a policy that prohibits all officers, directors, and employees from engaging in transactions in securities issued by Allstate or any of its subsidiaries that might be considered speculative or hedging, such as selling short or buying or selling options. We also have a policy that prohibits senior executives and directors from pledging Allstate securities as collateral for a loan or holding such securities in a margin account, unless an exception is granted by the Chair or lead director.

Timing of Equity Awards and Grant Practices

Typically, the committee approves grants of equity awards during a meeting in the first fiscal quarter. The timing allows the committee to align awards with our annual performance and business goals.

Throughout the year, the committee may grant equity incentive awards to newly hired or promoted executives or to retain or recognize executives. The grant date for these awards was fixed as the third business day of a month following the later of committee action or the date of hire or promotion, or for recognition grants, such other date specified by the committee.

For additional information on the committee's practices, see portions of the Board Leadership Structure and Practices section of this proxy statement on pages 21-22, and 24.

Peer Benchmarking

The committee monitors performance toward goals throughout the year and reviews the executive compensation program design and executive pay levels annually. As part of that evaluation, Compensation Advisory Partners, the committee's independent compensation consultant, provided executive compensation data, information on current market practices, and alternatives to consider when determining compensation for our named executives. The committee benchmarks executive compensation program design, executive pay, and performance against a group of peer companies that are publicly

traded. Product mix, market segment, annual revenues, premiums, assets, and market value were considered when identifying peer companies. The committee believes Allstate competes against these companies for executive talent, business and stockholder investment. The committee reviews the composition of the peer group annually with the assistance of its compensation consultant. In 2017, the committee made one change to the peer group. CNA Financial Corporation is now included in the peer group for 2017 compensation benchmarking. The following table reflects the peer group used for 2017 compensation benchmarking. No changes were made to the peer group for 2018.

⁽¹⁾ Information as of year-end 2017.

In its executive pay discussions, the committee also reviewed compensation information for 19 general industry companies in the S&P 100 with fiscal year 2016 revenues between \$16 billion and \$56 billion. The committee uses compensation surveys for certain executives that provide information on companies of similar size and business mix as Allstate, as well as companies with a broader market context.

The committee uses the 50th percentile of our peer group as a guideline in setting the target total direct compensation of our named executives. Within the guideline, the committee balances the various elements of compensation based on individual experience, job scope and responsibilities, performance, and market practices.

Other Elements of Compensation

To remain competitive with other employers and to attract, retain, and motivate highly talented executives and other employees, we offer the benefits listed in the following table.

Benefit or Perquisite	Named Executives	Other Officers and Certain Managers	All Full-time and Regular Part-time Employees

⁽¹⁾ Allstate contributed \$0.80 for every dollar of matchable pre-tax or Roth 401(k) deposits made in 2017 (up to 5% of eligible pay).

⁽²⁾ Including medical, dental, vision, life, accidental death and dismemberment, long-term disability, and group legal insurance. For named executives and other senior officers, Allstate offers an executive physical program.

⁽³⁾ All officers are eligible for tax preparation services. Financial planning services were provided only to senior executives.

⁽⁴⁾ The Board encourages the CEO to use our corporate aircraft when it improves his efficiency in managing the company, even if it is for personal purposes. Personal usage is counted as taxable compensation. The committee also approved the President's usage of corporate aircraft for personal use up to 40 hours annually. In limited circumstances approved by the CEO, other senior executives are permitted to use our corporate aircraft for personal purposes. Ground transportation is available to senior executives. Mobile devices are available to senior executives, other officers, and certain managers and employees depending on their job responsibilities.

⁽⁵⁾ Tickets to Allstate-sponsored events or the Allstate Arena are offered as recognition for service.

Retirement Benefits

Each named executive participates in two different defined benefit pension plans. The Allstate Retirement Plan (ARP) is a tax qualified defined benefit pension plan available to all of our regular full-time and regular part-time employees who meet certain age and service requirements. The ARP provides an assured retirement income based on an employee's level of compensation and length of service at no cost to the employee. As the ARP is a tax qualified plan, federal tax law limits (1) the amount of an individual's compensation that can be used to calculate plan benefits and (2) the total amount of benefits payable to a plan participant on an annual basis. For certain employees, these limits may result in a lower benefit under the ARP than would have been payable otherwise. Therefore, the Supplemental Retirement Income Plan (SRIP) is used to provide ARP-eligible employees whose compensation or benefit amount exceeds the federal limits with an additional defined benefit in an amount equal to what would have been payable under the ARP if the federal limits did not exist. Effective January 1, 2014, Allstate modified its defined benefit pension plans so that all eligible employees earn future pension benefits under a new cash balance formula.

Change-in-Control and Post-Termination Benefits

Consistent with our compensation objectives, we offer these benefits to attract, motivate, and retain executives. A change in control of Allstate could have a disruptive impact on both Allstate and our executives. Change-in-control benefits and post-termination benefits are designed to mitigate that impact and to maintain alignment between the interests of our executives and our stockholders.

The following summarizes Allstate's change-in-control benefits for the executive officers:

- The change-in-control severance plan (CIC Plan) does not include excise tax gross ups or a lump sum cash pension enhancement.
- For the CEO, the amount of cash severance payable is three times the sum of base salary and target annual incentive. For the other executive officers, the amount of cash severance payable is two times the sum of base salary and target annual incentive.

- In order to receive the cash severance benefits under the CIC Plan, a participant must have been terminated (other than for cause, death, or disability) or the participant must have terminated employment for good reason (such as adverse changes in the terms or conditions of employment, including a material reduction in base compensation, a material change in authority, duties, or responsibilities, or a material change in job location) within two years following a change in control.
- Long-term equity incentive awards vest on an accelerated basis due to a change in control only if the participant has been terminated (other than for cause, death, or disability) or the participant terminated employment for good reason (as defined above) within two years following a change in control.

The change-in-control and post-termination arrangements that are described in the *Potential Payments as a Result of Termination or Change in Control* section on pages 60-62 are not provided exclusively to the named executives. A larger group of management employees is eligible to receive many of the post-termination benefits described in that section.

Clawback of Compensation

Awards made to executive officers after May 19, 2009, under short- and long-term incentive compensation plans, are subject to clawback in the event of certain financial restatements. Annual cash incentive and equity awards granted after May 19, 2009, are also subject to cancellation or recovery in certain circumstances if the recipient violates non-solicitation covenants. Equity awards granted after February 21, 2012, are subject to cancellation in certain circumstances if the recipient violates non-competition covenants.

Impact of Tax Considerations on Compensation

In 2017, we were able to take a tax deduction of no more than \$1 million per executive for compensation paid in any year to our CEO and the three other most highly compensated executives, excluding any individual that served as CFO during the year, as of the last day of the fiscal year in which the compensation

is otherwise deductible, unless the compensation met specific standards. Under Internal Revenue Code Section 162(m) as in effect before the passage of the Tax Legislation, we were able to deduct more than \$1 million in compensation if the compensation was performance-based and paid under a plan that met certain requirements. The committee considered the impact of this Internal Revenue Code rule in developing, implementing, and administering our compensation programs for 2017. Under the Tax Legislation, the exemption for deductibility of performance-based compensation under Internal Revenue Code Section 162(m) has generally been eliminated for fiscal years beginning after December 31, 2017. The committee has and will continue to consider the deductibility of compensation, including in light of the revisions to Internal Revenue Code Section 162(m). However, the committee balances this consideration with our primary goals of structuring compensation programs to attract, motivate and retain executives and ensuring that pay aligns with performance. In light of this balance and the need to maintain flexibility in administering compensation programs, the committee may authorize compensation in any year that exceeds \$1 million for which we may not be able to recognize a tax deduction.

Earned Annual Cash Incentive Awards

In 2017, the total corporate pool was based on four measures: Performance Net Income, Total Premiums, Net Investment Income, and Total Return. The 2017 annual incentive plan targets for Net Investment Income and Total Return were both lower than actual 2016 performance to reflect the business and market conditions in the operating plan. Modest adjustments were made to the range between threshold and maximum for each of the performance measures in alignment with the operating plan and the probability of achieving the results.

The 2018 annual incentive plan targets are not included since those targets do not relate to 2017 pay, and because target performance is set at the 2018 operating plan, which is proprietary information.

For a description of how the 2017 measures are determined, see pages 64-66. The ranges of performance and 2017 actual results are shown in the following table.

2017 Annual Cash Incentive Award Ranges of Performance

⁽¹⁾ Mr. Dugenske received a sign-on bonus in connection with the commencement of his employment on March 1, 2017. The cash bonus is payable in two installments. The first installment was paid within sixty days of his start date, and the second installment will be paid within thirty days after the first anniversary of his start date.

⁽²⁾ Mr. Dugenske received a sign-on grant of restricted stock units on April 5, 2017. These RSUs will become 100% vested on April 4, 2020.

⁽³⁾ The aggregate grant date fair value of PSAs granted in 2017, 2016, and 2015, and the RSUs granted in 2017 to Mr. Dugenske, is computed in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 718 (ASC 718). The fair value of PSAs and RSUs is based on the final closing price of Allstate's common stock on the grant date, which in part reflects the payment of expected future dividends. (See note 18 to our audited financial statements for 2017). This amount reflects an accounting expense and does not correspond to actual value that will be realized by the named executives. The value of PSAs is based on the probable satisfaction of the performance conditions. The number of PSAs granted in 2017 to each named executive, and RSUs granted in 2017 to Mr. Dugenske, is provided in the *Grants of Plan-Based Awards* table on page 52. The value of the PSAs granted in 2017 at grant date share price if maximum corporate performance were to be achieved is as follows: Mr. Wilson \$10,800,078, Mr. Shebik \$3,990,052, Mr. Civgin \$2,808,064, Mr. Dugenske \$2,610,024 and Mr. Winter \$3,712,536.

⁽⁴⁾ The aggregate grant date fair value of option awards is computed in accordance with FASB ASC 718. The fair value of each option award is estimated on the grant date using a binomial lattice model and the assumptions (see note 18 to our audited financial statements for 2017) as set forth in the following table:

	2017	2016	2015
Weighted average expected term	6.1 years	5.0 years	6.5 years
Expected volatility	15.7-32.7%	16.0-34.3%	16.0-37.8%
Weighted average volatility	21.0%	24.3%	24.7%
Expected dividends	1.4-1.9%	1.9-2.1%	1.6-2.1%
Weighted average expected dividends	1.9%	2.1%	1.7%
Risk-free rate	0.5-2.5%	0.2-2.4%	0.0-2.4%

This amount reflects an accounting expense and does not correspond to actual value that will be realized by the named executives. The number of options granted in 2017 to each named executive is provided in the *Grants of Plan-Based Awards* table on page 52.

- (5) Amounts reflect the aggregate increase in actuarial value of the pension benefits as set forth in the *Pension Benefits* table, accrued during 2017, 2016, and 2015. These are benefits under the Allstate Retirement Plan (ARP) and the Supplemental Retirement Income Plan (SRIP). Non-qualified deferred compensation earnings are not reflected since our Deferred Compensation Plan does not provide above-market earnings. The pension plan measurement date is December 31. (See note 17 to our audited financial statements for 2017.)

The following table reflects the respective change in the actuarial value of the benefits provided to the named executives in 2017:

Name	ARP (\$)	SRIP (\$)
Mr. Wilson	107,137	1,581,005
Mr. Shebik	119,463	392,738
Mr. Civgin	15,313	68,466
Mr. Dugenske	0	0
Mr. Winter	13,412	88,400

Interest rates and other assumptions can have a significant impact on the change in pension value from one year to another.

