The Company's consolidated regulatory capital ratios as of December 31, 2008 were as follows:

| | <i>At December 31, 2008</i> | <i>Well- Capitalized Minimum Under Regulatory Capital Requirements*</i> |
|---|-------------------------------------|---|
| <i>Total Capital (to Risk Weighted Assets)</i> | <i>10.7 %</i> | <i>10.0 %</i> |
| <i>Tier I Capital (to Risk Weighted Assets)</i> | <i>9.5</i> | <i>6.0</i> |
| <i>Tier I Capital (to Average Assets)</i> | <i>7.6</i> | <i>5.0</i> |

* Based on well-capitalized requirements for banks (well-capitalized requirements are not defined for consolidated holding companies).

The Company reported a decline in net income for 2008 to \$821,000 from 2007, due primarily to an increase in the provision for loan losses of \$5.6 million as the Company experienced increases in classified loans and the amount of expected losses associated with impaired loans. The amount of provision for the fourth quarter of 2008 was substantially impacted by management's assessment that the loss exposure associated with a few specific commercial real estate loan relationships was considerably higher than previously estimated based on information received during the quarter.

Total assets grew by 6.5% from December 31, 2007 to \$877.4 million at December 31, 2008, as the Company significantly increased its interest-bearing deposits in other financial institutions to \$45.7 million at December 31, 2008 in order to strengthen its short-term liquidity position. The increase in liquidity was funded mostly through increases in deposits and FHLB advances. Net loans declined slightly to \$623.1 million as of December 31, 2008, while securities available for sale increased \$22.2 million to \$121.7 million. The Company focused on liquidity and credit quality considerations as it purchased securities for its portfolio throughout 2008. Total deposits increased by \$29.8 million during 2008 to \$603.2 million, with about 42.3% of that growth (\$12.6 million) coming in the form of non-interest bearing deposits.

"While our net income was lower than last year, we have focused on maintaining our capital ratios in excess of the regulatory "well-capitalized" minimums," stated James D. Rickard, President and Chief Executive Officer. "In the current economic environment, we believe it is important to both maintain a strong capital base and have significant liquidity available to meet customer needs. At December 31, 2008 we had almost \$63 million in capital supporting our balance sheet and loan loss reserves of \$9.5 million to cover future loan charge-offs we may have. As of the end of the year, we had approximately \$65 million in short-term liquidity on-hand. While much of the financial news of 2008 was negative, we were gratified by the continued growth in non-interest bearing deposits, which we believe proves that our strategy of providing superior customer service is generating results."

"We are seeking to aggressively resolve our non-performing assets, balancing the need to put these assets back to work as quickly as possible against the need to minimize the Company's losses on these assets. In large part these non-performing assets result from the Company's exposure to the Louisville MSA housing sector, which has experienced a downturn that, while not as significant as that in some other major urban markets, has resulted in reduced collateral values and constrained cash flow situations for home builders and developers. As we work through these issues we will continue to focus on providing quality financial services to our customers while doing what we can to help all our stakeholders get through these tough economic times."

The Company also reported results for the fourth quarter of 2008 as follows:

| | <i>Quarter Ended December 31,</i> | | <i>Quarter Ended September 30,</i> |
|---|---------------------------------------|----------------|--|
| | <i>2008</i> | <i>2007</i> | <i>2008</i> |
| <i>Net income (loss)</i> | <i>\$ (1,352)</i> | <i>\$ 485</i> | <i>\$ 919</i> |
| <i>Net income (loss) per share, basic</i> | <i>\$ (0.42)</i> | <i>\$ 0.15</i> | <i>\$ 0.28</i> |
| <i>Net income (loss) per share, diluted</i> | <i>\$ (0.42)</i> | <i>\$ 0.15</i> | <i>\$ 0.28</i> |

