COMMUNITY BANK SHARES OF INDIANA, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Presentation of Interim Information

Community Bank Shares of Indiana, Inc. (“we,” “our” or “us”) is a bank holding company headquartered in New Albany, Indiana. Our wholly-owned banking subsidiaries are Your Community Bank (“Your Community Bank” or “YCB”), and The Scott County State Bank (“Scott County State Bank”), which we acquired on July 1, 2006 through our acquisition of The Bancshares, Inc. (Your Community Bank and Scott County State Bank are at times collectively referred to herein as the “Banks”). The Banks are state-chartered commercial banks headquartered in New Albany, Indiana and Scottsburg, Indiana, respectively, and are both regulated by the Indiana Department of Financial Institutions. Your Community Bank is also regulated by the Federal Deposit Insurance Corporation and (with respect to its Kentucky branches) the Kentucky Office of Financial Institutions. Scott County State Bank is also regulated by the Federal Reserve.

Your Community Bank has three wholly-owned subsidiaries to manage its investment portfolio. CBSI Holdings, Inc. and CBSI Investments, Inc. are Nevada corporations which jointly own CBSI Investment Portfolio Management, LLC, a Nevada limited liability corporation which holds and manages investment securities previously owned by Your Community Bank.

Your Community Bank also has a Community Development Entity (CDE) subsidiary formed in July 2002 named CBSI Development Fund, Inc. The CDE enables Your Community Bank to participate in the federal New Markets Tax Credit (“NMTC”) Program. The NMTC Program is administered by the Community Development Financial Institutions Fund of the United States Treasury and is designed to promote investment in low-income communities by providing a tax credit over seven years for equity investments in CDE’s.

In June 2004 and June 2006, we completed placements of floating rate subordinated debentures through two trusts that we formed, Community Bank Shares (IN) Statutory Trust I and Trust II (“Trusts”). Because the Trusts are not consolidated with us, pursuant to FASB Interpretation No. 46, our financial statements reflect the subordinated debt we issued to the Trusts.

In the opinion of management, the unaudited consolidated financial statements include all normal adjustments considered necessary to present fairly the financial position as of June 30, 2008, the results of operations for the three and six months ended June 30, 2008 and 2007, and cash flows for the six months ended June 30, 2008 and 2007. All of these adjustments are of a normal, recurring nature. Interim results are not necessarily indicative of results for a full year.

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. GAAP for interim financial information and with the instructions for Form 10-Q. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes included in our annual report on Form 10-K for the year ended December 31, 2007. The consolidated financial statements include our accounts and our subsidiaries’ accounts. All material intercompany balances and transactions have been eliminated in consolidation.

COMMUNITY BANK SHARES OF INDIANA, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Reclassifications: Some items in the prior financial statements were reclassified to conform to the current presentation.

2. Securities

The fair value of available for sale securities and the related gross unrealized gains and losses recognized in accumulated other comprehensive loss were as follows:

	Fair Value	Gross Unrealized Gains	Gross Unrealized Losses
	(In thousands)		
June 30, 2008:			
Securities available for sale:			
State and municipal	\$ 16,409	133	(97)
Mortgage-backed	96,138	90	(1,728)
Corporate bonds, including collateral debt obligations	4,430	-	(1,325)
Mutual funds	239	-	(11)
Total securities available for sale	<u>\$ 117,216</u>	<u>\$ 223</u>	<u>\$ (3,161)</u>
December 31, 2007:			
Securities available for sale:			
U.S. Government and federal agency	\$ 6,077	\$ 83	\$ -
State and municipal	13,312	281	(1)
Mortgage-backed	73,252	519	(568)
Corporate bonds, including collateral debt obligations	6,583	-	(297)
Mutual funds	241	-	(9)
Total securities available for sale	<u>\$ 99,465</u>	<u>\$ 883</u>	<u>\$ (875)</u>

Securities with unrealized losses at June 30, 2008 and December 31, 2007, aggregated by investment category and length of time that individual securities have been in a continuous loss position are as follows:

	Less than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
June 30, 2008						
<i>(In thousands)</i>						
State and municipal	\$ 4,869	\$ (97)	\$ -	\$ -	\$ 4,869	(97)
Mortgaged-backed	76,598	(1,455)	4,775	(273)	81,373	(1,728)
Corporate bonds, including collateral debt obligations	4,430	(1,325)	-	-	4,430	(1,325)

COMMUNITY BANK SHARES OF INDIANA, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

	Less than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
<u>December 31, 2007</u>						
<i>(In thousands)</i>						
State and municipal	\$ 886	\$ (1)	\$ -	\$ -	\$ 886	\$ (1)
Mortgaged-backed	1,796	(1)	39,934	(567)	41,730	(568)
Corporate bonds, including collateral debt obligations	5,589	(290)	995	(7)	6,584	(297)
Mutual funds	-	-	241	(9)	241	(9)
Total temporarily impaired	<u>\$ 8,271</u>	<u>\$ (292)</u>	<u>\$ 41,170</u>	<u>\$ (583)</u>	<u>\$ 49,441</u>	<u>\$ (875)</u>

All unrealized losses are reviewed on at least a quarterly basis to determine whether the losses are other than temporary and are reviewed more frequently when economic or market concerns warrant such evaluation. Consideration is given to the length of time and the extent to which the fair value has been less than cost, the financial condition and near-term prospects of the issuer, and our intent and ability to retain the investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value. In analyzing an issuer's financial condition, we may consider whether the securities are issued by the federal government or its agencies, whether downgrades by bond rating agencies have occurred, the results of reviews of the issuer's financial condition, and, in the case of our collateralized debt obligations, the present value of the estimated remaining cash flows. A significant portion of the Company's unrealized losses at June 30, 2008 were related to six collateralized debt obligations. Management reviewed these securities and determined that an adverse change in the anticipated cash flows from these securities had not occurred and none of the securities had been downgraded and therefore did not recognize a loss into income.

