☐ REGISTRATION STATEMENT PURSUANT TO SECTION 12(B) OR (G) OF THE SECURITIES EXCHANGE ACT OF 1934

OR

☒ ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the fiscal year ended: December 31, 2006

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from to .

OR

☐ SHELL COMPANY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to .

Commission file number: 1-13.396
TRANSPORTADORA DE GAS DEL SUR S.A.
(Exact name of Registrant as specified in its charter)

GAS TRANSPORTER OF THE SOUTH
(Translation of Registrant's name into English)

Argentina
(Jurisdiction of incorporation or organization)

Don Bosco 3672
5th Floor
C1206ABF Buenos Aires
Argentina
(Address of principal executive offices)

Securities registered or to be registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Name of each exchange on which registered</u>
American Depositary Shares, representing Class "B" Shares Class "B" Shares, par value Ps.1 each	New York Stock Exchange New York Stock Exchange*

* Not for trading, but only in connection with the registration of American Depositary Shares, pursuant to the requirements of the Securities and Exchange Commission.

Securities registered or to be registered pursuant to Section 12(g) of the Act:
None

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:
None

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the Annual Report:

Class "A" Shares, par value Ps.1 each	405,192,594
Class "B" Shares, par value Ps.1 each	389,302,689
	<u>794,495,283</u>

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes _____ No X

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

Yes _____ No X

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days.

Yes X No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer.

Large accelerated filer ☐

Accelerated filer ☒

Non-accelerated filer ☐

Indicate by check mark which financial statement item the registrant has elected to follow.

Item 17 Item 18 X

If this is an annual report, indicate by check mark whether the registrant is a shell company.

Yes No X

PRESENTATION OF FINANCIAL AND OTHER INFORMATION

In this annual report on Form 20-F (“**Annual Report**”), references to “pesos” or “Ps.” are to Argentine pesos, and references to “U.S. dollars”, “dollars” or “US\$” are to United States dollars. A “billion” is a thousand million. References to “m³” are to cubic meters, to “MMm³” are to millions of cubic meters, to “MMm³/d” are to millions of cubic meters per day and to “Bm³” are to billions of cubic meters. References to “cf” are to cubic feet, to “MMcf” are to millions of cubic feet, to “Bcf” are to billions of cubic feet, to “d” are to day and to “HP” are to horsepower.

Financial Statements

The audited consolidated financial statements (our “**Financial Statements**”) have been prepared in accordance with generally accepted accounting principles in Argentina (“**Argentine GAAP**”) and the requirements of the Argentina’s *Comisión Nacional de Valores* (the “**CNV**”), which differ in certain significant respects from generally accepted accounting principles in the United States (“**US GAAP**”). Such differences involve methods of measuring the amounts shown in the financial statements, as well as additional disclosures required by US GAAP and Regulation S-X of the Securities and Exchange Commission (“**SEC**”). For a description of the principal differences between Argentine GAAP and US GAAP see Note 12 to our Financial Statements. Our Financial Statements have been audited by Price Waterhouse & Co. S.R.L., Buenos Aires, Argentina (“**Price**”), a member firm of PricewaterhouseCoopers, an independent registered public accounting firm. The report of Price, dated February 5, 2007 (except with respect to the matters discussed in Note 12 to our Financial Statements, which is dated as of April 17, 2007), related to our Financial Statements is included in this Annual Report.

Our Board of Directors has decided to engage Sibille (“**KPMG**”), a member firm of KPMG International, as successor to Price in the role of independent accountant, commencing with year 2007. Price served as our independent accountant beginning with the year ended December 31, 2001, and this change in independent accountant is not the result of any disagreement or dissatisfaction between us and Price. The appointment of KPMG as independent accountant was approved by our shareholders at a meeting held on April 12, 2007.

As discussed in Note 2(b) to our Financial Statements, our Financial Statements were prepared in constant Argentine pesos, recognizing the overall effects of inflation up to August 31, 1995, when inflation accounting was discontinued by a decree of the Executive Branch (“**Executive Branch**”) and a resolution of the CNV. Effective January 1, 2002, inflation accounting was reintroduced as part of Argentine GAAP by Resolution No. 3/2002 issued by the Professional Council in Economic Sciences of the Autonomous City of Buenos Aires (“**CPCECABA**”) and General Resolution No. 415 of the CNV, in view of the resumption of significant inflation in Argentina. However, in view of the relative monetary stability in Argentina during 2003, on March 25, 2003, the Executive Branch, through Decree No. 664/01, suspended the application of inflation accounting for periods ending after such date, and the CNV issued General Resolution No. 441 suspending inflation accounting effective March 1, 2003. We complied with the CNV resolution and accordingly ceased recording the effects of inflation beginning on February 28, 2003. Comparative figures were also restated for inflation as of that date. Since Argentine GAAP required companies to discontinue inflation accounting only as of October 1, 2003, the application of the CNV resolution represented a departure from Argentine GAAP. However, due to the low level of inflation rates during the period from March 2003 to September 2003, such a departure has not had a material effect on our Financial Statements.

As a result of the changes in the application of inflation accounting described above, until February 28, 2003, our consolidated financial statements were prepared on the basis of general price-level accounting, which reflected changes in the purchasing power of the peso in our historical financial statements using changes in the Argentine Wholesale Price Index (“**WPI**”), as published by the *Instituto Nacional de Estadística y Censos* (or “**INDEC**”), as follows:

- we adjusted non-monetary items and amounts in our consolidated statements of income to reflect the current general purchasing power;
- we did not adjust monetary items as such items were, by their nature, stated in terms of current general purchasing power in our consolidated financial statements;
- we recognized monetary gains or losses in our consolidated statements of income, reflecting the effect of holding monetary items; and
- we included the gain or loss on exposure to inflation (monetary gain or loss) in our consolidated statements of income within financing results.

Adoption by the CNV of New Accounting Standards

The CNV issued General Resolutions No. 485 and No. 487 on December 29, 2005 and January 26, 2006, respectively, which adopted, with certain modifications, the new accounting standards previously issued by the CPCECABA through its Resolution CD 93/2005. These standards were mandatory for years or interim periods corresponding to years beginning on or after January 1, 2006. The most significant changes included in the accounting standards adopted by the CNV relate to (i) changes in the impairment test of long-lived assets and (ii) changes to deferred income tax accounting. See “Item 5. Operating and Financial Review and Prospects—A. Operating results—New accounting pronouncements under Argentine GAAP”.

Other Information

Unless otherwise specified, all exchange rate information contained in this Annual Report has been derived from information published by *Banco de la Nación Argentina S.A.* (“**Banco de la Nación**”), without any independent verification by us.

Certain amounts shown in this Annual Report are subject to rounding. Accordingly, figures shown as totals in certain tables may not be an exact arithmetic aggregate of the other figures in such table.

References to “we”, “us” and “our” mean Transportadora de Gas del Sur S.A. (“**TGS**”) and its consolidated subsidiary, Telcosur S.A. (“**Telcosur**”).

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Some of the information in this Annual Report, including information incorporated by reference herein, may constitute forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995, as amended. These forward-looking statements can be identified by the use of forward-looking terminology such as “may,” “will,” “will likely result,” “intend,” “projection,” “should,” “believe,” “expect,” “anticipate,” “estimate,” “continue,” “plan” or other similar words. These statements discuss future expectations, contain projections of results of operations or of financial condition or state other forward-looking information. Forward-looking statements are subject to various risks and uncertainties. When considering forward-looking statements, you should keep in mind the factors described in “Item 3. Key Information—Risk Factors” and other cautionary statements appearing in “Item 5. Operating and Financial Review and Prospects”. “Item 3. Key Information—Risk Factors” and other statements describe circumstances that could cause results to differ materially from those contained in any forward-looking statement.

Forward-looking statements include but are not limited to the following:

- statements regarding changes in general economic, business, political or other conditions in Argentina;
- estimates relating to future tariffs and prices for our transportation services and future prices and volumes for products and services in our non-regulated business;
- statements relating to the prices of our natural gas liquids (“**NGL**”) business and estimates of future volumes associated with our NGL business;
- statements regarding expected future political developments in Argentina and expected future developments regarding our license to provide gas transportation services through the exclusive use of the southern gas transportation system in Argentina (the “**License**”), the renegotiation process at the Unit for Renegotiation and Assessment of Utilities Contracts (“**UNIREN**”), regulatory actions by *Ente Nacional Regulador del Gas* (“**ENARGAS**”) and any other governmental authorities that may affect us and our business;
- statements and estimates regarding future pipeline expansion and the cost of, or return to us from, any such expansion;
- statements concerning the future impact of the creation of the Electronic Gas Market (“**MEG**”); and
- estimates of our future level of capital expenditures, including those required by ENARGAS and other governmental authorities.

When considering forward-looking statements, you should keep in mind the factors described in “Risk Factors” and other cautionary statements appearing in “Management’s Discussion and Analysis of Financial Condition and Results of Operations”. These factors and statements, as well as other statements contained herein, describe circumstances that could cause results to differ materially from those contained in any forward-looking statement.

The following important factors could cause actual results to differ materially from any results projected, forecasted, estimated or budgeted by us in our forward-looking statements:

- the impact of the emergency laws enacted by the Argentine government, which resulted in the amendment of the Convertibility Law No. 23,928 and Decree No. 529/01 (collectively, the “**Convertibility Law**”) and related laws and regulations;
- risks and uncertainties related to changes in the peso-U.S. dollar exchange rate and the Argentine domestic inflation rate, which may materially adversely affect our revenues, expenses and reported financial results;
- risks and uncertainties associated with our non-regulated business, including those related to international and local prices of NGL, taxes and other restrictions imposed on NGL exports, our ability to renegotiate our agreements with customers and possible increased regulation of the NGL industry in the future by the Argentine government;
- risks and uncertainties resulting from government regulations that affect our business or financial condition or results of operations, such as the prohibition on tariff increases, restrictions on payments abroad and exchange controls;
- risks and uncertainties associated with unscheduled and unexpected expenditures for the repair and maintenance of our fixed or capital assets or expenditures required or otherwise mandated or initiated by ENARGAS or other governmental authorities for the expansion of our pipeline system or other purposes, including the risk that we may effectively be forced to make investments or take other actions that may not be as commercially attractive as other actions;
- risks and uncertainties resulting from the prospect of additional government regulation or other governmental involvement in our business;
- developments in legal and administrative proceedings involving us and our affiliates;
- changes to or revocation of our License; and
- risks and uncertainties impacting us as a whole, including changes in general economic conditions, changes in laws and regulations to which we are subject, including tax, environmental and employment laws and regulations, and the cost and effects of legal and administrative claims and proceedings against us;

Our actual results may differ materially from the results anticipated in these forward-looking statements because such statements, by their nature, involve estimates, assumptions and uncertainties. The forward-looking statements contained in this Annual Report speak only as of the date of this Annual Report, and we do not undertake any obligation to update any forward-looking statement or other information to reflect events or circumstances occurring after the date of this Annual Report or to reflect the occurrence of unanticipated events.

PART I

Item 1. Identity of Directors, Senior Management and Advisers

Not applicable.

Item 2. Offer Statistics and Expected Timetable

Not applicable.

Item 3. Key Information

A. Selected Financial Data

The following selected consolidated financial data is derived from our Financial Statements as of and for the years ended December 31, 2006, 2005 and 2004, and our Financial Statements as of and for the years ended December 31, 2004, 2003 and 2002, restated in constant pesos as of February 28, 2003. This information should be read in conjunction with and is qualified in its entirety by reference to our Financial Statements, including the independent accountant's reports thereon and the notes related thereto, and the discussion in "Presentation of Financial and Other Information" and "Item 5. Operating and Financial Review and Prospects" included elsewhere in this Annual Report.

For important information relating to our Financial Statements, including information relating to the preparation and presentation of the audited consolidated financial statements and the following selected financial data, see "Presentation of Financial and Other Information" above.

	As of and for the year ended December 31,				
	2006	2005	2004	2003	2002 ⁽³⁾
	(in thousands of pesos, except per share and per ADS amounts and common stock or as otherwise indicated)

As of and for the year ended December 31,

2006	2005	2004	2003	2002 ⁽³⁾
(in thousands of pesos, except per share and per ADS amounts and common stock or as otherwise indicated)				

US GAAP Information:

Net income (loss).....	405,582	270,620	151,634	597,714	(355,902)
Shareholders' equity	1,935,498	1,527,763	1,257,386	1,103,950	504,378
Net Income (loss) per share ⁽²⁾	0.51	0.34	0.19	0.75	(0.45)
Net Income (loss) per ADS ⁽²⁾	2.55	1.70	0.95	3.76	(2.24)

(1) Includes Ps. 491,996; Ps. 460,008; Ps. 434,343; Ps. 422,093 and Ps. 532,051 of gas transportation net revenues and Ps. 817,506; Ps. 604,730; Ps. 559,741; Ps. 470,702 and Ps. 407,406 of NGL production and commercialization and other services net revenues for the years ended December 31, 2006, 2005, 2004, 2003 and 2002, respectively.

(2) Net income (loss) per share under Argentine GAAP and US GAAP have been calculated using the weighted average shares outstanding. Each American Depositary Share ("ADS") represents five shares.

(3) Such amounts reflect certain reclassifications for comparative purposes with the years ended December 31, 2005, 2004 and 2003, which reclassifications were required by new accounting standards issued by the Argentine Federation of Professional Councils in Economic Sciences (the "Argentine Federation").

(4) Represents additions to property, plant and equipment. For more information, see Note 3 (Consolidated Business Segment Information) to our Financial Statements, included elsewhere herein.

Dividends

Dividends may be lawfully declared and paid only out of our retained earnings reflected in our annual financial statements and approved by a shareholders' meeting as described below. As a consequence of the Argentine economic crisis that began in December 2001, which had a material adverse effect on our economic and financial position, we have not paid dividends since 2001.

Currently, our debt instruments contain a prohibition on our ability to pay dividends with respect to any year unless, (i) no default exists under our debt obligations and (ii) immediately after giving effect to such dividend payment, (a) the consolidated coverage ratio (ratio of our consolidated adjusted EBITDA to our consolidated interest expense (each as defined in our new debt obligations issued on May 14, 2007 (the **New Debt Obligations**))) would be greater than or equal to 2.0:1; and (b) the consolidated debt ratio (ratio of our consolidated total indebtedness to our consolidated adjusted EBITDA (as each of the terms is defined in the New Debt Obligations)) would be less or equal to 3.75:1. (see "Item 10. Additional Information—C. Material contracts—New Debt Obligations").

Our Board of Directors may declare interim dividends, in which case the members of the Board of Directors and of the Supervisory Committee are jointly and severally liable for such distribution, if such declaration is not in accordance with the Commercial Companies Law No. 19,550, as amended (the "**Commercial Companies Law**") and our By-laws.

Our Board of Directors regularly submits our Financial Statements for the preceding year, together with reports thereon by the Supervisory Committee, to the shareholders at the annual ordinary shareholders' meeting for approval. According to Argentine law, this ordinary shareholders' meeting must be held to approve the financial statements and determine the allocation of our net income for such year. Under the Commercial Companies Law, the shareholders are required to allocate a legal reserve equal to 5% of each year's net income, as long as there is no unappropriated retained deficit. If there is such a retained deficit, 5% should be calculated on any excess of the net income over the unappropriated retained deficit. This appropriation is legally required until such reserve equals 20% of the sum of (i) "Common stock nominal value" plus (ii) "Cumulative inflation adjustment to common stock", as shown on our Consolidated Statement of Changes in Shareholders' Equity. If the legal reserve falls below the 20% required amount, dividends may not be paid until the legal reserve has been restored to at least the required 20% threshold. The amount represented by the legal reserve is not available for distribution as dividends. Under our By-laws, after the allocation to the legal reserve has been made, an amount will be allocated to pay dividends on preferred stock, if any, and an amount equal to 0.25% of the net income for the year will be allocated to pay the participation in earnings of employee profit-sharing certificates. The remainder of the retained earnings for the year may be distributed as dividends on common stock or retained as a voluntary reserve, as determined at the shareholders' meeting. Dividends must be paid within 30 days of their

declaration. For information on dividend taxation, see “Item 10. Additional Information—Taxation—Argentine Taxes.”

Due to pesification and freezing of the tariffs of our regulated gas transportation business after the economic crisis in Argentina (see Item 4. Our information—Business Overview—Gas Transportation—Adjustment of rates”) and the limitations imposed on our ability to pay dividends by our debt obligations (cancelled on June 15, 2007), in the last five years we have not paid dividends.

Exchange Rate Information

Fluctuations in the exchange rate between pesos and U.S. dollars would affect the U.S. dollar equivalent of the peso price of our Class B Shares on the Buenos Aires Stock Exchange (“**BASE**”) and, as a result, would likely affect the market price of our ADSs as well. In addition, such fluctuations will affect the dollar equivalent of peso amounts reported in this Annual Report. Currency fluctuations would also affect the U.S. dollar amounts received by holders of American Depositary Receipts (“**ADRs**”) on conversion by the Depositary of cash dividends paid in pesos on the underlying Class B Shares.

Beginning in April 1991, under the Convertibility Law, the Central Bank was required to buy or sell U.S. dollars to any person at a rate of one peso per U.S. dollar. On January 11, 2002, the Central Bank ended a banking holiday that it had imposed on December 21, 2001. Subsequently, the Argentine government amended the Convertibility Law, allowing the exchange rate to float freely for the first time since April 1991. Heightened demand for scarce U.S. dollars caused the peso to trade at a much less favorable rate than the one-to-one parity prevailing under the Convertibility Law. As a result, the Central Bank intervened on several occasions by selling U.S. dollars in order to lower the exchange rate. The Central Bank’s ability to support the peso by selling U.S. dollars depends, however, on its limited U.S. dollar reserves; the value of the peso has continued to fluctuate significantly. In response to high demand for U.S. dollars in Argentina and the scarcity of U.S. dollars to meet that demand, the Argentine government imposed several temporary freezes, or holidays, and imposed other restrictions on exchange transactions since the Convertibility Law was repealed. For additional information regarding factors affecting the value of the peso, see “—Risks Factors—Risks Relating to Argentina” below. On February 8, 2002, Executive Order No. 260/02 was issued, providing that beginning February 11, 2002, all foreign currency exchange transactions would be executed through a single free exchange market by the Central Bank and at rate agreed by the parties to the exchange.

The following table sets forth, for the periods indicated, high, low, average and period-end exchange rates between the peso and the U.S. dollar, as reported by Banco de la Nación. The Federal Reserve Bank of New York does not publish a noon buying rate for the peso. The average rate is calculated by using the average of Banco de la Nación reported exchange rates on each day during the relevant monthly period and on the last day of each month during the relevant annual period.

	Pesos per U.S. dollar			
	High	Low	Average	Period end
Most recent six months:				
December, 2006	3.0760	3.0480	3.0596	3.0620
January, 2007	3.1080	3.0580	3.0862	3.1007
February, 2007	3.1060	3.0980	3.1027	3.1000
March, 2007	3.1060	3.0970	3.1015	3.1000
April, 2007	3.1010	3.0830	3.0894	3.0900
May, 2007	3.0850	3.0750	3.0799	3.0770
June, 2007 (through June, 15)	3.0770	3.0720	3.0749	3.0770
Year ended December 31,				
2002	3.9000	1.6000	3.2650	3.3700
2003	3.3500	2.7600	2.9489	2.9300
2004	3.0600	2.8030	2.9414	2.9790
2005	3.0400	2.8590	2.9236	3.0320
2006	3.1070	3.0300	3.0747	3.0620

For your convenience and except as we specify otherwise, this Annual Report contains translations of peso-denominated amounts to U.S. dollars at the reported exchange rate on December 31 of each year. These translations should not be construed as representations that the amounts actually represent such U.S. dollar

amounts or could be or have been converted into U.S. dollars at the rates indicated or at any other rates. On June 15, 2007, the reported exchange rate was Ps. 3.077=US\$1.00.

Our results of operations and financial condition are highly susceptible to changes in the peso-U.S. dollar exchange rate because our primary assets and revenues are peso-denominated while substantially all of our liabilities and capital expenditures are U.S. dollar-denominated.

B. Capitalization and Indebtedness

Not applicable.

C. Reasons for the Offer and Use of Proceeds

Not applicable.

D. Risk Factors

You should carefully consider the following risks and uncertainties, and any other information appearing elsewhere in this Annual Report. The risks and uncertainties described below are intended to highlight risks and uncertainties that are specific to us. Additional risks and uncertainties, including those generally affecting Argentina and the industry in which we operate, risks and uncertainties that we currently consider immaterial or risks and uncertainties generally applicable to similar companies in Argentina may also impair our business, results of operations, the value of our securities, and our ability to meet our financial obligations.

The information in this Risk Factors section includes forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of numerous factors, including those described in "Cautionary Statement Regarding Forward-Looking Statements" above.

Risks Relating to Argentina

Overview

We are a *sociedad anónima* and most of our operations and nearly all of our assets are located in Argentina. More than 40% of our revenues are peso-denominated. Conversely, substantially all of our indebtedness is U.S. dollar-denominated. Accordingly, our financial condition and results of operations depend to a significant extent on economic, regulatory and political conditions prevailing in Argentina and on the exchange rate between the peso and the U.S. dollar. As further described below, in the past several years the Argentine economy has experienced a severe recession as well as a political crisis, and the abandonment of U.S. dollar-peso parity has led to significant devaluation of the peso against major international currencies. These conditions have adversely affected, and may continue to adversely affect, our financial condition and results of operations, and they may impair our ability to make payments of principal and/or interest on our financial indebtedness.

Political and economic instability in Argentina has adversely affected, and may continue to adversely affect, our financial condition and results of operations.

Fluctuations in the Argentine economy and actions adopted by the Argentine government have adversely affected, and may continue to adversely affect, Argentine entities, including us. Specifically, we have been adversely affected and may continue to be adversely affected by inflation, interest rates, the value of the peso against foreign currencies, price controls, business and tax regulations and in general by the political and economic environment in Argentina and in other countries that may affect Argentina.

The Argentine economy has experienced significant volatility in recent decades, characterized by periods of low or negative growth, high and variable levels of inflation and currency devaluation. During 2001 and 2002, Argentina went through a period of severe political and economic crisis. The crisis had significant and adverse consequences on our company, including (i) losses derived from the effects of the peso devaluation on us and our net borrowing position, substantially all of which was denominated in U.S. dollars, (ii) the pesification, at a rate of Ps. 1 to US\$1, of our U.S. dollar-denominated gas transportation tariffs, (iii) our default on our

financial indebtedness and (iv) the elimination of tariff adjustments for public utilities based on non-Argentine indices or other indexation methods.

Although the economy has recovered significantly over the past four years, uncertainty remains as to whether the current growth and relative stability is sustainable. The Argentine political and economic situations have quickly deteriorated in the past, and may quickly deteriorate in the future, and we cannot assure you that the Argentine economy will continue to grow. Sustainable economic growth is dependent on a variety of factors, including international demand for Argentine exports, the stability and competitiveness of the peso against foreign currencies, confidence among consumers and foreign and domestic investors and a stable and relatively low rate of inflation. As in recent years, Argentina's economy may suffer if political and social pressures inhibit the implementation by the Argentine government of policies designed to maintain price stability, generate growth and enhance consumer and investor confidence. Further, Argentine government actions concerning the economy, including those related to inflation, interest rates, price controls, foreign exchange controls and taxes, have had, and might continue to have, a material adverse effect on Argentine entities, including us. We cannot provide any assurance that future economic, social and political developments in Argentina, over which we have no control, will not adversely affect our financial condition or results of operations.

Fluctuations in the value of the peso may adversely affect the Argentine economy and our financial condition, results of operations and ability to service our debt.

Since the end of U.S. dollar-peso parity in January 2002 under the Public Emergency Law No. 25,561 (the **"Public Emergency Law"**), the peso has fluctuated significantly in value. As a result, the Central Bank has taken several measures to stabilize the exchange rate and preserve its reserves. The marked devaluation of the peso in 2002 had a negative impact on the ability of the Argentine government and Argentine companies, including us, to honor their foreign currency-denominated debt, led to very high inflation initially and had a negative impact on businesses whose success is dependent on domestic market demand, including public utilities.

The significant peso devaluation during 2002 adversely affected our results and financial position. Substantially all of our financial debt was, and is, denominated in U.S. dollars. Before the enactment of the Public Emergency Law, our cash flow, generally denominated in U.S. dollars or dollar-adjusted, provided a natural hedge against exchange rate risks. The Argentine regulatory framework after the enactment of the Public Emergency Law, however, limited our ability to mitigate the impact of the peso devaluation. Particular aspects of the regulatory framework that adversely affected us included the pesification of our tariffs at a rate of Ps. 1 to US\$1 compared with a market exchange rate at the time of almost Ps. 4 to US\$1, regulatory issues related to the renegotiation of our tariffs, new taxes and other restrictions on exports of propane and butane (**"LPG"**).

If the peso devalues significantly, all of the negative effects on the Argentine economy related to such devaluation could recur, with adverse consequences to our business. On the other hand, a substantial increase in the value of the peso against the U.S. dollar also presents risks for the Argentine economy since it may lead to a deterioration of the country's current account balance and the balance of payments.

We are unable to predict whether, and to what extent, the value of the peso may further depreciate or appreciate against the U.S. dollar and how any such fluctuations would affect the demand for our products and services. Moreover, we cannot assure you that the Argentine government will not make regulatory changes that prevent or limit us from offsetting the risk derived from our exposure to the U.S. dollar and, if so, what impact these changes will have on our financial condition and results of operations.

Despite the stability of the peso-U.S. dollar exchange rate in recent years, because substantially all of our indebtedness is and will continue to be U.S. dollar-denominated, potential future devaluation of the peso will negatively affect our revenues expressed in U.S. dollars while increasing the relative cost, in peso terms, of expenses and other financial obligations denominated in foreign currencies, thereby decreasing our cash-generating ability and having a material adverse effect on our liquidity and our ability to service our debt.

At June 15, 2007, the total amount of principal and interest under our consolidated U.S. dollar-denominated indebtedness was the equivalent of US\$503.3 million.

Substantial inflation has occurred since the repeal of the Convertibility Law and could continue in the future, resulting in a material adverse effect on our results of operations and financial condition.

In the past, inflation has undermined the Argentine economy and the government's ability to stimulate economic growth. Argentina experienced significant inflation from December 2001 through January 31, 2003, with cumulative changes in the Consumer Price Index ("CPI") of 42.8% and in the WPI of 118.9%. This level of inflation reflected both the effect of the peso devaluation on production costs as well as a substantial modification of relative prices, partially offset by the elimination of public utility rate ("tariff" or "rate") adjustments and the large drop in demand resulting from the severe recession. Inflation slowed in 2003, with the CPI increasing by 3.7% and the WPI increasing by 2.0% for the year. Further, during 2004, the CPI increased by 6.1% and the WPI increased by 7.9%. This reduction in the relative level of inflation reflected the appreciation of the peso against the U.S. dollar, the increased demand for domestic currency and the distortion of relative prices due to the elimination of public service tariff adjustments. Although in 2003 and 2004 there was a slowdown in inflation, we cannot assure you that this slowdown will continue. During 2005, the Argentine CPI increased 12.3% and the WPI increased 10.6% from the prior year, reflecting increasing inflation compared with 2004. In 2006, CPI increased 9.8% and the WPI increased 7.2% from the prior year.

The unpredictability of Argentina's inflation rate makes it impossible for us to foresee how our business and results of operations may be affected in the future by inflation. Continued inflation in Argentina without significant increase in our tariffs would have a material adverse effect on our business, results of operations and financial condition.

Argentina's ability to stimulate sustained economic growth, appease social unrest and repay its debt may depend on external financial assistance, which has been limited and may continue to be limited in the future.

In 2001, as a result of the suspension of lending arrangements with Argentina by the International Monetary Fund ("IMF") and Argentina's default on approximately US\$65.4 billion of its then-outstanding sovereign debt, international rating agencies downgraded the rating of Argentina's sovereign debt to default status. The Argentine government launched a process to restructure its sovereign debt on January 14, 2005, and, on March 18, 2005, announced that 76.15% of its bondholders had accepted the restructuring offer. The Argentine government issued new bonds to the accepting holders in April 2005 and paid overdue interest accrued from December 2003. For this reason, Standard & Poor's Rating Services increased the short and long term sovereign qualification of Argentina from "SD" to "B-". In addition, on December 15, 2005, President Kirchner announced the early payback of the debt to the IMF, and on January 3, 2006, a disbursement was made by the Argentine government for an amount of US\$9.5 billion.

Several legal actions have been filed in the U.S., Italy and Germany by holders of Argentina's sovereign debt who did not participate in the restructuring, which delayed settlement of the exchange offer associated with the restructuring. A judgment against the Argentine government in such cases could result in a reduction in funding sources and investment capital, which could have a significant effect on the Argentine government's capacity to implement reforms and reinstate sustainable economic growth, all of which could adversely affect us.

There can be no assurance that the Argentine government will not default on its obligations under the new bonds in the future. In addition, the Argentine government must continue to honor principal and interest payments to credit agencies, including the World Bank, without subsequent new loans in order to avoid a default on the indebtedness owed to such agencies. All such events could also impair Argentina's capacity to maintain the current economic recovery and could result in a recession, higher inflation, unemployment and social discontent.

Although the Argentine financial system appears to be recovering, there is still a risk of future collapse.

While the Argentine financial system is recovering, it continues to be fragile. The system's failure would have a material adverse effect on our prospects for economic recovery and stability. Even short of failure, the crisis in Argentina and its financial sector has had a material adverse effect on us and will likely continue to adversely affect our ability to borrow funds (including the establishment of lines of credit), requiring us to continue to rely on internally generated funds to sustain our operations. We would be materially and adversely affected if the Argentine financial system were to collapse or deteriorate.

The Argentine financial system is exposed to a number of risks that could result in its collapse, including the large number of cases brought in Argentine courts challenging the constitutionality of pesification

pursuant to the Public Emergency Law and demanding the return of deposits in dollars or in pesos at the prevailing exchange rate at the time of payment. In at least one case, the Argentine Supreme Court (the “**Supreme Court**”) has struck down the pesification of U.S. dollar deposits. On March 5, 2003, the Supreme Court held unconstitutional the Argentine government’s conversion of U.S. dollar-denominated deposits into pesos in the case of deposits of the Province of San Luis with Banco de la Nación. On October 26, 2004, in the lawsuit known as “Bustos,” however, the Supreme Court upheld the constitutionality of the pesification in a separate case brought by a private depositor against the financial institution where the deposit was held. On December 27, 2006, the Supreme Court again upheld pesification in the lawsuit known as “Massa,” holding that the Public Emergency Law does not damage the property rights of the depositors. The “Massa” ruling overturned a Chamber of Appeals decision that found in favor of the plaintiff, which had argued that the pesification of deposits was unconstitutional. Notwithstanding the above, the Supreme Court determined that the depositor has the right to have his deposit converted into pesos at the exchange rate US\$1=Ps. 1.40, adjusted by the *Coeficiente de Estabilización de Referencia* up to the moment of the payment, plus non-capitalized interest on the total amount at the rate of 4% . The Supreme Court’s decision in “Massa” is intended to establish a rule by which a large class of cases challenging pesification will be resolved.

The Central Bank has imposed restrictions on the transfer of funds outside of Argentina in the past and may do so in the future, which could prevent us from making payments on our foreign currency-denominated indebtedness.

Since the amendment of the Convertibility Law in December 2001, the Argentine government has imposed several temporary restrictions on the transfer of U.S. dollars outside of Argentina. Prior to January 2003, we were required to obtain the prior approval of the Central Bank before we could transfer U.S. dollars outside Argentina to make payments of principal on our debt obligations. Although current regulations do not require prior Central Bank approval for payment of either principal or interest that is due and payable under our indebtedness, the Central Bank may reinstate transfer of funds restrictions at any time. In such case, we cannot assure you that the Central Bank will approve the transfer of funds outside Argentina for payments required under the terms of our foreign currency-denominated indebtedness. In addition, there may be a significant delay before payments required under the terms of our foreign currency-denominated indebtedness may be made.

We cannot assure you as to how long the current, more flexible regulations will be in effect or whether they will become more restrictive again in the future. If the Argentine government decides once again to tighten the restrictions on the transfer of funds, we may be unable to make principal or interest payments on our debt when they become due, which could have a material adverse effect on us.

Argentine government measures increasing control over funds entering the country may disrupt our ability to access the international capital markets.

On June 9, 2005, the Federal Executive Branch issued Decree No. 616/2005, requiring that any repayment obligation related to proceeds that enter into the Argentine foreign exchange market from foreign loans to private Argentine entities have a maturity of at least 365 days from the date of receipt of such proceeds. In addition, 30% of the amount of the relevant proceeds must be deposited with domestic financial institutions. Such deposit must (i) be registered, (ii) be non-transferable, (iii) be non-interest bearing, (iv) be made in U.S. dollars, (v) have a term of 365 days and (vi) can not be used as security or collateral in connection with other credit transactions. Export and import financing and primary public offerings of debt securities listed on self-regulated markets are exempt from the foregoing provisions. These measures may adversely affect our ability to access the international capital markets and to invest effectively the funds raised in any such financing, which could materially adversely affect our financial condition and results of operations. For a description of these and certain further exchange control measures see “Exchange Controls.”

The Argentine financial market and economy may be adversely affected by the deterioration of other emerging markets.

The Argentine financial and securities markets are, to varying degrees, influenced by economic and market conditions in other emerging market countries. Although economic conditions are different in each country, investor reaction to developments in one emerging market can have significant effects on the securities of issuers in other emerging markets, including Argentina. These developments, as well as the devaluation of various Asian, Mexican and Brazilian currencies, have adversely affected the securities markets in many emerging markets, including Argentina. The increased market volatility in these securities markets has also been attributed, at least in part, to the effect of these and other similar events. There can be no assurance that the

Argentine financial and securities markets will not continue to be adversely affected by events elsewhere, especially in other emerging markets. Such events can be expected to adversely affect the Argentine economy, which could have a material adverse effect on us.

Because the Argentine standards for corporate disclosure and accounting differ from those of the United States, information about us may not be as detailed or comprehensive as that of non-Argentine companies, including that of companies in the United States.

We are subject to the periodic reporting requirements of the Securities Exchange Act of 1934, as amended (“**Exchange Act**”). However, the periodic disclosure required of foreign issuers under the Exchange Act is more limited than the periodic disclosure required of companies in the United States. Furthermore, there is less extensive regulation of the Argentine securities markets and of the activities of investors in such markets as compared with the securities markets in the United States and certain other developed countries. We prepare our Financial Statements in accordance with Argentine GAAP and the regulations of the CNV, which differ in certain significant respects from US GAAP. See Note 12 to our Financial Statements for a description of the material differences between Argentine GAAP and US GAAP as they relate to us and for an estimate of the impact of those differences on net income (loss) for the year and our shareholder’s equity.

Risks Relating to Our Business

Because we receive a significant portion of our net revenues from public service contracts that are no longer subject to indexing, our net revenues, and liquidity, have been harmed as a result of inflation and the devaluation of the peso.

All of our net revenues from our gas transportation segment (which represented approximately 38% and 43% of total net revenues during 2006 and 2005, respectively) are attributable to public service contracts, which are subject to government regulation. We entered into these public service contracts primarily with natural gas distribution companies in connection with the privatization of Gas del Estado S.E. (“**GdE**”). Prior to the passage of the Public Emergency Law, the tariffs we were permitted to charge under these public service contracts permitted indexation, based on semi-annual changes in the U.S. Producer Price Index (“**PPPI**”), with adjustments every five years, based on the efficiency of, and investments in, our gas transportation operations. The Public Emergency Law, however, eliminated tariff indexation.

In accordance with the Public Emergency Law, in January 2002, public service tariffs were converted into pesos and fixed at an exchange rate of Ps. 1.00=US\$1.00 even as the peso was allowed to devalue against the U.S. dollar. Future gas transportation regulated tariffs may not be increased or, if increased, may not be increased to a rate that we believe is high enough to adequately compensate us. As a result, our net revenues from our gas transportation segment have been and may continue to be materially adversely affected.

Our results of operations may be adversely affected because our License with the Argentine government is subject to renegotiation.

The Public Emergency Law authorizes the Argentine government to renegotiate public service contracts, tariffs and licenses with public utility companies on its own initiative, using the following criteria:

- the impact of the rates on the competitiveness of the economy and on income distribution;
- the quality of the services and the investment programs contractually provided for in the service contract;
- the interests of users, as well as service access conditions;
- the operational safety of the systems concerned; and
- the profitability of a company.

Since the enactment of the Public Emergency Law, there has not been significant progress with respect to the renegotiation of our public service contracts. In July 2003, UNIREN was created under the joint jurisdiction of the Ministry of Economy and Production and the Ministry of Federal Planning and Public Investment and Utilities (“**MPFIPyS**”). Little progress has been made to date in the renegotiation process with UNIREN. We cannot at this time provide any assurances with regard to the terms or the timing of any

renegotiation of our License or the tariffs for our public service contracts. The deadline for the renegotiation of the public works and utilities contracts has been extended until December 31, 2007.

If our public service contracts are renegotiated, the new terms of such contracts may be less favorable than the current terms of these public service contracts. If the public service contracts are renegotiated on less favorable terms than our current tariffs provide, our results of operations and financial condition will be materially adversely affected. Even if our public service contracts are renegotiated on more favorable terms, those terms nonetheless may be insufficient to avoid a material adverse effect on our results of operations and financial condition. See “Item 4. Our Information—Business Overview—Gas Transportation—Regulatory Framework—Adjustment of Rates” below for more information.

Enron Corp., the parent corporation of certain shareholders of Compañía de Inversiones de Energía S.A. (“CIESA”), our controlling shareholder, has filed a claim with the International Centre for the Settlement of Investment Disputes (“ICSID”) against the Government of Argentina under the Bilateral Investment Treaty between the United States and Argentina. We understand that the claim argues that the pesification of tariffs and other unilateral changes to our regulatory structure effected by the Public Emergency Law and related laws and decrees violate the requirement of fair and equitable treatment under the treaty. On May 22, 2007, ICSID decided in favor of Enron Corp. and ordered the Argentine government to pay US\$106.2 million to Enron Corp. In two similar claims, the Argentine government is seeking the annulment of the awards in favor of the claimants. It is possible that the continued pursuit of such claim by Enron could adversely affect the timing and/or terms of any renegotiated tariff structure applicable to our gas transportation activities. The proposal of UNIREN for the renegotiation of our License requires us, and our present and former shareholders, including Enron and its affiliates, to abandon any claim or lawsuit we or they may have against the Argentine government resulting from the effects of the Public Emergency Law applicable to the License and the PPI tariff adjustments that were not applied in 2000 and 2001. Additionally, the proposal would require us to hold the Argentine government harmless from any claim or lawsuit filed by any of our present or former shareholders or any compensation in favor of such shareholders and to reimburse the Argentine government for any amount paid by it to our shareholders in connection with any such claim or lawsuit. If our shareholders or shareholders of CIESA are unwilling to abandon such claims and lawsuits, our ability to secure tariff increases, and accordingly our revenues from gas transportation, may be adversely affected.

Even if our shareholders and CIESA’s shareholders abandon such claims, there is no certainty regarding when the License renegotiation process will be completed. Other similarly situated public utility companies have complied with the UNIREN requirement. Some of these companies have been able to sign agreements with UNIREN that contemplate, among other things, an initial tariff increase and a tariff adjustment scheme for the future. However, the process for future tariff increases for these companies have been suspended, due to their potential impact on inflation.

On April 9, 2007, pursuant to Resolution No. 3729/07, ENARGAS authorized the gas distribution company Gas Natural BAN S.A. to implement a tariff increase of 14% for residential consumers and 15% for industries and commerce. The adjustment will be retroactively applicable to January 1, 2005. The resolution also includes a scheme for future adjustments. This tariff adjustment is the first one concluded between UNIREN and any of the public service companies in the natural gas transmission or distribution businesses. Although the adjustment could prove to be a useful benchmark in connection with further negotiations between UNIREN and the Company, no assurance can be given as to ultimate terms on which the Company may be able to secure a tariff adjustment.

Our regulated business is dependent on our ability to maintain our License, which is subject to revocation under some circumstances.

We conduct our natural gas transportation business pursuant to the License, which authorizes us to provide gas transportation services through the exclusive use of the southern gas transportation system in Argentina. The Executive Branch may revoke our License in certain circumstances based on the recommendation of ENARGAS, the governmental body charged with the regulation of the transportation, distribution, marketing and storage of natural gas. Reasons for which our License may be revoked include:

- repeated failure to comply with the obligations of our License and failure to remedy a significant breach of an obligation in accordance with specified procedures;

- total or partial interruption of service for reasons attributable to us that affects transportation capacity during the periods stipulated in our License;
- sale, assignment or transfer of our essential assets or the placing of encumbrances thereon without ENARGAS's prior authorization, unless such encumbrances serve to finance extensions and improvements to the gas pipeline system;
- our bankruptcy, dissolution or liquidation;
- ceasing and abandoning the provision of the licensed service, attempting to assign or unilaterally transfer our License in full or in part without the prior authorization of ENARGAS, or giving up our License, other than in the cases permitted therein; and
- delegation of the functions granted in such contract without the prior authorization of ENARGAS, or the termination of such agreement without regulatory approval of a new contract.

If our License were revoked, we would be required to cease providing gas transportation services. The impact of a loss of our License on our business, financial condition and results of operations would be material and adverse.

The affirmative and restrictive covenants in our currently outstanding indebtedness could adversely restrict our financial and operating flexibility and subject us to other risks.

Our currently outstanding indebtedness contains numerous affirmative and restrictive covenants that limit our ability to, among other things:

- create liens;
- incur additional debt;
- pay dividends, acquire shares of stock and make payments on subordinated debt;
- enter into transactions with affiliates;
- sell assets; or
- consolidate, merge or sell substantially all of our assets.

These restrictions may limit our ability to operate our businesses and may prohibit or limit our ability to enhance our operations or take advantage of potential business opportunities as they arise. The breach of any of these covenants by us or the failure by us to meet any of these conditions could result in a default under any or all of such indebtedness. Our ability to comply with these covenants may be affected by events beyond our control, including prevailing economic, financial and industry conditions and the renegotiation of public works and licenses process. In addition, if we are unable to generate sufficient cash flow from operations, we may be required to refinance outstanding debt or to obtain additional financing. We cannot assure you that a refinancing would be possible or that any additional financing would be obtained on acceptable terms.

Our creditors may not be able to enforce their claims against us in Argentina.

We are a stock corporation with limited liability, or *sociedad anónima*, organized under the laws of Argentina. Substantially all of our assets are located in Argentina.

Under Argentine law, foreign judgments may be enforced by Argentine courts, provided that the requirements of Articles 517 through 519 of the Federal Code of Civil and Commercial Procedure are met. Foreign judgments cannot violate principles of public policy (*orden público*) of Argentine law, as determined by Argentine courts. It is possible that an Argentine court would deem the enforcement of foreign judgments ordering us to make a payment in a foreign currency outside of Argentina to be contrary to Argentine public policy if at that time there are legal restrictions prohibiting Argentine debtors from transferring foreign currency outside of Argentina.

Under Argentine law, attachment prior to execution and attachment in aid of execution will not be ordered by an Argentine court with respect to property located in Argentina and determined by such courts to be utilized for the provision of essential public services. A significant portion of our assets may be considered by Argentine courts to be dedicated to the provision of an essential public service. If an Argentine court were to make such determination with respect to any of our assets, unless the Argentine government ordered the release of such assets, such assets would not be subject to attachment, execution or other legal process as long as such determination stands and the ability of any of our creditors to realize a judgment against such assets may be adversely affected.

In order to mitigate the energy crisis, the Argentine government has initiated new strategies, measures and programs with respect to the gas transportation industry, including the expansion of our pipeline, which could materially adversely affect our business, results of operations and financial condition.

Since 2004, the gas industry has experienced a sharp increase in natural gas demand as a consequence of: (i) the recovery of certain industries in the Argentine economy and (ii) the devaluation of the peso and the pesification of transportation and distribution tariffs and the elimination of both tariff and wellhead gas price adjustments, making this fuel relatively inexpensive for consumers as compared to other types of fuel the prices of which are affected by inflation. However, notwithstanding this increase in demand, these conditions have severely and negatively impacted the profitability of companies providing services relating to the production, transportation and distribution of natural gas.

Specifically, distribution companies have been prohibited from passing through price increases to consumers. Producers of natural gas, therefore, have been limited, if not unable, to implement wellhead gas price adjustments since 2002 until May 2004, which has caused such producers to suffer a sharp decline in their rate of return on investment activities. As a result, natural gas producers have limited their investments in exploration and production of natural gas. Likewise, the elimination of tariff adjustments for transportation companies has caused transportation companies to suffer a decrease in their profitability and, therefore, such companies have limited their investments in pipeline expansion activities. These events have contributed to the energy crisis in the natural gas industry in Argentina, where demand is exceeding available capacity.

In light of these events, the Argentine government has decided to initiate a number of strategies, measures and programs aimed at mitigating the energy crisis and supporting the recovery of the Argentine economy generally. With respect to the natural gas industry, these strategies, measures and programs include, among others, the expansion of our pipeline, through the creation of financial trust funds as vehicles to facilitate those investments. In order to finance such expansions, Law 26,095 was passed to provide for the creation of additional tariff surcharges (“*cargos específicos*”), which are special contributions to the gas trust fund made by the potential or actual beneficiaries of the improved gas transportation systems.

In 2005, a trust fund was created to carry out the expansion of the San Martín pipeline, resulting in a transportation capacity increase of 2.9 MMm3/d (102.4 MMcf/d). In addition, in April 2006, the MPFIPyS, the Federal Energy Bureau and gas transporters, among others, signed a Letter of Intent to carry out a second, significantly larger expansion of the gas pipeline system. This new expansion will increase the aggregate transportation capacity of our system and the system of Transportadora de Gas del Norte S.A. (“TGN”) by 25 MMm3/d, of which almost 9.4 MMm3/d correspond to our system. The investment will be financed by the shippers who subscribe to the additional capacity. Works are currently behind schedule due to the fact that some steps of the works have not been approved by the ENARGAS yet.

Although the San Martín expansion project has not adversely affected our results of operations or financial condition, we cannot assure you that expansion projects will not in the future have such adverse effects.

Additionally, the legality of the additional tariff surcharges used to finance the gas trust fund has been challenged by users of the gas distribution system who have been charged with such tariff surcharges. Some users claim that they are not direct beneficiaries of the pipelines to be constructed and that the tariff surcharges represent a covert increase in the gas tariff. Other users claimed that there was no public hearing as stipulated in the regulations. In the event that these claims are successful, new gas pipeline expansions could be impaired and our business adversely affected.

On April 9 and April 16, 2007, we received two requests from an Argentine Federal Criminal and Correctional Court to provide information and documents relating to the role we had in the 2005 pipeline expansion project. These requests were made in connection with an investigation regarding alleged improper payments made by a sub-contractor hired by another party (other than us) engaged by the Gas Trust in connection with the construction of a portion of the 2005 expansion project, which increased the capacity of both the northern and southern gas transportation pipeline systems of Argentina. Other companies involved in the expansion of the gas transportation systems have received similar requests for information. We have complied with the requests and provided all the information and documentation requested to the extent known by or available to us. No allegations have been made against us, and we have not engaged in any illegal or improper conduct in connection with the expansion project. The investigation may, however, create a distraction for management and could potentially affect the structure or timing of the larger expansion project commenced in 2006.

Also, in 2004, the Executive Branch issued Decree No. 181/04 directing the Federal Energy Bureau to establish a system of priority pursuant to which power stations and gas distribution companies could receive natural gas in priority to other users, even those with firm transportation contracts. On March 23, 2005, we received a notice from the Federal Energy Bureau that provides that from time to time, as necessary, it can require us to interrupt transportation service (including on firm basis) to our customers in order to service power stations and gas distribution companies and that ENARGAS will set the priority of transportation in such cases. Although, to date, our business has not been materially adversely affected by interruption requests, we can not assure you that in the future our business and results of operations will not be adversely affected by such requests.

Our NGL production could be adversely affected if the volume of natural gas transported by us declines, or especially if demand for natural gas continues to increase and new gas processing plants are built upstream the Cerri Complex.

A sharp increase in natural gas demand occurred as a result of the devaluation of the peso in early 2002. Natural gas became, by far, the cheapest fuel due to the pesification of transportation and distribution tariffs and the lack of adjustments of both these tariffs and wellhead gas prices. As a consequence, there are high rates of substitution of natural gas for other fuels, principally in power plants and vehicles. Likewise, the rising demand for gas also has been based on the recovery of many industrial segments of the Argentine economy.

We are and may be adversely affected by a decrease in the natural gas supply necessary to replace its attributable share of the natural gas shrinkage, fuel and losses associated with the extraction of liquids from the gas (see “Item 4.— Our Information—B. Business Overview—NGL Production and Commercialization” below).

We could also be adversely affected by additional competition in our NGL business. In 2000, a gas processing plant was built upstream of the Cerri Complex (see “Item 4.— Our Information—B. Business Overview—NGL Production and Commercialization—Competition” below). Any other project that eventually may be developed upstream of the Cerri Complex, could adversely affect our revenues from NGL production and commercialization services.

Our NGL business is volatile and fluctuations in international prices may materially adversely affect our results of operations and financial condition.

As a result of the deterioration of our gas transportation segment, operations relating to NGL production and commercialization have represented a larger portion of our total net revenues since 2003. For the year ended December 31, 2006, net revenues relating to NGL production and commercialization represented approximately 55% of our total net revenues while net revenues from this business represented approximately 51% of our total net revenues for the years ended December 31, 2005 and 2004. This increase is primarily due to higher international prices for LPG and production volume increases. Any decline in international prices for LPG, which have fluctuated significantly over the last ten years, may materially adversely affect our results of operations and financial condition.

A significant increase in the price of natural gas may adversely affect the profitability of the NGL production and commercialization business segment.

The cost of NGL production and commercialization for our own account (see “Item 4.— Our Information—B. Business Overview—NGL Production and Commercialization” below) may increase significantly, as a consequence of the natural gas price deregulation since March 2006 and the tariff surcharges (see “Item 4.— Our Information— B. Business Overview—Gas Transportation—The Argentine Natural Gas Industry—Historical Background” below) and a situation, in which Argentina currently finds itself, in which, in times where the natural gas production is not enough to satisfy the current demand. Because we extract and market a significant quantity of NGL for our own account, an increase in the Argentine natural gas price may have the effect of increasing our costs, and reducing our profit, from these activities.

CIESA, as principal shareholder, exercises significant control over matters affecting us.

Our controlling shareholder, CIESA, is in a position to direct our management, to control the election of a majority of the Board of Directors, to determine our dividend and other policies and to generally determine the outcome of any matter put to a vote of our shareholders. Pursuant to the procedures established by the Argentine government under which CIESA made its investment in us, there are restrictions on the ability of CIESA to reduce its shareholding in us below 51% of the share capital.

In addition, CIESA is facing a debt restructuring process (see “Item 4.— Our Information—A. Our History and Development—General” below). If the proposed Restructuring Agreement is not approved by the CNV, ENARGAS and the Argentine Antitrust Authority (*Comisión Nacional de Defensa de la Competencia* or “*CNDC*”), or any other aspect of the restructuring plan fails, CIESA may be forced into bankruptcy.

We have engaged in and will continue to engage in transactions with the shareholders of CIESA and their affiliates. However, the interests of these shareholders and affiliates may not be aligned, or may conflict, with our interests.

Item 4. Our Information

A. Our History and Development

General

Transportadora de Gas del Sur S.A. commenced commercial operations on December 29, 1992, as the largest company created in connection with the privatization of GdE, the Argentine state-owned gas company, whose integrated operations included gas transportation and distribution. GdE was divided into ten companies; two transportation companies and eight distribution companies.

We are a *sociedad anónima*, incorporated with limited liability under Argentine law on December 1, 1992. Our registered offices are located at Don Bosco 3672, 5th Floor, Buenos Aires (C1206ABF), Argentina, our telephone number is (54 11) 4865-9050 and our web address is www.tgs.com.ar.

We are currently the largest transporter of natural gas in Argentina, delivering approximately 59% of the total gas transported in Argentina, through 7,938km (4,933 miles) of pipeline, of which we own 7,481 km (4,649 miles). Substantially all of our transportation capacity, 71.6 MMm3/d (approximately 2.5 Bcf/d) in 2006, is subscribed for under firm long-term transportation contracts. Gas transportation subscribers with firm contracts pay for the contracted pipeline capacity regardless of actual usage. Our natural gas transportation business is regulated by ENARGAS, and revenues from this business represented approximately 38% and 43% of our total net revenues in 2006 and 2005, respectively.

We conduct our natural gas transportation business pursuant to the License, which is currently scheduled to expire in 2027, extendable for an additional ten-year period at our option if certain conditions are met. This License gives us the exclusive right to operate the existing southern Argentine gas transportation pipeline system. Our system connects major gas fields in southern and western Argentina with both distributors and large consumers of gas in those regions as well as in the greater Buenos Aires area, the principal population center of Argentina.

We are also the largest processor of natural gas and one of the largest marketers of NGL in Argentina. We operate the General Cerri gas processing complex and the associated Galván loading and storage facility in Bahía Blanca in the Buenos Aires Province (the “**Cerri Complex**”) where NGL are separated from gas transported through our pipeline system and stored for delivery. Our NGL production and commercialization business is not subject to regulation by ENARGAS, and revenues from this segment represented approximately 55% and 51% of our total net revenues during the years ended 2006 and 2005, respectively. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”

Our controlling shareholder is CIESA, which holds approximately 55.3% of our common stock. Local and foreign investors hold the remainder of our common stock. CIESA is owned 50% by Petrobras Energía S.A. (“**Petrobras Energía**”) (directly and indirectly through its subsidiary Petrobras Hispano Argentina S.A., which together with Petrobras Energía, we refer to herein as “**Petrobras**”), 40% by a trust for which ABN AMRO BANK N.V. acts as trustee (the “**Trust**”), and 10% by a subsidiary of Enron Corp. (“**Enron**”).

On April 16, 2004, Petrobras and Enron signed the Master Settlement and Mutual Release Agreement (the “**Settlement Agreement**”), which contemplates a two-stage reorganization of CIESA’s ownership. The first stage of the reorganization was carried out on August 29, 2005. In this first stage, Enron transferred 40% of the outstanding share capital of CIESA to the Trust, and Petrobras transferred Class “B” common shares (representing 7.35% of our outstanding share capital), which it held directly and not through CIESA, to Enron.

The second stage of CIESA’s reorganization will be implemented through the Restructuring Agreement, dated September 7, 2005, among CIESA, its current shareholders and its creditors. The Restructuring Agreement provides for a second stage in two steps. The first step, which has been completed, was the partial refinancing of CIESA’s indebtedness (due in April 2002) for approximately US\$23 million. The second step, which will be completed after approval by the ENARGAS and the CNDC, will consist of (a) the cancellation of CIESA’s remaining indebtedness (the principal amount of which is US\$201 million) in exchange for CIESA’s transfer to its creditors of TGS class “B” common shares that account for approximately 4.3% of TGS’s common stock, which will be simultaneously exchanged for the 10% of CIESA’s outstanding shares held by Enron, (b) the issuance of new CIESA shares in such a manner that the creditors will hold 50% of the common stock of CIESA and (c) the transfer by the Trust of its CIESA shareholding to Petrobras, leaving Petrobras with the remaining 50% of CIESA’s shares.

During the last three years, our aggregate capital expenditures amounted to approximately Ps. 423.7 million. Such capital expenditures include Ps. 168.6 million related to our gas transportation system expansions, Ps. 155.1 million related to improvements to our gas transportation system, Ps. 59.0 million related to NGL production and commercialization activities and Ps. 41.0 million related to other services activities. Information relating to the size and financing of future investments is included in “Item 5. Operating and Financial Review and Prospects”.

Our most significant capital expenditure during the last three years was the finalization of our gas transportation system expansion. This project was implemented within the framework of a Trust Fund constituted by the Executive Branch of the Argentine government for the purpose of financing gas pipeline systems expansions. The expansion generated a transportation capacity increase in the General San Martín Pipeline of 2.9 MMm³/d (102.4 MMcf/d) and required an aggregate investment of US\$ 351 million, of which US\$ 311 million was financed by the investors in the Trust Fund and approximately US\$ 40 million (including Value Added Tax “**VAT**”) was provided by us. 80% of the revenues obtained from the expanded transportation capacity will be applied towards repaying our investment.

Aside from the expansions carried out under the gas trust fund framework, we also conducted an expansion project in order to meet new firm transportation requirements for an additional capacity of 1.6 MMm³/d (56.5 MMcf/d), which capacity was subscribed by Aluar Aluminio Argentino S.A.C.I. (“**Aluar**”) and certain natural gas producers. This expansion project involved the construction of 80 km (50 miles) of loops along the San Martín pipeline and the renovation of a compressor plant. This expansion, which cost approximately US\$42 million, was financed by means of advance payments from the customers, which are being cancelled through the effective rendering of services. These expansions allowed an increase in our gas transportation revenues of approximately Ps. 26 million annually.

B. Business Overview

GAS TRANSPORTATION

As a transporter of natural gas, we receive gas owned by a shipper, typically a gas distributor, at one or more intake points on our pipeline system for transportation and delivery to the shipper at specified delivery points along the pipeline system. Under applicable law and our License, we are not permitted to buy or sell natural gas except for our own consumption and to operate the pipeline system. See “—Regulatory Framework” below for more information.

Our pipeline system connects major gas fields in southern and western Argentina with distributors of gas in those areas and the greater Buenos Aires area. TGN, the only other natural gas transportation operating company that supplies the Argentine market, holds a similar license with respect to the northern pipeline system, which also provides gas transportation services to the greater Buenos Aires area.

Gas transportation services accounted for approximately 38%, 43% and 44% of our total net revenues in 2006, 2005 and 2004, respectively. In 2006, approximately 93% of our average daily gas deliveries were made under long-term firm transportation contracts. (See “—Customers and Marketing” below). Firm transportation contracts are those under which capacity is reserved and paid for regardless of actual usage by the customer. All of our firm contracted capacity is currently subscribed for at the maximum tariffs allowed by ENARGAS. During 2006, the amount of net revenues derived from firm transportation contracts was approximately Ps. 448.8 million, representing 91% of the total net revenues for the gas transportation segment. Substantially all of our remaining gas deliveries were made under interruptible transportation contracts entered into predominantly with the same four gas distribution companies and industrial customers. Interruptible contracts provide for the transportation of gas subject to available pipeline capacity.

Customers and Marketing

Our principal service area is the greater Buenos Aires region in central-eastern Argentina. We also serve the more rural provinces of western and southern Argentina. Our service area contains approximately 5.0 million end-users, including approximately 3.4 million in greater Buenos Aires. Direct service to residential, commercial, industrial and electric power generation end-users is mostly provided by four gas distribution companies in the area, all of which are connected to our pipeline system: *MetroGas S.A.* (“**MetroGas**”), *Gas Natural BAN S.A.* (“**BAN**”), *Camuzzi Gas Pampeana S.A.* (“**Camuzzi Pampeana**”) and *Camuzzi Gas del Sur S.A.* (“**Camuzzi Sur**”). These distribution companies serve in the aggregate approximately 67% of the distribution market in Argentina. The other five Argentine distribution companies are located in and serve northern Argentina and are not connected directly to our pipeline system.

The table below contains certain information for 2006, as it relates to the distribution companies that are connected to our pipeline system:

Company	Annual Deliveries (Bm ³)	% of Market Served	No. of End-Users (in million)	% of deliveries received from us
MetroGas ⁽¹⁾	7.9	26%	2.1	92%
Camuzzi Pampeana ⁽¹⁾	4.2	14%	1.1	98%
Camuzzi Sur	4.0	13%	0.5	100%
BAN ⁽¹⁾	3.9	14%	1.3	66%
		<u>67%</u>	<u>5.0</u>	

(1) Also connected to the TGN system.

Source: ENARGAS

The firm average contracted capacity for our four largest distribution customers, and for all other customers, as a group, at December 31, 2006, 2005 and 2004, together with the corresponding net revenues derived from firm gas transportation services during such years and the net revenues derived from interruptible services during such years are set forth below:

Firm:	December 31,								
	2006			2005			2004		
	Average firm contracted capacity	Net revenues		Average firm contracted capacity	Net revenues		Average firm contracted capacity	Net revenues	
	(MMm ³ /d)	(MMcf/d)	(million of pesos)	(MMm ³ /d)	(MMcf/d)	(million of pesos)	(MMm ³ /d)	(MMcf/d)	(million of pesos)
MetroGas	22.5	794.7	175.4	22.5	796.0	172.8	22.2	785.4	171.1
Camuzzi Pampeana	14.4	507.1	87.7	11.0	388.3	81.3	11.5	405.1	76.6
BAN	10.4	366.5	69.5	9.2	325.0	64.0	9.0	316.7	60.6
Camuzzi Sur	10.3	363.3	20.5	9.8	345.1	19.1	8.5	298.4	17.0
Others	14.0	495.2	95.7	15.7	556.2	91.2	12.4	441.5	80.4
Total firm	71.6	2,526.8	448.8	68.2	2,410.6	428.4	63.6	2,247.1	405.7
Interruptible and others:	-	-	43.2	-	-	31.6	-	-	28.6
Total	71.6	2,526.8	492.0	68.2	2,410.6	460.0	63.6	2,247.1	434.3

Step-down Rights. We are required by the ENARGAS to grant all shippers of natural gas step-down rights, which permit the shippers to reduce some of their committed capacity in the zones where, as a result of open bidding, new shippers of natural gas subscribed for firm transportation capacity, so long as we do not suffer any economic harm. ENARGAS's intention is to promote more efficient use of the pipeline system, avoiding over-subscribed capacity at levels above market demands.

Pipeline Operations

Pipeline Deliveries. The following table sets forth our average daily firm and interruptible transportation deliveries for 2006, 2005 and 2004:

Firm:	December 31,					
	2006		2005		2004	
	Average daily deliveries		Average daily Deliveries		Average daily deliveries	
	(MMm ³ /d)	(MMcf/d)	(MMm ³ /d)	(MMcf/d)	(MMm ³ /d)	(MMcf/d)
MetroGas	19.8	699.2	19.4	685.1	19.0	671.0
Camuzzi Pampeana	9.9	349.6	9.5	335.5	8.9	314.3
Camuzzi Sur	6.7	236.6	6.3	222.5	5.8	204.8
BAN	8.1	286.0	7.6	268.4	7.4	261.3
Others	12.6	445.0	10.6	374.3	9.7	342.6
Subtotal firm	57.1	2,016.4	53.4	1,885.8	50.8	1,794.0
Subtotal interruptible	4.1	144.8	4.2	148.3	4.8	169.5
Total	61.2	2,161.2	57.6	2,034.1	55.6	1,963.5
Average annual load factor ⁽¹⁾	86%		84%		87%	
Average winter heating season load factor ⁽¹⁾	94%		92%		95%	

(1) Average daily deliveries for the period divided by average daily firm contracted capacity for the period, expressed as a percentage

Since privatization of the pipeline system, we have succeeded in increasing peak-day delivery capability, as reflected in the pipelines' increase in average three-day peak deliveries, from 42.9 MMm³/d (1.5 Bcf/d) in 1991, as measured by GdE (no statistical data is available for 1992), to 66.7 MMm³/d (2.4 Bcf/d) in 2001, representing an increase of 55%. From 2001 to 2006 the average three-day peak deliveries has increased only slightly to 74.6 MMm³/d (2.6 Bcf/d), representing an increase of 12% and reflecting the unfavorable investment climate since late 2001.

Pipeline Expansions. As a result of increased availability, we have conducted several open biddings designed to provide all potential shippers with the opportunity to secure additional firm transportation capacity.

From 1994 to 2001, we increased our transportation capacity by approximately 19.6 MMm³/d with an investment of US\$423 million. Such investments in the General San Martín, Neuba I, Neuba II and Cordillerano pipelines included (i) the construction of loops for 781 km (485.3 miles), and (ii) an increase of 121,200 HP through the construction of compressor stations, the expansion of the compressing capacity of existing compressor stations and the addition of a new turbine-driven compressor.

In light of the lack of expansions of the natural gas transportation system over the last years (as a consequence of the “pesification” of tariffs and the fact that the renegotiation of the license is still pending) and a growing gas demand in all segments of the Argentine economy, the Argentine government established - through Executive Branch Decree No. 180/04 and Resolution No. 185/04 issued by the MPFIPyS - the framework for the creation of a trust fund (the “**Gas Trust**”) with the aim of financing gas transportation system expansions.

In 2005, the first Gas Trust was constituted with the purpose of financing the expansion of the San Martín pipeline transportation capacity for approximately 2.9 MMm³/d (102.4 MMcf/d). The expansion was achieved through the construction of approximately 509 km (316 miles) of pipeline and a compression capacity increase of 30,000 HP through the construction of a new compressor plant and the revamping of some existing units. The work, which was finished in August 2005, partially came into service in July 2005.

The Gas Trust invested approximately US\$311 million, which will be repaid by applying 20% of the revenues generated by the additional firm contracted capacity plus a surcharge, which is ultimately paid by industries, power plants and compressed natural gas (“CNG”) suppliers for whom gas transportation supply is made under firm contracts. We invested approximately US\$40 million in the expansion (including VAT for an amount of US\$7 million), which we will recover through our right to collect 80% of the revenues obtained from the additional transportation capacity based on our current tariff rate (but not to the extent of any increased rate that may apply in the future). These amounts represent annual revenues of approximately Ps. 23 million. This amount is expected to be fully repaid at the end of the license period.

In April 2006, the MPFIPyS, the Federal Energy Bureau and gas transportation companies, among others, signed a letter of intent to carry out a second and much more significant expansion of the gas transportation pipeline system. This new expansion will increase the transportation capacity of our system and TGN’s system by a total of 25 MMm³/d (883 MMcf/d), of which approximately 9.4 MMm³/d (332 MMcf/d) correspond to our system. In December 2006, the gas trust fund contracts and a project management agreement among the Federal Energy Bureau, Nación Fideicomisos S.A and us (the “**Management Agreement**”) was signed. Under the Management Agreement, we will receive Ps. 50 million plus VAT as a consideration for management services that we will render in 2007 and 2008 in connection with the construction of the first 7.0 MMm³/d (247 MMcf/d) of capacity. The expansion shall be deemed the property of a gas trust fund and the investment would be financed by other gas trust funds, whose trustors are the shippers who subscribed the additional capacity. The cost of the project will be repaid principally through the levy of a new surcharge on the industries, power plants and large and medium-size businesses, other than users of CNG for vehicles. Works are currently behind schedule due to the fact that some steps of the works have not been approved by the ENARGAS yet.

Additionally, as we described above, we conducted the work on an expansion of our pipeline system (see “ Our history and development – General”), in order to meet new firm transportation requirements subscribed by Aluar and gas producers.

System Improvements. In 2006, 2005 and 2004, we made capital expenditures in the aggregate amount of approximately Ps. 32.9 million to continue the enhancement of the pipeline system’s safety and reliability. We operate our pipelines in accordance with Argentine gas transmission safety regulations, which are substantially similar to U.S. federal regulations. We believe that, based on the pipeline inspection reports we have received to date and the pipeline repairs and/or replacements being made to the General San Martín and Neuba I pipelines, the current operation of the pipeline system poses no significant safety risks. Since the commencement of our operations in late 1992, we have implemented measures to ensure that the service would not be interrupted in any relevant consumption center; in the last five years we had not had significant ruptures in our system’s pipeline.

After the Neuba I pipeline suffered ruptures in 1998 and 1999 caused by fissures produced by the Stress Corrosion Cracking (“SCC”), we made, in 2000 and 2001, hydrostatic tests on some critical tranches of that pipeline. As a consequence of these tests, we replaced approximately 1.2 km of pipeline and carried out a recoating program.

The hydrostatic tests require interruption of gas transportation service for approximately one month. Currently, this is impracticable due to high gas transportation demand. Therefore, in 2004, we contacted a Russian internal inspection service supplier, who offered us an internal inspection tool that would permit the detection of SCC without interruption of gas transportation service. In March 2005, we made internal inspections on some pipeline tranches using this new technology; however, these tests were not effective. Consequently, the Russian company is designing a new tool which began testing in January 2007. Moreover we are carrying out precise diggings with a susceptibility model developed by us in order to find cracks in the areas of Neuquén and Cipoletti.

In addition, during 2006, 2005 and 2004, internal inspections were successfully carried out through 2,507 km (1,558 miles) of pipelines in order to detect failures and damages produced by rust and corrosion, which cost amounted to approximately US\$ 4.1 million. The total kilometers to be inspected through 2007 were established jointly with the ENARGAS.

These inspections have been performed by a supplier under a five-year agreement involving inspection services to be rendered through 2007. As a result of these inspections, it was necessary to do specific repairs, some of which included the replacement of small sections of pipelines.

Technical Assistance Agreement. As part of its bid to purchase a 70% interest in us from the Argentine government, CIESA was required to have an investor-company with experience in natural gas transmission that would serve as our technical operator. In late 1992, we entered into a Technical Assistance Agreement with Enron Pipeline Company Argentina (“EPCA”), an indirect, majority-owned subsidiary of Enron Corp.. The term of the Technical Assistance Agreement was for eight years from December 28, 1992, renewable automatically upon expiration for additional eight-year periods. The Settlement Agreement, mentioned in “—Our History and Development—General”, includes a term which provides for the assignment of the Technical Assistance Agreement to Petrobras Energía. This assignment, which was approved by ENARGAS in June 2004, was carried out on July 15, 2004. Since that date, Petrobras Energía has been our technical operator and is in charge of providing services related to, among others, the operation and maintenance of the gas transportation system and related facilities and equipment in order to ensure that the performance of the system is in conformity with international gas transportation industry standards and in compliance with certain Argentine environmental standards.

The Technical Assistance Agreement sets out the services to be provided by Petrobras Energía to us, at the request of our Chief Executive Officer (“CEO”), in return for payment of an annual technical assistance fee equal to the greater of (i) Ps. 3 million or (ii) 7% of the amount obtained after subtracting Ps. 3 million from net income before financial income (expense) and holding gains (losses) and income taxes. The services to be provided by Petrobras Energía to us under the Technical Assistance Agreement include assisting us in the following matters to the extent that they arise in the ordinary course of business: (i) replacement, repair and renovation of facilities and equipment to ensure that the performance of the system is in accordance with international gas transportation industry standards; (ii) preparation of performance evaluations, operating cost analyses, construction assessments and advice related to budget control; (iii) advice regarding safety, reliability and efficiency of system operation and gas industry services; (iv) advice regarding compliance with applicable laws and regulations relating to safety and health, pollution and environmental protection of the system; (v) routine and preventive maintenance of the system; (vi) staff training; (vii) design and implementation of the procedures necessary to accomplish the aforesaid services; and (viii) design and implementation of a management information and inspection system for all major aspects of natural gas transportation and NGL production.

The Argentine Natural Gas Industry

Historical Background. Prior to the privatization of GdE, the Argentine natural gas industry was effectively controlled by the Argentine government. In addition, prior to its privatization, Repsol-YPF S.A. (“Repsol-YPF”) or its predecessors held exclusive rights over the development and production of all new hydrocarbon reserves in Argentina.

In 1992, the Natural Gas Act and Decrees Nos. 1,189/92 and 1,738/92 of the Executive Branch were passed providing for the privatization of GdE. The Natural Gas Act and the related decrees provided for, among other things, the transfer of substantially all of the assets of GdE to two transportation companies and eight distribution companies. The transportation assets were divided into two systems on a broadly geographical basis, the northern and southern trunk pipeline systems, designed to give both systems access to gas sources and to main centers of demand, including the greater Buenos Aires area. As a result of the division, our transportation

system is connected to the two distribution systems serving the greater Buenos Aires area, one serving Buenos Aires Province (excluding the greater Buenos Aires area) and one serving southern Argentina. TGN is connected to five distribution systems serving northern Argentina. TGN is also connected to the distribution systems serving the greater Buenos Aires area and, to a limited extent, the distribution system serving Buenos Aires Province (excluding the greater Buenos Aires area). In the two instances where we are directly connected to a distribution system with TGN, we are the principal supplier of gas transportation services.

The Natural Gas Act and the related decrees granted each privatized gas transportation company a license to operate the transferred assets, established a regulatory framework for the privatized industry based on open, non-discriminatory access, and created ENARGAS to regulate the transportation, distribution, marketing and storage of natural gas. The Natural Gas Act also provided for the regulation of wellhead gas prices in Argentina for an interim period. Prior to deregulation, the regulated price was set at US\$0.97/million British thermal units (“MMBtu”) at the wellhead, which had been the regulated price since 1991. Pursuant to Decree No. 2,731/93, gas prices were deregulated as of January 1, 1994. From deregulation until 2001, average prices rose by approximately 67%.

On February 13, 2004, the Executive Branch signed two decrees related to the natural gas market in order to secure the adoption of measures to normalize the supply of natural gas. The Executive Branch, through Decree No. 180/04, established the creation of the MEG with the purpose of improving the transparency of financial and operating performance, the coordination of daily transactions both of the gas spot market and the transportation and distribution to secondary markets along with the shaping of efficient prices through free offer and demand interaction. To that purpose, all firm transportation capacity non-allocated for the following day is to be marketed through the MEG and the proceeds used at the discretion of the Federal Energy Bureau. Non-allocated capacity includes remaining capacity not used in any of the transportation systems or pipelines. This implies that we are bound to offer daily non-allocated capacity, which might have a material impact on our interruptible transportation revenues. Despite the MEG’s commencement of operations in August 2005, it has not begun overseeing or requiring such transactions.

In spite of the devaluation of the peso, from early 2002 until May 2004 wellhead gas prices remained unchanged. This was the indirect consequence of the government prohibition on distribution companies passing through price increases implemented by producers, which made it impossible for producers to implement any increase in the wellhead gas price. From May 2004 until August 2005, wellhead gas prices increased in a range from 105% to 180% (depending on the gas basins) for power plants, CNG for vehicles, industries and retail in which consumption surpasses 9,000 m³/month. For such large consumers (except consumers of CNG for vehicles and power plants), the wellhead gas price has been deregulated since March 31, 2006. Nevertheless, the natural gas price for these large consumers can not be higher than the export parity price (net of tax on exports). This price was scheduled to be deregulated for smaller consumers (including residential consumers) and CNG for vehicles on January 1, 2007. However, as of the date of this Annual Report, the Federal Energy Bureau has not authorized this deregulation.

Demand for Natural Gas. Natural gas consumption in Argentina has increased more than 60% from approximately 22.3 Bm³ (787 Bcf) in 1993 to 36.1 Bm³ (1,275.1 Bcf) in 2006, representing a compound annual rate of growth in consumption of approximately 3.8%. Natural gas has experienced a significant increase in market share in Argentina in recent years reaching approximately 55% of total national energy consumption in 2005, which is greater than the comparable percentage for worldwide energy consumption. Despite the relatively high market share for natural gas in Argentina as compared to other countries, significant additional potential demand for natural gas exists as a result of recent growth in the Argentine economy and the constraints on the supply of natural gas resulting from governmental on increases in the wellhead price of natural gas, as well as limits on increases in the transportation and distribution tariffs.

The graphic below sets forth the consumption of natural gas in Argentina by class of user, stated as a percentage of total consumption, for the year ended December 31, 2005, the most recent year for which such information is available:

Source: *ENARGAS*

A sharp increase in natural gas demand resulted from the devaluation of the peso in early 2002. Natural gas became, by far, the cheapest fuel due to the pesification of transportation and distribution tariffs and the lack of adjustments of both these tariffs and wellhead gas prices. As a consequence, there are high rates of substitution of natural gas for other fuels, including the increasing use of CNG for vehicles. Likewise, the rising demand for gas also has been based on the recovery of many industrial segments of the Argentine economy.

The Argentine government has decided to play a decisive role in the industry through a set of measures designed to address the combination of rising demand and lower investments in exploration, production, transportation and distribution of natural gas. The goal of the measures set forth below is to reduce the impact of the energy crisis on the recovering Argentine economy:

- creation of Energía Argentina S.A. (“**ENARSA**”) for the purposes of restoring levels of reserves, production and supply of natural gas and meeting the infrastructure needs of the gas transportation and electricity industries;
- approval of graded price increases of natural gas at the wellhead, except for residential customers;
- establishment of a framework for the constitution of trust fund vehicles to finance gas pipeline expansions;
- creation of the MEG to improve the transparency and efficiency of daily operations through the free interaction of the offer and demand of natural gas;
- implementation of different programs to stimulate savings of gas and electricity consumption in order to apply them in industrial activities;
- importation of natural gas from Bolivia, electricity from Brazil and Uruguay and fuel oil and gas oil from Venezuela and others countries - the latter as an alternative fuel to natural gas - and to reduce natural gas exports to Chile and Brazil;
- completion of the expansion work in Yacyretá Hydroelectric Plant and Atucha II Nuclear Power Plant;
- construction of a new pipeline to transport the import of 20 MMm³/d (706.2 MMcf/d) of natural gas from Bolivia;
- construction of two thermal power plants to be carried out with funds owed by the Argentine government to power plants and with funding from Private Pension Fund Managers (“**AFJP**”) and other investors;
- planning for the construction of a gas pipeline to connect the abundant Bolivian and Venezuelan natural gas reserves with the consumption of natural gas in Argentina and other South American countries; and
- creation of tariff charges to be paid by all consumers other than residential consumers in order to finance gas and electricity expansions.

The lack of progress in the renegotiation of utility companies' services contracts led to a failure on the part of natural gas licensees to make the investments necessary to expand pipeline capacity so as to meet increasing demand in the industry. To address this issue, the Argentine government promoted the creation of financial trust funds, such as the Gas Trust, as vehicles to facilitate those investments. Although this alternative investment structure may prove successful in addressing demand problems in the next few years, management believes that it may not be a feasible solution for financing infrastructure investments in the long-term because trust-sponsored expansions of the pipeline system are likely to be designed to permit investors in the trust to recover their investments in the short term. As a result, this structure requires significant tariff increases that are borne by a relatively small number of parties (e.g., large industrial companies, power plants, CNG suppliers and other important commercial companies). Management believes that the capacity of all of these groups of customers to absorb tariff increases may be limited.

The financing approach taken over the 1990s by privatized companies not only resulted in a significant increase of gas transportation capacity and distribution in the gas transportation systems but also the introduction of new technologies and the development of optimal operative maintenance conditions of the systems. The excellent maintenance conditions that were developed have enabled the privatized companies to continue delivering quality in gas transportation and distribution services and respond to a growing demand, despite the inability of such companies to make additional capital investments in the systems during the recent Argentine economic crisis. However, the deterioration of the tariff regime and abrogation of the adjustment mechanism specified in the private companies' licenses, as well as the Argentine peso devaluation, have turned Argentina into the Latin American country with the lowest cost of gas, making it difficult for companies to raise sufficient capital to implement the expansion projects necessary to address high gas demand growth rates.

Gas Supply. For the most part, Argentina's gas reserves were discovered as a result of exploration for oil reserves. There are 19 known sedimentary basins in the country, ten of which are located entirely onshore, six of which are combined onshore/offshore and three of which are entirely offshore. Production is concentrated in five basins: Noroeste in northern Argentina, Neuquén and Cuyo in central Argentina, and Golfo San Jorge and Austral in southern Argentina. Approximately 60% of the gas transported by our system in 2006 originated in the Neuquén basin with the remainder coming primarily from the Austral basin. Our pipeline system is connected to the Neuquén, Austral and Golfo San Jorge basins. We are not connected to the Cuyo or Noroeste basins. Set forth in the table below is the location of the principal gas producing basins by province, their proved natural gas reserves estimated as of December 2005, production in 2005 (the last year for which information is available) and the calculated reserve life for each basin:

Basin	Location by province	Proved Gas Reserves ⁽¹⁾⁽²⁾		Production 2006		Reserve Life ⁽³⁾ (years)
		MMm ³	Bcf	MMm ³	Bcf	
Neuquén	Neuquén, Río Negro, La Pampa, Mendoza (south)	202,543	7,153	29,736	1,050	6.8
Austral	Tierra del Fuego, Santa Cruz (south), and offshore	123,638	4,366	10,215	361	12.1
Golfo San Jorge	Chubut, Santa Cruz (north)	43,642	1,541	4,769	168	9.2
Cuyo	Mendoza (north)	692	24	62	2	11.2
Noroeste	Salta, Jujuy, Formosa	75,641	2,671	7,048	249	10.7
Total		446,156	15,755	51,830	1,830	8.6

(1) Estimated as of December 31, 2006. There are numerous uncertainties inherent in estimating quantities of proven reserves. The accuracy of any reserve estimate is a function of the quality of available data and engineering and geological interpretation and judgment. Results of drilling, testing and production after the date of the estimate may require substantial upward or downward revisions. Accordingly, the reserve estimates could be materially different from the quantity of gas that ultimately will be recovered.