Effective January 1, 2014, Allstate modified its pension plans so that all eligible employees earn future pension benefits under a new cash balance formula. The change in actuarial value of benefits provided for each named executive in 2017 would have been as indicated in the following table under the prior formula:

Name	ARP (\$)	SRIP (\$)
Mr. Wilson	188,144	4,099,783
Mr. Shebik	147,659	1,728,615
Mr. Civgin	13,039	60,960
Mr. Dugenske	0	0
Mr. Winter	11,761	77,711

- (6) The following table describes the incremental cost of other benefits provided in 2017 that are included in the “All Other Compensation” column.

Name	Personal Use of Aircraft ⁽¹⁾ (\$)	401(k) Match ⁽²⁾ (\$)	Other ⁽³⁾ (\$)	Total All Other Compensation (\$)
Mr. Wilson	28,181	10,800	29,560	68,541
Mr. Shebik	—	10,800	27,598	38,398
Mr. Civgin	—	10,800	16,930	27,730
Mr. Dugenske	—	6,004	11,022	17,026
Mr. Winter	69,623	10,800	21,090	101,513

- (1) The amount reported for personal use of aircraft is based on the incremental cost method, which is calculated based on Allstate’s average variable costs per flight hour. Variable costs include fuel, maintenance, on-board catering, landing/ramp fees, and other miscellaneous variable costs. The total annual variable costs are divided by the annual number of flight hours flown by the aircraft to derive an average variable cost per flight hour. This average variable cost per flight hour is then multiplied by the flight hours flown for personal use to derive the incremental cost. This method of calculating the incremental cost excludes fixed costs that do not change based on usage, such as pilots’ and other employees’ salaries, costs incurred in purchasing the aircraft, and non-trip-related hangar expenses.

- (2) Each of the named executives participated in our 401(k) plan during 2017. The amount shown is the amount allocated to their accounts as employer matching contributions. Mr. Dugenske will not be vested in the employer matching contribution until he has completed three years of vesting service.

(3) “Other” consists of personal benefits and perquisites related to mobile devices, tax preparation services, financial planning, ground transportation, executive physical related items and supplemental long-term disability coverage. There was no incremental cost for the use of mobile devices. We provide supplemental long-term disability coverage to all regular full- and part-time employees who participate in the long-term disability plan and whose annual earnings exceed the level that produces the maximum monthly benefit provided by the long-term disability plan. This coverage is self-insured (funded and paid for by Allstate when obligations are incurred). No obligations for the named executives were incurred in 2017, and therefore, no incremental cost is reflected in the table.

(7) We have included an additional column to show total compensation minus the change in pension value. The amounts reported in this column may differ substantially from, and are not a substitute for, the amounts reported in the “Total” column required under SEC rules. The change in pension value is subject to several external variables, including interest rates, that are not related to company or individual performance and may differ significantly based on the formula under which the benefits were earned.

Grants of Plan-Based Awards at Fiscal Year-end 2017

(1) Awards under the Annual Executive Incentive Plan and the 2013 Equity Incentive Plan.

(2) The amounts in these columns consist of the threshold, target, and maximum annual cash incentive awards for the named executives. The threshold amount for each named executive is 50% of target, as the minimum amount payable (subject to individual performance) if threshold performance is achieved. If the threshold is not achieved, the payment to the named executives would be zero. The target amount is based upon achievement of the performance

measures listed under the *Earned Annual Cash Incentive Awards* caption on page 47. The maximum amount is based on the maximum amount that could be paid to a named executive to qualify the annual cash incentive award as deductible under section 162(m) as in effect prior to the passage of the Tax Legislation. The maximum amount payable to any named executive who served as CFO during the year is an amount equal to 15% of the 162(m) Pool described on pages 64-65. The maximum amount payable to the CEO and the three most highly compensated executives, excluding any named executive who served as CFO during the year, is the lesser of a stockholder-approved maximum of \$10 million under the Annual Executive Incentive Plan or a percentage, which varies by executive, of the award pool. The award pool is equal to 1.0% of Performance Net Income with award opportunities capped at 35% of the pool for Mr. Wilson, 20% for Mr. Winter, and 15% of the pool for each other named executive. Performance Net Income is defined on pages 64-65. For a description of the ranges of performance established by the committee for the 2017 annual incentive, which are lower than the section 162(m) limits, see page 48.

- (3) The amounts shown in these columns reflect the threshold, target, and maximum PSAs for the named executives. The threshold amount for each named executive is 0% payout. The target and maximum amounts are based upon achievement of the performance measures listed under the *Performance Stock Awards* caption on page 48.
- (4) Mr. Dugenske received a sign-on grant of restricted stock units on April 5, 2017. These RSUs will become 100% vested on April 4, 2020.
- (5) The exercise price of each option is equal to the closing sale price on the New York Stock Exchange on the grant date or, if there was no such sale on the grant date, then on the last previous day on which there was a sale.
- (6) The aggregate grant date fair value of the PSAs was \$78.35 and stock option awards was \$14.49, with the exception of Mr. Dugenske's, which for the PSAs was \$81.86, the stock option award was \$15.12, and the RSUs was \$81.42, computed in accordance with FASB ASC 718 based on the probable satisfaction of the performance conditions. The assumptions used in the valuation are discussed in footnotes 3 and 4 to the *Summary Compensation Table* on page 50.

PERFORMANCE STOCK AWARDS ("PSAs")

PSAs represent our promise to transfer shares of common stock in the future if certain performance measures are met. For the awards granted in 2017, the actual number of PSAs that vest will vary from 0% to 200% of target PSAs based on Average Performance Net Income ROE (70%) and Earned Book Value (30%) results for a three-year measurement period. For a definition of how those measures are calculated, see pages 64-67. Each PSA represents Allstate's promise to transfer one fully vested share in the future for each PSA that vests. Vested PSAs will be converted into shares of Allstate common stock and dividend equivalents accrued on these shares will be paid in cash. No dividend equivalents will be paid prior to vesting. PSAs will vest following the end of the three-year performance cycle if the performance conditions are met, subject to continued employment (other than in the event of death, disability, retirement, or a qualifying termination following a change in control).

STOCK OPTIONS

Stock options represent an opportunity to buy shares of our stock at a fixed exercise price at a future date. We use them to align the interests of our executives with long-term stockholder value, as the stock price must appreciate from the grant date for the executives to profit.

Under our stockholder-approved equity incentive plan, the exercise price cannot be less than the closing price of a share on the grant date. Stock option repricing is not permitted. In other words, without an event such as a stock split, if the committee cancels an award and substitutes a new award, the exercise price of the new award cannot be less than the exercise price of the canceled award.

All stock option awards have been made in the form of non-qualified stock options. The options granted to the named executives beginning in 2014 become exercisable over three years. One-third of the stock options will become exercisable on the anniversary of the grant date for each of the three years. The change to the vesting schedule beginning in 2014 was made to reflect current market practice. For the vesting schedule for other option grants, see footnote 1 to the *Outstanding Equity Awards at Fiscal Year-end 2017* table. All of the options expire ten years from the grant date, unless an earlier date has been approved by the committee in connection with certain change-in-control situations or other special circumstances such as termination, death, or disability.

RESTRICTED STOCK UNITS

Each restricted stock unit represents our promise to transfer one fully vested share of stock in the future if and when the restrictions expire (when the unit "vests"). Under the terms of the restricted stock unit award, the executive has only the rights of a general unsecured creditor of Allstate and no rights as a stockholder until delivery of the underlying shares. The restricted stock units granted to Mr. Dugenske in 2017 will become 100% vested on the day prior to the third anniversary of the grant date, except in certain change-in-control situations or under other special circumstances approved by the Committee. The restricted stock units granted to Mr. Dugenske include the right to receive previously accrued dividend equivalents payable in cash when the underlying restricted stock units vest.

⁽¹⁾ The options granted in 2014 and after vest over three years: one-third will become exercisable on the anniversary of the grant date for each of the three years. The options granted in 2012 and 2013 vest over four years: 50% on the second anniversary date and 25% on each of the third and fourth anniversary dates. The other options vest in four installments of 25% on each of the first four anniversaries of the grant date. The exercise price of each option is equal to the closing price of Allstate's common stock on the grant date. If there was no sale on the grant date, the closing price is calculated as of the last previous day on which there was a sale.

- (2) The awards listed in this table are PSAs, except for Mr. Dugenske's sign-on award of 49,128 restricted stock units in 2017. Each restricted stock unit represents the right to receive, without the payment of any consideration, one share of Allstate common stock on the conversion date, which is April 5, 2020.
- (3) The aggregate value and aggregate number of exercisable and unexercisable in-the-money options as of December 31, 2017, for each of the named executives are as follows:

Name	Exercisable		Unexercisable	
	Aggregate Number (#)	Aggregate Value (\$)	Aggregate Number (#)	Aggregate Value (\$)
Mr. Wilson	1,859,284	113,729,331	543,495	18,232,543
Mr. Shebik	287,031	15,663,918	175,954	5,785,917
Mr. Civgin	183,435	8,570,244	142,557	4,793,917
Mr. Dugenske	0	0	57,540	1,314,789
Mr. Winter	312,571	15,534,991	188,485	6,343,328

- (4) The PSAs vest in one installment on the day before the third anniversary of the grant date.
- (5) Amount is based on the closing price of our common stock of \$104.71 on December 29, 2017.
- (6) The PSAs vest in one installment on the day before the third anniversary of the grant date. The number of shares that ultimately vest may range from 0 to 200% of the target depending on actual performance during the three-year performance period. For a description of the PSA program and the performance measures used, see pages 41-43 and 48. The number of PSAs reflected in this column for the 2016 and 2017 awards is the number of shares that would vest if the maximum level of performance is achieved. Final payouts under the PSAs will not be known until the respective performance period is completed.

Option Exercises and Stock Vested During 2017

The following table summarizes the options exercised by the named executives during 2017 and the PSAs or restricted stock units that vested during 2017.

Name	Option Awards ⁽¹⁾		Stock Awards	
	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise (\$)	Number of Shares Acquired on Vesting (#)	Value Realized on Vesting (\$)

Mr. Dugenske	0	0	0	0
Mr. Winter	246,044	13,689,101	21,908	1,762,280

- (1) Of the options exercised in 2017 by Mr. Wilson, 338,316 were due to expire in the first quarter of 2018.

Retirement Benefits

The following table provides information about the pension plans in which the eligible named executives participate. Each of the named executives participates, or will become eligible to participate, in the Allstate Retirement Plan (ARP) and the Supplemental Retirement Income Plan (SRIP).

Pension Benefits

Name	Plan Name	Number of Years Credited Service (#)	Present Value of Accumulated Benefit ⁽¹⁾⁽²⁾ (\$)	Payments During Last Fiscal Year (\$)
Mr. Wilson	ARP	24.8	1,154,486	0
	SRIP	24.8	16,029,426	0
Mr. Shebik	ARP	29.2	1,395,258	0
	SRIP	29.2	4,059,740	0
Mr. Civgin	ARP	9.3	78,641	0
	SRIP	9.3	451,116	0
Mr. Dugenske ⁽³⁾	ARP	0.8	0	0
	SRIP	0.8	0	0
Mr. Winter	ARP	8.2	66,444	0
	SRIP	8.2	583,431	0

⁽¹⁾ These amounts are estimates and do not necessarily reflect the actual amounts that will be paid to the named executives, which will be known only at the time they become eligible for payment. The present value of the accumulated benefit was determined using the same measurement date (December 31, 2017) and material assumptions that we use for year-end financial reporting purposes, except that we made no assumptions for early termination, disability, or pre-retirement mortality. Other assumptions include the following:

- Retirement at the normal retirement age as defined in the plans (age 65).
- Discount rate of 3.68%.