3. Loans

Loans at June 30, 2008 and December 31, 2007 consisted of the following:

	June 30, 2008	December 31, 2007
	<i>(In thousands)</i>	
Commercial	\$ 93,803	\$ 88,353
Mortgage loans on real estate:

Construction	80,429	87,364
Home equity	60,462	60,380
Loans secured by deposit accounts	1,215	1,322
Consumer	19,651	20,024
Subtotal	641,994	636,048
Less:		
Allowance for loan losses	(6,890)	(6,316)
Loans, net	<u>\$ 635,104</u>	<u>\$ 629,732</u>

COMMUNITY BANK SHARES OF INDIANA, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

4. Deposits

Deposits at June 30, 2008 and December 31, 2007 consisted of the following:

	June 30, 2008	December 31, 2007
	<i>(In thousands)</i>	
Demand (NOW)	\$ 66,650	\$ 94,939
Money market accounts	109,253	107,880
Savings	29,372	26,971
Individual retirement accounts	27,088	29,298
Certificates of deposit, \$100,000 and over	86,215	87,887
Other certificates of deposit	153,880	146,515
Total interest bearing deposits	472,458	493,490
Total non-interest bearing deposits	87,345	79,856
Total deposits	<u>\$ 559,803</u>	<u>\$ 573,346</u>

5. Earnings Per Share

Earnings per share were computed as follows:

	Three months ended June 30,		Six months ended June 30,	
	2008	2007	2008	2007
	<i>(In thousands, except for share and per share amounts)</i>			
Basic:				
Net income	\$ 218	\$ 915	\$ 1,254	\$ 1,930
Average shares:				
Common shares issued	3,863,942	3,863,942	3,863,942	3,863,942
Less: Treasury stock	(615,355)	(485,025)	(612,184)	(456,554)
Average shares outstanding	<u>3,248,587</u>	<u>3,378,917</u>	<u>3,251,758</u>	<u>3,407,388</u>
Net income per common share, basic	<u>\$ 0.07</u>	<u>\$ 0.27</u>	<u>\$ 0.39</u>	<u>\$ 0.57</u>
Diluted:				
Net income	\$ 218	\$ 915	\$ 1,254	\$ 1,930
Average shares:				
Common shares outstanding for basic	3,248,587	3,378,917	3,251,758	3,407,388
Add: Dilutive effect of outstanding options	15,897	27,148	17,352	28,565
Average shares and dilutive potential common shares	<u>3,264,484</u>	<u>3,406,065</u>	<u>3,269,110</u>	<u>3,435,953</u>
Net income per common share, diluted	<u>\$ 0.06</u>	<u>\$ 0.27</u>	<u>\$ 0.38</u>	<u>\$ 0.56</u>

Stock options for 238,920 and 240,420 shares of common stock were excluded from the calculation of diluted net income per share for the three and six months ended June 30, 2008, respectively, because their effect was antidilutive. This compares to stock options for 195,950 and 196,950 share of common stock that were excluded from the calculation of diluted net income per share for the three and six months ended June 30, 2007, respectively. Performance units totaling 22,500 and 30,500 were excluded from the calculation of diluted net income per share for the three and six months ended June 30, 2008 and June 30, 2007, respectively, because all of the conditions necessary for issuance of common stock had not been met as of those dates.

(Unaudited)

6. Derivative Financial Instruments and Hedging Activities

On June 19, 2003, we entered into a \$25,000,000 interest rate swap arrangement to exchange variable payments of interest tied to Prime for receipt of fixed rate payments of 5.22%. The variable rate of the swap resets daily, with net interest being settled monthly. The notional amount of the swap does not represent amounts exchanged by the parties. The amount exchanged is determined by reference to the notional amount and other terms of the swap. The swap matured on June 19, 2008.

Prior to December 31, 2007, the interest rate swap agreement was reported, and had been since inception, as a cash flow hedge as the Company believed the critical terms of the swap agreement matched the critical terms of the variable rate loans and concluded that interest rate swap agreement was an effective cash flow hedge. At December 31, 2007, the Company determined that accounting for the agreement as a cash flow hedge was in error because a critical term did not match. The Company did not designate the swap agreement to pools of variable rate loans with like spreads to prime rate, such as prime plus .25%, prime plus .50%, etc., but did so only in total. Therefore, fluctuations in the fair value of the interest rate swap should have been recorded in other non-interest income instead of in other comprehensive income. The Company determined the effect on prior periods of its use of hedge accounting for the interest rate swap agreement was not material and, accordingly, did not restate prior period financial statements to correct the error. At year end 2007, the Company did record the fair value through earnings. The change in the fair value of the interest rate swap and the net cash settlements were reported in non-interest income in the first quarter of 2008 while being reported in other comprehensive income and non-interest income (reclassified from interest income from previously issued financial statements) in three and six months ended June 30, 2007, respectively. During the three and six months ended June 30, 2008, we recognized income of \$14,000 and expense of \$54,000 on the net settlements on our interest rate swaps, respectively. During the three and six months ended June 30, 2007, we recognized expense of \$304,000 and \$601,000, respectively. The fair value of the swap as of December 31, 2007 was a liability \$234,000 and was included in other liabilities.

7. Stock-Based Compensation Plans

Our stock option plan provides for the granting of both incentive and nonqualified stock options at exercise prices not less than the fair market value of the common stock on the date of grant and expiration dates of up to ten years. Terms of the options are determined by our Board of Directors at the date of grant and generally vest over periods of three to four years. Payment of the option price may be in cash or shares of common stock at fair market value on the exercise date. Non-employee directors are eligible to receive only nonqualified stock options. We may grant stock options under the current plan for an additional 213,550 shares of common stock. The aggregate intrinsic value for options outstanding and exercisable at June 30, 2008 and December 31, 2007 was \$117,000 and \$275,000, respectively. There was \$183,000 and \$277,000 in total compensation cost related to unvested options not recognized at June 30, 2008 and December 31, 2007, respectively, with a weighted-average period of 1.6 and 1.9 years over which the cost is expected to be recognized as of June 30, 2008 and December 31, 2007, respectively. The Company recognized \$41,000 and \$88,000 in expense for stock options for the three and six months ended June 30, 2008, respectively, and \$35,000 and \$72,000 in expense during the three and six months ended June 30, 2007, respectively. During the six months ended June 30, 2008, no options were granted and 1,500 options were forfeited.

