COLE NATIONAL GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(1) Summary of Significant Accounting Policies

Basis of Presentation

Cole National Group, Inc. is a wholly owned subsidiary of Cole National Corporation. The consolidated financial statements include the accounts of Cole National Group and its wholly owned subsidiaries (collectively, the “Company “). All significant intercompany transactions have been eliminated in consolidation.

The accompanying consolidated financial statements have been prepared without audit and certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted, although management believes that the disclosures herein are adequate to make the information not misleading. Results for interim periods are not necessarily indicative of the results to be expected for the full year. These statements should be read in conjunction with the Company’s consolidated financial statements and notes thereto included in its annual report on Form 10-K for the fiscal year ended February 3, 2001.

In the opinion of management, the accompanying financial statements contain all adjustments (consisting only of normal recurring accruals) necessary to present fairly Cole National Group, Inc.’s financial position as of May 5, 2001 and the results of operations and cash flows for the 13 weeks ended May 5, 2001 and April 29, 2000.

Inventories

The accompanying interim consolidated financial statements have been prepared without physical inventories.

Cash Flows

Net cash flows from operating activities reflect net cash payments (receipts) for income taxes and payments for interest of \$380,000 and \$5,620,000, respectively, for the 13 weeks ended May 5, 2001, and (\$61,000) and \$6,173,000, respectively, for the 13 weeks ended April 29, 2000.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Certain information required by this item has been omitted pursuant to General Instruction H of Form 10-Q.

The following is a discussion of certain factors affecting Cole National Group’s results of operations for the 13 week periods ended May 5, 2001 and April 29, 2000 (the Company’s first quarter). This discussion should be read in conjunction with the consolidated financial statements and notes thereto included elsewhere in this filing and the audited financial statements for the fiscal year ended February 3, 2001 included in the annual report on Form 10-K.

Fiscal years end on the Saturday closest to January 31 and are identified according to the calendar year in which they begin. For example, the fiscal year ended February 3, 2001 is referred to as “fiscal 2000.” The current fiscal year, which will end February 2, 2002, is referred to as “fiscal 2001.”

Results of Operations

The following table sets forth certain operating information for the first quarter fiscal 2001 and fiscal 2000 (dollars in millions):

	First Quarter		Change
	2001	2000	
Net revenue:			
Cole Vision	\$216.4	\$206.6	4.7%
Things Remembered	53.9	50.7	6.4
Total net revenue	\$270.3	\$257.3	5.1%
Gross margin	\$183.2	\$171.0	7.1%
Operating expenses	166.1	158.2	5.0
Depreciation and amortization	9.3	9.3	—
Operating income	\$ 7.8	\$ 3.5	126.1%
Percentage of net revenue:			
Gross margin	67.8%	66.4%	1.4
Operating expenses	61.5	61.5	—
Depreciation and amortization	3.4	3.6	(0.2)
Operating income	2.9%	1.3%	1.6
Number of retail locations at the end of the period:			
Cole Licensed Brands	1,186	1,078	
Pearle company-owned	438	447	
Pearle franchised	421	421	
Total Cole Vision	2,045	1,946	
Things Remembered	781	791	
Total Cole National	2,826	2,737	

The increase in consolidated net revenue for the first quarter was primarily attributable to increases in comparable store sales at Cole Vision, an increase in the number of Target Optical locations, additional managed vision care revenue and a shift in the calendar that benefited gift sales at Things Remembered. Changes in comparable store sales by business compared to the same period a year ago were:

	First Quarter
Cole Licensed Brands (U.S.)	4.9%
Pearle company-owned (U.S.)	1.2%
Total Cole Vision	2.7%
Things Remembered	0.1%
Total Cole National	2.1%
Pearle U.S. franchise stores	(1.9)%
Pearle U.S. chain-wide	(0.5)%

At Cole Licensed Brands, the first quarter comparable store sales increase reflected an increase in both the number of transactions and the average spectacle selling price. Sales at Target Optical locations opened since the first quarter 2000 provided an additional \$3.4 million of net revenue. At Pearle, the first quarter company-owned comparable store sales were driven by the average spectacle selling price as a result of not repeating a “50% off frame” promotion that ran during the entire first quarter of fiscal 2000. At Things Remembered, comparable store sales were flat, in part from not repeating February 2000’s aggressive merchandise clearance promotion and from the general slowdown in mall traffic. However, the average selling price increased as a result of sales of new merchandise at higher average unit retails, more personalization and not repeating last year’s promotion. The \$3.2 million increase in total revenue at Things Remembered resulted primarily from a calendar shift due to last year’s 53rd week causing the first quarter of fiscal 2001 to end one week closer to Mothers Day, an important gift giving occasion.