(2) Reserve figures do not include significant reserves located in certain Bolivian basins to which TGN is connected.

(3) Weighted average reserve life for all basins, at 2006 production levels.

Source: Federal Energy Bureau

Neuquén Basin. The largest of the gas basins and the major source of gas supply for our system is the Neuquén basin, located in west central Argentina. The TGN system also accesses the Neuquén basin. Of the transported gas coming from the Neuquén Basin approximately 68% was transported by us and approximately 32% by TGN for the year ended December 31, 2006.

Austral and Golfo San Jorge Basins. Natural gas provided by these basins, located in the southern region of Argentina, was transported mainly by us (Camuzzi Sur also transports gas through regional pipelines). In the Austral basin, exploration has centered in and around the basin's existing gas fields and on other fields located offshore. The Golfo San Jorge basin is primarily an oil-producing basin.

Regulatory Framework

Industry Structure. The Natural Gas Act, together with Decree No. 1,738/92, other regulatory decrees, *El Pliego de Bases y Condiciones para la Privatización de Gas del Estado S.E.* (the "**Pliego**"), the transfer agreements and the licenses of the newly privatized companies establish the legal framework for the transportation and distribution of gas in Argentina. Law No. 17,319 (the "**Hydrocarbons Law**") regulates the midstream gas industry, under a competitive and partially deregulated system. The Public Emergency Law and related laws and regulations have had the practical effect of significantly altering the regulatory regime under which we operated until 2002. See "Item 3. Key Information—Risk Factors—Risks Relating to Our Business."

Natural gas transportation and distribution companies operate in an "open access", non-discriminatory environment under which producers and certain third parties, including distributors, are entitled to equal and open access to the transportation pipelines and distribution system in accordance with the Natural Gas Act, applicable regulations and the licenses of the privatized companies. In addition, a regime of concessions under the Hydrocarbons Law is available to holders of exploitation concessions to transport their own gas production.

The Natural Gas Act prohibits gas transportation companies from also being merchants in natural gas. Also, (i) gas producers, storage companies, distributors, and consumers who contract directly with producers may not own a controlling interest (as defined in the Natural Gas Act) in a transportation company, (ii) gas producers, storage companies and transporters may not own a controlling interest in a distribution company, and (iii) merchants in natural gas may not own a controlling interest in a transportation or distribution company.

Contracts between affiliated companies engaged in different stages in the natural gas industry must be approved by ENARGAS. ENARGAS may reject these contracts if it determines that they were not entered into on an arms-length basis.

ENARGAS, which was established by the Natural Gas Act, is an autonomous entity responsible for enforcing the provisions of the Natural Gas Act, the applicable regulations and the licenses of the privatized companies. Under the provisions of the Natural Gas Act, ENARGAS is required to be governed by a board of directors composed of five full-time directors appointed by the Executive Branch subject to confirmation by the Congress. However, since 2004 ENARGAS has been governed by three directors who were not confirmed by the Congress and, currently, ENARGAS is administered by an inspector appointed by the Executive Branch through Decree No. 571/07. Executive Branch intervention is due to investigation of ENARGAS' possible involvement in alleged improper payments made by a sub-contractor hired by a third party engaged by the Gas Trust in connection with the construction of a portion of the 2005 expansion project, that increased the capacity of both the northern and southern gas transportation pipeline system of Argentina. ENARGAS, which operates within the purview of the Ministry of Economy and Production and the MPFIPyS, has broad authority to regulate the operations of the transportation and distribution companies, including the ability to set rates. ENARGAS has its own budget which must be included in the Argentine National Budget and submitted to Congress for approval. ENARGAS is funded principally by annual control and inspection fees that are levied on regulated entities in an amount equal to the approved budget, net of collected penalties, allocated proportionately to each regulated entity based on its respective gross regulated revenues, excluding natural gas purchase and transportation costs in the case of distribution companies. ENARGAS also collects the fines imposed for violations of the Natural Gas Act on each company's license.

Most of the electrical power stations do not have firm gas supply agreements and, as a result of the gas shortage in Argentina, have increasingly used imported natural gas and used alternative fuels that are more expensive than natural gas produced in Argentina. In 2004, the Executive Branch issued Decree No. 181/04, directing the Federal Energy Bureau to establish a system of priority pursuant to which power stations and gas distribution companies (for their uninterruptible clients) could receive natural gas in priority to other users, even those with firm transportation contracts. On April 21, 2004, the MPFIPyS issued Resolution No. 208/04 that ratified an agreement between the Federal Energy Bureau and gas producers to give effect to this new system.

On March 23, 2005, we received a notice from the Federal Energy Bureau that provides that, in the event there is insufficient gas available in the market to supply power stations, we can be required to interrupt

transportation services to our firm capacity customers in order to give priority to gas distribution companies and power plants that have not entered into firm transportation contracts. In any such case, ENARGAS will set the priority of transportation.

Under these circumstances and our License, if ENARGAS asks us to interrupt firm transportation contracts, we will be exposed to potential claims from, among others, our customers. Therefore, we have requested that in connection with these new procedures, ENARGAS submit to us in writing instructions for any such firm transportation service interruption request. However, if ENARGAS does not accept our petition and we do not comply with ENARGAS instructions, if any, in order to avoid future claims from our customers, Resolution No. 208/04 will require us to pay the price difference between natural gas and the alternative fuel used by power stations in order to offset the loss resulting from our failure to comply with the instructions.

At the end of May 2007, due to a rise in demand resulting from unusually low temperatures throughout the country, ENARGAS and the Federal Energy Bureau utilized their authority under this resolution for the first time. ENARGAS honored our petition, and submitted written instructions to us. We complied with these instructions, and do not believe that our compliance will result in legal action by any of our firm transportation clients. We have not received claims from any of our firm transportation clients as of date of issuance of this Annual Report.

Our License. Our License authorizes us to provide the public service of gas transportation through the exclusive utilization of the southern gas transportation system. Our License does not grant us an exclusive right to transport gas in a specified geographical area and licenses may be granted to others for the provision of gas transportation services in the same geographical area. TGN operates the northern gas transportation system under a license containing substantially similar terms to those described below and elsewhere herein.

Our License was granted for an original term of 35 years beginning on December 29, 1992. However, the Natural Gas Act provides that we may apply to ENARGAS for a renewal of our License for an additional ten-year term. ENARGAS is required at that time to evaluate our performance and make a recommendation to the Executive Branch. If ENARGAS determines that we are in substantial compliance with all our obligations arising under the Natural Gas Act, related regulations and our License, the renewal must be granted by the Executive Branch. ENARGAS would have the burden of proving that we had not complied with the obligations described above and, therefore, should not be granted a renewal. At the end of the 35-year or 45-year term, as the case may be, the Natural Gas Act requires that a new competitive auction be held for the license, in which we would have the option, if we have complied substantially with our obligations described above, to match the best bid offered to the Argentine government by any third party. To the extent that we were found not to have complied with the obligations described above or chose not to seek renewal of our License, we would be entitled to certain specified compensation. See “—Certain Restrictions with Respect to Essential Assets” below.

Our License also places certain other rights and obligations on us relating to the services we provide. These include:

- operating and safety standards;
- terms of service, including general service conditions such as specifications regarding the quality of gas transported, major equipment requirements, invoicing and payment procedures, imbalances and penalties, and guidelines for dispatch management;
- contract requirements, including the basis for the provision of service, e.g., “firm” or “interruptible”;
- mandatory capital investments to be made over the first five-years of the license term; and
- applicable rates based on the type of transportation service and the area serviced.

Our License establishes a system of penalties in the event of a breach of our obligations thereunder, including warnings, fines and revocation of our License. These penalties may be assessed by ENARGAS based, among other considerations, upon the severity of the breach or its effect on the public interest. Fines of up to Ps. 500,000 may be levied for persistent breaches. Revocation of our License may only be declared by the Executive Branch upon the recommendation of ENARGAS. Our License specifies several grounds for revocation, including the following:

- repeated failure to comply with the obligations of our License and failure to remedy a significant breach of an obligation in accordance with specified procedures;
- total or partial interruption of the service for reasons attributable to us, affecting completely or partially transportation capacity during the periods stipulated in our License;
- sale, assignment or transfer of our essential assets or otherwise encumbering such assets without ENARGAS's prior authorization, unless such encumbrances serve to finance extensions and improvements to the gas pipeline system;
- bankruptcy, dissolution or liquidation; and
- ceasing and abandoning the provision of the licensed service, attempting to assign or unilaterally transfer our License in full or in part without the prior authorization of ENARGAS, or giving up our License, other than in the cases permitted therein.

Our License also prohibits us from assuming debt of CIESA, or from granting credit to, creating security interests in favor of, or granting any other benefit to, creditors of CIESA.

Generally, our License may not be amended without our consent. As part of the renegotiation process under the Public Emergency Law, however, the terms of our License may be changed or our License may be revoked. In addition, ENARGAS may alter the terms of service annexed to our License. If any such alteration were to have an economic effect on us, ENARGAS could modify our rates to compensate for such effect or we could request a change in the applicable rates.

Regulation of Transportation Rates—Actual Rates. The gas transportation rates established under each transportation company's license must be calculated in U.S. dollars and converted into pesos at the time of billing pursuant to the terms of such license. However, the Public Emergency Law eliminated tariff indexing covenants based on U.S. dollar exchange rate fluctuations and established a conversion rate of one peso equal to one U.S. dollar for tariffs.

The transportation rate for firm transportation services consists of a capacity reservation charge and is expressed as a maximum monthly charge based on the cubic meters per day of reserved transportation capacity. The rate for interruptible transportation service, which is expressed as a minimum (from which no discounts are permitted) and a maximum rate per 1,000 m³ of natural gas transported, is equivalent to the unit rate of the reservation charge for the firm service based on a load factor of 100%. For both firm and interruptible transportation services, customers are obligated to provide a natural gas in-kind allowance, expressed as a maximum percentage of gas received, equivalent to the gas consumed or lost in rendering the transportation service. The rates for all services reflect the rate zone(s) traversed from the point of receipt to the point of delivery.

The table below sets out our local firm and interruptible rates by pipeline and zones, in effect as of the date of this Annual Report (which have not changed since January 1, 2000):

Rate Zones		Firm	Interruptible	Compression Fuel and Losses ⁽³⁾ (%)
		Reservation Charge ⁽¹⁾ (Ps.m ³ /d)	Minimum Charge ⁽²⁾ (Ps.1,000 m ³ /d)	
Receipt	Delivery			
From Tierra del Fuego to:	Tierra del Fuego	0.076	2.541	0.49
	Santa Cruz Sur	0.154	5.123	0.98
	Chubut Sur	0.392	13.068	3.38
	Buenos Aires Sur	0.462	15.396	5.60
	Bahía Blanca	0.707	23.583	8.40
	La Pampa Norte	0.705	23.500	8.60
	Buenos Aires	0.828	27.593	10.35
	Greater Buenos Aires	0.929	30.959	11.27
From Santa Cruz Sur to:	Santa Cruz Sur	0.077	2.575	0.49
	Chubut Sur	0.315	10.508	2.89
	Buenos Aires Sur	0.385	12.841	5.11
	Bahía Blanca	0.632	21.071	7.91
	La Pampa Norte	0.632	21.067	8.11
	Buenos Aires	0.753	25.093	9.86
	Greater Buenos Aires	0.854	28.470	10.78
From Chubut to:	Chubut Sur	0.077	2.554	0.49
	Buenos Aires Sur	0.144	4.788	2.71
	Bahía Blanca	0.383	12.768	5.51
	La Pampa Norte	0.402	13.406	5.71
	Buenos Aires	0.498	16.598	7.46
	Greater Buenos Aires	0.594	19.790	8.38
From Neuquén to:	Neuquén	0.068	2.334	0.49
	Bahía Blanca	0.331	11.018	2.80
	La Pampa Norte	0.356	11.868	3.15
	Buenos Aires	0.448	14.923	3.91
	Greater Buenos Aires	0.548	18.315	4.86

(1) Monthly charge for every cubic meter per day of reserved transportation capacity.

(2) Minimum charge equal to the unit rate of the firm reservation charge at a 100% load factor.

(3) Maximum percentage of total transported gas which customers are required to replace in-kind to make up for gas used by us for compressor fuel or losses in rendering transportation services.

Source: ENARGAS Resolution No. 2,496/02 (gross receipts tax is not included in such transportation rates)

Adjustment of Rates. Under our License, we may be permitted to adjust rates semi-annually to reflect changes in PPI and every five years in accordance with efficiency and investment factors to be determined by ENARGAS and, subject to ENARGAS's approval, from time to time to reflect cost variations resulting from changes in the tax regulations (other than income tax) applicable to us, and for objective, justifiable and non-recurring circumstances. However our ability to make these adjustments has been repealed by the Argentine government as part of the Public Emergency Law.

The Natural Gas Act requires that in formulating the rules that apply to the setting of future rates, ENARGAS must provide the transportation companies with (i) an opportunity to collect revenues sufficient to recover all proper operating costs reasonably applicable to service, taxes and depreciation, and (ii) a reasonable rate of return, determined in relation to the rate of return of businesses having comparable risk taking into account the degree of efficiency achieved and the performance of the company in providing the service. No assurances can be given that the rules to be promulgated by ENARGAS will result in rates that will enable us to achieve specific earnings levels in the future.

Since January 1, 2000, adjustments to tariffs to reflect PPI variations were suspended, first through an agreement with the Executive Branch and later by a court decision arising from a lawsuit started to determine the legality of tariff adjustment through indexes. In light of this situation, we continued recording the higher incomes derived from semi-annual PPI increases until December 31, 2001. However, since the approval of the Public Emergency Law, we deemed that tariff adjustment to reflect PPI—which was legitimate according to the regulatory framework agreed upon in the privatization—had become unlikely, as the possibility of its recovery was subject to future events beyond our control. Therefore, in 2001, we recorded a loss of Ps. 126.7 million related to the deferral of semi-annual PPI adjustments accrued during 2000 and 2001, and, since 2002, we have discontinued such accrual. This does not mean that we waive the rights and the actions we are entitled to under

the regulatory framework. We intend to continue to maintain and exercise such rights and actions in every available legal and administrative venue, including the renegotiation process under the Public Emergency Law.

As mentioned above, tariff adjustments contemplated within the regulatory framework are no longer effective since the approval of the Public Emergency Law in early 2002, which among other provisions eliminated tariff indexing increases based on U.S. dollar exchange rate fluctuations, foreign price indexes or any other indexing procedure and established a conversion rate of one peso to one U.S. dollar for tariffs. The Public Emergency Law also granted the Executive Branch power to renegotiate contracts entered into with private utility companies, pursuant to the framework included in the Public Emergency Law. The Public Emergency Law has been extended until December 31, 2007.

Since early 2002 and up to the date of this Annual Report no resolution has been reached in the renegotiation of our contracts—nor have tariffs been readjusted—in spite of several attempts by the Executive Branch to grant partial tariff increases. These tariff increases were suspended by court decisions on legal actions filed by consumer organizations and the Ombudsman, on the grounds that tariff increases were illegal until the contract renegotiation process was completed.

In July 2003, UNIREN was created under the joint jurisdiction of the Ministry of Economy and Production and the MPFIPyS. This unit, which is the successor of the former Committee for the Renegotiations of Public Services and Works Contracts, will conduct the renegotiation of contracts related to utilities and public works, and is empowered to reach total or partial agreements with the licensees and submit proposals regulating the transitory adjustment of tariffs and prices, among other things. No progress was made in the renegotiation process until December 2003, when we discussed preliminary documents with UNIREN, including (i) the renegotiation guidelines, which determined the preparation of an agenda and a schedule for its discussion, (ii) a draft agenda which was outlined in order to deal with main issues such as costs, investments programs and financing, rates of return and tariffs, etc. and (iii) a schedule, which settled for the renegotiation of the regulatory framework.

In July 2004, UNIREN submitted to us a proposal for the adjustment of the contractual terms and conditions of our License, which provides for, among other things, a tariff increase of 10% effective as from January 2005 and an overall tariff review to become effective beginning 2007. Further, it requires our abandonment and the abandonment of our shareholders of any claim or lawsuit resulting from the effects of the Public Emergency Law on our License prior to the effectiveness of a renegotiation of our License, as well a requirement that we hold the Argentine government harmless from any claim or lawsuit filed by our shareholders or reimburse the Argentine government for any amount paid by it to our shareholders in connection with any such claim or lawsuit.

As this proposal differed from discussions we previously had with UNIREN, we rejected it, choosing instead to seek to reach an overall agreement with UNIREN by the end of 2004 (in line with what had been originally outlined by UNIREN in the “Preliminary Renegotiation Guidelines”) and to carry out the process of obtaining approval from the National Congress during the first semester of 2005.

On March 10, 2005, UNIREN called for a public hearing, which was held on April 27, 2005, to discuss its proposal presented in July 2004. During the hearing, UNIREN reaffirmed its offer of a 10% tariff increase and its proposal to continue the process of the overall tariff revision, so that the resulting tariff adjustments would come into effect during 2006. Regarding the abandonment of claims against the Argentine government resulting from the Public Emergency Law, UNIREN outlined a first stage that included the postponement of the potential claims by us and our shareholders, prior to a renegotiation of our License, to be followed by the abandonment of any such claims by us or our shareholders to any claim or lawsuit, and our agreement to hold harmless the Argentine government. We informed UNIREN that, regarding the original proposal, it has the imperative to negotiate an overall agreement of our License and, since some points of the UNIREN proposal required improvement, we expressed our willingness to continue discussing it.

In June and November 2005, we received two proposals from UNIREN which are in line with the previous one. These proposals also established, as an additional condition, the Company's, and any of our shareholders, abandonment of any future claim or lawsuit regarding the PPI tariff adjustments which were not applied in 2000 and 2001. We responded to the proposals by declaring that the original 10% increase was insufficient. We did commit not to make any administrative, arbitration or judicial claim or lawsuit in Argentina or abroad, as long as a reasonable renegotiation agreement is reached. Moreover, we stated our intention to make our best efforts to obtain similar commitments from our investors.

In November 2005, in response to the request made by the UNIREN, CIESA and Petrobras Energía Holding (as CIESA's shareholder) confirmed that they have not initiated nor do they have the intention of initiating in the future a claim against the Argentine Republic. However, Ponderosa Assets L.P. ("**Ponderosa**") as a controlling company of EPCA and Enron Argentina CIESA Holding S.A. ("**EACH**") (both our shareholders at that time, and in the case of EPCA, currently CIESA's minority shareholder), gave information regarding the existence of a claim which, jointly with Enron Corp., has been initiated against the Argentine Republic before the ICSID. Ponderosa stated it would consider withdrawing its claim only in the event it was fairly compensated. On May 22, 2007, ICSID decided against the Argentine government and ordered it to pay US\$106.2 million to Enron Corp.

During 2006, the UNIREN made two new proposals to us with the same guidelines established in the previous proposals, reflecting no significant progress in the tariff renegotiation process.

Certain Restrictions with Respect to Essential Assets. A substantial portion of the assets transferred by GdE were defined in our License as essential to the performance of the licensed service. Pursuant to our License, we are required to segregate and maintain the essential assets, together with any future improvements thereon, in accordance with certain standards defined in our License.

We may not for any reason dispose of, encumber, lease, sublease or lend essential assets for purposes other than the provision of the licensed service without ENARGAS's prior authorization. Any extensions or improvements that we may make to the gas pipeline system may only be encumbered to secure loans that have a term of more than one year to finance such extensions or improvements.

Upon expiration of our License, we will be required to transfer to the Argentine government or its designee the essential assets specified in our License as of the expiration date, free of any debt, encumbrance or attachment, receiving compensation equal to the lower of the following two amounts:

- the net book value of the essential assets determined on the basis of the price paid by CIESA for shares of our common stock plus the original cost of subsequent investments carried in U.S. dollars in each case adjusted by the PPI, net of accumulated depreciation in accordance with the calculation rules to be determined by ENARGAS (since the enactment of Public Emergency Law, this provision may no longer be valid); or
- the net proceeds of a new competitive bidding.

Under Argentine law, an Argentine court will not permit the enforcement of a judgment on any of our property located in Argentina which is determined by the courts to provide essential public services. This may adversely affect the ability of a creditor to realize a judgment against our assets.

Under a transfer agreement we entered into in connection with the privatization of GdE (the "**Transfer Agreement**"), liabilities for damages caused by or arising from the GdE assets are allocated to either GdE or us depending whether any such damage arose or arises from the operation of the assets prior to or following the commencement of our operations ("**Takeover Date**"). Also, pursuant to the Transfer Agreement, we are responsible for any defects in title to such assets, although any such defects are not expected to be material. The Transfer Agreement further provided that GdE was responsible for five years until December 1997 for the registration of easements related to the system which were not properly recorded and for the payment to property owners of any royalties or fees in respect thereof. Since 1998, we have been responsible for properly recording any remaining easement agreements and for making payments of royalties or fees related to such easements. See "Item 8. Financial Information."

Competition

Our gas transportation business faces only limited direct competition. Although there are no regulatory limitations on entry into the business of providing gas transportation services in Argentina, the construction of a competing pipeline system would require substantial capital investment and the approval of ENARGAS. Moreover, as a practical matter, a direct competitor would have to enter into agreements with distribution companies or end-users to transport a sufficient quantity of gas to justify the capital investment. In view of our current firm transportation contracts with our distribution company customers, and the other characteristics of the markets in which we operate, management believes that it would be very difficult for a new entrant to the transportation market to pose a significant competitive threat to us, at least in the short to intermediate term. In the longer term, the ability of new entrants to successfully penetrate our market would depend on a favorable regulatory climate, an increasing and unsatisfied demand for gas by end-users, and sufficient investment in downstream facilities to accommodate increased delivery capacity from the transportation systems.

To a limited extent we compete with TGN on a day-to-day basis for interruptible transportation services and from time-to-time for new firm transportation service made available as a result of expansion projects to the distribution companies to whom both we and TGN are either directly or indirectly connected (Camuzzi Pampeana, MetroGas and BAN). We compete directly with TGN for the transportation of gas from the Neuquén basin to the greater Buenos Aires area. The following chart shows the contracted firm capacity by Camuzzi Pampeana, Metrogas and BAN from the Neuquén basin with us and TGN:

	TGS		TGN	
	MMm ³ /d	Bcf/d	MMm ³ /d	Bcf/d
Camuzzi Pampeana.....	12,874	455	250	9
MetroGas.....	22,036	778	2,540	90
BAN.....	9,815	348	4,310	152

Additionally, this situation will be affected by the operation of the MEG, which by Decree requires that all firm transportation capacity not allocated for the following day must be marketed through the MEG and the proceeds from that capacity sale must be used in accordance with the Federal Energy Bureau's requirements. For further information, see "Item 4. Business Overview—Gas Transportation—The Argentine Natural Gas Industry."

The cost of gas relative to competing fuels may also affect the demand for transportation services in the long term. The delivery cost of gas to end-users in Argentina, based on energy content, is currently significantly lower than other alternative fuels, except for hydroelectric power.

Currently, there are two important pipeline construction projects. The *Noreste* pipeline is an Argentine government project which may connect the Bolivian natural gas basins with the northeastern region of Argentina and the greater Buenos Aires region. The capacity of this pipeline is anticipated to be approximately 20 MMm³/d (706.3 MMcf/d). Construction of this gas pipeline is expected to start in 2007, with the pipeline beginning operation in 2010.

The *Sudamericano* pipeline project, to be carried out by the governments of Venezuela, Brazil and Argentina, may transport approximately 150 MMm³/d (5,297 MMcf/d) of natural gas from Venezuela to Brazil and Argentina. Construction of the *Sudamericano* pipeline remains subject to completion of feasibility studies.

These large new projects might reduce future investments in the exploration of fields from which we transport gas and consequently could decrease the volumes transported, adversely affecting our revenues from the gas transportation and NGL production and commercialization business segments.

NGL PRODUCTION AND COMMERCIALIZATION

NGL production and commercialization activities are not subject to regulation by ENARGAS. However, over last years, in order to guarantee sufficient supply of LPG for local market at low prices, the Argentine government enacted Law No. 26,020, which is described in further detail below.

Our NGL production and commercialization activities are conducted at our Cerri Complex, which is located near the city of Bahía Blanca. In the Cerri Complex, ethane, LPG and natural gasoline are extracted from the natural gas, which arrives through three main pipelines from the Neuquén and Austral gas basins. The owners of the extracted NGL are required to make in-kind deliveries of additional gas to replace their attributable share of the natural gas shrinkage, fuel and losses associated with the extraction of liquids from the gas. We operate our NGL business under two different types of contractual arrangements:

- **NGL production and commercialization for our own account:** Under this type of arrangement, the NGL products obtained at Cerri belong to us. We make in-kind deliveries of additional gas to replace thermal units consumed in the NGL production process and agree with the natural gas distributors and certain producers on the payment of richness contribution incentives in order to maximize the NGL production in the Cerri Complex. This category of our NGL business is most important in terms of revenue, percentage of transactions and profit.
- **NGL production and commercialization on behalf of third parties:** We also process natural gas and market the NGL products in exchange for a commission based on a percentage on the sale price. In some cases we process the natural gas and deliver the NGL products to the gas producers who pay us a percentage on average monthly sale price obtained from our sales in the domestic or international markets (depending on the contract).

In the local market, we sell our production of LPG to marketers at prices semi-annually set by the Federal Energy Bureau.

Our export sales of LPG are sold to Petrobras International Finance Company (“**PIFCo**”), a subsidiary of Petrobras Petróleo Brasileiro S.A., under a 36 month term agreement which will expire on August 31, 2009. The contract provides for sales of approximately 220,000 metric tons (“**tonnes**”) (242,506 short tons) per year at the price quoted in Mont Belvieu, Texas, less a fixed discount per tonne. Natural gasoline is sold to PIFCo under an agreement expiring on December 31, 2009. This agreement provides for sales of approximately 9,000 tonnes (9,921 short tons) per month at Mont Belvieu price, less a fixed discount per tonne.

Ethane is sold to PBB Polisor S.A. (“**PBB**”) under a 10-year agreement that will expire on December 31, 2015. The minimum volume of ethane committed by us to sell PBB is 336,000 tonnes (370,376 short tons) per year. The price is fixed until December 31, 2007, and then will be adjusted based on various factors including the PPI, the natural gas price, the quality of the ethane shipped by us and the transportation tariffs and charges.

This business segment also comprises storage and dispatch by truck and subsequent shipment of the NGL extracted at the Cerri Complex in facilities located in Puerto Galván. LPG and natural gasoline are transported via two eight-inch pipelines to the loading terminal at Puerto Galván. Ethane is piped via an eight-inch pipeline to the PBB olefins plant, which is the sole outlet for ethane from the Cerri Complex. Any ethane extracted in the Cerri Complex which can not be sold to PBB is reinjected into the pipeline.

The NGL production and commercialization segment increased its percentage of our total revenues from 19% in 2001 to 55% in 2006, as a consequence of the adverse change in the regulated gas transportation segment, and the rises in the international prices of LPG and natural gasoline experienced during the last years, which generated principally higher revenues from exports.

The annual sales for the Cerri Complex for 2006, 2005 and 2004 in short tons were as follows:

	2006	2005	2004
Ethane.....	419,131	376,678	381,118
LPG.....	592,657	498,542	591,888
Natural gasoline	126,491	108,260	115,934
Total	1,138,279	983,480	1,088,940

In addition, our management anticipates that future expansions on the pipeline system will provide new opportunities in the NGL production and commercialization business and lead to related increases in revenues from our gas transportation and NGL production and commercialization businesses.

Since 2002, demand for natural gas has increased significantly due to the Argentine economy recovery, as well as it being the most inexpensive fuel because prices were not adjusted for over two years (from early 2002 to mid-2004). To address this situation, the Argentine government and the gas producers agreed to graded increases in natural gas prices in 2004, and, in 2005, the Argentine government granted tax benefits for oil and gas exploration investments. However, many doubts exist as to whether these measures taken by the Argentine government will encourage producers to make the necessary investments needed to increase production and satisfy the expected natural gas demand. This critical situation could affect adversely the natural gas supply to Cerri Complex, that may cause in the future a decrease in NGL production.

In order to mitigate the reduction in natural gas supply to Cerri Complex described above, we concluded further long-term agreements for the processing of gas on behalf of producers in the Cerri Complex, as well as operating agreements that mitigate the risks of gas “richness” (i.e., the proportion of liquids intermixed with the natural gas) deterioration and its consequent impact on the production of liquids.

Law No. 26,020, enacted in April 2005, set the framework through which the Federal Energy Bureau establishes regulations meant to cause LPG suppliers to guarantee supply and price stability of said products in the domestic market. Consequently, we shall not be able to select freely the markets to allocate LPG production. As we are effectively required to meet domestic demand before exporting significant amounts of LPG, we are not able to take full advantage of rising international prices, and consequently run the risk of relinquishing revenues from foreign markets with higher prices than those established for local consumers, which have remained fixed since September 2005 by the Federal Energy Bureau, in order to satisfy the minimum market demand stated by the Federal Energy Bureau.

Competition

Repsol-YPF, together with Petrobras Petroleo Brasileiro and Dow Chemical, created Compañía MEGA S.A. (“**MEGA**”), which, at the end of 2000, finished building and began operation of a gas processing plant with a capacity of approximately 36 MMm³/d (1.3 Bcf/d), located in the Province of Neuquén. Any resulting lower production associated with gas with lower liquids content arriving at the Cerri Complex, as well as any other project that eventually may be developed upstream of the Cerri Complex, could adversely affect our revenues from NGL production and commercialization services. To minimize the revenue impact of any project developed upstream of the Cerri Complex, during 2000 and 2001, we signed agreements with gas producers and distributor customers to maximize the richness of the gas to be processed at the Cerri Complex in order to have access to of the associated liquids. Also, in December 2005, we agreed with major gas producers from the Austral basin to process their natural gas in the Cerri Complex for a ten year term, and we obtained their commitment to not build gas processing plants upstream of the Cerri Complex during this term.

OTHER SERVICES

Other services activities are not subject to regulation by ENARGAS

Our other services are mostly comprised of midstream activities and telecommunication services. Our midstream activities consist of gas treatment at the wellhead, which include the separation and removal of impurities such as water, carbon dioxide and sulfur from the natural gas stream. Small diameter pipes from the wellheads form a network, or gathering system, carrying the gas stream to larger pipelines where field compression is sometimes needed to inject the gas into our large diameter gas pipelines. In addition, we also provide services related to pipeline construction, inspection and maintenance.

In March 2006, we finalized the construction of a treatment and compression plant which belongs to Siptrol Argentina S.A. (a subsidiary of Chile’s national oil company Empresa Nacional del Petróleo - ENAP) at its Tierra del Fuego reception base, which receives gas from the offshore area CAM2A/south of the Poseidón platform. Further to the construction service, we render treatment and compression services to this new plant for a five-year term. As a result of the agreements mentioned above, we were able to obtain a contract for the natural gas supply of 0.3 MMm³/d (10.6 MMcf/d) for our liquids business.

In 2006, we also completed the construction of a 14-inch link pipeline for a length of 14 km (9 miles), with a transportation capacity of 3 MMm³/d (105.9 MMcf/d), that links the Agua del Cajón field (operated by Capex S.A.) to the main pipeline Neuuba I, in the province of Neuquén.

In April 2007, we finalized the construction of a 16-inch link pipeline for a length of 57 km (35 miles) in the province of Chubut for Aluar, which is designed to increase gas volume to meet the operative needs of its plant expansion.

We will continue to pursue the development of new projects both in the domestic and regional markets, to add value to potential customers who may benefit from our know-how and experience both in the natural gas market and our by-products.

Telcosur (Telecommunications System)

We own 99.98% of Telcosur, a telecommunications company formed in September 1998 for the purpose of providing value-added and data transportation services through the use of our existing telecommunications infrastructure (which was installed for purposes relating to our gas transportation system).

During 2001, we completed a capacity expansion project of our telecommunication system by investing US\$ 26 million in a start up modern microwave digital system with synchronous digital hierarchy (or SDH) technology.

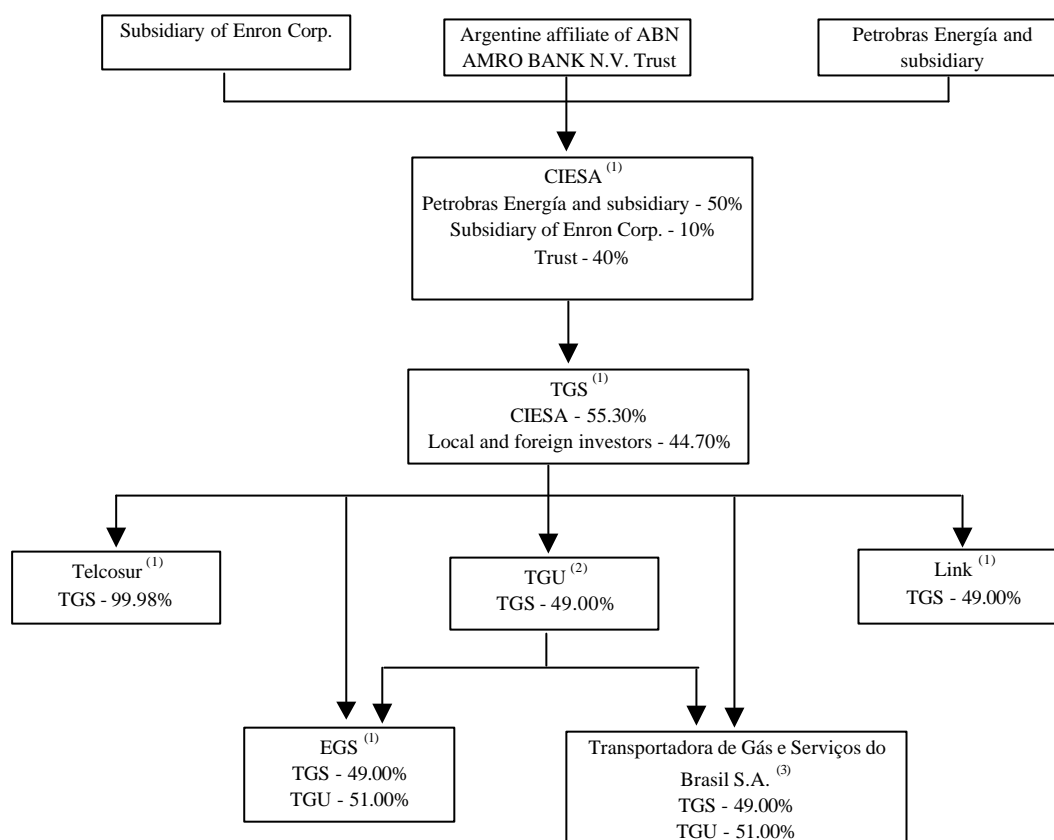

Additionally, to meet an increasing demand for cellular phone lines and internet broadband connections, and due to the expansion of our network between Bahía Blanca and Río Grande, in 2006, Telcosur increased the volume of existing business with operators and corporate clients, both by attracting new clients and renegotiating existing business agreements to enlarge the scope of the rendered services, provide for tariff increases and extend the term of such agreements.

Currently, Telcosur is implementing a new expansion, with a cost of US\$0.9 million, to increase our network capacity from Bahía Blanca to Río Gallegos. We expect the expansion to be in operation in January 2008.

Due to Telcosur's commitment to safety and environmental protection, Moody International Group certified in December 2006 Telcosur's Quality Management System in line with ISO 9001 standards and Telcosur's Environmental Management System along with ISO 14001 standards.

C. Organizational Structure

The following is a summary diagram of our subsidiaries and affiliates as of the date of this Annual Report, including information about ownership and location:

⁽¹⁾ Incorporated in Argentina

⁽²⁾ Incorporated in Uruguay

⁽³⁾ Incorporated in Brazil

The following table sets forth certain information, with respect to each shareholder known to us to own more than five percent of our common stock as of May 21, 2007:

Name of Beneficial Owner	Number of Shares	% Total Common Shares	Class
CIESA	405,192,594	51.0000	A
CIESA	34,133,200	4.2962	B
D.E. Shaw Laminar Emerging Markets L.L.C. ("D.E. Shaw")	66,907,449	8.4214	B

As of May 21, 2007 a total of 9,366,131 ADRs, representing 46,830,55 Class B shares, were held by approximately 39 institutional investors and mutual funds. Because certain of these ADRs are held by nominees, the number of record holders may not be representative of the number of beneficial owners.

D. Property, Plant and Equipment

Gas Transportation

The principal components of the pipeline system we operate are as follows:

Pipelines. We render gas transportation service through a pipeline system of 7,938 km (4,933 miles) long, of which we own 7,481 km (4,649 miles). The system consists primarily of large diameter, high pressure pipelines intended for the transportation of large volumes of gas at a pressure of approximately 60-70 kg/cm². Line valves are installed on the pipeline at regular intervals, permitting sections of the pipeline to be isolated for maintenance and repair work. Gas flow regulating and measurement facilities are also located at various points on the system to regulate gas pressures and volumes. In addition, a cathodic protection system has been installed to protect the pipeline from corrosion and significantly reduce metal loss. All of the pipelines are located underground or underwater.

Maintenance bases. Maintenance bases are located adjacent to the gas pipeline system in order to maintain the pipeline and related surface facilities and to handle any emergency situations which may arise. Personnel at these bases periodically examine the pipelines to verify their condition and inspect and lubricate pipeline valves. Personnel at the bases also carry out a cathodic protection system to ensure that adequate anti-corrosion systems are in place and functioning properly. They also maintain and verify the accuracy of measurement instruments to ensure that these are functioning within appropriate industry standards and in accordance with the specifications contained in our service regulations.

Compressor plants. Compressor plants along the pipelines recompress the gas volumes transported in order to restore pressure to optimal operational levels, thereby ensuring maximum use of capacity as well as efficient and safe delivery. Compressor plants are spaced along the pipelines at various points (between 62 and 124 miles) depending upon certain technical characteristics of the pipelines and the required pressure for transport. Compressor plants include turbine-driven compressors or motor-driven compressors which use natural gas as fuel, together with electric power generators to supply the complementary electrical equipment (control and measurement devices, pumping, lighting, communications equipment, etc.).

We transport gas through four major pipeline segments: General San Martín, Neuba I, Neuba II and Loop Sur, as well as several smaller gas pipelines. Information with respect to certain aspects of our main gas pipelines as of December 31, 2006, is set out in the table below:

Major Pipeline	Length		Diameter (inches)	Maximum Pressure (kg/cm ²)	Compressor Units	Operative Compressor Plants	HP Output
	km	Miles					
General San Martín	3,299	2,050	24/30	60	54	17	372,000
Neuba I/Loop Sur	1,193	741	24/30	60	11	4	52,860
Neuba II	1,713	1,064	30/36	70	18	6	146,380
Other ⁽¹⁾	1,276	794	Various	Various	6	3	7,620
Total	7,481	4,649			89	30	578,860

(1) Includes 398 km (247 miles) of transfer pipelines throughout the pipeline system, as well as the Cordillerano pipeline, with a length of 384 km (239 miles).

General San Martín. This pipeline was built in three stages, completed in 1965, 1973 and 1978, and transports gas from the extreme southern portion of Argentina to the greater Buenos Aires area in east-central Argentina. It originates in San Sebastián (Tierra del Fuego), passes through the Straits of Magellan and the Provinces of Santa Cruz, Chubut, Río Negro and Buenos Aires (including the Cerri Complex located near the city of Bahía Blanca in central Argentina), and terminates at the high pressure transmission ring around the city of Buenos Aires. The pipeline receives natural gas from the Austral basin at the extreme south in Tierra del Fuego, from the same basin further north at El Cóndor and Cerro Redondo, in the Province of Santa Cruz and from the San Jorge basin in northern Santa Cruz and southern Chubut provinces. The pipeline serves principally the districts and cities of Buenos Aires, La Plata, Mar del Plata, Bahía Blanca and Comodoro Rivadavia. We have expanded this pipeline significantly over the years, most recently in August 2005. See “Item 4. Our Information—Business Overview—Gas Transportation—Pipeline Operations—Pipeline Expansions” for more information.

Neuba I (Sierra Barrosa-Bahía Blanca). Neuba I was built in 1970 and was expanded by us in 1996. It is one of our two main pipelines serving our principal source of gas supply, the Neuquén basin. The pipeline originates in west-central Argentina at Sierra Barrosa (Province of Neuquén), passes through the provinces of Río Negro, La

Pampa and Buenos Aires, and terminates at the Cerri Complex. This pipeline transports the gas received from the Neuquén basin, particularly from the Sierra Barrosa, Charco Bayo, El Medanita, Fernández Oro, Lindero Atravesado, Centenario, Río Neuquén and Loma de la Lata gas fields. The gas delivered from Neuba I is subsequently compressed and injected into the Loop Sur and the General San Martín pipelines for transportation north to the greater Buenos Aires area.

Loop Sur. This gas pipeline was built in 1972 as an extension of Neuba I and runs parallel to a portion of the General San Martín gas pipeline. Located in the province of Buenos Aires, it transports gas from the terminus of Neuba I at the Cerri Complex at Bahía Blanca and terminates at the high pressure transmission ring around Buenos Aires, which we also operate. The gas delivered by this gas pipeline constitutes a portion of the gas supply for the greater Buenos Aires area. Loop Sur is also connected to the TGN system and allows us to deliver gas to or receive gas from TGN. Such transfers occur occasionally during periods of high demand for gas.

Neuba II. Our newest pipeline, Neuba II, was built in 1988, was expanded four times between 1996 and 2000 and is our other pipeline serving the Neuquén basin. Neuba II begins at Repsol-YPF's Loma de la Lata gas treatment plant in the western portion of the basin and runs through the provinces of Neuquén, Río Negro, La Pampa and Buenos Aires (through the Cerri Complex), up to its terminal station located at Ezeiza just outside of Buenos Aires. Neuba II is a principal source of gas for the Federal District and the greater Buenos Aires area.

Other Pipelines. Our other pipelines include the Cordillerano pipeline, built in 1984, which receives gas from the Neuquén Basin and supplies it mainly to three tourist centers in southern Argentina. In addition, we operate other minor pipelines, the high pressure transmission ring around Buenos Aires, the Chelforó-Conesa pipeline and other pipelines known as gas transfer pipelines.

Information regarding gas transportation system expansion is included in "Item 4. Our Information—Business Overview—Gas Transportation—Pipeline Operations—Pipeline Expansions."

Ancillary Facilities

Cathodic Protection System

Currently, we operate more than 200 cathodic protection devices, which are located along our main pipelines. The objective of this system is to mitigate the corrosion process on the pipes' surface. The corrosion process causes metal loss, which, depending on the severity of the damage, may cause pipeline ruptures. Cathodic protection equipment includes thermic, turbine-driven, motor-driven or even solar electric generators in locations where no electric lines are available. The system also includes an impressed current-deep anode, which facilitates circulation of electricity through the circuit formed by the generator, the anode itself, the pipe and the land.

Gas Control System

Located at our Buenos Aires headquarters, the gas control system controls scheduled gas injections and deliveries and allows us to follow gas flows in real time. Data is received from compressor stations by phone and automatically from remote terminal units ("RTUs") installed in the receipt and delivery points equipped with the EFM system. The information is normally collected by the Supervisory Control and Data Acquisition ("SCADA") system (which has an ad-hoc database that is updated every 30 seconds on average) and is then consolidated into other databases. In order to control gas injection and deliveries, we have developed a software system called *Solicitud, Programación, Asignación y Control* ("SPAC"), which, among other things, allows us to control actual volumes and projected future injections to determine producer deviations. As part of this system, we operate meteorological equipment and receive daily weather information from various sources, which is used for the purpose of forecasting gas demand.

Gas Measurement

Shipped and delivered gas is measured through primary field facilities that are connected with RTUs. Such RTUs transmit the data to the Buenos Aires headquarters. This data is utilized to prepare reports for clients, shippers, producers and ENARGAS. Energy balances are also prepared in order to control our system efficiency.

NGL production and commercialization

Our NGL production and commercialization activities are conducted at our Cerri Complex. It is located near the city of Bahía Blanca and is connected to each of our main pipelines. The Cerri Complex consists of an ethane extraction plant to recover ethane, LPG and natural gasoline, together with a lean oil absorption plant to recover LPG and natural gasoline. The facility also includes compression, power generation and storage facilities. The Cerri Complex processing capacity is approximately 43 MMm³/d (1,519 MMcf/d).

As part of the Cerri Complex, we also maintain at Puerto Galván a storage and loading facility for the natural gas liquids extracted at the Cerri Complex. The Cerri Complex, including the Puerto Galván facility, is currently capable of storing 60,450 short tons. In 1998, we completed the expansion of the processing and storage facilities of the Cerri Complex. For a more detailed description of the expansion, see “—Business Overview—NGL Production and Commercialization” above.

Midstream

As part of this business segment, we provide services relating to natural gas including treatment, gathering and gas compression, which are rendered at two treatment plants located in the gas fields with a total capacity of 3.2 MMm³/d (113.1 MMcf/d). Additionally, we render our gas compression service by two gas compression plants with a total capacity of 32,160 HP. The following chart shows summary information regarding the treatment and compression plants’ capacity:

Plants	Treatment		Compression
	Capacity (in MMm ³ /d)	Capacity (in Bcf/d)	Capacity (in HP)
Río Neuquén.....	2.4	84.8	27,000
Plaza Huincul	0.8	28.3	5,160
Total.....	3.2	113.1	32,160

Telecommunication

We own two interconnected networks which consists of: (i) a flexible and modern microwave’s digital network with SDH technology and more than 4,600 km, which covers the routes: Buenos Aires – Bahía Blanca – Neuquén to the West and Buenos Aires – Bahía Blanca – Comodoro Rivadavia – Río Grande to the South, and (ii) a dark fiber optic network, with more than 1,700km., which covers the route: La Plata – Buenos Aires – Rosario – Córdoba – San Luis – Mendoza.

Environmental Matters

We believe that our current operations are in compliance with applicable laws and regulations related to the protection of the environment.

Over the past decade, we have consistently studied, monitored and improved our policies with regard to environmental issues.

Regarding our commitment to quality, environment and safety, outlined in our Quality, Environment, Safety and Occupational Health Policy, the most significant activities in 2006 are detailed below:

- ✓ Moody International Group certified that our Safety and Occupational Health Management System fulfills OHSAS 18,001 specification requirements. We also successfully passed Moody International Group’s surveillance Audit of the ISO 9,001 and 14,001.

- ✓ We have enhanced the monitoring of the ground water pollution in the Cerri Complex installing new measurement points.
- ✓ We introduced an online public consulting system through our web site, through which people living nearby may find information about the projects undertaken by us and perform enquiries about the environmental impact assessment.
- ✓ We carried out an integral risks assessment on explosion and fire and emergency impacts on the environment for the Cryogenic and Absorption plants and the Puerto Galván storage facilities.
- ✓ We completed replacement of the ducts of the fire fighting piping system in Cerri Complex storage section and we also replaced the Galván Plant sprinkler o-rings.
- ✓ We started a project to collect industrial runoff in Cerri Complex and Puerto Galván, which will prevent the pollution of soil and water courses in case of emergencies. We completed the construction of the first gathering pool to collect industrial runoff in Cerri Complex and the pluvial drainage canals for most of the spheres located in Puerto Galván.
- ✓ We continued with the implementation of the Behavior-Based Safety Process in Cerri Complex, which allows us to make headway in accident prevention.

We have established an environmental and industrial safety investment plan for the period of 2007-2009 with a budget of approximately US\$ 12.5 million.

Insurance

We maintain insurance, subject to deductibles, against third-party liability, damage to our pipeline assets that pass under rivers or other bodies of water and the Straits of Magellan and business interruption. We believe this coverage is consistent with standards for international natural gas transportation companies. The terms of the policies related to the regulated assets have been approved by ENARGAS. In addition, we have obtained insurance coverage for our directors and officers.

Item 5. Operating and Financial Review and Prospects

A. Operating results

The following Operating and financial review and prospects should be read in conjunction with “Item 3. Key Information—Selected Financial Data” and our Financial Statements as of December 31, 2006 and 2005 and for the years ended December 31, 2006, 2005 and 2004 and the report of our registered public accounting firm included elsewhere herein. Such financial statements have been prepared in accordance with Argentine GAAP and the regulations of the CNV. See Note 12 to our Financial Statements for a description of the main differences between Argentine GAAP and US GAAP as they relate to us, and a reconciliation to US GAAP of net income and total shareholders’ equity. The differences involve methods of measuring the amounts shown in the consolidated financial statements as well as additional disclosures required by U.S. GAAP and Regulation S - X of the SEC.

This Operating and Financial Review and Prospects discussion contains forward-looking statements that involve certain risks, uncertainties and assumptions. These forward-looking statements can be identified by the use of forward-looking terminology such as “may,” “will,” “will likely result,” “intend,” “projection,” “should,” “believe,” “expect,” “anticipate,” “estimate,” “continue,” “plan” or other similar words. Our actual results may differ materially from those identified in these forward-looking statements. For more information on forward-looking statements, see “Cautionary Statement Regarding Forward-Looking Statements.” In addition, for a discussion of important factors, including, but not limited to, the pesification of our tariffs and other factors that could cause actual results to differ materially from the results referred to in the forward-looking statements, see “Item 3. Key Information—Risk Factors.”

For information relating to the presentation of financial information see “Presentation of Financial and Other Information”.

Critical accounting policies and estimates

Except as further discussed under “Presentation of Financial and Other Information,” we prepare our financial statements in pesos and in accordance with Argentine GAAP and the regulations of the CNV, which differ in certain significant respects from US GAAP. For a description of the principal differences between Argentine GAAP and US GAAP as they relate to us and a reconciliation to US GAAP of net income and shareholders equity as of December 31, 2006 and 2005 and for the years ended December 31, 2006, 2005 and 2004, see Note 12 to our Financial Statements.

In connection with the preparation of our Financial Statements included in this Annual Report, we have relied on assumptions derived from historical experience and various other factors that we deemed reasonable and relevant. Although we review these assumptions in the ordinary course of our business, the presentation of our financial condition and results of operations often requires management to make judgments regarding the effects of matters that are inherently uncertain. Actual results may differ from those estimated as a result of these different assumptions. We have described each of the following critical accounting policies and estimates in order to provide an understanding about how our management forms judgments and views with respect to such policies and estimates, as well as the sensitivity of such policies and estimates:

- impairment of long-lived assets;
- provision for allowances and contingencies; and
- income taxes – tax loss carry-forward and credit on assets tax.

Impairment of Long-Lived Assets

As a matter of policy, we evaluate the carrying value of our long-lived assets on a segment-by-segment basis in December of each year. In addition, we periodically evaluate the carrying value of our long-lived assets for impairment when events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Prior to January 1, 2006, both under Argentine GAAP and US GAAP, we considered the carrying value of a long-lived asset to be impaired when the expected cash flows, undiscounted and without interest, from such asset were separately identifiable and less than its carrying value. In that event, a loss was recognized based on the amount by which the carrying value exceeded the fair market value of the long-lived asset. We determined the fair market value primarily using projected cash flows discounted at a rate commensurate with the risk involved or independent appraisals, as appropriate.

Effective January 1, 2006, as a result of the adoption of new accounting standards by the CNV, under Argentine GAAP, we consider the carrying value of a long-lived asset to be impaired when the expected cash flows from such asset are separately identifiable and less than its net carrying value. Expected cash flows are determined primarily using the anticipated cash flows discounted at a rate commensurate with the risk involved. The adoption of this accounting standard has had no impact in our results of operations or financial position.

Under US GAAP, we continue to apply the provisions of Statement of Financial Accounting Standard (“SFAS”) No. 144, “Accounting for the Impairment or Disposal of Long-lived Assets.” As indicated above, under SFAS No. 144, the carrying value of a long-lived asset is considered impaired when the expected undiscounted cash flows from the asset are separately identifiable and less than its carrying value. In that event, a loss is recognized based on the amount by which the carrying value exceeds the market value of the long-lived asset. No impairment losses have been recognized for any of the periods presented.

Under Argentine GAAP, a previously recognized impairment loss should only be reversed when there is a subsequent change in estimates used to compute the fair market value of the asset. In that event, the new carrying amount of the asset should be the lower of its fair market value or the net carrying amount the asset would have had if no impairment had been recognized. Both the impairment charge and the impairment reversal are recognized in earnings. US GAAP prohibits the reversal of a previously recognized impairment charge.

We believe that our accounting policy relating to the impairment of long-lived assets is a “critical accounting policy” because:

- It requires our management, in determining fair market value, to make estimates and assumptions (such as, future revenues and cost of revenues) that are highly susceptible to change from period to period.
- The impact that recognizing or reversing an impairment would have on assets reported on our consolidated balance sheet as well as on the results of our operations could be material. Estimates about future revenues require significant judgment because actual revenues have fluctuated in the past and are expected to continue to do so, especially due to the pending tariff renegotiation process.
- In order to project future cash flows, we have made certain estimates in connection with the tariffs adjustments we expect we will have in the future. However, due to the uncertainties surrounding the tariff renegotiation process, these estimates are highly uncertain and there is a substantial risk that these estimates could prove to be materially different from actual future tariffs. In addition, the volatility of the Argentine economy also makes the selection of an appropriate discount rate a highly subjective process.

Provision for Allowances and Contingencies

We provide for losses relating to trade receivable accounts. The allowance for losses is based on management’s evaluation of various factors, including the credit risk of customers, historical trends and other information. While management uses the most current information available to make its evaluations, future adjustments to the allowance may be necessary if future economic conditions differ substantially from the estimated economic conditions used in making these evaluations. Management considers all events and transactions that it believes are relevant to our business and believes it has made reasonable estimates.

We have certain contingent liabilities with respect to legal and regulatory proceedings. We accrue liabilities when it is probable that future costs will be incurred and such costs can be reasonably estimated. Such accruals are based on developments as of the time the accruals are made, estimates of the outcomes of these matters and our lawyers’ experience in contesting, litigating and settling other matters. As the scope of the liabilities becomes better defined, there may be changes in estimates of future costs, which could have a material effect on our financial condition and results of operations.

We believe that our accounting policy relating to the provision for allowances and contingencies is a “critical accounting policy” because:

- It requires our management to make estimates and assumptions that are highly susceptible to change from period to period.
- The impact that recognizing or reversing provisions for allowances and contingencies would have on our consolidated balance sheet as well as on the results of our operations could be material.

Income Taxes—Tax Loss Carry-Forward and Credit on Assets Tax

Tax Loss Carry-Forward

We recorded substantial losses in 2002, the year of the economic crisis in Argentina, and such losses resulted in a tax loss carry-forward of Ps. 269.4 million. The ultimate realization of the tax loss carry-forward is dependent upon the generation of future taxable income during the periods in which the tax loss carry-forward becomes recoverable. We are required to periodically evaluate the recoverability of the tax loss carry-forward. This evaluation is made based on internal projections, which are routinely updated to reflect more recent trends in our results of operations. As of December 31, 2005, based on financial information, we were uncertain that we will fully recover our tax loss carry-forward through future taxable income. Consequently, we recorded a valuation allowance of Ps. 144.5 million as of December 31, 2005. Based on the facts that the current expiration period of the tax loss carry-forward and due to the fact that we anticipate sufficient future taxable income over the periods in which the differences which created the deferred income tax assets are deductible, the ultimate realization of the tax loss carry-forward for income tax purposes is considered more likely than not. As such, as of December 31, 2006, we reversed the valuation allowance previously established against our tax loss carry-forward.

Credit on Assets Tax

We have also recorded an asset of Ps. 111.6 million as of December 31, 2006, for the value of our tax credit related to asset tax. In the opinion of management, it is more likely than not that we will utilize such asset against future income tax charges within the recoverable term of ten years (which began in 2002 and expires in 2012), and as a result, no valuation allowance was recognized.

We believe that our accounting policy relating to Income Taxes—Tax Loss Carry-Forward and Credit on Assets Tax is a “critical accounting policy” because:

- It requires our management to make estimates and assumptions that are highly susceptible to change from period to period.
- The impact that recognizing or reversing an allowance would have on our consolidated balance sheet as well as on the results of our operations could be material. Estimates about taxable incomes require significant judgment because actual taxable incomes have fluctuated in the past and are expected to continue to do so.

Differences between Argentine GAAP and US GAAP

Our Financial Statements and the information shown in this section have been prepared in accordance with Argentine GAAP, which differs in certain significant respects from US GAAP. Such differences involve methods of measuring the amounts shown in the financial statements, as well as additional disclosures required by US GAAP and Regulation S-X promulgated by the SEC. The following is a list of the principal differences, other than with regard to inflation accounting, between Argentine GAAP and US GAAP, as they relate to us, that affect the reported amounts under Argentine GAAP of our total shareholders’ equity as of December 31, 2006, and 2005 and net income for the years ended December 31, 2006, 2005 and 2004:

- the capitalization of interest costs;
- the capitalization of exchange differences arising from the devaluation of the Argentine peso under Argentine GAAP, which are treated as expenses under US GAAP;
- the accounting for derivatives and hedging activities;
- the deferral of certain pre-operating and organizational expenses under Argentine GAAP, which are expensed as incurred under US GAAP;
- the accounting for income taxes;
- the accounting for the effects of our 2004 debt restructuring;
- the impact of US GAAP adjustments on equity investees;
- the accounting for current investments;
- the accounting for vacation expenses; and
- the present-value accounting of certain assets and liabilities.

Note 12 to our Financial Statements, included elsewhere in this Annual Report, provides a description of the main differences between Argentine GAAP and US GAAP as they relate to us and a reconciliation to US GAAP of shareholders’ equity at December 31, 2006, and 2005 and net income for the years ended December 31, 2006, 2005 and 2004. Net income under Argentine GAAP for the years ended December 31, 2006, 2005 and 2004 was approximately Ps. 358.0 million, Ps. 217.5 million and Ps. 147.9 million, respectively, as compared to approximately Ps. 405.6 million, Ps. 270.6 million and Ps. 151.6 million, respectively, under US GAAP. Shareholders’ equity under Argentine GAAP as of December 31, 2006, and 2005 was Ps. 2,782.1 million and Ps. 2,424.1 million, respectively, as compared to approximately Ps. 1,935.5 million and Ps. 1,527.8 million, respectively, under US GAAP.

New accounting pronouncements under Argentine GAAP

The CNV issued General Resolutions No. 485 and No. 487 on December 29, 2005 and January 26, 2006, respectively, which adopted, with certain modifications, the new accounting standards previously issued by the CPCECABA through its Resolution CD 93/2005. These standards were mandatory for years or interim periods corresponding to years beginning on or after January 1, 2006.

The most significant changes included in the accounting standards adopted by the CNV, which are more fully described below, relate to (i) changes in the impairment test of long-lived assets and (ii) changes to deferred income tax accounting.

Under the new standard for impairment of long-lived assets, the net carrying value of a long-lived asset is considered impaired by us when the expected cash flows from such asset are separately identifiable and less than its net carrying value. Expected cash flows are determined using the anticipated cash flows discounted at a rate commensurate with the risk involved.

The new standards provide for the accounting treatment of differences between the tax basis and book basis of non-monetary items for deferred income tax calculation purposes when companies prepare price-level restated financial statements. The new accounting standard mandates companies to treat these differences as temporary differences. However, the standard allows a one-time accommodation to continue treating the differences between the tax basis and indexed book basis of non-monetary items as permanent at the time of adoption of the standard. As such, we elected to continue treating these differences as permanent. See Note 2(1) to our Financial Statements.

Accounting pronouncements issued but not yet adopted under US GAAP

The following is a summary of recent changes in US GAAP. We do not believe any of these changes will have a material impact on US GAAP reconciliation of our reported financial results:

1. Fair Value Measurements

In September 2006, the Financial Accounting Standards Board (“FASB”) issued SFAS No. 157 “Fair value measurements” establishing a framework for measuring fair value in generally accepted accounting principles (GAAP), and expanding disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, the Board having previously concluded that fair value is the relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. In developing this Statement, the Board considered the need for increased consistency and comparability in fair value measurements and for expanded disclosures about fair value measurements. The changes to current practice resulting from the application of this Statement relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. A single definition of fair value, together with a framework for measuring fair value, should result in increased consistency and comparability in fair value measurements. The expanded disclosures about the use of fair value to measure assets and liabilities should provide users of financial statements with better information about the extent to which fair value is used to measure recognized assets and liabilities, the inputs used to develop the measurements, and the effect of certain of the measurements on earnings (or changes in net assets) for the period. This Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. We will be evaluating the impact of SFAS No. 157.

2. Accounting for Uncertainty in Income taxes

In July 2006, the FASB issued FIN No. 48 “Accounting for Uncertainty in Income taxes” to clarify the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements in accordance with FASB Statement No. 109, Accounting for Income Taxes. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The evaluation of a tax position in accordance with this Interpretation is a two-step process. The first step is recognition: the enterprise determines

whether it is more likely than not that a tax position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. In evaluating whether a tax position has met the more-likely-than-not recognition threshold, the enterprise should presume that the position will be examined by the appropriate taxing authority that would have full knowledge of all relevant information. The second step is measurement: a tax position that meets the more-likely-than-not recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The tax position is measured at the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. In principle, the validity of a tax position is a matter of tax law. It is not controversial to recognize the benefit of a tax position in an enterprise's financial statements when the degree of confidence is high that that tax position will be sustained upon examination by a taxing authority. However, in some cases, the law is subject to varied interpretation, and whether a tax position will ultimately be sustained may be uncertain. SFAS No. 109 contains no specific guidance on how to address uncertainty in accounting for income tax assets and liabilities. As a result, diverse accounting practices have developed resulting in inconsistency in the criteria used to recognize, derecognize, and measure benefits related to income taxes. This diversity in practice has resulted in non-comparability in reporting income tax assets and liabilities. This Interpretation is effective for fiscal years beginning after December 15, 2006. The adoption of FIN No. 48 will not have any material impact on our Financial Statements.

3. Fair Value Option for Financial Assets and Financial Liabilities

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities", or SFAS No. 159. SFAS No. 159 establishes a fair value option under which entities can elect to report certain financial asset and liabilities at fair value, with changes in fair value recognized in earnings. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. We will be evaluating the impact of SFAS No. 159.

Factors affecting our consolidated results of operations

Since the onset of the severe economic crisis in Argentina, which began in late 2001, our revenue composition has changed significantly, mainly as a consequence of (i) the substantial devaluation of the peso as compared to the U.S. dollar, (ii) high inflation that occurred in 2002, and (iii) the suspension, pursuant to the Public Emergency Law, of adjustments of the regulated tariff for the transportation of natural gas. In 2002, the peso was devalued against the U.S. dollar by 237.0% and Argentina experienced a cumulative rise in the CPI of 40.7% and in the WPI of 118.2% from December 2001 through December 2002.

Under CNV rules, our results of operations for the year ended December 31, 2002 and for the two-month period ended February 28, 2003 were adjusted to account for the effects of inflation in Argentina during those periods. For the periods subsequent to February 28, 2003, the inflation adjustments were no longer applied to our financial statements, as inflation returned to normalized levels, as illustrated in the table below.

	December 31,				
	2006	2005	2004	2003	2002
	(annual % change)				
Wholesale price index.....	7.2	10.6	7.9	2.0	118.0
Consumer price index.....	9.8	12.3	6.1	3.7	41.0
Devaluation / (Appreciation) of pesos vs. U.S. dollar	1.0	1.8	1.7	(13.1)	237.0

Source: Argentine National Institute of Statistics and Census or "INDEC", Banco de la Nación

Laws and regulations currently governing the Argentine economy may continue to change in the future and these changes may adversely affect our business, financial condition or results of operations. For more information, see "Item 3. Key Information—Risk Factors". Our Financial Statements do not include any adjustments or reclassifications that might result from the outcome of the uncertain economic and political environment in Argentina.

Year to year fluctuations in our net income are a result of a combination of factors, including principally:

- The volume of NGL products we produce and sell;
- Changes in international prices of LPG and natural gasoline;
- Changes in the prices of natural gas and compensation for its richness;
- Fluctuation in the Argentine peso / US dollar exchange rate;
- Local inflation; and
- Changes in laws or regulation affecting our operations, including tax matters.

Discussion of results of operations for the three years ended December 31, 2006, 2005 and 2004

The following table presents a summary of our consolidated results of operations for the years ended December 31, 2006, 2005 and 2004, stated in millions of pesos, and the increase or decrease and percentage of change between the periods presented:

	Years ended December 31,		Year ended December 31, 2006 compared to year ended December 31, 2005		Year ended December 31, 2004	Year ended December 31, 2005 compared to year ended December 31, 2004	
	2006	2005	Variation	Percentage change		Variation	Percentage change
Gas Transportation.....	492.0	460.0	32.0	7.0%	434.3	25.7	5.9%
NGL production and commercialization.....	726.4	546.3	180.1	33.0%	506.3	40.0	7.9%
Other services.....	91.1	58.4	32.7	56.0%	53.5	4.9	9.2%
Net revenues	1,309.5	1,064.7	244.8	23.0%	994.1	70.6	7.1%

Net income.....	358.0	217.5	140.5	64.6%	147.9	69.6	47.1%

Year 2006 compared to year 2005

Net revenues

Regulated gas transportation segment. Gas transportation service is our main business activity measured by the invested capital and the resources involved in its operation; however, it is not as significant as our NGL production and commercialization business in our total net revenues because of the pesification of regulated tariffs at an exchange rate of US\$ 1=Ps. 1 implemented by the Public Emergency Law. The gas transportation segment represented approximately 38% and 43% of total net revenues earned during the years ended December 31, 2006 and 2005, respectively. A substantial portion of our gas transportation service revenues are derived from firm contracts, under which pipeline capacity is reserved and paid for, regardless of actual usage by the shipper. We also provide interruptible transportation services subject to available pipeline capacity.

Gas transportation revenues for the year ended December 31, 2006 increased by 7% as compared to the year 2005. This increase was principally due to a Ps. 21.2 million impact derived from the new firm

transportation contracts, some of which came into effect as a consequence of the San Martín pipeline expansion completed in August 2005, which increased the transportation capacity of the pipeline by 2.9 MMm³/d (102.4 MMcf/d).

This expansion of the San Martín pipeline was carried out within the gas trust fund framework more fully described in “Item 4—Business overview—Gas transportation—Pipeline expansions.” In connection with this first expansion, the Gas Trust, created by the Argentine government for this expansion, financed US\$311 million from a total amount of US\$351 million. The Gas Trust will be repaid over a period of eight years with 20% of the revenues generated by transportation tariffs applicable to the additional firm contracted capacity plus an additional surcharge paid by industries, power plants and CNG suppliers with firm transportation contracts and representing an 81.6% increase in the current tariffs. In connection with the expansion, we invested approximately US\$40 million (including US\$7 million in VAT) for the purchase and installation of compression equipment on the new pipeline. The cost of our investment (which is reflected as fixed assets on our consolidated balance sheet) will be recovered through collection of tariffs at a rate equal to 80% of our current tariff rate (but not to the extent of any increased rate that may in the future be applicable to the additional transportation capacity), or approximately Ps. 23 million annually (or US\$7.5 million annually at the December 31, 2006 exchange rate). The expansion financed by this means is owned by the Gas Trust.

In April 2006, MPFIPyS, the Federal Energy Bureau and gas transportation companies, among others, signed a Letter of Intent to carry out a second, much more significant expansion of the gas pipeline system. This new expansion will increase the aggregate transportation capacity of our system and TGN’s system by 25 MMm³/d, of which almost 9.4 MMm³/d correspond to our system. Under a management agreement signed in connection with this second expansion, we will receive Ps. 50 million plus VAT as consideration for management services that we will render in 2007 and 2008 in connection with the construction of the first 7.0 MMm³/d in additional pipeline. The fee for management services that we will earn in connection with the remaining 2.4 MMm³/d has not yet been determined. Works are currently behind schedule due to the fact that some steps of the works have not been approved by the ENARGAS yet.

The Executive Branch, through Decree No. 180/04 issued on February 16, 2004, established an electronic market for natural gas trading known as the MEG with the purpose of improving the transparency of financial and operating performance, the coordination of daily transactions in both the gas spot and the transportation and distribution secondary markets along with producing efficient prices through offer and demand free interaction. To that end, all firm transportation capacity not allocated for the following day must be marketed through the MEG and the proceeds from that capacity sale will be used in accordance with the Federal Energy Bureau’s requirements. Non-allocated capacity includes remaining capacity not used in any of the transportation systems or pipelines. Revenues related to the interruptible transportation service might, therefore, be affected in the future due to the operation of the MEG (for further information, see “Item 4. Our Information – Business Overview – Gas Transportation – The Argentine Natural Gas Industry – Historical Background”). Revenues related to interruptible transportation service amount to Ps. 34.9 million and Ps. 24.9 million for the years ended December 31, 2006 and 2005, respectively.

We are still in the process of renegotiating our tariffs, and our tariff rates were unchanged in 2006 from 2005. For more information see “Item 4. Our Information—Business Overview—Gas Transportation—Regulatory Framework—Adjustment of Rates”.

NGL production and commercialization segment. Unlike the gas transportation segment, the NGL production and commercialization segment is not subject to regulation by ENARGAS. However, over last years, in order to guarantee sufficient supply of LPG for local market at low prices, the Argentine government enacted Law No. 26,020, which is discussed further below.

Net revenues from the NGL production and commercialization segment represented approximately 55% and 51% of our total net revenues during the years ended December 31, 2006 and 2005, respectively. This increase in NGL production and commercialization of Ps. 180.1 million in additional revenues for the year ended December 31, 2006, comprised: (i) Ps. 64.0 million due to an increase of 16% in volume sold in 2006 (ii) Ps. 55.6 million attributable to a higher sale price of ethane agreed with PBB in an agreement effective for ten years, starting from January 2006, and (iii) Ps. 25.9 million due to higher international reference prices on exports. NGL production and commercialization activities are conducted at the Cerri Complex, which is located near Bahía Blanca and connected to each of our main pipelines. At the Cerri Complex, we recover ethane, LPG and natural gasoline for both our own account and on behalf of our customers. In 2006, we sold approximately 53% of our production of LPG in the local market to LPG marketers (77% in 2005). The remainder of these

products and all of our natural gasoline are exported to PIFCo, a subsidiary of Petrobras Petróleo Brasileiro S.A. under a long-term contract that provides for pricing based on international market prices. All of the Cerri Complex's ethane output is sold in the domestic market to PBB at agreed prices under a long-term contract. We process and sell some of the NGL for our own account, some on behalf of our customers, and some on a fee basis, collecting a commission for the extracted liquids delivered to our customers.

The total annual sales for the Cerri Complex for 2006 and 2005 in short tons, which includes NGL sales made on behalf of third parties, from which we withhold fees for production and commercialization, were as follows:

	Years ended December 31,		Year ended December 31, 2006 compared to year ended December 31, 2005	
	2006	2005	Increase (Decrease)	Percentage change
<i>Local market</i>				
Ethane	419,131	376,678	42,453	11.3%
LPG.....	316,824	278,205	38,619	13.9%
Natural Gasoline	4,529	5,429	(900)	(16.6%)
Subtotal	740,484	660,312	80,172	12.1%
<i>Exports</i>				
LPG	275,833	220,337	55,496	25.2%
Natural Gasoline.....	121,962	102,831	19,131	18.6%
Subtotal	397,795	323,168	74,627	23.1%
Total	1,138,279	983,480	154,799	15.7%

Law No. 26,020 set the framework through which the Federal Energy Bureau establishes regulations requiring LPG suppliers to guarantee supply and price stability of such products in the domestic market. As a consequence of this law, we are not able to choose the markets to which we sell our LPG production. Because we are effectively required to meet domestic demand (at a price below the international market price) before exporting significant amounts of LPG, we are not able to take full advantage of rising international prices for these commodities.

The results of our NGL production and commercialization segment are subject to risks associated with commodity price changes. We do not currently hedge against commodity price risk.

Effective March 1, 2002, the Argentine government imposed a 5% export tax on LPG and natural gasoline exports. Effective May 2004, the tax rate for LPG exports was increased to 20% and, on May 24, 2007, the export tax rate increased to 25%. Any further increase in this tax rate may materially adversely affect our results of operations and financial condition.

Other services. This segment includes midstream and telecommunications services. Midstream services include gas treatment, separation and removal of impurities from the natural gas stream and compression services, which are generally rendered to the natural gas producers at wellhead, as well as activities related to construction, operation and maintenance of pipelines and compressor plants. These services are rendered by us or through our affiliates Gas Link S.A. (“**Link**”), Transporte y Servicios de Gas en Uruguay S.A. (“**TGU**”) and Emprendimientos de Gas del Sur S.A (“**EGS**”). Telecommunications services are provided by Telcosur, a 99.98%-owned subsidiary. Telcosur provides telecommunications services to leading telecommunication operators and corporate customers.

Net revenues from the other services segment accounted for approximately 7% and 6% of total net revenues for the years ended December 31, 2006 and 2005, respectively. Of net revenues from the other services segment, 23% and 27% corresponded to telecommunications services for December 31, 2006 and 2005, respectively. Revenues from the other services segment increased by Ps.32.7 million in the year ended December 31, 2006, as compared to 2005, mainly due to increased midstream services sales for Ps. 11.0 million, construction services sales of Ps 7.8 million and telecommunications services sales for Ps. 5.2 million.

Costs of sales

Cost of sales for the year ended December 31, 2006 increased by approximately Ps. 96.8 million, or approximately 18.4%, as compared to the year 2005. This increase resulted principally from: (i) Ps. 53.5 million of higher NGL production costs due to increases in the prices of raw materials; (ii) Ps. 12.0 million due to higher labor costs and (iii) Ps. 14.4 million of higher accruals for easement expenses. The remainder of the increase includes increased construction costs in the other services businesses, higher costs of third party services rendered and a higher management fee attributable to higher net income.

Administrative and selling expenses

Administrative and selling expenses for the year ended December 31, 2006, increased by approximately Ps. 20.7 million, or approximately 21.9%, as compared to the year 2005. This Ps. 20.7 million increase was primarily the result of: (i) higher labor costs of Ps. 7.6 million and (ii) Ps. 6.5 million in export taxes associated with the increase in our export sales.

Other expenses, net

In the year ended December 31, 2006, other expenses, net decreased by Ps. 5.4 million compared to 2005. This decrease was principally the result of a recorded gain of Ps. 24.7 million consisting of insurance proceeds in respect of damage that occurred in 2005 to a facility located at the Cerri Complex. This positive variation was partially offset by higher allowances recorded of Ps. 22.6 million, as more fully described in Note 9 to our Financial Statements.

(Loss) / gain on related companies

(Loss) / gain on related companies decreased by Ps. 3.0 million for the year ended December 31, 2006, as compared to the year ended December 31, 2005 due to decreased earnings on our investment in Link.

Net financial expense

Net financial expense for the years ended December 31, 2006, and 2005 is as follows:

	Years ended December 31,	
	2006	2005
	(In millions of pesos)	
<u>Generated by assets</u>		
Interest income	30.6	15.4
Foreign exchange gain	13.4	15.8
Other financial results, net	1.7	(0.3)
Total	45.6	30.9
<u>Generated by liabilities</u>		
Interest expense	(193.7)	(185.5)
Foreign exchange loss	(26.5)	(40.3)
Other expenses and financial charges	(14.5)	(14.3)
Total	(234.7)	(240.0)
Total net financial expense	(189.0)	(209.1)

Net financial results for the year ended December 31, 2006 showed a reduction in expense of Ps. 20.1 million as compared to 2005. The variation is mostly attributable to the Ps. 15.2 million increase in interest income as a result of a greater investment in financial assets. In addition, as a consequence of a lower devaluation of the Argentine peso against the US dollar in the year ended December 31, 2006, the foreign exchange loss was lower by Ps. 11.3 million compared to 2005. Both effects were partially offset by a higher cost of debt associated with the increase in the effective interest rate on our indebtedness and an increased U.S. dollar to peso exchange rate, partially reduced by a more than 20% decrease in the outstanding amount of our indebtedness through early amortization payments.

In February 2005, we were served notice by the CNV that certain notes that we issued in December 2004 in the amount of US\$178 million did not fulfill the requirements of Article 56 of Chapter VI of the CNV regulations and CNV Resolution No. 470. If the CNV's interpretation is upheld, those notes would not be entitled

to the benefits of the exemption from income tax withholding provided by Law No. 23,576, and we, therefore, would be exposed to a contingency for the payment of withholding amounts associated with the income tax payable on interest paid in respect of those notes from their issue date in December 2004. The amount of such contingency is an uncertain amount of between US\$5 million and US\$14 million as of December 31, 2006 (including interest to December 31, 2006) and will depend on the applicable withholding tax rates determined by the country of residence of the note holders at the date of each interest payment. We do not have information that permits the identification of the country of residence of each note holder on each interest payment date. We believe that we have sufficient legal grounds to defend our position that no withholding tax was required, and accordingly, we have not recorded any provision in respect of this proceeding.

Income Tax

Income tax expense increased by Ps. 9.1 million in the year 2006 compared to 2005 primarily as a result of an increased accrual of income tax of Ps. 53.6 million in 2006, which was in turn a result of increased income in 2006, partially offset by a reversal of a tax loss carry-forward allowance of Ps. 144.5 million (compared with a reversal in 2005 of Ps. 101.4 million) relating to operating losses (see “Critical Accounting Policies and Estimates—Income Tax—Tax Loss Carry-Forward and Credit on Assets Tax” above).

Year 2005 compared to year 2004

Net revenues

Regulated gas transportation segment. Net revenues from the gas transportation segment accounted for approximately 43% and 44% of total net revenues for the years ended December 31, 2005 and 2004, respectively.

Net revenues from the gas transportation segment for the year ended December 31, 2005, increased by approximately 5.9%, or Ps. 25.7 million, as compared to the year ended December 31, 2004. This increase resulted mainly from Ps. 22.7 million of new firm transportation contracts some of which came into effect as a consequence of the San Martín pipeline expansion discussed above.

Moreover, we increased our firm basis contracted capacity by 1 MMm³/d (35.3 MMcf/d) through a new contract that came into effect as of February 2005 with a consortium of gas producers in the Austral basin, constituted by Total Austral S.A., Pan American Sur S.R.L. and Wintershall Energía S.A.. To that purpose, we constructed a compressor plant of 12,700 HP along the San Martín pipeline in the province of Santa Cruz. Gas is transported from Tierra del Fuego province to a new gas pipeline owned by EGS and constructed by us in the south part of the province of Santa Cruz. This new firm transportation contract resulted in net revenues for us of Ps. 6.3 million in 2005.

Additionally, in March 2004, we carried out two open biddings for the subscription of additional capacity of 3.6 MMm³/d (127.1 MMcf/d) that we had in the system plus additional capacity obtained through optimization work in the pipeline system made at the beginning of 2004. The new contracts came into effect as of May 2004 and generated a Ps. 1.8 million increase in the 2005 revenues in comparison with the period 2004. Annual revenues derived from these new contracts are approximately Ps. 7.1 million.

NGL production and commercialization segment. Net revenues from the NGL production and commercialization segment accounted for approximately 51% of total net revenues for each of the years ended December 31, 2005, and 2004.