Other assumptions for the final average pay formula include the following:

- 80% paid as a lump sum and 20% paid as an annuity; for the cash balance formula, 100% paid as a lump sum.
- ARP lump-sum/annuity conversion segmented interest rates of 2.50% for the first five years, 4.75% for the next 15 years, and 5.50% for all years after 20.
- SRIP lump-sum conversion segmented interest rates of 2.00% for the first five years, 4.50% for the next 15 years, and 5.50% for all years after 20.
- Lump-sum calculations were done using the IRS Section 417(e)(3) mortality table projected with the MP-2017 projection table. Allstate adopted this table for accounting on December 31, 2017, to measure retirement program obligations in the United States.
- Annuity calculations were done using the RP-2014 white-collar mortality table for annuitants projected with the MP-2017 projection table.

See note 17 to our audited financial statements for 2017 for additional information.

⁽²⁾ The following table shows the lump-sum present value of the non-qualified pension benefits for each named executive earned through December 31, 2017, if the named executive's employment terminated on that date.

Name	Plan Name	Lump Sum Amount (\$)
Mr. Wilson	SRIP	17,060,041
Mr. Shebik	SRIP	4,343,669
Mr. Civgin	SRIP	439,565
Mr. Dugenske	SRIP	0
Mr. Winter	SRIP	576,135

The amount shown is based on the lump-sum methodology used by the Allstate pension plans in 2018. Specifically, the interest rate for 2018 is based on 100% of the average corporate bond segmented yield curve from August of the prior year. As required under the Internal Revenue Code, the mortality table used for 2018 is the 2018 combined static Pension Protection Act funding mortality table with a blend of 50% males and 50% females.

- ⁽³⁾ Mr. Dugenske was not a member of the ARP or the SRIP in 2017 and therefore had not accrued a benefit under the ARP or the SRIP.

ALLSTATE RETIREMENT PLAN (ARP)

Contributions to the ARP are made entirely by Allstate and are paid into a trust fund from which benefits are paid. Before January 1, 2014, ARP participants earned benefits under one of two formulas (final average pay or cash balance) based on their date of hire or their choice at the time Allstate introduced the cash balance formula. In order to better align our pension benefits with market practices, provide future pension benefits more equitably to Allstate employees, and reduce costs, final average pay benefits were frozen as of December 31, 2013. As of January 1, 2014, all eligible participants earn benefits under a cash balance formula only.

Final Average Pay Formula — Frozen as of 12/31/13

Benefits under the final average pay formula were earned and are stated in the form of a straight life annuity payable at the normal retirement age of 65. Messrs. Shebik and Wilson have earned final average pay benefits equal to the sum of a Base Benefit and an Additional Benefit. The Base Benefit equals 1.55% of the participant's average annual compensation, multiplied by credited service after 1988 through 2013. The Additional Benefit equals 0.65% of the amount of the participant's average annual compensation that exceeds the participant's covered compensation, multiplied by credited service after 1988 through 2013. Covered compensation is the average of the maximum annual salary taxable for Social Security over the 35-year period ending the year the participant would reach Social Security retirement age. Messrs. Shebik and Wilson are

eligible for a reduced early retirement benefit which would reduce their Base Benefit by 4.8% for each year of early payment before age 65 and their Additional Benefit by 8% for each year of early payment from age 62 to age 65 and 4% for each year of early payment from age 55 to age 62, prorated on a monthly basis based on age at the date payments begin.

Cash Balance Formula — For all Participants Beginning 1/1/14

All named executives, except Mr. Dugenske, earned benefits under the cash balance formula in 2017. Mr. Dugenske will earn benefits under the cash balance formula after completing one year of vesting service. Under this formula, participants receive pay credits while employed at Allstate, based on a percentage of eligible annual compensation and years of service, plus interest credits. Pay credits are allocated to a hypothetical account in an amount equal to 3% to 5% of eligible annual compensation, depending on years of vesting service. Interest credits are allocated to the hypothetical account based on the interest crediting rate in effect for that plan year as published by the Internal Revenue Service. The interest crediting rate is set annually and is currently based on the average yield for 30-year U.S. Treasury securities for August of the prior year. Prior to 2014, Messrs. Civgin and Winter earned cash balance credits equal to 2.5% of eligible annual compensation after they completed one year of vesting service based on the prior cash balance formula.

SUPPLEMENTAL RETIREMENT INCOME PLAN (SRIP)

SRIP benefits are generally determined using a two-step process: (1) determine the amount that would be payable under the ARP formula(s) specified above if Internal Revenue Code limits did not apply, then (2) reduce the amount described in (1) by the amount actually payable under the applicable ARP formula(s).

The normal retirement date under the SRIP is age 65. If eligible for early retirement under the ARP, the employee also is eligible for early retirement under the SRIP. SRIP benefits are not funded and are paid out of Allstate's general assets.

CREDITED SERVICE

No additional service credit beyond service with Allstate or its predecessors is granted under the ARP or the SRIP to any of the named executives. Messrs. Shebik and Wilson have combined service with Allstate and its former parent company, Sears, Roebuck and Co., of 29.2 and 24.8 years, respectively. As a result, a portion of their retirement benefits will be paid from the Sears pension plan. Consistent with the pension benefits of

other employees with Sears service who were employed by Allstate at the time of the spin-off from Sears in 1995, Messrs. Shebik's and Wilson's final average pay pension benefits under the ARP and the SRIP are calculated as if each had worked his combined Sears-Allstate career with Allstate through December 31, 2013, and then are reduced by amounts earned under the Sears pension plan.

ELIGIBLE COMPENSATION

Under both the ARP and SRIP, eligible compensation consists of salary, annual cash incentive awards, and certain other forms of compensation, but does not include long-term cash incentive awards or income related to equity awards. Compensation used to determine benefits under the ARP is limited in

accordance with the Internal Revenue Code. For final average pay benefits, average annual compensation is the average compensation of the five highest consecutive calendar years within the last ten consecutive calendar years through 2013.

PAYMENT OPTIONS

Payment options under the ARP include a lump sum, straight life annuity, and various survivor annuity options. The lump sum under the final average pay benefit is calculated in accordance with the applicable interest rate and mortality assumptions as required under the Internal Revenue Code. The lump-sum

payment under the cash balance benefit is generally equal to a participant's account balance. Payments from the SRIP are paid in the form of a lump sum using the same interest rate and mortality assumptions used under the ARP.

TIMING OF PAYMENTS

Eligible employees are vested in the normal ARP and SRIP retirement benefits on the earlier of the completion of three years of service or upon reaching age 65.

Final average pay benefits are payable at age 65. A participant with final average pay benefits may be entitled to a reduced early retirement benefit on or after age 55 if he or she terminates employment after completing 20 or more years of vesting service.

A participant earning cash balance benefits who terminates employment with at least three years of vesting service is entitled to a lump sum benefit equal to his or her cash balance account balance.

The following SRIP payment dates assume a retirement or termination date of December 31, 2017:

- Messrs. Shebik's and Wilson's SRIP benefits earned prior to 2005 would become payable as early as January 1, 2018. Benefits earned after 2004 would be paid on July 1, 2018, or following death.
- Mr. Civgin's SRIP benefit would be paid on July 1, 2018, or following death.
- Mr. Dugenske is not currently a member of the SRIP and therefore has not accrued a benefit under the SRIP.
- Mr. Winter's SRIP benefit would be paid on July 1, 2018, or following death.

Non-Qualified Deferred Compensation at Fiscal Year-end 2017

The following table summarizes the non-qualified deferred compensation contributions, earnings, and account balances of our named executives in 2017. All amounts relate to The Allstate Corporation Deferred Compensation Plan.

Name	Executive Contributions in Last FY	Registrant Contributions in Last FY	Aggregate Earnings in Last FY	Aggregate Withdrawals/Distributions in Last FY	Aggregate Balance at Last FYE
	(\$)	(\$)	(\$) ⁽¹⁾	(\$)	(\$) ⁽²⁾
Mr. Wilson	0	0	156,189	0	1,047,797
Mr. Shebik	0	0	30,342	0	186,139
Mr. Civgin	0	0	0	0	0
Mr. Dugenske	0	0	0	0	0
Mr. Winter	0	0	0	0	0

⁽¹⁾ Aggregate earnings were not included in the named executive's compensation in the last completed fiscal year in the *Summary Compensation Table*.

⁽²⁾ There are no amounts reported in the Aggregate Balance at Last FYE column that previously were reported as compensation in the *Summary Compensation Table*.

In order to remain competitive with other employers, we allow the named executives and other employees whose annual compensation exceeds the amount specified in the Internal Revenue Code (\$270,000 in 2017), to defer under the Deferred Compensation Plan up to 80% of their salary and/or up to 100% of their annual cash incentive award that exceeds the Internal Revenue Code limit. Allstate does not match participant deferrals and does not guarantee a stated rate of return.

Deferrals under the Deferred Compensation Plan are credited with earnings or debited for losses based on the results of the notional investment option or options selected by the participants. The notional investment options available in 2017 under the Deferred Compensation Plan are: stable value, S&P 500, international equity, Russell 2000, mid-cap, and bond funds. Under the Deferred Compensation Plan, deferrals are not actually invested in these funds, but instead are credited with earnings or debited for losses based on the funds' investment returns. Because the rate of return is based on actual investment measures in our 401(k) plan, no above-market earnings are credited, recorded, or paid. Our Deferred Compensation Plan and 401(k) plan allow participants to change their investment elections daily, subject to certain trading restrictions.

The Deferred Compensation Plan is unfunded. This means that Allstate does not set aside funds for the plan in a trust or otherwise. Participants have only the rights of general unsecured creditors and may lose their balances in the event of the company's bankruptcy. Account balances are 100% vested at all times.

An irrevocable distribution election is required before making any deferrals into the plan. Generally, a named executive may elect to begin receiving a distribution of his or her account balance immediately upon separation from service or in one of the first through fifth years after separation from service. The earliest distribution date for deferrals on or after January 1, 2005, and earnings and losses on these amounts, is six months following separation from service. The named executive may elect to receive payment in a lump sum or in annual cash installment payments over a period of two to ten years. In addition, a named executive may elect an in-service withdrawal of his or her entire balance earned and vested prior to January 1, 2005, and earnings and losses on these amounts, subject to forfeiture of 10% of such balance. Upon proof of an unforeseen emergency, a plan participant may be allowed to access certain funds in a deferred compensation account earlier than the dates specified above.

Potential Payments as a Result of Termination or Change in Control (CIC)

The following table lists the compensation and benefits that Allstate would generally provide to the named executives in various scenarios involving a termination of employment, other than compensation and benefits

generally available to salaried employees. The table describes equity granting practices for the 2017 equity incentive awards. Relevant prior practices are described in the footnotes.

