**SECURITIES AND EXCHANGE COMMISSION**  
Washington, D.C. 20549

**FORM 10-Q**

Quarterly Report Pursuant to Section 13 or 15(d)  
of the Securities Exchange Act of 1934

For the quarterly period ended:

**March 31, 2009**

Commission file number: 1-10853

**BB&T CORPORATION**

(Exact name of registrant as specified in its charter)

North Carolina  
(State of Incorporation)

56-0939887  
(I.R.S. Employer Identification No.)

200 West Second Street  
Winston-Salem, North Carolina  
(Address of Principal Executive Offices)

27101  
(Zip Code)

(336) 733-2000  
(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES ☒ NO ☐

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒

Accelerated filer ☐

Non-accelerated filer ☐ (Do not check if a smaller reporting company) Smaller reporting company ☐

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES ☐ NO ☒

At April 30, 2009, 560,640,875 shares of the Registrant's common stock, \$5 par value, were outstanding.

Income taxes	138	63
Noncash investing and financing activities:		
Transfers of loans to foreclosed property	465	65

The accompanying notes are an integral part of these consolidated financial statements.

***NOTE 1. Basis of Presentation***

*General*

In the opinion of management, the accompanying unaudited Consolidated Balance Sheets, Consolidated Statements of Income, Consolidated Statements of Changes in Shareholders' Equity, and Consolidated Statements of Cash Flows of BB&T Corporation and subsidiaries (referred to herein as "BB&T", "the Corporation" or "the Company"), are a fair statement of BB&T's financial position at March 31, 2009 and December 31, 2008, and BB&T's results of operations, changes in shareholders' equity and cash flows for the three month periods ended March 31, 2009 and 2008. In the opinion of management, all normal recurring adjustments necessary for a fair statement of the consolidated financial position and consolidated results of operations have been made.

These consolidated financial statements and notes are presented in accordance with the instructions for Form 10-Q. The information contained in the financial statements and footnotes included in BB&T's Annual Report on Form 10-K for the year ended December 31, 2008 should be referred to in connection with these unaudited interim consolidated financial statements.

*Nature of Operations*

BB&T is a financial holding company headquartered in Winston-Salem, North Carolina. BB&T conducts operations through its principal bank subsidiary, Branch Banking and Trust Company ("Branch Bank"), a federally chartered thrift institution, BB&T Financial, FSB ("BB&T FSB") and its nonbank subsidiaries. Branch Bank has offices in North Carolina, South Carolina, Virginia, Maryland, Georgia, West Virginia, Tennessee, Kentucky, Florida, Alabama, Indiana and Washington, D.C. Branch Bank provides a wide range of banking services to individuals and businesses, and offers a variety of loans to businesses and consumers. Such loans are made primarily to individuals residing in the market areas described above or to businesses located within BB&T's geographic footprint. Branch Bank also markets a wide range of deposit services to individuals and businesses. Branch Bank offers, either directly, or through its subsidiaries, lease financing to businesses and municipal governments; factoring; discount brokerage services, annuities and mutual funds; life insurance, property and casualty insurance, health insurance and commercial general liability insurance on an agency basis and through a wholesale insurance brokerage operation; insurance premium financing; permanent financing arrangements for commercial real estate; loan servicing for third-party investors; direct consumer finance loans to individuals; and trust and comprehensive wealth advisory services. BB&T FSB and the direct nonbank subsidiaries of BB&T provide a variety of financial services including credit card lending, automobile lending, equipment financing, full-service securities brokerage, payroll processing, asset management and capital markets services.

*Principles of Consolidation*

The consolidated financial statements of BB&T include the accounts of BB&T Corporation and those subsidiaries that are majority owned by BB&T and over which BB&T exercises control. In consolidation, all significant intercompany accounts and transactions are

eliminated. The results of operations of companies acquired are included only from the dates of acquisition. All material wholly owned and majority owned subsidiaries are consolidated unless accounting principles generally accepted in the United States of America require otherwise.

BB&T evaluates variable interests in entities for which voting interests are not an effective means of identifying controlling financial interests. Variable interests are those in which the value of the interest changes with the fair value of the net assets of the entity exclusive of variable interests. If the results of the evaluation indicate the existence of a primary beneficiary and the entity does not effectively disperse risks among the parties involved, that primary beneficiary is required to consolidate the entity. Likewise, if the evaluation indicates that the requirements for consolidation are not met and the entity has previously been consolidated, then the entity would be deconsolidated.

BB&T has variable interests in certain entities that were not required to be consolidated, including affordable housing partnership interests, historic tax credit partnerships, other partnership interests and trusts that have issued capital securities. Please refer to Note 6 for additional disclosures regarding BB&T's significant variable interest entities.

BB&T accounts for unconsolidated partnership investments using the equity method of accounting. In addition to affordable housing partnerships, which represent the majority of unconsolidated investments in variable interest entities, BB&T also has investments and future funding commitments to venture capital and other entities. The maximum potential exposure to losses relative to investments in variable interest entities is generally limited to the sum of the outstanding balance and any related loans to the entity. Loans to these entities are underwritten in substantially the same manner as are other loans and are generally secured.

BB&T has investments in certain entities for which BB&T does not have controlling interest. For these investments, the Company records its interest using the equity method with its portion of income or loss being recorded in other noninterest income in the Consolidated Statements of Income. BB&T periodically evaluates these investments for impairment.

### *Reclassifications*

In December 2007, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 160, "*Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB No. 51*," ("SFAS No. 160"). SFAS No. 160 requires that a noncontrolling interest in a subsidiary be accounted for as equity in the consolidated balance sheet and that net income include the amounts for both the parent and the noncontrolling interest, with a separate amount presented in the income statement for the noncontrolling interest share of net income. SFAS No. 160 also expands the disclosure requirements and provides guidance on how to account for changes in the ownership interest of a subsidiary. BB&T adopted the provisions of SFAS No. 160 on January 1, 2009. In accordance with SFAS No. 160, the presentation and disclosure provisions were applied retrospectively for all periods presented. The amounts reclassified in connection with the adoption of SFAS No. 160 were not material to the consolidated financial statements.

In certain other instances, amounts reported in prior periods' consolidated financial statements have been reclassified to conform to the current presentation. Such reclassifications had no effect on previously reported cash flows, shareholders' equity or net income.

#### *Use of Estimates in the Preparation of Financial Statements*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change include the determination of the allowance for loan and lease losses and the reserve for unfunded lending commitments, determination of fair value for financial instruments, valuation of goodwill, intangible assets and other purchase accounting related adjustments, benefit plan obligations and expenses, and tax assets, liabilities and expense.

#### *Changes in Accounting Principles and Effects of New Accounting Pronouncements*

In December 2007, the FASB issued SFAS No. 141 (revised 2007), "*Business Combinations*," ("SFAS No. 141(R)"). SFAS No. 141(R) requires the acquiring entity in a business combination to recognize the full fair value of assets acquired and liabilities assumed in the transaction (whether a full or partial acquisition); establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed; requires expensing of most transaction and restructuring costs; and requires the acquirer to disclose to investors and other users all of the information needed to evaluate and understand the nature and financial effect of the business combination. SFAS No. 141(R) was effective for BB&T for business combinations entered into on or after January 1, 2009. BB&T has not entered into any material business combinations since adopting SFAS No. 141(R).

In April 2009, the FASB issued FASB Staff Position ("FSP") FAS 141(R)-1, "*Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies*," ("FSP FAS 141(R)-1"). FSP FAS 141(R)-1 amends and clarifies SFAS No. 141(R) to address application issues raised by preparers, auditors, and members of the legal profession on initial recognition and measurement, subsequent measurement and accounting, and disclosure of assets and liabilities arising from contingencies in a business combination. FSP FAS 141(R)-1 was effective for BB&T for business combinations entered into on or after January 1, 2009. BB&T has not entered into any material business combinations since adopting FSP FAS 141(R)-1.

In March 2008, the FASB issued SFAS No. 161, "*Disclosures about Derivative Instruments and Hedging Activities—an amendment of SFAS No. 133*," ("SFAS No. 161"). SFAS No. 161 requires that an entity provide enhanced disclosures related to derivative and hedging activities. BB&T adopted SFAS No. 161 on January 1, 2009. The additional disclosures required by SFAS No. 161 are included in Note 12 to these consolidated financial statements.

In April 2008, the FASB issued FSP FAS 142-3, *“Determination of the Useful Life of Intangible Assets,”* (“FSP FAS 142-3”). FSP FAS 142-3 amends the factors an entity should consider in developing renewal or extension assumptions used in determining the useful life of recognized intangible assets under SFAS No. 142, *“Goodwill and Other Intangible Assets,”* (“SFAS No. 142”). The intent of FSP FAS 142-3 is to improve the consistency between the useful life of a recognized intangible asset under SFAS No. 142 and the period of expected cash flows used to measure the fair value of the asset under SFAS No. 141(R). BB&T adopted FSP FAS 142-3 on January 1, 2009. The adoption of FSP FAS 142-3 was not material to the consolidated financial statements.

In December 2008, the FASB issued FSP FAS 132(R)-1, *“Employers’ Disclosures about Postretirement Benefit Plan Assets,”* (“FSP FAS 132(R)-1”). The objectives of FSP FAS 132(R)-1 are to provide users of the financial statements with more detailed information related to the major categories of plan assets, the inputs and valuation techniques used to measure the fair value of plan assets and the effect of fair value measurements using significant unobservable inputs (Level 3) on changes in plan assets for the period, as well as how investment allocation decisions are made, including the factors that are pertinent to an understanding of investment policies and strategies. The disclosures about plan assets required by FSP FAS 132(R)-1 are effective for BB&T on December 31, 2009.

In April 2009, the FASB issued FSP FAS 157-4, *“Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly,”* (“FSP FAS 157-4”). FSP FAS 157-4 provides additional guidance for estimating fair value in accordance with SFAS No. 157, *“Fair Value Measurements,”* when the volume and level of activity for the asset or liability have significantly decreased. FSP FAS 157-4 also includes guidance on identifying circumstances that indicate a transaction is not orderly. In addition, FSP FAS 157-4 amends SFAS No. 157 to require additional disclosures of valuation inputs and techniques in interim periods and defines the major security types that are required to be disclosed. FSP FAS 157-4 will be effective for BB&T on June 30, 2009. BB&T is currently evaluating the provisions of FSP FAS 157-4.

In April 2009, the FASB issued FSP FAS 115-2 and FAS 124-2, *“Recognition and Presentation of Other-Than-Temporary Impairments,”* (“FSP FAS 115-2 and FAS 124-2”). FSP FAS 115-2 and FAS 124-2 amends the other-than-temporary impairment guidance for debt securities to make the guidance more operational and to improve the presentation and disclosure of other-than-temporary impairments on debt and equity securities in the financial statements. FSP FAS 115-2 and FAS 124-2 will be effective for BB&T on June 30, 2009. BB&T is currently evaluating the provisions of FSP FAS 115-2 and FAS 124-2.

In April 2009, the FASB issued FSP FAS 107-1 and APB 28-1, *“Interim Disclosures about Fair Value of Financial Instruments,”* (“FSP FAS 107-1 and APB 28-1”). FSP FAS 107-1 and APB 28-1 amends SFAS No. 107, *“Disclosures about Fair Value of Financial Instruments,”* to require disclosures about fair value of financial instruments in interim periods, as well as in annual periods. The disclosures required by FSP FAS 107-1 and APB 28-1 will be effective for BB&T on June 30, 2009.

**NOTE 2. Business Combinations and Intangible Assets**

*Acquisitions*

During the first three months of 2009, BB&T acquired certain assets of one insurance premium financing business. Approximately \$8 million of goodwill and \$6 million of identifiable intangibles were recorded in connection with this transaction.

*Goodwill and Other Intangible Assets*

The changes in the carrying amount of goodwill attributable to each of BB&T's operating segments for the three months ended March 31, 2009, are as follows:

Goodwill Activity by Operating Segment								
	Banking Network	Residential Mortgage Banking	Sales Finance	Specialized Lending	Insurance Services	Financial Services	All Other	Total
	(Dollars in millions)							
<b>Balance, January 1, 2009</b>	\$ 4,038	\$ 7	\$ 93	\$ 98	\$ 1,029	\$ 192	\$ 26	\$5,483
Acquisitions	-	-	-	8	-	-	-	8
Other adjustments	-	-	-	2	(1)	-	-	1
<b>Balance, March 31, 2009</b>	<u>\$ 4,038</u>	<u>\$ 7</u>	<u>\$ 93</u>	<u>\$ 108</u>	<u>\$ 1,028</u>	<u>\$ 192</u>	<u>\$ 26</u>	<u>\$5,492</u>

The following table presents the gross carrying amounts and accumulated amortization for BB&T's identifiable intangible assets subject to amortization at the dates presented:

Identifiable Intangible Assets						
As of March 31, 2009			As of December 31, 2008			
Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	
(Dollars in millions)						
Identifiable intangible assets						
Core deposit intangibles	\$ 457	\$ (334)	\$ 123	\$ 457	\$ (325)	\$ 132
Other (1)	723	(325)	398	719	(309)	410
Totals	<u>\$ 1,180</u>	<u>\$ (659)</u>	<u>\$ 521</u>	<u>\$ 1,176</u>	<u>\$ (634)</u>	<u>\$ 542</u>

(1) Other identifiable intangibles are primarily customer relationship intangibles.

**NOTE 3. Securities**

The amortized cost and approximate fair values of securities available for sale were as follows:

March 31, 2009				
	Amortized Cost	Gross Unrealized		Fair Value
		Gains	Losses	
	(Dollars in millions)			
<b>Securities available for sale:</b>				
U.S. government-sponsored entities (GSE)	\$ 960	\$ 11	\$ -	\$ 971
Mortgage-backed securities issued by GSE	13,668	298	18	13,948
States and political subdivisions	2,416	15	258	2,173
Non-agency mortgage-backed securities	1,525	-	492	1,033
Equity and other securities	903	2	22	883
Total securities available for sale	<u>\$ 19,472</u>	<u>\$ 326</u>	<u>\$ 790</u>	<u>\$ 19,008</u>

  

December 31, 2008				
	Amortized Cost	Gross Unrealized		Fair Value
		Gains	Losses	
	(Dollars in millions)			
<b>Securities available for sale:</b>				
U.S. government-sponsored entities (GSE)	\$ 1,320	\$ 13	\$ -	\$ 1,333
Mortgage-backed securities issued by GSE	27,117	338	25	27,430
States and political subdivisions	2,413	8	344	2,077
Non-agency mortgage-backed securities	1,573	-	475	1,098
Equity and other securities	937	2	34	905
Total securities available for sale	<u>\$ 33,360</u>	<u>\$ 361</u>	<u>\$ 878</u>	<u>\$ 32,843</u>

The following tables reflect the gross unrealized losses and fair values of BB&T's investments, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, at the dates presented.

March 31, 2009						
Less than 12 months		12 months or more		Total		
Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	
(Dollars in millions)						
<b>Securities:</b>						
U.S. government-sponsored entities (GSE)	\$ 8	\$ -	\$ -	\$ 8	\$ -	
Mortgage-backed securities issued by GSE	1,175	3	768	1,943	18	
States and political subdivisions	816	86	476	1,292	258	
Non-agency mortgage-backed securities	206	100	827	1,033	492	
Equity and other securities	165	18	52	217	22	
Total temporarily impaired securities	<u>\$ 2,370</u>	<u>\$ 207</u>	<u>\$ 2,123</u>	<u>\$ 4,493</u>	<u>\$ 790</u>	

	December 31, 2008					
	Less than 12 months		12 months or more		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
	(Dollars in millions)					
<b>Securities:</b>						
Mortgage-backed securities issued by GSE	\$ 4,388	\$ 24	\$ 191	\$ 1	\$ 4,579	\$ 25
States and political subdivisions	1,174	174	328	170	1,502	344
Non-agency mortgage-backed securities	629	235	469	240	1,098	475
Equity and other securities	159	33	20	1	179	34
Total temporarily impaired securities	<u>\$ 6,350</u>	<u>\$ 466</u>	<u>\$ 1,008</u>	<u>\$ 412</u>	<u>\$ 7,358</u>	<u>\$ 878</u>

BB&T periodically evaluates available-for-sale securities for other-than-temporary impairment. Based on its evaluations during 2009, BB&T recorded \$36 million of other-than-temporary impairments related to certain debt and equity securities.