Asset Quality

| | December 31, 2008 | June 30, 2008 | December 31, 2007 |
|---|----------------------|------------------|----------------------|
| Non-performing loans to total assets | 2.36 % | 2.61 % | 1.38 % |
| Non-performing assets to total assets | 2.49 | 2.68 | 1.45 |
| Net loan charge-offs to average assets (1) | 0.44 | 0.68 | 0.08 |
| Allowance for loan losses to total loans | 1.50 | 1.07 | 0.99 |
| Allowance for loan losses to non-performing loans | 45.78 | 31.37 | 55.51 |
| Classified loans (2) | \$ 44,092 | \$ 47,883 | \$ 29,367 |
| Impaired loans (3) | \$ 20,189 | \$ 21,049 | \$ 9,295 |

(1) Net loan charge-offs to average assets as of June 30, 2008 is presented on an annualized basis.

(2) Classified loans represent the outstanding balance of loans which the Company's internal asset review committee has identified as being questionable in terms of the full recovery of principal balance and accrued interest.

(3) Impaired loans represent the outstanding balance of loans for which it is probable that the full value of principal and interest payments will not be received in accordance with the terms of the loan agreement.

During 2008 the Company experienced increases in classified loans, the amount of expected loss associated with impaired loans, past due loans, loan charge-offs, and classified loans, resulting in increases in the provision for loan losses for both the three and twelve months ended December 31, 2008. In addition, management noted continued deterioration in the value of underlying collateral for certain loans classified previous to the fourth quarter of 2008 due to the current economic environment. In response to these trends, management increased the Company's allowance for loan losses to provide for the additional probable incurred losses within its portfolio. As a result, the allowance for loan losses to total loans ratio increased to 1.50% at December 31, 2008 from 0.99% at December 31, 2007. The Company does not originate or hold any loans that are considered "subprime" and, therefore, does not have loss exposure within its portfolio from those types of loans.

Non-interest income increased to \$1.4 million and \$6.1 million for the three and twelve months ended December 31, 2008, respectively, from \$1.0 million and \$4.1 million in 2007. The increase was mostly due to the expiration of the Company's interest rate swap agreements in the third quarter of 2007 and the first quarter of 2008. The Company sold certain securities within its portfolio resulting in a net gain of \$364,000 in 2008 as compared to a net loss of \$41,000 in 2007. The Company was able to sell the securities and reinvest the proceeds at similar yields while extending the maturities slightly. Mortgage banking income decreased to \$(11,000) and \$167,000 for the three and twelve month periods in 2008 as compared to \$58,000 and \$236,000 in 2007 due to the impairment of mortgage servicing rights as fair values declined.

| Total | \$ 5,951 | \$ 5,404 | 10.1 % | \$ 22,554 | \$ 21,804 | 3.4 % |

Non-interest expense for the three and twelve months ended December 31, 2008 increased to \$6.0 million and \$22.6 million from \$5.4 million and \$21.8 million in 2007. Salaries and employee benefits increased in 2008 for both the quarter and year ended December 31, 2008 as the Company added a new branch, resulting in additional employees, and experienced increases in its health insurance costs. Occupancy expense increased to \$573,000 and \$2.2 million for the three and twelve months ended December 31, 2008 due to the previously mentioned new branch location, increases in maintenance expense at certain leased locations, and an increase in property taxes. Data processing expenses decreased for the full year in 2008 compared to 2007 as the Company negotiated lower fees associated with the renewal of its contract with its third party core data processor. Legal and professional service expense fell by \$116,000 and \$230,000 from the three and twelve month periods in 2007 due to a reduction in professional consulting projects from 2007. Other expense increased to \$933,000 from \$672,000 for the fourth quarter of 2008 due to an increase in the Company's FDIC assessment resulting from an increase in FDIC insurance rates and the expiration of certain credits granted in previous years.

We are currently updating our annual analysis of goodwill impairment. In the event we determine impairment exists as of the December 31, 2008, we would record an impairment charge for the fourth quarter of 2008 which would adversely impact our financial position as of December 31, 2008 and results of operations for the three and twelve month periods ending December 31, 2008.