- ⁽¹⁾ Includes both voluntary and involuntary termination. Examples of involuntary termination independent of a change in control include performance-related terminations; terminations for employee dishonesty and violation of Allstate rules, regulations, or policies; and terminations resulting from lack of work, rearrangement of work, or reduction in force.
- ⁽²⁾ In general, a change in control is one or more of the following events: (1) any person acquires 30% or more of the combined voting power of Allstate common stock within a 12-month period; (2) any person acquires more than 50% of the combined voting power of Allstate common stock; (3) certain changes are made to the composition of the Board; or (4) the consummation of a merger, reorganization, or similar transaction. These triggers were selected because any of these could cause a substantial change in management in a widely held company the size of Allstate. Effective upon a change in control, the named executives become subject to covenants prohibiting solicitation of employees, customers, and suppliers until one year after termination of employment. If a named executive incurs legal fees or other expenses in an effort to enforce the change-in-control plan, Allstate will reimburse the named executive for these expenses unless it is established by a court that the named executive had no reasonable basis for the claim or acted in bad faith.
- ⁽³⁾ Under the change-in-control plan, severance benefits would be payable if a named executive's employment is terminated either by Allstate without cause or by the executive for good reason as defined in the plan during the two years following the change in control. Cause means the named executive has been convicted of a felony or other crime involving fraud or dishonesty, has willfully or intentionally breached the restrictive covenants in the change-in-control plan, has habitually neglected his or her duties, or has engaged in willful or reckless material misconduct in the performance of his or her duties. Good reason includes a material diminution in a named executive's base compensation, authority, duties, or responsibilities, or a material change in the geographic location where the named executive performs services.
- ⁽⁴⁾ Named executives who receive an equity award or an annual cash incentive award after May 19, 2009, are subject to a non-solicitation covenant while they are employed and for the one-year period following termination of employment. If a named executive violates the non-solicitation covenant, to the extent permitted by applicable law, compensation provided to the named executive (including cancellation of outstanding awards or recovery of all or a portion of any gain realized upon vesting, settlement, or exercise of an award or recovery of all or a portion of any proceeds resulting from any disposition of shares received pursuant to an award) may be recovered if the vesting, settlement, or exercise of the award or the receipt of the sale proceeds occurred during the 12-month period prior to the violation.
- ⁽⁵⁾ Retirement for purposes of the Annual Executive Incentive Plan is defined as voluntary termination on or after the date the named executive attains age 55 with at least 10 years of service or age 60 with five years of service.
- ⁽⁶⁾ Named executives who receive an equity award on or after May 21, 2013, that remains subject to a period of restriction or other performance or vesting condition are subject to a non-compete provision while they are employed and for the one-year period following termination of employment. Named executives who received equity awards granted between February 21, 2012, and May 20, 2013, are subject to a non-compete provision

while they are employed and for the two-year period following termination of employment. If a named executive violates the non-competition covenant, to the extent permitted by applicable law, any or all of the named executive's outstanding awards that remain subject to a period of restriction or other performance or vesting condition as of the date on which the named executive first violated the non-competition provision may be canceled.

- (7) Retirement definitions and treatment for purposes of stock options, restricted stock units, and performance stock awards are as follows:

	Date of award on or after February 21, 2012
Definition	Normal Retirement-age 55 with 10 years of service or age 60 with at least five years of service
Treatment	<ul style="list-style-type: none"> • Unvested awards not granted within 12 months of retirement continue to vest. • Prorated portion of unvested awards granted within 12 months of the retirement date continue to vest. • Vested stock options expire at the earlier of five years from the date of retirement or the expiration date of the option.

Stock option awards granted in 2012 and before have vested and will expire at the earlier of five years from the date of retirement or the expiration date of the option.

- (8) The committee will determine the number of PSAs that continue to vest based on actual performance up to the change in control.
- (9) For open cycles, the payout is based on the target number of PSAs.
- (10) See the *Retirement Benefits* section for further detail on non-qualified pension benefits and timing of payments.
- (11) See the *Non-Qualified Deferred Compensation at Fiscal Year-end 2017* section for additional information on the Deferred Compensation Plan and distribution options available.
- (12) If a named executive's employment is terminated due to death during the two years after the date of a change in control, the named executive's estate or beneficiary will be entitled to survivor and other benefits, including retiree medical coverage, if eligible, that are not less favorable than the most favorable benefits available to the estates or surviving families of peer executives of Allstate. In the event of termination due to disability during the two years after the date of a change in control, Allstate will pay disability and other benefits, including supplemental long-term disability benefits and retiree medical coverage, if eligible, that are not less favorable than the most favorable benefits available to disabled peer executives.

Estimate of Potential Payments Upon Termination⁽¹⁾

The table below describes the value of compensation and benefits payable to each named executive upon termination that would exceed the compensation or benefits generally available to salaried employees in each termination scenario. The total column in the following table does not reflect compensation or

benefits previously accrued or earned by the named executives, such as deferred compensation and non-qualified pension benefits. Benefits and payments are calculated assuming a December 31, 2017, employment termination date.

⁽¹⁾ A “0” indicates either that there is no amount payable to the named executive, or the amount payable is the same for both the named executives and all salaried employees.

⁽²⁾ The 2017 annual incentive plan payment is payable to all named executives as a result of death and disability. In addition, it is payable to Messrs. Wilson, Shebik, and Winter in the event of retirement. The amount listed for the annual incentive plan payment upon termination due to a change in control is shown at target as defined in the change-in-control severance plan.

⁽³⁾ As of December 31, 2017, Messrs. Wilson, Shebik, and Winter are the only named executives eligible to retire in accordance with Allstate’s policy and the terms of its equity incentive compensation and benefit plans.

⁽⁴⁾ The values in this change-in-control row represent amounts paid if both the change in control and qualifying termination occur on December 31, 2017. PSAs are paid out based on actual performance; for purposes of this table, the 2015-2017 cycle is shown at 82.7% of target, 2016-2018, and 2017-2019 cycles are reflected at target.

Beginning with awards granted in 2012, equity awards do not accelerate in the event of a change in control unless also accompanied by a qualifying termination of employment. A change in control also would accelerate the distribution of each named executive's non-qualified deferred compensation and SRIP benefits. Please see the *Non-Qualified Deferred Compensation at Fiscal Year-end 2017* table and footnote 2 to the *Pension Benefits* table in the *Retirement Benefits* section for details regarding the applicable amounts for each named executive.

- (5) The Welfare Benefits and Outplacement Services amount includes the cost to provide certain welfare benefits to the named executive and family during the period the named executive is eligible for continuation coverage under applicable law. The amount shown reflects Allstate's costs for these benefits or programs assuming an 18-month continuation period. The value of outplacement services is \$50,000 for each named executive.
- (6) The named executives who participate in the long-term disability plan are eligible to participate in Allstate's supplemental long-term disability plan for employees whose annual earnings exceed the level which produces the maximum monthly benefit provided by the long-term disability plan (basic plan). The monthly benefit is equal to 60% of the named executive's qualified annual earnings divided by twelve and rounded to the nearest \$100, reduced by \$7,500, which is the maximum monthly benefit payment that can be received under the basic plan. The amount reflected assumes the named executive remains totally disabled until age 65 and represents the present value of the monthly benefit payable until age 65.

Performance Measures for 2017

The following pages contain descriptions of the performance measures used for executive incentive compensation. They were developed uniquely for incentive compensation purposes, are non-GAAP measures and are not reported in our financial statements. The committee has approved the use of non-GAAP measures when appropriate to drive executive focus on particular strategic, operational, or financial factors, or to exclude factors over which our executives have little influence or control. The committee monitors compensation estimates during

the year based on actual performance on these measures, and the internal audit department reviews the final results.

Performance Net Income: This measure is calculated uniquely for annual cash incentive awards, the 162(m) pool, and each PSA performance cycle. For each plan, Performance Net Income is equal to net income applicable to common shareholders as reported in The Allstate Corporation annual report on Form 10-K adjusted for the after-tax effect of the items indicated below:

Adjustment for after-tax volatile items	Adjusted to include minimum or maximum amount of after-tax catastrophe losses and income from performance-based long-term investments ⁽⁸⁾	Three-year average adjusted to include a minimum or maximum amount of after-tax catastrophe losses
Performance Net Income		

- ⁽¹⁾ Performance Net Income is a performance measure for the 2015-2017, 2016-2018, 2017-2019, and 2018-2020 performance cycles. The 2016-2018, 2017-2019, and 2018-2020 performance cycles do not qualify for final measurement as of December 31, 2017; the items checked above and after-tax volatile items indicate items that by definition may impact the final measurement when the three-year cycle and final measurement is completed.
- ⁽²⁾ Adjustment impacts only the calculations for the 2015-2017 performance cycle.
- ⁽³⁾ Adjustment not applicable to 2018-2020 performance cycle.
- ⁽⁴⁾ Adjustment only impacts 2017 Annual Cash Incentive.
- ⁽⁵⁾ Adjustment for 2016-2018, 2017-2019, and 2018-2020 performance cycles.
- ⁽⁶⁾ Adjustment for 2018-2020 performance cycle.
- ⁽⁷⁾ Volatile items include catastrophe losses and income from performance-based long-term investments ("PBLT income") depending on the measure.
- ⁽⁸⁾ 162(m) pool volatile items adjustment only excludes actual amount of after-tax catastrophe losses.

ANNUAL CASH INCENTIVE AWARD PERFORMANCE MEASURES FOR 2017

- Performance Net Income:** This measure is used to assess financial performance. In 2017, Performance Net Income was \$2,703 million compared to reported Adjusted Net Income* of \$2,467 million, an increase of \$236 million. It was adjusted to remove the impacts of the underwriting loss of the Discontinued Lines and Coverages segment, restructuring and related charges, a maximum amount of after-tax catastrophes and PBLT income, pension settlement charge and employee share-based accounting tax benefit.

adjusted to include a minimum or maximum amount of PBLT income if the actual amounts are less than or exceed those amounts, respectively. Net Investment Income is also subject to adjustments to be consistent with the financial reporting used in establishing the measure and to exclude the effects of acquiring and selling businesses. In 2017, an adjustment to reflect a maximum amount of PBLT income was necessary, resulting in Net Investment Income of \$3,188 million, compared to reported net investment income of \$3,401 million.
- Net Investment Income:** This measure is used to assess the financial operating performance provided from investments. Net Investment Income as reported in the consolidated statement of operations is

Total Premiums: This measure is used to assess growth within the Allstate Protection, Service Businesses, Allstate Life, Allstate Benefits, and Allstate Annuities businesses. It is equal to the sum of Allstate

Protection and Service Businesses premiums written and Allstate Life, Benefits, and Annuities premiums and contract charges as described below.

Premiums written is equal to the Allstate Protection and Service Businesses net premiums written as reported in management's discussion and analysis in The Allstate Corporation annual report on Form 10-K.

Premiums and contract charges are equal to life premiums and contract charges reported in the consolidated statement of operations in The Allstate Corporation annual report on Form 10-K.

Total Premiums is subject to adjustments to be consistent with the financial reporting used in establishing the measure and to exclude the effects of acquiring and selling businesses. No such adjustments were necessary in 2017.

Total Premiums of \$35,120 million were equal to reported Total Premiums.

- **Total Return:** This measure is used to assess financial performance of the investment portfolio. Total return is calculated as the ratio of the sum of net investment income, realized capital gains and losses, the change in unrealized net capital gains and losses, and the change in the difference between fair value and carrying value of mortgage loans, cost method limited partnerships, bank loans and agent loans, divided by the average fair value balances at the beginning and at the end of 2017.

Total Return is subject to adjustment to be consistent with the financial reporting used in establishing the measure and to exclude the effects of acquiring and selling businesses. In 2017, no adjustments were necessary, and Total Return was 5.9%.

PERFORMANCE STOCK AWARD PERFORMANCE MEASURES FOR THE 2015-2017 PERFORMANCE CYCLE

- **Three-Year Average Performance Net Income Return on Equity:** It is calculated as the ratio of the average Performance Net Income for the three years in the period divided by the average of Adjusted Common Shareholders' Equity at December 31 of the year-end immediately preceding the period and at the end of each year in the three-year period.
- Adjusted Common Shareholders' Equity is equal to common shareholders' equity excluding the net effects of unrealized net capital gains and losses. It is subject to adjustments to be consistent with the financial reporting used in establishing the measure and to exclude the net effects of acquiring and selling businesses. Adjusted Common Shareholders' Equity at December 31 of the year-end immediately preceding the period is not subject to adjustment.
- Three-year Average Performance Net Income Return on Equity for the 2015-2017 performance cycle was 12.2%, compared to our reported Adjusted Net Income return on equity* of 13.4%, 10.4% and 11.6% for the three years ended 2017, 2016, and 2015, respectively, and the three-year average of 11.8%. The primary adjustments relate to underwriting loss of the Discontinued Lines and Coverages segment, restructuring and related charges, net effects of acquiring business, and employee share-based accounting tax benefit.

