VALDÉS & MORENO, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022

NOTE 1 SIGNIFICANT ACCOUNTING POLICIES

A. *Nature of the Business*

The Company was incorporated on July 13, 1994 and commenced business on May 2, 1995. The Company operates as a fully disclosed broker/dealer based in Kansas City, Missouri. All customer cash balances and securities are carried by a clearing broker.

B. *Management Estimates*

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at December 31, 2022 and revenues and expenses during the year then ended. The actual outcome of the estimates could differ from the estimates made in the preparation of the financial statements.

C. *Brokerage Commissions*

The Company buys and sells securities on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions and related clearing expenses are recorded on a settlement date basis. The Company believes that contract performance is only complete when money changes hands and the risk/reward of a securities position has been transferred. The firm's clearing broker keeps its books and records on a settlement date basis, also.

D. *Investment Banking*

The Company underwrites securities for corporate and governmental entities who want to raise funds through the sale of securities. Investment banking revenues include takedowns or concessions arising from securities offerings in which the Company participates as an underwriter. Takedowns and concessions are recorded on settlement date per the discussion above in C. Underwriting fees (group and net-designated sales credits), and gains/losses, net of syndicate expenses, are recorded at the time the underwriting has been closed and payment has been received. The Company believes that significant actions need to be taken by an underwriting group subsequent to settlement of an offering to account for related fees and to figure the gain/loss of a syndicate.

E. *Placement Agent Fees*

Placement agent fees are recorded upon receipt, in accordance with the related placement agent agreement, after investor funds have been deposited with the issuer or private equity fund at closing.

G. *Statement of Cash Flows*

Cash and Cash Equivalents - For purposes of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents. For the year ended December 31, 2022, the Company did not have any cash equivalents.

Cash Paid - Interest and Taxes - The amount of cash paid for interest and taxes for the year ended December 31, 2022 are as follows:

NOTE 2 NET CAPITAL REQUIREMENTS

The Company is subject to the U.S. Securities and Exchange Commission's Uniform Net Capital Rule (Rule 15c3-1) which requires the maintenance of minimum net capital or a ratio of aggregate indebtedness to net capital, both as defined, of less than 15 to 1. At December 31, 2022, the Company had aggregate indebtedness of \$14,646 and net capital of \$315,134 which resulted in a ratio of 0.0465 to 1 and a ratio requirement of \$976 which was less than its minimum requirement of \$100,000. Therefore, at December 31, 2022, based on its minimum requirement, the Company had excess net capital of \$215,134.

NOTE 4 FAIR VALUE

FASB ASC 820 defines fair value, establishes a framework for measuring fair value and establishes a hierarchy of fair value inputs. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820 are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1. Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.

Level 2. Inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly or indirectly.

Level 3. Unobservable inputs for the asset or liability

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

NOTE 4 FAIR VALUE (Continued)

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2022.

**Fair Value Measurements on a Recurring Basis
As of December 31, 2022**