We may grant performance unit awards to employees for up to 275,000 shares of common stock. The level of performance shares eventually distributed is contingent upon the achievement of specific performance criteria within a specified award period set at the grant date. We granted 22,500 performance units during the first quarter of 2008. The fair value of the performance units granted in the first quarter of 2008 was calculated based on the Company's stock price at the date of issuance. We recognized \$19,000 and \$33,000 in expense for performance unit awards for the three and six months ended June 30, 2008, respectively. We did not grant performance units for the six months ended June 30, 2007 and recognized \$0 and reversed \$33,000 of previously recognized expense for performance unit awards for the three and six months ended June 30, 2007.

During the first quarter of 2008, we granted 20,000 restricted stock awards to employees which had an aggregate fair value of \$374,000 at the date of grant and vest in the first quarter of 2011. The fair value of restricted stock awards was calculated based on the Company's stock price at the date of issuance. For the three and six months end June 30, 2008, we recognized \$31,000 and \$53,000 in expense for restricted stock awards, respectively.

8. Other Comprehensive Loss

Other comprehensive loss components and related taxes were as follows.

	Three months ended June 30,		Six months ended June 30,	
	2008	2007	2008	2007
Unrealized holding losses on available for sale securities	(4,136)	\$ (1,407)	\$ (2,655)	\$ (1,158)
Less reclassification adjustments for gains (losses) recognized in income	291	-	291	(8)
Net unrealized losses on securities available for sale, net of reclassifications	(4,427)	(1,407)	(2,946)	(1,150)
Unrealized holding losses on interest rate swaps	-	(168)	-	(313)
Amounts reclassified to interest income	-	304	-	601
Net unrealized gain on interest rate swaps, net of reclassifications	-	136	-	288
Change in minimum pension liability	-	19	-	(22)
Unrealized loss on pension benefits	(29)	-	(80)	-
Other comprehensive income before tax effects	(4,456)	(1,252)	(3,026)	(884)
Tax effect	1,520	425	1,033	300
Other comprehensive loss	<u>\$ (2,936)</u>	<u>\$ (827)</u>	<u>\$ (1,993)</u>	<u>\$ (584)</u>

9. Fair Value

FASB Statement No. 157 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Statement No. 157 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Company used the following methods and significant assumptions to estimate fair value.

Securities: The fair values of securities available for sale are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs) or matrix pricing, which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs). In instances where broker quotes are used, these quotes are obtained from market makers or broker-dealers recognized to be market participants. These valuation methods are classified as Level 2 in the fair value hierarchy. The fair values of certain of our collateralized debt obligations are determined by capital markets traders of our bond accountant using a base discount margin driven by current market fundamentals adjusted for characteristics unique to each security and the security's discounted projected cash flows. If the inputs used to provide the evaluation are "unobservable" and/or there is very little, if any, market activity for the security or similar securities, the securities are classified as Level 3.

Impaired Loans: Impaired loans are evaluated at the time the loan is identified as impaired and are recorded at the lower of the carrying amount of the loan or the fair value of the underlying collateral. The fair value of real estate is primarily determined based on appraisals by qualified licensed appraisers. The appraisals are discounted to reflect management's estimate of the fair value of the collateral given the current circumstances and condition of the collateral. Impaired loans are evaluated quarterly for additional impairment. Fair value of impaired loans is classified as Level 3 in the fair value hierarchy.

COMMUNITY BANK SHARES OF INDIANA, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Assets measured at fair value on a recurring basis are summarized below:

Assets/ Liabilities at Fair Value at June 30, 2008		Fair Value Measurements at June 30, 2008, Using						
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)		Significant Unobservable Inputs (Level 3)			
		(in thousands)						
<u>Assets:</u>								
Available for sale securities	\$	117,216	\$	—	\$	112,786	\$	4,430

The rollforward of activity for the Company's significant unobservable inputs (Level 3) is as follows:

	Three and Six Months Ended June 30, 2008 (in thousands)
Balance, beginning of period	\$ —
Transfer into level 3	5,189
Net unrealized loss	(599)
Principal paydowns	(160)
Balance, end of period	\$ 4,430

Assets measured at fair value on a nonrecurring basis are summarized below.

		Fair Value Measurements at March 31, 2008, Using				
		Quoted Prices in Active Markets for Identical Assets (Level 1)		Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
		(in thousands)				
<u>Assets:</u>						
Impaired loans	\$	12,533	\$	—	\$	12,533

The Company measures for impairment using the fair value of the collateral for collateral-dependent loans. The Company's impaired loans totaled \$21.0 million as of June 30, 2008, which included collateral-dependent loans with a carrying value of \$14.4 million. As of June 30, 2008, the Company's collateral dependent loans had a valuation allowance of \$1.9 million, resulting in an additional provision for loan losses of \$1.1 million during the six months ended June 30, 2008.

10. Recently Issued Accounting Standards

In September 2006, the FASB issued Statement No. 157, *Fair Value Measurements*. This Statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This Statement establishes a fair value hierarchy about the assumptions used to measure fair value and clarifies assumptions about risk and the effect of a restriction on the sale or use of an asset. The standard is effective for fiscal years beginning after November 15, 2007. In February 2008, the FASB issued FASB Staff Position (FSP) No. FAS 157-2, "Effective Date of FASB Statement No. 157." This FSP delays the effective date of FAS 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value on a recurring basis (at least annually) to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. See Note 9 for additional information.

In February 2007, the FASB issued Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*. The standard provides companies with an option to report selected financial assets and liabilities at fair value and establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. The new standard was effective for the Company on January 1, 2008. The Company did not elect the fair value option for any financial assets or financial liabilities as of January 1, 2008 or subsequently.

In September 2006, the FASB Emerging Issues Task Force finalized Issue No. 06-4, *Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements*. This issue requires that a liability be recorded during the service period when a split-dollar life insurance agreement continues after participants' employment or retirement. The required accrued liability will be based on either the post-employment benefit cost for the continuing life insurance or based on the future death benefit depending on the contractual terms of the underlying agreement. This issue is effective for fiscal years beginning after December 15, 2007. The impact of adoption was not material.

