and its Separate Account N**

ING Advantage CenturySM

**Supplement dated April 28, 2008 to the Contract Prospectus and the Statement of Additional Information
each dated April 28, 2008, as amended**

This supplement updates and amends certain information contained in your Contract Prospectus and Statement of Additional Information (SAI). Please read it carefully and keep it with your current Contract Prospectus and SAI for future reference.

IMPORTANT INFORMATION REGARDING UPCOMING FUND LIQUIDATION

On January 31, 2008, the Board of Trustees of ING Variable Products Trust approved a proposal to liquidate the ING VP Financial Services Portfolio.

The proposed liquidation is subject to shareholder approval. If shareholder approval is obtained, it is expected that the liquidation will take place on or about September 5, 2008 (the "Closing Date").

Voluntary Transfers Before the Effective Date of the Liquidation. Anytime prior to the Closing Date you may transfer amounts that you have allocated to the subaccount that invests in the ING VP Financial Services Portfolio to any of the other available investment options. There will be no charge for any such transfer, and any such transfer will not count as a transfer when imposing any applicable restriction or limit on transfers.

You may give us alternative allocation instructions at any time by contacting our Administrative Service Center at:

ING Service Center
P.O. Box 5050
Minot, North Dakota 58702-5050
1-877-884-5050

See also the Transfers Among Investment Options section on page 12 of your Contract Prospectus for further information about making allocation changes. More information about the funds available through your contract, including information about the risks associated with investing in these funds, can be found in the current prospectus and SAI for that fund. You may obtain these documents by contacting us at our Administrative Service Center noted above.

Automatic Reallocation Upon Liquidation. After the Closing Date and our receipt of the proceeds from the liquidation of the ING VP Financial Services Portfolio, amounts that were allocated to the subaccount that invested in this portfolio will be automatically reallocated to the subaccount that invests in the ING Liquid Assets Portfolio. There will be no charge for this automatic reallocation, and this automatic reallocation will not count as a transfer when imposing any applicable restriction or limit on transfers. Furthermore, you will not incur any tax liability because of this automatic reallocation, and your account value immediately before the reallocation will equal your account value immediately after the reallocation.

Future Allocations. After the Closing Date, the subaccount that invested in the ING VP Financial Services Portfolio will no longer be available through your Contract Prospectus. Any future allocations directed to a subaccount that invested in this portfolio will be automatically allocated to the subaccount that invests in the ING Liquid Assets Portfolio.

Information about the ING Liquid Assets Portfolio. Summary information about the ING Liquid Assets Portfolio can be found in Appendix II – Fund Descriptions in your Contract Prospectus, and in the fund fact sheet for that fund. More detailed information can be found in the current prospectus and SAI for that fund. You may obtain these documents by contacting our Administrative Service Center as noted on the previous page.

There will be no further disclosure regarding the ING VP Financial Services Portfolio in future Contract Prospectuses.

ING Advantage CenturySM
CONTRACT PROSPECTUS - April 28, 2008

The Contracts. The contracts described in this prospectus are flexible premium individual fixed and variable Advantage CenturySM deferred annuity contracts issued by ReliaStar Life Insurance Company (the Company, we, us, our). They are issued to you, the contract owner, on a nonqualified basis, or in connection with retirement plans qualifying for special treatment under the Internal Revenue Code of 1986, as amended (Tax Code). Prior to October 1, 2002, the contracts were issued by Northern Life Insurance Company.

Why Reading this Prospectus is Important. This prospectus contains facts about the contract and its investment options that you should know before purchasing. This information will help you decide if the contract is right for you. Please read this prospectus carefully and keep it for future reference.

Table of Contents ... page 3

Investment Options. The contracts offer variable investment options and three fixed interest options. When we establish your account you instruct us to direct account dollars to any of the available options. Some investment options may be unavailable through certain contracts or plans, or in some states.

** FMRSM is a service mark of Fidelity Management & Research Company.

(1) This fund has changed its name to the name listed above. See "Appendix II – Fund Descriptions" for a complete list of former and current fund names.

(2) These funds are structured as fund of funds that invest directly in shares of underlying funds. See "Fees – Fund Fees and Expenses" for additional information.

(3) This fund is scheduled to be liquidated into the ING Liquid Assets Portfolio (Class I) on or about September 5, 2008.

(4) Effective June 1, 2008, the fund is scheduled to change its name to Wanger USA.

CONTRACT PROSPECTUS – April 28, 2008 (continued)

Variable Investment Options. These options are called subaccounts. The subaccounts are within Separate Account N, a separate account of the Company. Each subaccount invests in one of the mutual funds listed on the previous page. Earnings on amounts invested in a subaccount will vary depending upon the performance of its underlying fund. You do not invest directly in or hold shares of the funds.

Risks Associated with Investing in the Funds. The funds in which the subaccounts invest have various risks. Information about the risks of investing in the funds is located in the “Investment Options” section on page 10 and in each fund prospectus. Read this prospectus in conjunction with the fund prospectuses, and retain the prospectuses for future reference.

Fixed Interest Options.

- ▷ Fixed Account A
- ▷ Fixed Account B
- ▷ Fixed Account C

Except as specifically mentioned, this prospectus describes only the investment options offered through Separate Account N. However, we describe the fixed interest options in Appendix I to this prospectus.

Compensation. We pay compensation to broker-dealers whose registered representatives sell the contracts. See “Contract Distribution” for further information about the amount of compensation we pay.

Availability of Features. Not all features are available in all states. The contracts are not available for sale in New York. Some funds may be unavailable through certain contracts and plans or in some states.

Getting Additional Information. You may obtain the April 28, 2008 Statement of Additional Information (SAI) about the separate account without charge by calling us at 1-877-884-5050 or writing us at the address listed in the “Contract Overview - Questions: Contacting the Company” section of the prospectus. The Securities and Exchange Commission (SEC) also makes available to the public reports and information about the separate account and the funds. Certain reports and information, including this prospectus and SAI, are available on the EDGAR Database on the SEC website, <http://www.sec.gov>, or at the SEC Public Reference Branch in Washington, D.C. You may call 1-202-551-8090 or 1-800-SEC-0330 to get information about the operations of the Public Reference Branch. You may obtain copies of reports and other information about the separate account and the funds, after paying a duplicating fee, by sending an e-mail request to publicinfo@sec.gov or by writing to the SEC Public Reference Branch, 100 F Street, NE, Room 1580, Washington, D.C. 20549. When looking for information regarding the contracts offered through this prospectus, you may find it useful to use the number assigned to the registration statement under the Securities Act of 1933. This number is 333-100207. The SAI table of contents is listed on page 52 of this prospectus. The SAI is incorporated into this prospectus by reference.

Additional Disclosure Information. Neither the SEC nor any state securities commission has approved or disapproved the securities offered through this prospectus or passed on the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense. We do not intend for this prospectus to be an offer to sell or a solicitation of an offer to buy these securities in any state that does not permit their sale. We have not authorized anyone to provide you with information that is different from that contained in this prospectus.

The contracts are not deposits with, obligations of or guaranteed or endorsed by any bank, nor are they insured by the FDIC. The contracts are subject to investment risk, including the possible loss of the principal amount of your investment.

Questions: Contacting the Company. To answer your questions, contact your sales representative or write or call us at our Administrative Service Center.

ING Service Center
P.O. Box 5050
Minot, North Dakota 58702-5050
1-877-884-5050

Sending Forms and Written Requests in Good Order.

If you are writing to change your beneficiary, request a withdrawal or for any other purpose, contact us or your sales representative to learn what information is required for the request to be in "good order." Generally, a request is considered to be in "good order" when it is signed, dated and made with such clarity and completeness that we are not required to exercise any discretion in carrying it out. By contacting us, we can provide you with the appropriate administrative form for your requested transaction.

We can only act upon requests that are received in good order.

Contract Overview

The following is intended as a summary. Please read each section of this prospectus for additional detail.

Contract Design

The contracts described in this prospectus are individual deferred fixed and variable annuity contracts. They are intended to be retirement savings vehicles that offer a variety of investment options to help meet long-term financial goals and provide for a death benefit and guaranteed income options. The term "contract" in this prospectus refers to individual fixed and variable annuity contracts.

Who's Who

You*: The individual who purchases the contract.

Contract Holder*: The person (or non-natural owner) to whom we issue the contract. Generally, you. The contract holder has all rights under the contract.

We may also refer to the contract holder as the contract owner.

We (the Company): ReliaStar Life Insurance Company. We issue the contract.

For greater detail, please review "Purchase and Rights."

*Some contracts may be purchased by and issued directly to employers sponsoring certain plans, including 457 and 401 plans. The terms "you," "contract holder," and "contract owner" apply to these employers, who have all rights under the contracts.

The Contract and Your Retirement Plan

The contracts may be issued on a nonqualified basis (nonqualified contracts), or for use with retirement arrangements under Tax Code sections 403(b), 408, 408A or 457 of the Tax Code (qualified contracts). We may also, at our discretion, issue nonqualified contracts for use with retirement arrangements under Tax Code section 401.

Use of an Annuity Contract in a Retirement Plan. Under the federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of a qualified retirement account (such as a 401, 403(b), Roth 403(b), 408, 408A, or 457 retirement plan), an annuity contract is not necessary to obtain this favorable tax treatment and does not provide any tax benefits beyond the deferral already available to the tax qualified account itself. Annuities do provide other features and benefits (such as the guaranteed death benefit or the option of lifetime income phase options at established rates) that may be valuable to you. You should discuss your alternatives with your financial representative taking into account the additional fees and expenses you may incur in an annuity. See "Purchase and Rights."

Contract Facts

Free Look/Right to Cancel. You may cancel your contract within ten days (some states require more than ten days) of receipt. See "Right to Cancel."

Death Benefit. Your beneficiary may receive a financial benefit in the event of your death prior to the income phase. Any death benefit during the income phase will depend upon the income phase payment option selected. See "Death Benefit" and "The Income Phase."

Withdrawals. During the accumulation phase you may withdraw all or part of your account value. Certain fees and taxes may apply. In addition, the Tax Code restricts full and partial withdrawals in some circumstances. See "Withdrawals."

Systematic Withdrawals. These are made available for you to receive periodic withdrawals from your account, while retaining the account in the accumulation phase. See “Systematic Withdrawals.”

Loans. If allowed by the contract, loans may be available during the accumulation phase. These loans are subject to certain restrictions. See “Loans.”

Fees and Expenses. Certain fees and expenses are deducted from the value of your contract. See “Fee Table” and “Fees.”

Taxation. Taxes will generally be due when you receive a distribution. Tax penalties may apply in some circumstances. See “Taxation.”

Contract Phases

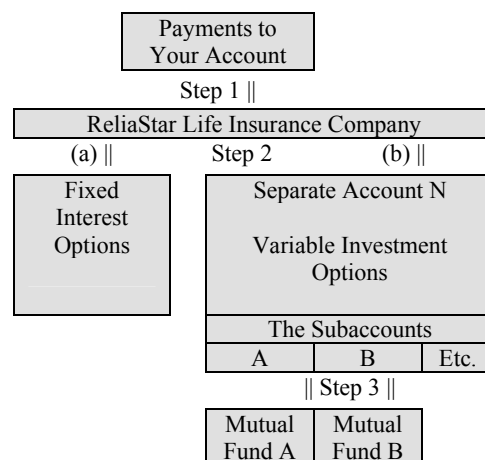

I. The Accumulation Phase (accumulating dollars under your contract)

STEP 1: You provide us with your completed application and initial purchase payment. We establish an account for you and credit that account with your initial purchase payment.

STEP 2: You direct us to invest your purchase payment in one or more of the following investment options:

- (a) Fixed Interest Options; or
- (b) Variable Investment Options. (The variable investment options are the subaccounts of Separate Account N. Each one invests in a specific mutual fund.)

STEP 3: Each subaccount you select purchases shares of its assigned fund.

II. The Income Phase (receiving income phase payments from your contract)

When you want to begin receiving payments from your contract you may select from the options available. The contracts offer three income phase payment options. See “The Income Phase.” In general, you may:

- Receive monthly income phase payments for your life (assuming you are the annuitant); or
- Receive monthly income phase payments for your life, but with payments continuing to your beneficiary for ten years if you die before the end of the selected period; or
- Receive monthly income phase payments for your life and for the life of another person; and
- Select income phase payments that are fixed or vary depending upon the performance of the variable investment options you select.

Fee Table

In this Section:

- ▷ Maximum Contract Owner Transaction Expenses
- ▷ Annual Maintenance Fee
- ▷ Maximum Separate Account Annual Expenses
- ▷ Total Annual Fund Operating Expenses
- ▷ Hypothetical Examples
- ▷ Fees Deducted by the Funds

Also see the “Fees” section for:

- ▷ How, When and Why Fees are Deducted
- ▷ Redemption Fees
- ▷ Reduction or Elimination of Certain Fees
- ▷ Premium and Other Taxes
- ▷ Charge for the Optional One-Year Step Up Death Benefit Rider

We may have used the following terms in prior prospectuses:

Contingent Deferred Sales Charge-Early Withdrawal Charge

Annual Contract Charge-Annual Maintenance Fee

Contract Year-Account Year

Administrative Charge-Administrative Expense Charge

Reallocation Charge-Transfer Charge

Texas K-12 TSA Contracts: Voluntary 403(b) annuity contracts for employees of K-12 public schools in Texas who purchased the contract on or after June 1, 2002. These contracts meet the requirements established by the Teachers Retirement System of Texas in support of Senate Bill 273.

The following tables describe the fees and expenses that you will pay when buying, owning, and withdrawing from your contract. The first table describes the fees and expenses that you will pay at the time that you buy the contract, withdraw from the contract, take a loan from the contract or transfer cash value between investment options. State premium taxes may also be deducted.* See “The Income Phase” for fees that may apply after you begin receiving payments under the contract.

Maximum Contract Owner Transaction Expenses

Early Withdrawal Charge (as a percentage of amount withdrawn) ¹	
Applicable to Texas K-12 TSA contracts.....	8.0%
Applicable to all other contracts.....	7.0%
Partial Withdrawal Processing Fee ²	\$25.00
Transfer Charge ³	\$25.00
Loan Processing Fee ⁴	\$25.00
Loan Interest Rate Spread (per annum) ⁵	3.0%

¹ The early withdrawal charge for contracts applies to each purchase payment and reduces over time. In certain cases this charge may not apply to a portion or all of your withdrawal. These fees may be waived, reduced or eliminated in certain circumstances.

² The Company does not currently impose a partial withdrawal processing fee, but reserves the right to charge a fee not to exceed the lesser of 2.0% of the partial withdrawal amount or \$25, including partial withdrawals made as a part of a systematic withdrawal program. See “Fees - Early Withdrawal Charge.” See also “Systematic Withdrawals.”

³ The Company does not currently impose a charge for transfers between the subaccounts or to or from the fixed interest options. However, we reserve the right to assess a \$25 charge on any transfer or to limit the number of transfers, including transfers made under the dollar cost averaging program or the account rebalancing program.

⁴ This is the maximum fee we would charge. We are not currently charging this fee. See “Loans.”

⁵ This is the difference between the rate applied and the rate credited on loans under your contract. Currently the loan interest rate spread is 2.5% per annum; however we reserve the right to apply a spread of up to 3.0% per annum. See “Loans.”

The next table describes the fees and expenses that you will pay periodically during the time that you own the contract, not including fund fees and expenses.

Annual Maintenance Fee ⁶	\$30.00
--	---------

Maximum Separate Account Annual Expenses (as a percentage of average account value)

Mortality and Expense Risk Charge.....	1.25%
Administrative Expense Charge.....	0.15%
Optional One-Year Step Up Death Benefit Rider Charge ⁷	<u>0.15%</u>
Total Maximum Separate Account Annual Expenses.....	<u>1.55%</u>

⁶ The Company currently deducts an annual maintenance fee of \$30 from the account value, but reserves the right to waive the charge when the account value exceeds \$25,000. We also reserve the right to waive this charge where the annual purchase payments, less any cumulative partial withdrawals, equal or exceed \$5,000.

⁷ The 0.15% fee is only charged to contract owners who choose the optional death benefit rider. This rider is not available for contracts issued in the State of Texas.

*State premium taxes (which currently range from 0.0% to 4.0% of premium payments) may apply, but are not reflected in the fee tables or examples. See “Fees - Premium and Other Taxes.”

The next item shows the minimum and maximum total operating expenses charged by the funds that you may pay periodically during the time that you own the contract. The minimum and maximum expenses listed below are based on expenses for the funds' most recent fiscal year ends without taking into account any fee waiver or expense reimbursement arrangements that may apply. More detail concerning each fund's fees and expenses is contained in the prospectus for each fund.

<i>Total Annual Fund Operating Expenses</i> (expenses that are deducted from fund assets, including management fees and other expenses)	Minimum	Maximum
	0.10%	1.50%

Hypothetical Examples

The following Examples are intended to help you compare the cost of investing in the contract with the cost of investing in other variable annuity contracts. These costs include contract owner transaction expenses, contract fees, separate account annual expenses, the annual maintenance fee of \$30 (converted to a percentage of assets equal to 0.159%), and fund fees and expenses.

Example 1: The following Examples assume that you invest \$10,000 in the contract for the time periods indicated. The Examples also assume that your investment has a 5.0% return each year and assume the **maximum** fees and expenses of any of the funds. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

(A) If you withdraw your entire account value at the end of the applicable time period:

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$966	\$1,466	\$1,876	\$3,512

(B) If you do not withdraw your entire account value or if you select an income phase payment option at the end of the applicable time period:

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$324	\$989	\$1,678	\$3,512

Example 2: The following Examples assume that you invest \$10,000 in the contract for the time periods indicated. The Examples also assume that your investment has a 5.0% return each year and assume the **minimum** fees and expenses of any of the funds. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

(A) If you withdraw your entire account value at the end of the applicable time period:

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$836	\$1,069	\$1,179	\$2,126

(B) If you do not withdraw your entire account value or if you select an income phase payment option at the end of the applicable time period:

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$184	\$569	\$979	\$2,126

Fees Deducted by the Funds

Fund Fee Information. The fund prospectuses show the investment advisory fees, 12b-1 fees and other expenses including service fees (if applicable) charged annually by each fund. See the "Fees" section of this prospectus, and the fund prospectuses, for further information. Fund fees are one factor that impact the value of a fund share. To learn about additional factors, refer to the fund prospectuses.

The Company may receive compensation from each of the funds or the funds' affiliates based on an annual percentage of the average net assets held in that fund by the Company. The percentage paid may vary from one fund company to another. For certain funds, some of this compensation may be paid out of 12b-1 fees or service fees that

are deducted from fund assets. Any such fees deducted from fund assets are disclosed in the fund prospectuses. The Company may also receive additional compensation from certain funds for administrative, recordkeeping or other services provided by the Company to the funds or the funds' affiliates. These additional payments may also be used by the Company to finance distribution.

These additional payments are made by the funds or the funds' affiliates to the Company and do not increase, directly or indirectly, the fund fees and expenses. See "Fees - Fund Fees and Expenses" for additional information.

In the case of fund companies affiliated with the Company, where an affiliated investment adviser employs subadvisers to manage the funds, no direct payments are made to the Company or the affiliated investment adviser by the subadvisers. Subadvisers may provide reimbursement for employees of the Company or its affiliates to attend business meetings or training conferences. Investment management fees are apportioned between the affiliated investment adviser and subadviser. This apportionment varies by subadviser, resulting in varying amounts of revenue retained by the affiliated investment adviser. This apportionment of the investment advisory fee does not increase, directly or indirectly, fund fees and expenses. "Fees - Fund Fees and Expenses" for additional information.

How Fees are Deducted. Fees are deducted from the value of the fund shares on a daily basis, which in turn affects the value of each subaccount that purchases fund shares.

Condensed Financial Information

Understanding Condensed Financial Information. In Appendix III of this prospectus we provide condensed financial information about Separate Account N subaccounts you may invest in through the contract. The numbers show the year-end unit values of each subaccount over the past ten years. For subaccounts not available ten years ago, we give a history from the time purchase payments were first received in the subaccounts under the contracts.

Financial Statements. The statements of assets and liabilities, the statements of operations, the statements of changes in net assets and the related notes to financial statements for Separate Account N and financial statements and the related notes to financial statements for ReliaStar Life Insurance Company are located in the Statement of Additional Information.

Separate Account N

We established Separate Account N (the separate account) on October 1, 2002 under the insurance laws of the State of Minnesota. The separate account is registered as a unit investment trust under the Investment Company Act of 1940, as amended (the 1940 Act). It also meets the definition of "separate account" under the federal securities laws. Prior to October 1, 2002, the separate account was known as Separate Account One of Northern Life Insurance Company, which was created in 1994 under Washington law. In connection with the merger of Northern Life Insurance Company and ReliaStar Life Insurance Company, the separate account was transferred to ReliaStar Life Insurance Company.

The separate account is divided into subaccounts. The subaccounts invest directly in shares of a pre-assigned fund.

Although we hold title to the assets of the separate account, such assets are not chargeable with the liabilities of any other business that we conduct. Income, gains or losses of the separate account are credited to or charged against the assets of the separate account without regard to other income, gains or losses of ReliaStar Life Insurance Company. All obligations arising under the contract are obligations of ReliaStar Life Insurance Company.

We may, if it is in the best interest of our contract holders:

- ▷ Manage the separate account as a management investment company under the 1940 Act;
- ▷ Deregister the separate account under the 1940 Act, if registration is no longer required;
- ▷ Combine the separate accounts of ReliaStar Life Insurance Company; or
- ▷ Reallocate assets of the separate account to another separate account.

The Company

ReliaStar Life Insurance Company (the Company, we, us, our) issues the contracts described in this prospectus and is responsible for providing each contract's insurance and annuity benefits. We are a direct, wholly owned subsidiary of Lion Connecticut Holdings Inc.

We are a stock life insurance company organized in 1885 and incorporated under the insurance laws of the State of Minnesota. We are an indirect wholly owned subsidiary of ING Groep N.V. ("ING"), a global financial institution active in the fields of insurance, banking and asset management.

We offer individual life insurance and annuities, employee benefits and retirement contracts. We are authorized to do business in the District of Columbia and in all states, except New York.

Our Home Office:

20 Washington Avenue South
Minneapolis, Minnesota 55401

Our Administrative Service Center:

ING Service Center
P.O. Box 5050
Minot, North Dakota 58702-5050

Prior to October 1, 2002, the contracts were issued by Northern Life Insurance Company (Northern), a wholly owned subsidiary of the Company. On October 1, 2002, Northern merged into ReliaStar Life Insurance Company, and ReliaStar Life Insurance Company assumed responsibilities for Northern's obligations under the contracts.

We are a charter member of the Insurance Marketplace Standards Association (IMSA). Companies that belong to IMSA subscribe to a rigorous set of standards that cover the various aspects of sales and service for individually sold life insurance and annuities. IMSA members have adopted policies and procedures that demonstrate a commitment to honesty, fairness and integrity in all customer contacts involving sales and service of individual life insurance and annuity products.

Regulatory Developments - the Company and the Industry. As with many financial services companies, the Company and its affiliates have received informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the financial services industry. In each case, the Company and its affiliates have been and are providing full cooperation.

Insurance and Retirement Plan Products and Other Regulatory Matters. Federal and state regulators and self-regulatory agencies are conducting broad inquiries and investigations involving the insurance and retirement industries. These initiatives currently focus on, among other things, compensation, revenue sharing, and other sales incentives; potential conflicts of interest; potential anti-competitive activity; reinsurance; sales and marketing practices (including sales to seniors); specific product types (including group annuities and indexed annuities); and disclosure. It is likely that the scope of these industry investigations will further broaden before they conclude. The Company and certain of its U.S. affiliates have received formal and informal requests in connection with such investigations, and are cooperating fully with each request for information. Some of these matters could result in regulatory action involving the Company. These initiatives also may result in new legislation and regulation that could significantly affect the financial services industry, including businesses in which the Company is engaged. In light of these and other developments, U.S. affiliates of ING, including the Company, periodically review whether modifications to their business practices are appropriate.

Investment Product Regulatory Issues. Since 2002, there has been increased governmental and regulatory activity relating to mutual funds and variable insurance products. This activity has primarily focused on inappropriate trading of fund shares; directed brokerage; compensation; sales practices, suitability, and supervision; arrangements with service providers; pricing; compliance and controls; adequacy of disclosure; and document retention.

In addition to responding to governmental and regulatory requests on fund trading issues, ING management, on its own initiative, conducted, through special counsel and a national accounting firm, an extensive internal review of mutual fund trading in ING insurance, retirement, and mutual fund products. The goal of this review was to identify any instances of inappropriate trading in those products by third parties or by ING investment professionals and other ING personnel.

The internal review identified several isolated arrangements allowing third parties to engage in frequent trading of mutual funds within the variable insurance and mutual fund products of ING, and identified other circumstances where frequent trading occurred despite measures taken by ING intended to combat market timing. Each of the arrangements has been terminated and disclosed to regulators, to the independent trustees of ING Funds (U.S.) and in reports previously filed by affiliates of the Company with the Securities and Exchange Commission ("SEC") pursuant to the Securities Exchange Act of 1934, as amended.

Action may be taken by regulators with respect to the Company or certain ING affiliates before investigations relating to fund trading are completed. The potential outcome of such action is difficult to predict but could subject the Company or certain affiliates to adverse consequences, including, but not limited to, settlement payments, penalties, and other financial liability. It is not currently anticipated, however, that the actual outcome of any such action will have a material adverse effect on ING or ING's U.S. based operations, including the Company.

ING has agreed to indemnify and hold harmless the ING Funds from all damages resulting from wrongful conduct by ING or its employees or from ING's internal investigation, any investigations conducted by any governmental or self-regulatory agencies, litigation or other formal proceedings, including any proceedings by the SEC. Management reported to the ING Funds Board that ING management believes that the total amount of any indemnification obligations will not be material to ING or ING's U.S. based operations, including the Company.

