Forward-Looking Information

This presentation contains forward-looking statements with respect to the financial condition, results of operations and businesses of BB&T. Statements that are not historical or current facts or statements about beliefs and expectations are forward-looking statements. Words such as “anticipates,” “believes,” “estimates,” “expects,” “forecasts,” “intends,” “plans,” “projects,” “may,” “will,” “should,” and other similar expressions are intended to identify these forward-looking statements. Forward-looking statements involve certain risks and uncertainties and are based on the beliefs and assumptions of the management of BB&T, and the information available to management at the time that this presentation was prepared. Factors that may cause actual results to differ materially from those contemplated by such forward-looking statements include, among others, the following: (1) general economic or business conditions, either nationally or regionally, may be less favorable than expected, resulting in, among other things, a deterioration in credit quality and / or a reduced demand for credit or other services; (2) disruptions to the credit and financial markets, either nationally or globally, including the impact of a downgrade of U.S. government obligations by one of the credit rating agencies and the adverse effects of the ongoing sovereign debt crisis in Europe; (3) changes in the interest rate environment may reduce net interest margins and / or the volumes and values of loans made or held as well as the value of other financial assets held; (4) competitive pressures among depository and other financial institutions may increase significantly; (5) legislative or regulatory changes, including changes resulting from the adoption and implementation of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, and changes in accounting standards, may adversely affect the businesses in which BB&T is engaged; (6) local, state or federal taxing authorities may take tax positions that are adverse to BB&T; (7) reduction in BB&T’s credit ratings; (8) adverse changes may occur in the securities markets; (9) competitors of BB&T may have greater financial resources and develop products that enable them to compete more successfully than BB&T and may be subject to different regulatory standards than BB&T; (10) costs or difficulties related to the integration of the businesses of BB&T and its merger partners may be greater than expected; (11) unpredictable natural or other disasters could have an adverse effect on BB&T in that such events could materially disrupt BB&T’s operations or the ability or willingness of BB&T’s customers to access the financial services BB&T offers; (12) expected cost savings associated with completed mergers and acquisitions may not be fully realized or realized within the expected time frames; and (13) deposit attrition, customer loss and/or revenue loss following completed mergers and acquisitions, may be greater than expected. These and other risk factors are more fully described in BB&T’s Annual Report on Form 10-K for the year ended December 31, 2010 under the section entitled “Risk Factors Related to BB&T’s Business,” its Quarterly Report on Form 10-Q for the quarter ended June 30, 2011 under the section entitled, “Item 1A. Risk Factors” and from time to time, in other filings with the Securities and Exchange Commission. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this presentation. Actual results may differ materially from those expressed in or implied by any forward-looking statements. Except to the extent required by applicable law or regulation, BB&T undertakes no obligation to revise or update publicly any forward-looking statements for any reason.

Non-GAAP Information

This presentation contains financial information and performance measures determined by methods other than in accordance with accounting principles generally accepted in the United States of America (“GAAP”). BB&T’s management uses these “non-GAAP” measures in their analysis of the corporation’s performance and the efficiency of its operations. Management believes that these non-GAAP measures provide a greater understanding of ongoing operations and enhance comparability of results with prior periods as well as demonstrating the effects of significant gains and charges in the current period. The company believes that a meaningful analysis of its financial performance requires an understanding of the factors underlying that performance. BB&T’s management believes that investors may use these non-GAAP financial measures to analyze financial performance without the impact of unusual items that may obscure trends in the company’s underlying performance. These disclosures should not be viewed as a substitute for financial measures determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies. In this presentation, these measures are generally marked as “non-GAAP” and are accompanied with disclosure regarding why BB&T’s management believes such measures are useful to investors. Below is a listing of the types of non-GAAP measures used in this presentation:

- ❖ Tangible common equity and Tier 1 common equity ratios are non-GAAP measures. BB&T uses the Tier 1 common equity definition used in the SCAP assessment to calculate these ratios. BB&T’s management uses these measures to assess the quality of capital and believes that investors may find them useful in their analysis of the corporation. These capital measures are not necessarily comparable to similar capital measures that may be presented by other companies.
- ❖ Asset quality ratios have been adjusted to remove the impact of acquired loans and foreclosed property covered by FDIC loss sharing agreements as management believes their inclusion results in distortion of those ratios and may not be comparable to other periods presented or to other portfolios that were not impacted by purchase accounting.
- ❖ Fee income and efficiency ratios are non-GAAP in that they exclude securities gains (losses), foreclosed property expense, amortization of intangible assets, merger-related and restructuring charges, the impact of FDIC loss share accounting and other selected items.
- ❖ The Basel III calculations are non-GAAP measures and reflect adjustments for the related elements as proposed by regulatory authorities, which are subject to change. BB&T management uses these measures to assess the quality of capital and believes that investors may find them useful in their analysis of the Corporation. These capital measures are not necessarily comparable to similar capital measures that may be presented by other companies.

