The following table sets forth selected consolidated financial information with respect to the Company for the periods indicated and is extracted from the more detailed consolidated financial statements included herein. The selected financial data set forth below for the five years ended December 31, 2002 are derived from audited financial statements, and are stated in Canadian dollars. (On December 31, 2002, the noon buying rate as quoted by the Federal Reserve Bank of New York was 0.666 Canadian dollars per one US\$.) The selected financial data have been prepared in accordance with Canadian generally accepted accounting principles ("Canadian GAAP"), which differ in many respects from generally accepted accounting principles in the United States ("U.S. GAAP"). A discussion of measurement differences between Canadian GAAP and U.S. GAAP is contained in Note 15 to the consolidated financial statements. The following table should be read in conjunction with "Item 5: Operating and Financial Review and Prospects", and the consolidated financial statements and related notes included herein in Item 8.

D. Risk Factors

The following is a brief discussion of those distinctive or special characteristics of Aurizon's operations and industry, which may have a material impact on, or constitute risk factors in respect of Aurizon's financial performance.

Ability to Continue Operations

The Company relies on the Sleeping Giant Mine as its only current source of operating cash flow. Production based on current mineral reserves is expected to continue for approximately three years, although this is an estimated figure that may be subject to change. Additional production and, in turn, the results of the Company, will be dependent on the results of future exploration and development programs and its ability to discover new mineral reserves. On December 23, 2002, the Company completed an equity financing totaling \$8 million that will be used to fund an underground exploration program at the Company's Casa Berardi property and for working capital purposes. Management estimates that this financing, together with anticipated cash flow from the Sleeping Giant Mine, will provide sufficient working capital to meet its planned operating and capital expenditures for the 2003 fiscal year, but cannot provide any assurance that these sources will adequately fund its capital and operational requirements or that alternative financing will be available, if required. Please refer to "Item 11: Quantitative and Qualitative Disclosures about Market Risk".

Gold Price Volatility

The Company's results are highly sensitive to changes in the price of gold. Gold prices fluctuate and are affected by numerous factors, including expectations with respect to the rate of inflation, exchange rates, interest rates, global and regional political and economic crises and governmental policies with respect to gold holdings by central banks. The demand for and supply of gold affects gold prices but not necessarily in the same manner as demand and supply affect the prices of other commodities. The supply of gold consists of a combination of mine production and existing stocks of bullion and fabricated gold held by governments, public and private financial institutions, industrial organizations and private individuals. The demand for gold consists of jewelry and investment demand.

The volatility of gold prices is illustrated by the following table of the high, average and low gold prices per ounce on the London Metals Exchange bullion market. (Source of Data - Gold Fields Mineral Services Ltd. and the London Bullion Market Association (LBMA))

Year	High	Average	Low
	U.S.\$	U.S.\$	U.S.\$
1993	\$408	\$360	\$326
1994	\$396	\$384	\$370
1995	\$396	\$384	\$372
1996	\$415	\$388	\$367
1997	\$362	\$331	\$283
1998	\$313	\$294	\$273
1999	\$325	\$279	\$253
2000	\$313	\$264	\$279
2001	\$293	\$271	\$256
2002	\$349	\$310	\$278

On May 13, 2003, the afternoon fixing for gold on the London Metals Exchange was US\$350 per ounce. Gold prices on the London Metals Exchange are regularly published in most major financial publications and many nationally recognized newspapers. There can be no assurance that the price of gold will be such that the Company's properties can be mined at a profit.

Mining Risks and Insurance

The business of gold mining is subject to certain types of risks and hazards, including environmental hazards, industrial accidents, unusual or unexpected changes to rock formations, changes in the regulatory environment, cave-ins and flooding and gold bullion losses. Such occurrences could result in damage to, or destruction of, mineral properties or production facilities, personal injury or death, environmental damage, delays in mining, monetary losses and possible legal liability. Any payments made with regards to such liabilities may have a material adverse effect on Aurizon's financial position. The Company carries insurance to protect itself against certain risks of mining and processing in amounts that it considers to be adequate but which may not provide adequate coverage in certain unforeseen circumstances. In addition, the Company may become subject to liability for pollution, cave-ins, or other hazards against which it cannot insure or against which it may elect not to insure because of high premium costs or other reasons or the Company may become subject to liabilities that exceed policy limits. In such cases, the Company may be required to incur significant costs that could have a material adverse effect upon its financial performance and results of operations.

Uncertainty of Mineral Reserves

Although the Company has carefully prepared the mineral reserves figures included herein and believes that the method of estimating mineral reserves has been verified by mining experience and production history, such figures are estimates, and no assurance can be given that the indicated gold will be produced. In addition, mineral reserve grades, mill recoveries and tonnage actually realized by the Company may differ from estimates.

The Company's mineral reserves consist of the estimated quantities of mineralized material which, on the basis of geological and engineering data, can be demonstrated with a reasonably high degree of certainty to be recoverable by established mining and treatment methods. Only that material estimated to contain mineral values in excess of cutoff grades required to cover the cost of estimated mining operations is included.

The Company adjusts its mineral reserves annually by the amount extracted in the previous year, by the additions and deletions resulting from new geological information and interpretation, and from changes in operating costs and metal prices. Mineral reserves are not revised in response to short-term cyclical price variations in metal markets.

Short-term factors relating to the mineral reserves, such as the need for orderly development of ore bodies or the processing of new or differing grades, may impair the profitability of a mine in any particular accounting period.

Replacement of Mineral Reserves

There are a number of uncertainties inherent in any program relating to the location of economic mineral reserves, the development of appropriate metallurgical processes, the receipt of necessary governmental permits and the construction of mining and processing facilities and the appropriate financing thereof. Accordingly, there can be no assurance that the Company's programs will yield new mineral reserves to replace mined reserves and to expand current mineral reserves.

Exploration Programs; Financing

There are mineral reserves on Aurizon's Sleeping Giant and Casa Berardi properties, but Aurizon may carry out further exploration on these properties with the objective of establishing additional economic mineral reserves. Exploration for minerals is a speculative business necessarily involving a high degree of risk. It is not known if the expenditures to be made by Aurizon on its mineral properties will result in discoveries of commercial mineral reserves. If Aurizon's efforts are not successful at individual properties, the expenditures at those properties will be written off. If Aurizon's exploration programs are successful, additional funds may be required for the development of economic mineral reserves in order to achieve commercial production. In addition, the exploration and development of Aurizon's properties may depend upon Aurizon's ability to obtain financing through the joint venturing of projects, sale of property interests, debt financing, equity financing or other means. There is no assurance that Aurizon will be successful in obtaining the required financing on commercially reasonable terms, or at all. The inability of the Company to obtain necessary financing could have a material adverse effect on the Company's ability to explore and develop its properties.

Government Permits

In the ordinary course of business, mining companies are required to seek governmental permits for expansion of existing operations or for the commencement of new operations. Obtaining the necessary governmental permits is a complex and time-consuming process involving numerous jurisdictions and often involving public hearings and costly undertakings on the part of the Company. The duration and success of permitting efforts are contingent upon many variables not within the Company's control. Environmental protection permitting, including the approval of reclamation plans, may increase costs and cause delays depending on the nature of the activity to be permitted and the interpretation of applicable requirements implemented by the permitting authority. There can be no assurance that all necessary permits will be obtained and, if obtained, that the costs involved will not exceed those previously estimated by the Company. It is possible that the costs and delays associated with the compliance with such standards and regulations could become such that the Company would not proceed with the development or operation of a mine or mines.

Regulations and Mining Law

The Company's mining operations and exploration activities are subject to extensive federal, provincial, state and local laws and regulations governing exploration, development, production, exports, taxes, labor standards, occupational health and safety, solid and hazardous waste handling and disposal, monitoring, protection and remediation of the environment, reclamation, mine safety, toxic substances, air and water quality and other matters. Compliance with such laws and regulations increases the costs of planning, designing, drilling, developing, constructing, operating and closing mines and other facilities. It is possible that the costs and delays associated with compliance with such laws and regulations could become such that the Company would not proceed with the development or continue the operation of a mine or mines.

The Company has expended significant resources, both financial and managerial, to comply with environmental protection laws, regulations and permitting requirements and the Company anticipates that it will continue to do so in the future. The Company believes that it is currently in substantial compliance with environmental laws and regulations. There can be no assurance that additional significant costs and liabilities will not be incurred to comply with current and future requirements. Moreover, it is possible that future developments, such as increasingly strict environmental protection laws, regulations and enforcement policies thereunder, and claims for damages to natural resources, property and persons resulting from the Company's operations, could require the Company to modify or curtail its operations or could result in substantial costs and liabilities.

Reclamation Obligations

Reclamation requirements may change and do vary depending on the location and the government regulatory body, but they are similar in that they aim to minimize long term effects of exploration and mining disturbance by requiring the operating company to control possible deleterious effluents and to re-establish to some degree pre-disturbance land forms and vegetation.

All of the Company's operations are subject to reclamation, site restoration and closure requirements. Costs related to ongoing site restoration programs are expensed when incurred. A provision for mine closure and site restoration costs is charged to earnings (loss) over the lives of the mines on a unit-of-production basis and in the case where the Company has assumed an obligation, the liability is recorded at its estimated value. The Company calculates its estimates of the ultimate reclamation liability based on current laws and regulations and the expected future costs to be incurred in reclaiming, restoring and closing its operating mine sites. It is possible that the Company's estimate of its ultimate reclamation liability could change in the near term due to possible changes in laws and regulations and changes in cost estimates.

Title to Properties

While the Company has verified title to its properties according to usual industry standards for the stage of exploration of such properties, these procedures do not guarantee the Company's title. Aurizon has not obtained title reports with respect to certain of its mineral properties and such properties may be subject to prior unregistered agreements or transfers or aboriginal land claims, and title may be affected by undetected defects.

Market Risk

Foreign Exchange and Currency Fluctuations

Currency fluctuations may affect the cash flow which the Company will realize from its operations since its products are sold in world markets in United States dollars and a significant portion of the Company's operating costs are incurred primarily in Canadian dollars. Although the Company has hedging programs in place to reduce certain risks associated with foreign exchange exposure, there can be no assurance that such hedging strategies will be successful or that foreign exchange fluctuations will not materially adversely affect the Company's financial performance and results of operations. Please refer to "Item 11: Quantitative and Qualitative Disclosures about Market Risk".

Price Volatility

The Company regularly enters into commodity contracts to mitigate the risk associated with price volatility of the commodities. The Company enters into contracts to provide a minimum price for anticipated future gold production, primarily through the use of option and spot deferred contracts for gold.

Realization under the hedge contracts is dependent upon the ability of the counterparties to perform in accordance with the terms of the contracts; however, the Company's credit risk is limited to unrealized gains existing at any time. The Company attempts to minimize its credit exposure by spreading its exposure among several counterparties.

Competition to Acquire Gold Mining Properties

Significant and increasing competition exists for the limited number of opportunities to acquire gold mining properties in Canada, the U.S. and elsewhere. As a result of this competition, some of which is with large established mining companies having substantial capabilities and greater financial and technical resources than the Company, the Company may be unable to acquire future potential gold mining properties on terms it considers acceptable.

Conflicts of Interest

Certain of the directors of Aurizon are also directors and officers of other companies engaged in mineral exploration and development and mineral property acquisitions. Accordingly, mineral exploration opportunities or prospects of which such persons become aware will not necessarily be made available to Aurizon. The directors and officers intend, however, to allocate these to such companies on the basis of prudent business judgment and the relative financial abilities and needs of the companies to participate. Although such persons have been advised of their fiduciary duties to Aurizon, there exist actual and potential conflicts of interest among these persons and situations could arise in which their obligations to or interests in other companies could detract from their efforts on behalf of Aurizon.

Dependence on Key Personnel

Aurizon's President and Chief Executive Officer, David P. Hall, and its Executive Vice-President and Chief Financial Officer, Ian S. Walton, are instrumental in the management and day to day operations of the Company. David P. Hall is a Chartered Accountant who has been a Director and Officer of Aurizon since its incorporation in 1988. Ian S. Walton is also a Chartered Accountant who has been an Officer of Aurizon since its incorporation in 1988 and a Director since 1993. We depend on key personnel and cannot assure you that we will be able to retain such personnel. Our failure to retain such key personnel could have a material adverse effect on our business and financial condition.

Enforceability of Certain Civil Liabilities

Aurizon is incorporated under the *British Columbia Company Act* (the "BCCA") and all of its assets are located outside the United States. All of Aurizon's directors and officers reside outside the United States, and most of their assets are located outside the United States. Therefore, it may be difficult for U.S. investors to sue Aurizon or its directors, officers, controlling persons, accountants or attorneys. If a lawsuit is successful, it may be difficult to collect any money awarded.

ITEM 4: INFORMATION ON THE COMPANY

A. History and Development of the Company

Aurizon was incorporated on April 8, 1988 under the name 343318 B.C. Ltd., by filing a memorandum and articles with the Registrar of Companies under the BCCA. On August 10, 1988, Aurizon's name was changed to "Aurizon Mines Ltd." in its English form and "Mines Aurizon Ltee." in its French form. Pursuant to a statutory arrangement (the "Arrangement") carried out under section 276 of the BCCA, Aurizon acquired all of the assets and assumed all of the liabilities of two predecessor companies, D'Or Val Mines Ltd. ("D'Or Val") and Perron Gold Mines Ltd. ("Perron"), effective as at August 24, 1988. Under the Arrangement, shareholders of D'Or Val received 0.4167 shares of Common Stock of Aurizon for each share of D'Or Val held, and shareholders of Perron received 0.5 shares of Common Stock of Aurizon for each share held. D'Or Val and Perron were both reporting companies under applicable Canadian securities laws at the time of the Arrangement. The shares of D'Or Val were listed for trading on the Toronto, Montreal and Vancouver Stock Exchanges, and the shares of Perron were listed for trading on the Montreal and Vancouver Stock Exchanges. Pursuant to the Arrangement, D'Or Val and Perron were amalgamated as "Amalgamated D'Or Val Perron Mines Ltd." immediately prior to the transfer of their assets to Aurizon, and the amalgamated company was then dissolved without winding up under the court order giving effect to the Arrangement.

Divestitures by Aurizon within the last three years include the sale in May, 2001, of its Beaufor Mine and Perron Property for proceeds of \$1,660,000 and a gold-indexed royalty on future production. Aurizon also sold the Beacon Mill, an idle mill facility, in November, 2001 for \$100,000 after recovering \$620,000 worth of gold from the circuits.

During the past three years, the Company's major capital and exploration spending programs have occurred at the Casa Berardi and Sleeping Giant mines. At Casa Berardi, the Company has invested \$7.1 million during this period, while at the Sleeping Giant Mine, \$6.6 million has been invested in exploration, development and capital expenditures. These programs were financed from 2000 opening cash balances, positive operating cash flow generated in 2000 and 2002, and from three equity financings completed in 2002 totaling \$20 million.

The head office and principal office address of Aurizon is located at Suite 900 - 510 Burrard Street, Vancouver, British Columbia, V6C 3A8, Canada, telephone (604) 687-6600.

B. Business Overview

Aurizon is a Canadian-based gold mining company with operations and exploration activities in the gold producing Abitibi region of north-western Québec. There is no seasonality to the Company's gold mining business. Aurizon owns 50% of the Sleeping Giant Mine and owns 100% of the Casa Berardi Property, all of which are located in the Abitibi region. On May 1, 2001, Aurizon completed the sale of its 50% joint venture interest in the Beaufor Mine and Perron property to Richmond Mines Inc. for proceeds of \$1,660,000 and a gold-indexed royalty on future production. See "Item 4: Information on the Company, D. Property, Plants and Equipment – Beaufor Mine".

Aurizon's properties are at various stages of exploration and development. Mineral reserves have been estimated for the Sleeping Giant Mine, which is in production, and the Casa Berardi property, upon which an internal feasibility study has been completed. A detailed description of each of these properties is found under "Property, Plants and Equipment" in "Item 4, Information on the Company".

All revenue during the past three years has been from operations at the Sleeping Giant and Beaufor mines, with the exception of gold recoveries from idle mill facilities.

Interests in properties other than those described in Item 4 below have, at various times, been acquired; however, projects where exploration programs did not produce encouraging results have been abandoned and the associated costs written off. A description of the Company's properties and its operations at such properties is found under the heading "Property, Plants and Equipment" in Item 4 herein. Gold can be readily sold on numerous markets throughout the world and it is not difficult to ascertain its market price at any particular time. Gold dore bars that may be produced by the Company's mining operations are being and will continue to be refined by commercial refineries and the gold and silver produced is subsequently sold by the Company on the basis of the quoted selling prices of gold and silver on the applicable metals exchange on the date of sale. The Company believes that because of the availability of refiners, each able to supply all services that would be required by the Company, no material adverse effect would result if the Company lost the services of its current refiners.

Because of the large number of available gold purchasers, the Company believes that it is not dependent upon the sale of gold to any one customer, the loss of which would have a material adverse effect on the business of the Company.

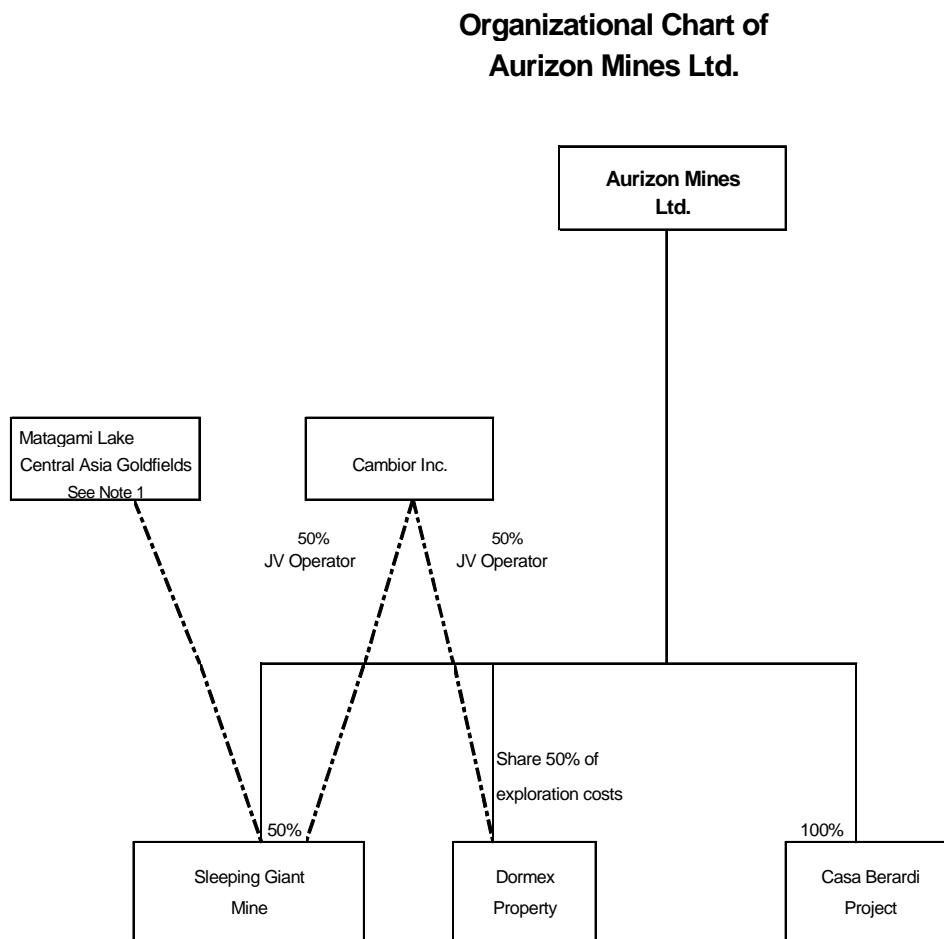

A statement regarding the Company's competitive position is disclosed in "Item 3: Key Information", under "Competition to Acquire Gold Mining Properties" of the section titled "Risk Factors".

A description of the material effects of government regulations on the Company's business is disclosed in "Item 3: Key Information", under "Government Permits" and "Regulations and Mining Law" in the section titled "Risk Factors".

Aurizon intends to continue to grow through the development of its current mineral properties. Aurizon has experienced technical personnel in Val d'Or, Québec. Exploration activities are conducted directly by Aurizon's staff or by persons specifically engaged for a particular activity. Subcontractors, under the supervision of Aurizon's geologists, are usually engaged to carry out the more involved stages of Aurizon's exploration programs on potential prospects, such as drilling.

C. Organizational Structure

The following chart sets out Aurizon's corporate structure and the mineral properties owned.

Note 1: Net Profit Interest's (NPI) are payable to the following companies, however, no payments are expected in the foreseeable future due to the significant costs accumulated in both of the respective royalty accounts:
Matagami Lake Exploration Ltd.: 15% NPI on the greater part of the Sleeping Giant Mine property.
Central Asia Goldfields Corporation: 2% royalty on Gross Operating Income.

D. Property, Plants and Equipment

Sleeping Giant and Dormex Properties, Québec

Sleeping Giant Mine

The Sleeping Giant Mine recommenced commercial operations in July, 1993 and has produced 568,945 ounces of gold from July, 1993 to December 31, 2002.

Location and Ownership

The Sleeping Giant Mine is an underground mine which is located 80 kilometers north of the town of Amos in north-western Quebec. Highway 109, which connects Amos and Mattagami, runs through the property. The property covers an area of 2,596 hectares comprising three mining leases and 63 mineral claims.

The Company owns a 50% interest (subject to certain royalty interests described below) in the Sleeping Giant Mine, related mill facilities and property pursuant to an agreement (the “Cambior Agreement”) with Cambior Inc. (“Cambior”), and Cambior owns the remaining 50% interest. Title to the Sleeping Giant Mine property is subject to a 2% royalty on gross operating earnings held by Central Asia Goldfields Corporation (“Central Asia”) and a 15% net profit interest held by Mattagami Lake Exploration Ltd. (“Mattagami”) on the greater part of the Sleeping Giant Mine property. Royalty payments are not expected in the foreseeable future due to the significant costs accumulated in the royalty accounts.

During 1998, the Company issued convertible debentures secured by its 50% interest in the Sleeping Giant Mine.

Cambior is the operator of the Sleeping Giant Mine Property pursuant to the terms of the Cambior Agreement.

History and Feasibility Study

Initial exploration on the Sleeping Giant property was conducted by Mattagami in 1976. In 1983, Perron, a predecessor company of Aurizon, optioned the property from Mattagami and, in 1985, owned a 100% interest in the property, subject to a 15% net profits interest, by incurring exploration expenditures of \$2 million and making a cash payment of \$500,000 to Mattagami. (See “History and Development of the Company” under Item 4, “Information on the Company”.) Between 1984 and 1987, sufficient mineral reserves had been outlined to begin development work. Commercial production began in 1988, however reserve depletion resulted in a shutdown of operations in 1991.

On June 26, 1990, the Company signed an agreement with Cambior whereby Cambior acquired a 50% interest in the Sleeping Giant Mine by incurring total exploration and development expenditures of \$12 million; and a 50% interest in property surrounding the minesite referred to as the “Dormex Property,” subject to incurring expenditures of \$1.5 million by July, 1994.

An exploration and development program funded by Cambior during 1991-1993 led to the delineation of additional mineral reserves and to Cambior’s acquisition of a 50% interest in the property. Cambior completed a feasibility study in July, 1992. During pre-production, Cambior refurbished the mill and completed drift development, stope preparation and purchased new underground equipment, necessary for the resumption of mining. Commercial operations recommenced in July, 1993.

Geology

Gold mineralization at Sleeping Giant occurs with sulfides in quartz veins, which cut a series of volcanic and intrusive rocks within the Abitibi Belt. Unlike most large gold deposits in the Abitibi Belt, the Sleeping Giant ore body is not within a major shear zone.

The mine contains two major sets of veins located on either side of a dacite intrusive. The gold veins differ significantly in orientation and dimension with respect to their position relative to the intrusive. To the north of the intrusive, the veins are oriented east-west and dip sharply (65° - 75°) to the south. The veins are continuous over 700 metres vertically and 300 metres horizontally. The vein systems to the south of the intrusive are more complex and are composed of four groups of veins. The best structure to the south is Zone 8, which now has been extended over 500 metres vertically and 500 metres horizontally. These veins show a progressive change in orientation and tend to be less continuous than the veins on the north side of the intrusive.

The veins north of the intrusive dip 65° to 75° south, and average about 30 to 50 cm in thickness while the veins south of the intrusive average 15-20 cm in thickness and dip about 35° to 55° . The veins are composed primarily of quartz, with an average of 25% pyrite and pyrrhotite, plus minor chalcopyrite and sphalerite. Vein material commonly carries more than 100 grams/tonne gold, but because of dilution by near-barren wallrock, ore averages about 11 grams/tonne.

Mining of the Deposit

The mine operates on a 5 days per week schedule while the mill operates on a 4 - 5 days per week basis. Access to the Sleeping Giant mine is by the No. 2 shaft (857 metres depth). To date, 14 levels on 60 metre intervals have been developed from the shaft into the ore zones. The No. 1 shaft (281 metres depth) was the original exploration shaft for the Sleeping Giant mine, however it is now used only as a ventilation raise.

Given the ore's physical characteristics, shrinkage stoping has historically been used for mining operations; however, long-hole stoping has been applied in certain sectors of the ore body in order to improve overall productivity. Room and pillar mining methods are also used for ore zones that dip less than 40 degrees. Shrinkage stopes are mined using handheld drills and mucking machines (rail-mounted and rubber-tired). Ore is loaded into rail cars, hauled to the ore pass and hoisted to the surface. Each ore block is developed with at least one raise, which is driven by conventional methods. Approximately twenty-five stopes are in operation in order to maintain a production schedule of approximately 160,000 tonnes annually with the balance of ore provided from drift and raise development headings. Stopes are not backfilled as ground conditions in the mine are excellent.

Approximately 250 - 275 people are employed at the mine, of which the majority are unionized hourly employees. A collective agreement covering the period from August 1, 2002 to July 31, 2007 exists between Cambior and the United Steelworkers of America. Cambior's Val d'Or office provides selected administrative and technical services.

Mine Infrastructure

The Sleeping Giant property includes a mill, head-frame, pumping station, electrical substation, tailings pond, warehouse, administration building, maintenance and electrical shops and assay lab. Hydro Québec provides electrical power.

The Sleeping Giant mill processes approximately 800-900 tonnes/day (design capacity of 900 tonnes/day) on a 4-5 days per week basis. Ore is crushed in a series of cone crushers and fed to a rod mill and two ball mills. The ore is leached with cyanide in a standard carbon-in-leach (CIL) plant and gold is recovered in the electrowinning circuit.

Underground infrastructure includes maintenance areas, ore and waste passes, and a hydraulic rock breaker and grizzly located on Level 785. Loading pockets are located 27 metres below the grizzly.

The 2002 and 2001 operating costs have been converted into US\$ at the Bank of Canada noon rates of CDN\$1.5704 and CDN\$1.5484 to US\$1.00, respectively, the average exchange rates for 2002 and 2001.

Mineral Reserves

The following table reflects the Company's 50% interest of the fully diluted proven and probable mineral reserves at the Sleeping Giant Mine. The mineral reserves were determined by Cambior's technical personnel, using a gold price of US\$325 per ounce. With respect to National Instrument 43-101 of the Canadian Securities Administrators, the "qualified persons" responsible for the mineral reserve calculations are F. Blanchet and D. Vallieres, Chief Geologist and Chief Engineer, respectively, at the Sleeping Giant Mine. Cambior is the operator of the Sleeping Giant Mine and has a 50% interest in the mine. Although the mineral reserve figures presented below and elsewhere in this document have been carefully prepared and verified and the Company believes that the method of estimating mineral reserves has been verified by mining experience, such figures are estimates, and no assurance can be given that the indicated level of gold will be produced.

⁽¹⁾ The mineral reserves represent mine grades and do not reflect losses incurred in the recovery process. Recovery rates since 1993 have averaged 96%. High grade assays have been reduced to grades varying from 1.6 ounces/ton to 7.3 ounces/ton depending upon the particular ore structure. Based on mining experience, an allowance for mining dilution of 15% at 0 grade has been made. A cutoff grade varying from 0.25 ounces/ton to 0.27 ounces/ton, depending on the mining method, was used to estimate mineral reserves.

⁽²⁾ The summation is appropriate as the difference in assurance between proven and probable mineral reserves cannot be readily defined.