PERFORMANCE STOCK AWARD PERFORMANCE MEASURES FOR THE 2016-2018, 2017-2019 AND 2018-2020 PERFORMANCE CYCLES

- **Three-Year Average Performance Net Income Return on Equity (measure weighted at 70%):** These cycles are calculated in a similar manner to the 2015-2017 cycle as disclosed above, but are adjusted to reflect the foreign exchange rate used in establishing the measure (in place of actual foreign currency translation) for any period if the Total Premiums measure for the Annual Incentive Plan is adjusted for foreign exchange rates. For the 2018-2020 performance cycle, average common shareholders' equity will also be adjusted to remove the impact of other significant non-recurring, infrequent or unusual items in excess of a threshold and parent holding company level deployable assets in excess of \$1 billion.
- **Earned Book Value (measure weighted at 30%):** Earned Book Value is the increase between common shareholders' equity at December 31 of the year-end immediately preceding the three-year period and adjusted common shareholders' equity at December 31 of the last year of the three-year period expressed as a compound annual growth rate.

Adjusted common shareholders' equity is equal to common shareholders' equity at December 31 of the last year of the three-year period adjusted to:

- Add back reductions for common share repurchases and declared common shareholder dividends during the three-year period.
- Remove the impact of other significant non-recurring, infrequent or unusual items in excess of a threshold.
- Reflect a minimum or maximum amount of after-tax catastrophe losses if the actual after-tax catastrophe losses are more or less than +/- 20% respectively of the three years of catastrophe losses used to establish the measure.
- Be consistent with the financial reporting used in establishing the measure.
- Exclude the effects of acquiring and selling businesses.
- Reflect the foreign exchange rate used in establishing the measure (in place of actual foreign currency translation) for any period if the Total Premiums measure for the Annual Incentive Plan is adjusted for foreign exchange rates.

CEO Pay Ratio

As required by the Dodd-Frank Wall Street Reform and Consumer Protection Act, we are providing information about the relationship of the annual total compensation of our employees to the annual total compensation of Mr. Wilson, our Chief Executive Officer ("CEO"). This pay ratio is a reasonable estimate calculated in a manner consistent with the final SEC rules.

For 2017,

- the annual total compensation of our median employee was \$81,573; and
- the annual total compensation of our CEO, as reported in the Summary Compensation Table in this Proxy Statement, was \$18,757,329.
- The ratio of the annual total compensation of Mr. Wilson to our median employee was 230:1.

As required by SEC rules, the annual total compensation for both the CEO and median employee includes the change in pension value during the year. The change in pension value is subject to several external variables, including interest rates, that are not related to company or individual performance and may differ significantly based on the formula under which the benefits were earned. If we eliminated the change in pension value from our median employee and CEO's total compensation, our CEO to median employee pay ratio would have been 294:1.

We also note that, in contrast to the compensation of the median employee, a significant portion of our CEO's compensation is tied to company performance. If we were to calculate the ratio using Mr. Wilson's target annual cash incentive (as opposed to the actual cash incentive award paid to him based on 2017 company performance), our CEO to median employee pay ratio would have been 193:1.

To calculate the ratio, we used the following methodology and material assumptions, adjustments, and estimates:

- ✓ We selected October 2, 2017, which is within the last three months of 2017 as permitted by SEC rules, as the determination date because it enabled us sufficient time to calculate the ratio.
- ✓ As of October 2, 2017, our U.S. and non-U.S. employee population consisted of 44,432 full-time, part-time, seasonal and temporary employees.
- ✓ In determining the employee population to be used to calculate the compensation of the median employee, we included employees in all countries except for 2,155 employees in the United Kingdom, who represented less than 5% of our total employees, as permitted under the applicable SEC de minimis rule. As a result, the employee population that we used for purposes of determining the compensation of our median employee was 42,277.
- ✓ We excluded our agent population since they are not employees of Allstate or its subsidiaries.
- ✓ We selected total cash (base salary plus incentive compensation) as the most appropriate and consistently applied compensation measure to determine the median worker since we do not widely distribute equity awards.
- ✓ We measured compensation for our employees using a nine-month look-back period ending September 30, 2017.
- ✓ Permanent employees who were hired in 2017, but did not work for the entire period, had their compensation adjusted as if they were employed for the entire nine-month period.
- ✓ For employees outside of the United States, we use a year-to-date average of January 1, 2017, through September 30, 2017, for each of the exchange rates.
- ✓ After identifying the median worker based on total cash compensation, we calculated annual total compensation for that person using the same methodology we use for our named executives in the Summary Compensation Table in this Proxy Statement.
- ✓ As noted above, the median employee's annual total compensation was \$81,573. The median employee was a U.S. claims employee with total cash compensation of \$56,410, a change in pension value of \$23,575, and other compensation in the amount of \$1,588. The change in pension value is high in comparison to total cash compensation as a result of the median employee earning pension benefits under the final average pay formula until December 31, 2013. Approximately 30% of the pension-eligible Allstate employees in the U.S., including the CEO, earned pension benefits under the final average pay formula prior to 2014.

The SEC rules for identifying the median of our employees and calculating the pay ratio allow companies to use a variety of methodologies, to apply certain exclusions, and to make reasonable estimates and assumptions that reflect a company's employee populations and compensation practices. For that reason, the pay ratio reported by other companies may not be comparable to the pay ratio reported above. Neither the Compensation and Succession Committee nor management of the company used the pay ratio measure in making compensation decisions.

AUDIT COMMITTEE MATTERS

PROPOSAL

3

Ratification of Deloitte & Touche LLP as the Independent Registered Public Accountant for 2018

✓ The Board recommends a vote **FOR** ratification of Deloitte & Touche LLP for 2018.

- Independent firm with few ancillary services and reasonable fees.
- Significant industry and financial reporting expertise.
- The audit committee annually evaluates Deloitte & Touche LLP and determined that its retention continues to be in the best interests of Allstate and its stockholders.

The audit committee has established strong practices to evaluate the qualifications, compensation, performance, and independence of the independent registered public accountant both on an ongoing basis throughout the year and through the completion of an annual evaluation. Additional information regarding the audit committee's duties and responsibilities is available in the committee's charter located under the Governance section of Allstate's investor relations website at www.allstateinvestors.com. Deloitte & Touche LLP has been Allstate's independent registered public accountant since Allstate became a publicly traded entity in 1993.

As a starting point for the annual evaluation, a survey is administered by a Deloitte & Touche LLP partner who is not affiliated with the Allstate account and by a risk or internal audit executive. The survey assesses Allstate's general satisfaction with the quality and efficiency of the services provided. Results are reported to the audit committee for its discussion and analysis.

In addition, the audit committee reviews and discusses the results of the firm's reports on its quality controls and external assessments, including results of inspections conducted by the Public Company Accounting Oversight Board (PCAOB).

Rotation of the independent registered public accounting firm is explicitly considered each year by the committee in addition to the regular mandated rotation of audit partners.

The audit committee has adopted a policy regarding its pre-approval of all audit and permissible non-audit services provided by the independent registered public accountant. The policy identifies the basic principles that must be considered by the audit committee in approving services to ensure that the registered public accountant's independence is not impaired, describes the type of audit, audit-related, tax and other services that may be provided, and lists the non-audit services that may not be performed. The independent registered public accountant or management will submit to the audit committee detailed schedules with all of the proposed services within each category, together with the estimated fees. Each specific service will require approval before service can begin.

Prior to requesting approval from the audit committee, the registered public accountant and management consider and conclude that the services are permissible in that they: (1) do not place the registered public accountant in the position of auditing their own work, (2) do not result in the registered public accountant's personnel acting as management or an employee of Allstate, (3) do not place the registered public accountant in a position of being an advocate for Allstate, (4) do not create a mutual or conflicting interest between the registered public accountant and Allstate and (5) are not based on a contingent fee arrangement. The audit committee's policy delegates to the chair the authority to grant approvals, but the decisions of the chair must be reported to the audit committee at its next regularly scheduled meeting. All services provided by Deloitte & Touche LLP in 2016 and 2017 were approved in accordance with this pre-approval policy.

Based on the results of the annual evaluation, the audit committee has appointed Deloitte & Touche LLP as Allstate's independent registered public accountant for 2018. The factors considered by the audit committee include:

- Focus on independence, objectivity, and professional skepticism;
- Insurance and technical expertise and capability in handling the breadth and complexity of Allstate's operations and industry;
- Professionalism and responsiveness;
- Sharing industry insights, trends, and latest practices;
- Quality and efficiency of the work performed;
- Quality of discussions and feedback sessions;
- External data on audit quality and performance, including the results from the PCAOB; and
- Reasonableness of fees.

The audit committee and the Board believe it is in the best interests of Allstate and its stockholders to continue to retain Deloitte & Touche LLP as Allstate's independent registered public accountant. The committee and its chair approve the selection of Deloitte & Touche LLP's lead engagement partner.

The audit committee oversees and is ultimately responsible for the negotiation of audit fees associated with the retention of Deloitte & Touche LLP. The following fees have been, or are anticipated to be, billed

by Deloitte & Touche LLP, the member firms of Deloitte Touche Tohmatsu, and their respective affiliates, for professional services rendered to Allstate for the fiscal years ending December 31, 2016, and December 31, 2017.

	2016 ⁽⁵⁾	2017
Audit fees ⁽¹⁾	\$10,164,000	\$10,694,000
Audit-related fees ⁽²⁾	\$700,000	\$740,000
Tax fees ⁽³⁾	\$106,000	\$308,000
All other fees ⁽⁴⁾	\$95,000	\$13,000
Total fees	\$11,065,000	\$11,755,000

- ⁽¹⁾ Fees for audits of annual financial statements, reviews of quarterly financial statements, statutory audits, attest services, comfort letters, consents, and review of documents filed with the Securities and Exchange Commission. The amount disclosed does not reflect reimbursements expected to be received for certain separate account audit fees from the managing entity in the amounts of \$179,000 and \$165,000 for 2016 and 2017, respectively.
- ⁽²⁾ Audit-related fees relate to professional services, such as accounting consultations relating to new accounting standards and audits, service audit reports and other attest services for non-consolidated affiliates (i.e., employee benefit plans, various trusts, etc.) and are set forth below.

	2016	2017
Audits and other attest services for non-consolidated entities	\$345,000	\$346,000
Other audit-related fees	\$355,000	\$394,000
Total audit-related fees	\$700,000	\$740,000

- ⁽³⁾ Tax fees include income tax return preparation, compliance assistance, tax studies and research, and international tax planning.
- ⁽⁴⁾ "All other fees" includes all fees paid that are not audit, audit-related, or tax services. In 2016, these fees relate to advisory services.
- ⁽⁵⁾ Fees for 2016 have been reallocated between audit and audit-related fees to account for additional 2016 work completed after the proxy.

Representatives of Deloitte & Touche LLP will be present at the 2018 annual meeting to respond to questions and may make a statement if they choose. If stockholders fail to ratify the appointment, the audit committee

will reconsider the appointment, but no assurance can be given that the audit committee will change the appointment.

Audit Committee Report

Deloitte & Touche LLP (Deloitte) was Allstate's independent registered public accountant for the year ended December 31, 2017.

The audit committee reviewed and discussed with management the audited financial statements for the fiscal year ended December 31, 2017.

The committee discussed with Deloitte the matters required to be discussed by Auditing Standard No. 1301, as adopted by the Public Company Accounting Oversight Board. The committee received the written disclosures and letter from Deloitte that is required by applicable requirements of the Public Company

Accounting Oversight Board regarding Deloitte's communications with the committee concerning independence and has discussed with Deloitte its independence.

Based on these reviews and discussions and other information considered by the committee in its judgment, the committee recommended to the Board of Directors that the audited financial statements be included in Allstate's annual report on Form 10-K for the fiscal year ended December 31, 2017, for filing with the Securities and Exchange Commission, and furnished to stockholders with this Notice of Annual Meeting and Proxy Statement.