Product Regulation. Our products are subject to a complex and extensive array of state and federal tax, securities and insurance laws, and regulations, which are administered and enforced by a number of governmental and self-regulatory authorities. Specifically, U.S. federal income tax law imposes requirements relating to nonqualified annuity product design, administration, and investments that are conditions for beneficial tax treatment of such products under the Tax Code. (See "Taxation" for further discussion of some of these requirements.) Failure to administer certain nonqualified contract features (for example, contractual income phase dates in nonqualified annuities) could affect such beneficial tax treatment. In addition, state and federal securities and insurance laws impose requirements relating to insurance and annuity product design, offering and distribution, and administration. Failure to meet any of these complex tax, securities, or insurance requirements could subject the Company to administrative penalties, unanticipated remediation, or other claims and costs.

Investment Options

The contracts offer variable investment options and fixed interest options.

Variable Investment Options. These options are called subaccounts. The subaccounts are within Separate Account N, a separate account of the Company. Each subaccount invests in a specific mutual fund. You do not invest directly in or hold shares of the funds.

- ▷ **Mutual Fund (fund) Descriptions.** We provide brief descriptions of the funds in Appendix II. Refer to the fund prospectuses for additional information. Fund prospectuses may be obtained, free of charge, from our Administrative Service Center at the address and phone number listed in "Contract Overview - Questions: Contacting the Company," by accessing the SEC's website or by contacting the SEC Public Reference Branch.

Fixed Interest Options. For a description of the fixed interest options, see Appendix I.

Selecting Investment Options

- **Choose options appropriate for you.** Your sales representative can help you evaluate which investment options may be appropriate for your financial goals.
- **Understand the risks associated with the options you choose.** Some subaccounts invest in funds that are considered riskier than others. Funds with additional risks are expected to have values that rise and fall more rapidly and to a greater degree than other funds. For example, funds investing in foreign or international securities are subject to risks not associated with domestic investments, and their investment performance may vary accordingly. Also, funds using derivatives in their investment strategy may be subject to additional risks.
- **Be informed.** Read this prospectus, the fund prospectuses and Appendix I.

Limits on Availability of Options. We may add, withdraw or substitute funds, subject to the conditions in your contract and compliance with regulatory requirements. See “Other Topics-Contract Modifications - Addition, Deletion or Substitution of Fund Shares.” Some subaccounts or fixed interest options may not be available in all contracts or in some states.

Limits on How Many Investment Options You May Select. Generally you may select no more than 18 investment options at any one time during the accumulation phase of your account. Each subaccount and each fixed account selected counts towards this 18 investment option limit.

Reinvestment. The funds described in this prospectus have, as a policy, the distribution of income, dividends and capital gains. There is, however, an automatic reinvestment of such distributions under the contracts described in this prospectus.

Additional Risks of Investing in the Funds

Insurance-Dedicated Funds. *(Mixed and Shared Funding)* The funds described in this prospectus are available only to insurance companies for their variable contracts. Such funds are often referred to as “insurance-dedicated funds,” and are used for “mixed” and “shared” funding.

“Mixed funding” occurs when shares of a fund, which the subaccounts buy for variable annuity contracts, are bought for variable life insurance contracts issued by us or other insurance companies.

“Shared funding” occurs when shares of a fund, which the subaccounts buy for variable annuity contracts, are also bought by other insurance companies for their variable annuity contracts.

- ▷ Mixed - bought for annuities and life insurance.
- ▷ Shared - bought by more than one company.

Possible Conflicts of Interest. It is possible that a conflict of interest may arise due to mixed and shared funding, a change in law affecting the operations of variable annuity separate accounts, differences in the voting instructions of the contract holder and others maintaining a voting interest in the funds, or some other reason. Such a conflict could adversely impact the value of a fund. For example, if a conflict of interest occurred and one of the subaccounts withdrew its investment in a fund, the fund may be forced to sell its securities at disadvantageous prices, causing its share value to decrease. Each fund’s board of directors or trustees will monitor events in order to identify any material irreconcilable conflicts that may arise and to determine what action, if any, should be taken to address such conflicts. In the event of a conflict, the Company will take any steps necessary to protect contract holders and annuitants maintaining a voting interest in the funds, including the withdrawal of Separate Account N from participation in the funds which are involved in the conflict.

Transfers Among Investment Options

During the accumulation phase you may transfer amounts among the available subaccounts, and from the subaccounts to either Fixed Account A or Fixed Account B. Amounts may be transferred from Fixed Account C to one or more subaccounts only, and requires participation in the dollar cost averaging program. Transfers from Fixed Account C to Fixed Account A or Fixed Account B are not allowed. Transfers from Fixed Account A, Fixed Account B, or the subaccounts to Fixed Account C are not allowed.

We do not currently charge a transfer fee. However, we reserve the right to charge a fee of \$25 for each transfer and to limit the number of transfers.

Transfer Requests. Requests may be made in writing, by telephone or, where available, electronically. Transfers must be made in accordance with the terms of the contract.

Limits on Frequent or Disruptive Transfers

The contract is not designed to serve as a vehicle for frequent transfers. Frequent transfer activity can disrupt management of a fund and raise its expenses through:

- Increased trading and transaction costs;
- Forced and unplanned portfolio turnover;
- Lost opportunity costs; and
- Large asset swings that decrease the fund's ability to provide maximum investment return to all contract owners.

This in turn can have an adverse effect on fund performance. **Accordingly, individuals or organizations that use market-timing investment strategies or make frequent transfers should not purchase the contract.**

Excessive Trading Policy. We and the other members of the ING family of companies that provide multi-fund variable insurance and retirement products have adopted a common Excessive Trading Policy to respond to the demands of the various fund families that make their funds available through our products to restrict excessive fund trading activity and to ensure compliance with Section 22c-2 of the 1940 Act.

We actively monitor fund transfer and reallocation activity within our variable insurance products to identify violations of our Excessive Trading Policy. Our Excessive Trading Policy is violated if fund transfer and reallocation activity:

- Meets or exceeds our current definition of Excessive Trading, as defined below; or
- Is determined, in our sole discretion, to be disruptive or not in the best interests of other owners of our variable insurance and retirement products.

We currently define "Excessive Trading" as:

- More than one purchase and sale of the same fund (including money market funds) within a 60 calendar day period (hereinafter, a purchase and sale of the same fund is referred to as a "round-trip"). This means two or more round-trips involving the same fund within a 60 calendar day period would meet our definition of Excessive Trading; or
- Six round-trips involving the same fund within a rolling twelve month period.

The following transactions are excluded when determining whether trading activity is excessive:

- Purchases or sales of shares related to non-fund transfers (for example, new purchase payments, withdrawals and loans);
- Transfers associated with scheduled dollar cost averaging, scheduled rebalancing, or scheduled asset allocation programs;
- Purchases and sales of fund shares in the amount of \$5,000 or less;
- Purchases and sales of funds that affirmatively permit short-term trading in their fund shares, and movement between such funds and a money market fund; and
- Transactions initiated by us, another member of the ING family of companies, or a fund.

If we determine that an individual or entity has made a purchase of a fund within 60 days of a prior round-trip involving the same fund, we will send them a letter (once per year) warning that another sale of that same fund within 60 days of the beginning of the prior round-trip will be deemed to be Excessive Trading and result in a six month suspension of their ability to initiate fund transfers or reallocations through the Internet, facsimile, Voice Response Unit (VRU), telephone calls to the ING Service Center, or other electronic trading medium that we may make available from time to time (“Electronic Trading Privileges”). Likewise, if we determine that an individual or entity has made five round-trips involving the same fund within a rolling twelve month period, we will send them a letter warning that another purchase and sale of that same fund within twelve months of the initial purchase in the first round-trip will be deemed to be Excessive Trading and result in a suspension of their Electronic Trading Privileges. According to the needs of the various business units, a copy of any warning letters may also be sent, as applicable, to the person(s) or entity authorized to initiate fund transfers or reallocations, the agent/registered representative, or the investment adviser for that individual or entity. A copy of the warning letters and details of the individual’s or entity’s trading activity may also be sent to the fund whose shares were involved in the trading activity.

If we determine that an individual or entity has violated our Excessive Trading Policy, we will send them a letter stating that their Electronic Trading Privileges have been suspended for a period of six months. Consequently, all fund transfers or reallocations, not just those that involve the fund whose shares were involved in the activity that violated our Excessive Trading Policy, will then have to be initiated by providing written instructions to us via regular U.S. mail. Suspension of Electronic Trading Privileges may also extend to products other than the product through which the Excessive Trading activity occurred. During the six month suspension period, electronic “inquiry only” privileges will be permitted where and when possible. A copy of the letter restricting future transfer and reallocation activity to regular U.S. mail and details of the individual’s or entity’s trading activity may also be sent, as applicable, to the person(s) or entity authorized to initiate fund transfers or reallocations, the agent/registered representative or investment adviser for that individual or entity, and the fund whose shares were involved in the activity that violated our Excessive Trading Policy.

Following the six month suspension period during which no additional violations of our Excessive Trading Policy are identified, Electronic Trading Privileges may again be restored. We will continue to monitor the fund transfer and reallocation activity, and any future violations of our Excessive Trading Policy will result in an indefinite suspension of Electronic Trading Privileges. A violation of our Excessive Trading Policy during the six month suspension period will also result in an indefinite suspension of Electronic Trading Privileges.

We reserve the right to suspend Electronic Trading Privileges with respect to any individual or entity, with or without prior notice, if we determine, in our sole discretion, that the individual’s or entity’s trading activity is disruptive or not in the best interests of other owners of our variable insurance and retirement products, regardless of whether the individual’s or entity’s trading activity falls within the definition of Excessive Trading set forth above.

Our failure to send or an individual’s or entity’s failure to receive any warning letter or other notice contemplated under our Excessive Trading Policy will not prevent us from suspending that individual’s or entity’s Electronic Trading Privileges or taking any other action provided for in our Excessive Trading Policy.

Except as noted below with respect to Paul M. Prusky, we do not allow exceptions to our Excessive Trading Policy. We reserve the right to modify our Excessive Trading Policy, or the policy as it relates to a particular fund, at any time without prior notice, depending on, among other factors, the needs of the underlying fund(s), the best interests of contract owners, participants, and fund investors, and/or state or federal regulatory requirements. If we modify our policy, it will be applied uniformly to all contract owners and participants or, as applicable, to all contract owners and participants investing in the underlying fund.

Our Excessive Trading Policy may not be completely successful in preventing market-timing or excessive trading activity. If it is not completely successful, fund performance and management may be adversely affected, as noted above.

Since late 2003, we have been engaged in litigation with Paul M. Prusky (“Prusky”), and others, regarding a 1998 agreement between Prusky and the Company. Under the agreement, Prusky, through a profit-sharing plan, engaged in frequent electronic trading between subaccounts available through certain Company variable life insurance policies (“market timing”). Beginning in late 2003, the Company refused to accept electronic trading instructions from Prusky because of violations of our excessive trading policy.

On January 5, 2007, the United States District Court for the Eastern District of Pennsylvania (the “Federal Court”) ordered the Company to accept and effect Prusky’s subaccount transfer instructions electronically “without limitation as to the number of transfer instructions so long as those transfers are not explicitly barred by a specific condition imposed by the fund in which the subaccount is invested.” (Order Granting in Part Summary Judgment, Paul M. Prusky, et.al v. ReliaStar Life Insurance Company, Civil Action No. 03-6196, Jan. 5, 2007, and Order Denying Defendant’s Motion for Clarification, dated January 12, 2007 (“Order”).) In light of the Order, we must accept and effect Prusky’s electronic transfer instructions.

When issuing the Order, the Federal Court did state that we could enforce conditions on trading imposed by the funds in which Company subaccounts invest. (Memorandum Accompanying the Order, at pp.9-10.) We will enforce all fund-imposed conditions on trading consistent with the Order and the judgment of the Federal Court in a related matter.

Prusky’s Company policies include subaccounts that invest in the following funds, which are available through this contract as of April 28, 2008. The prospectus for each fund describes restrictions imposed by the fund to prevent or minimize frequent trading.

*The ING VP Balanced Portfolio is closed to any new investments (including loan repayments) or transfers.

Limits Imposed by the Funds. Each underlying fund available through the variable insurance and retirement products offered by us and/or the other members of the ING family of companies, either by prospectus or stated policy, has adopted or may adopt its own excessive/frequent trading policy, and orders for the purchase of fund shares are subject to acceptance or rejection by the underlying fund. We reserve the right, without prior notice, to implement fund purchase restrictions and/or limitations on an individual or entity that the fund has identified as violating its excessive/frequent trading policy and to reject any allocation or transfer request to a subaccount if the corresponding fund will not accept the allocation or transfer for any reason. All such restrictions and/or limitations (which may include, but are not limited to, suspension of Electronic Trading Privileges and/or blocking of future purchases of a fund or all funds within a fund family) will be done in accordance with the directions we receive from the fund.

Agreements to Share Information with Fund Companies. As required by Rule 22c-2 under the 1940 Act, we have entered into information sharing agreements with each of the fund companies whose funds are offered through the contract. Contract owner trading information is shared under these agreements as necessary for the fund companies to monitor fund trading and our implementation of our Excessive Trading Policy. Under these agreements, the Company is required to share information regarding contract owner transactions, including but not limited to information regarding fund transfers initiated by you. In addition to information about contract owner transactions, this information may include personal contract owner information, including names and social security numbers or other tax identification numbers.

As a result of this information sharing, a fund company may direct us to restrict a contract owner's transactions if the fund determines that the contract owner has violated the fund's excessive/frequent trading policy. This could include the fund directing us to reject any allocations of purchase payments or contract value to the fund or all funds within the fund family.

Value of Your Transferred Dollars. The value of amounts transferred into or out of subaccounts will be based on the subaccount unit values next determined after we receive your transfer request in good order at our Administrative Service Center or, if you are participating in the dollar cost averaging or automatic reallocation programs, after your scheduled transfer or reallocation.

Telephone and Electronic Transactions: Security Measures. Telephone transactions may be available when you complete a telephone reallocation form and a personal identification number (PIN) has been assigned. To prevent fraudulent use of telephone or electronic transactions (including, but not limited to, Internet transactions), we have established security procedures. These may include recording calls on voice recording equipment, requiring completion of a "telephone reallocation" form, written confirmation of telephone instructions and use of a PIN to execute transactions. You are responsible for keeping your PIN and account information confidential. If we fail to follow reasonable security procedures, we may be liable for losses due to unauthorized or fraudulent telephone or other electronic transactions. We are not liable for losses resulting from telephone or electronic instructions we believe to be genuine. If a loss occurs when we rely on such instructions, you will bear the loss.

The Dollar Cost Averaging Program. Dollar cost averaging is an investment strategy whereby you purchase fixed dollar amounts of an investment at regular intervals, regardless of price.

Currently, under this program you may elect one of the following transfer options:

Option One:

- ▷ You may direct us to automatically transfer a fixed dollar amount or a specified percentage from the subaccounts, Fixed Account A, or Fixed Account C, to any of the other subaccounts or to Fixed Account A or Fixed Account B. However, transfers from Fixed Account C to Fixed Account A or Fixed Account B are not allowed. Also, no transfers to Fixed Account C are allowed from any subaccount or from any other fixed option.
- ▷ Transfers from Fixed Account A may be made on a monthly, quarterly, semi-annual or annual basis. Transfers from Fixed Account C may be made on a monthly basis only.

Option Two:

- ▷ You may direct us to automatically transfer the interest earned on amounts invested in Fixed Account B to any one or more of the subaccounts.
- ▷ Only automatic transfers of 100% of interest earned are allowed. We will only transfer interest that is earned after you have elected this option. Reallocations may be made on a monthly, quarterly, semi-annual or annual basis.
- ▷ To elect transfers of this type, your account value must be at least \$10,000 and the Fixed Account B account value must be at least \$5,000. We reserve the right to discontinue these transfers when the Fixed Account B account value becomes less than \$5,000.
- ▷ Transfers from Fixed Account B to the subaccounts or to Fixed Account A are allowed, subject to certain conditions. See Appendix I.

Dollar cost averaging neither ensures a profit nor guarantees against loss in a declining market. You should consider your financial ability to continue purchases through periods of low price levels. There is no additional charge for this program and transfers made under this program do not count as transfers when determining the number of free transfers that may be made each account year. To obtain an application form or for additional information about this program, contact your sales representative or call us at the number listed in “Contract Overview - Questions: Contacting the Company.”

We reserve the right to discontinue, modify or suspend the dollar cost averaging program and to charge a processing fee not to exceed \$25 for each transfer made under this program.

The Automatic Reallocation Program (Account Rebalancing). Account rebalancing allows you to reallocate your account value to match the investment allocations you originally selected by reallocating account values from the subaccounts that have increased in value to those subaccounts that have declined in value or increased in value at a slower rate. Only account values invested in the subaccounts may be rebalanced. We automatically reallocate your account value on each quarterly anniversary of the date we established your account (or any other date as we allow). Account rebalancing neither ensures a profit nor guarantees against loss in a declining market.

There is currently no additional charge for this program and transfers made under this program do not count as transfers when determining the number of free transfers that may be made each account year. You are eligible to participate in this program if your account value is at least \$10,000. To apply, you must complete an application you may obtain by writing to us at the address listed in “Contract Overview - Questions: Contacting the Company.” You must choose the applicable subaccounts and the percentage of account value to be maintained on a quarterly basis in each subaccount. All values in a selected subaccount will be available for rebalancing.

You may instruct us at any time to terminate this program by written request to us at the address listed in “Contract Overview - Questions: Contacting the Company.” Any value in a subaccount that has not been reallocated will remain in that subaccount regardless of the percentage allocation, unless you instruct us otherwise. If you wish to continue the reallocations after they have been terminated, you must complete an application and have at least \$10,000 of account value.

We reserve the right to discontinue, modify or suspend the account rebalancing program and to charge a processing fee not to exceed \$25 for each reallocation between the subaccounts or to or from the unloaned account value of Fixed Account A. The account value in Fixed Account C is not eligible for participation in this program.

Transfers from the Fixed Accounts. For information on transfers from the Fixed Accounts, see Appendix I, The Fixed Accounts.

Purchase and Rights

Use of an Annuity Contract in your Plan. Under the federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of a qualified retirement account (such as 401, 403(b), Roth 403(b), 408, 408A, or 457 retirement plan), an annuity contract is not necessary to obtain this favorable tax treatment and does not provide any tax benefits beyond the deferral already available to the tax qualified account itself. Annuities do provide other features and benefits (such as the guaranteed death benefit or the option of lifetime income phase options at established rates) that may be valuable to you. You should discuss your alternatives with your financial representative taking into account the additional fees and expenses you may incur in an annuity.

Valuation Date: Any day that the New York Stock Exchange is open for trading.

When considering whether to purchase or participate in the contract, you should consult with your financial representative about your financial goals, investment time horizon and risk tolerance.

Contract Rights

Under 403(b) plans, you currently hold all rights under the contract and may make all elections under the contract. However, pursuant to Treasury Department regulations that are generally effective on January 1, 2009, the future exercise of certain of these rights may require the consent and approval of your employer and/or plan sponsor. We reserve the right to modify the contracts to comply with these regulations where allowed, or where required by law. See “Taxation – Section 403(b) and Roth 403(b) Tax-Deferred Annuities.” For information regarding contracts issued to certain employers sponsoring 401 or 457 plans, see “Contract Overview – Who’s Who.”

How to Purchase

The contract holder may purchase a contract from us by completing an application and making an initial purchase payment. Upon our approval we will issue a contract and set up an account for the contract holder under the contract.

For nonqualified contracts, the following purchase payment methods are allowed:

- ▷ One lump sum;
- ▷ Periodic payments; or
- ▷ Transfer under Tax Code section 1035.

For qualified contracts, the following purchase payment methods are allowed:

- ▷ One lump sum;
- ▷ Periodic payments; or
- ▷ Rollover or exchanges, as permitted by the Tax Code. Currently the contracts do not allow rollovers from a 401(a), 401(k), 403(b) or Roth 403(b) plan, or from an IRA into contracts used with 457 plans.

Contributions to a Roth 403(b) contract must be made by salary reduction (to the extent allowed by the contract), paid to us on your behalf, as permitted by the Tax Code.

The minimum amount we will accept as a lump-sum purchase payment is \$5,000 and periodic purchase payments may not be less than \$50. The minimum payment to Fixed Account C is \$5,000. We reserve the right to reject any purchase payment to an existing account if the purchase payment, together with the account value at the next valuation date, exceeds \$1,000,000. Any purchase payment not accepted by the Company will be refunded.

Any reduction of the minimum initial or subsequent purchase payment amount will not be unfairly discriminatory against any person. We will make any such reduction according to our own rules in effect at the time the purchase payment is received. We reserve the right to change these rules from time to time.

Acceptance or Rejection of Your Application. We must accept or reject your application within two business days of receipt. If the application is incomplete, we may hold any forms and accompanying purchase payment(s) for five business days. We may hold purchase payments for longer periods, pending acceptance of the application, only with your permission. If the application is rejected, we will notify you of the reasons and the application and any purchase payments will be returned to you.

Allocating Purchase Payments to the Investment Options. We will allocate your purchase payments among the investment options you select. However, for contracts issued in states that require a refund of all purchase payments made, we will credit the initial purchase payment to the Fidelity VIP Money Market subaccount during the right to cancel period, plus five calendar days. See "Right to Cancel." Allocations must be in whole percentages and there are limits on the number of investment options you may select. When selecting investment options you may find it helpful to review the "Investment Options" section.

Factors to Consider in the Purchase Decision. The decision to purchase or participate in a contract should be discussed with your financial representative. Make sure that you understand the investment options it provides, its other features, the risks and potential benefits you will face, and the fees and expenses you will incur when, together with your financial representative, you consider an investment in the contract. You should pay attention to the following issues, among others:

1. **Long-Term Investment** - These contracts are long-term investments, and are typically most useful as part of a personal retirement plan. Early withdrawals may be restricted by the Tax Code or your plan, or may expose you to early withdrawal charges or tax penalties. The value of deferred taxation on earnings grows with the amount of time funds are left in a contract. You should not participate in a contract if you are looking for a short-term investment or expect to need to make withdrawals before you are 59½.
2. **Investment Risk** - The value of investment options available under the contracts may fluctuate with the markets and interest rates. You should not participate in a contract in order to invest in these options if you cannot risk getting back less money than you put in.
3. **Features and Fees** - The fees for these contracts reflect costs associated with the features and benefits they provide. As you consider a contract, you should determine the value that these various benefits and features have for you, given your particular circumstances, and consider the charges for those features.
4. **Exchanges** - Replacing an existing insurance contract with this contract may not be beneficial to you. If a contract will be a replacement for another annuity contract you should compare the two options carefully, compare the costs associated with each, and identify additional benefits available under the contract. You should consider whether these additional benefits justify incurring a new schedule or early withdrawal charges or any other increased charges that might apply under these contracts. Also, be sure to talk to your financial professional or tax adviser to make sure that the exchange will be handled so that it is tax-free.

Other Products. We and our affiliates offer various other products with different features and terms than these contracts, which may offer some or all of the same funds. These products have different benefits, fees and charges, and may offer different share classes of the funds offered in this contract that are less expensive. These other products may or may not better match your needs. You should be aware that there are alternative options available, and, if you are interested in learning more about these other products, contact your registered representative.

Right to Cancel

When and How to Cancel. You may cancel your contract within ten days of receipt (some states require more than ten days) by returning it to our administrative service center or to your sales representative along with a written notice of cancellation.

Refunds. We will issue you a refund within seven calendar days of our receipt of your contract and written notice of cancellation. Unless your state requires otherwise, your refund will equal the purchase payments made plus any earnings or minus any losses attributable to those purchase payments allocated among the subaccounts. In other words, where a refund of contributions is not required, you will bear the entire investment risk for amounts allocated among the subaccounts during this period and the amount refunded could be less than the amount paid. If your state requires, we will refund all purchase payments made.

For contracts issued in states that require a refund of all purchase payments made, we will credit the initial purchase payment to the Fidelity VIP Money Market subaccount during the right to cancel period, plus five calendar days. If you cancel your contract within ten days of receipt, we will refund all purchase payments made or the account value, whichever is greater. If you choose to keep the contract, the purchase payments will be then allocated among the investment options you selected.

Types of Fees

There are four types of fees or deductions that may affect your account.

TRANSACTION FEES

- ▷ Early Withdrawal Charge
- ▷ Annual Maintenance Fee
- ▷ Transfer Charge
- ▷ Redemption Fees

FEES DEDUCTED FROM INVESTMENTS IN THE SEPARATE ACCOUNT

- ▷ Mortality and Expense Risk Charges
- ▷ Administrative Expense Charge
- ▷ Optional One-Year Step Up Death Benefit Rider Charge

FUND FEES AND EXPENSES

PREMIUM AND OTHER TAXES

Account Year/Account

Anniversary: A period of 12 months measured from the date we established your account and each anniversary of this date. Account anniversaries are measured from this date.

Fees

The following repeats and adds to information provided in the “Fee Table” section. Please review both sections for information on fees.

TRANSACTION FEES

Early Withdrawal Charge

Withdrawals of all or a portion of your account value may be subject to a charge.

Amount. A percentage of the purchase payments that you withdraw. The percentage will be determined by the early withdrawal charge schedule that applies to your account.

Years from Receipt of Purchase Payment	Early Withdrawal Charge (as Percentage of Purchase Payments) ¹
Less than 1	7.0%
1 or more but less than 2	7.0%
2 or more but less than 3	6.0%
3 or more but less than 4	5.0%
4 or more but less than 5	4.0%
5 or more but less than 6	2.0%
6 or more	0.0%

¹For qualified contracts, the early withdrawal charge will be 0.0% after the twelfth account year. For contracts issued in Utah after May 6, 2003, the withdrawal charge will be 0.0% after the tenth account year.