⁽³⁾ Mineral reserves were calculated by the technical personnel of the Sleeping Giant mine under the supervision of Francois Blanchet, P. Eng., Chief Geologist and Daniel Vallieres, P. Eng., Chief Engineer of the Sleeping Giant Mine using a long-term gold price of US\$325 per ounce.

Exploration

More than 68,000 metres of exploration and reserve development drilling, together with nearly 1,400 metres of development drifting were completed in 2002 as part of the capital investment necessary to sustain operations. Aurizon's share of these expenditures totaled \$2.7 million. These significant expenditures resulted in the discovery of new mineral reserves that replaced 95% of the gold produced in 2002. Furthermore, the average grade of the mineral reserves increased at year end by 7.5% to 12.8 grams of gold per tonne.

The exploration drill program in 2002 and early 2003 has also identified the extension of certain mineralized zones below the 785 metre level, the lowest level in the mine. A new mineral reserve calculation as of February 1, 2003, reflects a 3% increase in mineral reserves from those determined at the end of 2002.

As a result of the discovery of these extensions of the mineralized zones, a decision was made in March 2003, to deepen the current mine shaft by 200 metres to a depth of 1,060 metres. The total investment will be in the order of \$7 million, of which \$3.5 million is Aurizon's share. These expenditures will be incurred between the first quarter of 2003 and the third quarter of 2004. The investment also includes lateral and vertical development, the establishment of diamond drill stations to verify the potential extensions of currently known mineralized zones or new mineralized zones below level 785, as well as the purchase of equipment. Shaft deepening and development work is not expected to disturb the scheduled production rate of the Sleeping Giant mine.

The shaft deepening will permit access to 77,000 tonnes (Aurizon's 50% share – 38,500 tonnes) of probable mineral reserves at a grade of 12.2 grams of gold per tonne.

Outlook

Aurizon's share of targeted production from Sleeping Giant for 2003 is 30,500 ounces of gold at an estimated total cash cost of US\$258 per ounce. The 2003 mine plan anticipates mill throughput of approximately 160,000 tonnes at an average gold grade of 12 grams per tonne.

A 56,000 metre drill program to test the depth extensions of the mineralized zones and other high potential sectors of the mine, in order to increase mineral reserves and resources, is scheduled in 2003.

Dormex Project

The Company owns a 50% interest in the Dormex Project, comprising 101 mineral claims, that surrounds the Sleeping Giant Mine. Cambior Inc. owns the remaining 50% interest in the Project. All costs relating to the Dormex property are shared on a 50/50 basis.

There has not been any significant exploration activity on the Dormex Project since the completion of a limited exploration program in 1996. The property is without known mineral reserves and all programs to date have been of an exploratory nature only.

During 2001, the Company wrote down its investment in the Dormex property from \$1,073,817 to nil.

Beaufor Property, Québec

Location and Ownership

The Beaufor Mine, situated 16 kilometers east of Val d'Or, Quebec, is comprised of 12 mineral claims, one mining lease and one mining concession with a combined area of approximately 92 acres in Pascalis and Senneville Townships. Access to the property is by a gravel road, which connects to highway 117.

On April 5, 2001, Aurizon entered into an agreement with Richmond Mines Inc. ("Richmont"), whereby Richmont acquired Aurizon's 50% interest in the Beaufor Mine and Aurizon's 100% interest in the adjacent Perron Property. The sale was completed on May 1, 2001. Consideration comprised a cash payment of \$1,660,000 and a gold-indexed royalty on future production from the Beaufor Mine and Perron Property, payable as follows:

- (1) on the first 220,000 ounces of production, Aurizon will receive royalty payments of \$5 per ounce on 50% of the ounces produced (i.e. 110,000 ounces) if the prevailing gold price per ounce is between US\$280 and US\$300. If the prevailing gold price is US\$300 per ounce or higher, the royalty increases to \$12.50 per ounce;
- (2) on future production in excess of 220,000 ounces from the Beaufor Mine, Aurizon will receive a royalty which escalates from \$17 per ounce at a gold price of US\$300 per ounce to a maximum of \$30 per ounce at gold prices in excess of US\$500 per ounce, on 50% of the ounces produced. This royalty will also be payable on 100% of any future production from the Perron Property.

The Beaufor Mine was held under a 50/50 joint venture with Louvem Mines Inc., a publicly-held company whose shares trade on the TSX Venture Exchange.

Operations at the Beaufor Mine were suspended on August 24, 2000 due to concerns about the stability of the surface and shaft pillars. Richmont performed the necessary work to secure the Mine in 2001 and, after receiving the necessary approvals, resumed commercial production in January, 2002. Richmont expects to produce approximately 56,000 ounces of gold from the Beaufor Mine in 2003. Richmont has estimated Beaufor's proven and probable mineral reserves at December 31, 2002, to approximate 1,116,000 tons of ore grading 0.22 ounces of gold per ton, or 246,000 ounces of gold.

Casa Berardi Property

Location and Ownership

The Casa Berardi Property extends across six townships from northeastern Ontario into northwestern Quebec. The property is approximately 37 kilometers long in an east-west direction and averages about 3.5 kilometers in width, covering a surface area of almost 13,000 hectares. The property is located 95 kilometers north of La Sarre, Quebec. Access to the property is by gravel road, which connects to highway 393.

During 1998, the Company acquired a 100% interest (subject to a royalty interest described below) in the Casa Berardi property which comprises 812 mineral claims, two mining leases and all of the existing infrastructure. The Company paid \$2 million and agreed to pay an additional \$4 million on the earlier of August 27, 2001 or at the start of commercial production, and a 2% to 4% gold indexed net smelter royalty, to a maximum of \$10 million. In addition, the Company assumed a liability for reclamation work, estimated at \$1,555,000.

On July 5, 2001, the Company entered into an agreement to defer the outstanding payment of \$4 million related to the acquisition of the Casa Berardi property for two years until August, 2003. In consideration, Aurizon issued one million (1,000,000) common shares and issued an additional 960,153 common shares in payment of interest at 10% per annum on the outstanding payment, which was secured by a lien on the buildings, machinery and equipment at Casa Berardi. See Exhibit 4.1, the Debt Deferral Agreement.

On July 5, 2002, Aurizon exercised its right of first refusal to match a third party offer, and acquired TVX Gold Inc.'s residual interest in the Casa Berardi property, which comprised an outstanding payment of \$3.9 million and a gold indexed net smelter royalty, for cash consideration of \$5 million.. As a result, Aurizon now owns a 100% unencumbered interest in Casa Berardi.

The two mining leases were issued by the Quebec Ministry of Natural Resources. Mining lease 768 covers 367 hectares and expires on April 28, 2008 and mining lease 833 covers 84 hectares and expires in 2015. Taxes for the mining leases approximate \$18,000 per year.

History

Previous production at the Casa Berardi underground mine began at the East mine in September 1988 and at the West mine in April 1990. Mining operations were performed from ramps accessing the upper part of the deposits at the East and West mines, from which a total of 3.7 million tonnes, at an average gold grade of 6.7 grams per tonne, were extracted between 1988 and 1997 to produce 688,000 ounces of gold. The gold distribution at Casa Berardi is approximately 6,200 ounces per vertical metre, which compares very favourably with major gold mines in the Abitibi belt. The mine closed in the spring of 1997 and the Company acquired the mine in August 1998.

Exploration and Internal Feasibility Study

The Company conducted an extensive exploration program (76,500 metres of diamond drilling) at the West mine area from October, 1998 to August 1999. In early 2000, the Company, with the assistance of several independent consultants, completed an economic evaluation of the West Mine area measured and indicated resources in a report titled "Feasibility Study, Casa Berardi Project", dated March 15, 2000. This evaluation established mineral reserves as follows:

CASA BERARDI MINE – MINERAL RESERVES ⁽¹⁾

December 31, 2002

CATEGORY	TONNES	GRADE		GOLD
		(g/t)	(oz/ton)	(ounces)
Proven	1,493,000	5.6	0.16	271,500
Probable	<u>5,441,000</u>	<u>7.0</u>	<u>0.20</u>	<u>1,234,000</u>
Total ⁽²⁾	<u>6,934,000</u>	<u>6.7</u>	<u>0.20</u>	<u>1,505,500</u>

⁽¹⁾ Mineral reserves were calculated by Mahmood Hasan, M.Sc. Econ. Geol., Geologist, Casa Berardi a “qualified person” under National Instrument 43-101 of the Canadian Securities Administrators and audited by Dessau-Soprin Inc. using a long-term gold price of US\$305 per ounce.

⁽²⁾ The summation is appropriate as the difference in assurance between proven and probable mineral reserves cannot be readily defined.

The feasibility study indicated that the estimated cash operating costs would average \$41 per tonne for an estimated total cash cost of US\$145 per ounce over the initial anticipated mine life of 7.5 years. At the base case scenario, which envisaged a gold price of US\$305 per ounce and an exchange rate of CDN\$1.45 equals US\$1.00, the internal rate of return before income taxes and finance charges was estimated to be 16.8% with a payback period of 4.2 years. The study envisaged annual gold production of over 200,000 ounces by the second full year of commercial production. Pre-production costs over an approximate 30 month development period were estimated to total \$121 million (US\$80 million).

Considering the volume and depth of the mineral reserves below surface, the study included the cost of sinking a 1,031 metre vertical shaft capable of sustaining a daily ore production of up to 4,500 tonnes. Related infrastructure, such as ore and waste pass systems, ramps and lateral development, were designed to ensure optimal efficiency, minimum operating costs and, to accommodate a mine life beyond that initially established.

The West Mine operation would be designed to sustain a daily ore production of 3,920 tonnes, 5 days a week, while the mill would operate at a daily rate of 2,800 tonnes, 345 days per year. The selected mining method was “Sequential Long Hole Blasting” of stopes followed by cement paste backfill of the open stopes, with the secondary stopes being mined once the primary stopes are back-filled. This mining method, complemented by additional ground support, is expected to provide full control of stopes in areas of poor ground conditions. Based on the results of rock mechanics studies, the stope size would be limited to a 15 metre length along the longitudinal axis of the deposit by a 20 metre to 25 metre height and the width of the stopes would be determined by the number of blocks along the thickness of the orebody, which in the case of the 113 and Lower Inter Zones averages 9 metres and 20 metres, respectively.

In early 2003, Aurizon commenced an underground exploration program at Casa Berardi to provide underground access to zone 113 in order to increase the confidence level on the continuity of that zone and extract a bulk sample. Zone 113, which extends from 400 metres to 1000 metres below surface, was discovered by Aurizon in 1999. Previously reported probable mineral reserves of zone 113 are estimated at 984,000 ounces of gold at an average grade of 7.4 grams per tonne. Previously reported total proven and probable mineral reserves at the West Mine total 1.5 million ounces of gold at an average grade of 6.7 grams per tonne.

The program will include deepening the present ramp at the West Mine area to the 500 metre level, drifting approximately 450 metres east to access the 113 zone on the 550 metre level, drifting along zone 113, definition drilling and the extraction of a bulk sample. The total program is estimated to cost approximately \$17 million over a nineteen-month period.

Property, Plant and Equipment

The Company acquired all of the existing Casa Berardi infrastructure, including a 2,200 tonnes per day mill, hoist, headframe and underground mining equipment. The surface infrastructure consists of a crusher building, mill building and a services and administrative building. The acquisition also included a fleet of mobile equipment. Most of the equipment is approximately 12 years old and is in good working order. The Company has selectively disposed of equipment not required for future operations.

Processing of the ore would be performed at the existing facilities, which contain a standard cyanidation carbon-in-leach circuit. Metallurgical testwork indicates that the addition of a gravity separation circuit could achieve gold recoveries of 92%. With minor modifications, the existing mill would operate at 2,800 tonnes per day, for an annual production of 966,000 tonnes at a grade averaging 6.7 grams per tonne, resulting in annual production of approximately 200,000 ounces.

All exploration permits and authorization certificates issued to the previous operators were transferred into Aurizon's name following acquisition of the project. Modified permits have been received allowing the extraction of 3,920 tonnes per day from the West Mine and the operating of the mill at 2,800 tonnes per day, in accordance with the feasibility study.

Douay and Douay West Properties, Quebec

The Company terminated its option to earn a 50% interest in the Douay and Douay West properties in 2000 and recorded a write-off of the mineral properties and related fixed assets respectively of \$3,438,736 and \$1,919,292.

ITEM 5: OPERATING AND FINANCIAL REVIEW AND PROSPECTS

Reference is made to the consolidated financial statements which form part of this annual report and on which the following discussion is based.

A. OPERATING RESULTS

YEAR ENDED DECEMBER 31, 2002 COMPARED TO DECEMBER 31, 2001

Higher realized gold prices, stable gold production, and lower care and maintenance costs improved Aurizon's 2002 financial results compared to the prior year. For 2002, Aurizon incurred a net loss of \$2.8 million or 5 cents per share, compared to a net loss of \$6.1 million or 16 cents per share in 2001. The 2001 results included a \$1.1 million non-cash charge against the carrying value of certain mining assets.

Total gold production increased to 33,000 ounces in 2002, compared to 31,900 ounces produced in 2001. Total cash costs at Sleeping Giant increased to US\$242 per ounce compared to US\$236 per ounce in 2001, primarily due to lower tonnes processed and higher mining costs associated with a new ore zone.

Revenue from mining operations in 2002 was \$16.4 million, compared to \$13.9 million in 2001. The average gold price realized from gold sales in 2002 was US\$310 per ounce, 12% higher than the US\$276 per ounce achieved in 2001. Continued weakness in the Canadian dollar in 2002 allowed Aurizon to realize a Canadian dollar gold price of \$487 per ounce, compared with \$428 per ounce in 2001.

Revenue

Higher realized gold prices together with a modest increase in gold production in 2002 resulted in an 18% increase in revenue from mining operations compared to 2001. Revenue from mining operations in 2002 was \$16.4 million compared to \$13.9 million in 2001. The average gold price realized in 2002 was US\$310 per ounce, matching the average London afternoon fixing, higher than the US\$276 per ounce achieved in 2001. During 2002, Aurizon's foreign currency contracts were settled at rates that matched the yearly average exchange rate of 1.57, resulting in Aurizon realizing a Canadian dollar gold price of \$487 per ounce. This compares favourably with Canadian dollar realized gold prices per ounce of \$428 in 2001.

Aurizon's ability to generate mine operating profits from its current operations is related, in part, to the market price of gold. Gold trades on the global commodity exchanges and its price is affected by numerous factors beyond the control of Aurizon. With expectations of higher gold prices in 2002, a significantly reduced hedging program contributed revenue of \$22,000 in 2002, down from \$256,000 in 2001. At December 31, 2002 Aurizon had less than one month's production hedged.

The average London gold price rose 14% in 2002 to US\$310 per ounce compared to the prior year's US\$271 per ounce, the lowest average annual price in twenty-three years. Current prices are still significantly below historical gold prices, which had averaged US\$386 per ounce over the twenty-year period prior to 1999. The relatively low gold prices for the last four years appear to have been largely attributable to central bank selling, speculative short positions and a very strong U.S. dollar.

Interest, royalty and other income in 2002 totaled \$656,000, compared to \$692,000 in 2001. Royalty income from the Beaufor mine, which reopened under new owners in 2002, provided \$350,000. Other income in 2001 includes \$620,000 of gold recovered from the circuit of a mill prior to its disposition.

Expenses

Mine operating costs in 2002 increased 8% to \$12.6 million from \$11.7 million in 2001, due to higher unit mining costs at Sleeping Giant. Unit operating costs rose to \$124 per tonne, compared to \$109 per tonne in 2001, resulting in total cash costs per ounce of US\$242 compared to US\$236 in 2001. A 9% increase in ore grade due to higher grade ore from Zone 8, partially offset by a 5% decline in ore mined, resulted in total gold production increasing by 4% during the year compared to 2001.

Depreciation and depletion expense totaled \$2.4 million in 2002, compared to \$1.8 million in 2001. In aggregate, consolidated depreciation, depletion and reclamation costs per ounce totaled US\$46 in 2002 compared to US\$36 in the prior year. A 2% decline in mineral reserves at Sleeping Giant together with an increase in capitalized costs associated with exploration and development activities were the main contributing factors to the higher unit charges in 2002. No changes to the provision for reclamation have been necessary since 2000, when an additional provision of \$120,000 was made.

Administrative and general costs have remained stable for the past two years at \$1.6 million.

Care and maintenance costs decreased to \$2.5 million compared to \$3.1 million in 2001. The 2002 costs related solely to Casa Berardi, whereas in 2001, costs of \$2.6 million were associated with Casa Berardi and additional costs of \$0.5 million were incurred at Beaufor up to the date of disposition. The care and maintenance costs for Casa Berardi were expensed in 2002 and 2001 in accordance with the Company's accounting policy based upon the level and nature of activity at the property. It is anticipated that the care and maintenance costs at Casa Berardi will be capitalized in 2003 due to the significant exploration activity planned.

During 2002, exploration and property investigation costs decreased to \$81,000 from \$203,000 in 2001.

The write off of deferred finance costs associated with the early repayment of the Casa Berardi obligation, and interest costs on that obligation totaled \$482,000 in 2002 compared to \$254,000 in 2001.

As a result of the decision to sell non-core assets in 2001, the Beaufor mine was sold, resulting in a loss on sale totaling \$251,000.

During 2001, Aurizon incurred aggregate non-cash charges of \$1.1 million in respect of the carrying values of its non-producing mineral properties. There were no write-downs of mineral properties in 2002.

Aurizon realized a gain of \$36,000 in 2002 on the disposal of surplus equipment, compared to a gain of \$277,000 in 2001.

Capital tax expense for 2002 was \$157,000, compared to \$126,000 recorded in 2001. Income tax expense is in respect of large corporations tax and was \$61,000 and \$45,000 in 2002 and 2001, respectively.

YEAR ENDED DECEMBER 31, 2001 COMPARED TO DECEMBER 31, 2000

Gold production in 2001 was 31,900 ounces, compared to 56,100 ounces achieved in 2000, reflecting the disposition of the Beaufor Mine and lower grades from the Sleeping Giant Mine. The policy of expensing care and maintenance costs at non-producing projects together with low realized gold prices, reduced gold production, and restructuring costs, negatively affected Aurizon's 2001 financial results.

During 2001, Aurizon incurred a net loss of \$6.1 million or 16 cents per share, after accounting for a \$1.1 million non-cash charge against the carrying value of certain mining assets, compared to a net loss of \$8.4 million or 22 cents per share in 2000. The 2000 results included an \$8.6 million non-cash charge. In 2001, care and maintenance costs at Casa Berardi and the Beaufor Mine totalling \$3.1 million and restructuring costs of \$0.8 million, resulted in operations consuming \$2.5 million, compared to operations providing cash flow of \$4.5 million in 2000.

Revenue

The decline in gold production in 2001 resulted in a 42% drop in reported revenue from mining operations compared to 2000. Revenue from mining operations in 2001 was \$13.9 million compared to \$24 million in 2000. A weak Canadian dollar in 2001 served to offset continued weakness in U.S. denominated gold prices. The average gold price realized from gold sales in 2001 was US\$276 per ounce, which compares favourably with the average London afternoon fixing for the year of US\$271 per ounce, but which is lower than the US\$287 per ounce achieved in 2000. During 2001, Aurizon's foreign currency contracts were settled at rates in line with the yearly average exchange rate of 1.548, resulting in Aurizon realizing a Canadian dollar gold price of \$428 per ounce, compared with \$424 per ounce in 2000.

Aurizon's ability to generate mine operating profits from its current operations is related, in part, to the market price of gold. Gold trades on the global commodity exchanges and its price is affected by numerous factors beyond the control of Aurizon. Aurizon attempts to mitigate this price risk by hedging some of its forecast gold production for periods not exceeding twelve months, primarily through the use of options and spot deferred contracts. Aurizon's reduced hedging program contributed additional revenue of \$256,000 in 2001, down from \$555,000 in 2000.

Continued weak gold prices made 2001 another difficult year for gold producers. During 2001, the London afternoon fixing gold price averaged US\$271 per ounce, the lowest average price in twenty-three years. This is 3% lower than the average price of US\$279 in 2000, however significantly below historical gold prices, which had averaged US\$386 per ounce over the twenty-year period prior to 1999. The low gold price has been largely driven by central bank selling, speculative short positions and a very strong U.S. dollar.

Interest and other income in 2001 increased to \$692,000 from \$376,000 in 2000. The 2001 balance includes \$620,000 of income from gold recovered from the circuit of a mill prior to its disposition.

Expenses

Mine operating costs in 2001 decreased 31% to \$11.7 million from \$16.9 million in 2000, reflecting Beaufor's suspended operations status and sale during 2001. Total gold production decreased 43% during this period. Consolidated total cash costs per ounce increased to US\$236, compared to US\$203 in 2000, due to lower ore grades at Sleeping Giant and additional definition drilling and stope preparation costs for the recently discovered high-grade mineral reserves in Zone 8.

At Sleeping Giant, lower production rates and higher mining costs associated with the new ore zone contributed to higher unit operating costs of \$109 per tonne, compared to \$100 per tonne in 2000, resulting in total cash costs per ounce of US\$236 compared to US\$191 in 2000. In the first eight months of 2000, total cash costs at the Beaufor mine were US\$230 per ounce.

Depreciation and depletion expense decreased in 2001 to \$1.8 million, compared to \$4 million in 2000. No additional provisions for reclamation were necessary in 2001 compared to a provision of \$120,000 in 2000. In aggregate, consolidated depreciation, depletion and reclamation costs per ounce decreased to US\$36 from US\$50 in the prior year. A 31% increase in mineral reserves at Sleeping Giant was the main contributing factor to the lower unit charges in 2001. At Beaufor, depreciation, depletion and reclamation charges were US\$24 per ounce in 2000.

Administrative and general costs decreased to \$1.6 million in 2001 compared to \$2.2 million in 2000. The 27% decrease in 2001 reflects cost cutting measures, including staff reductions, which resulted in additional one-time restructuring costs of \$788,000.

Care and maintenance costs increased to \$3.1 million in 2001, comprised of \$2.6 million for costs associated with maintaining Casa Berardi and \$0.5 million for maintaining Beaufor up to the date of its disposition. Prior to 2001, Casa Berardi costs were capitalized due to the significant exploration activity that was incurred to advance the development of the project. In 2000, care and maintenance costs at Beaufor totaled \$672,000.

During 2001, exploration and property investigation costs decreased to \$203,000 from \$217,000 in 2000, as less exploration and property investigations were conducted.

In 2001, interest and finance charges totaled \$254,000, which represents costs associated with the restructuring of the final \$4.0 million obligation due for the Casa Berardi acquisition. These charges include interest at 10% per annum on the outstanding obligation together with the amortization of the fair value of shares of the Company issued in consideration for the renegotiation.

As a result of the decision to sell non-core assets, the Beaufor mine was sold in April, 2001, resulting in a loss on sale totaling \$251,000.

During 2001, Aurizon incurred aggregate non-cash charges of \$1.1 million in respect of the carrying values of its non-producing mineral properties. In 2000, these charges totaled \$8.6 million which included write-downs of \$1.5 million and \$1.7 million, respectively, against Aurizon's interests in the Beaufor and Sleeping Giant mines. The 2000 charge also includes a write-off of \$5.4 million in respect of the Douay and Douay West projects in Quebec.

Aurizon realized a gain of \$277,000 in 2001 on the disposal of surplus fixed assets, compared to a gain of \$38,000 in 2000.

Aurizon recorded capital tax expense of \$126,000 in 2001, compared to \$139,000 recorded in 2000. Income tax expense is in respect of large corporations tax and was \$45,000 and \$43,000 in 2001 and 2000, respectively.

B. LIQUIDITY AND CAPITAL RESOURCES

YEAR ENDED DECEMBER 31, 2002 COMPARED TO DECEMBER 31, 2001

The total assets of Aurizon increased to \$43 million at December 31, 2002 from \$29 million the previous year. At the end of 2002, Aurizon had working capital of \$12 million compared to \$1.2 million at the end of 2001. Aurizon has no debt at December 31, 2002 compared to long-term debt of \$4.2 million the previous year. Shareholders' equity increased to \$36.1 million at December 31, 2002, compared to \$18.7 million the previous year, primarily as a result of the significant equity financings completed in 2002.

Operations generated \$0.2 million of cash during 2002, as cash flow from Sleeping Giant exceeded site maintenance costs at Casa Berardi and corporate costs. This is an improvement from the previous year, during which, \$2.8 million was consumed by operations.

Three equity financings in 2002 allowed the reinstatement of exploration activities at Casa Berardi, which, together with a major exploration program at Sleeping Giant, resulted in aggregate investing activities totaling \$5.9 million in 2002. In contrast, the divestiture of the Beaufor Mine, non-core assets and gold recoveries from an idle mill facility exceeded capital expenditures by \$1.1 million in 2001.

Mineral property expenditures in 2002 totaled \$5.8 million, of which \$3.1 million was invested at Casa Berardi and \$2.7 million was invested at Sleeping Giant. At Casa Berardi, \$1.1 million was paid to acquire the residual net smelter royalty from the original vendors and \$2.0 million funded 21,000 metres of exploration drilling east of Zone 113. At Sleeping Giant, \$2.7 million was invested in 68,000 metres of exploration drilling and approximately 1,400 metres of drifting. In 2001, mineral property expenditures totaled \$1.8 million, all of which was invested at Sleeping Giant, primarily in the exploration and development of the 8 Zone and to fund 50,000 metres of exploration drilling.

In 2002 and 2001, property, plant and equipment additions totaled \$220,000 and \$114,000, respectively, the majority of which was spent on mine equipment at Sleeping Giant.

In 2001, investing activities include the sale of Aurizon's 50% interest in the Beaufor mine for cash consideration of \$1.7 million and \$1.0 million of income from gold recovered from the mill circuit at Casa Berardi.

Sales of surplus equipment generated proceeds in 2002 and 2001 of \$97,000 and \$369,000, respectively.

Three equity financings, the exercise of warrants attached to these issuances, and the exercise of incentive stock options resulted in net proceeds of \$20.1 million in 2002. As at December 31, 2002, there were 5.4 million warrants outstanding at an average exercise price of \$0.75 per share, of which 4.6 million warrants at an average price of \$0.65 per share expire on June 30, 2003. In 2001, the exercise of share purchase warrants and incentive stock options generated proceeds of \$69,000.

In respect of non-cash financing activities impacting share capital, Aurizon issued 639,246 shares in 2002 and 1,320,907 shares in 2001 having fair values of \$290,000 and \$446,000, respectively, as consideration for interest and deferred finance costs associated with the Casa Berardi acquisition.

During 2002 and 2001, Sleeping Giant received non-repayable government grants to fund ongoing exploration activities, of which Aurizon's share was \$52,000 and \$337,000, respectively. In 2002, Aurizon received \$0.6 million of provincial refundable mining duties in respect of certain eligible exploration expenditures.

The equity financings in 2002 allowed the early repayment of long-term debts totaling \$4.3 million, which was the remaining Casa Berardi acquisition obligation totaling \$3.9 million and deferred hydro charges totaling \$0.4 million. During 2001, \$120,000 of long-term debt was repaid.

Aurizon's aggregate operating, investing and financing activities during 2002 resulted in a net \$10.7 million increase in its cash balances. As at December 31, 2002, cash and cash equivalents stood at \$12.4 million, compared to \$1.8 million in 2001.

In Aurizon's opinion, based upon the assumptions disclosed in Trend Information, combined with the proceeds from the anticipated exercise of share purchase warrants and incentive stock options in June and July, 2003, respectively, the working capital of the Company will be sufficient for the Company's present requirements. Aurizon does anticipate sourcing additional equity funding in 2003 to further the exploration and development of Casa Berardi.

C. RESEARCH AND DEVELOPMENT, PATENTS AND LICENSES, ETC.

The Company is not involved in any research, development, patenting or licensing activities.

D. TREND INFORMATION

Aurizon's share of gold production from Sleeping Giant in 2003 is expected to decrease 8% from 2002 levels to 30,500 ounces as a result of lower anticipated ore production due to a change in mining method of Zone 8, thereby reducing the availability of ore in the first half of 2003. Total cash costs per ounce are expected to increase to US\$258 in 2003, compared to US\$242 achieved in 2002 due to the lower production rates and the necessity to utilize a more expensive mining method to extract ore from a flatter dipping Zone 8.