On November 5, 2007, the SEC issued Staff Accounting Bulletin No. 109, *Written Loan Commitments Recorded at Fair Value through Earnings* ("SAB 109"). Previously, SAB 105, *Application of Accounting Principles to Loan Commitments*, stated that in measuring the fair value of a derivative loan commitment, a company should not incorporate the expected net future cash flows related to the associated servicing of the loan. SAB 109 supersedes SAB 105 and indicates that the expected net future cash flows related to the associated servicing of the loan should be included in measuring fair value for all written loan commitments that are accounted for at fair value through earnings. SAB 105 also indicated that internally-developed intangible assets should not be recorded as part of the fair value of a derivative loan commitment, and SAB 109 retains that view. SAB 109 is effective for derivative loan commitments issued or modified in fiscal quarters beginning after December 15, 2007. The impact of adoption was not material.

In March 2008, the FASB issued Statement No. 161 – Disclosures about Derivative Instruments and Hedging Activities – an amendment of FASB Statement No. 133. FASB No. 161 requires enhanced disclosures about how and why an entity uses derivative instruments, how derivative instruments and related items are accounted for under Statement 133 and how derivative instruments and related hedged items affect an entity's financial position, financial performance and cash flows. The new standard is effective for the Company on January 1, 2009. The Company is currently evaluating the impact of adopting SFAS No. 161 on the consolidated financial statements.

11. Subsequent Event

In 2004, YCB loaned funds to MW Development ("MW") for the purchase of real estate to develop into a residential subdivision. The subdivision is incomplete and there are no additional funds available from YCB. D.F. Crane Construction Corporation ("Crane") filed suit against both YCB and MW to assert its lien on the property for non-payment for services rendered. In the second quarter of 2008, YCB and Crane reached an agreement to settle for \$200,000 (the Company accrued \$200,000 in the fourth quarter of 2007 for the probable settlement). On July 3, 2008 we paid the settlement amount which did not substantially or materially deviate from the amount we previously accrued. In accordance with the agreement, Crane agreed to withdraw its claim and allow YCB to proceed with foreclosure and ultimate liquidation of the property.

Safe Harbor Statement for Forward-Looking Statements

This report may contain forward-looking statements within the meaning of the federal securities laws. These statements are not historical facts, but rather statements based on our current expectations regarding our business strategies and their intended results and our future performance. Forward-looking statements are preceded by terms such as “expects,” “believes,” “anticipates,” “intends” and similar expressions.

Forward-looking statements are not guarantees of future performance. Numerous risks and uncertainties could cause or contribute to our actual results, performance, and achievements to be materially different from those expressed or implied by the forward-looking statements. Factors that may cause or contribute to these differences include, without limitation, general economic conditions, including changes in market interest rates and changes in monetary and fiscal policies of the federal government; legislative and regulatory changes; competitive conditions in the banking markets served by our subsidiaries; the adequacy of the allowance for losses on loans and the level of future provisions for losses on loans; and other factors disclosed periodically in our filings with the Securities and Exchange Commission.

Because of the risks and uncertainties inherent in forward-looking statements, readers are cautioned not to place undue reliance on them, whether included in this report or made elsewhere from time to time by us or on our behalf. We assume no obligation to update any forward-looking statements.

Financial Condition

Total assets increased to \$841.0 million at June 30, 2008 from \$823.6 million as of December 31, 2007 which was primarily attributable to an increase in securities available for sale of \$17.8 million, offset by a decrease in interest-bearing deposits in other financial institutions of \$12.6 million. Total deposits decreased to \$559.8 million at June 30, 2008 from \$573.3 million as of December 31, 2007 as interest-bearing deposits decreased by \$21.0 million while non-interest bearing deposits increased by \$7.5 million. The Company attributes the change in deposit mix to a combination of an emphasis on growing non-interest deposits through customer service and cross-selling efforts while lowering costs on interest-bearing deposits aggressively.

Net loans increased by 0.9% to \$635.1 million as of June 30, 2008 from \$629.7 million at December 31, 2007. Most of the growth in the Company's loan portfolio was in commercial and commercial real estate loans which grew a combined \$18.2 million from December 31, 2007, while the Company's construction loans secured by real estate decreased by \$6.9 million.

Securities available for sale increased from December 31, 2007 by \$17.8 million to \$117.2 million as of June 30, 2008 primarily due to purchases of \$52.2 million, offset by maturities, prepayments and calls of \$15.8 million, sales of \$16.0 million, and a decrease in the fair value of the portfolio of \$2.9 million. The securities portfolio serves as a source of liquidity and earnings and plays an important part in the management of interest rate risk. The current strategy for the investment portfolio is to maintain an overall average repricing term between 3.0 and 3.5 years to limit exposure to rising interest rates.

FHLB advances and other borrowings increased to \$106.9 million and \$90.3 million at June 30, 2008, respectively, from \$91.4 million and \$72.8 million at December 31, 2007. The proceeds from the increase in both FHLB advances and other borrowings were utilized to offset the decrease in total deposits, fund loan growth, and purchase available for sale securities.

PART I - ITEM 2

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
COMMUNITY BANK SHARES OF INDIANA, INC. AND SUBSIDIARIES

Net Income. Net income was \$218,000 for the three months ended June 30, 2008 compared to \$915,000 for the same period in 2007. Basic and diluted earnings per share decreased to \$0.07 and \$0.06 per share, respectively, for the second quarter of 2008 from \$0.27 for basic and diluted earnings per share for 2007. The decrease in net income and basic and diluted earnings per share for the second quarter in 2008 was due to a substantial increase in the provision for loan losses of \$1.8 million, offset by an increase in non-interest income and decreases in non-interest expenses and income tax expense. The annualized return on average assets and average shareholders' equity were 0.10% and 1.34% for the three months ended June 30, 2008, respectively, compared to 0.45% and 5.61% for the equivalent period in 2007.

Net income decreased to \$1.3 million for the six months ended June 30, 2008 from \$1.9 million for the same period in 2007. Basic and diluted earnings per share were \$0.39 and \$0.38 per share, respectively, for 2008 as compared to \$0.57 and \$0.56, respectively, for 2007. The decrease in net income for the six month period was the result of an increase in the provision for loan losses, offset by an increase in non-interest income and decreases in non-interest expenses and income tax expense. The annualized return on average assets and average shareholders' equity were 0.30% and 3.85% for the six month period ended June 30, 2008, respectively, compared to 0.47% and 5.89% for 2007.