Early Withdrawal Charge Applicable to Texas K-12 TSA Contracts

Years from Receipt of Purchase Payment	Early Withdrawal Charge (as Percentage of Purchase Payments) ²
Less than 1	8.0%
1 or more but less than 2	7.0%
2 or more but less than 3	6.0%
3 or more but less than 4	5.0%
4 or more but less than 5	4.0%
5 or more but less than 6	2.0%
6 or more	0.0%

²Ten years from the original issue date the withdrawal charge will go to zero regardless of the table above.

Purpose. This is a deferred sales charge. It reimburses us for some of the sales and administrative expenses associated with the contract. If our expenses are greater than the amount we collect for the early withdrawal charge, we may use any of our corporate assets, including potential profit that may arise from the mortality and expense risk charges, and the administrative charge, to make up the difference.

First In, First Out. The early withdrawal charge is calculated separately for each purchase payment withdrawn. For purposes of calculating your early withdrawal charge, we consider that your first purchase payment to the account (first in) is the first you withdraw (first out).

For example, if your initial purchase payment was made three years ago, we will deduct an early withdrawal charge equal to 5.0% of the portion of that purchase payment withdrawn. The next time you make a withdrawal we will assess the charge against the portion of the first purchase payment that you did not withdraw and/or your subsequent purchase payments to your account in the order they were received.

Earnings may be withdrawn after all purchase payments have been withdrawn. There is no early withdrawal charge for withdrawal of earnings.

Free Withdrawals. There is no early withdrawal charge if, during each account year, the amount withdrawn is the greater of:

- ▷ Earnings; or
- ▷ 10% of purchase payments subject to the early withdrawal charge, as of the last account anniversary.

You may take four free withdrawals each account year. If the first withdrawal in an account year exceeds the free withdrawal amount, the excess is subject to an early withdrawal charge. If the first withdrawal in an account year equals the free withdrawal amount, any other withdrawals made during that account year may be subject to an early withdrawal charge.

If the first withdrawal in an account year is less than the free withdrawal amount, any unused percentage of the free withdrawal amount may be applied against three additional withdrawals during the account year.

The unused percentage of the free withdrawal amount is computed by us on the date of any withdrawal request made during an account year based on:

$$[\text{Greater of A or B}] - C$$

Where:

A = Earnings;

B = 10% of purchase payments subject to early withdrawal charges as of the beginning of the account year; and

C = Any prior withdrawals made during the same account year period.

Early Withdrawal Charge Waivers Under All Contracts. These waivers apply to all contracts, unless otherwise specified. Please also read the following subsection regarding additional waivers available under certain contracts.

This charge is waived for portions of a withdrawal that are:

- ▷ Used to provide income phase payments to you;
- ▷ Paid due to the owner or annuitant's death during the accumulation phase or, in the case of a nonqualified contract, the annuitant's death during the accumulation phase;
- ▷ For qualified contracts issued in connection with 403(b) plans only, withdrawn after the fifth account year, where the annuitant has separated from service after attaining age 55; or
- ▷ Paid upon termination of your account by us. See "Other Topics - Involuntary Terminations."

Early Withdrawal Charge Waivers Under Certain Contracts. These waivers only apply to certain contracts. You should refer to your contract to determine which waivers apply to you.

The charge is waived for portions of a withdrawal from a 403(b) contract that are:

- ▷ Applied to a contract offered by another approved provider under your plan;
- ▷ Withdrawn due to separation from service from your employer; or
- ▷ Withdrawn due to a hardship as defined by the Tax Code.

Partial Withdrawal Processing Fee. We do not currently charge a partial withdrawal processing fee, but we reserve the right to charge a fee not to exceed the lesser of 2.0% of the amount withdrawn or \$25.

Annual Maintenance Fee

Maximum Amount. \$30.00

When/How. Each year during the accumulation phase we deduct this fee from your account value. We deduct it on your account anniversary and at the time of full withdrawal.

Purpose. This fee reimburses us for our administrative expenses related to the contracts, the separate account and the subaccounts.

Waiver. We reserve the right to waive the annual maintenance fee under certain circumstances. For example we may waive the charge if the account value exceeds \$25,000 on the date this fee is to be deducted. We may also waive this charge where the annual purchase payments, less any withdrawals, equal or exceed \$5,000. However, we reserve the right to reinstate the fee on contracts qualifying for the waiver.

Transfer Charge

Amount. We do not currently charge a transfer fee. However, we reserve the right to charge a fee of \$25 per transfer for any transfer and to limit the number of transfers, including transfers made under the dollar cost averaging program.

Purpose. This charge reimburses us for administrative expenses associated with transferring your dollars among investment options.

Redemption Fees

Certain funds may deduct redemption fees as a result of withdrawals, transfers, or other fund transactions you initiate. If applicable, we may deduct the amount of any redemption fees imposed by the underlying mutual funds as a result of withdrawals, transfers or other fund transactions you initiate. Redemption fees, if any, are separate and distinct from any transaction charges or other charges deducted from your contract value. For a more complete description of the funds' fees and expenses, review each fund's prospectus.

FEES DEDUCTED FROM INVESTMENTS IN THE SEPARATE ACCOUNT

Mortality and Expense Risk Charges

Maximum Amount. The amount of these charges, on an annual basis, is equal to 1.25% of the daily value of amounts invested in the subaccounts.

When/How. We deduct these charges daily from the subaccounts corresponding to the funds you select. We do not deduct these charges from the fixed interest options.

Purpose. These charges compensate us for the mortality and expense risks we assume under the contract.

- The mortality risks are those risks associated with our promise to make lifetime income phase payments based on annuity rates specified in the contract and the funding of the guaranteed death benefit and other payments we make to owners or beneficiaries of the accounts.
- The expense risk is the risk that the actual expenses we incur under the contract will exceed the maximum costs that we can charge.

If the amount we deduct for these charges is not enough to cover our mortality costs and expenses under the contract, we will bear the loss. We may use any excess to recover distribution costs relating to the contract and as a source of profit. We expect to make a profit from these charges.

Administrative Expense Charge

Maximum Amount. The amount of this charge, on an annual basis, is equal to 0.15% of the daily value of amounts invested in the subaccounts.

When/How. We deduct this charge daily from the subaccounts corresponding to the funds you select. We do not deduct this charge from the fixed interest options.

Purpose. This charge helps defray the cost of providing administrative services under the contracts and the subaccounts. There is not necessarily a relationship between the amount of the charge imposed on any given contract and the amount of expenses that may be attributable to that contract.

Optional One-Year Step Up Death Benefit Rider Charge

If you have purchased the optional one-year step up death benefit rider, we will charge a fee equal to an annual rate of 0.15% of the average daily value of amounts invested in the subaccounts. This fee will be charged monthly. See “Death Benefit - Optional One-Year Step Up Death Benefit Rider.” This rider is not available for contracts issued in the State of Texas.

REDUCTION OR ELIMINATION OF CERTAIN FEES

When sales of the contract are made to individuals or a group of individuals in a manner that results in savings of sales or administrative expenses, we may reduce or eliminate the early withdrawal charge, the annual maintenance fee, the mortality and expense risk charge or the administrative expense charge. Our decision to reduce or eliminate any of these fees will be based on one or more of the following:

- The size and type of group to whom the contract is offered;
- The type and frequency of administrative and sales services provided;
- The use by an employer of automated techniques in submitting purchase payments or information related to purchase payments on behalf of its employees; or
- Any other circumstances which reduce distribution or administrative expenses.

The exact amount of contract charges applicable to a particular contract will be stated in that contract. For contracts issued as funding vehicles for Tax Code section 403(b) plans, early withdrawal charges may be waived under certain circumstances. We currently provide a reduced early withdrawal charge for purchasers of contracts issued as tax deferred annuities for Tax Code section 403(b) plans to employees of certain school districts which, in our judgment, have provided cost reduction benefits to us in the distribution of its contracts.

The reduction or elimination of any of these fees will not be unfairly discriminatory against any person and will be done according to our rules in effect at the time the contract is issued. We reserve the right to change these rules from time to time. The right to reduce or eliminate any of these fees may be subject to state approval.

FUND FEES AND EXPENSES

As shown in the fund prospectuses and described in the “Fees Deducted by the Funds” section of this prospectus, each fund deducts management fees from the amounts allocated to the fund. In addition, each fund deducts other expenses, which may include service fees that may be used to compensate service providers, including the Company and its affiliates, for administrative and contract owner services provided on behalf of the fund. Furthermore, certain funds deduct a distribution or 12b-1 fee, which is used to finance any activity that is primarily intended to result in the sale of fund shares. **For a more complete description of the funds’ fees and expenses, review each fund’s prospectus.**

The Company or its U.S. affiliates receive substantial revenue from each of the funds or the funds’ affiliates, although the amount and types of revenue vary with respect to each of the funds offered through the contract. This revenue is one of several factors we consider when determining contract fees and charges and whether to offer a fund through our contracts. **Fund revenue is important to the Company’s profitability, and it is generally more profitable for us to offer affiliated funds than to offer unaffiliated funds.**

In terms of total dollar amounts received, the greatest amount of revenue generally comes from assets allocated to funds managed by Directed Services LLC or other Company affiliates, which funds may or may not also be subadvised by a Company affiliate. Assets allocated to funds managed by a Company affiliate but subadvised by unaffiliated third parties generally generate the next greatest amount of revenue. Finally, assets allocated to unaffiliated funds generate the least amount of revenue. The Company expects to make a profit from this revenue to the extent it exceeds the Company’s expenses, including the payment of sales compensation to our distributors.

Types of Revenue Received from Affiliated Funds

Affiliated funds are (a) funds managed by Directed Services LLC or other Company affiliates, which may or may not also be subadvised by another Company affiliate; and (b) funds managed by a Company affiliate but that are subadvised by unaffiliated third parties.

Revenues received by the Company from affiliated funds may include:

- A share of the management fee deducted from fund assets;
- Service fees that are deducted from fund assets;
- For certain share classes, the Company or its affiliates may also receive compensation paid out of 12b-1 fees that are deducted from fund assets; and
- Other revenues that may be based either on an annual percentage of average net assets held in the fund by the Company or a percentage of the fund’s management fees.

These revenues may be received as cash payments or according to a variety of financial accounting techniques that are used to allocate revenue and profits across the organization. In the case of affiliated funds subadvised by unaffiliated third parties, any sharing of the management fee between the Company and the affiliated investment adviser is based on the amount of such fee remaining after the subadvisory fee has been paid to the unaffiliated subadviser. Because subadvisory fees vary by subadviser, varying amounts of revenue are retained by the affiliated investment adviser and ultimately shared with the Company.

Types of Revenue Received from Unaffiliated Funds

Revenue received from each of the unaffiliated funds or their affiliates is based on an annual percentage of the average net assets held in that fund by the Company. Some unaffiliated funds or their affiliates pay us more than others and some of the amounts we receive may be significant.

Revenues received by the Company or its affiliates from unaffiliated funds include:

- For certain funds, compensation paid from 12b-1 fees or service fees that are deducted from fund assets; and
- Additional payments for administrative, recordkeeping or other services that we provide to the funds or their affiliates, such as processing purchase and redemption requests, and mailing fund prospectuses, periodic reports and proxy materials. These additional payments do not increase directly or indirectly the fees and expenses shown in each fund prospectus. These additional payments may be used by us to finance distribution of the contracts.

These revenues are received as cash payments, and if the unaffiliated fund families currently offered through the contract were individually ranked according to the total amount they paid to the Company or its affiliates in 2007, in connection with the registered variable annuity contracts issued by the Company, that ranking would be as follows:

- | | |
|-------------------------------------|--------------------------|
| 1. Fidelity Investments | 5. Neuberger Berman, LLC |
| 2. Columbia Wanger Asset Management | 6. American Funds |
| 3. Franklin Templeton Investments | 7. Pioneer Investments |
| 4. PIMCO Funds | 8. Lord Abbett Funds |

Some of the fund families listed above may not have paid any such amounts to the Company in 2007. If the revenues received from affiliated funds were included in the table above, payments from Directed Services LLC and other Company affiliates would be first on the list.

In addition to the types of revenue received from affiliated and unaffiliated funds described above, affiliated and unaffiliated funds and their investment advisers, subadvisers or affiliates may participate at their own expense in Company sales conferences or educational and training meetings. In relation to such participation, a fund's investment adviser, subadviser or affiliate may help offset the cost of the meetings or sponsor events associated with the meetings.

In exchange for these expense offset or sponsorship arrangements, the investment adviser, subadviser or affiliate may receive certain benefits and access opportunities to Company sales representatives and wholesalers rather than monetary benefits. These benefits and opportunities include, but are not limited to co-branded marketing materials; targeted marketing sales opportunities; training opportunities at meetings; training modules for sales personnel; and opportunity to host due diligence meetings for representatives and wholesalers.

Certain funds may be structured as "fund of funds" (including the ING Solution and ING VP Strategic Allocation portfolios). These funds may have higher fees and expenses than a fund that invests directly in debt and equity securities, because they also incur the fees and expenses of the underlying funds in which they invest. These funds are affiliated funds, and the underlying funds in which they invest may be affiliated as well. The fund prospectuses disclose the aggregate annual operating expenses of each portfolio and its corresponding underlying fund or funds. These funds are identified in the investment option list on the front of this prospectus.

Please note certain management personnel and other employees of the Company or its affiliates may receive a portion of their total employment compensation based on the amount of net assets allocated to affiliated funds. **See "Contract Distribution."**

PREMIUM AND OTHER TAXES

Maximum Amount. Some states and municipalities charge a premium tax on annuities. These taxes currently range from 0.0% to 4.0%, depending upon the jurisdiction.

When/How. We reserve the right to deduct a charge for premium taxes from your account value or from purchase payments to the account at any time, but not before there is a tax liability under state law. For example, we may deduct a charge for premium taxes from purchase payments as they are received, or from the account value immediately before you commence income phase payments, as permitted or required by applicable law.

In addition, we reserve the right to assess a charge for any federal taxes due against the separate account. See “Taxation.”

Your Account Value

During the accumulation phase your account value at any given time equals:

- ▷ The current dollar value of amounts invested in the subaccounts; plus
- ▷ The current dollar values of amounts invested in the fixed interest options, including interest earnings to date.

Subaccount Accumulation Units. When you select a fund as an investment option, your account dollars invest in “accumulation units” of the Separate Account N subaccount corresponding to that fund. The subaccount invests directly in the fund shares. The value of your interests in a subaccount is expressed as the number of accumulation units you hold multiplied by an “accumulation unit value,” as described below, for each unit.

Accumulation Unit Value (AUV). The value of each accumulation unit in a subaccount is called the accumulation unit value or AUV. The AUV varies daily in relation to the underlying fund’s investment performance. The value also reflects deductions for fund fees and expenses, the mortality and expense risk charges and the administrative expense charge (if any). We discuss these deductions in more detail in “Fee Table” and “Fees.”

Valuation. We determine the AUV every normal business day that the New York Stock Exchange (NYSE) is open, after the close of the NYSE (normally at 4:00 p.m. Eastern Time). At that time we calculate the current AUV by multiplying the AUV last calculated by the “net investment factor” of the subaccount. The net investment factor measures the investment performance of the subaccount from one valuation to the next.

Net Investment Factor. The net investment factor for a subaccount between two consecutive valuations equals the sum of 1.0000 plus the net investment rate.

Net Investment Rate. The net investment rate is computed according to a formula that is equivalent to the following:

- ▷ The net assets of the fund held by the subaccount as of the current valuation; minus
- ▷ The net assets of the fund held by the subaccount at the preceding valuation; plus or minus
- ▷ Taxes or provisions for taxes, if any, due to subaccount operations (with any federal income tax liability offset by foreign tax credits to the extent allowed); divided by
- ▷ The total value of the subaccount’s units at the preceding valuation; minus
- ▷ A daily deduction for the mortality and expense risk charges, the administrative expense charge, and any other fees deducted daily from investments in the separate account. See “Fees.”

The net investment rate may be either positive or negative.

Hypothetical Illustration. As a hypothetical illustration, assume that your initial purchase payment to a qualified contract is \$5,000 and you direct us to invest \$3,000 in Fund A and \$2,000 in Fund B. Also assume that on the day we receive the purchase payment the applicable AUVs after the next close of business of the NYSE are \$10 for Subaccounts A and \$20 for Subaccount B. Your account is credited with 300 accumulation units of Subaccount A and 100 accumulation units of Subaccount B.

\$5,000 Purchase Payment

Step 1 ||

ReliaStar Life Insurance Company

Step 1: You make an initial purchase payment of \$5,000.

Step 2 ||

Separate Account N		
Subaccount A 300 accumulation units	Subaccount B 100 accumulation units	Etc.

Step 2:

A. You direct us to invest \$3,000 in Fund A. The purchase payment purchases 300 accumulation units of Subaccount A (\$3,000 divided by the current \$10 AUV).

B. You direct us to invest \$2,000 in Fund B. The purchase payment purchases 100 accumulation units of Subaccount B (\$2,000 divided by the current \$20 AUV).

|| Step 3 ||

Mutual Fund A	Mutual Fund B
------------------	------------------

Step 3: The separate account purchases shares of the applicable funds at the then current market value (net asset value or NAV).

Each fund's subsequent investment performance, expenses and charges, and the daily charges deducted from the subaccount, will cause the AUV to move up or down on a daily basis.

Purchase Payments to Your Account. If all or a portion of your initial purchase payment is directed to the subaccounts, it will purchase subaccount accumulation units at the AUV next computed after our acceptance of your application as described in "Purchase and Rights." Subsequent purchase payments or transfers directed to the subaccounts will purchase subaccount accumulation units at the AUV next computed following our receipt of the purchase payment or transfer request in good order. The AUV will vary day to day.

Withdrawals

Taxes, Fees and Deductions

Amounts withdrawn may be subject to one or more of the following:

- ▷ Early Withdrawal Charge (see “Fees – Early Withdrawal Charge”)
- ▷ Annual Maintenance Fee (see “Fees - Annual Maintenance Fee”)
- ▷ Processing Fee (see “Fees – Early Withdrawal Charge – Partial Withdrawal Processing Fee”)
- ▷ Redemption Fees (see “Fees - Redemption Fees”)
- ▷ Tax Penalty (see “Taxation”)
- ▷ Tax Withholding (see “Taxation”)

To determine which may apply to you, refer to the appropriate sections of this prospectus, contact your sales representative or call us at the number listed in “Contract Overview - Questions: Contacting the Company.”

Withdrawal Value: Your account value less any outstanding loan balance and early withdrawal charge.

Subject to any applicable retirement plan or Tax Code restrictions (see “Withdrawal Restrictions” below), you may withdraw all or a portion of your withdrawal value at any time during the accumulation phase. No withdrawals are permitted from Fixed Account C.

Steps for Making A Withdrawal

- ▷ Select the withdrawal amount.
 - (1) Full Withdrawals: You will receive your withdrawal value, reduced by any applicable tax, redemption fees, and maintenance fees.
 - (2) Partial Withdrawals: You may request withdrawal of either:
 - A gross amount, in which case the applicable early withdrawal charge, redemption fees, and taxes will be deducted from the gross amounts requested; or
 - A specific amount after deduction of the applicable early withdrawal charge, redemption fees, and taxes.
- Requests for partial withdrawals are subject to the following conditions:
- The minimum amount of any partial withdrawal must be \$1,000;
 - The account value may not fall below the greater of \$1,000 or any outstanding loan balance divided by 85%;
 - We may charge a processing fee of \$25 or, if less, 2.0% of the amount partially surrendered;
 - Unless otherwise agreed to by us, we will withdraw dollars in the same proportion as the values you hold in the investment options in which you have an account value; and
 - You must properly complete a disbursement form and deliver it to our Administrative Service Center.

Withdrawal Restrictions. Some plans may have other limits on withdrawals, other than or in addition to those listed below.

- ▷ Section 403(b)(11) of the Tax Code generally prohibits withdrawals under 403(b) contracts prior to your death, disability, attainment of age 59½, severance from employment, or financial hardship of the following:
 - (1) Salary reduction contributions made after December 31, 1988; and
 - (2) Earnings on those contributions and earnings on amounts held before 1989 and credited after December 31, 1988. Income attributable to salary reduction contributions and credited on or after January 1, 1989, may not be distributed in the case of hardship. Other withdrawals may be allowed as provided for under the Tax Code or regulations.
- ▷ Effective January 1, 2009, the new 403(b) regulations impose restrictions on the distribution of 403(b) employer contributions under certain contracts. See “Taxation of Qualified Contracts – Distributions.”
- ▷ Participants in the Texas Optional Retirement Program. You may not receive any distribution before retirement, except upon becoming disabled as defined in the Tax Code or terminating employment with Texas public institutions of higher learning. Conditions under which you may exercise the right to withdraw and the right to advance the date on which an income phase payment option is to begin are limited. These restrictions are imposed by reason of the Texas Attorney General’s interpretation of Texas law.
- ▷ 401(k) plans generally prohibit withdrawal of salary reduction contributions and associated earnings prior to your death, disability, attainment of age 59½, severance from employment, or financial hardship. Income attributable to salary reduction contributions and credited on or after January 1, 1989 may not be distributed in the case of hardship.

Calculation of Your Withdrawal. We determine your account value every normal business day that the NYSE is open, after the close of the NYSE (normally at 4:00 p.m. Eastern Time). We pay withdrawal amounts based on your account value as of the next valuation date after we receive a request for withdrawal in good order at our Administrative Service Center.

Delivery of Payment. Payments for withdrawal requests will be made in accordance with SEC requirements. Normally, your withdrawal amount will be sent no later than seven calendar days following our receipt of your properly-completed disbursement form in good order. No interest will accrue on amounts represented by uncashed withdrawal checks.

Loans

Loans Available from Certain Qualified Contracts. If allowed by the contracts and the qualified plan for which the contract is issued, a loan may be available from the account value prior to your election of an income phase payment option or the annuitant's attainment of age 70½. Loans are only allowed from amounts allocated to subaccounts and certain fixed accounts. Additional restrictions may apply under the Tax Code, your plan, or due to our administrative practices, or those of a third party administrator selected by our plan sponsor. We reserve the right not to grant a loan request if you have an outstanding loan in default. Loans are not available from nonqualified contracts, IRAs, 457, or Roth 403(b) contracts.

A loan may be requested by properly completing the loan request form and submitting it to our Administrative Service Center. Read the terms of the loan agreement before submitting any request.

Charges. Loans are subject to any applicable early withdrawal charge. We reserve the right to charge a processing fee not to exceed \$25. Interest will be charged on loaned amounts. The difference between the rate applied and the rate credited on loans under your contract is currently 2.5% per annum (i.e., a 2.5% loan interest rate spread). We reserve the right to apply a loan interest rate spread of up to 3.0% per annum.

Systematic Withdrawals

A systematic withdrawal is a series of automatic partial withdrawals from your account based on a payment method you select. You may elect to withdraw a specified dollar amount or a percentage of the account value on a monthly, quarterly, semiannual or annual basis. The amount of each systematic withdrawal must be at least \$300.

Systematic Withdrawal Availability. We reserve the right to modify or discontinue offering systematic withdrawals. However, any such modification or discontinuation will not affect any systematic withdrawals already in effect. We may add additional systematic withdrawal options from time to time.

Requesting a Systematic Withdrawal. To request systematic withdrawals and to assess terms and conditions that may apply, contact your sales representative at the number listed in "Contract Overview - Questions: Contacting the Company."

Terminating Systematic Withdrawals. You may discontinue systematic withdrawals at any time by submitting a written request to our Administrative Service Center.

Charges. Systematic withdrawals are subject to early withdrawal charges. Although we currently do not impose a processing fee, we reserve the right to charge a processing fee not to exceed the lesser of 2.0% of each systematic withdrawal payment or \$25.

Taxation. Systematic withdrawals and revocations of elections may have tax consequences. Amounts withdrawn may be included in your gross income in the year in which the withdrawal occurs, and withdrawals prior to your reaching age 59½ may also be subject to a 10% federal tax penalty. See "Taxation."

Features of a Systematic Withdrawal

A systematic withdrawal allows you to receive regular payments from your contract without moving into the income phase. By remaining in the accumulation phase, you retain certain rights and investment flexibility not available during the income phase. Because the account remains in the accumulation phase, all accumulation phase charges continue to apply.

Death Benefit

This section provides information about the death benefit during the accumulation phase. For death benefit information applicable to the income phase, see “The Income Phase.”

Terms to Understand

Account Year/Account Anniversary:

A period of 12 months measured from the date we established your account and each anniversary of this date. Account anniversaries are measured from this date.

Annuitant(s): The person(s) on whose life(lives) or life expectancy(ies) the income phase payments are based.

Beneficiary(ies): The person(s) or entity(ies) entitled to receive death benefit proceeds under the contract.

Claim Date: The date proof of death and the beneficiary’s right to receive the death benefit are received in good order at our Administrative Service Center. Please contact our Administrative Service Center to learn what information is required for a request for payment of the death benefit to be in good order. Generally, a request is considered to be in “good order” when it is signed, dated and made with such clarity and completeness that we are not required to exercise any discretion in carrying it out.

Contingent Beneficiary: The person(s) or entity(ies) designated to receive death benefit proceeds under the contract if no beneficiary is alive when the death benefit is due.

During the Accumulation Phase

When is a Death Benefit Payable? During the accumulation phase a death benefit is payable when the contract holder or in certain circumstances, annuitant dies.

Who Receives Death Benefit Proceeds? If you would like certain individuals or entities to receive the death benefit when it becomes payable, you may name them as your beneficiaries and/or contingent beneficiaries. Unless you have instructed us otherwise, if more than one beneficiary has been named, the payment will be paid in equal shares. If you die and no beneficiary or contingent beneficiary exists, or if the beneficiary or contingent beneficiary is not living on the date payment is due, the death benefit will be paid in a lump sum to your estate.

