Notes to Financial Statements
Year Ended December 31, 2018

1 Organization and Nature of Business

The Winning Edge Financial Group, Inc. (The Company) is a New Jersey corporation conducting business as securities broker dealer. The Company holds no customer funds or securities and does not participate in the underwriting of securities. The Company is registered with the SEC and is a member of the Financial Industry Regulatory Authority - ("FINRA") .

2 Significant Accounting Policies

(a) Basis of Presentation

The financial statements and accompanying notes are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") unless otherwise disclosed.

(b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(c) Statement of Cash Flows

For purposes of the statement of cash flows the Company has defined cash equivalents as highly liquid investments, with original maturities of less than three months, that are not held for sale in the ordinary course of business. The company has adopted the indirect method of presenting the statement of cash flows in accordance with current authoritative pronouncements.

(d) Accounts Receivable

The Company establishes an allowance for uncollectible trade accounts receivable based on managements evaluation of the collectibility of outstanding accounts receivable. Management has evaluated accounts receivable at December 31, 2018 and believes they are all collectible. Accounts receivable are not collateralized.

(e) Depreciation

Depreciation is provided on a straight-line basis using estimated useful lives of three years for equipment.

Equipment is recorded at cost. Maintenance, repairs and renewals that neither materially add to the value of the property nor appreciably prolong its life are charged to expense as incurred. Gains and losses on disposition of property and equipment are included in income.

THE WINNING EDGE FINANCIAL GROUP, INC.

Notes to Financial Statements
Year Ended December 31, 2018

(f) Revenue Recognition

The Company earns commissions from executing customer transactions in mutual fund securities and variable annuities. The Company recognizes revenue from other fees in accordance with ASC Topic 606 as services are rendered and the contracts identified performance obligations have been satisfied. There were no unsatisfied performance obligations at December 31, 2018.

(g) Income Taxes

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to unrealized gain on investments. The deferred tax liability represents the future tax return consequences that will be realized when the asset is settled. No recognition for uncertain tax provisions have been included because the Company believes there are none.

Certain transactions of the Company may be subject to accounting methods for federal and state income tax purposes which differ significantly from the accounting methods used in preparing the financial statements. Accordingly, the net income or loss of the Company and the resulting balances in the shareholder's capital account reported for federal and state income tax purposes may differ from the balances reported for those same items in these financial statements.

The Company recognizes and measures its unrecognized tax benefits in accordance with ASC Topic 740, Income Taxes. Under that guidance the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of the financial reporting period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change.

Management has determined that there are no uncertain tax positions which require adjustment or disclosure on the financial statements at December 31, 2018 and there are no open tax years prior to 2013. In addition, no income related penalties & \$49 of interest have been recorded for the year ended December 31, 2018.

Notes to Financial Statements

Year Ended December 31, 2018

(j) Subsequent Events

The Company has evaluated subsequent events occurring after the statement of financial condition date through the date of February 25, 2019 which is the date the financial statements were available to be issued. Based on this evaluation, the Company has determined that no subsequent events have occurred which require disclosure in or adjustment to the financial statements.

(k) Fair Value Hierarchy

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1. Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2. Inputs other than quoted prices included in level 1 that are observable for the assets or liability either directly or indirectly.

Level 3. Inputs are unobservable for the assets or liability.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent the valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining the fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

For further discussion of fair value, see “Note 9 Fair Value”