Net interest income. Net interest income for the three and six months ended June 30, 2008 decreased by \$87,000 and \$119,000, respectively, to \$5.9 million and \$11.7 million from \$6.0 million and \$11.8 million, respectively, from the same periods in 2007. The Company's net interest margin on a taxable equivalent basis decreased to 3.13% for the three and six months ended June 30, 2008 from 3.26% and 3.23%, respectively, for the same periods in 2007. The decrease in net interest income and net interest margin on a taxable equivalent basis for the three and six months ended June 30, 2008 was due primarily to the reversal of previously recognized interest income on loans placed on non-accrual during the first two quarters of 2008. Average earning assets increased to \$766.2 million and \$758.7 million for the three and six months ended June 30, 2008 compared to \$743.7 million and \$745.7 million for the equivalent periods in 2007.

The cost of interest-bearing liabilities continues to be significantly affected by the \$67.0 million in funding provided by FHLB advances, which principally consists of putable (or convertible) instruments that give the FHLB the option at the conversion date (and quarterly thereafter) to put an advance back to us, and are on average higher than current alternative costs of funds. If the FHLB puts an advance back to us, we can choose to prepay the advance without penalty or allow the interest rate on the advance to adjust to three-month LIBOR (London Interbank Offer Rate) at the conversion date (and adjusted quarterly thereafter). We estimate the three-month LIBOR would have to rise in excess of 300 basis points before the FHLB would exercise its option on the majority of the individual advances. We use FHLB advances for both short- and long-term funding. The balances reported at June 30, 2008 and December 31, 2007 are comprised of long-term and short-term advances.

Average Balance Sheets. The following tables set forth certain information relating to our average balance sheets and reflect the average yields earned and rates paid. Such yields and costs are derived by dividing income or expense by the average balance of assets or liabilities, respectively, for the periods presented. Average balances are computed on daily average balances. For analytical purposes, net interest margin and net interest spread are adjusted to a taxable equivalent adjustment basis to recognize the income tax savings on tax-exempt assets, such as state and municipal securities. A tax rate of 34% was used in adjusting interest on tax-exempt assets to a fully taxable equivalent ("FTE") basis. Loans held for sale and loans no longer accruing interest are included in total loans.

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
COMMUNITY BANK SHARES OF INDIANA, INC. AND SUBSIDIARIES

Rate/Volume Analysis. The table below illustrates the extent to which changes in interest rates and changes in the volume of interest-earning assets and interest-bearing liabilities affected our interest income and interest expense during the periods indicated. Information is provided in each category with respect to (i) changes attributable to changes in volume (changes in volume multiplied by prior rate), (ii) changes attributable to changes in rate (changes in rate multiplied by prior volume), and (iii) the net change. The changes attributable to the combined impact of volume and rate have been allocated proportionately to the changes due to volume and the changes due to rate.

PART I - ITEM 2

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
COMMUNITY BANK SHARES OF INDIANA, INC. AND SUBSIDIARIES

Allowance and Provision for Loan Losses. Our financial performance depends on the quality of the loans we originate and management's ability to assess the degree of risk in existing loans when it determines the allowance for loan losses. An increase in loan charge-offs or non-performing loans or an inadequate allowance for loan losses could have an adverse effect on net income. The allowance is determined based on the application of loss estimates to graded loans by categories.

Summary of Loan Loss Experience:

Activity for the period ended:	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
	<i>(In thousands)</i>			
Beginning balance	\$ 6,357	\$ 5,629	\$ 6,316	\$ 5,654
Charge-offs:				
Residential real estate	(146)	(55)	(165)	(65)
Commercial real estate	(146)	—	(146)	(44)
Construction	(457)	—	(478)	—
Commercial business	(245)	—	(895)	—
Home equity	(296)	—	(317)	(94)
Consumer	(138)	(44)	(220)	(76)
Total	(1,428)	(99)	(2,221)	(279)
Recoveries:				
Residential real estate	—	8	—	8
Commercial real estate	1	2	2	4
Construction	—	—	—	—
Commercial business	1	1	4	5
Home equity	3	—	4	—
Consumer	26	16	55	21
Total	31	27	65	38
Net loan charge-offs	(1,397)	(72)	(2,156)	(241)
Provision	1,930	150	2,730	294
Ending balance	\$ 6,890	\$ 5,707	\$ 6,890	\$ 5,707

Provision for loan losses increased to \$1.9 million and \$2.7 million for the three and six months ended June 30, 2008 compared to \$150,000 and \$294,000 for the equivalent periods in 2007. Net charge-offs during the three and six months ended June 30, 2008 were \$1.4 million and \$2.2 million, respectively, an increase from \$72,000 and \$241,000 for same periods in 2007. The increase in the provision for loan losses for both the three and six month periods in 2008 was due to an increase in the amount and severity in the Company's classified credits, which increased to \$47.9 million as of June 30, 2008 from \$29.4 million at December 31, 2007, and a further deterioration in the underlying collateral values of certain credits. The Company continues to see weakness in its construction and commercial real estate loan portfolios and has provided for the probable incurred losses in those portfolios accordingly. The increase in net charge-offs during the three and six months ended June 30, 2008 was due to the Company's determination that a portion of the balance of certain collateral dependent loans was uncollectible. Generally, the charge-offs were necessary to write-down these loans to the anticipated collateral liquidation value, less costs to sell. The majority of loans charged-off had been identified by management previously and had amounts allocated for a substantial portion of the actual incurred losses. The Company continues to closely monitor its loan portfolio to identify any additional problem credits, deterioration in underlying collateral values, and credits requiring further downgrades in accordance with the Company's internal policies. As of June 30, 2008, management has reserved for probable incurred losses within the loan portfolio based on information currently available to the Company.