Designating Your Beneficiary. You may designate a beneficiary on your application and may change the designated beneficiary at any time before income phase payments begin by sending us a written request. Upon our receipt of your written request in good order (see “Contract Overview - Questions: Contacting the Company”), we will process the change effective the date it was signed. Any change in beneficiary will not affect any payments made or affect any actions taken by us before the request was received. We are not responsible for the validity of any beneficiary change.

Death Benefit Amount

If you (for contracts owned by a natural person), or the annuitant (for contracts owned by a non-natural person in connection with a 457 plan) die prior to the income phase, the person you have chosen to be your beneficiary will receive a death benefit. The death benefit will be the greatest of three amounts: (1) the account value on the claim date less any outstanding loan balance; (2) the sum of all purchase payments, adjusted for any amounts deducted from your account (including withdrawals, payments made under an income phase payment plan, loans and fees and expenses); or (3) the account value on the sixth account anniversary immediately preceding your death (i.e., the account value on the latest of the 6th, 12th, 18th, etc. account anniversary), adjusted for purchase payments made and for amounts deducted (including withdrawals, payments made under an income phase payment plan, loans and fees and expenses) since that anniversary. If you or the annuitant, as described above, die after age 80, your beneficiary will receive the greater of (1) or (2) above.

If your contract is a nonqualified contract owned by a non-natural person and the annuitant dies, the beneficiary will receive the account value only. In that situation, neither the death benefit in (2) or (3) above will be available, nor can the optional one-year step-up death benefit be purchased.

For contracts owned by a natural person, if the annuitant dies and is not the same as the contract owner, the contract owner will automatically be named as the new annuitant and no death benefit will be payable.

Optional One-Year Step Up Death Benefit Rider

For an additional charge, you can purchase a rider that enables you to change the sixth account anniversary immediately preceding your death, in option (3) above, to the anniversary immediately preceding your death. The charge for this rider is equal to an annual rate of 0.15% of the average daily value of amounts invested in the subaccounts, charged on a monthly basis.

Payment of the Death Benefit Before Income Phase Payments Begin:

The beneficiary may choose one of the following three methods of payment:

- (1) Receive a lump-sum payment equal to all or a portion of the account value; or
- (2) Apply some or all of the account value to any of the income phase payment options (in no event may payments to a beneficiary extend beyond the beneficiary's life expectancy or any period certain greater than the beneficiary's life expectancy); or
- (3) Any other distribution method acceptable to us.

Until a death benefit request is in good order and a payment option is selected, account dollars will remain invested as at the time of your death, and no distributions will be made.

The timing and manner of payment are subject to the Tax Code's distribution rules. See "Taxation of Qualified Contracts-Required Distributions Upon Death." In general, the death benefit must be applied to either an income phase payment option within one year of the contract holder's or annuitant's death or the entire account value must be distributed within five years of the contract holder's or annuitant's date of death. An exception to this provision applies if the designated beneficiary is the surviving spouse, in which case the beneficiary may continue the contract as the successor contract holder and generally may exercise all rights under the contract.

Requests for payment of the death benefit in a lump sum will be paid within seven calendar days following the next valuation after we receive proof of death and a request for payment. Requests for continuing income phase payments or another form of distribution method must be in writing and received by us within the time period allowed by the Tax Code or the death benefit will be paid in a lump sum and the contract will be canceled.

Unless the beneficiary elects otherwise, lump-sum payments will generally be made into an interest bearing account that is backed by our general account. This account can be accessed by the beneficiary through a checkbook feature. The beneficiary may access death benefit proceeds at any time through the checkbook without penalty. Interest credited on this account may be less than under other settlement options available under the contract.

Taxation. In general, payments received by your beneficiary after your death are taxed to the beneficiary in the same manner as if you had received those payments. Additionally, your beneficiary may be subject to tax penalties if he or she does not begin receiving death benefit payments within the timeframe required by the Tax Code. See "Taxation."

We may have used the following term in prior prospectuses:

Annuity Provisions-Income Phase

Annuity Payout Selection-

Income Phase Payment Option

Annuity Payout-Income Phase Payment

The Income Phase

During the income phase you stop contributing dollars to your account and start receiving payments from your accumulated account value.

Initiating Payments. To start receiving income phase payments, you must notify us in writing of all of the following:

- ▷ Payment start date;
- ▷ Income phase payment option (see the income phase payment options table in this section); and
- ▷ Choice of fixed, variable or a combination of both fixed and variable payments.

Your account will continue in the accumulation phase until you properly initiate income phase payments. If you have not selected an income phase payment option before the payment start date, we will apply the fixed account values to provide fixed annuity payments and the subaccount values to provide variable annuity payments, both in the form of a Life Income with Payments Guaranteed for 10 years (120 months) to be automatically effective. You may change the income phase payment option by notifying us in writing before the payment start date. Once an income phase payment option is selected, it may not be changed.

What Affects Payment Amounts. Some of the factors that may affect the amount of your income phase payments include your age, gender, account value, the income phase payment option selected and whether you select fixed, variable or a combination of both fixed and variable payments.

Fixed Payments. Amounts funding fixed income phase payments will be held in the Company's general account. The amount of fixed payments does not vary with investment performance over time.

Variable Payments. Amounts funding your variable income phase payments will be held in the subaccount(s) you select. Payment amounts will vary depending upon the performance of the subaccounts you select. For more information about how variable income phase payments are determined, call us for a copy of the Statement of Additional Information. See "Contract Overview - Questions: Contacting the Company."

Transfers. After income phase payments begin, you may transfer between subaccounts once per year.

Assumed Net Investment Rate. If you elect variable payments, the assumed net investment rate is 3.0%. If the investment performance of the subaccounts you selected exceeds 3.0%, your income phase payments will increase. Conversely, if the investment performance of the subaccounts you selected is less than 3.0%, your income phase payments will decrease.

Minimum Payment Amounts. The income phase payment option you select must result in monthly payments of at least \$100. We reserve the right to change the frequency of income phase payments to intervals that will result in payments of at least \$100.

If the account value less any outstanding loan balance at the payment start date is less than \$5,000, you will receive one lump-sum payment and the contract will be cancelled.

Restrictions on Start Dates and the Duration of Payments. Unless otherwise agreed to by us, the start date must be the first business day of any calendar month. The earliest start date is the first business day of the first month after issue. If the start date you selected does not occur on a valuation date at least 60 days after issue, we reserve the right to adjust the start date to the first valuation date after the start date you selected that is at least 60 days after issue. If you do not select a start date, the start date will be the annuitant's 85th birthday. The latest start date is the annuitant's 99th birthday. If income phase payments start when the annuitant is at an advanced age, such as over 95, it is possible that the contract will not be considered an annuity for federal tax purposes. You may change the start date by notifying us in writing at least 30 days before the start date currently in effect and the new start date. The new start date must satisfy the requirements for a start date.

For qualified contracts only, income phase payments may not extend beyond:

- (a) The life of the annuitant;
- (b) The joint lives of the annuitant and beneficiary;
- (c) A guaranteed period greater than the annuitant's life expectancy; or
- (d) A guaranteed period greater than the joint life expectancies of the annuitant and beneficiary.

See "Taxation" for further discussion of rules relating to income phase payments.

Charges Deducted. When you select an income phase payment option (one of the options listed in the tables on the following page), a mortality and expense risk charge, consisting of a daily deduction of 1.25% on an annual basis, will be deducted from amounts held in the subaccounts. This charge compensates us for mortality and expense risks we assume under income phase payment options and is applicable to all income phase payment options, including variable options under which we do not assume a mortality risk. In this situation, this charge will be used to cover expenses. Although we expect to make a profit from this fee, we do not always do so. For variable options under which we do not assume a mortality risk, we may make a larger profit than under other options. We may also deduct a daily administrative charge of 0.15% annually from amounts held in the subaccounts. We are currently deducting this charge.

Death Benefit During the Income Phase. The death benefits that may be available to a beneficiary are outlined in the following income phase payment options table. If a lump-sum payment is due as a death benefit, we will make payment within seven calendar days following the next valuation date after we receive proof of death acceptable to us and the request for the payment in good order at our Administrative Service Center. If continuing income phase payments are elected, the beneficiary may not elect to receive a lump sum at a future date unless the income phase payment option specifically allows a withdrawal right. We will calculate the value of any death benefit at the next valuation date after we receive proof of death and a request for payment. Such value will be reduced by any payments made after the date of death.

Unless the beneficiary elects otherwise, lump-sum payments will generally be made into an interest bearing account that is backed by our general account. This account can be accessed by the beneficiary through a checkbook feature. The beneficiary may access death benefit proceeds at any time through the checkbook without penalty. Interest credited on this account may be less than under other settlement options available under the contract.

Partial Entry into the Income Phase. You may elect an income phase payment option for a portion of your account dollars, while leaving the remaining portion invested in the accumulation phase. Amounts applied to income phase payments are treated as a withdrawal from the contract, and we reserve the right to deduct any premium taxes not already paid under the contract. Whether the Tax Code considers such payments taxable as income phase payments or as withdrawals is currently unclear; therefore, you should consult with a qualified tax adviser before electing this option. The same or different income phase payment option may be selected for the portion left invested in the accumulation phase.

Taxation. To avoid certain tax penalties, you or your beneficiary must meet the distribution rules imposed by the Tax Code. Additionally, when selecting an income phase payment option, the Tax Code requires that your expected payments will not exceed certain durations. See "Taxation" for additional information.

Income Phase Payment Options

The following table lists the income phase payment options and accompanying death benefits available during the income phase. We may offer other income phase payment options under the contract from time to time.

Once income phase payments begin the income phase payment option selected may not be changed.

Terms to understand:

Annuitant(s): The person(s) on whose life expectancy(ies) the income phase payments are based.

Beneficiary(ies): The person(s) or entity(ies) entitled to receive a death benefit under the contract.

Lifetime Income Phase Payment Options	
Life Income	Length of Payments: For as long as the annuitant lives. It is possible that only one payment will be made should the annuitant die prior to the second payment's due date. Death Benefit-None: All payments end upon the annuitant's death.
Life Income with Payments Guaranteed for 10 Years*	Length of Payments: For as long as the annuitant lives, with payments guaranteed for 10 years (120 months). Death Benefit-Payment to the Beneficiary: If the annuitant dies before we have made all the guaranteed payments, we will continue to pay the beneficiary the remaining payments.
Life Income-Two Lives	Length of Payments: For as long as either annuitant lives. It is possible that only one payment will be made if both annuitants die before the second payment's due date. Death Benefit-None: All payments end upon the death of both annuitants.

*Guaranteed period payments may not extend beyond the shorter of your life expectancy or until your age 95.

Contract Distribution

General

Effective January 1, 2004, our affiliate, ING Financial Advisers, LLC, began serving as the principal underwriter for the contract. ING Financial Advisers, LLC, a Delaware limited liability company, is registered as a broker-dealer with the SEC. ING Financial Advisers is also a member of the Financial Industry Regulatory Authority ("FINRA") and the Securities Investor Protection Corporation. ING Financial Advisers, LLC's principal office is located at One Orange Way, Windsor, Connecticut 06095-4774.

Prior to January 1, 2004, the contracts were distributed by Washington Square Securities, Inc. ("WSSI"), a Minnesota corporation and an affiliate of the Company.

The contracts are offered to the public by individuals who are registered representatives of ING Financial Advisers, LLC or of other broker-dealers that have entered into selling arrangements with ING Financial Advisers, LLC. We refer to ING Financial Advisers, LLC and the other broker-dealers selling the contract as "distributors." All registered representatives selling the contract must be licensed as insurance agents for the Company.

The following is a list of broker-dealers that are affiliated with the Company:

Bancnorth Investment Group, Inc.
Directed Services LLC
Financial Network Investment Corporation
Guaranty Brokerage Services, Inc.
ING America Equities, Inc.
ING DIRECT Securities, Inc.
ING Financial Markets LLC
ING Financial Partners, Inc.

ING Funds Distributor, LLC
ING Investment Management Services LLC
ING Private Wealth Management LLC
Multi-Financial Securities Corporation
PrimeVest Financial Services, Inc.
ShareBuilder Securities Corporation
Systematized Benefits Administrators, Inc.

Registered representatives of distributors who solicit sales of the contracts typically receive a portion of the compensation paid to the distributor in the form of commissions or other compensation, depending upon the agreement between the distributor and the registered representative. This compensation, as well as other incentives or payments, is not paid directly by contract owners or the separate account. We intend to recoup this compensation and other sales expenses paid to distributors through fees and charges imposed under the contracts.

Commission Payments. Persons who offer and sell the contracts may be paid a commission. The maximum percentage amount that may be paid with respect to a given purchase payment ranges from 0.0% to a maximum of 6.75% of the payments to an account. Asset-based compensation of up to 1.0% may also be paid.

Individual registered representatives may receive all or a portion of compensation paid to their distributor, depending upon the firm's practices. Commissions and annual payments, when combined, could exceed 6.75% of total premium payments. To the extent permitted by SEC and FINRA rules and other applicable laws and regulations, we may also pay or allow other promotional incentives or payments in the form of cash payments or other compensation to distributors, which may require the registered representative to attain a certain threshold of sales of Company products. These other promotional incentives or payments may not be offered to all distributors, and may be limited only to ING Financial Advisers, LLC and other distributors affiliated with the Company.

We may also enter into special compensation arrangements with certain selling firms based on those firms' aggregate or anticipated sales of the contracts or other criteria. These arrangements may include commission specials, in which additional commissions may be paid in connection with premium payments received for a limited time period, within the maximum 6.75% commission rate noted above. These special compensation arrangements will not be offered to all selling firms, and the terms of such arrangements may differ among selling firms based on various factors. These special compensation arrangements may also be limited only to ING Financial Advisers, LLC and other distributors affiliated with the Company. Any such compensation payable to a selling firm will not result in any additional direct charge to you by us.

Some sales personnel may receive various types of non-cash compensation as special sales incentives, including trips, and we may also pay for some sales personnel to attend educational and/or business seminars. Any such compensation will be paid in accordance with SEC and FINRA rules. Management personnel of the Company, and of its affiliated broker-dealers, may receive additional compensation if the overall amount of investments in funds advised by the Company or its affiliates meets certain target levels or increases over time. Compensation for certain management personnel, including sales management personnel, may be enhanced if the overall amount of investments in the contracts and other products issued or advised by the Company or its affiliates increases over time. Certain sales management personnel may also receive compensation that is a specific percentage of the commissions paid to distributors or of purchase payments received under the contracts.

In addition to direct cash compensation for sales of contracts described above, ING Financial Advisers, LLC may also pay distributors additional compensation or reimbursement of expenses for their efforts in selling contracts to you and other customers. These amounts may include:

- Marketing/distribution allowances that may be based on the percentages of purchase payments received, the aggregate commissions paid and/or the aggregate assets held in relation to certain types of designated insurance products issued by the Company and/or its affiliates during the year;
- Loans or advances of commissions in anticipation of future receipt of purchase payments (a form of lending to registered representatives). These loans may have advantageous terms, such as reduction or elimination of the interest charged on the loan and/or forgiveness of the principal amount of the loan, which may be conditioned on sales;
- Education and training allowances to facilitate our attendance at certain educational and training meetings to provide information and training about our products. We also hold training programs from time to time at our own expense;
- Sponsorship payments or reimbursements for distributors to use in sales contests and/or meetings for their registered representatives who sell our products. We do not hold contests based solely on sales of this product;

- Certain overrides and other benefits that may include cash compensation based on the amount of earned commissions, representative recruiting or other activities that promote the sale of contracts; and
- Additional cash or noncash compensation and reimbursements permissible under existing law. This may include, but is not limited to, cash incentives, merchandise, trips, occasional entertainment, meals and tickets to sporting events, client appreciation events, business and educational enhancement items, payment for travel expenses (including meals and lodging) to pre-approved training and education seminars, and payment for advertising and sales campaigns.

We pay dealer concessions, wholesaling fees, overrides, bonuses, other allowances and benefits and the costs of all other incentives or training programs from our resources, which include the fees and charges imposed under the contracts.

The following is a list of the top 25 selling firms that, during 2007, received the most compensation, in the aggregate, from us in connection with the sale of registered variable annuity contracts issued by the Company, ranked by total dollars received.

- | | |
|---|--|
| 1) ING Financial Partners, Inc. | 14) Centaurus Financial, Inc. |
| 2) Lincoln Investment Planning, Inc. | 15) National Planning Corporation |
| 3) PlanMember Securities Corporation | 16) Pavek Investments, Inc. |
| 4) Great American Advisors, Inc. | 17) Lincoln Financial Advisors Corp. |
| 5) GLP Investment Services, LLC | 18) Sammons Securities Company, LLC |
| 6) Linsco/Private Ledger Corp. | 19) cfd Investments, Inc. |
| 7) Legend Equities Corporation | 20) Securities America, Inc. |
| 8) Veritrust [®] Financial, L.L.C. | 21) Multi-Financial Securities Corporation |
| 9) Royal Alliance Associates, Inc. | 22) Mutual Service Corporation |
| 10) GWN Securities, Inc. | 23) InterSecurities, Inc. |
| 11) Brecek & Young Advisors, Inc. | 24) Raymond James Financial Services, Inc. |
| 12) T. S. Phillips Investments, Inc. | 25) USAllianz Securities Inc. |
| 13) AIG Financial Advisors Inc. | |

If the amounts paid to ING Financial Advisers, LLC were included, ING Financial Advisers, LLC would be fifth on the list.

This is a general discussion of the types and levels of compensation paid by us for the sale of our variable annuity contracts. It is important for you to know that the payment of volume or sales-based compensation to a distributor or registered representative may provide that registered representative a financial incentive to promote our contracts over those of another Company, and may also provide a financial incentive to promote one of our contracts over another.

The names of the distributor and the registered representative responsible for your account are stated in your enrollment materials.

Third Party Compensation Arrangements

- ▷ The Company may seek to promote itself and the contracts by sponsoring or contributing to events sponsored by various associations, professional organizations and labor organizations.
- ▷ The Company may make payments to associations and organizations, including labor organizations, which endorse or otherwise recommend the contracts to their membership. If an endorsement is a factor in your contract purchasing decision, more information on the payment arrangement, if any, is available upon your request.
- ▷ At the direction of the contract holder, we may make payments to the contract holder, its representatives or third party service providers intended to defray or cover the costs of plan or program related administration.

TAXATION

I. Introduction

This section discusses our understanding of current federal income tax laws affecting the contracts. You should keep the following in mind when reading it:

- Your tax position (or the tax position of the designated beneficiary, as applicable) determines federal taxation of amounts held or paid out under the contracts;
- Tax laws change. It is possible that a change in the future could affect contracts issued in the past;
- This section addresses federal income tax rules and does not discuss federal estate and gift tax implications, state and local taxes or any other tax provisions; and
- We do not make any guarantee about the tax treatment of the contract or any transaction involving the contracts.

We do not intend this information to be tax advice. For advice about the effect of federal income taxes or any other taxes on amounts held or paid out under the contracts, consult a tax adviser. No attempt is made to provide more than general information about the use of the contracts with tax-qualified retirement arrangements.

For more comprehensive information contact the Internal Revenue Service (IRS).

Types of Contracts: Nonqualified or Qualified

The contracts may be purchased on a non-tax-qualified basis (nonqualified contracts) or on a tax-qualified basis (qualified contracts). Nonqualified contracts are purchased with after-tax contributions and are not related to retirement plans or programs that receive special income tax treatment under the Tax Code.

Qualified contracts are designed for use by individuals and/or employers whose premium payments are comprised solely of proceeds from and/or contributions under retirement plans or programs intended to qualify for special income tax treatment under Tax Code sections 403(b), 408, 408A, or 457(b). We may also, at our discretion, issue nonqualified contracts for use with retirement arrangements under Tax Code section 401.

II. Taxation of Nonqualified Contracts

Taxation of Gains Prior to Distribution

Tax Code section 72 governs taxation of annuities in general. We believe that if you are a natural person you will generally not be taxed on increases in the value of a nonqualified contract until a distribution occurs or until income phase payments begin. This assumes that the contracts will qualify as annuity contracts for federal income tax purposes. In order to be eligible to receive deferral of taxation, the requirements listed below must be satisfied.

In this Section

I. Introduction

II. Taxation of Nonqualified Contracts

III. Taxation of Qualified Contracts

IV. Tax Consequences of Enhanced Death Benefits

V. Possible Changes in Taxation

VI. Taxation of the Company

When consulting a tax adviser, be certain that he or she has expertise in the Tax Code sections applicable to your tax concerns.

Investor Control. Although earnings under the contracts are generally not taxed until withdrawn, the IRS has stated in published rulings that a variable contract owner will be considered the owner of separate account assets if the contract owner possesses incidents of investment control over the assets. In these circumstances income and gains from the separate account assets would be currently includible in the variable contract owner's gross income.

Future guidance regarding the extent to which contract owners can direct their investments among subaccounts without being treated as owners of the underlying assets of the separate account may adversely affect the tax treatment of existing contracts. The Company therefore reserves the right to modify the contracts as necessary to attempt to prevent the contract owner from being considered the federal tax owner of a pro rata share of the assets of the separate account.

Required Distributions. In order to be treated as an annuity contract for federal income tax purposes, the Tax Code requires any nonqualified contract to contain certain provisions specifying how your interest in the contract will be distributed in the event of your death. The nonqualified contracts contain provisions that are intended to comply with these Tax Code requirements although no regulations interpreting these requirements have yet been issued. We intend to review such distribution provisions and modify them if necessary to assure that they comply with the applicable requirements when such requirements are clarified by regulation or otherwise.

Non-Natural Holders of a Nonqualified Contract. If you are not a natural person, a nonqualified contract generally is not treated as an annuity for income tax purposes and the income on the contract for the taxable year is currently taxable as ordinary income. Income on the contract is any increase over the year in the account value, adjusted for purchase payments made during the year, amounts previously distributed and amounts previously included in income. There are some exceptions to this rule and a non-natural person should consult with its tax adviser prior to purchasing the contract. A non-natural person exempt from federal income taxes should consult with its tax adviser regarding treatment of income on the contract for purposes of the unrelated business income tax. When the contract owner is not a natural person, a change in annuitant is treated as the death of the contract owner.

Delayed Income Phase Start Date. If the contract's income phase start date occurs (or is scheduled to occur) at a time when the annuitant has reached an advanced age (e.g. age 95) it is possible that the contract would not be treated as an annuity for federal income tax purposes. In that event, the income and gains under the contract could be currently includible in your income.

Diversification. Tax Code Section 817(h) requires that in a nonqualified contract the investments of the funds be "adequately diversified" in accordance with Treasury Regulations in order for the contract to qualify as an annuity contract under federal tax law. The separate account, through the funds, intends to comply with the diversification requirements prescribed by Tax Code section 817(h) and by the Treasury in Reg. Sec. 1.817-5, which affects how the funds' assets may be invested. If it is determined, however, that your contract does not satisfy the applicable diversification regulations and rulings because a subaccount's corresponding fund fails to be adequately diversified for whatever reason, we will take appropriate and reasonable steps to bring your contract into compliance with such regulations and rulings, and we reserve the right to modify your contract as necessary in order to do so.

Taxation of Distributions

General. When a withdrawal from a nonqualified contract occurs, the amount received will be treated as ordinary income subject to tax up to an amount equal to the excess (if any) of the contract value (unreduced by the amount of any early withdrawal charge) immediately before the distribution over the contract owner's investment in the contract at that time. Investment in the contract is generally equal to the amount of all contributions to the contract, plus amounts previously included in your gross income as the result of certain loans, assignments or gifts, less the aggregate amount of non-taxable distributions previously made.

In the case of a full withdrawal from a nonqualified contract, the amount received generally will be taxable only to the extent it exceeds the contract owner's cost basis in the contract.

10% Penalty. A 10% penalty tax applies to the taxable portion of a distribution from a nonqualified deferred annuity contract unless certain exceptions apply, including one or more of the following:

- a) You have attained age 59½;
- b) You have become disabled as defined in the Tax Code;
- c) You (or the annuitant if the contract owner is a non-natural person) have died;
- d) The distribution is made in substantially equal periodic payments (at least annually) over your life or life expectancy or the joint lives or joint life expectancies of you and your designated beneficiary; or
- e) The distribution is allocable to investment in the contract before August 14, 1982.

The 10% penalty does not apply to distributions from an immediate annuity as defined in the Tax Code. Other exceptions may be applicable under certain circumstances and special rules may be applicable in connection with the exceptions enumerated above. A tax adviser should be consulted with regard to exceptions from the penalty tax.

Tax-Free Exchanges. Section 1035 of the Tax Code permits the exchange of a life insurance, endowment or annuity contract for an annuity contract on a tax-free basis. In such instance, the “investment in the contract” in the old contract will carry over to the new contract. You should consult with your tax adviser regarding procedures for making 1035 exchanges.

If your contract is purchased through a tax-free exchange of a life insurance, endowment or annuity contract that was purchased prior to August 14, 1982, any distributions other than income phase payments will be treated, for tax purposes as coming:

- First, from any remaining “investment in the contract” made prior to August 14, 1982 and exchanged into the contract;
- Next, from any “income on the contract” attributable to the investment made prior to August 14, 1982;
- Then, from any remaining “income on the contract”; and
- Lastly, from any remaining “investment in the contract.”

The IRS has concluded that in certain instances, the partial exchange of a portion of one annuity contract for another contract will be tax-free. However, the IRS has reserved the right to treat transactions it considers abusive as ineligible for favorable partial 1035 tax-free exchange treatment. It is not certain whether the IRS would treat an immediate withdrawal or annuitization after a partial exchange as abusive. In addition, it is unclear how the IRS will treat a partial exchange from a life insurance, endowment, or annuity contract directly into an immediate annuity. Currently, we will accept a partial 1035 exchange from a nonqualified annuity into a deferred annuity or an immediate annuity as a tax-free transaction unless we believe that we would be expected to treat the transaction as abusive. We are not responsible for the manner in which any other insurance company, for tax-reporting purposes, or the IRS, with respect to the ultimate tax treatment, recognizes or reports a partial exchange. We strongly advise you to discuss any proposed 1035 exchange with your tax adviser prior to proceeding with the transaction.