The annual sales for the Cerri Complex for 2005 and 2004 in short tons, which includes NGL sales made on behalf of third parties, from which we withhold fees for production and commercialization, were as follows:

	Years ended December 31,		Year ended December 31, 2005 compared to year ended December 31, 2004	
	2005	2004	Increase (Decrease)	Percentage change
<i>Local market</i>				
Ethane	376,678	381,118	(4,440)	(1.2%)
LPG	278,205	321,279	(43,074)	(13.4%)
Natural Gasoline	5,429	13,559	(8,130)	(60.0%)
Subtotal	660,312	715,956	(55,644)	(7.8%)
<i>Exports</i>				
LPG	220,337	270,609	(50,272)	(18.6%)
Natural Gasoline	102,831	102,375	456	0.4%
Subtotal	323,168	372,984	(49,816)	(13.4%)
Total	983,480	1,088,940	(105,460)	(9.3%)

NGL production and commercialization revenues increased by Ps. 40.0 million in the year ended December 31, 2005, as compared to the same period in 2004, mainly due to a rise of international prices that represented an increase in our annual revenues for an amount of Ps. 59.2 million. This variation was partially offset by a decline in the volumes sold (specifically in the external market) that reflected a Ps. 19.8 million decrease in the revenues of this segment. Due to the Federal Energy Bureau regulations requiring us to first service our domestic market at a stabilized price, the decrease in volume primarily affected that portion of our output that we otherwise could have sold at prevailing international prices. Volume in 2005 was down 9.3% from the level in 2004 due principally to unfavorable natural gas supply conditions in the first quarter of 2005.

Other services. Net revenues from the other services segment accounted for approximately 6% and 5% of total net revenues for the years ended December 31, 2005, and 2004, respectively.

Other services revenues increased by Ps. 4.9 million in the year 2005 as compared to the year 2004, mainly due to increased revenues of Ps. 4.2 million from telecommunication services.

Costs of sales

Cost of sales for the year ended December 31, 2005, increased by approximately Ps. 60.7 million, or approximately 13.0%, as compared to the year 2004. This variation derives mainly from: (i) Ps. 30.6 million of higher NGL production costs due to increases in the prices of raw materials; (ii) Ps. 9.1 million due to higher labor costs; (iii) Ps. 7.4 million increase of depreciation and amortization; and (iv) Ps. 4.7 million increase of operation and maintenance costs of the gas transportation pipeline system.

Administrative and selling expenses

Administrative and selling expenses for the year ended December 31, 2005, increased by approximately Ps. 20.7 million, or approximately 28.0%, as compared to the year 2004. This increase was primarily the result of Ps. 15.5 million in higher taxes and contributions caused principally by tax rate increases - from 5% to 20% - on LPG exports rates in May 2004.

Other expenses, net

Our "Other expenses, net" account decreased by Ps. 27.6 million in the year ended December 31, 2005, compared to the year 2004. This variation is mainly attributable to (i) the higher provision registered in 2004 of Ps. 16.1 million, regarding a resolution from the Argentine Supreme Court on litigation filed by GdE against us, related to transferred assets upon the privatization of that company (for more information on these lawsuit, see "Item 8. Financial information—Consolidated statements and other financial information—Legal and regulatory proceedings"); and (ii) the reversal of an allowance of Ps. 5.6 million due to a favorable court ruling in connection with a legal action filed by the Argentine Tax Authority ("AFIP") against us.

(Loss) / gain on related companies

Equity in earnings / (losses) of affiliates increased by Ps. 3.2 million for the year ended December 31, 2005, as compared to the year ended December 31, 2004; due to higher earnings on our investment in Link.

Net financial expense

Net financial expense for the years ended December 31, 2005, and 2004 is as follows:

	Years ended December 31,	
	2005	2004
	(In millions of pesos)	
Generated by assets		
Interest income	15.4	8.7
Foreign exchange gain	15.8	32.0
Other financial results, net	(0.3)	(5.5)
Total	30.9	35.2
Generated by liabilities		
Interest expense	(185.5)	(251.3)
Foreign exchange loss	(40.3)	(58.0)
Amortization of intangible assets	-	(6.0)
Write off of intangible assets retired	-	(63.5)
Interest expense reversal	-	96.6
Other expenses and financial charges	(14.3)	(13.9)
Total	(240.0)	(296.1)
Total net financial expense	(209.1)	(260.9)

For the year ended December 31, 2005, we reported a net financial expense of Ps. 209.1 million, as compared to a net financial expense of Ps. 260.9 million for the year ended December 31, 2004. This positive variation of Ps. 51.8 million was principally due to the financial debt restructuring expenses incurred in 2004 of Ps. 63.5 million. In addition, the principal amortizations made in December 2004 and during 2005 for approximately US\$ 206 million resulted from a lower interest accrual of Ps. 27.7 million in the year 2005. Both effects were partially offset by an increase in the average interest rate, which resulted in a higher interest accrual of Ps. 33.3 million in year 2005.

Income Tax

For year 2005, we reported Ps. 12.8 million in income tax expenses, which represented a Ps. 2.2 million increase compared to year 2004. This increase is due to a higher income tax provision for Ps. 15.2 million partially offset by a higher reversal in the tax loss carry-forward of Ps. 13.0 million.

B. Liquidity and capital resources

As a result of the severe financial crisis in Argentina that occurred in 2002 and the Argentine government's resulting default on its financial indebtedness, we have had no access to non-Argentine sources of financing or the public capital markets generally since 2002. Prior to the 2002 economic crisis, we financed our operations with internally generated funds but supplemented such funds with third-party financings and funds raised through our several global medium-term note programs. Since the crisis, we have had to rely entirely on internally generated funds to satisfy our payment obligations. In addition, our ability to generate funds suffered severely from the pesification of our tariffs in 2002, resulting in lower revenues from our gas transportation segment in U.S. dollar terms. By 2003, these events and conditions had caused us to default on substantially all of our then-outstanding debt obligations.

In December 2004, we restructured substantially all of our debt obligations by means of an exchange offer (the "**Restructuring**"), which was accepted by creditors holding 99.76% of the principal amount of the debt that we sought to restructure. The exchange offer consisted of (i) a cash payment in satisfaction of past due interest on our then-existing debt obligations, (ii) a cash repayment in respect of 11% of the principal amount of such debt obligations, and (iii) the issuance of restructured debt obligations (or, in the case of some debt obligations, the amendment and restatement of such debt obligations) in respect of the remaining 89% of the principal amount of such debt obligations. In connection with the Restructuring, we also settled Ps. 27.0 million

of peso-denominated debt. Since the closing of the Restructuring on December 15, 2004, we have settled an additional US\$2.2 million in principal amount of unstructured indebtedness.

The Restructuring enabled us to reduce the interest rates of our indebtedness and align amortization payments with our anticipated cash flow. Consequently, a predetermined, fixed step-up interest rate (which avoids the risk of future international interest rate rises to which we would have been exposed with a variable rate) was a component of our restructured debt obligations. This allowed us to make lower interest payments during the first years following issuance, when the total amount of the debt obligations is most significant.

Beginning in April 2007, we began a series of steps to refinance our outstanding obligations under the Restructured Notes and Amended Loans. These steps included a tender offer and proxy solicitation with respect to all of the Restructured Notes (the “**Tender Offer**”), a new notes offering and an optional prepayment of amounts outstanding under the Amended Loans and redemption of the Restructured Notes remaining after the completion of the tender offer. On April 9, 2007, we launched the Tender Offer, and received a sufficient number of proxies by the early tender deadline to amend the terms of the Restructured Notes as necessary to allow the consummation of the Tender Offer, which was otherwise not permitted under the terms of the Restructured Notes. The Tender Offer expired on May 7, 2007 and was accepted by 78.4% of noteholders.

Concurrent with the Tender Offer, we commenced an offering of new notes in an aggregate principal amount of US\$500,000,000 (the “**New Notes**”) pursuant to our Medium Term Note Program (the “**Program**”), which provides for the issuance of up to a maximum principal amount of US\$650 million in notes. On May 14, 2007, we simultaneously closed the offering of New Notes and used a portion of the proceeds and cash to settle the Tender Offer. The interest rate for the New Notes is fixed at 7.875%, and the maturity date is May 14, 2017. As of May 14, 2007, our total U.S. dollar-denominated principal debt for accounting purposes consisted of US\$500,000,000 in New Notes and US\$97,318,912 in Restructured Notes not tendered in the Tender Offer and US\$206,823,727 under the Amended Loans. On June 15, 2007, using the remainder of the proceeds from the New Notes and cash, we made an optional prepayment of all amounts owing under the Amended Loans and redeemed the outstanding Restructured Notes. As a result, the aggregate principal amount of our total U.S. dollar-denominated debt as of the date of this Annual Report is US\$500,000,000.

Currently, we believe that our working capital is sufficient for our present requirements. A potential future devaluation of the peso, additional capital expenditures required by the Argentine government or a significant decrease of NGL prices could harm our cash-generating ability and materially adversely affect our liquidity and our ability to service our debt.

The statements of cash flows presented in the primary financial statements are prepared based on Argentine GAAP amounts. Under Argentine GAAP, we consider all short-term, highly liquid investments that are readily convertible to known amounts of cash and with original maturities of three months or less to be cash equivalents. Under Argentine GAAP, mutual funds are considered to be cash equivalents since original maturity is determined by reference to the frequency with which liquidity is available according to current Argentine GAAP guidance and practice. However, under SFAS No. 95 “Statement of Cash Flows,” the original maturity is determined by reference to the stated term of the security or the timeframe for exercising any put features to the issuer, not by reference to the frequency with which liquidity may be available through an auction, a put feature to a third party, or otherwise. As a result, differences exist between the total amount of the increase or decrease in cash and cash equivalents reported in the primary financial statements and the same totals that would be reported in a statement of cash flows prepared based on US GAAP amounts. In addition, differences exist between cash flows from operating, investing and financing activities reported in the primary financial statements and the cash flows from operating, investing and financing activities that would be reported under SFAS No. 95. For a description of the total amounts of cash and cash equivalents and other differences under US GAAP see Note 12 to our Financial Statements.

Our primary sources and uses of cash during the years ended December 31, 2006, 2005 and 2004 are shown in the table below:

	For the years ended December 31,		
	2006	2005	2004
	(in millions of pesos)		
Cash and cash equivalents at the beginning of the year	512.9	335.8	672.2
Cash flows provided by operating activities	606.2	584.7	116.3
Cash flows used in investing activities	(127.4)	(166.1)	(98.0)
Cash flows used in financing activities	(513.6)	(241.4)	(354.7)
Net (decrease) / increase in cash and cash equivalents	(34.7)	177.1	(336.4)
Cash and cash equivalents at the end of the year	478.3	512.9	335.8

Cash flows provided by operating activities

Cash flows provided by operating activities for the year ended December 31, 2006 increased slightly compared to 2005, mainly due to higher sales, although costs have increased as well, partially offsetting this positive variation. Cash flows provided by operating activities for 2005 included the refund from a pipeline supplier of an advance payment of US\$22 million made in 2004 to secure pipe that ultimately was purchased by the Gas Trust in connection with the 2005 expansion of the San Martín pipeline. Increased cash flows were also partially offset by the cash payment that ended a lawsuit brought by Gas del Estado for which reserves had previously been established.

Cash flows provided by operating activities for the year ended December 31, 2005, increased by approximately Ps. 468.4 million as compared to the year ended December 31, 2004. This increase was primarily the result of: (i) greater interest paid in 2004 for Ps. 212 million due to the restructuring of our debt obligations (for more information see above); and (ii) the variation effect of Ps. 129.1 million related to the collection in 2005 and the payment in 2004 of the guarantee deposits paid to the pipeline supplier in 2004, associated with the expansion of the San Martín pipeline.

Cash flows used in investing activities

Cash flows used in investing activities in 2006 were lower by 23.3%, or approximately Ps. 38.7 million, in comparison with 2005. In 2005 we invested approximately Ps. 100 million in the San Martín pipeline expansion, while in 2006 other incremental capital expenditures increased over 2005.

Cash flows utilized for investing activities for the year ended December 31, 2005, increased by approximately Ps. 68.1 million as compared to the year ended December 31, 2004, as a consequence of the greater investments made in 2005 with respect to the San Martín pipeline expansion. During 2004, investing activities were limited to essential maintenance expenditures due to the Argentine economic crisis.

Cash flows used in financing activities

Cash flows used in financing activities more than doubled compared with 2005 as a result of our efforts, during 2006, to reduce our restructured debt. In December 2006, we redeemed and prepaid US\$130 million of this indebtedness. Such efforts were intended to strengthen our financial condition and support the future growth of our business. In May and June 2007, we refinanced the remainder of our outstanding restructured debt. See “—Description of indebtedness.”

Cash flows used in financing activities for the year ended December 31, 2005, decreased by Ps. 113.3 million, as compared to the year ended December 31, 2004. This reduction in cash flows used in financing activities was primarily due to the higher principal amortization on December 15, 2004, which represented 11% of the principal amount of our restructured debt as of such date.

Description of indebtedness

In December 2004, we concluded the process of restructuring substantially all of our outstanding indebtedness. Our restructuring consisted of the exchange of our then existing debt obligations for a combination of cash and either newly-issued notes (the “**Restructured Notes**”) or, in the case of the loans with the Inter-

American Development Bank (“**IDB**”), the entry into amended and restated loan agreements with new terms (the “**Amended Loans**”).

We are subject to several restrictive covenants under the New Notes that limit our ability to obtain additional financing, including limitations on our ability to incur additional indebtedness to create liens on our property, assets or revenues. Since our New Notes amortize, beginning on May 14, 2014, we will have annual obligations to repay principal on such debt. We are also subject to other restrictive covenants that impact our use of cash on hand, such as limitations on our ability to pay dividends to our shareholders, and limitations on our ability to sell our assets. See “Item 10. Additional Information—Material Contracts—New Notes” for a detailed discussion of the terms of our New Notes, including the interest rates and material covenants applicable to such indebtedness.

Future Capital Requirements

Details of our currently projected capital expenditures for the 2007-2009 period, in millions of U.S. dollars, are set forth in the following table:

	2007	2008	2009	Total
<i>Gas transportation</i>				
Reliability and others	19.1	17.9	19.1	56.1
Expansions.....	9.7	-	-	9.7
Total	28.8	17.9	19.1	65.8
<i>NGL production and commercialization</i>				
Reliability and others	5.6	7.8	6.4	19.8
Expansions.....	8.6	-	-	8.6
Operational efficiencies	1.7	1.0	1.0	3.7
Total	15.9	8.8	7.4	32.1
<i>Other services</i>	26.5	-	-	26.5
Total Capital Expenditures	71.2	26.7	26.5	124.4

We currently expect that our capital investment requirements will be financed primarily by cash from operations. Alternatively, expansion investments in the gas transportation segment are expected to be financed by the customers who will require additional services, such as the expansion being made to accommodate the needs of Aluar. Such customer-financed expansions will be repaid through the rendering of services.

Currency and exchange rates

Our primary market risk exposure is associated with changes in the foreign currency exchange rates because substantially all of our debt obligations are denominated in U.S. dollars and a significant portion of our revenue is denominated in pesos. Contributing to this exposure are the measures taken by the Argentine government since the repeal of the Convertibility Law and the pesification of our regulated tariffs. This risk is mitigated in part by our NGL production and commercialization segment, more than 80% of the revenues from which are denominated in U.S. dollars.

Our financial debt obligations denominated in foreign currency as of December 31, 2006, amounted to US\$658.9 million (Ps. 2,017.6 million). As of December 31, 2006, we also had the equivalent of US\$16.1 million (Ps. 49.4 million) of trade and other payables denominated in U.S. dollars. Finally, US\$182.1 million (Ps. 550.3 million) of our assets are denominated in U.S. dollars. Therefore, our net liability position in U.S. dollars amounted to US\$492.9 million as of December 31, 2006.

We estimate, based on composition of our balance sheet as of December 31, 2006, that every exchange rate variation of Ps. 0.10 against the U.S. dollar, plus or minus, would result in a variation of Ps. 49.3 million of our consolidated net position in U.S. dollars. This sensitivity analysis provides only a limited view of the market risk sensitivity of certain of our financial instruments. The actual impact of market foreign exchange rate changes on our financial instruments may differ significantly from the impact shown in the sensitivity analysis.

Derivative financial instruments

Our Board of Directors has approved the terms for acquiring derivative financial instruments in order to hedge risks associated with the fluctuation of interest and exchange rates of our debt. As of the date of this Annual Report, we have not acquired any such instruments.

We do not believe that we are exposed to significant interest rate risk because the interest rates on our debt obligations do not change with the market.

C. Research and development, patents and licenses, etc.

Not applicable.

D. Trend information

See “–Discussion of Results of Operations for the Three Years ended December 31, 2006, 2005 and 2004” and “Item 8—Financial Information. —Legal and regulatory Proceedings.”

E. Off-balance sheet arrangements

We currently do not have any off-balance sheet arrangements or significant transactions with unconsolidated entities not reflected in our consolidated financial statements. All of our interests in and/or relationships with our subsidiaries or jointly-controlled entities are recorded in our consolidated financial statements. See “—Liquidity and Capital Resources—Derivative Financial Instruments”.

F. Tabular disclosure of contractual obligations

The following table represents a summary of our contractual obligations as of December 31, 2006:

	Payment due by period (in millions of pesos)				
	Total	Less than 1 year	1-3 years	4-5 years	More than 5 years
Long-Term Debt Obligations	2,711.2	241.7	958.0	1,299.8	211.7
Capital Lease Obligations	3.6	3.0	0.6	-	-
Purchase Obligations ⁽¹⁾	103.1	72.4	30.7	-	-
Other Long-Term Liabilities ⁽²⁾	163.1	32.4	64.3	66.4	-
Total	2,981.0	349.5	1,053.6	1,366.2	211.7

(1) Corresponds to contracts for the purchase of natural gas used in our NGL production and commercialization activities.

(2) Corresponds to the fee to be paid under the Technical Assistance Agreement.

All of the debt obligation amounts set forth above are U.S. dollar-denominated and, therefore, principal and accrued interest included in the amounts presented have been converted to peso amounts using the selling exchange rate of US\$1=Ps. 3.062 as of December 31, 2006. Actual foreign currency debt payments may significantly differ from these estimates due to exchange rate fluctuations.

As described above, on June 15, 2007, we concluded the refinancing of our indebtedness. The following table represents a summary of our contractual obligations as of June 15, 2007, giving effect to the refinancing:

Payment due by period (in millions of pesos)					
	Total	Less than 1 year	1-3 years	4-5 years	More than 5 years
Long-Term Debt Obligations	2,583.6	123.3	368.5	246.0	1,845.8
Capital Lease Obligations	2.0	2.0	-	-	-
Purchase Obligations ⁽¹⁾	73.0	42.0	31.0	-	-
Other Long-Term Liabilities ⁽²⁾	164.0	32.6	64.6	66.8	-
Total	2,822.6	199.9	464.1	312.8	1,845.8

(1) Corresponds to contracts for the purchase of natural gas used in our NGL production and commercialization activities.

(2) Corresponds to the fee to be paid under the Technical Assistance Agreement.

All of the debt obligation amounts set forth above are U.S. dollar-denominated and, therefore, principal and accrued interest included in the amounts presented have been converted to peso amounts using the selling exchange rate of US\$1=Ps. 3.077 as of June 15, 2007. Actual foreign currency debt payments may significantly differ from these estimates due to exchange rate fluctuations.

Item 6. Directors, Senior Management and Employees

A. Directors and Senior Management

General. Management of our business is vested in the Board of Directors. Our By-laws provide for a Board of Directors consisting of nine Directors and nine Alternate Directors. In the absence of one or more Directors, Alternate Directors will attend meetings of the Board of Directors. Directors and Alternate Directors are elected at an ordinary meeting of shareholders and serve one- to three-year renewable terms, as decided by the shareholders.

Under our By-laws and Argentine law, the Board of Directors is required to meet at least once every three months. A majority of the members of the Board constitutes a quorum, and resolutions must be adopted by a majority of the Directors present. In the case of a tie, the Chairman or the person replacing him at a particular meeting is entitled to cast the deciding vote.

At the Annual Shareholders' Meeting held on April 2, 2004, the number of Directors on our Board was increased by two members to nine from seven. Additionally, the shareholders decided at that meeting that upon motion by the Chairman, our Board of Directors' meetings may now be held by video or telephone conference.

The current Board of Directors was elected by our shareholders at the Annual Shareholders' Meeting held on April 12, 2007, for a one-year term.

The Shareholders Agreements contain provisions governing the voting of our shares held by CIESA, the election of the members of our Board of Directors and certain other matters. For more information see "Item 7. — Major Shareholders and Related Party Transactions — Shareholders Agreements."

Duties and Liabilities of Directors. Under Argentine law, Directors have the obligation to perform their duties with the loyalty and diligence of a prudent business person. Directors are jointly and severally liable to us, shareholders and third parties for the improper performance of their duties, for violating the law, our By-laws or regulations, if any, and for any damage caused by fraud, abuse of authority or gross negligence. Under Argentine law, specific duties may be assigned to a Director by our By-laws or regulations or by a resolution of a shareholders' meeting. In such cases, a Director's liability will be determined with reference to the performance of such duties, provided that certain recording requirements are met. Moreover, under Argentine law, Directors are prohibited from engaging in activities in competition with us without express shareholder authorization. Certain transactions between us and Directors are subject to ratification procedures established by Argentine law.

A Director will not be liable if, notwithstanding his presence at the meeting at which a resolution was adopted or his knowledge of such resolution, a written record exists of his opposition thereto and he reports his opposition to the Supervisory Committee before any complaint against him or her is brought before the Board, the Supervisory Committee, a Shareholder Meeting, competent governmental agency or the courts. Shareholder approval of a Director's performance terminates any liability of a Director vis-à-vis us, provided that shareholders representing at least 5% of our capital stock do not object and that such liability does not result from a violation of the law or our By-laws or regulations.

Causes of action against Directors may be initiated by us upon a majority vote of shareholders. If a cause of action has not been initiated within three months of a shareholders' resolution approving its initiation, any shareholder may initiate the action on behalf of and for our account.

At the Annual Shareholders' Meeting held on March 6, 1996, our shareholders approved the acquisition of civil liability insurance coverage for directors, members of our Supervisory Committee ("**Syndics**") and officers. Such coverage is common practice among public companies who seek protection against shareholders' and other parties' claims.

Three of the members of our Board of Directors qualify as independent as defined in Section 301 of the Sarbanes Oxley Act and Resolution No. 368 of the CNV. All three are also members of our Audit Committee. The remainder of the members of the Board of Directors are not independent. Under the independence requirements a director is not independent if any of the following apply:

- is also member of the administrative body or dependent on shareholders who hold "significant shareholding" of the issuer, or any corporation in which those shareholders hold direct or indirectly "significant shareholding",
- is engaged or was engaged during the last three (3) years to the issuer under a contract of employment,
- provides, or belongs to a professional corporation or association which renders professional services to, or receives any form of remuneration or fees (other than the corresponding remuneration for its position in the administration body) from the issuer or those shareholders that have any direct or indirect "significant shareholding" in the Company or from corporations in which shareholders also have any direct or indirect "significant shareholding",
- direct or indirectly holds "significant shareholding" in the issuer or any corporation which holds "significant shareholding" in the latter,
- direct or indirectly sells or provides goods or services to the issuer or its shareholders, who hold direct or indirect "significant shareholding", for an amount substantially higher than the compensation received for their position as members of the administration body,
- is husband or wife, close relative up to fourth degree of kinship or second degree of relationship that, in case of being member of the administration body, would not be independent as set forth in the CNV regulations.

In all cases "significant shareholding" refers to those shareholders holding at least thirty-five per cent (35%) of the Company's common stock, or less in cases when they are entitled to appoint one or more directors per class of share, or have agreements with other shareholders relating to management and administration of any such companies, or its controlling entity.

The following table sets out the membership of our Board of Directors as approved in our Annual Shareholders' Meeting held on April 12, 2007, their respective positions on the Board and the year they were appointed to such position.

Name	Year of Appointment	Term Expires	Position	Position in other Company
João Ferreira Bezerra de Souza	2006	2008	Chairman	Gas and Energy Director at Petrobras Energía
Mariano Pablo González	2007	2008	Vice Chairman	Member of the law firm González & Ferraro Mila
Carlos Alberto Seijo	2006	2008	Director	Marketing manager of the natural gas division at Petrobras Energía
Gustavo Sebastián Viramonte	2006	2008	Director	Member of the law firm Viramonte & Acuña
Diego Alberto Guerri	2006	2008	Director	Member of the law firm Zarantonello & Guerri

			Alternate Director	

Additional information regarding the occupation and employment background of each of our regular Directors is set forth below:

João Ferreira Bezerra de Souza received an Electrical Engineering degree from the Universidade Federal de Pernambuco. Before joining Petrobras in 1986, he worked for Koblitz Engenharia S.A. and Marinha do Brasil. Mr. Bezerra currently holds the position of Gas and Energy Director at Petrobras Energía. He was born on October 11, 1957. He currently acts as Director of Petrobras Energía, Petrobras Energía Participaciones S.A., MEGA, WEB S.A., CIESA, Citelec S.A., Transener S.A., Transba S.A., Edesur S.A., and Distrilec Inversora S.A.

Mariano Pablo González received a Law degree from the University of Belgrano. In 1996, he obtained a Master's degree in Corporate Law from the Columbia University School of Law. Before holding his current position, he worked for the CNV; Milbank, Tweed, Hadley & McCloy; Linklaters; Marval, O'Farrell & Mairal and Beccar Varela. Mr. González is currently a partner at the law firm of González & Ferraro Mila. He currently is a member of the board of directors of EPCA, FTI Consulting S.A., CIESA and Fondomonte Inversiones de Argentina S.A. He was born on May 24, 1969.

Carlos Alberto Seijo received a Chemical Engineering degree from the University of Buenos Aires. He has worked for Central Puerto S.A. He joined Petrobras Energía in 1999 as New Business Planning Manager for the Gas and Energy Division. He currently holds the position of Gas Natural Marketing Manager. He is also member of the Board of Directors of CIESA and MEGA. He was born on November 27, 1959.

Gustavo Sebastián Viramonte received a Law degree from the Universidad Nacional de Córdoba. He obtained a Master's Degree in Business Law from Universidad Austral. He has worked for Viramonte & Asociados S.C. and since 2001 and is a partner of the law firm Viramonte & Acuña. He is also a member of the board of directors of Nortel Inversora S.A. and CIESA. He was born on May 30, 1970.

Diego Alberto Guerri received a Law degree from the University of Buenos Aires. He has been chairman of Cirqui S.A., Dispel S.A. and Faique S.A. He is currently a partner of the law firm Zarantonello & Guerri, Chairman of several companies, including Quilseg S.A., Quil Investment S.A. and Quilburs S.A., and liquidator of Scotia Holding Argentina S.A. He is also a member of the board of directors of CIESA. He was born on January 8, 1969.

Rigoberto Mejía has a Master's Degree in Engineering Sciences and an Electrical Civil Engineering degree, both obtained at the University of Chile. He also obtained a Master's Degree in Business Administration from the Instituto de Altos Estudios Empresariales of the Universidad Austral. Before joining Petrobras Energía, he worked for Central Puerto S.A. and Gener Argentina S.A. He currently works as Manager of the Division Integration and Participations at Petrobras Energía. He is also member of the boards of directors of the following companies: Distrilec Inversora S.A., EDESUR S.A., Citelec S.A., Transener S.A., Transba S.A., MEGA, Yacylec S.A., Enecor S.A. and CIESA. He was born on November 7, 1963.

Luis Blaquier received a degree in Economics from the Universidad Católica Argentina. He also obtained a Master in Business Administration - Finance at Dartmouth College in 1993. He was Executive Director at Goldman Sachs & Co. (Investing Banking Division) in the United States. He also worked at Alliance Capital Management LP and previously worked as an Associate at Ledesma. He currently acts as Director of Texas Emerging Energy S.A. He was born on October 26, 1965.

Carolina Sigwald received a Law degree from the University of Buenos Aires. She worked at Chadbourne and Parke LLP in New York between 1996 and 1997 and at the Inter-American Investment Corporation in Washington D.C. between 1997 and 1998. She is currently a partner at the law firm Díaz Bobillo, Richard & Sigwald in Buenos Aires. She is a member of the Board of Directors of Supertap S.A., Gener Argentina S.A., Energen S.A., Termoandes S.A., Interandes S.A., GMF Latinoamericana S.A., Procesix Argentina S.R.L., Minera Andacollo Gold S.A., Latin Luz S.A. and Heirdrick & Struggles S.A. She was born on November 15, 1967.

Oscar Marano received a degree in Public Accounting and a Master's Degree in Administration from the University of Buenos Aires. He has worked for Edenor S.A., Astra S.A., Compañía Financiera Eugenio Diez S.A., Eugenio Diez S.A. and EDF Branch Americas. He currently acts as an independent consultant. He was born on October 20, 1943.

Executive Officers. The following is a list of our executive officers as of the date of issuance of this Annual Report, their respective positions with us and the year they were appointed to such position:

Name	Year of Appointment	Position
Jorge Casagrande	2006	CEO
Jorge García	1998	Marketing Vice President
Eduardo Pawluszek	2005	Chief Financial Officer ("CFO")
Jorge Bonetto	2000	Operations Vice President
Daniel Perrone	1999	Regulatory and Institutional Affairs Vice President
Carlos Ariosa	2006	Legal Affairs Vice President
Juan Martín Encina	2004	Human Resources Vice President
Alejandro Basso	1998	Planning and Control Vice President
Oscar Sardi	2005	Services Vice President

There is no expiration term defined for the Executive Officers.

Below is a description of the main activities currently carried out by each of our executive officer, together with the biographical information thereof:

Jorge Casagrande received a degree in Public Accounting from the *Universidad Católica Argentina*. He has worked for Massalin Particulares and Pricewaterhouse Coopers. He joined Petrobras Energía in 1992, where he served, among other things, as Planning and Corporate Management Control Manager for the Electricity and Gas Business. Since October 2006, he has acted as our CEO. He is also a member of the board of directors of Telcosur, EGS and TGU. He was born on February 18, 1968.

Jorge García received a degree in Public Accounting from the University of Buenos Aires. He has been with the Petrobras Energía group since 1980. He has worked for several companies within the group, including Petrobras Energía from 1980 to 1986, PASA from 1987 to 1991 and Central Costanera S.A. during 1992. From 1992 until September 1, 1998, he served as CFO of TGS. He is currently our Marketing Vice President. He is Vice Chairman of the Board of Directors of Link, EGS and TGU. He was born on March 1, 1952.

Eduardo Pawluszek received a degree in Public Accounting from the University of Buenos Aires and a Master's Degree in Finance and Capital Markets from the *Escuela Superior de Economía y Administración de Empresas*. Between 1988 and 1999, he worked for the Royal Bank of Canada. Prior to that, he held several

positions at Argentine financial entities. He joined us as Finance and Corporate Information Manager in 1999 and became CFO in 2005. He was born on March 8, 1963.

Jorge Bonetto received an Electromechanical Engineering degree from the *Universidad Nacional de Córdoba* and obtained a Master's Degree in Business Administration from the *Universidad Austral*. Before joining TGS, he worked for PASA, Petroquímica Cuyo S.A. and Corcemar S.A. He joined us in May 2000 as Operations Vice President. He was born on August 2, 1952.

Daniel Perrone received a Mechanical Engineering degree from the *Universidad Tecnológica Nacional*. He has previously worked for Cometarsa S.A., Matoil S.A., Servoil S.A., Bidas S.A.P.I.C. and TransCanada International. Since the end of 1999, he has served as our Regulatory Matters and Rates Vice President and, since August 2001, has also been responsible for Institutional Affairs. He was born on August 29, 1948.

Carlos Ariosa received a Law degree from the *Universidad Católica Argentina*, and has taken several post-graduate specialization courses in Law and Administration of the Electric Market. He has held positions in the public and private sector. Between 1998 and 2006, he worked for Petrobras Energía, forming part of the Legal Affairs Direction. He has been a member of the Supervisory Committee of several utilities, including Edesur S.A., Transener S.A., Transba S.A., Yacylec S.A., Enecor S.A. and MEGA. He was born on February 2, 1966.

Juan Martín Encina received a Law degree from the University of Buenos Aires and obtained a Master's Degree in Human Resources from the *Universidad de Ciencias Empresariales y Sociales*. Since 2000, he has served as Human Resources Department Vice President of Petrobras Energía for the Gas and Energy business and Centralized Functions. Prior to that, he headed Human Resources actions for different projects in Ecuador and Brazil, and in Argentina he has been responsible for Labor Relations Areas at utilities of the electric and railway sectors. He was born on March 2, 1967.

Alejandro Basso received a Public Accounting degree from the University of Buenos Aires. He worked for Petrobras Energía from 1987 to 1992 and for Quital-Co S.A. from 1992 to 1994. From 1994 to 1998, he acted as our Planning and Corporate Control Manager and in September 1998, he was designated Planning and Management Control Department Vice President. He also acts as Vice Chairman of TGU and member of the board of Directors of EGS. He was born on October 13, 1961.

Oscar Sardi received a Mechanical Engineering degree from the *Universidad Tecnológica Nacional*. He also participated in a General Administration Program at the *Universidad Austral*. He worked for Gas del Estado between 1983 and 1992 and during that year he held different positions in our services area. In April 2005 he was designated Services Department Vice President. He also acts as member of the Board of Directors of Link. He was born on September 1, 1955.

Indemnification of Officers and Directors. Under the Shareholders Agreement, the shareholders of CIESA require us to: (i) limit the liability of each of our officers, syndics and directors for all consequences of their acts or omissions, excluding acts or omissions where there is evidence of fraud or gross negligence and (ii) enter into agreements obligating us to defend, indemnify and hold harmless each of our officers, syndics and directors from and against all liabilities, losses, and other expenses incurred by each such officer, syndics or director in connection with a pending, threatened or completed civil, criminal, administrative or other proceeding, or any investigation that could lead to such a proceeding, by reason of the fact that such officer, syndics or director is or was one of our officers, syndics or directors, including claims alleged to be due to the negligence of such person, but excluding acts or omissions that involve fraud or gross negligence towards us.

B. Compensation

The remuneration paid or accrued by us during the year 2006 in favor of our members of the Board of Directors and executive officers amounted to Ps. 0.4 million and Ps. 4.1 million, respectively.

We do not grant pension or retirement plans or other benefits to members of our Board of Directors or to our executive officers.

Executive officers are subject to a goal-directed management system and a variable remuneration program. Consensual objectives, whether individual or by sector, are in line with our global objectives, as the

variable remuneration program links a portion of its compensation to the performance thereof and our performance.

C. Board Practices

For information on the term of office of our directors and executive officers, see “—Directors and Senior Management” above. The information in that section is incorporated herein by reference.

None of the members of our Board of Directors are party to any service contract with us or any of our subsidiaries providing for benefits upon termination of employment.

Audit Committee

According to the “Public Offering Transparency Regime” regulated under Decree No. 677/01, as supplemented by Resolutions No. 400 and 402 issued by the CNV, publicly listed companies must have an Audit Committee “that will function on a collegiate basis with three or more members of the Board of Directors, the majority of whom must be independent under CNV regulations.” On May 26, 2003, our Board of Directors approved the form of Rules of Procedure of the Audit Committee in order to comply with the provisions mentioned above.

Also in compliance with the above resolutions, at the Ordinary and Extraordinary Shareholders’ Meeting of April 2, 2004 the shareholders approved the amendment of the by-laws in order to incorporate a section relating to the structure and operation of the Audit Committee.

The Audit Committee operates under its Rules of Procedure, which require that the three members that form it must be independent according to the standards of the SEC and the CNV. Committee members are designated by a simple majority of the Board of Directors, at the first meeting following designation of the members of the Board of Directors, and they hold office until their successors are designated. The Audit Committee adopts its own regulations and must prepare a working plan for each fiscal year. At the Shareholders’ Meeting held on April 12, 2007, Oscar Marano, Luis Blaquier and Carolina Sigwald were designated as independent members of the Board of Directors.

The Committee’s mandatory periodic duties are to:

- supervise the internal control and accounting systems as well as the reliability of the latter and all the financial information and other significant issues that are to be submitted to the SEC, CNV and BASE in compliance with the applicable disclosure policies;
- supervise the application of information policies regarding our risk management;
- ensure that the market is informed about those operations where there may be a conflict of interest with one or more of the members of the Board of Directors, controlling shareholders or other parties as defined by the applicable regulations;
- express its view on the reasonableness of compensation proposals and stock option plans for directors and officers submitted by the Board of Directors;
- express its view as to compliance with laws and regulations and the reasonableness of the conditions of an issuance of shares (or convertible securities), in the case of a capital increase excluding or limiting preferential rights;
- verify compliance with the Code of Conduct;
- issue a well-founded opinion on whether the terms and conditions of relevant transactions with related parties are according to market practice, within five calendar days from the receipt of a petition issued by the Board of Directors, and at any other time at which a conflict of interests exists or might exist;
- prepare an annual performance plan for the fiscal year and notify the Board of Directors and the Supervisory Committee within 60 days from the beginning of the period;
- fulfill all the obligations stated in our By-laws and applicable laws and regulations;
- express its view on the Board of Directors’ proposals appointing (or rejecting) the external auditors to be hired and monitor the auditors’ independence.

Also, regarding the internal and external auditors, the Committee shall:

- review their plans; and
- evaluate their performance, and give an opinion on their performance when issuing the annual financial statements.

In evaluating the external auditors' performance, the Committee shall:

- analyze the different services rendered by the external auditors as well as their independence, according to TR No. 7 of the Argentine Federation, any other related regulations issued by professional councils and those regulations set by Resolution No. 400/02, section 4 and Chapter 18, section 18 of the CNV rules;
- report separately the fees payable as follows: (i) fees for external audit and other related services meant to provide reliability to third parties (e.g., special reports about internal controls, shareholding prospectuses, certifications and special reports requested by regulators, etc.); and (ii) fees related to other special services different from those mentioned above, such as those associated with design and implementation of systems, laws and regulations, financial issues, etc.; and
- verify the independence of the external auditors in accordance with internal policies.

Additionally, the Committee must perform the following mandatory duties contained in the regulatory framework:

- give a prior assessment, within five days of notification, that shall be used by the CNV to require us to designate an external auditor as requested by minority shareholders, as long as such shareholders represent at least 5% of our common stock (in those cases in which the minority shareholders' rights might be affected), in order to carry out one or more specific revisions. The charges of such revisions shall be paid by the petitioning shareholders (Decree No. 677/01, section 14, article e; Regulation No. 400/02, section 4; and Chapter 3, section 23, of the CNV rules);
- provide a well-founded assessment about an acquiring tender offer if by withdrawing the public offering if we would cease to be a public company or our stock cease to be traded (Decree No. 677, section 32; Resolution No. 401/02, sections 25 and 27); and
- issue a report supporting a Board of Directors' resolution to buy back our shares (Decree No. 677/01, section 68, article b; Resolution No. 400/02, section 4 and Chapter 3, article 11 of the CNV rules).

Once a year, the Audit Committee shall prepare a plan for the fiscal year to be submitted to the Board of Directors and to the Supervisory Committee. The Directors, members of the Supervisory Committee, managers and external auditors shall, when requested by the Audit Committee, attend its meetings, provide the Audit Committee with information and otherwise assist the Audit Committee in the performance of its functions. In order to better perform its functions, the Audit Committee may seek the advice of legal counsel and other independent professionals at our expense, pursuant to a budget approved by shareholders. The Audit Committee shall have access to the information and documents it may deem necessary to perform its duties.

According to CNV rules, at least once a year and upon the filing of the annual financial statements, the Audit Committee shall issue a report to the shareholders, addressing how the Committee performed its duties and the results of its work.

The aggregate remuneration paid by us during the year 2006 to the members of the Audit Committee was approximately Ps. 0.18 million. We do not provide pension, retirement or similar benefits to any member of the Audit Committee.

Supervisory Committee

The Supervisory Committee is our monitoring body as stipulated in Section No. 284 of the Commercial Companies Law. Our By-laws provide for a Supervisory Committee consisting of three Syndics and three alternate members ("**Alternate Syndics**"). In accordance with our By-laws, two Syndics and the corresponding Alternate Syndics are elected by a majority vote of the holders of our Class A Shares. The remaining Syndic and corresponding Alternate Syndic are elected by the majority vote of the remaining holders of our common stock. Each member of the Supervisory Committee is elected at the Annual Ordinary Shareholders' Meeting and serves for a one-year renewable term. Members of the Supervisory Committee must be lawyers or accountants qualified

under Argentine law and, for the accountants, Technical Resolution No. 15. Our directors, officers and employees may not be members of the Supervisory Committee. Our By-laws require the Supervisory Committee to hold meetings at least once per month.

The primary responsibilities of the Supervisory Committee consist of monitoring our management's compliance with the Commercial Companies Law, our By-laws and the shareholders' resolutions, and without prejudice to the role of external auditors, reporting to the shareholders at the Annual Ordinary Shareholders' Meeting regarding the reasonableness of our financial information. Furthermore, the members of the Supervisory Committee are entitled to: (i) attend Board of Directors and Shareholder Meetings, (ii) call Extraordinary Shareholders' Meetings when deemed necessary and Ordinary Shareholders' Meetings when the Board of Directors fails to do so, and (iii) investigate written inquiries initiated by shareholders. The Supervisory Committee does not control our operations or evaluate management's decisions, which are the exclusive responsibility of the Board of Directors.

The aggregate remuneration paid or accrued by us during 2006 to the members of the Supervisory Committee was approximately Ps. 0.054 million. We do not provide pension, retirement or similar benefits for Syndics and Alternate Syndics.

The current members of the Supervisory Committee, each of whom was appointed at the Annual Shareholders' Meeting held on April 12, 2007, the year each member was initially appointed to the Supervisory Committee and the year each members' term expires are as follows:

Name	Member since	Term Expires	Position
José María Zuliani	2005	2008	Syndic
Nicolás Martín Mordegli	2004	2008	Syndic
Pablo Ferraro Mila	2007	2008	Syndic
Enrique Prini Estebecorena	2005	2008	Alternate Syndic
Bárbara Vons	2006	2008	Alternate Syndic
Ricardo Machera	2006	2008	Alternate Syndic

The present principal occupations and employment history of our Syndics are set forth below:

Mr. José María Zuliani received Law degree from the National University of Rosario. He has held several managing positions at Petrobras Energía and currently is the Gas and Energy Legal Affairs Manager. He is also a member of the Board of Directors of WEB S.A. and a syndic of CIESA, Telcosur, Transba S.A., Transener S.A., MEGA, Petrobras Electricidad de Argentina S.A., Distrilec Inversora S.A., Edesur S.A. and Citelec S.A.. He was born on December 13, 1961.

Mr. Nicolás Mordegli received a Law degree from the University of Buenos Aires and a Master's degree in Business Law from Austral University. He worked for Cerro Vanguardia S.A. from 1995 to 1999. Since 1999, he has worked for the Legal Affairs Department of Petrobras Energía. He serves as a member of the Supervisory Committee of CIESA, Enecor S.A., Petrobras Electricidad de Argentina S.A., Distrilec Inversora S.A., Edesur S.A., Transba S.A., Telcosur, MEGA and Citelec S.A.. He was born on August 17, 1965.

Pablo Ferraro Mila received a Law degree from the Universidad de Belgrano. In 1996, he received a Master's Degree in Comparative Jurisprudence from the New York University School of Law, as well as Master's Degree in Business Law from Universidad Austral. At present he is a partner of the law firm González & Ferraro Mila. Before joining Gonzalez & Ferraro Mila, he was a Junior Partner at the law firm Beccar Varela (since 1999) and an associate at the law firms of Cravath, Swaine & Moore in New York, Allen & Overy in London, and Allende y Brea in Buenos Aires and New York. He also serves as a syndic of CIESA and EPCA and he is a member of the boards of directors of FTI Consulting S.A. and Fondomonte Inversiones de Argentina S.A.. He was born on February 7, 1970.

Remuneration Committee

We do not have a remuneration committee. Compensation decisions are made by our senior management.

Corporate Governance Practices; New York Stock Exchange Requirements

Our corporate governance practices are governed by applicable Argentine law (particularly, the Commercial Companies Law), Decree No. 677/01, the standards of the CNV and our By-laws. We have securities that are registered with the SEC and listed on the New York Stock Exchange (the “NYSE”) and, consequently, we are subject to the rules and regulations of the NYSE.

On November 4, 2003, the NYSE established new corporate governance standards (“NYSE Standards”) that are applicable to NYSE-listed companies, including non-U.S. companies. Under these standards, non-U.S. companies are permitted, in general, to follow their home country corporate governance practices in lieu of most of the new NYSE corporate governance requirements codified in Section 303A of the NYSE’s Listed Company Manual (the “NYSE Sections”). However, non-U.S. companies must comply with NYSE Sections 303A.06, 303A.11 and 303A.12(b) and (c). Non-U.S. companies must have been in compliance with Section 303A.06 prior to July 31, 2005. Section 303A.11 requires that non-U.S. companies disclose any significant ways in which their corporate governance practices differ from those followed by U.S. companies under NYSE listing standards. Specifically, a non-U.S. company is required to provide a brief, general summary of the significant differences by means of (i) the company’s website (in English) and/or (ii) the company’s annual report distributed to its investors in the United States.

Pursuant to the requirements of Section 303A.11, the following table summarizes the significant differences between Argentine corporate governance standards and those required of U.S. companies in accordance with the NYSE Sections:

NYSE Section	Requirement of NYSE Section	Argentine Requirements and Our Practice as provided by Argentine law (including Commercial Companies Law and Decree No. 677/01 issued by Executive Branch), CNV regulation requirements and our By-laws
<i>Director Independence</i>		
303A.01	Listed companies must have a majority of independent directors on their board of directors.	Companies are not required to have a majority of independent directors on their boards of directors. At our Annual Shareholders’ Meeting, held on April 2, 2004, our shareholders appointed three independent directors (together with one alternate independent director) out of nine directors of whom the Board of Directors is composed.
303A.02	Establishes general standards to evaluate directors’ independence (no director qualifies as “independent” unless the board of directors affirmatively determines that the director has no material relationship with the listed company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the company), and emphasizes that the concern is independence from management. The board of directors is also required to express an opinion with regard to the independence or lack of independence, of each individual director.	To qualify as an “independent” or “non-independent” director, CNV standards (General Resolution No. 400/02) are substantially similar to the NYSE standards. CNV standards provide that independence is required with respect to a company and to its controlling shareholders or to shareholders with material holdings (35% or more) and that, for any person to be appointed as an independent director, such person must not perform executive functions within the company. Close relatives of any persons who would not qualify as “independent directors” would also not be considered “independent.” When directors are appointed, each shareholder that nominates a director is required to report at the meeting whether or not such director is independent.

NYSE Section	Requirement of NYSE Section	Argentine Requirements and Our Practice as provided by Argentine law (including Commercial Companies Law and Decree No. 677/01 issued by Executive Branch), CNV regulation requirements and our By-laws
303A.03	The non-management directors of each listed company must meet at regularly scheduled executive sessions without management.	<p>None of Argentine law, the CNV rules or our By-laws requires that any such meetings be held.</p> <p>Under Argentine law, a board of directors must meet at least once every three months.</p> <p>Under our By-laws, our Board of Directors must meet at least every three months.</p>
<i>Nominating/Corporate Governance Committee</i>		
303A.04	Listed companies must have a nominating/corporate governance committee composed entirely of independent directors, with a written charter that addresses the committee's purpose and responsibilities and an annual performance evaluation of the committee.	<p>None of Argentine law, the CNV rules or our By-laws requires the establishment of a nominating/corporate governance committee.</p> <p>The right to nominate directors is vested in the shareholders and nominations are made at our annual shareholders' meeting. Pursuant to CNV standards, the person who nominates a director is required to report at the shareholders' meeting whether or not the nominee is an "independent person" based on criteria established by the CNV (which are substantially similar to NYSE standards).</p>
<i>Management Resources and Compensation Committee</i>		
303A.05	Listed companies must have a compensation committee composed entirely of independent directors, with a written charter that addresses the committee's purpose and responsibilities and an annual performance evaluation of the committee.	<p>None of Argentine law, the CNV regulations or our By-laws requires the establishment of a compensation committee.</p> <p>However, our Audit Committee is required to give an opinion about the reasonableness of directors' compensation and stock option plans (if applicable), as approved by our Board of Directors. The compensation of members of our Board of Directors is approved by our Shareholders at their Annual Meeting.</p>
<i>Audit Committee</i>		
303A.06	Listed companies must have an "Audit Committee" that satisfies the requirements of Rule 10A-3 under the Exchange Act.	<p>Pursuant to Decree No. 677/01 and the CNV standards, Argentine companies that are authorized by the CNV to make public offerings of equity securities were required to establish an Audit Committee prior to May 28, 2004.</p> <p>At our shareholders' meeting, held on April 2, 2004, our shareholders approved an amendment to our By-laws that provides for the establishment of our Audit Committee. Upon the appointment of three independent directors on April 15, 2004, to the Audit Committee, the Audit Committee was formally constituted.</p>

NYSE Section	Requirement of NYSE Section	Argentine Requirements and Our Practice as provided by Argentine law (including Commercial Companies Law and Decree No. 677/01 issued by Executive Branch), CNV regulation requirements and our By-laws
303A.07 (a)	An Audit Committee shall consist of at least three members. All of its members shall be financially literate or must acquire such financial knowledge within a reasonable period and at least one of its members shall have expertise in accounting or financial management.	<p>Argentine law requires an Audit Committee to be comprised of at least three members. Pursuant to CNV standards, Audit Committee members are required to be conversant in business, financial or accounting matters and issues. In addition, CNV standards require the training of an Audit Committee's members in the practice areas that would permit them to carry out their duties on the Audit Committee.</p> <p>Our Audit Committee is composed of three independent directors who satisfy the independence requirements set forth in the CNV standards. One of our Audit Committee members qualifies as a "financial expert" within the meaning of Item 16A of the Form 20-F. See "Item 16A. Audit Committee Financial Expert." In addition, the Audit Committee's charter requires the implementation of a training plan for its members.</p>
303A.07 (a)	If a member of the Audit Committee is simultaneously a member of the Audit Committee of more than three public companies, and the listed company does not limit the number of Audit Committees on which its members may serve, then, in each case the board of directors shall determine whether the simultaneous service would prevent such members from effectively serving on the listed company's Audit Committee, and shall disclose its decision in the annual proxy statement of the company or in the company's annual report on Form 10-K, which is filed with the SEC.	No comparable provision, relating to an Audit Committee member's simultaneous membership on the Audit Committee of other public companies, exists under Argentine law, CNV standards or our By-laws.
303A.07 (c)	An Audit Committee shall have a written charter addressing (i) the committee's purpose; (ii) an annual performance evaluation of the committee, and (iii) the duties and responsibilities of the committee, including, at a minimum, those required by Section 10A-3(b)(2-5) of the Exchange Act.	<p>The functions and responsibilities of an Audit Committee, established by Decree No. 677/01 and CNV standards, are essentially the same as those provided for under Section 10A of the Exchange Act.</p> <p>We have established a written charter governing our Audit Committee, which charter complies with the standards set by the CNV. The functions and responsibilities of our Audit Committee are described in "Item 6. Directors, Senior Management and Employees—Board Practices—Audit Committee."</p>

NYSE Section	Requirement of NYSE Section	Argentine Requirements and Our Practice as provided by Argentine law (including Commercial Companies Law and Decree No. 677/01 issued by Executive Branch), CNV regulation requirements and our By-laws
303A.07 (c) (iii) (A)	Provides that the Audit Committee must at least annually obtain and review a report by the independent auditor describing: the firm's internal quality-control procedures; any material issues raised by the most recent internal quality-control review, or peer review, of the firm, or by any inquiry or investigation by governmental or professional authorities, within the preceding five years, respecting one or more independent audits carried out by the firm, and any steps taken to deal with any such issues; and (to assess the auditor's independence) all relationships between the independent auditor and the company.	Our Audit Committee action plan provides for these actions to be taken.
303A.07 (c)(iii)(D-H)	Provides that the Audit Committee shall: discuss policies with respect to risk assessment and risk management; meet separately, periodically, with management, with internal auditors (or other personnel responsible for the internal audit function) and with independent auditors; review with the independent auditor any audit problems or difficulties and management's response; set clear hiring policies for external auditors' employees; and report regularly to the board of directors.	No such provision regarding the policies for hiring external auditors' employees is contained in Argentine law, the CNV standards or our By-laws. However, Decree No. 677/01 establishes that an Audit Committee has the duty to give its opinion in connection with the hiring of external auditors by the board of directors.
303A.07(d)	Provides that each company must have an internal audit function to provide management and the Audit Committee with ongoing assessments of the company's risk management processes and system of internal control.	There is no specific reference under Argentine law or the CNV standards to such internal audit function. We have an internal audit department that reports risk management assessments to our Board of Directors.
<i>Equity Compensation Plans</i>		
303A.08	Shareholders must be given the opportunity to vote on equity-compensation plans and material revisions thereto, with limited exemptions set forth in the NYSE standards.	We do not have any stock option programs for our executive officers or senior management. See "Item 6. Directors, Senior Management and Employees—Compensation." Our audit committee has to give an opinion about the reasonableness of compensation and stock option plans, as approved by the board of directors. As noted above, the determination of whether to compensate a director is made at a shareholders' meeting.

NYSE Section	Requirement of NYSE Section	Argentine Requirements and Our Practice as provided by Argentine law (including Commercial Companies Law and Decree No. 677/01 issued by Executive Branch), CNV regulation requirements and our By-laws
<i>Corporate Governance Guidelines</i>		
303A.09	Listed companies must adopt and disclose corporate governance guidelines.	Decree No. 677/01 lists additional information that issuers must include in their annual reports, such as information relating to the company's decision-making organizational structure (corporate governance), internal control system, directors' and officers' compensation, stock-options, and any other compensation system applicable to the members of a company's board of directors and managers. Decree No. 677/01 does not address the remaining issues included in NYSE Section 303A.09.
<i>Code of Ethics for Directors, Officers and Employees</i>		
303A.10	Listed companies must adopt and disclose a code of business conduct and ethics for directors, officers and employees, and promptly disclose any waivers of the code for directors or executive officers.	We have not adopted a code of ethics because Argentine public companies are not required to do so. However, in October 2005, our Board of Directors approved a " Code of Conduct " (replacing the previous Code of Conduct approved in March 2004, with the purpose of introducing SEC rules applicable to foreign registrants that applies to all Board of Directors' members, Audit Committee members, Senior Management, and employees, with no exceptions. Our Code of Conduct is available to the public on our website and as an Exhibit to this Annual Report.
303A.12 (b)	The CEO shall notify the NYSE in writing whenever any executive officer of the company becomes aware of any material non-compliance with any applicable provision under NYSE Section 303A.	No comparable provision exists under Argentine law, the CNV standards or our By-laws.

D. Employees

The following table sets out the number of employees according to department as of December 31, 2006, 2005 and 2004:

Department	Number of Employees as of December 31,		
	2006	2005	2004
General	3	3	4
Administration and Finance	50	48	76
Human Resources	15	11	14
Planning and Management Control	7	7	6
Legal Affairs	10	9	9
Regulatory and Public Affairs	6	6	6
Services	60	54	-
Safety and Environmental	15	11	-
Marketing	60	59	56
Operations	603	561	574
Total	829	769	745

The following table sets out the number of employees according to geographical location as of December 31, 2006, 2005 and 2004:

Location	Number of Employees as of December 31,		
	2006	2005	2004
City of Buenos Aires	219	175	185
Province of Buenos Aires	325	324	306
Province of Chubut	54	50	48
Province of La Pampa	15	15	15
Province of Neuquén	51	48	46
Province of Río Negro	61	60	59
Province of Salta	6	5	5
Province of Santa Cruz	91	89	78
Province of Tierra del Fuego	7	3	3
Total	829	769	745

As of December 31, 2006, the number of temporary employees working for us was 13.

Under Argentine law, in the event of an unfair dismissal of an employee, the employer is required to pay the terminated employee severance, the amount of which is regulated by the Argentine Labor Law (Section 245). The severance consists of payment of one month's wages for each year of employment. The Argentine Labor Law stipulates limits to the severance payment; these limits affect only employees who earn high wages. However, the Supreme Court has ruled this severance payment limitation unconstitutional when it results in a loss of more than 33% for a terminated employee as compared to the non-limited amount.

The Public Emergency Law established a percentage increase in severance payments, currently 50%, and empowered the Executive Branch to modify such percentage.

The Supreme Court recently held the Law of Occupational Hazard Prevention unconstitutional as applied to contractors whose employees are injured in the course of employment, extending liability for the to the company that contracted with the contractor for the services.

Some courts have held that a company that contracts with a contractor for services is jointly liable for a contractor's obligations to provide its workers and third-party service providers with social security benefits,

wages, insurance, etc., even if the service for which the company contracts is not part of the company's usual business.

Due to higher inflation rates in Argentina, conflicts between employers and unionized workers have increased recently. Even though these kind of conflicts have not involved us yet, other companies in our industry have suffered strikes and conflicts with labor unions. Despite this hostile atmosphere and the demands of the unions, we renewed and/or are in process of renewing or endorsing the new Collective Labor Agreements with the corresponding labor unions.

On December 26, 2006, the Union of the Natural Gas Industry, Byproducts and Related Products of Bahía Blanca notified us of a claim for a 30% pay rise. We rejected the demand and asked that the current agreements – which provided for the resumption of collective bargaining in April 2007 – be respected. On January 2, 2007, employees from the Galván Plant and Cerri Complex went on a one-hour strike; this strike increased by one hour a day for each day of the strike.

On January 3, 2007, the Bahía Blanca Department of Labor called for a resolution of the dispute, at which point the parties resorted to the method for solving controversies set forth in the applicable Collective Bargaining Agreement. The strike was called off. After a series of negotiations, an agreement was reached consisting of a fixed amount in food vouchers and an advance salary payment. However, we deducted wages for the strike hours from the salaries of the employees who took part in it.

Currently, approximately 17% of our workforce is affiliated with one of three national unions, each of which has representation in each of the jurisdictions in which we operate.

E. Share Ownership

The total amount of our Class B Shares held by our directors and executive officers as of March 31, 2007 is 12,296 shares.

Our directors and executive officers, individually and together, hold less than 1% of our Class B Shares.

Item 7. Major Shareholders and Related Party Transactions

A. Major Shareholders

Our controlling shareholder is CIESA, which holds approximately 55.3% of our common stock. Local and foreign investors hold the remaining ownership in our common stock. CIESA is owned 50% by Petrobras, 40% by the Trust, and the remainder 10% by Enron.

On April 16, 2004, Petrobras and Enron signed the Settlement Agreement, which contemplates a two-stage reorganization of CIESA's ownership. The first stage of the reorganization was carried out on August 29, 2005. In this first stage, Enron transferred 40% of the outstanding share capital of CIESA to the Trust, and Petrobras transferred Class “B” common shares (representing 7.35% of our outstanding share capital), which it held directly and not through CIESA, to Enron.

On January 27, 2006, Enron sold its shareholding in our common stock to D.E. Shaw.

The following table sets forth certain information, with respect to each shareholder known to us to own more than five percent of our common stock as of May 21, 2007:

Name of Beneficial Owner	Number of Shares	% Total Common Shares	Class
CIESA	405,192,594	51.0000	A
CIESA	34,133,200	4.2962	B
D.E. Shaw.....	66,907,449	8.4214	B

Pursuant to the Pliego and our debt agreement, CIESA may not reduce its shareholding below 51% of our share capital.

As of May 21, 2007 a total of 9,366,131 ADRs, representing 46,830,655 Class B shares, were held by approximately 39 institutional investors and mutual funds. Because certain of these ADRs are held by nominees, the number of record holders may not be representative of the number of beneficial owners.

Shareholders Agreement

As a result of changes in the shareholding of our controlling company, a new Shareholders Agreement was signed on August 29, 2005. This agreement governs certain matters relating to shareholder participation in CIESA and in us. This agreement divides the CIESA shares into five classes that grant the shareholders different rights and places obligations with respect to us and CIESA, mainly regarding the designation of the members of our Board of Directors and our Supervisory Committee.

Under this agreement, Class A1 and B1 shares are owned by Petrobras Energía Group, Class A2 and B2 shares belong to the Trust and Class B3 shares are owned by Enron.

Transfers of CIESA and Our Shares. The Shareholders Agreement provides certain rights of first refusal and “tag-along” or co-sale rights in favor of EPCA, in the event of a proposed transfer of CIESA shares. In particular, before any sale of shares to outside parties, the selling shareholder must offer to sell such shares to EPCA at the price agreed upon in a written purchase proposal from the outside party seeking to purchase such shares. In the event that EPCA does not choose to purchase the shares, it can opt to have a portion of its own shares (the allotted portion is dependent on the number of shares being sold) additionally included in the shares to be sold by the selling shareholder to the third party.

Under the Shareholders Agreement, the sale or transfer of any of our shares held by CIESA requires an affirmative vote of at least 60% of CIESA’s issued and outstanding common voting shares.

Election of Our Directors and Officers; Voting. The Shareholders Agreement also contains provisions governing the voting of shares held by CIESA, the election of the members of the Board of Directors and our Supervisory Committee, the appointment of certain officers and certain other matters.

Our Board of Directors consists of nine Directors (see “Item 6. Directors, Senior Management and Employees—Directors and Senior Management”). Under the Shareholders Agreement, the CIESA directors designated by each of the Class A1, Class A2, Class B1 and Class B3 shareholders shall cause CIESA to nominate directors, alternate directors and syndics pursuant to the instructions given by each of such class of shareholders. Thus, indirectly, the Class A1 shareholders (controlled by Petrobras Energía Group) nominate two regular directors, two alternate directors, one regular syndic and one alternate syndic, the Class A2 shareholders (controlled by the Trust) nominate two regular directors and two alternate directors, the Class B1 shareholders (controlled by Petrobras Energía Group) nominate one regular director, one alternate director, one regular syndic and one alternate syndic and the Class B3 shareholders (controlled by EPCA) nominate one regular director, one alternate director, one regular syndic and one alternate syndic. The three remaining Independent Directors must be unanimously approved by all the shareholders of CIESA.

Under the terms of the Shareholders Agreement, but subject to their overriding duty to protect our corporate interest and the common interest of all of our shareholders, it is contemplated that the CIESA-nominated Directors shall vote unanimously in favour of the candidates nominated by the Class A1 shareholders for Chairman of the Board of Directors and CEO. The Vice-Chairman of our Board of Directors is nominated by the Class B3 shareholders.

Regarding the designation of our Supervisory Committee members, Petrobras Energía Group appoints two Syndics and the same number of Alternate Syndics. The position of Chairman of our Supervisory Committee is held by one of the two Syndics appointed by the Class A1 shareholders. The remaining Syndic and Alternate Syndic are appointed by the Class B3 shareholders.

Actions Requiring Special Shareholder Approval. The Shareholders Agreement states that a full majority vote of our Board of Directors (such majority must include the affirmative vote of the Class B3 shareholders) is required to approve the following decisions, among others: (i) the sale of our assets above a certain amount, outside of the day-to-day course of business; (ii) approval of our annual budget and material amendments thereto and certain related matters; (iii) commitments to incur, loans or operating expenses for an amount that exceeds by more than 10% the amount approved in our annual budget; (iv) capital expenditures which are individually in excess of US\$500,000; (v) the setting of compensation of senior management; (vi) approval to make any claims of and any transactions related to, or negotiations of claims against us in excess of US\$50,000; and (vii) the termination or extension of the Technical Assistance Agreement.

Future Changes in CIESA Shareholding. Once the approvals from ENARGAS and the Argentine Antitrust Authority (*Comisión Nacional de Defensa de la Competencia*) of the Restructuring Agreement (signed on September 7, 2005, among CIESA, its current shareholders and its creditors), are obtained, CIESA will cancel most of its defaulted debt through the transfer to its creditors of our Class “B” common shares representing approximately 4.3% of our common stock (which will be simultaneously exchanged for the 10% of CIESA’s outstanding shares currently held by Enron), and the issuance of new CIESA’s shares in such a manner that the creditors of CIESA will hold 50% of the common stock, while the remaining 50% will be held by Petrobras.

The CIESA’s Shareholders Agreement will be terminated and replaced by a new Shareholders Agreement addressing the ownership change following consummation of the restructuring agreement. At no time will the Petrobras parties hold, directly or indirectly, more than their current 50% shareholding in CIESA or hold a controlling interest in CIESA.

The Settlement Agreement also provides that the Petrobras parties and their respective affiliates and the Enron parties and their respective affiliates will each grant the other releases from any and all claims under or arising from or in connection with certain agreements entered into by such parties in connection with their investment in CIESA and in us and certain other related documents. Such releases will not be given by, but will extend to, Transwestern Pipeline Company, a member of the Enron Economic Group (as defined in the Settlement Agreement).

In May 2004, the bankruptcy court having jurisdiction over the bankruptcy of Enron approved the Settlement Agreement. In addition, the transfers referred to above are subject to several conditions, one of which is the approval from ENARGAS.

Tender Offer Regime. According to Decree No. 677/01, issued by the Executive Branch, public companies will be included in the Tender Offer Regime, starting from the date of the shareholders’ meeting approving the company’s inclusion in the regime or automatically upon the first shareholders’ meeting held twelve months after the enforcement of the CNV resolution regulating the matter, issued in March 2003. The Decree also provides that if a public company is not willing to be included in such regime, it must incorporate an article to its By-laws stating the following: “Company not Subject to the Tender Offer Regime.” Such resolution must be adopted no later than in the shareholders’ meeting mentioned above. As our shareholders decided not to adhere to this regime, our shareholders approved an amendment to our By-laws to incorporate the exclusion expressly at the shareholder’s meeting held on April 2, 2004.

B. Related Party Transactions

Our principal transaction with a related party is our export sales of LPG and natural gasoline to PIFCo made under the terms of two agreements described in Item 4—B. Business Overview—NGL Production and Commercialization.

Under the Technical Assistance Agreement, Petrobras Energía renders services to us in its role of technical operator. The term of the Technical Assistance Agreement entered into with EPCA was for eight years from December 28, 1992, renewable automatically upon expiration for additional eight-year periods. The Settlement Agreement mentioned in “Item 4. Our Information—Our History and Development—General” includes a term which provided for the assignment of the Technical Assistance Agreement to Petrobras Energía. This transfer, which was approved by ENARGAS in June 2004, was carried out on July 15, 2004. As from that date, Petrobras Energía has been in charge of providing services related to, among others, the operation and maintenance of the gas transportation system and related facilities and equipment, to ensure that the performance of the system is in conformity with international standards and in compliance with certain environmental standards. For these services, we pay a monthly fee based on the higher of: (i) a percentage of certain of our defined income or (ii) a specified fixed annual amount.

Additionally, under each of our business segments, we render to Petrobras Energía the following services:

- gas transportation service for a capacity of 3 MMm³/d (105.9 MMcf/d) under long term firm transportation capacity contracts which expire in 2013 and 2014,
- midstream services (in Río Neuquén oilfield) through which we compress, dehydrate, store and dispatch natural gas. This contract was signed in 1999 and it finalizes in 2017;
- under a long term agreement which expires in January 2011, we process natural gas and market NGL products on behalf of Petrobras Energía in our Cerri Complex. For this service, we collect a commission on the average monthly sale price obtained from our sales of its products in the domestic or international markets.

The details of significant outstanding balances for transactions with related parties as of December 31, 2006, 2005 and 2004 are as follows:

Year ended December 31, 2006:

⁽¹⁾ Includes NGL sales made on behalf of third parties, from which we withhold fees for production and commercialization.

We do not have any outstanding loans to related parties.

C. Interests of Experts and Counsel

Not applicable.

Item 8. Financial Information

A. Consolidated Statements and Other Financial Information

Our Financial Statements, which are set forth in the Index to financial statements in Item 18, are filed as part of this Annual Report.

Exports

In 2006, our export revenues from NGL production and commercialization segment were Ps. 394.9 million and represented 30% of our total net revenues. Additionally, the total volume of sales from NGL was 1,138,279 short tons, and the volume of sales from NGL exports was 397,795 short tons. These volumes also include sales made on account of third parties.

Effective May 2004, the Argentine government increased the export tax on NGL exports from 5% to 20% and, on May 24, 2007, the export tax rate was increased to 25%. Future changes in this tax rate may have a material adverse effect on our results of operations and financial condition.

Legal and Regulatory Proceedings

a) In February 2005, we were served notice by the CNV that certain notes that we issued in December 2004 in the amount of US\$178 million did not fulfill the requirements of Article 56 of Chapter VI of the CNV Standards and CNV Resolution No. 470. If the CNV's interpretation is upheld, those notes would not be entitled to the benefits of the exemption from income tax withholding provided by Law No. 23,576, and we, therefore, would be exposed to a contingency for the payment of withholding amounts associated with the income tax payable on interest paid in respect of those notes from their issue date in December 2004. The amount of such contingency is an uncertain amount of between US\$5 million and US\$14 million as of December 31, 2006 (including interest to December 31, 2006).

On February 18, 2005, we filed an appeal with the CNV. However, the CNV denied our appeal and on July 8, 2005, we filed an appeal with the Ministry of Economy and Production, which was rejected in November 2006. On December 6, 2006, we filed a second appeal with that Ministry, which remains pending.

We believe that we have sufficient legal grounds to defend our position that no withholding was required, and accordingly, we have not recorded any provision in respect of this proceeding.

b) In August 2000, a federal court upheld a preliminary injunction requested by the Ombudsman ordering the suspension of Executive Branch Decree No. 669/00, which established the deferral of the application of the biannual tariff adjustment to be effective as of January 1, 2000. This ruling has not permitted the application of new PPI adjustments. The Public Emergency Law enacted in January 2002 repealed the application of future PPI tariff adjustments. Notwithstanding, the Ombudsman elected to pursue the claim he initiated in 2000 against the Argentine government, which alleges that Section 41 of the Gas Act No. 24,076 is unconstitutional and that the tariff adjustments violated Convertibility Law. Between March and April of 2006, the federal court served on us and the other gas licensees (as interested third parties) complaints arising out of the Ombudsman's claim, and we have made timely efforts to defend against this complaint. As of the date of this Annual Report, there have been no material developments relating to this litigation.

Tax Claims

a) Under the 1993 Tax Agreement between the Argentine national government and the Provinces and provincial Law No. 11,490, NGL sales were exempted from the turnover tax in the Province of Buenos Aires. In September 2003, the Tax Bureau of the Province of Buenos Aires, through Resolution No. 4,560/03, denied the exemption and claimed unpaid taxes on accrued NGL sales since 2002.

In October 2003, we filed an administrative appeal with the Tax Court of the Province of Buenos Aires. In February 2007, the Tax Court partially upheld our complaint. In its pronouncement, the Tax Court stated that ethane sales were within the scope of the turnover tax exemption but that LPG sales did not qualify for the

exemption because they are not raw materials for an industrial process. In May 2007, we appealed the unfavorable portion of this ruling in the Province of Buenos Aires Court.

In a separate proceeding related to the turnover tax in the Province of Buenos Aires, we received notice from the Tax Bureau of the Province of Buenos Aires in November 2004 that a tax assessment process had been initiated in connection with the turnover tax on NGL. On September 26, 2005, we were notified of the results of the tax assessment process for the period from January 2002 to July 2003, which amounted to Ps. 4.4 million plus interest. We contested the assessment but our claim was denied on April 12, 2006. We subsequently filed an appeal with the Tax Bureau of the Province of Buenos Aires.

As of December 31, 2006, we recorded a provision of Ps. 28.6 million to cover potential losses relating to the claims of the Tax Bureau of the Province of Buenos Aires.

b) In November 2002, the Tax Bureau of the Province of Santa Cruz sent us a formal assessment notice for the payment of a turnover tax calculated on the value of the natural gas used by us as fuel to render our transportation services. This assessment corresponds to the period from January 1998 to October 2002. In August 2005, we paid the amount claimed of Ps. 1.6 million (including interest to December 4, 2002) and started a tax recovery process, first exhausting all other procedural steps with the Tax Bureau of the province and then initiating a proceeding in the provincial Tax Court.

In November 2005, we received a notice from the Tax Bureau of the Province of Río Negro, claiming payment of Ps. 0.2 million, on the same grounds as those of the Province of Santa Cruz, for the period from January 1999 to May 2005. In December 2005, we filed an appeal, which was rejected by the Tax Bureau of the Province of Río Negro in October 2006. At the end of 2006, we appealed the Tax Bureau's decision by filing an administrative appeal.

Both the proceeding in the Province of Santa Cruz and the proceeding in the Province of Río Negro remain pending.

As of December 31, 2006, we have recorded a provision of Ps. 16.2 million in respect of this contingency under the line item "Other Liabilities" of our Audited Consolidated Financial Statements, which amount was determined in accordance with the estimations of tax and interest that would be payable as of such date.

Our management believes that, in case our position fails and the turnover tax has to be paid, we have a right to recover it by a transportation tariff increase as set forth in our License.

Other Litigation

As discussed above under "Item 4. Our Information—Business Overview—Gas Transportation—Regulatory Framework", we are involved in the process of renegotiating our public service contracts with UNIREN.

In addition to the matters discussed above, we are a party to certain lawsuits and administrative proceedings arising in the ordinary course of business. Although no assurances can be given, we believe we have meritorious defenses, which we will assert vigorously to challenge all claims, and that possible liabilities from these claims will not have a material adverse effect on our consolidated financial position or results of operations.

Dividend Distribution Policy

Our dividend distribution policy consists of maintaining a dividend level that assures our credit quality and allows the partial reinvestment of earnings, considering growth projects that we may develop. See "Item 3. Key information—Selected Financial Data—Dividends."

B. Significant Changes.

No undisclosed significant change has occurred since the date of our Financial Statements.

Item 9. The Offer and Listing

A. Offer and Listing Details

The table below shows the high and low market prices of the Class B Shares on the BASE, stated in historical Argentine pesos and of the ADRs on the NYSE, stated in U.S. dollars, for each of the last five fiscal years.

Years	NYSE (in US\$)		BASE (in Ps.)	
	High	Low	High	Low
2002.....	5.60	0.62	1.90	0.49
2003.....	4.72	1.47	2.84	1.06
2004.....	5.72	3.61	3.34	2.13
2005.....	6.83	4.98	3.99	2.86
2006.....	7.99	4.44	4.20	2.74

The table below shows the high and low market prices of the Class B Shares on the BASE, stated in historical Argentine pesos and of the ADRs in the NYSE, stated in U.S. dollars, for each full quarterly period within the two most recent fiscal years.

Quarters	2006				2005			
	NYSE (in US\$)		BASE (in Ps.)		NYSE (in US\$)		BASE (in Ps.)	
	High	Low	High	Low	High	Low	High	Low
First Quarter.....	5.99	4.81	3.60	2.97	6.69	4.98	3.90	3.00
Second Quarter.....	5.67	4.44	3.39	2.74	6.47	5.00	3.71	2.86
Third Quarter.....	5.50	4.91	3.40	2.97	6.56	5.55	3.82	3.24
Fourth Quarter.....	7.99	5.56	4.20	3.41	6.83	5.23	3.99	3.25

The table below shows the high and low market prices of the Class B Shares on the BASE, stated in historical Argentine pesos and of the ADRs in the NYSE, stated in U.S. dollars, for each full monthly period within the six most recent months.

Months	NYSE (in US\$)		BASE (in Ps.)	
	High	Low	High	Low
December 2006.....	7.99	5.72	4.20	3.47
January 2007.....	7.40	6.56	4.57	4.05
February 2007.....	6.83	6.26	4.19	3.91
March 2007.....	6.68	6.18	3.98	3.80
April 2007.....	7.34	6.71	4.42	4.12
May 2007.....	8.25	7.10	4.84	4.30

C. Markets

The Argentine Securities Market. In Argentina, the oldest and largest exchange is the BASE, founded in 1854. The BASE is the exchange on which the majority of equity trades in Argentina are executed. As of December 31, 2006, the market capitalization of shares of the 96 companies (excluding mutual funds) listed on the BASE was approximately Ps. 1,229,314 million. At the end of December 2006, the top 10 listed securities

represented 94.90% of the total. Trading in securities listed on an exchange is conducted through the Mercado de Valores (“**Stock Market**”) affiliated with such exchange.

Securities may also be listed and traded through over-the-counter market brokers who are linked to an electronic reporting system. The activities of such brokers are controlled and regulated by the Mercado Abierto Electrónico S.A. (the “**MAE**”), an electronic over-the-counter market reporting system that functions independently from the Mercado de Valores de Buenos Aires S.A. (the “**Buenos Aires Stock Market**”) and the BASE. Under an agreement between the BASE and the MAE, trading in equity and equity-related securities is conducted exclusively on the BASE and trading in corporate debt securities is conducted on both the BASE and the MAE. Trading in Argentine government securities, which are not covered by the agreement, may be conducted on either or both of the BASE and the MAE. The agreement does not extend to other Argentine exchanges.

Changes to the legal framework of securities trading have been introduced, permitting issuance and trading of new, non-bank financial products in the Argentine capital markets, including commercial paper, new types of corporate bonds, futures and options. The Argentine government deregulated brokerage fees and eliminated transfer and stamp taxes on securities transactions in November 1991.

The Buenos Aires Stock Market. The Buenos Aires Stock Market, which is affiliated with the BASE, is the largest stock market in Argentina. The Buenos Aires Stock Market is a corporation whose 250 shares are owned by a number of members who are the only individuals and entities authorized to trade in the securities listed on the BASE. Trading on the BASE is conducted by open outcry and a computer-based negotiation system called SINAC from 11:00 A.M. to 5:00 P.M. each business day. The BASE also operates an electronic continuous market system from 11:00 A.M. to 5:00 P.M. each business day, on which privately-arranged trades are registered and made public. To control price volatility, the Buenos Aires Stock Market operates a system that restricts dealing in shares of any issuer when changes in the price of such issuer’s shares varies 15% from the previous closing price, unless trading at the top price.

Investors in the Argentine securities market are primarily individuals, companies and institutional investors consisting of a limited number of mutual funds. Certain information regarding the Argentine equities market is set forth in the table below.

	<u>2002</u>	<u>2003</u>	<u>2004</u>	<u>2005</u>	<u>2006</u>
Market capitalization (US\$ in billions).....	103.3	185.4	231.6	254.4	401.5
Average daily trading volume (US\$ in millions).....	6.7	11.6	17.9	25.5	20.0

Item 10. Additional Information

A. Share Capital

Not applicable.

B. Memorandum and Articles of Association

Information contained in Item 14 of our Registration Statement on Form F-1 (Registration No. 33-85178) is hereby incorporated by reference.

C. Material Contracts

New Debt Obligations

On May 15, 2007, in connection with the refinancing of all of our debt incurred as part of the Restructuring, we issued a series of new notes in aggregate principal amount of US\$500,000,000 (the “**New Notes**”). The issuance of the New Notes under our Medium Term Note Program, which provides for the issuance of up to a maximum principal amount of US\$650 million in notes, was authorized by resolutions of an extraordinary meeting of shareholders dated December 21, 2006, and by resolutions of our Board of Directors adopted on January 4, 2007, March 30, 2007 and April 20, 2007.

The scheduled maturity date of the New Notes is May 14, 2017. The New Notes accrue interest at an annual fixed rate of 7.875%, payable semi-annually. Principal amortization payments are required commencing on May 14, 2014 with the following schedule: 25% on May 14, 2014, 25% on May 14, 2015, 25% on May 14, 2016 and 25% on May 14, 2017.

The New Notes are redeemable, in whole but not in part, prior to maturity at our option any time after May 14, 2012 at a redemption price as set forth in the table below, together with accrued interest thereon and any additional amounts to the redemption date.

<u>During the 12 Months Beginning</u>	<u>Applicable Percentage</u>
On the 5th anniversary of the Issue Date.....	103.938%
On the 6th anniversary of the Issue Date.....	101.969%
On the 7th anniversary of the Issue Date.....	100.984%
On the 8th anniversary of the Issue Date and thereafter.....	100%

We are also permitted to redeem the New Notes in whole, but not in part, at a price equal to 100% of the principal amount outstanding if, as result of any change in, or amendment to, the laws or regulations of Argentina or any governmental authority thereof or therein having power to tax or as a result of any change in the application or official interpretation of such laws or regulations, we become obligated to pay additional amounts in respect of the New Notes and we cannot avoid such obligation by taking reasonable measures available to us.

In the event that the Republic of Argentina, directly or indirectly through any one or more controlled entities, comes to own shares representing more than 50% of the voting power of all of our shares, holders of New Notes are entitled to require us to purchase all or a portion the New Notes at price in cash equal to 101% of the principal amount of the New Notes so purchased. The New Notes are general, direct, unsecured and unsubordinated obligations and rank at all times *pari passu* in all respects, without any preference among themselves, with all of our other present and future unsecured and unsubordinated obligations, other than obligations preferred by statute or by operation of law.