Based upon estimated ore grades, production rates, operating costs, an average forecast gold price of US\$350 per ounce, and an average U.S. dollar exchange rate of 1.50, the Sleeping Giant Mine is expected to provide approximately \$4.4 million in operating cash flow to Aurizon during the year. From this amount, Aurizon intends to fund \$3.0 million of exploration, development, and capital expenditures at Sleeping Giant, prior to its share of the shaft deepening expenditures described below. The projected profitability of Sleeping Giant will be influenced by changes in the grade of ore mined from that estimated, and by fluctuations in gold prices and foreign exchange rates over which Aurizon has no control.

In March 2003, a decision was made to deepen the current production shaft at Sleeping Giant by 200 metres to allow access to 77,000 tonnes of probable mineral reserves at a gold grade of 12.2 grams/tonne. Aurizon's share of the cost is estimated at approximately \$3.5 million and will be incurred between the end of the first quarter of 2003 and the third quarter of 2004. This program should extend the mine life of Sleeping Giant by two years and provide the opportunity to find more ounces within reach of the infrastructure.

Aurizon's operations are very sensitive to the grade of ore mined. The 2003 mine plan for Sleeping Giant anticipates mill throughput of 161,000 tonnes at a grade of 12 grams per tonne. A 10% change in grade would impact Aurizon's forecast 2003 cash flow by \$1.6 million.

A US\$10 per ounce change in the US\$350 per ounce gold price used in Aurizon's 2003 forecast, would have a \$500,000 impact on forecast cash flow. The gold price was relatively volatile during 2002, with the London afternoon fixing ranging from a high of US\$349 per ounce in December, to a low of US\$278 per ounce in January, before closing the year at US\$343 per ounce. Market sentiment improved dramatically in 2002 and early 2003 as gold prices breached the US\$380 mark. As at December 31, 2002, Aurizon had less than one month's gold production hedged.

A change of 0.05 in the 1.50 U.S. to Canadian dollar exchange rate used in Aurizon's 2003 forecast, would impact cash flow by approximately \$500,000. In 2002, the Canadian dollar ranged from 1.511 to 1.613 against the U.S. dollar with an average of 1.570 for the year.

A major underground exploration program at Casa Berardi is planned to commence in early 2003 to extend the present ramp at the West Mine area out to Zone 113 at the 550 metre level. This nineteen month program is intended to provide access to Zone 113 to allow in-fill definition drilling and the extraction of a bulk sample in order to increase the confidence level of the grade, continuity and extent of Zone 113. The costs of this program, including site maintenance costs, are estimated to be \$11 million in 2003. In addition, a \$2 million, 20,000 metre drill program is planned to provide further infill drilling in the 118-120 zone area and to perform step-out drilling between this area and the East Mine. The objective of these programs is to upgrade the quality of existing mineral reserves and delineate additional mineral reserves in order to secure project financing for the development of a commercial mining operation.

Aurizon relies on net minesite cash flow from Sleeping Giant to cover corporate costs and on equity capital to fund significant exploration and development activity at Casa Berardi and the shaft sinking program at Sleeping Giant. The successful completion of three equity financings in 2002, which realized net proceeds in excess of \$20 million, combined with the anticipated exercise of share purchase warrants in June 2003, should provide sufficient funding for Aurizon's exploration and development commitments for 2003. Aurizon anticipates sourcing additional equity funding during the course of the year to further the exploration and development of Casa Berardi in 2004, in particular, completion of the underground program.

Audit Committee

The Audit Committee is composed of unrelated directors. The Audit Committee members as at May 20, 2003 were Mr. Gagne, Mr. Moorhouse, and Mr. Normand.

On April 3, 2003, the Board of Directors adopted an Audit Committee Charter for its Audit Committee, whereby the primary function of the Audit Committee is to assist the Board of Directors in fulfilling its financial oversight responsibilities by reviewing: the financial reports and other financial information provided by the Company to any governmental body or other stakeholders; the Company's systems of internal controls regarding finance, accounting, and the Company's auditing, accounting and financial reporting processes. Consistent with this function, the Audit Committee is mandated to encourage continuous improvement of, and should foster adherence to, the Company's policies, procedures and practices at all levels. The Audit Committee's primary duties and responsibilities are to:

- Serve as an independent and objective party to monitor the Company's financial reporting and internal control system and review the Company's financial statements.
- Review and appraise the performance of the Company's external auditors.
- Provide an open avenue of communication among the Company's auditor, financial and senior management and the Board of Directors.

The Audit Committee met on December 11, 2002 to plan for the Audit and on April 3, 2003 to review the audited annual financial statements for the year ended December 31, 2002, during which time its members were Mr. Gagne, Mr. Moorhouse and Mr. Normand, all of whom are outside, unrelated directors. The Board considers that all members of the Audit Committee are financially literate and have a working familiarity with basic finance and accounting practices. In addition, Mr. Gagne and Mr. Normand, both of whom are Chartered Accountants, are considered by the Board to have accounting or related financial management expertise. The definition of "financially literate" is the ability to read and understand a balance sheet, an income statement and a cash flow statement. The definition of "accounting or related financial management expertise" is the ability to analyze and interpret a full set of financial statements, including the notes attached thereto, in accordance with Canadian generally accepted accounting principles.

The Audit Committee met on April 3, 2003, to review the audited annual financial statements for the year ended December 31, 2002. The full Board meets with management on a quarterly basis to review and approve interim financial statements and to discuss financial performance compared to forecast.

Executive Compensation and Corporate Governance Committee

On April 3, 2003, the Board of Directors expanded the role of the Company's former Compensation Committee to include the responsibility of developing the Company's approach to governance issues. In view of its expanded role, the committee was re-named the Executive Compensation and Corporate Governance Committee (the "ECCGC").

The primary function of the ECCGC is to assist the Board of Directors by:

- reviewing the adequacy and form of: the Company's compensation program for the Chief Executive Officer and the Chief Financial Officer (the "Named Executive Officers"); the non-employee directors' compensation; and the compensation plans in effect or proposed for the Company's senior managers and other employees; and
- recommending candidates for nomination, appointment, election and re-election to the Board and its committees, assessing Board performance; and determining appropriate orientation and education programs for new Board members.

In addition, the Board has adopted an Executive Compensation and Corporate Governance Charter for the ECCGC, whereby the ECCGC is responsible for making recommendations from time to time to the Board concerning matters related to corporate governance, as the ECCGC may deem appropriate or as may be referred to it from time to time by the Board. Annually, pursuant to its Charter, the ECCGC is required to review:

- The procedure for monitoring directors' responsibility, diligence and for avoiding conflicts of interest.
- Current developments relating to corporate governance and, if required, propose to the Board changes to its mandate and corporate governance policy.
- The Board's past years' proceedings to evaluate its efficiency and make required recommendation, if any.
- And take appropriate action on any comment made by shareholders or regulatory authorities on the Company's corporate governance practices.

The ECCGC is presently composed of three members, Messrs. Berner, Faucher and Moorhouse. The Board of Directors considers that two members, Messrs. Faucher and Moorhouse, are "unrelated directors" and one member, Mr. Berner, is a "related director". Accordingly, the ECCGC is constituted with a majority of individuals who qualify as "unrelated directors".

The former Compensation Committee met once during 2002.

- (a) Enterprises that directly or indirectly through one or more intermediaries, control or are controlled by, or are under common control with, the Company;
- (b) associates;
- (c) individuals owning, directly or indirectly, an interest in the voting power of the Company that gives them significant influence over the Company, and close members of any such individual's family;
- (d) key management personnel, that is, those persons having authority and responsibility for planning, directing and controlling the activities of the Company, including directors and senior management of companies and close members of such individuals' families;
- (e) enterprises in which a substantial interest in the voting power is owned, directly or indirectly, by any person described in (c) or (d) or over which such person is able to exercise significant influence including enterprises owned by directors or major shareholders of the Company and enterprises that have a member of key management in common with the Company, except as follows:
 - (i) Mr. Robert Normand, a director of the Company, is also a director of Cambior Inc. On April 18, 2002, 9115-5036 Quebec Inc., a private company, wholly-owned by Cambior Inc., purchased by way of private placement, 3,250,000 units of the Company at a price of \$0.60 per unit ("Unit"). Each Unit consisted of one common share and one half of one common share purchase warrant. Each whole warrant entitles the holder to acquire one common share at a price of \$0.65 per share prior to June 30, 2003. As of March 25, 2003, 9115-5036 Quebec Inc. owns 4,372,053 common shares of the Company and a share purchase warrant to purchase 1,625,000 additional common shares at a price of \$0.65 on or before June 30, 2003. Therefore, on a fully diluted basis, 9115-5036 Quebec Inc. would own 7.1 % of the common shares of the Company.
 - (ii) Pursuant to agreements between the Company and Capital d'Amerique CDPQ Inc. and Fonds de Solidarite des Travailleurs du Quebec (FSTQ), management nominated Richard Faucher, Gerard Gagne and Robert Normand for election as directors of the Company and all were elected for a one-year term expiring at the next following annual general meeting. Management will nominate these directors for re-election as directors of the Company at the next Annual General Meeting. Gerard Gagne is the director nominee of Fonds de Solidarite des Travailleurs du Quebec (FSTQ), which on a fully diluted basis would own 6.26% of the Company; Robert Normand, is the nominee of Sodemex II s.e.c., which owns 12.5% of the Company; and Richard Faucher is the joint nominee of the aforementioned institutions. In addition, Robert Normand is also a director of Cambior Inc., which on a fully diluted basis would own, indirectly, 7.13% of the Company.

(iii) Mr. Ian S. Walton, a director and officer of the Company, is also a director of Contrarian Resource Fund 2002 Management Limited, which is the General Partner of Contrarian Resource Fund 2002 Limited Partnership. On December 22, 2002, Contrarian Resource Fund 2002 Limited Partnership purchased, by way of private placement, 370,000 flow-through common shares of the Company at a price of \$1.35 per share. As of April 30, 2003, Contrarian Resource Fund 2002 Limited Partnership owns 370,000 common shares of the Company.

ITEM 8: FINANCIAL INFORMATION

A. Consolidated Statements and Other Financial Information

This annual report contains the consolidated financial statements for the Company for the fiscal year ended December 31, 2002 which contain an Auditors' Report dated March 7, 2003, Consolidated Balance Sheets as at December 31, 2002 and 2001, Consolidated Statements of Operations and Deficit for the Fiscal Years Ended December 31, 2002, 2001, and 2000, Consolidated Statements of Cash Flow for the Fiscal Years Ended December 31, 2002, 2001, and 2000 and Notes to the Financial Statements. See "Item 17: Financial Statements."

Legal Proceedings

On February 4, 1993, proceedings were brought against the Company by several bondholders of the Company in the district court of Geneva, Switzerland, claiming to have held an aggregate of S.Fr. 220,000 (approximately US\$134,000) in principal amount of the Company's previously issued Swiss bonds ("Bonds"). The claimants are seeking a declaratory order that resolutions passed at a bondholders meeting on June 2, 1992 in Geneva, by which the terms of the Bonds were amended to create a right of redemption and jurisdiction with respect to the Bonds was changed from Switzerland to British Columbia, were not valid. Although no monetary compensation or damages are claimed, the Company has been advised by its counsel that the maximum exposure to the Company from this claim is approximately \$200,000 plus accrued interest. The Company has retained Swiss counsel and is defending against the action. The Company is unable to evaluate the possible outcome of this action at this time.

The Company is also involved in other litigation from time to time in the ordinary course of its business. In management's opinion, such litigation is not material to the Company's financing condition, results of operations or cash flows.

ITEM 10: ADDITIONAL INFORMATION

A. Share Capital

Not applicable.

B. Memorandum and Articles of Association

The information called for by this item is contained in an Exhibit to the Company's annual report on Form 20-F for the year ended December 31, 1992, on file with the Commission and is hereby incorporated by reference.

C. Material Contracts

On April 5, 2001, the Company entered into an agreement with Richmond Mines Inc. ("Richmont") whereby Richmont would acquire the Company's 50% interest in the Beaufor Mine and Perron Property for \$1,660,000 and a gold-indexed royalty on future production. The transaction was completed on May 1, 2001. See "Item 4: Information on the Company Property, Plant and Equipment". The information called for by this item is also contained in an Exhibit to the Company's annual report on Form 20-F for the year ended December 31, 2000, on file with the Commission.

On July 5, 2002, Aurizon exercised its right of first refusal to match a third party offer, and acquired TVX Gold Inc.'s residual interest in the Casa Berardi property, which comprised an outstanding payment of \$3.9 million and a gold indexed net smelter royalty, for cash consideration of \$5 million. See "Item 4: Information on the Company Property Plant and Equipment" and Exhibit 4.1, the Property Purchase Agreement. The information called for by this item is also contained in an Exhibit to the Company's annual report on Form 20-F for the year ended December 31, 1999, on file with the Commission.

D. Exchange Controls

There are currently no restrictions on the export or import of capital out of or into Canada, nor are there foreign exchange controls or other laws, decrees or regulations of Canada or the province of British Columbia restricting remittance of dividends or other payments to non-resident holders of the Company's common shares, other than any applicable withholding taxes. However, no assurance can be given that legislation enacted in the future will not have an adverse impact on non-Canadian shareholders.

Except as provided in the *Investment Canada Act* (the "Investment Act"), there are no limitations under the laws of Canada, the province of British Columbia or in the charter or any other constituent documents of the Company on the right of foreigners to hold or vote the Company's common shares.

The Investment Act generally prohibits implementation of a reviewable investment by an individual, government (or agency thereof), corporation, partnership, trust or joint venture that is not a "Canadian" as defined in the Investment Act (a "non-Canadian"), unless after review the minister responsible for the Investment Act is satisfied that the investment is likely to be of net benefit to Canada. An investment in the Company's common shares by a non-Canadian (other than an "American" as defined in the Investment Act) would be reviewable under the Investment Act if it was an investment to acquire control of the Company and the value of the assets of the Company was \$5 million or more. A non-Canadian

(other than an American) would be deemed to acquire control of the Company for the purposes of the Investment Act if he acquired a majority of the common shares outstanding (or less than a majority but controlled the Company in fact through the ownership of one-third or more of the common shares outstanding) unless it could be established that, on the acquisition, the Company was not controlled in fact by the acquirer through the ownership of such shares. Certain transactions in relation to the Company's common shares would be exempt from review under the Investment Act, including, among others, the following:

- (a) acquisition of shares by a person in the ordinary course of that person's business as trader or dealer in securities;
- (b) acquisition of control of the Company in connection with the realization of security granted for a loan or other financial assistance and not for any purpose related to the provision of the Investment Act; and
- (c) acquisition of control of the Company by reason of any amalgamation, merger, consolidation or corporate reorganization following which the ultimate direct or indirect control of the Company, through the ownership of voting interests, remains unchanged.

The Investment Act was amended with the Canada-United States Free Trade Agreement to provide for special review thresholds for Americans (including "American-controlled entities" as defined in the Investment Act). Under the Investment Act, as amended, an investment in the Company's common shares by an American would be reviewable only if it was an investment to acquire control of the Company and the value of the assets of the Company was equal to or greater than a specified amount (the "Review Threshold"), which increases in stages. The Review Threshold is currently \$150 million, and remains at \$150 million in constant 1992 dollars (calculated as prescribed in the Investment Act) after 1992.

The provisions of the Investment Act and Free Trade Agreement may have an anti-takeover effect as they may operate to prevent U.S. or other non-Canadian persons from directly or indirectly acquiring control of the Company.

E. Taxation

CERTAIN CANADIAN FEDERAL INCOME TAX CONSEQUENCES

The discussion under this heading summarizes the material Canadian federal income tax consequences of acquiring, holding and disposing of shares of Common Stock of the Company for a shareholder of the Company who is not resident in Canada but is resident in the United States and who will acquire and hold shares of Common Stock of the Company as capital property for the purpose of the *Income Tax Act* (Canada) (the "Tax Act"). This summary does not apply to a shareholder who carries on business in Canada through a "permanent establishment" situated in Canada or performs independent personal services in Canada if the shareholder's holding in the Company is effectively connected with such permanent establishment or fixed base. This summary is based on the provisions of the Tax Act and the regulations thereunder and on the Company's understanding of the administrative practices of Canada Customs and Revenue Agency, and takes into account all specific proposals to amend the Tax Act or regulations made by the Minister of Finance of Canada to May 3, 2002. It has been assumed that there will be no other relevant amendment of any governing law although no assurance can be given in this respect. The existing tax treaty between the United States and Canada essentially calls for taxation of shareholders by the shareholder's country of residence. In those instances in which a tax may be assessed by the other country, a corresponding credit against the tax owed in the country of residence is generally available, subject to limitations. This discussion is general only and is not a substitute for independent advice from a shareholder's own Canadian and U.S. tax advisor.

The provisions of the Tax Act are subject to income tax treaties to which Canada is a party, including the Canada-United States Income Tax Convention (1980) (the "Convention") and the Protocol to the Convention.

Dividends on Shares of Common Stock

Under the Tax Act, a non-resident of Canada is generally subject to Canadian withholding tax at the rate of 25% on dividends paid or deemed to have been paid to him by a corporation resident in Canada. The Convention limits the rate to 15% if the shareholder is resident in the United States and the dividends are beneficially owned by and paid to him, and to 5%, if the shareholder is also a corporation that beneficially owns at least 10% of the voting stock of the payor corporation.

The Convention generally exempts from Canadian income tax, dividends paid to a religious, scientific, literary, educational or charitable organization or to an organization constituted and operated exclusively to administer a pension, retirement or employee benefit fund or plan, if the organization is resident in the United States and is exempt from income tax under the laws of the United States.

Disposition of Shares of Common Stock

Under the Tax Act, a taxpayer's capital gain (or capital loss) from a disposition of Common Stock of the Company is the amount, if any, by which his proceeds of disposition exceed (or are exceeded by) the aggregate of his adjusted cost base of the Common Stock and reasonable expenses of disposition.

A non-resident of Canada is not subject to tax under the Tax Act in respect of a capital gain realized upon the disposition of shares unless the shares represent "taxable Canadian property." In general, shares of Common Stock of the Company will constitute taxable Canadian property of a non-resident shareholder at a particular time if the shareholder used the shares in carrying on business in Canada, or if at any time in the 60 months immediately preceding the disposition, 25% or more of the issued shares of any class of the capital stock of the Company, which were shares on a prescribed stock exchange [Canadian and foreign listed stock exchanges (i.e., United States, U.K., Germany, Japan, etc.)] were owned by the non-resident and persons with whom the non-resident shareholder did not deal at arm's length.

Where a United States resident realizes a capital gain on a disposition of shares that constitute taxable Canadian property, the Convention relieves the United States resident from liability for Canadian tax on such capital gains unless:

- a) the value of the shares is derived principally from "real property" in Canada, including the right to explore for or exploit natural resources and rights to amounts computed by reference to production,
- b) the shareholder was resident in Canada for 120 months during any period of 20 consecutive years preceding, and at any time during the 10 years immediately preceding, the disposition and the shares were owned by him when he ceased to be resident in Canada, or
- c) the shares formed part of the business property of a "permanent establishment" or pertained to a fixed base used for the purpose of performing independent personal services that the shareholder has or had in Canada within the 12 months preceding the disposition.

At the present time, it appears that the value of the shares of Common Stock of the Company is derived principally from real property in Canada. Accordingly, the exemption from Canadian tax for capital gains on a disposition of these shares would not appear to be available. However, should the activities of the Company change or expand into other areas in the future, the exemption from Canadian tax may be available at that time.

Notwithstanding the potential exemption from Canadian tax provided under the Convention, where a non-resident of Canada disposes of shares of Common Stock of the Company that are "taxable Canadian property", the non-resident is required to file a Canadian income tax return in respect of any such dispositions.

Assuming that no exemption is available under the Convention, a shareholder who is a non-resident of Canada to whom the Company's shares of Common Stock represent taxable Canadian property will include one-half of the amount of the capital gain (the "taxable capital gain") on the disposition of the Company's shares as taxable income for purposes of computing Canadian tax payable. Where a non-resident shareholder realizes a capital loss on the disposition of "taxable Canadian property", one half of the loss (the "allowable capital loss") may be deducted from taxable capital gains from the disposition of taxable Canadian property realized by the shareholder in the same year. Alternatively, where the non-resident shareholder cannot apply the allowable capital loss against taxable capital gains realized in the same year, subject to certain adjustments for years when the capital gains inclusion rate was greater than one-half, the allowable capital loss can be deducted from taxable capital gains realized by the non-resident shareholder in respect of taxable Canadian property in the three previous years or any subsequent year.

If a share of the Common Stock of the Company is disposed of by the Shareholder to the Company other than in the open market in the manner in which shares would normally be purchased by the public, the proceeds of disposition will, in general terms, be limited to the paid-up capital of the share and the balance of the price paid will be deemed to be a dividend. The amount of such dividend will be subject to Canadian withholding tax as previously described.

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following discussion summarizes the material United States federal income tax consequences, under current law, generally applicable to a U.S. Holder (as defined below) of the Company's Common Stock. This discussion does not address consequences peculiar to persons subject to special provisions of federal income tax law, such as tax-exempt organizations, qualified retirement plans, financial institutions, insurance companies, real estate investment trusts, regulated investment companies, broker-dealers, non-resident alien individuals or foreign corporations, shareholders owning Common Stock representing 10% of the vote and value of the Company. In addition, this discussion does not cover any state, local or foreign tax consequences.

The following discussion is based upon the sections of the Internal Revenue Code of 1986, as amended (the "Code"), Treasury regulations, published Internal Revenue Service ("IRS") rulings, published administrative positions of the IRS and court decisions that are currently applicable, any or all of which could be materially and adversely changed, possibly on a retroactive basis, at any time. In addition, this discussion does not consider the potential effects, both adverse and beneficial of recently proposed legislation which, if enacted, could be applied, possibly on a retroactive basis, at any time. The following discussion is for general information only and is not intended to be, nor should it be construed to be, legal or tax advice to any holder or prospective holder of the Company's Common Stock and no opinion or representation with respect to the United States federal income tax consequences, to any such holder or prospective holders is made. Accordingly, holders and prospective holders of the Company's Common Stock should consult their own tax advisors about the federal, state, local and foreign tax consequences of purchasing, owning and disposing of shares of Common Stock of the Company.

U.S. Holders

As used herein, a "U.S. Holder" is defined as (i) a citizen or resident of the U.S., or any state thereof, (ii) a corporation or other entity treated as a corporation for U.S. federal income tax purposes created or organized under the laws of the U.S. or any political subdivision thereof, (iii) an estate the income of which is subject to United States federal income tax regardless of source or that is otherwise subject to United States federal income tax on a net income basis in respect of the common shares, or (iv) a trust whose administration is subject to the primary supervision of a U.S. court and which has one or more U.S. fiduciaries who have the authority to control all substantial decisions of the trust, whose ownership of Common Stock is not effectively connected with the conduct of a trade or business in the United States and who is not a shareholder who acquired his or her stock through the exercise of employee stock options or otherwise as compensation.

Distributions on Shares of Common Stock

U.S. Holders receiving dividend distributions (including constructive dividends) with respect to the Company's Common Stock are required to include in gross income for United States federal income tax purposes the gross amount of such distributions to the extent that the Company has current or accumulated earnings and profits, calculated pursuant to United States federal income tax principles, without reduction for any Canadian income tax withheld from such distributions. Such Canadian tax withheld may be credited, subject to certain limitations, against the U.S. Holder's United States federal income tax liability or, alternatively, may be deducted in computing the U.S. Holder's United States federal taxable income by those who itemize deductions. (See more detailed discussion at "Foreign Tax Credit" below.)

To the extent that distributions exceed current or accumulated earnings and profits of the Company, calculated pursuant to United States federal income tax principles, they will be treated first as a return of capital up to the U.S. Holder's adjusted basis in the Common Stock and thereafter as gain from the sale or exchange of such shares. Preferential tax rates for long-term capital gains are applicable to a U.S. Holder which is an individual, estate or trust. There are currently no preferential tax rates for long-term capital gains for a U.S. Holder which is a corporation. Dividends paid on the Company's Common Stock will not generally be eligible for the dividends received deduction provided to corporations receiving dividends from certain United States corporations.

Foreign Tax Credit

A U.S. Holder who pays (or has withheld from distributions) Canadian income tax with respect to the ownership of the Company's Common Stock may be entitled, at the option of the U.S. Holder, to either a deduction or a tax credit for such foreign tax paid or withheld. Generally, it will be more advantageous to claim a credit because a credit reduces United States federal income taxes on a dollar-for-dollar basis, while a deduction merely reduces the taxpayer's income subject to tax. This election is made on a year-by-year basis and applies to all foreign taxes paid by (or withheld from) the U.S. Holder during that year. Subject to certain limitations, Canadian taxes withheld will be eligible for credit against the U.S. Holder's United States federal income taxes. Under the Code, the limitation on foreign taxes eligible for credit is calculated separately with respect to specific classes of income. Dividends paid by the Company generally will be either "passive" income or "financial services" income, depending on the particular U.S. Holder's circumstances. Foreign tax credits allowable with respect to each class of income cannot exceed the U.S. federal income tax otherwise payable with respect to such class of income. The consequences of the separate limitations will depend on the nature and sources of each U.S. Holder's income and the deductions appropriately allocated or apportioned thereto. The availability of the foreign tax credit and the application of the limitations on the credit are fact specific and holders and prospective holders of Common Stock should consult their own tax advisors regarding their individual circumstances.

Disposition of Shares of Common Stock

A U.S. Holder will recognize gain or loss upon the sale of shares of Common Stock equal to the difference, if any, between (i) the amount of cash plus the fair market value of any property received; and (ii) the shareholder's tax basis in the Common Stock. This gain or loss will be capital gain or loss if the shares are a capital asset in the hands of the U.S. Holder, and such gain or loss will be long-term capital gain or loss if the U.S. Holder has held the Common Stock for more than one year. Gains and losses are netted and combined according to special rules in arriving at the overall capital gain or loss for a particular tax year. Deductions for net capital losses are subject to significant limitations but, in general, non-corporate taxpayers may deduct net capital losses, whether short-term or long-term, of up to US\$3,000 per year (US\$1,500 in the case of a married individual filing separately). For U.S. Holders who are individuals, any unused portion of such net capital loss may be carried over to be used in later tax years until such net capital loss is thereby exhausted. For U.S. Holders which are corporations (other than corporations subject to Subchapter S of the Code), an unused net capital loss may be carried back three years from the loss year and carried forward five years from the loss year to be offset against capital gains until such net capital loss is thereby exhausted. Gain or loss recognized upon the sale of shares of Common Stock generally will be treated as United States source income or loss for foreign tax credit purposes.

OTHER CONSIDERATIONS

In the following circumstance, the above discussion may not describe the United States federal income tax consequences resulting from the holding and disposition of the Company's Common Stock:

It is unlikely that the company meets the definition of a "foreign personal holding company" (a "FPHC") or a "controlled foreign corporation (a "CFC") under current U.S. law. If more than 50% of the voting power or value of the Company were owned (actually or constructively) by U.S. Holders who each owned (actually or constructively) 10% or more of the voting power of the Company's common shares ("10% Shareholders"), then the Company would be treated as a CFC and each 10% Shareholder would be required to include in its taxable income as a constructive dividend an amount equal to its share of certain undistributed income of the Company. If (1) more than 50% of the voting power or value of the Company's common shares were owned (actually or constructively) by five or fewer individuals who are citizens or residents of the United States and (2) 60% (50% in subsequent years) or more of the Company's gross income consisted of certain interest, dividend or other enumerated types of income, then the Company would be a FPHC. If the Company were a FPHC, then each U.S. Holder (regardless of the amount of the Company's common shares owned by such U.S. Holder) would be required to include in its taxable income as a constructive dividend its share of the Company's undistributed income of specific types.

We do not believe that the Company meets the definition of a "passive foreign investment company" (a "PFIC"), but there can be no assurance that we will not become a PFIC in the future. If 75% or more of the Company's annual gross income has ever consisted of, or ever consists of, "passive" income or if 50% or more of the average value of the Company's assets in any year has ever consisted of, or ever consists of, assets that produce, or are held for the production of, such "passive" income, then the Company would be or would become a PFIC. Gains from transactions in commodities such as gold are treated as "passive" income unless "substantially all" of a company's business (generally, more than 85%) is as an active producer of the commodity. It is possible that the rules relating to transactions in commodities were not intended to result in a corporation that is engaged in the active business of mining being treated as a PFIC.