Taxation of Income Phase Payments. Although tax consequences may vary depending on the payment option elected under an annuity contract, a portion of each income phase payment is generally not taxed and the remainder is taxed as ordinary income. The non-taxable portion of an income phase payment is generally determined in a manner that is designed to allow you to recover your investment in the contract ratably on a tax-free basis over the expected stream of income phase payments, as determined when income phase payments start. Once your investment in the contract has been fully recovered, however, the full amount of each subsequent income phase payment is subject to tax as ordinary income. The tax treatment of partial annuitizations is unclear. We currently treat any partial annuitizations as withdrawals rather than as income phase payments. Please consult your tax adviser before electing partial annuitization.

Death Benefits. Amounts may be distributed from the contract because of your death or the death of the annuitant. Generally, such amounts are includible in the income of the recipient as follows: (i) if distributed in a lump sum, such amounts are taxed in the same manner as a full withdrawal of the contract, or (ii) if distributed under a payment option, such amounts are taxed in the same way as income phase payments. Special rules may apply to amounts distributed after a beneficiary has elected to maintain contract value and receive payments.

Different distribution requirements apply if your death occurs:

- ▷ After you begin receiving income phase payments under the contract; or
- ▷ Before you begin receiving such distributions.

If your death occurs after you begin receiving income phase payments, distributions must be made at least as rapidly as under the method in effect at the time of your death.

If your death occurs before you begin receiving income phase payments, your entire balance must be distributed within five years after the date of your death. For example, if you died on September 1, 2008, your entire balance must be distributed by August 31, 2013. However, if distributions begin within one year of your death, then payments may be made over one of the following timeframes:

- ▷ Over the life of the designated beneficiary; or
- ▷ Over a period not extending beyond the life expectancy of the designated beneficiary.

If the designated beneficiary is your spouse, the contract may be continued with the surviving spouse as the new contract owner. If the contract owner is a non-natural person and the primary annuitant dies, the same rules apply on the death of the primary annuitant as outlined above for death of a contract owner.

The contract offers a death benefit that may exceed the greater of the premium payments and the contract value. Certain charges are imposed with respect to the death benefit. It is possible that these charges (or some portion thereof) could be treated for federal tax purposes as a distribution from the contract.

Assignment and Other Transfers. A transfer, pledge, or assignment of ownership of a nonqualified contract, the selection of certain annuity dates, or the designation of an annuitant or payee other than an owner may result in certain tax consequences to you that are not discussed herein. The assignment, pledge or agreement to assign or pledge any portion of the contract value generally will be treated as a distribution. Anyone contemplating any such designation, transfer, assignment, selection or exchange should contact a tax adviser regarding the potential tax effects of such a transaction.

Immediate Annuities. Under Section 72 of the Tax Code, an immediate annuity means an annuity: (i) that is purchased with a single premium, (ii) with income phase payments starting within one year of the date of purchase, and (iii) that provides a series of substantially equal periodic payments made annually or more frequently. While this contract is not designed as an immediate annuity, treatment as an immediate annuity would have significance with respect to exceptions from the 10% early withdrawal penalty, to contracts owned by non-natural persons, and for certain exchanges.

Multiple Contracts. Tax laws require that all deferred nonqualified annuity contracts that are issued by a company or its affiliates to the same contract owner during any calendar year be treated as one annuity contract for purposes of determining the amount includible in gross income under Tax Code section 72(e). In addition, the Treasury Department has specific authority to issue regulations that prevent the avoidance of Tax Code section 72(e) through the serial purchase of annuity contracts or otherwise.

Withholding. We will withhold and remit to the IRS a part of the taxable portion of each distribution made under a contract unless the distributee notifies us at or before the time of the distribution that he or she elects not to have any amounts withheld. Withholding is mandatory, however, if the distributee fails to provide a valid taxpayer identification number or if we are notified by the IRS that the taxpayer identification number we have on file is incorrect. The withholding rates applicable to the taxable portion of income phase payments are the same as the withholding rates generally applicable to payments of wages. In addition, a 10% withholding rate applies to the taxable portion of non-periodic payments. Regardless of whether you elect not to have federal income tax withheld, you are still liable for payment of federal income tax on the taxable portion of the payment.

If you or your designated beneficiary is a non-resident alien, then any withholding is governed by Tax Code section 1441 based on the individual's citizenship, the country of domicile and treaty status.

III. Taxation of Qualified Contracts

General

The contracts are primarily designed for use with Tax Code section 403(b) and Roth 403(b) plans, Tax Code section 457(b) plans, and as IRAs under Tax Code section 408 and Roth IRAs under Tax Code section 408A (qualified contracts). They may also be issued as nonqualified contracts for use with Tax Code section 401(a) or 401(k) plans. (We refer to all of these as “qualified plans”). The tax rules applicable to participants in these qualified plans vary according to the type of plan and the terms and conditions of the plan itself. The ultimate effect of federal income taxes on the amounts held under a contract, or on income phase payments, depends on the type of retirement plan or program, the tax and employment status of the individual concerned, and on your tax status. Special favorable tax treatment may be available for certain types of contributions and distributions. In addition, certain requirements must be satisfied in purchasing a qualified contract with proceeds from a tax-qualified plan or program in order to continue receiving favorable tax treatment.

Adverse tax consequences may result from: contributions in excess of specified limits, distributions before age 59½ (subject to certain exceptions), distributions that do not conform to specified commencement and minimum distribution rules, and in other specified circumstances. Some qualified plans are subject to additional distribution or other requirements that are not incorporated into our contract. No attempt is made to provide more than general information about the use of the contracts with qualified plans. Contract owners, participants, annuitants, and beneficiaries are cautioned that the rights of any person to any benefit under these qualified plans may be subject to the terms and conditions of the plan themselves, regardless of the terms and conditions of the contract. The Company is not bound by the terms and conditions of such plans to the extent such terms contradict the contract, unless we consent.

Generally, contract owners, participants, and beneficiaries are responsible for determining that contributions, distributions and other transactions with respect to the contract comply with applicable law. Therefore, you should seek competent legal and tax advice regarding the suitability of a contract for your particular situation. The following discussion assumes that qualified contracts are purchased with proceeds from and/or contributions under retirement plans or programs that qualify for the intended special federal tax treatment.

Tax Deferral

Under the federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of a qualified plan (as defined in this prospectus), an annuity contract is not necessary to obtain this favorable tax treatment and does not provide any tax benefits beyond the deferral already available to the qualified plan itself. Annuities do provide other features and benefits (such as guaranteed living benefits and/or death benefits or the option of lifetime income phase options at established rates) that may be valuable to you. You should discuss your alternatives with your financial representative taking into account the additional fees and expenses you may incur in an annuity.

Section 403(b) and Roth 403(b) Tax-Deferred Annuities. The contracts are available as Tax Code section 403(b) tax-deferred annuities. Section 403(b) of the Tax Code allows employees of certain Tax Code section 501(c)(3) organizations and public schools to exclude from their gross income the premium payments made, within certain limits, to a contract that will provide an annuity for the employee’s retirement.

The contracts may also be available as a Roth 403(b), as described in Tax Code section 402A, and we may set up accounts for you under the contract for Roth 403(b) contributions. Tax Code section 402A allows employees of public schools and certain Tax Code section 501(c)(3) organizations to contribute after-tax salary contributions to a Roth 403(b), which provides for tax-free distributions, subject to certain restrictions.

In July 2007, the Treasury Department issued final regulations that are generally effective January 1, 2009. These final regulations may be relied upon prior to that date as long as reliance is on a reasonable and consistent basis. We reserve the right to modify the contracts to comply with these regulations where allowed, or where required by law. The final regulations include: (a) a written plan requirement; (b) the ability to terminate a 403(b) plan, which would

entitle a participant to a distribution; (c) the replacement of IRS Revenue Ruling 90-24 with new exchange rules effective September 25, 2007 and requiring information sharing between the 403(b) plan sponsor and/or its delegate and the product provider as well as new plan-to-plan transfer rules (under these new exchange and transfer rules, the 403(b) plan sponsor can elect not to permit exchanges or transfers); and (d) new distribution rules for 403(b)(1) annuities that would impose withdrawal restrictions on non-salary reduction contribution amounts in addition to salary reduction contribution amounts, as well as other changes.

Section 401(a) and 401(k) Plans. Sections 401(a) and 401(k) of the Tax Code permit certain employers to establish various types of retirement plans for employees, and permits self-employed individuals to establish these plans for themselves and their employees. These retirement plans may permit the purchase of the contracts to accumulate retirement savings under the plans. Employers intending to use the contract with such plans should seek competent legal advice.

Section 457(b) Plans. Section 457(b) of the Tax Code permits certain employers to offer deferred compensation plans for their employees. These plans may be offered by state governments, local governments, political subdivisions, agencies, instrumentalities and certain affiliates of such entities (governmental employers), as well as non-governmental, tax-exempt organizations (non-governmental employers). Participation in a 457(b) plan maintained by a non-governmental employer is generally limited to highly compensated employees and select management (other than 457(b) plans maintained by nonqualified, church-controlled organizations). Generally, participants may specify the form of investment for their deferred compensation account.

Under 457(b) plans of non-governmental employers, all amounts of deferred compensation, all property and rights purchased with such amounts and all income attributable to such amounts, property and rights remain solely the property and rights of the employer and are subject to the claims of the employer's general creditors. 457(b) plans of governmental employers, on the other hand, are required to hold all assets and income of the plan in trust for the exclusive benefit of plan participants and their beneficiaries. For purposes of meeting this requirement, an annuity contract is treated as a trust.

Individual Retirement Annuities. Section 408 of the Tax Code permits eligible individuals to contribute to an individual retirement program known as an Individual Retirement Annuity ("IRA"). IRAs are subject to limits on the amounts that can be contributed, the deductible amount of the contribution, the persons who may be eligible, and the time when distributions commence. Also, distributions from IRAs, individual retirement accounts, and other types of retirement plans may be "rolled over" on a tax-deferred basis into an IRA. Employers may establish Simplified Employee Pension (SEP) or Savings Incentive Match Plan for Employees (SIMPLE) plans to provide IRA contributions on behalf of their employees. If you make a tax-free rollover of a distribution from an IRA you may not make another tax-free rollover from the IRA within a 1-year period. Sales of the contract for use with IRAs may be subject to special requirements of the IRS.

The IRS has not reviewed the contracts described in this prospectus for qualification as IRAs and has not addressed, in a ruling of general applicability, whether the contract's death benefit provisions comply with IRS qualification requirements.

Roth IRAs. Section 408A of the Tax Code permits certain eligible individuals to contribute to a Roth IRA. Contributions to a Roth IRA are subject to limits on the amount of contributions and the persons who may be eligible to contribute, are not deductible, and must be made in cash or as a rollover or transfer from another Roth IRA or other IRA. Certain qualifying individuals may convert an IRA, SEP, or a SIMPLE to a Roth IRA. Such rollovers and conversions are subject to tax, and other special rules may apply. If you make a tax-free rollover of a distribution from a Roth IRA to another Roth IRA, you may not make another tax-free rollover from the Roth IRA from which the rollover was made within a 1-year period. A 10% penalty may apply to amounts attributable to a conversion to a Roth IRA if the amounts are distributed during the five taxable years beginning with the year in which the conversion was made.

Sales of a contract for use with a Roth IRA may be subject to special requirements of the IRS. The IRS has not reviewed the contracts described in this prospectus for qualification as IRAs and has not addressed, in a ruling of general applicability, whether the contract's death benefit provisions comply with IRS qualification requirements.

Contributions

In order to be excludable from gross income for federal income tax purposes, total annual contributions to certain qualified plans are limited by the Tax Code. We provide general information on these requirements for certain plans below. You should consult with your tax adviser in connection with contributions to a qualified contract.

401(a), 401(k), 403(b), and Roth 403(b) Plans. The total annual contributions (including pre-tax and Roth 403(b) after-tax contributions) by you and your employer cannot exceed, generally, the lesser of 100% of your compensation or \$46,000 (as indexed for 2008). Compensation means your compensation for the year from the employer sponsoring the plan and, for years beginning after December 31, 1997, includes any elective deferrals under Tax Code section 402(g) and any amounts not includible in gross income under Tax Code sections 125 or 457.

This limit applies to your contributions as well as to any contributions made by your employer on your behalf. An additional requirement limits your salary reduction contributions to a 401(k), 403(b), or Roth 403(b) plan to generally no more than \$15,500. Contribution limits are subject to annual adjustments for cost-of-living increases. Your own limit may be higher or lower, depending upon certain conditions.

With the exception of Roth 403(b) contributions, purchase payments to your account(s) will generally be excluded from your gross income only if the plan meets certain nondiscrimination requirements, as applicable. Roth 403(b) salary reduction contributions are made on an after-tax basis.

457(b) Plans. In order to be excludible from gross income for federal income tax purposes, total annual contributions made by you and your employer to a 457(b) plan cannot exceed, generally, the lesser of \$15,500 or 100% of your includible compensation. Generally, includible compensation means your compensation for the year from the employer sponsoring the plan, including deferrals to the employer's Tax Code section 457, 401(k), Roth 401(k), 403(b), Roth 403(b), and 125 cafeteria plans.

The \$15,500 limit is subject to an annual adjustment for cost-of-living increases.

Catch-up Contributions. Notwithstanding the contribution limits noted above, a participant in a 401(k), 403(b), Roth 403(b), or a 457(b) plan of governmental employer who is at least age 50 by the end of the plan year may contribute an additional amount not to exceed the lesser of:

- (a) \$5,000; or
- (b) The participant's compensation for the year reduced by any other elective deferrals of the participant for the year.

Additional catch-up provisions may be available. For advice on using a catch-up provision, please consult with your tax adviser.

Distributions - General

Certain tax rules apply to distributions from the contracts. A distribution is any amount taken from a contract including withdrawals, income phase payments, rollovers, exchanges and death benefit proceeds. We report the taxable portion of all distributions to the IRS.

401(a), 401(k), 403(b) and Governmental 457(b) Plans. All distributions from these plans are taxed as received unless one of the following is true:

- The distribution is an eligible rollover distribution and is rolled over to another plan eligible to receive rollovers or to a traditional IRA in accordance with the Tax Code;
- You made after-tax contributions to the plan. In this case, depending upon the type of distribution, the amount will be taxed according to the rules detailed in the Tax Code; or
- The distribution is a qualified health insurance premium of a required public safety officer as defined in the Pension Protection Act of 2006.

A payment is an eligible rollover distribution unless it is:

- part of a series of substantially equal periodic payments (at least one per year) made over the life expectancy of the participant or the joint life expectancy of the participant and his designated beneficiary or for a specified period of 10 years or more;
- a required minimum distribution under Tax Code section 401(a)(9);
- a hardship withdrawal;
- otherwise excludable from income; or
- not recognized under applicable regulations as eligible for rollover.

The Tax Code imposes a 10% penalty tax on the taxable portion of any distribution from a contract used with a 401(a), 401(k), or 403(b) plan (or amounts from a governmental 457(b) plan that are attributable to rollovers from such plans) unless certain exceptions, including one or more of the following, have occurred:

- a) You have attained age 59½;
- b) You have become disabled, as defined in the Tax Code;
- c) You have died and the distribution is to your beneficiary;
- d) You have separated from service with the sponsor at or after age 55;
- e) The distribution amount is rolled over into another eligible retirement plan or to an IRA in accordance with the terms of the Tax Code;
- f) You have separated from service with the plan sponsor and the distribution amount is made in substantially equal periodic payments (at least annually) over your life or the life expectancy or the joint lives or joint life expectancies of you and your designated beneficiary;
- g) The distribution is made due to an IRS levy upon your plan;
- h) The withdrawal amount is paid to an alternate payee under a Qualified Domestic Relations Order (QDRO);
or
- i) The distribution is a qualified reservist distribution as defined under the Pension Protection Act of 2006.

In addition, the 10% penalty tax does not apply to the amount of a distribution equal to unreimbursed medical expenses incurred by you during the taxable year that qualify for deduction as specified in the Tax Code. The Tax Code may provide other exceptions or impose other penalty taxes in other circumstances.

401(k) Plans. Subject to the terms of your 401(k) plan, distributions from your 401(k) employee account, and possibly all or a portion of your 401(k) employer account, may only occur upon your retirement, death, attainment of age 59½, disability, severance from employment, financial hardship, or termination of the plan, in some instances. Such distributions remain subject to other applicable restrictions under the Tax Code.

403(b) Plans. Distribution of certain salary reduction contributions and earnings on such contributions restricted under Tax Code section 403(b)(11) may only occur upon your death, attainment of age 59½, severance from employment, disability or financial hardship, or under other exceptions as provided for by the Tax Code or regulations. See “Withdrawals – Withdrawal Restrictions.” Such distributions remain subject to other applicable restrictions under the Tax Code.

Effective January 1, 2009 and for any contracts for participant accounts established on or after that date, the new 403(b) regulations prohibit the distribution of amounts attributable to employer contributions before the earlier of your severance from employment or prior to the occurrence of some event as provided under your employer’s plan, such as after a fixed number of years, the attainment of a stated age, or a disability.

If the Company agrees to accept amounts exchanged from a Tax Code section 403(b)(7) custodial account, such amounts will be subject to the withdrawal restrictions set forth in Tax Code section 403(b)(7)(A)(ii).

Roth 403(b) Plans. You may take partial or full withdrawals of purchase payments made by salary reduction and earnings credited on those purchase payments from a Roth 403(b) contract only if you have:

- a) Attained age 59½;
- b) Experienced a severance from employment;
- c) Become disabled as defined in the Tax Code;
- d) Died;
- e) Experienced financial hardship as defined by the Tax Code; or
- f) Met other circumstances as allowed by federal law regulations or rulings.

The amount available for financial hardship is limited to the lesser of the amount necessary to satisfy the financial hardship or the amount attributable to salary reduction contributions (excluding earnings on such contributions).

A partial or full withdrawal of purchase payments made by salary reduction to a Roth 403(b) contract and earnings credited on those purchase payments will be excludable from income if it is a qualified distribution. A qualified distribution from a Roth 403(b) contract is one that meets the following requirements.

1. The withdrawal occurs after the 5-year taxable period measured from the earlier of:
 - a) the first taxable year you made a designated Roth 403(b) contribution to any designated Roth 403(b) contract established for you under the same applicable retirement plan as defined in Tax Code section 402A; or
 - b) if a rollover contribution was made from a designated Roth 403(b) contract previously established for you under another applicable retirement plan, the first taxable year for which you made a designated Roth 403(b) contribution to such previously established contract; and
2. The withdrawal occurs after you attain age 59½, die with payment being made to your beneficiary, or become disabled as defined in the Tax Code.

457(b) Plans. All distributions from a 457(b) plan are taxed when paid or made available to you. Under a 457(b) plan, amounts may not be made available to you earlier than: (1) the calendar year you attain age 70½; (2) when you experience a severance from employment with your employer; or (3) when you experience an unforeseeable emergency. A one-time in-service distribution may also be permitted if the total amount payable to the participant does not exceed \$5,000 and no amounts have been deferred by the participant during the 2-year period ending on the date of distribution.

Individual Retirement Annuities. All distributions from an IRA are taxed as received unless either one of the following is true:

- The distribution is rolled over to another IRA or to a plan eligible to receive rollovers as permitted under the Tax Code; or
- You made after-tax contributions to the plan. In this case the distribution will be taxed according to rules detailed in the Tax Code.

The Tax Code imposes a 10% penalty tax on the taxable portion of any distribution from an IRA unless an exception applies. In general, except for the exception for separation from service, the exceptions for 401(a), 401(k), and 403(b) plans listed above also apply to distributions from an IRA including the qualified reservist distribution. The 10% penalty tax does not apply to a distribution made from an IRA to pay for health insurance premiums for certain unemployed individuals, a qualified first-time home purchase, or for higher education expenses.

Roth IRAs. A qualified distribution from a Roth IRA is not taxed when it is received. A qualified distribution is a distribution:

- ▷ Made after the five taxable year period beginning with the first taxable year for which a contribution was made to a Roth IRA of the owner; and
- ▷ Made after you attain age 59½, die, become disabled as defined in the Tax Code, or for a qualified first time home purchase.

If a distribution is not qualified, it will be taxable to the extent of the accumulated earnings. A partial distribution will first be treated as a return of contributions which is not taxable and then as taxable accumulated earnings.

The Tax Code imposes a 10% penalty tax on the taxable portion of any distribution from a Roth IRA that is not a qualified distribution unless certain exceptions have occurred. In general, except for the exception for separation from service, the exceptions for 401(a), 401(k), and 403(b) plans listed above also apply to a distribution from a Roth IRA that is not a qualified distribution or a rollover to a Roth IRA that is not a qualified rollover contribution. The 10% penalty tax is also waived on a distribution made from a Roth IRA to pay for health insurance premiums for certain unemployed individuals, used for a qualified first-time home purchase, or for higher education expenses.

Special Hurricane-Related Relief. The Katrina Emergency Tax Relief Act and the Gulf Opportunity Zone Act provide tax relief to victims of Hurricanes Katrina, Rita and Wilma. The relief includes a waiver of the 10% penalty tax on qualified hurricane distributions from eligible retirement plans (including 401(a), 401(k), 403(b), governmental 457(b) plans, and IRAs). In addition, the 20% mandatory withholding rules do not apply to these distributions and the tax may be spread out ratably over a three-year period. A recipient of qualified hurricane distribution may also elect to re-contribute all or a portion of the distribution to an eligible retirement plan within three (3) years of receipt without tax consequences. Other relief may also apply. You should consult a competent tax adviser for further information.

Lifetime Required Minimum Distributions (Section 401(a), 401(k), 403(b), Roth 403(b), 457(b) Plans and IRAs)

To avoid certain tax penalties, you and any designated beneficiary must meet the required minimum distribution requirements imposed by the Tax Code. These rules dictate the following:

- ▷ Start date for distributions;
- ▷ The time period in which all amounts in your contract(s) must be distributed; and
- ▷ Distribution amounts.

Start Date. Generally, you must begin receiving distributions by April 1 of the calendar year following the calendar year in which you attain age 70½ or retire, whichever occurs later, unless:

- ▷ Under 401(a), 401(k), and governmental 457(b) plans, you are a 5% owner;
- ▷ The contract is an IRA, in which case such distributions must begin by April 1 of the calendar year following the calendar year in which you attain age 70½; or
- ▷ Under 403(b) plans, the Company maintains separate records of amounts held as of December 31, 1986. In this case distribution of these amounts generally must begin by the end of the calendar year in which you attain age 75 or retire, if later. However, if you take any distributions in excess of the minimum required amount, then special rules require that the excess be distributed from the December 31, 1986 balance.

Time Period. We must pay out distributions from the contract over a period not extending beyond one of the following time periods:

- ▷ Over your life or the joint lives of you and your designated beneficiary; or
- ▷ Over a period not greater than your life expectancy or the joint life expectancies of you and your designated beneficiary.

Distribution Amounts. The amount of each required minimum distribution must be calculated in accordance with Tax Code Section 401(a)(9). The entire interest in the account includes the amount of any outstanding rollover, transfer, recharacterization, if applicable, and the actuarial present value of any other benefits provided under the account, such as guaranteed death benefits.

50% Excise Tax. If you fail to receive the required minimum distribution for any tax year, a 50% excise tax may be imposed on the required amount that was not distributed.

Lifetime Required Minimum Distributions are not applicable to Roth IRAs. Further information regarding required minimum distributions may be found in your contract or certificate.

Required Distributions Upon Death (Section 401(a), 401(k), 403(b), Roth 403(b), 457(b) Plans, IRAs, and Roth IRAs)

Different distribution requirements apply after your death, depending upon if you have begun receiving required minimum distributions. Further information regarding required distributions upon death may be found in your contract or certificate.

If your death occurs on or after you begin receiving minimum distributions under the contract, distributions generally must be made at least as rapidly as under the method in effect at the time of your death. Tax Code section 401(a)(9) provides specific rules for calculating the minimum required distributions after your death.

If your death occurs before you begin receiving minimum distributions under the contract, your entire balance must be distributed by December 31 of the calendar year containing the fifth anniversary of the date of your death. For example, if you died on September 1, 2008, your entire balance must be distributed to the designated beneficiary by December 31, 2013. However, if distributions begin by December 31 of the calendar year following the calendar year of your death, then payments may be made within one of the following timeframes:

- Over the life of the designated beneficiary; or
- Over a period not extending beyond the life expectancy of the designated beneficiary.

Start Dates for Spousal Beneficiaries. If the designated beneficiary is your spouse, distributions must begin on or before the later of the following:

- December 31 of the calendar year following the calendar year of your death; or
- December 31 of the calendar year in which you would have attained age 70½.

No Designated Beneficiary. If there is no designated beneficiary, the entire interest generally must be distributed by the end of the calendar year containing the fifth anniversary of the contract owner's death.

Special Rule for IRA Spousal Beneficiaries (IRAs and Roth IRAs Only). In lieu of taking a distribution under these rules, if the sole designated beneficiary is the contract owner's surviving spouse, the spousal beneficiary may elect to treat the contract as his or her own IRA and defer taking a distribution until his or her own start date. The surviving spouse is deemed to have made such an election if the surviving spouse makes a rollover to or from the contract or fails to take a distribution within the required time period.

Withholding

Any taxable distributions under the contract are generally subject to withholding. Federal income tax liability rates vary according to the type of distribution and the recipient's tax status.