Covenants

We are subject to several restrictive covenants under the terms of the New Notes, which include, among others, the following:

- limitations on our ability to terminate our License or take any action that, in our reasonable opinion, would result in the termination of the License. We may not agree to amend or waive any terms of the License unless such amendment or waiver would not, in our reasonable opinion, adversely affect (i) our ability to meet our obligations under the New Notes on a timely basis or (ii) any material rights or interest of the trustee or the holders under the indenture or the New Notes;
- a requirement that we not enter into or consent to any amendment, restatement or modification of the Technical Assistance Agreement or any successor agreement thereto, other than an amendment, restatement or modification that is not materially adverse to us and our subsidiaries, taken as a whole;
- a limitation on our and our subsidiaries' ability to create liens on our property, assets or revenues, other than certain permitted liens;

- a limitation on our and our subsidiaries' ability to incur additional indebtedness unless we meet certain financial ratios and no event of default exists, other than certain permitted indebtedness;
- a limitation on our and our subsidiaries' ability to pay dividends and make certain other restricted payments and investments with respect to any fiscal year or fiscal semester unless: (i) no event of default or potential event of default shall have occurred and be continuing and (ii) immediately after giving effect to such restricted payment, we would be able to incur at least US\$1.00 of additional indebtedness pursuant to the limitation on indebtedness covenant;
- limitations on our and our subsidiaries' ability to enter into sale-leaseback transactions;
- limitations on our and our subsidiaries' ability to enter into a transaction with an affiliate, unless such transaction is on terms that are not materially less favorable to us or our subsidiary than we or such subsidiary would obtain in a comparable arm's-length transaction with a non-affiliate;
- a limitation on our and our subsidiaries' ability to sell our assets; and
- a limitation on our and our subsidiaries' ability to enter into a merger, consolidation or similar transaction;

Events of Default

The New Notes contain the following events of default, among others:

- default in the payment of principal, interest or any other amount due under the terms of the New Notes after a specified grace period;
- breach of obligations contained in the New Notes after a specified cure period;
- the occurrence of an event of default under our other debt obligations;
- the occurrence of certain bankruptcy events or enforcement proceedings;
- enforcement by any creditor of any mortgage, charge, pledge, lien or other encumbrance created or assumed by us or one of our subsidiaries exceeding US\$10 million;
- failure to obtain certain required governmental authorizations when required or if any such authorizations are rescinded, terminated, lapse or cease to be in full force and effect; and
- the occurrence of certain material adverse events with respect to our License, such as the revocation, suspension for a period of greater than 120 days or termination of the License.

D. Exchange Controls

Since the end of 2001 the Argentine government has imposed controls on the foreign exchange market and the movement of capital. During 2002, these controls were extensive, but since 2003 they have been progressively eased.

On June 9, 2005, the Executive Branch issued Decree No. 616/05, establishing a new regime for inflows and outflows of foreign currency. This Decree and the applicable rules and regulations issued by the Central Bank in connection therewith provide: (i) for registration with the Central Bank of the inflows and outflows of foreign currency to the local exchange market and any foreign indebtedness of Argentine residents that may imply a future payment in foreign currency to non-residents; (ii) that any indebtedness and debt renewals of private Argentine entities with non-residents of Argentina shall be made for a minimum term of 365 days, excluding foreign trade financing operations and primary placements of publicly traded debt or equity securities listed in one or more self-governed markets; and (iii) that every inflow of funds for such indebtedness (with the exceptions mentioned in clause (ii) above and provided by the rules of the Central Bank detailed below) and any inflow from non-residents (excluding foreign direct investment and certain portfolio investments, including primary stock issuances and debt issuance under a public offering and that are listed in self-governed markets in

the country and investments on public sector securities acquired in the secondary market), no matter how it is cancelled, shall be for a minimum term of at least 365 days and shall be subject to a mandatory reserve (“encaje”) of 30% of the amount involved; and (iv) that the above mentioned mandatory reserve (“encaje”) shall be made as a non-transferable, non-compensated U.S. dollar deposit for a term of 365 days in a financial institution in Argentina and may not be used as collateral in any credit transaction, and after the expiration of the term, the funds will be released and will be freely available inside the country but will be subjected to certain exchange regulations if it will be transferred abroad.

Under the exchange controls regime, there are certain restrictions on the ability of Argentine residents to transfer foreign currency abroad for purposes of repaying indebtedness with non-Argentine residents.

The purchase of foreign currency to pay accrued interest to foreign creditors can be done at any time within the relevant interest period, or in advance up to 15 days prior to the due date of each interest payment date. The repayment of principal maturities on foreign debt obligations can be made (i) on the day of such maturities, or (ii)(a) within 365 days prior to the maturity date, (b) within a certain period of time prior to the maturity date, as a result of the occurrence of specific conditions established under foreign refinancing agreements executed after February 11, 2002, or (c) more than 365 days prior to the maturity date provided that (x) prepayment is not part of a restructuring process and (y) the foreign currency amount to be used to prepay non-Argentine debt must not be higher than the present value of the portion of the debt being cancelled or prepayment shall be 100% offset with new external financing, the present value of which (as determined using a discount rate fixed by the Central Bank) shall not exceed the value of the cancelled debt. If the prepayment is made as part of a restructuring process with foreign creditors, the new debt terms and conditions and the prepayment being made must not imply an increase in the present value of the outstanding debt. In any case, the foreign debt obligations must be registered with the Central Bank and the funds disbursed under the debt obligations so repaid shall have entered Argentina in compliance with the applicable regulations.

Because the Notes are being placed through a public offering in Argentina and will be listed in the Bolsa and traded in the MAE, inflows of foreign funds through the Argentine exchange market directed to make a primary purchase of the Notes are exempted from (i) the non-remunerated and non-transferable 30% mandatory reserve and (ii) the obligation to maintain the funds in Argentina for at least 365 days.

However, the inflows of foreign funds through the Argentine exchange market directed to make a secondary purchase of the Notes will be considered a portfolio investment from a foreign investor under Decree No. 616/2005 and the exemptions described in (i) and (ii) above shall not apply.

Money Laundering Regulations

Argentine Law No. 25,246 (as amended by Argentine Law No. 26,087 and Law 26,119) categorizes money laundering as a crime under the Argentine Criminal Code and created the *Unidad de Información Financiera* (“UIF”), an agency of the Ministry of Justice and Human Rights of Argentina. The Argentine Criminal Code defines the money laundering as the exchange, transfer, management, sale or any other use of money or other assets obtained through a crime, by a person who did not take part in such crime, with the possible result that such original assets (or new asset resulting from such original asset) have the appearance of having been obtained through legitimate sources, provided that the aggregate amount value of the assets exceed \$50,000, whether such amount results from one or more connected transactions.

Argentine Law No. 26,087 provides that: (a) banking, trading or professional duties of secrecy or legal or contractual confidentiality commitments do not excuse compliance with the obligation to provide information to UIF, in connection with an investigation of questionable transactions; (b) after conducting an investigation of a questionable transaction, UIF shall inform the Attorney General’s Office if prosecution should be pursued and provide the elements and evidence to do so; and (c) agents or representatives of certain principals may be exempt from criminal liability.

The money laundering legal framework also assigns information and control duties to certain private sector entities, such as banks, broker-dealers, trading companies and insurance companies. According to the rules of the *Guía de Transacciones Inusuales o Sospechosas en la Órbita del Sistema Financiero y Cambiario* (Foreign Exchange and Financial Unusual or Questionable Transactions Guide) approved by UIF Resolution No. 2/2002 such entities have the obligation to inform, in relation to investments, the following transactions: (a) investments in securities for a disproportionate value, considering the business of the investor; (b) deposits or back-to-back loans in jurisdictions known as tax havens; (c) requests for asset management services where the

origin of funds is not certain, clear or does not relate to the business of the investor; (d) unusual transfers of large amounts of securities or interests; (e) unusual and frequent use of special investment accounts; and (f) frequent purchase and sale of securities during the same day for the same amount and volume, when they seem unusual and inadequate considering the business of the investor.

E. Taxation

General

The following is a general summary of certain Argentine and United States federal income tax matters that may be relevant to the ownership and disposition of ADSs or Class B Shares. The summary describes the principal tax consequences of the ownership and disposition of ADSs or Class B Shares, but it does not purport to be a comprehensive description of all of the tax considerations that may be relevant to a holder of ADSs or Class B Shares.

The summary is based upon tax laws of Argentina and the United States and regulations thereunder as in effect on the date of this Annual Report, which are subject to change. In addition, the summary is based in part on representations of the Depositary and assumes that each obligation provided for in or otherwise contemplated by the Deposit Agreement or any other related document will be performed in accordance with its terms. Holders of ADSs or Class B Shares should consult their own tax advisors as to the United States, Argentine or other tax consequences of the acquisition, ownership and disposition of the ADSs or Class B Shares in their particular circumstances.

Argentine Taxes

Taxation of Dividends. Dividends of our cash, property or capital stock paid or distributed to holders of Class B Shares or ADSs are currently exempt from Argentine withholding or other taxes. However, according to Law No. 25,063, published on December 30, 1998, cash or other type of dividend distribution, exceeding accumulated net income at year end determined as stipulated by tax regulations, will be subject to a 35% withholding tax as a sole and definite payment.

Taxation of Capital Gains. Capital gains derived by non-Argentine residents from the sale, exchange or other disposition of ADSs or Class B Shares are not subject to income tax.

Tax on Personal Property (Individuals). The Argentine Tax authority has introduced some amendments to the Personal Property Tax. In accordance with the Law No. 25,585, the personal tax corresponding to the ownership of securities issued by entities domiciled in Argentina, whose direct owners are individuals domiciled in Argentina or abroad and entities domiciled abroad, will be liquidated and deposited by the entity that has issued such securities. The applicable rate is 0.50% on the equity value according to the last financial statements as of each respective fiscal year. The Law presumes that securities whose holders are entities domiciled or located abroad indirectly belong to individuals domiciled abroad.

We are responsible for depositing such tax and have the right to recover such amount from holders, even withholding and/or liquidating the securities which caused such tax payment. This Amendment was effective starting fiscal year 2002.

VAT. The sale, exchange or other disposition of ADSs or Class B Shares is not subject to VAT.

Transfer Taxes. The sale, exchange or other disposition of ADSs or Class B Shares is not subject to transfer taxes.

Purchase or Sale of Foreign Currency. There is no tax on the purchase or sale of foreign currency.

Deposit and Withdrawal of Class B Shares in Exchange of ADSs. No Argentine tax is imposed on the deposit or withdrawal of Class B Shares in exchange for ADSs.

Other Taxes. There are no Argentine inheritance or succession taxes applicable to the ownership, transfer or disposition of ADSs or Class B Shares. There are no Argentine stamp, issue, registration or similar taxes or duties payable by holders of ADSs or Class B shares.

Tax Treaties. Argentina has entered into tax treaties with several countries. A tax treaty between Argentina and the United States has been signed but has not yet been ratified and therefore is not currently in effect. It is not clear when, if ever, the treaty will be ratified or will enter into effect.

United States Taxes

General. This discussion relating to certain US federal income tax consequences applies only to an investor who holds our ADSs or Class B Shares as capital assets for tax purposes and is not a member of a special class of holders subject to special rules, including: a dealer in securities; a trader in securities that elects to use a mark-to-market method of accounting for his or her securities holdings; a tax-exempt organization; an insurance company, a person liable for alternative minimum tax; a person that actually or constructively owns 10% or more of our voting stock; a person that holds shares or ADSs as part of a hedging or straddle or conversion transaction; or a US holder whose functional currency is not the U.S. dollar. A holder is a US holder if such holder is a beneficial owner of shares or ADSs and such holder is: a citizen or resident of the United States; a domestic corporation; an estate whose income is subject to US federal income tax regardless of its source; or a trust, if a US court can exercise primary supervision over the trust's administration and one or more US persons are authorized to control all substantial decisions of the trust.

Moreover, the effect of any applicable US state or local tax laws is not discussed in this Annual Report.

In general, and taking into account the earlier assumptions, for US federal income tax purposes, a holder of ADRs evidencing ADSs will be treated as the owner of the underlying shares represented by those ADSs, and exchanges of Class B Shares for ADRs, and ADRs for Class B shares, will not be subject to US federal income tax.

Taxation of Dividends. Subject to the passive foreign investment company (“PFIC”) rules discussed below, if a holder is a US holder such holder must include in his or her gross income the gross amount of any dividend (or other distribution, other than certain distributions in redemption of ADSs or Class B shares or distributions of our capital stock or rights to subscribe for our capital stock) paid by us out of our current or accumulated earnings and profits (as determined for US federal income tax purposes). If the holder is a non-corporate US holder, dividends paid to him or her in taxable years beginning before January 1, 2011 that constitute qualified dividend income will be taxable at a maximum tax rate of 15% provided that the shares or ADSs are held for more than 60 days during the 121-day period beginning 60 days before the ex-dividend date and certain other holding period requirements are met. Dividends with respect to the shares or ADSs generally will be qualified dividend income, provided that in the year that the holder receives the dividend, the shares or ADSs are readily tradable on an established securities market in the US. The holder must include the gross amount of dividends in income when he or she receives them, either actually or constructively, in the case of Class B Shares, or when the depositary receives such dividend, in the case of ADSs. The dividend will not be eligible for the dividends-received deduction generally allowed to US corporations in respect of dividends received from other US corporations. Distributions in excess of current and accumulated earnings and profits, as determined for US federal income tax purposes, will be treated as a non-taxable return of capital to the extent of a holder's basis in the ADSs or Class B Shares and thereafter as capital gain.

The amount of the dividend distribution that a holder must include in his or her income will be the U.S. dollar value of the Argentine peso payments made, determined at the spot Argentine peso/U.S. dollar rate on the date such dividend distribution is includible in such holder's income, regardless of whether the payment is in fact converted into U.S. dollars. Generally, any gain or loss resulting from currency exchange fluctuations during the period from the date a holder includes the dividend payment in income to the date such payment is converted into U.S. dollars will be treated as ordinary income or loss and will not be eligible for the special tax rate applicable to qualified dividend income. Such gain or loss will generally be income or loss from sources within the United States for foreign tax credit limitation purposes.

For foreign tax credit purposes, the dividend will be income from sources outside the United States. Dividends paid in taxable years beginning before January 1, 2007 generally will be “passive income” or “financial services income” and dividends paid in taxable years beginning after December 31, 2006 will, depending on your circumstances, be “passive” or “general” income, which, in either case, is treated separately from other types of income for purposes of computing the foreign tax credit allowable to a holder. No US foreign tax credit will be allowed to US holders of Class B Shares or ADSs in respect of any personal property or similar tax imposed by Argentina (or any taxing authority thereof or therein). Special rules apply in determining the foreign tax credit limitation with respect to dividends that are subject to the maximum 15% tax rate.

Distributions of additional shares to US holders with respect to their Class B Shares or ADSs that are made as part of a pro rata distribution to all shareholders generally will not be subject to US federal income tax.

Taxation of Capital Gains. Subject to the PFIC rules discussed below, a US holder that sells or otherwise disposes of Class B Shares or ADSs will recognize gain or loss for US federal income tax purposes in an amount equal to the difference between the U.S. dollar value of the amount realized and his or her tax basis (determined in U.S. dollars) in such shares or ADSs. Capital gain of a non-corporate US holder that is recognized in taxable years beginning before January 1, 2011 is generally taxed at a maximum rate of 15% where the holder has a holding period greater than one year. The gain or loss will generally be income or loss from sources within the US for foreign tax credit limitation purposes.

PFIC Rules. We believe the Class B Shares or ADSs should not be treated as stock of a PFIC for United States federal income tax purposes, but this conclusion is a factual determination that is made annually and thus may be subject to change. The application of the PFIC rules to a corporation such as ours, a substantial portion of whose business is the processing and selling of NGL, is not entirely clear. If we were to be treated as a PFIC, unless a US holder elects to be taxed annually on a mark-to-market basis with respect to the Class B Shares or ADSs, gain realized on the sale or other disposition of the shares or ADSs would in general not be treated as capital gain. Instead, the US holder would be treated as if he had realized such gain and certain “excess distributions” ratably over the holding period for the shares or ADSs and would be taxed at the highest tax rate in effect for each such year to which the gain was allocated, together with an interest charge in respect of the tax attributable to each such year. In addition, dividends received from us will not be eligible for the special tax rates applicable to qualified dividend income if we are a PFIC either in the taxable year of the distribution or the preceding taxable year, but instead will be taxable at rates applicable to ordinary income.

H. Documents on Display

We are subject to the informational requirements of the CNV and the BASE and file reports and other information relating to our business, financial condition and other matters with the CNV and the BASE. You may read such reports, statements and other information, including our publicly-filed financial statements, at the public reference facilities of the CNV and BASE maintained in Buenos Aires. We are also required to file annual and special reports and other information with the SEC. You may read and copy any documents filed by us at the SEC’s public reference room at 100 F Street, N.E., Room 1580, Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. Our filings with the SEC will also be available to the public at the offices of the NYSE, 11 Wall Street, New York, New York 10005.

We have appointed The Bank of New York to act as depositary for our ADRs. For so long as our ADRs are deposited with the depositary, we will furnish the depositary with our annual reports; *and* summaries of all notices of general meetings of shareholders and other reports and communications that are made generally available to our shareholders.

The depositary will, as provided in the deposit agreement, arrange for the mailing of summaries in English of such reports and communications to all record holders of our ADRs. Any record holder of ADRs may read such reports, notices, or summaries thereof, and communications at the depositary’s office. The depositary’s office is located at 111 Wall Street, New York, NY 10043.

Whenever a reference is made in this Annual Report to a contract or other document of ours, please be aware that such reference is not necessarily complete and that you should refer to the exhibits that are a part of the Annual Report for a copy of the contract or other document. You may review a copy of the Annual Report at the SEC’s public reference room in Washington, D.C.

I. Subsidiary Information

Not applicable.

Item 11. Quantitative and Qualitative Disclosures About Market Risk

Market risk represents the risk of loss that may impact our consolidated financial position, results of operations or cash flows due to adverse changes in financial market prices and interest rates. We are exposed to market risk in the areas of interest rates and foreign currency exchange. This discussion contains forward-looking statements that are subject to risks and uncertainties. Actual results could vary materially as a result of a number of factors. Uncertainties that are either non-financial and non-quantifiable, such as political, economic, tax, other regulatory or credit risks, are not included in the following assessment of our market risks.

Interest Rate Risk

Our exposure to market risk associated with changes in interest rates is limited to our current investments.

We place our cash and current investments in high quality financial institutions in Argentina, the United States and Europe. Our policy is to limit exposure with any one institution. Our temporary investments primarily consist of money market mutual funds, fixed-term deposits and commercial papers in foreign currency. As of December 31, 2006, current investments amounted to Ps. 471.7 million.

Regarding our debt obligations, as a general matter, we are not exposed to interest rate risks, since all our debt bears fixed rates of interest. However, beginning December 15, 2006, 45% of our debt bore an upside interest rate which, if required to be paid, could be 0.75%, 1.25% or 2.00% per annum depending on our annual consolidated EBITDA (as defined in our restructuring debt obligations). However, in May and June 2007, these debt obligations were refinanced with a fixed rate debt.

Foreign exchange exposure

Our primary market risk exposure is associated with changes in the foreign currency exchange rates since our debt is denominated in U.S. dollars. As of December 31, 2006, our net monetary liability position that is subject to exchange rate fluctuations amounted to US\$ 492.9 million.

As discussed herein, the Argentine government has adopted various economic measures, including the repeal of the Convertibility Law and the pesification of our gas transportation revenues. Therefore, our results of operations are very susceptible to changes in the peso/U.S. dollar exchange rate because approximately half of our revenues are denominated in pesos while substantially all our liabilities are denominated in U.S. dollars.

Sensitivity analysis disclosure to interest rates and exchange rates

In view of the nature of our current investments, an immediate 100 basis points parallel shift change in the interest rate curve would not have a significant impact on the total value of our current investments.

The potential loss in our net monetary liability position held as of December 31, 2006, that would have resulted from a hypothetical, instantaneous and unfavorable 10% change in the current peso/U.S. dollar exchange rates would have been approximately Ps. 150.6 million.

The following table provides information presented in our reporting currency, Argentine pesos, with respect to our interest rate risk and foreign exchange exposure, including long-term debt. For debt obligations, the table presents principal cash flows and weighted average interest rate by expected maturity dates. The weighed average rates are based on current rates as of December 31, 2006.

	Expected maturity dates ⁽⁴⁾						Total	Fair value ⁽²⁾
	2007	2008	2009	2010	2011	Thereafter		
	(in millions of pesos) ⁽¹⁾							
<u>U.S. dollars</u>								
Fixed rate	141.5	187.4	218.6	223.2	38.9	49.3	858.9	703.7
Average interest rate ⁽³⁾	7.49%	7.58%	7.87%	8.85%	10.49%	11.05%	-	-
Variable rate	103.2	103.5	109.3	116.7	617.0	806.2	1,855.9	1,287.6
Average interest rate ⁽³⁾	8.13%	8.15%	8.66%	9.17%	9.68%	10.16%	-	-

⁽¹⁾ Converted at the exchange rate as of December 31, 2006: Ps. 3.062 = US\$1.00.

⁽²⁾ Based on the quoted market prices of our new notes.

⁽³⁾ Average interest rate based on the prices settled in the contracts as of December 31, 2006.

⁽⁴⁾ For a more detailed description, see Note 6 to our Financial Statements included elsewhere herein.

As discussed in “Item 5. Operating and Financial Review and Prospects – Liquidity and capital resources”, we completed the refinancing of our existing indebtedness on June 15, 2007. For more information about our New Debt Obligations see “Item 10. Additional Information – Material contracts – New debt obligations”.

Our New Debt Obligations accrue interest at a fixed rate. Therefore, we do not currently have an exposure to changes in interest rates. The following table provides information presented in our reporting currency, Argentine pesos, with respect to our foreign exchange exposure. For debt obligations, the table presents principal cash flows and interest rate by expected maturity dates.

	Expected maturity dates ⁽⁴⁾					Thereafter	Total	Fair value ⁽²⁾
	2007	2008	2009	2010	2011			
	(in millions of pesos) ⁽¹⁾							
<u>U.S. dollars</u>								
Fixed rate	64.8	124.1	122.8	122.8	122.8	2,029.9	2,587.2	1,504.0
Interest rate ⁽³⁾	7.875%	7.875%	7.875%	7.875%	7.875%	7.875%	-	-

⁽¹⁾ Converted at the exchange rate as of June 15, 2007: Ps. 3.077 = US\$1.00.

⁽²⁾ Based on the quoted market prices of our new notes.

⁽³⁾ Interest rate based on the prices settled in the contract as of June 15, 2007.

⁽⁴⁾ For a more detailed description, see Item 10. Additional Information – Material contracts – New Debt Obligations included elsewhere herein.

Commodity price risk

In the NGL production and commercialization segment we are exposed to market risk in relation to price volatility of the LPG and natural gasoline since they are subject to international prices (Mont Belvieu for the LPG and New Ara for the natural gasoline). Their prices have fluctuated in response to changing market forces. Based on our volume sales of 2006, a US\$ 50 per ton change in the weighted-average sale prices of LPG and natural gasoline would have approximately a Ps. 24 million annual net income effect. For any given period, the NGL sales will be dependent on the international price of LPG and natural gasoline, taxes and other government take impacts and production volumes. Accordingly, changes in international prices for the mentioned products only provide a broad indicator of changes in the net income of any fiscal year.

For more information see “Item 3. Key Information—Risk Factors—Risks Relating to Our Business—Increases in export taxes on, a decrease in international prices or other regulation of NGL may materially adversely affect our results of operations and financial condition.”

Item 12. Description of Securities Other Than Equity Securities

Not applicable.

Part II

Item 13. Defaults, Dividend Arrearages and Delinquencies

No events required to be reported have occurred.

Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds

None.

Item 15T. Controls and Procedures.

Our CEO and CFO, after evaluating the effectiveness of our disclosure controls and procedures (as defined in the Exchange Act under Rule 13a-15(e)) as of December 31, 2006, have concluded that, as of December 31, 2006, our disclosure controls and procedures were effective to ensure that information required to be disclosed in the reports we submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC.

There have not been any changes in our internal control over financial reporting during 2006 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

This Annual Report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this Annual Report.

Item 16A. Audit Committee Financial Expert

We have at least one audit committee financial expert serving on our audit committee. Our Board of Directors has identified Mr. Oscar Marano as an audit committee financial expert. Mr. Marano is independent director.

Item 16B. Code of Ethics

We have adopted a Code of Conduct, applicable to all employees including our principal executive and financial officers. Our code of conduct is available both on our web site at <http://www.tgs.com.ar> and as an Exhibit to this Annual Report. For more information see, "Item 6. Directors, Senior Management and Employees-Board Practices- Corporate Governance Practices; NYSE Requirements".

Item 16C. Principal Accountant Fees and Services

Audit and Non-Audit Fees

Fees for professional services provided to us by our independent accountants, Price, during the years ended December 31, 2006, and 2005 in each of the following categories are:

	Year ended December 31,	
	2006	2005
	(in thousands of pesos)	
Audit fees	966.3	600.8
Audit-related fees	21.6	60.6
Tax fees	15.0	2.8
All other fees	-	-
Total fees	1,002.9	664.2

Audit fees. Audit fees in the above table are mainly for the audit of our annual financial statements and the review of our quarterly reports, syndics of subsidiaries and Form 20-F.

Audit-related fees. Audit-related fees in the above table are mainly for services related to special reports on ratios required for the restructuring agreements issued in December 2004.

Tax fees. Tax fees in the above table are fees mainly for tax compliance and tax advice.

Audit Committee Pre-Approval Policies and Procedures

Consistent with SEC requirements regarding auditor independence, the Audit Committee has adopted a policy of pre-approving services prior to commencement of the specified service. Under the policy, the Audit Committee must pre-approve the provision of services by our principal auditor prior to commencement of the specified service. The requests for pre-approval are submitted to the Audit Committee by our CFO, or a designate, and the Audit Committee Chairman executes engagement letters from the principal auditor following approval by committee members.

All audit-related fees, other fees and tax fees are submitted to our audit committee for prior approval. The Audit Committee has delivered its policy to the Board of Directors that sets forth its procedures for evaluating, in each case, the scope of the work to be performed by our accountants and the fees for such work prior to their engagement.

Consequently, 100% of the fees rendered by our principal accountants in 2006 were approved by the Audit Committee prior to their engagement to perform such work.

Item 16D. Exemptions from the Listing Standards for Audit Committees

Not applicable.

Item 16E. Purchases of Registered Equity Securities of the Issuer by the Issuer and Affiliated Purchasers

Not applicable.

Part III

Item 17. Financial Statements

The registrant has responded to Item 18 in lieu of responding to this Item.

Item 18. Financial Statements

The following financial statements are filed as part of this Form 20-F:

Transportadora de Gas del Sur S.A.--

	Page
Report of independent registered public accounting firm	F-1
Consolidated Statements of Income for the years ended December 31, 2006, 2005 and 2004	F-2
Consolidated Balance Sheets as of December 31, 2006 and 2005	F-3

Annex C Form of Unrestricted Notes Certificate

THIS INDENTURE, dated as of May 14, 2007 (the “**Indenture**”)

AMONG

TRANSPORTADORA DE GAS DEL SUR S.A. (the “**Company**” or the “**Issuer**”), a *sociedad anónima* organized under the laws of the Republic of Argentina, domiciled at Don Bosco 3672 (1206), Capital Federal, Argentina and originally registered under No. 11,668, Book No. 112, Volume A of Corporations with the Public Registry of Commerce on December 1, 1992;

LAW DEBENTURE TRUST COMPANY OF NEW YORK, a New York banking corporation incorporated under the laws of the State of New York, as trustee (the “**Trustee**”), co-registrar (in such capacity, the “**Co-Registrar**”), principal paying agent (in such capacity, the “**Principal Paying Agent**”, and together with any other paying agents under this Indenture in their respective capacities as such, each of them a “**Paying Agent**” and all of them jointly the “**Paying Agents**”) and transfer agent (in such capacity, the “**Transfer Agent**” and together with any other transfer agents under this Indenture in their respective capacities as such, each of them a “**Transfer Agent**” and all of them jointly, the “**Transfer Agents**”);

BANCO SANTANDER RÍO S.A., as registrar (in such capacity, the “**Registrar**”), Paying Agent and Transfer Agent; and

WHEREAS

- (A) Pursuant to the Shareholders’ Meeting dated December 21, 2006 and the Board of Directors’ Meetings dated January 4, 2007 and March 30, 2007, the Company has duly authorized a Medium-Term Note Program for the issuance from time to time of up to an aggregate principal amount Outstanding at any time of US\$650 million (or its equivalent in other currencies or composite currencies) of medium-term notes (the “**Notes**”) in one or more series in such minimum amount, if any, as may be set forth by the Company from time to time (the “**Program**”); the Notes will constitute *obligaciones negociables* issued pursuant to Argentine Law No. 23,576, as amended by Argentine Law No. 23,962 (the “**Negotiable Obligations Law**”) and the regulations issued thereunder.
- (B) The CNV (as defined herein) has authorized the establishment of the Program and the public offering of the 7.875% Notes Due 2017 (as defined herein) in Argentina pursuant to CNV Resolution No. 15,570 of January 18, 2007, and the Bolsa (as defined herein) has accepted the application for the listing of such Notes on the Bolsa.
- (C) In order to provide, among other things, for the authentication, delivery and administration of the Notes, the Company has duly authorized the execution and delivery of this Indenture.
- (D) All things necessary to make this Indenture a valid Indenture and agreement according to its terms have been done.
- (E) The corporate purpose of the Company is primarily the provision of gas transportation for its own account, the account of third parties or associated third parties and its activities include gas transportation, processing, upstream services and other activities related to the gas industry. The corporate capital of the Company is Ps. 794,495,283 and its net worth, as of March 31, 2007 was Ps. 2,848,480,000.

NOW, THEREFORE, in consideration of the premises and the purchases of the Notes by the Holders (as defined below) thereof, each of the undersigned mutually covenants and agrees for the equal and proportionate benefit of the Holders from time to time of the Notes as follows:

A) DEFINITIONS

Definitions

For all purposes of this Indenture, except as otherwise expressly provided or unless the context otherwise requires:

- (1) the terms defined in this Article have the meanings assigned to them in this Article and include the plural as well as the singular;

- (2) all other terms used herein which are defined in the Trust Indenture Act, either directly or by reference therein, have the meanings assigned to them therein;
- (3) all accounting terms not otherwise defined herein have the meanings assigned to them in accordance with generally accepted accounting principles (whether or not such is indicated herein), and, except as otherwise herein expressly provided, the term **“generally accepted accounting principles”** or **“Argentine GAAP”** with respect to any computation required or permitted hereunder shall mean such accounting principles as are generally accepted in Argentina, consistently applied as required by the CNV, at the date of such computation;
- (4) unless the context otherwise requires, any reference to an **“Article”** or a **“Section”** refers to an Article or a Section, as the case may be, of this Indenture; and
- (5) the words **“herein”**, **“hereof”** and **“hereunder”** and other words of similar import refer to this Indenture as a whole and not to any particular Article, Section or other subdivision.

“7.875% Notes Due 2017” means the US\$500,000,000 7.875% Notes Due May 14, 2017 that have been authenticated and delivered under this Indenture by the Company as of the date hereof.

“ABL” means the Argentine Bankruptcy Law No. 24,522 (as amended by Law No. 25,563 and 25,589).

“Act”, when used with respect to any Holder, has the meaning specified in Section 1.4.

“Additional Amounts” has the meaning specified in Section 10.2.

“Additional Assets” means (1) any property or assets (other than Indebtedness and Capital Stock) to be used by the Company or a Subsidiary in a Related Business; (2) the Capital Stock of a Person that becomes a Subsidiary as a result of the acquisition of such Capital Stock by the Company or another Subsidiary; or (3) Capital Stock constituting a minority interest in any Person that at such time is a Subsidiary; *provided, however*, that any such Subsidiary described in clause (2) or (3) of this definition is primarily engaged in a Related Business.

“Affiliate” means, with respect to any Person, a person that directly or indirectly, through one or more intermediaries, Controls, Co-Controls or is Controlled or Co-Controlled by or is under common Control or Co-Control with such Person. Enron Pipeline Company Argentina S.A. (“EPCA”) or any Affiliate of Enron Corporation (“Enron”) shall not be deemed to be an Affiliate of the Company within the meaning of this term so long as EPCA or any such Affiliate of Enron, individually or in combination with EPCA, holds, directly or indirectly, 10% or less of the outstanding Voting Stock of Compañía de Inversiones de Energía S.A. (CIESA).

“Agent Member” means any member of, or participant in, the Depositary.

“Applicable Procedures” means, with respect to any transfer or transaction involving a Global Note or beneficial interest therein, the rules and procedures of the Depositary for such Note, Euroclear and Clearstream, Luxembourg, in each case to the extent applicable to such transaction and as in effect from time to time.

“Argentina” means the Republic of Argentina.

“Argentine GAAP” means the generally accepted accounting principles in the Republic of Argentina.

“Argentine Government” means the government of the Republic of Argentina (and all agencies and instrumentalities thereof).

“Argentine Government Obligations” means obligations issued or directly and fully guaranteed or insured by Argentina or by any agent or instrumentality thereof; *provided*, that the full faith and credit of Argentina is pledged in support thereof.

“Argentine Personal Assets Tax Law” means the Argentine Law No. 23,966, as amended.

“Asset Sale” means any sale, lease, transfer or other disposition (or series of related sales, leases, transfers or dispositions) by the Company or any Subsidiary, including any disposition by means of a merger, consolidation, or similar transaction (each referred to for the purposes of this definition as a “disposition”), of:

(1) any shares of Capital Stock of a Subsidiary (other than directors' qualifying shares or shares required by applicable law to be held by a Person other than the Company or a Subsidiary); (2) all or substantially all the assets of any division or line of business of the Company or any Subsidiary; or (3) any other assets of the Company or any Subsidiary outside of the ordinary course of business of the Company or such Subsidiary; *provided, however*, that Asset Sale shall not include:

a disposition by a Subsidiary to the Company;

a disposition of assets with a Fair Market Value of less than US\$5.0 million in the aggregate in any fiscal year of the Company or such Subsidiary;

an expenditure of cash or liquidation of Cash Equivalents or disposition of Temporary Cash Investments or goods held for sale and assets sold in the ordinary course of business;

(i) a disposition of obsolete equipment or other obsolete assets or other property which is uneconomical and no longer useful for the Company or any Subsidiary in the ordinary course of business consistent with past practice; or (ii) a disposition of assets that are exchanged for or are otherwise replaced by Additional Assets;

the disposition of all or substantially all of the assets of the Company in a manner permitted by Section 8.1;

the lease, assignment or sublease of any real or personal property in the ordinary course of business;

the disposition of assets in a sale-leaseback transaction;

the incurrence of any Lien in accordance with Section 10.19; or

the discounting, factoring or securitization of receivables in the ordinary course of business.

"Asset Sale Offer" has the meaning specified in Section 10.18.

"Asset Sale Offer Amount" has the meaning specified in Section 10.18.

"Asset Sale Offer Payment Date" has the meaning specified in Section 10.18).

"Attributable Debt" in respect of a Sale and Lease-Back Transaction means, as at the time of determination, the present value (discounted at the interest rate applicable to the Notes, compounded annually) of the total obligations of the lessee for rental payments during the remaining term of the lease included in such Sale and Lease-Back Transaction (including any period for which such lease has been extended) provided, however, that if such Sale and Lease-Back Transaction results in a Capital Lease Obligation, the amount of Indebtedness represented thereby will be determined in accordance with the definition of "Capital Lease Obligation".

"Authenticating Agent" means any Person authorized by the Trustee to act on behalf of the Trustee to authenticate Notes of one or more series.

"Authorized Officers" has the meaning specified in Section 3.3.

"Board of Directors" means either the board of directors of the Company or any duly authorized committee of that board.

"Board Resolution" means a copy of a resolution and an English translation thereof certified by the Director of Legal Affairs of the Company or any Senior Counsel of the Company to have been duly adopted by the Board of Directors and to be in full force and effect on the date of such certification, and delivered to the Trustee.

"Bolsa" means the *Bolsa de Comercio de Buenos Aires* (the Buenos Aires Stock Exchange).

"Business Day" means, any day except Saturday, a Sunday or other day on which commercial banks are authorized or required by law or regulation to close in New York City.

“Capital Stock” of any Person means any and all shares, interests, rights to purchase, warrants, options, participations or other equivalents of or interests in (however designated) equity of such Person, including any preferred stock and partnership interests, but excluding any debt securities convertible into such equity.

“Capitalized Lease Obligation” of any Person means any obligation of such Person under a lease or license of (or other agreement conveying the right to use) any property (whether real, personal or mixed) that is required to be classified and accounted for as a capital lease or financial lease obligation under Argentine GAAP and, for the purpose hereof, the amount of such obligation at any date shall be the capitalized amount thereof at such date, determined in accordance with Argentine GAAP.

“Cash and Cash Equivalents” means: (a) any official currencies received or acquired in the ordinary course of business including, without limitation, Pesos, Euro, Dollars or any other currency of countries in which the Company or its Subsidiaries has operations; (b) US Government Obligations or certificates representing an ownership interest in US Government Obligations, or securities issued directly and fully guaranteed or insured by any member of the European Union, or any agency or instrumentality thereof (provided that the full faith and credit of such member is pledged in support of those securities) or other sovereign debt obligations (other than those of Argentina) rated “A” or higher or such similar equivalent or higher rating by at least one Nationally Recognized Statistical Rating Organization, in each case with maturities not exceeding one year from the date of acquisition; (c) Argentine Government Obligations (including those of the Central Bank) or certificates representing an ownership interest in Argentine Government Obligations (including those of the Central Bank) with maturities not exceeding one year from the date of acquisition; (d) (i) demand deposits, (ii) time deposits and certificates of deposit with maturities of one year or less from the date of acquisition, (iii) bankers’ acceptances with maturities not exceeding one year from the date of acquisition, and (iv) overnight bank deposits, in each case with any bank or trust company organized or licensed under the laws of the United States or any state thereof or under the laws of any member state of the European Union, or under the laws of any country in which the Company has operations in each case whose head office’s senior short term debt is rated “BBB+” or higher or such similar equivalent or higher rating by at least one Rating Agency or whose local national scale rating for senior short term debt is BBB+ or higher or such similar equivalent or higher rating; and provided, further, that in the event that no bank or trust company in such country has a local rating of BBB+ or higher or such similar equivalent or higher rating, then this clause shall apply to the three highest rated banks in the relevant country; (e) repurchase obligations with a term of not more than seven days for underlying securities of the type described in clauses (b) and (c) above entered into with any financial institution meeting the qualifications specified in clause (d) above; (f) commercial paper rated “BBB” or higher or such similar equivalent or higher rating by at least one Nationally Recognized Statistical Rating Organization maturing within six months after the date of acquisition; (g) money market funds at least 95% of the assets of which consist of investments of the type described in clauses (a) through (f) above; and (h) substantially similar investments, of comparable credit quality, denominated in the currency of any jurisdiction in which the Company or its Subsidiaries conduct business.

“Central Bank” means the Central Bank of Argentina (*Banco Central de la República Argentina*).

“Change of Control Event” has the meaning specified in Section 11.9.

“Change of Control Event Purchase Date” has the meaning specified in Section 11.9.

“Change of Control Event Purchase Right” has the meaning specified in Section 11.9.

“Clearstream, Luxembourg” means a professional depository incorporated under the laws of Luxembourg.

“CNV” means the Argentine *Comisión Nacional de Valores*.

“Co-Registrar” has the meaning specified in the preamble to this Indenture.

“Commission” means the Securities and Exchange Commission, from time to time constituted, created under the Exchange Act, or, if at any time after the execution of this instrument such Commission is not existing and performing the duties now assigned to it under the Exchange Act, then the body performing such duties at such time.

“**Company**” means the Person named as the “**Company**” in the first paragraph of this instrument until a successor Person shall have become such pursuant to the applicable provisions of this Indenture, and thereafter “**Company**” shall mean such successor Person.

“**Company Request**” or “**Company Order**” means a written request or order signed in the name of the Company by any two of the Chairman of the Board, a Vice Chairman of the Board, any member of the Supervisory Committee of the Company, the Chief Executive Officer of the Company, the Chief Financial Officer of the Company, any Vice President of the Company, any Finance Manager of the Company or any Senior Counsel of the Company, and delivered to the Trustee.

“**Consolidated Adjusted EBITDA**” means, for any period, Consolidated Net Income (Loss) for such period adjusted as follows: (a) increased by (to the extent included in computing Consolidated Net Income (Loss)) the sum of (i) the Consolidated Income Tax for such period; plus (ii) Consolidated Interest Expense for such period; plus (iii) the Company’s depreciation for such period, determined on a consolidated basis in accordance with Argentine GAAP; plus (iv) the Company’s amortization for such period, excluding, and without duplication, amortization of capitalized debt issuance costs and capitalized hedge costs for such period, all determined on a consolidated basis in accordance with Argentine GAAP; plus (v) any other non-cash charges that were deducted in computing Consolidated Net Income (Loss) (excluding any non-cash charge which requires an accrual or reserve for cash charges for any future period) for such period in accordance with Argentine GAAP; plus (vi) extraordinary losses, and plus, to the extent otherwise not included (1) gain or loss on exposure to inflation, (2) foreign exchange gain or loss, net of inflation, and (3) holding gains or losses, and (b) decreased by (to the extent included in computing Consolidated Net Income (Loss)) the sum of (i) any non-cash gains; plus (ii) extraordinary gains; plus (iii) to the extent positive, Consolidated Income Tax; and plus (iv) amortization of negative goodwill, all as determined on a consolidated basis and in accordance with Argentine GAAP.

“**Consolidated Coverage Ratio**” means, at any date, the *product* of (i) Consolidated Adjusted EBITDA for the relevant period, *multiplied* by (ii) a fraction, the numerator of which is 1 and the denominator of which is the Consolidated Interest Expense for the most recent four fiscal quarters.

“**Consolidated Debt Ratio**” means, at any date, the *product* of (i) the aggregate principal amount of Consolidated Total Indebtedness outstanding on such date of calculation, *multiplied* by (ii) a fraction, the numerator of which is 1 and the denominator of which is Consolidated Adjusted EBITDA for the most recent four fiscal quarters.

“**Consolidated Income Tax**” means, for any period, the amount shown in the line item entitled “Income tax benefit (expense)” and “asset tax” (“Impuesto a la Ganancia Mínima Presunta”) (or any successor line item) in the Company’s consolidated statements of income for such period, prepared in accordance with Argentine GAAP.

“**Consolidated Interest Expense**” means, for any period, the aggregate amount of (i) cash interest expense to be paid or noncash interest expense to be accrued during the relevant period in respect of Indebtedness, including, without limitation, (a) amortization of original issue discount on any Indebtedness, (b) the interest portion of any deferred payment obligation, (c) all commissions, discounts and other fees and charges owed with respect to letters of credit and bankers’ acceptance financing, and (d) the net costs associated with obligations set out in Hedging Agreements, including the amortization of capitalized hedge costs, all net of interest income, (ii) all but the principal component of rent in respect of Capitalized Lease Obligations paid, accrued or scheduled to be paid or to be accrued by the Company during such period, and (iii) dividends paid in respect of the Company or its Subsidiaries’ preferred stock to Persons other than the Company or one of the Company’s wholly-owned Subsidiaries in accordance with Section 10.17.

“**Consolidated Net Income (Loss)**” means, for any period, the net income or loss for the Company and its consolidated Subsidiaries for such period, determined in accordance with Argentine GAAP on the same basis as the Company’s consolidated income statement (which, for the avoidance of doubt, shall be after deduction of minority interests in Subsidiaries held by third parties).

“**Consolidated Total Indebtedness**” means, at any date, the sum of (i) the aggregate principal amount outstanding of the Company’s Peso-denominated Indebtedness, on a consolidated basis, as of the most recent fiscal quarter for which financial statements are available, *plus* (ii) the Peso Average of the aggregate principal amount outstanding of the Company’s non-Peso-denominated Indebtedness, on a consolidated basis, as of the most recent fiscal quarter for which financial statements are available, *plus*, if applicable, (iii) the amount of any Peso-denominated Indebtedness and the Peso Equivalent of the Company’s outstanding non-Peso-denominated

Indebtedness that was Incurred after the date of the most recent fiscal quarter for which the Company's financial statements are available, *minus* (iv) the amount of any Peso-denominated Indebtedness and the Peso-Equivalent of any non-Peso-denominated Indebtedness that was paid in full after the date of the most recent fiscal quarter for which the Company's financial statements are available.

"Control" or **"Co-Control"** means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through the ability to exercise 50% or more of the voting power, by contract or otherwise. **"Controlling"** and **"Co-Controlling"** and **"Controlled"** and **"Co-Controlled"** shall have correlative meanings.

"Corporate Trust Office" initially means the office of the Trustee at 400 Madison Avenue, 4th Floor, New York, NY, 10017, United States of America, or such other address as shall be notified by the Trustee to the Holders (which, in the case of any Global Note, shall be the Depositary) and the Company in writing.

"corporation" means a *sociedad anónima*, corporation, association, company, joint-stock company or business trust.

"Covenant Defeasance" has the meaning specified in Section 13.3.

"Currency Agreement" means any foreign exchange contract, currency swap agreement or other similar agreement, any foreign exchange forward contract or other arrangement that is (i) not for speculative purposes and (ii) designed to protect against fluctuations in currency or foreign exchange rates.

"default" or **"Default"** means any event or circumstance which is, or after notice or lapse of time or both would become, an Event of Default.

"Default Interest" has the meaning specified in Section 10.1.

"Defaulted Interest" has the meaning specified in Section 3.8.

"Defeasance" has the meaning specified in Section 13.2.

"Depositary" means, with respect to Notes of any series issuable in whole or in part in the form of one or more Global Notes, a clearing agency registered under the Exchange Act that is designated to act as Depositary for such Notes as contemplated by Section 3.1.

"Distribution Compliance Period" means, with respect to Global Notes of any series (or of any identifiable tranche of any series) initially offered and sold in reliance on Regulation S, the period of 40 consecutive days beginning on and including the later of (i) the day on which Notes of such series are first offered to persons other than distributors (as defined in Regulation S) in reliance on Regulation S and (ii) the day on which the Notes of such series are first issued and delivered.

"DTC" means The Depository Trust Company (or its successors).

"ENARGAS" means *Ente Nacional Regulador del Gas* created pursuant to Argentine Law No. 24,076 for the purposes set forth therein, including the supervision and regulation of the Company and its operations under the License.

"Euroclear" means Euroclear Bank S.A./N.V., as operator of the Euroclear System, or any successor securities clearing agency.

"European Union Member" means any member state of the union of fifteen independent countries whose member states currently consist of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, the Netherlands, Portugal, Spain, Sweden and the United Kingdom of Great Britain and Northern Ireland and any future member states admitted to the European Union.

"Event of Default" has the meaning specified in Section 5.1.

"Exchange Act" means the U.S. Securities Exchange Act of 1934 and any statute successor thereto, in each case as amended from time to time and the rules and regulations promulgated thereunder.

“Expiration Date” has the meaning specified in Section 1.4.

“Fair Market Value” of any property, asset, share of Capital Stock, other security, Investment or other item means, on any date, the fair market value of such property, asset, share of Capital Stock, other security, Investment or other item on that date as determined in good faith by the Board of Directors of the Company or any Subsidiary, as applicable.

“Federal Executive Branch” means the Argentine Federal Executive Branch (*Poder Ejecutivo Nacional*).

“Fiscal Year” means the twelve-month accounting year of the Company commencing each year on January 1 and ending on the following December 31, or such other accounting period as the Company may, in accordance with Argentine GAAP, from time to time designate as the accounting year of the Company and its Subsidiaries.

“Fitch” means Fitch Ratings or any successor thereto.

“GdE” means *Gas del Estado S.E.*, the Argentine state-owned gas company, which was privatized in 1992.

“Global Notes” has the meaning specified in Section 2.3.

“Governmental Agency” means any public legal entity or public agency of Argentina or the United States, whether created by federal, state or local government, or any other legal entity now existing or hereafter created, or now or hereafter owned or controlled, directly or indirectly by any public legal entity or public agency of Argentina or the United States.

“Government Regulator” means the Argentine Government or any political subdivision thereof, whether state or local, and any agency, authority, instrumentality, regulatory body, court, central bank or other entity exercising executive, legislative, judicial, taxing, regulatory or administrative powers or functions of or pertaining to government, including ENARGAS and the Argentine Secretary of Energy.

“Hedging Agreement” means any interest rate protection and other type of hedging agreement or arrangement (including, without limitation, interest rate swaps, caps, floors, collars and similar agreements and any other hedging, futures or forward contracts or similar agreements that relate to commodities, goods or services that are produced, provided, consumed or otherwise used in the ordinary course of the Company’s business or otherwise relate to the Company’s or any of its Subsidiaries’ lines of business) that is (a) not for speculative purposes and (b) designed to protect against or manage exposure to fluctuations in interest rates or other types of risk in respect of Indebtedness or other financing agreements or arrangements.

“Holder” means a Person in whose name a Note is registered in the Note Register.

“Incur” means, with respect to any Indebtedness or other obligation of any Person, to create, issue, incur (by conversion, exchange or otherwise), assume, guaranty or otherwise become liable in respect of such Indebtedness or other obligation or the recording, as required pursuant to Argentine GAAP or the regulations of the CNV, of any such Indebtedness or other obligation on the balance sheet of such Person (and **“Incurrence”** and **“Incurred”** shall have meanings correlative to the foregoing); *provided, however*, that (i) a change in Argentine GAAP or in the regulations of the CNV that results in an obligation of such Person that exists at such time being reclassified as Indebtedness shall not be deemed an Incurrence of such Indebtedness, (ii) with respect to Peso-denominated Indebtedness, an increase, whether periodically or otherwise, in the nominal principal amount of such Indebtedness as a result of and in proportion to the devaluation of the Peso against the U.S. Dollar or the rate of inflation in Argentina shall not be deemed an Incurrence of such Indebtedness, and (iii) with respect to Indebtedness previously Incurred, a change in the Peso Equivalent of such Indebtedness shall not be deemed an Incurrence of such Indebtedness.

“Indebtedness” means, with respect to any Person, without duplication, (i) any liability of such Person (a) for borrowed money, or under any reimbursement obligation relating to a letter of credit, or (b) evidenced by a bond, note, debenture or similar instrument (including a purchase money obligation) given in connection with the acquisition of any businesses, properties or assets of any kind (other than a trade payable or a current liability arising in the ordinary course of business), or (c) for the payment of money relating to any obligations under any capital lease of real or personal property which has been recorded as a capitalized lease obligation, or (d) under Hedging Agreements or Currency Agreements; (ii) all redeemable capital stock issued by such Person

having a redemption date prior to the Stated Maturity of the Notes (the amount of Indebtedness being represented by any involuntary liquidation preference plus accrued and unpaid dividends); (iii) any liability of others described in the preceding clause (i) that the Person has guaranteed or that is otherwise its legal liability; and (iv) (without duplication) any amendment, supplement, modification, deferral, renewal, extension or refunding of any liability of the types referred to in clauses (i), (ii) and (iii) above. For purposes of determining any particular amount of Indebtedness under this definition, guarantees of (or obligations with respect to letters of credit supporting) Indebtedness otherwise included in the determination of such amount shall not also be included.

“Indenture” means this instrument as originally executed and as it may from time to time be supplemented or amended by one or more indentures supplemental hereto entered into pursuant to the applicable provisions hereof. The term **“Indenture”** shall also include the terms of a particular series of Notes established as contemplated by Section 3.1.

“interest”, when used with respect to an Original Issue Discount Note which by its terms bears interest only after Maturity, means interest payable after Maturity.

“Interest Payment Date”, when used with respect to any Note, means the Stated Maturity of an installment of interest on such Note.

“Investment” in any Person means any direct or indirect advance, loan or other extension of credit (including by way of guarantee or similar arrangement) or capital contribution to (by means of any transfer of cash or other property to others or any payment for property or services for the account or use of others), or any purchase or acquisition of Capital Stock, Indebtedness or other similar instruments issued by, such Person; provided, however, that, for purposes of the definition of **“Restricted Payments”**, the term **“Investment”** shall not include:

- (a) Temporary Cash Investments;
- (b) Investments in Marketable Securities;
- (c) Investments by the Company in its Subsidiaries in an aggregate amount not to exceed US\$20.0 million;
- (d) Investments in existence as of the date of this Indenture and set forth in a schedule hereto;
- (e) Investments in the Company by a Subsidiary;
- (f) Loans and advances to employees of the Company or any Subsidiary in the ordinary course of business and on terms consistent with the Company’s or such Subsidiary’s practice in effect prior to the date of this Indenture;
- (g) Loans or advances to vendors, suppliers or contractors of the Company or a Subsidiary in the ordinary course of business that are recorded as accounts receivable on the balance sheet of the Company or such Subsidiary and on terms consistent with the Company’s or such Subsidiary’s practice in effect prior to the date of this Indenture;
- (h) Stock, obligations or securities received in the ordinary course of business in settlement of debts owing to the Company or a Subsidiary as a result of foreclosure, perfection or enforcement of Liens;
- (i) Investment by the Company in a Subsidiary the proceeds of which are used to fund capital expenditures that relate to the unscheduled emergency repair and maintenance of the Company’s or such Subsidiary’s fixed or capital assets or other property, plant and equipment;
- (j) Investments consisting of prepaid expenses, negotiable instruments held for collection and lease, utility and workers’ compensation, performance and other similar deposits made in the ordinary course of business by the Company or any Subsidiary;

(k) Investments in Hedging Agreements or Currency Agreements; provided, that such Investments are not made for speculative purposes, are necessary or prudent to hedge or otherwise manage risk to which the Company or a Subsidiary is or expects to be exposed in the ordinary course of their business;

(m) Investments received by the Company or any of its Subsidiaries as consideration for Asset Sales or Investments made with the proceeds of such Asset Sales; provided, that such Asset Sale or Investment is consummated in accordance with Section 10.18; and;

(n) Investments made by way of repurchase or redemption of Indebtedness of the Company outstanding as of the date of this Indenture.

“Investment Company Act” means the Investment Company Act of 1940 and any statute successor thereto, in each case as amended from time to time.

“Investment Grade Rating” means a rating equal to or higher than (i) BBB-, by S&P or Fitch and (ii) Baa3, by Moody’s or (iii) the equivalent of either (i) or (ii) from any other Nationally Recognized Statistical Rating Organization.

“Initial Issue Date” means the date of original issuance of Notes issued under this Indenture.

“License” means, as of the Initial Issue Date, the exclusive right and responsibility for a 35-year term (the **“Term”**), granted to the Company by the Argentine Government to provide gas transportation services in southern Argentina through the southern gas pipeline system, transferred to the Company by GdE, and the expansions and modifications thereto, together with all sub-annexes and all legislation, decrees, judicial or administrative rulings and/or regulations or interpretations issued by any Government Regulator, or by any of its respective agencies (including ENARGAS), which, by the Initial Issue Date, have modified, amended or supplemented any of the original terms and conditions of the License and all annexes, exhibits and schedules thereto, including modifications, amendments and supplements that are in effect by the Initial Issue Date that resulted from the provisions of the Public Emergency Law implemented by the Initial Issue Date and under Federal Executive Branch decrees theretofore issued and implemented by the Initial Issue Date.

“Lien” means, with respect to any Person, any mortgage, lien, pledge, charge, security interest or other encumbrance, or any interest or title of any vendor, lessor, lender or other secured party to or of such Person under any conditional sale or other title retention agreement or Capitalized Lease Obligation, upon or with respect to any property or asset of such Person (including in the case of stock, as may be set forth in stockholder agreements, voting trust agreements and all similar arrangements), and any preferential right, trust arrangement, right of setoff, counterclaim or banker’s lien, privilege or priority of any kind having the effect of constituting a security interest, and any designation of loss payees or beneficiaries or any similar arrangement under any insurance policy.

“Listing Agent” means BNP Paribas.

“Management Fee” means any fee paid to a Person (net of any value-added or similar taxes, levies or assessments imposed by a governmental entity and any reasonable expenses (excluding overhead or structural expenses) incurred by such Person) as any remuneration for performance of its obligations (i) as technical operator of the Company in the Company’s capacity as the licensee of the southern gas transportation system in Argentina (including, without limitation, remuneration under the Technical Assistance Agreement or any successor agreement thereto) or (ii) for any other management services from an Affiliate of the Company if such services are not provided on an arm’s-length basis or do not meet the provisions of Article 72 enacted under Argentine Executive Branch Decree No. 677/01 of Public Offer Transparency Regime, which fee shall not exceed the larger of the following amounts annually: (a) Ps. 3,000,000 or (b) seven percent (7%) of Consolidated EBIT (as defined in the Technical Assistance Agreement) (excluding the management fee expense) *minus* Ps. 3,000,000.

“mandatory sinking fund payment” means the minimum amount of any sinking fund payment provided for by the terms of any Notes as described in Section 12.1.

“Marketable Securities” means any of the following: (a) readily marketable direct obligations of the Government of the United States, Argentina or any agency or instrumentality thereof or obligations unconditionally guaranteed by the full faith and credit of the Government of the United States or Argentina, (b) insured certificates of deposit of or time deposits with any commercial bank that is a member of the United States Federal Reserve System that issues (or the parent of which issues) commercial paper rated as described in

clause (c), is organized under the laws of the United States or any State thereof and has combined capital and surplus of at least \$1 billion, (c) commercial paper issued by any corporation organized under the laws of any State of the United States and rated at least “Prime-1” (or the then equivalent grade) by Moody’s or “A-1” (or the then equivalent grade) by S&P, or (d) debt obligations having a maturity not exceeding one year from the date of acquisition issued by a corporation organized under the laws of the United States or Argentina whose long-term debt is rated “A-” (or such similar equivalent rating, including similar equivalent ratings in foreign countries) or higher by at least one Nationally Recognized Statistical Rating Organization.

“**Maturity**”, when used with respect to any Note, means the date on which the principal of such Note or an installment of principal becomes due and payable as therein or herein provided, whether at the Stated Maturity or by declaration of acceleration, call for redemption or otherwise.

“**Moody’s**” means Moody’s Investors Service, Inc. or any successor thereto.

“**Nationally Recognized Statistical Rating Organization**” shall have the meaning set forth under Rule 436 under the Securities Act.

“**Negotiable Obligations Law**” has the meaning specified in paragraph (A) of the recitals to this instrument.

“**Net Available Cash**” from an Asset Sale means cash payments or Cash Equivalents received (including any cash payments received by way of deferred payment of principal pursuant to a note or installment receivable or otherwise and proceeds from the sale or other disposition of any securities received as consideration, but only as and when received, but excluding any other consideration received in the form of assumption by the acquiring Person of Indebtedness or other obligations relating to the properties or assets that are the subject of such Asset Sale or received in any other non-cash form) therefrom, in each case minus:

- (1) all legal, accounting, investment banking, broker, consultant and advisory fees and expenses, title and recording tax expenses, commissions and other fees and expenses Incurred, and all federal, state, provincial, foreign and local taxes required to be paid or accrued as a liability in accordance with Argentine GAAP, as a consequence of such Asset Sale;
- (2) all payments, including any prepayment premiums or penalties, made on any Indebtedness that is secured by any assets subject to such Asset Sale, in accordance with the terms of any Lien upon or other security agreement of any kind with respect to such assets, or which must by its terms, or in order to obtain a necessary consent to such Asset Sale, or by applicable law be repaid out of the proceeds from such Asset Sale;
- (3) all distributions and other payments required to be made to minority interest holders in Subsidiaries or joint ventures as a result of such Asset Sale;
- (4) appropriate amounts to be provided by the seller as a reserve, in accordance with Argentine GAAP, against any liabilities associated with the property or other assets disposed of in such Asset Sale and retained by the Company or any Subsidiary after such Asset Sale;
- (5) taxes paid or payable in respect of Asset Sales; and
- (6) repayment of Indebtedness secured by a Lien on the asset or assets that were the subject of such Asset Sale.

“**Net Cash Proceeds**” with respect to any issuance or sale of Capital Stock or sale or other disposition of any asset or other investment, means the cash proceeds of such issuance or sale net of attorneys’ fees, accountants’ fees, underwriters’ or placement agents’ fees, discounts or commissions and brokerage, consultant and other fees and expenses actually incurred in connection with such issuance or sale and net of taxes paid or payable as a result thereof.

“**Non-Regulated Assets**” means any fixed or capital assets used in or with respect to the Company’s business or operations other than fixed or capital assets the proceeds from any sale or other disposition of which would be required to be reinvested in new fixed or capital assets or other property, plant and equipment by either the rules and regulations of ENARGAS or the terms and conditions of the License, as determined at the time of any such sale or other disposition. For the avoidance of doubt, “**Non-Regulated Assets**” shall include

those fixed or capital assets used in or with respect to the Company's business or operations that are not regulated by ENARGAS.

"Notes" has the meaning specified in paragraph (A) of the recitals to this instrument, or, as the context may require, means Notes that have been authenticated and delivered under this Indenture.

"Note Register" has the meaning specified in Section 3.6(a).

"Notice of Default" means a written notice of the kind specified in Section 5.1(2).

"Officers' Certificate" means a certificate signed by any two of the Chairman of the Board of the Company, a Vice Chairman of the Board of the Company, any member of the Supervisory Committee of the Company, the Chief Executive Officer of the Company, the Chief Financial Officer of the Company, any Vice President of the Company, any Finance Manager of the Company or any Senior Counsel of the Company, and delivered to the Trustee.

"Opinion of Counsel" means a written opinion of counsel, who may be counsel for the Company, and who shall be acceptable to the Trustee.

"optional sinking fund payment" means any payment in excess of the mandatory sinking fund payment as described in Section 12.1.

"original issue date" of any Note (or portion thereof) means the earlier of (a) the date of such Note or (b) the date of any Note (or portion thereof) for which such Note was issued (directly or indirectly) for registration of transfer or exchange or in substitution.

"Original Issue Discount Note" means any Note which provides for an amount less than the principal amount thereof to be due and payable upon a declaration of acceleration of the Maturity thereof pursuant to Section 5.2.

"Outstanding" means when used with respect to Notes of a series and subject to the provisions of this Indenture, as of any particular time, all Notes of that series authenticated and delivered by the Trustee under this Indenture, except:

- (a) Notes of that series theretofore canceled by the Trustee or delivered to the Trustee for cancellation;
- (b) Notes of that series, or portions thereof, for the payment or redemption of which moneys in the necessary amount shall have been deposited in trust with the Trustee or with any paying agent (other than the Company) or shall have been set aside, segregated and held in trust by the Company for the Holders of such Notes (if the Company shall act as its own paying agent), provided that if such Notes, or portions thereof, are to be redeemed prior to the maturity thereof, notice of such redemption shall have been given as provided in this Indenture, or provision satisfactory to the Trustee shall have been made for giving such notice; and
- (c) Notes of that series with respect to which the Company has effected defeasance or covenant defeasance as provided in this Indenture;
- (d) Notes of that series in substitution for which other Notes shall have been authenticated and delivered or which shall have been paid, pursuant to this Indenture;

provided, however, that in determining whether the Holders of the requisite principal amount of the Outstanding Notes have given, made or taken any request, demand, authorization, direction, notice, consent, waiver or other action hereunder as of any date, whether pursuant to a meeting of Holders or pursuant to an Act of Holders, as the case may be, (A) the principal amount of an Original Issue Discount Note which shall be deemed to be Outstanding shall be the amount of the principal thereof which would be due and payable as of such date upon acceleration of the Stated Maturity thereof to such date pursuant to Section 5.2, (B) if, as of such date, the principal amount payable at the Stated Maturity of a Note is not determinable, the principal amount of such Note that shall be deemed to be Outstanding shall be the amount as specified or determined as contemplated by Section 3.1, (C) the principal amount of a Note denominated in one or more foreign currencies or currency units which shall be deemed to be Outstanding shall be the U.S. Dollar Equivalent, determined as of such date in the manner provided as contemplated by Section 3.1, of the principal amount of such Note (or, in

the case of a Note described in Clause (A) or (B) above, of the amount determined as provided in such Clause), and (D) Notes held by the Company or any of its Affiliates shall be disregarded and deemed not to be Outstanding, except that, in determining whether the Trustee shall be protected in relying upon any such request, demand, authorization, direction, notice, consent, waiver or other action, only Notes which a Responsible Officer of the Trustee knows to be so held shall be so disregarded. Notes so held which have been pledged in good faith may be regarded as Outstanding if the pledgee establishes to the satisfaction of the Trustee the pledgee's right so to act with respect to such Notes and that the pledgee is not the Company or any other obligor upon the Notes or any Affiliate of the Company or of such other obligor.

"Paying Agent" means any Person authorized by the Company to pay the principal of or any premium or interest on any Notes on behalf of the Company.

"Permitted Indebtedness" has the meaning specified in Section 10.16.

"Permitted Liens" has the meaning set forth in Section 10.19.

"Person" means any individual, corporation, limited liability company, partnership, joint venture, association, joint-stock company, trust, unincorporated organization or government or any agency or political subdivision thereof.

"Personal Property Tax" has the meaning specified in Section 11.8.

"Peso" means the lawful currency of Argentina.

"Peso Average" means, with respect to the amount of any non-Peso-denominated Indebtedness, the amount of Pesos obtained by converting the aggregate principal amount of any such non-Peso-denominated Indebtedness into Pesos at an average exchange rate determined by reference to the exchange rate for the buying of Pesos, as reported by *Banco de la Nación Argentina*, on each day for which rates are available during the period corresponding to the relevant period used to calculate Consolidated Adjusted EBITDA in connection with any calculation or determination of the Consolidated Debt Ratio.

"Peso Equivalent" means, as of any date of determination and with respect to any non-Peso denominated amount, the amount of Pesos obtained by converting such foreign currency into Pesos at the exchange rate for the selling of Pesos on any one of the five Business Days immediately preceding such date of determination, with respect to such foreign currency amount, as reported by *Banco de la Nación Argentina* or as reported by Bloomberg LP, Reuters Group PLC or (if such information is not reported by Bloomberg LP or Reuters Group PLC) such other internationally recognized service for the publication of exchange rate data or information, as the Company may reasonably determine; *provided, however*, that if exchange rate data or information is not available as of such date of determination as a result of market conditions or otherwise, then the Peso Equivalent shall be determined by reference to exchange rate data or information that is available on any such date chosen by the Company during any such five Business Day period immediately preceding such date of determination.

"Place of Payment" has the meaning specified in Section 3.6(a).

"Predecessor Note" of any particular Note means every previous Note evidencing all or a portion of the same debt as that evidenced by such particular Note; and, for the purposes of this definition, any Note authenticated and delivered under Section 3.7 in exchange for or in lieu of a mutilated, destroyed, lost or stolen Note shall be deemed to evidence the same debt as the mutilated, destroyed, lost or stolen Note.

"Principal Paying Agent" has the meaning specified in the preamble to this Indenture.

"Property" means any asset, revenue or any other property, whether tangible or intangible, real or personal, including, without limitation, any right to receive income.

"Public Emergency Law" means the Public Emergency and Foreign Exchange System Reform Law No. 25,561 and the decrees and regulations issued thereunder.

"Rating Agency" means Fitch, Moody's, S&P or any other nationally recognized statistical rating organization as contemplated in Rule 436 under the Securities Act.

“Redemption Date”, when used with respect to any Note to be redeemed, means the date fixed for such redemption by or pursuant to this Indenture.

“Redemption Price”, when used with respect to any Note to be redeemed, means the price at which it is to be redeemed pursuant to this Indenture or the terms and conditions of such Note.

“Refinancing Indebtedness” means any Indebtedness; *provided*, that the net cash proceeds of such Refinancing Indebtedness are applied or used, within 90 days of the date of such Incurrence, to make payments of principal, premium and accrued interest on (and including any Additional Amounts) or to redeem, the Outstanding Notes on a pro rata basis.

“Registered Notes” means Notes that have been registered pursuant to the Securities Act.

“Registrar” has the meaning specified in the preamble to this Indenture.

“Regular Record Date” for the interest payable on any Interest Payment Date on the Notes of any series means the date specified for that purpose as contemplated by Section 3.1.

“Regulation S” means Regulation S under the Securities Act (or any successor provision), as it may be amended from time to time.

“Regulation S Certificate” means a certificate substantially in the form specified in Annex A.

“Regulation S Global Note” has the meaning specified in Section 2.2.

“Regulation S Legend” means the legend required to be placed upon a Regulation S Global Note.

“Regulation S Notes” means all Notes issued pursuant to Regulation S (or whose predecessor Note was issued pursuant to Regulation S). Such term includes the Regulation S Global Note.

“Related Business” means a business in the energy industry or in the lines of business in which the Company or such Subsidiaries are engaged as of the Initial Issue Date.

“Responsible Officer”, when used with respect to the Trustee, means any officer within the corporate trust department with direct responsibility for the administration of this Indenture, and also means, with respect to a particular corporate trust matter, any other officer to whom such matter is referred because of his knowledge of and familiarity with the particular subject.

“Restricted Global Note” has the meaning specified in Section 2.3.

“Restricted Notes” means all Notes required pursuant to Section 3.6(c) to bear a Restricted Notes Legend. Such term includes the Restricted Global Note.

“Restricted Notes Certificate” means a certificate substantially in the form specified in Annex B.

“Restricted Notes Legend” means the legend required to be placed upon a Restricted Note.

“Restricted Payment” means, with respect to the Company or any of its Subsidiaries, (i) any dividend (other than dividends payable solely in shares of the Company’s common stock or the common stock of any of such Subsidiaries so long as such dividends do not result in any dilution of the Company’s ownership interest in such Subsidiary, as the case may be) or other distribution (whether in cash, securities or other property) with respect to any shares of any class of the Company’s capital stock or that of any of its Subsidiaries, in each case, which shares of capital stock are held by Persons other than (A) the Company, in the case of the Subsidiaries of the Company, or (B) the Company’s Subsidiaries, in the case of such Subsidiaries’ respective Subsidiaries, or (ii) the making of any principal payment on, or the repurchase, redemption, defeasance or other acquisition or retirement for value of any such shares of capital stock or any option, warrant or other right to acquire any such shares of capital stock of the Company or any of its Subsidiaries, (iii) the making of any principal payment on, or the repurchase, redemption, defeasance or other acquisition or retirement for value of, prior to any scheduled principal payment, sinking fund payment or maturity, any Indebtedness of the Company that is by its terms subordinated to the Notes, or (iv) the making of any Investment.

“Rule 144” means Rule 144 under the Securities Act (or any successor provision), as it may be amended from time to time.

“Rule 144A” means Rule 144A under the Securities Act (or any successor provision), as it may be amended from time to time.

“S&P” means Standard & Poor’s, a division of The McGraw-Hill Companies Inc. or any successor thereto.

“Sale and Leaseback Transaction” means any arrangement with any Person (other than the Company or a Subsidiary), or to which any such Person is a party, providing for the leasing to the Company or a Subsidiary for a period of more than three years of any property or assets which property or assets have been or are to be sold or transferred by the Company or such Subsidiary to such Person or to any other Person (other than the Company or a Subsidiary) to which funds have been or are to be advanced by such Person on the security of the leased property or assets.

“Securities Act” means the U.S. Securities Act of 1933 and any statute successor thereto, in each case as amended from time to time and the rules and regulations promulgated thereunder.

“Securities Act Legend” means a Restricted Notes Legend or a Regulation S Legend.

“Special Record Date” for the payment of any Defaulted Interest means a date fixed by the Trustee pursuant to Section 3.8.

“Specified Currency” has the meaning specified in Section 5.16.

“Stated Maturity”, when used with respect to any Note or any installment of principal thereof or interest thereon, means the date specified in such Note as the fixed date on which the principal of such Note or such installment of principal or interest is due and payable.

“Statutory Auditor” means the internal auditors (*síndicos*) of the Company appointed pursuant to Section 284 of the Argentine Companies Law.

“Subsidiary” means a corporation more than 50% of the outstanding voting stock of which is Controlled, directly or indirectly, by the Company or by one or more of its other Subsidiaries, or by the Company and one or more of its other Subsidiaries. For the purposes of this definition, **“voting stock”** means stock which ordinarily has voting power for the election of directors, whether at all times or only so long as no senior class of stock has such voting power by reason of any contingency.

“Suspended Covenants” has the meaning specified in Section 10.22.

“Taxes” has the meaning specified in Section 10.2.

“Technical Assistance Agreement” means the Technical Assistance Agreement, dated as of December 28, 1992, between the Company and Enron Pipeline Company Argentina S.A., as amended, and as assigned to Petrobras Energía S.A. on July 15, 2004.

“Temporary Cash Investments” means any of the following:

- (1) any investment in direct obligations of the United States or any agency thereof or obligations guaranteed by the United States or any agency thereof;
- (2) investments in time deposit accounts, certificates of deposit and money market deposits issued by a bank or trust company that is organized under the laws of the United States, any state thereof or any foreign country recognized by the United States (in all events not excluding Argentina) having capital, surplus and undivided profits aggregating in excess of US\$50.0 million (or the foreign currency equivalent thereof) and whose long-term debt is rated “A” (or such similar equivalent rating, including similar equivalent ratings in foreign countries) or higher by at least one Nationally Recognized Statistical Rating Organization;
- (3) (i) demand deposits, (ii) time deposits and certificates of deposit with maturities of one year or less from the date of acquisition, (iii) bankers’ acceptances with maturities not exceeding one year from

the date of acquisition, and (iv) overnight bank deposits, in each case with any bank or trust company organized or licensed under the laws of the United States or any state thereof or under the laws of any member state of the European Union, or under the laws of any country in which the Company has operations in each case whose head office's senior short term debt is rated "BBB+" or higher or such similar equivalent or higher rating by at least one Rating Agency or whose local national scale rating for senior short term debt is BBB+ or higher or such similar equivalent or higher rating; and provided, further, that in the event that no bank or trust company in such country has a local rating of BBB+ or higher or such similar equivalent or higher rating, then this clause shall apply to the three highest rated banks in the relevant country;

(4) repurchase obligations with a term of not more than 30 days for underlying securities of the types described in clause (1) above entered into with a bank meeting the qualifications described in clause (2) above;

(5) investments in commercial paper, maturing not more than 90 days after the date of acquisition, issued by a corporation (other than an Affiliate of the Company) organized and in existence under the laws of the United States, Argentina or any other foreign country recognized by the United States with a rating at the time as of which any investment therein is made of "P-1" (or higher) according to Moody's or "A-1" (or higher) according to S&P (or such similar equivalent rating, including similar equivalent ratings in foreign countries);

(6) investments in securities with maturities of six months or less from the date of acquisition issued or fully guaranteed by any state, commonwealth or territory of the United States or any member of the Organisation for Economic Co-operation and Development, or by any political subdivision or taxing authority thereof, and rated at least "A" by S&P or "A" by Moody's (or such similar equivalent rating);

(7) investments in securities with maturities of six months or less from the date of acquisition issued or fully guaranteed by Argentina; and

(8) investments in money market funds substantially all the assets of which are comprised of investments of the types described in clauses (1) through (7) above.

"Trust Indenture Act" means the Trust Indenture Act of 1939 as in force at the date as of which this instrument was executed; *provided, however*, that in the event the Trust Indenture Act of 1939 is amended after such date, **"Trust Indenture Act"** means, to the extent required by any such amendment, the Trust Indenture Act of 1939 as so amended.

"Trustee" means the Person named as the "Trustee" in the preamble to this Indenture until a successor Trustee shall have become such pursuant to the applicable provisions of this Indenture, and thereafter "Trustee" shall mean or include each Person who is then a Trustee hereunder, and if at any time there is more than one such Person, "Trustee" as used with respect to the Notes of any series shall mean the Trustee with respect to Notes of that series.

"Trustee's Representative" has the meaning specified in Section 1.5.

"U.S. Dollars", **"United States Dollars"**, **"US\$"** and the symbol **"\$"** each mean the lawful currency of the United States of America.

"U.S. Dollar Equivalent" means, as of any date of determination and with respect to any non-U.S. Dollar-denominated amount, the amount of U.S. Dollars obtained by converting such foreign currency into U.S. Dollars at the exchange rate for the selling of U.S. Dollars on the Business Day immediately preceding such date of determination, (i) with respect to Pesos, as reported by *Banco de la Nación Argentina*, and (ii) with respect to any other currency, as reported by Bloomberg LP, Reuters Group PLC or (if such information is not reported by Bloomberg LP or Reuters Group PLC) such other internationally recognized service for the publication of exchange rate data or information, as the Company may reasonably determine; *provided, however*, that if exchange rate data or information is not available as of such date of determination as a result of market conditions or otherwise, then the U.S. Dollar Equivalent shall be determined by reference to exchange rate data or information that is available on the first Business Day immediately preceding such date of determination.

“U.S. Government Obligations” means direct obligations (or certificates representing an ownership interest in such obligations) of the United States (including any agency or instrumentality thereof) for the payment of which the full faith and credit of the United States is pledged and that are not callable or redeemable at the issuer’s option.

“Voting Stock” of a Person means all classes of Capital Stock or other interests (including partnership interests) of such Person then outstanding and normally entitled (without regard to the occurrence of any contingency) to vote in the election of directors, managers or trustees thereof.

Compliance Certificates and Opinions

Upon any application or request by the Company to the Trustee to take any action under any provision of this Indenture, the Company shall furnish to the Trustee such certificates and opinions as may be required under the Trust Indenture Act. Each such certificate or opinion shall be given in the form of an Officers’ Certificate, if to be given by an officer of the Company, or an Opinion of Counsel, if to be given by counsel, and shall comply with the requirements of the Trust Indenture Act and any other requirements set forth in this Indenture.

Every certificate or opinion with respect to compliance with a condition or covenant provided for in this Indenture shall include:

- a statement that each individual signing such certificate or opinion has read such covenant or condition and the definitions herein relating thereto;
- a brief statement as to the nature and scope of the examination or investigation upon which the statements or opinions contained in such certificate or opinion are based;
- a statement that, in the opinion of each such individual, he has made such examination or investigation as is necessary to enable him to express an informed opinion as to whether or not such covenant or condition has been complied with; and
- a statement as to whether, in the opinion of each such individual, such condition or covenant has been complied with.

Form of Documents Delivered to Trustee

In any case where several matters are required to be certified by, or covered by an opinion of, any specified Person, it is not necessary that all such matters be certified by, or covered by the opinion of, only one such Person, or that they be so certified or covered by only one document, but one such Person may certify or give an opinion with respect to some matters and one or more other such Persons as to other matters, and any such Person may certify or give an opinion as to such matters in one or several documents.

Any certificate or opinion of an officer of the Company may be based, insofar as it relates to legal matters, upon a certificate or opinion of, or representations by, counsel, unless such officer knows, or in the exercise of reasonable care should know, that the certificate or opinion or representations with respect to the matters upon which his certificate or opinion is based are erroneous. Any such certificate or opinion of counsel may be based, insofar as it relates to factual matters, upon a certificate or opinion of, or representations by, an officer or officers of the Company stating that the information with respect to such factual matters is in the possession of the Company, unless such counsel knows, or in the exercise of reasonable care should know, that the certificate or opinion or representations with respect to such matters are erroneous.

Where any Person is required to make, give or execute two or more applications, requests, consents, certificates, statements, opinions or other instruments under this Indenture, they may, but need not, be consolidated and form one instrument.

Acts of Holders; Record Dates

Any request, demand, authorization, direction, notice, consent, waiver or other action provided or permitted by this Indenture to be given, made or taken by Holders, must be given, made or taken pursuant to a meeting of such Holders in accordance with the requirements of Section 9.6; *provided, however*, that, notwithstanding anything herein to the contrary, to the extent permitted by Argentine law (as of the date hereof or in the future), any request, demand, authorization, direction, notice, consent, waiver or other action provided or permitted by this Indenture to be given, made or taken by Holders may be embodied in and evidenced by one

or more instruments of substantially similar tenor signed by such Holders in person or by an agent duly appointed in writing; and, except as herein otherwise expressly provided, such action shall become effective when such instrument or instruments are delivered to the Trustee and, where it is hereby expressly required, to the Company. Such instrument or instruments (and the action embodied therein and evidenced thereby) are herein sometimes referred to as the “**Act**” of the Holder signing such instrument or instruments. Proof of execution of any such instrument or of a writing appointing any such agent shall be sufficient for any purpose of this Indenture and (subject to Section 6.1) conclusive in favor of the Trustee and the Company, if made in the manner provided in this Section.