If the Company were to be a PFIC, then a U.S. Holder would be required to pay an interest charge together with tax calculated at a maximum tax rate on certain "excess distributions" (defined to include gain on the sale of stock) unless such U.S. Holder made an election either to (1) include in his or her taxable income certain undistributed amounts of the Company's income or (2) mark to market his or her Company common shares at the end of each taxable year as set forth in Section 1296 of the Code.

Information Reporting and Backup Withholding

U.S. information reporting requirements may apply with respect to the payment of dividends to U.S. Holders of the Company's Common Stock. Under Treasury regulations currently in effect, a non-corporate holder may be subject to backup withholding at a 30% rate with respect to dividends when such holder (1) fails to furnish or certify a correct taxpayer identification number to the payor in the required manner, (2) is notified by the IRS that it has failed to report payments of interest or dividends properly or (3) fails, under certain circumstances, to certify that it has been notified by the IRS that it is subject to backup withholding for failure to report interest and dividend payments. Finalized Treasury regulations have generally expanded the circumstances under which U.S. information reporting and backup withholding may apply. Holders should consult their own tax advisors regarding the application of the U.S. information reporting and backup withholding rules, including the finalized Treasury regulations.

ITEM 11: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Commodity Price and Foreign Currency Exchange Rate Risk

The Company is engaged in gold mining and related activities, including exploration, extraction, processing, refining and reclamation. Gold bullion is the Company’s principal product. Changes in the price of gold and foreign exchange rates, both of which may fluctuate widely from time to time, could significantly affect the Company’s profitability and cash flows. See “Key Information” under Item 3 above, for a description of risk factors relating to gold price volatility and foreign exchange and currency fluctuations.

Since gold is quoted in United States dollars and the operating costs of the Sleeping Giant Mine are in Canadian dollars, changes in the U.S. to CDN currency rates will directly affect earnings and cash flow. At current 2003 estimates of production of 30,000 ounces of gold and an estimated average gold price of at least U.S.\$350, including the effects of the Company’s hedging program, a change of 0.05 in the 1.57 U.S. to CDN dollar exchange rate would have an impact upon earnings and cash flow of approximately \$500,000. The Company therefore utilizes foreign exchange contracts, for purposes other than trading, to manage foreign currency exchange risk. At December 31, 2002, the Company held US\$2.0 million of foreign currency contracts for 2003 at an average conversion rate of 1.606 into Canadian dollars.

Gold prices are affected by numerous factors, including expectations with respect to the rate of inflation, exchange rates, interest rates, global and regional political and economic crises and governmental policies with respect to gold holdings by central banks. The demand for and supply of gold affect gold prices but not necessarily in the same manner as demand and supply affect the prices of other commodities. The supply of gold consists of a combination of mine production and existing stocks of bullion and fabricated gold held by governments, public and private financial institutions, industrial organizations and private individuals. The demand for gold consists of jewelry and investment demand.

At current 2003 estimates of production of 30,000 ounces of gold, a US\$10 per ounce change in gold prices would have a \$500,000 impact of forecast 2003 earnings and cash flows. The Company therefore uses derivative commodity instruments to manage its exposure to the risks associated with fluctuations in the price of gold. At December 31, 2002, the Company held 2,000 ounces of gold spot deferred contracts for 2003 at an average delivery price of US\$330 per ounce.

ITEM 12: DESCRIPTION OF SECURITIES OTHER THAN EQUITY SECURITIES

Not Applicable.

There are no payments of dividends by the Company in arrears, nor has there been any other material delinquency relating to any class of preference shares of the Company.

ITEM 14: MATERIAL MODIFICATIONS TO THE RIGHTS OF SECURITY HOLDERS AND USE OF PROCEEDS

There has not been a material modifications to the rights of security holders of the Company.

ITEM 15: CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures. The Company's principal executive officer and its principal financial officer, after evaluating the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-14(c) and 15d-14(c)) on March 31, 2003, have concluded that, as of such date, the Company's disclosure controls and procedures were adequate and effective to ensure that material information relating to the Company and its consolidated subsidiaries would be made known to them by others within those entities.

Changes in internal controls. There were no significant changes in the Company's internal controls or in other factors that could significantly affect the Company's disclosure controls and procedures subsequent to the date of their evaluation, nor were there any significant deficiencies or material weaknesses in the Company's internal controls. As a result, no corrective actions were required or undertaken.

GLOSSARY OF MINING TERMS AND DEFINITIONS

Carbon-in-leach (CIL)-- a process to recover dissolved gold onto activated carbon. The activated carbon is introduced into a gold ore-cyanide slurry during the agitation process and is subsequently separated from the slurry for the removal of the gold.

Carbon in Pulp Processing (CIP) -- a process, similar to CIL, to recover dissolved gold onto activated carbon. The activated carbon is introduced to the system after the gold has been dissolved by the cyanide solution.

Cut-Off Grade -- the lowest grade of mineralized rock that qualifies as ore grade in a given deposit, and is also used as the lowest grade below which the mineralized rock currently cannot be profitably exploited. Cut-off grades vary between deposits depending upon the amenability of ore to gold extraction and upon costs of production.

Core/Diamond Drill -- a machine designed to rotate under pressure an annular diamond studding cutting tool to produce a more or less continuous solid sample of material.

Feasibility Study -- a comprehensive study to determine if a project is economically feasible; its conclusions will determine if a production decision can be made and be used for financing arrangements.

Gold Dore -- the term for a bar of gold which contains impurities in excess of two percent.

Induced Polarization Survey -- An exploration technique based on the detection of differing responses that individual rock types or alteration have to an artificially induced electrical charge. The response measured can be either the delay characteristic of the induced charge or the frequency phase changes resulting from the charge.

Merrill-Crowe -- a precipitation process to recover precious metals from a cyanide solution using zinc dust.

Milling Operation -- Generally refers to the grinding and crushing of ore.

Mineralized Deposit -- a mineralized body which has been physically delineated by drilling, underground work, surface trenching and other workings or drill holes and found to contain a sufficient amount of mineralized material with an average grade sufficient to warrant further evaluation. Such deposit does not qualify as a commercially mineable (or viable) ore body until technical, economic and legal factors have been sufficiently satisfied to classify the mineralized material as a Reserve.

Mining Claim -- that portion of public mineral lands which a party has staked or marked out in accordance with provincial or state mining laws to acquire the right to explore for and exploit the minerals under the surface.

Net Smelter Return -- a return based on the actual gold sale price received less the cost of refining at an off-site refinery.

Ore -- a natural aggregate of one or more minerals which, at a specified time and place, may be mined and sold at a profit, or from which some part may be profitably separated.

Ounces -- troy ounces; in this report production figures refer to gold having a fineness of at least 995 parts per 1,000 parts; other references to ounces in this report do not refer to a specific fineness. There are 31.1035 grams in a troy ounce.

Mineral Reserve -- that part of a mineral deposit that could be economically and legally extracted or produced at the time of the reserve determination. Mineral reserves are customarily stated in terms of "ore" when dealing with metalliferous minerals.

Probable Mineral Reserves – mineral reserves for which quantity and grade and/or quality are computed from information similar to that used for proven mineral reserves, but the sites for inspection, sampling and measurement are farther apart or are otherwise less adequately spaced. The degree of assurance, although lower than that for proven mineral reserves, is high enough to assume continuity between points of observation.

Proven Mineral Reserves – mineral reserves for which (a) quantity is computed from dimensions revealed in outcrops, trenches, workings or drill holes; grade and/or quality are computed from the results of detailed sampling; and (b) the sites for inspection, sampling and measurement are spaced so closely and the geologic character is so well defined that size, shape, depth and mineral content of mineral reserves are well established.

Proven/Probable Mineral Reserves -- is used if the difference in degree of assurance between proven and probable mineral reserves cannot be reliably defined.

Reclamation -- the process by which lands disturbed as a result of mining activity are turned back to a beneficial land use. Reclamation activity includes the removal of buildings, equipment, machinery, and other physical remnants of mining; the closure of tailings impoundments, leach pads and other mine features, and the contouring, covering and revegetation of waste rock piles and other disturbed areas.

Shaft -- a vertical passageway to an underground mine for moving personnel, equipment, supplies and material including ore and waste rock.

Sulphide Ore -- refers to that part of the ore body that has not been oxidized by near-surface waters; generally contains the mineral pyrite (FeS_2) and other sulphides.

Tailings - material rejected from a mill after the valuable minerals have been recovered.

Tonne -- a metric ton of 1,000 kilograms (2,205 pounds).

Tons -- dry short tons (2,000 pounds).

Time-domain Electromagnetic Surveying -- an exploration technique that measures a rock's resistance to the flow of electrical current, which is known as resistivity. TDEM differs from other resistivity methods in that the current is induced as a time-varying magnetic field that is generated by current flow through a large square loop of insulated wire laid on the ground.

MANAGEMENT'S DISCUSSION AND ANALYSIS

OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's discussion and analysis provides a review of the performance of Aurizon's business and compares its 2002 performance with those of the preceding two years. Issues and risks that can be expected to impact future operations are also discussed.

Overview

Aurizon is a Canadian-based gold mining company with operations and exploration activities in north-western Quebec, one of the world's most prolific gold and base metal regions. Aurizon owns 50% of the Sleeping Giant mine and 100% of the advanced development stage Casa Berardi project. The Sleeping Giant mine produced 33,000 ounces of gold to Aurizon's account in 2002 at a cash cost of US\$242 per ounce.

Higher realized gold prices, stable gold production, and lower care and maintenance costs improved Aurizon's 2002 financial results compared to the two prior years. For 2002, Aurizon incurred a net loss of \$2.8 million or \$0.05 per share, compared to a net loss of \$6.1 million or \$0.16 per share in 2001, and a net loss of \$8.4 million or \$0.22 per share in 2000. The 2001 and 2000 results included non-cash write-downs of resource assets totaling \$1.1 million and \$8.6 million respectively.

Operating cash flow from Sleeping Giant in 2002 supported the care and maintenance costs at Casa Berardi totaling \$2.5 million, resulting in modest corporate cash flow for the year. Operating cash flow generated \$0.2 million in 2002, compared to negative cash flow of \$2.8 million, and positive cash flow of \$6.2 million in 2001 and 2000, respectively.

Three equity financings provided \$20.1 million to Aurizon in 2002, allowing the elimination of long term debt and the reinitiation of exploration activity at Casa Berardi. At December 31, 2002, Aurizon had cash and working capital of \$12 million.

Gold Production

Total gold production in 2002 increased to 33,000 ounces from 31,900 ounces in 2001. Total gold production in 2000 was 56,100 ounces, of which 17,100 ounces were attributable to the Beaufor mine, whose operations were suspended in August 2000, and subsequently sold in April 2001.

Revenue

Higher realized gold prices together with a modest increase in gold production in 2002 resulted in an 18% increase in revenue from mining operations compared to 2001. Revenue from mining operations in 2002 was \$16.4 million compared to \$13.9 million in 2001, and \$24 million in 2000. Revenue in 2000 included gold production from the Beaufor mine. The average gold price realized in 2002 was US\$310 per ounce, matching the average London afternoon fixing, higher than the US\$276 and US\$287 per ounce achieved in 2001 and 2000, respectively. During 2002, Aurizon's foreign currency contracts were settled at rates that matched the yearly average exchange rate of 1.57, resulting in Aurizon realizing a Canadian dollar gold price of \$487 per ounce. This compares favourably with Canadian dollar realized gold prices per ounce of \$428 and \$424 in 2001 and 2000, respectively.

Aurizon's ability to generate mine operating profits from its current operations is related, in part, to the market price of gold. Gold trades on the global commodity exchanges and its price is affected by numerous factors beyond the control of Aurizon. With expectations of higher gold prices in 2002, a significantly reduced hedging program contributed revenue of \$22,000 in 2002, down from \$256,000 and \$555,000 in 2001 and 2000, respectively. At December 31, 2002 Aurizon had less than one month's production hedged.

The average London gold price rose 14% in 2002 to US\$310 per ounce compared to the prior year's US\$271 per ounce, the lowest average annual price in twenty-three years. Current prices are still significantly below historical gold prices, which had averaged US\$386 per ounce over the twenty-year period prior to 1999. The low gold prices

for the last four years have been largely driven by central bank selling, speculative short positions and a very strong U.S. dollar.

Interest, royalty and other income in 2002 totaled \$656,000, compared to \$692,000 in 2001 and \$376,000 in 2000. Royalty income from the Beaufor mine which reopened under new owners in 2002 provided \$350,000. Other income in 2001 includes \$620,000 of gold recovered from the circuit of a mill prior to its disposition.

Expenses

Mine operating costs in 2002 increased 8% to \$12.6 million from \$11.7 million in 2001, due to higher unit mining costs at Sleeping Giant. Unit operating costs rose to \$124 per tonne, compared to \$109 per tonne in 2001, resulting in total cash costs per ounce of US\$242 compared to US\$236 in 2001. A 9% increase in ore grade due to higher grade ore from Zone 8, partially offset by a 5% decline in ore mined, resulted in total gold production increasing by 4% during the year compared to 2001.

In 2000, mine operating costs included Beaufor mine costs up to the date of suspending operations and totaled \$16.9 million or US\$203 per ounce. Aurizon's 50% interest in the Beaufor mine was sold in 2001 for cash and a gold-indexed royalty on future production.

Depreciation and depletion expense totaled \$2.4 million in 2002, compared to \$1.8 million in 2001, and \$4 million in 2000. In aggregate, consolidated depreciation, depletion and reclamation costs per ounce totaled US\$46 in 2002 compared to US\$36 and US\$50 in each of the two prior years. A 2% decline in ore reserves at Sleeping Giant together with an increase in capitalized costs associated with exploration and development activities were the main contributing factors to the higher unit charges in 2002. No changes to the provision for reclamation have been necessary since 2000 when an additional provision of \$120,000 was made.

Administrative and general costs have remained stable for the past two years at \$1.6 million and compared to \$2.2 million in 2000. The 27% decrease in 2001 from 2000 reflects cost cutting measures, including staff reductions, which also resulted in additional one-time restructuring costs of \$788,000.

Care and maintenance costs decreased to \$2.5 million compared to \$3.1 million in 2001. The 2002 costs related solely to Casa Berardi, whereas in 2001, costs of \$2.6 million were associated with Casa Berardi and additional costs of \$0.5 million were incurred at Beaufor up to the date of disposition. Prior to 2001, Casa Berardi costs were capitalized as Aurizon was conducting significant exploration activity to advance the development of the project. In 2000, care and maintenance costs at Beaufor totaled \$672,000.

During 2002, exploration and property investigation costs decreased to \$81,000 from \$203,000 in 2001, and \$217,000 in 2000.

The write off of deferred finance costs associated with the early repayment of the Casa Berardi obligation, and interest costs on that obligation totaled \$482,000 in 2002 compared to \$254,000 in 2001.

As a result of the decision to sell non-core assets in 2001, the Beaufor mine was sold, resulting in a loss on sale totaling \$251,000.

During 2001, Aurizon incurred aggregate non-cash charges of \$1.1 million in respect of the carrying values of its non-producing mineral properties. In 2000, these charges totaled \$8.6 million which included write-downs of \$1.5 million and \$1.7 million, respectively, against Aurizon's interests in the Beaufor and Sleeping Giant mines. There were no write-downs of mineral properties in 2002.

Aurizon realized a gain of \$36,000 in 2002 on the disposal of surplus equipment, compared to gains of \$277,000 and \$38,000 in 2001 and 2000, respectively.

Capital tax expense for 2002 was \$157,000, compared to \$126,000 and \$139,000 recorded in 2001 and 2000, respectively. Income tax expense is in respect of large corporations tax and was \$61,000, \$45,000 and \$43,000 in 2002, 2001 and 2000, respectively.

Cash Flow

Operating Activities

Operations generated \$0.2 million of cash during 2002, as cash flow from Sleeping Giant exceeded site maintenance costs at Casa Berardi and corporate costs. This is an improvement from the previous year, during which, \$2.8 million was consumed by operations. Operations provided cash flow of \$6.2 million in 2000, reflecting eight months of cash flow from Beaufor operations prior to suspending operations and the capitalization of Casa Berardi site costs due to the value-added work provided during the completion of a feasibility study.

Investing Activities

Three equity financings in 2002 allowed the reinstatement of exploration activities at Casa Berardi, which, together with a major exploration program at Sleeping Giant, resulted in aggregate investing activities totaling \$5.9 million in 2002. In contrast, the divestiture of the Beaufor Mine, non-core assets and gold recoveries from an idle mill facility exceeded capital expenditures by \$1.1 million in 2001. Aggregate capital expenditures incurred in 2000 totaled \$6.5 million.

Mineral property expenditures in 2002 totaled \$5.8 million, of which \$3.1 million was invested at Casa Berardi and \$2.7 million was invested at Sleeping Giant. At Casa Berardi, \$1.1 million was paid to acquire the residual net smelter royalty from the original vendors and \$2.0 million funded 21,000 metres of exploration drilling east of Zone 113. At Sleeping Giant, \$2.7 million was invested in 68,000 metres of exploration drilling and approximately 1,400 metres of drifting. In 2001, mineral property expenditures totaled \$1.8 million, all of which was invested at Sleeping Giant, primarily in the exploration and development of the 8 Zone and to fund 50,000 metres of exploration drilling. In 2000, mineral property expenditures totaled \$6 million, of which, \$4 million was incurred at Casa Berardi related to engineering costs incurred in connection with the feasibility study completed in the first quarter of the year, and ongoing site costs. Mineral property expenditures in 2000 also included \$1.6 million incurred at Sleeping Giant, including 1,198 metres of drift development and 44,600 metres of exploration diamond drilling; and \$402,000 incurred at Beaufor.

In 2002 and 2001, property, plant and equipment additions totaled \$220,000 and \$114,000, respectively, the majority of which was spent on mine equipment at Sleeping Giant. In 2000, expenditures totaled \$574,000, including mining equipment purchases of \$333,000 and \$164,000, respectively, at Beaufor and Sleeping Giant.

In 2001, investing activities include the sale of Aurizon's 50% interest in the Beaufor mine for cash consideration of \$1.7 million and \$1.0 million of income from gold recovered from the mill circuit at Casa Berardi.

Sales of surplus equipment generated proceeds in 2002, 2001 and 2000 of \$97,000, \$369,000, and \$76,000, respectively.

Financing Activities

Three equity financings, the exercise of warrants attached to these issuances, and the exercise of incentive stock options resulted in net proceeds of \$20.1 million in 2002. As at December 31, 2002, there were 5.4 million warrants outstanding at an average exercise price of \$0.75 per share, of which 4.6 million warrants at an average price of \$0.65 per share expire on June 30, 2003. In 2001 and 2000, the exercise of share purchase warrants and incentive stock options generated proceeds of \$69,000 and \$109,000.

In respect of non-cash financing activities impacting share capital, Aurizon issued 639,246 shares in 2002 and 1,320,907 shares in 2001 having fair values of \$290,000 and \$446,000, respectively, as consideration for interest and deferred finance costs associated with the Casa Berardi acquisition.

During 2002 and 2001, Sleeping Giant received non-repayable government grants to fund ongoing exploration activities, of which Aurizon's share was \$52,000 and \$337,000, respectively. During 2000, Aurizon received

\$104,000 in respect of financial assistance from the Ministry of Natural Resources of Quebec for exploration activity at Casa Berardi.

In 2002, Aurizon received \$0.6 million of provincial refundable mining duties in respect of certain eligible exploration expenditures.

The equity financings in 2002 allowed the early repayment of long-term debts totaling \$4.3 million, which was the remaining Casa Berardi acquisition obligation totaling \$3.9 million and deferred hydro charges totaling \$0.4 million. During 2001, \$120,000 of long-term debt was repaid.

Aurizon's aggregate operating, investing and financing activities during 2002 resulted in a net \$10.7 million increase in its cash balances. As at December 31, 2002, cash and cash equivalents stood at \$12.4 million, compared to \$1.8 million in 2001 and \$3.2 million in 2000.

Balance Sheet

The total assets of Aurizon increased to \$43 million at December 31, 2002 from \$29 million the previous year. At the end of 2002, Aurizon had working capital of \$12 million compared to \$1.2 million at the end of 2001. Aurizon has no debt at December 31, 2002 compared to long-term debt of \$4.2 million the previous year. Shareholders' equity increased to \$36.1 million at December 31, 2002, compared to \$18.7 million the previous year, primarily as a result of the significant equity financings completed in 2002.

The convertible debentures totaling \$6.5 million will mature on May 31, 2003, and are convertible into common shares of the Company at \$0.60 per share, at any time prior to maturity. On May 31, 2003 these debentures automatically convert into 11,666,690 common shares of the Company.

Outlook

Aurizon's share of gold production from Sleeping Giant in 2003 is expected to decrease 8% from 2002 levels to 30,500 ounces as a result of lower anticipated ore production due to a change in mining method of Zone 8, thereby reducing the availability of ore in the first half of 2003. Total cash costs per ounce are expected to increase to US\$258 in 2003, compared to US\$242 achieved in 2002 due to the lower production rates and the necessity to utilize a more expensive mining method to extract ore from a flatter dipping Zone 8.

Based upon estimated ore grades, production rates, operating costs, an average forecast gold price of US\$350 per ounce, and an average U.S. dollar exchange rate of 1.50, the Sleeping Giant Mine is expected to provide approximately \$4.4 million in operating cash flow to Aurizon during the year. From this amount, Aurizon intends to fund \$3.0 million of exploration, development, and capital expenditures at Sleeping Giant, resulting in net minesite cash flow of approximately \$1.4 million. The projected profitability of Sleeping Giant will be influenced by changes in the grade of ore mined from that estimated, and by fluctuations in gold prices and foreign exchange rates over which Aurizon has no control.

In March 2003, a decision was made to deepen the current production shaft at Sleeping Giant by 200 metres to allow access to 77,000 tonnes of probable mineral reserves at a gold grade of 12.2 grams/tonne and 192,000 tonnes of inferred mineral resources at a gold grade of 10.3 grams/tonne. Aurizon's share of the cost is estimated at approximately \$3.5 million and will be incurred between the end of the first quarter of 2003 and the third quarter of 2004. This program should extend the mine life of Sleeping Giant by two years and provide the opportunity to find more ounces within reach of the infrastructure.

Aurizon's operations are very sensitive to the grade of ore mined. The 2003 mine plan for Sleeping Giant anticipates mill throughput of 161,000 tonnes at a grade of 12 grams per tonne. A 10% change in grade would impact Aurizon's forecast 2003 cash flow by \$1.6 million.

A US\$10 per ounce change in the US\$350 per ounce gold price used in Aurizon's 2003 forecast, would have a \$500,000 impact on forecast cash flow. The gold price was relatively volatile during 2002, with the London afternoon fixing ranging from a high of US\$349 per ounce in December, to a low of US\$278 per ounce in January, before closing the year at US\$343 per ounce. Market sentiment improved dramatically in 2002 and early 2003 as gold prices breached the US\$380 mark. As at December 31, 2002, Aurizon had less than one month's gold production hedged.

A change of 0.05 in the 1.50 U.S. to Canadian dollar exchange rate used in Aurizon's 2003 forecast, would impact cash flow by approximately \$500,000. In 2002, the Canadian dollar ranged from 1.511 to 1.613 against the U.S. dollar and averaging 1.570 for the year.

A major underground exploration program at Casa Berardi will commence in early 2003 to extend the present ramp at the West Mine area out to Zone 113 at the 550 metre level. This nineteen month program will provide access to Zone 113 to allow in-fill definition drilling and the extraction of a bulk sample in order to increase the confidence level of the grade, continuity and extent of Zone 113. The costs of this program, including site maintenance costs, are estimated to be \$11 million in 2003. In addition, a \$2 million, 20,000 metre drill program is planned to provide further infill drilling in the 118-120 Zone area and to perform step-out drilling between this area and the East Mine. The objective of these programs is to upgrade the quality of existing reserves and delineate additional reserves in order to secure project financing for the development of a commercial mining operation.

Aurizon relies on net minesite cash flow from Sleeping Giant to cover corporate costs and on equity capital to fund significant exploration and development activity at Casa Berardi. The successful completion of three equity financings in 2002, which realized net proceeds in excess of \$20 million, combined with the anticipated exercise of share purchase warrants in June 2003, should provide sufficient funding for Aurizon's exploration and development commitments for 2003. Aurizon anticipates sourcing additional equity funding during the course of the year to further the exploration and development of Casa Berardi in 2004, in particular, completion of the underground program.

Aurizon Mines Ltd.
Notes to Consolidated Financial Statements
For the years ended December 31, 2002, 2001 and 2000

1. NATURE OF OPERATIONS

The Company is engaged in mining and related activities in Quebec, Canada, and its principal product is gold bullion.

The Company's results are impacted by the price of gold. Gold prices fluctuate and are affected by numerous factors, including expectations with respect to the rate of inflation, exchange rates, interest rates, global and regional political and economic crises and governmental policies with respect to gold holdings by central banks. The demand for and supply of gold affect gold prices but not necessarily in the same manner as demand and supply affect the prices of other commodities. The supply of gold consists of a combination of mine production and existing stocks of bullion and fabricated gold held by governments, public and private financial institutions, industrial organizations and private individuals. The demand for gold consists of jewelry and investment demand. Gold can be readily sold on numerous markets throughout the world and its market value can be readily ascertained at any particular time. As a result, the Company is not dependent upon any one customer for the sale of its product.

The Company relies on the Sleeping Giant Mine as its only current source of operating cash flow. Production based on current reserves is expected to continue for approximately three years. Additional production from Sleeping Giant will be dependent on the results of future exploration and development programs to discover new reserves.

A significant focus of the Company's activities is currently the continuing exploration of the Casa Berardi property. A major underground and surface exploration program is underway in order to advance the project to commercial production.

2. SIGNIFICANT ACCOUNTING POLICIES

a) Canadian Generally Accepted Accounting Principles

These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles. Measurement differences between Canadian and United States generally accepted accounting principles which would have a material effect on these consolidated financial statements are explained in note 15.

b) Principles of Consolidation

Certain of the Company's activities are undertaken in joint ventures with other parties. The Company accounts for its investments in joint ventures using the proportionate consolidation method.

c) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and related notes. Significant areas where management's judgment is applied are asset valuations, contingent liabilities, future income tax valuation reserves and environmental and post-closure obligations. Actual results could differ from those estimates.

d) Cash Equivalents

The Company considers cash equivalents to be cash, as well as all short-term investments with a maturity of 90 days or less at the date of acquisition.

e) Inventory

Inventory is comprised of mine supplies and broken ore awaiting processing and is recorded at the lower of cost and net realizable value.

Aurizon Mines Ltd.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

f) Mineral Properties

i) Producing Mineral Properties

Producing mineral properties are carried at cost, less accumulated depreciation, depletion, and write-downs. Carrying values of producing mineral properties are reviewed when events or conditions occur that suggest possible impairment and, where necessary, are written down to their estimated recoverable amount, determined on a non-discounted basis. Depletion is provided over the estimated life of the asset on a unit-of-production basis using proven and probable reserves. Management's estimates of gold price, recoverable proven and probable reserves, operating, capital and reclamation costs are subject to risks and uncertainties affecting the recoverability of the Company's investment in property, plant and equipment. Although management has made its best estimate of these factors based on current conditions, it is possible that changes could occur in the near term which could adversely affect management's estimate of net cash flows expected to be generated from its operating properties and the need for possible asset impairment write-downs.

Mining operations may be temporarily suspended and a mine placed on a "care-and-maintenance" basis. In this event, all costs incurred are expensed as care and maintenance costs.

ii) Non-Producing Mineral Properties

Acquisition, exploration and development costs associated with a non-producing mineral property are capitalized until the property is producing, abandoned, impaired in value or placed for sale. The costs are transferred to producing mineral properties in the case of a property placed into production. The costs of abandoned properties are charged to earnings when the property is abandoned. Net revenue derived from ore processed up to the point of attaining commercial production is credited to the related deferred expenditures. The costs of properties in excess of their estimated net recoverable amount are charged to earnings if the decision is made to dispose of the property or if it is determined that the property is impaired in value.

Care and maintenance costs are charged to operations during periods in which no significant exploration or development activities are being conducted.