On March 31, 2009, BB&T also held certain investment securities having continuous unrealized loss positions for more than 12 months. As of March 31, 2009, the unrealized losses on these securities totaled \$583 million. Substantially all of these losses were in non-agency mortgage-backed and municipal securities. At March 31, 2009, all of the available-for-sale debt securities were investment grade with the exception of two municipal bonds with the same issuer with a book value of \$10 million and eight non-agency mortgage-backed securities, with a book value of \$723 million. All of the non-investment grade securities referenced above were initially investment grade and have been downgraded since purchase. The unrealized losses on securities in a continuous unrealized loss position for more than 12 months are the result of changes in market interest rates and liquidity. BB&T has evaluated all of its debt securities for credit impairment. At March 31, 2009, there were no credit losses evident from these securities. Furthermore, BB&T had the ability and intent to retain these securities for a period of time sufficient to recover all unrealized losses.

BB&T conducts periodic reviews to identify and evaluate each investment that has an unrealized loss for other-than-temporary impairment. An unrealized loss exists when the current fair value of an individual security is less than its amortized cost basis. Unrealized losses that are determined to be temporary in nature are recorded, net of tax, in accumulated other comprehensive income for available-for-sale securities.

Factors considered in determining whether a loss is temporary include:

- The financial condition and near-term prospects of the issuer, including any specific events which may influence the operations of the issuer;
- BB&T's intent and ability to retain the investment in the issuer for a period of time sufficient to allow for any anticipated recovery in market value;
- The length of the time and the extent to which the market value has been less than cost;
- Whether the decline in fair value is attributable to specific conditions, such as conditions in an industry or in a geographic area;
- Whether a debt security has been downgraded by a rating agency;

- Whether the financial condition of the issuer has deteriorated;
- The seniority of the security;
- Whether dividends have been reduced or eliminated, or scheduled interest payments on debt securities have not been made; and
- Any other relevant available information.

For certain U.S. mortgage-backed securities (and in particular for non-agency Alt-A, Prime and other mortgage-backed securities that have significant unrealized losses as a percentage of amortized cost), credit impairment is assessed using a cash flow model that estimates the cash flows on the underlying mortgage pools, using security-specific structure information. The model estimates cash flows from the underlying mortgage loan pools and distributes those cash flows to the various tranches of securities, considering the transaction structure and any subordination and credit enhancements that exist in each structure. The cash flow model projects the remaining cash flows using a number of assumptions, including default rates, prepayment rates and recovery rates (on foreclosed properties).

Management reviews the result of the cash flow model, the internal credit analysis and other market observable information in its estimation of possible future credit losses. If management believes that it is not probable that a mortgage-backed security will recover all principal and interest due, the Company records other-than-temporary impairment equal to the entire decline in fair value of the mortgage-backed security.

Where a mortgage-backed security is not deemed to be credit impaired, management performs additional analysis to assess whether it has the intent and ability to hold each security for a period of time sufficient for a forecasted recovery of fair value. In making this determination, BB&T considers its expected liquidity and capital needs, including its asset/liability management needs, forecasts, strategies and other relevant information.

**NOTE 4. Loans and Leases**

The following table provides a breakdown of BB&T's loan portfolio as of March 31, 2009 and December 31, 2008.

	<b>March 31, 2009</b>	December 31, 2008
	<b>(Dollars in millions)</b>	
Loans and leases, net of unearned income:		
Commercial loans and leases	\$ 50,392	\$ 50,480
Sales finance	6,275	6,354
Revolving credit	1,760	1,777
Direct retail	15,000	15,454
Residential mortgage loans	16,336	17,091
Specialized lending	6,678	6,089
Total loans and leases held for investment	<u>96,441</u>	<u>97,245</u>
Loans held for sale	<u>3,798</u>	<u>1,424</u>
Total loans and leases	<u><u>\$ 100,239</u></u>	<u><u>\$ 98,669</u></u>

An analysis of the allowance for credit losses for the three months ended March 31, 2009 and 2008 is presented in the following table:

	<b>For the Three Months Ended March 31, 2009</b>	2008
	<b>(Dollars in millions)</b>	
Beginning Balance	\$ 1,607	\$ 1,015
Provision for credit losses	676	223
Loans and leases charged-off	(405)	(141)
Recoveries of previous charge-offs	17	16
Net loans and leases charged-off	<u>(388)</u>	<u>(125)</u>
Ending Balance	<u><u>\$ 1,895</u></u>	<u><u>\$ 1,113</u></u>
Allowance for loan and lease losses	\$ 1,869	\$ 1,097
Reserve for unfunded lending commitments	26	16
Allowance for credit losses	<u><u>\$ 1,895</u></u>	<u><u>\$ 1,113</u></u>

The following table provides a summary of BB&T's nonperforming and past due loans as of March 31, 2009 and December 31, 2008.

	<b>March 31, 2009</b>	December 31, 2008
	<b>(Dollars in millions)</b>	
Nonaccrual loans and leases	\$ 1,727	\$ 1,413
Foreclosed real estate	958	538
Other foreclosed property	65	79
Total foreclosed property	<u>1,023</u>	<u>617</u>
Total nonperforming assets	<u>\$ 2,750</u>	<u>\$ 2,030</u>
Loans 90 days or more past due and still accruing (1)	\$ 381	\$ 431

(1) Excludes mortgage loans guaranteed by GNMA that BB&T does not have the obligation to repurchase.

At March 31, 2009, BB&T had \$103 million in loans under the terms of troubled debt restructurings. This amount consists of \$42 million in revolving credit loans, \$36 million in residential mortgage loans, and \$25 million in commercial loans. Loan restructurings generally occur when a borrower is experiencing, or is expected to experience, financial difficulties in the near-term. Consequently, a modification that would otherwise not be considered is granted to the borrower. These loans continue to accrue interest as long as the borrower complies with the revised terms and conditions and has demonstrated repayment performance with the modified terms.

**NOTE 5. Long-Term Debt**

Long-term debt is summarized as follows:

	<b>March 31, 2009</b>	<b>December 31, 2008</b>
	<b>(Dollars in millions)</b>	
<b>Parent Company</b>		
6.50% Subordinated Notes Due 2011 (1,3)	\$ 648	\$ 648
4.75% Subordinated Notes Due 2012 (1,3)	497	497
5.20% Subordinated Notes Due 2015 (1,3)	993	997
4.90% Subordinated Notes Due 2017 (1,3)	368	368
5.25% Subordinated Notes Due 2019 (1,3)	600	600
<b>Branch Bank</b>		
Floating Rate Senior Notes Due 2009 (8)	516	516
Floating Rate Subordinated Notes Due 2016 (1,8)	350	350
Floating Rate Subordinated Notes Due 2017 (1,8)	296	300
4.875% Subordinated Notes Due 2013 (1,3)	237	250
5.625% Subordinated Notes Due 2016 (1,3)	394	399
<b>Federal Home Loan Bank Advances to Branch Bank (4)</b>		
Varying maturities to 2028	9,851	9,838
<b>Junior Subordinated Debt to Unconsolidated Trusts (2)</b>		
5.85% BB&T Capital Trust I Securities Due 2035	514	514
6.75% BB&T Capital Trust II Securities Due 2036	598	598
6.82% BB&T Capital Trust IV Securities Due 2077 (5)	600	600
8.95% BB&T Capital Trust V Securities Due 2068 (6)	450	450
Other Securities (7)	182	182
<b>Other Long-Term Debt</b>	69	66
<b>Fair value hedge-related basis adjustments</b>	792	859
<b>Total Long-Term Debt</b>	<u>\$ 17,955</u>	<u>\$ 18,032</u>

- (1) Subordinated notes that qualify under the risk-based capital guidelines as Tier 2 supplementary capital, subject to certain limitations.
- (2) Securities that qualify under the risk-based capital guidelines as Tier 1 capital, subject to certain limitations.
- (3) These fixed rate notes were swapped to floating rates based on LIBOR. At March 31, 2009, the effective rates paid on these borrowings ranged from 1.44% to 1.97%.
- (4) At March 31, 2009, the weighted average cost of these advances was 3.78% and the weighted average maturity was 6.8 years.
- (5) These securities are fixed rate through June 12, 2037 and then switch to a floating rate based on LIBOR.
- (6) \$360 million of this issuance was swapped to a floating rate based on LIBOR. At March 31, 2009 the effective rate on the swapped portion was 4.69%.
- (7) These securities were issued by companies acquired by BB&T. At March 31, 2009, the effective rate paid on these borrowings ranged from 3.70% to 10.07%. These securities have varying maturities through 2035.
- (8) These floating-rate securities are based on LIBOR and had an effective rate of 1.48% as of March 31, 2009.

***NOTE 6. Contractual Obligations, Commitments, Contingent Liabilities, and Off-Balance Sheet Arrangements***

BB&T utilizes a variety of financial instruments to meet the financing needs of clients and reduce exposure to fluctuations in interest rates. These financial instruments include commitments to extend credit, standby letters of credit and financial guarantees, and derivatives. BB&T also has commitments to fund certain affordable housing investments and contingent liabilities of certain sold loans.

Standby letters of credit and financial guarantees written are unconditional commitments issued by BB&T to guarantee the performance of a customer to a third party. These guarantees are primarily issued to support public and private borrowing arrangements, including commercial paper issuance, bond financing and similar transactions. The credit risk involved in the issuance of these guarantees is essentially the same as that involved in extending loans to clients and as such, the instruments are collateralized when necessary. As of March 31, 2009 and December 31, 2008, BB&T had issued standby letters of credit totaling \$7.0 billion and \$5.9 billion, respectively. The carrying amount of the liability for such guarantees was \$22 million and \$20 million at March 31, 2009 and December 31, 2008, respectively.

A derivative is a financial instrument that derives its cash flows, and therefore its value, by reference to an underlying instrument, index or referenced interest rate. These instruments include interest-rate swaps, swaptions, caps, floors, collars, financial forward and futures contracts, when-issued securities, foreign exchange contracts and options written and purchased. BB&T uses derivatives primarily to manage risk related to securities, business loans, Federal Funds purchased, other overnight funding, long-term debt, mortgage servicing rights, mortgage banking operations and certificates of deposit. BB&T also uses derivatives to facilitate transactions on behalf of its clients. BB&T held a variety of derivative financial instruments with notional values of \$75.6 billion and \$74.2 billion at March 31, 2009 and December 31, 2008, respectively. These instruments were in a net gain position of \$486 million and \$626 million at March 31, 2009 and December 31, 2008, respectively.

BB&T invests in certain affordable housing and historic building rehabilitation projects throughout its market area as a means of supporting local communities and receives tax credits related to these investments. BB&T typically acts as a limited partner in these investments and does not exert control over the operating or financial policies of the partnerships. Branch Bank typically provides financing during the construction and development of the properties; however, permanent financing is generally obtained from independent third parties upon completion of a project. As of March 31, 2009 and December 31, 2008, BB&T had investments of \$907 million and \$891 million, respectively, related to these projects, which are included in other assets on the Consolidated Balance Sheets. BB&T's outstanding commitments to fund affordable housing investments totaled \$393 million and \$412 million at March 31, 2009 and December 31, 2008, respectively, which are included in other liabilities on the Consolidated Balance Sheets. As of March 31, 2009 and December 31, 2008, BB&T had outstanding loan commitments to these funds of \$164 million and \$161 million, respectively. Of this amount, \$86 million and \$81 million had been funded at March 31, 2009 and December 31, 2008, respectively, and were included in loans and leases on the Consolidated Balance Sheets. BB&T's maximum risk

exposure related to these investments totaled \$1.1 billion at March 31, 2009 and December 31, 2008, respectively.

In the ordinary course of business, BB&T indemnifies its officers and directors to the fullest extent permitted by law against liabilities arising from pending litigation. BB&T also issues standard representations and warranties in underwriting agreements, merger and acquisition agreements, loan sales, brokerage activities and other similar arrangements. Counterparties in many of these indemnification arrangements provide similar indemnifications to BB&T. Although these agreements often do not specify limitations, BB&T does not believe that any payments related to these guarantees would materially change the financial condition or results of operations of BB&T.

BB&T has sold certain mortgage-related loans that contain recourse provisions. These provisions generally require BB&T to reimburse the investor for a share of any loss that is incurred after the disposal of the property. At March 31, 2009 and December 31, 2008, BB&T had \$782 million and \$822 million, respectively, of residential mortgage loans sold with recourse. In the event of nonperformance by the borrower, BB&T has maximum recourse exposure of approximately \$704 million and \$741 million as of March 31, 2009 and December 31, 2008, respectively. In addition, BB&T has \$3.6 billion and \$3.3 billion in loans serviced for others that were covered by loss sharing agreements at March 31, 2009 and December 31, 2008, respectively. As of March 31, 2009 and December 31, 2008, BB&T's maximum exposure to loss for these loans is approximately \$920 million and \$818 million, respectively.

BB&T has investments and future funding commitments to certain venture capital funds. As of March 31, 2009 and December 31, 2008, respectively, BB&T had investments of \$176 million and \$168 million, net of noncontrolling interest, related to these ventures and future funding commitments of \$213 million and \$222 million. BB&T's risk exposure relating to such commitments is generally limited to the amount of investments and future funding commitments made.

BB&T has made loan commitments to qualified special purpose entities as a nontransferor lender. As of March 31, 2009 and December 31, 2008, BB&T had loan commitments to these entities totaling \$400 million and \$405 million, respectively. Of this amount, \$282 million and \$290 million had been funded at March 31, 2009 and December 31, 2008, respectively, and were included in loans and leases on the Consolidated Balance Sheets.

**NOTE 7. Benefit Plans**

BB&T provides various benefit plans to substantially all employees, including employees of acquired entities. Employees of acquired entities generally participate in existing BB&T plans after consummation of the business combinations. The plans of acquired institutions are typically merged into the BB&T plans after consummation of the mergers, and, under these circumstances, credit is usually given to these employees for years of service at the acquired institution for vesting and eligibility purposes. Please refer to BB&T's Annual Report on Form 10-K for the year ended December 31, 2008 for descriptions and disclosures about the various benefit plans offered by BB&T.

The following table summarizes the components of net periodic benefit cost recognized for BB&T's pension plans for the three month periods ended March 31, 2009 and 2008, respectively:

	<b>Pension Plans</b>			
	<b>Qualified</b>		<b>Nonqualified</b>	
	<b>For the</b>		<b>For the</b>	
	<b>Three Months Ended</b>		<b>Three Months Ended</b>	
	<b>March 31,</b>		<b>March 31,</b>	
	<b>2009</b>	<b>2008</b>	<b>2009</b>	<b>2008</b>
	<b>(Dollars in millions)</b>			
Service cost	\$ 19	\$ 17	\$ 1	\$ 1
Interest cost	19	18	2	2
Estimated return on plan assets	(36)	(34)	-	-
Amortization and other	14	(1)	1	1
Net periodic benefit cost	<u>\$ 16</u>	<u>\$ -</u>	<u>\$ 4</u>	<u>\$ 4</u>

BB&T makes contributions to the qualified pension plan in amounts between the minimum required for funding standard accounts and the maximum amount deductible for federal income tax purposes. A discretionary contribution of \$422 million was made to the qualified pension plan in the first quarter of 2009. Management currently has no plans to make any additional contributions to the qualified pension plan in 2009; however, management may elect to make additional contributions during 2009 if deemed appropriate.