Federal regulations require insured institutions to classify their assets on a regular basis. The regulations provide for three categories of classified loans: substandard, doubtful and loss. The regulations also contain a special mention and a specific allowance category. Special mention is defined as loans that do not currently expose an insured institution to a sufficient degree of risk to warrant classification but do possess credit deficiencies or potential weaknesses deserving management's close attention. Assets classified as substandard or doubtful require the institution to establish general allowances for loan losses. If an asset or portion thereof is classified as loss, the insured institution must either establish specified allowances for loan losses in the amount of 100% of the portion of the asset classified loss, or charge off such amount.

PART I - ITEM 2

**MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
COMMUNITY BANK SHARES OF INDIANA, INC. AND SUBSIDIARIES**

Non-performing assets. Loans (including impaired loans under the Financial Accounting Standard Board's Statement of Financial Accounting Standards 114 and 118) are placed on non-accrual status when they become past due ninety days or more as to principal or interest, unless they are adequately secured and in the process of collection. When these loans are placed on non-accrual status, all unpaid accrued interest is reversed and the loans remain on non-accrual status until the loan becomes current or the loan is deemed uncollectible and is charged off. We define impaired loans as those loans for which it is probable that all scheduled interest and principal payments will not be received based on the contractual terms of the loan agreement. Impaired loans increased to \$21.0 million at June 30, 2008 as compared to \$9.3 million at December 31, 2007 due to further downgrades in certain commercial credits and an increase in non-accrual commercial credits.

	June 30, 2008	December 31, 2007
	<i>(In thousands)</i>	
Loans on non-accrual status	\$ 21,948	\$ 11,134

Other assets owned	568	575
Total non-performing assets	\$ 22,535	\$ 11,953
Non-performing loans to total loans	3.46%	1.79%
Non-performing assets to total loans	3.55	1.88
Allowance as a percent of non-performing loans	31.37	55.51
Allowance as a percent of total loans	1.07	0.99

PART I - ITEM 2

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
COMMUNITY BANK SHARES OF INDIANA, INC. AND SUBSIDIARIES

Non-interest income. Non-interest income increased by 60.9% to \$1.7 million and 58.9% to \$3.2 million for the three and six months ended June 30, 2008, respectively, compared to \$1.1 million and \$2.0 million for the three and six months ended June 30, 2007. The increase was primarily due to a gain on the Company's interest rate swap of \$234,000 and a decrease in net cash settlements to the counter-party of \$546,000. At December 31, 2007, the Company determined its documentation supporting its reporting of the interest rate swap as a cash flow hedge was insufficient and began accounting for the interest rate swap as a stand-alone derivative. The fair value of the interest rate swap was reclassified from other comprehensive income to other non-interest income as of that date. Also, the Company determined the effect on prior periods of its use of hedge accounting for the outstanding interest rate swap and the swap that matured in June of 2007 was not material and, accordingly, prior periods have not been restated to correct the error. Therefore, the change in the fair value of the swap for the six months ended June 30, 2008 was reported in non-interest income while being reported as a component of other comprehensive income in the same period in 2007. Also, in accordance with the Company's accounting policy, the net cash settlements with the counter-parties to the interest rate swaps have been reported in non-interest income. The Company reclassified the net cash settlement on the interest rate swaps from interest income to non-interest income for the three and six months ended June 30, 2007 for comparative purposes. Net cash settlements to the interest rate swap counter-parties resulted in income of \$14,000 and expense of \$54,000 for the three and six months ended June 30, 2008, compared to expense of \$304,000 and \$601,000 for the three and six months ended June 30, 2007 due to a decrease in the prime rate during the first and second quarters of 2008. Non-interest income for the three and six month periods ending June 30, 2008 was also significantly impacted by a net gain on sales of available for sale securities during the second quarter of 2008 of \$291,000. For the six months ended June 30, 2007, the Company realized a net loss of \$8,000. During the second quarter, the Company was able to sell a portion of its portfolio at a gain and reinvest the proceeds in securities with substantially the same yield and risk profile while extending out slightly further on the yield curve.

Non-interest expense. Non-interest expense decreased to \$5.6 million and \$10.9 million for the three and six months ended June 30, 2008, respectively, from \$5.7 million and \$11.0 million from the equivalent period in 2007 due primarily to a decrease in data processing, legal and professional fees, and other expenses offset partially by increases in salaries and benefits and occupancy expenses. Salaries and employee benefits increased by \$191,000 and \$361,000 from the three and six month periods ended June 30, 2007, respectively, due to an increase in full time equivalent employees to 241 as of June 30, 2008 from 228 in 2007, an increase in the Company's insurance costs, and an increase in employee benefits expense which were offset by an increase in deferred loan origination costs. The expense per full time equivalent employee increased to \$12,700 and \$25,000 for the three and six months ended June 30, 2008, respectively, from \$12,500 and \$24,800 for the equivalent period in 2007. Occupancy expenses were \$546,000 and \$1.0 million for the three and six months ended June 30, 2008, respectively, as the Company opened a new YCB branch location late in the second quarter of 2007 and entered into a lease for new YCB branch location in first quarter of 2008. Also impacting 2008 was an increase in common area maintenance expense at the Company's leased branch locations, an increase in property tax assessments for the Company's owned branch locations, and certain non-recurring maintenance expenditures. Data processing expense decreased by \$118,000 to \$445,000 for the three months ended June 30, 2008 and by \$207,000 for the six months period in 2008 due to credits that were granted by YCB's third party core data processor to its current contract in connection with executing a new contract and upgrading from YCB's current system. Legal and professional fees decreased to \$116,000 and \$141,000 from \$283,000 and \$542,000 for the three and six months ended June 30, 2008, respectively, as the Company incurred certain consulting expenses in 2007 that were not repeated in 2008. Other non-interest expenses decreased by 26.2% and 22.0% to \$659,000 and \$1.3 million for the three and six month periods ended June 30, 2008. The decrease in other non-interest expenses was attributable to a decrease in charge-offs of customer checking accounts and a reduction in certain third party vendor expenses.