A reconciliation of these non-GAAP measures to the most directly comparable GAAP measure is included on the Investor Relations section of BB&T’s website (www.BBT.com/investor) and as an appendix to this presentation.

2011 Fourth Quarter Performance Highlights¹

Earnings

- Net income² totaled \$391 million, up 88.0% vs. 4Q10
- EPS totaled \$0.55, up 83.3% vs. 4Q10
- Strongest quarterly earnings in more than 3 years

Revenues

- Net interest income³ totaled \$1.5 billion, up 9.6% vs. 3Q11
- Net operating revenue^{3,5} totaled \$2.3 billion, up 11.8% vs. 3Q11

Loans

- Average loan growth was 7.3% vs. 3Q11
- Average loan growth excluding ADC, covered and other acquired portfolios was 10.1% vs. 3Q11
- Pace of growth accelerated in the quarter
- Loan growth was led by C&I, Mortgage and Direct Retail

Deposits

- Average noninterest-bearing deposits increased \$1.8 billion, or 31.3% in 4Q11 vs. 3Q11
- Average total deposits increased \$6.9 billion, or 23.7% vs. 3Q11

Credit Quality

- Significant progress in credit quality, highlighted by OREO reduction strategy
- NPAs decreased \$519 million, or 17.5%⁴
- Foreclosed property decreased \$408 million, or 41.4%⁴

¹ Linked quarter growth rates are annualized, except for credit metrics.

² Available to common shareholders.

³ Fully taxable equivalent.

⁴ Excludes covered assets.

⁵ Excludes securities gains, the FDIC loss share provision offset and write-downs on NPLs sold from HFS.

Unusual Items Affecting Earnings

\$ in millions, except per share impact

	Pretax	After Tax	EPS
Securities gains, net	\$103	\$64	\$0.09
Additional OREO valuation adjustment¹	(220)	(137)	(0.19)
Merger-related and restructuring charges²	(16)	(10)	(0.01)
Losses / write-downs to conclude previously-announced NPL disposition strategy	(11)	(7)	(0.01)
Visa indemnification charge	(11)	(7)	(0.01)

¹ Results from valuation adjustment in connection with more aggressive disposition strategy for OREO.

² Includes personnel-related accruals in connection with Expense Optimization Strategy and BankAtlantic merger-related expenses.

Broad-based Loan Growth

Average Loans Held for Investment
(\$ in billions)

- Growth gained momentum during the quarter, with EOP loans up \$2.8 billion, an annualized rate of 10.5%
- Loan pipelines remain robust
- Focus remains on high-quality, granular and diverse portfolios
- Experienced strong growth in C&I, direct retail, revolving credit, mortgage, equipment finance, commercial mortgage and consumer finance
- Average total loan growth is expected to be in the 5% to 7% range annualized for 1Q12, contingent on the economy

Average Loan Growth Highlights¹

(\$ in millions)

	4Q11 Average Balance	4Q11 vs. 3Q11 \$ Increase (Decrease)	4Q11 vs. 3Q11 Annualized % Increase (Decrease)
C&I	\$ 35,232	\$ 952	11.0 %

Covered and other acquired loans	5,151	(239)	(17.6)
Total	\$ 105,806	\$1,924	7.3 %

¹ Excludes Loans Held for Sale.

Driving Growth in Lower Cost Deposits

- Interest bearing deposit cost decreased to 0.56% in 4Q11, compared to 0.65% in 3Q11
- Growth in CDs picked up despite a 16 bps decrease in cost
- Average CD maturity is 13 months
- Management currently expects more moderate deposit growth in 1Q12 and continued reductions in deposit costs

Average Deposit Growth Highlights

(\$ in millions)

	4Q11 Average Balance	4Q11 vs. 3Q11 \$ Increase (Decrease)	4Q11 vs. 3Q11 Annualized % Increase (Decrease)
Noninterest-bearing deposits	\$ 25,216	\$ 1,846	31.3 %
Interest checking	19,467	463	9.7
Money market & savings	44,789	2,615	24.6
Certificates and other time deposits	32,290	2,150	28.3
Foreign office deposits – interest-bearing	163	(205)	NM
Total deposits	\$ 121,925	\$ 6,869	23.7 %

NPAs Decrease 17.5%¹

Lowest Levels Since 4Q08

- 17.5% reduction in NPAs vs. 3Q11, seven sequential quarterly declines
- Commercial NPLs, including held for sale, decreased 8.1% vs. 3Q11
- Reduction in key commercial credit quality measures vs. 3Q11 (Watch list, inflows, performing TDRs, delinquencies, NPLs, OREO)
- Management expects NPAs to decrease approximately 5% - 10% in 1Q12 assuming no significant economic deterioration (excludes any special OREO sales)

¹ Excludes covered assets.