**NOTE 8. Computation of Earnings Per Common Share**

BB&T's basic and diluted earnings per common share amounts for the three month periods ended March 31, 2009 and 2008, respectively, were calculated as follows:

	For the Three Months Ended March 31,	
	2009	2008
	(Dollars in millions, except per share data, shares in thousands)	
<b>Basic Earnings Per Common Share:</b>		
Net income available to common shareholders	\$ 271	\$ 428
Weighted average number of common shares	559,801	546,214
Basic earnings per common share	\$ .48	\$ .78
<b>Diluted Earnings Per Common Share:</b>		
Net income available to common shareholders	\$ 271	\$ 428
Weighted average number of common shares	559,801	546,214
Effect of dilutive outstanding equity-based awards	3,765	2,732
Weighted average number of diluted common shares	563,566	548,946
Diluted earnings per common share	\$ .48	\$ .78

For the three months ended March 31, 2009 and 2008, the number of anti-dilutive awards was 43.4 million and 32.5 million shares, respectively. In addition, BB&T had a warrant outstanding for 13.9 million shares as of March 31, 2009 that was anti-dilutive.

**NOTE 9. Comprehensive Income (Loss)**

The balances in accumulated other comprehensive loss for the periods indicated are shown in the following tables:

<b>As of March 31, 2009</b>			
	<b>Pre-Tax Amount</b>	<b>Deferred Tax Expense (Benefit)</b>	<b>After-Tax Amount</b>
	(Dollars in millions)		
Unrealized net losses on securities available for sale	\$ (464)	\$ (175)	\$ (289)
Unrealized net gains on cash flow hedges	90	34	56
Foreign currency translation adjustment	(11)	-	(11)
Unrecognized net pension and postretirement costs	(707)	(268)	(439)
Total	<u>\$ (1,092)</u>	<u>\$ (409)</u>	<u>\$ (683)</u>

<b>As of December 31, 2008</b>			
	<b>Pre-Tax Amount</b>	<b>Deferred Tax Expense (Benefit)</b>	<b>After-Tax Amount</b>
	(Dollars in millions)		
Unrealized net losses on securities available for sale	\$ (517)	\$ (193)	\$ (324)
Unrealized net gains on cash flow hedges	76	28	48
Foreign currency translation adjustment	(9)	-	(9)
Unrecognized net pension and postretirement costs	(720)	(273)	(447)
Total	<u>\$ (1,170)</u>	<u>\$ (438)</u>	<u>\$ (732)</u>

**NOTE 10. Equity-Based Compensation Plans**

BB&T has options, restricted shares of common stock and restricted share units outstanding from the following equity-based compensation plans: the 2004 Stock Incentive Plan ("2004 Plan"), the 1995 Omnibus Stock Incentive Plan, the Non-Employee Directors' Stock Option Plan, and plans assumed from acquired entities. All plans generally allow for accelerated vesting of awards for holders who retire and have met all retirement eligibility requirements and in connection with certain other events. BB&T's shareholders have approved all equity-based compensation plans with the exception of plans assumed from acquired companies. As of March 31, 2009, the 2004 Plan is the only plan that has awards available for future grants. Please refer to BB&T's Annual Report on Form 10-K for the year ended December 31, 2008 for further disclosures related to equity-based awards issued by BB&T.

BB&T measures the fair value of each option award on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions used for grants awarded during the first three months of 2009 and 2008.

	2009		2008	
Assumptions:				
Risk-free interest rate	3.1	%	3.6	%
Dividend yield	6.0		4.5	
Volatility factor	29.1		15.5	
Expected life	7.1	yrs	6.9	yrs
Fair value of options per share	\$2.59		\$3.45	

BB&T measures the fair value of restricted shares based on the price of BB&T's common stock on the grant date and the fair value of restricted share units based on the price of BB&T's common stock on the grant date less the present value of expected dividends that are foregone during the vesting period.

The following table details the activity during the first three months of 2009 related to stock options awarded by BB&T:

	<b>For the Three Months Ended March 31, 2009</b>	
	<b>Options</b>	<b>Wtd. Avg. Exercise Price</b>
Outstanding at beginning of period	41,837,504	\$ 36.55
Granted	2,827,578	16.88
Exercised	(5,523)	23.57
Forfeited or expired	(1,085,570)	36.88
Outstanding at end of period	<u>43,573,989</u>	<u>35.27</u>
Exercisable at end of period	<u>30,531,153</u>	<u>\$ 36.09</u>

The following table details the activity during the first three months of 2009 related to restricted shares and restricted share units awarded by BB&T:

For the Three Months Ended March 31, 2009		
	Shares/Units	Wtd. Avg. Grant Date Fair Value
Nonvested at beginning of period	6,259,349	\$ 29.15
Granted	4,969,610	7.43
Vested	(39,020)	29.39
Forfeited	(37,137)	26.45
Nonvested at end of period	11,152,802	19.48

**NOTE 11. Fair Value Disclosures**

BB&T carries various assets and liabilities at fair value based on applicable accounting standards. In addition, BB&T has elected to account for prime residential mortgage and commercial mortgage loans held for sale at fair value in accordance with SFAS No. 159, “*The Fair Value Option for Financial Assets and Liabilities-including an amendment of FASB Statement No. 115*,” (the “Fair Value Option”). SFAS No. 157 established a framework for measuring fair value and defines fair value as the exchange price that would be received on the measurement date to sell an asset or the price paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants. SFAS No. 157 also established a three level fair value hierarchy that describes the inputs that are used to measure assets and liabilities.

Level 1

Level 1 asset and liability fair values are based on quoted prices in active markets for identical assets and liabilities. Level 1 assets and liabilities include certain equity securities and derivative contracts that are traded in an active market.

Level 2

Level 2 asset and liability fair values are based on observable inputs that include: quoted market prices for similar assets or liabilities; quoted market prices that are not in an active market; or other inputs that are observable in the market and can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 2 assets and liabilities include fixed income securities and mortgage-backed securities that are held in the Corporation’s trading and available-for-sale portfolios, loans held for sale, certain derivative contracts and short-term borrowings.

Level 3

Level 3 assets and liabilities are financial instruments whose value is calculated by the use of pricing models and/or discounted cash flow methodologies, as well as financial instruments for which the determination of fair value requires significant management

judgment or estimation. These methodologies may result in a significant portion of the fair value being derived from unobservable data. Level 3 assets and liabilities include certain trading securities, non-agency mortgage-backed securities, mortgage servicing rights, venture capital investments and certain derivative contracts.

Assets and liabilities measured at fair value on a recurring basis, including financial instruments for which BB&T has elected the Fair Value Option are summarized below:

Fair Value Measurements for Assets and Liabilities Measured on a Recurring Basis				
	3/31/2009	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
		(Dollars in Millions)		
<b>Assets:</b>

Short-term borrowed funds (3)	149	-	149	-
<b>Total liabilities</b>	<b>\$ 1,246</b>	<b>\$ 11</b>	<b>\$ 1,234</b>	<b>\$ 1</b>

(1) Loans held for sale are residential and commercial mortgage loans that were originated subsequent to December 31, 2007 for which the Company elected the fair value option under SFAS No. 159. Loans originated prior to January 1, 2008 and certain other loans held for sale are still accounted for at the lower of cost or market. There were \$15 million and \$28 million in loans held for sale that are not accounted for at fair value at March 31, 2009 and December 31, 2008, respectively.

(2) These amounts are reflected in other assets and other liabilities on the Consolidated Balance Sheets.

(3) Short-term borrowed funds reflect securities sold short positions.

The tables below present a reconciliation for the three month periods ended March 31, 2009 and 2008, respectively, for all Level 3 assets and liabilities that are measured at fair value on a recurring basis.

Fair Value Measurements Using Significant Unobservable Inputs					
AFS Securities	Trading	Mortgage Servicing Rights	Net Derivatives	Venture Capital Investments	
(Dollars in Millions)					
<b>Balance at January 1, 2009</b>	\$ 1,099	\$ 4	\$ 370	\$ 37	\$ 182

Transfers in and/or out of Level 3	-	3	-	-	-
<b>Balance at March 31, 2008</b>	\$ 14	\$ 14	\$ 406	\$ 19	\$ 141

The tables below summarize unrealized and realized gains and losses recorded in earnings for Level 3 assets and liabilities for the three month periods ended March 31, 2009 and 2008, respectively.

Total Gains and Losses					
AFS Securities	Trading	Mortgage Servicing Rights	Net Derivatives	Venture Capital Investments	
(Dollars in Millions)					
Classification of gains and losses (realized/unrealized) included in earnings for the period:					
Mortgage banking income	\$ -	\$ -	\$ (78)	\$ 41	\$ -
Other noninterest income	-	-	-	-	(1)
Total	\$ -	\$ -	\$ (78)	\$ 41	\$ (1)
Net unrealized gains (losses) included in net income relating to assets and liabilities still held at March 31, 2009					
	\$ -	\$ -	\$ (46)	\$ 56	\$ (1)

	Total Gains and Losses				
	AFS Securities	Trading	Mortgage Servicing Rights	Net Derivatives	Venture Capital Investments
	(Dollars in Millions)				
Classification of gains and losses (realized/unrealized) included in earnings for the period:					
Mortgage banking income	\$ -	\$ -	\$ (107)	\$ 22	\$ -
Other noninterest income	-	(2)	-	-	(1)
Total	\$ -	\$ (2)	\$ (107)	\$ 22	\$ (1)
Net unrealized gains (losses) included in net income relating to assets and liabilities still held at March 31, 2008	\$ -	\$ -	\$ (84)	\$ 19	\$ (1)

The realized and unrealized losses reported for mortgage servicing rights assets are composed of a negative valuation adjustment of \$46 million and \$84 million plus the realization of expected residential mortgage servicing rights cash flows of \$32 million and \$23 million for the quarters ended March 31, 2009 and 2008, respectively. BB&T uses various derivative financial instruments to mitigate the income statement effect of changes in fair value due to its quarterly valuation. During the three months ended March 31, 2009 and 2008, respectively, the derivative instruments produced gains of \$74 million and \$82 million, which offset the negative valuation adjustment recorded.

The following table details the fair value and unpaid principal balance of loans held for sale at March 31, 2009 and December 31, 2008, that were elected to be carried at fair value.

	Fair Value	Aggregate Unpaid Principal Balance	Fair Value less Aggregate Unpaid Principal Balance	Fair Value	Aggregate Unpaid Principal Balance	Fair Value less Aggregate Unpaid Principal Balance
	March 31, 2009			December 31, 2008		
	(Dollars in millions)					
Loans held for sale reported at fair value						
Total (1)	\$ 3,783	\$ 3,716	\$ 67	\$ 1,396	\$ 1,367	\$ 29
Nonaccrual loans	2	3	(1)	1	1	-
Loans 90 days or more past due and still accruing interest	4	5	(1)	3	3	-

(1) The change in fair value is reflected in mortgage banking income.

Also, BB&T may be required, from time to time, to measure certain other financial assets at fair value on a nonrecurring basis. Assets measured at fair value on a nonrecurring basis for the quarter ended March 31, 2009 that were still held on the balance sheet at March 31, 2009 totaled \$1.7 billion. This amount consists of \$758 million for impaired loans and \$958 million for foreclosed real estate that were classified as Level 3 assets. During the first quarter of 2009, BB&T recorded \$86 million and \$17 million, respectively, in losses related to write-downs of the loans and foreclosed real estate based on the appraised value of the underlying collateral.

**NOTE 12. Derivative Financial Instruments**

BB&T uses a variety of derivative instruments to manage interest rate and foreign exchange risks. These instruments consist of interest-rate swaps, swaptions, caps, floors, collars, financial forward and futures contracts, when-issued securities, foreign exchange contracts and options written and purchased. A derivative is a financial instrument that derives its cash flows, and therefore its value, by reference to an underlying instrument, index or referenced interest rate. There are five areas of risk management: balance sheet management, mortgage banking operations, mortgage servicing rights, net investment in a foreign subsidiary and client-related and other risk management activities.

The following tables set forth certain information concerning BB&T's derivative financial instruments and related hedged items at March 31, 2009:

Derivative Classifications and Hedging Relationships					
Hedged Item or Transaction		March 31, 2009			
		Notional Amount	Fair Value		
			Gain (1)	Loss (1)

Interest rate contracts	Mortgage banking income	<u>74</u>		
Total		<u>\$ 85</u>		

Note: All amounts for Other Comprehensive Income (OCI) and Accumulated Other Comprehensive Income (AOCI) are stated on a pre-tax basis.

The majority of the balance sheet management derivatives are designated as cash flow or fair value hedges. BB&T's floating rate business loans, Federal funds purchased, other overnight funding, institutional and brokered certificates of deposit, other time deposits, medium-term bank notes and long-term debt expose it to variability in cash flows for interest payments. The risk management objective for these assets and liabilities is to hedge the variability in the interest payments. This objective is met by entering into interest rate swaps and

interest rate collars and caps. Interest rate collars and caps fix the interest payments when interest rates on the hedged item exceed predetermined rates.

### *Cash Flow Hedges*

At March 31, 2009, BB&T had designated notional values of \$12.4 billion of derivatives as cash flow hedges. These cash flow hedges reflected a net unrealized loss of \$22 million, with instruments in a gain position reflecting a fair value of \$61 million recorded in other assets and instruments in a loss position reflecting a fair value of \$83 million recorded in other liabilities. For a qualifying cash flow hedge, the portion of changes in the fair value of the derivatives that have been highly effective are recognized in other comprehensive income until the related cash flows from the hedged item are recognized in earnings. The impact on earnings resulting from the ineffectiveness of cash flow hedges was less than \$1 million during the first three months of 2009.

Accumulated other comprehensive income included \$74 million in unrecognized after-tax gains on interest rate swaps, caps and floors hedging variable interest payments on business loans at March 31, 2009. These amounts included unrecognized after-tax gains on terminated swaps, caps and collars of \$40 million at March 31, 2009. In addition, accumulated other comprehensive income included \$22 million in net unrecognized after-tax losses on interest rate swaps, caps and floors hedging variable interest payments on short-term funding at March 31, 2009. These amounts included unrecognized after-tax gains on terminated hedges of \$28 million at March 31, 2009. Also included in accumulated other comprehensive income at March 31, 2009 are unrecognized after-tax gains of \$3 million on terminated interest rate swaps hedging variable interest payments on long-term debt.

The estimated net amount in accumulated other comprehensive income at March 31, 2009 that is expected to be reclassified into earnings within the next 12 months is a net after-tax gain of \$32 million. The amount reclassified into earnings from other comprehensive income during the first three months of 2009 was a net after-tax gain of \$5 million.

All of BB&T's cash flow hedges are hedging exposure to variability in future cash flows for forecasted transactions related to the payment of variable interest on then existing financial instruments. The maximum length of time over which BB&T is hedging its exposure to the variability in future cash flows for forecasted transactions related to variable interest payments on existing financial instruments is 7.1 years.

### *Fair Value Hedges*

At March 31, 2009, BB&T had designated notional values of \$4.8 billion of derivatives as fair value hedges which reflected a net unrealized gain of \$412 million, with instruments in a gain position reflecting a fair value of \$535 million recorded in other assets and instruments in a loss position reflecting a fair value of \$123 million recorded in other liabilities. For a qualifying fair value hedge, changes in the value of the derivatives that have been highly effective as hedges are recognized in current period earnings along with the corresponding changes in the fair value of the designated hedged item attributable to the risk being hedged. The impact on earnings

resulting from fair value hedge ineffectiveness was \$5 million during the first three months of 2009.

BB&T also held \$58.3 billion in notional value of derivatives not designated as hedges at March 31, 2009. These instruments were in a net gain position with a net estimated fair value of \$94 million. Changes in the fair value of these derivatives are reflected in current period earnings.

Derivatives not designated as a hedge include the notional amount of \$14.8 billion that have been entered into as a risk management instrument for mortgage banking operations at March 31, 2009. For mortgage loans originated for sale, BB&T is exposed to changes in market rates and conditions subsequent to the interest rate lock and funding date. BB&T's risk management strategy related to its interest rate lock commitment derivatives and loans held for sale includes using mortgage-based derivatives such as forward commitments and options in order to mitigate market risk.