STOCKHOLDER PROPOSALS

PROPOSAL

Stockholder Proposal on Independent Board Chairman

4

✗ The Board recommends a vote **AGAINST** this proposal.

- Allstate's independent lead director provides meaningful independent leadership of the Board.
- Allstate's independent lead director is selected through a robust process, and her performance is evaluated annually.
- The Board should continue to have flexibility to determine whether to split or combine the Chair and CEO roles and not be required to utilize one approach.
- The Board has split the roles of Chair and CEO in the past.
- The lead director is just one of many structural safeguards that provide effective independent oversight of Allstate.

Mr. Kenneth Steiner, 14 Stoner Ave., 2M, Great Neck, NY 11021, beneficial owner of no less than 300 shares of Allstate common stock as of December 5, 2017, intends to propose the following resolution at the annual meeting.

Shareholders request our Board of Directors to adopt as policy, and amend our governing documents as necessary, to require henceforth that the Chair of the Board of Directors, whenever possible, to be an independent member of the Board. The Board would have the discretion to phase in this policy for the next CEO transition, implemented so it does not violate any existing agreement.

If the Board determines that a Chair who was independent when selected is no longer independent, the Board shall select a new Chair who satisfies the requirements of the policy within a reasonable amount of time. Compliance with this policy is waived if no independent director is available and willing to serve as Chairman. This proposal requests that all the necessary steps be taken to accomplish the above.

Caterpillar is an example of a company recently changing course and naming an independent board chairman. Caterpillar had strongly opposed a shareholder proposal for an independent board chairman as recently as its 2016 annual meeting. Wells Fargo also changed course and named an independent board chairman in 2016.

It was reported that 53% of the Standard & Poors 1,500 firms separate these 2 positions (2015 report): Chairman and CEO. This proposal topic won 50%-plus support at 5 major U.S. companies in 2013 including 73%-support at Netflix.

This proposal topic also won impressive 47%-support at our 2016 annual meeting. This 47%-support would have been higher (perhaps 51%) if small shareholders had the same access to corporate governance information as large shareholders.

Extra consideration could be given to this proposal since our Lead Director, Judith Sprieser lacked an important attribute. Ms. Sprieser had 18-years long tenure. Long-tenure can impair the independence of a director — no matter how well qualified. Independence is a highly valuable attribute in a director —especially in a Lead Director who has additional responsibilities in the oversight of our CEO.

An independent chairman would have the time to improve the qualifications and commitment of our directors. For instance the following 4 directors had almost zero "skin in the game" since they owned zero stock or almost zero stock:

Judith Sprieser
Jacques Perold
Michael Eskew
Siddharth Mehta

This is compounded by the fact that Allstate pays these directors \$250,000 each for perhaps 250 hours of work in a year. This is further compounded by the fact that Ms. Sprieser had collected Allstate director pay for 18-years. In its response to this proposal management can let us know the total director pay that Allstate has given to Ms. Sprieser in 18-years.

Plus these 4 directors controlled 5 positions on our most important board committees and Ms. Sprieser was our Lead Director. Serious consideration should be given to whether a director who owns zero stock can serve on an important board committee or as a Lead Director.

Please vote to enhance the oversight of our CEO:

Independent Board Chairman – Proposal 4

Board of Directors' Statement in Opposition to the Stockholder Proposal on Independent Board Chairman

The Board recommends that stockholders vote **AGAINST** this proposal for the following reasons:

ALLSTATE'S INDEPENDENT LEAD DIRECTOR PROVIDES MEANINGFUL INDEPENDENT LEADERSHIP OF THE BOARD.

- **The powers of the lead director and committee chairs were formalized and expanded in 2016 as a result of stockholder dialogue. For a more detailed description of our lead director role, see page 19.**
- Our lead director is selected after a comprehensive annual process and has well-defined and substantive responsibilities:
 - Is elected solely by independent members of the Board;
 - Has authority to call meetings of the independent members of the Board;
 - Approves Board meeting agendas, schedules and information provided to the Board;
 - Facilitates and communicates the Board's performance evaluation of the CEO and Chair;
- Facilitates the evaluation of Board and director performance;
- Ensures implementation of the Board committee self-evaluation process and reports to the Board, and provides guidance to Committee chairs, as needed;
- Facilitates the Chair and CEO succession process;
- Presides at all Board meetings at which the Chair is not present and at all executive sessions; and
- Communicates with significant stockholders and other stakeholders on matters involving broad corporate policies and practices, when appropriate.

ALLSTATE'S INDEPENDENT LEAD DIRECTOR IS SELECTED THROUGH A ROBUST PROCESS, AND HER PERFORMANCE IS EVALUATED ANNUALLY.

- Each year, the nominating and governance committee recommends a director to the independent members of the Board to serve as the independent lead director. The lead director is elected annually by the independent directors but is generally expected to serve for more than one year.
- The lead director's performance is assessed annually; as part of that review, the nominating and governance committee evaluates the criteria for nominees for the lead director role and assesses any needed changes. In selecting the lead director, the independent directors consider market, operational, and governance issues facing Allstate. They consider relevant leadership, operational and corporate governance experience, relationships with the other Board members and external commitments. In addition, the lead director is expected to have a thorough understanding of the company's business operations and history.
- Contrary to what the proponent states, each of Allstate's directors has "skin in the game." The restricted stock units held by each director at the end of 2017 are listed on page 29. As shown on that table, each of our directors has a substantial economic interest valued between \$118,000 and \$4,400,000 based on the closing price of Allstate's common stock of \$104.71 on December 29, 2017.

THE BOARD SHOULD CONTINUE TO HAVE FLEXIBILITY TO DETERMINE WHETHER TO SPLIT OR COMBINE THE CHAIR AND CEO ROLES AND NOT BE REQUIRED TO UTILIZE ONE APPROACH.

- The Board believes it is important to maintain the flexibility to choose whether to split the Board Chair and CEO roles at Allstate. Requiring a split of the roles would reduce the Board's ability to act in the best interests of the Company as the needs of the Board and the Company change over time.
- According to a survey by a major corporate governance firm in 2017, only 12% of the S&P 100 companies **REQUIRE** the separation of the roles. Most boards believe it is beneficial to have flexibility in determining whether to split or combine the roles.
- At present, the independent directors have determined Allstate is well-served by having both Chair and CEO roles performed by Mr. Wilson, who provides excellent leadership and direction for both management and the Board. Given his extensive Company knowledge and his ability to effectively fulfill both roles simultaneously, he is uniquely qualified to lead discussions of the Board and is in the best position to facilitate the flow of business information and communications.

THE BOARD HAS SPLIT THE ROLES OF CHAIR AND CEO IN THE PAST.

- Allstate's Board previously and effectively used the flexibility to separate the role of Chair and CEO. The Board split the roles of Chair and CEO in 2007 during a leadership transition. When Thomas Wilson replaced Edward Liddy as CEO, the Board determined that Mr. Liddy should remain Chair. Mr. Liddy retired in 2008 and the Board decided to elect Mr. Wilson to serve as Chair while retaining his role as CEO.
- The practice of splitting the roles during leadership transitions so that a company's former CEO can continue to provide perspective to a new CEO is common among companies. According to a study by a leading global advisory firm, published in January 2017, 37% of stand-alone board chairs of *Fortune* 500 companies previously served as CEO of the same company.

THE LEAD DIRECTOR IS JUST ONE OF MANY STRUCTURAL SAFEGUARDS THAT PROVIDE EFFECTIVE INDEPENDENT OVERSIGHT OF ALLSTATE.

- In addition to the strong role of our independent lead director, the Board has policies and practices that support a balanced and strong governance system, including:
 - All of Allstate's Board members are independent within the meaning of applicable laws, with the exception of the CEO;
 - All members of each of the key Board committees (the audit, compensation and succession, nominating and governance, and risk and return committees) are independent; and
 - The committee chairs' responsibilities were proactively enhanced to include the power to approve committee agendas and meeting materials.
- Each committee operates under a written charter that has been approved by the Board and that details the oversight of key matters, such as the integrity of Allstate's financial statements, executive compensation, CEO performance, nomination of directors, evaluation of the Board, and risk and return management;
- The Board performs a formal annual evaluation of the Chair and CEO in an executive session; and
- All key Board committees have access to and utilize independent external advisors.

PROPOSAL Stockholder Proposal on Reporting Political Contributions

5

✗ The Board recommends a vote **AGAINST** this proposal.

- Allstate already provides stockholders with comprehensive disclosures on Allstate's involvement in the public policy arena (found at www.allstatesustainability.com).
- Allstate's Board has strong governance and oversight practices over the Company's public policy involvement.
- Allstate surpasses all disclosure requirements pertaining to political contributions under federal, state, and local laws.

The International Brotherhood of Teamsters, 25 Louisiana Avenue, NW, Washington, D.C. 20001, beneficial owners of no less than 64 shares of Allstate common stock as of December 11, 2017, intends to propose the following resolution at the annual meeting.

Resolved, that the shareholders of Allstate Corporation ("Allstate" or "Company") hereby request that the Company provide a report, updated semiannually, disclosing the Company's:

1. Policies and procedures for making, with corporate funds or assets, contributions and expenditures (direct or indirect) to (a) participate or intervene in any political campaign on behalf of (or in opposition to) any candidate for public office, or (b) influence the general public, or any segment thereof, with respect to an election or referendum.
2. Monetary and non-monetary contributions and expenditures (direct and indirect) used in the manner described in section 1 above, including:
 - a. The identity of the recipient as well as the amount paid to each; and
 - b. The title(s) of the person(s) in the Company responsible for decision making.

The report shall be presented to the board of directors or relevant board committee and posted on the Company's website within 12 months from the date of the annual meeting. This proposal does not encompass lobbying spending.

Supporting Statement: As long-term shareholders of Allstate, we support transparency and accountability in corporate political spending. This includes any activity considered intervention in a political campaign under the Internal Revenue Code, such as direct and indirect contributions to political candidates, parties, or organizations, and independent expenditures or electioneering communications on behalf of federal, state, or local candidates.

Disclosure is in the best interest of the company and its shareholders. The Supreme Court recognized this in *Citizens United*: "[D]isclosure permits citizens and shareholders to react to the speech of corporate entities in a proper way. This transparency enables the electorate to make informed decisions and give proper weight to different speakers and messages."

Publicly available records show Allstate has contributed at least \$4.4 million in corporate funds to state and local parties and candidates, and 527 political committees, since 2010. (CQ: moneyline.cq.com and National Institute on Money in State Politics: www.followthemoney.org)

However, relying on publicly available data does not provide a complete picture of the Company's political spending. For example, indirect contributions through trade associations are not publicly available. And while the Company discloses its aggregate payments to political entities and trade associations, it provides little detail about which candidates and entities are receiving company money. This proposal asks the Company to disclose all of its political spending, including payments to trade associations and other tax-exempt organizations, which may be used for political purposes. This would bring our Company in line with a growing number of leading companies, including Unum Group, AIG, and Capital One, which present this information on their websites. The Company's board and shareholders need comprehensive disclosure to fully evaluate the political use of corporate assets. We urge your support for this critical governance reform.

Board of Directors' Statement in Opposition to the Stockholder Proposal on Reporting Political Contributions

The Board recommends that stockholders vote **AGAINST** this proposal for the following reasons:

ALLSTATE ALREADY PROVIDES STOCKHOLDERS WITH COMPREHENSIVE DISCLOSURES ON ALLSTATE'S INVOLVEMENT IN THE PUBLIC POLICY ARENA (FOUND AT WWW.ALLSTATESUSTAINABILITY.COM).

- Allstate issues an annual Corporate Involvement in Public Policy report, which provides a comprehensive discussion of Allstate's activities. The report describes the Board's process for overseeing expenditures, the strategic and business rationale for expenditures, total amounts contributed by category (including non-deductible amounts for certain lobbying activities and to political candidates and organizations), those involved in the decision-making process, and the major organizations supported.
- The proponent seeks additional disclosure of line-item expenditures to each recipient, which is not necessary or relevant to the governance of Allstate.
- Investors have indicated strong support for Allstate's current political contribution disclosures.