401(a), 401(k), 403(b), Roth 403(b) and 457(b) Plans of Governmental Employers. Generally, distributions from these plans are subject to a mandatory 20% federal income tax withholding. However, mandatory withholding will not be required if you elect a direct rollover of the distributions to an eligible retirement plan or in the case of certain distributions described in the Tax Code.

457(b) Plans of Non-Governmental Employers. All distributions from these plans, except death benefit proceeds, are subject to mandatory federal income tax withholding as wages. No withholding is required on payments to designated beneficiaries.

IRAs and Roth IRAs. Generally, you or, if applicable, a designated beneficiary may elect not to have tax withheld from distributions.

Non-resident Aliens. If you or your designated beneficiary is a non-resident alien, then any withholding is governed by Tax Code section 1441 based on the individual's citizenship, the country of domicile and treaty status. Section 1441 does not apply to participants in 457(b) plans of non-governmental employers.

Assignment and Other Transfers

401(a), 401(k), 403(b), Roth 403(b), and 457(b) Plans. Adverse tax consequences to the plan and/or to you may result if your beneficial interest in the contract is assigned or transferred to persons other than:

- ▷ A plan participant as a means to provide benefit payments;
- ▷ An alternate payee under a qualified domestic relations order in accordance with Tax Code section 414(p); or
- ▷ The Company as collateral for a loan.

IRAs and Roth IRAs. The Tax Code does not allow a transfer or assignment of your rights under the contracts except in limited circumstances. Adverse tax consequences may result if you assign or transfer your interest in the contract to persons other than your spouse incident to a divorce. Anyone contemplating such an assignment or transfer should contact a qualified tax adviser regarding the potential tax effects of such a transaction.

IV. Tax Consequences of Enhanced Death Benefits

The contract offers a death benefit that may exceed the greater of premium payments and the contract value. It is possible that the IRS could characterize such a death benefit as an incidental death benefit. There are limitations on the amount of incidental benefits that may be provided under pension and profit sharing plans. In addition, the provision of such benefits may result in currently taxable income to contract holders, and the presence of the death benefit could affect the amount of required minimum distributions. Finally, certain charges are imposed with respect to some of the available death benefits. It is possible these charges (or some portion thereof) could be treated for federal tax purposes as a distribution from the contract.

V. Possible Changes in Taxation

Although the likelihood of legislative change and tax reform is uncertain, there is always the possibility that the tax treatment of the contracts could change by legislation or other means. It is also possible that any change could be retroactive (that is, effective before the date of the change). The Pension Protection Act of 2006 made permanent pension and IRA provisions under the Economic Growth and Tax Relief Reconciliation Act of 2001. You should consult a tax adviser with respect to legislative developments and their effect on the contract.

VI. Taxation of the Company

We are taxed as a life insurance company under the Tax Code. Separate Account N is not a separate entity from us. Therefore, it is not taxed separately as a "regulated investment company" but is taxed as part of the Company.

We automatically apply investment income and capital gains attributable to the separate account to increase reserves under the contracts. Because of this, under existing federal tax law we believe that any such income and gains will not be taxed to the extent that such income and gains are applied to increase reserves under the contracts. In addition, any foreign tax credits attributable to the separate account will be first used to reduce any income taxes imposed on the separate account before being used by the Company.

In summary, we do not expect that we will incur any federal income tax liability attributable to the separate account and we do not intend to make any provision for such taxes. However, changes in federal tax laws and/or their interpretation may result in our being taxed on income or gains attributable to the separate account. In this case we may impose a charge against the separate account (with respect to some or all of the contracts) to set aside provisions to pay such taxes. We may deduct this amount from the separate account, including from your contract value invested in the subaccounts.

Other Topics

Performance Reporting

We may advertise different types of historical performance for the subaccounts including:

- ▷ standardized average annual total returns; and
- ▷ non-standardized average annual total returns.

We may also advertise certain ratings, rankings or other information related to the Company, the subaccounts or the funds.

Standardized Average Annual Total Returns. We calculate standardized average annual total returns according to a formula prescribed by the SEC. This shows the percentage return applicable to \$1,000 invested in the subaccounts over the most recent month end, one, five and ten-year periods. If the investment option was not available for the full period, we give a history from the date money was first received in that option under the separate account or from the date the fund was first available under the separate account. As an alternative to providing the most recent month-end performance, we may provide a phone number, website or both where these returns may be obtained.

We include all recurring charges during each period (e.g., mortality and expense risk charges, annual maintenance fees, administrative expense charges (if any) and any applicable early withdrawal charges).

Non-Standardized Average Annual Total Returns. We calculate non-standardized average annual total returns in a similar manner as that stated above, except we may include returns that do not reflect the deduction of any applicable early withdrawal charge. Some non-standardized returns may also exclude the effect of a maintenance fee. If we reflected these charges in the calculation, it would decrease the level of performance reflected by the calculation. Non-standardized returns may also include performance from the fund's inception date, if that date is earlier than the one we use for standardized returns.

Voting Rights

Each of the subaccounts holds shares in a fund and each is entitled to vote at regular and special meetings of that fund. Under our current view of applicable law, we will vote the shares for each subaccount as instructed by persons having a voting interest in the subaccount. If you are a contract holder under the contract, you have a fully vested interest in the contract and may instruct the Company how to cast a certain number of votes. We will vote shares for which instructions have not been received in the same proportion as those for which we received instructions. Each person who has a voting interest in the separate account will receive periodic reports relating to the funds in which he or she has an interest, as well as any proxy materials and a form on which to give voting instructions. Voting instructions will be solicited by written communication before the meeting.

The number of votes (including fractional votes) you are entitled to direct will be determined as of the record date set by any fund you invest in through the subaccounts.

- ▷ During the accumulation phase the number of votes is equal to the portion of your account value invested in the fund, divided by the net asset value of one share of that fund.
- ▷ During the income phase the number of votes is equal to the portion of reserves set aside for the contract's share of the fund, divided by the net asset value of one share of that fund.

We may restrict or eliminate any voting rights of persons who have voting rights as to the separate account.

Contract Modifications

We may change the contract as required by federal or state law or as otherwise permitted in the contract, including any changes required to maintain the contract as a designated Roth annuity contract under the Tax Code, regulations, IRS rulings and requirements. Certain changes will require the approval of appropriate state or federal regulatory authorities.

Addition, Deletion or Substitution of Fund Shares

The Company, in its sole discretion, reserves the following rights:

- ▷ The Company may add to, delete from or substitute shares that may be purchased for or held in the separate account. The Company may establish additional subaccounts, each of which would invest in shares of a new portfolio of a fund or in shares of another investment company having a specified investment objective. Any new subaccounts may be made available to existing contract owners on a basis to be determined by the Company.
- ▷ The Company may, in its sole discretion, eliminate one or more subaccounts, or close subaccounts to new premium or transfers, if marketing, tax considerations or investment conditions warrant.
- ▷ If the shares of a fund are no longer available for investment or if in the Company's judgment further investment in a fund should become inappropriate in view of the purposes of the separate account, the Company may redeem the shares, if any, of that portfolio and substitute shares of another registered open-end management investment company.
- ▷ The Company may restrict or eliminate any voting privileges of contract owners or other persons who have voting privileges as to the separate account.
- ▷ The Company may make any changes required by the 1940 Act.
- ▷ In the event any of the foregoing changes or substitutions are made, the Company may endorse the contracts to reflect the change or substitution.

The Company's reservation of rights is expressly subject to the following when required:

- ▷ Applicable Federal and state laws and regulations.
- ▷ Notice to contract owners.
- ▷ Approval of the SEC and/or state insurance authorities.

Legal Matters and Proceedings

We are not aware of any pending legal proceedings which involve the separate account as a party.

The Company is involved in threatened or pending lawsuits/arbitrations arising from the normal conduct of business. Due to the climate in insurance and business litigation/arbitrations, suits against the Company sometimes include claims for substantial compensatory, consequential, or punitive damages and other types of relief. Moreover, certain claims are asserted as class actions, purporting to represent a group of similarly situated individuals. While it is not possible to forecast the outcome of such lawsuits/arbitrations, in light of existing insurance, reinsurance, and established reserves, it is the opinion of management that the disposition of such lawsuits/arbitrations will not have a materially adverse effect on the Company's operations or financial position.

ING Financial Advisers, LLC, the principal underwriter and distributor of the contract is a party to threatened or pending lawsuits/arbitration that generally arise from the normal conduct of business. Some of these suits may seek class action status and sometimes include claims for substantial compensatory, consequential or punitive damages and other types of relief. ING Financial Advisers, LLC is not involved in any legal proceeding which, in the opinion of management, is likely to have material adverse effect on its ability to distribute the contract.

Payment Delay or Suspension

We reserve the right to suspend or postpone the date of any payment of benefits or values under any one of the following circumstances:

- ▷ On any valuation day when the NYSE is closed (except customary weekend and holiday closings) or when trading on the NYSE is restricted;
- ▷ When an emergency exists as determined by the SEC so that disposal of the securities held in the subaccounts is not reasonably practicable or it is not reasonably practicable to fairly determine the value of the subaccount's assets; or
- ▷ During any other periods the SEC may by order permit for the protection of investors.

The conditions under which restricted trading or an emergency exists shall be determined by the rules and regulations of the SEC.

Transfers, Assignments or Exchanges of a Contract

A transfer of ownership or assignment of a contract, the designation of an annuitant, payee or other beneficiary who is not also the contract owner, or the exchange of a contract may result in certain tax consequences to the contract owner that are not discussed herein. A contract owner contemplating any such transfer, assignment, or exchange of a contract should contact a competent tax adviser with respect to the potential tax effects of such a transaction.

Involuntary Terminations

We reserve the right to terminate a contract if:

- ▷ The entire account value is withdrawn on or before income phase payments begin; or
- ▷ The outstanding loan balance equals or exceeds the account value.

Reports to Owners

At least once in each account year we will mail you, at the last known address of record, a statement of your account value. Written confirmation of every financial transaction made under the contract will be made immediately; however, written confirmation of periodic payments made through salary reduction arrangements will be made quarterly.

To reduce expenses, only one copy of most financial reports and prospectuses, including reports and prospectuses for the funds, will be mailed to your household, even if you or other persons in your household have more than one contract issued by us or one of our affiliates. Call us at the number listed in "Contract Overview - Questions: Contacting the Company" if you need additional copies of financial reports, prospectuses or annual and semi-annual reports or if you would like to receive one copy for each contract in all future mailings.

Contents of the Statement of Additional Information

The Statement of Additional Information (SAI) contains more specific information on the separate account and the contract, as well as the financial statements of the separate account and the Company. The following is a list of the contents of the SAI:

This prospectus does not constitute an offer or solicitation in any circumstances in which such offer or solicitation would be unlawful.

Appendix I

The Fixed Accounts

General Disclosure

- ▷ Fixed Account A, Fixed Account B and Fixed Account C (collectively, the fixed accounts) are investment options available during the accumulation phase.
- ▷ Amounts allocated to the fixed accounts are held in the Company's general account which supports insurance and annuity obligations.
- ▷ All or a portion of your purchase payments may be allocated to the fixed accounts.
- ▷ Interests in the fixed accounts have not been registered with the SEC in reliance on exemptions under the Securities Act of 1933, as amended.
- ▷ The fixed accounts have not been registered as investment companies under the Investment Company Act of 1940.
- ▷ Disclosure in this prospectus regarding the fixed accounts may be subject to certain generally applicable provisions of the federal securities laws relating to the accuracy and completeness of the statements.
- ▷ Disclosure in this appendix regarding the fixed accounts has not been reviewed by the SEC.
- ▷ Additional information about the fixed accounts may be found in the contracts.

Interest Rates

- ▷ The fixed accounts have an interest rate that is set periodically by the Company. The minimum guaranteed interest rate is set forth in the contract. We, the Company, may credit interest in excess of the guaranteed rate. Amounts applied to the fixed account are guaranteed to earn the interest rate in effect at the time money is applied for 12 months from the date a premium is deposited. Subsequent interest rates for that amount are credited with excess interest at the rates in effect for the then current 12 month period. Among other factors, the safety of the interest rate guarantees depends upon the Company's claims paying ability.
- ▷ There is no specific formula for the determination of excess interest credits. Such credits, if any, will be determined by the Company based on a number of factors, including investment income earned on invested assets, taxes, persistency and other experience factors. Under this option we assume the risk of investment gain or loss by guaranteeing the amounts you allocate to this option and promising a minimum interest rate and income phase payment.
- ▷ The Company is not aware of any statutory limitations on the maximum amount of interest it may credit, and the Board of Directors has set no limitations. However, inherent in the Company's exercise of discretion in this regard is the equitable allocation of distributable earnings and surplus among its various contract holders, contract owners and stockholders.

Transfers from the Fixed Accounts. Subject to the conditions applicable to transfers among subaccounts, transfers of unloaned amounts from Fixed Account A may be made to the subaccounts or to Fixed Account B any time during the accumulation phase. During the income phase transfers into or between the fixed accounts are not allowed.

Transfers of amounts in Fixed Account B to the subaccounts or to Fixed Account A are subject to the following conditions:

- ▷ Transfers may only be made within a 30-day period before and after an account anniversary and only one transfer may be made during such period (reallocation period).
- ▷ Your request for transfer must be received by us no more than 30 days before the start of a reallocation period and no later than 10 days before the end of a reallocation period.
- ▷ Transfer amounts may not exceed the greater of 25% of the Fixed Account B account value or \$1,000 (if the balance in Fixed Account B after such transfer would be less than \$1,000, the entire account value may be transferred).
- ▷ Transfer amounts may not be less than \$250 (if the balance in Fixed Account B is less than \$250, the entire account value must be transferred).

Transfers of amounts in Fixed Account C to the subaccounts are subject to the following conditions:

- ▷ Transfers must begin within 30 days of deposit and must be in substantially equal payments over a 12-month period. Transfers will occur any time before the 29th day of each month (reallocation date). You may instruct us on which day you want the transfer to occur.
- ▷ If additional purchase payment(s) are received for allocation to Fixed Account C, the balance of Fixed Account C will be adjusted to reflect the subsequent payment(s) and transfers will be recalculated based on the remaining 12-month period.
- ▷ You may change the subaccount(s) receiving Fixed Account C transfers by written request before the reallocation date. Only one transfer from Fixed Account C shall take place at any one time.
- ▷ If transfers from Fixed Account C are discontinued prior to the end of the 12-month period, the remaining balance of Fixed Account C will be reallocated as directed by you.
- ▷ Transfers from Fixed Account C to Fixed Account A and Fixed Account B are not permitted.

Transfers into Fixed Account C from any subaccount or from any other fixed option are not allowed.

After the start of the income phase, reserves supporting fixed income phase payments cannot be reallocated. We reserve the right to allow transfers from Fixed Account C in excess of the limits described above on a non-discriminatory basis.

Dollar Cost Averaging. Amounts you invest in the fixed accounts may be automatically transferred into the other investment options. Transfers from Fixed Account C to Fixed Account A and Fixed Account B are not permitted. Transfers from Fixed Account A may be made on a monthly, quarterly, semi-annual or annual basis. Transfers from Fixed Account C may be made on a monthly basis. Interest earned on amounts invested in Fixed Account B may be automatically transferred into the other investment options. See “Transfers Amount Investment Options - The Dollar Cost Averaging Program.”

- ▷ Only automatic transfers of 100% of interest earned in Fixed Account B are allowed, and transfers to Fixed Account A or Fixed Account C are not allowed. We will only transfer interest that is earned after you have elected this option. Reallocations of this type may be made on a monthly, quarterly, semi-annual or annual basis.
- ▷ To elect transfers of this type, your account value must be at least \$10,000 and the Fixed Account B account value must be at least \$5,000. We reserve the right to discontinue transfers of this type when the Fixed Account B account value becomes less than \$5,000.

Withdrawals. Under certain emergency conditions we may defer payment of any withdrawal for a period of up to six months or as provided by federal law.

Loans. Loans are not allowed from Fixed Account C. See “Loans.”

Charges. We do not make deductions from amounts in the fixed accounts to cover mortality and expense risks. We consider these risks when determining the credited rate. We expect to derive a profit from the determination of the credited rate. If you make a full withdrawal, the amount available from the fixed accounts will be reduced by any applicable early withdrawal charge and annual maintenance fee. See “Fee Table” and “Fees.”

Guarantee. We guarantee that the fixed account value will not be less than the amount of purchase payments and transfers allocated to the fixed account, plus interest at the minimum guaranteed rate disclosed in the annuity contract, compounded annually, plus any additional interest which we may, in our discretion, credit to the fixed accounts, less the sum of all annual administrative charges or early withdrawal charges, any applicable premium taxes and any amounts withdrawn or reallocated from the fixed accounts.

Appendix II

Fund Descriptions

List of Fund Name Changes

Current Fund Name	Former Fund Name
ING BlackRock Global Science and Technology Portfolio	ING VP Global Science and Technology Portfolio
ING Davis New York Venture Portfolio	ING Davis Venture Value Portfolio
ING Opportunistic Large Cap Value Portfolio	ING VP Value Opportunity Portfolio

The investment results of the mutual funds (funds) are likely to differ significantly and there is no assurance that any of the funds will achieve their respective investment objectives. You should consider the investment objectives, risks and charges, and expenses of the funds carefully before investing. Please refer to the fund prospectuses for additional information. Shares of the funds will rise and fall in value and you could lose money by investing in the funds. Shares of the funds are not bank deposits and are not guaranteed, endorsed or insured by any financial institution, the Federal Deposit Insurance Corporation or any other government agency. Except as noted, all funds are diversified, as defined under the Investment Company Act of 1940. Fund prospectuses may be obtained free of charge at the address and telephone number listed in “Contract Overview - Questions: Contacting the Company,” by accessing the SEC’s website or by contacting the SEC Public Reference Branch.

Certain funds offered under the contracts have investment objectives and policies similar to other funds managed by the fund’s investment adviser. The investment results of a fund may be higher or lower than those of other funds managed by the same adviser. There is no assurance and no representation is made that the investment results of any fund will be comparable to those of another fund managed by the same investment adviser.

For the share class of each fund offered through your contract, please see the cover page.

ING Advantage CenturySM

**Supplement dated April 28, 2008 to the Contract Prospectus and the Statement of Additional Information
each dated April 28, 2008, as amended**

This supplement updates and amends certain information contained in your Contract Prospectus and Statement of Additional Information (SAI). Please read it carefully and keep it with your current Contract Prospectus and SAI for future reference.

IMPORTANT INFORMATION REGARDING UPCOMING FUND LIQUIDATION

On January 31, 2008, the Board of Trustees of ING Variable Products Trust approved a proposal to liquidate the ING VP Financial Services Portfolio.

The proposed liquidation is subject to shareholder approval. If shareholder approval is obtained, it is expected that the liquidation will take place on or about September 5, 2008 (the "Closing Date").

Voluntary Transfers Before the Effective Date of the Liquidation. Anytime prior to the Closing Date you may transfer amounts that you have allocated to the subaccount that invests in the ING VP Financial Services Portfolio to any of the other available investment options. There will be no charge for any such transfer, and any such transfer will not count as a transfer when imposing any applicable restriction or limit on transfers.

You may give us alternative allocation instructions at any time by contacting our Administrative Service Center at:

ING Service Center
P.O. Box 5050
Minot, North Dakota 58702-5050
1-877-884-5050

See also the Transfers Among Investment Options section on page 12 of your Contract Prospectus for further information about making allocation changes. More information about the funds available through your contract, including information about the risks associated with investing in these funds, can be found in the current prospectus and SAI for that fund. You may obtain these documents by contacting us at our Administrative Service Center noted above.

Automatic Reallocation Upon Liquidation. After the Closing Date and our receipt of the proceeds from the liquidation of the ING VP Financial Services Portfolio, amounts that were allocated to the subaccount that invested in this portfolio will be automatically reallocated to the subaccount that invests in the ING Liquid Assets Portfolio. There will be no charge for this automatic reallocation, and this automatic reallocation will not count as a transfer when imposing any applicable restriction or limit on transfers. Furthermore, you will not incur any tax liability because of this automatic reallocation, and your account value immediately before the reallocation will equal your account value immediately after the reallocation.

Future Allocations. After the Closing Date, the subaccount that invested in the ING VP Financial Services Portfolio will no longer be available through your Contract Prospectus. Any future allocations directed to a subaccount that invested in this portfolio will be automatically allocated to the subaccount that invests in the ING Liquid Assets Portfolio.

Information about the ING Liquid Assets Portfolio. Summary information about the ING Liquid Assets Portfolio can be found in Appendix II – Fund Descriptions in your Contract Prospectus, and in the fund fact sheet for that fund. More detailed information can be found in the current prospectus and SAI for that fund. You may obtain these documents by contacting our Administrative Service Center as noted on the previous page.

There will be no further disclosure regarding the ING VP Financial Services Portfolio in future Contract Prospectuses.

RELIASTAR LIFE
ING ADVANTAGE CENTURYSM ANNUITY

INDIVIDUAL DEFERRED VARIABLE/FIXED ANNUITY CONTRACTS
ISSUED BY SEPARATE ACCOUNT N
AND
RELIASTAR LIFE INSURANCE COMPANY

Statement of Additional Information dated April 28, 2008

This Statement of Additional Information is not a prospectus, and should be read in conjunction with the current prospectus dated April 28, 2008 relating to the individual fixed and variable deferred annuity contracts issued by Separate Account N (the “separate account”) and ReliaStar Life Insurance Company (the “Company”). A copy of the prospectus may be obtained from the ING Service Center at P.O. Box 5050, Minot, North Dakota 58702-5050, by calling 1-877-884-5050, or from ING Financial Advisers, LLC, One Orange Way, Windsor, Connecticut 06095-4774.

Read the prospectus before you invest. Capitalized terms used in this Statement of Additional Information that are not otherwise defined herein shall have the same meaning as in the prospectus.

GENERAL INFORMATION AND HISTORY

ReliaStar Life Insurance Company (the “Company,” “we,” “us,” “our”) is a stock life insurance company organized in 1885 and incorporated under the insurance laws of the State of Minnesota. Prior to October 1, 2002, the contracts were issued by Northern Life Insurance Company (“Northern”), a wholly-owned subsidiary of the Company. On October 1, 2002, Northern merged into ReliaStar Life Insurance Company, and ReliaStar Life Insurance Company assumed responsibilities for Northern’s obligations under the contracts.

We are an indirect subsidiary of ING Groep N.V. (“ING”). ING is a global financial institution active in the fields of insurance, banking and asset management. The Company is engaged in the business of issuing life insurance policies and annuity contracts. Our home office is located at 20 Washington Avenue South, Minneapolis, Minnesota 55401.

The assets of the separate account are held by the Company. The separate account has no custodian. However, the funds in whose shares the assets of the separate account are invested each have custodians, as discussed in their respective prospectuses.

SEPARATE ACCOUNT N OF RELIASTAR LIFE INSURANCE COMPANY

We established Separate Account N on October 1, 2002 under the insurance laws of the State of Minnesota. The separate account is registered as a unit investment trust under the Investment Company Act of 1940, as amended (the 40 Act). It also meets the definition of “separate account” under the federal securities laws. Prior to October 1, 2002, the separate account was known as Separate Account One of Northern Life Insurance Company, which was created in 1994 under Washington law. In connection with the merger of Northern Life Insurance Company and the Company, the separate account was transferred to the Company.

Purchase payments to accounts under the contract may be allocated to one or more of the available subaccounts and/or to any available Fixed Account which for retail series contracts includes Fixed Account A, Fixed Account B and/or Fixed Account C (which are part of the general account of the Company).

We may make additions to, deletions from or substitutions of available investment options as permitted by law and subject to the conditions of the contract. The availability of the funds is subject to applicable regulatory authorization. Not all funds are available in all jurisdictions, under all contracts, or under all plans.

The funds currently available under the contract are as follows:

* Effective December 19, 2007, ING OpCap Balanced Value Portfolio and ING VP Balanced Portfolio, Inc. were closed to any new investments (including loan repayments) or transfers.

** FMRSM is a service mark of Fidelity Management & Research Company.

(1) This fund has changed its name to the name listed above. See “Appendix II – Fund Descriptions,” in the prospectus for a complete list of former and current fund names.

(2) These funds are structured as fund of funds that invest directly in shares of underlying funds. See “Fees - Fund Fees and Expenses” in the prospectus for additional information.

(3) This fund is scheduled to be liquidated into the ING Liquid Assets Portfolio (Class I) on or about September 5, 2008.

(4) Effective June 1, 2008, the fund is scheduled to change its name to Wanger USA.

A complete description of each of the funds, including their investment objectives, policies, risks and fees and expenses, is contained in each fund’s prospectus and statement of additional information.

OFFERING AND PURCHASE OF CONTRACTS

Effective January 1, 2004, the contracts are distributed by ING Financial Advisers, LLC, the principal underwriter for the contracts. ING Financial Advisers, LLC, a Delaware limited liability company, is registered as a broker-dealer with the SEC. ING Financial Advisers, LLC is also a member of the Financial Industry Regulatory Authority, and the Securities Investor Protection Corporation. ING Financial Advisers, LLC's principal office is located at One Orange Way, Connecticut 06095-4774. Prior to January 1, 2004, the contracts were distributed by Washington Square Securities, Inc. (WSSI), an affiliate of the Company. The contracts are distributed through life insurance agents who are registered representatives of ING Financial Advisers, LLC or of other broker-dealers who have entered into sales arrangements with ING Financial Advisers, LLC. The offering of the contracts is continuous. A description of the manner in which contracts are purchased may be found in the prospectus under the sections entitled "Purchase and Rights" and "Your Account Value."