Income tax (benefit) expense. Income tax (benefit) expense for the three and six months ended June 30, 2008 was \$(131,000) and \$40,000, respectively, as compared to \$280,000 and \$574,000 for the equivalent periods in 2007. The decrease in income tax expense in the second quarter was due to a decrease in taxable income below the level of aggregate tax preference items and fixed tax credits. Also, during the first quarter of 2008, the Company received notification the Internal Revenue Service had completed their audits of our 2004 and 2005 federal tax returns and had determined adjustments were not required for tax positions taken in those returns and that a refund would be issued for 2006 for \$20,000. Accordingly, the Company reduced its reserve for unrecognized tax benefits by \$55,000, reversed its accrual for the associated interest and penalties of \$17,000 and recorded a receivable of \$20,000 in the first quarter of 2008. The effect of the aforementioned adjustments was to reduce the Company's income tax provision and effective tax rate for the six month period in 2008.

Liquidity and Capital Resources

Liquidity levels are adjusted in order to meet funding needs for deposit outflows, repayment of borrowings, and loan commitments and to meet asset/liability objectives. Our primary sources of funds are customer deposits, customer repurchase agreements, proceeds from loan repayments, maturing securities and FHLB advances. While loan repayments and maturities are a predictable source of funds, deposit flows and mortgage prepayments are greatly influenced by market interest rates, general economic conditions and competition. At June 30, 2008, we had cash and interest-bearing deposits with banks of \$21.6 million and securities available-for-sale with a fair value of \$117.2 million. If we require funds beyond the funds we are able to generate internally, we have \$39.2 million in additional aggregate borrowing capacity with the Federal Home Loan Bank of Indianapolis based on our current FHLB stock holdings, unused federal funds lines of credit with various nonaffiliated financial institutions of \$26.0 million and \$829,000 of an unused line of credit with a nonaffiliated financial institution. Subsequent to June 30, 2008, the Company received notification that the advance limit on one of its federal funds lines of credit had been reduced by \$9.0 million. While the Company's availability under its federal funds lines of credit has been reduced, the Company has access to other sources of liquidity which mitigate the reduction in federal funds availability and provide ample liquidity for ongoing operations.

PART I - ITEM 2

**MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
COMMUNITY BANK SHARES OF INDIANA, INC. AND SUBSIDIARIES**

The Banks are required to maintain specific amounts of capital pursuant to regulatory requirements. As of June 30, 2008, Your Community Bank and Scott County State Bank were each in compliance with all regulatory capital requirements that were effective as of such date with capital ratios as follows:

June 30, 2008:

	Total Capital To Risk-weighted Assets	Tier 1 Capital To Risk-weighted Assets	Tier 1 Capital To Average Assets
Consolidated	10.8%	9.8%	7.7%
Your Community Bank	11.3%	10.2%	8.3%
Scott County State Bank	14.7%	13.9%	9.0%
Minimum to be well capitalized under regulatory capital requirements:	10.0%	6.0%	5.0%

December 31, 2007:

	Total Capital To Risk-weighted Assets	Tier 1 Capital To Risk-weighted Assets	Tier 1 Capital To Average Assets
Consolidated	10.9%	9.9%	8.0%
Your Community Bank	11.2%	10.2%	8.6%
Scott County State Bank	15.9%	15.2%	9.5%
Minimum to be well capitalized under regulatory capital requirements:	10.0%	6.0%	5.0%

We have been repurchasing shares of our common stock since May 21, 1999. A net total of 615,355 shares at an aggregate cost of \$10.7 million have been repurchased since that time under both the current and prior repurchase plans. Our Board of Directors authorized a share repurchase plan in June 2007 under which a maximum of \$5.0 million of our common stock may be purchased. Through June 30, 2008, a net total of \$3.0 million had been expended to purchase 137,317 shares under the current repurchase plan.

During June 2004 and 2006, we completed placements of \$7.0 million and \$10.0 million floating rate subordinated debentures through Community Bank Shares (IN) Statutory Trust I and Trust II, (trusts we formed), respectively. These securities are reported as liabilities for financial reporting, but Tier 1 Capital for regulatory purposes. We intend to utilize the proceeds for general business purposes and to support our future opportunities for growth.

Off Balance Sheet Arrangements and Contractual Obligations

The amount and nature of our off balance sheet arrangements and contractual obligations at June 30, 2008 were not significantly different from the information that was reported in the Company's annual report on Form 10-K for the year ended December 31, 2007.

PART I - ITEM 3**QUANTITATIVE AND QUALITATIVE
DISCLOSURES ABOUT MARKET RISK**

Asset/liability management is the process of balance sheet control designed to ensure safety and soundness and to maintain liquidity and regulatory capital standards while maintaining acceptable net interest income. Interest rate risk is the exposure to adverse changes in net interest income as a result of market fluctuations in interest rates. Management continually monitors interest rate and liquidity risk so that it can implement appropriate funding, investment, and other balance sheet strategies. Management considers market interest rate risk to be our most significant ongoing business risk consideration.

We currently contract with an independent third party consulting firm to measure our interest rate risk position. The consulting firm utilizes an earnings simulation model to analyze net interest income sensitivity. Current balance sheet amounts, current yields and costs, corresponding maturity and repricing amounts and rates, other relevant information, and certain assumptions made by management are combined with gradual movements in interest rates of 200 basis points up and down at December 31, 2007 and 200 basis points up and 100 basis points down at June 30, 2008 within the model to estimate their combined effects on net interest income over a one-year horizon. We believe using a decline of 100 basis points for our assumption at June 30, 2008 as opposed to 200 basis points was a more reasonable estimate of potential interest rate movement. Interest rate movements are spread equally over the forecast period of one year. We feel that using gradual interest rate movements within the model is more representative of future rate changes than instantaneous interest rate shocks. Growth in amounts are not projected for any balance sheet category when constructing the model because of the belief that projected growth can mask current interest rate risk imbalances over the projected horizon. We believe that the changes made to the model's interest rate risk measurement process have improved the accuracy of results of the process, consequently giving better information on which to base asset and liability allocation decisions going forward.

Assumptions based on the historical behavior of our deposit rates and balances in relation to changes in interest rates are incorporated into the model. These assumptions are inherently uncertain and, as a result, the model cannot precisely measure future net interest income or precisely predict the impact of fluctuations in market interest rates on net interest income. We continually monitor and update the assumptions as new information becomes available. Actual results will differ from the model's simulated results due to timing, magnitude and frequency of interest rate changes, and actual variations from the managerial assumptions utilized under the model, as well as changes in market conditions and the application and timing of various management strategies.