The fact and date of the execution by any Person of any such instrument or writing may be proved by the affidavit of a witness of such execution or by a certificate of a notary public or other officer authorized by law to take acknowledgments of deeds, certifying that the individual signing such instrument or writing acknowledged to him the execution thereof. Where such execution is by a signer acting in a capacity other than his individual capacity, such certificate or affidavit shall also constitute sufficient proof of his authority. The fact and date of the execution of any such instrument or writing, or the authority of the Person executing the same, may also be proved in any other manner which the Trustee deems sufficient.

The ownership of Notes shall be proved by the Note Register.

Any request, demand, authorization, direction, notice, consent, waiver or other action of the Holder of any Note, whether taken pursuant to a meeting of Holders or pursuant to an Act of Holders, shall bind every future Holder of the same Note and the Holder of every Note issued upon the registration of transfer thereof or in exchange therefor or in lieu thereof in respect of anything done, omitted or suffered to be done by the Trustee or the Company in reliance thereon, whether or not notation of such action is made upon such Note.

The Company may, in accordance with applicable provisions of Argentine law, if any, set any day as a record date for the purpose of determining the Holders of Outstanding Notes of any series entitled to give, make or take any request, demand, authorization, direction, notice, consent, waiver or other action provided or permitted by this Indenture to be given, made or taken by Holders of Notes of such series; *provided* that the Company may not set a record date for, and the provisions of this paragraph shall not apply with respect to, the giving or making of any notice, declaration, request or direction referred to in the next paragraph. If any record date is set pursuant to this paragraph, the Holders of Outstanding Notes of the relevant series on such record date, and no other Holders, shall be entitled to take the relevant action, whether or not such Holders remain Holders after such record date; *provided*, that no such action shall be effective hereunder unless taken on or prior to the applicable Expiration Date (as defined below) by Holders of the requisite principal amount of Outstanding Notes of such series on such record date. Nothing in this paragraph shall be construed to prevent the Company from setting a new record date for any action for which a record date has previously been set pursuant to this paragraph (whereupon the record date previously set shall automatically and with no action by any Person be cancelled and of no effect), and nothing in this paragraph shall be construed to render ineffective any action taken by Holders of the requisite principal amount of Outstanding Notes of the relevant series on the date such action is taken. Promptly after any record date is set pursuant to this paragraph, the Company, at its own expense, shall cause notice of such record date, the proposed action by Holders and the applicable Expiration Date to be given to the Trustee in writing and to each Holder of Notes of the relevant series in the manner set forth in Section 1.6.

The Trustee may set any day as a record date for the purpose of determining the Holders of Outstanding Notes of any series entitled to join in the giving or making of (i) any Notice of Default, (ii) any declaration of acceleration referred to in Section 5.2, (iii) any request to institute proceedings referred to in Section 5.7 or (iv) any direction referred to in Section 5.12, in each case with respect to Notes of such series. If any record date is set pursuant to this paragraph, the Holders of Outstanding Notes of such series on such record date, and no other Holders, shall be entitled to join in such notice, declaration, request or direction, whether or not such Holders remain Holders after such record date; *provided*, that no such action shall be effective hereunder unless taken on or prior to the applicable Expiration Date by Holders of the requisite principal amount of Outstanding Notes of such series on such record date. Nothing in this paragraph shall be construed to prevent the Trustee from setting a new record date for any action for which a record date has previously been set pursuant to this paragraph (whereupon the record date previously set shall automatically and with no action by any Person be cancelled and of no effect), and nothing in this paragraph shall be construed to render ineffective any action taken by Holders of the requisite principal amount of Outstanding Notes of the relevant series on the date such action is taken. Promptly after any record date is set pursuant to this paragraph, the Trustee, at the Company’s expense, shall cause notice of such record date, the proposed action by Holders and the applicable Expiration Date to be given to the Company in writing and to each Holder of Notes of the relevant series in the manner set forth in Section 1.6.

With respect to any record date set pursuant to this Section, the party hereto which sets such record dates may designate any day as the “**Expiration Date**” and from time to time may change the Expiration Date to any earlier or later day; *provided*, that no such change shall be effective unless notice of the proposed new Expiration Date is given to the other party hereto in writing, and to each Holder of Notes of the relevant series in the manner set forth in Section 1.6, on or prior to the existing Expiration Date. If an Expiration Date is not designated with respect to any record date set pursuant to this Section, the party hereto which set such record date shall be deemed to have initially designated the 180th day after such record date as the Expiration Date with respect thereto, subject to its right to change the Expiration Date as provided in this paragraph. Notwithstanding the foregoing, no Expiration Date shall be later than the 180th day after the applicable record date.

In addition, record dates for a Global Note may be set in accordance with the Applicable Procedures of the Depositary.

Without limiting the foregoing, a Holder entitled hereunder to take any action hereunder with regard to any particular Note may do so with regard to all or any part of the principal amount of such Note or by one or more duly appointed agents each of which may do so pursuant to such appointment with regard to all or any part of such principal amount.

Notices, Etc., to Trustee and Company

Any request, demand, authorization, direction, notice, consent, waiver or Act of Holders or other document provided or permitted by this Indenture to be made upon, given or furnished to, or filed with,

- the Trustee or Co-Registrar by any Holder or by the Company or the Registrar shall be sufficient for every purpose hereunder if made, given, furnished or filed in writing to or with the Trustee or Co-Registrar at its Corporate Trust Office, Attention: Corporate Trust, or
- the Registrar by any Holder or by the Company, the Trustee or the Co-Registrar shall be sufficient for every purpose hereunder if made, given, furnished or filed in writing to or with the Registrar at its principal office currently located at Bartolome Mitre 480, Buenos Aires, Argentina, Attention: Mr. Eduardo Rodriguez Sapey, or
- the Company by the Trustee, Co-Registrar, Registrar or by any Holder shall be sufficient for every purpose hereunder (unless otherwise herein expressly provided) if in writing and mailed, first-class postage prepaid, to the Company addressed to it at the address of its principal office located at Don Bosco 3672, 5th Floor, Buenos Aires (C1206ABF), Argentina, Attention: Carlos Ariosa, or at any other address previously furnished in writing to the Trustee by the Company.

As long as it is required by Argentine law or by the CNV, Banco Santander Río S.A., with domicile in Bartolomé Mitre 480, City of Buenos Aires, República Argentina, will act as the Trustee’s representative (the “**Trustee’s Representative**”) in Argentina for the purpose of receiving communications in respect of this Indenture or the Notes from Argentine residents or the CNV.

Notice to Holders; Waiver

Where this Indenture provides for notice to Holders (other than any Holder whose address, as it appears in the Note Register, is located in Argentina) of any event, such notice shall be sufficiently given (unless otherwise herein expressly provided) if in writing and mailed by U.S. first-class postage prepaid, to each Holder affected by such event, at his or her address as it appears in the Note Register, not later than the latest date (if any), and not earlier than the earliest date (if any), prescribed hereunder or in the terms of the relevant Notes for the giving of such notice. In any case where notice to Holders is given by mail, neither the failure to mail such notice, nor any defect in any notice so mailed, to any particular Holder shall affect the sufficiency of such notice with respect to other Holders. Where this Indenture provides for notice in any manner, such notice may be waived in writing by the Person entitled to receive such notice, either before or after the event, and such waiver shall be the equivalent of such notice. Waivers of notice by Holders shall be filed with the Trustee, but such filing shall not be a condition precedent to the validity of any action taken in reliance upon such waiver.

Notice to Holders whose addresses, as they appear in the Note Register, are located in Argentina will be deemed to have been duly given if made in accordance with the methods described in Clauses (i), (iii) or (iv) of the following sentence. Notice to Holders will also be published as follows: (i) in a leading newspaper

having general circulation in Buenos Aires, Argentina (which is expected to be *La Nación*) and, to the extent required by Argentine law, in the *Official Gazette of Argentina*; (ii) as long as any Notes of the relevant series are listed on the Bolsa, and the rules of such exchange so require, in the *Daily Bulletin* of the Bolsa; (iii) as long as any Notes of the relevant series are listed on any other stock exchange, as required by such stock exchange; and (iv) in any other manner required by the provisions of the Negotiable Obligations Law.

In case by reason of the suspension or irregularities of regular mail service or by reason of any other cause it shall be impracticable to give such notice by mail, then such notification as shall be made with the approval of the Trustee shall constitute a sufficient notification for every purpose hereunder.

Where this Indenture provides for notice of any event to a Holder of a Global Note, such notice shall be sufficiently given if given to the Depositary for such Note (or its designee), pursuant to its Applicable Procedures, not later than the latest date (if any), and not earlier than the earliest date (if any), prescribed for the giving of such notice.

Notice to be given by any Holder shall be in writing and given by forwarding the same to the Trustee or Paying Agent. With respect to any Notes that are represented by a Global Note, such notice may be given by any owner of an interest in such Global Note to the Trustee or any such Paying Agent via DTC in such manner as the Trustee or Paying Agent, as the case may be, and DTC may approve for such purpose.

The Trustee, the Co-Registrar, the Registrar, any Paying Agent, any Transfer Agent or any agent of any of such entities may conclusively rely on the records of DTC, Euroclear, Clearstream, Luxembourg or Caja de Valores S.A., as applicable, as to the identity of owners of beneficial interests in each Global Note and the principal amounts beneficially owned.

Effect of Headings and Table of Contents

The Article and Section headings herein and the Table of Contents are for convenience only and shall not affect the construction hereof.

Successors and Assigns

All covenants and agreements in this Indenture by the Company shall bind its successors and assigns, whether so expressed or not.

Separability Clause

In case any provision in this Indenture or in the Notes shall be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

Benefits of Indenture

Nothing in this Indenture or in the Notes, express or implied, shall give to any Person, other than the parties hereto and their successors hereunder and the Holders, any benefit or any legal or equitable right, remedy or claim under this Indenture.

Governing Law

The Negotiable Obligations Law shall govern the requirements for the Notes to qualify as *obligaciones negociables* ("negotiable obligations") thereunder. The Negotiable Obligations Law, together with the Argentine Companies Law, as amended, the Public Offering Law 17,811, the Joint Resolution N°470-1738/2004 as amended by Joint Resolution N° 500-2222/2007 issued by the CNV and the Argentine Administración Federal de Ingresos Públicos (the Argentine Tax Authority) and other applicable Argentine laws and regulations shall govern the Company's capacity and corporate authorization to execute and deliver the Notes, the offering of the Notes in Argentina and matters relating to meetings of Holders. All other matters with respect to the Notes and this Indenture shall be governed by, and construed in accordance with, the laws of the State of New York, United States of America.

Legal Holidays

In any case where any Interest Payment Date, Redemption Date or Stated Maturity of any Note shall not be a Business Day, then (notwithstanding any other provision of this Indenture or of the Notes (other than a provision of any Note which specifically states that such provision shall apply in lieu of this Section)) payment of interest or principal (and premium, if any) need not be made on such date, but may be made on the next succeeding Business Day with the same force and effect as if made on the Interest Payment Date or Redemption Date, or at the Stated Maturity.

Foreign Exchange Restrictions

In the event of any foreign exchange restriction or prohibition in Argentina, the Company shall make any and all payments in respect of interest on or principal of the Notes, to the extent permitted by applicable law, in U.S. Dollars by:

- (i) purchasing, with Pesos or other legal currency of Argentina, any public or private securities issued by Argentina and payable in U.S. Dollars and selling such instruments outside of Argentina for U.S. Dollars, or
- (ii) any other legal mechanism for the acquisition of U.S. Dollars in any exchange market.

All costs and taxes in connection with the transactions described above shall be borne by the Company. The Company's payment obligations under the Notes may only be deemed satisfied and discharged upon receipt by the relevant Holder or the Trustee, as the case may be, of the U.S. Dollar amounts obtained through the transactions specified in Clause (i) or (ii) above necessary to satisfy the relevant amount owing on the Notes.

Consent to Jurisdiction and Service of Process

The Company irrevocably consents to the non-exclusive jurisdiction of any court of the State of New York or any United States federal court sitting in the Borough of Manhattan, New York City, New York, United States, and any appellate court from any thereof, or any Argentine court sitting in Buenos Aires, Argentina, including the ordinary courts for commercial matters and, if the Notes are listed on the Bolsa, the *Tribunal de Arbitraje General de la Bolsa de Comercio de Buenos Aires* (Permanent Arbitral Tribunal of the Bolsa) under the provisions of Article 38 of Argentine Decree No. 677/2001 and waives any immunity from the jurisdiction of such courts over any suit, action or proceeding that may be brought in connection with this Indenture or the Notes. The Company irrevocably waives, to the fullest extent permitted by law, any objection to any such suit, action, or proceeding that may be brought in connection with this Indenture or the Notes in such courts whether on the grounds of venue, residence or domicile or on the ground that any such suit, action or proceeding has been brought in an inconvenient forum. The Company agrees that final judgment in any such suit, action or proceeding brought in such court shall be conclusive and binding upon the Company and may be enforced in any court to the jurisdiction of which the Company or its assets or properties is subject by a suit upon such judgment; *provided*, that service of process is effected upon the Company in the manner provided by this Indenture.

The Company agrees that service of all writs, process and summonses in any suit, action or proceeding brought in connection with this Indenture or the Notes against the Company (a) in any court of the State of New York or any United States federal court sitting in the Borough of Manhattan, New York City may be made upon Law Debenture Corporate Services Inc. at 400 Madison, 4th Floor, New York, New York 10017, whom the Company irrevocably appoints as its authorized agent for service of process and (b) in any competent court in Argentina or in the arbitrators' tribunal of the Bolsa in Argentina, may be made at the Company's legal domicile at Don Bosco 3672, 5th floor, (C1206ABF) Buenos Aires, Argentina. The Company represents and warrants that Law Debenture Corporate Services Inc. has agreed to act as the Company's agent for service of process. The Company agrees that such appointment shall be irrevocable so long as any of the Notes remain Outstanding or until the irrevocable appointment by the Company of a successor in the State of New York as its authorized agent for such purposes and the acceptance of such appointment by such successor. The Company further agrees to take any and all action, including the filing of any and all documents and instruments, which may be necessary to continue such appointment in full force and effect as aforesaid. If Law Debenture Corporate Services Inc. shall cease to act as the Company's agent for service of process, the Company shall appoint without delay another such agent and provide notice to the Trustee of such appointment. With respect to any such action in any court of the State of New York or any United States federal court in the Borough of Manhattan, New York City, service of process upon Law Debenture Corporate Services Inc., as the authorized

agent for the Company for service of process and written notice of such service to the Company, shall be deemed, in every respect, effective service of process upon the Company.

Nothing in this Section shall affect the right of any party to serve legal process in any other manner permitted by law or affect the right of any party to bring any action or proceeding against any other party or its property in the courts of other jurisdictions.

Resignation and Appointment of Agents

The Company may terminate at any time the appointment of any or all of the Registrar, Co-Registrar, Principal Paying Agent, and any Paying Agent and any Transfer Agent, with or without cause, by giving to the Registrar, Co-Registrar, Principal Paying Agent, Paying Agent or the Transfer Agent, as the case may be, at least 90 days' prior written notice to that effect; *provided*, that (i) in the case of termination of the appointment of the Registrar or the Co-Registrar, no such notice shall take effect until a new Registrar or Co-Registrar, as the case may be, has been appointed and has accepted such appointment, and (ii) the effective date of such termination may not occur within 21 days before or after an Interest Payment Date nor during such time as an Event of Default shall have occurred and be continuing.

The Registrar, Co-Registrar, Principal Paying Agent, any Paying Agent, and any Transfer Agent may at any time resign from such capacities by giving written notice to the Company, specifying the date on which its desired resignation shall become effective, *provided, however*, that (i) such date shall never be less than 90 days from the date on which such notice is received by the Company, unless the Company agrees to accept less notice, (ii) the effective date of such resignation may not occur within 21 days before or after an Interest Payment Date and (iii) in any event, the resignation may not take effect prior to the appointment of a successor Registrar, Co-Registrar, Principal Paying Agent, Paying Agent or Transfer Agent, as the case may be, and the acceptance thereof of such appointment.

If the Registrar, Co-Registrar, Principal Paying Agent, any Paying Agent or any Transfer Agent, as the case may be, resigns or is removed and the Company has not appointed a successor agent within 15 days of the expiration of the relevant notice, then the relevant Registrar, Co-Registrar, Principal Paying Agent, Paying Agent, or Transfer Agent, as the case may be, may appoint, or may petition a court of competent jurisdiction for the appointment of, a reputable institution as the successor agent. Upon its removal or resignation, the Registrar, Co-Registrar, Principal Paying Agent, any Paying Agent or any Transfer Agent, as the case may be, shall be entitled to the payment by the Company of its compensation and indemnification for the services rendered hereunder.

As long as any series of Notes is Outstanding, the Company will maintain a co-registrar, a paying agent and a transfer agent in New York City, New York, United States. Initially, Law Debenture Trust Company of New York shall act as such Co-Registrar, Paying Agent and Transfer Agent in New York City, New York, United States. As long as it is required by Argentine law or by the CNV, the Company will maintain a registrar, a paying agent, a transfer agent and a representative of the Trustee in Buenos Aires, Argentina. Initially, Banco Santander Río S.A. shall act as such Registrar, Paying Agent, Transfer Agent and representative of the Trustee in Buenos Aires, Argentina.

The Company shall give notice of each resignation and each removal of any Paying Agent or Transfer Agent with respect to Notes of any series and each appointment of a successor Paying Agent or Transfer Agent with respect to the Notes of any series to all Holders of Notes of such series in the manner provided in Section 1.6, to the CNV and to any stock exchange on which any Notes are then listed or traded.

2. Form of Notes

Forms Generally

The Notes of each series shall be substantially in the form established by or pursuant to a Board Resolution or in one or more indentures supplemental hereto, in each case with such appropriate insertions, omissions, substitutions and other variations as are required or permitted by this Indenture or any indenture supplemental hereto and may have such letters, numbers or other marks of identification and such legends or endorsements placed thereon as may be required to comply with the rules of any securities exchange or Depositary therefor or as may, consistently herewith, be determined by the officers executing such Notes, as evidenced by their execution thereof. If the form of Notes of any series is established by action taken pursuant to a Board Resolution, the Company shall deliver such Board Resolution to the Trustee at or prior to the delivery of the Company Order contemplated by Section 3.3 for the authentication and delivery of such Notes.

The definitive Notes shall be printed, lithographed or engraved on steel engraved borders or may be produced in any other manner permitted by the rules under any applicable securities law or of any securities exchange on which the Notes may be listed and subject to the prior approval of the CNV where applicable, all as determined by the director and Statutory Auditor of the Company executing such Notes, as evidenced by their execution of such Notes.

Regulation S Global Note

Notes of a series to be issued and sold in transactions outside the United States in reliance on Regulation S shall be issued in the form of one or more global Notes in fully registered form without interest coupons (the “**Regulation S Global Notes**”), with such legends as may be applicable thereto, which shall be deposited on behalf of the subscribers for the Notes represented thereby with the Trustee, as custodian for the Depositary, and registered in the name of the Depositary or its nominee, duly executed by the Company and authenticated by the Trustee in the manner set forth in Section 33 hereof. Until the expiration of the Distribution Compliance Period, interest in such Regulation S Global Note may only be held by the Agent Members of Euroclear and Clearstream, Luxembourg, unless transfer and delivery is made in the form of an interest in the Restricted Global Note (as defined below) in accordance with the requirements set forth in Section 3.5(b)(ii). The aggregate principal amount of the Regulation S Global Note may from time to time be increased or decreased by adjustments made on the records of the Trustee, as custodian for the Depositary or its nominee, as the case may be, as hereinafter provided.

Restricted Global Note

Notes of a series to be sold in reliance on Rule 144A shall be issued in the form of global Notes in fully registered form without interest coupons (the “**Restricted Global Notes**” and, together with the Regulation S Global Note, the “**Global Notes**”), with such legends as may be applicable thereto, which shall be deposited on behalf of the subscribers for the Notes represented thereby with the Trustee, as custodian for the Depositary, and registered in the name of the Depositary or its nominee, duly executed by the Company and authenticated by the Trustee in the manner set forth in Section 3.3. hereof. The aggregate principal amount of the Restricted Global Note may from time to time be increased or decreased by adjustments made on the records of the Trustee, as custodian for the Depositary or its nominee, as the case may be, as hereinafter provided.

Form of Trustee’s Certificate of Authentication

The Trustee’s certificates of authentication shall be in substantially the following form:

This is one of the Notes of the series designated therein referred to in the within-mentioned Indenture.

LAW DEBENTURE TRUST COMPANY OF NEW YORK, not in its individual capacity but solely as Trustee

By
Authorized Officer

3. The Notes

Amount Issuable in Series

The aggregate principal amount of Notes which may be authenticated and delivered under this Indenture from time to time is unlimited.

The Notes may be issued in one or more series. There shall be established in or pursuant to a Board Resolution and, subject to Section 3.3, set forth, or determined in the manner provided, in an Officers’ Certificate, or established in one or more indentures supplemental hereto, prior to the issuance of Notes of any series,

- the title of the Notes of the series (which shall distinguish the Notes of the series from Notes of any other series);
- any limit upon the aggregate principal amount of the Notes of the series which may be authenticated and delivered under this Indenture (except for Notes authenticated and delivered upon registration of transfer of, or in exchange for, or in lieu of, other Notes of the series

pursuant to Section 3.4, 3.5, 3.6, 3.7, 9.5 or 11.7 and except for any Notes which, pursuant to Section 3.3, are deemed never to have been authenticated and delivered hereunder);

- the Person to whom any interest on a Note of the series shall be payable, if other than the Person in whose name that Note (or one or more Predecessor Notes) is registered at the close of business on the Regular Record Date for such interest;
- the date or dates on which the principal of any Notes of the series is payable;
- the rate or rates at which any Notes of the series shall bear interest, if any, the date or dates from which any such interest shall accrue, the Interest Payment Dates on which any such interest shall be payable and the Regular Record Date for any such interest payable on any Interest Payment Date;
- the place or places where the principal of and any premium and interest on any Notes of the series shall be payable and the manner in which any payment may be made;
- the period or periods within which, the price or prices at which and the terms and conditions upon which any Notes of the series may be redeemed, in whole or in part, at the option of the Company and, if other than by a Board Resolution, the manner in which any election by the Company to redeem the Notes shall be evidenced;
- the obligation, if any, of the Company to redeem or purchase any Notes of the series pursuant to any sinking fund or analogous provisions or at the option of the Holder thereof and the period or periods within which, the price or prices at which and the terms and conditions upon which any Notes of the series shall be redeemed or purchased, in whole or in part, pursuant to such obligation;
- if other than denominations of US\$2,000 and integral multiples of US\$1,000 thereafter, the denominations in which any Notes of the series shall be issuable;
- if the amount of principal of or any premium or interest on any Notes of the series may be determined with reference to an index or pursuant to a formula, the manner in which such amounts shall be determined;
- if other than the currency of the United States of America, the Specified Currency in which the principal of or any premium or interest on any Notes of the series shall be payable and the manner of determining the equivalent thereof in the currency of the United States of America for any purpose, including for purposes of the definition of “Outstanding” in Section 1.1;
- if the principal of or any premium or interest on any Notes of the series is to be payable, at the election of the Company or the Holder thereof, in one or more currencies or currency units other than that or those in which such Notes are stated to be payable, the currency, currencies or currency units in which the principal of or any premium or interest on such Notes as to which such election is made shall be payable, the periods within which and the terms and conditions upon which such election is to be made and the amount so payable (or the manner in which such amount shall be determined);
- if other than the entire principal amount thereof, the portion of the principal amount of any Notes of the series which shall be payable upon declaration of acceleration of the Maturity thereof pursuant to Section 5.2;
- if the principal amount payable at the Stated Maturity of any Notes of the series will not be determinable as of any one or more dates prior to the Stated Maturity, the amount which shall be deemed to be the principal amount of such Notes as of any such date for any purpose thereunder or hereunder, including the principal amount thereof which shall be due and payable upon any Maturity other than the Stated Maturity or which shall be deemed to be Outstanding as of any date prior to the Stated Maturity (or, in any such case, the manner in which such amount deemed to be the principal amount shall be determined);
- if applicable, that the Notes of the series, in whole or any specified part, shall be defeasible pursuant to Section 13.2 or Section 13.3 or both such Sections and, if other than by a Board

Resolution, the manner in which any election by the Company to defease such Notes shall be evidenced;

- if applicable, that any Notes of the series shall be issuable in whole or in part in the form of one or more Global Notes and, in such case, the respective Depositaries for such Global Notes, the form of any legend or legends which shall be borne by any such Global Note and any circumstances in addition to or in lieu of those set forth in Section 3.6 in which any such Global Note may be exchanged in whole or in part for Notes registered, and any transfer of such Global Note in whole or in part may be registered, in the name or names of Persons other than the Depositary for such Global Note or a nominee thereof;
- any addition to or change in the Events of Default which applies to any Notes of the series and any change in the right of the Trustee or the requisite Holders of such Notes to declare the principal amount thereof due and payable pursuant to Section 5.2;
- any addition to or change in the covenants set forth in Article Ten which applies to Notes of the series; and
- any other terms of the series (which terms shall not be inconsistent with the provisions of this Indenture, except as permitted by Section 9.1(4)).

All Notes of any one series shall be substantially identical except as to denomination and except as may otherwise be provided in or pursuant to the Board Resolution referred to above and (subject to Section 3.3) set forth, or determined in the manner provided, in the Officers' Certificate referred to above or in any such indenture supplemental hereto.

If any of the terms of the series are established by action taken pursuant to a Board Resolution, a copy of an appropriate record of such action shall be certified by the Director of Legal Affairs of the Company or any Senior Counsel of the Company and delivered to the Trustee at or prior to the delivery of the Officers' Certificate setting forth the terms of the series.

Denominations

The Notes of each series shall be issuable only in fully registered form without coupons and only in such denominations as shall be specified as contemplated by Section 3.1. In the absence of any such specified denomination with respect to the Notes of any series, the Notes of such series shall be issuable in denominations of US\$2,000 and integral multiples of US\$1,000 thereafter.

Execution, Authentication, Delivery and Dating

The Notes shall be executed on behalf of the Company by a director and a Statutory Auditor of the Company (the "*Authorized Officers*"). The signature of any of these officers on the Notes may be manual or facsimile, subject in the latter case to the receipt of any required approval by the CNV.

Notes bearing the manual or facsimile signatures of individuals who were at the time of execution of the Notes the proper Authorized Officers of the Company shall bind the Company, notwithstanding that such individuals or any of them have ceased to hold such offices prior to the authentication and delivery of such Notes.

At any time and from time to time after the execution and delivery of this Indenture, the Company may deliver Notes of any series executed by the Company to the Trustee for authentication, together with a Company Order for the authentication and delivery of such Notes, and the Trustee in accordance with the Company Order shall authenticate and deliver such Notes. If the form or terms of the Notes of the series have been established by or pursuant to one or more Board Resolutions as permitted by Sections 2.1 and 3.1, in authenticating such Notes, and accepting the additional responsibilities under this Indenture in relation to such Notes, the Trustee shall be entitled to receive, and (subject to Section 6.1) shall be fully protected in relying upon, an Opinion of Counsel stating:

- if the form of such Notes has been established by or pursuant to Board Resolution as permitted by Section 2.1, that such form has been established in conformity with the provisions of this Indenture;

- if the terms of such Notes have been established by or pursuant to Board Resolution as permitted by Section 3.1, that such terms have been established in conformity with the provisions of this Indenture; and
- that such Notes, when authenticated and delivered by the Trustee and issued by the Company in the manner and subject to any conditions specified in such Opinion of Counsel, will constitute valid and legally binding obligations of the Company enforceable in accordance with their terms, subject to bankruptcy, insolvency, fraudulent transfer, reorganization, moratorium and similar laws of general applicability relating to or affecting creditors' rights and to general equity principles.

If such form or terms have been so established, the Trustee shall not be required to authenticate such Notes if the issue of such Notes pursuant to this Indenture will affect the Trustee's own rights, duties or immunities under the Notes and this Indenture or otherwise in a manner which is not reasonably acceptable to the Trustee.

Notwithstanding the provisions of Section 3.1 and of the preceding paragraph, if all Notes of a series are not to be originally issued at one time, it shall not be necessary to deliver the Officers' Certificate otherwise required pursuant to Section 3.1 or the Company Order and Opinion of Counsel otherwise required pursuant to such preceding paragraph at or prior to the authentication of each Note of such series if such documents are delivered at or prior to the authentication upon original issuance of the first Note of such series to be issued.

Each Note shall be dated the date of its authentication.

No Note shall be entitled to any benefit under this Indenture or be valid or obligatory for any purpose unless there appears on such Note a certificate of authentication substantially in the form provided for herein executed by the Trustee by manual signature of an authorized signatory of the Trustee, and such certificate upon any Note shall be conclusive evidence, and the only evidence, that such Note has been duly authenticated and delivered hereunder. Notwithstanding the foregoing, if any Note shall have been authenticated and delivered hereunder but never issued and sold by the Company, and the Company shall deliver such Note to the Trustee for cancellation as provided in Section 3.10, for all purposes of this Indenture such Note shall be deemed never to have been authenticated and delivered hereunder and shall never be entitled to the benefits of this Indenture.

Temporary Notes

If permitted by Argentine law, pending the preparation of definitive Notes of any series, the Company may execute, and upon receipt of a Company Order the Trustee shall authenticate and deliver, temporary Notes which are printed, lithographed, typewritten, mimeographed or otherwise produced, in any authorized denomination, substantially of the tenor of the definitive Notes in lieu of which they are issued and with such appropriate insertions, omissions, substitutions and other variations as the Authorized Officers executing such Notes may determine, as evidenced by their execution of such Notes.

If temporary Notes of any series are issued, the Company will cause definitive Notes of that series to be prepared without unreasonable delay. After the preparation of definitive Notes of such series, the temporary Notes of such series shall be exchangeable for definitive Notes of such series upon surrender of the temporary Notes of such series at the office or agency of the Company in a Place of Payment for that series, without charge to the Holder. Upon surrender for cancellation of any one or more temporary Notes of any series, the Company shall execute and the Trustee shall authenticate and deliver in exchange therefor one or more definitive Notes of the same series, of any authorized denominations and of like tenor and aggregate principal amount. Until so exchanged, the temporary Notes of any series shall in all respects be entitled to the same benefits under this Indenture as definitive Notes of such series and tenor.

Global Notes

Each Global Note authenticated under this Indenture shall be registered in the name of the Depositary designated by the Company for such Global Note or a nominee thereof and delivered to such Depositary or a nominee thereof or custodian therefor, and each such Global Note shall constitute a single Note for all purposes of this Indenture.

Notwithstanding any other provision in this Indenture, no Global Note may be exchanged in whole or in part for Notes registered, and no transfer of a Global Note in whole or in part may be registered, in the name of any Person other than the Depositary for such Global Note or a nominee thereof unless (i) such Depositary

(A) has notified the Company that it is unwilling or unable to continue as Depositary for such Global Note or (B) has ceased to be a clearing agency registered as such under the Exchange Act, or (ii) there shall have occurred and be continuing an Event of Default with respect to such Global Note, and, in the case of both (i) and (ii), the Company executes and delivers to the Trustee a Company Order stating that all Global Notes shall be exchanged in whole for Notes that are not Global Notes (in which case such exchange shall be effected by the Trustee).

If any Global Note is to be exchanged for other Notes or cancelled in whole, it shall be surrendered by or on behalf of the Depositary or its nominee to the Trustee, as Co-Registrar, for exchange or cancellation as provided in this Article Three. If any Global Note is to be exchanged for other Notes or cancelled in part, or if another Note is to be exchanged in whole or in part for a beneficial interest in any Global Note, then either (i) such Global Note shall be so surrendered for exchange or cancellation as provided in this Article Three or (ii) the principal amount thereof shall be reduced or increased by an amount equal to the portion thereof to be so exchanged or cancelled, or equal to the principal amount of such other Note to be so exchanged for a beneficial interest therein, as the case may be, by means of an appropriate adjustment made on the records of the Trustee, as Co-Registrar, whereupon the Trustee, in accordance with the Applicable Procedures, shall instruct the Depositary or its authorized representative to make a corresponding adjustment to its records. Upon any such surrender or adjustment of a Global Note, the Trustee shall, subject to Section 3.5(b) and as otherwise provided in this Article Three, authenticate and deliver any Notes issuable in exchange for such Global Note (or any portion thereof) to or upon the order of, and registered in such names as may be directed by, the Depositary or its authorized representative. Upon the request of the Trustee in connection with the occurrence of any of the events specified in the preceding paragraph, the Company shall promptly make available to the Trustee a reasonable supply of Notes that are not in the form of Global Notes. The Trustee shall be entitled to rely upon any order, direction or request of the Depositary or its authorized representative which is given or made pursuant to this Article Three if such order, direction or request is given or made in accordance with the Applicable Procedures.

Every Note authenticated and delivered upon registration of transfer of, or in exchange for or in lieu of, a Global Note or any portion thereof, whether pursuant to this Article Three, Section 9.5, Section 11.7 or otherwise, shall be authenticated and delivered in the form of, and shall be, a Global Note, unless such Note is registered in the name of a Person other than the Depositary for such Global Note or a nominee thereof.

The Depositary or its nominee, as registered owner of a Global Note, shall be the Holder of such Global Note for all purposes under this Indenture and the Notes, and owners of beneficial interests in a Global Note shall hold such interests pursuant to the Applicable Procedures. Accordingly, any such owner's beneficial interest in a Global Note will be shown only on, and the transfer of such interest shall be effected only through, records maintained by the Depositary or its nominee or its Agent Members; *provided, however*, that, notwithstanding the foregoing, a beneficial owner of a Global Note will have the right (i) to obtain evidence of its beneficial ownership interest in a Global Note in accordance with Argentine Decree 677/01, as amended, from any securities clearing service or collective deposit system, including DTC, Euroclear, Clearstream, Luxembourg and Caja de Valores S.A., as applicable, and (ii) with such evidence to pursue remedies against the Company and assert rights in a legal action brought in Argentina under Argentine law in respect of its beneficial ownership interest in such a Global Note (including the right to initiate summary proceedings (*acción ejecutiva*) in Argentina in the manner provided by the Negotiable Obligations Law with respect thereto), and for such purposes such beneficial owner will be treated as the owner of that portion of the Global Note which represents its beneficial ownership interest therein.

Registration, Registration of Transfer and Exchange Generally; Certain Transfers and Exchanges; Securities Act Legends

Registration, Registration of Transfer and Exchange Generally

The Company shall cause to be kept at the Corporate Trust Office of the Trustee a register (the register maintained in such office and in any other office or agency of the Company in a place of payment (the "Place of Payment") being herein sometimes collectively referred to as the "Note Register") in which, subject to such reasonable regulations as it may prescribe, the Company shall provide for the registration of Notes and of transfers and exchanges of Notes. The Trustee is hereby appointed Co-Registrar and Banco Santander Río S.A. (at its principal office in Buenos Aires, Argentina) is hereby appointed as Registrar for the purpose of registering the Notes and transfers and exchanges of Notes as herein provided. The Note Register shall be in written form in the English language or in any other form capable of being converted into such form within a reasonable time. The Co-Registrar shall give prompt notice to the Registrar and the Registrar shall likewise give prompt notice to the Co-Registrar of any registration of ownership, exchange or transfer of Notes. As long

as it is required by Argentine law or by the CNV, the Registrar shall keep a duplicate of the Note Register in the Spanish language in Argentina.

Upon surrender for registration of transfer of any Note of a series at an office or agency of the Company designated pursuant to Section 10.3 for such purpose, the Company shall execute, and the Trustee shall authenticate and deliver, in the name of the designated transferee or transferees, one or more new Notes of the same series, of any authorized denominations and of a like tenor and aggregate principal amount and bearing such restrictive legends as may be required by this Indenture.

At the option of the Holder, Notes may be exchanged for other Notes of the same series of any authorized denominations and of a like tenor and aggregate principal amount, upon surrender of the Notes to be exchanged at such office or agency. Whenever any Notes are so surrendered for exchange, the Company shall execute, and the Trustee shall authenticate and deliver, the Notes which the Holder making the exchange is entitled to receive.

All Notes issued upon any registration of transfer or exchange of Notes shall be the valid obligations of the Company, evidencing the same debt, and entitled to the same benefits under this Indenture, as the Notes, surrendered upon such registration of transfer or exchange.

Every Note presented or surrendered for registration of transfer or for exchange shall (if so required by the Company or the Trustee) be duly endorsed, or be accompanied by a written instrument of transfer in form satisfactory to the Company and the Trustee duly executed, by the Holder thereof or his attorney duly authorized in writing.

No service charge shall be made for any registration of transfer or exchange of Notes, but the Company or the Trustee may require payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in connection with any registration of transfer or exchange of Notes, other than exchanges pursuant to Sections 3.4, 9.5 and 11.7 not involving any transfer.

If the Notes of any series (or of any series and specified tenor) are to be redeemed in part, the Company shall not be required (i) to issue, register the transfer of or exchange any Note of that series (or of that series and specified tenor, as the case may be) during a period beginning at the opening of business 15 days before the day of the mailing of a notice of redemption of any such Notes selected for redemption under Section 11.3 and ending at the close of business on the day of such mailing, or (ii) to register the transfer of or exchange any Note so selected for redemption in whole or in part, except the unredeemed portion of any Note being redeemed in part.

Certain Transfers and Exchanges

Notwithstanding any other provision of this Indenture or the Notes, so long as Notes remain Outstanding, transfers and exchanges of Notes and beneficial interests in a Note of the kinds specified in this Section 3.6(b) shall be made only in accordance with this Section 3.6(b).

Restricted Global Note to Regulation S Global Note

If Notes of a series are issued in the form of a Regulation S Global Note and a Restricted Global Note, and if the owner of a beneficial interest in the Restricted Global Note wishes at any time to exchange its interest in such Restricted Global Note for an interest in a Regulation S Global Note, or to transfer such interest to a Person who wishes to take delivery thereof in the form of a beneficial interest in the Regulation S Global Note, such transfer may be effected only in accordance with the provisions of this Clause (b)(i) and Clause (b)(vii) below and subject to the Applicable Procedures. Upon receipt by the Trustee, as Transfer Agent, of (A) an order given by the Depository or its authorized representative directing that a beneficial interest in the Regulation S Global Note in a specified principal amount be credited to a specified Agent Member's account and that a beneficial interest in the Restricted Global Note in an equal principal amount be debited from another specified Agent Member's account and (B) a Regulation S Certificate, substantially in the form attached as Annex A hereto and duly executed by the owner of such beneficial interest in the Restricted Global Note or his attorney duly authorized in writing, then the Trustee, as Transfer Agent, but subject to Clause (b)(vii) below, shall reduce the principal amount of the Restricted Global Note and increase the principal amount of the Regulation S Global Note by such specified principal amount as provided in Section 3.5(c).

Regulation S Global Note to Restricted Global Note

If Notes of a series are issued in the form of a Regulation S Global Note and a Restricted Global Note, and if the owner of a beneficial interest in the Regulation S Global Note wishes at any time to exchange its interest in such Regulation S Global Note for an interest in a Restricted Global Note, or to transfer such interest to a Person who wishes to take delivery thereof in the form of a beneficial interest in the Restricted Global Note, such transfer may be effected only in accordance with this Clause (b)(ii) and subject to the Applicable Procedures. Upon receipt by the Trustee, as Transfer Agent, of (A) an order given by the Depositary or its authorized representative directing that a beneficial interest in the Restricted Global Note in a specified principal amount be credited to a specified Agent Member's account and that a beneficial interest in the Regulation S Global Note in an equal principal amount be debited from another specified Agent Member's account and (B) if such transfer is to occur during the Distribution Compliance Period, a Restricted Notes Certificate substantially in the form attached as Annex B hereto, satisfactory to the Trustee and duly executed by the owner of such beneficial interest in the Regulation S Global Note or his attorney duly authorized in writing, then the Trustee, as Transfer Agent, shall reduce the principal amount of the Regulation S Global Note and increase the principal amount of the Restricted Global Note by such specified principal amount as provided in Section 3.5(c).

Restricted Non-Global Note to Restricted Global Note or Regulation S Global Note

If the Holder of a Restricted Note (other than a Global Note) wishes at any time to exchange its interest in such Restricted Note for an interest in a Restricted Global Note or Regulation S Global Note or transfer all or any portion of such Note to a Person who wishes to take delivery thereof in the form of a beneficial interest in the Restricted Global Note or the Regulation S Global Note, such transfer may be effected only in accordance with the provisions of this Clause (b)(iii) and Clause (b)(vii) below and subject to the Applicable Procedures. Upon receipt by the Trustee, as Transfer Agent, of (A) such Note as provided in Section 3.6(a) and instructions satisfactory to the Trustee directing that a beneficial interest in the Restricted Global Note or Regulation S Global Note in a specified principal amount not greater than the principal amount of such Note be credited to a specified Agent Member's account and (B) a Restricted Notes Certificate, substantially in the form attached as Annex B hereto, if the specified account is to be credited with a beneficial interest in the Restricted Global Note, or a Regulation S Certificate, substantially in the form attached as Annex A hereto, if the specified account is to be credited with a beneficial interest in the Regulation S Global Note, in either case satisfactory to the Trustee and duly executed by such Holder or his attorney duly authorized in writing, then the Trustee, as Transfer Agent but subject to Clause (b)(vii) below, shall cancel such Note (and issue a new Note in respect of any untransferred portion thereof) as provided in Section 3.6(a) and increase the principal amount of the Restricted Global Note or the Regulation S Global Note, as the case may be, by the specified principal amount as provided in Section 3.5(c).

Regulation S Non-Global Note to Restricted Global Note or Regulation S Global Note

If the Holder of a Regulation S Note (other than a Global Note) wishes at any time to exchange its interest in such Regulation S Note for an interest in a Restricted Global Note or Regulation S Global Note or transfer all or any portion of such Note to a Person who wishes to take delivery thereof in the form of a beneficial interest in the Restricted Global Note or the Regulation S Global Note, such transfer may be effected only in accordance with this Clause (b)(iv) and Clause (b)(vii) below and subject to the Applicable Procedures. Upon receipt by the Trustee, as Transfer Agent, of (A) such Note as provided in Section 3.6(a) and instructions satisfactory to the Trustee directing that a beneficial interest in the Restricted Global Note or Regulation S Global Note in a specified principal amount not greater than the principal amount of such Note be credited to a specified Agent Member's account and (B) if such transfer is to occur during the Distribution Compliance Period and (z) the specified account is to be credited with a beneficial interest in the Restricted Global Note, a Restricted Notes Certificate substantially in the form attached as Annex B hereto, satisfactory to the Trustee and duly executed by such Holder or his attorney duly authorized in writing, then the Trustee, as Transfer Agent but subject to Clause (b)(vii) below, shall cancel such Note (and issue a new Note in respect of any untransferred portion thereof) as provided in Section 3.6(a) and increase the principal amount of the Restricted Global Note or the Regulation S Global Note, as the case may be, by the specified principal amount as provided in Section 3.5(c).

Non-Global Note to Non-Global Note

A Note that is not a Global Note may be transferred, in whole or in part, to a Person who takes delivery in the form of another Note that is not a Global Note as provided in Section 3.6(a), *provided*, that if the Note to be transferred in whole or in part is a Restricted Note, or is a Regulation S Note and the transfer is to occur during the Distribution Compliance Period, then the Trustee shall have received (A) a Restricted Notes Certificate substantially in the form attached as Annex B hereto, and duly executed by the transferor Holder or his attorney duly authorized in writing, in which case the transferee Holder shall take delivery in the form of a Restricted Note, or (B) a Regulation S Certificate, substantially in the form attached as Annex A hereto, satisfactory to the Trustee and duly executed by the transferor Holder or his attorney duly authorized in writing, in which case the transferee Holder shall take delivery in the form of a Regulation S Note (subject in each case to Section 3.6(c)).

Exchanges between Global Note and Non-Global Note

A beneficial interest in a Global Note may be exchanged for a Note that is not a Global Note as provided in Section 3.5, *provided*, that if such interest is a beneficial interest in a Restricted Global Note, or if such interest is a beneficial interest in a Regulation S Global Note and such exchange is to occur during the Distribution Compliance Period, then such interest shall be exchanged for a Restricted Note (subject in each case to Section 3.6 (c)). A Note that is not a Global Note may be exchanged for a beneficial interest in a Global Note only if (A) such exchange occurs in connection with a transfer effected in accordance with Clause (b)(iii) or (iv) above or (B) such Note is a Regulation S Note and such exchange occurs after the Distribution Compliance Period.

Regulation S Global Note to Be Held Through Euroclear or Clearstream, Luxembourg during Distribution Compliance Period

The Company shall use its commercially reasonable efforts to cause the Depositary to ensure that, until the expiration of the Distribution Compliance Period, beneficial interests in a Regulation S Global Note may be held only in or through accounts maintained at the Depositary by Euroclear or Clearstream Luxembourg (or by Agent Members acting for the account thereof), and no person shall be entitled to effect any transfer or exchange that would result in any such interest being held otherwise than in or through such an account; *provided*, that this Clause (b)(vii) shall not prohibit any transfer or exchange of such an interest in accordance with Clause (b)(ii) or (vi) above.

Miscellaneous

The Trustee shall have no obligations or duty to monitor, determine or inquire as to compliance with any restrictions on transfer imposed under this Indenture or under applicable law with respect to any transfer of any interest in any Note (including any transfers between or among Agent Members or beneficial owners of interests in any Global Note) other than to require delivery of such certificates and other documentation or evidence as are expressly required by, and to do so if and when expressly required by the terms of, this Indenture, and to examine the same to determine substantial compliance as to form with the express requirements thereof.

Securities Act Legends

Restricted Notes and their respective Successor Notes shall bear a Restricted Notes Legend, and Regulation S Notes and their Successor Notes shall bear a Regulation S Legend, subject to the following:

- subject to the following Clauses of this Section 3.6(c), a Non-Global Note or any portion thereof which is exchanged, upon transfer or otherwise, for a Global Note or any portion thereof shall bear the Securities Act Legend borne by such Global Note while represented thereby;
- subject to the following Clauses of this Section 3.6(c), a Non-Global Note issued in exchange for another Note (including a Global Note) or any portion thereof, upon transfer or otherwise, shall bear the Securities Act Legend borne by such other Note, *provided*, that, if such new Note is required pursuant to Section 3.6(b)(v) or (vi) to be issued in the form of a Restricted Note, it shall bear a Restricted Notes Legend and, if such new Note is so required to be issued in the form of a Regulation S Note during the Distribution Compliance Period, it shall bear a Regulation S Legend;

Registered Notes shall not bear a Securities Act Legend;

- in the event the Trustee has received a written opinion of U.S. counsel in a form satisfactory to the Trustee stating that the Notes are not “Restricted Securities” as defined by Rule 144(a)(3) under the Securities Act, a new Note which does not bear a Securities Act Legend may be issued in exchange for or in lieu of a Note (other than a Global Note) or any portion thereof which bears such a legend, and after such date and receipt of such opinion, the Trustee upon receipt of a Company Order shall authenticate and deliver such a new Note in exchange for or in lieu of such other Note as provided in this Article Three;
- a new Note which does not bear a Securities Act Legend may be issued in exchange for or in lieu of a Note (other than a Global Note) or any portion thereof which bears such a legend if (a) the Holder of such Note provides the Company with an Unrestricted Notes Certificate, substantially in the form attached as Annex C hereto, satisfactory to the Company and duly executed by such Holder or his attorney duly authorized in writing and (b) in the Company’s judgment, placing such a legend upon such new Note is not necessary to ensure compliance with the registration requirements of the Securities Act, and the Trustee, upon receipt of a Company Order, shall authenticate and deliver such a new Note as provided in this Article Three; and
- notwithstanding the foregoing provisions of this Section 3.6(c), a Successor Note of a Note that does not bear a particular form of Securities Act Legend shall not bear such form of legend unless the Company has reasonable cause to believe that such Successor Note is a “Restricted Security” within the meaning of Rule 144(a)(3), in which case the Trustee, upon receipt of a Company Order, shall authenticate and deliver a new Note bearing a Restricted Notes Legend in exchange for such Successor Note as provided in this Article Three.

Mutilated, Destroyed, Lost and Stolen Notes

If any mutilated Note is surrendered to the Trustee, the Company shall execute and the Trustee shall authenticate and deliver in exchange therefor a new Note of the same series and of like tenor and principal amount and bearing a number not contemporaneously outstanding.

If there shall be delivered to the Company and the Trustee (i) evidence to their satisfaction of the destruction, loss or theft of any Note and (ii) such security or indemnity as may be reasonably required by them to save each of them and any agent of either of them harmless, then, in the absence of notice to the Company or the Trustee that such Note has been acquired by a protected purchaser, the Company shall execute and the Trustee shall authenticate and deliver, in lieu of any such destroyed, lost or stolen Note, a new Note of the same series and of like tenor and principal amount and bearing a number not contemporaneously outstanding.

In case any such mutilated, destroyed, lost or stolen Note has become or is about to become due and payable, the Company in its discretion may, instead of issuing a new Note, pay such Note.

Upon the issuance of any new Note under this Section, the Company may require the payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in relation thereto and any other expenses (including the fees and expenses of the Trustee) connected therewith.

Every new Note of any series issued pursuant to this Section in lieu of any destroyed, lost or stolen Note shall constitute an original additional contractual obligation of the Company, whether or not the destroyed, lost or stolen Note shall be at any time enforceable by anyone, and shall be entitled to all the benefits of this Indenture equally and proportionately with any and all other Notes of that series duly issued hereunder.

The provisions of this Section are exclusive and shall preclude (to the extent lawful) all other rights and remedies with respect to the replacement or payment of mutilated, destroyed, lost or stolen Notes.

Payment of Interest; Interest Rights Preserved

Except as otherwise provided as contemplated by Section 3.1 with respect to any series of Notes, interest on any Note which is payable, and is punctually paid or duly provided for, on any Interest Payment Date

shall be paid to the Person in whose name that Note (or one or more Predecessor Notes) is registered at the close of business on the Regular Record Date for such interest.

Any interest on any Note of any series which is payable, but is not punctually paid or duly provided for, on any Interest Payment Date (herein called “**Defaulted Interest**”) shall forthwith cease to be payable to the Holder on the relevant Regular Record Date by virtue of having been such Holder, and such Defaulted Interest may be paid by the Company, at its election in each case, as provided in Clause (1) or (2) below:

- The Company may elect to make payment of any Defaulted Interest to the Persons in whose names the Notes of such series (or their respective Predecessor Notes) are registered at the close of business on a Special Record Date for the payment of such Defaulted Interest, which shall be fixed in the following manner. The Company shall notify the Trustee in writing of the amount of Defaulted Interest proposed to be paid on each Note of such series and the date of the proposed payment, and at the same time the Company shall deposit with the Trustee an amount of money equal to the aggregate amount proposed to be paid in respect of such Defaulted Interest or shall make arrangements satisfactory to the Trustee for such deposit prior to the date of the proposed payment, such money when deposited to be held in trust for the benefit of the Persons entitled to such Defaulted Interest as in this Clause provided. Thereupon the Trustee shall fix a Special Record Date for the payment of such Defaulted Interest which shall be not more than 15 days and not less than 10 days prior to the date of the proposed payment and not less than 10 days after the receipt by the Trustee of the notice of the proposed payment. The Trustee shall promptly notify the Company of such Special Record Date and, in the name and at the expense of the Company, shall cause notice of the proposed payment of such Defaulted Interest and the Special Record Date therefor to be given to each Holder of Notes of such series in the manner set forth in Section 1.6, not less than 10 days prior to such Special Record Date. Notice of the proposed payment of such Defaulted Interest and the Special Record Date therefor having been so mailed, such Defaulted Interest shall be paid to the Persons in whose names the Notes of such series (or their respective Predecessor Notes) are registered at the close of business on such Special Record Date and shall no longer be payable pursuant to the following Clause (2).
- The Company may make payment of any Defaulted Interest on the Notes of any series in any other lawful manner not inconsistent with the requirements of any securities exchange on which such Notes may be listed, and upon such notice as may be required by such exchange, if, after notice given by the Company to the Trustee of the proposed payment pursuant to this Clause, such manner of payment shall be deemed practicable by the Trustee.

Subject to the foregoing provisions of this Section, each Note delivered under this Indenture upon registration of transfer of or in exchange for or in lieu of any other Note shall carry the rights to interest accrued and unpaid, and to accrue, which were carried by such other Note.

Persons Deemed Owners

Prior to due presentment of a Note for registration of transfer, the Company, the Trustee and any agent of the Company or the Trustee may treat the Person in whose name such Note is registered as the owner of such Note for the purpose of receiving payment of principal of and any premium and (subject to Section 3.8) any interest on such Note and for all other purposes whatsoever, whether or not such Note be overdue, and neither the Company, the Trustee nor any agent of the Company or the Trustee shall be affected by notice to the contrary.

Cancellation

All Notes surrendered for payment, redemption, registration of transfer or exchange or for credit against any sinking fund payment shall, if surrendered to any Person other than the Trustee, be delivered to the Trustee and shall be promptly cancelled by it. The Company may at any time deliver to the Trustee for cancellation any Notes previously authenticated and delivered hereunder which the Company may have acquired in any manner whatsoever, and may deliver to the Trustee (or to any other Person for delivery to the Trustee) for cancellation any Notes previously authenticated hereunder which the Company has not issued and sold, and all Notes so delivered shall be promptly cancelled by the Trustee. No Notes shall be authenticated in lieu of or in exchange for any Notes cancelled as provided in this Section, except as expressly permitted by this Indenture. The Trustee shall dispose of all cancelled Notes in accordance with customary practices.

The Company shall not make any payment to any Holder who has instituted proceedings directly against the Company under the Negotiable Obligations Law, without giving notice to the Trustee of the certificate numbers of the Notes in respect of which such payment is to be made, and the amount to be paid in respect of each such Note. Further, the Company shall not make any such payment without canceling or procuring the cancellation of such Notes or, in the case of partial payments not intended fully to discharge the Company's obligations under such Notes, enfacing or procuring the enfacement of such Notes with the amount of such payment.

CUSIP Numbers

The Company in issuing the Notes may use "CUSIP" numbers (if then generally in use), and, if so, the Trustee shall use "CUSIP" numbers in notices of redemption as a convenience to Holders; *provided*, that any such notice may state that no representation is made as to the correctness of such numbers either as printed on the Notes or as contained in any notice of a redemption and that reliance may be placed only on the other identification numbers printed on the Notes, and any such redemption shall not be affected by any defect in or omission of such numbers. The Company will promptly notify the Trustee in writing of any change in the "CUSIP" numbers.

Payments and Paying Agents

The Company will, by 10:00 AM (New York City time) at least one Business Day prior to each due date of the principal or premium of or interest on any Notes (including Additional Amounts), deposit with the Trustee, in its capacity as Principal Paying Agent, a sum sufficient to pay such principal, premium or interest (including Additional Amounts) so becoming due.

Each of the Paying Agents hereby agrees (and whenever the Company shall appoint a Paying Agent with respect to the Notes other than those specified in Section 10.3, it will cause such Paying Agent to execute and deliver to the Trustee an instrument in which such Paying Agent shall agree), subject to the provisions of this Section,

- that it will hold all sums received by it as such agent for the payment of the principal of or interest on any Notes (whether such sums have been paid to it by or on behalf of the Company) in trust for the benefit of the Holders of such Notes or of the Trustee,
- that it will give the Trustee notice of any failure by the Company to make any payment of the principal of or interest on any Notes (including Additional Amounts) and any other payments to be made by or on behalf of the Company under this Indenture or such Notes when the same shall be due and payable, and
- that it will pay any such sums so held in trust by it to the Trustee upon the Trustee's written request at any time during the continuance of the failure referred to in Clause (ii) above.

The Company shall give, at its expense, notice of the appointment of any Paying Agents (other than those specified in the recitals to this Indenture) to the Holders as specified in Section 1.6, and to the CNV if required under Argentine Law.

The Trustee, in its capacity as the Principal Paying Agent, shall arrange with all the Paying Agents for the payment, from funds furnished by the Company to the Trustee pursuant to this Indenture, of the principal of and interest on the Notes (including Additional Amounts) and of the compensation of such Paying Agents for their services as such from funds furnished by the Company to the Trustee. The Trustee will not be required to make payments of principal and interest on the Notes (including Additional Amounts) to Holders unless it has received such funds.

If the Company shall act as its own paying agent with respect to any Notes, it will, on or before each due date of the principal of or interest on such Notes, set aside, segregate and hold in trust for the benefit of the Holders of such Notes a sum sufficient to pay such principal or interest (including Additional Amounts) so becoming due. The Company will promptly notify the Trustee in writing of any failure to take such action.

Anything in this Section to the contrary notwithstanding, the Company may at any time, for the purpose of obtaining a satisfaction and discharge with respect to any Notes hereunder, or for any other reason,

pay or cause to be paid to the Trustee all sums held in trust for such Notes by the Company or any Paying Agent hereunder, as required by this Section, such sums to be held by the Trustee upon the trusts herein contained.

Computation of Interest

Except as otherwise specified as contemplated by Section 3.1 for Notes of any series, interest (including additional interest or any other amount that may constitute interest) on the Notes of each series shall be computed on the basis of a 360-day year comprised of twelve 30-day months.

4. Satisfaction and Discharge

Satisfaction and Discharge of Indenture

This Indenture shall upon Company Request cease to be of further effect (except as to any surviving rights of registration of transfer or exchange of Notes herein expressly provided for), and the Trustee, at the expense of the Company, shall execute proper instruments acknowledging satisfaction and discharge of this Indenture, when

either

- (A) all Outstanding Notes (other than (i) Notes which have been destroyed, lost or stolen and which have been replaced or paid as provided in Section 3.7 and (ii) Notes for whose payment money has theretofore been deposited in trust or segregated and held in trust by the Company and thereafter repaid to the Company or discharged from such trust, as provided in the last paragraph of Section 10.4) have been delivered to the Trustee for cancellation; or
 - (B) all such Notes not theretofore delivered to the Trustee for cancellation
 - (i) have become due and payable, or
 - (ii) will become due and payable at their Stated Maturity within one year, or
 - (iii) are to be called for redemption within one year under arrangements satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Company,
- and the Company, in the case of (B)(i), (B)(ii) or (B)(iii) above, has irrevocably deposited or caused to be irrevocably deposited with the Trustee as trust funds in trust solely for the benefit of Holders, cash in U.S. dollars, in an amount sufficient without consideration of any reinvestment of interest, to pay and discharge the entire indebtedness on such Notes not theretofore delivered to the Trustee for cancellation, for principal and any premium and interest to the date of such deposit (in the case of Notes which have become due and payable) or to the Stated Maturity or Redemption Date, as the case may be;
 - no Default or Event of Default has occurred and is continuing on the date of the deposit or will occur as a result of the deposit and the deposit will not result in a breach or violation of, or constitute a default under, any other material instrument to which the Company or any of its Subsidiaries are a party or by which the Company or any of its Subsidiaries are bound;
 - the Company has paid or caused to be paid all other sums payable hereunder by the Company;
 - the Company has delivered irrevocable instructions to the Trustee under this Indenture to apply any deposited money toward the payment of the Notes at maturity or the redemption date, as the case may be; and
 - the Company has delivered to the Trustee an Officers' Certificate and an Opinion of Counsel, each stating that all conditions precedent herein provided for relating to the satisfaction and discharge of this Indenture have been complied with.

Notwithstanding the satisfaction and discharge of this Indenture, the obligations of the Company to the Trustee under Section 6.7, the obligations of the Company to any Authenticating Agent under Section 6.14 and, if money shall have been deposited with the Trustee pursuant to subclause (B) of Clause (1) of this Section, the obligations of the Trustee under Section 4.2 and the last paragraph of Section 10.4 shall survive.

Application of Trust Money

Subject to the provisions of the last paragraph of Section 10.4, all money deposited with the Trustee pursuant to Section 4.1 shall be held in trust and applied by it, in accordance with the provisions of the Notes and this Indenture, to the payment, either directly or through any Paying Agent (including the Company acting as its own Paying Agent) as the Trustee may determine, to the Persons entitled thereto, of the principal and any premium and interest for whose payment such money has been deposited with the Trustee.

5. Remedies

Events of Default

Event of Default, wherever used herein with respect to the Notes of any series, means any one of the following events (whatever the reason for such Event of Default and whether it shall be voluntary or involuntary or be effected by operation of law or pursuant to any judgment, decree or order of any court or any order, rule or regulation of any administrative or governmental body).

***Non-payment.* The Company defaults in the payment of:**

- (a) the principal of or any premium or Additional Amounts on any Note of that series, or
- (b) any interest on any Note of that series, and such default remains uncured for a period of 30 days after the date on which such payment was due and payable; or

Breach of other obligations. The Company defaults in the performance of, or breaches, any covenant or warranty of the Company under any Note of that series or in this Indenture (other than as described in Clauses (i)(a) and (b) above), which default is, in the opinion of the Trustee, incapable of remedy or, if in the opinion of the Trustee is capable of remedy, is not in the opinion of the Trustee remedied within 90 days after the Company has received written notice from the Trustee specifying such default or breach and requiring it to be remedied and stating that such notice is a “Notice of Default” hereunder; or

Cross-acceleration. (i) any other present or future indebtedness of the Company or any of its Subsidiaries for or in respect of moneys borrowed or raised becomes due and payable prior to its stated maturity other than at the option of the Company; or (ii) any payment in respect of Indebtedness of the Company or any of its Subsidiaries is not paid when due or, as the case may be, within any applicable grace period; or (iii) the Company or any of its Subsidiaries fails to pay when due any amount payable by it under any present or future guarantee for, or indemnity in respect of, any monies borrowed or raised; provided that the aggregate amount of the relevant indebtedness, guarantees and indemnities in respect of which one or more of the events in this paragraph (3) have occurred equals or exceeds US\$15.0 million or its equivalent in other currencies; or

Enforcement proceedings. A distress, attachment, execution, seizure before judgment or other legal process is levied, enforced or sued out on or against any part of the property, assets or revenues of the Company or any of its Subsidiaries exceeding US\$15.0 million and (i) such distress, attachment, execution, seizure before judgment or other legal process is not discharged or stayed within 90 days of notice to the Company or any of its Subsidiaries, as the case may be; or (ii) if such distress, attachment, execution, seizure before judgment or other legal process shall not have been discharged within such 90-day period, the Company or any of its Subsidiaries, as the case may be, shall have within such 90-day period contested in good faith by appropriate proceedings and posted a bond in connection therewith; *provided, however,* that in no event shall the grace period provided by subclause (ii) of this Clause (4) extend beyond the 360th day after the notification to the Company or any of its Subsidiaries, as the case may be, of such proceedings; or

Security enforced. Any mortgage, charge, pledge, lien or other encumbrance, present or future, created or assumed by the Company or any of its Subsidiaries becomes enforceable (i.e., a creditor has a present right to foreclose or exercise similar remedies) exceeding US\$10.0 million and any step is taken to enforce it (including the taking of possession or the appointment of a receiver, administrative receiver, manager or other similar court-appointed Person); or

Bankruptcy; insolvency; etc. (i)(A) a court having jurisdiction shall enter a decree or order for relief in respect of the Company in an involuntary case under the ABL or any other applicable bankruptcy, insolvency or other similar law now or hereafter in effect in any other relevant jurisdiction or (B) an administrator, receiver, trustee or intervenor shall be appointed for all or substantially all of the Company's Property and, in each case, such decree or order shall remain uncontested and in effect for 30 consecutive Business Days; or (ii) the Company (A) shall commence a voluntary case under the ABL or any other applicable bankruptcy, insolvency or other similar law now or hereafter in effect in any other relevant jurisdiction, (B) shall consent to the appointment of or taking possession by an administrator, receiver, trustee or intervenor for the Company of all or substantially all of the Company's Property or (C) shall effect any general assignment for the benefit of creditors; or (iii) the Company shall fail or be unable to pay its debts generally as they become due; or (iv) any event shall occur which under the laws of any relevant Argentine jurisdiction has an analogous effect to any of the events referred to in Clause (i) or (ii) above; or

Winding up. An order is made or an effective resolution passed for the winding up or dissolution or administration of the Company or any of its Subsidiaries, or the Company ceases or threatens to cease to carry on all or a material part of its business or operations, except for the purpose of and followed by a reconstruction, amalgamation, reorganization, merger, demerger or consolidation (i) on terms approved by the Trustee or by a meeting of Holders; or (ii) in the case of a Subsidiary, whereby the undertaking and the assets of the Subsidiary are transferred to or otherwise vested in the Company or another of its Subsidiaries; or

Authorizations and consents. Any action, condition or thing (including the obtaining or effecting of any necessary consent, approval, authorization, exemption, filing, license, order, recording or registration) at any time required to be taken, fulfilled or done in order (i) to enable the Company lawfully to enter into, exercise its rights and perform and comply with its obligations under, the Notes of that series and this Indenture; (ii) to ensure that those obligations are legally binding and enforceable; and (iii) to make the Notes of that series and this Indenture admissible in evidence in the courts of Argentina, is not taken, fulfilled or done; or

Revocation of Pipeline License. The License is revoked or suspended; *provided*, that, in the case of a suspension, the License is suspended for a period of at least 120 days; *provided, further*, that a reissuance or reauthorization of the License shall not constitute a revocation or suspension under this Clause (9) but shall constitute an amendment for purposes of Section 10.15.

Acceleration of Maturity; Rescission and Annulment

If an Event of Default (other than an Event of Default specified in clause (6) or (7) of Section 5.1) occurs and is continuing with respect to Notes of a series at the time Outstanding, then the Holders of not less than 25% in principal amount of the affected Outstanding Notes may declare the principal amount of the Notes of such series (or, if any Notes of that series are Original Issue Discount Notes, such portion of the principal amount of such Notes as may be specified by the terms thereof) to be due and payable immediately, by a notice in writing to the Company (and to the Trustee if given by Holders), and upon any such declaration such principal amount of such Notes (or specified amount), together with accrued interest thereon and Additional Amounts, if any, shall become immediately due and payable. If an Event of Default occurs and is continuing under clause (6) and (7) of Section 5.1, then the principal amount of all Notes then Outstanding and all interest accrued thereon and Additional Amounts, if any, shall become immediately due and payable without any further action or notice by the Trustee or the Holders of the Notes.

At any time after such a declaration of acceleration with respect to Notes of any series or all series, as the case may be, has been made and before a judgment or decree for payment of the money due has been obtained by the Trustee as hereinafter in this Article provided, the Holders of a majority in principal amount of the Outstanding Notes of that series or all series, as the case may be, by written notice to the Company and the Trustee, may rescind and annul such declaration and its consequences if:

the Company has paid or deposited with the Trustee a sum sufficient to pay

- (A) all overdue interest on all Notes of that series or all series, as the case may be,
- (B) the principal of (and premium, if any, on) any Notes of that series or all series, as the case may be, which have become due otherwise than by such declaration of acceleration and any interest thereon at the rate or rates prescribed therefor in such Notes,
- (C) to the extent that payment of such interest is lawful, interest upon overdue interest at the rate or rates prescribed therefor in such Notes, and
- (D) all sums paid or advanced by the Trustee hereunder and the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel; and
- (E) all Events of Default with respect to Notes of that series or all series, as the case may be, other than the non-payment of the principal of Notes of that series or all series, as the case may be, which have become due solely by such declaration of acceleration, have been cured or waived as provided in Section 5.13.

No such rescission shall affect any subsequent default or impair any right consequent thereon.

Collection of Indebtedness and Suits for Enforcement by Trustee

The Company covenants that if

- default is made in the payment of any interest on any Note when such interest becomes due and payable and such default continues for a period of 30 days after the date on which such payment was due and payable, or
- default is made in the payment of the principal of (or premium, if any, on) any Note at the Maturity thereof,

the Company will, upon demand of the Trustee, pay to it, for the benefit of the Holders of such Notes, the whole amount then due and payable on such Notes for principal (and any premium) and interest and, to the extent that payment of such interest shall be legally enforceable, interest on any overdue principal and premium and on any overdue interest, at the rate or rates prescribed therefor in such Notes, and, in addition thereto, such further amount as shall be sufficient to cover the costs and expenses of collection, including the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel.

If an Event of Default with respect to Notes of any series occurs and is continuing, the Trustee may in its discretion proceed to protect and enforce its rights and the rights of the Holders of Notes of such series by such appropriate judicial proceedings as the Trustee shall deem most effectual to protect and enforce any such rights, whether for the specific enforcement of any covenant or agreement in this Indenture or in aid of the exercise of any power granted herein, or to enforce any other proper remedy.

As provided in the Negotiable Obligations Law, any Holder may institute proceedings directly against the Company in accordance with the provisions of the Negotiable Obligations Law for the payment of past due principal, premium, or interest (including Additional Amounts), but from the date such proceedings are instituted, the Holder of such Notes shall cease to have any rights under the trust created by these presents, or to moneys held in trust hereunder (including moneys recovered by the Trustee prior to the institution of such proceedings). The Trustee shall be entitled to assume (and it is the intention of the Company and the Trustee that it shall assume) that no such proceedings have been instituted, unless the Trustee shall have received written notice to the contrary.

No security which has been the subject of proceedings under the Negotiable Obligations Law may be presented to a Paying Agent or Registrar and Co-Registrar for payment or replacement but in such circumstances the Company shall make separate arrangements for payment directly to the Holder of each such Note. If any Holder, having instituted proceedings directly against the Company in accordance with the provisions of the Negotiable Obligations Law, subsequently disposes of the Note forming the subject matter of such proceedings, the cessation of the rights under the trust created by these presents occurring upon the

institution of such proceedings, shall inure in relation to the purchaser of such Note. Upon written notification by the Company of any such proceedings, the Trustee shall give notice to the Paying Agents and the Registrar and Co-Registrars of the serial numbers of those Notes forming the subject matter of such proceedings and the Paying Agents and Registrar and Co-Registrars shall make such serial numbers available to any Holder or potential Holder upon its request.

Trustee May File Proofs of Claim

In case of any judicial proceeding relative to the Company (or any other obligor upon the Notes), its property or its creditors, the Trustee shall be entitled and empowered, by intervention in such proceeding or otherwise, to take any and all actions authorized under the Trust Indenture Act in order to have claims of the Holders and the Trustee allowed in any such proceeding. In particular, the Trustee shall be authorized to collect and receive any moneys or other property payable or deliverable on any such claims and to distribute the same; and any custodian, receiver, assignee, trustee, liquidator, sequestrator or other similar official in any such judicial proceeding is hereby authorized by each Holder to make such payments to the Trustee and, in the event that the Trustee shall consent to the making of such payments directly to the Holders, to pay to the Trustee any amount due it for the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel, and any other amounts due the Trustee under Section 6.7.

No provision of this Indenture shall be deemed to authorize the Trustee to authorize or consent to or accept or adopt on behalf of any Holder any plan of reorganization, arrangement, adjustment or composition affecting the Notes or the rights of any Holder thereof or to authorize the Trustee to vote in respect of the claim of any Holder in any such proceeding; *provided, however*, that the Trustee may, on behalf of the Holders, vote for the election of a trustee in bankruptcy or similar official and be a member of a creditors' or other similar committee.

Trustee May Enforce Claims Without Possession of Notes

All rights of action and claims under this Indenture or the Notes may be prosecuted and enforced by the Trustee without the possession of any of the Notes or the production thereof in any proceeding relating thereto, and any such proceeding instituted by the Trustee shall be brought in its own name as trustee of an express trust, and any recovery of judgment shall, after provision for the payment of the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel, be for the ratable benefit of the Holders of the Notes in respect of which such judgment has been recovered.

Application of Money Collected

Any money collected by the Trustee pursuant to this Article shall be applied in the following order, at the date or dates fixed by the Trustee and, in case of the distribution of such money on account of principal or any premium or interest, upon presentation of the Notes and the notation thereon of the payment if only partially paid and upon surrender thereof if fully paid:

- FIRST: To the payment of all amounts due the Trustee under Section 6.7; and
- SECOND: To the payment of the amounts then due and unpaid for principal of and any premium and interest on the Notes in respect of which or for the benefit of which such money has been collected, ratably, without preference or priority of any kind, according to the amounts due and payable on such Notes for principal and any premium and interest, respectively.

Limitation on Suits

Except as provided in Section 5.8 and the last two paragraphs of Section 5.3, no Holder of any Note of any series shall have any right to institute any proceeding, judicial or otherwise, with respect to this Indenture, or for the appointment of a receiver or trustee, or for any other remedy hereunder, unless

- such Holder has previously given written notice to the Trustee of a continuing Event of Default with respect to the Notes of that series;
- the Holders of not less than 25% in principal amount of the Outstanding Notes of that series shall have made written request to the Trustee to institute proceedings in respect of such Event of Default in its own name as Trustee hereunder;

- such Holder or Holders have offered to the Trustee reasonable indemnity against the costs, expenses and liabilities to be incurred in compliance with such request;
- the Trustee for 60 days after its receipt of such notice, request and offer of indemnity has failed to institute any such proceeding; and
- no direction inconsistent with such written request has been given to the Trustee during such 60-day period by the Holders of a majority in principal amount of (i) in the case of a continuing Event of Default specified in Clause (1) of Section 5.1, the Outstanding Notes of that series, (ii) in the case of a continuing Event of Default with respect to any series, other than the Event of Default specified in Clause (1) of Section 5.1, the Outstanding Notes of all series affected by such Event of Default;

it being understood and intended that no one or more of such Holders shall have any right in any manner whatever by virtue of, or by availing of, any provision of this Indenture to affect, disturb or prejudice the rights of any other of such Holders, or to obtain or to seek to obtain priority or preference over any other of such Holders or to enforce any right under this Indenture, except in the manner herein provided and for the equal and ratable benefit of all of such Holders.

Unconditional Right of Holders to Receive Principal, Premium and Interest

Notwithstanding any other provision in this Indenture, the Holder of any Note shall have the right, which is absolute and unconditional, to receive payment of the principal of and any premium and (subject to Section 3.8) interest on such Note on the respective Stated Maturities expressed in such Note (or, in the case of redemption, on the Redemption Date) and to institute suit for the enforcement of any such payment, whether in the manner established by Article 29 of the Negotiable Obligations Law, or otherwise and such rights shall not be impaired without the consent of such Holder.

Restoration of Rights and Remedies

If the Trustee or any Holder has instituted any proceeding to enforce any right or remedy under this Indenture (including proceedings under Article 29 of the Negotiable Obligations Law) and such proceeding has been discontinued or abandoned for any reason, or has been determined adversely to the Trustee or to such Holder, then and in every such case, subject to any determination in such proceeding, the Company, the Trustee and the Holders shall be restored severally and respectively to their former positions hereunder and thereafter all rights and remedies of the Trustee and the Holders shall continue as though no such proceeding had been instituted.

Rights and Remedies Cumulative

Except as otherwise provided with respect to the replacement or payment of mutilated, destroyed, lost or stolen Notes in the last paragraph of Section 3.7, no right or remedy herein conferred upon or reserved to the Trustee or to the Holders is intended to be exclusive of any other right or remedy, and every right and remedy shall, to the extent permitted by law, be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Delay or Omission Not Waiver

No delay or omission of the Trustee or of any Holder of any Notes to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right and remedy given by this Article or by law to the Trustee or to the Holders may be exercised from time to time, and as often as may be deemed expedient, by the Trustee or by the Holders, as the case may be.

Control by Holders

The Holders of a majority in principal amount of the Outstanding Notes of the affected series, voting together as a single class, present or represented and voting at a meeting of such Holders at which a quorum is present (or providing their written consent to the extent permitted under Argentine law and this Indenture) shall have the right to direct the time, method and place of conducting any proceeding for any remedy available to the

Trustee, or exercising any trust or power conferred on the Trustee, with respect to the Notes of such affected series, *provided*, that:

- such direction shall not be in conflict with any rule of law or with this Indenture; and
- the Trustee may take any other action deemed proper by the Trustee which is not inconsistent with such direction.

Waiver of Past Defaults

The Holders of not less than a majority in principal amount of the Outstanding Notes of all series affected by a past default hereunder with respect to such affected series may, on behalf of the Holders of all the Notes of such affected series, waive such past default and its consequences pursuant to a vote of the Holders of all such affected series, voting together as a single class, at a meeting of Holders at which a quorum is present (or by providing their written consent to the extent permitted under Argentine law and this Indenture), except a default:

- in the payment of the principal of or any premium or interest on any Note of such affected series, or
- in respect of a covenant or provision hereof which under Article Nine cannot be modified or amended without the consent of the Holder of each Outstanding Note of such series affected.

Upon any such waiver, such default shall cease to exist, and any Event of Default arising therefrom shall be deemed to have been cured, for every purpose of this Indenture; but no such waiver shall extend to any subsequent or other default or impair any right consequent thereon. Notwithstanding the foregoing, a declaration of acceleration may not be rescinded or annulled except as provided in Section 5.2.

Undertaking for Costs

In any suit for the enforcement of any right or remedy under this Indenture, or in any suit against the Trustee for any action taken, suffered or omitted by it as Trustee, a court may require any party litigant in such suit to file an undertaking to pay the costs of such suit, and may assess costs against any such party litigant, in the manner and to the extent provided in the Trust Indenture Act; *provided*, that neither this Section 5.14 nor the Trust Indenture Act shall be deemed to authorize any court to require such an undertaking or to make such an assessment in any suit instituted by the Company.

Waiver of Usury, Stay or Extension Laws

The Company covenants (to the extent that it may lawfully do so) that it will not at any time insist upon, or plead, or in any manner whatsoever claim or take the benefit or advantage of, any usury, stay or extension law wherever enacted, now or at any time hereafter in force, which may affect the covenants or the performance of this Indenture; and the Company (to the extent that it may lawfully do so) hereby expressly waives all benefit or advantage of any such law and covenants that it will not hinder, delay or impede the execution of any power herein granted to the Trustee, but will suffer and permit the execution of every such power as though no such law had been enacted.

Currency Indemnity

Any amount received or recovered in respect of the Notes in a currency other than the currency specified in the Notes (the “**Specified Currency**”) (whether as a result of, or of the enforcement of, a judgment or order of a court of any jurisdiction, in respect of the bankruptcy, liquidation or dissolution of the Company or otherwise) by any Holder of Notes in respect of any sum expressed to be due to it from the Company shall only constitute a discharge of the Company to the extent of the Specified Currency amount which the recipient is able to purchase with the amount so received or recovered in that other currency on the date of that receipt or recovery (or, if it is not practicable to make that purchase on that date, on the first date on which it is practicable to do so). If that Specified Currency amount is less than the Specified Currency amount expressed to be due to the recipient under any Note, the Company shall indemnify such recipient against any loss sustained by it as a result, and in any event, the Company shall indemnify the recipient against the cost of making any such purchase. For the purposes of this Section, it shall be sufficient for the Holder to certify in a manner reasonably satisfactory to Company (indicating the sources of information used) that it would have suffered a loss had an actual purchase of Specified Currency been made with the amount so received in that other currency on the date

of receipt or recovery (or, if a purchase of Specified Currency on such date had not been practicable, on the first date on which it would have been practicable, it being required that the need for a change of date be certified in the manner mentioned above). These indemnities constitute a separate and independent obligation of the Company from its other obligations, shall give rise to a separate and independent cause of action, shall apply irrespective of any waiver granted by any Holder and shall continue in full force and effect despite any other judgment, order, claim or proof for a liquidated amount in respect of any sum due under any Note or any other judgment or order.