ALLSTATE'S BOARD HAS STRONG GOVERNANCE AND OVERSIGHT PRACTICES OVER THE COMPANY'S PUBLIC POLICY INVOLVEMENT.

- The specific deployment of corporate resources in the public policy arena is presented formally to the Board each year. Our Corporate Governance Guidelines address the Board's annual review and our involvement in the public policy arena and can be found at www.allstateinvestors.com.
- We expanded the discussion of Allstate's oversight over political spending in the 2016 report and accelerated its availability to stockholders prior to the 2017 annual meeting. Subject matter experts within Allstate make recommendations with respect to which organizations and candidates to support financially, and members of Allstate's government and industry relations group consult with members of senior management to make the ultimate determinations.

ALLSTATE SURPASSES ALL DISCLOSURE REQUIREMENTS PERTAINING TO POLITICAL CONTRIBUTIONS UNDER FEDERAL, STATE, AND LOCAL LAWS.

- Allstate complies with all public disclosure laws at the federal, state, and local levels.
- Allstate maintains internal guidelines and procedures to ensure that the Company's public policy efforts remain consistent with its strategy and the long-term interests of our stockholders, employees, agencies, and customers. For example, we use our industry expertise in formulating public policy solutions that help mitigate weather-related risks and reduce the likelihood and severity of property loss for customers.
- The proposal would impose requirements on Allstate that are not dictated by law and are not standard among other companies.

Stockholder Proposals or Director Nominations for the 2019 Annual Meeting

Proposals that stockholders would like to include in Allstate's proxy materials for presentation at the 2019 annual meeting of stockholders must be received by the Office of the Secretary by November 28, 2018, and must otherwise comply with Securities and Exchange Commission rules in order to be eligible for inclusion in the proxy material for the 2019 annual meeting.

If a stockholder would like to bring a matter before the meeting which is not the subject of a proposal that meets the Securities and Exchange Commission proxy rule requirements for inclusion in the proxy statement, the stockholder must follow procedures in Allstate's bylaws in order to personally present the proposal at the meeting.

One of the procedural requirements in the bylaws is timely notice in writing of the business the stockholder proposes to bring before the meeting. Notice of business proposed to be brought before the 2019 annual meeting must be received by the Office of the Secretary no earlier than the close of business on January 11, 2019, and no later than the close of business on February 10, 2019. Among other things, the notice must describe the business proposed to be brought before the meeting, the reasons for conducting the business at the meeting, and any material interest of the stockholder in the business.

A stockholder also may directly nominate someone for election as a director at a stockholders' meeting. Under our bylaws, a stockholder may nominate a candidate at the 2019 annual meeting by providing advance notice to Allstate to the Office of the Secretary that is received no earlier than the close of business on January 11, 2019, and no later than the close of business on February 10, 2019. For proxy access nominees to be considered at the 2019 annual meeting, the nomination notice must be received by the Office of the Secretary no earlier than the close of business on October 29, 2018, and no later than the close of business on November 28, 2018. Among other things, the notice must include the information and documents described in Section 20 of the company's bylaws.

A copy of the procedures and requirements related to the above matters is available upon request from the Office of the Secretary or can be found on Allstate's website, allstateinvestors.com. The notices required above must be sent to the Office of the Secretary, The Allstate Corporation, 2775 Sanders Road, Suite F7, Northbrook, Illinois 60062-6127.

STOCK OWNERSHIP INFORMATION

Security Ownership of Directors and Executive Officers

The following table shows the Allstate common shares beneficially owned as of March 1, 2018, by each director and named executive individually, and by all executive officers and directors of Allstate as a group. Shares reported as beneficially owned include shares held indirectly through the Allstate 401(k) Savings Plan and

other shares held indirectly. It also includes shares subject to stock options exercisable, and restricted stock units subject to conversion into common shares, within sixty days of March 1. As of March 1, 2018, none of these shares were pledged as security.

⁽¹⁾ As of March 1, 2018, no director or executive officer beneficially owned 1% or more of the outstanding common stock of Allstate. The directors and executive officers of Allstate as a group beneficially owned (including common stock subject to stock options exercisable and restricted stock units for which restrictions expire on or prior to April 29, 2018) approximately 1.4% of the common stock outstanding as of March 1, 2018.

⁽²⁾ All non-employee directors hold restricted stock units granted under Allstate's equity compensation plans for non-employee directors. This column lists those restricted stock units that would be distributed to directors in the form of shares of common stock within 60 days if any of them were to have retired as a director on March 1, 2018. In addition, some directors hold additional restricted stock units which are not reflected in the table above because common stock would not be distributed to directors until at least one year, and in some cases, as many as ten years, following his or her retirement as a director. For more information regarding the restricted stock units held by each director at the end of 2017, please see the details on page 29.

⁽³⁾ These amounts are the sum of the number of shares shown in the prior columns.

⁽⁴⁾ Mr. Perold's common shares are held indirectly by trust. The shares held by Mr. Wilson include shares owned indirectly through a grantor retained annuity trust and a remainder grantor retained annuity trust.

⁽⁵⁾ Mr. Winter retired effective February 23, 2018.

⁽¹⁾ Reflects shares beneficially owned as of December 31, 2017, as set forth in a schedule 13G/A filed on January 29, 2018. Of these shares, BlackRock reported it held 23,019,052 shares with sole voting power; 0 shares with shared voting power; 26,955,890 shares with sole dispositive power; and 0 shares with shared dispositive power. BlackRock also manages approximately \$3.6 billion of Allstate's investment portfolio as of December 31, 2017, under various investment management agreements and has licensed to Allstate an investment technology software system widely used by investors. The terms of these arrangements are customary and the aggregate related fees are not material.

⁽²⁾ Reflects shares beneficially owned as of December 31, 2017, as set forth in a schedule 13G/A filed on February 12, 2018. Of these shares, The Vanguard Group reported it held 508,467 shares with sole voting power; 102,089 shares with shared voting power; 24,334,379 with sole dispositive power; and 597,870 shares with shared dispositive power.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires Allstate's executive officers, directors, and persons who beneficially own more than 10% of Allstate's common stock to file reports of securities ownership and changes in such ownership with the Securities and Exchange Commission.

Based upon a review of copies of such reports, or written representations that all such reports were timely filed, Allstate believes that each of its executive officers and directors complied with all Section 16(a) filing requirements applicable to them during 2017.

OTHER INFORMATION

Proxy and Voting Information

Who is asking for my vote and why?

The Allstate Board of Directors is soliciting proxies for use at the annual meeting of stockholders to be held on May 11, 2018, and any adjournments or postponements of the meeting. The annual meeting will be held only if there is a quorum, which means that a majority of the outstanding common stock entitled to vote is represented at the meeting by proxy or in person. To ensure there will be a quorum, the Allstate Board asks you to vote before the meeting, which allows your Allstate stock to be represented at the annual meeting.

Who can vote at the annual meeting?

The Allstate Board has set the close of business on March 13, 2018, as the record date for the meeting. This means that you are entitled to vote if you were a stockholder of record at the close of business on March 13, 2018. On that date, there were 353,139,462 shares of Allstate common stock outstanding and entitled to vote at the annual meeting.

Why did I receive a notice of Internet availability of proxy materials instead of the proxy materials?

We distribute our proxy materials to certain stockholders over the Internet using “Notice and Access” delivery, as permitted by the rules of the Securities and Exchange Commission. We elected to use this method for certain stockholders as it reduces our print and mail costs and the environmental impact of our annual stockholders’ meeting.

How do I vote?

Instructions on how to vote your shares are included on the Notice on page 4. If you hold shares in your own name as a registered stockholder, you may vote in person by attending the annual meeting, or you may instruct the proxies how to vote your shares by following the instructions on the proxy card/voting instruction form. **If you plan to attend the meeting in person, please see the details on pages 81-82.**

If you hold shares in street name (that is, through a broker, bank, or other record holder), you should follow the instructions provided by your broker, bank, or other record holder to vote your shares.

If you hold shares through the Allstate 401(k) Savings Plan, please see the instructions on page 82.

Can I change my vote?

Before your shares have been voted at the annual meeting by the proxies, you may change or revoke your voting instructions by providing instructions again by telephone, by Internet, in writing, or, if you are a registered stockholder, by voting in person at the annual meeting.

Are the votes kept confidential?

All proxies, ballots, and tabulations that identify the vote of a particular stockholder are confidential, except as necessary to allow the inspector of election to certify the voting results or to meet certain legal requirements. A representative of American Election Services, LLC will act as the inspector of election and will count the votes. The representative is independent of Allstate and its directors, officers, and employees.

If you write a comment on your proxy card, voting instruction form, or ballot, it may be provided to our Secretary along with your name and address.

Your comments will be provided without reference to how you voted, unless the vote is mentioned in your comment or unless disclosure of the vote is necessary to understand your comment. At our request, the distribution agent or the solicitation agent will provide us with periodic status reports on the aggregate vote. These status reports may include a list of stockholders who have not voted and breakdowns of vote totals by different types of stockholders, as long as we are not able to determine how a particular stockholder voted.

What happens if I submit a signed proxy card but do not indicate how I want to vote?

You may instruct the proxies to vote “FOR” or “AGAINST” on each proposal, or you may instruct the proxies to “ABSTAIN” from voting. If you submit a signed proxy card/voting instruction form to allow your shares to be represented at the annual meeting but do not indicate how your shares should be voted on one or more proposals, then the proxies will vote your shares as the Board of Directors recommends on those proposals. Other than the proposals listed on pages 5-8, we do not know of any other matters to be presented at the meeting. If any other matters are properly presented at the meeting, the proxies may vote your shares in accordance with their best judgment.

What vote is needed to approve each item?

Shares of common stock represented by a properly completed proxy card/voting instruction form will be counted as present at the meeting for purposes of determining a quorum, even if the stockholder is abstaining from voting.

Proposal 1. To be elected under Allstate’s majority vote standard, each director must receive an affirmative vote of the majority of the votes cast. In other words, the number of shares voted “For” a director must exceed 50% of the votes cast on that director. Abstentions will not be counted as votes cast and will have no impact on the vote’s outcome.

Proposals 2 – 5. A majority of the shares present in person or represented by proxy at the meeting and entitled to vote must be voted “For” the proposal.

Abstentions will have the effect of a vote against the proposal.

Are broker non-votes counted at the meeting?

Brokers and banks have discretionary authority to vote shares in the absence of instructions on matters the New York Stock Exchange considers “routine,” such as the ratification of the appointment of the auditors. They do not have discretionary authority to vote shares in the absence of instructions on “non-routine” matters, such as the election of directors, say-on-pay, or the stockholder proposals. Broker non-votes will not be counted as shares entitled to vote on any of the foregoing matters and will have no impact on the vote’s outcome.

What is “householding” and how does it affect me?

Allstate has adopted the “householding” procedure approved by the SEC, which allows us to deliver one set of documents to a household of stockholders instead of delivering a set to each stockholder in a household, unless we have been instructed otherwise. This procedure is more environmentally friendly and cost-effective because it reduces the number of copies to be printed and mailed. Stockholders who receive proxy materials in paper form will continue to receive separate proxy cards/voting instruction forms to vote their shares. Stockholders who receive the Notice of Internet Availability of Proxy Materials will receive instructions on submitting their proxy cards/voting instruction form via the Internet.

If you would like to change your householding election, request that a single copy of the proxy materials be sent to your address, or request a separate copy of the proxy materials, please contact our distribution agent, Broadridge Financial Solutions, by calling (866) 540-7095 or by writing to Broadridge Householding Department, 51 Mercedes Way, Edgewood, NY 11717. We will promptly deliver the proxy materials to you upon receipt of your request. If you hold your shares in street name, please contact your bank, broker, or other record holder to request information about householding.

