SOUTHERN NATURAL GAS COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Basis of Presentation

Our 2001 Annual Report on Form 10-K includes a summary of our significant accounting policies and other disclosures. You should read it in conjunction with this Quarterly Report on Form 10-Q. The financial statements as of March 31, 2002, and for the quarters ended March 31, 2002 and 2001, are unaudited. The balance sheet as of December 31, 2001, is derived from the audited balance sheet filed in our Form 10-K. These financial statements have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission and do not include all disclosures required by accounting principles generally accepted in the United States. In our opinion, we have made all adjustments, all of which are of a normal, recurring nature, to fairly present our interim period results. Information for interim periods may not necessarily indicate the results of operations for the entire year due to the seasonal nature of our businesses. The prior period information also includes reclassifications which were made to conform to the current period presentation. These reclassifications have no effect on our reported net income or stockholders' equity.

Our accounting policies are consistent with those discussed in our Form 10-K.

2. Debt and Other Credit Facilities

We had the following current maturities of long-term debt:

	<u>March 31, 2002</u>	<u>December 31, 2001</u>
	(In millions)	
Current maturities of long-term debt	<u>\$100</u>	<u>\$200</u>

In January 2002, we filed a shelf registration statement increasing the amount of debt we can issue from \$100 million to \$300 million. In February 2002, we issued \$300 million aggregate principal amount of 8.0% notes due 2032. Net proceeds were approximately \$297 million, net of issuance costs. This issuance used the remaining capacity on our shelf registration statement, and proceeds were used to pay off \$100 million of our 7.85% notes due 2002 and for other general purposes.

In May 2002, we repaid \$100 million of our 8.625% notes due 2002.

3. Commitments and Contingencies

Legal Proceedings

In 1997, we and a number of our affiliates were named defendants in actions brought by Jack Grynberg on behalf of the U.S. Government under the False Claims Act. Generally, these complaints allege an industry-wide conspiracy to under report the heating value as well as the volumes of the natural gas produced from federal and Native American lands, which deprived the U.S. Government of royalties. These matters have been consolidated for pretrial purposes (In re: Natural Gas Royalties *Qui Tam* Litigation, U.S. District Court for the District of Wyoming, filed June 1997). In May 2001, the court denied the defendants' motions to dismiss.

We and a number of our affiliates were named defendants in *Quinque Operating Company, et al v. Gas Pipelines and Their Predecessors, et al*, filed in 1999 in the District Court of Stevens County, Kansas. This class action complaint alleges that the defendants mismeasured natural gas volumes and heating content of natural gas on non-federal and non-Native American lands. The Quinque complaint was transferred to the same court handling the Grynberg complaint and has now been sent back to Kansas State Court for further proceedings. A motion to dismiss this case is pending.

We are also a named defendant in numerous lawsuits and a named party in numerous governmental proceedings arising in the ordinary course of our business.

While the outcome of the matters discussed above cannot be predicted with certainty, based on information known to date, we do not expect the ultimate resolution of these matters will have a material adverse effect on our ongoing financial position, operating results or cash flows.

Environmental Matters

We are subject to extensive federal, state and local laws and regulations governing environmental quality and pollution control. These laws and regulations require us to remove or remedy the effect on the environment of the disposal or release of specified substances at current and former operating sites. As of March 31, 2002, we had a reserve of approximately \$9 million for expected remediation costs. In addition, we expect to make capital expenditures for environmental matters of approximately \$7 million in the aggregate for the years 2002 through 2007. These expenditures primarily relate to compliance with clean air regulations.

We have been designated and have received notice that we could be designated, or have been asked for information to determine whether we could be designated, as a Potentially Responsible Party with respect to one active site under the Comprehensive Environmental Response, Compensation and Liability Act or state equivalents. We are currently evaluating our potential share, if any, of the remediation costs.

It is possible that new information or future developments could require us to reassess our potential exposure related to environmental matters. We may incur significant costs and liabilities in order to comply with existing environmental laws and regulations. It is also possible that other developments, such as increasingly strict environmental laws and regulations and claims for damages to property, employees, other persons and the environment resulting from our current or past operations, could result in substantial costs and liabilities in the future. As this information becomes available, or other relevant developments occur, we will adjust our accrual amounts accordingly. While there are still uncertainties relating to the ultimate costs we may incur, based on our evaluation and experience to date, we believe the recorded reserves are adequate.

