PACIFIC HARBOUR CAPITAL LTD.
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2006
(Stated in Canadian Dollars)
(Unaudited – Prepared by Management)

Note 1 Nature of Operations

Pacific Harbour Capital Ltd., formerly Venture Pacific Development Corporation, is a public company, which was incorporated on March 8, 1986 under the British Columbia Business Corporations Act. Its common shares are traded on the TSX Venture Exchange and on the OTC Bulletin Board. The Company's primary business is investments in marketable securities, land held for resale and investments in private companies in the development stage. Currently the Company holds investment in a 133-acre parcel of land in Pemberton, B.C., Canada and various marketable securities.

During fiscal 2004, the Company through a wholly owned US subsidiary, disposed of its principal asset, a parcel of land located in Pahrump, Nevada. In fiscal 2003, the Company disposed of its assets relating to the vehicle leasing business; and the Company disposed of its 50% joint venture interest in the Pemberton Junction gas station/convenience store. The operation of the vehicle leasing business is presented as discontinued operations within these consolidated financial statements.

Note 2 Significant Accounting Policies

The unaudited interim consolidated financial statements are prepared by the Company in accordance with Canadian generally accepted accounting principles. The preparation of financial data is based on accounting policies and practices consistent with those used in the annual audited financial statements. These interim consolidated financial statements do not include all the disclosures included in the Company's annual financial statements. Accordingly, these interim financial statements should be read in conjunction with the Company's annual consolidated financial statements.

Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates that have been made using careful judgement. Actual results may differ from these estimates.

The interim consolidated financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the significant accounting policies summarised below:

Note 2 Significant Accounting Policies- (cont'd)

a) Principle of Consolidation

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries: 345384 BC Ltd, Venture Pacific Development Capital Ltd., Venture Pacific Vehicle LeaseCorp Inc., VenPac Nevada I, Inc. and Venture Pacific Development USA Ltd.

All inter-company transactions and balances have been eliminated.

b) Marketable-Securities

Marketable securities are carried at the lower of cost and fair market value.

c) Land Held for Resale

Land held for resale is carried at the lower of cost and net realizable value. The cost of the land includes certain direct and indirect costs including property taxes. To the extent that costs are determined to exceed net realizable value they will be written down accordingly.

d) Capital Assets and Amortization

Capital assets are recorded at cost. Amortization has been calculated using the following annual rates and methods:

| | |
|--------------------|-----------------------|
| Computer equipment | 30% declining balance |
| Office furniture | 20% declining balance |
| Software | 50% declining balance |

e) Investment

Investment is carried at cost. To the extent that cost exceeds net realizable value it will be written down accordingly.

f) Basic and Diluted Loss per Share

Basic earnings or loss per share are computed by dividing the loss for the year by the weighted average number of common shares outstanding during the year. Diluted earnings per share reflect the potential dilution that could occur if potentially dilutive securities

Note 2 Significant Accounting Policies- (cont'd)

were exercised or converted to common stock. The dilutive effect of options and warrants and their equivalent is computed by application of the treasury stock method and the effect of convertible securities by the "if converted" method. Fully diluted amounts are not presented when the effect of the computations are anti-dilutive due to the losses incurred. Accordingly, there is no difference in the amounts presented for basic and diluted loss per share.

g) Foreign Currency Translation

Monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars at rates of exchange in effect at the date of the consolidated balance sheet. Non-monetary assets, liabilities and other items recorded in income arising from transactions denominated in foreign currencies, are translated at rates of exchange in effect at the date of the transaction. Resulting exchange gains or losses are included in income when incurred.

h) Fair Market Value of Financial Instruments

The carrying values of cash and cash equivalents and accounts payable and accrued liabilities approximate fair value because of the short-term maturity of those instruments. Marketable securities exceed their stated cost. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments.

i) Stock-Based Compensation Plan

On January 1, 2004, the Company adopted the amended CICA Handbook Section 3870- "Stock-based Compensation and Other Stock-based Payments". Under this method, the Company must account for compensation expense based on the fair value of rights granted under its stock-based compensation plan. Compensation costs attributable to share options granted to employees, directors and officers is measured at fair value at the grant date, and expensed over the expected exercise time with a corresponding increase in contributed surplus. Upon exercise of stock options, consideration paid by the option holder, together with the amount previously recognized in contributed surplus, is recorded as an increase to share capital.