Aggressive OREO Reduction Strategy Proves Effective

OREO inflows decreased 57.3% vs. 4Q10

- Foreclosed property balances decreased 41.4% vs. 3Q11
- Successful quarter executing a more aggressive OREO strategy

- ❑ Minimize inflows
- ❑ Strong sales results and pipeline momentum
- ❑ Liquidity mark reflects shift to more accelerated disposal strategy with focus on land-related assets

OREO balances down 55.6% vs. 4Q10

- Foreclosed property expense will decrease significantly in 2012
- ❑ Will trend lower throughout the year
- ❑ Quarterly expense will average less than \$100 million

¹ Excludes covered assets.

Losses Consistent with Expectations¹

- 4Q11 net charge-offs of 1.46% remained flat with 3Q11 and consistent with previous guidance
- 2011 full year net charge-offs of 1.59% down significantly vs. 2.59% in 2010
- Net charge-offs continue to be at the lowest levels in three years
- Expect total charge-offs to be approximately 1.30% in 1Q12 and trend lower throughout the year

¹ Excludes covered loans and covered charge-offs.

Maintaining Conservative Allowance Levels

- Excluding covered assets and the reserve for unfunded commitments, the allowance was reduced \$135 million in 4Q11 due to better credit quality and improved risk distribution in recent originations
- BB&T will remain conservative in our approach to the allowance and coverage levels given continued economic uncertainty
- Continued improvement in credit trends should allow for lower provisions and significantly reduced credit costs in future quarters

¹ Excludes covered loans.

Margin Remains Strong

Net Interest Margin

- Core margin is stable, benefiting from declining cost of funds, offset by lower yields on earning assets
- Net interest income increased 9.6% annualized linked quarter
- Expect margin to decline to the 3.85% to 3.95% range in 1Q12 driven by:

- ❑ Runoff of covered assets
- ❑ Overall lower interest rate environment
- ❑ Lower investment yields

- Lower margin in 2012 will be substantially offset due to higher fee income
- We continue to have an asset sensitive balance sheet positioned for rising rates

Rate Sensitivities

BB&T Expands Securities Portfolio

Portfolio Composition

- Agency MBS CMOs
- Agency MBS Passthroughs
- States and political subdivisions
- Covered Securities
- Other
- Non Agency MBS

- Purchased \$9.4 billion in securities in 4Q11 including \$5.4 billion of GNMA MBS
- Approximately 99% of the portfolio is backed by government or government agencies
- Effective duration is 3.3 years at year end 2011
- Management does not anticipate further expansion of the securities portfolio
- Approximately 28% of portfolio is comprised of variable rate securities

Fee Income

Fee Income Ratio¹

- Insurance commissions increased due to improved results in property and casualty and employee benefits commissions
- Mortgage banking income increased vs. 3Q11 due to an increase in gains on loans sold and increased production
- Checkcard fees reflects the impact of new interchange rules
- FDIC loss share income improved due to an offset for the provision of covered loans and a decline in the performance of covered loans vs. 3Q11
- Noninterest income includes \$103 million in securities gains, net, in 4Q11
- Other income increased due to lower write-downs on nonperforming loans held for sale and increased income related to certain post-employment benefits and higher income from partnership and other investments

Noninterest Income

(\$ in millions)

	4Q11	4Q11 v. 3Q11 ² Increase (Decrease)	4Q11 v. 4Q10 Increase (Decrease)
Insurance income	\$ 254	21.4 %	2.0 %

FDIC loss share income, net	(46)	NM	NM
Securities gains (losses), net	103	NM	4.0
Other income	90	NM	100.0
Total noninterest income	\$ 922	133.4 %	(4.4) %

¹ Excludes securities gains (losses), the impact of FDIC loss share accounting and other selected items. See Non-GAAP Reconciliations included in the attached Appendix.

² Linked quarter percentages are annualized.

Noninterest Expenses and Efficiency

- Foreclosed property expense increased significantly due to write-downs in connection with the more aggressive OREO disposition strategy
- Professional services expense decreased due to lower legal expenses
- Occupancy and equipment expense reflects higher real estate taxes
- Other expenses improved largely due to a loss on the sale of a leveraged lease last quarter offset by an increase in the Visa indemnification reserve in 4Q11
- Excluding foreclosed property expense, noninterest expense would have increased 1.0% vs. 4Q10

Noninterest Expense

(\$ in millions)

	4Q11	4Q11 v. 3Q11 ² Increase (Decrease)	4Q11 v. 4Q10 Increase (Decrease)
Personnel expense	\$ 679	4.7 %	- %
Foreclosed property expense	346	NM	113.6
Occupancy and equipment expense	159	21.0	2.6
Professional services	49	(49.6)	2.1

Software expense	33	39.7	10.0
Merger-related and restructuring charges, net	16	NM	NM
Other expenses	207	(16.5)	1.0
Total noninterest expense	\$ 1,618	56.3 %	13.9 %

- Excluding the impact of the 2010 state return true-ups and deferred tax repricing, the 4Q11 effective tax rate was in line with our expectations at 20.0%.

