**NOTES TO STATEMENT OF FINANCIAL CONDITION**

---

**NOTE 1. ORGANIZATION AND BUSINESS**

---

VectorGlobal WMG, Inc., (the "Company"), a Delaware corporation, is a wholly owned subsidiary of Vectormex International, Inc. (the "Parent"), which is in turn a wholly owned subsidiary of Vector Casa de Bolsa, S.A. de C.V. (the "Ultimate Parent"), a broker-dealer operating in Mexico.

The Company is registered as a broker-dealer with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority ("FINRA").

The Company's principal business is securities brokerage of primarily U.S. and Latin American securities. These activities are related to the facilitation of transactions for its customers, which include high net worth individuals, institutional investors, and other financial institutions. Customer transactions are introduced to and cleared through clearing and custodial brokers.

---

**NOTE 2. SIGNIFICANT ACCOUNTING POLICIES**

---

***Basis of Presentation***

The Company is engaged in a single line of business as a securities broker-dealer, which comprises several classes of services, including principal transactions, agency transactions, and investment banking.

***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement. Actual results may differ from those estimates.

***Cash and Restricted Cash***

Cash includes highly liquid money markets instruments that can be redeemed on demand or highly liquid debt instruments with a purchased maturity of less than three months. During the course of operations, the Company may maintain cash balances in excess of insured limits, which approximates \$ 715,000 at year-end.

**VECTORGLOBAL WMG, INC.** (a wholly owned subsidiary of Vectormex International, Inc.)  
**NOTES TO STATEMENT OF FINANCIAL CONDITION**

---

**NOTE 2.      SIGNIFICANT ACCOUNTING POLICIES (Continued)**

---

***Cash and Restricted Cash (Continued)***

Restricted cash is subject to a legal or contractual restriction by third parties as well as a restriction as to withdrawal or use, including restrictions that require the funds to be used for a specific purpose and restrictions that limit the purpose for which the funds can be used. The Company considers the cash held on deposit by its clearing-broker to be restricted cash.

***Government and Other Regulation***

The Company's business is subject to significant regulation by various governmental authorities and self-regulatory organizations. Such regulation includes, among other things, periodic examinations by these regulatory bodies to determine whether the Company is conducting and reporting its operations in accordance with the applicable requirements of these organizations.

***Receivable from Broker***

The Company's receivable from Pershing include receivable from unsettled trades. The Company's trades are cleared through Pershing and settled daily between Pershing and the Company. Due to this daily settlement, the amount of unsettled credit exposure is limited to the amount owed to the Company for a short period of time. The Company continually reviews the credit quality of its counterparties.

***Fair Value of Financial Instruments***

Fair values of financial instruments are estimated using relevant market information and other assumptions. Fair value estimates involve uncertainties and matters of significant judgment regarding interest rates, credit risk, prepayments, and other factors, especially in the absence of broad markets for particular instruments. Changes in assumptions or in market conditions could significantly affect the estimate.

**VECTORGLOBAL WMG, INC.** (a wholly owned subsidiary of Vectormex International, Inc.)  
**NOTES TO STATEMENT OF FINANCIAL CONDITION**

---

**NOTE 2.      SIGNIFICANT ACCOUNTING POLICIES (Continued)**

---

***Fair Value Hierarchy***

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- *Level 1.* Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.
- *Level 2.* Inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly or indirectly.
- *Level 3.* Unobservable inputs for the asset or liability.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

***Investment Securities, at Fair Value***

During the year, the Company continued to hold and reinvest in various corporate bonds, diversified among different issuers. The Company may continue to invest available funds in bonds during the coming fiscal year.

As of December 31, 2022, the total fair value of these corporate bonds, diversified among different issues was approximately \$11,930,100. The fair value of these bonds was determined by the most recent transactions in said bonds on the over the counter market at year-end of the fiscal year, making them Level 2 positions.

**VECTORGLOBAL WMG, INC.** (a wholly owned subsidiary of Vectormex International, Inc.)  
**NOTES TO STATEMENT OF FINANCIAL CONDITION**

---

**NOTE 2.      SIGNIFICANT ACCOUNTING POLICIES (Continued)**

---

***Investment Securities, at Fair Value (Continued)***

The Company also continued to maintain investments in various mutual funds. These funds are to remain invested and rebalanced periodically, based on the mutual fund distributions of the Company's model portfolios, as determined by its internal investment committee. As of December 31, 2022, the total fair value of these mutual funds was approximately \$700,500. The fair value of these mutual funds was determined by the quoted prices at the end of the fiscal year, making them Level 1 positions.

The net unrealized and realized losses on investments are included in the statement of operations.

***Due from Related Parties***

Amounts due from related parties are stated at the outstanding balance of funds due for repayment of cash advances and charges for services rendered. The carrying amount may be reduced by an allowance that reflects management's best estimate of the amounts that will not be collected. As management believes that the amounts are fully collectible and are therefore stated at net realizable value, management has not recorded an allowance for doubtful accounts.