Derivatives not designated as a hedge include the notional amount of \$11.7 billion that have been entered into as a risk management instrument for mortgage servicing rights at March 31, 2009. The \$74 million gain related to these derivatives is offset by a negative \$46 million quarterly valuation adjustment for residential mortgage servicing rights at March 31, 2009.

BB&T also held derivatives not designated as hedges with notional amounts totaling \$31.8 billion at March 31, 2009 as risk management instruments primarily to facilitate transactions on behalf of its clients, as well as activities related to balance sheet management.

At March 31, 2009, BB&T had designated notional values of \$73 million of derivatives as net investment hedges used to hedge the variability in a foreign currency exchange rate.

Credit risk related to derivatives arises when amounts receivable from a counterparty exceed those payable. Because the notional amount of the instruments only serves as a basis for calculating amounts receivable or payable, the risk of loss with any counterparty is limited to a small fraction of the notional amount. BB&T controls the risk of loss by subjecting counterparties to credit reviews and approvals similar to those used in making loans and other extensions of credit. In addition, certain counterparties are required to provide cash collateral to BB&T when their unsecured loss positions exceed certain negotiated limits. These bilateral limits are typically based on current credit ratings and vary with ratings changes. As of March 31, 2009 and December 31, 2008, respectively, BB&T had received cash collateral of approximately \$120 million and \$165 million. In addition, BB&T had posted collateral of \$126 million and \$180 million at March 31, 2009 and December 31, 2008, respectively. In the event that BB&T's credit ratings had been downgraded below investment grade, the amount of collateral posted would have increased by \$309 million and \$225 million as of March 31, 2009 and December 31, 2008, respectively. As of March 31, 2009, BB&T had approximately \$34 million of unsecured positions with derivative dealers. All of the derivative contracts to which BB&T is a party settle monthly, quarterly or semiannually. In the case of contracts with derivative dealers, BB&T only transacts with dealers that are national market makers whose credit ratings are strong. Further, BB&T has netting agreements with the dealers with which it does business. Because of these factors, BB&T's credit risk exposure related to derivatives contracts at March 31, 2009 and December 31, 2008 was not material.

***NOTE 13. Operating Segments***

BB&T's operations are divided into seven reportable business segments: the Banking Network, Residential Mortgage Banking, Sales Finance, Specialized Lending, Insurance Services, Financial Services and Treasury. These operating segments have been identified based on BB&T's organizational structure. The segments require unique technology and marketing strategies and offer different products and services. While BB&T is managed as an integrated organization, individual executive managers are held accountable for the operations of these business segments.

BB&T emphasizes revenue growth by focusing on client service, sales effectiveness and relationship management. The segment results contained herein are presented based on internal management accounting policies that were designed to support these strategic objectives. Unlike financial accounting, there is no comprehensive authoritative body of guidance for management accounting equivalent to generally accepted accounting principles. The performance of the segments is not comparable with BB&T's consolidated results or with similar information presented by any other financial institution. Additionally, because of the interrelationships of the various segments, the information presented is not indicative of how the segments would perform if they operated as independent entities.

Please refer to BB&T's Annual Report on Form 10-K for the year ended December 31, 2008 for a description of internal accounting policies and the basis of segmentation, including a description of the segments presented in the accompanying tables.

The following tables disclose selected financial information with respect to BB&T's reportable business segments for the periods indicated:

**BB&T Corporation**

(1) Includes financial data from subsidiaries below the quantitative and qualitative thresholds requiring disclosure.

**NOTE 14. Loan Servicing**

BB&T has two classes of mortgage servicing rights for which it separately manages the economic risks: residential and commercial. Commercial mortgage servicing rights are recorded as other assets on the Consolidated Balance Sheets at lower of cost or market and amortized in proportion to and over the estimated period that net servicing income is expected to be received based on projections of the amount and timing of estimated future net cash flows. Residential mortgage servicing rights are recorded on the Consolidated Balance Sheets at fair value with changes in fair value recorded as a component of mortgage banking income in the Consolidated Statements of Income for each period. BB&T uses various derivative instruments to mitigate the income statement effect of changes in fair value, due to changes in valuation inputs and assumptions, of its residential mortgage servicing rights. The following is an analysis of the activity in BB&T's residential mortgage servicing rights for the three months ended March 31, 2009 and 2008:

Residential Mortgage Servicing Rights For the Three Months Ended March 31,			
	2009	2008	
	(Dollars in millions)		
Carrying value, January 1,	\$	370	\$ 472
Additions		73	41
Increase (decrease) in fair value:			
Due to changes in valuation inputs or assumptions		(46)	(84)
Other changes (1)		(32)	(23)
Carrying value, March 31,	\$	365	\$ 406

(1) Represents the realization of expected net servicing cash flows, expected borrower payments and the passage of time.

BB&T uses assumptions and estimates in determining the fair value of capitalized mortgage servicing rights. These assumptions include prepayment speeds, net charge-off experience and Option Adjusted Spread ("OAS") commensurate with the risks involved and comparable to assumptions used by market participants to value and bid servicing rights available for sale in the market. At March 31, 2009, the weighted average life was 2.5 years, the prepayment speed was 31.6% and the OAS was 3.1%.

The unpaid principal balances of BB&T's total residential mortgage servicing portfolio were \$62.9 billion and \$59.7 billion at March 31, 2009 and December 31, 2008, respectively. The unpaid principal balances of residential mortgage loans serviced for others consist primarily of agency conforming fixed-rate mortgage loans and totaled \$42.4 billion and \$40.7 billion at March 31, 2009 and December 31, 2008, respectively. Mortgage loans serviced for others are not included in loans on the accompanying Consolidated Balance Sheets. BB&T recognized servicing fees of \$41 million and \$32 million during the first three months of 2009 and 2008, respectively, as a component of mortgage banking income.

At March 31, 2009 and 2008, the approximate weighted average servicing fee was .38% and .36%, respectively, of the outstanding balance of the residential mortgage loans. The

weighted average coupon interest rate on the portfolio of mortgage loans serviced for others was 5.92% and 6.00% at March 31, 2009 and 2008, respectively.

BB&T has sold certain mortgage-related loans that contain recourse provisions. These provisions generally require BB&T to reimburse the investor for a share of any loss that is incurred after the disposal of the property. At March 31, 2009 and December 31, 2008, BB&T had \$782 million and \$822 million, respectively, of residential mortgage loans sold with recourse. In the event of nonperformance by the borrower, BB&T has maximum recourse exposure of approximately \$704 million and \$741 million as of March 31, 2009 and December 31, 2008, respectively.

The Company also has securitized residential mortgage loans and retained the resulting securities available for sale. As of March 31, 2009 the fair value of the securities available for sale still owned by BB&T was \$515 million and the remaining unpaid principal balance of the underlying loans totaled \$494 million. Based on the performance of the underlying loans and general liquidity of the securities, the Company's recovery of the cost basis in the securities has not been significantly impacted by changes in interest rates, prepayment speeds or credit losses.

BB&T also arranges and services commercial real estate mortgages through Grandbridge Real Estate Capital, LLC ("Grandbridge") the commercial mortgage banking subsidiary of Branch Bank. During the three months ended March 31, 2009 and 2008, Grandbridge originated \$700 million and \$867 million, respectively, of commercial real estate mortgages, all of which were arranged for third party investors and serviced by Grandbridge. As of March 31, 2009 and December 31, 2008, Grandbridge's portfolio of commercial real estate mortgages serviced for others totaled \$24.0 billion and \$23.9 billion, respectively. Commercial real estate mortgage loans serviced for others are not included in loans on the accompanying Consolidated Balance Sheets. Grandbridge had \$3.6 billion and \$3.3 billion in loans serviced for others that were covered by loss sharing agreements at March 31, 2009 and December 31, 2008, respectively. As of March 31, 2009 and December 31, 2008, Grandbridge's maximum exposure to loss for these loans is approximately \$920 million and \$818 million, respectively. Mortgage servicing rights related to commercial mortgage loans totaled \$101 million and \$98 million at March 31, 2009 and December 31, 2008, respectively.

## **Item 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations***

### ***Forward-Looking Statements***

This Quarterly Report on Form 10-Q contains forward-looking statements with respect to the financial condition, results of operations and businesses of BB&T. These forward-looking statements involve certain risks and uncertainties and are based on the beliefs and assumptions of the management of BB&T and the information available to management at the time that these disclosures were prepared. Factors that may cause actual results to differ materially from those contemplated by such forward-looking statements include, among others, the following:

- general economic or business conditions, either nationally or regionally, may be less favorable than expected, resulting in, among other things, a deterioration in credit quality and/or a reduced demand for credit or other services;
- changes in the interest rate environment may reduce net interest margins and/or the volumes and values of loans made or held as well as the value of other financial assets held;
- competitive pressures among depository and other financial institutions may increase significantly;
- legislative or regulatory changes, including changes in accounting standards, may adversely affect the businesses in which BB&T is engaged;
- local, state or federal taxing authorities may take tax positions that are adverse to BB&T;
- adverse changes may occur in the securities markets;
- competitors of BB&T may have greater financial resources and develop products that enable them to compete more successfully than BB&T;
- costs or difficulties related to the integration of the businesses of BB&T and its merger partners may be greater than expected;
- expected cost savings associated with completed mergers may not be fully realized or realized within the expected time frames; and
- deposit attrition, customer loss and/or revenue loss following completed mergers may be greater than expected.

### ***Regulatory Considerations***

BB&T and its subsidiaries and affiliates are subject to numerous examinations by federal and state banking regulators, as well as the SEC, the Financial Industry Regulatory Authority, and various state insurance and securities regulators. BB&T and its subsidiaries have from time to time received requests for information from regulatory authorities in various states, including state insurance commissions and state attorneys general, securities regulators and other regulatory authorities, concerning their business practices. Such requests are considered incidental to the normal conduct of business. Please refer to BB&T's Annual Report on Form 10-K for the year ended December 31, 2008 for additional disclosures with respect to laws and regulations affecting the Company's businesses.

As part of the U.S. federal government's Financial Stability Plan, on February 25, 2009, the U.S. Department of the Treasury (the "U.S. Treasury") announced preliminary details regarding the Capital Assistance Program (the "CAP"), which, according to the U.S. Treasury, is designed to restore confidence throughout the financial system that the largest U.S. banking institutions will have a sufficient capital cushion for larger than expected potential future losses, should they occur due to a more severe economic environment, and to support lending to creditworthy borrowers. Pursuant to the CAP, the capital needs of major U.S. banking institutions were evaluated to determine whether an additional capital buffer is warranted and, if warranted, the U.S. Treasury committed to make capital available to eligible institutions if they are unable to raise the necessary capital through private sources.

To implement the CAP, the Board of Governors of the Federal Reserve System, the Federal Reserve Banks, the Federal Deposit Insurance Corporation, and the Office of the Comptroller of the Currency commenced a review of the capital needs of the largest U.S. banking institutions. This review is called the Supervisory Capital Assessment Program (the "SCAP"). The SCAP review process involved a forward-looking capital assessment, or "stress test", of all domestic bank holding companies with assets of more than \$100 billion at December 31, 2008, which includes BB&T. The stress test is intended to estimate credit losses, revenues and reserve needs for each of these bank holding companies in 2009 and 2010 under a macroeconomic scenario that reflected a consensus expectation for the depth and duration of the recession and a more adverse scenario that was designed to reflect a recession that was longer and more severe than consensus expectations.

On May 7, 2009 the Board of Governors of the Federal Reserve System announced the results of the final SCAP assessments for the 19 largest U.S. bank holding companies, including BB&T. The SCAP assessment for BB&T indicated that BB&T did not need to raise additional capital.

Information related to the SCAP is available on the website of the Federal Reserve Board at [www.federalreserve.gov](http://www.federalreserve.gov). Information related to the CAP and the terms of the mandatory convertible preferred stock that can be issued to the U.S. Treasury to raise additional capital is available on the U.S. Treasury's website related to the Financial Stability Plan at [www.financialstability.gov](http://www.financialstability.gov).

### ***Critical Accounting Policies***

The accounting and reporting policies of BB&T Corporation and its subsidiaries are in accordance with accounting principles generally accepted in the United States of America ("GAAP") and conform to the accounting and reporting guidelines prescribed by bank regulatory authorities. BB&T's financial position and results of operations are affected by management's application of accounting policies, including estimates, assumptions and judgments made to arrive at the carrying value of assets and liabilities and amounts reported for revenues and expenses. Different assumptions in the application of these policies could result in material changes in BB&T's consolidated financial position and/or consolidated results of operations and related disclosures. The more critical accounting and reporting policies include BB&T's accounting for the allowance for loan and lease losses and reserve for unfunded lending commitments, determining fair value of financial instruments, intangible assets and other

purchase accounting related adjustments associated with mergers and acquisitions, costs and benefit obligations associated with BB&T's pension and postretirement benefit plans, and income taxes. Understanding BB&T's accounting policies is fundamental to understanding BB&T's consolidated financial position and consolidated results of operations. Accordingly, BB&T's significant accounting policies and changes in accounting principles are discussed in detail in Note 1 of the "Notes to Consolidated Financial Statements" in BB&T's Annual Report on Form 10-K for the year ended December 31, 2008.

The following is a summary of BB&T's critical accounting policies that are highly dependent on estimates, assumptions and judgments. These critical accounting policies are reviewed with BB&T's Audit Committee on a periodic basis.

#### *Allowance for Loan and Lease Losses and Reserve for Unfunded Lending Commitments*

It is the policy of BB&T to maintain an allowance for loan and lease losses and a reserve for unfunded lending commitments that equal management's best estimate of probable credit losses that are inherent in the portfolio at the balance sheet date. Estimates for loan and lease losses are determined by analyzing historical loan and lease losses, historical loan and lease migration to charge-off experience, current trends in delinquencies and charge-offs, plans for problem loan and lease administration, the results of regulatory examinations, and changes in the size, composition and risk assessment of the loan and lease portfolio. Also included in management's estimates for loan and lease losses are considerations with respect to the impact of current economic events, the outcomes of which are uncertain. These events may include, but are not limited to, fluctuations in overall interest rates, political conditions, legislation that may directly or indirectly affect the banking industry and economic conditions affecting specific geographical areas and industries in which BB&T conducts business. The methodology used to determine an estimate for the reserve for unfunded lending commitments is inherently similar to the methodology used in calculating the allowance for loans and leases adjusted for factors specific to binding commitments, including the probability of funding and exposure at the time of funding.

#### *Fair Value of Financial Instruments*

A significant portion of BB&T's assets and certain liabilities are financial instruments carried at fair value. This includes securities available for sale, trading securities, derivatives, certain loans held for sale, residential mortgage servicing rights, certain short-term borrowings and venture capital investments. At March 31, 2009, the percentage of total assets and total liabilities measured at fair value was 17.6% and less than 1%, respectively. The vast majority of assets and liabilities carried at fair value are based on either quoted market prices or market prices for similar instruments. At March 31, 2009, 6.5% of assets measured at fair value were based on significant unobservable inputs. This represents 1.2% of BB&T's total assets. See Note 11 "Fair Value Disclosures" in the "Notes to Consolidated Financial Statements" herein for additional disclosures regarding the fair value of financial instruments.

## Securities

The fair values for available-for-sale and trading securities are generally based upon quoted market prices or observable market prices for similar instruments. These values take into account recent market activity as well as other market observable data such as interest rate, spread and prepayment information. When market observable data is not available, which generally occurs due to the lack of liquidity for certain trading securities, the valuation of the security is subjective and may involve substantial judgment. BB&T conducts periodic reviews to identify and evaluate each available-for-sale security that has an unrealized loss for other-than-temporary impairment. An unrealized loss exists when the current fair value of an individual security is less than its amortized cost basis. The primary factors BB&T considers in determining whether an impairment is other-than-temporary are the financial condition and near-term prospects of the issuer, including any specific events which may influence the operations of the issuer and BB&T's intent and ability to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in market value. As of March 31, 2009, BB&T had approximately \$1.0 billion of available-for-sale and trading securities, which is less than 1% of total assets, valued using unobservable inputs. These securities were primarily non-agency mortgage-backed securities.