The base scenario represents projected net interest income over a one year forecast horizon exclusive of interest rate changes to the simulation model. Given a gradual 200 basis point increase in the projected yield curve used in the simulation model (Up 200 Scenario), we estimated that as of June 30, 2008 our net interest income would decrease by an estimated \$19,000 over the one year forecast horizon. As of December 31, 2007, in the Up 200 Scenario we estimated that net interest income would decrease 0.2%, or \$36,000, over a one year forecast horizon ending December 31, 2008. Given a gradual 100 basis point decrease in the projected yield curve used in the simulation model (Down 100 Scenario), we estimated that as of June 30, 2008 our net interest income would increase by an estimated \$9,000, over the one year forecast horizon. As of December 31, 2007, given a gradual decrease 200 basis point decrease in the projected yield curve, we estimated that net interest income would decrease 0.2%, or \$37,000, over a one year forecast horizon ending December 31, 2008. The projected results are within our asset/liability management policy limits which states that the negative impact to net interest income should not exceed 7% in a 100 or 200 basis point decrease in the projected yield curve over a one year forecast horizon. The forecast results are heavily dependent on the assumptions regarding changes in deposit rates; we can minimize the reduction in net interest income in a period of rising interest rates to the extent that we can curtail raising deposit rates during this period. We continue to explore transactions and strategies to both increase our net interest income and minimize our interest rate risk.

PART I - ITEM 3

QUANTITATIVE AND QUALITATIVE
DISCLOSURES ABOUT MARKET RISK

Our interest sensitivity profile at any point in time will be affected by a number of factors. These factors include the mix of interest sensitive assets and liabilities as well as their relative repricing schedules. It is also influenced by market interest rates, deposit growth, loan growth, and other factors. The tables below illustrate our estimated annualized earnings sensitivity profile based on the above referenced asset/liability model as of June 30, 2008 and December 31, 2007, respectively. The tables below are representative only and are not precise measurements of the effect of changing interest rates on our net interest income in the future.

The following table illustrates our estimated one year net interest income sensitivity profile based on the asset/liability model as of June 30, 2008 and ending on June 30, 2009:

Interest Rate Sensitivity as of June 30, 2008			
	Gradual Decrease in Rates of 100 Basis Points	Base	Gradual Increase in Rates of 200 Basis Points
	(In thousands)		
Projected interest income:			
Loans	\$ 36,500	\$ 37,805	\$ 40,344

PART I – ITEM 4

CONTROLS AND PROCEDURES

Our management, including our Chief Executive Officer (serving as the principal executive officer) and Chief Financial Officer (serving as the principal financial officer), have conducted an evaluation of the effectiveness of disclosure controls and procedures pursuant to Securities Exchange Act of 1934 Rule 13a-15 as of the end of the period covered by this Form 10-Q. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the disclosure controls and procedures are effective in ensuring that all material information required to be filed in this quarterly report has been made known to them in a timely fashion. There have been no significant changes in internal controls, or in other factors that could significantly affect internal controls, subsequent to the date the Chief Executive Officer and the Chief Financial Officer completed their evaluation.

PART II**OTHER INFORMATION****Item 1. Legal Proceedings**

There are various claims and lawsuits in which the Company or its subsidiaries are periodically involved, such as claims to enforce liens, foreclosure or condemnation proceedings on properties in which the Banks hold mortgages or security interests, claims involving the making and servicing of real property loans and other issues incidental to the Banks' business. In the opinion of management, no material loss is expected from any such pending claims or lawsuits.

The following information reflects developments with respect to certain legal proceedings of the Company that occurred in the second quarter of 2008. This information should be read together with the Company's discussion Note 11 "Subsequent Event," in the notes to the consolidated financial statements in Part I, Item 1 and the Company's discussion set forth under "Legal Proceedings" in Part I, Item 3 of the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

D.F. Crane Construction Corporation ("Crane") Litigation

On May 21, 2008, the Jefferson Circuit Court (Commonwealth of Kentucky) entered judgment and an order of sale of the property pursuant to a Settlement Agreement (the "Agreement") entered into by Crane and YCB. The obligations of the parties under the Agreement were contingent upon entry of the order. Subsequently, the Company tendered the settlement payment to Crane on July 3, 2008. The foreclosure proceeding for the property is schedule to occur on September 23, 2008. The other lien claimant has not protested any of the above actions.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Board of Directors of the Company authorized a share repurchase plan in June 2007 under which a maximum of \$5.0 million of the Company's common stock can be purchased. As of March 31, 2008, the Company could repurchase up to \$1.8 million of the Company's common stock under the current repurchase plan. The Company did not purchase any of its common stock during the three months ended June 30, 2008.

Item 4. Submission of Matters to a Vote of Security Holders

The 2008 Annual Meeting of Stockholders of the Company was held May 20, 2008. The following items of business were presented to stockholders:

- 1) Three directors were elected as proposed in the Proxy Statement dated April 7, 2008, under the caption "Election of Directors" with votes cast as follows.

	Total Votes For Each Director	Total Votes Withheld For Each Director
Gary L. Libs	3,007,226	6,703
R. Wayne Estopinal	3,008,470	5,459
Kerry M. Stemler	3,007,226	6,703

- 2) The Audit Committee's selection and appointment of the accounting firm of Crowe Chizek and Company LLC as independent auditors for the year ending December 31, 2008 was ratified with 3,005,026 votes cast in favor of ratification and 2,157 votes abstaining.

Item 6. Exhibits**Exhibits**

The exhibits required by Item 601 of Regulation S-K are listed in the Exhibit Index of this Form 10-Q and are filed as a part of this report.

CERTIFICATION

I, James D. Rickard, certify that:

- 1) I have reviewed this quarterly report on Form 10-Q of Community Bank Shares of Indiana, Inc.;
- 2) Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
- 3) Based on my knowledge, the financial statements and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of and for the periods presented in this quarterly report;
- 4) The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this quarterly report based on such evaluation;
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting;
- 5) The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting, which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