Compensation paid to the principal underwriter ING Financial Advisers, LLC for the years ending December 31, 2007, 2006 and 2005 amounted to \$5,431,669.21, \$6,093,376.10 and \$8,819,577.41, respectively, in connection with the distribution of all registered variable annuity products issued by Separate Account N of ReliaStar Life Insurance Company. These amounts reflect compensation paid to ING Financial Advisers, LLC attributable to regulatory and operating expenses associated with the distribution of all registered variable annuity products issued by Separate Account N of ReliaStar Life Insurance Company.

INCOME PHASE PAYMENTS

When you begin receiving payments under the contract during the income phase (see "The Income Phase" in the prospectus), the value of your account is determined using accumulation unit values as of the tenth valuation before the first income phase payment is due. Such value (less any applicable premium tax charge) is applied to provide income phase payments to you in accordance with the payment option and investment options elected.

The Annuity option tables found in the contract show, for each option, the amount of the first income phase payment for each \$1,000 of value applied. Thereafter, variable payments fluctuate as the Annuity Unit value(s) fluctuates with the investment experience of the selected investment option(s). The first income phase payment and subsequent income phase payments also vary depending on the assumed net investment rate of 3.0% per annum.

If the actual net investment rate on the assets of the separate account is equal to the assumed investment rate, income phase payments will remain level. If the actual net investment rate exceeds the assumed investment rate, income phase payments will increase. Conversely, if it is less, than the payouts will decrease.

When the income phase begins, the annuitant is credited with a fixed number of Annuity Units (which does not change thereafter) in each of the designated investment options. This number is calculated by dividing (a) by (b), where (a) is the amount of the first income phase payment based upon a particular investment option, and (b) is the then current Annuity Unit value for that investment option. As noted, Annuity Unit values fluctuate from one valuation to the next (see "Your Account Value" in the prospectus); such fluctuations reflect changes in the net investment factor for the appropriate subaccount(s) (with a seven day valuation lag which gives the Company time to process payments) and a mathematical adjustment which offsets the assumed net investment rate of 3.0% per annum.

EXAMPLE:

Assume that, at the date income phase payments are to begin, there are 3,000 accumulation units credited under a particular contract or account and that the value of an accumulation unit for the tenth valuation prior to retirement was \$13.650000. This produces a total value of \$40,950.

Assume also that no premium tax charge is payable and that the annuity table in the contract provides, for the income phase payment option elected, a first monthly variable income phase payment of \$6.68 per \$1000 of value applied; the annuitant's first monthly income phase payment would thus be 40.950 multiplied by \$6.68, or \$273.55.

Assume then that the value of an Annuity Unit upon the valuation on which the first income phase payment was due was \$13.400000. When this value is divided into the first monthly income phase payment, the number of Annuity Units is determined to be 20.414. The value of this number of Annuity Units will be paid in each subsequent month.

Suppose there were 30 days between the initial and second payment valuation dates. If the net investment factor with respect to the appropriate subaccount is 1.0032737 as of the seventh valuation preceding the due date of the second monthly income phase payment, dividing this factor by $1.0024331 = 1.0000810^{30}$ (to take into account 30 days of the assumed net investment rate of 3.0% per annum built into the number of Annuity Units determined above) produces a result of 1.000839. This is then multiplied by the Annuity Unit value for the prior valuation (\$13.400000 from above) to produce an Annuity Unit value of \$13.411237 for the valuation occurring when the second income phase payment is due.

The second monthly income phase payment is then determined by multiplying the number of Annuity Units by the current Annuity Unit value, or 20.414 times \$13.411237, which produces a payment of \$273.78.

SALES MATERIAL AND ADVERTISING

We may include hypothetical illustrations in our sales literature that explain the mathematical principles of dollar cost averaging, compounded interest, tax deferred accumulation, and the mechanics of variable annuity contracts. We may also discuss the difference between variable annuity contracts and other types of savings or investment products such as personal savings accounts and certificates of deposit.

We may distribute sales literature that compares the percentage change in accumulation unit values for any of the subaccounts to established market indices such as the Standard & Poor's 500 Stock Index and the Dow Jones Industrial Average or to the percentage change in values of other management investment companies that have investment objectives similar to the subaccount being compared.

We may publish in advertisements and reports, the ratings and other information assigned to us by one or more independent rating organizations such as A.M. Best Company, Duff & Phelps, Standard & Poor's Corporation and Moody's Investors Service, Inc. The purpose of the ratings is to reflect our financial strength and/or claims-paying ability. We may also quote ranking services such as Morningstar's Variable Annuity/Life Performance Report and Lipper's Variable Insurance Products Performance Analysis Service (VIPPAS), which rank variable annuity or life subaccounts or their underlying funds by performance and/or investment objective. We may categorize the underlying funds in terms of the asset classes they represent and use such categories in marketing materials for the contracts. We may illustrate in advertisements the performance of the underlying funds, if accompanied by performance which also shows the performance of such funds reduced by applicable charges under the separate account. We may also show in advertisements the portfolio holdings of the underlying funds, updated at various intervals. From time to time, we will quote articles from newspapers and magazines or other publications or reports such as The Wall Street Journal, Money magazine, USA Today and The VARDS Report.

We may provide in advertising, sales literature, periodic publications or other materials information on various topics of interest to current and prospective contract holders or participants. These topics may include the relationship between sectors of the economy and the economy as a whole and its effect on various securities markets, investment strategies and techniques (such as value investing, market timing, dollar cost averaging, asset allocation, constant ratio transfer and account rebalancing), the advantages and disadvantages of investing in tax-deferred and taxable investments, customer profiles and hypothetical purchase and investment scenarios, financial management and tax and retirement planning, and investment alternatives to certificates of deposit and other financial instruments, including comparison between the contracts and the characteristics of and market for such financial instruments.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Account's internal control over financial reporting. Our audits include consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Account's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2007, by correspondence with the transfer agents. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of each of the respective Divisions constituting ReliaStar Life Insurance Company Separate Account N at December 31, 2007, the results of their operations and changes in their net assets for the periods disclosed in the financial statements, in conformity with U.S. generally accepted accounting principles.

The accompanying notes are an integral part of these financial statements.

RELIASTAR LIFE INSURANCE COMPANY
SEPARATE ACCOUNT N
Notes to Financial Statements

1. Organization

ReliaStar Life Insurance Company Separate Account N (the “Account”), formerly Northern Life Separate Account One, was established by Northern Life Insurance Company (“Northern Life”) to support the operations of variable annuity contracts (“Contracts”). In 2002, Northern Life merged with ReliaStar Life Insurance Company (“ReliaStar Life” or the “Company”). The Company is an indirect wholly owned subsidiary of ING America Insurance Holding Inc. (“ING AIH”). ING AIH is an indirect wholly owned subsidiary of ING Groep, N.V., a global financial services holding company based in The Netherlands.

The Account is registered as a unit investment trust with the Securities and Exchange Commission under the Investment Company Act of 1940, as amended. ReliaStar Life provides for variable accumulation and benefits under the Contracts by crediting annuity considerations to one or more divisions within the Account or a fixed account, which is not part of the Account, as directed by the contractowners. The portion of the Account’s assets applicable to Contracts will not be charged with liabilities arising out of any other business ReliaStar Life may conduct, but obligations of the Account, including the promise to make benefit payments, are obligations of ReliaStar Life. The assets and liabilities of the Account are clearly identified and distinguished from the other assets and liabilities of ReliaStar Life.

At December 31, 2007, the Account had 116 investment divisions (the “Divisions”), 16 of which invest in an independently managed mutual fund portfolio and 100 of which invest in a mutual fund portfolio advised by affiliates, either ING Investments, LLC (“IIL”) or Directed Services LLC (“DSL”). The assets in each Division are invested in shares of a designated mutual fund (“Fund”) of various investment trusts (the “Trusts”). Investment Divisions with asset balances at December 31, 2007, and related Trusts are as follows:

2. Significant Accounting Policies

The following is a summary of the significant accounting policies of the Account:

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from reported results using those estimates.

Investments

Investments are made in shares of a Fund and are recorded at fair value, determined by the net asset value per share of the respective Fund. Investment transactions in each Fund are recorded on the trade date. Distributions of net investment income and capital gains from each Fund are recognized on the ex-distribution date. Realized gains and losses on redemptions of the shares of the Fund are determined on a first-in first-out basis. The difference between cost and current market value of investments owned on the day of measurement is recorded as unrealized appreciation or depreciation of investments.

Federal Income Taxes

Operations of the Account form a part of, and are taxed with, the total operations of ReliaStar Life, which is taxed as a life insurance company under the Internal Revenue Code. Earnings and realized capital gains of the Account attributable to the contractowners are excluded in the determination of the federal income tax liability of ReliaStar Life.

Contractowner Reserves

Prior to the annuity date, the Contracts are redeemable for the net cash surrender value of the Contracts. The annuity reserves of the Account are represented by net assets on the Statements of Assets and Liabilities and are equal to the aggregate account values of the contractowners invested in the Account Divisions. To the extent that benefits to be paid to the contractowners exceed their account values, ReliaStar Life will contribute additional funds to the benefit proceeds. Conversely, if amounts allocated exceed amounts required, transfers may be made to ReliaStar Life.

RELIASTAR LIFE INSURANCE COMPANY
SEPARATE ACCOUNT N
Notes to Financial Statements

Changes from Principal Transactions

Included in Changes from Principal Transactions on the Statements of Changes in Net Assets are items which relate to contractowner activity, including deposits, surrenders and withdrawals, benefits, and contract charges. Also included are transfers between the fixed account and the Divisions, transfers between Divisions, and transfers to (from) ReliaStar Life related to gains and losses resulting from actual mortality experience (the full responsibility for which is assumed by ReliaStar Life). Any net unsettled transactions as of the reporting date are included in Payable to related parties on the Statements of Assets and Liabilities.

3. New Accounting Pronouncements

Fair Value Measurements

In September 2006, the Financial Accounting Standards Board (“FASB”) issued Statement of Financial Accounting Standards (“FAS”) No. 157, “Fair Value Measurements” (“FAS No. 157”). FAS No. 157 provides guidance for using fair value to measure assets and liabilities whenever other standards require (or permit) assets or liabilities to be measured at fair value. FAS No. 157 does not expand the use of fair value to any new circumstances.

Under FAS No. 157, the FASB clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the asset or liability. In support of this principle, FAS No. 157 establishes a fair value hierarchy that prioritizes the information used to develop such assumptions. The fair value hierarchy gives the highest priority to quoted prices in active markets and the lowest priority to unobservable data. FAS No. 157 also requires separate disclosure of fair value measurements by level within the hierarchy and expanded disclosure of the effect on earnings for items measured using unobservable data.

The provisions of FAS No. 157 are effective for financial statements issued for fiscal years beginning after November 15, 2007. The Company is in the process of determining the impact of adoption of FAS No. 157 on the Account.

4. Charges and Fees

Under the terms of the Contracts, certain charges are allocated to the Contracts to cover ReliaStar Life's expenses in connection with the issuance and administration of the Contracts. Following is a summary of these charges:

Mortality and Expense Risk Charges

ReliaStar Life assumes mortality and expense risks related to the operations of the Account and, in accordance with the terms of the Contracts, deducts a daily charge from the assets of the Account. Daily charges are deducted at annual rates of up to 1.40% of the average daily net asset value of each Division of the Account to cover these risks, as specified in the Contracts.

Asset Based Administrative Charges

A daily charge to cover administrative expenses of the Account is deducted at an annual rate of up to 0.20% of the assets attributable to the Contracts.

Contract Maintenance Charges

An annual Contract maintenance fee of up to \$35 may be deducted from the accumulation value of Contracts to cover ongoing administrative expenses, as specified in the Contracts.

Contingent Deferred Sales Charges

For certain Contracts, a contingent deferred sales charge ("Surrender Charge") is imposed as a percentage that ranges up to 8.00% of each premium payment if the Contract is surrendered or an excess partial withdrawal is taken as specified in the Contract.

Transfer Charges

A transfer charge of up to \$25 may be imposed on each transfer between Divisions in excess of twelve in any one calendar year.

Premium Taxes

For certain Contracts, premium taxes are deducted, where applicable, from the accumulation value of each Contract. The amount and timing of the deduction depends on the contractowner's state of residence and currently ranges up to 4.00% of premiums.

RELIASTAR LIFE INSURANCE COMPANY
SEPARATE ACCOUNT N
Notes to Financial Statements

5. Related Party Transactions

During the year ended December 31, 2007, management fees were paid indirectly to DSL, formerly Directed Services, Inc., an affiliate of the Company, in its capacity as investment adviser to ING Partners, Inc. and ING Investors Trust. The Trusts' advisory agreement provided for a fee at annual rates up to 1.25% of the average net assets of each respective Fund.

Management fees were paid to IIL, an affiliate of the Company, in its capacity as investment adviser to ING Variable Products Trust, ING VP Intermediate Bond Portfolio, ING Strategic Allocation Portfolios, Inc., ING Variable Portfolios, Inc., ING VP Balanced Portfolio, Inc., ING VP Money Market Portfolio and ING Variable Funds. The Trusts' advisory agreement provided for a fee at annual rates ranging from 0.25% to 1.00% of the average net assets of each respective Fund of the Trust.

- (a) As investment Division had no investments until 2003, this data is not meaningful and is therefore not presented.
(b) As investment Division had no investments until 2004, this data is not meaningful and is therefore not presented.
(c) As investment Division had no investments until 2005, this data is not meaningful and is therefore not presented.
(d) As investment Division had no investments until 2006, this data is not meaningful and is therefore not presented.
(e) As investment Division had no investments until 2007, this data is not meaningful and is therefore not presented.

- A** The Investment Income Ratio represents dividends received by the Division, excluding capital gains distributions divided by the average net assets. The recognition of investment income is determined by the timing of the declaration of dividends by the underlying fund in which the Division invests.
B The Expense Ratio considers only the expenses borne directly by the Account and is equal to the mortality and expense, administrative and other charges, as defined in Note 4. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.
C Total Return is calculated as the change in unit value for each Contract presented in the Statements of Assets and Liabilities. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.

Report of Independent Registered Public Accounting Firm

Board of Directors and Stockholder
ReliaStar Life Insurance Company

We have audited the accompanying statutory basis balance sheets of ReliaStar Life Insurance Company (the “Company,” an indirect wholly owned subsidiary of ING America Insurance Holdings, Inc.), as of December 31, 2007 and 2006, and the related statutory basis statements of operations, changes in capital and surplus, and cash flows for each of the three years in the period ended December 31, 2007. These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company’s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 1 to the financial statements, the Company presents its financial statements in conformity with accounting practices prescribed or permitted by the Minnesota Department of Commerce, Division of Insurance (“Minnesota Division of Insurance”), which practices differ from United States generally accepted accounting principles. The variances between such practices and United States generally accepted accounting principles and the effects on the accompanying financial statements are described in Note 1. The effects on the financial statements of these variances are not reasonably determinable but are presumed to be material.

In our opinion, because of the effects of the matter described in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with United States generally accepted accounting principles, the financial position of ReliaStar Life Insurance Company at December 31, 2007 and 2006, or the results of its operations or its cash flows for each of the three years in the period ended December 31, 2007.

However, in our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ReliaStar Life Insurance Company at December 31, 2007 and 2006, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2007, in conformity with accounting practices prescribed or permitted by the Minnesota Division of Insurance.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

1. Nature of Operations and Significant Accounting Policies

ReliaStar Life Insurance Company (the “Company”) is domiciled in Minnesota and is a wholly owned subsidiary of Lion Connecticut Holdings Inc. (“Lion”), a Connecticut domiciled non-insurance holding company. Lion, in turn, is a wholly owned subsidiary of ING America Insurance Holdings, Inc. (“ING AIH”), a Delaware domiciled non-insurance holding company. The Company’s ultimate parent is ING Groep, N.V. (“ING”), a global financial services company based in the Netherlands.

The Company is principally engaged in the business of providing individual life insurance and annuities, employee benefit products and services, retirement plans, and life and health reinsurance. The Company is presently licensed in all states (approved for reinsurance only in New York), the District of Columbia, Guam, Puerto Rico and Canada.

Basis of Presentation: The preparation of the financial statements of the Company requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes known, which could impact the amounts reported and disclosed herein.

The accompanying financial statements of the Company have been prepared in conformity with accounting practices prescribed or permitted by the Minnesota Division of Insurance, which practices differ from United States generally accepted accounting principles (“GAAP”). The more significant variances from GAAP are:

Investments: Investments in bonds and mandatorily redeemable preferred stocks are reported at amortized cost or market value based on the National Association of Insurance Commissioners (“NAIC”) rating; for GAAP, such fixed maturity investments are designated at purchase as held to maturity, trading or available for sale. Held to maturity investments are reported at amortized cost, and the remaining fixed maturity investments are reported at fair value with unrealized capital gains and losses reported in operations for those designated as trading and as a separate component of other comprehensive income in stockholder’s equity for those designated as available for sale.

The Company invests in structured securities including mortgage backed securities/collateralized mortgage obligations, asset backed securities, collateralized debt obligations, and commercial mortgage backed securities. For these structured securities, management compares the undiscounted projected future cash flows to the carrying value. An other than temporary impairment is considered to have occurred when the undiscounted cash flows are less than the carrying value.

For structured securities, when a negative yield results from a revaluation based on new prepayment assumptions (i.e., undiscounted projected future cash flows are less than current book value), an other than temporary impairment is considered to have occurred

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

and the asset is written down to the value of the undiscounted projected future cash flows. For GAAP, assets are re-evaluated based on the discounted projected future cash flows using a current market rate. Impairments are recognized when the fair value is less than book value and there has been an adverse change in projected future cash flows. When a decline in fair value is determined to be other than temporary, the individual security is written down to fair value.

Investments in real estate are reported net of related obligations rather than on a gross basis. Real estate owned and occupied by the Company is included in investments rather than reported as an operating asset as under GAAP, and investment income and operating expenses include rent for the Company's occupancy of those properties. Changes between depreciated cost and admitted asset investment amounts are credited or charged directly to unassigned surplus rather than income as would be required under GAAP.

Statement of Statutory Accounting Principles ("SSAP") No. 31, *Derivative Instruments* applies to derivative transactions entered into prior to January 1, 2003. The Company also follows the hedge accounting guidance in SSAP No. 86, *Accounting for Derivative Instruments and Hedging Activities* for derivative transactions entered into or modified on or after January 1, 2003. Under SSAP 86, derivatives that are deemed effective hedges are accounted for in a manner which is consistent with the underlying hedged item. Derivatives used in hedging transactions that do not meet the requirements of SSAP No. 86 as an effective hedge are carried at fair value with the change in value recorded in surplus as unrealized gains or losses. Embedded derivatives are not accounted for separately from the host contract. Under GAAP, the effective and ineffective portions of a single hedge are accounted for separately. An embedded derivative within a contract that is not clearly and closely related to the economic characteristics and risk of the host contract is accounted for separately from the host contract and valued and reported at fair value, and the change in fair value for cash flow hedges is credited or charged directly to a separate component of shareholder's equity rather than to income as required for fair value hedges.

Valuation Reserves: The asset valuation reserve ("AVR") is intended to establish a reserve to offset potential credit related investment losses on most invested asset categories. AVR is determined by an NAIC prescribed formula and is reported as a liability rather than as a valuation allowance or an appropriation of surplus. The change in AVR is reported directly to unassigned surplus.

Under a formula prescribed by the NAIC, the Company defers the portion of realized gains and losses on sales of fixed income investments, principally bonds and mortgage loans, attributable to changes in the general level of interest rates and amortizes those deferrals over the remaining period to maturity based on groupings of individual securities sold in five year bands. The net deferral or interest maintenance reserve ("IMR") is reported as a component of other liabilities in the accompanying Balance Sheets.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

Realized gains and losses on investments are reported in the Statements of Operations net of federal income tax and transfers to the IMR. Under GAAP, realized capital gains and losses are reported in the Statements of Operations on a pretax basis in the period that the asset giving rise to the gain or loss is sold. Realized losses due to impairment are recorded when there has been a decline in value deemed to be other than temporary, in which case the provision for such declines is charged to income.

Valuation allowances, if necessary, are established for mortgage loans based on the difference between the net value of the collateral, determined as the fair value of the collateral less estimated costs to obtain and sell, and the recorded investment in the mortgage loan. Under GAAP, such allowances are based on the present value of expected future cash flows discounted at the loan's effective interest rate or, if foreclosure is probable, on the estimated fair value of the collateral.

The initial valuation allowance and subsequent changes in the allowance for mortgage loans as a result of a temporary impairment are charged or credited directly to unassigned surplus. Under GAAP, such allowances are included as a component of earnings.

Policy Acquisition Costs: The costs of acquiring and renewing business are expensed when incurred. Under GAAP, acquisition costs related to traditional life insurance, to the extent recoverable from future policy revenues, are deferred and amortized over the premium paying period of the related policies using assumptions consistent with those used in computing policy benefit reserves. For universal life insurance and investment products, to the extent recoverable from future gross profits, acquisition costs are amortized generally in proportion to the present value of expected gross margins from surrender charges and investment, mortality, and expense margins.

Premiums: Life premiums are recognized as revenue when due. Premiums for annuity policies with mortality and morbidity risk, except for guaranteed interest and group annuity contracts, are also recognized as revenue when due. Premiums received for annuity policies without mortality or morbidity risk and for guaranteed interest and group annuity contracts are recorded using deposit accounting.

Under GAAP, premiums for traditional life insurance products, which include those products with fixed and guaranteed premiums and benefits and consist primarily of whole life insurance policies, are recognized as revenue when due. Group insurance premiums are recognized as premium revenue over the time period to which the premiums relate. Revenues for universal life, annuities and guaranteed interest contracts consist of policy charges for the cost of insurance, policy administration charges, amortization of policy initiation fees and surrender charges assessed during the period.

Benefit and Contract Reserves: Life policy and contract reserves under statutory accounting practices are calculated based upon both the net level premium and Commissioners' Reserve Valuation methods using statutory rates for mortality and interest. GAAP requires that policy reserves for traditional products be based upon the

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

net level premium method utilizing reasonably conservative estimates of mortality, interest, and withdrawals prevailing when the policies were sold. For interest sensitive products, the GAAP policy reserve is equal to the policy fund balance plus an unearned revenue reserve which reflects the unamortized balance of early year policy loads over renewal year policy loads.

Reinsurance: For business ceded to unauthorized reinsurers, statutory accounting practices require that reinsurance credits permitted by the treaty be recorded as an offsetting liability and charged against unassigned surplus. Under GAAP, an allowance for amounts deemed uncollectible would be established through a charge to earnings. Statutory income recognized on certain reinsurance treaties representing financing arrangements is not recognized on a GAAP basis.

Policy and contract liabilities ceded to reinsurers have been reported as reductions of the related reserves rather than as assets as required under GAAP.

Commissions allowed by reinsurers on business ceded are reported as income when received rather than being deferred and amortized with deferred policy acquisition costs as required under GAAP.

Gains and losses generated in certain reinsurance transactions are deferred and amortized over the remaining life of the business for GAAP purposes. For statutory, losses are recognized immediately in income, with gains reported as a separate component of surplus.

Nonadmitted Assets: Certain assets designated as “nonadmitted,” principally disallowed deferred federal income tax assets, disallowed interest maintenance reserves, non operating software, past due agents’ balances, furniture and equipment, intangible assets, and other assets not specifically identified as an admitted asset within the NAIC *Accounting Practices and Procedures Manual*, are excluded from the accompanying Balance Sheets and are charged directly to unassigned surplus. Under GAAP, such assets are included in the Balance Sheets.

Subsidiaries: The accounts and operations of the Company’s subsidiaries are not consolidated. Certain affiliated investments for which audited GAAP statements are not available or expected to be available are nonadmitted. Under GAAP, the accounts and operations of the Company’s subsidiaries are consolidated. All affiliated investments are included in the Consolidated Balance Sheets.

Employee Benefits: For purposes of calculating the Company’s postretirement benefit obligation, only vested participants and current retirees are included in the valuation. Under GAAP, active participants not currently vested are also included.

Universal Life and Annuity Policies: Revenues for universal life and annuity policies consist of the entire premium received and benefits incurred represent the total of death

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

benefits paid and the change in policy reserves. Under GAAP, premiums received in excess of policy charges would not be recognized as premium revenue and benefits would represent the excess of benefits paid over the policy account value and interest credited to the account values.

Policyholder Dividends: Policyholder dividends are recognized when declared. Under GAAP, dividends are recognized over the term of the related policies.

Deferred Income Taxes: Deferred tax assets are provided for and admitted to an amount determined under a standard formula. This formula considers the amount of differences that will reverse in the subsequent year, taxes paid in prior years that could be recovered through carrybacks, surplus limits, and the amount of deferred tax liabilities available for offset. Any deferred tax assets not covered under the formula are nonadmitted. Deferred taxes do not include any amounts for state taxes. Under GAAP, a deferred tax asset is recorded for the amount of gross deferred tax assets that are expected to be realized in future years and a valuation allowance is established for the portion that is not realizable.

Surplus Notes: Surplus notes are reported as a component of surplus. Under statutory accounting practices, no interest is recorded on the surplus notes until payment has been approved by the Minnesota Division of Insurance. Under GAAP, surplus notes are reported as liabilities and the related interest is reported as a charge to earnings over the term of the notes.

Statements of Cash Flows: Cash and short term investments in the Statements of Cash Flows represent cash balances and investments with initial maturities of one year or less. Other invested assets include cash loaned through the Company's reciprocal loan program.

Reclassifications: Certain 2006 amounts in the Company's statutory basis financial statements have been reclassified to conform to the 2007 financial statement presentation.

Participation Fund Account: On January 3, 1989, the Minnesota Division of Insurance approved a Plan of Conversion and Reorganization ("the Plan"), which provided, among other things, for the conversion of the Company from a combined stock and mutual life insurance company to a stock life insurance company.

