Freedom Investments, Inc.
Notes to Statement of Financial Condition
December 31, 2022

1. Organization

Freedom Investments, Inc. (the “Company”), a Delaware Corporation, was organized in November 1994 and is a registered broker-dealer under the Securities Exchange Act of 1934. The Company is a member of the Financial Industry Regulatory Authority (“FINRA”). The Company provides online investing as well as discount brokerage services to individual investors throughout the United States.

The Company is a wholly-owned subsidiary of Oppenheimer & Co. Inc. (the “Parent”) whose ultimate parent is Oppenheimer Holdings Inc., a Delaware public corporation. The Company has a clearing agreement with the Parent to clear its security transactions on a fully disclosed basis.

2. Significant Accounting Policies

The Statement of Financial Condition has been prepared in conformity with accounting principles generally accepted in the United States of America. The preparation of the Statement of Financial Condition in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Statement of Financial Condition. Actual results could differ from those estimates.

Cash

The Company defines cash equivalents as highly liquid investments with original maturities of less than 90 days that are not held for sale in the ordinary course of business.

Income Taxes

The Company accounts for income taxes under the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the Statement of Financial Condition. Under this method, deferred tax assets and liabilities are determined on the basis of the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse.

The Company recognizes deferred tax assets to the extent it believes these assets are more likely than not to be realized. In making such a determination, the Company considers all available positive and negative evidence, including future reversals of existing taxable temporary differences, projected future taxable income, tax-planning strategies, and the results of recent operations.

Uncertain tax positions are recorded on the basis of a two-step process whereby (1) the Company determines whether it is more likely than not that the tax positions will be sustained on the basis of the technical merits of the position and (2) for those tax positions that meet the more-likely-than-not recognition threshold the Company recognizes the largest amount of the tax benefit that is more than 50 percent likely to be realized upon ultimate settlement with the related tax authority.

Notes to Statement of Financial Condition

3. Net Capital Requirement

As a registered broker-dealer, the Company is subject to the Securities and Exchange Commission's Uniform Net Capital Rule 15c3-1, which requires that net capital, as defined, shall be the greater of \$100,000, or of 6-2/3% of aggregate indebtedness, as defined. At December 31, 2022, the Company had net capital of \$4,351,620 which exceeded minimum capital requirements by \$4,251,620.

4. Income Taxes

As of December 31, 2022, the Company has no deferred tax assets or liability.

The Company is subject to taxation in the U.S. and various state and local jurisdictions. As of December 31, 2022, generally, the Company's tax years 2018 and forward are subject to examination by the taxing authorities. Where tax returns have not been filed, the statute of limitations remains open indefinitely.

As of December 31, 2022, the Company has no unrecognized tax benefits. The Company's management does not expect the total amount of unrecognized tax benefits will materially change over the next twelve months.

5. Related Party Transactions

The Company has a clearing agreement with the Parent to clear its security transactions on a fully disclosed basis. In the event a fully disclosed customer is unable to fulfill its contractual obligation to the Parent, the Company may be exposed to off-balance sheet risk. Pursuant to the terms of the agreements between the Company and the Parent, the Parent has the right to charge the Company for losses that result from a counterparty's failure to fulfill its contractual obligations. As the right to charge the Company has no maximum amount and applies to all trades executed through the Parent, the Company believes there is no maximum amount assignable to this right. At December 31, 2022, the Company has recorded no liabilities with regard to the right. In addition, the Company has the right to pursue collection or performance from the counterparties who do not perform under their contractual obligations.

Cash of \$2,801,054 is held in the Company's brokerage account with the Parent. The Company is included in the Parent's calculation of reserve requirements for the proprietary accounts of brokers.

At December 31, 2022, the Company had an amount due to the Parent of \$43,432.

6. Subsequent Events

The Company has performed an evaluation of events that have occurred since December 31, 2022 and through the date on which the Statement of Financial Condition was issued, and determined that there are no events that have occurred that would require recognition or additional disclosure.