## Mortgage Servicing Rights

BB&T has a significant mortgage loan servicing portfolio and related mortgage servicing rights ("MSRs"). BB&T has two classes of MSRs for which it separately manages the economic risk: residential and commercial. Residential MSRs are carried at fair value with changes in fair value recorded as a component of mortgage banking income each period. BB&T uses various derivative instruments to mitigate the income statement effect of changes in fair value, due to changes in valuation inputs and assumptions, of its residential MSRs. MSRs do not trade in an active, open market with readily observable prices. While sales of MSRs do occur, the precise terms and conditions typically are not readily available. Accordingly, BB&T estimates the fair value of residential MSRs using an option adjusted spread ("OAS") valuation model to project MSR cash flows over multiple interest rate scenarios, which are then discounted at risk-adjusted rates. The OAS model considers portfolio characteristics, contractually specified servicing fees, prepayment assumptions, delinquency rates, late charges, other ancillary revenue, costs to service and other economic factors. BB&T reassesses and periodically adjusts the underlying inputs and assumptions in the OAS model to reflect market conditions and assumptions that a market participant would consider in valuing the MSR asset. When available, fair value estimates and assumptions are compared to observable market data and to recent market activity and actual portfolio experience. Due to the nature of the valuation inputs, MSRs are classified within level 3 of the valuation hierarchy. The value of MSRs is significantly affected by mortgage interest rates available in the marketplace, which influence mortgage loan prepayment speeds. In general, during periods of declining interest rates, the value of MSRs declines due to increasing prepayments attributable to increased mortgage-refinance activity. Conversely, during periods of rising interest rates, the value of MSRs generally increases due to reduced refinance activity. Commercial MSRs are carried at lower of cost or market and amortized over the estimated period that servicing income is expected to be received based on projections of the

amount and timing of estimated future cash flows. The amount and timing of servicing asset amortization is updated based on actual results and updated projections.

### Loans Held for Sale

BB&T originates certain mortgage loans to be sold to investors. The majority of these loans are carried at fair value upon the election of the Fair Value Option. For these loans, the fair value is primarily based on quoted market prices for securities backed by similar types of loans. Changes in the fair value are recorded as a component of mortgage banking income while mortgage loan origination costs for loans held for sale for which the Corporation elected the Fair Value Option are recognized in noninterest expense when incurred. The changes in fair value of these assets are largely driven by changes in interest rates subsequent to loan funding and changes in the fair value of servicing associated with the mortgage loan held for sale. BB&T uses various derivative instruments to mitigate the income statement effect of changes in fair value of the underlying loans.

### Derivatives

BB&T uses derivatives to manage various financial risks. The fair values of derivative financial instruments are determined based on quoted market prices, dealer quotes and internal pricing models that are primarily sensitive to market observable data. BB&T mitigates the credit risk by subjecting counterparties to credit reviews and approvals similar to those used in making loans and other extensions of credit. In addition, certain counterparties are required to provide collateral to BB&T when their unsecured loss positions exceed certain negotiated limits. The fair value of interest rate lock commitments, which are related to mortgage loan commitments, is based on quoted market prices adjusted for commitments that BB&T does not expect to fund and includes the value attributable to the net servicing fee.

### Venture Capital Investments

BB&T has venture capital investments that are carried at fair value. Changes in the fair value of these investments are recorded in other noninterest income each period. In many cases there are no observable market values for these investments and therefore management must estimate the fair value based on a comparison of the operating performance of the company to multiples in the marketplace for similar entities. This analysis requires significant judgment and actual values in a sale could differ materially from those estimated. As of March 31, 2009, BB&T had \$191 million of venture capital investments, which is less than 1% of total assets.

### *Intangible Assets*

BB&T's mergers and acquisitions are accounted for using the purchase method of accounting. Under the purchase method, BB&T is required to record the assets acquired, including identified intangible assets, and liabilities assumed at their fair value, which often involves estimates based on third party valuations, such as appraisals, or internal valuations based on discounted cash flow analyses or other valuation techniques, which are inherently subjective. The amortization of identified intangible assets is based upon the estimated economic benefits to be received, which is also subjective. Purchase acquisitions typically result in

goodwill, which is subject to ongoing periodic impairment tests based on the fair value of net assets acquired compared to the carrying value of goodwill. The major assumptions used in the impairment testing process include the estimated future cash flows of each business unit and discount rates. Discount rates are unique to each business unit and are based upon the cost of capital specific to the industry in which the business unit operates. As a result of the market disruption and the decline in market capitalization, the excess of the fair value over the carrying value of several reporting units continues to narrow. A continuing period of market disruption, or further market deterioration, may result in impairment of goodwill in the future.

#### *Pension and Postretirement Benefit Obligations*

BB&T offers various pension plans and postretirement benefit plans to employees. The calculation of the obligations and related expenses under these plans requires the use of actuarial valuation methods and assumptions. Actuarial valuations and assumptions used in the determination of future values of plan assets and liabilities are subject to management judgment and may differ significantly if different assumptions are used.

#### *Income Taxes*

The calculation of BB&T's income tax provision is complex and requires the use of estimates and judgments. As part of the Company's analysis and implementation of business strategies, consideration is given to the tax laws and regulations that apply to the specific facts and circumstances for any tax position under evaluation. For tax positions that are uncertain in nature, management determines whether the tax position is more likely than not to be sustained upon examination. For tax positions that meet this threshold, management then estimates the amount of the tax benefit to recognize in the financial statements. Management closely monitors tax developments in order to evaluate the effect they may have on the Company's overall tax position and the estimates and judgments used in determining the income tax provision and records adjustments as necessary.

### **EXECUTIVE SUMMARY**

BB&T's total assets at March 31, 2009 were \$143.4 billion, a decrease of \$8.6 billion, or 5.7%, from December 31, 2008. The decline was a result of a decrease of \$13.8 billion, or 42.1%, in securities available for sale during the first three months of 2009. The decline in the available-for-sale securities portfolio was partially offset by increases in loans held for sale and other assets of \$2.4 billion and \$4.7 billion, respectively, compared to the balances at December 31, 2008.

Total client deposits at March 31, 2009, were \$84.3 billion, an increase of \$717 million, or .9%, from December 31, 2008. Total deposits, which include wholesale deposits sources, totaled \$90.6 billion at March 31, 2009, a decrease of \$8.0 billion, or 8.1%, compared to December 31, 2008. The decline in total deposits was partially offset by an increase of \$2.9 billion in short-term borrowed funds during the first three months of 2009. Total shareholders' equity increased \$101 million compared to December 31, 2008.

Consolidated net income for the first quarter of 2009 totaled \$318 million, down \$111 million, or 25.9%, compared to \$429 million earned during the first quarter of 2008. Consolidated net income available to common shareholders for the first quarter of 2009 totaled \$271 million, a decrease of \$157 million, or 36.7%, compared to \$428 million earned during the first quarter of 2008. On a diluted per common share basis, earnings for the three months ended March 31, 2009 were \$.48, compared to \$.78 for the same period in 2008, a decrease of 38.5%. BB&T's results of operations for the first quarter of 2009 produced an annualized return on average assets of .86% and an annualized return on average common shareholders' equity of 8.29% compared to prior year ratios of 1.29% and 13.30%, respectively.

Included in the results of operations for the first quarter of 2009 and 2008 were a number of notable items. The first quarter of 2009 included \$150 million in securities gains, net of \$36 million in other-than-temporary impairment charges, \$676 million in provision for credit losses and \$12 million for merger-related and restructuring charges. The provision for credit losses exceeded net charge-offs by \$288 million. The first quarter of 2008 included \$43 million in net securities gains, a \$12 million charge resulting from a valuation adjustment for bank-owned life insurance, \$223 million in provision for credit losses, \$17 million of additional income in connection with the implementation of fair value accounting standards and a \$47 million increase in income associated with the initial public offering by Visa Inc., including a \$14 million reversal of a previously recorded liability.

During the first quarter of 2009, BB&T continued to experience challenges in housing-related credits. These challenges resulted in increases in both nonperforming assets and charge-offs during the first quarter. Management noted some improvement in past due loans, but still expects further increases in nonperforming assets going forward. The largest concentration of credit issues are in Georgia, Florida and metro Washington, D.C.

BB&T's underlying business continued to perform reasonably well during the first quarter of 2009, including record production from mortgage banking operations and solid growth in commercial lending and low-cost client deposits. In addition, BB&T achieved positive operating leverage and improved efficiency compared to the same quarter last year.

As of March 31, 2009, BB&T's Tier 1 leverage and tangible capital ratios were 9.4% and 5.7%, respectively. In addition, BB&T's Tier 1 risk-based capital and total risk-based capital ratios were 12.1% and 17.1%, respectively. Excluding the U.S. Treasury's preferred stock investment from capital, BB&T's Tier 1 risk-based capital ratio was 9.3% and the total risk-based capital ratio was 14.3%. BB&T's capital levels are well above the regulatory standards for well-capitalized banks. As of March 31, 2009, measures of tangible capital were not prescribed by the regulators and, therefore, were considered non-GAAP measures. Please refer to the section titled "Capital Adequacy and Resources" herein for a discussion of how BB&T calculates and uses these measures in the evaluation of the Company.

Please refer to BB&T's Annual Report on Form 10-K for the year ended December 31, 2008, for additional information with respect to BB&T's recent accomplishments and significant challenges. The factors causing the fluctuations in the major balance sheet and income statement categories for the first quarter of 2009 are further discussed in the following sections.

## ANALYSIS OF FINANCIAL CONDITION

### Securities

Securities available for sale totaled \$19.0 billion at March 31, 2009, a decrease of \$13.8 billion, or 42.1%, compared with December 31, 2008. The decline in the securities available for sale portfolio was primarily the result of sales of securities in March that were not reinvested until early in the second quarter of 2009. Trading securities totaled \$481 million, up \$105 million, or 27.9%, compared to the balance at December 31, 2008. BB&T's trading portfolio may fluctuate significantly from period to period based on market conditions, which affect the timing of purchases and sales of securities classified as trading.

Average total securities for the first three months of 2009 totaled \$31.4 billion, an increase of \$8.0 billion, or 34.2%, compared to the average balance during the first three months of 2008. The growth in average securities primarily reflects the deployment in the fourth quarter of 2008 of the capital invested by the U.S. Treasury.

BB&T sold a total of \$12.0 billion in available-for-sale securities during the three month period ended March 31, 2009, which produced securities gains of \$186 million. In addition, BB&T recorded \$36 million in charges for other-than-temporary impairment related to certain debt and equity securities. During the first quarter of 2009, BB&T took advantage of an opportunity to shorten the duration of its securities portfolio and realize gains in certain mortgage-backed securities issued by U.S. government-sponsored entities. While these mortgage-backed securities have higher yields, they have a longer duration and government efforts to drive down mortgage rates increased the risk of early prepayment. The majority of the proceeds from these sales were reinvested in similar securities with shorter durations early in the second quarter of 2009.

The annualized fully taxable equivalent ("FTE") yield on the average securities portfolio for the first quarter of 2009 was 4.73%, which represents a decrease of 45 basis points compared to the annualized yield earned during the first quarter of 2008. The decrease in the annualized FTE yield on the average securities portfolio was primarily the result of the declining interest rate environment during 2008.

Securities available for sale had net unrealized losses of \$464 million and \$517 million at March 31, 2009 and December 31, 2008, respectively. On March 31, 2009, BB&T also held certain investment securities having continuous unrealized loss positions for more than 12 months. As of March 31, 2009, the unrealized losses on these securities totaled \$583 million. Substantially all of these losses were in non-agency mortgage-backed and municipal securities. At March 31, 2009, all of the available-for-sale debt securities were investment grade with the exception of two municipal bonds with the same issuer with a book value of \$10 million and eight non-agency mortgage-backed securities, with a book value of \$723 million. All of the non-investment grade securities referenced above were initially investment grade and have been downgraded since purchase. The unrealized losses on securities in a continuous unrealized loss position for more than 12 months are the result of changes in market interest rates and liquidity. BB&T has evaluated all of its debt securities for credit impairment. At March 31, 2009, there

were no credit losses evident from these securities. Furthermore, BB&T had the ability and intent to retain these securities for a period of time sufficient to recover all unrealized losses.

See Note 3 "Securities" in the "Notes to Consolidated Financial Statements" herein for additional disclosures related to BB&T's evaluation of securities for other-than-temporary impairment.

## Loans and Leases

BB&T emphasizes commercial lending to small and medium-sized businesses, consumer lending, mortgage lending and specialized lending with an overall goal of maximizing the profitability of the loan portfolio, maintaining strong asset quality and achieving an equal mix of consumer and commercial loans. For the first quarter of 2009, average total loans were \$99.7 billion, an increase of \$7.0 billion, or 7.6%, compared to the same period in 2008.

The following table presents the composition of average loans and leases for the three months ended March 31, 2009 and 2008, respectively:

**Table 1**  
**Composition of Average Loans and Leases**

	For the Three Months Ended			
	March 31, 2009		March 31, 2008	
	Balance	% of total	Balance	% of total
	(Dollars in millions)			
Commercial loans and leases	\$ 50,630	50.7 %	\$ 45,549	49.2 %
Direct retail loans	15,263	15.3	15,639	16.9
Sales finance loans	6,342	6.4	6,031	6.5
Revolving credit loans	1,767	1.8	1,602	1.7
Mortgage loans	16,759	16.8	17,462	18.8
Specialized lending loans	6,490	6.5	5,212	5.6
Total average loans and leases				
held for investment	97,251	97.5	91,495	98.7
Loans held for sale	2,473	2.5	1,223	1.3
Total average loans and leases	<u>\$ 99,724</u>	<u>100.0 %</u>	<u>\$ 92,718</u>	<u>100.0 %</u>

The fluctuations in the mix of the loan portfolio during the first three months of 2009 compared to the same period of 2008 was primarily due to increased growth in the commercial loan and lease portfolio and the specialized lending portfolio, while the mortgage portfolio and direct retail lending portfolio declined. Average loan growth slowed somewhat during the first quarter of 2009, as demand for direct retail loans continues to be weak. The direct retail portfolio is primarily home equity loans and lines to individuals and has been negatively affected by the downturn in the residential real estate markets. Growth in the commercial loan portfolio continues to be relatively strong and the mix continues to shift from commercial real estate lending into commercial and industrial lending, as management has focused efforts on reducing exposure to real estate related loans. Average mortgage loans held for investment declined as the majority of refinancings and new loans have been conforming mortgage loans that are sold in the

secondary market. Average specialized lending loans grew 24.5% compared to the first quarter of 2008 as a result of the acquisition of assets of an insurance premium finance business on February 2, 2009, which added approximately \$715 million in loans, and growth in equipment finance lending. The growth in equipment finance lending was primarily a result of growth in new account relationships.

The annualized FTE yield on the total loan portfolio for the first three months of 2009 was 5.42%, which reflects a decrease of 153 basis points compared to the same period in 2008. The decrease in the FTE yield on the loan portfolio was primarily the result of the repricing of loans in response to the decreases in the prime lending rate and other indices, as well as a higher level of nonperforming loans in 2009 as compared to 2008. These declines were partially offset by wider loan spreads.

### **Other Interest-Earning Assets**

Federal funds sold and securities purchased under resale agreements or similar arrangements totaled \$301 million at March 31, 2009, a decrease of \$49 million, or 14.0%, compared to December 31, 2008. Interest-bearing deposits with banks, including segregated cash, decreased \$336 million, or 29.7%, compared to year-end 2008. These categories of earning assets are subject to large daily fluctuations. The average yield on other interest-earning assets was .74% for the first three months of 2009, compared to 3.41% for the same period in 2008, reflecting the decline in the Federal funds target rate during 2008.