6. The Trustee

Certain Duties and Responsibilities

- (a) If an Event of Default with respect to a particular series has occurred and is continuing, the Trustee shall exercise such of the rights and powers vested in it by this Indenture, and use the same degree of care and skill in their exercise, as a prudent person would exercise or use under the circumstances in the conduct of its own affairs.
- (b) Except during the continuance of an Event of Default with respect to a particular series:
 - (i) the duties of the Trustee shall be determined solely by the express provisions of this Indenture and the Trustee need perform, and be liable for (as set forth herein), only those duties that are specifically set forth in this Indenture and no others, and no implied covenants or obligations shall be read into this Indenture against the Trustee; and
 - (ii) in the absence of bad faith or its part, the Trustee may conclusively rely, as to the truth of the statements and the correctness of the opinions expressed therein, upon certificates or opinions furnished to the Trustee and conforming to the requirements of this Indenture, *provided*, that the Trustee shall examine the certificates and opinions to determine whether or not they conform to the requirements of this Indenture.
- (c) The Trustee may not be relieved from liabilities for its own negligent action, its own negligent failure to act, or its own willful misconduct, except that:
 - (i) this paragraph does not limit the effect of paragraph (b) of this Section 6.1;
 - (ii) the Trustee shall not be liable for any error of judgment made in good faith by a Responsible Officer, unless it is proved that the Trustee was negligent in ascertaining the pertinent facts.
- (d) The Trustee shall only be charged with knowledge of any default or Event of Default if either (i) a Responsible Officer of the Trustee shall have actual knowledge of such default or Event of Default or (ii) written notice of such default or Event of Default shall have been given to the Trustee by the Company or any Holder.
- (e) Notwithstanding the foregoing, no provision of this Indenture shall require the Trustee to expend or risk its own funds or otherwise incur any financial liability in the performance of any of its duties hereunder, or in the exercise of any of its rights or powers, if it shall have reasonable grounds for believing that repayment of such funds or adequate indemnity against such risk or liability is not reasonably assured to it. Whether or not therein expressly so provided, every provision of this Indenture relating to the conduct or affecting the liability of or affording protection to the Trustee shall be subject to the provisions of this Section.

Notice of Defaults

If a default occurs hereunder with respect to Notes of any series, the Trustee shall give the Holders of Notes of such series notice of such default as and to the extent provided by the Trust Indenture Act; *provided, however*, that in the case of any default of the character specified in Section 5.1(2) with respect to Notes of such series, no such notice to Holders shall be given until at least 30 days after the occurrence thereof.

Certain Rights of Trustee

Subject to the provisions of Section 6.1:

- the Trustee may rely and shall be protected in acting or refraining from acting upon any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, bond, debenture, note, other evidence of indebtedness or other paper or document believed by it to be genuine and to have been signed or presented by the proper party or parties;
- any request or direction of the Company mentioned herein shall be sufficiently evidenced by a Company Request or Company Order, and any resolution of the Board of Directors shall be sufficiently evidenced by a Board Resolution;
- whenever in the administration of this Indenture the Trustee shall deem it desirable that a matter be proved or established prior to taking, suffering or omitting any action hereunder, the Trustee (unless other evidence be herein specifically prescribed) may, in the absence of bad faith on its part, rely upon an Officers' Certificate;
- the Trustee may consult with counsel and the written advice of such counsel or any Opinion of Counsel shall be full and complete authorization and protection in respect of any action taken, suffered or omitted by it hereunder in good faith and in reliance thereon;
- the Trustee shall be under no obligation to exercise any of the rights or powers vested in it by this Indenture at the request or direction of any of the Holders pursuant to this Indenture, unless such Holders shall have offered to the Trustee reasonable security or indemnity against the costs, expenses and liabilities which might be incurred by it in compliance with such request or direction;
- the Trustee shall not be bound to make any investigation into the facts or matters stated in any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, bond, debenture, note, other evidence of indebtedness or other paper or document, but the Trustee, in its discretion, may make such further inquiry or investigation into such facts or matters as it may see fit, and, if the Trustee shall determine to make such further inquiry or investigation, it shall be entitled to examine the books, records and premises of the Company, personally or by agent or attorney;
- the Trustee may execute any of the trusts or powers hereunder or perform any duties hereunder either directly or by or through agents, nominees, custodians or attorneys and the Trustee shall not be responsible for any misconduct or negligence on the part of any agent, nominee, custodian or attorney appointed with due care by it hereunder; and
- the permissive rights of the Trustee enumerated herein shall not be construed as duties.

Not Responsible for Recitals or Issuance of Notes

The recitals contained herein and in the Notes, except the Trustee's certificates of authentication, shall be taken as the statements of the Company, and neither the Trustee nor any Authenticating Agent assumes any responsibility for their correctness. The Trustee makes no representations as to the validity or sufficiency of this Indenture or of the Notes. Neither the Trustee nor any Authenticating Agent shall be accountable for the use or application by the Company of Notes or the proceeds thereof.

May Hold Notes

The Trustee, any Authenticating Agent, any Paying Agent, the Registrar or any Co-Registrar or any affiliate thereof or agent of the Company, in its individual or any other capacity, may become the owner or pledgee of Notes and, subject to Sections 6.8 and 6.13, may otherwise deal with the Company with the same rights it would have if it were not Trustee, Authenticating Agent, Paying Agent, Registrar or Co-Registrar or such other agent.

Money Held in Trust

Money held by the Trustee in trust hereunder need not be segregated from other funds except to the extent required by law. The Trustee shall be under no liability for interest on any money received by it hereunder except as otherwise agreed with the Company.

Compensation and Reimbursement

The Company agrees:

- to pay to the Trustee such compensation as shall be separately agreed upon in writing for all services rendered by it hereunder (which compensation shall not be limited by any provision of law in regard to the compensation of a trustee of an express trust);
- except as otherwise expressly provided herein, to reimburse the Trustee upon its request for all reasonable expenses, disbursements and advances properly incurred or made by the Trustee in accordance with any provision of this Indenture (including the reasonable compensation and the expenses and disbursements of its agents and counsel), except any such expense, disbursement or advance as may be attributable to its negligence or bad faith;
- to indemnify the Trustee and its officers, directors, employees and agents for, and to hold each of them harmless against, any loss, liability or expense incurred without negligence or bad faith on its part, arising out of or in connection with the acceptance or administration of the trust or trusts hereunder, including the costs and expenses of defending itself against any claim or liability in connection with the exercise or performance of any of its powers or duties hereunder;
- to secure the Company's obligations under this Section 6.7, the Trustee shall have a lien prior to the Notes upon all money or property held or collected by the Trustee in its capacity as Trustee, except for such money or property which is (A) held in trust to pay principal (and premium, if any) or interest for the benefit of Holders of particular Notes or (B) irrevocably deposited with the Trustee pursuant to Section 13.4 in respect of any Defeasance or Covenant Defeasance;
- the obligations of the Company set forth in this Section 6.7 shall survive the removal and resignation of the Trustee and the satisfaction and discharge of this Indenture; and
- when the Trustee incurs any expenses or renders any services after the occurrence of an Event of Default specified in Sections 5.1(6) or 5.1(7), such expenses and the compensation for such services are intended to constitute expenses of administration under any law for the relief of debtors.

Conflicting Interests

The Trustee shall not be deemed to have a conflicting interest by virtue of being a trustee under this Indenture with respect to Notes of more than one series.

Corporate Trustee Required; Eligibility

There shall at all times be one (and only one) Trustee hereunder with respect to the Notes of each series, which may be Trustee hereunder for Notes of one or more other series. Each Trustee shall be a Person that is eligible pursuant to the Trust Indenture Act and the Negotiable Obligations Law Section 13 to act as such, has a combined capital and surplus of at least \$50.0 million and has its Corporate Trust Office in New York City, New York. If any such Person publishes reports of condition at least annually, pursuant to law or to the requirements of its supervising or examining authority, then for the purposes of this Section and to the extent permitted by the Trust Indenture Act, the combined capital and surplus of such Person shall be deemed to be its combined capital and surplus as set forth in its most recent report of condition so published. If at any time the Trustee with respect to the Notes of any series shall cease to be eligible in accordance with the provisions of this Section, it shall resign immediately in the manner and with the effect hereinafter specified in this Article.

Resignation and Removal; Appointment of Successor

No resignation or removal of the Trustee and no appointment of a successor Trustee pursuant to this Article shall become effective until the acceptance of appointment by the successor Trustee in accordance with the applicable requirements of Section 6.11.

The Trustee may resign at any time with respect to the Notes of one or more series by giving written notice thereof to the Company. If the instrument of acceptance by a successor Trustee required by Section 6.11 shall not have been delivered to the Trustee within 30 days after the giving of such notice of resignation, the resigning Trustee may petition any court of competent jurisdiction for the appointment of a successor Trustee with respect to the Notes of such series.

The Trustee may be removed at any time with respect to the Notes of all series by the Holders of a majority in principal amount of the Outstanding Notes of all series, voting together as a single class, present or represented and voting at a meeting of such Holders at which a quorum is present.

If at any time:

- the Trustee shall fail to comply with Section 6.8 after written request therefor by the Company or by any Holder who has been a bona fide Holder of a Note for at least six months, or
- the Trustee shall cease to be eligible under Section 6.9 and shall fail to resign after written request therefor by the Company or by any such Holder, or
- the Trustee shall become incapable of acting or shall be adjudged as bankrupt or insolvent or a receiver of the Trustee or of its property shall be appointed or any public officer shall take charge or control of the Trustee or of its property or affairs for the purpose of rehabilitation, conservation or liquidation,

then, in any such case, (A) the Company by a Board Resolution may remove the Trustee with respect to all Notes, or (B) subject to Section 5.14, any Holder who has been a bona fide Holder of a Note for at least six months may, on behalf of himself and all others similarly situated, petition any court of competent jurisdiction for the removal of the Trustee with respect to all Notes and the appointment of a successor Trustee or Trustees.

If the Trustee shall resign, be removed or become incapable of acting, or if a vacancy shall occur in the office of Trustee for any cause, with respect to the Notes of one or more series, the Company, by a Board Resolution, shall promptly appoint a successor Trustee or Trustees with respect to the Notes of that or those series (it being understood that any such successor Trustee may be appointed with respect to the Notes of one or more or all of such series and that at any time there shall be only one Trustee with respect to the Notes of any particular series) and shall comply with the applicable requirements of Section 6.11. If, within one year after such resignation, removal or incapability, or the occurrence of such vacancy, a successor Trustee with respect to the Notes of all series shall be appointed by the Holders of a majority in principal amount of the Outstanding Notes of all series, voting together as a single class, present or represented and voting at a meeting of such Holders at which a quorum is present (or by providing their written consent to the extent permitted under Argentine law and this Indenture), the successor Trustee so appointed shall, forthwith upon its acceptance of such appointment in accordance with the applicable requirements of Section 6.11, become the successor Trustee with respect to the Notes of such series and to that extent supersede the successor Trustee appointed by the Company. If no successor Trustee with respect to the Notes of any series shall have been so appointed by the Company or the Holders and accepted appointment in the manner required by Section 6.11, any Holder who has been a bona fide Holder of a Note of such series for at least six months may, on behalf of himself and all others similarly situated, petition any court of competent jurisdiction for the appointment of a successor Trustee with respect to the Notes of such series.

The Company shall give notice of each resignation and each removal of the Trustee with respect to the Notes of any series and each appointment of a successor Trustee with respect to the Notes of any series to all Holders of Notes of such series in the manner provided in Section 1.6. Each notice shall include the name of the successor Trustee with respect to the Notes of such series and the address of its Corporate Trust Office.

Acceptance of Appointment by Successor

In case of the appointment hereunder of a successor Trustee with respect to all Notes, every such successor Trustee so appointed shall execute, acknowledge and deliver to the Company and to the retiring Trustee an

instrument accepting such appointment, and thereupon the resignation or removal of the retiring Trustee shall become effective and such successor Trustee, without any further act, deed or conveyance, shall become vested with all the rights, powers, trusts and duties of the retiring Trustee; but, on the request of the Company or the successor Trustee, such retiring Trustee shall, upon payment of its charges, execute and deliver an instrument transferring to such successor Trustee all the rights, powers and trusts of the retiring Trustee and shall duly assign, transfer and deliver to such successor Trustee all property and money held by such retiring Trustee hereunder.

In case of the appointment hereunder of a successor Trustee with respect to the Notes of one or more (but not all) series, the Company, the retiring Trustee and each successor Trustee with respect to the Notes of one or more series shall execute and deliver an indenture supplemental hereto wherein each successor Trustee shall accept such appointment and which (1) shall contain such provisions as shall be necessary or desirable to transfer and confirm to, and to vest in, each successor Trustee all the rights, powers, trusts and duties of the retiring Trustee with respect to the Notes of that or those series to which the appointment of such successor Trustee relates, (2) if the retiring Trustee is not retiring with respect to all Notes, shall contain such provisions as shall be deemed necessary or desirable to confirm that all the rights, powers, trusts and duties of the retiring Trustee with respect to the Notes of that or those series as to which the retiring Trustee is not retiring shall continue to be vested in the retiring Trustee, and (3) shall add to or change any of the provisions of this Indenture as shall be necessary to provide for or facilitate the administration of the trusts hereunder by more than one Trustee, it being understood that nothing herein or in such supplemental indenture shall constitute such Trustees co-trustees of the same trust and that each such Trustee shall be trustee of a trust or trusts hereunder separate and apart from any trust or trusts hereunder administered by any other such Trustee; and upon the execution and delivery of such supplemental indenture the resignation or removal of the retiring Trustee shall become effective to the extent provided therein and each such successor Trustee, without any further act, deed or conveyance, shall become vested with all the rights, powers, trusts and duties of the retiring Trustee with respect to the Notes of that or those series to which the appointment of such successor Trustee relates; but, on request of the Company or any successor Trustee, such retiring Trustee shall duly assign, transfer and deliver to such successor Trustee all property and money held by such retiring Trustee hereunder with respect to the Notes of that or those series to which the appointment of such successor Trustee relates.

Upon request of any such successor Trustee, the Company shall execute any and all instruments for more fully and certainly vesting in and confirming to such successor Trustee all such rights, powers and trusts referred to in the first or second preceding paragraph, as the case may be.

No successor Trustee shall accept its appointment unless at the time of such acceptance such successor Trustee shall be qualified and eligible under this Article.

Merger, Conversion, Consolidation or Succession to Business

Any corporation into which the Trustee may be merged or converted or with which it may be consolidated, or any corporation resulting from any merger, conversion or consolidation to which the Trustee shall be a party, or any corporation succeeding to all or substantially all the corporate trust business of the Trustee, shall be the successor of the Trustee hereunder, provided such corporation shall be otherwise qualified and eligible under this Article, without the execution or filing of any paper or any further act on the part of any of the parties hereto. In case any Notes shall have been authenticated, but not delivered, by the Trustee then in office, any successor by merger, conversion or consolidation to such authenticating Trustee may adopt such authentication and deliver the Notes so authenticated with the same effect as if such successor Trustee had itself authenticated such Notes.

Preferential Collection of Claims Against Company

If and when the Trustee shall be or become a creditor of the Company (or any other obligor upon the Notes), the Trustee shall be subject to the provisions of the Trust Indenture Act regarding the collection of claims against the Company (or any such other obligor).

Appointment of Authenticating Agent

The Trustee may appoint an Authenticating Agent or Agents with respect to one or more series of Notes which shall be authorized to act on behalf of the Trustee to authenticate Notes of such series issued upon original issue and upon exchange, registration of transfer or partial redemption thereof or pursuant to Section 3.7, and Notes so authenticated shall be entitled to the benefits of this Indenture and shall be valid and obligatory for all purposes as if authenticated by the Trustee hereunder. Wherever reference is made in this

Indenture to the authentication and delivery of Notes by the Trustee or the Trustee's certificate of authentication, such reference shall be deemed to include authentication and delivery on behalf of the Trustee by an Authenticating Agent and a certificate of authentication executed on behalf of the Trustee by an Authenticating Agent. Each Authenticating Agent shall be acceptable to the Company and shall at all times be a corporation organized and doing business under the laws of the United States of America, any State thereof or the District of Columbia, authorized under such laws to act as Authenticating Agent, having a combined capital and surplus of not less than \$50.0 million and subject to supervision or examination by Federal or State authority. If such Authenticating Agent publishes reports of condition at least annually, pursuant to law or to the requirements of said supervising or examining authority, then for the purposes of this Section, the combined capital and surplus of such Authenticating Agent shall be deemed to be its combined capital and surplus as set forth in its most recent report of condition so published. If at any time an Authenticating Agent shall cease to be eligible in accordance with the provisions of this Section, such Authenticating Agent shall resign immediately in the manner and with the effect specified in this Section.

Any corporation into which an Authenticating Agent may be merged or converted or with which it may be consolidated, or any corporation resulting from any merger, conversion or consolidation to which such Authenticating Agent shall be a party, or any corporation succeeding to the corporate agency or corporate trust business of an Authenticating Agent, shall continue to be an Authenticating Agent, provided such corporation shall be otherwise eligible under this Section, without the execution or filing of any paper or any further act on the part of the Trustee or the Authenticating Agent.

An Authenticating Agent may resign at any time by giving written notice thereof to the Trustee and to the Company. The Trustee may at any time terminate the agency of an Authenticating Agent by giving written notice thereof to such Authenticating Agent and to the Company. Upon receiving such a notice of resignation or upon such a termination, or in case at any time such Authenticating Agent shall cease to be eligible in accordance with the provisions of this Section, the Trustee may appoint a successor Authenticating Agent which shall be acceptable to the Company and shall give notice of such appointment in the manner provided in Section 1.6 to all Holders of Notes of the series with respect to which such Authenticating Agent will serve. Any successor Authenticating Agent upon acceptance of its appointment hereunder shall become vested with all the rights, powers and duties of its predecessor hereunder, with like effect as if originally named as an Authenticating Agent. No successor Authenticating Agent shall be appointed unless eligible under the provisions of this Section.

The Company agrees to pay to each Authenticating Agent from time to time reasonable compensation for its services under this Section.

If an appointment with respect to one or more series is made pursuant to this Section, the Notes of such series may have endorsed thereon, in addition to the Trustee's certificate of authentication, an alternative certificate of authentication in the following form:

This is one of the Notes of the series designated therein referred to in the within-mentioned Indenture.

LAW DEBENTURE TRUST
COMPANY OF NEW YORK
As Trustee

By:
As Authenticating Agent

By:
Authorized Officer

Other Capacities

Except as otherwise specifically provided herein or as the context requires, (i) all references in this Indenture to the Trustee shall be deemed to refer to the Trustee in its capacity as Trustee and in its capacities as Co-Registrar, Principal Paying Agent, Paying Agent and Transfer Agent and (ii) every provision of this Indenture relating to the conduct or affecting the liability or offering protection, immunity or indemnity to the Trustee shall be deemed to apply with the same force and effect to the Trustee acting in its capacities as Co-Registrar, Principal Paying Agent, Paying Agent and Transfer Agent or to any other Paying Agent or Transfer Agent, as the case may be.

Certain Duties and Responsibilities of the Trustee's Representative

The duties of the Trustee's Representative shall be determined by the express provisions of this Indenture or as it may agree from time to time with the Trustee, and the Trustee's Representative need perform only those duties that are set forth in this Indenture and those agreed in writing with the Trustee. No implied covenants or obligations shall be read into this Indenture against the Representative of the Trustee in Argentina. The Trustee's Representative shall have only the faculties and powers stated below. It is further acknowledged that the Trustee's Representative is not and shall not be considered as if it were a Trustee's general attorney.

The duties and faculties of the Trustee's Representative up to the date hereof are only: (i) receive from Holders, the Company, agents, and any governmental or regulatory authority or entity any and all letters, claims, requests, memorandums or any other document directed to the Trustee, (ii) transmit, deliver or notify the Trustee of the reception of any and all of the mentioned documents by facsimile, within 72 hours since such reception, and (iii) respond or answer such letters, claims, requests, memorandums or documents, following the express instructions of the Trustee and only if such instructions are given by the Trustee.

The Trustee's Representative shall not be liable for any action it takes or omits to take in good faith and without negligence, which it believes to be authorized or within its discretion, rights or powers.

The Company shall pay to the Trustee's Representative from time to time, and the Trustee's Representative shall be entitled to, such compensation for its acceptance of this Indenture and its services hereunder as the Trustee's Representative and the Trustee shall from time to time agree in writing. The Company shall reimburse the Trustee's Representative promptly upon request for all reasonable disbursements, advances and expenses incurred or made by or on behalf of it in addition to the compensation for its services. Such expenses may include the reasonable compensation, disbursements and expenses of Trustee's Representative's agents, counsel and other persons not regularly in its employ.

The Company agrees to indemnify the Trustee's Representative for, and to hold it harmless against, any loss, liability or expense, including, without limitation, the reasonable fees and expenses of legal counsel, incurred without negligence or bad faith on its part, arising out of or in connection with the acceptance of its commitments hereunder, the performance of its duties hereunder and/or the exercise of its rights hereunder, including, without limitation, the costs and expenses of defending itself against any claim or liability in connection with the exercise or performance of any of its powers or duties hereunder.

7. Holders' Lists and Reports by Trustee and Company

Company to Furnish Trustee Names and Addresses of Holders

The Company will furnish or cause to be furnished to the Trustee

- semi-annually, not later than June 15 and December 15 in each year, commencing December 15, 2007, a list, in such form as the Trustee may reasonably require, of the names and addresses of the Holders of Notes of each series as of the preceding May 31 or November 30, as the case may be, and
- at such other times as the Trustee may request in writing, within 30 days after the receipt by the Company of any such request, a list of similar form and content as of a date not more than 15 days prior to the time such list is furnished;

excluding from any such list referred to in (1) or (2) above names and addresses received by the Trustee in its capacity as Co-Registrar,

- (3) immediately upon becoming aware that any Holder has instituted proceedings directly against the Company in accordance with the provisions of the Negotiable Obligations Law, notice of such proceedings and of the certificate numbers of the Notes which form the subject matter of such proceedings (with copies thereof to each Paying Agent and each Transfer Agent), and, promptly after receipt thereof, a copy of every document served on the Company or served or disclosed by it in connection with such proceedings, and
- (4) at least five Business Days in New York prior to making any payment to any Holder who has instituted proceedings directly against the Company under the Negotiable Obligations Law,

the certificate numbers of the Notes in respect of which such payment is to be made, and the amount to be paid in respect of each such Note.

Preservation of Information; Communications to Holders

The Trustee shall preserve, in as current a form as is reasonably practicable, the names and addresses of Holders contained in the most recent list furnished to the Trustee as provided in Section 7.1 and the names and addresses of Holders received by the Trustee in its capacity as Co-Registrar. The Trustee may destroy any list furnished to it as provided in Section 7.1 upon receipt of a new list so furnished.

The rights of Holders to communicate with other Holders with respect to their rights under this Indenture or under the Notes, and the corresponding rights and privileges of the Trustee, shall be as provided by the Trust Indenture Act.

Every Holder of Notes, by receiving and holding the same, agrees with the Company and the Trustee that neither the Company nor the Trustee nor any agent of either of them shall be held accountable by reason of any disclosure of information as to names and addresses of Holders made pursuant to the Trust Indenture Act.

Reports by Trustee

The Trustee shall within 60 days after each May 15th, beginning with the May 15th following the date of this Indenture, transmit to Holders such reports concerning the Trustee and its actions under this Indenture as may be required pursuant to the Trust Indenture Act at the times and in the manner provided pursuant thereto.

A copy of each such report shall, at the time of such transmission to Holders, be filed by the Trustee with each stock exchange upon which any Notes are listed and with the Commission. The Company will notify the Trustee when any Notes are listed on any stock exchange.

Reports by Company

The Company shall file with the Trustee such information, documents and other reports, and such summaries thereof, as provided in Section 10.7.

To the extent permitted by law, delivery of such reports, information and documents to the Trustee is for informational purposes only and the Trustee's receipt of such reports shall not constitute constructive notice of any information contained therein or determinable from information contained therein, including the Company's compliance with any of its covenants hereunder (as to which the Trustee is entitled to rely exclusively on Officers' Certificates).

8. Consolidation, Merger, Conveyance, Transfer or Lease

Company May Consolidate, Etc., Only on Certain Terms

The Company shall not consolidate with or merge into, or convey, transfer or lease its properties and assets substantially as an entirety to, any Person (a "Successor Person"), and shall not permit any Person to merge into, or convey, transfer or lease its properties and assets substantially as an entirety to, the Company, unless (i) the Successor Person (if any) is a corporation, partnership, trust or other entity organized and validly existing under the laws of any domestic U.S. jurisdiction or of Argentina and assumes the Company's obligations on the Notes and under this Indenture by a supplemental indenture, (ii) within 180 days after giving effect to the transaction, the credit rating or ratings of the Notes by any Nationally Recognized Statistical Rating Organization shall not be lowered as a result of such transaction, (iii) immediately after giving effect to the transaction, and treating any indebtedness which becomes an obligation of the Company or any Subsidiary as a result of the transaction as having been incurred by it at the time of the transaction, no Event of Default, and no event which, after notice or lapse of time or both, would become an Event of Default, shall have occurred and be continuing, (iv) immediately after giving pro forma effect to such transaction, the Successor Company could Incur at least an additional US\$1.00 of Indebtedness under the first paragraph of Section 10.16; and (v) if, as a result of the transaction, property of the Company would become subject to a Lien that would not be permitted under Section 10.19, the Company takes such steps as shall be necessary to secure the Notes equally and ratably with (or prior to) the indebtedness secured by such Lien.

Successor Substituted

Upon any consolidation of the Company with, or merger of the Company into, any other Person or any conveyance, transfer or lease of the properties and assets of the Company substantially as an entirety in accordance with Section 8.1, the Successor Person formed by such consolidation or into which the Company is merged or to which such conveyance, transfer or lease is made shall succeed to, and be substituted for, and may exercise every right and power of, the Company under this Indenture with the same effect as if such Successor Person had been named as the Company herein, and thereafter, except in the case of a lease, the predecessor Person shall be relieved of all obligations and covenants under this Indenture and the Notes.

9. Supplemental Indentures

Supplemental Indentures Without Consent of Holders

Without the consent of any Holders, the Company, when authorized by a Board Resolution, and the Trustee, at any time and from time to time, may enter into one or more indentures supplemental hereto, in form satisfactory to the Trustee, for any of the following purposes:

- to evidence the succession of another Person to the Company and the assumption by any such successor of the covenants of the Company herein and in the Notes in connection with a merger, consolidation or other transaction that complies with Section 8.1; or
- to add to the covenants of the Company for the benefit of the Holders of all or any series of Notes (and if such covenants are to be for the benefit of less than all series of Notes, stating that such covenants are expressly being included solely for the benefit of such series) or to surrender any right or power herein conferred upon the Company; or
- to add any additional Events of Default for the benefit of the Holders of all or any series of Notes (and if such additional Events of Default are to be for the benefit of less than all series of Notes, stating that such additional Events of Default are expressly being included solely for the benefit of such series); or
- to add to, change or eliminate any of the provisions of this Indenture in respect of one or more series of Notes, *provided*, that any such addition, change or elimination (A) shall neither (i) apply to any Note of any series created prior to the execution of such supplemental indenture and entitled to the benefit of such provision nor (ii) modify the rights of the Holder of any such Note with respect to such provision or (B) shall become effective only when there is no such Note Outstanding; or
- to secure the Notes pursuant to the requirements of Section 10.19 or otherwise; or
- to establish the form or terms of Notes of any series as permitted by Sections 2.1 and 3.1; or
- to evidence and provide for the acceptance of appointment hereunder by a successor Trustee with respect to the Notes of one or more series, and to add to or change any of the provisions of this Indenture as shall be necessary to provide for or facilitate the administration of the trusts hereunder by more than one Trustee, pursuant to the requirements of Section 6.11; or
- to amend this Indenture with respect to the authentication and delivery of additional series of Notes; or
- to cure any ambiguity, to correct or supplement any provision herein which may be defective or inconsistent with any other provision herein, or to make any other provisions with respect to matters or questions arising under this Indenture; *provided*, that such action pursuant to this Clause (9) shall not adversely affect the rights or interests of any of the Holders of Notes of any series in any material respect; or
- to modify the restrictions on transfer of the Notes, and the procedures for resales and other transfer of the Notes, to reflect any change in applicable law or regulation (or the interpretation thereof) or provide alternative procedures in compliance with applicable law and practices relating to the resale or other transfer of restricted securities generally.

Supplemental Indentures With Consent of Holders

With the consent of Holders of not less than a majority in principal amount of the Outstanding Notes of all series affected by such supplemental indenture, provided pursuant to a vote of the Holders of such affected series, voting together as a single class, at a meeting of Holders at which a quorum is present (or by providing their written consent to the extent permitted under Argentine law and this Indenture), the Company, when authorized by a Board Resolution, and the Trustee may enter into an indenture or indentures supplemental hereto for the purpose of adding any provisions to or changing in any manner or eliminating any of the provisions of this Indenture or of modifying in any manner the rights of the Holders of Notes of such series under this Indenture; *provided, however*, that no such supplemental indenture shall, without the consent of the Holder of each Outstanding Note affected thereby,

- change the Stated Maturity of the principal of, or any installment of principal of or interest on, any Note, or reduce the principal amount thereof or the rate of interest thereon or any premium payable upon the redemption thereof, or reduce or change any obligations to pay, any Additional Amounts or permit the redemption of a Note if not previously permitted, or reduce the amount of principal of an Original Issue Discount Note or any other Note which would be due and payable upon a declaration of acceleration of the Maturity thereof pursuant to Section 5.2, or change any Place of Payment where, or the currency in which, any Note or any premium, interest or Additional Amounts thereon is payable, or impair the right to institute suit for the enforcement of any payment on or with respect to any Note on or after the maturity date thereof (or, in the case of redemption, on or after the date of redemption), or
- reduce the percentage in principal amount of Outstanding Notes of any series, the consent of whose Holders is required for any such supplemental indenture, or the consent of whose Holders is required for any waiver of compliance with certain provisions of this Indenture or certain defaults hereunder and their consequences, or
- reduce the percentage in principal amount of the Outstanding Notes of any series, the consent of the Holders of which is required for the adoption of a resolution at a meeting of Holders held pursuant to Section 9.6 of this Indenture, or the quorum required at any such meeting of Holders at which a resolution is adopted or the percentage in principal amount of Outstanding Notes of any series the Holders of which are entitled to request the calling of a meeting of Holders, or
- modify any of the provisions of this Section 9.2, Section 5.13 or Section 10.21, except to increase the percentage provided therein or to provide that certain other provisions of this Indenture cannot be modified or waived without the consent of the Holder of each Outstanding Note affected thereby; *provided, however*, that this Clause shall not be deemed to require the consent of any Holder with respect to changes in the references to “the Trustee” and concomitant changes in this Section 9.2 and Section 10.21, or the deletion of this proviso, in accordance with the requirements of Section 6.11 and 9.1(7), or
- waive or amend Section 10.6, or
- amend Section 1.11.

provided, further, that, notwithstanding the above, if the Company becomes subject to an *acuerdo preventivo extrajudicial* procedure (an Argentine out-of-court reorganization procedure), a *concurso preventivo* proceeding (an Argentine voluntary reorganization proceeding), or any other reorganization procedure that may be implemented in accordance with the provisions of the ABL or other relevant law in effect in Argentina from time to time, then approval of a supplemental indenture relating to such provisions will require only the affirmative vote of, or consent by, the applicable majority required by Argentine law and/or the relevant Argentine court with jurisdiction over such procedure or proceeding, as applicable and as may be amended from time to time.

A supplemental indenture which changes or eliminates any covenant or other provision of this Indenture which has expressly been included solely for the benefit of one or more particular series of Notes, or which modifies the rights of the Holders of Notes of such series with respect to such covenant or other provision, shall be deemed not to affect the rights under this Indenture of the Holders of Notes of any other series.

It shall not be necessary for any meeting of Holders under this Section to approve the particular form of any proposed supplemental indenture, but it shall be sufficient if such meeting shall approve the substance thereof.

Execution of Supplemental Indentures

In executing, or accepting the additional trusts created by, any supplemental indenture permitted by this Article or the modifications thereby of the trusts created by this Indenture, the Trustee shall be entitled to receive, in addition to the documents required by Section 1.2, and (subject to Section 6.1) shall be fully protected in relying upon, an Opinion of Counsel stating that the execution of such supplemental indenture is authorized or permitted by this Indenture. The Trustee may, but shall not be obligated to, enter into any such supplemental indenture which affects the Trustee's own rights, duties or immunities under this Indenture or otherwise.

Effect of Supplemental Indentures

Upon the execution of any supplemental indenture under this Article, this Indenture shall be modified in accordance therewith, and such supplemental indenture shall form a part of this Indenture for all purposes; and every Holder of Notes theretofore or thereafter authenticated and delivered hereunder shall be bound thereby.

Reference in Notes to Supplemental Indentures

Notes of any series authenticated and delivered after the execution of any supplemental indenture pursuant to this Article may, and shall, if required by the Trustee, bear a notation in form approved by the Trustee as to any matter provided for in such supplemental indenture. If the Company shall so determine, new Notes of any series so modified as to conform, in the opinion of the Company, to any such supplemental indenture may be prepared and executed by the Company and authenticated and delivered by the Trustee in exchange for Outstanding Notes of such series.

Meetings of Holders; Modification and Waiver

The Trustee or the Company shall, upon the request of the Holders of at least five (5) percent in aggregate principal amount of the Notes of all series at the time Outstanding or of the Notes of any series at the time Outstanding, or the Company or the Trustee, at its discretion, may, call a meeting of the Holders of such Notes at any time and from time to time, to make, give or take any request, demand, authorization, direction, notice, consent, waiver or other action provided by the Notes or the relevant series of Notes to be made, given or taken by the Holders of such Notes. With respect to all matters not contemplated in this Indenture, meetings of Holders shall be held in accordance with the Negotiable Obligations Law. The meetings shall be held in the City of Buenos Aires, Argentina; *provided, however*, that the Company or the Trustee may determine to hold any such meetings simultaneously in the City of New York by any means of telecommunication which permits the participants to hear and speak to each other and such simultaneous meeting shall be deemed to constitute a single meeting for purposes of the quorum and voting percentages applicable to such meeting. In any case, meetings shall be held at such time and at such place as the Company or the Trustee shall determine. Any resolution passed at a meeting shall be binding on all Holders of Notes or of the relevant series of Notes, as the case may be (whether present or not at such meeting). If a meeting is being held pursuant to a request of Holders, the agenda for the meeting shall be as determined in the request and such meeting shall be convened within 40 days from the date such request is received by the Trustee or the Company, as the case may be. Meetings of Holders on first and second call may be called simultaneously. Notice of any meeting of Holders (which shall include the date, place and time of the meeting, the agenda therefor and the requirements to attend) shall be given not less than 10 days nor more than 30 days prior to the date fixed for the meeting in the *Official Gazette of Argentina* and in one national newspaper having general circulation in Argentina (which is expected to be *La Nación*), and also in the manner provided for hereunder and any publication of such notices shall be for five consecutive Business Days in each place of publication.

Decisions at a meeting of Holders shall be made by the affirmative vote of Holders of a majority in aggregate principal amount of the Notes of the affected series at the time Outstanding, present or represented at a meeting of such Holders at which a quorum is present; provided, however, that the unanimous consent or the unanimous affirmative vote of the Holders shall be required to adopt a valid decision on any of the matters specified in Clauses 9.2(1) through 9.2(6) subject to the proviso set forth in Section 9.2.

Any Holder may attend a meeting of the Holders in person or by proxy. Holders who intend to attend a meeting of Holders must notify the Company of their intention to do so at least three Business Days prior to the date of such meeting.

The quorum at any meeting to adopt a resolution with respect to the Notes of any series will be Persons who are Holders of or who represent 60% in aggregate principal amount of the Notes of the affected series at the time Outstanding; provided, however, that at any such reconvened meeting adjourned for lack of the requisite quorum, the quorum will be persons holding or representing 30% in aggregate principal amount of the Notes of the affected series at the time Outstanding. Any instrument given by or on behalf of any Holder in connection with any consent to any such waiver or change will be irrevocable once given and will be conclusive and binding on all subsequent Holders of such Note. Except as provided above, any modifications, amendments or waivers to the terms and conditions of the Notes will be conclusive and binding on all Holders of the affected series, whether or not they have given such consent or were present at any meeting, and whether or not notation of such modifications, amendments or waivers is made upon the Notes of the affected series, if duly passed at a meeting convened and held in accordance with the provisions hereof and of the Negotiable Obligations Law. For purposes of any meeting of Holders, each US\$1,000 of face value of the Outstanding Notes, shall entitle a Holder to one vote. Any Notes known to a Responsible Officer of the Trustee to be held for the account of the Company or any Affiliate of the Company shall not be considered Outstanding and Holders of such Notes will not be entitled to participate in taking any actions under the terms of the Notes.

Actions to be Taken Without a Meeting

In lieu of a meeting, Holders may provide written consent, or may consent by means of any other procedure (including through the DTC Omnibus Proxy and other internationally recognized clearinghouse consent solicitation systems) that the Company or the Trustee may implement in accordance herewith and Argentine law. Notice to Holders of any solicitation of consents without a meeting shall be provided in the manner set forth in Section 1.6 and by publication of such notice for five consecutive days in the *Official Gazette of Argentina* and in one national newspaper of general circulation in Argentina (which is expected to be *La Nación*) and otherwise in compliance with Argentine law.

10. Covenants

Payment of Principal, Premium and Interest

The Company covenants and agrees for the benefit of each series of Notes that it will duly and punctually pay the principal of, and any premium and interest on, the Notes of that series in accordance with the terms of the Notes and this Indenture. Overdue amounts of principal, premium and interest on any Note will bear interest from and including the date on which such amount first becomes overdue at a rate per annum equal to the sum of (i) the rate of interest otherwise borne by such Note on the due date for such amount plus (ii) 2% per annum (such increment, “**Default Interest**”). Default Interest shall be payable on demand and will accrue until the date any such overdue amount, including Default Interest thereon, is paid in full.

Payment of Additional Amounts

All payments in respect of the Notes will be made without withholding or deduction for or on account of any present or future taxes, duties, levies, contributions, withholdings, transfer expenses, assessments or other governmental charges of whatever nature (collectively, “**Taxes**”) imposed, levied, collected, withheld or assessed by or on behalf of the Argentine Government or any political subdivision or authority thereof or therein or any organization of which Argentina is or becomes a member, unless the Company is compelled by the Argentine Government or any such political subdivision or authority or any organization of which Argentina is or becomes a member to withhold or deduct such Taxes (including, without limitation, Personal Property Tax). In the event the Company is required to withhold or deduct any amount of Taxes from any payment made with respect to the Notes, the Company will pay such additional amounts (“**Additional Amounts**”) as may be necessary to ensure that the net amounts received by each Holder of Notes after such withholding or deduction shall equal the respective net amounts that the Holder would have received in respect of the Notes in the absence of such withholding or deduction, except that no such Additional Amounts shall be payable in respect of any Note:

- if any such Tax would not have been so imposed but for the presentation by the Holder of any such Note for payment on a date more than 30 days after the date on which such payment became due and payable or the date on which payment thereof is duly provided for, whichever occurs later and the Holder would not have been entitled to such amounts on the 30th day;

- if any Tax would not have been so imposed but for the Holder being a resident of Argentina or having some connection with Argentina other than the mere holding of such Note or the receipt of principal and interest thereof;
- if the Holder of such Note would not be subject to the withholding or deduction of Taxes if the Holder had made a valid and legal claim for exemption, if (a) the making of such claim is required as a precondition to an exemption from, or reduction in, the relevant Taxes, and (b) at least 45 days prior to the first payment date with respect to which the Company applies this Clause (3), the Company notifies all Holders in writing that they will be required to provide such claims; *provided*, that in no event shall the Holder's requirement to make a valid and legal claim for exemption require such Holder to provide any materially more onerous information, documents or other evidence that would be required to be provided had such Holder been required to file U.S. Tax Forms W-8BEN, W-8ECI, W-8EXP and/or W-8IMY claiming the benefits of an income tax treaty;
- for any estate, inheritance, gift, sales, transfer or any similar tax, assessment or governmental charge other than value added tax applicable to any payments in respect of the Notes;
- for any tax, duty, assessment or other governmental charge (other than the Personal Property Tax) which is payable otherwise than by withholding or deduction from payments on or in respect of any Note; or
- any combination of (1), (2), (3), (4) or (5).

No Additional Amounts shall be paid with respect to any payment on a Note to a Holder that is a fiduciary or partnership or other than the sole beneficial owner of such payment to the extent that a beneficiary or settler with respect to such fiduciary or a member of such partnership or beneficial owner would not have been entitled to receive the Additional Amounts had such beneficiary, settler, member or beneficial owner been the direct Holder.

References herein and in the Notes to the payment of principal (and premium, if any), Redemption Price, interest or any other amounts payable with respect to any Notes shall include the payment of Additional Amounts if Additional Amounts are, were or would be payable in respect thereof, even where Additional Amounts are not specifically mentioned.

If the Company or the Trustee or any other Paying Agent is required to pay Additional Amounts, the Company shall: (i) at least 10 Business Days prior to the first payment date on which such Additional Amounts are due, deliver to the Trustee (with a copy to any other Paying Agent) an Officers' Certificate specifying the amount so required to be deducted or withheld as an Additional Amount and certifying that the Company shall pay any such Additional Amounts, (ii) prior to the due date for any payment of Additional Amounts, pay any such Additional Amounts, and (iii) within 15 days after paying any such Additional Amounts, deliver to the Trustee the evidence of such payment and of the remittance thereof to the relevant taxing or other authority.

The Company shall pay any present or future stamp issue, registration or documentary or other similar taxes and duties, including interest and penalties, payable in Argentina, Luxemburg, Belgium, the United Kingdom or the United States or any authority of or in the foregoing in respect of the creation, issue and offering of the Notes.

Maintenance of Office or Agency

The Company shall maintain in each Place of Payment for any series of Notes an office or agency where Notes of that series may be presented or surrendered for payment, where Notes of that series may be surrendered for registration of transfer or exchange and where notices and demands to or upon the Company in respect of the Notes of that series and this Indenture may be served. The Company will give prompt written notice to the Trustee of the location, and any change in the location, of such office or agency. If at any time the Company shall fail to maintain any such required office or agency or shall fail to furnish the Trustee with the address thereof, such presentations, surrenders, notices and demands may be made or served at the Corporate Trust Office of the Trustee, and the Company hereby appoints the Trustee as its agent to receive all such presentations, surrenders, notices and demands.

The Company may also from time to time designate one or more other offices or agencies where the Notes of one or more series may be presented or surrendered for any or all such purposes and may from time to

time rescind such designations; *provided, however*, that no such designation or rescission shall in any manner relieve the Company of its obligation to maintain an office or agency in each Place of Payment for Notes of any series for such purposes. The Company will give prompt written notice to the Trustee of any such designation or rescission and of any change in the location of any such other office or agency.

With respect to any Global Note, and except as otherwise may be specified for such Global Note as contemplated by Section 3.1, the Corporate Trust Office of the Trustee shall be the Place of Payment where such Global Note may be presented or surrendered for payment or for registration of transfer or exchange, or where successor Notes may be delivered in exchange therefor; *provided, however*, that any such payment, presentation, surrender or delivery effected pursuant to the Applicable Procedures of the Depositary for such Global Note shall be deemed to have been effected at the Place of Payment for such Global Note in accordance with the provisions of this Indenture.

The Company hereby appoints the Trustee as Principal Paying Agent under this Indenture, and the Trustee hereby accepts this appointment.

Money for Notes Payments to Be Held in Trust

If the Company shall at any time act as its own Paying Agent with respect to any series of Notes, it will, on or before each due date of the principal of or any premium or interest on any of the Notes of that series, segregate and hold in trust for the benefit of the Persons entitled thereto a sum sufficient to pay the principal and any premium and interest so becoming due until such sums shall be paid to such Persons or otherwise disposed of as herein provided and will promptly notify the Trustee of its action or failure so to act.

Whenever the Company shall have one or more Paying Agents for any series of Notes, it will, prior to each due date of the principal of or any premium or interest on any Notes of that series, deposit with a Paying Agent a sum sufficient to pay such amount, such sum to be held in trust for the benefit of the Persons entitled to such principal, premium or interest, and (unless such Paying Agent is the Trustee) the Company will promptly notify the Trustee of its action or failure so to act.

The Company will cause each Paying Agent for any series of Notes other than the Trustee to execute and deliver to the Trustee an instrument in which such Paying Agent shall agree with the Trustee, subject to the provisions of this Section, that such Paying Agent will (1) hold all sums held by it for the payment of the principal of (and premium, if any) or interest on the Notes of that series in trust for the benefit of the Persons entitled thereto until such sums shall be paid to such Persons or otherwise disposed of as herein provided, and give the Trustee notice of any default by the Company (or any other obligor upon the Notes of that series) in the making of any payment of principal (and premium, if any) or interest on the Notes of that series; and (2) during the continuance of any default by the Company (or any other obligor upon the Notes of that series) in the making of any payment in respect of the Notes of that series, upon the written request of the Trustee, forthwith pay to the Trustee all sums held in trust by such Paying Agent for payment in respect of the Notes of that series.

The Company may at any time, for the purpose of obtaining the satisfaction and discharge of this Indenture or for any other purpose, pay, or by Company Order direct any Paying Agent to pay, to the Trustee all sums held in trust by the Company or such Paying Agent, such sums to be held by the Trustee upon the same trusts as those upon which such sums were held by the Company or such Paying Agent; and, upon such payment by any Paying Agent to the Trustee, such Paying Agent shall be released from all further liability with respect to such money.

Any money deposited with the Trustee or any Paying Agent, or then held by the Company, in trust for the payment of the principal of or any premium or interest on any Note of any series and remaining unclaimed for two years after such principal, premium or interest has become due and payable shall be paid to the Company on Company Request, or (if then held by the Company) shall be discharged from such trust; and the Holder of such Note shall thereafter, as an unsecured general creditor, look only to the Company for payment thereof, and all liability of the Trustee or such Paying Agent with respect to such trust money, and all liability of the Company as trustee thereof, shall thereupon cease; *provided, however*, that the Trustee or such Paying Agent, before being required to make any such repayment, may at the expense of the Company cause to be published once, (i) in a newspaper published in the English language, customarily published on each Business Day and of general circulation in the City of New York and (ii) in a newspaper published in the Spanish language and of general circulation in Argentina, notice that such money remains unclaimed and that, after a date specified therein, which shall not be less than 30 days from the date of such publication, any unclaimed balance of such money then remaining shall be repaid to the Company.

Maintenance of Certain Government Approvals

The Company shall duly obtain and maintain in full force and effect all governmental approvals, consents or licenses which are necessary under the laws of Argentina for the execution, delivery and performance of this Indenture, the Notes of each series and any purchase or placement agreement relating thereto by the Company or for the validity or enforceability thereof.

Pari Passu

The Company shall ensure at all times that its obligations under the Notes of each series and this Indenture constitute unconditional general obligations of the Company ranking at least *pari passu* with all other unsecured and unsubordinated Indebtedness of the Company (other than Indebtedness ranking senior thereto by statute or operation of law).

Reporting; Statements by Officers as to Default

The Company shall file with the Trustee such information, documents or reports as are required to be filed with the SEC pursuant to Section 13 or 15(d) of the Exchange Act within 5 Business Days after the same is actually filed with the SEC. If the Company is at any time not required to file information, documents or reports pursuant to Section 13 or Section 15(d) of the Exchange Act, the Company shall file with the Trustee and the SEC, in accordance with rules and regulations prescribed from time to time by the SEC, such of the supplementary and periodic information, documents and reports that may be required pursuant to Section 13 of the Exchange Act in respect of a security listed and registered on a national securities exchange. The filing of any information, document or report with the SEC shall satisfy our obligation to deliver such information, document or report to the Trustee.

In addition, the Company shall furnish to the Trustee: (i) within 120 days after the end of each fiscal year, a brief certificate from the principal executive officer, principal financial officer or principal accounting officer as to his or her knowledge of the Company's compliance with all conditions and covenants under this Indenture (compliance, for such purpose, to be determined without regard to any period of grace or requirement of notice provided under the Indenture); (ii) upon any officer of the Company becoming aware of the existence of an Event of Default, a certificate of such officer, setting forth the details thereof and the action that the Company is taking or propose to take with respect thereto; and (iii) written notification of any material changes to the License within ten days of any such material change.

For so long as any series of Notes is listed on the Official List of the Luxembourg Stock Exchange and the rules of such exchange so require, the Company shall make the information in the preceding two paragraphs available in Luxembourg through the offices of the Listing Agent.

Existence

The Company shall (i) maintain in effect its corporate existence except as otherwise permitted under Section 8 and (ii) take all reasonable actions to maintain all rights, privileges, titles to property, franchises and the like necessary or desirable in the normal conduct of its business, activities or operations; *provided, however*, that this Section 10.8 shall not require the Company to maintain any such right, privilege, title to property or franchise if the Board of Directors of the Company shall determine that: (A) the maintenance or preservation thereof is no longer desirable in the conduct of the business of the Company and (B) the loss thereof is not, and will not be, adverse in any material respect to the Holders.

Compliance with Laws, Rules and Regulations

The Company shall, and shall cause each of its Subsidiaries to, comply with all applicable laws, rules, regulations, orders and directives of any Governmental Agency having jurisdiction over the business of the Company or such Subsidiary, as the case may be, and all covenants and other obligations contained in any material agreements to which the Company or such Subsidiary, as the case may be, is a party, except where the failure so to comply would not have a material adverse effect on (i) the Company's ability to meet its obligations under the Notes on a timely basis or (ii) any material rights or interest of the Trustee or the Holders under the Indenture or the Notes.

Maintenance of Properties

The Company shall cause all tangible Properties used or useful in the conduct of its business or the business of any of its Subsidiaries to be maintained and kept in good condition, repair and working order and supplied with all necessary equipment and shall cause to be made all necessary repairs, renewals, replacements and improvements thereof, all as in the judgment of the Company may be necessary so that the business carried on in connection therewith may be properly and advantageously conducted at all times; *provided, however*, that this Section 10.10 will not prevent the Company from discontinuing the operation or maintenance of any of such Properties if such discontinuance is, as determined by the Board of Directors of the Company, in good faith, (A) desirable in the conduct of the business of the Company and its Subsidiaries taken as a whole and (B) not adverse in any material respect to the Holders.

Maintenance of Insurance

The Company shall, and shall cause each of its Subsidiaries to, maintain insurance in such amounts and covering such risks as is required by applicable laws and regulations of Argentina.

Further Assurances

The Company shall, at its own cost and expense, execute and deliver to the Trustee all such documents, instruments and agreements and do or cause to be done all such other acts and things as may be reasonably required, in the opinion of the Trustee, to enable the Trustee to exercise and enforce its rights under this Indenture and under the documents, instruments and agreements required under this Indenture and to carry out the intent of this Indenture.

Amendment of Technical Assistance Agreement

The Company shall not enter into or consent to any amendment, restatement or modification of the Technical Assistance Agreement or any successor agreement thereto, other than an amendment, restatement or modification that is not materially adverse to the Company and its Subsidiaries, taken as a whole.

Transactions with Affiliates

The Company shall not, and shall not cause or permit any Subsidiary to, enter into any transaction, including, without limitation, any purchase, sale, lease or exchange of property, or the rendering of any service, with any Affiliate of the Company *unless* such transaction is (A) otherwise permitted under this Indenture and (B) upon terms that are not materially less favorable to the Company or its Subsidiary, as the case may be, than the Company or such Subsidiary would obtain in a comparable arm's-length transaction with a Person who is not an Affiliate of the Company or such Subsidiary; *provided, however*, that this Section 10.14 shall not restrict (1) the Company from paying reasonable and customary fees to, and indemnities provided on behalf of, to its directors, officers, employees or consultants; (2) the Company from paying reasonable compensation (including amounts paid pursuant to employee benefit plans, stock options and other incentive compensation), indemnification, reimbursement or advancement of out-of-pocket expenses and provisions of liability insurance of our directors, officers and employees; (3) the payment of Management Fees in accordance with the provisions of the Technical Assistance Agreement; or (4) the Company from making any payment described in clause (i) of the definition of Restricted Payments in compliance with Section 10.17.

Termination of License

The Company shall not terminate the License and shall not take any action or refrain from taking any action which, in the reasonable opinion of the Company, would result in the termination of the License. The Company shall not agree to amend or waive any terms of the License unless such amendment or waiver would not, in the reasonable opinion of the Company, adversely affect (i) the ability of the Company to meet its obligations under the Notes on a timely basis or (ii) any material rights or interest of the Trustee or the Holders under this Indenture or the Notes.

Limitation on Incurrence of Indebtedness

The Company shall not, and shall not permit any Subsidiary to, Incur any Indebtedness unless: (a) on the date of such Incurrence, and after giving effect thereto and the application of the proceeds therefrom, (i) the Consolidated Coverage Ratio would be greater than or equal to 2.0:1, and (ii) the Consolidated Debt Ratio would be less than or equal to 3.75:1, in each case determined on a pro forma basis as if such Indebtedness had

been Incurred and the proceeds therefrom applied at the beginning of the most recent four fiscal quarter period for which the Company has filed financial statements with the CNV; and (b) no Default or Event of Default shall have occurred and be continuing at the time of, and after giving effect to, such Incurrence.

Notwithstanding the above clause, the Company or any Subsidiary may Incur the following Indebtedness (“**Permitted Indebtedness**”):

- Refinancing Indebtedness;
- Capitalized Lease Obligations not in excess of US\$20.0 million at any time outstanding;
- Indebtedness of the Company under Hedging Agreements or Currency Agreements; provided, that such Indebtedness is not Incurred for speculative purposes, is necessary or prudent to hedge or otherwise manage risk to which the Company is or expects to be exposed in the ordinary course of the Company’s business;
- Indebtedness of a Subsidiary Incurred and outstanding on or prior to the date on which such Subsidiary was acquired by the Company (other than Indebtedness Incurred as consideration in, or to provide all or any portion of the funds or credit support utilized to consummate, the transaction or series of related transactions pursuant to which such Subsidiary became a Subsidiary of, or was otherwise acquired by, the Company); provided, however, that on the date that such Subsidiary is acquired by the Company, the Company would have been able to Incur US\$1.00 of additional Indebtedness pursuant to the first paragraph of this Section 10.16 after giving pro forma effect to the Incurrence of such Indebtedness pursuant to this subclause (d)(i) and the acquisition of such Subsidiary by the Company, as if such Indebtedness was Incurred and such acquisition consummated at the beginning of the most recent four fiscal quarter period for which the Company has filed financial statements with the CNV; and (ii) Indebtedness Incurred by a Subsidiary or the Company to refinance the Indebtedness Incurred pursuant to this subclause (d);
- Indebtedness arising from agreements providing for indemnification, adjustment of purchase price or similar obligations, in each case Incurred or assumed in connection with the disposition of a business, assets or capital stock of a Subsidiary; provided that, in each case, only to the extent the maximum aggregate liability in respect of such Indebtedness does not exceed the gross proceeds actually received by the Company or such Subsidiary in connection with such disposition;
- customer deposits and advance payments received from customers for the sale, lease or license of goods and services in the ordinary course of business; and
- Indebtedness, the proceeds from which are applied, within 45 days following Incurrence, to the redemption of, or repayment or repurchase of principal (including any premium) of, and interest and Additional Amounts on, Indebtedness of the Company that is outstanding as of the date of this Indenture.

Limitation on Restricted Payments

The Company shall not, and shall not permit any Subsidiary to, declare or make, or agree to make, directly or indirectly, any Restricted Payment unless:

- no Event of Default or event which, with the giving of notice or the lapse of time will become an Event of Default, shall have occurred and be continuing at the time of or after giving effect to such Restricted Payment; and
- immediately after giving effect to such Restricted Payment, the Company would be able to Incur at least US\$1.00 of additional Indebtedness (other than Permitted Indebtedness) pursuant to Section 10.16.

Limitation on Asset Sales

The Company shall not, and shall not permit any Subsidiary to, make any Asset Sale unless:

- the Company or such Subsidiary receives consideration (including by way of relief from, or by any other Person assuming sole responsibility for, any liabilities, contingent or otherwise) at the time of such Asset Sale at least equal to the Fair Market Value of the shares and/or assets subject to such Asset Sale;
- at least 75% of the consideration thereof received by the Company or such Subsidiary is in the form of Cash and Cash Equivalents; *provided* that the following shall be deemed to be cash for purposes of this clause (b): (i) the amount of any liabilities (as shown on the Company's, or such Subsidiary's, most recent balance sheet or in the notes thereto) of the Company or any Subsidiary (other than liabilities that are by their terms subordinated to the Notes) that are assumed by the transferee of any such assets; (ii) the amount of any Marketable Securities received by the Company or such Subsidiary from such transferee that is converted by the Company or such Subsidiary into cash (to the extent of the cash received) within 30 days following the closing of such Asset Sale; and (iii) the Fair Market Value of any Capital Stock of a Person engaged in a Related Business that will become, upon purchase, a Subsidiary or assets (other than current assets as determined in accordance with Argentine GAAP or Capital Stock) to be used by the Company or any Subsidiary in a Related Business; *provided* that amounts received pursuant to clauses (i) and (iii) shall not be deemed to constitute Net Cash Proceeds for purposes of making an Asset Sale Offer (as defined below); provided, however, that Market Securities will constitute cash (for purposes of clause (ii)) with respect to the Fair Market Value thereof on the date on which such Market Securities were received by the Company or such Subsidiary.

The Company or such Subsidiary, as the case may be, may apply the Net Cash Proceeds of any Asset Sale within 365 days after such Asset Sale to:

- repay any Indebtedness of the Company that is *pari passu* with the Notes (whether through optional or mandatory prepayments or redemptions, or tender offers or open market or other privately negotiated purchases, so long as such repaid Indebtedness is immediately extinguished); provided that in connection with any such repayment of *pari passu* Indebtedness the Company offers to redeem a *pro rata* portion of the Notes based on the relative Outstanding principal amount of the Notes and such other Indebtedness), or
- make capital expenditures in a Related Business, or
- reinvest in or purchase Additional Assets (including by means of an investment in or purchase of Additional Assets by any Subsidiary with cash in an amount equal to the amount of Net Available Cash or Capital Stock to be used by the Company or any Subsidiary in a Related Business), or
- any combination of (a), (b) or (c) above.

To the extent all or a portion of the Net Cash Proceeds of any Asset Sale are not applied within the 365 days of the Asset Sale as described in clauses (a) through (e) of the immediately preceding paragraph, the Company shall make an offer to purchase notes (the "**Asset Sale Offer**"), at a purchase price equal to 100% of the principal amount of the notes to be purchased, plus accrued and unpaid interest thereon to the date of purchase (the "**Asset Sale Offer Amount**"). The Company shall purchase pursuant to an Asset Sale Offer from all tendering Holders on a *pro rata* basis, and, at the Company's option, on a *pro rata* basis with the Holders of any other Indebtedness with similar provisions requiring the Company to offer to purchase the other Indebtedness with the proceeds of Asset Sales, that principal amount (or accreted value in the case of Indebtedness issued with original issue discount) of Notes and the other Indebtedness to be purchased equal to such unapplied Net Cash Proceeds. The Company may satisfy its obligations under this covenant with respect to the Net Cash Proceeds of an Asset Sale by making an Asset Sale Offer prior to the expiration of the relevant 365-day period.

The purchase of Notes pursuant to an Asset Sale Offer shall occur not less than 20 business days following the date thereof, or any longer period as may be required by law, nor more than 45 days following the 365th day following the Asset Sale. The Company may, however, defer an Asset Sale Offer until there is an aggregate amount of unapplied Net Cash Proceeds from one or more Asset Sales equal to or in excess of US\$30.0 million. At that time, the entire amount of unapplied Net Cash Proceeds, and not just the amount in excess of US\$30.0 million, shall be applied as required pursuant to this Section 10.18. Pending application in accordance with this covenant, Net Cash Proceeds may be applied to temporarily reduce revolving credit

borrowings or invested in Cash Equivalents or Temporary Cash Investments. Each notice of an Asset Sale Offer shall be mailed first class, postage prepaid, to the record holders as shown on the register of holders within 20 days following such 365th day, with a copy to the Trustee, offering to purchase the Notes as described above. Each notice of an Asset Sale Offer shall state, among other things, the purchase date, which must be no earlier than 30 days nor later than 60 days from the date the notice is mailed, other than as may be required by law (the “**Asset Sale Offer Payment Date**”). Upon receiving notice of an Asset Sale Offer, Holders may elect to tender their notes in whole or in part in amounts of US\$2,000 or in integral multiples of US\$1,000 in excess thereof in exchange for cash.

On the Asset Sale Offer Payment Date, the Company shall, to the extent lawful:

- accept for payment all Notes or portions thereof properly tendered pursuant to the Asset Sale Offer;
- deposit with the Paying Agent funds in an amount equal to the Asset Sale Offer Amount in respect of all Notes or portions thereof so tendered; and
- deliver or cause to be delivered to the Trustee the Notes so accepted together with an Officers’ Certificate stating the aggregate principal amount of Notes or portions thereof being purchased by the Company.

To the extent Holders and holders of other Indebtedness, if any, that are the subject of an Asset Sale Offer properly tender and do not withdraw Notes or the other Indebtedness in an aggregate amount exceeding the amount of unapplied Net Cash Proceeds, the Company shall purchase the Notes and the other Indebtedness on a *pro rata* basis (based on amounts tendered). If only a portion of a Note is purchased pursuant to an Asset Sale Offer, a new Note in a principal amount equal to the portion thereof not purchased shall be issued in the name of the Holder thereof upon cancellation of the original note (or appropriate adjustments to the amount and beneficial interests in a Global Note shall be made, as appropriate). Notes (or portions thereof) purchased pursuant to an Asset Sale Offer shall be cancelled and not reissued.

The Company shall comply with the requirements of Rule 14c-1 under the Exchange Act and any other applicable securities laws in connection with the purchase of Notes pursuant to an Asset Sale Offer. To the extent that the provisions of any applicable securities laws or regulations conflict with this Section 10.18, the Company shall comply with such laws and regulations and shall not be deemed to have breached its obligations under this Section 10.18 by doing so.

Following the application of such unapplied Net Cash Proceeds to the purchase of Notes or other Indebtedness, the amount of Net Available Cash shall be reset at zero and the Company shall be entitled to use any remaining proceeds for any corporate purposes to the extent not prohibited under this Indenture.

Limitation on Liens

The Company shall not, and shall not permit any Subsidiary to, create or permit to subsist any Lien other than Permitted Liens upon the whole or any part of its or, as the case may be, any such Subsidiary’s undertaking, assets or revenues present or future to secure any Indebtedness unless, at the same time or prior thereto, the Company’s obligations under the Notes and this Indenture (x) are secured equally and ratably therewith, or prior thereto, or (y) have the benefit of such other security, guarantee, indemnity or other arrangement as shall be approved by a meeting of Holders.

Notwithstanding the foregoing, the Company or any Subsidiary may create or permit to subsist the following Liens (“**Permitted Liens**”):

- Liens existing on the Initial Issue Date;
- any Lien created on any fixed asset securing Indebtedness incurred or assumed solely for the purpose of financing all or any part of the cost of developing, constructing or acquiring such fixed asset, which Lien attaches to such fixed asset concurrently with or within 180 days after the acquisition thereof; *provided, however*, that the principal amount of Indebtedness secured by such Lien does not exceed the cost of developing, constructing or acquiring such fixed asset. For the avoidance of doubt, for the purposes of this subclause (ii) only, a Lien shall be deemed to attach as of the first date on which the Company or a Subsidiary has executed and delivered an agreement

pursuant to which such Lien purports to be created or, if earlier, the first date upon which any such agreement has been signed by the Company or such Subsidiary and delivered into escrow or any similar arrangement that would later permit the release and delivery thereof upon the happening of some event or satisfaction of some later condition;

- any Lien created on any asset securing an extension, renewal or refinancing of Indebtedness secured in accordance with clause (i) or (ii) of this paragraph provided that (a) the Lien is created over the original asset secured and (b) the principal amount of Indebtedness secured by the Lien prior to such extension, renewal or refinancing is not increased, other than with respect to reasonable costs, fees and expenses incidental to such extension, renewal, or refinancing;
- any Lien arising in connection with the permitted sale or other disposition of receivables of the Company in connection with the securitization of such receivables; *provided, however*, that (a) no portion of the Indebtedness incurred by any special purpose vehicle established in connection with any such securitization transaction (x) shall be guaranteed by the Company or a Subsidiary or (y) is recourse to or obligates the Company or a Subsidiary in any way such that the requirements for off balance sheet treatment under Statement of Financial Accounting Standards No. 140 are not satisfied, or (b) neither the Company nor any of its Subsidiaries assumes any obligation to maintain or preserve the financial condition or liquidity of any such special purpose vehicle or to cause such entity to achieve certain levels of operating results;
- Liens for taxes not yet delinquent or which are being contested in good faith by appropriate proceedings; provided, that any reserves with respect thereto are maintained on the Company's books or the books of any of the Company's Subsidiaries, as the case may be, in conformity with Argentine GAAP;
- Liens arising by reason of any judgment, decree or order of any court, so long as such Lien is being contested in good faith and any appropriate legal proceedings which may have been duly initiated for the review of such judgment, decree or order shall not have been finally terminated or the period within which such proceedings may be initiated shall not have expired;
- pledges, deposits or other security in connection with workers' compensation or other unemployment insurance or obligations arising from other social security laws or legislation arising in the ordinary course of business;
- deposits made in the ordinary course of business and in each case not Incurred or made in connection with the borrowing of money, to secure the performance of (a) tenders, bids, trade contracts, leases (other than Capitalized Lease Obligations), statutory obligations, surety and appeal bonds, or (b) performance bonds, purchase, construction or sales contracts and other obligations of a like nature provided that the amount of such deposits shall not exceed US\$20.0 million at any time outstanding;
- Capitalized Lease Obligations;
- leases or subleases granted to others, easements, rights-of-way, restrictions and other similar charges or encumbrances, in each case incidental to, and not interfering with, the ordinary conduct of the Company's business or the business of any of its Subsidiaries;
- Liens created in order to comply with any rule or regulation of a Governmental Authority; provided, that (a) the assets subject to such Liens are used in the Company's gas transportation business conducted pursuant to the License, (b) such Liens are created only on the additional assets or properties constructed or developed by the Company in connection with an expansion project mandated by a Governmental Authority, and (c) no Liens are created over the revenues generated by such assets except as otherwise permitted by Clause (xii) below; *provided, however*, that the Indebtedness secured by such Lien has no recourse against the Company or

its properties or revenues, except in respect of the additional assets subject to such Liens;

- Liens on assets securing Attributable Debt under any Sale and Lease-Back Transaction permitted to be Incurred or assumed in accordance with Section 10.20, provided that any such Lien does not encumber any property other than the assets that are the subject of the applicable Sale and Lease-Back Transaction; and Liens on assets securing Indebtedness represented by Capitalized Lease Obligations and permitted to be incurred or assumed under the Section 10.16 (including any interest or title of a lessor under any lease the obligations under which are Capitalized Lease Obligations and covering only the assets acquired with such Indebtedness); and
- all Liens created on any asset securing Indebtedness, other than Liens described in (i) to (xii) of this paragraph, the aggregate amount of which does not exceed US\$20.0 million.

Limitation on Sale and Lease-Back Transactions

The Company covenants and agrees that neither the Company nor any Subsidiary will enter into any Sale and Lease-Back Transaction unless the Company or such Subsidiary would be entitled:

pursuant to the provisions of Section 10.16 to Incur Indebtedness in a principal amount equal to or exceeding the Attributable Debt of such Sale and Lease-Back Transaction; and

pursuant to the provisions of the Section 10.19 to Incur a Lien to secure such Indebtedness.

Waiver of Certain Covenants

Except as otherwise specified as contemplated by Section 3.1 for Notes of such series, the Company may, with respect to the Notes of one or more series, omit in any particular instance to comply with any term, provision or condition set forth in any covenant provided pursuant to Section 3.1(18), 9.1(2) or 9.1(6) for the benefit of the Holders of such series or in any of Sections 10.5 through 10.20, inclusive, if, before the time for such compliance, the Holders of at least a majority in principal amount of the Outstanding Notes of all series with respect to which the Company seeks to waive compliance with such covenant, provided pursuant to a vote of the Holders of such affected series, voting together as a single class, present or represented and voting at a meeting of Holders of Notes of such series at which a quorum is present (or by providing their written consent to the extent permitted under Argentine law and this Indenture) either waive such compliance in such instance or generally waive compliance with such term, provision or condition, but no such waiver shall extend to or affect such term, provision or condition except to the extent so expressly waived, and, until such waiver shall become effective, the obligations of the Company and the duties of the Trustee in respect of any such term, provision or condition shall remain in full force and effect.

Release of Covenants

If on any date following the issuance of any series of Notes under this Indenture:

- such series of Notes has been assigned an Investment Grade Rating by any two Nationally Recognized Statistical Rating Organizations; and
- no Event of Default or event which, with the giving of notice or the lapse of time, or both, will become and Event of Default shall have occurred and be continuing,

then, beginning on that date and subject to the provisions of the following paragraph, the covenants set forth in Section 10.13, Section 10.14, Section 10.16, Section 10.17 and, Section 10.18 (collectively, the “Suspended Covenants”) will automatically, without any notice of any kind, be suspended with respect to such series of Notes and the Company and its Subsidiaries shall have no obligation or liability whatsoever with respect to such covenants.

If, during any period in which the Suspended Covenants are suspended with respect to a series of Notes, such series of Notes ceases to have an Investment Grade Rating from at least two Nationally Recognized Statistical Rating Organizations, the Suspended Covenants shall thereafter be reinstated and be applicable pursuant to their terms (including in connection with performing any calculation or assessment to determine

compliance with the terms of this Indenture), unless and until such series of Notes subsequently attains an Investment Grade Rating by at least two Nationally Recognized Statistical Rating Organizations (in which event the Suspended Covenants will again be suspended with respect to such series for such time that such series of Notes maintains an Investment Grade Rating by at least two Nationally Recognized Statistical Rating Organizations); *provided, however*, that no Default, Event of Default or breach or violation of any kind will be deemed to exist under this Indenture or a series of Notes with respect to the Suspended Covenants (whether during the period when the Suspended Covenants were suspended or thereafter) based on, and neither the Company nor any of its Subsidiaries will bear any liability (whether during the period when the Suspended Covenants were suspended or thereafter) for, any actions taken or events occurring after a series of Notes attain an Investment Grade Rating by at least two Nationally Recognized Statistical Rating Organizations and before any reinstatement of the Suspended Covenants as provided above, or any actions taken at any time (whether during the period when the Suspended Covenants were suspended or thereafter) pursuant to any legal or contractual obligation arising prior to the reinstatement, regardless of whether those actions or events would have been permitted if the applicable Suspended Covenant had remained in effect during such period.

11. Redemption of Notes

Applicability of Article

Notes of any series which are redeemable before their Stated Maturity shall be redeemable in accordance with their terms and (except as otherwise specified as contemplated by Section 3.1 for such Notes) in accordance with this Article.

Election to Redeem; Notice to Trustee

The election of the Company to redeem any Notes pursuant to Section 11.8 shall be evidenced by a Board Resolution or in another manner specified as contemplated by Section 3.1 for such Notes. In case of any redemption at the election of the Company of less than all the Notes of any series (including any such redemption affecting only a single Note), the Company shall, at least 60 days prior to the Redemption Date fixed by the Company (unless a shorter notice shall be satisfactory to the Trustee), notify the Trustee of such Redemption Date, of the principal amount of Notes of such series to be redeemed and, if applicable, of the tenor and principal amount of the Notes to be redeemed. In the case of any redemption of Notes prior to the expiration of any restriction on such redemption provided in the terms of such Notes or elsewhere in this Indenture, the Company shall furnish the Trustee with an Officers' Certificate evidencing compliance with such restriction.

Selection by Trustee of Notes to Be Redeemed

If less than all the Notes of any series are to be redeemed (unless all the Notes of such series and of a specified tenor are to be redeemed or unless such redemption affects only a single Note), the particular Notes to be redeemed shall be selected not more than 60 days prior to the Redemption Date by the Trustee, from the Outstanding Notes of such series not previously called for redemption, by such method as the Trustee shall deem fair and appropriate and which may provide for the selection for redemption of a portion of the principal amount of any Note of such series, *provided* that the unredeemed portion of the principal amount of any Note shall be in an authorized denomination (which shall not be less than the minimum authorized denomination) for such Note. If less than all the Notes of such series and of a specified tenor are to be redeemed (unless such redemption affects only a single Note), the particular Notes to be redeemed shall be selected not more than 60 days prior to the Redemption Date by the Trustee, from the Outstanding Notes of such series and specified tenor not previously called for redemption in accordance with the preceding sentence.

The Trustee shall promptly notify the Company in writing of the Notes selected for redemption as aforesaid and, in case of any Notes selected for partial redemption as aforesaid, the principal amount thereof to be redeemed.

The provisions of the three preceding paragraphs shall not apply with respect to any redemption affecting only a single Note, whether such Note is to be redeemed in whole or in part. In the case of any such redemption in part, the unredeemed portion of the principal amount of the Note shall be in an authorized denomination (which shall not be less than the minimum authorized denomination) for such Note.

For all purposes of this Indenture, unless the context otherwise requires, all provisions relating to the redemption of Notes shall relate, in the case of any Notes redeemed or to be redeemed only in part, to the portion of the principal amount of such Notes which has been or is to be redeemed.

Notice of Redemption

Notice of redemption shall be given by first-class mail, postage prepaid, mailed not less than 30 nor more than 60 days prior to the Redemption Date, to each Holder of Notes to be redeemed, at the address of such Holder appearing in the Note Register, to the Trustee and, if applicable, to the CNV and, while there are holders of Notes domiciled in Argentina, published in a general newspaper having general circulation in Argentina for one day (which is expected to be *La Nación*).

All notices of redemption shall state:

- the Redemption Date,
- the Redemption Price,
- if less than all of the Outstanding Notes are to be redeemed, the identification (and, in the case of partial redemption, the principal amounts) of the particular Notes to be redeemed,
- that, on the Redemption Date, the Redemption Price will become due and payable upon each such Note to be redeemed and, if applicable, that interest thereon will cease to accrue on and after said date,
- the place or places where, and the date by which, each such Note is to be surrendered for payment of the Redemption Price,
- that the redemption is for a sinking fund, if such is the case.

Notice of redemption of Notes to be redeemed at the election of the Company shall be given by the Company or, at the Company's request, by the Trustee in the name and at the expense of the Company and shall be irrevocable.

Deposit of Redemption Price

Prior to any Redemption Date, the Company shall deposit with the Trustee or with a Paying Agent (or, if the Company is acting as its own Paying Agent, segregate and hold in trust as provided in Section 10.4) an amount of money sufficient to pay the Redemption Price of, and (except if the Redemption Date shall be an Interest Payment Date) accrued interest on, all the Notes which are to be redeemed on that date.

Notes Payable on Redemption Date

Notice of redemption having been given as aforesaid, the Notes so to be redeemed shall, on the Redemption Date, become due and payable at the Redemption Price therein specified, and from and after such date (unless the Company shall default in the payment of the Redemption Price and accrued interest) such Notes shall cease to bear interest. Upon surrender of any such Note for redemption in accordance with said notice, such Note shall be paid by the Company at the Redemption Price, together with accrued interest and Additional Amounts, if any, to the Redemption Date; *provided, however*, that, unless otherwise specified as contemplated by Section 3.1, installments of interest whose Stated Maturity is on or prior to the Redemption Date will be payable to the Holders of such Notes, or one or more Predecessor Notes, registered as such at the close of business on the relevant record dates according to their terms and the provisions of Section 3.8.

If any Note called for redemption shall not be so paid upon surrender thereof for redemption, the principal and any premium shall, until paid, bear interest from the Redemption Date at the rate prescribed therefor in the Note.

The Company shall surrender to the Trustee for cancellation any and all Notes redeemed by it.

Notes Redeemed in Part

Any Note which is to be redeemed only in part in accordance with this Indenture or the terms and conditions of such Note shall be surrendered at the office of either the Registrar or Co-Registrar (with, if the Company or the Trustee so requires, due endorsement by, or a written instrument of transfer in a form satisfactory to the Company and the Trustee duly executed by, the Holder thereof or his attorney duly authorized in writing), and the Company shall execute, and the Trustee shall authenticate and deliver to the Holder of such Note without service charge, a new Note or Notes of the same series and of like tenor, of any authorized

denomination as requested by such Holder, in aggregate principal amount equal to and in exchange for the unredeemed portion of the principal of the Note so surrendered.

Redemption for Tax Reasons

If as a result of any change in, or amendment to, the laws or regulations of Argentina or of any political subdivision or governmental authority thereof or therein having power to tax or of any organization of which Argentina is or becomes a member or as a result of any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective after the date hereof, the Company becomes obligated to pay any Additional Amounts in respect of the Notes and such obligation cannot be avoided by the Company taking reasonable measures available to it; then the Notes shall be redeemable in whole, but not in part, at the option of the Company, at any time upon not more than 60 nor less than 30 days' irrevocable notice to the Holders given in accordance with the provisions governing the giving of notices set forth in this Indenture, at a redemption price equal to 100% of the Outstanding principal amount thereof together with accrued interest thereon and any Additional Amounts to the Redemption Date. The Company may not give notice of redemption earlier than 60 days prior to the earliest date on which the Company would be obligated to pay such amounts.

In order to effect such a redemption of Notes under this paragraph, the Company shall be required to deliver to the Trustee at least 15 days prior to the date on which notice of redemption is given to Holders, an opinion of independent legal counsel of recognized standing to the effect that the Company has or will become obligated to pay such Additional Amounts as a result of such change or amendment and a certificate signed by an officer of the Company stating that the obligation to pay Additional Amounts cannot be avoided by taking reasonable measures available to the Company.

Purchase Upon Change in Control

If at any time there shall occur an event or series of events that results in the Republic of Argentina, directly or indirectly through any one or more controlled entities, owning shares representing more than 50% of the voting power of all shares of the Company (a **'Change of Control Event'**), each Holder of Outstanding Notes shall have the right (the **'Change of Control Event Purchase Right'**) to require the Company to purchase (upon written notice to the Company within 25 days following such Holder's receipt of the notice of such Change of Control Event and a Change of Control Event Offer (as defined below) as specified in the following paragraph), and upon the exercise of such Change of Control Event Purchase Right by such Holder the Company shall purchase, all or any portion of such Notes as may be elected by such Holder in accordance with the provisions described below, on a date (the **'Change of Control Event Purchase Date'**) that is not later than 60 days after the date of the Change of Control Event, at a purchase price in cash equal to 101% of the Outstanding principal amount of the Notes so purchased, plus accrued and unpaid interest thereon and Additional Amounts, if any, to but excluding the Change of Control Event Purchase Date.

On or before the 30th day after the occurrence of a Change of Control Event, the Company or, at the request of the Company, the Trustee will make a "Change of Control Event Offer" by forwarding to all Holders of record of the Notes then Outstanding a notice providing the following information:

- a summary description of each Holder's Change of Control Event Purchase Right,
- the Change of Control Event Purchase Date, and
- the date by which the Holder must deliver to the Trustee an irrevocable notice of its exercise of the Change of Control Event Purchase Right.

The Company will comply, to the extent applicable, with the requirements of Rule 14e-1 of the Exchange Act and any other applicable securities laws or regulations in connection with making a Change of Control Event Offer pursuant to this covenant. To the extent that the provisions of any applicable securities laws or regulations conflict with provisions of this Section 11.09, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under this Section 11.09 by virtue of its compliance with such securities laws or regulations.

Purchase of Notes by the Company

Nothing in this Indenture shall limit in any way the Company from purchasing Notes at any time in the open market or on an exchange or by tender or by private agreement at any price. Any Note so purchased by the

Company shall not be reissued or resold and the Company shall surrender any such Note to the Trustee for cancellation no later than 30 days after the date of such repurchase.

12. Sinking Funds

Applicability of Article

The provisions of this Article shall be applicable to any sinking fund for the retirement of Notes of any series except as otherwise specified as contemplated by Section 3.1 for such Notes.

The minimum amount of any sinking fund payment provided for by the terms of any Notes is herein referred to as a “**mandatory sinking fund payment**”, and any payment in excess of such minimum amount provided for by the terms of such Notes is herein referred to as an “**optional sinking fund payment**”. If provided for by the terms of any Notes, the cash amount of any sinking fund payment may be subject to reduction as provided in Section 12.2. Each sinking fund payment shall be applied to the redemption of Notes as provided for by the terms of such Notes.

