**Item 4.02a Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.**

Alliance One International, Inc. (the “Company”) determined that its previously issued Condensed Consolidated Balance Sheet as of September 30, 2007 and the related Condensed Consolidated Statements of Income, and Condensed Consolidated Statements of Cash Flows for the three and six month periods ended September 30, 2007 (the “Second Quarter Financial Statements”) presented in its Quarterly Report on Form 10-Q for the period ended September 30, 2007 (the “Second Quarter 10-Q”) should have reflected restructuring and asset impairment charges related to the sale of Compañía General de Tabacos de Filipinas, S.A. and its worldwide operating subsidiaries (“CdF”) in the amount of \$6.9 million. The \$6.9 million restructuring and asset impairment charge includes an asset impairment charge of \$6.1 million on the sale of CdF which considers the \$3.9 million currency translation account debit that was included in accumulated other comprehensive income as of September 30, 2007 and employee severance charges of \$0.8 million. The impact of this error was to understate restructuring and asset impairment costs by \$6.9 million and to overstate net income by \$6.6 million (after a related \$0.3 million tax benefit) for the three months and six months ended September 30, 2007. These impairment charges should have been booked in the second quarter financial statements but were erroneously included as a subsequent event.

At September 30, 2007, the Company performed a restructuring and asset impairment analysis and deemed it appropriate to defer application of this analysis until the quarter ending December 31, 2007, as reflected in Note 16 to the Second Quarter Financial Statements. During the preparation of the Company’s financial statements for the quarter ended December 31, 2007, management of the Company, determined that the Company should have recorded the restructuring and asset impairment charges related to the sale of CdF in the Second Quarter Financial Statements. Upon making such determination, management of the Company promptly informed the Audit Committee of the Board of Directors. The Company’s management, in consultation with the Audit Committee concluded that it was necessary to restate the Second Quarter Financial Statements to include the impairment charges.

As a result, on February 6, 2008, management of the Company, in consultation with the Audit Committee of the Board of Directors of the Company concluded that the Second Quarter Financial Statements should no longer be relied upon. The Company plans to amend and restate its Second Quarter 10-Q to reflect these changes as soon as practicable.

The Audit Committee and authorized officers of the Company have discussed the matters disclosed pursuant to this Item 4.02 (a) filing with the Company's independent registered public accounting firm, Deloitte & Touche LLP.

Management, in consultation with the Audit Committee, has concluded that these errors constitute a material weakness in the Company’s internal controls over financial reporting as defined by the Public Company Accounting Oversight Board.