Note 3 Land Held for Resale

As of September 30, 2006, the Company's land held for resale consists of one Pemberton land parcel. The Company capitalized property taxes and other costs.

Stock-Based Compensation Plan

The Company has a stock option plan (the “Plan”) for executives, employees and consultants whereby a maximum of 10% of the issued shares will be reserved for issuance under the Plan. Options are granted with an exercise price determined by the Board of directors, which may not be less than the market price of the Company’s stock on the date of the grant. The vesting provisions are determined by the Board of Directors and are defined in each stock option agreement.

Information regarding the Company’s outstanding stock options is summarized as follows:

| | <u>Number</u> | <u>Weighted Average Exercise Price</u> |
|---|---------------|--|
| Outstanding and exercisable at March 31, 2005 | 879,028 | \$ 0.39 |

| <hr/> | | |
| 979,028 | | |
| <hr/> | | |

Note 7 Related Party Transactions

For the six months ended September 30, 2006 and 2005, the Company was charged the following expenses by directors or companies with common directors:

| | <u>2006</u> | <u>2005</u> |
|------------------------------|-------------|-------------|
| Administration recovery | (28,000) | (21,933) |
| Legal and professional fees | - | 1,755 |

| | <hr/> | <hr/> |
| | (16,000) | 12,072 |
| | <hr/> | <hr/> |

These charges were measured by the exchange amount, which is the amount agreed upon by the transacting parties and are on terms and conditions similar to non-related entities.

Note 8 Differences Between Canadian and US Generally Accepted Accounting Principles

These consolidated financial statements have been prepared in accordance with generally accepted accounting principles ("GAAP") in Canada which differ in certain respects with those principles and practices that the Company would have followed had its financial statements been prepared in accordance with GAAP in the US.

The material differences between Canadian and US GAAP, which affect the Company's results of operations and financial position, are summarized as follows:

A) Accounting for Start-up Activities

Under US GAAP, the carrying costs of holding properties including property taxes would not be eligible for capitalization to the properties held for resale and would be expensed as incurred.

B) Stock-based Compensation

The Company grants stock options at exercise prices equal to the fair market value of the Company's stock at the date of the grant. Pursuant to APB No.25 and SFAS No.123, the compensation charge associated with non-employee's options has been recorded in reconciling items for the year ended March 31, 2003 and earlier. Subsequent to March 31, 2003, the Company has adopted the policy to expense all stock option benefits in accordance with SFAS No. 123 and to apply this change under the modified prospective method with no retroactive restatement of the prior year in accordance with the transitional provisions of SFAS No. 148. The Company has adjusted the opening Contributed Surplus to reflect the cumulative expense of employee stock options previously reported on a pro forma basis.

C) Marketable Securities

Under US GAAP, securities that are acquired principally for the purpose of selling them in the near term are classified as trading securities. Unrealised holding gains and losses for trading securities shall be included in earnings and reported for the period.

The impact of these material differences on the consolidated financial statements is as follows:

Revenue

For the three months ended September 30, 2006, the Company earned revenue of \$2,884 compared to \$2,602 from the same quarter last year. Cumulatively for the six months period ended September 30, 2006, the Company reported total revenue of \$104,840 compared to \$3,404 for the same period last year. Revenue consisted of interest income and gain on sale of marketable securities. The increase in revenue was primarily due to a gain realized from the sale of marketable securities during the first quarter in 2006.

General and Administrative Expenses

General and administrative expenses reduced slightly in the second quarter ended September 30, 2006 compared to the same quarter last year from \$69,138 to \$53,333. For the six months period, general and administrative expenses reduced from \$141,646 to \$118,203 respectively. The reduction was mainly attributable to management cost cutting measure by reducing its management fees paid to management. Offsetting the decrease above, the Company incurred higher legal expenses in the six months period in order to settle its existing lawsuits.