Satisfaction of Sinking Fund Payments with Notes

The Company (1) may deliver Outstanding Notes of a series (other than any previously called for redemption) and (2) may apply as a credit Notes of a series which have been redeemed either at the election of the Company pursuant to the terms of such Notes or through the application of permitted optional sinking fund payments pursuant to the terms of such Notes, in each case in satisfaction of all or any part of any sinking fund payment with respect to any Notes of such series required to be made pursuant to the terms of such Notes as and to the extent provided for by the terms of such Notes; *provided*, that the Notes to be so credited have not been previously so credited. The Notes to be so credited shall be received and credited for such purpose by the Trustee at the Redemption Price, as specified in the Notes so to be redeemed, for redemption through operation of the sinking fund and the amount of such sinking fund payment shall be reduced accordingly.

Redemption of Notes for Sinking Fund

Not less than 60 days prior to each sinking fund payment date for any Notes, the Company will deliver to the Trustee an Officers’ Certificate specifying the amount of the next ensuing sinking fund payment for such Notes pursuant to the terms of such Notes, the portion thereof, if any, which is to be satisfied by payment of cash and the portion thereof, if any, which is to be satisfied by delivering and crediting Notes pursuant to Section 12.2 and will also deliver to the Trustee any Notes to be so delivered. Not less than 45 days prior to each such sinking fund payment date, the Trustee shall select the Notes to be redeemed upon such sinking fund payment date in the manner specified in Section 11.3 and cause notice of the redemption thereof to be given in the name of and at the expense of the Company in the manner provided in Section 11.4. Such notice having been duly given, the redemption of such Notes shall be made upon the terms and in the manner stated in Sections 11.6 and 11.7.

13. Defeasance and Covenant Defeasance

Company’s Option to Effect Defeasance or Covenant Defeasance

The Company may elect, at its option at any time, to have Section 13.2 or Section 13.3 applied to any Notes or any series of Notes, as the case may be, designated pursuant to Section 3.1 as being defeasible pursuant to such Section 13.2 or Section 13.3., in accordance with any applicable requirements provided pursuant to Section 3.1 and upon compliance with the conditions set forth below in this Article. Any such election shall be evidenced by a Board Resolution or in another manner specified as contemplated by Section 3.1 for such Notes.

Defeasance and Discharge

Upon the Company’s exercise of its option (if any) to have this Section applied to any Notes or any series of Notes, as the case may be, the Company shall be deemed to have been discharged from its obligations with respect to such Notes as provided in this Section on and after the date the conditions set forth in Section 13.4 are satisfied (hereinafter called “**Defeasance**”). For this purpose, such Defeasance means that the Company shall be deemed to have paid and discharged the entire indebtedness represented by such Notes and to have satisfied all its other obligations under such Notes and this Indenture insofar as such Notes are concerned (and the Trustee, at the expense of the Company, shall execute proper instruments acknowledging the same), subject to the following which shall survive until otherwise terminated or discharged hereunder: (1) the rights

of Holders of such Notes to receive, solely from the trust fund described in Section 13.4 and as more fully set forth in such Section, payments in respect of the principal of and any premium and interest on such Notes when payments are due, (2) the Company's obligations with respect to such Notes under Sections 3.4, 3.6, 3.7, 10.3 and 10.4, (3) the rights, powers, trusts, duties and immunities of the Trustee hereunder and (4) this Article. Subject to compliance with this Article, the Company may exercise its option (if any) to have this Section applied to any Notes notwithstanding the prior exercise of its option (if any) to have Section 13.3 applied to such Notes.

Covenant Defeasance

Upon the Company's exercise of its option (if any) to have this Section applied to any Notes or any series of Notes, as the case may be, (1) the Company shall be released from its obligations under Section 8.1(v), Sections 10.5, 10.6, 10.7, 10.9 through 10.20, inclusive, and any covenants provided pursuant to Section 3.1(18), Section 9.1(2) or Section 9.1(6) for the benefit of the Holders of such Notes and (2) the occurrence of any event specified in Section 5.1(2) (with respect to any of Section 8.1(v), and Sections 10.5, 10.6, 10.7, 10.9 through 10.20, inclusive, and any such covenants provided pursuant to Sections 3.1(18), 9.1(2) or 9.1(6)) and Sections 5.1(3), 5.1(4), 5.1(5) and 5.1(8), inclusive, shall be deemed not to be or result in an Event of Default, in each case with respect to such Notes as provided in this Section on and after the date the conditions set forth in Section 13.4 are satisfied (hereinafter called "**Covenant Defeasance**"). For this purpose, such Covenant Defeasance means that, with respect to such Notes, the Company may omit to comply with and shall have no liability in respect of any term, condition or limitation set forth in any such specified Section (to the extent so specified in the case of Section 5.1(2)), whether directly or indirectly by reason of any reference elsewhere herein to any such Section or by reason of any reference in any such Section to any other provision herein or in any other document, but the remainder of this Indenture and such Notes shall be unaffected thereby.

Conditions to Defeasance or Covenant Defeasance

The following shall be the conditions to the application of Section 13.2 or Section 13.3 to any Notes or any series of Notes, as the case may be:

- The Company shall irrevocably have deposited or caused to be deposited with the Trustee (or another trustee which satisfies the requirements contemplated by Section 6.9 and agrees to comply with the provisions of this Article applicable to it) as trust funds in trust for the purpose of making the following payments, specifically pledged as security for, and dedicated solely to, the benefits of the Holders of such Notes, (A) money in an amount, or (B) U.S. Government Obligations which through the scheduled payment of principal and interest in respect thereof in accordance with their terms will provide, not later than one day before the due date of any payment, money in an amount, or (C) a combination thereof, in each case sufficient, in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification thereof delivered to the Trustee, to pay and discharge, and which shall be applied by the Trustee (or any such other qualifying trustee) to pay and discharge, the principal of and any premium and interest on such Notes on the respective Stated Maturities, in accordance with the terms of this Indenture and such Notes.
- In the event of an election to have Section 13.2 apply to any Notes or any series of Notes, as the case may be, the Company shall have delivered to the Trustee an Opinion of Counsel stating that (A) the Company has received from, or there has been published by, the Internal Revenue Service a ruling or (B) since the date of this instrument, there has been a change in the applicable Federal income tax law, in either case (A) or (B) to the effect that, and based thereon such opinion shall confirm that, the Holders of such Notes will not recognize income, gain or loss for Federal income tax purposes as a result of the deposit, Defeasance and discharge to be effected with respect to such Notes and will be subject to Federal income tax on the same amount, in the same manner and at the same times as would be the case if such deposit, Defeasance and discharge were not to occur.
- In the event of an election to have Section 13.3 apply to any Notes or any series of Notes, as the case may be, the Company shall have delivered to the Trustee an Opinion of Counsel to the effect that the Holders of such Notes will not recognize income, gain or loss for Federal income tax purposes as a result of the deposit and Covenant Defeasance to be effected with respect to such Notes and will be subject to Federal income tax on the same amount, in the same manner and at the same times as would be the case if such deposit and Covenant Defeasance were not to occur.

- The Company shall have delivered to the Trustee an Officer's Certificate to the effect that neither such Notes nor any other Notes of the same series, if then listed on any securities exchange, will be delisted as a result of such deposit.
- No event which is, or after notice or lapse of time or both would become, an Event of Default with respect to such Notes or any other Notes shall have occurred and be continuing at the time of such deposit or, with regard to any such event specified in Section 5.1(6), at any time on or prior to the 90th day after the date of such deposit (it being understood that this condition shall not be deemed satisfied until after such 90th day).
- Such Defeasance or Covenant Defeasance shall not cause the Trustee to have a conflicting interest within the meaning of the Trust Indenture Act (assuming all Notes are in default within the meaning of such Act).
- Such Defeasance or Covenant Defeasance shall not result in a breach or violation of, or constitute a default under, any other agreement or instrument to which the Company is a party or by which it is bound.
- Such Defeasance or Covenant Defeasance shall not result in the trust arising from such deposit constituting an investment company within the meaning of the Investment Company Act unless such trust shall be registered under such Act or exempt from registration thereunder.
- The Company shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that all conditions precedent with respect to such Defeasance or Covenant Defeasance have been complied with and no violations under instruments or agreements governing any other outstanding Indebtedness of the Company would result therefrom.

Deposited Money and U.S. Government Obligations to Be Held in Trust; Miscellaneous Provisions

Subject to the provisions of the last paragraph of Section 10.4, all money and U.S. Government Obligations (including the proceeds thereof) deposited with the Trustee or other qualifying trustee (solely for purposes of this Section and Section 13.6, the Trustee and any such other trustee are referred to collectively as the "Trustee") pursuant to Section 13.4 in respect of any Notes shall be held in trust and applied by the Trustee, in accordance with the provisions of such Notes and this Indenture, to the payment, either directly or through any such Paying Agent (including the Company acting as its own Paying Agent) as the Trustee may determine, to the Holders of such Notes, of all sums due and to become due thereon in respect of principal and any premium and interest, but money so held in trust need not be segregated from other funds except to the extent required by law.

The Company shall pay and indemnify the Trustee against any tax, fee or other charge imposed on or assessed against the U.S. Government Obligations deposited pursuant to Section 13.4 or the principal and interest received in respect thereof other than any such tax, fee or other charge which by law is for the account of the Holders of Outstanding Notes.

Anything in this Article to the contrary notwithstanding, the Trustee shall deliver or pay to the Company from time to time upon Company Request any money or U.S. Government Obligations held by it as provided in Section 13.4 with respect to any Notes which, in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification thereof delivered to the Trustee, are in excess of the amount thereof which would then be required to be deposited to effect the Defeasance or Covenant Defeasance, as the case may be, with respect to such Notes.

Reinstatement

If the Trustee or the Paying Agent is unable to apply any money in accordance with this Article with respect to any Notes by reason of any order or judgment of any court or governmental authority enjoining, restraining or otherwise prohibiting such application or otherwise, then the obligations under this Indenture and such Notes from which the Company has been discharged or released pursuant to Section 13.2 or 13.3 shall be revived and reinstated as though no deposit had occurred pursuant to this Article with respect to such Notes, until such time as the Trustee or Paying Agent is permitted to apply all money held in trust pursuant to Section 13.5 with respect to such Notes in accordance with this Article; *provided, however*, that if the Company makes any payment of principal of or any premium or interest on any such Note following such reinstatement of

its obligations, the Company shall be subrogated to the rights (if any) of the Holders of such Notes to receive such payment from the money so held in trust.

This instrument may be executed in any number of counterparts, each of which so executed shall be deemed to be an original, but all such counterparts shall together constitute but one and the same instrument.

IN WITNESS WHEREOF, the parties hereto have caused this Indenture to be duly executed, and their respective corporate seals to be hereunto affixed and attested, all as of the day and year first above written.

REGULATION S CERTIFICATE

(For transfers pursuant to §3.6(b)(i), (iii) and (v) of the Indenture)

Law Debenture Trust Company of New York, as Trustee
400 Madison Avenue, 4th Floor
New York, New York 10017

Re: [] Notes Due [] of Transportadora de Gas del Sur S.A. (the “Notes”)

Reference is made to the Indenture, dated as of May 14, 2007 (the “**Indenture**”), among Transportadora de Gas del Sur S.A., as Issuer (the “**Company**”), Law Debenture Trust Company of New York, as Trustee, Co-Registrar, Principal Paying Agent and Transfer Agent and Banco Santander Río S.A., as Registrar, Paying Agent and Transfer Agent. Terms used but not defined herein and defined in the Indenture or in Regulation S or Rule 144 under the U.S. Securities Act of 1933, as amended (the “**Securities Act**”) shall have the meanings given to them in the Indenture or in Regulation S or in Rule 144, as the case may be.

This certificate relates to US\$[] principal amount of Notes, which are evidenced by the following certificate(s) (the “**Specified Notes**”):

CUSIP No(s). []

CERTIFICATE No(s). []

The person in whose name this certificate is executed below (the “**Undersigned**”) hereby certifies that either (i) it is the sole beneficial owner of the Specified Notes or (ii) it is acting on behalf of all the beneficial owners of the Specified Notes and is duly authorized by them to do so. Such beneficial owner or owners are referred to herein collectively as the “**Owner**”. If the Specified Notes are represented by a Global Note, they are held through the Depositary or an Agent Member in the name of the Undersigned, as or on behalf of the Owner. If the Specified Notes are not represented by a Global Note, they are registered in the name of the Undersigned, as or on behalf of the Owner.

The Owner has requested that the Specified Notes be transferred to a person (the “**Transferee**”) who will take delivery in the form of a Regulation S Note or in the form of an interest in a Regulation S Global Note. In connection with such transfer, the Owner hereby certifies that, unless such transfer is being effected pursuant to an effective registration statement under the Securities Act, it is being effected in accordance with Rule 904 or Rule 144 under the Securities Act and with all applicable securities laws of the states of the United States and other jurisdictions. Accordingly, the Owner hereby further certifies as follows:

- (1) Rule 904 Transfers. If the transfer is being effected in accordance with Rule 904:
 - (A) the Owner is not a distributor of the Notes, an affiliate of the Company or any such distributor or a person acting on behalf of any of the foregoing;
 - (B) the offer of the Specified Notes was not made to a person in the United States;
 - (C) either:
 - (i) at the time the buy order was originated, the Transferee was outside the United States or the Owner and any person acting on its behalf reasonably believed that the Transferee was outside the United States, or
 - (ii) the transaction is being executed in, on or through the facilities of the Eurobond market, as regulated by the International Securities Market Association, or another designated offshore securities market and neither the Owner nor any person acting on its behalf knows that the transaction has been prearranged with a buyer in the United States;

- (D) no directed selling efforts have been made in the United States by or on behalf of the Owner or any affiliate thereof;
 - (E) if the Owner is a dealer in securities or has received a selling concession, fee or other remuneration in respect of the Specified Notes, and the transfer is to occur during the Distribution Compliance Period, then the requirements of Rule 904(b)(1) have been satisfied;
 - (F) the transaction is not part of a plan or scheme to evade the registration requirements of the Securities Act; and
 - (G) in the case of a transfer to a Regulation S Global Note occurring during the Distribution Compliance Period, upon completion of the transaction, the beneficial interest being transferred will be held through an Agent Member acting for and on behalf of Euroclear or Clearstream, Luxembourg.
- (2) Rule 144 Transfers. If the transfer is being effected pursuant to Rule 144:
- (A) the transfer is occurring after *[insert date that is one year after the original issue date of the Notes]* and is being effected in accordance with the applicable amount, manner of sale and notice requirements of Rule 144; or
 - (B) the transfer is occurring after *[insert date that is two years after the original issue date of the Notes]* and the Owner is not, and during the preceding three months has not been, an affiliate of the Company.

This certificate and the statements contained herein are made for your benefit and the benefit of the Company and the underwriters or initial purchasers, if any, of the initial offering of such Notes being transferred.

Re: [] Notes Due [] of Transportadora de Gas del Sur S.A. (the “Notes”)

Reference is made to the Indenture, dated as of May 14, 2007 (the “**Indenture**”), among Transportadora de Gas del Sur S.A., as Issuer (the “**Company**”), Law Debenture Trust Company of New York, as Trustee, Co-Registrar, Principal Paying Agent and Transfer Agent and Banco Santander Río S.A., as Registrar, Paying Agent and Transfer Agent. Terms used but not defined herein and defined in the Indenture or in Regulation S or Rule 144 under the U.S. Securities Act of 1933, as amended (the “**Securities Act**”) shall have the meanings given to them in the Indenture or in Regulation S or in Rule 144, as the case may be.

This certificate relates to US\$[] principal amount of Notes, which are evidenced by the following certificate(s) (the “**Specified Notes**”):

CUSIP No(s). []

CERTIFICATE No(s). []

The person in whose name this certificate is executed below (the “**Undersigned**”) hereby certifies that either (i) it is the sole beneficial owner of the Specified Notes or (ii) it is acting on behalf of all the beneficial owners of the Specified Notes and is duly authorized by them to do so. Such beneficial owner or owners are referred to herein collectively as the “**Owner**”. If the Specified Notes are represented by a Global Note, they are held through the Depositary or an Agent Member in the name of the Undersigned, as or on behalf of the Owner. If the Specified Notes are not represented by a Global Note, they are registered in the name of the Undersigned, as or on behalf of the Owner.

The Owner has requested that the Specified Notes be transferred to a person (the “**Transferee**”) who will take delivery in the form of a Restricted Note or in the form of an interest in a Restricted Global Note. In connection with such transfer, the Owner hereby certifies that, unless such transfer is being effected pursuant to an effective registration statement under the Securities Act, it is being effected in accordance with Rule 144A or Rule 144 under the Securities Act and all applicable securities laws of the states of the United States and other jurisdictions. Accordingly, the Owner hereby further certifies as follows:

- (1) Rule 144A Transfers. If the transfer is being effected in accordance with Rule 144A:
 - (A) the Specified Notes are being transferred to a person that the Owner and any person acting on its behalf reasonably believe is a “qualified institutional buyer” within the meaning of Rule 144A, acquiring for its own account or for the account of a qualified institutional buyer; and
 - (B) the Owner and any person acting on its behalf have taken reasonable steps to ensure that the Transferee is aware that the Owner may be relying on Rule 144A in connection with the transfer; and
- (2) Rule 144 Transfers. If the transfer is being effected pursuant to Rule 144:
 - (A) the transfer is occurring after *[insert date that is one year after the original issue date of the Notes]* and is being effected in accordance with the applicable amount, manner of sale and notice requirements of Rule 144; or

- (B) the transfer is occurring after *[insert date that is two years after the original issue date of the Notes]* and the Owner is not, and during the preceding three months has not been, an affiliate of the Company.

This certificate and the statements contained herein are made for your benefit and the benefit of the Company and the underwriters or initial purchasers, if any, of the initial offering of such Notes being transferred.

EXHIBIT 2.13

Officers' Certificate establishing the terms of TGS' 7.875% Notes Due 2017

TRANSPORTADORA DE GAS DEL SUR S.A.

Officers' Certificate

The undersigned officers of Transportadora de Gas del Sur S.A., a *sociedad anónima* organized under the laws of the Republic of Argentina (the “**Company**”), hereby certify pursuant to Section 3.1 of the Indenture (the “**Indenture**”), dated as of May 14, 2007, by and among the Company, Law Debenture Trust Company of New York, as trustee (the “**Trustee**”), co-registrar, principal paying agent (the “**Principal Paying Agent**”) and transfer agent, and Banco Santander Rio S.A., as registrar, paying agent and transfer agent, that there is hereby established a single series of Notes (as that term is defined in the Indenture), the terms of which shall be as follows and as further set forth in the attached form of Note:

7.875% Notes Due 2017

1. **Title.** The designation of the first series of Notes shall be the 7.875% Notes Due 2017 (the “**Notes**”).
2. **Principal Amount.** The aggregate principal amount of the Notes shall be US\$500,00,000.
3. **Persons Entitled to Interest.** Subject to the provisions of Section 3.8 of the Indenture, interest will be payable to the Person in whose name a Note (or any Note) is registered at the close of business on the Regular Record Date (as defined below) for such interest.
4. **Amortization Schedule.** Subject to and in accordance with the provisions of the Indenture and subject to paragraphs 9 and 11 below, the Company shall repay, on each payment date listed in the table below (each, a “**Principal Payment Date**”), and with respect to each \$1,000 in aggregate principal amount of the Notes, the aggregate principal amount of the Notes (each, a “**Principal Payment Amount**”) set forth opposite each such Principal Payment Date, until the principal amount of the Notes has been paid or duly provided for:

<u>Principal Payment Date</u>	<u>Principal Payment Amount</u>
1. May 14, 2014	US\$250
2. May 14, 2015	US\$250
3. May 14, 2016	US\$250
4. May 14, 2017	US\$250
TOTAL.....	US\$1,000.

The “**Regular Record Date**” for principal payable with respect to the Series A Notes on a Principal Payment Date shall be the April 29 (whether or not such date is a Business Day), as the case may be, next preceding such Principal Payment Date. The Trustee, as Principal Paying Agent, shall revise the foregoing amortization schedule upon receipt of written notification from the Company of the defeasance of the Series A Notes pursuant to paragraph 11 hereto and Section 13.2 of the Indenture.

5. **Interest Rates and Interest Payment Dates.** The Notes shall bear interest at the rate of 7.875% per annum (the “**Interest Rate**”). The Notes will bear interest on the outstanding unpaid

principal amount of the Notes at the Interest Rate from the date hereof or from the most recent Interest Payment Date to which interest has been paid or duly provided for, payable semi-annually in arrears on May 14 and November 14 of each year (each, an “**Interest Payment Date**”), commencing November 14, 2007, until the principal amount of the Notes has been paid or duly provided for. The “**Regular Record Date**” for interest payable with respect to the Series A Notes on an Interest Payment Date shall be the April 29 and October 30 (whether or not such date is a Business Day), as the case may be, next preceding such Interest Payment Date.

6. **Default Interest.** The Notes shall bear interest on the amount of principal, premium or interest (including Additional Amounts, if any), as the case may be, that is overdue with respect to the Notes from and including the date on which such amount first becomes overdue at a rate per annum equal to the *sum* of (i) the Interest Rate, *plus* (ii) 2.0% (“**Default Interest**”); *provided, however*, that Default Interest shall not be payable if the overdue amount became due during the existence of any of the circumstances described in Section 5.1(1) of the Indenture; *provided, further*, that such Default Interest shall not be payable pursuant to the preceding proviso only for the duration of the relevant cure period specified in Section 5.1(1) of the Indenture. Such Default Interest on overdue amounts with respect to the Notes shall be payable by the Company on demand and will accrue until the date any such overdue amount, including Default Interest thereon, is paid in full.

7. **Place of Payment.** The principal of, and any premium and interest on, the Notes shall be payable at the offices or agencies of the Company maintained for that purpose in the Borough of Manhattan, The City of New York, United States and in Buenos Aires, Argentina.

8. **Optional Redemption Price.** (a) Subject to and in accordance with the provisions of Sections 11.8 of the Indenture, the Notes may be redeemed by the Company in whole, but not in part, at the Company’s option at any time at a Redemption Price equal to 100% of the principal amount of the Notes to be redeemed, together with accrued and unpaid interest (including any Additional Amounts) on the principal amount of the Notes to be redeemed, if any, and any other amounts due to the Redemption Date.

(b) Subject to and in accordance with the provisions of Section 3.1 and Article 11 of the Indenture, the Notes may be redeemed by the Company in whole, but not in part, at the Company’s option at any time on or after the fifth anniversary of the Initial Issue Date at a Redemption Price equal to the Outstanding principal amount of the Notes multiplied by the applicable percentage set forth in the table below, together with accrued and unpaid interest on the Outstanding principal amount of the Notes, if any, and any Additional Amounts due to the Redemption Date.

<u>Period Beginning</u>	<u>Applicable Percentage</u>
On the 5th anniversary of the Initial Issue Date	103.938%
On the 6th anniversary of the Initial Issue Date	101.969%
On the 7th anniversary of the Initial Issue Date	100.984%

9. **Purchase Upon Change of Control.** Each Holder of Notes will be entitled to require the Company to purchase all or a portion of such Holder's Notes upon the occurrence of a Change of Control Event as provided in, and in accordance with, Section 11.9 of the Indenture.

10. **Sinking Fund.** The Company shall not be obligated to redeem or purchase the Notes pursuant to any sinking fund or analogous provisions.

11. **Defeasance.** The Notes shall be defeasible as provided in, and in accordance with, Sections 13.2 and 13.3 of the Indenture.

12. Form of Notes. The Notes may be issued in whole or in part in the form of one or more Global Notes (and may be exchanged for certificated Notes only as described in the Indenture). The initial Depositary for any such Global Notes shall be The Depositary Trust Company. The form of the Regulation S Global Note for the Notes is attached hereto as Exhibit A-1, the form of the Restricted Global Note for the Notes is attached hereto as Exhibit A-2.

13. Securities Act Legends. Section 3.6(c)(iv) of the Indenture shall not apply to the Notes.

14. Definitions. Unless the context shall otherwise require, or unless otherwise defined herein or in Annex A hereto, capitalized terms used herein shall have the respective meanings specified in the Indenture.

IN WITNESS WHEREOF, the undersigned have signed this certificate.

EXHIBIT 4.3

LPG supply agreement between TGS and PIFCO

PETROBRAS INTERNATIONAL FINANCE COMPANY AND TRANSPORTADORA DE GAS DEL SUR LPG TERM CONTRACT.

1)BUYER:

PETROBRAS INTERNATIONAL FINANCE COMPANY (PIFCO)
4TH FLOOR HARBOUR PLACE, 103 SOUTH CHURCH STREET
GEORGETOWN - GRAND CAYMAN - CAYMAN ISLANDS - P.O. BOX 1034GT - BWI

ALL DOCUMENTATION MUST BE SENT TO THE FOLLOWING ADDRESS :

PETRÓLEO BRASILEIRO S.A.
AB-LO/TM/ATM
AV. CHILE, 65 SALA 1902
RIO DE JANEIRO - BRASIL
CEP: 20.031-912
ATT : FRANCISCO ABREU

2)SELLER:

TRANSPORTADORA DE GAS DEL SUR – TGS
DON BOSCO 3672 – PISO 5 – BUENOS AIRES – ARGENTINA

3) PERIOD:

FROM SEPTEMBER 1 ST, 2006 THROUGH AUGUST 31 ST, 2009.
NOT LATER THAN MARCH 31 st, 2009, BUYER AND SELLERS WILL DISCUSS THE CONTRACT RENEWAL, AND, IF PARTIES DO NOT COME TO AN AGREEMENT, THEN PIFCO WILL HAVE TO LIFT ALL MONTHLY VOLUME THAT SELLERS MAY HAVE AVAILABLE FOR EXPORT BY SHIP EX BAHIA BLANCA UNTIL DECEMBER, 31st, 2009, AT THE PRICE AND DISCOUNT CONDITIONS OF THE PRODUCT LOADED DURING AUGUST 2009.

4) PRODUCT:

COMMERCIAL PROPANE, COMMERCIAL BUTANE OR LPG MIX HAVING APPROXIMATELY MINIMUM 30% PROPANE, UNLESS OTHERWISE AGREED.

5) QUANTITY:

TOTAL ANNUAL LPG QUANTITY SHALL BE APPROXIMATELY 220.000 MT OF LPG BEING 110.000 MT OF PROPANE MINIMUM.

ANNUAL PRODUCTION PERIOD SCHEDULE SHALL BE AS FOLLOWS:

YEAR 1 => 01 SEPTEMBER 2006 TO 31 AUGUST 2007

YEAR 2 => 01 SEPTEMBER 2007 TO 31 AUGUST 2008
YEAR 3 => 01 SEPTEMBER 2008 TO 31 AUGUST 2009

IN CASE TOTAL ANNUAL QUANTITY IS GREATER THAN 220.000 MT OF LPG THEN PROPANE QUANTITY SHALL ALSO INCREASE IN SAME PROPORTION SO THAT FINAL ANNUAL PROPANE CONTENT IS EQUAL OR GREATER THAN 50% OF TOTAL ANNUAL QUANTITY.

ANY ADDITIONAL AVAILABILITY THAT SELLERS MAY HAVE FOR EXPORT EX-BAHIA BLANCA BY SHIP FROM SEPTEMBER 1ST, 2006 UNTIL THE END OF THIS CONTRACT EXCEEDING THE CONTRACTUAL QUANTITIES MUST BE OFFERED TO BUYER. BUYER WILL BUY OFFERED QUANTITY UNDER THE TERMS OF THIS CONTRACT UP TO A LIMIT OF 270.000 MT PER YEAR. BEYOND THAT LIMIT, BUYER WILL HAVE THE RIGHT OF FIRST REFUSAL TO BUY THAT PRODUCT UNDER THE TERMS OF THIS CONTRACT. THE OPTION MUST BE EXERCISED WITHIN TEN (10) DAYS AFTER BUYER RECEIVES NOTICE FROM SELLER OF THE AVAILABILITY OF SUCH QUANTITIES. IF BUYER CHOOSES NO TO PURCHASE SUCH ADDITIONAL QUANTITIES THEN THE SELLERS MAY SELL SUCH PRODUCTS.

SELLERS MAY SELL A MAXIMUM OF 10.000 MT OF PROPANE OR BUTANE PER CONTRACTUAL YEAR TO A THIRD PARTY, UNLESS OTHERWISE AGREED IN WRITING BETWEEN BUYER AND SELLER, SUBJECT TO BUYER APPROVAL. ANY EXCEEDING PROPANE CANNOT BE SOLD IN MAY, JUNE, JULY OR AUGUST, EXCEPT TO BUYER.

IF BUYER OR ANY OF ITS AFFILIATED COMPANIES PARTICIPATES IN ANY PROJECT WHICH AFFECTS, DIRECTLY OR INDIRECTLY, THE QUALITY OF THE GAS INJECTED IN TGS'S TRANSPORTATION SYSTEM THEN TGS WILL HAVE THE RIGHT TO REDUCE, BASED ON FORMAL DOCUMENTS, THE QUANTITY OF THIS CONTRACT ACCORDING TO THE EFFECTS OF SUCH PROJECTS ON TGS PROCESSING PLANTS LPG OUTPUT QUANTITIES.

AFFILIATE" MEANS, WITH RESPECT TO ANY PERSON, ANY OTHER PERSON THAT (A) OWNS OR CONTROLS THE FIRST PERSON, (B) IS OWNED OR CONTROLLED BY THE FIRST PERSON, OR (C) IS UNDER COMMON OWNERSHIP OR CONTROL WITH THE FIRST PERSON, WHERE "OWN" MEANS OWNERSHIP OF 50% OR MORE OF THE EQUITY INTERESTS OR RIGHTS TO DISTRIBUTIONS ON ACCOUNT OF EQUITY OF THE PERSON AND "CONTROL" MEANS THE POWER TO DIRECT THE MANAGEMENT OR POLICIES OF THE PERSON, WHETHER THROUGH THE OWNERSHIP OF VOTING SECURITIES, BY CONTRACT, OR OTHERWISE.

6) NOMINATION:

SELLER SHALL INFORM THE AVAILABILITY OF LPG FOR LIFTING FOR EACH PERIOD OF THE CONTRACT INDICATING A LIFTING PROGRAM FOR EACH MONTH AT LEAST 20 DAYS BEFORE THE BEGINNING OF THE PERIOD.

BUYER SHALL SEND THE LOADING PROGRAM, INCLUDING CARGO SIZE AND VESSEL'S NAME INDICATING A 5 DAY RANGE FOR EACH LIFTING, FOR EACH MONTH, NO LATER THAN THE FIFTEENTH DAY OF THE PREVIOUS MONTH, WHICH INCLUDES A MINIMUM QUANTITY TO BE LIFTED BY BUYER AS INDICATED BY SELLERS ACCORDING TO THE PRECEDING PARAGRAPH.

SELLER SHALL CONFIRM THE ACCEPTANCE OF SUCH PROGRAM AND SHALL INFORM PRODUCT COMPOSITION WITHIN THE NEXT FOLLOWING 5 DAYS OR SUBMIT ALTERNATIVE RANGES TO THE CONSIDERATION OF BUYER.

THE FINAL AGREED PROGRAM FOR EACH MONTH SHALL BE BINDING FOR BOTH PARTIES. IN CASE AN AGREED PROGRAM CAN NOT BE REACHED BY THE TWENTY-FIFTH DAY OF THE PREVIOUS MONTH, THE SELLER'S ALTERNATIVE PROGRAM WILL BE BINDING FOR BOTH PARTIES.

LATEST 5 DAYS BEFORE THE FIRST DAY OF THE FINAL 5 DAYS RANGE BUYER SHALL CONFIRM A 3 DAYS LAYCAN WITHIN SAID RANGE.

WITHOUT WITHSTANDING ANY OTHER PROVISIONS CONTAINED HEREWITH, PARTIES SHALL MUTUALLY AGREE ACCEPTABLE CHANGES TO LOADING RANGES (LAYCAN) IN ORDER TO REACH, WHENEVER POSSIBLE, THE OPTIMUM LOADING PROGRAM FOR SELLERS AND BUYER.

7 - QUALITY: TO MEET GPA 2140/97 PLUS FOLLOWING AMENDED SPECS.

PRODUCT DESIGNATION		COMMERCIAL PROPANE	COMMERCIAL BUTANE	COMMERCIAL PROPANE-BUTANE MIXTURES
	METHODS	Predominantly propane and/or propylene	Predominantly butane and/or butylenes	Predominantly mixtures of butanes and/or butylenes with propane and/or propylene
Moisture Content	GPA propane Dryness Test or D-2713-86 or Capacitive Hygrometer (Aluminum oxide sensor probe)	pass	-	-
VOLATILE RESIDUE: Evaporated temperature, 95% at 760 mmHg, °C, max	ASTM D1837	-38.0	2.0	2.0
RESIDUAL MATTER: Residue on evaporation 100mL, max mL	ASTM D2158	0.05	0.05	0.05
Oil stain observation (1)		PASS	PASS	PASS

(1) AN ACCEPTABLE PRODUCT SHALL NOT YIELD A PERSISTENT OIL RING WHEN 0.3 ML OF SOLVENT RESIDUE MIXTURE IS ADDED TO A FILTER PAPER, IN 0.1 ML INCREMENTS AND EXAMINED IN DAYLIGHT AFTER 2 MIN AS DESCRIBED IN TEST METHOD ASTM D2158.

IN CASE GPA 2140/97 CHANGES DURING THE DURATION OF THIS CONTRACT, THEN PARTIES SHALL MEET AND MUTUALLY AGREE TO UPDATE QUALITY TESTS OF PRODUCT TO BE DELIVERED IN THIS CONTRACT AND UPDATE THIS CLAUSE ACCORDINGLY. OTHERWISE PARTIES SHALL MAKE THEIR BEST EFFORTS TO AGREE ALTERNATIVE MUTUALLY ACCEPTABLE STANDARDS REGARDING THIS CLAUSE.

8) DELIVERY:

8.1 - FOB BASIS PUERTO GALVAN (ARGENTINA)

9) PRICE:

9.1) PRICE FOB BASIS PUERTO GALVAN SHALL BE CALCULATED AS FOLLOWS:

9.1.1) BUTANE PRICE:

THE BUTANE PRICE SHALL BE EQUAL TO THE AVERAGE OF THE MEAN OF THE HIGH AND THE LOW MONT BELVIEU QUOTATIONS FOR NORMAL BUTANE NON TET AS PUBLISHED BY PLATT'S PETROCHEMICAL ALERT ON THE DAYS OF THE THREE IMMEDIATELY VALID QUOTATIONS PRECEDING 2 DAYS BEFORE B/L DATE (NOT INCLUDED) CONVERTED TO US DOLLARS PER TON USING 452.6 US GALLONS PER METRIC TON MINUS A DISCOUNT DC4, IN USD/MT, CALCULATED AS FOLLOWS:

9.1.1.1) IF MB(C4), THE MEAN OF MONT BELVIEU QUOTATIONS FOR NORMAL BUTANE AS OBTAINED ABOVE, IS EQUAL TO OR LESS THAN US\$350.00 PER METRIC TON THEN

$$DC4 = 50.00 \text{ (USD/MT)}$$

9.1.1.2) IF MB(C4), THE MEAN OF MONT BELVIEU QUOTATIONS FOR NORMAL BUTANE AS OBTAINED ABOVE, IS GREATER THAN US\$350.00 PER METRIC TON THEN

$$DC4 = 0.20 * MB(C4) - 20 \text{ (USD/MT)}$$

IF TGS IS ABLE TO GUARANTEE A NEW SPECIFICATION OF BUTANE IN WAY THAT PROPANE CONTENT IN THE CONTAINED ISOBUTANE MAY NOT BE GREATER THAN 3.0%, SO THE BUTANE DISCOUNTS WILL BE AS FOLLOWS:

IF MB(C4), THE MEAN OF MONT BELVIEU QUOTATIONS FOR NORMAL BUTANE AS OBTAINED ABOVE, IS EQUAL TO OR LESS THAN US\$350.00 PER METRIC TON THEN

$$DC4 = 48.00 \text{ (USD/MT)}$$

IF MB(C4), THE MEAN OF MONT BELVIEU QUOTATIONS FOR NORMAL BUTANE AS OBTAINED ABOVE, IS GREATER THAN US\$350.00 PER METRIC TON THEN

$$DC4 = 0.20 * MB(C4) - 22 \text{ (USD/MT)}$$

9.1.2) PROPANE PRICE:

THE PROPANE PRICE SHALL BE EQUAL TO THE AVERAGE OF THE MEAN OF THE HIGH AND THE LOW MONT BELVIEU QUOTATIONS FOR PROPANE NON TET AS PUBLISHED BY PLATT'S PETROCHEMICAL ALERT ON THE DAYS OF THE THREE IMMEDIATELY VALID QUOTATIONS PRECEDING 2 DAYS BEFORE B/L DATE (NOT INCLUDED) CONVERTED TO US DOLLARS PER TON USING 522 US GALLONS PER TON MINUS A DISCOUNT DC3, IN USD/MT, CALCULATED AS FOLLOWS:

9.1.2.1) DURING THE PERIOD FROM JANUARY 1ST TO APRIL30TH AND FROM SEPTEMBER 1ST TO DECEMBER 31ST :

9.1.2.1.A) IF MB(C3), THE MEAN OF MONT BELVIEU QUOTATIONS FOR PROPANE AS OBTAINED ABOVE, IS EQUAL TO OR LESS THAN US\$350.00 PER METRIC TON THEN

$DC3 = 50.00 \text{ (USD/MT)}$

9.1.2.1.B) IF MB(C3), THE MEAN OF MONT BELVIEU QUOTATIONS FOR PROPANE AS OBTAINED ABOVE, IS GREATER THAN US\$350.00 PER METRIC TON THEN

$DC3 = 0.20 * MB(C3) - 20 \text{ (USD/MT)}$

9.1.2.2) DURING THE PERIOD FROM MAY 1ST TO AUGUST 31ST:

9.1.2.2.A) IF MB(C3), THE MEAN OF MONT BELVIEU QUOTATIONS FOR PROPANE AS OBTAINED ABOVE, IS EQUAL TO OR LESS THAN US\$350.00 PER METRIC TON THEN

$DC3 = 35.00 \text{ (USD/MT)}$

9.1.2.2.B) IF MB(C3), THE MEAN OF MONT BELVIEU QUOTATIONS FOR PROPANE AS OBTAINED ABOVE, IS GREATER THAN US\$350.00 PER METRIC TON THEN

$DC3 = 0.14 * MB(C3) - 14.00 \text{ (USD/MT)}$

9.2 - VALID QUOTATIONS ARE THOSE EFFECTIVE ON THE DAYS WHICH PLATT'S PETROCHEMICAL ALERT PUBLISHES THEM.

9.3 - FOR LPG MIX PRICING PURPOSES PROPANE AND LIGHTER COMPONENTS SHALL CONSTITUTE THE PROPANE PRODUCT AND BUTANE AND HEAVIER COMPONENTS SHALL BE NORMAL BUTANE PRODUCT.

9.4 - INVOICING TO BE BASED ON BILL OF LADING FIGURES AS STATED BY INDEPENDENT INSPECTOR BASED ON SHORE TANKS FIGURES, UNLESS OTHERWISE AGREED AS PER POINT 11.1.

9.5 - ALL CALCULATIONS SHALL BE MADE WITH MAXIMUM FOUR (4) DECIMALS. THE FINAL PRICE SHALL BE ROUNDED TO TWO DECIMAL PLACES AS FOLLOWS:

- IF THE THIRD DECIMAL PLACE IS EQUAL TO FOUR (4) OR ANY NUMBER LOWER THAN FOUR (4) THE SUCH THIRD AND MORE DECIMALS SHALL BE IGNORED.

- IF THE THIRD DECIMAL PLACE IS EQUAL TO FIVE (5) OR ANY NUMBER HIGHER THAN FIVE (5), THEN ONE DIGIT SHALL BE ADDED TO THE SECOND DECIMAL POINT AND THE REST SHALL BE IGNORED.

10) PAYMENT:

10.1- SHALL BE MADE IN US DOLLAR BY TELEGRAPHIC TRANSFER WITHIN 30 DAYS AFTER B/L DATE (B/L DATE EXCLUDED) TO SELLERS DESIGNATED BANK ACCOUNT AGAINST PRESENTATION OF FOLLOWING DOCUMENTS:

A) SIGNED ORIGINAL COMMERCIAL INVOICE

B) 3/3 ORIGINAL BILLS OF LADING ISSUED OR ENDORSED TO THE ORDER OF BUYER.

C) CERTIFICATE OF ORIGIN.

D) CERTIFICATES OF QUALITY AND QUANTITY ISSUED BY INDEPENDENT INSPECTORS AT LOADING PORT.

IF DOCUMENTS FROM B TO D ARE NOT AVAILABLE ON THE DUE DATE, BUYER AGREES TO PAY SELLERS UPON PRESENTATION OF SIGNED ORIGINAL COMMERCIAL INVOICE AND SELLERS LETTER OF INDEMNITY IN A FORMAT ACCEPTABLE TO BUYER.

SELLERS TO DO THEIR BEST EFFORTS TO PRESENT DOCUMENTS FROM A TO C TO BUYER BY AIR COURIER WITHIN 5 (FIVE) WORKING DAYS AFTER COMPLETION OF LOADING OPERATIONS.

IN CASE THE CARGO DESTINATION IS BRAZIL, THE ORIGINAL DOCUMENTS FOR THE CARGO HAVE TO BE PRESENTED WITHIN 40 (FORTY) DAYS FROM THE B/L DATE AS PER BRAZILIAN PORT AUTHORITIES REQUEST. IN CASE SELLERS DO NOT COMPLY WITH DEADLINE, BUYER RESERVES THE RIGHT TO CLAIM AGAINST SELLERS USING LEGAL PROCEDURES FOR ANY LOSSES/PENALTIES THAT MAY BE INCURRED RESULTING FOR NON PRESENTATION OF THE ORIGINAL DOCUMENTS WITHIN THIS TIME AND CHARGED TO BUYER BY THE BRAZILIAN AUTHORITIES.

SELLERS SHALL INSTRUCT THE INSPECTORS TO TELEFAX DOCUMENTS IN ITEM D TO BUYER WITHIN 3 WORKING DAYS AFTER COMPLETION OF LOADING OPERATION AND ORIGINAL SHALL FOLLOW.

IN CASE THE CARGO DESTINATION IS A COUNTRY OF MERCOSUL, SELLERS MUST PRESENT ALL NECESSARY DOCUMENTS TO ISSUE THE CERTIFICATE OF ORIGIN IN MERCOSUL FORMAT TO THE ARGENTINE AUTHORITIES, WITHIN 8 (EIGHT) DAYS FROM B/L DATE. IN CASE SELLERS DON'T HAVE THE NECESSARY DOCUMENTS TO ACCOMPLISH THE ISSUING DOCUMENT AS PER ITEM C, SELLERS MUST RESERVE A NUMBER WITH THE ARGENTINEAN AUTHORITIES WITHIN 10 (TEN) ARGENTINEAN WORKING DAYS FROM B/L DATE AND DELIVER THE DOCUMENTS IN DUE TIME IN SUCH WAY THAT THE AUTHORITIES ARE ABLE TO ISSUE SUCH CERTIFICATE ACCORDING TO MERCOSUL LEGISLATION PROVIDED THAT CONDITIONS TO CALCULATE THE FINAL PRICES ARE AVAILABLE WITHIN SUCH DEADLINE.

IF THE ABOVE IS ACCOMPLISHED, SELLERS SHALL NOT BE RESPONSIBLE IF ARGENTINE AUTHORITIES FAIL TO ISSUE THE ORIGIN CERTIFICATE FOLLOWING MERCOSUL'S REGULATIONS.

10.2 - IF PAYMENT DUE DATE FALLS ON SATURDAY OR BANK HOLIDAY OTHER THAN A MONDAY, THEN PAYMENT SHALL BE MADE ON THE IMMEDIATELY PRECEDING BUSINESS DAY. IF PAYMENT DUE DATE FALLS ON A SUNDAY OR A MONDAY DAY BANK HOLIDAY, THEN PAYMENT SHALL BE MADE ON THE IMMEDIATELY FOLLOWING BUSINESS DAY.

10.3 – IF AN INVOICE IS NOT PAID WHEN DUE, IT SHALL ACCRUE INTEREST FROM THAT DATE UNTIL PAYMENT IN FULL AT A RATE PER ANNUM EQUIVALENT TO LIBOR PLUS THREE (3) PER CENT PER ANNUM U.S. DOLLAR ONE (1) MONTH AS POSTED AT NATWEST BANK 11:00H LONDON ON THE BILL OF LADING DATE, AND SUCH INTEREST SHALL BE PAYABLE ON DEMAND. ALL INTEREST SHALL BE CALCULATED ON THE BASIS OF 360 DAYS AND ACTUAL DAYS ELAPSED.

10.4 – IN NO WAY SHALL ITEM 10.3 ABOVE CONSTITUTE AN AGREEMENT OF SELLERS THAT BUYER IS ALLOWED THE OPTION FOR LATE PAYMENT. BUYER REMAINS RESPONSIBLE FOR PAYMENT ON DUE DATE.

11) INSPECTION:

11.1 - QUANTITY AND QUALITY TO BE ASCERTAINED AT LOADING PORT BY INDEPENDENT INSPECTOR TO BE APPOINTED BY BUYER AND ACCEPTED BY SELLERS BASED ON SELLERS SHORE TANKS.

11.2 - INSPECTORS FINDINGS TO BE FINAL AND BINDING FOR BOTH PARTIES. COSTS TO BE SHARED FIFTY/FIFTY BETWEEN BUYER AND SELLERS. BILL OF LADING FIGURES TO BE APPLIED FOR INVOICE PURPOSES.

12) LAYTIME:

12.1 - ALLOWED LAYTIME SHALL COMMENCE EITHER WHEN SIX (6) HOURS HAVE ELAPSED SINCE THE TENDER OF NOTICE OF READINESS IS TENDERED (NOR), OR WHEN VESSEL IS ALL FAST WHICHEVER OCCURS FIRST.

12.2 - NOR SHALL BE TENDERED AT ANY TIME SHINC AFTER THE VESSEL HAS ARRIVED AT A CUSTOMARY ANCHORAGE OR WAITING PLACE OF THE PORT OF LOADING, BERTH AVAILABLE OR NOT.

IF NOR IS TENDERED PRIOR TO THE FIRST DAY OF THE AGREED DELIVERY PERIOD, LAYTIME SHALL NOT START UNTIL 0600 HOURS ON THE FIRST DAY OF THAT PERIOD.

IF NOR IS TENDERED AFTER THE LAST DAY OF THE AGREED DELIVERY PERIOD THEN, LAYTIME SHALL NOT COMMENCE UNTIL THE VESSEL STARTS LOADING.

12.3 - IN ALL CASES, LAYTIME SHALL CEASE ON DISCONNECTION OF CARGO HOSES AFTER LOADING IS COMPLETED.

12.4 - SELLER SHALL BE ALLOWED A LAYTIME OF FORTY EIGHT (48) RUNNING HOURS SHINC TO COMPLETE LOADING OF THE VESSEL, PRORATED FOR A PART CARGO.

12.5 - SELLER SHALL BE ALLOWED ADDITIONAL LAYTIME OF TWENTY-FOUR (24) RUNNING HOURS SHINC IN ADDITION TO LAYTIME DEFINED IN ITEM 12.4 TO PERFORM LOADING OF VESSELS GUARA, GUARUJÁ AND GUAPORE. SUCH ADDITIONAL LAYTIME WILL BE GRANTED TO VESSELS GUARA, GUARUJÁ AND GUAPORE BECAUSE OF VESSEL'S PRESSURE AND TEMPERATURE DESIGN LIMITATIONS.

13) DEMURRAGE:

13.1 - SELLER SHALL PAY DEMURRAGE AT THE DAILY RATE OF:

(I) FOR NOMINATED CARGOES UP TO 3,700. MT (THREE THOUSAND AND SEVEN HUNDRED METRIC TONS): DAILY RATE SHALL BE US\$ 15,000. (U.S. DOLLARS FIFTEEN THOUSAND, NO CENTS) PDPR.

(II) FOR NOMINATED CARGOES OF MORE THAN 3,700 MT (THREE THOUSAND AND SEVEN HUNDRED METRIC TONS) AND UP TO 4,700 (FOUR THOUSAND SEVEN HUNDRED METRIC TONS): DAILY RATE SHALL BE US\$ 20,000. (U.S. DOLLARS TWENTY THOUSAND, NO CENTS) PDPR.

(III) FOR CARGOES OF MORE THAN 4,700 MT (FOUR THOUSAND SEVEN HUNDRED METRIC TONS) AND UP TO 12,000 MT (TWELVE THOUSAND METRIC TONS): DAILY RATE SHALL BE US\$ 25,000. (U.S. DOLLARS TWENTY FIVE THOUSAND, NO CENTS) PDPR.

(IV) FOR NOMINATED CARGOES OF MORE THAN 12,000 MT (TWELVE THOUSAND METRIC TONS) AND UP TO 21,000 MT (TWENTY ONE THOUSAND METRIC TONS): DAILY RATE SHALL BE US\$ 30,000. (U.S. DOLLARS THIRTY THOUSAND, NO CENTS) PDPR.

(V) FOR NOMINATED CARGOES OF MORE THAN 21,000 MT (TWENTY ONE THOUSAND METRIC TONS): DAILY RATE SHALL BE US\$ 40,000. (U.S. DOLLARS FORTY THOUSAND, NO CENTS) PDPR.

WHERE PDPR MEANS PER DAY PRO RATA.

SUCH RATE SHALL BE APPLIED FOR ALL TIME USED EXCEEDING ALLOWED LAYTIME AS ESTABLISHED IN CLAUSE 12. SELLERS SHALL PAY DEMURRAGE IN U.S. DOLLARS IMMEDIATELY AGAINST RECEIPT OF DEBIT OF NOTE AND DOCUMENTED CLAIM.

13.2 - ANY OF THE FOLLOWING DOCUMENTS SHALL SUFFICE FOR THE PURPOSE OF TIME CALCULATIONS RELATED TO DEMURRAGE: STATEMENT OF FACTS OR SHIPS OR INSPECTIONS, TIME -SHEET (IN CASE THEY DISAGREE, ONE WILL PREVAIL UPON THE OTHER ON THIS SAME SEQUENCE). VESSELS CHARTER PARTY OF FIXTURE RECAP MAY BE REQUESTED ONLY WHEN THE CONDITIONS SPECIFIED HEREUNDER OR IN THE PARTICULAR TERMS OF THIS CONTRACT SO DEMAND; INVOICES FROM SHIPS OWNER ARE PRIVATE AND CONFIDENTIAL AND BUYER HAS THE RIGHT NOT TO PRESENT IT IF SO REQUESTED.

13.3 - BAD WEATHER AND/OR EBB OF FLOOD TIDE CAUSING INTERRUPTION OF DISCHARGE OR IMPOSSIBILITY FOR VESSEL TO UNLOAD HER CARGO NORMALLY, BEING AN OCCURRENCE BEYOND SELLERS/BUYER CONTROL,

SHALL HAVE ITS DURATION EQUALLY SHARED BETWEEN PARTIES FOR DEDUCTION FROM LAYTIME. SUCH OCCURENCES MUST BE DOCUMENTARY SUPPORTED.

14) TITLE AND RISK:

TITLE AND RISK WILL PASS FROM SELLERS TO BUYER AT SHIPS RAIL AT LOADING PORT.

15) OPERATIONAL SERVICES

BUYER AND SELLERS SHALL MUTUALLY AGREE, IF NECESSARY, THE PRESSURIZATION OR REFRIGERATION SERVICE OF ANY CARGO TO BE LIFTED.

16) INSURANCE:

FOR BUYERS CARE AND ACCOUNT AS PER FOB INCOTERMS 2000 DELIVERIES.

17) DOCUMENTARY INSTRUCTIONS:

BUYER SHALL INFORM SELLERS FULL DOCUMENTARY INSTRUCTIONS FOR EACH CARGO IN DUE TIME.

18) HARDSHIP:

18.1 - SELLERS AND BUYER ACKNOWLEDGE AND CONSENT THAT THIS AGREEMENT DOES CONSTITUTE A FAIR AND EQUITABLE AGREEMENT.

18.2 - IN THE EVENT THAT, DURING THE TERM OF THIS AGREEMENT AND DUE TO CIRCUMSTANCES WHICH COULD NOT REASONABLY BE FORESEEN AS OF THE DATE WHEN THIS AGREEMENT WAS ENTERED INTO, THE GENERAL SITUATION IN THE LPG MARKET WAS SUBSTANTIALLY CHANGED SO THAT EITHER PARTY SUFFERS SEVERE AND UNFORESEEABLE HARDSHIP FOR A PERIOD OF TIME NOT SHORTER THAN SIX(6) MONTHS, THE PARTY WHICH IS SUFFERING THE ABOVE MENTIONED SEVERE AND UNFORESEEABLE HARDSHIP SHALL GIVE, TO THE OTHER PARTY, WRITTEN NOTICE THEREOF, WHICH WILL SPECIFY (I) THE DATE AND NATURE OF THE EVENT OR EVENTS WHICH CAUSED THE CHANGE ALLEGED BY IT (II) AN EVALUATION OF THE HARDSHIP THAT HAS BEEN SUFFERED AND (III) THE PROPOSAL MADE BY THE PARTY TO REMEDY THAT HARDSHIP.

IF THE OTHER PARTY DOES NOT CONSIDER THAT ALL OF THE CONDITIONS SET FORTH HEREINABOVE ARE MET, THE DISPUTE WILL BE SUBMITTED TO CLAUSE 21. ON THE CONTRARY, IF THE OTHER PARTY AGREES THAT ALL OF SUCH CONDITIONS ARE MET, THE PROVISIONS SET FORTH IN 18.3 WILL APPLY.

18.3 - DURING A PERIOD OF FORTY FIVE (45) DAYS - BEGINNING ON THE DATE

THE WRITTEN NOTICE REFERRED TO IN 18.2 HAS BEEN RECEIVED THE PARTIES

SHALL NEGOTIATE IN GOOD FAITH, TRYING TO AGREE SUCH ADJUSTMENT AS WOULD APPEAR TO BE NECESSARY AND SUCH REVISIONS AS WOULD BE JUSTIFIED BY THE CIRCUMSTANCES WHICH COULD NOT REASONABLY BE FORESEEN AS OF THE DATE ON WHICH THIS AGREEMENT WAS ENTERED INTO - REFERRED TO IN 18.2 - IN ORDER TO RESTORE THE EQUITABLE CHARACTER OF THIS AGREEMENT.

IN THE CASE NO AGREEMENT COULD BE REACHED BY AND AMONG THE PARTIES DURING THE ABOVE MENTIONED FORTY FIVE (45) DAY PERIOD, THE FOLLOWING PROVISIONS WILL APPLY:

(A) DURING A PERIOD OF FIFTEEN (15) DAYS - BEGINNING ON THE IMMEDIATELY POSTERIOR DAY TO THAT ONE ON WHICH THE AFOREMENTIONED FORTY FIVE (45) DAY PERIOD HAS EXPIRED - THE PARTIES SHALL HOLD GOOD FAITH NEGOTIATIONS IN ORDER TO AGREE (I) THE DATE ON WHICH THIS AGREEMENT WILL TERMINATE; (II) THE QUANTITIES OF LPG TO BE DELIVERED UNTIL TERMINATION DATE AND A CORRESPONDING DELIVERY PROGRAMME FOR THE QUANTITIES TO BE DELIVERED UNTIL TERMINATION DATE; AND (III) THE PRICE TO BE PAID FOR THE QUANTITIES OF LPG REFERRED TO IN (II).

(B) IN THE CASE NO AGREEMENT COULD BE REACHED BY AND AMONG THE PARTIES DURING THE FIFTEEN (15) DAY PERIOD REFERRED TO IN (A): (I) THIS AGREEMENT WILL TERMINATE ON THE EXPIRATION OF A NINETY (90) DAYS PERIOD, WHICH WILL BEGIN ON THE IMMEDIATELY POSTERIOR DAY TO THAT ONE ON WHICH THE AFOREMENTIONED FIFTEEN (15) DAY PERIOD HAS EXPIRED.

18.4 - THE TERMINATION OF THIS AGREEMENT WILL NOT RENDER ANY PARTY LIABLE TO THE OTHER BY REASON OF SUCH TERMINATION, BUT IT WILL NOT PREJUDICE ANY RIGHT OF EITHER PARTY ACCRUED BEFORE SUCH TERMINATION PURSUANT CLAUSE 18.3.

18.5 - DURING THE SIX (6) MONTH PERIOD REFERRED TO IN 18.2 ALL OF THE TERMS AND CONDITIONS OF THIS AGREEMENT WILL REMAIN UNCHANGED AND BE IN FULL FORCE AND EFFECT.

BY THE SAME TOKEN, DURING THE FORTY FIVE (45) DAY AND, IN ITS CASE, THE FIFTEEN (15) DAY PERIOD - REFERRED TO IN 18.3-, AND THE NINETY (90) DAY PERIOD REFERRED TO IN 18.3-, ALL OF THE TERMS AND CONDITIONS OF THIS AGREEMENT WILL REMAIN UNCHANGED AND BE IN FULL FORCE AND EFFECT, UNLESS THE PARTIES AGREE OTHERWISE.

19) FORCE MAJEURE:

SELLER SHALL NOT BE OBLIGATED TO DELIVER OR BUYER OBLIGATED TO RECEIVE PRODUCT HEREUNDER WHEN, WHILE AND TO THE EXTENT THAT SELLER IS PREVENTED FROM DELIVERING THE PRODUCT OR BUYER IS PREVENTED FROM RECEIVING THE PRODUCT DUE TO ACTS OF GOD, FIRES,

ACCIDENTS, STRIKES OR OTHER LABOR DISTURBANCES, WAR, DECLARED OR UNDECLARED EMBARGOES, PERILS OF THE SEA, ACTS OF CIVIL OR MILITARY AUTHORITIES, DISRUPTION OF SELLERS SUPPLIES OR ANY OTHER CAUSES BEYOND THE CONTROL OF THE PARTY UNABLE TO PERFORM WHETHER OR NOT SIMILAR TO THE CAUSES HEREIN SPECIFIED. IN ANY SUCH EVENT PREVENTING PERFORMANCE, SAME SHALL BE DELAYED FOR A PERIOD NOT TO EXCEED 30 DAYS OR AT OPTION OF PARTY UNABLE TO PERFORM SHALL BE EXCUSED PROVIDED THAT ANY LIABILITY FOR PAYMENT THEREFORE EXISTING UNDER NO CIRCUMSTANCES BE EXTINGUISHED BUT SHALL, ON THE CONTRARY, REMAIN IN FULL FORCE AND EFFECT.

20) CLAIMS:

CLAIMS, IF ANY, MUST BE SUBSTANTIATED WITHIN 90 DAYS FROM COMPLETION OF LOADING DATE. BEYOND THAT PERIOD NO CLAIMS WILL BE CONSIDERED.

21) LAW AND JURISDICTION:

THE VALIDITY AND INTERPRETATION OF THIS CONTRACT SHALL BE GOVERNED BY ENGLISH LAW. ANY DISPUTE HEREUNDER SHALL BE SETTLED UNDER THE ARBITRATION RULES OF THE LONDON COURT OF INTERNATIONAL ARITRATION. EACH ONE OF THE PARTIES SHALL INDICATE ONE ARBITRATOR AND THE TWO ARBITRATORS SO DESIGNATED SHALL INDICATE A THIRD ONE TO ACT AS CHAIRMAN OF THE ARBITRATION PANEL. IN CASE OF NO AGREEMENT AS TO THE DESIGNATION OF THE ARBITRATORS, THE SAME SHALL BE INDICATED BY THE LONDON COURT OF INTERNATIONAL ARBITRATION.

22) GENERAL TERMS AND CONDITIONS:

TERMS AND CONDITIONS EXCEPT SPECIFICALLY MENTIONED ABOVE SHALL BE IN ACCORDANCE WITH INCOTERMS 2000 WITH LATEST AMENDMENTS FOR FOB DELIVERIES.

23) ASSIGNMENT CLAUSE:

NO PARTY SHALL ASSIGN ITS RIGHTS AND OBLIGATIONS UNDER THIS AGREEMENT, IN WHOLE OR IN PART, WITHOUT THE PRIOR WRITTEN CONSENT OF THE OTHER PARTY WHICH MAY NOT BE UNREASONABLY WITHHELD.

WHENEVER AN ASSIGNMENT IS MADE, THE ASSIGNOR SHALL REMAIN JOINTLY AND SEVERELY LIABLE WITH THE ASSIGNEE FOR THE FULL PERFORMANCE OF ITS OBLIGATIONS UNDER THIS AGREEMENT.

NOTWITHSTANDING TO DETERMINATE THE PRICE AGREED AS PER POINTS 9.1.1 AND 9.1.2 THE PRODUCT DELIVERED BY THE ASSIGNEE TO PIFCO SHALL BE TAKEN INTO ACCOUNT AS IF IT WERE SOLD BY TGS.

24) CARGO DESTINATION:

BUYER IS FREE TO CHOOSE FINAL DESTINATION OF THE CARGOES LIFTED UNDER THIS AGREEMENT.

RIO DE JANEIRO, ____(DATE)_____

TRANSPORTADORA DE GAS DEL SUR

PETROBRAS INTERNATIONAL FINANCE COMPANY

EXHIBIT 4.4

Natural gasoline supply agreement between TGS and PIFCO

SUBJECT TERM CONTRACT

DATE **January 8, 2007**

WE WOULD LIKE TO PRESENT THE CONTRACT FOR FOB SALE OF NATURAL GASOLINE FOB BAHIA BLANCA:

1. BUYER:

PETROBRAS INTERNATIONAL FINANCE COMPANY
4TH FLOOR, HARBOUR PLACE, 103 SOUTH CHURCH STREET
PO BOX 1034GT – GEORGETOWN
GRAND CAYMAN, CAYMAN ISLANDS, BWI
(HEREINAFTER REFERRED TO AS "BUYER");

2. SELLER:

TGS - TRANSPORTADORA DE GAS DEL SUR.
DON BOSCO 3672
1206 BUENOS AIRES, ARGENTINA
(HEREINAFTER REFERRED TO AS "SELLER")

3.PRODUCT:

NATURAL GASOLINE, QUALITY AS PER ATTACHED SPECIFICATIONS.

4. DURATION:

DELIVERIES HEREUNDER SHALL BE MADE DURING THE PERIOD OF JANUARY 2007 TO TO DECEMBER 2009.

5. QUANTITY:

MIN 9.000 MT PER MONTH +/- 10 PCT (SELLER'S OPTION). ANY ADDITIONAL QUANTITY THAT SELLER MAY HAVE FOR EXPORT FOB BAHIA BLANCA EXCEEDING THE CONTRACT QUANTITIES MUST BE OFFERED TO PETROBRAS WHICH WILL HAVE THE OBLIGATION TO BUY THE OFFERED QUANTITY UNDER THE TERMS OF THIS CONTRACT.

6. SCHEDULING OF CARGOES :

SELLER SHALL SEND, IN WRITING, UP TO THE 15TH DAY OF A GIVEN MONTH, THE LOADING PROGRAM FOR THE FOLLOWING MONTH, PROPOSING 5-DAY LOADING RANGES. BUYER SHALL CONFIRM THE ACCEPTANCE OF THE PROGRAM OR PROPOSE AN ALTERNATIVE ONE WITHIN 7 (SEVEN) WORKING DAYS FROM THE DATE OF RECEPTION OF WRITTEN NOTICE FROM SELLER. IN THE EVENT THAT AN ALTERNATIVE LAYCAN IS PROPOSED BY BUYER, SELLER SHALL CONFIRM ACCEPTANCE WITHIN MAXIMUM 3 (THREE) WORKING DAYS. LAYCAN SHALL BE NARROWED BY MUTUAL AGREEMENT TO

A 3 (THREE) DAY RANGE 20 (TWENTY) WORKING DAYS BEFORE THE FIRST DAY OF THE FINAL AGREED LAYCAN.

7. FOB PRICE:

SHALL BE EQUAL TO THE AVERAGE OF THE 3 (THREE) MEAN QUOTATIONS PUBLISHED BY PLATT'S EUROPEAN MARKETSCANPETROCHEMICAL ALERT FOR NAPHTHA PHYSICAL UNDER THE HEADING NWE CIF/ARA ON B/L DATE -1, B/L DATE AND B/L DATE + 1, LESS A DISCOUNT OF USD 13.00 MT (THIRTEEN US DOLLARS PER METRIC TON).

IF B/L DATE IS A PLATTS NON PUBLISHING, THEN THE IMMEDIATELY PRECEDING PUBLISHING DAY WILL BE ASSUMED AS B/L DATE FOR THE DETERMINATION OF PRICE AND THE PREVIOUS AND FOLLOWING QUOTATIONS TO THAT DAY SHALL APPLY.

8. PAYMENT:

BY TELEGRAPHIC TRANSFER IN U.S. DOLLARS TO AN ACCOUNT TO BE INFORMED BY SELLER; BENEF: TRANSPORTADORA DE GAS DEL SUR S.A.; REF: PETROBRAS, WITHIN THIRTY (30) DAYS FROM BILL OF LADING (B/L/ DATE=DAY ZERO) AGAINST PRESENTATION OF:

- SELLERS COMMERCIAL INVOICE (TELEX ACCEPTABLE)
- 3 / 3 ORIGINAL BILLS OF LADING OR 2 / 3 ORIGINAL BILLS OF LADING AND MASTERS RECEIPT FOR 1 / 3 ORIGINAL BILL OF LADING AND
- OTHER USUAL ORIGINAL SHIPPING DOCUMENTS OR SELLERS LETTER OF INDEMNITY (TELEX ACCEPTABLE) IN THE EVENT OF MISSING DOCUMENTS AS MENTIONED ABOVE.
- CERTIFICATES OF QUALITY AND QUANTITY ISSUED BY INDEPENDENT INSPECTOR AT LOADING PORT, CERTIFICATE OF ORIGIN.

IF PAYMENT FALLS DUE ON A SUNDAY OR MONDAY ON WHICH SELLERS BANK IS CLOSED, SUCH PAYMENT SHALL BE ON THE FIRST FOLLWING BANKING DAY.

IN THE EVENT THAT ANY PAYMENT FALLS DUE ON A SATURDAY OR ANY OTHER HOLIDAY SUCH PAYMENT SHALL BE MADE ON THE LAST PRECEDING BANKING DAY.

IF BUYER FAILS TO PAY ON THE MATURITY DATE, SELLER SHALL BE REIMBURSED FOR THE INTERESTS RELATED TO THE TIME OF THE DELAY BASED ON THE LIBOR RATE PUBLISHED IN THE LONDON MARKET FOR TRANSACTIONS AT 30 (THIRTY) DAYS, IN EFFECT ON MATURITY DATE, PLUS 2 3 (TWO THREE) PERCENT.

9. INVOICING:

NATURAL GASOLINE - AS PER NET B/L FIGURES.

10. INSPECTION:

QUANTITY AND QUALITY OF THE PRODUCT SOLD HEREUNDER SHALL BE IN ACCORDANCE TO SHORE TANK MEASUREMENTS AT LOADING PORT.

BOTH QUALITY AND QUANTITY SHALL BE DETERMINED BY AN INDEPENDENT INSPECTOR APPOINTED JOINTLY WITH COSTS EQUALLY SHARED BETWEEN PARTIES. INSPECTORS FINDINGS TO BE FINAL AND BINDING FOR BOTH PARTIES, EXCEPT FOR FRAUD OR MANIFEST ERROR.

11. LAYTIME:

TOTAL LAYTIME ALLOWED FOR LOADING CARGOES TILL 6,500 CUBIC METERS SHALL BE 36 HOURS (SHINC), PRO-RATA FOR PART CARGO.

TOTAL LAYTIME ALLOWED FOR LOADING CARGOES ABOVE 6,500 CUBIC METERS SHALL BE CALCULATED CONSIDERING THE PUMPING RATE OF 200 CUBIC METERS PER HOUR, PRO-RATA FOR PART CARGO.

LAYTIME SHALL COMMENCE UPON THE EXPIRATION OF 6 (SIX) HOURS AFTER RECEIVING NOTICE OF READINESS AT LOADING PORT OR WHEN VESSEL IS ALL FAST, WHICHEVER OCCURS FIRST, PROVIDED VSL PRESENTS ETA WITHIN THE AGREED LAYCAN. LAYTIME SHALL CEASE AND LOADING SHALL BE DEEMED COMPLETED UPON DISCONNECTION OF LOADING HOSES AT LOADING PORT.

12. DEMURRAGE:

FOR ALL TIME THAT USED LAYTIME EXCEEDS ALLOWED LAYTIME, SELLER SHALL PAY BUYER THE DAILY CHARTER PARTY RATE.

ASBATANKVOY TERMS AND CONDITIONS ARE APPLICABLE.

SHOULD THE VESSEL USED TO LIFT ANY CARGO UNDER PRESENT AGREEMENT BE A VESSEL CHARTED UNDER A TIME CHARTER PARTY OR OWNED BY BUYER, THEN THE APPROPRIATE DEMURRAGE RATE FOR SUCH VOYAGE SHALL BE US\$ (TO BE AGREED)22.000 PER DAY.

13. VESSEL'S NOMINATION:

13.1: BUYER SHALL NOMINATE A VESSEL TO LIFT THE CONTRACTUAL CARGO AT LEAST 10 (TEN) DAYS PRIOR TO THE FIRST DAY OF THE LAYCAN. AFTER RECEIVING NOMINATION SELLER SHALL CONFIRM ACCEPTANCE WITHIN 2 (TWO) WORKING DAYS.

13.2: BUYER SHALL BE ENTITLED TO SUBSTITUTE ANY VESSEL NOMINATED ACCORDING TO 14.113.1 PROVIDED ALWAYS THAT A WRITTEN NOTICE STATING THE NAME OF SUBSTITUTE VESSEL IS SENT TO SELLER NOT LATER THAN 3 (THREE) DAYS PRIOR TO THE FIRST DAY OF THE LAYCAN.

14. TITLE AND RISK OF LOSS:

WILL PASS FROM SELLER TO BUYER AS THE PRODUCT PASSES THE VESSEL'S INTAKE FLANGE AT LOADING PORT.

15. LAW & JURISDICTION:

THIS AGREEMENT SHALL BE GOVERNED BY AND CONSTRUED IN CONFORMITY WITH THE ENGLISH LAW WITHOUT RECOURSE TO ARBITRATION. ANY DISPUTES ARISING HEREUNDER SHALL BE DETERMINED SUBJECT TO THE EXCLUSIVE JURISDICTION OF THE HIGH COURT IN LONDON (COMMERCIAL COURT).

16. INSURANCE:

ON BUYER'S ACCOUNT.

17. DOCUMENTATION:

SELLER MUST DO THEIR BEST EFFORTS TO PRESENT ORIGINAL DOCUMENTS TO PETROBRAS BY AIR COURIER WITHIN 5 (FIVE) WORKING DAYS AFTER DISCHARGE.

ORIGINAL DOCUMENTS MUST BE DELIVERED TO BUYER WITHIN MAX 60 (SIXTY) DAYS AFTER B/L DATE. SUCH DOCUMENTS ARE: 3/3 ORIGINAL BILL OF LADING (3 COMPLETE SETS), HARD COPY OF COMMERCIAL INVOICE DULY SIGNED, CERTIFICATE OF ORIGIN ISSUED BY AN OFFICIAL CHAMBER, AND QUALITY AND QUANTITY CERTIFICATE AS PER DOCUMENTARY INSTRUCTIONS.

SELLER MUST PRESENT ALL NECESSARY DOCUMENTS TO ISSUE THE CERTIFICATE OF ORIGIN IN MERCOSUL'S FORMAT TO ARGENTINE AUTHORITIES, WITHIN 8 (EIGHT) ARGENTINEAN WORKING DAYS FROM B/L DATE.

IN CASE SELLER DOES NOT HAVE THE NECESSARY DOCUMENTS TO ACCOMPLISH ABOVE CLAUSE, SELLER MUST RESERVE A NUMBER WITH THE ARGENTINEAN AUTHORITIES WITHIN 10 (TEN) ARGENTINEAN WORKING DAYS FROM B/L DATE AND DELIVER THE DOCUMENTS IN DUE TIME IN SUCH WAY THAT THE AUTHORITIES ARE ABLE TO ISSUE SUCH CERTIFICATE ACCORDING TO MERCOSUL'S LEGISLATION, PROVIDED THAT CONDITIONS TO CALCULATE THE FINAL PRICES ARE AVAILABLE WITHIN SUCH DEADLINE.

IF THE ABOVE IS ACCOMPLISHED, SELLER SHALL NOT BE RESPONSIBLE IF ARGENTINE AUTHORITIES FAIL TO ISSUE THE ORIGIN CERTIFICATE FOLLOWING MERCOSUL'S REGULATIONS.

18. FORCE MAJEURE

NEITHER PARTY SHALL BE RESPONSABLE FOR ANY LOSS OR LOSSES RESULTING IF THE FULFILMENT OF ANY TERM OR PROVISION OF ANY AGREEMENT SHALL BE DELAYED, RENDERED IMPRACTICAL OR OTHERWISE BE ADVERSELY AFFECTED OR PREVENTED BY CIVIL DISORDERS, WARS, ACTS OF ENEMIES, STRIKES, FLOODS, ACTS OF GOD, GOVERNMENTAL DECREE OR REGULATION WHETHER FEDERAL, STATE, MUNICIPAL OR OTHERWISE OR BY ANY OTHER CAUSE NOT WITHIN CONTROL OF THE PARTY WHOSE PERFORMANCE IS INTERFERED WITH, AND WHICH, BY THE EXERCISE OF REASONABLE DILIGENCE, SAID PARTY IS UNABLE TO PREVENT, WHETHER OF THE CLASS OF CAUSES HEREINBEFORE ENUMERATED OR NOT.

IF AN EVENT OF FORCE MAJEURE IS DECLARED BY PETROBRAS' SUPPLIER OR ITS SUPPLIER'S SUPPLIER PETROBRAS SHALL, NEVERTHELESS, NOT BE REQUIRED TO SEEK OR SUPPLY ALTERNATE MATERIAL TO ITS PURCHASE AND/OR TO PURCHASE ALTERNATE MATERIAL FROM ITS SELLER AND IF THE EVENT OF FORCE MAJEURE SHOULD CONTINUE FOR A PERIOD OF GREATER THAN 30 DAYS, THEN AND IN SUCH EVENT, PETROBRAS SHALL HAVE THE RIGHT TO TERMINATE THE PURCHASE/SALE CONTRACT AND NEITHER PARTY SHALL THEREAFTER HAVE ANY RIGHTS AGAINST THE OTHER, SAVE ONLY THAT ANY FUNDS OWING TO PETROBRAS BEFORE THE DECLARATION OF FORCE MAJEURE SHALL, NEVERTHELESS BE PAID. PETROBRAS MAY UPON SUCH DECLARATION OF FORCE MAJEURE CANCEL THIS SALES CONTRACT.

19. MISCELLANEOUS :

-NEITHER PARTY SHALL ASSIGN THIS AGREEMENT WITHOUT THE WRITTEN APPROVAL OF THE OTHER PARTY.

-THIS CONTRACT CONTAINS THE ENTIRE AGREEMENT OF BOTH PARTIES AND CANNOT BE MODIFIED UNLESS IN WRITING.

-WHERE NOT INCONSISTENT WITH THE ABOVE, INCOTERMS 2000 EDITION FOR FOB DELIVERIES.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Transportadora de Gas del Sur S.A.

We have audited the accompanying consolidated balance sheets of Transportadora de Gas del Sur S.A. and its subsidiary as of December 31, 2006 and 2005, and the related consolidated statements of income, of changes in shareholders' equity and of cash flows for each of the three years in the period ended December 31, 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Transportadora de Gas del Sur S.A. and its subsidiary at December 31, 2006 and 2005, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2006 in conformity with accounting principles generally accepted in Argentina.

Accounting principles generally accepted in Argentina vary in certain significant respects from the accounting principles generally accepted in the United States of America and as allowed by Item 18 to Form 20-F, information relating to the nature and effect of such differences is presented in Note 12 to the consolidated financial statements.

TRANSPORTADORA DE GAS DEL SUR S.A.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

1. BUSINESS DESCRIPTION

Transportadora de Gas del Sur S.A. ("the Company" or "TGS") is one of the companies created as a result of the privatization of Gas del Estado S.E. ("GdE"). The Company commenced operations on December 29, 1992 and it is engaged in the transportation of natural gas and production and commercialization of natural gas liquids ("NGL") in Argentina. TGS's pipeline system connects major gas fields in southern and western Argentina with gas distributors in those areas and in the greater Buenos Aires area. The gas transportation license to operate this system for a period of thirty-five years ("the License") was exclusively granted to the Company. TGS is entitled to a one-time extension of ten years provided that it has essentially met the obligations imposed by the License and by the Ente Nacional Regulador del Gas (National Gas Regulatory Agency or "ENARGAS"). The General Cerri Gas Processing Complex (the "Cerri Complex"), where the Company processes natural gas by extracting NGL, was transferred from GdE along with the gas transmission assets. The Company also renders midstream services, which mainly consist of gas treatment, removal of impurities from the natural gas stream, gas compression, wellhead gas gathering and pipeline construction, operation, and maintenance services.

2. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company's consolidated financial statements have been prepared in accordance with generally accepted accounting principles in Argentina ("Argentine GAAP"), and the regulations of the *Comisión Nacional de Valores* (the Argentine National Securities Commission or "CNV") and ENARGAS. Argentine GAAP differs in certain significant respects from generally accepted accounting principles in the United States of America ("US GAAP"). Such differences involve methods of measuring the amounts shown in the financial statements, as well as additional disclosures required by US GAAP and Regulation S-X of the Securities and Exchange Commission ("SEC"). A description of the significant differences between Argentine GAAP and US GAAP as they relate to the Company is set forth in Note 12 to these consolidated financial statements.

In accordance with Argentine GAAP, the presentation of the parent company's individual financial statements is mandatory. Consolidated financial statements are to be included as supplementary information to the individual financial statements. For the purpose of these financial statements, individual financial statements have been omitted since they are not required for SEC reporting purposes.

The consolidated financial statements include the accounts of TGS and its subsidiary Telcosur S.A. ("Telcosur") over which it has effective control. Investments in companies, in which the Company exercises significant influence, but not control, are accounted for under the equity method. The Company followed the methodology established in Technical Resolution ("TR") No. 21 "Equity Method of Accounting, Consolidation of Financial Statements and Related Party Transactions" of the Argentine Federation of Professional Councils in Economic Sciences ("Argentine Federation") and approved by the Professional Council in Economic Sciences of the Autonomous City of Buenos Aires ("CPCECABA"). The accounting policies followed by Telcosur in the preparation of its financial information are consistent with those applied by TGS. All significant intercompany transactions have been eliminated in consolidation.

Detailed data reflecting subsidiary direct control as of December 31, 2006, 2005 and 2004 is as follows:

Company	% of shareholding and votes			Closing date	Legal address
	2006	2005	2004		
TELCOSUR S.A.	99.98 %	99.98 %	99.98 %	December 31,	Don Bosco 3672, 6 th Floor Autonomous City of Buenos Aires

Certain reclassifications of prior year information have been made to conform to the current year presentation.

TRANSPORTADORA DE GAS DEL SUR S.A.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

a) Use of estimates

The preparation of the consolidated financial statements in conformity with generally accepted accounting principles requires management to make accounting estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, as well as the reported amounts of revenues and expenses during the reporting fiscal year. Estimates are used when accounting for the allowance for doubtful accounts, depreciation, amortization, income taxes, allowance for contingencies, impairment of long-lived assets, and present value of long term receivables and liabilities. Actual results could be significantly different from such estimates.

b) Presentation of consolidated financial statements in constant Argentine pesos

The consolidated financial statements have been prepared in constant Argentine pesos, recognizing the overall effects of inflation up to August 31, 1995. As from that date, in line with professional accounting standards and the requirements of the control authorities, the Company discontinued the restatement of its consolidated financial statements until December 31, 2001.