### **Noninterest-Earning Assets**

BB&T's other noninterest-earning assets, including premises and equipment, goodwill, core deposit and other intangible assets, residential mortgage servicing rights and noninterest-bearing cash and due from banks, increased \$4.3 billion from December 31, 2008 to March 31, 2009. The growth in this category included an increase of \$4.9 billion for certain short-term receivables. This increase was offset by a decline of \$451 million in cash and due from banks compared to December 31, 2008.

### **Deposits**

Deposits totaled \$90.6 billion at March 31, 2009, a decrease of \$8.0 billion, or 8.1%, from December 31, 2008. Client deposits generated through the BB&T banking network are the largest source of funds used to support asset growth. Client deposits totaled \$84.3 billion at March 31, 2009, an increase of \$717 million, or .9%, from December 31, 2008.

The following table presents the composition of average deposits for the three months ended March 31, 2009 and 2008:

**Table 2**  
**Composition of Average Deposits**

	For the Three Months Ended			
	March 31, 2009		March 31, 2008	
	Balance	% of total	Balance	% of total
	(Dollars in millions)			
Noninterest-bearing deposits	\$ 13,828	14.7 %	\$ 12,676	14.6 %
Interest checking	2,461	2.6	2,301	2.7
Other client deposits	40,701	43.4	34,851	40.2
Client certificates of deposit	27,143	28.9	27,061	31.3
Total client deposits	84,133	89.6	76,889	88.8
Other interest-bearing deposits	9,801	10.4	9,694	11.2
Total average deposits	\$ 93,934	100.0 %	\$ 86,583	100.0 %

Average deposits for the first three months of 2009 increased \$7.4 billion, or 8.5%, to \$93.9 billion compared to the first three months of 2008. Average client deposits grew at a faster pace than overall deposits due to strong growth in low-cost client deposits. The categories of deposits with the highest average rates of growth for the first three months of 2009 compared to the same period of 2008 were other client deposits, which includes money rate savings accounts, investor deposit accounts, savings accounts, individual retirement accounts and other time deposits, which increased \$5.9 billion, or 16.8%, and noninterest-bearing deposits which increased \$1.2 billion, or 9.1%. In addition, interest checking increased \$160 million, or 7.0%, for the first three months of 2009 compared to the same period in 2008.

## Borrowings

While client deposits remain the primary source for funding loan originations and other balance sheet growth, management uses short-term borrowings as a supplementary funding source for balance sheet growth. Short-term borrowings utilized by BB&T include Federal funds purchased, securities sold under repurchase agreements, master notes, U.S. Treasury tax and loan deposit notes, borrowings under the treasury auction facility and short-term bank notes. At March 31, 2009, short-term borrowings totaled \$13.7 billion, an increase of \$2.9 billion, or 27.2%, compared to December 31, 2008. The increase in these borrowings compared to December 31, 2008 was primarily due to a better pricing of these funding sources as compared to wholesale deposit products.

The average annualized rate paid on short-term borrowed funds was .59% for the first three months of 2009, a decrease of 291 basis points from the average rate of 3.50% paid during the comparable period of 2008. The lower rate paid on short-term borrowed funds during the first three months of 2009 compared to the same period in 2008 was primarily the result of decreases in the Federal funds target rate.

BB&T also utilizes long-term debt to provide both funding, and to a lesser extent, regulatory capital. Long-term debt consists of Federal Home Loan Bank advances to Branch

Bank, corporate subordinated notes, senior and subordinated notes issued by Branch Bank, and junior subordinated debentures issued by BB&T. Long-term debt totaled \$18.0 billion at March 31, 2009, a slight decline from the balance at December 31, 2008.

On April 27, 2009, BB&T issued \$800 million of senior unsecured notes. The notes were issued in two tranches, \$400 million 5.70% fixed-rate notes due in 2014 and \$400 million 6.85% fixed-rate notes due in 2019. The proceeds from the offering will be used for general corporate purposes, which may include, subject to regulatory approval, the partial funding of the repurchase of BB&T's Fixed Rate Cumulative Perpetual Preferred Stock, Series C, issued to the U.S. Treasury on November 14, 2008 as part of the Troubled Asset Relief Program – Capital Purchase Program.

The average annualized rate paid on long-term debt for the first quarter of 2009 was 3.81%, a decrease of 92 basis points compared to the first quarter of 2008. The decline in the cost of long-term debt resulted from decreases in the effective rates paid on the portion of BB&T's long-term debt that was issued as a floating-rate instrument or swapped to a floating rate.

### **Shareholders' Equity**

Total shareholders' equity at March 31, 2009 was \$16.2 billion, an increase of \$101 million compared to \$16.1 billion at December 31, 2008. BB&T's book value per common share at March 31, 2009 was \$23.29, compared to \$23.16 at December 31, 2008. BB&T's tangible shareholders' equity available to common shareholders was \$7.8 billion at March 31, 2009, up slightly compared to December 31, 2008. BB&T's tangible book value per common share at March 31, 2009 was \$14.00 compared to \$13.93 at December 31, 2008. As of March 31, 2009, measures of tangible capital were not prescribed by the regulators and, therefore, were considered non-GAAP measures. Please refer to the section titled "Capital Adequacy and Resources" herein for a discussion of how BB&T calculates and uses these measures in the evaluation of the Company.

### **Asset Quality**

BB&T continued to experience credit deterioration during the first quarter of 2009, reflecting the ongoing challenges in housing-related credits with the largest concentration of credit issues occurring in Georgia, Florida and metro Washington, D.C.

Nonperforming assets, which are composed of foreclosed real estate, repossessions, nonaccrual loans and certain restructured loans, totaled \$2.8 billion at March 31, 2009, compared to \$2.0 billion at December 31, 2008. The increase in nonperforming assets included an increase of \$314 million in nonperforming loans and \$406 million in foreclosed assets. The majority of the increase in foreclosed assets was related to securing title over projects in the single family residential, acquisition, development, and construction portfolio. As a percentage of loans and leases plus foreclosed property, nonperforming assets were 2.72% at March 31, 2009 and 2.04% at December 31, 2008. Loans 90 days or more past due and still accruing interest totaled \$381 million at March 31, 2009, compared to \$431 million at year-end 2008.

BB&T's net charge-offs totaled \$388 million for the first quarter of 2009 and amounted to 1.58% of average loans and leases, on an annualized basis, compared to \$125 million, or .54%, of average loans and leases, on an annualized basis, in the corresponding period in 2008. The increase in net charge-offs was largely driven by challenges in the residential real estate market, which has resulted in increases in losses in the commercial, direct retail and mortgage portfolios.

The allowance for credit losses, which totaled \$1.9 billion and \$1.6 billion at March 31, 2009 and December 31, 2008, respectively, consists of the allowance for loan and lease losses, which is presented on the Consolidated Balance Sheets, and the reserve for unfunded lending commitments, which is included in other liabilities on the Consolidated Balance Sheets. The allowance for loan and lease losses amounted to 1.94% of loans and leases held for investment at March 31, 2009, compared to 1.62% at year-end 2008. The growth of \$288 million in the allowance for credit losses reflects migrations of loans to higher risk grades, with the most significant increases occurring in the single family residential, acquisition, development, and construction loan portfolio.

Asset quality statistics for the last five calendar quarters are presented in the accompanying tables.

NOTES: (1) Home equity portfolio consists of consumer real estate secured loans and is a component of direct retail loans that are originated through the BB&T branching network.

(2) Home equity lines without an outstanding balance are excluded from this calculation.

The residential acquisition, development and construction (ADC) loan portfolio totaled \$7.5 billion at March 31, 2009, a decrease of \$507 million from December 31, 2008. The ADC portfolio is 7.5% of total loans and leases at March 31, 2009. Nonaccrual ADC loans were \$545 million at March 31, 2009, an increase of \$45 million, compared to \$500 million at December 31, 2008. As a percentage of loans, ADC nonaccruals were 7.29% at March 31, 2009, compared to 6.27% at December 31, 2008. The allowance for loan and lease losses that is assigned to the

ADC portfolio was 10.0% as of March 31, 2009, compared to 7.7% as of year-end 2008. The gross charge-off rate for the ADC portfolio, on an annualized basis, was 5.30% for the first quarter of 2009, compared to 2.81% for the fourth quarter of 2008 and 1.83% for the full-year 2008. The other component of the commercial real estate portfolio, which is largely office buildings, hotels, warehouses, apartments, rental houses, and shopping centers, totaled \$11.9 billion at March 31, 2009, up \$351 million from year-end 2008.

The residential mortgage loan portfolio totaled \$16.7 billion as of March 31, 2009, a decrease of \$757 million from December 31, 2008. As a percentage of loans, residential mortgage loan nonaccruals were 2.96% at March 31, 2009, compared to 2.22% at December 31, 2008. The gross charge-off rate for the residential mortgage loan portfolio, on an annualized basis, was 1.20% for the first quarter of 2009, compared to 1.01% for the fourth quarter of 2008 and .57% for the full-year 2008.

The home-equity loan portfolio totaled \$14.0 billion as of March 31, 2009, a decrease of \$410 million from December 31, 2008. As a percentage of loans, home-equity loan nonaccruals were .83% at March 31, 2009, compared to .60% at December 31, 2008. The gross charge-off rate for the home-equity loan portfolio, on an annualized basis, was 1.66% for the first quarter of 2009, compared to .85% for the fourth quarter of 2008 and .71% for the full-year 2008.

## ANALYSIS OF RESULTS OF OPERATIONS

Consolidated net income for the first quarter of 2009 totaled \$318 million, a decrease of \$111 million, or 25.9%, compared to \$429 million earned during the first quarter of 2008. Net income available to common shareholders totaled \$271 million, which generated diluted earnings per common share of \$.48. Net income available to common shareholders for the first quarter of 2008 totaled \$428 million, which generated diluted earnings per common share of \$.78. BB&T's results of operations for the first quarter of 2009 produced an annualized return on average assets of .86% and an annualized return on average common shareholders' equity of 8.29%, compared to prior year ratios of 1.29% and 13.30%, respectively.

The following table sets forth selected financial ratios for the last five calendar quarters.

**Table 5**  
**Annualized**  
**Profitability Measures**

	<b>2009</b>	<b>2008</b>			
	<b>First Quarter</b>	<b>Fourth Quarter</b>	<b>Third Quarter</b>	<b>Second Quarter</b>	<b>First Quarter</b>
Rate of return on:					
Average assets	<b>.86 %</b>	.86 %	1.05 %	1.28 %	1.29 %
Average common shareholders' equity	<b>8.29</b>	8.47	10.86	13.27	13.30
Net interest margin (taxable equivalent)	<b>3.57</b>	3.47	3.66	3.65	3.54

### **Net Interest Income and Net Interest Margin**

Net interest income on an FTE basis was \$1.2 billion for the first quarter of 2009 compared to \$1.0 billion for the same period in 2008, an increase of \$140 million, or 13.5%. For the quarter ended March 31, 2009, average earning assets increased \$14.9 billion, or 12.7%, compared to the same period of 2008, while average interest-bearing liabilities increased \$10.5 billion, or 10.1%, and the net interest margin increased from 3.54% in the first quarter of 2008 to 3.57% in the current quarter. The improvement in net interest income compared to the first quarter of 2008 was caused by a combination of factors. First, earning asset growth has helped offset the declines in yields due to the rate environment. Second, management has been successful in controlling liability costs by engineering a favorable mix change in both deposit and funding costs. These positives were partially offset by higher levels of nonaccruals that have negatively affected net interest income and the net interest margin.

The following table sets forth the major components of net interest income and the related annualized yields and rates for the first quarter of 2009 compared to the same period in 2008, as well as the variances between the periods caused by changes in interest rates versus changes in volumes.

Table 6  
FTE Net Interest Income and Rate / Volume Analysis  
For the Three Months Ended March 31, 2009 and 2008

	Average Balances		Annualized Yield / Rate		Income/Expense		Increase (Decrease)		Change due to

Taxable equivalent adjustment										

(1) Yields are stated on a taxable equivalent basis assuming tax rates in effect for the periods presented.

(2) Includes Federal funds sold, securities purchased under resale agreements or similar arrangements, interest-bearing deposits with banks, and other earning assets.

(3) Loan fees, which are not material for any of the periods shown, have been included for rate calculation purposes.

(4) Nonaccrual loans have been included in the average balances.

(5) Includes securities available for sale at amortized cost and trading securities at fair value.

## **Provision for Credit Losses**

The provision for credit losses totaled \$676 million for the first quarter of 2009, compared to \$223 million for the first quarter of 2008. The increase in the provision for credit losses was driven primarily by challenges in residential real estate markets with the largest concentration of credit issues occurring in Georgia, Florida, and metro Washington D.C. Net charge-offs have continued to rise as a result of a weak economy and more distress by borrowers.

Net charge-offs were 1.58% of average loans and leases for the first quarter of 2009 compared to .54% of average loans and leases for the same period in 2008. The allowance for loan and lease losses was 1.94% of loans and leases held for investment and was 1.08x total nonperforming loans and leases at March 31, 2009, compared to 1.19% and 1.44x, respectively, at March 31, 2008.

## **Noninterest Income**

Noninterest income as a percentage of total revenues has increased in recent years due to BB&T's emphasis on growing its fee-based businesses. Fee-based service revenues lessen BB&T's dependence on traditional spread-based interest income and are a relatively stable revenue source during periods of changing interest rates. Noninterest income for the three months ended March 31, 2009 totaled \$1.0 billion, compared to \$771 million for the same period in 2008, an increase of \$260 million, or 33.7%. The growth in noninterest income was driven by net securities gains and record performance from BB&T's mortgage banking operations.

Mortgage banking income totaled \$188 million in the first quarter of 2009, an increase of \$129 million, compared to \$59 million earned in the first quarter of 2008. This increase includes the net change in the mortgage servicing rights valuation, which resulted in an increase of \$30 million compared to the first quarter of 2008, as a result of the mortgage servicing rights hedge outperforming the decline in the value of the asset. Mortgage banking income for the first quarter of 2008 included certain one-time items associated with the implementation of fair value accounting standards that benefitted results for the prior year by approximately \$23 million. Excluding the impact of these items, mortgage banking income increased \$122 million compared to the same period last year. The growth in mortgage banking income is primarily attributable to record production revenues from residential mortgage banking operations, including \$7.4 billion in mortgage loan originations during the first quarter of 2009.

The following table provides a breakdown of the various components of mortgage banking income and other statistical information for the first quarters of 2009 and 2008:

**Table 7**  
**Mortgage Banking Income and Related Statistical Information**

Mortgage Banking Income	For the Three Months Ended March 31,	
	2009	2008
	(Dollars in millions)	
Residential Mortgage Banking:		
Residential mortgage production income	\$ 136	\$ 38
Residential Mortgage Servicing:		
Residential mortgage servicing fees	41	32
Residential mortgage servicing rights decrease in fair value due to change in valuation inputs or assumptions	(46)	(84)
Mortgage servicing rights hedging gains	74	82
Net	28	(2)
Realization of expected residential mortgage servicing rights cash flows	(32)	(23)
Total residential mortgage servicing income	37	7
Total residential mortgage banking income	173	45
Commercial Mortgage Banking:		
Commercial mortgage banking revenues	19	17
Amortization of commercial mortgage servicing rights	(4)	(3)
Total commercial mortgage banking income	15	14
Total mortgage banking income	\$ 188	\$ 59
Mortgage Banking Statistical Information	As of / For the Three Months Ended March 31,	
	2009	2008
	(Dollars in millions)	
Residential mortgage originations	\$ 7,414	\$ 4,393
Residential mortgage loans serviced for others	42,429	33,323
Residential mortgage loan sales	5,246	2,647
Commercial mortgage originations	\$ 700	\$ 867
Commercial mortgage loans serviced for others	24,039	21,070

Insurance commissions, which are BB&T's largest source of noninterest income, totaled \$252 million for the first quarter of 2009, an increase of \$40 million, or 18.9%, compared to the same three-month period of 2008. The increase in insurance revenues for the first quarter of 2009 compared to the corresponding period of 2008 was primarily attributable to growth in property and casualty and employee benefit commissions, including the impact from acquisitions completed during 2008.

