FORM 20-F FOR THE YEAR ENDED DECEMBER 31, 2007

General

1. Where a comment below requests additional disclosures or other revisions to be made, please show us in your supplemental response what the revisions will look like. Some of our comments refer to US GAAP literature. If your accounting under Italian GAAP differs from your accounting under US GAAP, please also show us the additional disclosures that will be included in your US GAAP reconciliation footnote. These revisions should be included in your future filings.

Information on the Company

Introduction, page 9

2. Please revise your disclosure in the first sentence of the second paragraph to provide a basis for your statement that your company is a “world’s leader” in your industry and has a “leading share of the market.” Please refer to Item 4.B.7. of Form 20-F.

Geographical Expansion, page 13

3. Please provide a basis for your statement that your company is a leader in the leather-upholstered furniture segment in the United States and Europe.

Description of Properties, page 26

4. Please disclose the productive capacity of the properties listed on pages 27-28 pursuant to Item 4.D. of Form 20-F.

Operating and Financial Review and Prospects

Liquidity and Capital Resources, page 37

6. Please revise your filing to discuss the company’s long-term liquidity position.
7. Please revise your filing to provide the information relating to your borrowings as required by Item 5.B.1(c) of Form 20-F.
8. Please revise your filing to provide the information required by Item 5.B.2 of Form 20-F.

Consolidated Financial Statements

Note 3 – Summary of Significant Accounting Policies, page F-12

9. Please disclose in your financial statement footnotes the types of expenses that you include in the cost of sales line item and the types of expenses that you include in the selling expenses and general and administrative expenses line items. Please also disclose whether you include inbound freight charges, purchasing and receiving costs, inspection costs, warehousing costs, internal transfer costs, and the other costs of your distribution network in the cost of sales line item. With the exception of warehousing costs, if you currently exclude a portion of these costs from cost of sales, please disclose:
- in a footnote the line items that these excluded costs are included in and the amounts included in each line item for each period presented, and
 - in MD&A that your gross profit may not be comparable to those of other entities, since some entities include all of the costs related to their distribution network in cost of sales and others like you exclude a portion of them from gross profit, including them instead in a line item, such as general and administrative expenses.
10. Please revise your accounting policy footnote to indicate if you include any depreciation or amortization in your cost of sales. If you do not include depreciation or amortization in your cost of sales, please tell us which provisions of Italian GAAP either require or expressly permit exclusion of depreciation or amortization from cost of sales. See Item 10(e)(5) of Regulation S-K. If Italian GAAP does not specifically permit exclusion of depreciation or amortization from cost of sales, please:
- remove the gross profit subtotal from your financial statements;
 - revise your description of cost of sales on the face of your statement of operations and elsewhere throughout the filing to read somewhat as follows: "Cost of sales (exclusive of depreciation and amortization shown separately below)."; and
 - present the amount of depreciation and amortization as a separate line item on the face of your financial statements or revise your footnotes to specifically state the amount of depreciation and amortization.
11. As a related matter, if Italian GAAP does not specifically permit exclusion of depreciation or amortization from cost of sales and you present gross profit outside of the financial statements, please revise your filings to re-name gross profit with another title that is not confusingly similar to a GAAP measure and revise your filing to provide the non-GAAP disclosures required by Item 10 of Regulation S-K.

Note 27 – Application of Generally Accepted Accounting Principles in the United States of America, page F-40

12. Due to Italian GAAP and US GAAP differences in revenue recognition, accounting for costs paid to resellers, and potential differences in the treatment of amounts that would be operating expenses and included in operating income (loss) under US GAAP, please consider revising this footnote to present condensed financial statements presented in accordance with US GAAP. Please also present sales and operating income (loss) under US GAAP in your selected financial data table on page 3. To the extent that you decide not to provide a reconciliation of sales and operating income (loss) from Italian GAAP to US GAAP in this footnote, please revise the selected financial data table on page 3 to provide a reconciliation of sales and operating income (loss) from Italian GAAP to US GAAP.
13. We note your disclosure on page F-52 that your comprehensive income (loss) as defined in SFAS 130 does not differ from your US GAAP net income (loss). Since other comprehensive income is defined to include the effects of foreign currency translation, please tell us how you determined that there were no differences between your comprehensive income (loss) and net income (loss) under US GAAP. To the extent that you have changed your previous determination about differences between comprehensive income (loss) and net income (loss) under US GAAP, please show us how you will revise future filings to include the disclosures required by paragraphs 14-26 of SFAS 130.

Exhibits

14. Please tell us what consideration you have given to filing material contracts pursuant to Instruction 4 to Exhibits set forth in Form 20-F.
