**NOTICE OF AND IMPORTANT INFORMATION ABOUT AN UPCOMING FUND REORGANIZATION**

The Board of Trustees of Voya Investors Trust approved a proposal to reorganize the following “Merging Portfolio” with and into the following “Surviving Portfolio.” Subject to shareholder approval for the VY<sup>®</sup> FMR<sup>®</sup> Diversified Mid Cap Portfolio reorganization, it is expected that the reorganization will be effective on or about the close of business on July 14, 2017 (the “Reorganization Date”).

<b>Merging Portfolio</b>	<b>Surviving Portfolio</b>
VY <sup>®</sup> FMR <sup>®</sup> Diversified Mid Cap Portfolio (Class I)	Voya MidCap Opportunities Portfolio (Class I)

**Voluntary Transfers Before the Reorganization Date.** Prior to the Reorganization Date, you may transfer amounts allocated to the subaccount that invests in a Merging Portfolio to any other available subaccount or any available fixed interest option. There will be no charge for any such transfer, and any such transfer will not count as a transfer when imposing any applicable restriction or limit on transfers. See the “**TRANSFERS AMONG INVESTMENT OPTIONS**” section of your Contract Prospectus for information about making subaccount transfers.

**On the Reorganization Date.** The Surviving Portfolio is closed to new investors and to new investments by existing investors. On the Reorganization Date, your investment in the subaccount that invested in the Merging Portfolio will automatically become an investment in the subaccount that invests in the corresponding Surviving Portfolio with an equal total net asset value. You will not incur any tax liability because of this automatic reallocation and your contract value immediately before the reallocation will equal your contract value immediately after the reallocation.

**Automatic Fund Reallocation After the Reorganization Date.** After the Reorganization Date, the Merging Portfolio will no longer be available through your Contract. Unless you provide us with alternative allocation instructions, after the Reorganization Date all allocations directed to the subaccount that invested in the Merging Portfolio will be automatically allocated to the subaccount that invests in the corresponding Surviving Portfolio. Class I shares have lower total fund expenses than Class S shares, and the effect of this transaction is to give contract owners an investment in a similar fund managed by the same investment adviser at a lower cost. Class S of the Voya MidCap Opportunities Portfolio will continue to be available under your Contract. See the “**TRANSFERS AMONG INVESTMENT OPTIONS**” section of your Contract Prospectus for information about making fund allocation changes.

**Allocation Instructions.** You may give us alternative allocation instructions at any time by contacting us at Customer Service, P.O. Box 9271, Des Moines, IA 50306-9271 or calling us at 1-800-366-0066.

**Information about the Surviving Portfolio.** Summary information about the Voya MidCap Opportunities Portfolio can be found in the **IMPORTANT INFORMATION REGARDING THE INVESTMENT PORTFOLIOS** section below. More detailed information can be found in the current prospectus and Statement of Additional Information for that fund.

## IMPORTANT INFORMATION REGARDING THE INVESTMENT PORTFOLIOS

### Open Investment Portfolios

You bear the entire investment risk for amounts you allocate to any investment portfolio (“fund”), and you may lose your principal. The investment results of the funds are likely to differ significantly and there is no assurance that any of the funds will achieve their respective investment objectives. You should carefully consider the investment objectives, risks and charges and expenses of the funds before investing. More information is available in the fund prospectuses. Shares of the funds will rise and fall in value and you could lose money by investing in the funds. Shares of the funds are not bank deposits and are not guaranteed, endorsed or insured by any financial institution, the Federal Deposit Insurance Corporation or any other government agency.

The following table reflects the funds that are open and available for transfers under your Contract along with each fund’s investment adviser/subadviser and investment objective. Please refer to the fund prospectuses for more detailed information. Fund prospectuses may be obtained free of charge from Customer Service at P.O. Box 9271, Des Moines, Iowa 50306-9271 or call 1-800-366-0066, or access the Securities and Exchange Commission (“SEC”) website (<http://www.sec.gov>), or by contacting the SEC Public Reference Room. If you received a summary prospectus for any of the funds available through your Contract, you may obtain a full prospectus and other fund information free of charge by either accessing the internet address, calling the telephone number or sending an email request to the email address shown on the front of the fund’s summary prospectus.

- <sup>(1)</sup> This fund is structured as a “fund of funds.” A fund structured as a “fund of funds” may have higher fees and expenses than a fund that invests directly in debt and equity securities because it also incurs the fees and expenses of the underlying funds in which it invests. Please refer to the fund prospectus for information about the aggregate annual operating expenses of the fund and its corresponding underlying fund or funds.
- <sup>(2)</sup> This fund employs a managed volatility strategy. A managed volatility strategy is a strategy that is intended to reduce the fund’s overall volatility and downside risk, and thereby, help us manage the risks associated with providing certain guarantees under the contract. During rising markets, the hedging strategies employed to manage volatility could result in your account value rising less than would have been the case if you had been invested in a fund with substantially similar investment objectives, policies and strategies that does not utilize a volatility management strategy. In addition, the cost of these hedging strategies may have a negative impact on performance. On the other hand, investing in funds with a managed volatility strategy may be helpful in a declining market with higher market volatility because the hedging strategy will reduce your equity exposure in such circumstances. In such cases, your account value may decline less than would have been the case if you had not invested in funds with a managed volatility strategy. There is no guarantee that a managed volatility strategy can achieve or maintain the fund’s optimal risk targets, and the fund may not perform as expected.