The recoverability of the amounts capitalized in respect of non-producing mineral properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of the properties, and upon future profitable production or proceeds from the disposition of the properties.

g) Estimates of Proven and Probable Reserves

Management's calculation of proven and probable reserves is based upon engineering and geological estimates and financial estimates including gold prices and operating costs. The Company depreciates some of its assets and accrues for reclamation on a unit-of-production basis over proven and probable reserves. Changes in geological interpretations of the Company's ore bodies and changes in gold prices and operating costs may change the Company's estimate of proven and probable reserves. It is possible that the Company's estimate of proven and probable reserves could change in the near term and could result in revised charges for depreciation, depletion and reclamation in future reporting periods.

h) Property, Plant and Equipment

Property, plant and equipment are recorded at cost less accumulated depreciation and write-downs and are depreciated over their estimated useful lives, primarily on the unit-of-production basis and a 20% declining balance rate for machinery and equipment. Depreciation is not provided on assets not in use.

Aurizon Mines Ltd.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

i) Revenue Recognition

The Company recognizes revenue from metals when they have been extracted and processed at the mill facilities. Revenue amounts recognized but not settled are classified as bullion settlements. The Company uses forward gold and currency contracts to manage its exposure to the fluctuating price of gold and foreign exchange movements. Gains or losses from gold hedging are recognized in revenue as hedged production is delivered.

Royalty income is recognized on an accrual basis when the Company has reasonable assurance with respect to measurement and collectability.

j) Foreign Currency Translation

Foreign currency transactions are translated into Canadian dollars at the rates prevailing on the date of the transactions. Monetary balances are translated at the rate of exchange at the balance sheet date and revenue and expenses are translated at average exchange rates. The resulting gains and losses are included in the determination of earnings.

k) Provision for Reclamation Costs

All of the Company's operations are subject to reclamation, site restoration and closure requirements. Costs related to ongoing site restoration programs are expensed when incurred. A provision for mine closure and site restoration costs is charged to earnings over the lives of the mines on a unit-of-production basis and in the case where the Company has assumed an obligation, the liability is recorded at its estimated fair value. The Company calculates its estimates of the ultimate reclamation liability based on current laws and regulations and the expected future costs to be incurred in reclaiming, restoring and closing its operating mine sites. It is possible that the Company's estimate of its ultimate reclamation liability could change due to possible changes in laws and regulations and changes in cost estimates.

l) Government Assistance

The Company applies for financial assistance from the Government of Quebec with respect to certain exploration and development costs incurred in that province. The assistance is accounted for using the cost reduction approach whereby the amounts received or receivable each year are applied to reduce the cost of the related assets or related deferred expenditures or expenses.

m) Incentive Stock Option Plan

Effective January 1, 2002, the Company adopted the new CICA accounting standard for stock-based compensation which requires prospective application to all stock options granted on or after January 1, 2002. Under this standard, all stock-based payments to non-employees shall be accounted for using the fair value based method of accounting. As permitted by the standard, in respect of stock-based payments to employees and directors, the Company has elected not to follow the fair value based method of accounting for stock options. As a result, the Company discloses in Note 8(d) the pro-forma effect of accounting for stock options granted to employees and directors subsequent to January 1, 2002 using the fair value based method.

n) Income and Resource Taxes

Future income tax assets and liabilities are determined based on the difference between the tax bases of the company's assets and liabilities and the respective amounts reported in the financial statements. The future tax assets or liabilities are calculated using the tax rates for the periods in which the differences are expected to be settled. Future tax assets are recognized to the extent that they are considered more likely than not to be realized.

o) Earnings Per Share

Effective January 1, 2001, the Company adopted the new accounting standard for the calculation of earnings per share which follows the "treasury stock method" in the calculation of diluted earnings per share. Earnings (loss) per share is calculated using the weighted average number of common shares issued and outstanding during the year.

a) Sleeping Giant Mine and Dormex Property

The Company holds a 50% joint venture interest in the Sleeping Giant Mine near Amos, Quebec, subject to royalties of 2% of gross operating profits and a 15% net profits royalty (after recovery of all costs associated with the development of the property).

During 2002, the Company was provided with a \$52,400 (2001 - \$337,495) non-repayable government grant to fund exploration activity at the Sleeping Giant Mine.

During 2000, the Company recorded a \$1,700,000 write-down of its Sleeping Giant Mine as a result of continuing low gold prices.

The Company owns a 50% interest in the non-producing Dormex property that surrounds the Sleeping Giant Mine. During 2001, the Company wrote-off its investment in the Dormex property, totaling \$1,073,817.

b) Casa Berardi Property

The Company holds a 100% interest in the Casa Berardi property near La Sarre, Quebec.

During 2002, care and maintenance costs totaling \$2,532,458 (2001 - \$2,633,439; 2000 - nil) were charged to operations and the company acquired the 2% to 4% gold indexed net smelter royalty from the original vendor of the property for \$1,119,600.

As at December 31, 2002, the Company has received government assistance totaling \$1,973,161 that is repayable if commercial production is reached at Casa Berardi. Repayment of 30% of the assistance is due within 24 months, 30% within 36 months and 40% within 48 months, respectively, of the achievement of commercial production. Should commercial production be reached at Casa Berardi, the repayable government assistance will be recorded as a liability and the carrying value of the mineral property will be increased by the same amount.

No government assistance was received for Casa Berardi in 2002 (2001 - nil; 2000 - \$103,759).

c) Beaufor Mine and Perron Property

6. LONG-TERM DEBT

a) Casa Berardi Acquisition Obligation

During 2002, the Company paid \$5 million to the vendor of Casa Berardi, of which \$3,880,400 represented the settlement of the final acquisition obligation owed at December 31, 2001 and the balance of \$1,119,600 related to the acquisition of the 2% to 4% gold indexed net smelter royalty.

During 2001, the Company renegotiated the Casa Berardi acquisition obligation which resulted in interest charges of 10% per annum on the outstanding balance, payable quarterly in shares of the Company. As consideration for the renegotiation, the Company issued one million common shares to the lender at a fair value of \$350,000. This was recorded as a deferred finance cost and was to be amortized over the period to maturity. As at December 31, 2001, the unamortized costs totaled \$291,667. As a result of the repayment of the remaining acquisition obligation, the \$291,667 has been charged to operations in 2002.

b) Hydro Quebec Obligation

During 2002, the Company was permitted to defer payment of \$118,356 of additional monthly hydro charges at Casa Berardi and then repaid this balance together with \$323,106 owing at December 31, 2001, in July 2002. The deferred hydro charges were accruing interest at 9.3% per annum.

In 2000, the estimated provision for reclamation costs at Casa Berardi was reduced by \$1,095,000. This amount was applied against mineral properties as the original estimate of \$2,650,000 was recorded on acquisition. Reclamation costs expensed in 2002 were nil (2001 - nil; 2000 - \$120,031).

9. CONVERTIBLE DEBENTURES

During 1998, the Company issued a \$7,000,000 non-interest bearing convertible debenture for net proceeds of \$6,517,534. The debentures, which are collateralized by the Company's 50% interest in the Sleeping Giant Mine, mature on May 31, 2003, and are convertible in whole or in part, into common shares of the Company at \$0.60 per share, at any time prior to maturity. On May 31, 2003, these debentures automatically convert into 11,666,690 common shares of the Company.

The debentures have been classified as a component of equity as, given the nature of the conversion features and the Company's right to settle the debentures by the issuance of common shares, they are considered to represent permanent capital.

Aurizon Mines Ltd.

15. DIFFERENCES BETWEEN CANADIAN AND UNITED STATES GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (Continued)

c) Mineral Property Exploration Expenditures

Mineral property exploration expenditures are accounted for in accordance with Canadian GAAP as disclosed in note 2. For U.S. GAAP purposes, the Company expenses as incurred exploration expenditures relating to unproven mineral properties. When proven and probable reserves are determined for a property, subsequent exploration and development costs of the property are capitalized. The capitalized costs of such properties are measured, on a periodic basis, to ensure that the carrying value can be recovered on an undiscounted cash flow basis. If the carrying value cannot be recovered on this basis, the mineral properties would be written down to net recoverable value on a discounted cash flow basis.

d) Stock-Based Compensation

In accordance with the Statement of Financial Accounting Standards Board No. 123, "Accounting for stock-based Compensation", which became effective for fiscal years beginning after December 15, 1996, the Company has opted, for financial statement presentation purposes, not to apply the fair value-based accounting method to stock-based awards granted to employees.

e) Convertible Debentures

Under Canadian GAAP, the convertible debentures referred to in note 9 are accounted for as equity, whereas under U.S. GAAP, they would be accounted for as a long-term liability.

Under U.S. GAAP, warrants attached to a convertible debenture must be allocated as part of the original proceeds and shown separately as a permanent component of equity. The principal amount of the debt will be returned to its face value over the life of the instrument with the accretion being charged to earnings. The costs of issuing the instrument would also be treated as deferred financing charges and amortized over its term.

f) Accounting for Derivative Instruments and Hedging Activities

At December 31, 2002, the Company had outstanding gold and foreign exchange derivative instruments with an unrealized mark-to-market gain of \$12,330.

g) Revenue Recognition

The Company recognizes revenue from metals when they have been extracted and processed at the mill facilities. Revenue amounts recognized but not settled are classified as bullion settlements. Under U.S. GAAP, revenue is not recorded before title has passed.

h) New Pronouncements

i) Asset Retirement Obligations

The Financial Accounting Standards Board ("FASB") has issued SFAS No. 143, "Accounting for Asset Retirement Obligations." This statement addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. It requires that the fair value of a liability for an asset retirement obligation be recognized in the period in which it is incurred if a reasonable estimate of fair value can be made. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset.

The Canadian Institute of Chartered Accountants ("CICA") has approved, subject to written ballot, a new Handbook section, "Asset Retirement Obligations," to replace the current guidance on future removal and site restoration costs included in the CICA accounting standard 3061, "Property, Plant and Equipment." The standard, which is similar to SFAS 143, is effective for years beginning on or after January 1, 2004. The standard requires recognition of a liability at its fair value for the obligation associated with the retirement of a tangible long-lived asset. A corresponding asset retirement cost would be added to the carrying amount of the related asset and amortized to expense over the useful life of the asset. The Company is assessing the impact of this new standard which will be adopted on January 1, 2003.

Aurizon Mines Ltd.

15. DIFFERENCES BETWEEN CANADIAN AND UNITED STATES GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (Continued)

ii) Impairment of Long-Lived Assets

The Accounting Standards Board of the CICA has issued CICA 3063, "Impairment of Long-Lived Assets", which will be effective for years beginning on or after April 1, 2003. This statement establishes standards for the recognition, measurement and disclosure of the impairment of non-monetary long-lived assets, including property, plant and equipment, intangible assets with finite useful lives, deferred pre-operating costs and long-term prepaid assets. The Company does not expect that the implementation of this new standard will have a material impact on its financial position or results of operations.

iii) Hedging Transactions

The CICA has issued Accounting Guideline 13, "Hedging Relationships," (AcG 13) which will be effective for years beginning on or after July 1, 2003. AcG 13 addresses the identification, designation, documentation, and effectiveness of hedging transactions for the purposes of applying hedge accounting. It also establishes conditions for applying or discontinuing hedge accounting. In December 2002, the CICA approved, subject to written ballot, certain amendments to AcG 13. These amendments are expected to be finalized in the first half of 2003. Under the new guideline, the Company will be required to document its hedging transactions and explicitly demonstrate that the hedges are sufficiently effective in order to continue accrual accounting for positions hedged with derivatives.

iv) FASB 145

The FASB has issued SFAS No. 145, "Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections." This standard updates, defines and simplifies several existing accounting pronouncements. For fiscal years beginning after May 15, 2002, gains and losses from extinguishment of debt are no longer required to be treated as an extraordinary item, net of income taxes. The Company does not expect that the implementation of these guidelines will have a material impact on its financial position or results of operations.

The Company hereby agrees to use its commercially reasonable best efforts to secure compliance with all securities regulatory requirements on a timely basis in connection with the distribution of the Offered Securities to the Purchasers, including by filing within the periods stipulated

under Applicable Securities Laws and at the Company's expense all private placement forms required to be filed by the Company and the Purchasers, respectively, in connection with the Offering and paying all filing fees required to be paid in connection therewith so that the distribution of the Offered Securities may lawfully occur without the necessity of filing a prospectus or any similar document under the Applicable Securities Laws. The Underwriters agree to assist the Company in all reasonable respects to secure compliance with all regulatory requirements in connection with the Offering. The Underwriters will notify the Company with respect to the identity of each Purchaser as soon as practicable and with a view to leaving sufficient time to allow the Company to secure compliance with all relevant regulatory requirements under Applicable Securities Laws relating to the sale of the Offered Securities.

8.2 The Underwriters shall make reasonable efforts to give notice to the Company (in writing or by other means) of the occurrence of any of the events referred to in Section 8.1, provided that neither the giving nor the failure to give such notice shall in any way affect the Underwriters' entitlement to exercise this right at any time through to the Time of Closing.

8.3 The Underwriters' rights of termination contained in this Section are in addition to any other rights or remedies they may have in respect of any default, act or failure to act or non-compliance by the Company in respect of any of the matters contemplated by this agreement.

8.4 If the obligations of the Underwriters and the Purchasers are terminated under this agreement pursuant to the termination rights provided for in Section 8.1, the Company's liabilities to the Underwriters and the Purchasers shall be limited to the Company's obligations under the indemnity, contribution and expense provisions of Sections 9, 10, and 11, respectively, of this agreement.

9. **Indemnity**

9.1 The Company hereby covenants and agrees to indemnify the Underwriters, and their respective directors, officers, shareholders, employees and agents (each being hereinafter referred to as an "**Indemnified Party**"), against all losses (other than a loss of profits), claims, actions, damages, liabilities, costs or expenses, joint or several, including reimbursement to the Underwriters upon demand of the aggregate amount paid in settlement of any actions, suits, proceedings or claims and the reasonable fees and expenses of their counsel that may be incurred in advising with respect to and/or defending any claim to which any Indemnified Party may become subject or otherwise involved in any capacity under any statute or common law or otherwise, caused or incurred by reason of:

- (a) any statement (other than a statement relating solely to, and provided by, the Underwriters) contained in the Company's Information Record which, at the time and in the light of the circumstances under which it was made, contains or is alleged to contain a misrepresentation;
- (b) the omission or alleged omission to state in any certificate of the Company delivered hereunder or pursuant hereto or in the Company's Information Record any material fact (other than a material fact omitted in reliance upon information furnished to the Company by or on behalf of the Underwriters) required to be stated therein or necessary to make any statement therein not misleading in light of the circumstances under which it was made;
- (c) any order made or inquiry, investigation or proceeding commenced or threatened by any Securities Commission or other competent authority based upon any misrepresentation or alleged misrepresentation in the Company's Information Record (other than a statement included in reliance upon information furnished to the Company by or on behalf of the Underwriters) which prevents or restricts the trading in or distribution to the public, as the case may be, of any of the Offered Securities, Compensation Warrants, Underlying Shares (if the Offered Securities are to be issued as Subscription Receipts) or Underlying Compensation Shares in any of the Qualifying Provinces;
- (d) the Company not complying with any requirement of any Applicable Securities Laws or regulatory requirements (including any private placement filing or other requirements under any of the Applicable Securities Laws) in connection with the Offering; or
- (e) any breach of any representation or warranty of the Company contained herein or the failure of the Company to comply with any of its obligations hereunder.

9.2 If any action or claim shall be asserted against an Indemnified Party in respect of which indemnity may be sought from the Company pursuant to the provisions of Section 9.1 or if any potential claim contemplated hereby shall come to the knowledge of an Indemnified Party, the Indemnified Party shall promptly notify the Company in writing. If, through the fault of the Indemnified Party, the Company does not receive notice of any such action, claim or potential claim in time to contest effectively the determination of any liability susceptible of being contested, the Company shall be entitled to set off against the amount claimed by the Indemnified Party the amount of any losses incurred by the Company which result from the Indemnified Party's failure to give such notice on a timely basis. The Company shall be entitled but not obligated to participate in or assume the defence thereof, provided, however, that the defence shall be through legal counsel acceptable to the Indemnified Party, acting reasonably. In addition, the Indemnified Party shall also have the right to employ separate counsel in any such action and participate in the defence thereof, and the fees and expenses of such counsel shall be borne by the Indemnified Party unless:

- (a) the employment thereof has been specifically authorized in writing by the Company;
- (b) the Indemnified Party has been advised by counsel, acting reasonably, in a written opinion setting out the reasons therefor, that representation of the Company and the Indemnified Party by the same counsel would be inappropriate due to actual or potential differing interests between them; or
- (c) the Company has failed within a reasonable time after receipt of such written notice to assume the defense of such action or claim;

provided that the Company shall not be required to assume the fees and expenses of more than one additional counsel to the Indemnified Party. Neither party shall effect any settlement of any such action or claim or make any admission of liability or fact without the written consent of the other party, such consent to be promptly considered and not to be unreasonably withheld. The indemnity hereby provided for shall remain in full force and effect and shall not be limited to or affected by any other indemnity in respect of any matters specified herein obtained by the Indemnified Party from any other person.

9.3 To the extent that any Indemnified Party is not a party to this agreement, the Underwriters shall obtain and hold the right and benefit of the indemnity provisions hereof in trust for and on behalf of such Indemnified Party, entitled to enforce such provisions for their benefit and on behalf of such Indemnified Party.

10. **Contribution**

10.1 In the event that the indemnity provided for above is, for any reason, declared by a court of competent jurisdiction to be illegal or unenforceable as being contrary to public policy or for any other reason, the Underwriters and the Company shall contribute to the aggregate of all losses, claims, costs,

damages, expenses or liabilities (including any legal or other expenses reasonably incurred by the Indemnified Party) of the nature provided for above such that an Underwriter shall be responsible only for that portion represented by the percentage that the portion of the Underwriting Fee payable by the Company to such Underwriter bears to the gross proceeds realized from the sale of the Offered Securities, whether the Underwriters have been sued together or separately, and the Company shall be responsible for the balance, provided that, in no event, shall an Underwriter be responsible for any amount in excess of the portion of the Underwriting Fee actually received by such Underwriter. In the event that the Company may be held to be entitled to contribution from the Underwriters under the provisions of any statute or law, the Company shall be limited to contribution in an amount not exceeding the lesser of: (i) the portion of the full amount of losses, claims, costs, damages, expenses and liabilities, giving rise to such contribution for which the Underwriters are responsible, as determined above, and (ii) the amount of the Underwriting Fee actually received by the Underwriter. Notwithstanding the foregoing, a party guilty of fraudulent misrepresentation shall not be entitled to contribution from the other party. Any party entitled to contribution will, promptly after receiving notice of commencement of any claim, action, suit or proceeding against such party in respect of which a claim for contribution may be made against the other party under this section, notify such party from whom contribution may be sought. In no case shall such party from whom contribution may be sought be liable under this agreement unless such notice has been provided, but the omission to so notify such party shall not relieve the party from whom contribution may be sought from any other obligation it may have otherwise than under this section, except to the extent that such failure to notify jeopardizes the legal position of the party from whom contribution may be sought. The right to contribution provided in this section shall be in addition to, and not in derogation of, any other right to contribution which the Underwriters or the Company may have by statute or otherwise by law.

10.2 The Company waives its right to recover contribution from the Underwriters or any other Indemnified Party with respect to any liability of the Company solely by reason of or arising out of any misrepresentation contained in the Company's Information Record, other than a misrepresentation included in reliance upon and in conformity with written information furnished to the Company by or on behalf of the Underwriters specifically for use therein.

11. **Expenses**

11.1 Whether or not the Offering is completed, all expenses incurred from time to time in connection with the Offering (including the Underwriters' reasonable out-of-pocket expenses which include those expenses incurred in connection with due diligence and marketing meetings) and the fees and disbursements of the Underwriters' legal counsel or incidental to the sale, issue or distribution of the Offered Securities, the Compensation Warrants and all matters in connection with the transactions herein, including the costs and filing fees with respect to the private placement of the Offered Securities, the cost of printing the certificates representing the Offered Securities, the Compensation Warrant Certificates, the certificates representing the Underlying Shares (if the Offered Securities are to be issued as Subscription Receipts) and the Underlying Compensation Shares, the costs associated with the listing and posting for trading on the Exchange of the Offered Securities (if the Offered Securities are to be issued as Shares) or the Underlying

Shares (if the Offered Securities are to be issued as Subscription Receipts), as applicable, and the Underlying Compensation Shares, the cost of the registration and delivery of the Offered Securities, the Compensation Warrant Certificates, the certificates representing the Underlying Shares (if the Offered Securities are to be issued as Subscription Receipts) and the Underlying Compensation Shares and the fees and expenses of each of the Company's auditors, counsel and local counsel shall be borne by the Company. The Company shall also be responsible for any exigible Goods and Services Tax on the foregoing amounts. The Company covenants and agrees to fully reimburse the Underwriters from time to time for all such expenses immediately upon the receipt of one or more invoices.

12. **Survival of Warranties, Representations, Covenants and Agreements**

12.1 All warranties, representations, covenants and agreements of the Company herein contained or contained in documents submitted or required to be submitted pursuant to this agreement shall survive the purchase of the Offered Securities and shall continue in full force and effect (with respect to representations and warranties, as to their truth and accuracy as at the Time of Closing) for the benefit of the Underwriters or the Purchasers for a period ending on the Survival Limitation Date. Notwithstanding the foregoing, the provisions contained in this agreement in any way related to the obligations set out under the headings "Indemnity", "Contribution" or "Expenses" hereof shall survive and continue in full force and effect, indefinitely.

13. **Obligation of Underwriters to Purchase**

13.1 The obligation of the Underwriters to purchase the Offered Securities in connection with the Offering at the Time of Closing shall be several and not joint or joint and several and shall be limited to the percentage of the Offered Securities set out opposite the name of each Underwriter below:

National Bank Financial Inc.	60.0%
Haywood Securities Inc.	40.0%

13.2 In the event that any Underwriter fails to purchase its applicable percentage of the aggregate amount of the Offered Securities at the Time of Closing, the other Underwriter shall have the right, but shall not be obligated, to purchase all but not less than all of the Offered Securities which would otherwise have been purchased by the Underwriter which failed to purchase. If, with respect to the Offered Securities, the non-defaulting Underwriter elects not to exercise such right so as to assume the entire obligation of the defaulting Underwriter (the Offered Securities in respect of which the defaulting Underwriter fails to purchase and the non-defaulting Underwriter does not elect to purchase being hereinafter called the "**Default Offered Securities**"), then the Company shall have the right to either: (i) proceed with the sale of the Offered Securities (less the Default Offered Securities) to the non-defaulting Underwriter; or (ii) terminate its obligations hereunder without liability to the Underwriters except under the headings "Indemnity", "Contribution" and "Expenses" above in respect of the non-defaulting Underwriter. Nothing in this paragraph shall oblige the Company to sell to any of the Underwriters less than

all of the aggregate amount of the Offered Securities or shall relieve any of the Underwriters in default hereunder from liability to the Company.

14. **Action by the Underwriters**

14.1 All steps, including the granting of any waivers, which must or may be taken by the Underwriters in connection with the agreement resulting from the Company's acceptance of this offer, with the exception of the matters relating to termination contemplated by Section 8, may be taken by NBF on behalf of itself and Haywood Securities Inc. and the execution of this agreement by Haywood Securities Inc. and by the Company shall constitute the Company's authority and obligation for accepting notification of any such steps from, and for delivering the certificates representing the Offered Securities and the Compensation Warrants to or to the order of, NBF. NBF shall fully consult with Haywood Securities Inc. with respect to all notices, waivers, extensions or other communications to or with the Company.

Accordingly, the Underwriters represent, warrant and covenant to the Company that:

1. The Underwriters have offered and sold, and will offer and sell the Offered Securities only in accordance with Rule 903 of Regulation S or as provided in paragraphs 2 through 7 below. Accordingly, neither the Underwriters, their respective affiliates nor any persons acting on their behalf, have made or will make (except as permitted in paragraphs 2 through 6 below) (i) any offer to sell or any solicitation of an offer to buy, any of the Offered Securities to any person in the United States, (ii) any sale of the Offered Securities to any purchaser unless, at the time the buy order was or will have been originated, the purchaser was outside the United States, or the Underwriters, affiliates or persons acting on their behalf either reasonably believed that such purchaser was outside the United States, or (iii) any Directed Selling Efforts in the United States with respect to the Offered Securities.

Prior to completion of any sale of the Offered Securities in the United States, each U.S. purchaser thereof (a "**Subscriber**") will be required to represent, warrant and agree in writing with the Company, the Underwriters and the Placement Agents selling the Offered Securities to such U.S. Purchaser, that:

- (a) **Authorization and Effectiveness.** If the Subscriber is a corporation, the Subscriber is a valid and subsisting corporation, has the necessary corporate capacity and authority to execute and deliver the subscription agreement for U.S. Purchasers of Offered Securities (the "**U.S. Subscription Agreement**") and to observe and perform its covenants and obligations thereunder and has taken all necessary corporate action in respect thereof. Whether the Subscriber is a natural person or a corporation, partnership or other entity, upon acceptance by the Company, the Underwriters and the Placement Agents, the U.S. Subscription Agreement will constitute a legal, valid and binding contract of the Subscriber, and any beneficial purchaser for whom it is purchasing, enforceable against the Subscriber and any such beneficial purchaser in accordance with its terms.

The entering into of the U.S. Subscription Agreement and the transactions contemplated thereby will not result in the violation of any terms or provisions of any law applicable to

or the constating documents of, the Subscriber or of any agreement, written or oral, to which the Subscriber may be a party or by which he or she is or may be bound;

- (b) **Residence.** The Subscriber, or any beneficial purchaser as to which the Subscriber exercises sole investment discretion and for whom it is purchasing, is a resident of the jurisdiction referred to under "Name and Address of Subscriber" on the first page of the U.S. Subscription Agreement, which address is the residence or place of business of the Subscriber not created or used solely for the purpose of acquiring Offered Securities;

The Company hereby agrees to use its commercially reasonable best efforts to secure compliance with all securities regulatory requirements on a timely basis in connection with the distribution of the Flow Through Common Shares and the Additional Shares to the Purchasers, including by filing within the periods stipulated under Applicable Securities Laws and at the Company's expense all private placement forms required to be filed by the Company and the Purchasers, respectively, in connection with the Offerings and paying all filing fees required to be paid in connection therewith so that the distribution of the Flow Through Common Shares and the Additional Shares may lawfully occur without the necessity of filing a prospectus or any similar document under the Applicable Securities Laws (including so as to ensure that the requirements for a four month "hold period" under MI 45-102 are complied with by the Company). The Agents agree to assist the Company in all reasonable respects to secure compliance with all regulatory requirements in connection with the Offerings. effective on or before December 31, 2002, Qualifying Expenditures incurred (or to be incurred) during the Expenditure Period equal to the Aggregate Commitment Amount;

- (f) the Company will file with the CCRA, and with the appropriate provincial tax authorities, where applicable, the forms prescribed by subsection 66(12.68) of the Tax Act, and prescribed by the similar provincial legislation, where applicable, together with copies of the Flow Through Subscription Agreements within the time period prescribed by such acts, and shall provide the Flow Through Purchasers with copies of such forms;
- (g) the Company will file with the CCRA, the form prescribed by subsection 66(12.7) of the Tax Act, and prescribed by the similar provincial legislation, where applicable, on or before the last day of the first month following each month in which any renunciation is made pursuant to the terms of the Flow Through Subscription Agreements;
- (h) the Company will deliver to the Flow Through Purchasers at their respective addresses set forth in the Flow Through Subscription Agreements, not later than March 31, 2003, a statement setting forth the aggregate amounts of Qualifying Expenditure renounced to the applicable Flow Through Purchaser effective for the prior year;
- (i) the Company will maintain its status as a principal business corporation until the later of:
(i) the end of the Expenditure Period; and (ii) such time as the Qualifying Expenditures required to be renounced to all Flow Through Purchasers in respect of the Offerings are validly renounced pursuant the Tax Act;
- (j) neither the Company nor any corporation "associated" (as defined in the Tax Act) with the Company is party to any other agreement for the issuance of flow-through shares for which the required expenditures have not been incurred;
- (k) the Company has not and will not enter into transactions or take deductions which would otherwise reduce its cumulative CEE to an extent which would preclude a renunciation of Qualifying Expenditure hereunder in an amount equal to the Aggregate Commitment Amount in accordance with the Flow Through Subscription Agreements;
- (l) the Company will file all forms required under the Tax Act necessary to effectively renounce Qualifying Expenditures equal to the Aggregate Commitment Amount to the Flow Through Purchasers effective on or before December 31, 2002 and, if requested, to promptly provide each Flow Through Purchaser with a copy of all such forms;
- (m) the Company will not be subject to the provisions of subsection 66(12.67) of the Tax Act in a manner which impairs its ability to renounce Qualifying Expenditures to the Flow Through Purchasers in an amount equal to the Aggregate Commitment Amount and the

Company will provide timely notice to each Flow Through Purchaser if it has reason to believe that it may become subject to the provisions of subsection 66(12.67) with respect to the Flow Through Purchasers; and

- (n) if the Company does not incur and renounce to the Flow Through Purchasers, effective on or before December 31, 2002, Qualifying Expenditures equal to the Aggregate Commitment Amount, the Company will indemnify and hold harmless the Flow Through Purchasers (for the purposes of this paragraph each an "**Indemnified Person**") as to, and pay in settlement thereof to the Indemnified Person on or before the twentieth Business Day following the end of the Expenditure Period, an amount equal to the amount of any tax payable under the Tax Act (and under any corresponding provincial legislation) by any Indemnified Person as a consequence of such failure. In the event that the CCRA reduces the amount renounced by the Company to the Flow Through Purchasers pursuant to subsection 66(12.73) of the Tax Act, the Company shall indemnify and hold harmless each Indemnified Person as to, and pay in settlement thereof to the Indemnified Person, an amount equal to the amount of any tax payable under the Tax Act (and under any corresponding provincial legislation) by the Indemnified Person as a consequence of such reduction. Claims for such indemnification shall be carried out, and procedural matters in respect of any such claims shall be based on, the provisions of section 9 of this agreement, *mutatis mutandis* (as if the Indemnified Person was an Indemnified Party for the purposes of such section).