Other Items

In this quarter, the Company reached an agreement with respect to a lawsuit and reported a gain on debt settlement of \$25,446.

Net Income (Loss)

The Company reported a net loss of \$25,003 or \$0.00 loss per share for the second quarter ended September 30, 2006 compared to a net loss of \$66,536 or \$0.01 loss per share in the comparable quarter last year. For the six months period, the Company reported a net income of \$12,083 or \$0.00 income per share as compared to a net loss of \$138,242 or \$0.02 loss per share in the comparative six months period.

1.4 Transactions with Related Parties

During the six months period ended September 30, 2006, the Company paid \$12,000 (2005: \$32,250) management fee to a company controlled by a director and officer of the Company for management services.

The Company received \$28,000 (2005: 21,933) in fees from a related company that has a director and officer in common. Fees were paid for shared office facilities and staffing costs.

All the above charges are on terms and conditions similar to non-related parties.

On September 30, 2006, working capital increased by \$14,401 from \$742,997 on March 31, 2006 to 757,398. The increase was attributable to investment gain from marketable securities and gain on debt settlement of \$25,446 during the six months period.

During the second quarter ended September 30, 2006, the Company had negative cash outflow of \$49,505 from operating activities compared to \$71,322 negative cash outflow from the same quarter last year. From an operating standpoint, the Company continues to rely on proceeds from sale of investment or property to remedy operating deficiency. The Company has no plan for any material capital expenditure in the coming year.

The Company did not engage in any financing activities in the quarter ended September 30, 2006.

During the three months ended September 30, 2006, the Company did not engage in any investing activities.

The Company generated negative net cash outflow of \$49,505 for the quarter. Depending on future growth and investment activities, the Company may obtain equity or debt financing to support acquisition or investment activities.

1.7 Contingent liabilities and Lawsuit

The Company is currently involved with one court case, which it plans to defend vigorously. The court case involves another law firm engaged by the previous management. The firm claims outstanding legal fees of approximately \$32,000. The Company is in the process of contesting the amount through the court and deems it unreasonable. This legal fee has been accrued in the financial statement in full.

1.8 Off-Balance Sheet Arrangements

The Company has no material off-balance sheet arrangement such as guarantee contracts, contingent interest in assets transferred to an entity, derivative instruments obligations and any obligations that trigger financing, liquidity, market or credit risk to the Company.

1.9 Contractual Obligations and Commitments

As of September 30, 2006, the Company had no long-term debt, capital lease obligations, purchase obligations and contractual obligations and commitments. The Company, however, has an operating lease commitment for office space at \$62,495 per annum until March 31, 2007.

1.10 Financial instruments and Risk Factors

As of September 30, 2006 the Company held \$173,745 in marketable securities, which are valued at the lower of cost and fair market value. These marketable securities are exposed to market volatility and may result in risk of loss in value. Other financial instruments, which include cash and cash equivalents, accounts payable were not exposed to any financial instruments risks since their fair value approximates their carrying values.

Business or investment risks

The Company is subject to risks of venturing into businesses or investments that are not profitable and may result in additional debt costs and contingent liabilities.

1.11 Outlook

Identifying profitable business ventures and investments will be the main task for the Company in order to achieve profitable operations. The Company's mandate is to improve operations in order to increase shareholders' value.

1.12 Disclosure Controls and Procedures

The Company performed an evaluation under the supervision of the Company's management including the chief executive officer and financial controller of the effectiveness and design and operation of the Company's disclosure and control procedures as of the end of the financial quarter ended September 30, 2006. Based on that evaluation, the Company's management concluded that the Company's disclosure controls and procedures were effective as of the ended of September 30, 2006 and provided reasonable assurance that information required to be disclosed by the Company in the 2006 annual filings was recorded, summarized and reported within the regulated time period. The Company's management identified no change in the Company's internal control over financial reporting that occurred for the financial quarter ended September 30, 2006 and that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
