FOR IMMEDIATE RELEASE

HOME PROPERTIES REPORTS FIRST QUARTER 2008 RESULTS
FFO Per Share Exceeds Wall Street's Mean Estimate by 1 Cent

ROCHESTER, NY, APRIL 24, 2008 – Home Properties (NYSE:HME) today released financial results for the first quarter ending March 31, 2008. All results are reported on a diluted basis.

“First quarter 2008 growth in Funds from Operations (FFO) per share compared to the first quarter of 2007 was quite an achievement considering we had a very tough comparison with last year when Operating FFO increased 20% in the first quarter of 2007 versus 2006, which was the highest growth of any quarter in the Company’s history,” said Home Properties President and CEO Edward J. Pettinella. “In a deteriorating economy, Home Properties’ fundamentals have remained solid. Occupancy is at the highest level since 2000, rents and revenues are up – all reflective of the defensive nature of our business niche and geographic markets, which are more protected in a weakening environment. Our outlook for the balance of the year is cautiously optimistic.”

Earnings per share ("EPS") for the quarter ended March 31, 2008 was \$0.80, compared to \$0.15 for the quarter ended March 31, 2007. The increase is primarily attributable to a \$29.8 million (before the allocation of minority interest), or \$0.65 per share, gain on sale of real estate in the current quarter.

For the quarter ended March 31, 2008, Funds From Operations ("FFO") was \$36.5 million, or \$0.79 per share, compared to \$34.4 million, or \$0.73 per share, for the quarter ended March 31, 2007, an increase of 9.1%. Excluding the effects of the \$1.9 million charge related to the Series F Preferred Share redemption in the first quarter of 2007, Operating FFO was \$36.3 million, or \$0.77 per share, for the quarter ended March 31, 2007. First quarter 2008 Operating FFO of \$0.79 per share was at the high end of the guidance range provided by management and exceeded analysts’ mean estimate, as reported by Thomson, by \$0.01 and equates to a 3.4% increase from the prior year. A reconciliation of GAAP net income to FFO is included in the financial data accompanying this news release.

First Quarter Operating Results

For the first quarter of 2008, same-property comparisons (for 110 “Core” properties containing 35,189 apartment units owned since January 1, 2007) reflected an increase in total revenues of 3.5% compared to the same quarter a year ago. Net operating income (“NOI”) increased by 4.0% from the first quarter of 2007. Property level operating expenses increased by 3.0% for the quarter, primarily due to increases in repairs and maintenance, property insurance, real estate taxes, and trash removal costs, which were partially offset by a reduction in natural gas heating costs and snow removal costs.

Average physical occupancy for the Core properties was 94.9% during the first quarter of 2008, compared to 94.4% during the first quarter of 2007. Average monthly rental rates (including utility reimbursements) increased 3.4% compared to the year-ago period. The 3.4% increase in

rental rates, plus a 0.1% increase in economic occupancy, produced 3.5% growth in both rental and total income.

On a sequential basis, compared to the 2007 fourth quarter results for the Core properties, total revenues were up 2.4% in the first quarter of 2008, expenses were up 5.9%, and net operating income was down 0.1%. Average physical occupancy increased 0.3% to 94.9%, and average monthly rental rates (including utility reimbursements) were 2.1% higher. The sequential expense growth can be attributed to typical seasonality of higher natural gas heating and snow removal costs incurred in the first quarter, partially offset by lower maintenance costs.

Physical occupancy for the 1,709 apartment units acquired/developed between January 1, 2007 and March 31, 2008 (the "Recently Acquired Communities") averaged 94.7% during the first quarter of 2008.

Acquisitions and Property Development

On March 4, 2008, the Company acquired a 1.4 acre development parcel located in Silver Spring, MD for \$15.9 million. The Company is proceeding with the approval of a final site plan, developed by the prior owner, which includes the construction of up to 314 apartment units and approximately 5,300 square feet of retail space.

Dispositions

During the first quarter of 2008, the Company closed on three separate sale transactions, with a total of 598 units, for \$64.5 million. A gain on sale of \$30.0 million, before the allocation of minority interest, was recorded in the quarter related to these sales. The weighted cap rate for these dispositions was 6.25%.