5.2 General Covenants

- (a) The Company will cause the Flow Through Common Shares, the Additional Shares and (upon the due exercise of Compensation Warrants) the Underlying Compensation Securities to be duly and validly created and issued as fully-paid and non-assessable Shares;
- (b) the Company will enter into Subscription Agreements with the Purchasers and, unless the Company reasonably believes that it would be unlawful to do so, accept each duly executed Subscription Agreement submitted to the Company;
- (c) the Company will use its commercially reasonable best efforts to obtain the necessary regulatory consents from the Exchange for the sale of the Flow Through Common Shares and Additional Shares, in each case on such conditions as are acceptable to the Agents and the Company, acting reasonably;

Underlying Compensation Securities on the Exchange as soon as possible following their issue;

- (e) the Company will comply with the applicable provisions of MI 45-102 and, in the case of the Province of Québec, the terms and conditions of the blanket ruling (the **'Blanket Ruling'**) issued by the Quebec Securities Commission bearing decision number 2001-C-0507 granting relief similar to MI 45-102, such that the Purchasers resident in such jurisdictions where MI 45-102 is in force or in the Province of Québec will be entitled to avail themselves of the four month "hold period" in respect of the Flow Through Common Shares and Additional Shares purchased under the Offerings in accordance with MI 45-102 or the Blanket Ruling, as applicable; and
- (f) the Company agrees not to issue or sell any Shares or financial instruments convertible or exchangeable into Shares, other than for purposes of director or employee stock options or to satisfy existing instruments already issued as of December 11, 2002, until 90 days following the Closing Date, without the prior consent of the Agents, such consent not to be unreasonably withheld.

5.3 Right of First Refusal

Provided that the transaction contemplated herein shall have been completed on the Closing Date, the Company hereby grants to the Lead Agent the right of first refusal to be appointed and to act as lead agent with respect to any and all financings undertaken by the Company within the 12 month period beginning on the date hereof and ending at 5:00 p.m. (Vancouver time) on the first anniversary of the date hereof effected by way of the issuance of equity securities or public debt (a **'Financing'**) publicly announced or otherwise determined by the Company to be proceeded with, which right shall be on the following terms and conditions:

- (i) if at any time the Company intends to publicly announce or otherwise determines to proceed with a Financing (or enter into a transaction as a result of which the Company anticipates that it will publicly announce or otherwise determine to proceed with a Financing), it shall prior to such announcement or determination to proceed, give written notice to the Lead Agent (the **'Notice'**) of such intention, which Notice shall contain the material terms of such Financing, including:
 - (A) the size (or range) of such proposed Financing;
 - (B) the price (or range) at which the Company proposes that such Financing be conducted (or the basis upon which the Financing will be priced, if the price or range of such Financing is not then known);

 - (D) whether the Financing is to be best efforts, underwritten or on a "bought deal" basis; and

- (ii) within five Business Days of receipt of the Notice, the Lead Agent shall elect in writing to:
- (A) commit to undertake the Financing on the terms and conditions set out in the Notice, provided that any one or more of such terms or conditions may be amended by mutual agreement between the Lead Agent and the Company, failing which the Lead Agent shall be deemed to have elected to waive its rights, as contemplated in the following paragraph; or
 - (B) waive any rights which the Lead Agent has hereunder in respect of the Financing only, whereupon the Company shall be relieved of all of its obligations hereunder in respect of such Financing only, provided that the Financing is publicly announced or an engagement letter with respect to such Financing is executed by the Company within 20 days after the date of the Notice; and
- (iii) for greater certainty, the obligations of the Company to the Lead Agent in respect of the Financing shall be revived, notwithstanding a waiver or deemed waiver by the Lead Agent, in the event that the Company proposes to amend the terms of the Financing or the terms of compensation to the agent(s) or underwriter(s) for the Financing, in either case in a manner which could reasonably be expected to cause the Lead Agent to reconsider its waiver or deemed waiver.

6. **Conditions to Purchase Obligation**

- (ix) the offering, sale and delivery by the Company to the Purchasers of the Flow Through Common Shares or Additional Shares, as applicable, and the Compensation Warrants to the Agents are exempt from the prospectus and registration requirements of the Applicable Securities Laws and no documents are required to be filed, proceedings taken or approvals, permits, consents, orders or authorizations obtained under the Applicable Securities Laws to permit such offering, sale and delivery, other than the filing of any private placement reports, fees or undertakings required to be filed under such laws;
- (x) as to the first trade rights and restrictions relating to the Flow Through Common Shares, Additional Shares, Compensation Warrants and Underlying Compensation Securities; and
- (xi) as to such other legal matters which counsel for the Company and the Agents, acting reasonably, may agree upon.

In giving such opinions, counsel to the Company shall be entitled to rely, to the extent appropriate in the circumstances, upon local counsel and shall be entitled as to matters of fact not within their knowledge to rely upon a certificate of fact from responsible persons in a position to have knowledge of such facts and their accuracy. The Company agrees, and the aforesaid legal opinion shall expressly provide, that the Agents may deliver copies of the opinion to each of the addressees thereof; and

- (g) the Agents shall have received such other certificates, statutory declarations, opinions, agreements and materials, in form and substance satisfactory to the Agents and their counsel, as the Agents or their counsel may reasonably request.

7. **Closing**

7.1 The Offerings will be completed at the offices of the Company's legal counsel, DuMoulin Black, 10th Floor - 595 Howe Street, Vancouver, British Columbia V6C 2T5 at the Time of Closing or such other place, date or time as may be mutually agreed to, provided that if the Company has not been able to comply with any of the covenants or conditions set out herein required to be complied with by the Time of Closing or such other date and time as may be mutually agreed to, the respective obligations of the parties will terminate without further liability or obligation except for payment of expenses in accordance with Section 11, indemnity in accordance with Section 9 and contribution in accordance with Section 10.

7.2 At the Time of Closing, the Company shall deliver to the Agents:

- (a) certificates duly registered as the Agents may direct representing the Flow Through Common Shares and Additional Shares, as applicable;
- (b) the Compensation Warrant Certificate duly registered as the Agents may direct;
- (c) the requisite legal opinions and certificates as contemplated above; and
- (d) such further documentation as may be contemplated herein or as counsel to the Agents or the applicable regulatory authorities may reasonably require,

against payment of the purchase price for the Flow Through Common Shares and Additional Shares by certified cheque, wire transfer or bank draft and delivery of the Subscription Agreements and other documentation required to be provided by or on behalf of the Purchasers or the Agents pursuant to this agreement. The Company will, at the Time of Closing, and upon such payment of the purchase price, pay the Agency Fee to the Agents and reimburse the Agents for all of their reasonable estimated expenses as contemplated herein incurred up to the Closing Date upon the delivery by it to the Company of one or more invoices therefor, subject to any adjustment when such actual expenses are finally determined in accordance with Section 11 hereof.

7.3 With respect to any certificates representing the Flow Through Common Shares or Additional Shares in respect of which delivery is to be made to Purchasers in any city other than the city in which the place of closing of the Offerings is to occur and in which the Agents and the registrar and transfer agent for the Shares of the Company each have an office, the Company shall take all reasonable steps to have enabled the Agents to effect delivery to each such Purchaser on the Closing Date provided that reasonable notice is given by the Agents to the Company.

7.4 All terms and conditions of this agreement shall be construed as conditions and any breach or failure to comply with any such terms and conditions shall entitle the Agents to terminate their obligations

(and that of the Purchasers to purchase the Flow Through Common Shares or Additional Shares) by written notice to that effect given to the Company prior to the Time of Closing. It is understood that the Agents may waive in whole or in part, or extend the time for compliance with, any of such terms and conditions on behalf of themselves and the Purchasers without prejudice to their rights in respect of any such terms and conditions or any other subsequent breach or non-compliance, provided that to be binding on the Agents and the Purchasers, any such waiver or extension must be in writing.

8. **Termination of Purchase Obligation**

8.1 Without limiting any of the foregoing provisions of this agreement, and in addition to any other remedies which may be available to them, the Agents (on their own behalf and on behalf of the Purchasers) shall be entitled, at their option, to terminate and cancel, without any liability, their obligations under this agreement and those of the Purchasers, by giving written notice to the Company at any time through to the Time of Closing, if:

- (a) the Agents are not satisfied in any reasonable respect with the results of their due diligence investigations carried out prior to the Time of Closing;
- (b) any order or ruling is issued, any inquiry, investigation or other proceeding (whether formal or informal) in relation to any of the Company or its respective directors and officers is made, threatened or announced by any officer or official of any stock exchange, Securities Commission or other regulatory authority (other than an order based solely upon the activities or alleged activities of the Agents) or any law or regulation is promulgated or changed which operates to prevent or restrict trading in or distribution of the Flow Through Common Shares, Additional Shares, Compensation Warrants or Underlying Compensation Securities;
- (c) there should develop, occur or come into effect any incident of national or international consequence, any law, regulation or inquiry or any other event, action or occurrence of any nature whatsoever which, in the reasonable opinion of the Agents, materially and adversely affects or may materially and adversely affect the financial markets in Canada generally or the business, affairs or capital of the Company, taken as a whole;
- (d) there should occur any material change or change in a material fact which, in the reasonable opinion of the Agents, impacts materially and adversely on the marketability of the Flow Through Common Shares or Additional Shares;
- (e) the Company is in breach of any material term, condition or covenant of this agreement (which has not been waived, in writing, by the Agents) or any material representation or warranty given by the Company in this agreement becomes or is false (and such representation or warranty is not waived, in writing, by the Agents); or

- (f) if the Agents otherwise determine it would be unprofitable or impractical to offer or continue to offer the Flow Through Common Shares or Additional Shares,

the occurrence or non-occurrence of any of the foregoing events or circumstances to be determined in the sole discretion of the Agents, acting reasonably.

8.2 The Agents shall make reasonable efforts to give notice to the Company (in writing or by other means) of the occurrence of any of the events referred to in Section 8.1, provided that neither the giving nor the failure to give such notice shall in any way affect the Agents' entitlement to exercise this right at any time through to the Time of Closing.

8.3 The Agents' rights of termination contained in this section are in addition to any other rights or remedies they may have in respect of any default, act or failure to act or non-compliance by the Company in respect of any of the matters contemplated by this agreement.

8.4 If the obligations of the Agents and the Purchasers are terminated under this agreement pursuant to the termination rights provided for in Section 8.1, the Company's liabilities to the Agents and the Purchasers shall be limited to the Company's obligations under the indemnity, contribution and expense provisions of Sections 9, 10, and 11, respectively, of this agreement.

9. **Indemnity**

9.1 The Company hereby covenants and agrees to indemnify the Agents, and their respective directors, officers, shareholders, employees and agents (each being hereinafter referred to as an "**Indemnified Party**"), against all losses (other than a loss of profits), claims, actions, damages, liabilities, costs or expenses, joint or several, including reimbursement to the Agents upon demand of the aggregate amount paid in settlement of any actions, suits, proceedings or claims and the reasonable fees and expenses of their counsel that may be incurred in advising with respect to and/or defending any claim to which any Indemnified Party may become subject or otherwise involved in any capacity under any statute or common law or otherwise, caused or incurred by reason of:

- (a) the Agents having acted as agents of the Company in respect of the Offerings (other than by reason of the negligence, wilful misconduct or bad faith of the Agents);
- (b) any statement (other than a statement relating solely to, and provided by, the Agents) contained in the Company's Information Record which, at the time and in the light of the circumstances under which it was made, contains or is alleged to contain a misrepresentation;
- (c) the omission or alleged omission to state in any certificate of the Company delivered hereunder or pursuant hereto or in the Company's Information Record any material fact

(other than a material fact omitted in reliance upon information furnished to the Company by or on behalf of the Agents) required to be stated therein or necessary to make any statement therein not misleading in light of the circumstances under which it was made;

- (d) any order made or inquiry, investigation or proceeding commenced or threatened by any Securities Commission or other competent authority based upon any misrepresentation or alleged misrepresentation in the Company's Information Record (other than a statement included in reliance upon information furnished to the Company by or on behalf of the Agents) which prevents or restricts the trading in the Flow Through Common Shares, Additional Shares, Underlying Compensation Securities or the distribution to the public, as the case may be, of the Flow Through Common Shares or Additional Shares in any of the Qualifying Provinces or the distribution to the Agents of the Underlying Compensation Securities;
- (e) the Company not complying with any requirement of any Applicable Securities Laws or regulatory requirements (including any private placement filing or other requirements under any of the Applicable Securities Laws or in respect of the Special Flow Through Covenants) in connection with the Offerings; or
- (f) any material breach of any representation or warranty of the Company contained herein or the failure of the Company to comply with any of its obligations hereunder.

9.2 If any action or claim shall be asserted against an Indemnified Party in respect of which indemnity may be sought from the Company pursuant to the provisions of Section 9.1 or if any potential claim contemplated hereby shall come to the knowledge of an Indemnified Party, the Indemnified Party shall promptly notify the Company in writing. If, through the fault of the Indemnified Party, the Company does not receive notice of any such action, claim or potential claim in time to contest effectively the determination of any liability susceptible of being contested, the Company shall be entitled to set off against the amount claimed by the Indemnified Party the amount of any losses incurred by the Company which result from the Indemnified Party's failure to give such notice on a timely basis. The Company shall be entitled but not obligated to participate in or assume the defence thereof, provided, however, that the defence shall be through legal counsel acceptable to the Indemnified Party, acting reasonably. In addition, the Indemnified Party shall also have the right to employ separate counsel in any such action and participate in the defence thereof, and the fees and expenses of such counsel shall be borne by the Indemnified Party unless:

- (a) the employment thereof has been specifically authorized in writing by the Company;
- (b) the Indemnified Party has been advised by counsel, acting reasonably, in a written opinion setting out the reasons therefor, that representation of the Company and the Indemnified

Party by the same counsel would be inappropriate due to actual or potential differing interests between them; or

- (c) the Company has failed within a reasonable time after receipt of such written notice to assume the defense of such action or claim;

provided that the Company shall not be required to assume the fees and expenses of more than one additional counsel to the Indemnified Party. Neither party shall effect any settlement of any such action or claim or make any admission of liability or fact without the written consent of the other party, such consent to be promptly considered and not to be unreasonably withheld. The indemnity hereby provided for shall remain in full force and effect and shall not be limited to or affected by any other indemnity in respect of any matters specified herein obtained by the Indemnified Party from any other person.

9.3 To the extent that any Indemnified Party is not a party to this agreement, the Agents shall obtain and hold the right and benefit of the indemnity provisions hereof in trust for and on behalf of such Indemnified Party, entitled to enforce such provisions for its benefit and on behalf of such Indemnified Party.

10. **Contribution**

10.1 In the event that the indemnity provided for above is, for any reason, illegal or unenforceable as being contrary to public policy or for any other reason, the Agents and the Company shall contribute to the aggregate of all losses, claims, costs, damages, expenses or liabilities (including any legal or other expenses reasonably incurred by the Indemnified Party) of the nature provided for above such that the Agents shall be responsible for that portion represented by the percentage that the portion of the Agency Fee paid by the Company to the Agents bears to the gross proceeds realized from the sale of the Flow Through Common Shares and Additional Shares, whether the Agents have been sued together or separately, and the Company shall be responsible for the balance, provided that, in no event, shall the Agents be responsible for any amount in excess of the amount of the Agency Fee actually received by the Agents. In the event that the Company may be held to be entitled to contribution from the Agents under the provisions of any statute or law, the Company shall be limited to contribution in an amount not exceeding the lesser of: (i) the portion of the full amount of losses, claims, costs, damages, expenses and liabilities, giving rise to such contribution for which the Agents are responsible, as determined above, and (ii) the amount of the Agency Fee actually received by the Agents. Notwithstanding the foregoing, a party guilty of fraudulent misrepresentation shall not be entitled to contribution from the other party. Any party entitled to contribution will, promptly after receiving notice of commencement of any claim, action, suit or proceeding against such party in respect of which a claim for contribution may be made against the other party under this section, notify such party from whom contribution may be sought. In no case shall such party from whom contribution may be sought be liable under this agreement unless such notice has been provided, but the omission to so notify such party shall not relieve the party from whom contribution may be sought from any other obligation it may have otherwise than under this section, except to the extent that such failure to notify jeopardizes the legal position of the party from whom contribution may be sought. The

right to contribution provided in this section shall be in addition to, and not in derogation of, any other right to contribution which the Agents or the Company may have by statute or otherwise by law.

10.2 The Company waives its right to recover contribution from the Agents or any other Indemnified Party with respect to any liability of the Company solely by reason of or arising out of any misrepresentation contained in the Company's Information Record, other than a misrepresentation included in reliance upon and in conformity with written information furnished to the Company by or on behalf of the Agents specifically for use therein.

11. **Expenses**

11.1 Whether or not the Offerings are completed, all expenses incurred from time to time in connection with the Offerings (including the Agents' reasonable out-of-pocket expenses which include those expenses incurred in connection with due diligence and marketing meetings) and the fees of the Agents' legal counsel or incidental to the sale, issue or distribution of the Flow Through Common Shares, Additional Shares, the Compensation Warrants and all matters in connection with the transactions herein, including the costs and filing fees with respect to the private placement of the Flow Through Common Shares and Additional Shares, the cost of printing the Compensation Warrants Certificate and the certificates representing the Flow Through Common Shares and Additional Shares, the costs associated with the listing and posting for trading on the Exchange of the Flow Through Common Shares, Additional Shares and the Underlying Compensation Securities, the cost of the registration and delivery of the Flow Through Common Shares, Additional Shares and the Compensation Warrant Certificates and the fees and expenses of each of the Company's auditors, counsel and local counsel shall be borne by the Company. The Company shall also be responsible for any exigible Goods and Services Tax on the foregoing amounts. The Company covenants and agrees to fully reimburse the Agents from time to time for all such expenses immediately upon the receipt of one or more invoices.

12. **Survival of Warranties, Representations, Covenants and Agreements**

12.1 All warranties, representations, covenants and agreements of the Company herein contained or contained in documents submitted or required to be submitted pursuant to this agreement shall survive the purchase by the Purchasers of the Flow Through Common Shares and Additional Shares and shall continue in full force and effect (with respect to representations and warranties, as to their truth and accuracy as at the Time of Closing) for the benefit of the Purchasers for a period ending on the Survival Limitation Date.

13. **Action by the Agents**

13.1 All steps, including the granting of any waivers, which must or may be taken by the Agents in connection with the agreement resulting from the Company's acceptance of this offer, with the exception of the matters relating to termination contemplated by section 8, may be taken by the Lead Agent on behalf

of itself and the remaining Agents and the execution of this agreement by the remaining Agents and by the Company shall constitute the Company's authority and obligation for accepting notification of any such steps from, and for delivering the certificates representing the Flow Through Common Shares, the Additional Shares and the Compensation Warrants to or to the order of, the Lead Agent. The Lead Agent shall fully consult with the remaining Agents with respect to all notices, waivers, extensions or other communications to or with the Company.

- (a) **Right of Termination:** The Agents shall be entitled, at the sole option thereof, to terminate and cancel, without any liability on the part of the Agents, all of the obligations thereof under this Agreement and the obligations of any Person who has executed a Subscription Agreement, by notice in writing to that effect delivered to the Corporation prior to or at the Closing Time if:
- (i) the Agents are not satisfied in the sole discretion thereof with the results of the due diligence review and investigation of the Corporation conducted by the Agents;
 - (ii) there is in the sole opinion of the Agents a material change or change in a material fact or new material fact or an undisclosed material fact or material change which might be expected to have an adverse effect on the condition (financial or otherwise), capital, property, assets, operations, business, affairs, profitability or prospects of the Corporation or on the market price or value of the Common Shares or any other securities of the Corporation;
 - (iii) there should develop, occur or come into effect any occurrence of national or international consequence, or any action, law or regulation, inquiry or other occurrence of any nature whatsoever which, in the sole opinion of the Agents, seriously affects, or could seriously affect, the financial markets or the business of the Corporation or the market price or value of the Common Shares or any other securities of the Corporation;
 - (iv) the state of the financial markets is such that in the sole opinion of the Agents it would be unprofitable to offer or continue to offer for sale the Offered Securities;

 - (vi) any order to cease or suspend trading in any securities of the Corporation is made, threatened or announced by the Stock Exchange or any other securities regulatory authority; or
 - (vii) the Corporation is in breach of any term, condition, covenant or agreement contained in this Agreement or in any Subscription Agreement or any representation or warranty given by the Corporation in this Agreement or in any Subscription Agreement is or becomes untrue, false or misleading.
- (b) **Rights on Termination:** Any termination by the Agents pursuant to subsection 10(a) hereof shall be effected by notice in writing delivered by the Agents to the Corporation at the address thereof as set out in section 14 hereof. The right of the Agents to so terminate the obligations thereof under this Agreement is in addition to such other remedies as the Agents may have in respect of any default, act or failure to act of the Corporation in respect of any of the matters contemplated by this Agreement. In the event of a termination by the Agents pursuant to subsection 10(a) hereof there shall be no further liability on the part of the Agents to the Corporation or of the Corporation to the Agents except any liability which may have arisen or may thereafter arise under either section 11 or 12 hereof.

11. **Indemnity and Contribution**

- (a) **Indemnity:** The Corporation hereby covenants and agrees to protect, indemnify and save harmless the Agents and each investment dealer which is a member of any agency group formed by the Agents in connection with the Offering, each of the associates and affiliates of each of them and the respective directors, officers, employees, shareholders, partners, advisors and agents of each of the Agents and each investment dealer which is a member of any agency group formed by the Agents in connection with the Offering and of each of the associates and affiliates of each of them (in this section 11 hereof each an "Indemnified Person" and collectively the "Indemnified Persons") from and against all losses (other than a loss of profits), claims, damages, liabilities, costs and expenses (including the amount paid in settlement of any claim, action, suit or proceeding and the fees and expenses of counsel on a solicitor and his own client basis incurred in respect thereof), joint or several, of whatsoever nature or kind to which an Indemnified Person may become subject or otherwise involved in any capacity under statute or common law or otherwise caused or incurred by reason of or in any way arising, directly or indirectly, from, by virtue of, or related to, enforcing the provisions of this Agreement or any Subscription Agreement, or:
- (i) any statement or information contained in the Information which at the time and in light of the circumstances under which it was made containing or being alleged to contain a misrepresentation or being or being alleged to be untrue, false or misleading;
 - (ii) the omission or alleged omission to state in the Information any material fact required to be stated therein or necessary to make any statement therein not misleading in light of the circumstances under which it was made;
 - (iii) any order made or inquiry, investigation or proceeding commenced or threatened by any officer or official of the Stock Exchange, any securities commission or authority or any other competent authority, not based upon the activities or the alleged activities of either of the Agents or any member of any agency group formed by the Agents in connection with the Offering, based upon any untrue, false or misleading statement or omission or alleged untrue, false or misleading statement or omission or any misrepresentation or alleged misrepresentation in the Information which prevents or restricts trading in the Offered Securities or the Common Shares in any of the Offering Jurisdictions;
 - (iv) the non-compliance or alleged non-compliance by the Corporation with any of the Securities Laws of the Offering Jurisdictions or any other applicable law in connection with the transactions contemplated herein;
 - (v) any negligence or willful misconduct by the Corporation relating to or connected with the sale by the Corporation of the Offered Securities; or
 - (vi) the breach of, or default under, any term, condition, covenant or agreement of the Corporation made or contained herein or in any other document of the Corporation delivered pursuant hereto or made by the Corporation in connection with the sale of the Offered Securities or any representation or warranty of the Corporation made or contained herein or in any other document of the Corporation delivered pursuant hereto or in connection with the sale of the Offered Securities being or being alleged to be untrue, false or misleading.

If any matter or thing contemplated by this section 11 shall be asserted against any Indemnified Person in respect of which indemnification is or might reasonably be considered to be provided hereunder, such Indemnified Person shall notify the Corporation as soon as possible of the nature of such claim and the Corporation shall be entitled, but not required, to assume the defence of any suit brought to enforce such claim; provided, however, that the defence shall be through legal counsel reasonably acceptable to the Indemnified Person and that no settlement may be made by the Corporation or the Indemnified Person without the prior written consent of the other of them and the Corporation shall not be liable for any settlement of any such claim unless it has consented in writing to such settlement.

- (b) Counsel: In any claim referred to in section 11 hereof, the Indemnified Person shall have the right to retain separate legal counsel to act on behalf of such Indemnified Person provided that the fees and disbursements of such separate legal counsel shall be paid by the Indemnified Person unless:
- (i) the Corporation fails to assume the defence of such claim on behalf of the Indemnified Person within ten days of receiving notice of such claim;
 - (ii) the Corporation and the Indemnified Person shall have mutually agreed to the retention of such separate legal counsel; or
 - (iii) the named parties to such claim (including any added, third or impleaded parties) include both the Corporation and the Indemnified Person and the Indemnified Person has been advised by legal counsel that representation of both the Corporation and the Indemnified Person by the same legal counsel would be inappropriate due to actual or potential differing interests between them;

in which event or events the fees and disbursements of such separate legal counsel shall be paid by the Corporation, subject as hereinafter provided. Where more than one Indemnified Person is entitled to retain separate counsel in the circumstances described in this subsection 11(b), all Indemnified Persons shall be represented by one separate legal counsel and the fees and disbursements of only one separate legal counsel for all Indemnified Persons shall be paid by the Corporation, unless:

- (i) the Corporation and the Indemnified Persons have mutually agreed to the retention of more than one legal counsel for the Indemnified Persons; or
 - (ii) the Indemnified Persons have or any of them has been advised in writing by legal counsel that representation of all of the Indemnified Persons by the same legal counsel would be inappropriate due to actual or potential differing interests between them.
- (c) Waiver of Right: The Corporation hereby waives its right to recover contribution from the Agents and the other Indemnified Persons with respect to any liability of the Corporation by reason of or arising out of the indemnity provided by the Corporation in this section 11; provided, however, that such waiver shall not apply in respect of an Agent for any liability directly caused or incurred by reason or arising out of any information or statements relating solely to, and provided by, such Agent or any failure by such Agent in connection with the Offering to provide to Purchasers any document which the Corporation is required to provide to the Purchasers and which the Corporation has provided or made available to the Agents to forward to the Purchasers.