Rates and Regulatory Matters

In February 2000, the Federal Energy Regulatory Commission (FERC) issued Order No. 637 which revised regulations regarding capacity release, capacity segmentation, imbalance management services, operational flow orders and pipeline penalties. On July 2, 2001, we filed a settlement addressing our compliance with Order No. 637. We received an order on the settlement from the FERC on April 11, 2002. The FERC approved our settlement, subject to modifications related to our segmentation proposal, and rejected our proposed changes to our cash-out mechanism. We are seeking rehearing and will make another compliance filing subject to the outcome of our rehearing request.

In March 2000, the FERC issued an order which authorized the recommissioning of our Elba Island Liquefied Natural Gas (LNG) receiving terminal near Savannah, Georgia. In July 2001, the FERC issued a final order approving a modification of the sendout facilities at the terminal subject to several conditions. In October 2001, we received an initial cargo of LNG in order to test the facilities. In October 2001, we also applied to increase Elba Island's initial rates to reflect an increase in capital and expenses, primarily associated with expenditures mandated by the FERC. In November 2001, the FERC authorized us to commence service on December 1, 2001, but denied our October 2001 request to amend the initial rates, indicating that the increase should be filed in a limited Section 4 proceeding. In December 2001, we filed a limited proceeding with the FERC to increase rates and received an order accepting the new rates effective March 1, 2002, subject to refund. The increase in capital over the previously approved level is approximately \$43 million. A major intervener is currently opposing this increase in cost, and this proceeding is set for a hearing in November 2002. We have established estimated monthly reserve levels that represent revenues collected subject to refund.

In May 2000, we filed an application with the FERC to expand our pipeline system by 336 million cubic feet of natural gas per day at an estimated cost of \$141 million to serve new power generation loads being sited adjacent to our system. We received a certificate order from the FERC in March 2001. In July 2001, the FERC approved an amendment to the project, which reduced its cost slightly. The Alabama Municipal

Distributors Group and others filed appeals of the FERC's orders authorizing this project in the D.C. Circuit Court of Appeals.

In September 2001, the FERC issued a Notice of Proposed Rulemaking (NOPR). The NOPR proposes to apply the standards of conduct governing the relationship between interstate pipelines and marketing affiliates to all energy affiliates. The proposed regulations, if adopted by the FERC, would dictate how all our energy affiliates conduct business and interact with our interstate pipelines. In December 2001, we filed comments with the FERC addressing our concerns with the proposed rules. In April 2002, the FERC Staff issued a notice of a public conference to be held on May 21, 2002, at which interested parties will be given an opportunity to comment further on the NOPR. We cannot predict the outcome of the NOPR, but adoption of the regulations in substantially the form proposed would, at a minimum, place additional administrative and operational burdens on us.

In October 2001, we filed an application with the FERC to expand our south system by 359.8 million cubic feet of natural gas per day at an estimated cost of \$247 million, to serve existing, new and expanded gas-fired electric generation facilities. The construction will be undertaken in two phases, with a target in-service date for the Phase I facilities of June 1, 2003, and for the Phase II facilities of May 1, 2004. Two shippers subsequently requested a delay in the commencement of their services, and one shipper requested a reduced service quantity. As a result, in April 2002, we filed an amendment to the certificate application to reflect these changes. This application remains pending before the FERC.

4. Related Party Transactions

We participate in El Paso Corporation's cash management program which matches short-term cash surpluses and needs of its participating affiliates, thus minimizing total borrowing from outside sources. We had advanced \$593 million at March 31, 2002, at a market rate of interest which was 1.9%. At December 31, 2001, we had advanced \$371 million at a market rate of interest which was 2.1%.

At December 31, 2001, we had accounts receivable from affiliates of \$1 million. In addition, we had accounts payable to affiliates of \$8 million at March 31, 2002, and \$7 million at December 31, 2001. These balances arose in the normal course of business.

5. New Accounting Pronouncements Issued But Not Yet Adopted

Accounting for Asset Retirement Obligations

In August 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 143, *Accounting for Asset Retirement Obligations*. This Statement requires companies to record a liability relating to the retirement and removal costs of assets used in their business. The liability is discounted to its present value, and the related asset value is increased by the amount of the resulting liability. Over the life of the asset, the liability will be accreted to its future value and eventually extinguished when the asset is taken out of service. Capitalized retirement and removal costs will be depreciated over the useful life of the related asset. The provisions of this Statement are effective for fiscal years beginning after June 15, 2002. We are currently evaluating the effects of this pronouncement.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The information contained in Item 2 updates, and you should read it in conjunction with, information disclosed in our Annual Report on Form 10-K filed March 20, 2002, in addition to the financial statements and notes presented in Item 1, Financial Statements, of this Quarterly Report on Form 10-Q.