Capital Markets Activities

As of March 31, 2008, the Company's ratio of debt-to-total market capitalization was 50.5% (based on the March 31, 2008 stock price of \$47.99 to determine equity value), with \$54 million outstanding balance on its \$140 million revolving credit facility and \$5.3 million of unrestricted cash on hand. Total debt of \$2.2 billion was outstanding, at rates of interest averaging 5.5% and with staggered maturities averaging approximately seven years. Approximately 96.4% of total indebtedness is at fixed rates. Interest coverage averaged 2.2 times during the quarter, and the fixed charge ratio averaged 2.1 times for the quarter.

During the first quarter of 2008, the Company repurchased 1,071,588 of its common shares for \$50 million, or a weighted average price of \$46.66 per share. As of March 31, 2008, the Company has Board authorization to buy back up to 291,160 additional shares of its common stock or Operating Partnership Units. Management expects to request Board authorization to repurchase up to an additional two million shares/units at the Board's regularly scheduled May 1, 2008 meeting.

Outlook

For 2008, the Company has reconfirmed the \$3.39 midpoint of its guidance while tightening the range to \$3.33 to \$3.45 per share from \$3.31 to \$3.47. The new range will produce FFO per

share growth of 4.0% to 7.7% when compared to 2007 results. This guidance range reflects management's current assessment of economic and market conditions.

The quarterly breakdown for the balance of 2008 guidance is as follows: Second quarter \$0.84 to \$0.88; third quarter \$0.86 to \$0.90; fourth quarter \$0.84 to \$0.88.

This press release contains forward-looking statements. Although the Company believes expectations reflected in such forward-looking statements are based on reasonable assumptions, it can give no assurance that its expectations will be achieved. Factors that may cause actual results to differ include general economic and local real estate conditions, the weather and other conditions that might affect operating expenses, the timely completion of repositioning and new development activities within anticipated budgets, the actual pace of future acquisitions and dispositions, and continued access to capital to fund growth.

Home Properties is a publicly traded apartment real estate investment trust that owns, operates, develops, acquires and rehabilitates apartment communities primarily in selected Northeast, Mid-Atlantic and Southeast Florida markets. Currently, Home Properties operates 118 communities containing 38,048 apartment units. Of these, 36,898 units in 116 communities are owned directly by the Company; 868 units are partially owned and managed by the Company as general partner, and 282 units are managed for other owners. ⁽¹⁾ Pursuant to the revised definition of Funds From Operations adopted by the Board of Governors of the National Association of Real Estate Investment Trusts ("NAREIT"), FFO is defined as net income (computed in accordance with accounting principles generally accepted in the United States of America ("GAAP")) excluding gains or losses from disposition of property, minority interest and extraordinary items plus depreciation from real property. In 2008, the Company added back debt extinguishment costs which were incurred as a result of repaying property specific debt triggered upon sale as a gain or loss on sale of the property. Because of the limitations of the FFO definition as published by NAREIT as set forth above, the Company has made certain interpretations in applying the definition. The Company believes all adjustments not specifically provided for are consistent with the definition. Other similarly titled measures may not be calculated in the same manner.

⁽³⁾ Basic includes common stock outstanding plus operating partnership units in Home Properties, L.P., which can be converted into shares of common stock. Diluted includes additional common stock equivalents.

⁽⁴⁾ Operating FFO is defined as FFO as computed in accordance with NAREIT definition, adjusted for the addback of preferred stock redemption costs. This is presented for a consistent comparison of how NAREIT defined FFO in 2003.

⁽⁵⁾ Adjusted Funds From Operations ("AFFO") is defined as gross FFO less an annual reserve for anticipated recurring, non-revenue generating capitalized costs of \$780 and \$760 per apartment unit in 2008 and 2007, respectively. The resulting sum is divided by the weighted average shares/units on a diluted basis to arrive at AFFO per share/unit.

Seasonality Factor for NAV Calculation

To annualize net operating income in order to calculate a net asset value, the seasonality factor to apply to the quarter's effective NOI run rate is 24.1%.

