## ITEM 2. Management's Discussion and Analysis or Plan of Operation

### General

This Form 10-Q contains forward-looking statements. Forward-looking statements include statements concerning plans, objectives, goals, strategies, future events or performance and underlying assumptions that are not statements of historical facts. This document and any other written or oral statements made by us or on our behalf may include forward-looking statements, which reflect our current views with respect to future events and financial performance. The words "believe," "expect," "anticipate," "intends," "estimates," "forecast," "project" and similar expressions identify forward-looking statements. The forward-looking statements in this document are based upon various assumptions, many of which are based on management's discussion and analysis or plan of operations and elsewhere in this report. Although we believe that these assumptions were reasonable when made, these statements are not guarantees of future performance and are subject to certain risks and uncertainties, some of which are beyond our control, and are difficult to predict. Actual results could differ materially from those expressed in forward-looking statements. Readers are cautioned not to place undue reliance on any forward-looking statements, which reflect management's view only as of the date of this report.

### Plan of Operation

The Company's purpose is to seek, investigate and, if such investigation warrants, acquire an interest in business opportunities presented to it by persons or firms who desire to seek the perceived advantages of a publicly registered corporation. The Company will not restrict its search to any specific business, industry, or geographical location and the Company may participate in a business venture of virtually any kind or nature.

The Company may seek a business opportunity with entities which have recently commenced operations, or wish to utilize the public marketplace in order to raise additional capital in order to expand into new products or markets, to develop a new product or service, or for other corporate purposes. The Company may acquire assets and establish wholly-owned subsidiaries in various businesses, or acquire existing businesses as subsidiaries. Business opportunities may be available in many different industries and at various stages of development, all of which will make the task of comparative investigation and analysis of such business opportunities extremely difficult and complex.

Management of the Company, while not especially experienced in matters relating to the new business of the Company, will rely primarily upon their own efforts to accomplish the business purposes of the Company. It is not anticipated that any outside consultants or advisors, other than the Company's legal counsel, will be utilized by the Company to effectuate its business purposes described herein.