Service charges on deposits totaled \$156 million for the first quarter of 2009, an increase of \$2 million, or 1.3%, compared to the first quarter of 2008. This increase in revenues was primarily attributable to growth from overdraft fees compared to the same periods last year. During the first quarter of 2009, BB&T opened 22,000 net new transaction deposit accounts, which also contributed to the growth in service charges.

Investment banking and brokerage fees and commissions totaled \$82 million for the first quarter of 2009, a decrease of \$4 million, or 4.7%, from \$86 million earned in the first quarter of 2008. The decrease in fees and commissions during the first quarter was primarily attributable to decreased fees and commissions from retail accounts.

Securities gains, net of losses and other-than-temporary impairment charges, totaled \$150 million for the first quarter of 2009. As previously discussed, during the first quarter of 2009, BB&T sold \$12.0 billion in securities available for sale, which produced net securities gains of \$186 million. In addition, BB&T recorded \$36 million in other-than-temporary impairment losses related to certain debt and equity securities. This compares to \$43 million in net securities gains during the first quarter of 2008. There were no other-than-temporary impairment charges during the corresponding period of 2008.

Other income, including checkcard fees, other nondeposit fees and commissions, trust and investment advisory revenues, bankcard fees and merchant discounts, and income from bank owned life insurance totaled \$203 million for the first quarter of 2009, a decrease of \$14 million, or 6.5%, compared to the first quarter of 2008. The decrease in 2009 primarily resulted from the \$33 million gain recorded in the first quarter of 2008 in connection with BB&T's ownership interest in Visa, Inc. In addition, trust and investment advisory revenues declined \$8 million, or 20.0%, due to lower asset values that are the basis for these revenues. These declines were partially offset by an increase in bank-owned life insurance income as a result of a valuation adjustment of \$12 million recorded in the first quarter of 2008 that resulted from a decline in the underlying assets of certain bank-owned life insurance policies.

### **Noninterest Expense**

Noninterest expenses totaled \$1.1 billion for the first quarter of 2009, compared to \$935 million for the same period a year ago, an increase of \$134 million, or 14.3%.

Personnel expense, the largest component of noninterest expense, was \$600 million for the current quarter compared to \$547 million for the same period in 2008, an increase of \$53 million, or 9.7%. This increase was primarily attributable to an increase in salaries and wages, including the impact of acquisitions, of \$26 million and an increase related to pension expense of \$16 million. The increase in pension expense was primarily related to changes in actuarial calculations and declines in asset values.

Occupancy and equipment expense for the three months ended March 31, 2009 totaled \$129 million, compared to \$123 million for the first quarter of 2008, representing an increase of \$6 million, or 4.9%. The increase for the first quarter of 2009 was primarily related to additional rent in connection with de novo branches, acquisitions and renewals of existing leases.

Other noninterest expenses, including professional services, regulatory charges, foreclosed property expenses, loan processing expenses and amortization of intangibles, totaled \$328 million for the current quarter, an increase of \$68 million, or 26.2%, compared to the same period of 2008. The increase was primarily attributable to an increase of \$28 million in regulatory charges, \$23 million in foreclosed property expense and \$16 million in professional services expense compared to the first quarter of 2008. The increase in regulatory charges was

primarily a result of higher FDIC insurance premiums, while the increases in foreclosed property expense and professional services were caused by increased write-downs and other costs associated with the current credit-related challenges.

### *Merger-Related and Restructuring Activities*

BB&T has incurred certain merger-related and restructuring expenses. Merger-related and restructuring expenses or credits include severance and personnel-related costs or credits, which typically occur in corporate support and data processing functions, occupancy and equipment charges or credits, which relate to costs or gains associated with lease terminations, obsolete equipment write-offs, and the sale of duplicate facilities and equipment, and other merger-related and restructuring charges or credits, which include expenses necessary to convert and combine the acquired branches and operations of merged companies, direct media advertising related to the acquisitions, asset and supply inventory write-offs, litigation accruals, and other similar charges. Merger-related and restructuring charges during the first quarters of 2009 and 2008 were \$12 million and \$5 million, respectively.

At March 31, 2009 and December 31, 2008, there were \$23 million and \$24 million, respectively, of merger-related and restructuring accruals. In general, a major portion of accrued costs are utilized in conjunction with or immediately following the systems conversion, when most of the duplicate positions are eliminated and the terminated employees begin to receive severance. Other accruals are utilized over time based on the sale, closing or disposal of duplicate facilities or equipment or the expiration of lease contracts. Merger and restructuring accruals are re-evaluated periodically and adjusted as necessary. The remaining accruals at March 31, 2009 are expected to be utilized during 2009, unless they relate to specific contracts that expire in later years.

### **Provision for Income Taxes**

The provision for income taxes totaled \$114 million for the first quarter of 2009, a decrease of \$87 million compared to the same period of 2008, primarily due to lower pre-tax income. BB&T's effective income tax rates for the first quarters of 2009 and 2008 were 26.4% and 31.9%, respectively.

BB&T has extended credit to and invested in the obligations of states and municipalities and their agencies, and has made other investments and loans that produce tax-exempt income. The income generated from these investments, together with certain other transactions that have favorable tax treatment, have reduced BB&T's overall effective tax rate from the statutory rate in 2009 and 2008. The lower effective tax rate is primarily the result of an increase in tax credits as well as a relatively equal level of tax-exempt income on a lower level of pre-tax income.

BB&T continually monitors and evaluates the potential impact of current events and circumstances on the estimates and assumptions used in the analysis of its income tax positions and, accordingly, BB&T's effective tax rate may fluctuate in the future. On a periodic basis, BB&T evaluates its income tax positions based on tax laws and regulations and financial reporting considerations, and records adjustments as appropriate. This evaluation takes into consideration the status of current taxing authorities' examinations of BB&T's tax returns, recent

positions taken by the taxing authorities on similar transactions, if any, and the overall tax environment in relation to tax-advantaged transactions. Accordingly, the results of these examinations may alter the timing or amount of taxable income or deductions or the allocation of income among tax jurisdictions. In addition, BB&T may make payments or deposits to the IRS in connection with tax disputes to stop the accrual of additional interest and penalties, while it pursues resolution of these matters.

BB&T has received notification of proposed IRS adjustments related to foreign tax credits claimed by a deconsolidated subsidiary for tax years 2002-2007. Management has consulted with outside counsel and continues to believe that BB&T's treatment of these issues was appropriate and in compliance with the tax laws and regulations applicable to the years examined and intends to pursue available regulatory and legal remedies to defend BB&T's position. Management believes the Company's current reserves for this matter are adequate, although the final outcome is uncertain. In addition, BB&T may make payments or deposits to the IRS in connection with this matter to stop the accrual of additional interest and penalties, while it pursues resolution. Resolution of this matter is not expected to occur within the next 12 months.

## **MARKET RISK MANAGEMENT**

The effective management of market risk is essential to achieving BB&T's strategic financial objectives. As a financial institution, BB&T's most significant market risk exposure is interest rate risk; however, market risk also includes product liquidity risk, price risk and volatility risk. The primary objective of interest rate risk management is to minimize any adverse effect that changes in interest rates may have on net interest income. This is accomplished through active management of asset and liability portfolios with a focus on the strategic pricing of asset and liability accounts and management of appropriate maturity mixes of assets and liabilities. The goal of these activities is the development of appropriate maturity and repricing opportunities in BB&T's portfolios of assets and liabilities that will produce consistent net interest income during periods of changing interest rates. BB&T's Market Risk and Liquidity Committee monitors loan, investment and liability portfolios to ensure comprehensive management of interest rate risk. These portfolios are analyzed for proper fixed-rate and variable-rate mixes under various interest rate scenarios.

The asset/liability management process is designed to achieve relatively stable net interest margins and assure liquidity by coordinating the volumes, maturities or repricing opportunities of earning assets, deposits and borrowed funds. It is the responsibility of the Market Risk and Liquidity Committee to determine and achieve the most appropriate volume and mix of earning assets and interest-bearing liabilities, as well as to ensure an adequate level of liquidity and capital, within the context of corporate performance goals. The Market Risk and Liquidity Committee also sets policy guidelines and establishes long-term strategies with respect to interest rate risk exposure and liquidity. The Market Risk and Liquidity Committee meets regularly to review BB&T's interest rate risk and liquidity positions in relation to present and prospective market and business conditions, and adopts funding and balance sheet management strategies that are intended to ensure that the potential impact on earnings and liquidity as a result of fluctuations in interest rates is within acceptable standards.

BB&T utilizes a variety of financial instruments to manage various financial risks. These instruments, commonly referred to as derivatives, primarily consist of interest-rate swaps, swaptions, caps, floors, collars, financial forward and futures contracts, when-issued securities and options written and purchased. A derivative is a financial instrument that derives its cash flows, and therefore its value, by reference to an underlying instrument, index or referenced interest rate. BB&T uses derivatives primarily to manage risk related to securities, business loans, Federal funds purchased, other overnight funding, long-term debt, mortgage servicing rights, mortgage banking operations and certificates of deposit. BB&T also uses derivatives to facilitate transactions on behalf of its clients.

Derivative contracts are written in amounts referred to as notional amounts. Notional amounts only provide the basis for calculating payments between counterparties and do not represent amounts to be exchanged between parties, and are not a measure of financial risk. As of March 31, 2009, BB&T had derivative financial instruments outstanding with notional amounts totaling \$75.6 billion. The estimated net fair value of open contracts was \$486 million at March 31, 2009.

See Note 12 "Derivative Financial Instruments" in the "Notes to Consolidated Financial Statements" herein for additional disclosures related to BB&T's derivative financial instruments.

The majority of BB&T's assets and liabilities are monetary in nature and, therefore, differ greatly from most commercial and industrial companies that have significant investments in fixed assets or inventories. Fluctuations in interest rates and actions of the Federal Reserve Board to regulate the availability and cost of credit have a greater effect on a financial institution's profitability than do the effects of higher costs for goods and services. Through its balance sheet management function, which is monitored by the Market Risk and Liquidity Committee, management believes that BB&T is positioned to respond to changing needs for liquidity, changes in interest rates and inflationary trends.

Management uses Interest Sensitivity Simulation Analysis ("Simulation") to measure the sensitivity of projected earnings to changes in interest rates. The Simulation model projects net interest income and interest rate risk for a rolling two-year period of time. Simulation takes into account the current contractual agreements that BB&T has made with its customers on deposits, borrowings, loans, investments and any commitments to enter into those transactions. Management monitors BB&T's interest sensitivity by means of a computer model that incorporates the current volumes, average rates earned and paid, and scheduled maturities and payments of asset and liability portfolios, together with multiple scenarios of projected prepayments, repricing opportunities and anticipated volume growth. Using this information, the model projects earnings based on projected portfolio balances under multiple interest rate scenarios. This level of detail is needed to simulate the effect that changes in interest rates and portfolio balances may have on the earnings of BB&T. This method is subject to the accuracy of the assumptions that underlie the process, but management believes that it provides a better illustration of the sensitivity of earnings to changes in interest rates than other analyses such as static or dynamic gap. In addition to Simulation analysis, BB&T uses Economic Value of Equity ("EVE") analysis to focus on changes in capital given potential changes in interest rates. This measure also allows BB&T to analyze interest rate risk that falls outside the analysis window contained in the Simulation model. The EVE model is a discounted cash flow of the entire

portfolio of BB&T's assets, liabilities, and derivatives instruments. The difference in the present value of assets minus the present value of liabilities is defined as the economic value of BB&T's equity.

The asset/liability management process requires a number of key assumptions. Management determines the most likely outlook for the economy and interest rates by analyzing external factors, including published economic projections and data, the effects of likely monetary and fiscal policies, as well as any enacted or prospective regulatory changes. BB&T's current and prospective liquidity position, current balance sheet volumes and projected growth, accessibility of funds for short-term needs and capital maintenance are also considered. This data is combined with various interest rate scenarios to provide management with the information necessary to analyze interest sensitivity and to aid in the development of strategies to reach performance goals.

The following table shows the effect that the indicated changes in interest rates would have on net interest income as projected for the next twelve months under the "most likely" interest rate scenario incorporated into the Simulation model. Key assumptions in the preparation of the table include prepayment speeds of mortgage-related assets, cash flows and maturities of derivative financial instruments, loan volumes and pricing, deposit sensitivity, customer preferences and capital plans. The resulting change in interest sensitive income reflects the level of sensitivity that interest sensitive income has in relation to changing interest rates.

**Table 8-1**  
**Interest Sensitivity Simulation Analysis**

<b>Interest Rate Scenario</b>			<b>Annualized Hypothetical Percentage Change in</b>

(1.00)	2.25	4.25	NA	(1.02)		
(2.00)	1.25	3.25	NA	(2.29)		

The Market Risk and Liquidity Committee has established parameters measuring interest sensitivity that prescribe a maximum negative impact on net interest income of 2% for the next 12 months for a linear change of 100 basis points over four months followed by a flat interest rate scenario for the remaining eight month period, and a maximum negative impact of 4% for a linear change of 200 basis points over eight months followed by a flat interest rate scenario for the remaining four month period. Management only modeled a negative 25 basis point decline in the current period, because larger declines would have resulted in a Federal funds rate of less than zero.

The following table shows the effect that the indicated changes in interest rates would have on EVE as projected under the "most likely" interest rate scenario incorporated into the EVE model. Key assumptions in the preparation of the table include prepayment speeds of mortgage-related assets, cash flows and maturities of derivative financial instruments, loan volumes and pricing, and deposit sensitivity. The resulting change in the economic value of equity reflects the level of sensitivity that EVE has in relation to changing interest rates.

**Table 8-2**  
**Economic Value of Equity ("EVE") Simulation Analysis**

Change in Rates	EVE/Assets		Hypothetical Percentage Change in EVE	
	March 31,		March 31,	
	2009	2008	2009	2008

No Change	8.3	6.0	-	-
(0.25)	8.1	NA	(2.1)	NA
(1.00)	NA	5.8	NA	(4.3)
(2.00)	NA	5.1	NA	(16.0)

#### **Contractual Obligations, Commitments, Contingent Liabilities, Off-Balance Sheet Arrangements and Related Party Transactions**

BB&T utilizes a variety of financial instruments to meet the financial needs of its clients and reduce exposure to fluctuations in interest rates. These financial instruments include commitments to extend credit, options written, standby letters of credit and other financial guarantees, interest-rate caps, floors and collars, interest-rate swaps, swaptions, when-issued securities and forward and futures contracts. Please refer to BB&T's Annual Report on Form 10-K for the year ended December 31, 2008 for discussion with respect to BB&T's quantitative and qualitative disclosures about its fixed and determinable contractual obligations. Additional disclosures about BB&T's contractual obligations, commitments and derivative financial instruments are included in Note 6 "Contractual Obligations, Commitments, Contingent Liabilities, and Off-Balance Sheet Arrangements" and Note 12 "Fair Value Disclosures" in the "Notes to the Consolidated Financial Statements." Other items disclosed in BB&T's Annual Report on Form 10-K for the year ended December 31, 2008 have not materially changed since that report was filed.

## CAPITAL ADEQUACY AND RESOURCES

The maintenance of appropriate levels of capital is a management priority and is monitored on a regular basis. BB&T's principal goals related to the maintenance of capital are to provide adequate capital to support BB&T's comprehensive risk profile, preserve a sufficient capital base from which to support future growth, provide a competitive return to shareholders, comply with regulatory standards and achieve optimal credit ratings for BB&T and its subsidiaries.