This will adjust for the typical seasonal variability in NOI for each quarter.

Recurring Capital Expenditure Summary

Effective January 1, 2007, the Company updated its estimate of the amount of recurring, non-revenue enhancing capital expenditures incurred on an annual basis for a standard garden style apartment. For 2007, the Company estimated that the proper amount was \$760 per apartment unit. For 2008, the Company has grown this amount using a 3% inflationary factor and is using \$780.

The Company has a policy to capitalize costs related to the acquisition, development, rehabilitation, construction and improvement of properties. Capital improvements are costs that increase the value and extend the useful life of an asset. Ordinary repair and maintenance costs that do not extend the useful life of the asset are expensed as incurred. Costs incurred on a lease turnover due to normal wear and tear by the resident are expensed on the turn. Recurring capital improvements typically include: appliances, carpeting and flooring, HVAC equipment, kitchen/bath cabinets, new roofs, site improvements and various exterior building improvements. Non-recurring upgrades include, among other items: community centers, new windows, and kitchen/bath apartment upgrades. The Company capitalizes interest and certain internal personnel costs related to the communities under rehabilitation and construction.

The table below is a list of the items that management considers recurring, non-revenue enhancing capital and maintenance expenditures for a standard garden style apartment. Included are the per unit replacement cost and the useful life that Management estimates the Company incurs on an annual basis.

For 2008, after applying the 3% inflationary factor:			\$ 780		

⁽¹⁾ Estimated weighted average actual physical useful life of the expenditure capitalized.

⁽²⁾ This amount is not necessarily incurred each and every year. Some years will be higher, or lower depending on the timing of certain longer life expenditures.

⁽³⁾ These expenses are included in the Operating and Maintenance line item of the Consolidated Statement of Operations. Maintenance labor costs are not included in the \$590 per unit estimate. All personnel costs for site supervision, leasing agents, and maintenance staff are combined and disclosed in the Company's same- store expense detail schedule.

⁽⁴⁾ Includes computers, office equipment/ furniture, and maintenance vehicles.

⁽⁵⁾ The level of exterior painting may be lower than other similar titled presentations as the Company's portfolio has a significant amount of brick exteriors. In addition, the other exposed surfaces are most often covered in aluminum or vinyl.

⁽⁶⁾ Includes items such as: balconies, siding, and concrete/sidewalks.

In reviewing the breakdown of costs above, one must consider the Company's unique strategy in operating apartments which has been to improve every property every year regardless of age. Another part of its strategy is to purchase older properties and rehab and reposition them to enhance internal rates of return. This strategy results in higher costs of capital expenditures and maintenance costs which is more than justified by higher revenue growth, higher net operating income growth and a higher rate of property appreciation.

Capital Expenditure Summary

The Company estimates that during the three months ended March 31, 2008 approximately \$195 per unit was spent on recurring capital expenditures. The table below summarizes the breakdown of capital improvements by major categories between recurring and non-recurring, revenue generating capital improvements as follows:

"Operating FFO" is defined as FFO as computed under the strict interpretation of the NAREIT definition and adding back impairment and other non-recurring charges. Following the NAREIT definition created certain noise in 2007 due to the redemption of the 9.0% Series F Preferred Stock. The \$1.9 million in issuance costs originally incurred in 2002 was recorded as a reduction to shareholders' equity. Upon redemption in the first quarter of 2007, the \$1.9 million was reflected as a reduction from both net income available to common shareholders and Funds From Operations available to common shareholders. Operating FFO for the year exceeded the results as measured under the NAREIT definition by approximately four cents per share in 2007 as this \$1.9 million was added back for Operating FFO purposes.

2008 Earnings Guidance

(1) **Rental rates** are projected to increase 3%. Economic occupancy is expected to increase 0.2% for the year, resulting in 3.2% rental revenue growth.

(2) **Property other income** is expected to increase year over year, increasing the 3.2% rental revenue growth to 3.5% total revenue growth. Driving this increase is a **\$2.3 million marginal increase in utility recovery income**.