Results of Operations

Below are the operating results and an analysis of these results for the quarters ended March 31:

	<u>2002</u>	<u>2001</u>
	<u>(In millions, except volume amounts)</u>	
Operating revenues	\$ 103	\$ 111
Operating expenses	(53)	(62)
Other income, net	5	6
Earnings before interest expense and income taxes	<u>\$ 55</u>	<u>\$ 55</u>
Throughput volumes (BBtu/d) ⁽¹⁾	<u>2,283</u>	<u>2,231</u>

⁽¹⁾ BBtu/d means billion British thermal units per day.

In March 2000, the FERC issued an order allowing us to reactivate our Elba Island LNG facility. The facility received its first LNG shipment in October 2001 and was officially placed in service on December 1, 2001.

Operating revenues for the quarter ended March 31, 2002, were \$8 million lower than the same period in 2001. The decrease is primarily due to lower prices in the first quarter of 2002 on sales under natural gas purchase contracts and on sales of excess natural gas recoveries. Partially offsetting the decrease were revenues from our Elba Island facility which was placed in service in December 2001 and increased throughput from our interruptible transportation service in 2002.

Operating expenses for the quarter ended March 31, 2002, were \$9 million lower than the same period in 2001 primarily due to lower purchased natural gas costs due to lower prices in the first quarter of 2002. The decrease was partially offset by higher operating expenses from our Elba Island facility and higher corporate overhead allocations in the first quarter of 2002.

Interest and Debt Expense

Non-Affiliated Interest and Debt Expense

Non-affiliated interest and debt expense for the quarter ended March 31, 2002, was \$2 million higher than the same period in 2001 due to increased net long-term borrowings in the first quarter of 2002.

Affiliated Interest Income

Affiliated interest income, net for the quarter ended March 31, 2002, was \$3 million lower than the same period in 2001 primarily due to lower short-term interest rates in 2002 on average advances to El Paso Corporation under our cash management program.

Income Taxes

The income tax expense for the quarters ended March 31, 2002 and 2001, was \$16 million and \$18 million, resulting in effective tax rates of 37 percent and 38 percent. Our effective tax rates were different than the statutory rate of 35 percent primarily due to state income taxes.

Commitments and Contingencies

See Item 1, Financial Statements, Note 3, which is incorporated herein by reference.

New Accounting Pronouncements Not Yet Adopted

See Item 1, Financial Statements, Note 5, which is incorporated herein by reference.

**CAUTIONARY STATEMENT FOR PURPOSES OF THE “SAFE HARBOR” PROVISIONS OF
THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995**

This report contains or incorporates by reference forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Where any forward-looking statement includes a statement of the assumptions or bases underlying the forward-looking statement, we caution that, while we believe these assumptions or bases to be reasonable and to be made in good faith, assumed facts or bases almost always vary from the actual results, and the differences between assumed facts or bases and actual results can be material, depending upon the circumstances. Where, in any forward-looking statement, we or our management express an expectation or belief as to future results, that expectation or belief is expressed in good faith and is believed to have a reasonable basis. We cannot assure you, however, that the statement of expectation or belief will result or be achieved or accomplished. The words “believe,” “expect,” “estimate,” “anticipate” and similar expressions will generally identify forward-looking statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

This information updates, and you should read it in conjunction with, information disclosed in Part II, Item 7A in our Annual Report on Form 10-K for the year ended December 31, 2001, in addition to the information presented in Items 1 and 2 of this Quarterly Report on Form 10-Q.

There are no material changes in our quantitative and qualitative disclosures about market risks from those reported in our Annual Report on Form 10-K for the year ended December 31, 2001.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

See Part I, Financial Information, Note 3, which is incorporated herein by reference.

Item 2. Changes in Securities and Use of Proceeds

None.

Item 3. Defaults upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security-Holders

None.

Item 5. Other Information

None.

Item 6. Exhibits and Reports on Form 8-K

a. Exhibits

None.

Undertaking

We hereby undertake, pursuant to Regulation S-K, Item 601(b), paragraph (4)(iii), to furnish to the U.S. Securities and Exchange Commission, upon request, all constituent instruments defining the rights of holders of our long-term debt not filed herewith for the reason that the total amount of securities authorized under any of such instruments does not exceed 10 percent of our total consolidated assets.

b. Reports on Form 8-K

We filed a current report on Form 8-K dated February 26, 2002, filing exhibits in connection with an offering of \$300 million in 8.0% notes due March 1, 2032.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