The gross margin dollar increase for the first quarter resulted from improvements in net revenue and gross margin rate at both Cole Vision and Things Remembered. The gross margin rate at Cole Vision improved 0.9 percentage points compared to the first quarter 2000. The primary causes for the improvement were the increased average spectacle selling price at Cole Licensed Brands and Pearle, and the additional revenue from managed vision care. The gross margin rate at Things Remembered increased 1.8 percentage points compared to first quarter 2000 reflecting the improvement in average selling price due in part to not repeating last year’s aggressive clearance promotion.

The increase in operating expenses for the first quarter was primarily due to costs incurred to support the increase in net revenue and the Target Optical expansion. Operating expenses as a percentage of net revenue were essentially flat between years. However, first quarter 2000 included a \$1.8 million charge for severance costs recorded in connection with a headcount reduction at Cole Vision. Excluding last year’s severance charge, operating expenses as a percentage of net revenue increased 0.7 percentage points for the first quarter of 2001. The increase in operating expenses as a percentage of net revenue was primarily attributable to a 1.0 percentage point increase in payroll costs and a 0.2 percentage point increase in store occupancy costs partially offset by improved leverage in systems costs and other operating expenses. The increase in payroll as a percentage of net revenue reflected additional payroll costs incurred for training, improving customer satisfaction and selling and for the Target Optical expansion. The leverage loss in store occupancy costs was also a result of the Target Optical expansion.

The increase in operating income was primarily attributable to the increase in net revenues and gross margin rates at both Cole Vision and Things Remembered, and to the severance charge included in fiscal 2000 results, which are discussed above. During the first quarter of fiscal 2001, 22 Target Optical locations were opened, bringing the total number to 139. The Company’s profit improvement for the first quarter was achieved after absorbing the increased losses from the continued expansion of Target Optical. While progress is being made, there is still much work to be done to build this start-up into an efficient and profitable chain.

The decrease in interest and other (income) expense, net, was primarily the result of a \$0.7 million gain from the sale of a Dallas facility no longer needed for Pearle’s operations. An income tax provision (benefit) was recorded in the first quarter of fiscal 2001 and fiscal 2000 using the Company’s estimated annual effective tax rates of 70% and 59%, respectively. The increase in rate approximates the full year effective rate realized in fiscal 2000.

Forward-Looking Information

Certain sections of this Form 10-Q Report, including this Management’s Discussion and Analysis, contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those forecasted due to a variety of factors that can adversely affect the Company’s operating results, liquidity and financial condition such as risks associated with the timing and achievement of improvements in the operations of the optical business, the success of new store openings and the rate at which new stores achieve profitability, the Company’s ability to select, stock and price merchandise attractive to customers, success of systems development and integration, competition in the optical industry, integration of acquired businesses, economic and weather factors affecting consumer spending, operating factors affecting customer satisfaction, including manufacturing quality of optical and engraved goods, the Company’s relationship with host stores and franchisees, the mix of goods sold, pricing and other competitive factors, and the seasonality of the business. Forward-looking statements are made based upon management’s expectations and beliefs concerning future events impacting Cole National Group, Inc. All forward-looking statements involve risk and uncertainty.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company is exposed to market risk from changes in foreign currency exchange rates, which could impact its results of operations and financial condition. Foreign exchange risk arises from the Company’s exposure in fluctuations in foreign currency exchange rates because The Company’s reporting currency is the United States dollar. Management seeks to minimize the exposure to foreign currency fluctuations through natural internal offsets to the fullest extent possible.