If you receive more than one proxy card/voting instruction form, your shares probably are registered in more than one account or you may hold shares both as a registered stockholder and through the Allstate 401(k) Savings Plan. You should vote each proxy card/voting instruction form you receive.

How do I attend the annual meeting?

If you plan to attend the meeting, you must be a holder of Allstate shares as of the record date of March 13, 2018. We encourage you to request an admission ticket in advance. You may request admission tickets by visiting www.proxyvote.com and following the instructions provided or calling 1-888-247-6053. You will need your proxy card, voting instruction form, or notice of Internet availability with you when you request the ticket.

At the entrance to the meeting, we will request to see your admission ticket and valid photo identification, such as a driver’s license or passport.

If you do not request an admission ticket in advance, we will request to see your photo identification at the entrance to the meeting. We will then confirm your common stock ownership on the record date by:

- **For registered stockholders:** verifying your name and stock ownership against our list of registered stockholders.
- **For beneficial or street name stockholders** (those holding shares through a broker, bank or other record holder): asking to review evidence of your stock ownership as of March 13, 2018, such as your brokerage statement. **You must bring such evidence with you in order to be admitted to the meeting.**

If you are acting as a proxy, we will need to review a valid written legal proxy signed by the owner of the common stock granting you the required authority to vote the owner's shares.

Where can I find the results of the annual meeting?

Preliminary results will be announced at the meeting and final results will be reported in a current report on Form 8-K, which is expected to be filed with the SEC within four business days after the meeting.

Who will pay the cost of this proxy solicitation?

Allstate pays the cost of this proxy solicitation. Officers and other employees of Allstate and its subsidiaries may solicit proxies by mail, personal interview, telephone, facsimile, electronic means, or via the Internet. None of these individuals will receive special compensation for soliciting votes, which will be performed in addition to their regular duties, and some of them may not necessarily solicit proxies. Allstate also has made arrangements with brokerage firms, banks, record holders, and other fiduciaries to forward proxy solicitation materials to the beneficial owners of shares they hold on your behalf. Allstate will reimburse these intermediaries for reasonable out-of-pocket expenses. Georgeson LLC, 1290 Avenue of the Americas, 9th Floor, New York, NY 10104 has been retained to assist in the solicitation of proxies for a fee of \$16,500 plus expenses.

How do I vote if I hold shares through the 401(k) Savings Plan?

If you hold Allstate common shares through the Allstate 401(k) Savings Plan, your proxy card/voting instruction form for those shares will instruct the plan trustee how to vote those shares. If you received your annual

meeting materials electronically, and you hold Allstate common shares both through the plan and also directly as a registered stockholder, the voting instructions you provide electronically will be applied to both your plan shares and your registered shares. If you return a signed proxy card/voting instruction form or vote by telephone or the Internet on a timely basis, the trustee will follow your voting instructions for all Allstate common shares allocated to your plan account unless that would be inconsistent with the trustee's duties.

If your voting instructions are not received on a timely basis, the shares allocated to your plan account will be considered "unvoted." If you return a signed proxy card/ voting instruction form but do not indicate how your shares should be voted on a given matter, the shares represented by your proxy card/voting instruction form will be voted as the Board of Directors recommends. **The trustee will vote all unvoted shares and all unallocated shares held by the plan as follows:**

- If the trustee receives instructions (through voting instruction forms or through telephonic or Internet instruction) on a timely basis for at least 50% of the votable allocated shares in the plan, then it will vote all unvoted shares and unallocated shares in the same proportion and in the same manner as the shares for which timely instructions have been received, unless to do so would be inconsistent with the trustee's duties.
- If the trustee receives instructions for less than 50% of the votable allocated shares, the trustee will vote all unvoted and unallocated shares in its sole discretion. However, the trustee will not use its discretionary authority to vote on adjournment of the meeting in order to solicit further proxies.

Plan votes receive the same high level of confidentiality as all other votes. You may not vote the shares allocated to your plan account by voting in person at the meeting. You must instruct The Northern Trust Company, as trustee for the plan, how to vote your shares.

By order of the Board,

Susan L. Lees
Secretary

Appendix A – Definitions of Non-GAAP Measures

Measures that are not based on accounting principles generally accepted in the United States of America (“non-GAAP”) are defined and reconciled to the most directly comparable GAAP measure. We believe that investors’ understanding of Allstate’s performance is enhanced by our disclosure of the following non-GAAP measures. Our methods for calculating these measures may differ from those used by other companies and therefore comparability may be limited.

Adjusted Net Income (previously called “operating income”) is net income applicable to common shareholders, excluding:

- realized capital gains and losses, after-tax, except for periodic settlements and accruals on non-hedge derivative instruments, which are reported with realized capital gains and losses but included in Adjusted Net Income,
- valuation changes on embedded derivatives not hedged, after-tax,
- amortization of deferred policy acquisition costs (“DAC”) and deferred sales inducements (“DSI”), to the extent they resulted from the recognition of certain realized capital gains and losses or valuation changes on embedded derivatives not hedged, after-tax,
- business combination expenses and the amortization of purchased intangible assets, after-tax,
- gain (loss) on disposition of operations, after-tax, and
- adjustments for other significant non-recurring, infrequent or unusual items, when (a) the nature of the charge or gain is such that it is reasonably unlikely to recur within two years, or (b) there has been no similar charge or gain within the prior two years.

Net income applicable to common shareholders is the GAAP measure that is most directly comparable to Adjusted Net Income.

We use Adjusted Net Income as an important measure to evaluate our results of operations. We believe that the measure provides investors with a valuable measure of the company’s ongoing performance because it reveals trends in our insurance and financial services business that may be obscured by the net effect of realized capital gains and losses, valuation changes on embedded derivatives not hedged, business combination expenses and the amortization of purchased intangible assets, gain (loss) on disposition of operations and adjustments for other significant non-recurring, infrequent or unusual items.

Realized capital gains and losses, valuation changes on embedded derivatives not hedged and gain (loss) on disposition of operations may vary significantly between periods and are generally driven by business decisions and external economic developments such as capital market conditions, the timing of which is unrelated to the insurance underwriting process. Consistent with our intent to protect results or earn additional income, Adjusted Net Income includes periodic settlements and accruals on certain derivative instruments that are reported in realized capital gains and losses because they do not qualify for hedge accounting or are not designated as hedges for accounting purposes. These instruments are used for economic hedges and to replicate fixed income securities, and by including them in Adjusted Net Income, we are appropriately reflecting their trends in our performance and in a manner consistent with the economically hedged investments, product attributes (e.g. net investment income and interest credited to contractholder funds) or replicated investments.

Business combination expenses are excluded because they are non-recurring in nature and the amortization of purchased intangible assets is excluded because it relates to the acquisition purchase price and is not indicative of our underlying insurance business results or trends.

Non-recurring items are excluded because, by their nature, they are not indicative of our business or economic trends.

Accordingly, Adjusted Net Income excludes the effect of items that tend to be highly variable from period to period and highlights the results from ongoing operations and the underlying profitability of our business. A byproduct of excluding these items to determine Adjusted Net Income is the transparency and understanding of their significance to net income variability and profitability while recognizing these or similar items may recur in subsequent periods.

Adjusted Net Income is used by management along with the other components of net income applicable to common shareholders to assess our performance. We use adjusted measures of Adjusted Net Income in incentive compensation. Therefore, we believe it is useful for investors to evaluate net income applicable to common shareholders, Adjusted Net Income and their components separately and in the aggregate when reviewing and evaluating our performance.

We note that investors, financial analysts, financial and business media organizations and rating agencies utilize Adjusted Net Income results in their evaluation

of our and our industry's financial performance and in their investment decisions, recommendations and communications as it represents a reliable, representative and consistent measurement of the industry and the company and management's performance. We note that the price to earnings multiple commonly used by insurance investors as a forward-looking valuation technique uses Adjusted Net Income as the denominator. Adjusted Net Income should not be considered a substitute for net income applicable to common shareholders and does not reflect the overall profitability of our business.

The following table reconciles consolidated net income applicable to common shareholders and Adjusted Net Income for the years ended December 31. Taxes on adjustments to reconcile net income applicable to common shareholders and Adjusted Net Income generally use a 35% effective tax rate and are reported net of income taxes as the reconciling adjustment, except for goodwill impairment that has no income tax benefit and the Tax Legislation benefit and change in accounting for investments in qualified affordable housing projects that are adjustments directly related to tax.

Combined ratio excluding the effect of catastrophes, prior year reserve reestimates and amortization of purchased intangible assets (“underlying combined ratio”) is a non-GAAP ratio, which is computed as the difference between four GAAP operating ratios: the combined ratio, the effect of catastrophes on the combined ratio, the effect of prior year non-catastrophe

reserve reestimates on the combined ratio, and the effect of amortization of purchased intangible assets on the combined ratio. We believe that this ratio is useful to investors and it is used by management to reveal the trends in our Property-Liability business that may be obscured by catastrophe losses, prior year reserve reestimates and amortization of purchased

intangible assets. Catastrophe losses cause our loss trends to vary significantly between periods as a result of their incidence of occurrence and magnitude, and can have a significant impact on the combined ratio. Prior year reserve reestimates are caused by unexpected loss development on historical reserves, which could increase or decrease current year Net Income. Amortization of purchased intangible assets relates to the acquisition purchase price and is not indicative of our underlying insurance business results or trends. We believe it is useful for investors to evaluate

these components separately and in the aggregate when reviewing our underwriting performance. We also provide it to facilitate a comparison to our outlook on the underlying combined ratio. The most directly comparable GAAP measure is the combined ratio. The underlying combined ratio should not be considered a substitute for the combined ratio and does not reflect the overall underwriting profitability of our business.

The following table reconciles the Property-Liability combined ratio to the Property-Liability underlying combined ratio for the years ended December 31.

	2017	2016	2015	2014 ⁽¹⁾	2013 ⁽¹⁾

Underwriting margin is calculated as 100% minus the combined ratio.

Adjusted Net Income return on common shareholders’ equity is a ratio that uses a non-GAAP measure. It is calculated by dividing the rolling 12-month Adjusted Net Income by the average of common shareholders’ equity at the beginning and at the end of the 12 months, after excluding the effect of unrealized net capital gains and losses. Return on common shareholders’ equity is the most directly comparable GAAP measure. We use Adjusted Net Income as the numerator for the same reasons we use Adjusted Net Income, as discussed above. We use average common shareholders’ equity excluding the effect of unrealized net capital gains and losses for the denominator as a representation of common shareholders’ equity primarily attributable to the company’s earned and realized business operations because it eliminates the effect of items that are unrealized and vary significantly between periods due to external economic developments such as capital market conditions like changes in equity prices and interest rates, the amount and timing of which are unrelated to the insurance underwriting process. We use it to supplement our evaluation of net income applicable to common shareholders and return on common shareholders’ equity because it excludes the effect of items that tend to be highly variable from period to period. We believe that this measure is useful to investors and that it provides a valuable tool for investors when considered along with return on

common shareholders’ equity because it eliminates the after-tax effects of realized and unrealized net capital gains and losses that can fluctuate significantly from period to period and that are driven by economic developments, the magnitude and timing of which are generally not influenced by management. In addition, it eliminates non-recurring items that are not indicative of our ongoing business or economic trends. A byproduct of excluding the items noted above to determine Adjusted Net Income return on common shareholders’ equity from return on common shareholders’ equity is the transparency and understanding of their significance to return on common shareholders’ equity variability and profitability while recognizing these or similar items may recur in subsequent periods. We use adjusted measures of Adjusted Net Income return on common shareholders’ equity in incentive compensation.