¹ Excludes securities gains (losses), foreclosed property expense, amortization of intangible assets, merger-related and restructuring charges, the impact of FDIC loss share accounting, and other selected items. See Non-GAAP Reconciliations included in the attached Appendix.

² Linked quarter percentages are annualized.

Capital Strength¹

Tier 1 Common Ratio

- Regulatory capital ratios declined due to faster earning asset growth in 4Q11
- BB&T estimates Tier 1 common under Basel III is 8.8%
- Consistent plans for capital deployment
 - ❑ Organic growth
 - ❑ Dividends
 - ❑ Strategic opportunities
 - ❑ Share buyback
- Our CCAR submission is consistent with this order of preference

Tier 1 Capital Ratio

¹ Current quarter regulatory capital information is preliminary. Risk-weighted assets are determined based on regulatory capital requirements. Under the regulatory framework for determining risk-weighted assets each asset class is assigned a risk-weighting of 0%, 20%, 50% or 100% based on the underlying risk of the specific asset class. In addition, off balance sheet exposures are first converted to a balance sheet equivalent amount and subsequently assigned to one of the four risk-weightings. Tangible common equity and Tier 1 common equity ratios are Non-GAAP measures. BB&T uses the Tier 1 common equity definition used in the SCAP assessment to calculate these ratios. BB&T's management uses these measures to assess the quality of capital and believes that investors may find them useful in their analysis of the Corporation. These capital measures are not necessarily comparable to similar capital measures that may be presented by other companies.

% Non-Accrual (HFI only)	1.28%	2.26%
Net Charge-Offs (HFI only)	0.86%	1.33%

- Net income increased vs. 4Q10 driven by lower loan loss provision as the credit quality of the Residential Mortgage portfolio continues to improve
- Linked quarter growth in revenue resulted due to \$18.2 million increase in gains on sales of loans and growth in loan originations of \$2.9 billion
- Repurchase activity continues to track at a very low level. The net increase in the repurchase reserve was only \$4.0 million in 4Q11

¹ Noninterest Income includes intersegment net referral fee income.

² Noninterest Expense includes net referral fee expense, amortization of intangibles, and allocated corporate expense.

Dealer Financial Segment

Primarily originates indirect to consumers on a prime and nonprime basis for the purchase of automobiles and other vehicles through approved dealers both in BB&T's market and nationally (through Regional Acceptance Corporation)

Comments

- Higher noninterest income was driven by organic growth, primarily from McGriff, Seibels & Williams, as well as the acquisition of three new agencies
- Closed three transactions in 4Q11: Precept, Liberty Benefits, and Atlantic Risk
 - ❑ Precept and Liberty Benefits will help align Insurance Services' employee benefits strategy with anticipated healthcare reform measures
- Experiencing continued strong retention rates
- Anticipate future growth, both organically and strategically in 2012

¹ Noninterest Income includes intersegment net referral fee income.

² Noninterest Expense includes net referral fee expense, amortization of intangibles, and allocated corporate expense.

¹ Current quarter regulatory capital information is preliminary.

² Risk-weighted assets are determined based on regulatory capital requirements. Under the regulatory framework for determining risk-weighted assets each asset class is assigned a risk-weighting of 0%, 20%, 50% or 100% based on the underlying risk of the specific asset class. In addition, off balance sheet exposures are first converted to a balance sheet equivalent amount and subsequently assigned to one of the four risk-weightings.

³ Tangible common equity and Tier 1 common equity ratios are Non-GAAP measures. BB&T uses the Tier 1 common equity definition used in the SCAP assessment to calculate these ratios. BB&T's management uses these measures to assess the quality of capital and believes that investors may find them useful in their analysis of the Corporation. These capital measures are not necessarily comparable to similar capital measures that may be presented by other companies.

³ These asset quality ratios have been adjusted to remove the impact of covered loans and covered foreclosed property. Appropriate adjustments to the numerator and denominator have been reflected in the calculation of these ratios. Management believes the inclusion of covered loans in certain asset quality ratios that include nonperforming assets, past due loans or net charge-offs in the numerator or denominator results in distortion of these ratios and they may not be comparable to other periods presented or to other portfolios that were not impacted by purchase accounting.

⁴ Excluding the impact of losses and balances associated with BB&T's NPL disposition strategy, the adjusted net charge-offs ratio would have been 1.46% and 2.07% for the second quarter of 2011 and the fourth quarter of 2010, respectively.