(d) Contribution:

(i) In order to provide for just and equitable contribution in circumstances in which the indemnity contained in this section 11 is, for any reason of policy or otherwise, held to be unavailable, in whole or in part, to an Indemnified Person other than in accordance with the provisions of such section, the Corporation shall contribute to the aggregate losses (other than a loss of profit), claims, damages, liabilities, costs and expenses of the nature contemplated by the said indemnity incurred or paid by the Corporation and the Indemnified Person, in the following proportions:

A. the Agents shall be responsible for 6% thereof in the aggregate, (with each Agent being responsible to a maximum of the cash fee actually received from the Corporation under this Agreement and retained by such Agent); and

B. the Corporation shall be responsible for the balance;

provided, however, that no Person guilty of fraudulent misrepresentation shall be entitled to contribution from any Person who is not guilty of such fraudulent misrepresentation and provided that in no case shall the Agent be responsible for any amount in excess of the cash fee actually received from the Corporation under this Agreement and retained by such Agent.

(ii) In the event that the Corporation is held to be entitled to contribution from the Agents under the provisions of any statute or law, the Corporation shall be limited to such contribution in an amount not exceeding the lesser of:

A. the portion of the amount of the loss or liability giving rise to such contribution for which the particular Agent is responsible as determined in accordance with paragraph 11(d)(i) above; and

B. the amount of the cash fee actually received from the Corporation under this Agreement and retained by such Agent.

(iii) For purposes of this subsection 11(d), each party hereto shall give prompt notice to the other parties hereto of any claim, action, suit or proceeding threatened or commenced in respect of which a claim for contribution may be made under this subsection 11(d).

(e) Held in Trust: To the extent that the indemnity contained in subsection 11(a) hereof is given in favour of a Person who is not a party to this Agreement, the Corporation hereby constitutes the Agents as trustees for such Person for such indemnity and the covenants given by Corporation to such Person in this Agreement. The Agents hereby accept such trust and hold such indemnity and covenants for the benefit of such Persons. The benefit of such indemnity and covenants shall be held by the Agents in trust for the Persons in favour of whom such indemnities and covenants are given and may be enforced directly by such Persons.

12. Expenses

Whether or not the purchase and sale of the Offered Securities shall be completed as contemplated by this Agreement, all expenses of or incidental to the issue, sale and delivery of

the Offered Securities and of or incidental to all matters in connection with the transaction herein set out shall be borne by the Corporation including, without limitation, the reasonable fees (to a maximum of \$20,000) and disbursements (including applicable taxes) of legal counsel for the Agents and the reasonable out-of-pocket expenses (including applicable taxes) of the Agents.

13. **Conditions**

All of the terms and conditions contained in this Agreement to be satisfied by the Corporation prior to the Closing Time shall be construed as conditions and any breach or failure by the Corporation to comply with any of such terms and conditions shall entitle the Agents to terminate the obligations thereof to complete the Closing by written notice to that effect given by the Agent to the Corporation prior to the Closing Time. It is understood and agreed that the Agents may waive in whole or in part, or extend the time for compliance with, any of such terms and conditions without prejudice to the rights thereof in respect of any other such term and condition or any other or subsequent breach or non-compliance; provided that to be binding on the Agents any such waiver or extension must be in writing and signed by or on behalf of the Agents. If the Agents shall elect to terminate the obligations thereof to complete the Closing as aforesaid, whether the reason for such termination is within or beyond the control of the Corporation, the liability of the Corporation hereunder shall be limited to the indemnity referred to in section 11 hereof, the right to contribution referred to in section 11 hereof and the payment of expenses referred to in section 12 hereof.

The opinion expressed herein is subject to the following exceptions, qualifications and assumptions:

- (a) we have assumed, with respect to all of the documents examined by us, the genuineness of all signatures, the legal capacity at all relevant times of any individual signing any of such documents, the authenticity and completeness of all documents submitted to us as originals, the conformity to authentic originals of all documents submitted to us as a certified or true copy or as a reproduction (including facsimiles) and the truthfulness and accuracy of the corporate records of the Corporation and of all certificates of public officials and officers of the Corporation, not being aware of any reason why the addressees of this opinion would not be entitled to rely on any of the certificates upon which we are relying in rendering this opinion;

- (c) we have assumed that there are no agreements, arrangements, undertakings, obligations or understandings in respect of the Offered Securities or their issue other than as specified in the Subscription Agreements in respect thereof and it is not reasonable to expect that any undertakings will be effected within five years of the date hereof that, if in effect today, would result in the Offered Securities being prescribed shares for purposes of the definition of a "flow-through share" in subsection 66(15) of the Tax Act;
- (d) we have assumed that each of the Agents is registered under the Securities Laws of the Offering Jurisdictions as of the date hereof as a broker, investment dealer or securities dealer and has complied with all laws applicable to such Agent, including any limitations on the activities thereof applicable because of the category in which such Agent is registered, in arranging for the purchase of the Offered Securities by the Purchasers;

- (ii) no advertisement respecting the Offering has been made in public printed media, radio, television or telecommunications, including electronic display, and no offering memorandum (as such term is defined in the Securities Laws of the Province of British Columbia) has been delivered to the Purchasers or any prospective purchaser in connection with the distribution of the Offered Securities;
- (f) in rendering the opinion expressed in paragraph 3 hereof and in paragraphs **[12 and 15 or 13 and 16]** hereof, we have, with respect to certain factual matters, relied exclusively and without independent investigation upon the Officer's Certificate, a copy of which is attached as schedule B to this opinion;

- (i) insofar as our opinion in paragraphs 5 **[and 7 or, 7 and 8]** hereof relates to the legality, validity, binding nature or enforceability of the Agreements, and the Ancillary Documents, including the Broker Warrant Certificates, such opinion is subject to
 - (i) the laws of any jurisdiction, other than the Province of British Columbia and the laws of Canada, which may be considered or given effect to under the laws of the Province of British Columbia in any such determination,
 - (ii) applicable bankruptcy, insolvency and other similar laws affecting the rights of creditors generally,

- (j) in rendering the opinion expressed in paragraph **[16 or 17]** hereof, we have relied exclusively and without independent investigation upon the British Columbia Reporting Issuer Certificate, the Ontario Reporting Issuer Certificate and the Québec Reporting Issuer Certificate, a copy of each of which is attached as schedules <> to <> to this opinion delivered with this opinion; and

- (k) in rendering the opinion expressed in paragraph [17 or 18] hereof as to the approval of certain matters by the Stock Exchange, we have relied exclusively upon the Conditional Listing Letter, a copy of which is attached as schedule <> to this opinion.

We are solicitors qualified to practice law in the Province of British Columbia and we express no opinion as to the laws of any jurisdiction, or as to any matters governed by the laws of any jurisdiction, other than the laws of the Province of British Columbia and the laws of Canada applicable therein. So far as this opinion relates to matters governed by the laws of any province other than the Province of British Columbia and the laws of Canada applicable therein, we have relied upon opinions of local counsel in the Provinces of Alberta and Ontario (together with the Province of British Columbia being referred to herein as the "Offering Jurisdictions"), each dated the date hereof and addressed to, among others, you and us, an originally signed copy of each of which accompanies this opinion and we are of the opinion that the addressees thereof are justified in relying upon such opinions. Except insofar as we have relied upon such opinions of local counsel, the opinion herein is based on the laws of the Province of British Columbia and the laws of Canada applicable therein in effect on the date hereof. To the extent that the opinions of local counsel are based upon any assumption or are made subject to any limitation, qualification or exception, our opinion is given in reliance thereon or based upon such assumption and is subject to such limitation, qualification or exception except insofar as such assumption, limitation, qualification or exception relates to matters governed by the laws of the Province of British Columbia or the laws of Canada applicable therein or to facts which are known to us or which have been or are reasonably capable of being verified by us.

Based on and relying upon the foregoing and subject to the qualifications hereinbefore and hereinafter set forth, we are of the opinion that:

1. The Corporation has been incorporated, is existing and has not been dissolved under the *Company Act* (British Columbia). The Corporation has all necessary corporate power and capacity, and the Corporation is qualified to own, lease and operate its property and assets and to conduct its business at and in the places where such property and assets are now owned, leased or operated or such business is now conducted.
2. The Corporation is authorized to issue, among other things, 100,000,000 Common Shares, of which <> Common Shares are outstanding as fully paid and non-assessable shares.
3. The Offered Securities are "flow-through shares" as defined in subsection 66(15) of the Tax Act and are not on the date of issue under the Subscription Agreements in respect thereof "prescribed shares" for the purposes of the definition of "flow-through share" in subsection 66(15) of the Tax Act.
4. The Corporation has all necessary corporate power and capacity, and has taken all necessary corporate action, to authorize, execute and deliver the Agreements and the Ancillary Documents, including the Broker Warrant Certificates, and to perform all of its obligations thereunder, including for the issue of the Offered Securities, the Broker Warrants and the Broker Shares.
5. Each of the Agreements and the Ancillary Documents has been authorized, executed and delivered by the Corporation and constitutes a legal, valid and binding obligation of the Corporation, enforceable against the Corporation in accordance with the terms thereof.
6. The Offered Securities have been authorized and issued as fully paid and non-assessable shares.

7. The Broker Warrants have been authorized, created and issued to the Agents and the Broker Warrant Certificates have been authorized, executed and delivered by the Corporation and constitute legal, valid and binding obligations of the Corporation, enforceable against the Corporation in accordance with the terms thereof. The Broker Warrants have the attributes contemplated by the Agency Agreement and the Agents are entitled to the benefits, and are subject to the provisions, of the Broker Warrant Certificates. The Broker Shares have been allotted, reserved and conditionally issued to the Agents and the Broker Shares will, when issued upon the exercise of the Broker Warrants in accordance with the provisions thereof, be issued as fully paid and non-assessable shares.
8. The authorization, execution and delivery of each of the Agreements and each of the Ancillary Documents, including the Broker Warrant Certificates, the performance of the provisions thereof by the Corporation and the offering, issue and sale of the Offered Securities and the issue of the Broker Warrants and the Broker Shares do not and will not (i) require the consent, approval or authorization of, or registration or qualification with, any governmental authority, stock exchange, securities regulatory authority or other Person, except such as have been obtained, (ii) conflict with or result in any breach or violation of the memorandum or articles of, or any resolution of the directors or shareholders of, the Corporation or any agreement or other instrument to which the Corporation is a party or by which it is bound, (iii) violate the provisions of any law, statute, rule or regulation to which the Corporation or the property or assets thereof is subject, or (iv) breach any judgment, order or decree of any court, governmental authority, agency, tribunal, arbitrator, stock exchange or securities regulatory authority or other authority to which the Corporation or any of the property or assets thereof is subject.
9. The form and terms of the certificates representing the Common Shares and the Broker Warrants have been approved by the directors of the Corporation and conform with the provisions of the *Company Act* (British Columbia), the memorandum and articles of the Corporation and, in the case of the Common Shares, the requirements of the Stock Exchange.
10. The offering, issue, sale and delivery of the Offered Securities by the Corporation to Purchasers resident in the Offering Jurisdictions in accordance with the Subscription Agreements has been effected in such a manner as to be exempt, either by statute, regulation, instrument or order, from the prospectus requirements of the Securities Laws of the Offering Jurisdictions and no prospectus will be required, no other document will be required to be filed, no proceeding will be required to be taken and no approval, permit, consent, order or authorization of any regulatory authority will be required to be obtained under the Securities Laws of the Offering Jurisdictions to permit or in connection with the offering, issue, sale and delivery of Offered Securities to the Purchasers. We note however that the Corporation is required:
 - (a) with respect to trades of Offered Securities to which the Securities Laws of the Province of British Columbia are applicable, to file with the British Columbia Securities Commission within 10 days after the date of issue and sale of the Offered Securities a report prepared and executed in accordance with Form 45-902F as required by section 139 of the rules made under the BC Act together with the prescribed filing fee in respect of Offered Securities purchased by Purchasers resident in the Province of British Columbia and a completed fee checklist;

prescribed filing fee in respect of Offered Securities purchased by Purchasers resident in the Province of Alberta;

- (c) with respect to trades of Offered Securities to which the Securities Laws of the Province of Ontario are applicable, to file with the Ontario Securities Commission within 10 days of the date after issue and sale of the Offered Securities a report prepared and executed in accordance with Form 45-501F1 prescribed by Rule 45-501 of the Ontario Securities Commission in respect of Offered Securities purchased by Purchasers resident in the Province of Ontario; and

INFORMATION CIRCULAR

(Information as at April 30, 2003, except as indicated)

This information circular is furnished in connection with the solicitation of Proxies by the management of **AURIZON MINES LTD.** (the "Company") for use at the Annual General Meeting of the Company to be held on June 17, 2003 (the "Meeting"). The solicitation will be conducted by mail and may be supplemented by telephone or other personal contact to be made without special compensation by officers and employees of the Company. The cost of solicitation will be borne by the Company.

APPOINTMENT OF PROXYHOLDER

A duly completed form of proxy will constitute the person(s) named in the enclosed form of proxy as the shareholder's proxyholder. The persons whose names are printed in the enclosed form of proxy for the Meeting are officers or directors of the Company (the "Management Proxyholders").

A shareholder has the right to appoint a person other than a Management Proxyholder, to represent the shareholder at the Meeting by striking out the names of the Management Proxyholders and by inserting the desired person's name in the blank space provided or by executing a proxy in a form similar to the enclosed form. A proxyholder need not be a shareholder.

VOTING BY PROXY

Common shares of the Company (the "Shares") represented by properly executed proxies in the accompanying form will be voted or withheld from voting on each respective matter in accordance with the instructions of the member (the "shareholder") on any ballot that may be called for.

If no choice is specified and one of the Management Proxyholders is appointed by a shareholder as proxyholder, such person will vote in favour of the matters proposed at the Meeting and for all other matters proposed by management at the Meeting.

The enclosed form of proxy also confers discretionary authority upon the person named therein as proxyholder with respect to amendments or variations to matters identified in the Notice of the Meeting and with respect to other matters which may properly come before the Meeting. At the date of this Information Circular, management of the Company knows of no such amendments, variations or other matters to come before the Meeting.

COMPLETION AND RETURN OF PROXY

Completed forms of proxy must be deposited at the office of the Company's registrar and transfer agent, Computershare Trust Company of Canada, Proxy Department, 100 University Avenue, 9th Floor, Toronto, Ontario M5J 2Y1, not later than forty-eight (48) hours, excluding Saturdays, Sundays and holidays, prior to the time of the Meeting, unless the chairman of the Meeting elects to exercise his discretion to accept proxies received subsequently.

NON-REGISTERED HOLDERS

Only registered shareholders or duly appointed proxyholders are permitted to vote at the Meeting. Most shareholders of the Company are “non-registered” shareholders because the Shares they own are not registered in their names but are instead registered in the name of the brokerage firm, bank or trust company through which they purchased the Shares. More particularly, a person is not a registered shareholder in respect of Shares which are held on behalf of that person (the “Non-Registered Holder”) but which are registered either: (a) in the name of an intermediary (an “Intermediary”) that the Non-Registered Holder deals with in respect of the Shares (Intermediaries include, among others, banks, trust companies, securities dealers or brokers and trustees or administrators of self-administered RRSP's, RRIFs, RESPs and similar plans); or (b) in the name of a clearing agency (such as The Canadian Depository for Securities Limited (“CDS”)) of which the Intermediary is a participant. In accordance with the requirements of National Policy Statement No. 41 of the Canadian Securities Administrators, the Company has distributed copies of the Notice of Meeting, this Information Circular and the Proxy (collectively, the “Meeting Materials”) to the clearing agencies and Intermediaries for onward distribution to Non-Registered Holders.

Intermediaries are required to forward the Meeting Materials to Non-Registered Holders unless a Non-Registered Holder has waived the right to receive them. Very often, Intermediaries will use service companies to forward the Meeting Materials to Non-Registered Holders. Generally, Non-Registered Holders who have not waived the right to receive Meeting Materials will either:

- (a) be given a form of proxy **which has already been signed by the Intermediary** (typically by a facsimile, stamped signature), which is restricted as to the number of shares beneficially owned by the Non-Registered Holder but which is otherwise not completed. Because the Intermediary has already signed the form of proxy, this form of proxy is not required to be signed by the Non-Registered Holder when submitting the proxy. In this case, the Non-Registered Holder who wishes to submit a proxy should otherwise properly complete the form of proxy and **deliver it to Computershare Trust Company of Canada** as provided above; or
- (b) more typically, be given a voting instruction form **which is not signed by the Intermediary**, and which, when properly completed and signed by the Non-Registered Holder and **returned to the Intermediary or its service company**, will constitute voting instructions (often called a “proxy authorization form”) which the Intermediary must follow. Typically, the proxy authorization form will consist of a one page pre-printed form. Sometimes, instead of the one page pre-printed form, the proxy authorization form will consist of a regular printed proxy form accompanied by a page of instructions, which contains a removable label containing a bar-code and other information. In order for the form of proxy to validly constitute a proxy authorization form, the Non-Registered Holder must remove the label from the instructions and affix it to the form of proxy, properly complete and sign the form of proxy and return it to the Intermediary or its service company in accordance with the instructions of the Intermediary or its service company.

In either case, the purpose of this procedure is to permit Non-Registered Holders to direct the voting of the Shares, which they beneficially own. Should a Non-Registered Holder who receives one of the above forms wish to vote at the Meeting in person, the Non-Registered Holder should strike out the names of the Management Proxyholders and insert the Non-Registered Holder's name in the blank space provided. **In either case, Non-Registered Holders should carefully follow the instructions of their Intermediary, including those regarding when and where the proxy or proxy authorization form is to be delivered.**

REVOCABILITY OF PROXY

Any registered shareholder who has returned a proxy may revoke it at any time before it has been exercised. In addition to revocation in any other manner permitted by law, a proxy may be revoked by instrument in writing, including a proxy bearing a later date, executed by the registered shareholder or by his attorney authorized in writing or, if the registered shareholder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized. The instrument revoking the proxy must be deposited at the registered office of the Company, at any time up to and including the last business day preceding the date of the Meeting, or any adjournment thereof, or with the chairman of the Meeting on the day of the Meeting. **Only registered shareholders have the right to revoke a proxy. Non-Registered Holders who wish to change their vote must, at least 7 days before the Meeting, arrange for their respective Intermediaries to revoke the proxy on their behalf.**

(a) AUTHORIZED SHARES

(e) OPTION RE-PRICING

During the most recently completed financial year, the Company has not re-priced downward any options held by the Named Executive Officers.

(f) DEFINED BENEFIT OR ACTUARIAL PLAN

The Company does not have a defined benefit or actuarial plan.

(g) REPORT ON COMPENSATION COMMITTEE

In 2002, the Company's compensation committee consisted of Messrs. Berner, Faucher and Moorhouse (the "Compensation Committee"). None of the members of the Compensation Committee has any indebtedness to the Company or any of its subsidiaries, nor have they any material interest, or have any associates or affiliates which have any material interest, direct or indirect, in any actual or proposed transactions in the last financial year which have materially affected or would materially affect the Company or any of its subsidiaries. In early 2003, the Compensation Committee's role was expanded to include corporate governance responsibilities and as a result was renamed the Executive Compensation and Corporate Governance Committee (the "ECCGC"). Messrs. Berner, Faucher and Moorhouse currently sit as members of the ECCGC.

(h) REPORT ON EXECUTIVE COMPENSATION

The compensation of the Company's executive and senior managers is determined by the ECCGC. The ECCGC also evaluates the performance of the Company's senior managers and reviews the design and competitiveness of the Company's compensation plans. The Company's executive compensation program consists of an annual base salary, performance bonus and a longer term component consisting of stock options.

i) Executive Compensation Program

The Company's executive compensation program is based on a pay for performance philosophy. The executive compensation program is designed to encourage, compensate and reward employees on the basis of individual and corporate performance, both in the short and the long term. Base salaries are set at levels which are intended to be competitive with the base salaries paid by corporations of a comparable size within the mining industry, thereby enabling the Company to compete for and retain executives critical to the Company's long term success. Incentive compensation is directly tied to corporate and individual performance. Share ownership opportunities are provided to align the interests of the senior managers with the longer term interests of shareholders. External compensation and benefit consultants conduct surveys to provide competitive data reflecting comparable knowledge, skills and talents and related compensation levels. Variables such as asset size, production levels, financial performance and rates of growth influence compensation levels and are analysed and considered in fixing compensation levels.

Compensation for the Named Executive Officers, as well as for other senior managers as a whole, consists of a base salary, along with annual incentive compensation in the form of an annual bonus, and a longer term incentive in the form of stock options granted. As a senior manager's level of responsibility increases, a greater percentage of total compensation is based on performance (as opposed to base salary and standard employee benefits) and the mix of total compensation shifts towards stock options, thereby increasing the mutuality of interest between senior managers and shareholders.

ii) Base Salary

The ECCGC approves base salaries for the Named Executive Officers based on reviews of market data from peer group, industry and national surveys provided by independent consultants. The level of base salary for each employee within a specified range is determined by the level of past performance, as well as by the level of responsibility and the importance of the position to the Company.

iii) Performance Bonus

The Company provides for cash performance bonuses to the Named Executive Officers and senior managers under its Annual Incentive Compensation Scheme. The bonus is based upon corporate, divisional and individual performance. The level of incentive compensation that an individual can earn, expressed as a percentage of base salary, is determined by the level of responsibility and significance of the position within the Company. The actual percentage earned is based upon individual and corporate targets and objectives such as production costs, cash flow generation, hedging gains, business development, safety and mineral reserves. Each performance level is weighted relative to its significance to the operations governed by the individual manager. In a given year, the Company's managers may be paid a higher, lower or zero bonus, depending upon which targets and objectives have been attained or surpassed.

iv) Stock Options

The Company's Stock Option Plan (the "Stock Option Plan") is administered by the Board of Directors. The Stock Option Plan is designed to give each option holder an interest in preserving and maximizing shareholder value in the longer term, to enable the Company to attract and retain individuals with experience and ability, and to reward individuals for current performance and expected future performance. The ECCGC considers stock option grants when reviewing senior officer compensation packages as a whole.

The Board of Directors determines, upon the recommendations of the Chief Executive Officer and the ECCGC, the key employees to whom grants are to be made and determines the terms and conditions of the options forming part of such grants. Individual grants are determined by an assessment of an individual's current and expected future performance, level of responsibilities and the importance of the position to the Company.

The number of stock options which may be issued under the Stock Option Plan in the aggregate and in respect of any fiscal year is limited under the terms of the Stock Option Plan and cannot be increased without shareholder approval. Stock options have up to a ten year term, are exercisable at the market price (as defined in the Stock Option Plan) of the Company's Common Shares on the date of grant, and generally vest on the date of grant. Generally, a holder of stock options must be a director, an officer or an employee of the Company, a subsidiary or an affiliate in order to exercise stock options.

v) Chief Executive Officer Compensation

The Compensation of the Chief Executive Officer consists of an annual base salary, incentive bonus related to corporate performance, and incentive stock options determined in the manner described in the above discussion of compensation for all senior managers.

The base salary of the Chief Executive Officer is established at the lower end of the range of compensation for CEO's of comparable companies. The comparable companies are natural resource companies involved in the acquisition, exploration, financing, development and operation of mineral properties. The Chief Executive Officer can earn a target bonus of up to 40% of his base salary, which, if added to his base salary, brings the resulting cash compensation to a competitive level.

vi) Other Compensation

Certain officers of the Company have entered into employment agreements with the Company, which specify the minimum level of annual base salary to be paid to such officers, as well as other terms of employment. (See "TERMINATION OF EMPLOYMENT, CHANGES IN RESPONSIBILITY AND EMPLOYMENT CONTRACTS" below for further information.)

Officers of the Company are also entitled to receive all other benefits that are available to employees of the Company generally.

(i) SHARE PERFORMANCE GRAPH

The following graph and table illustrates the Company's five-year (to December 31, 2002) cumulative shareholder return based on a \$100 investment (on December 31, 1997) compared to the cumulative return on a comparable investment on the TSX Gold & Precious Minerals Sub-Index and the TSX 300 Composite for the same period, each Index as published by the Toronto Stock Exchange.

The year-end values of each investment are based on share appreciation plus dividends paid in cash, with the dividends reinvested on the date they were paid. The calculations exclude trading commissions and taxes. Total shareholder returns from each investment can be calculated from the year-end investment values shown in the following graph.

- (1) The TSE Gold & Precious Minerals Index was replaced by the S&P/TSX Gold Index in May 2002. The historical values of the TSE Gold & Precious Minerals Index and the S&P/TSX Gold Index are identical for the period in question (1997 to 2002).
- (2) The TSE 300 Index was replaced by the S&P/TSX Composite Index on May 1, 2002. The historical values of the TSE 300 Index and the S&P/TSX Composite Index are identical for the period in question (1997 to 2002).

(j) TERMINATION OF EMPLOYMENT, CHANGES IN RESPONSIBILITY AND EMPLOYMENT CONTRACTS

The Company has entered into employment contracts with each of the Named Executive Officers, whereby in the event of the termination of employment, without cause, or in the event of a change in responsibilities following a change in control, the Named Executive Officer shall be entitled to receive a severance payment equal to three (3) years salary.

(k) COMPENSATION OF DIRECTORS

The Company's non-executive (non-employee) directors are paid an annual retainer in the amount of \$6,000 and a fee of \$600 for each Board or committee meeting attended. In addition, an annual fee of \$1,000 is paid to non-executive directors who chair committee or Board meetings. During the most recently completed financial year, a total of \$84,050 was paid to non-executive directors in respect of director and chairmanship fees.

The Company has a formalized stock option plan for the granting of incentive stock options to the executive officers, senior managers, employees and directors (the "Plan"). The Plan presently provides that, subject to the requirements of the stock exchanges on which the Company's shares are listed, the aggregate number of securities reserved for issuance under the Plan together with the number of securities reserved for issuance under other outstanding incentive stock options and options for service may not exceed 7,000,000 Common Shares of the Company. Options may be granted under the Plan to such directors, officers and employees of the Company as the Board of Directors may from time to time designate. The exercise price shall be determined by the Board of Directors but shall in no event be less than the market price of the Company's Common Shares on each stock exchange on which the Company's shares are listed at the time of the grant of the option, less any discounts permitted by stock exchange policies, or such other price as may be agreed to by the Company and approved by such stock exchanges. The purpose of granting such options is to assist the Company in compensating, attracting, retaining and motivating the executive officers, senior managers, directors and employees of the Company and to closely align the personal interests of such persons to those of the shareholders.

See "OPTION GRANTS", under Executive Compensation above for information concerning options granted to the Directors during the most recently completed financial year.

CORPORATE GOVERNANCE

(a) STATEMENT OF CORPORATE GOVERNANCE PRACTICES

In the past year, both management and the Board of Directors have monitored and, where appropriate, responded to both Canadian and U.S. regulatory developments aimed at improving corporate governance and increasing corporate accountability. The Board of Directors of the Company has developed, with input from management and legal counsel, a corporate governance regime based on the Guidelines set out in Section 473 of the Toronto Stock Exchange Company Manual. Specifically, the Board of Directors adopted a Board of Directors' Mandate, an Audit Committee Charter, an Executive Compensation and Corporate Governance Committee Charter, and appointed a non-related director to serve as "Lead Director" with the responsibility to ensure that the Board executes its mandate independently of management.

Pursuant to the by-laws of the Toronto Stock Exchange (the "TSX") companies incorporated in Canada and listed on the TSX are required to make full and complete disclosure of their system of corporate governance on an annual basis. The disclosure shall be made with reference to each of the guidelines set out in Section 473 and where the Company's system is different from any of the guidelines, each difference and the reason for the difference clearly disclosed.

This Statement of Corporate Governance Practices tries to relate the corporate governance practices of the Board of Directors to the TSX Guidelines. The headings that appear below attempt to address the principal matters relating to corporate governance practices discussed in the TSX Guidelines.

In this Statement, the term "unrelated director" means a director who is independent of management and is free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the director's ability to act with a view to the best interests of the Company, other than interests and relationships arising from shareholding.

The Board of Directors of the Company believes that sound corporate governance practices are essential to the well-being of the Company and its shareholders, and that these practices should be reviewed regularly to ensure that they are appropriate. This Statement of Corporate Governance Practices has been approved by the Board of Directors.