***Employee Advances***

The Company offers an incentive to brokers whereby an incremental amount is paid to these brokers for net new assets introduced to the Company in anticipation of the expected revenue to be generated from these assets. These payments are calculated and paid-out on a quarterly basis, and promissory notes are issued against these payments, requiring that the employee remain in good standing with the Company for the life of the promissory note. If the broker violates the terms, the entire amount is immediately due for repayment to the Company. However, if the terms are met, the promissory note is forgiven at expiration. The Company records an asset for these promissory notes and amortizes them until expiration (See Note 7).

***Property and Equipment***

Furniture and fixtures, computer equipment, office equipment and software are carried at cost and are depreciated on a straight-line basis using an estimated useful life of three to five years. Leasehold improvements are amortized on a straight-line basis over the lesser of the estimated useful life of the improvement or the term of the lease.

**VECTORGLOBAL WMG, INC.** (a wholly owned subsidiary of Vectormex International, Inc.)  
**NOTES TO STATEMENT OF FINANCIAL CONDITION**

---

**NOTE 2.      SIGNIFICANT ACCOUNTING POLICIES (Continued)**

---

*Income Taxes*

The Company accounts for income taxes under the liability method whereby deferred tax assets and liabilities are provided for the future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Deferred tax assets, net of a valuation allowance, are recorded when management believes it is more likely than not that the tax benefits will be realized. Realization of the deferred tax assets is dependent upon generating sufficient taxable income in the future. The amount of deferred tax asset considered realizable could change in the near term if estimates of future taxable income are modified.

The Company assesses its tax positions in accordance with "*Accounting for Uncertainties in Income Taxes*" as prescribed by the Accounting Standards Codification, which provides guidance for financial statement recognition and measurement of uncertain tax positions taken or expected to be taken in a tax return for open tax years (generally a period of three years from the later of each return's due date or the date filed) that remain subject to examination by the Company's major tax jurisdictions. Generally, the Company is no longer subject to income tax examinations by its major taxing authorities after three years from the date of filing such income tax returns.

The Company assesses its tax positions and determines whether it has any material unrecognized liabilities for uncertain tax positions. The Company records these liabilities to the extent it deems them more likely than not to be incurred. Interest and penalties related to uncertain tax positions, if any, would be classified as a component of income tax expense. The Company believes that it does not have any significant uncertain tax positions requiring recognition or measurement in the accompanying financial statements.

**VECTORGLOBAL WMG, INC.** (a wholly owned subsidiary of Vectormex International, Inc.)  
**NOTES TO STATEMENT OF FINANCIAL CONDITION**

---

**NOTE 2.      SIGNIFICANT ACCOUNTING POLICIES (Continued)**

---

**LEASE ACCOUNTING**

The Company adopted Accounting Standards Codification 842, Leases ("ASC 842") and determines if an arrangement contains a lease at inception based on whether the Company has the right to control the asset during the control period and other facts and circumstances.

The Company evaluates the classification of leases as operating or finance at inception. Leases that meet one or more of the following criteria will be classified as finance lease:

- The Company can acquire the leased asset at the end of the lease term for a below market price.
- The ownership of the leased asset is transferred to the company at the end of the lease period.
- The duration of the lease encompasses at least 75% of the useful life of the leased assets.
- The present value of the minimum lease payments under the lease represents at least 90% of the fair value of the leased assets.

The Company has determined all leases under which they are the lessee to be operating leases. The Company is the lessee in a lease contract when they obtain the right to control the asset. Operating lease right-of-use ("ROU") assets represent the Company's right to use an underlying asset for the lease term, and the lease liability represents the Company's obligation to make lease payments arising from the lease, both of which are recognized based on the present value of the future minimum lease payments over the lease term at the commencement date. The Company determines the lease term by assuming the exercise of renewal options that are reasonably certain. As most of the Company's leases do not provide an implicit interest rate, the Company uses its approximate incremental borrowing rate of 5.54% for financing over the period of the lease based on the information available at the commencement date in determining the present value of future payments. Leases with a lease term of 12 months or less at inception are not recorded on the Company's statement of financial condition and are expensed on a straight-line basis over the lease term in the Company's statement of operations.

**VECTORGLOBAL WMG, INC.** (a wholly owned subsidiary of Vectormex International, Inc.)  
**NOTES TO STATEMENT OF FINANCIAL CONDITION**

---

*Other Off-Balance Sheet Risks*

The Company may be exposed to off-balance sheet risk in the event the customer or counterparty is unable to fulfill its contractual obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.

In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. The Company has a policy of reviewing, as considered necessary, the credit standing of each counterparty and customer with which it conducts business.

From time to time, the aggregate security positions held by the Company's customers may become concentrated in a particular sovereign country and/or corporate issuer. A significant decline in the value of a concentrated customer securities position could have a material adverse effect on the Company's business if a customer is unable to meet, in whole or part, a margin call from the Company's clearing broker.