As established by Resolution No. 3/2002 of the CPCECABA and Resolution No. 415 of the CNV, as from January 1, 2002, the Company resumed the recognition of the effects of inflation in these consolidated financial statements, following the provisions of TR No. 6, as amended by TR No. 19, both issued by the Argentine Federation. Accounting measurements restated due to the change in the purchasing power of the currency up to August 31, 1995, as well as those which have been originated between that date and December 31, 2001, are stated in the currency value as of the later date.

On March 25, 2003, the Executive Branch issued Decree No. 664, which provides that financial statements for periods ending after such date shall be stated in historical Argentine pesos. As a consequence and in accordance with Resolution No. 441, issued by the CNV, the Company suspended inflation accounting effective March 1, 2003. This criterion is not in line with Argentine GAAP, which stipulate that financial statements should be restated as of September 30, 2003. If the Company had applied inflation accounting for the period from March 1 to September 30, 2003, the non-recognized inflation effect on net income and shareholders' equity for the fiscal years ended December 31, 2006, 2005 and 2004 would not be significant.

The restatement methodology is computed at each balance sheet date, using the Argentine Wholesale Price Index ("WPI") published by the *Instituto Nacional de Estadística y Censos* ("INDEC"), as follows:

- Non-monetary items and consolidated statement of income amounts are adjusted to reflect the then-current general purchasing power;
- Monetary items are not adjusted as such items are, by their nature, stated in terms of current general purchasing power in the financial statements; and
- Monetary gains or losses are recognized in the consolidated statement of income, reflecting the effect of holding monetary items. This gain or loss on exposure to inflation (monetary gain or loss) is included in the consolidated statement of income within "Net financial expense".

Information presented for comparative purposes has been restated in constant currency as of February 28, 2003.

c) Adoption by CNV of accounting standards

The CNV issued General Resolutions No. 485 and No. 487 on December 29, 2005 and January 26, 2006, respectively, which adopted, with certain modifications, the new accounting standards previously issued by the CPCECABA through its Resolution CD 93/2005. These standards were mandatory for fiscal years or interim periods corresponding to fiscal years beginning as from January 1, 2006.

TRANSPORTADORA DE GAS DEL SUR S.A.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

The most significant changes included in the accounting standards adopted by the CNV relate to (i) changes in the impairment test of long-lived assets and (ii) changes to deferred income tax accounting.

Under the new standards, the carrying value of a long-lived asset is considered impaired by the Company when the expected cash flows from such asset are separately identifiable and are less than the carrying value of the asset. Expected cash flows are determined using the anticipated cash flows discounted at a rate commensurate with the risk involved.

The new standards provide for the accounting treatment of differences between the tax basis and book basis of non-monetary items for deferred income tax calculation purposes when companies prepare price-level restated financial statements. The new accounting mandates companies to treat these differences as temporary differences. However, the standard allows a one-time accommodation to continue treating the differences between the tax basis and indexed book basis of non-monetary items as permanent at the time of adoption of the standard. As such, the Company elected to continue treating differences as permanent.

d) Short-term receivables and liabilities

Short-term receivables and liabilities, including accrued interest if applicable at the end of each year, have been valued at their respective nominal amount, which does not materially differ from the present value of the future cash flow that the receivables and liabilities will generate, using the internal rate of return estimated at inception.

e) Foreign currency assets and liabilities

Assets and liabilities denominated in foreign currencies, including accrued interest, if applicable, have been translated at the prevailing exchange rates at the end of each year. Detailed information is disclosed in Note 13.f).

Generally, foreign currency transaction gains and losses are included in the determination of net income or loss.

However, CNV Resolution No. 398 provides, under certain circumstances, for the application of CPCECABA Resolution MD No.3/02, issued in March 2002, which provides that foreign currency transaction gains or losses on or after January 6, 2002, related to liabilities in foreign currency as of such date, must be allocated to the cost of assets acquired or constructed with such financing as long as a series of conditions and requirements established in such standard are complied with. However, in July 2003, the CPCECABA issued Resolution CD No. 87/03, which suspended such accounting treatment and therefore required foreign currency transaction gains and losses to be included in the determination of net income for the period as from July 29, 2003.

f) Inventories

Inventories consist of natural gas in the pipeline system (in excess of line pack, which is classified as property, plant and equipment), and NGL obtained from natural gas processing at the Cerri Complex. Inventories have been valued at replacement or reproduction cost, as applicable, at the end of each year. The carrying value of inventories does not exceed its net realizable value.

g) Current investments

Bank accounts and fixed-term deposits in local and foreign currency have been valued at their face values plus accrued interest. Private bonds have been valued at their face values plus accrued interest ("amortized cost"), which do not materially differ from their discounted value using the internal rate of return effective at inception.

Mutual funds and government bonds in foreign currency have been valued at market value at year-end.

Unrealized gains and losses on time deposits and mutual funds are included in financial results, net, in the consolidated statement of income.

TRANSPORTADORA DE GAS DEL SUR S.A.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

h) Long-term receivables and liabilities

Long-term receivables and liabilities (except for deferred tax assets and liabilities and asset tax credit as described below) have been valued based on the best estimate of the discounted value of the amounts expected to be collected or paid, as applicable, using the interest rate effective at the time of the initial measurement.

Loans have been valued based on the present value of the amounts expected to be paid (include estimated amounts of additional interests of Tranche B-A of the Company's restructured debt), using the internal rate of return estimated at the inception of the transaction. This rate does not significantly differ from the market interest rate at that moment.

Assets and liabilities generated as a result of the application of the deferred tax method (net of the valuation allowance for non-recoverable deferred tax assets) and the asset tax credit have been calculated at their nominal value.

i) Non-current investments

Equity investments in companies in which the Company's ownership interest ranges between 20% and 50% are Gas Link S.A. ("Link"), Transporte y Servicios de Gas en Uruguay S.A. ("TGU") and Emprendimientos de Gas del Sur S.A. ("EGS"), have been accounted for under the equity method. These investments have been valued based on the financial statements at the dates specified in Note 13.b), which have been prepared applying the same accounting policies as those used by the Company to prepare its consolidated financial statements. As of December 31, 2006 and 2005, the investment in Link has been adjusted by Ps. 4,368 and Ps. 4,538, respectively, due to the elimination of intercompany profits.

The Company considers its foreign subsidiary TGU to be a "non-integrated subsidiary". Consequently, TGU's assets and liabilities have been translated into Argentine pesos using the exchange rate in effect at year-end, while its common stock and retained earnings accounts have been translated using historical exchange rates.

As of September 30, 2006, EGS recorded losses that exceeded the book value of the investment booked by the Company. Since the Company is committed to provide additional financial support to EGS, the Company has recorded the losses in excess of the carrying amount of the investment as other liabilities.

The Company's management is not aware of any significant subsequent events which affected the financial statements of EGS, Link and TGU as of September 30, 2006.

j) Property, plant and equipment, net

- Assets transferred from the privatization of GdE: The value of these assets was determined based on the price paid for the acquisition of 70% of the Company's common stock, which amounted to US\$ 561.2 million. This price was the basis to determine a total value of common stock of US\$ 801.7 million, which, when added to the debt assumed under the Company's privatization agreement (the "Transfer Agreement") of US\$ 395.0 million, resulted in a total value for property, plant and equipment of US\$ 1,196.7 million. Such value, converted at the exchange rate in effect as of the date of the Transfer Contract, has been restated for the effects of inflation as described in Note 2.b).
- Line pack: Line pack represents the natural gas in the transportation system that is necessary to keep the system at operating capacity, and is valued at acquisition cost and restated for the effects of inflation as described in Note 2.b).
- Capitalization of exchange loss: Resolutions No. 3/2002 and 87/03 issued by the CPCECABA and Resolution No. 398 of the CNV established that exchange losses arising from the devaluation of the peso from January 6, 2002 to July 28, 2003, to the extent that they were related to foreign currency liabilities existing at the first date, are to be added to the cost basis of assets acquired or constructed with direct financing by such foreign currency liabilities. Similar accounting treatment is permitted, but not required, for exchange losses arising from indirect financing. It was assumed that the proceeds from such financings were used, firstly, to cover working capital requirements and, secondly, to finance the acquisition or construction of assets that do not qualify for capitalization. The remainder was assumed to relate to assets for which capitalization is permitted.

TRANSPORTADORA DE GAS DEL SUR S.A.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

- Additions: Additions have been valued at acquisition cost restated for the effects of inflation as described in Note 2.b). The Company has capitalized all the investments stipulated as mandatory in the License during the first five-year period, in order to achieve system integrity and public safety equal to those required by international standards. Such investments included, among others, the costs of survey programs related to internal and external pipeline inspection, cathodic protection and pipeline replacement and recoating. Additionally, Resolutions No. 1,660 and No. 1,903 issued by ENARGAS include definitions prescribing which costs should be considered improvements and which costs should be considered maintenance expenses. Repair and maintenance costs have been expensed as incurred.
- Depreciation: Accumulated depreciation related to natural gas transportation assets is computed under the straight-line method over the estimated useful lives of the specific assets, provided they are lower than the maximum useful lives established by the ENARGAS through Resolutions No. 1,660 and No. 1,903.

For depreciation of all other property, plant and equipment, the Company uses the straight-line method of depreciation and applies the annual depreciation rates disclosed in Note 13.a).

When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is reflected in the income statement.

Capitalized exchange loss is depreciated over the remaining useful lives of the assets that led to such capitalization.

- Financial charges capitalization: The company capitalizes interest and other financial charges on long term construction projects. Interest capitalized was Ps. 2,622 and Ps. 6,294 for the years ended December 31, 2006 and 2005, respectively.

Based on the projections made as discussed in Note 2.a) and c), the Company's management believes that the recorded value of property, plant and equipment does not exceed its fair value.

The Company periodically evaluates the carrying value of these assets for impairment, by comparing the carrying value with its fair value which is calculated based on the projected cash flow discounted at a rate commensurate with the risk involved. If the carrying value of an asset is higher than its fair value, a loss would be recognized equal to the amount by which the carrying value exceeds its fair value.

k) Intangible assets

Intangible assets have been valued at their historical cost, restated to account for the effects of inflation as described in Note 2.b), less accumulated amortization.

The amortization of pre-operating costs, organization costs, cancellation costs of commitments assumed under the Transfer Contract and other costs was calculated over a period of thirty-five years through December 31, 2000. Starting January 1, 2001, the net book value of these costs as of December 31, 2000 has been amortized over a five-year period. The cost of the acquisition of licenses is being amortized over a five-year period.

Through December 15, 2004, costs incurred as a consequence of entering into contracts to hedge the Company from fluctuations in interest rates were deferred over the term of the related loans. In addition, up to December 15, 2004, arrangement costs for the issuance of debt associated with Global Programs, as well as debt issuance costs, were deferred over the term of the related debt. As mentioned in Note 6, on December 15, 2004, the Company completed the restructuring process of its financial indebtedness. Consequently, the Company charged to expense Ps. 63.5 million which consisted of: (i) unamortized hedging costs, (ii) unamortized Global Program and notes issuance costs, and (iii) other costs incurred in connection with the restructuring process.

l) Income tax provision

The Company did not either calculate or pay income taxes on a consolidated basis for any of the periods presented.

The Company records income taxes using the deferred tax method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Argentine GAAP requires companies to record a valuation allowance for that

TRANSPORTADORA DE GAS DEL SUR S.A.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004**

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

component of net deferred tax assets which are not recoverable. The statutory income tax rate was 35% for all the periods presented.

The reconciliation between the income tax computed for tax purposes and the income tax expense charged to the statement of income is as follows:

	2006	2005	2004
Estimated current income tax expense	1,714	611	309
Deferred income tax expense	164,726	113,566	98,671
Change in valuation allowance	(144,549)	(101,362)	(88,414)
Income tax expense	21,891	12,815	10,566

The components of the net deferred taxasset as of December 31, 2006 and 2005, are the following:

	2006	2005
<i>Deferred tax assets</i>		
Exchange difference (1)	-	29,001
Allowance for doubtful accounts	98	98
Present value other receivables	5,769	3,387
Present value advanced payments from clients	451	-
Other provisions	835	848
Provision for contingencies	17,547	8,574
Accrued interest from loans	18,221	11,548
Vacation accrual	1,532	1,382
Tax loss carryforwards	110,750	269,434
Valuation allowance	-	(144,549)
Foreign exchange loss generated by current investments	651	-
	155,854	179,723
<i>Deferred tax liabilities</i>		
Deferred revenues	(744)	(800)
Foreign exchange gain generated by current investments	-	(1,198)
Property, plant and equipment, net	(81,612)	(84,050)
	(82,356)	(86,048)
<i>Net deferred tax asset included in Other non current receivables</i>	73,498	93,675

(1) Corresponds to the loss caused by the devaluation of the Argentine Peso as of December 31, 2002 which according to Decree No. 2,568/02, will be deductible for income tax purposes over five years from 2002 to 2006.

Income tax expense computed at the statutory tax rate (35%) on pre-tax income differs from the income tax expense for the years ended December 31, 2006, 2005 and 2004 as follows:

	2006	2005	2004
Pre-tax income	379,914	230,322	158,494
Statutory income tax rate	35%	35%	35%
Income tax expense at statutory income tax rate	132,970	80,613	55,472
Permanent differences at statutory income tax rate			
- Inflation adjustment	32,781	35,908	37,204
- Non-taxable income and non-deductible expenses	(447)	(979)	164
- Variation in deferred tax assets allowance	(144,549)	(101,362)	(88,414)
- Others	1,136	(1,365)	6,140
Income tax expense	21,891	12,815	10,566

TRANSPORTADORA DE GAS DEL SUR S.A.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004**

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

The accumulated tax loss carryforwards on a consolidated basis that are available to offset future taxable income are the following:

Description	Amount	Year of expiration
		2007
Tax loss carryforward 2002 (1)	766,286	
	(449,858)	
Utilization in 2006		
	316,428	
Accumulated tax loss carryforward		

(1) Remainder after the filing of the tax return form for fiscal year 2005.

In assessing the recoverability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become recoverable. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning in making these assessments. The Company is required to continuously evaluate the recoverability of deferred tax assets. This evaluation is based on internal projections made as discussed in Note 2.a), which are routinely updated to reflect more recent trends in the Company's results of operations. Based on the foregoing, the current expiration period of tax loss carryforwards and due to the fact that the Company anticipates sufficient future taxable income over the periods in which the differences which created the deferred income tax assets are deductible, the ultimate realization of the deferred income tax assets for income tax purposes is considered more likely than not. As such, the Company has reversed the valuation allowance previously established against its net deferred tax assets. The Company will continue to monitor the need for a change in the valuation allowance.

As mentioned in Note 2.c), TGS has elected to disclose in note to the consolidated financial statements the deferred tax liability generated by the net book value of the inflation adjustment included in the accounting value of the property, plant and equipment. This deferred tax liability does not constitute an account payable, but it is a liability that will be reversed over the remaining period over which these assets are depreciated. In compliance with Resolution No. 487 of the CNV, TGS advises that, if that liability had been recognized, the deferred tax liability as of December 31, 2006, would have increased in Ps. 724,221, generating a net liability position of Ps. 650,771 and an impact of Ps. 756,935 in the "Adjustment to prior years" account (including a gain of Ps. 33,817 which corresponds to the fiscal year ended December 31, 2005) and a positive effect of Ps. 32,714 on the Company's net income would have been recognized. Additionally, in 2006 and subsequent years, TGS would record a lower income tax expense that would be lower than otherwise by the following amounts:

	Amount
Year 2007	31,772
Year 2008	31,238
Year 2009	30,960
Year 2010	30,666
Year 2011	30,612
Year 2012 onwards	568,973
Total	724,221

m) Asset tax provision

The Company and its subsidiary are subject to the Asset Tax Law ("Impuesto a la Ganancia Mínima Presunta"). The asset tax is calculated on an individual entity basis at the statutory tax rate of 1%, and is based upon the taxable assets of each Argentine entity as of the end of the year. This tax is complementary to income tax and the Company is required to pay the greater of the income tax or the asset tax. Any excess of the asset tax over the income tax may be carried forward and recognized as a payment on account of any excess of income tax over asset tax occurring within the subsequent ten years.

In the opinion of management, it is probable that the Company will utilize such asset against future taxable income charges within the next ten years and, as a result, the Company has recognized the accumulated asset tax charge within "Other non-current receivables" in the accompanying consolidated balance sheet.

This tax credit has been recorded at its nominal value according to what it is mentioned in Note 2.h).

TRANSPORTADORA DE GAS DEL SUR S.A.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004**

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

The breakdown of the asset tax credit as of December 31, 2006 is as follows:

Fiscal year	Amount	Year of expiration
2002	10,395	2012
2003	26,214	2013
2004	23,861	2014
2005	22,680	2015
2006	28,491	2016
Balance at the end of the year	111,641	

n) Allowances and provisions for contingencies

The Company provides for losses relating to its accounts receivable. The allowance for losses is based on management's evaluation of various factors, including the credit risk of customers, historical trends and other information. While management uses the information available to make evaluations, future adjustments to the allowance may be necessary if future economic conditions differ substantially from the assumptions used in making the evaluations. Management has considered all events and/or transactions that are subject to reasonable and normal methods of estimation, and the consolidated financial statements reflect that consideration.

The Company has certain contingent liabilities with respect to existing claims, lawsuits and other proceedings, including those involving legal and regulatory matters. The Company records liabilities when it is probable that future costs will be incurred and such costs can be reasonably estimated. Such accruals are based on developments known by TGS at the date of the issuance of these consolidated financial statements, estimates of the outcome of these matters and the experience of its legal counsel in contesting, litigating and settling other matters. As the scope of the contingent liabilities become better defined, there will be changes in the estimates of future costs, which could have a material effect on the Company's future results of operations and financial condition or liquidity.

Contingencies and allowances are disclosed in Note 9 and Note 13.d).

o) Shareholders' equity accounts

These accounts have been restated to account for the effects of inflation as described in Note 2.b), except for "Common stock nominal value" which is stated at original cost. The adjustment derived from the restatement of such account has been disclosed under the line item "Inflation adjustment to common stock", in the Statement of Changes in Shareholders' Equity.

p) Revenue recognition

Firm transportation revenues are recognized based on the accrued contracted capacity reserved regardless of actual usage. For interruptible transportation services and certain NGL production and commercialization contracts, revenues are recognized upon the delivery of natural gas or gas liquids to customers, respectively. For other NGL production and other services contracts, revenues are recognized when services are rendered.

q) Statement of income accounts

Accounts relating to the statement of income have been restated to reflect the effects of inflation as described in Note 2.b).

-Accounts that accumulate monetary transactions, at their nominal value.

TRANSPORTADORA DE GAS DEL SUR S.A.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

-Expenses related to consumption of non-monetary assets valued at their acquisition cost have been restated to reflect the effects of the inflation as described in Note 2.b).

- (Loss) gain on related companies were determined on the basis of TGS' affiliates' results and were disclosed under "(Loss) gain on related companies".

Other expenses, net for the years ended December 31, 2006, 2005 and 2004, include the following items:

	2006	2005	2004
Insurance liquidation associated with the damage of a facility located at the Cerri Complex	24,722	-	-
Provision for contingencies	(26,115)	(3,490)	(29,246)
Others	662	(2,620)	(4,432)
Total other expense, net	(731)	(6,110)	(33,678)

The breakdown of "Net financial expense" line item for the years ended December 31, 2006, 2005 and 2004 is as follows:

	2006	2005	2004
<i>Generated by assets</i>			
Interest income	30,603	15,363	8,659
Foreign exchange gain	13,390	15,822	32,040
Other financial results, net	1,654	(254)	(5,476)
Total	45,647	30,931	35,223
<i>Generated by liabilities</i>			
Interest expense	(193,674)	(185,458)	(251,297)
Foreign exchange loss	(26,536)	(40,256)	(58,045)
Amortization of intangible assets	-	-	(6,029)
Write off of intangible assets retired (Notes 2.k.)	-	-	(63,530)
Interest expense reversal (Note 12.I.g.)	-	-	96,603
Other expenses and financial charges	(14,480)	(14,289)	(13,860)
Total	(234,690)	(240,003)	(296,158)
Total net financial expense	(189,043)	(209,072)	(260,935)

r) Earnings and dividends per share and per American Depositary Shares ("ADS")

Earnings and dividends per share and per ADS for the years ended December 31, 2006, 2005 and 2004 have been calculated based on 794,495,283 outstanding shares during each year. One ADS represents five Class B shares. As the Company does not have preferred stock or convertible debt, the amount of basic earnings per share is the same as the amount of diluted earnings per share.

3. CONSOLIDATED BUSINESS SEGMENT INFORMATION

Operating segments are defined under Argentine GAAP as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker, or the decision-making group, in deciding how to allocate resources and in assessing performance. The Company's decision-making group is the Executive Officer Committee.

For the years ended December 31, 2006, 2005 and 2004, the Company classifies its businesses into three segments: Natural Gas Transportation Services, NGL Production and Commercialization and Other Services. The operating segments are reviewed separately because each operating segment represents a strategic business unit that generally offers different products, although interrelated, and/or serves different markets.

The Company manages its segments to the operating income (loss) level of reporting.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004**

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

The accounting policies of the operating segments are the same as those described in Note 2.

Assets and liabilities were allocated to each segment based on the specific identification of the assets and liabilities related to the specific business. Assets and liabilities that cannot be allocated to a specific segment were grouped under "Corporate" and include investments and loans, among others.

As of and for the year ended December 31, 2006	Gas Transportation	NGL Production and commercialization	Other services	Corporate	Total
Net revenues	491,996	726,393	91,113	-	1,309,502
Operating income (loss)	211,379	370,836	33,864	(45,949)	570,130
Depreciation of property, plant and equipment	144,401	31,050	13,294	3,908	192,653
Additions to property, plant and equipment (includes work in progress)	119,882	17,719	15,429	3,381	156,411

The Company renders services of gas transportation business principally to gas distribution companies, to Petrobras Energía, to Profertil S.A. ("Profertil") and to Repsol-YPF S.A. ("Repsol-YPF"). Significant customers in terms of net revenues from gas transportation for the years ended December 31, 2006, 2005 and 2004 are as follows:

	Net revenues		
	2006	2005	2004
MetroGAS S.A.	176,474	173,518	171,573
Camuzzi Gas Pampeana S.A.	89,501	83,696	77,914
Gas Natural BAN S.A.	70,042	64,477	60,847
Petrobras Energía (Note 10)	26,635	25,173	25,522
Camuzzi Gas del Sur S.A.	23,915	22,542	19,153
Profertil	11,459	11,577	11,592
Repsol-YPF	27,346	16,853	11,205

TRANSPORTADORA DE GAS DEL SUR S.A.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004**

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

Significant customers in the NGL production and commercialization segment are Petrobras International Finance Company ("PIFC"), a subsidiary of Petrobras Petróleo Brasileiro S.A., and PBB-Polisur S.A. ("Polisur"). Net revenues from these customers (include NGL sales made on behalf of third parties, from which TGS withholds charges for the production and commercialization of NGL) for the fiscal years ended December 31, 2006, 2005 and 2004 are as follows:

	Net revenues		
	2006	2005	2004
PIFC	530,212	383,871	364,535
Polisur	238,188	141,547	132,231

4. SUMMARY OF SIGNIFICANT BALANCE SHEET ITEMS AS OF DECEMBER 31, 2006 AND 2005

	2006	2005
a) Current accounts receivable

(1) Net of the cost of Cordillerano Pipeline expansion which belongs to the Argentine Government. This cost amounted to Ps. 32,418 and Ps. 17,537 as of December 31, 2006 and 2005, respectively (Note 9.d).

5. SUPPLEMENTAL CASH FLOW INFORMATION

For purposes of the consolidated statement of cash flows, the Company considers all highly liquid temporary investments with an original maturity of three months or less at the time of purchase to be cash equivalents. The cash flow statement has been prepared using the indirect method, which requires a series of adjustments to reconcile net income for the year to net cash flows from operating activities.

TRANSPORTADORA DE GAS DEL SUR S.A.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004**

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

The following table reconciles the balances included as cash and banks and current investments in the balance sheet to the total amounts of cash and cash equivalents at the beginning and end of the period shown in the statements of cash flow:

	As of December 31,		
	2006	2005	2004
Cash and banks	6,583	2,418	10,116
Current investments	471,673	510,526	325,777
Current investments with original maturity longer than three months	-	-	(96)
Total cash and cash equivalent	478,256	512,944	335,797

Non-cash transactions are as follows:

	As of December 31,		
	2006	2005	2004
Acquisition of Property, Plant & Equipment through an increase in Accounts payable	36,079	7,337	5,525
Financial charges capitalization	(286)	(1,647)	-

Cash flows resulting from operations include net financial expense generated by cash and cash equivalents as of December 31, 2006, 2005 and 2004 for Ps. 33,405, Ps. 24,808 and Ps. 19,668.

6. LOANS

Short-term and long-term debt as of December 31, 2006 and 2005 comprise the following:

	2006	2005
<i>Current Loans:</i>		
<i>Tranche A:</i>		
2004 Euro medium – term notes (“EMTN”) Program: Series 1 notes	54,381	63,930
Privately placed notes	3,414	9,875
Inter-American Development Bank (“IDB”) loans	30,197	34,835
1999 EMTN Program: Series 2 notes (1)	92	379
Interests payable	8,003	7,510
Leases (rates between 7.65% and 9.00%)	2,976	2,765
Total current loans	99,063	119,294
<i>Non current loans:</i>		
<i>Tranche A</i>		
2004 EMTN Program: Series 1 notes	331,490	625,675
Privately placed notes	20,810	96,995
IDB loans	184,211	341,371
<i>Tranches B-A and B-B</i>		
2004 EMTN Program: Series 1 notes	781,720	774,061
Privately placed notes	121,145	119,958
IDB loans	426,436	422,258
Interests payable	52,060	32,995
Leases (rates between 7.65% and 9.00%), due through 2008	652	3,130
Total non-current loans	1,918,524	2,416,443
Total loans	2,017,587	2,535,737

(1) Corresponds to notes that were not tendered in the exchange.

TRANSPORTADORA DE GAS DEL SUR S.A.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b., except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

Debt corresponding to Tranches A, B-A and B-B was issued in December 2004 to refinance and restructure the terms and conditions of the previous outstanding loans, which payments of principal and interest were suspended in May 2003.

The principal terms of the Company's outstanding debt obligations are as follows:

Description	Tranche A	Tranches B-A and B-B
<i>Principal</i>	US\$ 470,306,281, which represents 52% of the total principal amount.	US\$ 409,044,874 and US\$ 25,083,940, respectively, representing approximately 48% of the principal amount.
<i>Interest</i>	Ranging from an annual rate of 5.3% for the first year to 7.5% in the last year, payable on a quarterly basis.	Ranging from an annual rate of 7% for the first year to 10% in the ninth year, payable on a quarterly basis. The Tranche B-A debt obligations may also accrue additional interest from December 15, 2006 onwards at an incremental annual interest rate ranging from 0.75% to 2%, subject to the level of the Company's consolidated adjusted EBITDA (as defined in the debt obligations) for each applicable fiscal year. The Tranche B-B debt obligations will also accrue additional interest at an incremental annual rate starting at 0.60% in the third year and increasing by 5 basis points (0.05%) annually until such annual rate reaches 0.90% in the last year.
<i>Principal amortization</i>	Amortization quarterly payments commencing on March 15, 2005 until December 15, 2010.	Amortization quarterly payments commencing on March 15, 2011 until December 15, 2013.

The outstanding debt obligations include an accelerated amortization feature, referred to as "early cash surplus amortization", the implementation and amount of which will depend on the Company's consolidated debt ratio (relationship between the Company's consolidated total indebtedness and consolidated adjusted EBITDA of the last four quarters -each as defined in the debt obligations-) for the applicable fiscal period, the liquidity level and the amount of the Company's cash surplus for such applicable fiscal period, as adjusted for certain subsequent payments that the Company makes. The Company is required to determine whether an early amortization amount is payable with respect to each fiscal year or portion thereof, occurring during the period from and including December 15, 2004 to and including December 15, 2010. Early amortization amounts will be calculated and, if applicable, paid to holders of the Company's debt obligations following the applicable reference period. The Company is also required to determine whether an early amortization amount is payable for any semi-annual period occurring during the period set forth above with respect to which the Company makes a dividend payment to the Company's shareholders. The Company may also, in its sole discretion, make an early amortization payment with respect to any fiscal quarter occurring during the period set forth above.

The schedule of future principal amortizations is as follows (subject to early cash surplus amortization):

In millions of Pesos							
	2007	2008	2009	2010	2011	2012	2013
Tranche A	88	144	188	205	-	-	-
Tranches B-A and B-B	-	-	-	-	545	585	199

The notes and privately placed notes in a principal amount of US\$ 531,870,232 and US\$ 82,424,863, respectively, were issued pursuant to the Company's Global Program, which provides for the issuance of notes up to a maximum amount of US\$ 800 million. The creation of the Global Program was approved by the Annual Shareholders' Meeting held on April 2, 2004 and was authorized by the CNV on October 28, 2004. Public trading of notes was authorized by the *Bolsa de Comercio de Buenos Aires* ("BCBA") and the *Mercado Abierto Electrónico* ("MAE").

Covenants:

The Company is subject to several restrictive covenants under its outstanding debt obligations which include, among others, the following:

- The Company may not incur new debt, except for the following, among others:

TRANSPORTADORA DE GAS DEL SUR S.A.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004**

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

- a. Debt for the financing of working capital, including short-term financing or imports/exports financing, provided that the aggregate outstanding amount of this type of debt does not exceed US\$ 25 million.
 - b. Debt for the refinancing of the restructured debt.
 - c. As from December 15, 2007, additional indebtedness provided that at the time of incurring such debt the consolidated debt ratio is lower than 3.50 for any incurrence during the twelve-month period starting as from December 15, 2007. This maximum ratio decreases throughout the subsequent years to reach a minimum of 3.00 in the year 2013.
 - d. Outstanding financial leasing obligations not exceeding US\$ 10 million at any time.
 - e. Debt related to hedging or foreign currency agreements, provided that such agreements are not entered into for speculative purposes and are required to cover or manage the risk the Company is or is expected to be exposed to in the normal course of business.
- ii) The Company may not make capital expenditures, other than the following capital expenditures, among others:
- a. Capital expenditures without restrictions when related to (i) capital expenditures used in emergency unscheduled repairs and maintenance; (ii) capital expenditures to be financed by third parties through advance payments from customers and (iii) capital expenditures to be financed by capital contributions in cash or by the issuance of subordinated debt.
 - b. Capital expenditures incurred in connection with maintenance activities, up to a maximum annual amount of US\$ 26 million in 2004, increasing up to US\$ 58 million in 2010 and subsequent years while the restructured debt remains outstanding. However, if in any fiscal year the total amount of capital expenditures is lower than the specified maximum amounts, the difference may be added to the maximum amount of the subsequent year.
 - c. Capital expenditures not included in a. and b., out of an initial amount of US\$ 75 million which may be increased when early payments of debt principal are made based on cash surplus as at the end of each fiscal year.
 - d. Any capital expenditures without any restriction from December 15, 2008, if the consolidated debt ratio (as defined in the debt obligations) is lower than 3.00.
- iii) The Company may pay dividends as long as (i) the Company is not in default under the debt obligations, (ii) an early cash surplus amortization payment is made and the additional interest payments, if any is required, in respect of the Tranche B debt obligations is made and, (iii) the consolidated coverage ratio at the end of each annual or quarterly financial statement is higher than 2.70 in fiscal year 2005 (this minimum increases annually, rising to 3.00 for fiscal year 2009 and thereafter). The consolidated coverage ratio is the quotient of the consolidated adjusted EBITDA divided by the consolidated interest expense.
- The aggregate amount of management fee and dividends paid shall not exceed US\$ 15 million for fiscal years 2005 and 2006, US\$ 20 million for fiscal year 2007 and US\$ 25 million for fiscal year 2008 and subsequent years, as long as the new debt obligations remain outstanding.
- iv) Restriction on asset sales: TGS may not carry out any asset sales unless (i) the sale involves a non-regulated asset and is carried out as an arms-length transaction, (ii) the price at the transaction date is at least the fair market value of the assets sold and (iii) at least 75% of the payment received by the Company is in cash or cash equivalents. Additionally, the proceeds obtained from non-regulated asset sales must be used to repay the debt obligations of the Company, unless they are reinvested in new assets within a year as from the date of the sale transaction, or the total amount of the sales made during the fiscal year does not exceed US\$ 3 million.

TRANSPORTADORA DE GAS DEL SUR S.A.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

Creation of 2007 Global Program:

The Extraordinary Shareholders' meeting held on December 21, 2006 approved the creation of the 2007 Global Program in order to issue notes in a maximum aggregate amount of US\$ 650,000,000. The 2007 Global Program was authorized by the CNV on January 18, 2007.

7. REGULATORY FRAMEWORK

a) General framework and current tariff context:

The Company's natural gas transportation business is regulated by Law No. 24,076 ("the Natural Gas Act"), its regulatory decree No. 1,738/92 and by regulations issued by ENARGAS, which is entitled, among other things, to set the basis for the calculation, monitoring and approval of tariffs (the "Regulatory Framework"). According to the Regulatory Framework, transportation tariffs were to be calculated in US dollars and converted into Argentine pesos at the time the customer was billed using the exchange rate prevailing at that time. The basic gas transportation tariffs charged by TGS had been established at the time of the privatization of GdE and were to be adjusted, subject to prior authorization, in the following cases: (i) semi-annually to reflect changes in the US producer price index ("PPI") and (ii) every five years according to efficiency and investment factors determined by ENARGAS. The "efficiency factor" is a reduction to the base tariff resulting from future efficiency programs while the "investment factor" increases the tariffs to compensate the licensees for future investments which are not repaid through tariffs. Also, subject to ENARGAS approval, tariffs were to be adjusted to reflect non-recurrent circumstances or tax changes, other than income tax.

The terms and conditions as described in the precedent paragraph in connection with tariff adjustments contemplated within the Regulatory Framework are no longer effective since the enactment of the Public Emergency Law in early 2002 (the "Emergency Law"), which, among other provisions, eliminated tariff increases based on US dollar exchange rate fluctuations, foreign price indexes or any other indexing procedure and established a conversion rate of one peso to one US dollar for tariffs. The Emergency Law also granted the Executive Branch power to renegotiate contracts entered into with private utility companies, pursuant to the framework included in the said law as long as it is in force. The law, which has been extended several times, is schedule to expire in December 31, 2007.

In July 2003, the Unit for Renegotiation and Assessment of Utilities Contracts ("UNIREN") was created under the joint jurisdiction of the Ministry of Economy and Production and the Ministry of Federal Planning, Public Investment and Services. UNIREN conducts the renegotiation process of the contracts related to utilities and public works, and is entitled to enter into total or partial agreements with the licensees and submit projects regulating the transitory adjustment of tariffs and prices, among other things. At the end of 2003, the UNIREN submitted the "Preliminary Renegotiation Guidelines" to TGS including a draft agenda with main issues to be discussed during the renegotiation process such as costs, investment programs and financing, rates of return and tariffs, etc, and a renegotiation schedule which set December 28, 2004 as the deadline for the adjustment of the regulatory framework with the approval of the National Congress.

In July 2004, UNIREN submitted to TGS a proposal for the adjustment of the contractual terms and conditions of the License, which among other things provided for a tariff increase of 10% effective as from 2005 and an overall tariff review to become effective as from 2007, and required TGS's and its shareholders' abandonment of any claim or lawsuit resulting from the effects of the Public Emergency Law on the License prior to the effectiveness of a renegotiation of the License. The proposal also required that TGS hold the Argentine government harmless from any claim or lawsuit filed by its shareholders. As this proposal differed from discussions TGS previously had with UNIREN, the Company rejected it and sought to reach an overall agreement with UNIREN by the end of 2004 (in line with UNIREN's original proposal set forth in the "Preliminary Renegotiation Guidelines") and to carry out the process of obtaining approval from the National Congress during the first semester of 2005.

During the Public Hearing held on April 27, 2005, with the aim of discussing the above mentioned proposal, UNIREN reaffirmed its 10% tariff increase proposal and proposed accelerating the process of the overall tariff revision, so that the resulting tariff adjustments would come into effect during 2006. UNIREN also outlined a first stage that included the

TRANSPORTADORA DE GAS DEL SUR S.A.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

postponement of the potential claims from the Company and its shareholders, prior to a renegotiation of the License, and the subsequent abandonment of any such claims from TGS or its shareholders, and an agreement by TGS to hold harmless the Argentine government. Regarding the original proposal, TGS put forward the need to improve certain items of UNIREN's original proposal and expressed its willingness to continue the negotiation.

In June and November 2005, TGS received two proposals from UNIREN which were in line with the previous one. Said proposals also established, as an additional condition, the Company's and its shareholders' abandonment of any future claim or lawsuit regarding the PPI tariff adjustments which were not applied in 2000 and 2001. TGS responded to the proposals, and declared that the original 10% increase was insufficient and committed not to file any administrative, arbitration or judicial claim or lawsuit in Argentina or abroad, as long as a reasonable renegotiation agreement was reached. Moreover, TGS stated that the Company is determined to make its best efforts to obtain similar commitments from its investors.

In November 2005, in response to the requirement made by the UNIREN, CIESA and Petrobras Energía Holding (as CIESA's shareholder) confirmed that they had not initiated or intended to initiate in the future any claim against the Argentine Republic. Furthermore, Ponderosa Assets L.P. ("Ponderosa") as a controlling company of Enron Pipeline Company Argentina S.A. ("EPCA") and Enron Argentina CIESA Holding S.A. ("EACH") (both TGS's shareholders at that time, and in the case of EPCA, currently CIESA's minority shareholder) informed TGS of a claim which, jointly with Enron Corp., it had initiated against the Argentine Republic before the International Center for the Settlement of Investment Disputes ("ICSID"), and stated that it would only consider waiving its claim if Ponderosa has received fair compensation.

During 2006, the UNIREN made two new proposals to TGS with the same guidelines established in the previous proposals, reflecting no significant progress in the tariff renegotiation process.

The NGL production and commercialization segment is not regulated by the ENARGAS, and as it is provided in the Transfer Agreement, is organized as a separate business unit within the Company, keeping accounting information separately. However, the Federal Energy Bureau regulates the propane and butane sales price for the local market. This organism determines annually a minimum volume of propane and butane to be commercialized in the local market in order to guarantee the domestic supply.

The License establishes, among other restrictions, that the Company may not be able to afford CIESA's obligations, nor grant loans, real guarantees or of any other sort in favor of the creditors of CIESA.

b) Gas Electronic Market ("MEG")

The Executive Branch, through Decree No. 180/04, among other measures, established the creation of the MEG with the purpose of improving the transparency of financial and operating performance, the coordination of daily transactions both of the gas spot and the transportation and distribution secondary markets along with the shaping of efficient prices through offer and demand free interaction. To that purpose, all firm transportation capacity non-allocated for the following day shall be marketed through the MEG and the proceeds from that capacity sale will be used at the Energy Bureau's discretion. Non-allocated capacity includes remaining capacity not used in any of the transportation systems or pipelines. This implies that TGS is bound to offer daily non-allocated capacity that complies with this condition in the MEG, which might have a material impact on the Company's interruptible transportation revenues. Notwithstanding the MEG started its operations in August 2005, it has not started yet to regulate the transactions related to natural gas transportation and distribution.

c) Expansion of the gas transportation system

Due to the lack of expansions of the natural gas transportation system over the last years (as a consequence of the "pesification" of tariffs and the fact that the renegotiation of the license is still pending) and a growing gas demand in certain segments of the Argentine economy, the Argentine Government established - through Executive Branch Decree No. 180/04 and Resolution No. 185/04 issued by the Ministry of Federal Planning, Public Investment and Utilities- the

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

framework for the creation of a trust fund ("the gas trust fund") aimed at financing the expansion of the national gas transportation system.

Within this framework, the first expansion of the San Martín Pipeline ended in August 2005, which increased the transportation capacity by 2.9 MMm³/d (102 MMcf/d). This project involved the construction of approximately 509 km (316 miles) of pipeline and a 30,000 HP compression capacity increase through the construction of a compressor plant and the revamping of some of TGS's existing compressor units. The gas trust fund financed US\$ 311 million from a total amount of US\$ 351 million, while TGS invested approximately US\$ 40 million (including Value Added Tax for US\$ 7 million).

The gas trust fund repays its investment by means of the 20% of the total net revenues generated by the current tariffs and collects an additional specific charge, which is paid by industries, power plants and compressed natural gas suppliers for whom gas transportation supply is made under firm contracts. This charge represents an 81.6% increase in the current tariffs. The works financed by these means belong to the gas trust fund. TGS, as well as being in charge of the management of the works, is responsible for the operation and maintenance of the gas trust assets.

In April 2006, the Ministry of Federal Planning and Public Service, the Federal Energy Bureau and gas transportation companies, among others, signed a Letter of Intent to carry out the second expansion of the gas pipeline system. This new expansion will increase the transportation capacity by 22 MMm³/d (777 MMcf/d), of which approximately 7.0 MMm³/d correspond to TGS system. In December 2006, the gas trust fund contracts and the works management agreement were signed; the latter is in charge of TGS. Under the works management agreement, TGS will be paid Ps. 50 million plus VAT as a fee for the services to be rendered in 2007 and 2008. The property of the works will be entitled to a gas trust fund and the investment would be financed by other gas trust funds, whose trustors are the shippers who subscribed the additional capacity. The works will be repaid with a new tariff charge that will be finally paid by the industries, power plants and large and medium-size businesses.

d) Essential assets:

A substantial portion of the assets transferred by GdE has been labeled as essential for the performance of the gas transportation service. Therefore, the Company is required to segregate and maintain these assets, together with any future improvements, in accordance with certain standards defined in the License.

The Company may not, for any reason, dispose of, encumber, lease, sublease or loan essential assets nor use such assets for purposes other than providing the licensed service without the prior authorization of ENARGAS. Any expansion and improvement that the Company may make to the gas pipeline system after the takeover may only be encumbered to secure loans that have a term of more than one year to finance new expansions and improvements to the licensed service.

Upon expiration of the License, the Company will be required to transfer to the Argentine Government or its designee, the essential assets listed in an updated inventory as of the expiration date, free of any debt, encumbrances or attachments, receiving compensation equal to the lower of the following two amounts:

- i) the net book value of the essential assets determined on the basis of the price paid by the acquiring joint venture, and the original cost of subsequent investments carried in US dollars and adjusted by the PPI, net of accumulated depreciation according to the calculation rules to be determined by ENARGAS; or
- ii) the net proceeds of a new competitive bidding.

TRANSPORTADORA DE GAS DEL SUR S.A.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004**

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

8. COMMON STOCK AND DIVIDENDS

a) Common stock structure and shares' public offer

As of December 31, 2006, 2005 and 2004 the Company's common stock was as follows:

Common Shares Class (Face value \$ 1, 1 vote)	Amount of common stock, subscribed, issued, paid in, and authorized for public offer
Class "A"	405,192,594
Class "B"	389,302,689
	794,495,283

TGS's shares are traded on the BCBA and under the form of the American Depositary Shares (registered in the SEC and representing 5 shares each) on the New York Stock Exchange.

The Company is required to have in force the authorization of the public offer of its common stock and the corresponding authorization to trade in the different official stock markets in Argentina until 2009.

b) Limitation on the transfer of the Company's shares

The Company's by-laws provide that prior approval of ENARGAS and the unanimous approval of CIESA's shareholders, under agreements among them, must be obtained in order to transfer Class "A" shares (representing 51% of common stock). The Bid Package states that approval of ENARGAS will be granted, provided that:

- The sale covers 51% of common stock or, if the proposed transaction is not a sale, the transaction that reduces the shareholding will result in the acquisition of a shareholding of not less than 51% by another investment company; and
- The applicant provides evidence to the effect that the transaction will not impair the operating quality of the licensed service.

In the case of shareholders of CIESA who have qualified to obtain such condition due to the equity, guarantee and/or technical background of their respective parent companies, the sale of shares representing the capital of such subsidiaries by the respective ultimate, direct or indirect parent companies, and/or the cessation of management running the Company, requires the prior authorization of ENARGAS.

In case the Company wishes to reduce its capital, redeem its shares or distribute any part of its equity, except for the payment of dividends, in accordance with the provisions of the Argentine Business Associations Law, it must obtain prior authorization from ENARGAS.

c) Restrictions on distribution of retained earnings

Under current Argentine legal requirements and CNV standards, 5% of each fiscal year net income must be appropriated into a legal reserve, provided that there is no unappropriated retained deficit. In such case, the 5% should be calculated on any excess of the net income over the unappropriated retained deficit. This appropriation is legally binding until such reserve equals 20% of the amount which results from the sum of the "Common stock nominal value" and the balance of "Cumulative inflation adjustment to common stock".

In addition, the by-laws provide for the issuance of Profit Sharing Vouchers, as defined in Article 230 of the Argentine Business Associations Law, which Vouchers entitle all regular employees to share in 0.25% of the Company's net income for each year.

TRANSPORTADORA DE GAS DEL SUR S.A.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

According to law No. 25,063, the dividends paid in cash or in kind, in excess of the tax revenues, will be subject to a 35% withholding tax of the income tax.

Furthermore, the Company is subject to certain restrictions on the payment of dividends, which were contemplated in the new debt agreements signed on December 15, 2004. (For further information, see Note 6- Covenants).

9. LEGAL AND REGULATORY MATTERS

- a) In the framework of the Tax Agreement subscribed by the Argentine Government and the Provinces in 1993, and as from the enactment of provincial Law No. 11,490, NGL sales were exempted from the turnover tax exemption in the province of Buenos Aires. In September 2003, the Tax Bureau of the Province of Buenos Aires, through overruling Resolution No. 4,560/03, denied the exemption and claimed unpaid taxes on accrued NGL sales as from 2002. In October 2003, the Company filed an administrative appeal with the Tax Court of the Province of Buenos Aires, which is still pending as of the date of the issuance of these financial statements.

In November 2004, TGS received a hearing from the Tax Bureau of the province of Buenos Aires starting thus a tax assessment process regarding the claim mentioned above. On September 26, 2005, TGS was notified of the results of the tax assessment process regarding the turnover tax for the period January 2002 - July 2003, which amounted to Ps. 4.4 million plus interest. On October 18, 2005, TGS presented the corresponding discharge on its belief that the NGL sales activity was conducted under the tax exemption regime discussed above. On April 12, 2006 the discharge was rejected and therefore, the Company filed the corresponding appeal with the Tax Bureau of this province.

As of December 31, 2006, TGS recorded a provision of Ps. 28.6 million to cover for potential losses.

- b) In February 2005, the Company was served notice by the CNV that certain notes issued in December 2004 by US\$178 million did not fulfil the requirements provided by Article 56 of Chapter VI of the CNV Standards and in Resolution No. 470. Therefore, if CNV's interpretation prospers, those notes would not be entitled to the benefits of the tax exemption provided by the law N° 23,576, thus the Company would be exposed to a contingency due to the payment of the withholding income tax on interest payments.

On February 18, 2005, TGS filed an appeal with the CNV, alleging sufficient grounds to support the applicability of Article 56, Chapter VI of CNV Standards and Resolution N°470/04. However, the CNV denied the Company's appeal and on July 8, 2005, TGS filed an appeal with the Ministry of Economy and Production which was subsequently rejected in November 2006. In December 2006, TGS filed a second appeal with said Ministry seeking reconsideration of the rejection.

As of December 31, 2006, the amount of this contingency ranges between US\$ 5 million and US\$ 14 million (including interests as of this date), depending on the applicable withholding tax rates determined on payments of interest by Argentine obligors, by the country of residence of the note holders at the date of each interest payment. The Company does not have available information that permits the identification of the country of residence of each note holder on each interest payment date.

The Company believes that it has sufficient grounds and other legal instances to defend its position and thus, as of December 31, 2006, TGS has not recorded any provision in this connection.

- c) In November 2002, the Tax Bureau of the province of Santa Cruz sent TGS a formal assessment notice for the payment of the turnover tax calculated on the natural gas price used by TGS as fuel to render its transportation services. Said assessment corresponds to the fiscal period ranging from January 1998 to October 2002. In August 2005, the Company paid the amount claimed of Ps. 1.6 million (including interests until December 4, 2002) and started a tax recovery process with the Tax Court of the province of Santa Cruz, after exhausting all other procedural steps with the Tax Bureau of this province.

In November 2005, TGS received a notice from the Tax Bureau of the province of Río Negro, by means of which said body claimed the payment of Ps. 0.2 million on the same grounds as those of the Province of Santa Cruz, for the period

TRANSPORTADORA DE GAS DEL SUR S.A.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

ranging from January 1999 to May 2005. In December 2005, TGS filed an appeal, which was rejected by the Tax Bureau of the province of Río Negro later in October 2006. By the end of 2006, TGS appealed the Tax Bureau's decision by filing an administrative appeal.

As of December 31, 2006, the Company has recorded a provision of Ps. 16.2 million under the line item "Other Liabilities", determined according with the estimations of tax and interests to be paid as of such date, in case this type of contingency turns out unfavourable to the Company.

The Company's management believes that, in case the Company's position fails and the turnover tax has to be paid, TGS has a right to recover it by a transportation tariff increase as set forth in the License.

- d) In 1996, GdE filed a legal action against the Company for the reimbursement for the cost of construction of two compressor plants. After a long litigation process, in 2003, the SCJ sustained GdE's claim and sentenced TGS to pay the market price of the compressor plants at the date of the addition to TGS assets plus interest and litigation expenses. As of December 31, 2006, the remaining balance of the sentence amounted to Ps. 43.9 million.

On January 14, 2004, TGS signed an agreement with the UNIREN, which was subsequently ratified by the Executive Branch through the Decree No. 959/04 through which TGS will carry out the expansion of the Cordillerano Pipeline. The cost of the expansion will be taken as a payment on account of the final amount to be paid as a consequence of the outcome of the lawsuit described above. The Argentine Government owns such assets and granted their right of use to TGS, who will have to operate and maintain such assets. Therefore, the cost of the works was recorded under "Other Liabilities", offsetting the provision mentioned above. As of December 31, 2006, the net provision amounted to Ps. 11.5 million.

- e) In addition to the matters discussed above, the Company is a party to certain lawsuits and administrative proceedings arising in the ordinary course of business.

10. BALANCES AND TRANSACTIONS WITH RELATED COMPANIES

TGS sells propane, butane, and natural gasoline to PIFCO (a subsidiary of Petrobras), at international prices minus a fixed discount per tone.

Petrobras Energía is TGS's technical operator, according to the approval of ENARGAS in June, 2004 and subject to the terms and conditions of the Technical Assistance Agreement which provides that Petrobras is in charge of providing services related to the operation and maintenance of the gas transportation system and related facilities and equipment, to ensure that the performance of the system is in conformity with international standards and in compliance with certain environmental standards. For these services, the Company pays a monthly fee based on a percentage of the operating income of the Company.

As of December 31, 2006 and 2005, the outstanding balance corresponding to the Board of Directors' compensations amounted to Ps. 97 and Ps. 96, respectively. On the other hand, the accrued amounts for such compensations were Ps. 395 and Ps. 261, respectively.

11. SUBSIDIARY AND AFFILIATES

Telcosur:

The corporate purpose of Telcosur is to render telecommunication services. Telcosur was created to assure the optimal utilization of TGS's telecommunication system. TGS's equity interest in the company is 99.98% and the remaining 0.02% is held by Petrobras Energía Internacional S.A.

TRANSPORTADORA DE GAS DEL SUR S.A.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

Link:

Link was created in February 2001, with the purpose of the operation of a natural gas transportation system, which links TGS's gas transportation system with Cruz del Sur S.A. pipeline. The connection pipeline extends from Buchanan, located in the high-pressure ring that surrounds the city of Buenos Aires, which is part of TGS's pipeline system, to Punta Lara. TGS's ownership interest in such company is 49% and Dinarel S.A. holds the remaining 51%.

TGU:

TGU is a company incorporated in Uruguay. This company renders operation and maintenance services to Gasoducto Cruz del Sur S.A. pipeline in the Uruguayan pipeline tranche. TGS holds the 49% of its common stock.

EGS:

In September 2003, EGS, a company registered in Argentina, was incorporated. The ownership is distributed between TGS (49%) and TGU (51%). EGS operates its own pipeline which connects TGS's main pipeline system in the Province of Santa Cruz with a delivery point on the border with Chile.

Transportadora de Gás e Serviços do Brasil S.A.:

In January 2007, TGS and TGU entrusted their legal attorneys in Brazil the incorporation of a Brazilian company with the aim to set up new businesses in this country. At the date of the issuance of these financial statements, its shareholders have made no capital contributions to this subsidiary. The corporate name is Transportadora de Gás e Serviços do Brasil S.A.

12. DIFFERENCES BETWEEN ARGENTINE GAAP AND US GAAP

The accompanying consolidated financial statements have been prepared in accordance with Argentine GAAP, which differ in certain significant respects from US GAAP. Such differences involve methods of measuring the amounts shown in the consolidated financial statements, as well as additional disclosures required by US GAAP and Regulation S-X of the SEC.

I. Differences in measurement methods

The following reconciliation to US GAAP does not include an elimination of the adjustments to the consolidated financial statements to account for the effects of inflation required under Argentine TR No. 6, (as amended by TR No. 19), as permitted by Regulation S-X of the SEC.

TRANSPORTADORA DE GAS DEL SUR S.A.

TRANSPORTADORA DE GAS DEL SUR S.A.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

a) Capitalization of interest cost

Under Argentine GAAP, the Company capitalized financial costs comprising of interest and exchange differences amounting to Ps. 2,622 and Ps. 6,294 for the years ended December 31, 2006 and 2005, respectively. The Company did not capitalize any financial costs for the year ended December 31, 2004.

Under US GAAP, the Company applied the provisions of Statement of Financial Accounting Standards No. 34, "Capitalization of Interest Cost" (SFAS No. 34), which requires interest capitalization on assets which have a period of time to get them ready for their intended use. Capitalization of foreign exchange differences is not allowed under SFAS No. 34.

The US GAAP reconciling item represents the net effect of (i) reversing the total financial costs capitalized under Argentine GAAP net of its corresponding accumulated depreciation (Ps. 8,320 and Ps. 6,047 for the years ended December 31, 2006 and 2005, respectively) and (ii) computing interest capitalization in accordance with SFAS No. 34, net of its corresponding accumulated depreciation (Ps. 18,188 and Ps. 16,340 for the years ended December 31, 2006 and 2005, respectively).

b) Intangible assets

Under Argentine GAAP, the Company capitalized cancellation costs of assumed commitments, organization and pre-operating costs (including costs associated with voluntary retirement programs) incurred in the start-up of the Company. These costs were being amortized under the straight-line basis over 35 years until December 31, 2000. As from January 1, 2001, the unamortized deferred costs were amortized under the straight-line basis over a 5-year period. Consequently, as of December 31, 2005, these costs were fully amortized. Under US GAAP, these costs were expensed as incurred.

Additionally, as described in Note 12.g), under Argentine GAAP until December 15, 2004, the Company capitalized the costs incurred associated with the restructuring. As mentioned in Note 6, on December 15, 2004, the Company completed the restructuring process of its financial indebtedness. Under Argentine GAAP, the Company charged to expense the carrying amount of the capitalized settlement cost of hedges related to the restructured existing debt obligations and the capitalized costs incurred during the years 2003 and 2004 related to the restructuring process. Under US GAAP, the Company applied the provisions contained in Statement of Financial Accounting Standards No. 15 "Accounting by Debtors and Creditors for Troubled Debt Restructurings" ("SFAS No. 15"), which states that legal fees and other direct costs that a debtor incurs to effect a troubled debt restructuring shall be deducted in measuring gain on restructuring of payables or shall be included in expense for the period if no gain on restructuring is recognized. Accordingly, these costs were expensed as incurred.

Finally, under AR GAAP, arrangement costs for the issuance of debt associated with Global Programs and debt issuance costs were capitalized when they were incurred, and were charged to expense in the year ended December 31, 2004 as a consequence of the TGS's financing debt restructuring. Under US GAAP, these unamortized costs as of December 15, 2004 are being amortized during the term of the restructured debt, following the provisions contained in SFAS No. 15.

c) Deferred income tax

During the years ended December 31, 2006, 2005 and 2004, under Argentine GAAP, the Company has calculated income taxes using the deferred tax method, which requires the recognition of the tax consequences of temporary differences between the financial statement carrying amounts and the tax basis of existing assets and liabilities. This standard is similar to the principles of US GAAP set forth in Statement of Financial Accounting Standards ("SFAS") No. 109, "Accounting for Income Taxes".

However, under Argentine GAAP, the Company has treated the differences between the price-level restated amounts of assets and liabilities and their historical basis as permanent differences for deferred income tax calculation purposes in accordance with Resolution MD No.11/2003 issued by the CPCECABA. Under US GAAP, the Company applies EITF 93-9, "Application of FASB Statement No.109 in Foreign Financial Statements Restated for General Price-Level Changes", which requires such differences to be treated as temporary differences in calculating deferred income taxes.

TRANSPORTADORA DE GAS DEL SUR S.A.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004**

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

As discussed in note 2 c), effective January 1, 2006 the Company applied the new accounting standards issued by the CPCECABA and adopted by the CNV. The new standards provide for the accounting treatment of differences between the tax basis and book basis of non-monetary items for deferred income tax calculation purposes when companies prepare price-level restated financial statements. The new accounting mandates companies to treat these differences as temporary differences. However, the standard allows a one-time accommodation to continue treating the differences between the tax basis and indexed book basis of non-monetary items as permanent at the time of adoption of the standard. As such, the Company elected to continue treating differences as permanent.

In addition, the US GAAP adjustment includes the effect on deferred income taxes of the reconciling items, as appropriate.

d) Non-current investments in unconsolidated affiliated companies

The Company has assessed the impact of US GAAP adjustments for its equity investees. As a consequence of this assessment, the Company recognized a net gain of Ps. 0.2 million, Ps. nil and Ps. nil for the years ended December 31, 2006, 2005 and 2004, respectively. This adjustment relates to the reversal, under US GAAP, of capitalized exchange differences and the discount of certain receivables, as well as the application of SFAS No.109 for the recognition of income taxes.

e) Capitalized exchange differences

As discussed in Note 2.j), under Argentine GAAP, the Company capitalized the exchange loss derived from the devaluation of the peso as from January 6, 2002 to July 28, 2003, amounting to Ps. 177.3 million. The amortization expense amounted to Ps. 7.5 million for each year ended December 31, 2006, 2005 and 2004. Under US GAAP, such exchange loss was charged to income.

f) Discounted value of certain receivables

Argentine GAAP requires that long term receivables and liabilities (except for deferred tax assets and liabilities and asset tax credit) be valued based on the best estimate of the discounted value of amounts expected to be collected or paid, as applicable. Accordingly, the Company recorded adjustments for Ps. 2.0 million and Ps. 2.1 million in fiscal years 2005 and 2004, respectively, over the nominal value of long term tax credits. Those adjustments were reversed for US GAAP purposes. In fiscal year 2006, under Argentine GAAP, the asset tax credit discount was reversed, in accordance with an accounting rule interpretation issued in 2006.

g) Troubled debt restructuring

As mentioned in Note 6, on December 15, 2004, TGS concluded its debt restructuring process. Under Argentine GAAP the Company followed the provisions contained in TR No. 17 and, accordingly, recorded a Ps. 76.5 million gain on restructuring due to the forgiveness of default interest and a Ps. 20.1 million gain related to a decrease in interest rates applied retroactively as from January 1, 2004. In addition, the unamortized arrangement costs for the issuance of debt associated with Global Programs and debt issuance costs as of December 15, 2004 (amounted to Ps. 5.7 million) were expensed to statement of income, as well as the unamortized losses related to interest rate lock agreement as of this date (Ps. 8.3 million).

Under US GAAP, the Company followed the provisions contained in Statement of Financial Accounting Standards No. 15 "Accounting by Debtors and Creditors for Troubled Debt Restructurings ("SFAS 15") which states that in the case of a troubled debt restructuring (as this term is defined by SFAS No. 15) involving a cash payment and a modification of terms, a debtor shall reduce the carrying amount of the payable by the total fair value of the assets transferred and no gain on restructuring of payables shall be recognized unless the remaining carrying amount of the payable exceeds the total future cash payments (including amounts contingently payable) specified by the terms of the debt remaining unsettled after the restructuring. Future interest expense, if any, shall be determined by applying the interest rate that equates the present value of the future cash payments specified by the new terms (excluding amounts contingently payable) with the

TRANSPORTADORA DE GAS DEL SUR S.A.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

carrying amount of the payable. Based on the above, as of December 31, 2004, no gain and loss on restructuring had been recorded by the Company under US GAAP. In addition, the remaining balance in accumulated other comprehensive loss related to interest rate lock agreement continues being amortized as an adjustment to interest expensed during the term of the restructured debt.

h) Accounting for current investments

As of December 31, 2005, the Company had government bonds which were sold in 2006. Under Argentine GAAP, these investments were valued at fair value with unrealized losses of Ps. 1.4 million charged to income.

Under US GAAP, the Company classified these investments as available-for-sale and valued them at market value with unrealized losses recorded in accumulated other comprehensive loss, in accordance with Statement of Financial Accounting Standards No. 115 "Accounting for Certain Investments in Debt and Equity Securities" ("SFAS No. 115"). In 2006, the unrealized losses as of December 31, 2005, were expensed.

Investments in private bonds and fixed-term deposits in local and foreign currency have been treated as cash and cash equivalents for both Argentine GAAP and US GAAP purposes because their maturity is less than three months.

The Company has classified its mutual funds investments as trading securities and are reported at fair value.

h) Valuation of property, plant and equipment

Under Argentine GAAP, assets transferred through the privatization of GdE were valued as described in Note 2.j). Under US GAAP, Accounting Principles Board Opinion No. 16 "Business Combinations" provides guidance for the valuation of property, plant and equipment in connection with an acquisition. As CIESA acquired 70% of the common stock of TGS, the fixed assets transferred should have been valued at the price effectively paid for that 70%, plus the inflation adjusted historical cost carried by GdE for the remaining 30%. The condition of GdE's books and records, specifically that no separate financial statements or financial information was kept with respect to transportation operations or the operation of assets transferred to TGS, and the unavailability of any 1992 GdE financial information made it impossible to determine historical cost. TGS' management believes, based on information maintained by the Argentine government Public Notary, that the fair value of the transferred assets recorded on its books was significantly below the 1991 GdE historical book values brought forward to 1992 and restated in constant Argentine pesos at the Transfer Date. Therefore, no adjustment has been recorded in the US GAAP reconciliation related to the valuation of property, plant and equipment.

In accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", the Company periodically evaluates the carrying value of its long-lived assets for impairment. The carrying value of a long-lived asset is considered impaired by the Company when the expected undiscounted cash flows from such asset is separately identifiable and less than its carrying value. In that event, a loss would be recognized based on the amount by which the carrying value exceeds the fair market value of the long-lived asset. Fair market value is determined primarily using the anticipated cash flows discounted at a rate commensurate with the risk involved or based on independent appraisals. No impairment losses have been recognized for any of the periods presented.

i) Severance indemnities

As prescribed by Argentine law, the Company is required to pay a minimum severance indemnity based on the employee's years of service when an employee is dismissed involuntarily without proper cause. Under US GAAP, SFAS No. 112, "Employers' Accounting for Postemployment Benefits", and SFAS No. 43, "Accounting for Compensated Absences", require the accrual of severance costs if they relate to services already rendered, are related to rights that accumulate or vest, are probable of payment and reasonably estimable. While the Company might make severance payments in the future, it is impossible to estimate the number of employees, if any, that would be dismissed without proper cause in the future, and accordingly the Company has not recorded such liability. Accordingly, no adjustment has been made in the US GAAP reconciliation. Under Argentine GAAP, the Company expenses severance indemnities incurred in the normal course of business when paid.

TRANSPORTADORA DE GAS DEL SUR S.A.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004**

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

II. Additional disclosure requirements

a) Balance sheet classification differences:

Under Argentine GAAP, in accordance with the provisions contained in TR No. 9, net deferred tax assets (liabilities) are to be classified as non-current assets (liabilities). Under US GAAP, the Company applied the provisions contained in SFAS No. 109, which states that in a classified statement of financial position, an enterprise shall separate deferred tax liabilities and assets into a current amount and a non-current amount. Deferred tax liabilities and assets shall be classified as current or non-current based on the classification of the related asset or liability for financial reporting.

b) Statement of income classification differences:

Argentine GAAP provides that only returns and other allowances should be deducted from net revenues, while direct taxes and other costs directly associated with revenues should be presented as operating costs, i.e. gross revenue taxes. Under US GAAP, direct taxes and other costs directly associated with revenues should be deducted from revenues.

c) Comprehensive income:

On July 1, 1998, the Company adopted Statement of Financial Accounting Standards No. 130 ("SFAS No. 130"), "Reporting Comprehensive Income". SFAS No. 130 establishes guidelines for the reporting and display of comprehensive income and its components in a full set of general-purpose financial statements. Comprehensive income represents the change in shareholders' equity of the Company during the period from transactions and other events and circumstances from non-owner sources. It includes all changes in equity during a period except those resulting from investments by owners and distributions to owners. The adoption of SFAS No. 130 had no impact on total shareholders' equity.

The following table summarizes the components of comprehensive loss for the years ended December 31, 2006, 2005 and 2004:

	2006	2005	2004
Net income under US GAAP	405,582	270,620	151,634
Other comprehensive income:			
Amortization of costs on interest rate lock agreements accounted for as cash flow hedges (net of income taxes of Ps. 666, Ps. 362 and Ps. 969 at December 31, 2006, 2005 and 2004, respectively)	1,237	673	1,802
Unrealized gains and losses – Available for sale securities - (net of income taxes of Ps. 493 and Ps. 493 at December 31, 2006 and 2005 respectively)	916	(916)	-
Comprehensive income	407,735	270,377	153,436

Accumulated other comprehensive loss at December 31, 2006, 2005 and 2004, was as follows:

	2006	2005	2004
Deferred costs on interest rate lock agreements accounted for as cash flow hedges	(3,459)	(4,696)	(5,369)
Unrealized gains and losses - Available for sale securities -	-	(916)	-
Accumulated other comprehensive loss	(3,459)	(5,612)	(5,369)

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

d) Separate presentation of Shareholders' equity components:

The following table presents the shareholder's equity components under US GAAP.

	Year ended December 31,		
	2006	2005	2004
Common Stock - Class "A" 405,192,594 shares issued and outstanding, Ps.1 par value	405,192	405,192	405,192
Common Stock - Class "B" 389,302,689 shares issued and outstanding, Ps.1 par value.	389,303	389,303	389,303
Total Common Stock	794,495	794,495	794,495
Cumulative inflation adjustment to common stock	1,145,012	1,145,012	1,145,012
Legal Reserve	165,321	154,446	148,517
Accumulated deficit	(165,871)	(560,578)	(825,269)
Accumulated other comprehensive loss	(3,459)	(5,612)	(5,369)
Shareholders' equity under US GAAP	1,935,498	1,527,763	1,257,386

e) Deferred income taxes:

The components of the net deferred tax liability under US GAAP as of December 31, 2006 and 2005, are the following:

	2006	2005
Deferred tax assets		
Exchange differences (i)	-	29,001
Allowance for doubtful accounts	98	98
Provisions for contingencies and others	23,766	11,259
Other provisions	835	848
Accrued interest from loans	18,221	11,548
Vacation allowance	1,532	1,382
Deferred income for troubled debt restructuring and long term debt valuation	21,594	29,315
Tax loss carryforwards (ii)	110,750	269,434
Valuation allowance	-	(144,549)
Foreign exchange loss generated by current investments	651	-
	177,447	208,336
Deferred tax liabilities		
Property, plant and equipment, net	760,746	793,415
Intangible assets	1,281	1,739
Deferred revenues	744	800
Foreign exchange gain generated by current investments	-	1,198
	762,771	797,152
Net deferred tax liability	(585,324)	(588,816)

(i) The Company recognized a deferred tax asset for the net negative results caused by the devaluation of the Argentine peso that will be deductible for income tax purposes between 2005 and 2006.

(ii) Tax loss carryforwards are available to offset future taxable income and expire in 2007.

As of December 31, 2006 and 2005, Ps. 119,536 and Ps. 102,406, respectively, have been classified as current assets, and Ps. 762,751 and Ps. 691,222, respectively, have been classified as non-current liabilities.

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

Income tax expense for the years ended December 31, 2006, 2005 and 2004 consist of the following:

	2006	2005	2004
Current income tax expense	1,714	611	309
Deferred income tax benefit	(4,651)	(14,356)	(44,937)
Income tax benefit	(2,937)	(13,745)	(44,628)

Income tax benefit computed at the statutory tax rate (35%) on pre-tax income differs from the income tax benefit for the years ended December 31, 2006, 2005 and 2004 computed in accordance with US GAAP as follows:

	2006	2005	2004
Income tax expense at statutory tax rate on pre-tax income in accordance with US GAAP	140,926	89,906	37,452
Permanent differences:			
Change in valuation allowance	(144,549)	(101,362)	(88,414)
Others, not individually significant	686	(2,289)	6,334
Income tax benefit	(2,937)	(13,745)	(44,628)

f) Summarized financial information under US GAAP

Presented below is the summarized consolidated balance sheet and consolidated statement of income information of the Company as of and for the years ended December 31, 2006 and 2005, prepared in accordance with US GAAP, giving effect to differences in measurement methods and disclosures as previously discussed.

	As of December 31, 2006	As of December 31, 2005
Current assets	831,378	822,668
Non-current assets	4,285,701	4,253,196
Total assets	5,117,079	5,075,864

g) Disclosure about fair value of financial instruments

Statement of Financial Accounting Standards No. 107 ("SFAS No. 107"), "Disclosures About Fair Value of Financial Instruments", requires disclosure of fair value information about financial instruments whether or not recognized in the balance sheet, for which it is practicable to estimate fair value. Financial instruments include such items as cash and cash equivalents and accounts receivable and other instruments. SFAS No. 107 excludes from its disclosure requirements certain significant assets and liabilities that are not considered to be financial instruments. SFAS No. 133, which is effective January 1, 2001, amends SFAS No. 107 to include within the scope of such statement certain disclosure requirements regarding credit risk concentrations.

Fair value estimates are made as of a specific point in time based on the characteristics of the financial instruments and the relevant market information. When available, quoted market prices are used. In other cases, fair values are based on estimates using other valuation techniques, such as discounting estimated future cash flows using a rate commensurate with the risks involved or other acceptable methods. These techniques involve uncertainties and are significantly affected by the assumptions used and the judgements made regarding risk characteristics of various financial instruments, prepayments, discount rates, estimates of future cash flows, future expected loss experience, and other factors. Changes in assumptions could significantly affect these estimates. Derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases, could not be realized in an immediate sale of the instrument. Also, because of differences in methodologies and assumptions used to estimate fair value, the Company's fair values should not be compared to those of other companies.

Under SFAS No. 107, fair value estimates are based on existing financial instruments without attempting to estimate the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments. Accordingly, the aggregate fair value amount presented does not represent the underlying value of the Company. For certain assets and liabilities, the information required under the SFAS No. 107 is supplemental with additional information relevant to an understanding of the fair value.

As of December 31, 2006 and 2005, the carrying amount of certain financial instruments used by the Company including cash, cash equivalents, receivables, payables and short term loans are representative of fair value because of the short-term nature of these instruments. The estimated fair value of other non-current assets does not differ significantly from the carrying amount. The estimated fair value of long-term debt is based on their quoted market prices.

TRANSPORTADORA DE GAS DEL SUR S.A.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004**

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

The following table reflects the carrying amount and estimated fair value of the Company's financial debt at December 31, 2006 and 2005:

	2006		2005	
	Carrying amount	Fair value	Carrying amount	Fair value
	(in million of Pesos)			
Tranche A	636	621	1,192	1,124
Tranche B-A	1,298	1,288	1,260	1,206
Tranche B-B	79	79	78	74

h) Disclosure of capital lease information

The Company leases telecommunication equipment under capital lease agreements with a lease term of 60 months. Following is a summary of the assets under capital leases:

	As of December 31, 2006
Original cost	23,152
Less:	
Accumulated depreciation	(12,168)
Net leased property	10,984

Future minimum lease payments for the above assets under capital leases as of December 31, 2006 are as follows:

	As of December 31, 2006
2007	3,110
2008	718
Total minimum obligations	3,828
Interest	(200)
Present value of minimum obligations	3,628
Current portion	(2,976)
Non-current portion as of December 31, 2006	652

i) Earnings per share

In accordance with the disclosure requirements established by Argentine GAAP, the Company is required to disclose earnings per share information for each year for which a statement of income is presented. However, the information disclosed by the Company in its primary financial statements derives from figures calculated in accordance with the valuation criteria established by Argentine GAAP. Under US GAAP, basic and diluted earnings per share are presented in conformity with Statement of Financial Accounting Standards No. 128 "Earnings per Share" ("SFAS No. 128") for all periods presented.

Basic earnings per share is computed by dividing the net income available to common shareholders for the period by the weighted average shares of common stock outstanding during the period. Diluted net income per share is computed by dividing the net income for the period by the weighted average number of common and dilutive potential common shares outstanding during the period. Pursuant to SAB No. 98, ordinary shares and convertible preferred shares issued or granted for nominal consideration prior to the anticipated effective date of an initial public offering must be included in the calculation of basic and diluted net income per share as if they had been outstanding for all periods presented. To date, the Company has not had any issuance or grants for nominal consideration.

Since the Company has no dilutive potential common stock outstanding, there are no dilutive earnings per share amounts as described in SFAS No. 128.

TRANSPORTADORA DE GAS DEL SUR S.A.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004**

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

j) Statement of cash flows classification differences

The statements of cash flows presented in the primary financial statements are prepared based on Argentine GAAP amounts.

Under Argentine GAAP, the Company considers all short-term, highly liquid investments that are readily convertible to known amounts of cash and with original maturities of three months or less to be cash equivalents. Under Argentine GAAP, mutual funds are considered to be cash equivalents since original maturity is determined by reference to the frequency with which liquidity is available according to current Argentine GAAP guidance and practice. However, under SFAS No. 95 "Statement of Cash Flows", the original maturity is determined by reference to the stated term of the security or the timeframe for exercising any put features to the issuer, not by reference to the frequency with which liquidity may be available through an auction, a put feature to a third party, or otherwise.

As a result, differences exist between the total amount of the increase or decrease in cash and cash equivalents reported in the primary financial statements and the same totals that would be reported in a statement of cash flows prepared based on US GAAP amounts.

Under US GAAP, the total amounts of cash and cash equivalents at the beginning and end of the years shown in the statement of cash flows are required to be the same amounts as similarly titled line items shown in the balance sheets as of those dates. The following tables set forth the amounts of cash and cash equivalents at the beginning and end of each year and corresponding increases and/or decreases that would be reported in a statement of cash flows prepared in accordance with US GAAP:

	For the year ended December 31,		
	2006	2005	2004
Cash and banks	6,583	2,418	10,116
Current investments	471,673	510,526	325,777
Less:			
Mutual funds and other current investments	(230,425)	(153,709)	(316,345)
Cash and cash equivalents at the end of the year under US GAAP	247,831	359,235	19,548

	Years ended December 31,		
	2006	2005	2004
(Decrease) Increase in cash and cash equivalents under US GAAP	(111,404)	339,687	1,294
Cash and cash equivalents at the beginning of the year	359,235	19,548	18,254
Cash and cash equivalents at the end of the year	247,831	359,235	19,548

In addition, differences exist between cash flows from operating, investing and financing activities reported in the primary financial statements and the cash flows from operating, investing and financing activities that would be reported under SFAS No. 95.

Under Argentine GAAP, advance payments from customers were reported as financing activities whereas these transactions would be classified as cash flows from operating activities for US GAAP purposes. Additionally, due to the difference in the definition of cash and cash equivalents, cash flows from purchasing and selling of mutual funds and other current investments would be reported as cash flows from operating and investing activities, respectively, under US GAAP.

In addition, under Argentine GAAP the effect of inflation and exchange rate changes on cash and cash equivalents were not disclosed by presenting a fourth cash flow statement category as required by US GAAP.

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

The following tables set forth the condensed statements of cash flows prepared in accordance with US GAAP:

	For the year ended December 31,		
	2006	2005	2004
Cash flows provided by operating activities	568,830	756,780	445,346
Cash flows used in investing activities	(117,057)	(175,212)	(94,445)
Cash flows used in financing activities	(562,309)	(254,961)	(362,733)
Effect of exchange rate changes on cash and cash equivalents	(868)	13,080	13,126
(Decrease) / increase in cash and cash equivalents	(111,404)	339,687	1,294
Cash and cash equivalents at the beginning of year	359,235	19,548	18,254
Cash and cash equivalents at year end	247,831	359,235	19,548

k) Capitalization of interest cost

Details regarding the amount of the total interest and the effect of capitalized interest for the years ended December 31, 2006, 2005 and 2004 are as follows:

	December 31,		
	2006	2005	2004
Total interest under US GAAP	177,448	180,469	251,297
- Capitalized interest under US GAAP	(2,561)	(3,392)	(1,886)
Total Interest charged to net income under US GAAP	174,887	177,077	249,411

l) Accounting pronouncements issued but not yet adopted

1. Fair Value Measurements

In September 2006, the FASB issued SFAS No. 157 "Fair value measurements" establishing a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, the Board having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. In developing this Statement, the Board considered the need for increased consistency and comparability in fair value measurements and for expanded disclosures about fair value measurements. The changes to current practice resulting from the application of this Statement relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. A single definition of fair value, together with a framework for measuring fair value, should result in increased consistency and comparability in fair value measurements. The expanded disclosures about the use of fair value to measure assets and liabilities should provide users of financial statements with better information about the extent to which fair value is used to measure recognized assets and liabilities, the inputs used to develop the measurements, and the effect of certain of the measurements on earnings (or changes in net assets) for the period. This Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company will be evaluating the impact of SFAS No. 157.

2. Accounting for Uncertainty in Income taxes

In July 2006, the FASB issued FIN No. 48 "Accounting for Uncertainty in Income taxes" to clarify the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, Accounting for Income Taxes. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The evaluation of a tax position in accordance with this Interpretation is a two-step

TRANSPORTADORA DE GAS DEL SUR S.A.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2006, 2005 AND 2004

(Amounts stated in thousands of constant Argentine pesos as described in Note 2.b.,
except for per share and per ADS amounts in constant Argentine pesos or unless otherwise indicated)

process. The first step is recognition: The enterprise determines whether it is more likely than not that a tax position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. In evaluating whether a tax position has met the more-likely-than-not recognition threshold, the enterprise should presume that the position will be examined by the appropriate taxing authority that would have full knowledge of all relevant information. The second step is measurement: A tax position that meets the more-likely-than-not recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The tax position is measured at the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. In principle, the validity of a tax position is a matter of tax law. It is not controversial to recognize the benefit of a tax position in an enterprise's financial statements when the degree of confidence is high that that tax position will be sustained upon examination by a taxing authority. However, in some cases, the law is subject to varied interpretation, and whether a tax position will ultimately be sustained may be uncertain. Statement 109 contains no specific guidance on how to address uncertainty in accounting for income tax assets and liabilities. As a result, diverse accounting practices have developed resulting in inconsistency in the criteria used to recognize, derecognize, and measure benefits related to income taxes. This diversity in practice has resulted in non-comparability in reporting income tax assets and liabilities. This Interpretation is effective for fiscal years beginning after December 15, 2006. The Company is currently evaluating the impact of FIN No. 48.

3. Fair Value Option for Financial Assets and Financial Liabilities

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities", or SFAS No. 159. SFAS No. 159 establishes a fair value option under which entities can elect to report certain financial asset and liabilities at fair value, with changes in fair value recognized in earnings. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The Company will be evaluating the impact of SFAS No. 159.

13. OTHER CONSOLIDATED FINANCIAL STATEMENTS INFORMATION

The following tables present additional consolidated financial statement disclosures required by Argentine GAAP:

- a) Property, plant and equipment, net
- b) Non-current investments
- c) Current investments
- d) Allowances and provisions
- e) Cost of sales
- f) Foreign currency assets and liabilities
- g) Expenses incurred
- h) Detail of maturities of investments, receivables and liabilities.