TSX Guideline Ref. (Sec. 473)	TSX Guidelines for Corporate Governance	Aurizon's Corporate Governance Practice
(1)	The board of directors of every corporation should explicitly assume responsibility for the stewardship of the corporation.	<p>The Board of Directors has adopted a Board of Directors' Mandate (the "Board's Mandate"), whereby the Board of Directors shall further the objectives of the Company by directing, supervising and otherwise reviewing and approving the stewardship of the Company.</p> <p>The Board relies on management for the preparation of periodic reports, and to provide the support and information necessary to enable the Board to fulfill its obligations effectively.</p> <p>All material transactions must be reviewed and approved by the Board prior to implementation. Any responsibility that is not delegated to senior management or a Board committee remains with the full Board. One of the Board's responsibilities is to review and, if thought fit, to approve opportunities as presented by management and to provide guidance to management. The Board's strategic planning process involves having regular Board meetings to review reports on the Company's operations, exploration and development programs, and permits meeting with management on a regular basis, and reviewing business opportunities as presented by management.</p> <p>The Board also meets to: plan for the future growth of the Company; identify risks of the Company's business, thus ensuring the implementation of appropriate systems to manage these risks; monitor senior management; and ensure timely disclosure of material transactions through the issuance of news releases and financial statements. There were seven (7) meetings of the Board last year. The Board reviews financial performance quarterly. Frequency of meetings as well as the nature of agenda items change depending upon the state of the Company's affairs and in light of opportunities or risks that the Company faces. When necessary and appropriate, issues may be approved and adopted by the Board by way of Written Resolutions.</p> <p>As part of the overall stewardship responsibility, should assume responsibility for the following matters:</p>
(a)	Adoption of a strategic planning process and approval of a strategic plan, which takes into account, among other things, the opportunities and risks of the business.	<p>The Board has the responsibility to participate with management in developing and approving the mission of the business, its objectives and goals, the strategic plans arising therefrom, and monitoring subsequent performance against said plans.</p> <p>Strategic issues are reviewed with management and addressed by the full Board at regularly scheduled Board meetings and at meetings specifically called for this purpose.</p> <p>The Board's strategic planning process involves having regular Board meetings to review reports on the Company's operations, exploration and development programs, and permits meeting with management on a regular basis, and reviewing business opportunities as presented by management.</p>
(b)	The identification of the principal risks of the corporation's business and ensuring the implementation of appropriate systems to manage these risks.	Pursuant to the Board's Mandate, the Board is responsible for reviewing policies and procedures to identify business risks, and ensure that systems and actions are in place to monitor them.

TSX Guideline Ref. (Sec. 473)	TSX Guidelines for Corporate Governance	Aurizon's Corporate Governance Practice
(c)	Succession planning, including appointing, training and monitoring senior management.	<p>Pursuant to the Board's Mandate, the Board is responsible for succession planning and other human resource issues. The appointment of all corporate officers requires Board authorization</p> <p>In addition, the Board receives the recommendations of the Executive Compensation and Corporate Governance Committee regarding the compensation of the senior executive officers, including performance bonus plans and stock options.</p>
(d)	A communication policy for the corporation.	<p>The Company ensures that there is continuous and effective communication with the Company's shareholders and other stakeholders and with the public. Procedures include: the publication of quarterly financial and operations reports, the annual report, and press releases in English and French. In addition, the Company provides shareholders with various communication channels, such as the corporate website "aurizon.com", a toll-free telephone number in North America and an electronic mail address, details of which are provided in the annual report to shareholders, to ensure that shareholders' feedback and concerns are adequately received and addressed by the Company. The Company's website contains copies of various corporate presentations plus information on analysts who follow the Company. Investor Relations are the responsibility of the Chief Executive Officer and Chief Financial Officer. Communications from shareholders are forwarded to an appropriate officer for prompt response.</p> <p>In addition, the Board has adopted and approved a Business Code of Ethics that incorporates a Company Policy on Disclosure, Confidentiality and Securities Trading and a Company Policy on Electronic Communications.</p>
(e)	The integrity of the corporation's internal control and management information systems.	The Board, through its internal review process and the appointment of various committees, has put in place an effective system to satisfy itself that the Company's internal control and management information systems are operating properly.
(2)	The Board of directors of every corporation should be constituted with a majority of individuals who qualify as unrelated directors. If the corporation has a significant shareholder, in addition to a majority of unrelated directors, the board should include a number of directors who do not have interests in or relationships with either the corporation or the significant shareholder and which fairly reflects the investment in the corporation by shareholders other than the significant shareholder.	Pursuant to the Board's Mandate, the Board of Directors shall be comprised with a majority of individuals who qualify as unrelated directors. The Board of Directors is presently composed of ten (10) members. The Board of Directors considers that seven (7) Directors are "unrelated Directors" and the remainder are "related Directors", within the meaning of Section 472 of the TSX Company Manual. Accordingly, the Board of Directors is constituted with a majority of individuals who qualify as "unrelated Directors".

TSX Guideline Ref. (Sec. 473)	TSX Guidelines for Corporate Governance	Aurizon's Corporate Governance Practice
(3)	<p>The application of the definition of “unrelated director” to the circumstances of each individual director should be the responsibility of the board which will be required to disclose on an annual basis whether the board has a majority of unrelated directors or, in the case of a corporation with a significant shareholder, whether the board is constituted with the appropriate number of directors which are not related to either the corporation or the significant shareholder. Management directors are related directors. The board will also be required to disclose on an annual basis the analysis of the application of the principles supporting this conclusion.</p>	<p>In deciding whether a particular Director is a “related Director” or an “unrelated Director”, the Board of Directors examined the factual circumstances of each Director and considered them in the context of factors considered to be relevant. The Board of Directors considers that Mr. Hall (the President, Chief Executive Officer and Chairman) is an inside, “related” Director; Mr. Walton (the Executive Vice-President and Chief Financial Officer) is an inside, “related” Director; and Mr. Berner, who is a Partner of DuMoulin Black, the Company’s solicitors, is also considered to be a “related” Director.</p> <p>Mr. Gerard Gagne is the director nominee of the Solidarity Fund (QFL), which on a fully diluted basis would own 6.26% of the Company; Mr. Robert Normand is the nominee of Gestion Sodemex Inc. – Sodemex I & II, which owns 12.51% of the Company; and Mr. Richard Faucher is the joint nominee of the aforementioned institutions. In addition, Mr. Robert Normand is also a Director of Cambior Inc., which on a fully diluted basis would own, indirectly, 7.13% of the Company. Under the TSX Guidelines, an “unrelated director” means a director who is independent of management and is free from any interest and any business or other relationship which could, or could reasonably be perceived to materially interfere with the director’s ability to act with a view to the best interests of the Company, other than interests and relationships arising from shareholding. Accordingly, the Board of Directors considers that Messrs. Gagne, Normand and Faucher are “unrelated” Directors.</p> <p>Under the TSX Guidelines, a “significant shareholder” means a shareholder with the ability to exercise a majority of the votes for the election of the board of directors. The Board considers that it is constituted with an appropriate number of directors which are not related to either the corporation or a significant shareholder and which fairly reflects the investment in the corporation by shareholders other than a significant shareholder.</p>
(4)	<p>The board of directors of every corporation should appoint a committee of directors composed exclusively of outside directors, a majority of whom are unrelated directors, with the responsibility for proposing to the full board new nominees to the board and for assessing directors on an ongoing basis.</p>	<p>The Company’s Executive Compensation and Corporate Governance Committee, which is composed exclusively of outside directors, a majority of whom are unrelated directors, is responsible for: recommending candidates for nomination, appointment, election and re-election to the Board and its committees; annually assessing Board performance; and determining appropriate orientation and education programs for new Board members.</p>
(5)	<p>Every board of directors should implement a process to be carried out by the nominating committee or other appropriate committee for assessing the effectiveness of the board as a whole, the committees of the board and the contribution of individual directors</p>	<p>The Company’s Executive Compensation and Corporate Governance Committee is responsible for assessing the contribution of the Board, committees and all directors annually, and planning for succession of the Board.</p>

TSX Guideline Ref. (Sec. 473)	TSX Guidelines for Corporate Governance	Aurizon's Corporate Governance Practice
(6)	Every corporation, as an integral element of the process for appointing new directors, should provide an orientation and education program for new recruits to the board.	The Company's Executive Compensation and Corporate Governance Committee is responsible for determining appropriate orientation and education programs for new Board members. New Board members are also given an opportunity to visit the Company's projects.
(7)	Every board of directors should examine its size and, undertake, where appropriate, a program to establish a board size, which facilitates effective decision-making.	The Company's Executive Compensation and Corporate Governance Committee is responsible for annually reviewing board size to ensure effectiveness.
(8)	The board of directors should review the adequacy and form of the compensation of directors and ensure the compensation realistically reflects the responsibilities and risk involved in being an effective director.	The Company's Executive Compensation and Corporate Governance Committee is responsible for reviewing the adequacy and form of non-employee Directors' compensation, and is directed to ensure that the compensation realistically reflects the responsibilities and risks involved in being an effective director.
(9)	Subject to guideline 13, committees of the board of directors should generally be composed of outside directors, a majority of whom are unrelated directors, although some board committees may include one or more inside directors.	<p>The Board of Directors has two committees: the Audit Committee and the Executive Compensation and Corporate Governance Committee (formerly known as the "Compensation Committee"). From time to time ad hoc committees of the Board are appointed.</p> <ul style="list-style-type: none"> the Executive Compensation and Corporate Governance Committee (the "ECCGC") is presently composed of three (3) members. The Board of Directors considers that two (2) members are "unrelated" Directors and one (1) is a "related" Director, within the meaning of Section 472 of the TSX Company Manual. Accordingly, the ECCGC is constituted with a majority of individuals who qualify as "unrelated" Directors. the Audit Committee is presently composed of three (3) members, all of whom are "unrelated" Directors within the meaning of Section 472 of the TSX Company Manual.

TSX Guideline Ref. (Sec. 473)	TSX Guidelines for Corporate Governance	Aurizon's Corporate Governance Practice
(10)	Every board of directors should expressly assume responsibility for, or assign to a committee of directors the general responsibility for, developing the corporation's approach to governance issues. This committee would, among other things, be responsible for the corporation's response to these governance guidelines.	<p>In response to the new Guidelines of the Toronto Stock Exchange, the Board of Directors expanded the role of the Company's former Compensation Committee to include the responsibility of developing the Company's approach to governance issues. In view of its expanded role, the committee was re-named the Executive Compensation and Corporate Governance Committee (the "ECCGC").</p> <p>The primary function of the ECCGC is to assist the Board of Directors by:</p> <ul style="list-style-type: none"> • reviewing the adequacy and form of: the Company's compensation program for the Chief Executive Officer and the Chief Financial Officer (the "Named Executive Officers"); the non-employee Directors' compensation; and the compensation plans in effect or proposed for the Company's senior managers and other employees; and • recommending candidates for nomination, appointment, election and re-election to the Board and its committees, assessing Board performance; and determining appropriate orientation and education programs for new Board members. <p>In addition, the Board has adopted an Executive Compensation and Corporate Governance Charter for the ECCGC, whereby the ECCGC is responsible for making recommendations from time to time to the Board concerning matters related to corporate governance, as the ECCGC may deem appropriate or as may be referred to it from time to time by the Board. Annually, pursuant to its Charter, the ECCGC is required to review:</p> <ul style="list-style-type: none"> • The procedure for monitoring directors' responsibility, diligence and for avoiding conflicts of interest. • Current developments relating to corporate governance and, if required, propose to the Board changes to its mandate and corporate governance policy. • The Board's past years' proceedings to evaluate its efficiency and make required recommendation, if any. • And take appropriate action on any comment made by shareholders or regulatory authorities on the Company's corporate governance practices. <p>The ECCGC is presently composed of three (3) members, Messrs. Berner, Faucher and Moorhouse. The Board of Directors considers that two (2) members, Messrs. Faucher and Moorhouse, are "unrelated Directors" and one (1) member, Mr. Berner, is a "related Director" within the meaning of Section 472 of the TSX Company Manual. Accordingly, the ECCGC is constituted with a majority of individuals who qualify as "unrelated Directors".</p> <p>The Executive Compensation and Corporate Governance Committee (formerly the Compensation Committee) met once during 2002.</p>

TSX Guideline Ref. (Sec. 473)	TSX Guidelines for Corporate Governance	Aurizon's Corporate Governance Practice
(11)	<p>The board of directors, together with the CEO, should develop position descriptions for the board and for the CEO, including the definition of the limits to management's responsibilities. In addition, the board should approve or develop the corporate objectives that the CEO is responsible for meeting and assess the CEO against these objectives.</p>	<p>Pursuant to the Board's Mandate, the board of directors is responsible for adopting a strategic planning process, approving strategic plans, and monitoring performance against plans and for selecting and appointing, evaluation of and (if necessary) termination of the CEO. In addition, the Board is responsible for succession planning, including appointing, training and monitoring the performance of senior management.</p> <p>The ECCGC is responsible for creating CEO and board position descriptions and developing corporate objectives for recommendation to the Board. Once approved, the ECCGC is responsible for assessing the CEO against the corporate objectives set by the Board, and making recommendations to the Board with respect to the performance of senior management.</p>

TSX Guideline Ref. (Sec. 473)	TSX Guidelines for Corporate Governance	Aurizon's Corporate Governance Practice
(12)	<p>Every board of directors should implement structures and procedures that ensure that the board can function independently of management. An appropriate structure would be to (i) appoint a chair of the board who is not a member of management with responsibility to ensure the board discharges its responsibilities or (ii) assign this responsibility to an outside director, sometimes referred to as the "Lead director". The chair or lead director should ensure that the board carries out its responsibilities effectively which will involve the board meeting on a regular basis without management present and may involve assigning the responsibility for administering the board's relationship to management to a committee of the board.</p>	<p>Mr. Hall is Chairman of the Board of Directors, Chief Executive Officer and President of the Company. He also beneficially owns 393,342 common shares of the Company, representing 0.62% of the issued and outstanding common shares of the Company. Mr. Walton is the Executive Vice-President and Chief Financial Officer of the Company and also beneficially owns 776,000 common shares of the Company, representing 1.23% of the issued and outstanding common shares of the Company. Given the size and present stage of development of the Company, the Board believes that it is reasonable that two of the individuals who are most instrumental in providing leadership, strategy and development of the Company, sit as members of the Board. The other directors consider that their ability to function independently from management and to have access to Company personnel at any time, is not impeded by the presence of Mr. Hall and Mr. Walton on the Board. All committees of the Board are made up of non-management directors.</p> <p>The separation of the roles of the board chair and the chief executive officer is an issue that the Board of the Company regularly reviews. The Board has determined that separation at this time would not be beneficial to Aurizon and would limit the Board's flexibility to act in the best interests of Aurizon and its shareholders.</p> <p>The combination of the position of Chairman and Chief Executive Officer allows the Chairman of the Board of Directors to have more detailed knowledge of the business and activities of Aurizon than would be possible in the case of a non-executive Chairman.</p> <p>However, in response to the TSX Guidelines, in early 2003 the Board, with the encouragement of the Chairman and Chief Executive Officer, decided to create the position of Lead Director, with the responsibility to ensure that the Board executes its mandate independently of management. Mr. Brian S. Moorhouse, Chairman of the Executive Compensation and Corporate Governance Committee, is currently serving as the "Lead Director".</p> <p>In addition, the Company's Executive Compensation and Corporate Governance Committee is authorized to approve, in circumstances that it considers appropriate, the engagement by any one or more directors of outside advisers at the Company's expense.</p>

TSX Guideline Ref. (Sec. 473)	TSX Guidelines for Corporate Governance	Aurizon's Corporate Governance Practice
(13)	<p>The audit committee of every board of directors should be composed only of unrelated directors. All of the members of the audit committee should be financially literate and at least one member should have accounting or related financial expertise. Each board shall determine the definition of and criteria for “financial literacy” and “accounting or related financial expertise”. The board should adopt a charter for the audit committee that sets out the roles and responsibilities of the audit committee, which should be specifically defined so as to provide appropriate guidance to audit committee members as to their duties. The audit committee should have direct communication channels with the internal and external auditors to discuss and review specific issues as appropriate. The audit committee duties should include oversight responsibility for management reporting on internal control. While it is management’s responsibility to design and implement an effective system of internal control, it is the responsibility of the audit committee to ensure that management has done so.</p>	<p>The Board of Directors has adopted an Audit Committee Charter for its Audit Committee, whereby the primary function of the Audit Committee is to assist the Board of Directors in fulfilling its financial oversight responsibilities by reviewing: the financial reports and other financial information provided by the Company to any governmental body or other stakeholders; the Company’s systems of internal controls regarding finance, accounting, and the Company’s auditing, accounting and financial reporting processes. Consistent with this function, the Audit Committee encourages continuous improvement of, and fosters adherence to, the Company’s policies, procedures and practices at all levels. The Audit Committee’s primary duties and responsibilities are to:</p> <ul style="list-style-type: none"> • Serve as an independent and objective party to monitor the Company’s financial reporting and internal control system and review the Company’s financial statements. • Review and appraise the performance of the Company’s external auditors. • Provide an open avenue of communication among the Company’s auditor, financial and senior management and the Board of Directors. <p>The Audit Committee met on December 11, 2002 to plan for the Audit and on April 3, 2003, to review the audited annual financial statements for the year ended December 31, 2002, during which time its members were Mr. Gagne, Mr. Moorhouse and Mr. Normand, all of whom are outside, unrelated Directors. The Board considers that all members of the Audit Committee are financially literate and have a working familiarity with basic finance and accounting practices. In addition, Mr. Gagne and Mr. Normand, both of whom are Chartered Accountants, are considered by the Board to have accounting or related financial management expertise. The definition of “financially literate” is the ability to read and understand a balance sheet, an income statement and a cash flow statement. The definition of “accounting or related financial management expertise” is the ability to analyze and interpret a full set of financial statements, including the notes attached thereto, in accordance with Canadian generally accepted accounting principles.</p>
(14)	<p>The board of directors should implement a system that enables an individual director to engage an outside adviser at the expense of the Company in appropriate circumstances. The engagement of the outside advisor should be subject to the approval of an appropriate committee of the Board.</p>	<p>Pursuant to its Charter, the Company’s ECCGC is empowered to approve, in circumstances that it considers appropriate, the engagement by any one or more directors of outside advisers at the Company’s expense.</p>

INDEBTEDNESS TO COMPANY OF DIRECTORS AND OFFICERS

Unless otherwise instructed, the proxies given pursuant to this solicitation will be voted for the appointment of PricewaterhouseCoopers LLP, Chartered Accountants, of Vancouver, British Columbia, as the auditors of the Company to hold office for the ensuing year at a remuneration to be fixed by the directors.

For the year ended December 31, 2002, the total fees charged by PricewaterhouseCoopers LLP to the Company for audit services were \$63,000 and for non-audit services were \$29,091, for a total of \$92,091.

INTEREST OF CERTAIN PERSONS IN MATTERS TO BE ACTED UPON

Except as set out herein, no director or senior officer of the Company, nor any associate or affiliate of the foregoing persons, has any substantial interest, direct or indirect, by way of beneficial ownership or otherwise, in matters to be acted upon at the Meeting.

PARTICULARS OF OTHER MATTERS TO BE ACTED UPON

(A) INCREASE IN AUTHORIZED SHARE CAPITAL

The Company is currently authorized to issue 200,000,000 shares divided into 100,000,000 Common Shares without par value and 100,000,000 Preferred Shares without par value issuable in series. Of this amount, as at April 30, 2003, 84,114,682 Common Shares are issued and outstanding on a fully diluted basis. There are no Preferred Shares currently issued. In order to facilitate the Company's ability to do equity financings in the future, it is proposed that the Company's authorized share capital be increased to 600,000,000 shares divided into 500,000,000 Common Shares without par value and 100,000,000 Preferred Shares without par value issuable in series. The special rights and restrictions attached to the aforementioned shares are as set out in the Articles of the Company. The Company therefore requests its members to pass the following resolutions:

"RESOLVED, as a special resolution that:

- (1) the authorized capital of the Company be increased from 200,000,000 shares without par value to 600,000,000 shares without par value, divided into 500,000,000 Common Shares without par value and 100,000,000 Preferred Shares without par value issuable in series. The special rights and restrictions attached to the aforementioned shares are as set out in the Articles of the Company;
- (2) the Memorandum of the Company be altered by deleting Paragraph 2 in its entirety and substituting the following therefor:

"2. The authorized capital of the Company consists of 600,000,000 shares without par value, divided into 500,000,000 Common Shares and 100,000,000 Preferred Shares, issuable in series. The rights and restrictions attached to the aforementioned shares are as set out in the Articles of the Company."; and
- (3) the Memorandum as altered be in the form attached hereto and marked "Schedule"A", so that the Memorandum as altered shall at the time of filing comply with the Company Act."

The special resolution requires the approval of not less than 75% of the votes cast by those members of the Company who, being entitled to do so, vote in person or by proxy at the Meeting.

Director's Recommendation

The Directors of the Company believe the passing of the aforementioned special resolution is in the best interests of the Company and recommend that members vote in favour of the resolution.

In the event the resolution is not passed, the Company will be severely hampered in its ability to do equity financings in the future and such restriction could impede the Company's future growth.

The persons named as proxies in the enclosed form of proxy intend to cast the votes represented by proxy in favour of the resolution approving the increase in the authorized share capital.

(B) SHAREHOLDER APPROVAL TO THE ISSUANCE OF A NUMBER OF SHARES BY PRIVATE PLACEMENT THAT EXCEEDS 25% OF THE COMPANY'S ISSUED SHARE CAPITAL.

Introduction

Acquisition of Casa Berardi ("Casa Berardi")

In September 1998, Aurizon acquired a 100% interest in the Casa Berardi property, which includes a modern 2,200 tonne per day mill and related surface and underground infrastructure.

Feasibility Study

In the first half of 2000, Aurizon, with the assistance of several independent consultants, completed a feasibility study of the West Mine area of the Casa Berardi property. The study envisages sinking a 1,031 metre vertical shaft capable of sustaining a daily ore production of up to 4,500 tonnes. Related infrastructure, such as ore and waste pass systems, ramps and lateral development, have been designed to ensure optimal efficiency, minimum operating costs and, considering the mineral potential of the West Mine area, to accommodate a long mine life beyond that established to date.

The pre-production period was estimated to take 30 months and capital expenditures, including a 10% contingency, during that period were estimated at \$121 million.

As a result of the completed feasibility study, proven and probable mineral reserves at the West Mine were estimated at 6.9 million tonnes at an average grade of 6.7 grams per tonne or 1.5 million ounces of gold. It was estimated that the Casa Berardi West and East Mines and Principal Zone also contain additional undiluted mineral resources of 4.5 million tonnes at an average grade of 7.7 grams per tonne or approximately 1.1 million ounces of gold.

Exploration

In 2002, approximately 14,000 metres of additional exploration drilling was completed as part of an ongoing \$2 million program. The current drill program has indicated that certain mineralization found in the 118 - 120 zone area is the dip extension of the Principal Zones. The Principal Zones area is located between the West and East Mines and extends laterally over 900 metres.

In early 2003, Aurizon commenced an underground exploration program, which will provide underground access to Zone 113 in order to increase the confidence level on the continuity of that zone and extract a bulk sample. Aurizon discovered Zone 113, which extends from 400 metres to 1000 metres below surface, in 1999. Previously reported probable mineral reserves of Zone 113 are estimated at 984,000 ounces of gold at an average grade of 7.4 grams per tonne. Previously reported total proven and probable mineral reserves at the West Mine total 1.5 million ounces of gold at an average grade of 6.7 grams per tonne.

The program includes deepening and extending the present ramp at the West Mine area from the 450 metre to the 550 metre level, drifting approximately 450 metres east to access the 113 Zone on the 550 metre level, drifting along Zone 113, definition drilling and the extraction of a bulk sample. The total program will cost approximately \$17 million over a nineteen-month period. In order to finance the first phase of this program, Aurizon arranged a \$7,000,000 equity private placement in December 2002. In April 2003, a further \$5,000,000 equity private placement was arranged, however, additional capital will be required in order to finance the balance.

In addition, a new surface drill program, which will cost approximately \$2,000,000, has commenced which will include further infill drilling in the 118-120 zone area, and step-out drilling between this area and the East Mine. Some geophysical test work will also be performed to define targets outside of the mining lease, but within Aurizon's 32,000 acre land position.

The Financing

The Company is continually investigating opportunities to raise financing to further explore and develop the Casa Berardi project and for general working capital. In addition, as a result of exploration programs currently underway at the Company's properties, the Company may undertake one or more financings over the next year and expects one or more of these to be structured as private placements.

Under the rules of the The Toronto Stock Exchange ("TSX") the aggregate number of shares of a listed company which are issued or made subject to issuance (i.e. issuable under a share purchase warrant or option or other convertible security) by way of one or more private placement transactions during any particular six-month period may not exceed 25% of the number of shares outstanding (on a non-diluted basis) prior to giving effect to such transactions (the "TSX 25% Rule"), unless there has been shareholder approval of such transaction.

The application of the TSX 25% Rule may restrict the ability of the Company to raise funds by private placement of its securities.

Management of the Company considers it to be in the best interests of the Company to solicit private placement funds for the Casa Berardi project, exploration expenditures and working capital. The TSX has a working practice that it will accept advance approval by shareholders in anticipation of private placements that may exceed the TSX 25% Rule, provided such private placements are completed within 12 months of the date such advance approval is given.

The Company's issued and outstanding share capital is 70,445,817 Common Shares as at April 30, 2003, and the Company proposes that the maximum number of shares which either would be issued or made subject to issuance under one or more private placements in the twelve month period commencing on June 17, 2003, would not exceed 70,445,817 Common Shares, or 100% of the Company's issued and outstanding shares as at April 30, 2003.

Any private placement proceeded with by the Company under the advance approval being sought at the Meeting will be subject to approval by the Directors of the Company and to the following additional restrictions:

- (i) it must be substantially with parties at arms-length to the Company;
- (ii) it cannot materially affect control of the Company;
- (iii) it must be completed within a twelve month period following the date the advance member approval is given; and
- (iv) it must comply with the private placement pricing rules of the TSX which currently require that the issue price per common share must not be lower than the closing market price of the Common shares on the TSX on the trading day prior to the date Notice of the private placement is given to the TSX (the “Market Price”) less the applicable discount, as follows:

<u>Market Price</u>	<u>Maximum Discount</u>
\$0.50 or less	25%
\$0.51 to \$2.00	20%
Above \$2.00	15%

(For these purposes, a private placement of unlisted convertible securities is deemed to be a private placement of the underlying listed securities at an issue price equal to the lowest possible price at which the securities are convertible by the holders thereof).

In all cases, the TSX retains the discretion to decide whether or not a particular placement is “substantially” at arms-length or will materially affect control, in which case specific member approval may be required.

In anticipation that the Company may wish to enter into one or more private placements in the next 12 months that will result in it issuing and/or making issuable such number of its Common Shares, taking into account any shares that may be issued upon exercise of any warrants, options or other rights granted in connection with the private placements, that will exceed the TSX 25% Rule, the Company requests its members to pass an ordinary resolution in the following terms:

“RESOLVED, as an ordinary resolution, that the issuance by the Company in one or more private placements during the twelve month period commencing June 17, 2003, of such number of securities as would result in the Company issuing or making issuable a number of Common Shares totalling up to 70,445,817 or 100% of the number of issued and outstanding Common Shares as at April 30, 2003, as more particularly described in and subject to the restrictions described in the Company’s Information Circular dated April 30, 2003, is hereby approved.”

An ordinary resolution requires the approval of a simple majority of the votes cast by those members of the Company who, being entitled to do so, vote in person or by proxy at the Meeting.

Director’s Recommendation

The Directors of the Company believe the passing of the ordinary resolution is in the best interests of the Company and recommend that members vote in favour of the resolution.

In the event the resolution is not passed, the TSX will not approve any private placements that result in the issuance or possible issuance of a number of shares which exceed the TSX 25% Rule, without specific shareholder approval. Such restriction could impede the Company’s Casa Berardi project and its timely access to required funds on favourable terms.

The persons named as proxies in the enclosed form of proxy intend to cast the votes represented by proxy in favour of the resolution approving the issuance of a number of shares by private placement that exceeds 25% of the Company’s issued share capital unless the holder of Common Shares who has given such proxy has directed that the votes be otherwise cast.

(C) OTHER MATTERS

Management of the Company is not aware of any matter to come before the Meeting other than as set forth in the notice of meeting. If any other matter properly comes before the Meeting, it is the intention of the persons named in the enclosed form of proxy to vote the shares represented thereby in accordance with their best judgment on such matter.

DATED this 30th day of April, 2003.