The water and sewer recovery is not affected significantly by seasonality and we expect a consistent revenue stream each quarter. The heating cost recovery revenue will be much higher in the winter months, and accordingly lower in the warmer months, so this will create a certain "lumpiness", but will match up better with our period of higher costs. The breakdown by quarter for the combined recovery is as follows:

(In thousands)					
	Actual First Quarter	(A) Second Quarter	Third Quarter	Fourth Quarter	Year
Utility recovery - 2008	\$ 6,738	\$ 3,900	\$ 3,500	\$ 5,900	\$ 20,038
Utility recovery - 2007	\$ 5,740	\$ 4,532	\$ 2,802	\$ 4,613	\$ 17,687
Difference	\$ 998	\$ (632)	\$ 698	\$ 1,287	\$ 2,351

(A) Utility recovery is projected to decrease \$200 thousand from previous projections and utility expense is decreasing \$240 thousand.

(3) **Expense growth rates** assumed for the midpoint of guidance for every expense category are as follows:

	% of Total Expenses	% Increase Over 2007
Electricity	4.5%	6.3%
Natural gas heating costs	10.9%	-0.3%
Water and sewer	7.3%	5.0%
Repairs and maintenance	15.2%	4.3%
Total personnel costs	23.9%	3.3%
(a) Real estate taxes	24.1%	5.4%
Property insurance	5.8%	7.1%
Advertising	2.4%	-2.0%
(b) Legal & Professional	0.7%	-12.4%
Office & telephone	2.5%	2.9%
(c) Corporate apartment expense	0.4%	-20.4%
Snow removal	0.5%	-21.0%
(d) Trash	1.8%	15.9%
	100.0%	3.6%

(a) Real estate taxes will be a tough comparison due to "noise" in the 2007 results. The first quarter increased 8% as the 2007 period included \$387 thousand of previous years' refunds from a tax assessment reduction. The third quarter is projected to increase only 2% as the 2007 period included a \$500 thousand tax true-up due to an assessment increase. Finally, the fourth quarter is projected to increase 7% as the year ago period included \$582 thousand of a one-time benefit as Chicago taxes were successfully reduced.

(b) Legal & professional is projected to decrease as 2007 included fees for successful tax assessment reductions that are not expected to continue in 2008 (see (a) above).

(c) Corporate apartment expense (a component of office and telephone) is projected to decrease as the level of additional corporate income has also decreased.

(d) Trash removal expense is projected to increase double digits due to a tough comparison to 2007. We had been enjoying costs much lower than market due to our participation in a national buying group. The largest supplier has left this group, such that our costs in 2008 reflect costs closer to market.

2008 Earnings Guidance

(4) G & A costs are expected to increase 4.1%. The run rate is projected as follows:

	(In thousands)				
	<u>Actual First Quarter</u>	<u>Second Quarter</u>	<u>Third Quarter</u>	<u>Fourth Quarter</u>	<u>Year</u>
2008 projected	\$ 6,219	\$ 6,225	\$ 6,050	\$ 5,875	\$ 24,369
2007 Actual	\$ 5,518	\$ 5,952	\$ 6,159	\$ 5,783	\$ 23,412
Difference	\$ 701	\$ 273	\$ (109)	\$ 92	\$ 957

The run rate above included \$960 thousand expensed for the Development Department in 2007, which is projected to increase to \$1.5 million in 2008.

(5) Interest and dividend income is expected to have a run rate of approximately \$30 thousand per quarter for the remainder of 2008. The level for 2007 was substantially higher as proceeds from asset sales were held in cash until invested permanently into property, debt repayment and stock buyback. The run rate is projected as follows:

	(In thousands)				
	<u>Actual First Quarter</u>	<u>Second Quarter</u>	<u>Third Quarter</u>	<u>Fourth Quarter</u>	<u>Year</u>

Difference	\$ (1,087)	\$ (58)	\$ (371)	\$ (252)	\$ (1,768)

(6) Other income - the higher level in the first quarter of 2007 was due to a post-closing consulting agreement from the Upstate NY sale. The run rate is projected as follows:
