Dear Mr. Burke:

We have reviewed your filing and have the following comments. Where indicated, we think you should revise your documents in future filings in response to these comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure. After reviewing this information, we may raise additional comments.

Please understand that the purpose of our review process is to assist you in your compliance with the applicable disclosure requirements and to enhance the overall disclosure in your filing. We look forward to working with you in these respects. We welcome any questions you may have about our comments or any other aspect of our review. Form 10-K for the Fiscal Year Ended December 31, 2008

Customers, page 10

1. Please tell us where you identify your customers that account for over 10% of your net sales as required by Item 101(c)(1)(vii) of Regulation S-K.

Overview, page 26

2. When drafting future “Overview” sections for your Management’s Discussion and Analysis of Financial Condition and Results of Operations, please carefully review the guidance in Release 34-48960 (December 19, 2003). As noted in that release, an overview should include the most important matters on which a company’s executives focus in evaluating financial condition and operating performance and provide a context for the discussion and analysis of the financial statements. A good overview should:
 - be a balanced, executive-level discussion that identifies the most important themes or other significant matters with which management is concerned primarily in evaluating the company’s financial condition and operating results;
 - include economic or industry-wide factors relevant to the company;
 - provide insight into the material opportunities, challenges and risks on which the company’s executives are most focused and the actions the company’s executives are taking to address those opportunities, challenges and risks; and
 - address other issues mentioned in the Release.

Item 8. Financial Statements and Supplementary Data, page 41

Note 1. Summary of Significant Accounting Policies, page 49

-Environmental Reserves, page 54

3. We note that you may or may not include potential recoveries from insurers and third parties in making your estimates for your environmental reserves. Please tell us and revise your future filings to explain in more detail how your accounting policy to include potential recoveries from insurers and third parties complies with the guidance in 410-30 and 450-20 of the FASB Accounting Standards Codification.

Note 2. Restructuring and Integration Costs, page 57

4. We note your disclosures related to your restructuring and integration costs during each reporting period presented. Please revise future filings to address the following:
 - Provide the disclosures required by paragraph 420-10-50-1 of FASB Accounting Standards Codification and SAB Topic SAB Topic 5.P.4 for each restructuring activity for all reporting periods presented until the activities are completed.
 - Revise your MD&A in future filings to include disclosure of the items identified in SAB Topic 5.P.4.

Note 7. Goodwill and Other Intangible Assets, page 60

5. We note that you reference a third party valuation firm in determining the fair value of your goodwill impairment and the fair value of the net assets of some of your acquisitions. While in future filings, management may elect to take responsibility for valuing your goodwill and net assets related to your acquisitions, please note that if you continue to refer to the work of the third party valuation firm in a Form 10-K that is incorporated by reference into a registration statement, you may be required to obtain and include a consent from the third party valuation firm. Refer to Compliance and Disclosure Interpretation 141.02, available at our website at <http://www.sec.gov/divisions/corpfin/guidance/sasinterp.htm>.

Item 11. Executive Compensation, page 91

6. In future filings, please replace vague disclosure under “Compensation Discussion and Analysis” that you have incorporated by reference from page 17 of your proxy statement with meaningful information that investors can use to evaluate the compensation program. For example, where you refer to “overall goals,” “strategic goals,” “overall performance” and “individual performance,” please disclose with specificity how you define those terms. Please do not use boilerplate disclosure or jargon in this section. Instead, specifically describe how the committee determined individual elements of compensation for each named executive officer.
7. We note that you have not disclosed actual EVA results for fiscal year 2008. In addition to disclosing all performance targets that must be achieved in order for your executive officers to earn their incentive compensation, you should disclose the actual results for each metric. Please confirm that you will include this disclosure in future filings.
8. We refer to your disclosure on pages 20-22 of equity compensation awards. In future filings, please include substantive analysis and insight into how your compensation committee made its equity-based compensation determinations with respect to each named executive officer and, if applicable, why those awards varied among your named executive officers.

9. For purposes of the Summary Compensation Table that you have incorporated by reference from page 25 of your proxy statement, please consider whether the amount disclosed in the bonus column may be more appropriately characterized as a non-equity incentive award. Please provide your analysis.

- the company is responsible for the adequacy and accuracy of the disclosure in the filing;