Management regularly monitors the capital position of BB&T on a consolidated basis. In this regard, management's overriding policy is to maintain capital at levels that will result in BB&T being classified as "well-capitalized" for regulatory purposes and to maintain sufficient capital relative to the Corporation's level of risk. Secondly, it is management's intent to maintain consolidated capital levels that result in regulatory risk-based capital ratios that are generally comparable with BB&T's peers of similar size, complexity and risk profile. Further, management particularly monitors and intends to maintain the following minimum capital ratios:

Tier 1 Capital Ratio	8.50%
Total Capital Ratio	12.00%
Tier 1 Leverage Capital Ratio	7.00%
Tangible Capital Ratio	5.50%

While nonrecurring events or management decisions may result in the Corporation temporarily falling below its minimum guidelines for one or more of these ratios, it is management's intent through capital planning to return to these targeted minimums within a reasonable period of time. Such temporary decreases below these minimums are acceptable provided the Corporation, Branch Bank and BB&T FSB remain "well-capitalized."

Financial holding companies and their bank subsidiaries are subject to regulatory requirements with respect to risk-based capital adequacy. Capital adequacy is an important indicator of financial stability and performance. Risk-based capital ratios measure capital as a percentage of a combination of risk-weighted balance sheet and off-balance sheet risk. The risk-weighted values of both balance sheet and off-balance sheet items are determined in accordance with risk factors specified by federal bank regulatory pronouncements. As of March 31, 2009, federal bank regulators did not prescribe measures of tangible capital and, therefore, these measures were considered non-GAAP. BB&T measures tangible equity and tangible assets based on the regulatory Tier 1 definition. This is calculated as total shareholders' equity less intangible assets, net of deferred taxes, adjusted for regulatory other comprehensive income items. Tangible common equity also excludes preferred stock. BB&T's management uses these measures to assess the quality of capital and believes that investors may find them useful in their analysis of the Corporation. These capital measures are not necessarily comparable to similar capital measures that may be presented by other companies. Please refer to the section titled "Capital" in BB&T's Annual Report on Form 10-K for the year ended December 31, 2008, for additional information with regard to BB&T's capital requirements.

BB&T's regulatory and tangible capital ratios for the last five calendar quarters are set forth in the following table. The increase in BB&T's regulatory capital in the fourth quarter of 2008 was largely due to the U.S. Treasury's preferred stock investment.

**Table 9**  
**Capital Ratios**

	2009		2008		
	First Quarter	Fourth Quarter	Third Quarter	Second Quarter	First Quarter
(Dollars in millions, shares in thousands)					
Risk-based (1):					
Tier 1	12.1 %	12.3 %	9.4 %	8.9 %	9.0 %
Total	17.1	17.4	14.4	14.0	14.1
Tier 1 leverage	9.4	9.9	7.6	7.2	7.3
<b>Non-GAAP Capital Information</b>					
Tangible common equity (2)	5.7	5.3	5.9	5.7	5.7
Tangible common equity to risk-weighted assets (2)(3)	7.1	7.1	7.3	7.2	7.1
<b>Calculations of tangible equity and tangible assets and related measures</b>					
Total shareholders' equity	\$ 16,182	\$ 16,081	\$ 12,980	\$ 12,838	\$ 12,875
Intangible assets, net of deferred taxes (4)	(5,868)	(5,873)	(5,704)	(5,670)	(5,570)
After-tax regulatory adjustments for AOCI	664	708	449	309	93
Tangible equity	\$ 10,978	\$ 10,916	\$ 7,725	\$ 7,477	\$ 7,398
Total assets	\$143,425	\$152,015	\$137,041	\$136,465	\$136,417
Intangible assets, net of deferred taxes (4)	(5,868)	(5,873)	(5,847)	(5,811)	(5,700)
Pre-tax regulatory adjustments for AOCI	923	925	666	520	144
Tangible assets	\$138,480	\$147,067	\$131,860	\$131,174	\$130,861
<b>Tangible equity as a percentage of tangible assets</b>	7.9 %	7.4 %	5.9 %	5.7 %	5.7 %
Tangible equity	\$ 10,978	\$ 10,916	\$ 7,725	\$ 7,477	\$ 7,398
Preferred stock	(3,085)	(3,082)	-	-	-
Tangible common equity	\$ 7,893	\$ 7,834	\$ 7,725	\$ 7,477	\$ 7,398
Tangible assets	\$138,480	\$147,067	\$131,860	\$131,174	\$130,861
Total risk-weighted assets (1)(3)	111,620	109,757	106,097	104,455	103,546
<b>Tangible common equity as a percentage of:</b>					
<b>Tangible assets</b>	5.7 %	5.3 %	5.9 %	5.7 %	5.7 %
<b>Risk-weighted assets</b>	7.1	7.1	7.3	7.2	7.1
Tangible equity	\$ 10,978	\$ 10,916	\$ 7,725	\$ 7,477	\$ 7,398
Preferred stock	(3,085)	(3,082)	-	-	-
Noncontrolling interest	(45)	(44)	(45)	(38)	(33)
Total tangible equity available to common shareholders	\$ 7,848	\$ 7,790	\$ 7,680	\$ 7,439	\$ 7,365
Outstanding shares at end of period	560,563	559,248	552,259	546,928	546,799
<b>Tangible book value per common share</b>	\$ 14.00	\$ 13.93	\$ 13.91	\$ 13.60	\$ 13.47

(1) Current quarter regulatory capital information is preliminary.

(2) Tangible common equity and assets are based on regulatory Tier 1 capital definition.

(3) Risk-weighted assets are determined based on regulatory capital requirements. Under the regulatory framework for determining risk-weighted assets, each asset class is assigned a risk-weighting of 0%, 20%, 50% or 100% based on the underlying risk of the specific asset class. In addition, off balance sheet exposures are first converted to a balance sheet equivalent amount and subsequently assigned to one of the four risk-weightings.

(4) Prior to December 2008, BB&T had a net deferred tax liability.

On April 22, 2009, Moody's Investors Service ("Moody's") announced a downgrading of BB&T's long-term ratings by one notch, from "Aa3" to "A1", and a downgrading of the financial strength rating of Branch Bank and BB&T FSB from "B+" to "B". Moody's confirmed a "negative" outlook on BB&T's investment-grade ratings. The ratings downgrade was based upon concerns related to the Corporation's real estate portfolio in light of the weak housing market and broader economic turmoil. In addition, on March 17, 2009, Standard and Poor's changed the ratings outlook of BB&T from stable to negative outlook and further revised the ratings outlook to negative watch on May 4, 2009. Standard and Poor's actions were part of an industry wide review.

### *Share Repurchase Activity*

BB&T has periodically repurchased shares of its own common stock. In accordance with North Carolina law, repurchased shares cannot be held as treasury stock, but revert to the status of authorized and unissued shares upon repurchase.

On June 27, 2006, BB&T's Board of Directors granted authority under a plan (the "2006 Plan") for the repurchase of up to 50 million shares of BB&T's common stock as needed for general corporate purposes. The 2006 Plan also authorizes the repurchase of the remaining shares from the previous authorization. The 2006 Plan remains in effect until all the authorized shares are repurchased unless modified by the Board of Directors. No shares were repurchased in connection with the 2006 Plan during the first quarter of 2009. In connection with the sale of preferred stock to the U.S. Treasury, BB&T is restricted from repurchasing shares of its common stock, except for shares repurchased in connection with employee benefit plans based on normal past practices, for three years or until the preferred stock has been repaid.

**Table 10**  
**Share Repurchase Activity**

	2009			Maximum Remaining Number of Shares Available for Repurchase Pursuant to Publicly-Announced Plan
	Total Shares Repurchased (1)	Average Price Paid Per Share (2)	Total Shares Purchased Pursuant to Publicly-Announced Plan (Shares in Thousands)	
January 1-31	2	\$ 27.00	-	44,139
February 1-28	2	19.37	-	44,139
March 1-31	9	19.18	-	44,139
<b>Total</b>	<b>13</b>	<b>\$ 20.29</b>	<b>-</b>	<b>44,139</b>

(1) Repurchases reflect shares exchanged or surrendered in connection with the exercise of equity-based awards under BB&T's equity-based compensation plans.

(2) Excludes commissions.

## SEGMENT RESULTS

BB&T's operations are divided into seven reportable business segments: the Banking Network, Residential Mortgage Banking, Sales Finance, Specialized Lending, Insurance Services, Financial Services and Treasury. These operating segments have been identified based primarily on BB&T's organizational structure. See Note 13 "Operating Segments" in the "Notes to the Consolidated Financial Statements" contained herein for additional disclosures related to BB&T's reportable business segments. Fluctuations in noninterest income and noninterest expense incurred directly by the operating segments are more fully described in the sections titled "Noninterest Income" and "Noninterest Expense" of this discussion and analysis. The following table reflects the net income (loss) for each of BB&T's operating segments for the three month periods ended March 31, 2009 and 2008, respectively.

**Table 11**  
**BB&T Corporation**  
**Net Income by Reportable Segments**

	For the Three Months Ended	
	March 31, 2009	March 31, 2008
	(Dollars in millions)	
Banking Network	\$ 293	\$ 311
Residential Mortgage Banking	104	36
Sales Finance	3	8
Specialized Lending	(5)	2
Insurance Services	27	19
Financial Services	29	21
Treasury	64	70
All Other Segments	(7)	-
Parent/Reconciling Items	(190)	(38)
BB&T Corporation	<u>\$ 318</u>	<u>\$ 429</u>

The \$68 million increase in net income attributable to the Residential Mortgage Banking segment was due to record residential mortgage production revenues. Residential mortgage production revenues for the current quarter increased \$98 million compared to the first quarter of 2008. In addition, the residential mortgage segment benefitted from improved hedge performance of mortgage servicing assets, which contributed to a \$30 million increase in pre-tax income for the segment. The declines in net income attributable to the Banking Network, Sales Finance and Specialized Lending segments was primarily caused by higher provisions for credit losses. The \$152 million decrease related to Parent/Reconciling Items is largely due to the difference between the provision for credit losses that is recorded under generally accepted accounting principles and the provision for credit losses that is allocated to the business units. In addition, net securities gains for the first quarter of 2009 are reflected within the Parent/Reconciling Items.

### **Item 3. *Quantitative and Qualitative Disclosures About Market Risk***

Please refer to “Market Risk Management” in the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” section herein.

### **Item 4. *Controls and Procedures***

#### Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, the management of the Company, under the supervision and with the participation of the Company’s Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of the Company’s disclosure controls and procedures as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company’s disclosure controls and procedures are effective so as to enable the Company to record, process, summarize and report in a timely manner the information that the Company is required to disclose in its Exchange Act reports.

#### Changes in Internal Control over Financial Reporting

There was no change in the Company’s internal control over financial reporting that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Company’s internal control over financial reporting.

## **PART II. OTHER INFORMATION**

### **Item 1. *Legal Proceedings***

The nature of the business of BB&T’s banking and other subsidiaries ordinarily results in a certain amount of litigation. The subsidiaries of BB&T are involved in various legal proceedings, all of which are considered incidental to the normal conduct of business. Based on information currently available, advice of counsel, available insurance coverage and established reserves, BB&T’s management believes that the liabilities, if any, arising from these proceedings will not have a materially adverse effect on the consolidated financial position, consolidated results of operations or consolidated cash flows of BB&T. However, in the event of unexpected future developments, it is possible that the ultimate resolution of these matters, if unfavorable, may be material to BB&T’s consolidated financial position, consolidated results of operations or consolidated cash flows.

## **Item 1A. Risk Factors**

There have been no material changes from the risk factors disclosed in BB&T's Annual Report on Form 10-K for the year ended December 31, 2008. In addition to the risk factors in BB&T's Annual Report on Form 10-K, the following supplemental risk factors should be carefully considered. These risks could materially affect BB&T's business, financial condition or future results, and are not the only risks BB&T faces. Additional risks and uncertainties not currently known to BB&T or that management has deemed to be immaterial also may materially adversely affect BB&T's business, financial condition, and/or operating results.

*The impact of Federal bank regulatory agencies assessment of BB&T's capital under the Supervisory Capital Assessment Program is uncertain.*

The Board of Governors of the Federal Reserve System, the Federal Reserve Banks, the Federal Deposit Insurance Corporation and the Office of the Comptroller of the Currency commenced a review, called the Supervisory Capital Assessment Program ("SCAP") of the capital needs of the 19 largest U.S. bank holding companies, which includes BB&T. Based on this review, an assessment was made as to the extent to which each such bank holding company may need to augment its capital, whether through additional capital or a change in the composition of its capital, in order to establish a buffer against a recession that is longer and more severe than consensus expectations and higher than expected losses, thereby allowing each such bank holding company to be able to lend to creditworthy borrowers should such losses materialize. BB&T, like all bank holding companies participating in the SCAP review process, was subject to broad confidentiality requirements that prohibited it from disclosing information regarding the SCAP review and any information it may have received relating to any initial assessments of its capital. On May 7, 2009 the Board of Governors of the Federal Reserve System announced the results of the final SCAP assessments for the 19 largest U.S. bank holding companies, including BB&T. The SCAP assessment for BB&T indicated that BB&T did not need to raise additional capital. It is uncertain what impact, if any, this assessment will have on BB&T's operations, results or stock price.

*BB&T may reduce the dividends on common stock.*

Although BB&T has historically paid a quarterly cash dividend to the holders of its common stock, holders of common stock are not entitled to receive dividends. Downturns in the domestic and global economies, including during the past year or more, could cause BB&T's board of directors to consider, among other things, the reduction of dividends paid on its common stock. Additionally, BB&T's board of directors could choose to reduce the dividend on its common stock to provide additional funds to repurchase the preferred stock and associated warrants BB&T issued to the U.S. Department of the Treasury as part of its Capital Purchase Program.

**Item 2. *Unregistered Sales of Equity Securities and Use of Proceeds***

(c) Please refer to “Share Repurchase Activity” in the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” section herein.

**Item 6. *Exhibits***

- 10.1 Form of Restricted Stock Unit Agreement for the BB&T Corporation Amended And Restated 2004 Stock Incentive Plan.
- 11 Statement re: Computation of Earnings Per Share.
- 12 Statement re: Computation of Ratios.
- 31.1 Certification of Chief Executive Officer pursuant to Rule 13a-14(a) or 15d-14(a) of the Exchange Act, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification of Chief Financial Officer pursuant to Rule 13a-14(a) or 15d-14(a) of the Exchange Act, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Chief Executive Officer Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- 32.2 Chief Financial Officer Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

## SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

BB&T CORPORATION

## EXHIBIT INDEX

<u>Exhibit No.</u>	<u>Description</u>	<u>Location</u>
10.1	Form of Restricted Stock Unit Agreement for the BB&T Corporation Amended And Restated 2004 Stock Incentive Plan.	Filed herewith.
11	Statement re: Computation of Earnings Per Share.	Filed herewith as Note 8.
12	Statement re: Computation of Ratios.	Filed herewith.
31.1	Certification of Chief Executive Officer pursuant to Rule 13a-14(a) or 15d-14(a) of the Exchange Act, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.	Filed herewith.
31.2	Certification of Chief Financial Officer pursuant to Rule 13a-14(a) or 15d-14(a) of the Exchange Act, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.	Filed herewith.
32.1	Chief Executive Officer Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.	Filed herewith.
32.2	Chief Financial Officer Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.	Filed herewith.

**CERTIFICATIONS**

I, Kelly S. King, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of BB&T Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

AS ADOPTED PURSUANT TO SECTION 906  
OF THE SARBANES-OXLEY ACT OF 2002**

I, Daryl N. Bible, state and attest that:

(1) I am the Senior Executive Vice President and Chief Financial Officer of BB&T Corporation (the “Issuer”).

(2) Accompanying this certification is the Issuer’s Quarterly Report on Form 10-Q for the period ended March 31, 2009, (the “Periodic Report”) as filed by the Issuer with the Securities and Exchange Commission pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), which contains financial statements.

(3) I hereby certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that

- the Periodic Report containing the financial statements fully complies with the requirements of Section 13(a) or 15(d) of the Exchange Act, and
- the information contained in the Periodic Report fairly presents, in all material respects, the financial condition and results of operations of the Issuer for the periods presented.

/s/ Daryl N. Bible