The Plan provided for the establishment of a Participation Fund Account ("PFA") for the benefit of certain participating individual life insurance policies and annuities issued by the Company prior to the effective date of the Plan. Under the terms of the PFA, the insurance liabilities and assets (approximately \$282.1 as of December 31, 2007) with respect to such policies are included in the Company's financial statements but are segregated in the accounting records of the Company to assure the continuation of policyholder dividend practices.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

Reconciliation to GAAP: The effects of the preceding variances from GAAP on the accompanying statutory basis financial statements have not been determined, but are presumed to be material.

Other significant accounting practices are as follows:

Investments: Investments are stated at values prescribed by the NAIC, as follows:

Bonds not backed by other loans are principally stated at amortized cost using the effective interest method.

Single class and multi class mortgage backed/asset backed securities are valued at amortized cost using the effective interest method including anticipated prepayments. Prepayment assumptions are obtained from dealer surveys or internal estimates and are based on the current interest rate and economic environment. The retrospective adjustment method is used to value all such securities except for higher risk asset backed securities, which are valued using the prospective method. The Company has elected to use the book value as of January 1, 1994 as the cost for applying the retrospective method to securities purchased prior to that date where historical cash flows are not readily available.

Redeemable preferred stocks rated as high quality or better are reported at cost or amortized cost. All other redeemable preferred stocks are reported at the lower of cost, amortized cost, or market value and nonredeemable preferred stocks are reported at market value or the lower of cost or market value as determined by the Securities Valuation Office of the NAIC ("SVO").

Common stocks are reported at market value as determined by the SVO and the related unrealized capital gains/losses are reported in unassigned surplus along with adjustment for federal income taxes.

The Company analyzes the general account investments to determine whether there has been an other than temporary decline in fair value below the amortized cost basis. Management considers the length of time and the extent to which the market value has been less than cost, the financial condition and near term prospects of the issuer, future economic conditions and market forecasts. If it is probable that all amounts due according to the contractual terms of a debt security will not be collected, an other than temporary impairment is considered to have occurred. The Company also considers the negative market impact of the interest rate changes, in addition to credit related items, when performing other than temporary impairment testing. As part of this testing, the Company determines whether or not it has the intent to sell investments. If a decision to sell has been made, an other than temporary impairment is considered to have occurred.

The Company uses derivatives such as interest rate swaps, caps and floors, forwards and options as part of its overall interest rate risk management strategy for certain life

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

insurance and annuity products. For those derivatives in effective hedging relationships, the Company values all derivative instruments on a consistent basis with the hedged item. Upon termination, gains and losses on instruments are included in the carrying values of the underlying hedged items and are amortized over the remaining lives of the hedged items as adjustments to investment income or benefits from the hedged items. Any unamortized gains or losses are recognized when the underlying hedged items are sold. Derivatives used in hedging transactions that do not meet the requirements of SSAP No. 86 as an effective hedge are carried at fair value with the change in value recorded in surplus as an unrealized gain or loss.

Credit default swaps and total return swaps are utilized to replicate the investment characteristics of permissible investments using the derivative in conjunction with other investments. Replicated (synthetic) assets filed with the NAIC SVO result in both the derivative and cash instrument being carried at amortized cost. The replication practices are in accordance with SSAP No. 86, permissible investments using the derivative in conjunction with other investments.

Interest rate swap contracts are used to convert the interest rate characteristics (fixed or variable) of certain investments to match those of the related insurance liabilities that the investments are supporting. The net interest effect of such swap transactions is reported as an adjustment of interest income from the hedged items as incurred.

Currency swap agreements generally involve the exchange of local and foreign currency payments over the life of the agreement without an exchange of the underlying principal amount.

Interest rate caps and floors are used to limit the effects of changing interest rates on yields of variable rate or short term assets or liabilities. The initial cost of any such agreement is amortized to net investment income over the life of the agreement. Periodic payments that are received as a result of the agreements are accrued as an adjustment of interest income or benefits from the hedged items.

All effective derivatives are reported at amortized cost. S&P options are reported at fair value in conformity with the hedged item. The unrealized gains or losses from the S&P options are reported as unrealized gains or losses in surplus.

SSAP No. 97, *Investments in Subsidiary, Controlled and Affiliated Entities* ("SSAP 97"), applies to the Company's subsidiaries, controlled and affiliated entities ("SCA"). The Company's insurance subsidiaries are reported at their underlying statutory basis net assets plus the admitted portion of goodwill, and the Company's non-insurance subsidiaries are reported at the GAAP basis of their net assets. Dividends from subsidiaries are included in net investment income. The remaining net change in the subsidiaries' equity is included in the change in net unrealized capital gains or losses. SCA entities for which audited US GAAP statements are not available or expected to be available are nonadmitted.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

Mortgage loans are reported at amortized cost, less writedown for impairments.

Contract loans are reported at unpaid principal balances.

Land is reported at cost. Real estate occupied by the Company is reported at depreciated cost, and other real estate is reported at the lower of depreciated cost or fair value. Depreciation is calculated on a straight line basis over the estimated useful lives of the properties.

For reverse repurchase agreements, Company policies require a minimum of 95% of the fair value of securities sold under reverse repurchase agreements to be maintained as collateral. Cash collateral received is invested in short term investments and the offsetting collateral liability is included in miscellaneous liabilities.

Reverse dollar repurchase agreements are accounted for as collateral borrowings, where the amount borrowed is equal to the sales price of the underlying securities.

The Company engages in securities lending whereby certain domestic bonds from its portfolio are loaned to other institutions for short periods of time. Collateral, primarily cash, which is in excess of the market value of the loaned securities, is deposited by the borrower with a lending agent, and retained and invested by the lending agent to generate additional income for the Company. The Company does not have access to the collateral. The Company's policy requires a minimum of 102% of the fair value of securities loaned to be maintained as collateral. The market value of the loaned securities is monitored on a daily basis with additional collateral obtained or refunded as the market value fluctuates.

Short term investments are reported at amortized cost which approximates market value. Short term investments include investments with maturities of less than one year at the date of acquisition.

Partnership interests, which are included in other invested assets, are reported at the underlying audited GAAP equity of the investee.

Residual collateralized mortgage obligations, which are included in other invested assets on the Balance Sheet, are reported at amortized cost using the effective interest method.

Realized capital gains and losses are determined using the first in first out method.

Cash on hand includes cash equivalents. Cash equivalents are short term investments that are both readily convertible to cash and have an original maturity date of three months or less.

Aggregate Reserve for Life Policies and Contracts: Life, annuity, and accident and health reserves are developed by actuarial methods and are determined based on published

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

tables using statutorily specified interest rates and valuation methods that will provide, in the aggregate, reserves that are greater than or equal to the minimum or guaranteed policy cash value or the amounts required by law. Interest rates range from 2.0% to 13.3%.

The Company waives the deduction of deferred fractional premiums upon the death of the insured. It is the Company's practice to return a pro rata portion of any premium paid beyond the policy month of death, although it is not contractually required to do so for certain issues.

The methods used in valuation of substandard policies are as follows:

For life, endowment and term policies issued substandard, the standard reserve during the premium paying period is increased by 50% of the gross annual extra premium. Standard reserves are held on Paid Up Limited Pay contracts.

For reinsurance accepted with table rating, the reserve established is a multiple of the standard reserve corresponding to the table rating.

For reinsurance with flat extra premiums, the standard reserve is increased by 50% of the flat extra.

The amount of insurance in force for which the gross premiums are less than the net premiums, according to the standard of valuation required by the Minnesota Division of Insurance, is \$46.7 billion and \$21.7 billion at December 31, 2007 and 2006, respectively. The amount of premium deficiency reserves for policies on which gross premiums are less than the net premiums is \$571.9 and \$517.5 at December 31, 2007 and 2006, respectively. The Company anticipates investment income as a factor in the premium deficiency calculation in accordance with SSAP No. 54, *Individual and Group Accident and Health Contracts*.

The tabular interest has been determined from the basic data for the calculation of policy reserves for all direct ordinary life insurance and for the portion of group life insurance classified as group Section 79. The method of determination of tabular interest of funds not involving life contingencies is as follows: one hundredth of the product of such valuation rate of interest times the mean of the amount of funds subject to such valuation rate of interest held at the beginning and end of the year of valuation.

Reinsurance: Reinsurance premiums, commissions, expense reimbursements, and reserves related to reinsured business are accounted for on a basis consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts. Reserves are based on the terms of the reinsurance contracts and are consistent with the risks assumed. Premiums and benefits ceded to other companies have been reported as a reduction of premium revenue and benefits expense. Amounts applicable to reinsurance ceded for reserves and unpaid claim liabilities have been reported as

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

reductions of these items, and expense allowances received in connection with reinsurance ceded have been reflected in operations.

Electronic Data Processing Equipment: Electronic data processing equipment is carried at cost less accumulated depreciation. Depreciation for major classes of such assets is calculated on a straight line basis over the estimated useful life of the asset.

Participating Insurance: Participating business approximates less than 1% of the Company's ordinary life insurance in force and 1.5% of premium income. The amount of dividends to be paid to participating policyholders is determined annually by the Board of Directors. Amounts allocable to participating policyholders are based on published dividend projections or expected dividend scales. Dividends expense of \$18.5, \$18.3 and \$17.2 was incurred in 2007, 2006 and 2005, respectively.

Benefit Plans: The Company provides noncontributory retirement plans for substantially all employees and certain agents. Pension costs are charged to operations as contributions are made to the plans. The Company also provides a contributory retirement plan for substantially all employees.

Nonadmitted Assets: Nonadmitted assets are summarized as follows:

	December 31	
	2007	2006
	<i>(In Thousands)</i>	
Subsidiaries	\$ -	\$ 1,061
Deferred and uncollected premium	9,960	5,761
Net deferred tax asset	259,262	206,439
Electronic data processing equipment and software	21,892	28,567
Furniture and equipment	1,184	1,955
Health care and other amounts receivable	10,552	1,949
Aggregate write-ins for other than invested assets	-	11,109
Other	38,577	13,014
Total nonadmitted assets	<u>\$ 341,427</u>	<u>\$ 269,855</u>

Changes in nonadmitted assets are generally reported directly in unassigned surplus as an increase or decrease in nonadmitted assets.

Claims and Claims Adjustment Expenses: Claims expenses represent the estimated ultimate net cost of all reported and unreported claims incurred through December 31, 2007. The Company does not discount claims and claims adjustment expense reserves. Such estimates are based on actuarial projections applied to historical claim payment data. Such liabilities are considered to be reasonable and adequate to discharge the Company's obligations for claims incurred but unpaid as of December 31, 2007.

Guaranteed Benefits: For the Guaranteed Minimum Death Benefit ("GMDB"), Actuarial Guideline 34 ("AG34") is followed. All the methodology and assumptions (mortality

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

and interest) are contained in the guideline. AG34 interprets the standards for applying CARVM to GMDBs in variable annuity contracts where GMDBs are integrated with other benefits such as surrenders and annuitizations. This guideline requires that GMDBs be projected assuming an immediate drop in the value of the assets supporting the variable annuity contract, followed by a subsequent recovery at a net assumed return. The immediate drops and assumed returns used in the projections are provided in AG34 and vary by five asset classes in order to reflect the risk/return differential inherent in each class. Contract specific asset based charges are deducted to obtain the net assumed returns. This guideline interprets mortality standards to be applied to projected GMDBs in the reserve calculation. In addition, this guideline clarifies standards for reinsurance transactions involving GMDBs with integrated benefit streams modified to reflect both the payment of future reinsurance premiums and the recovery of future reinsured death benefits.

Cash Flow Information: Cash and short term investments include cash on hand, demand deposits and short term fixed maturity instruments with a maturity of less than one year at date of acquisition. Other invested assets include cash loaned through the Company's reciprocal loan program.

Separate Accounts: Most separate account assets and liabilities held by the Company represent funds held for the benefit of the Company's variable life and annuity policy and contract holders who bear all of the investment risk associated with the policies. Such policies are of a non-guaranteed nature. All net investment experience, positive or negative, is attributed to the policy and contract holders' account values. The assets and liabilities of these accounts are carried at fair value and are legally segregated and are not subject to claims that arise out of any other business of the Company.

Certain other separate accounts relate to experience rated group annuity contracts that fund defined contribution pension plans. These contracts provide guaranteed interest returns for one year only, where the guaranteed interest rate is reestablished each year based on the investment experience of the separate account. In no event can the interest rate be less than zero. The assets and liabilities of these separate accounts are carried at book value.

Reserves related to the Company's mortality risk associated with these policies are included in life and annuity reserves. These reserves include reserves for guaranteed minimum death benefits (before reinsurance) that totaled \$15.4 and \$14.5 at December 31, 2007 and 2006, respectively. The operations of the separate accounts are not included in the accompanying financial statements.

Reclassifications: Certain amounts in the Company's statutory basis financial statements have been reclassified to conform to the 2007 financial statement presentation.

RELIASTAR LIFE INSURANCE COMPANY

(Dollar amounts in millions, unless otherwise stated)

2. Permitted Statutory Basis Accounting Practices

The financial statements of the Company are presented on the basis of accounting practices prescribed or permitted by the Minnesota Division of Insurance. The Minnesota Division of Insurance recognizes only statutory accounting practices prescribed or permitted by the State of Minnesota for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Minnesota Insurance Laws. The NAIC *Accounting Practices and Procedures Manual* has been adopted as a component of prescribed or permitted practices by the State of Minnesota. The Minnesota Commissioner of Commerce has the right to permit other specific practices that deviate from prescribed practices.

The Company is required to identify those significant accounting practices that are permitted, and obtain written approval of the practices from the Minnesota Division of Insurance. As of December 31, 2007, 2006, and 2005, the Company had no such permitted accounting practices.

Commercial mortgage backed securities	1,790,470	1,750,590
Other asset backed securities	<u>992,762</u>	<u>959,284</u>
Total	<u>\$ 13,637,398</u>	<u>\$ 13,554,631</u>

At December 31, 2007 and 2006, investments in certificates of deposit and bonds with an admitted asset value of \$181.9 and \$292.4, respectively, were on deposit with state insurance departments to satisfy regulatory requirements.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

The Company had loaned securities, which are reflected as invested assets on the balance sheets, with a market value of approximately \$158.4 and \$398.6 at December 31, 2007 and 2006, respectively.

Proceeds from sales of investments in bonds and other fixed maturity interest securities were \$4.5 billion, \$3.2 billion and \$5.8 billion in 2007, 2006 and 2005, respectively. Gross gains of \$44.4, \$31.3, and \$64.9 and gross losses of \$53.2, \$51.5, and \$85.9 during 2007, 2006 and 2005, respectively, were realized on those sales. A portion of the gains and losses realized in 2007, 2006, and 2005 has been deferred to future periods in the IMR.

Realized capital gains (losses) are reported net of federal income taxes and amounts transferred to the IMR as follows:

	December 31		
	2007	2006	2005
	<i>(In Thousands)</i>		
Realized capital losses	\$ (3,444)	\$ (52,309)	\$ (12,910)
Amount transferred to IMR (net of related taxes of \$(8,404) in 2007, \$(18,459) in 2006 and \$(3,362) in 2005	15,608	34,282	6,244
Federal income tax (expense) benefit	(9,008)	14,367	(1,527)
Net realized capital gains (losses)	<u>\$ 3,156</u>	<u>\$ (3,660)</u>	<u>\$ (8,193)</u>

Realized capital gains (losses) include losses of \$27.9, \$31.2, and \$23.0 related to securities that have experienced an other-than-temporary decline in value in 2007, 2006, and 2005, respectively.

Major categories of net investment income are summarized as follows:

	Year ended December 31		
	2007	2006	2005
	<i>(In Thousands)</i>		
Income:			
Subsidiaries	\$ 22,049	\$ 27,600	\$ 21,765

Investment expenses	<u>(113,847)</u>	<u>(113,934)</u>	<u>(102,114)</u>
Net investment income	<u>\$ 950,685</u>	<u>\$ 946,258</u>	<u>\$ 932,511</u>

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

The Company entered into reverse dollar repurchase transactions to increase its return on investments and improve liquidity. Reverse dollar repurchases involve a sale of securities and an agreement to repurchase substantially the same securities as those sold. The reverse dollar repurchases are accounted for as short term collateralized financing and the repurchase obligation is reported in borrowed money on the Balance Sheets. The repurchase obligation totaled \$208.8 and \$188.8 at December 31, 2007 and 2006, respectively. The securities underlying these agreements are mortgage backed securities with a book value of \$213.8 and \$193.0 and fair value of \$210.2 and \$187.1 at December 31, 2007 and 2006, respectively. The securities had a weighted average coupon rate of 5.5% with various maturity dates ending in December 2037. The primary risk associated with short term collateralized borrowings is that the counterparty may be unable to perform under the terms of the contract. The Company's exposure is limited to the excess of the net replacement cost of the securities over the value of the short term investments, which was not material at December 31, 2007. The Company believes that the counterparties to the reverse dollar repurchase agreements are financially responsible and that counterparty risk is minimal.

The Company participates in reverse repurchase transactions. Such transactions include the sale of corporate securities to a major securities dealer and a simultaneous agreement to repurchase the same security in the near term. The proceeds are invested in new securities of intermediate durations. As of December 31, 2007 and 2006, the amount outstanding on these agreements was \$402.1 and \$376.0, respectively, and was included in borrowed money on the balance sheets. The securities underlying these agreements are mortgage backed securities with a book value of \$422.8 and \$377.5 and fair value of \$424.0 and \$375.8 at December 31, 2007 and 2006, respectively. The securities have a weighted average coupon rate of 5.4% with various maturity dates ending in February 2043.

The maximum and minimum lending rates for long term mortgage loans during 2007 were 7.0% and 3.9%. Fire insurance is required on all properties covered by mortgage loans and must at least equal the excess of the loan over the maximum loan which would be permitted by law on the land without the buildings.

The maximum percentage of any loan to the value of collateral at the time of the loan, exclusive of insured or guaranteed or purchase money mortgages, was 73.8% on commercial properties. The Company held \$0.0 and \$1.1 in mortgages with interest more than 180 days overdue at December 31, 2007 and 2006, respectively. Minimal interest was past due as of December 31, 2007 and 2006.

The average recorded investment in impaired loans was \$0.6 and \$1.9 at December 31, 2007 and 2006, respectively. Interest income recognized during the period the loans were impaired was \$0.5, \$0.8, and \$0.6 and interest income recognized on a cash basis was \$0.5, \$0.9, and \$0.5 for 2007, 2006 and 2005, respectively.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

The Company had impaired loans without an allowance for credit losses of \$1.2 and \$7.4 as of December 31, 2007 and 2006, respectively.

In the course of the Company's asset management, securities are sold and reacquired within 30 days of the sale date to enhance the Company's return on the investment portfolio or to manage interest rate risk. The table below summarizes the number of transactions, book value, and gain/loss of the Company's financial instruments with securities sold and reacquired within 30 days of the sale date:

	NAIC Rating	Number of Transactions	Book Value (in thousands)	Cost of Securities Repurchased (in thousands)	Gain/(Loss) (in thousands)
2007		0	\$ -	\$ -	\$ -
2006	3	6	575	572	-
2005	3	14	1,430	1,557	115
	4	4	780	796	12
		<u>18</u>	<u>\$ 2,210</u>	<u>\$ 2,353</u>	<u>\$ 127</u>

There were no encumbrances on real estate at December 31, 2007 and 2006, respectively.

Credit markets have recently become more turbulent amid concerns about subprime mortgages and collateralized debt obligations ("CDOs"). This in turn has resulted in a general widening of credit spreads, reduced price transparency, reduced liquidity, increased rating agency downgrades and increased volatility across all markets. The Company manages its risk exposure to subprime mortgages and CDOs by attempting to identify over-credit enhanced transactions that can withstand stronger multiples of loss coverage than anticipated by the agencies, utilizing collateral and structural analysis to project deal performance. The Company updates its views monthly for deviations (positive or negative) from expected performance and takes action as necessary and appropriate. For these reasons (initial security selection efforts and ongoing surveillance), The Company believes its portfolios are well positioned to perform from an expected loss standpoint.

To date, this market disruption has had a limited impact on the Company. As of December 31, 2007, the fair value of the Company's subprime exposure was \$295.8, representing 1.6% of total investments and the fair value of its Alt-A exposure was \$945.8, representing 5.2% of total investments. Alt-A Loans are residential mortgage loans to customers who have strong credit profiles but lack some elements such as documentation to substantiate income. Subprime lending is the origination of loans to customers with weaker credit profiles. The Company does not originate or purchase subprime or Alt-A whole loan mortgages. As of December 31, 2007, the Company's exposure to subprime mortgages was primarily in the form of asset backed securities ("ABS") collateralized by subprime residential mortgages ("ABS Home Equity") and

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

CDO positions backed by ABS Home Equity; and its exposure to Alt-A mortgages, which was concentrated in residential mortgage backed securities ("RMBS"). The following summarizes the Company's ABS Home Equity exposure to subprime and Alt-A mortgages as of December 31, 2007.

The actual cost, book adjusted carrying value, and fair value of ABS Home Equity securities at December 31, 2007 was \$322.4, \$322.5 and \$295.8, respectively. Gross unrealized losses related to these ABS Home Equity securities for the year ended December 31, 2007 was \$27.2. Other-than-temporary impairments recognized on ABS Home Equity securities was \$5.9 for the year ended December 31, 2007. The actual cost, book adjusted carrying value, and fair value of the Alt-A portfolio at December 31, 2007 was \$960.8, \$957.0 and \$945.8, respectively. Gross unrealized losses related to the Alt-A portfolio for the year ended December 31, 2007 was \$35.2. Other-than-temporary impairments recognized on the Alt-A portfolio was \$279.8 for the year ended December 31, 2007.

4. Derivative Financial Instruments Held for Purposes Other than Trading

The Company utilizes derivatives such as options, futures, caps, floors, forwards and interest rate swaps to reduce and manage risks, which include the risk of a change in the value, yield, price, cash flows, exchange rates or quantity of, or a degree of exposure with respect to, assets, liabilities, or future cash flows which the Company has acquired or incurred. Hedge accounting practices are followed in accordance with requirements set forth in SSAP No. 86 for those derivatives that are deemed highly effective. The Company also enters into credit default swaps and total return swaps to replicate the investment characteristics of permissible investments using the derivative in conjunction with other investments. Replicated (synthetic) assets filed with the NAIC SVO result in both the derivative and cash instrument being carried at amortized cost. The replication practices are in accordance with SSAP No. 86.

The Company uses interest rate swaps to reduce market risks from changes in interest rates and to alter interest rate exposure arising from mismatches between assets and liabilities. Interest rate swap agreements generally involve the exchange of fixed and floating interest payments over the life of the agreement without an exchange of the underlying principal amount.

Currency swap agreements generally involve the exchange of local and foreign currency payments over the life of the agreement without an exchange of the underlying principal amount.

Interest rate cap and interest rate floor agreements owned entitle the Company to receive payments to the extent reference interest rates exceed or fall below strike levels in the contracts based on the notional amounts.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

Derivatives that are designated as being in an effective hedging relationship are reported in a manner that is consistent with the hedged asset or liability. All effective derivatives are reported at amortized cost. Effective S&P options are reported at fair value in uniformity with the hedged item. The unrealized gains or losses from the S&P options are reported as unrealized gain or loss in surplus.

Premiums paid for the purchase of interest rate contracts are included in other invested assets on the balance sheet and are being amortized to interest expense over the remaining terms of the contracts or in a manner consistent with the financial instruments being hedged.

Amounts paid or received, if any, from such contracts are included in interest expense or income on the statements of operations. Accrued amounts payable to or receivable from counterparties are included in other liabilities or other invested assets. Gains or losses realized as a result of early terminations of interest rate contracts are amortized to investment income over the remaining term of the items being hedged to the extent the hedge is considered to be effective; otherwise, they are recognized upon termination.

Derivatives that are designated as being in an effective hedging relationship are reported in a manner that is consistent with the hedged asset or liability. Derivative contracts that are matched or otherwise designated to be associated with other financial instruments are recorded at fair value if the related financial instruments mature, are sold, or are otherwise terminated or if the interest rate contracts cease to be effective hedges. Changes in the fair value of derivatives not designated in effective hedging relationships are recorded as unrealized gains and losses in surplus.

The Company is exposed to credit loss in the event of nonperformance by counterparties on certain derivative contracts; however, the Company does not anticipate nonperformance by any of these counterparties. The amount of such exposure is generally the unrealized gains in such contracts. The Company manages the potential credit exposure from interest rate contracts through careful evaluation of the counterparties' credit standing, collateral agreements, and master netting agreements.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

The table below summarizes the Company's derivative contracts included in other invested assets at December 31, 2007 and 2006:

	<u>Notional Amount</u>	<u>Carrying Value</u> <i>(In Thousands)</i>	<u>Fair Value</u>
December 31, 2007			
Derivative contracts:			
Swaps	\$ 5,563,365	\$ (86,584)	\$ (156,548)
Options owned	402,043	1,929	1,929
Total derivatives	<u>\$ 5,965,408</u>	<u>\$ (84,655)</u>	<u>\$ (154,619)</u>
December 31, 2006			
Derivative contracts:			
Swaps	\$ 4,036,458	\$ (1,176)	\$ (5,705)
Options owned	52,433	3,419	3,419
Total derivatives	<u>\$ 4,088,891</u>	<u>\$ 2,243</u>	<u>\$ (2,286)</u>

5. Concentrations of Credit Risk

The Company held below investment grade corporate bonds with an aggregate book value of \$802.9 and \$451.7 and an aggregate market value of \$798.6 and \$459.4 at December 31, 2007 and 2006, respectively. Those holdings amounted to 5.9% of the Company's investments in bonds and 4.2% of total admitted assets at December 31, 2007. The holdings of below investment grade bonds are widely diversified and of satisfactory quality based on the Company's investment policies and credit standards.

The Company held unrated bonds of \$241.7 and \$326.0 with an aggregate NAIC market value of \$252.8 and \$333.4 at December 31, 2007 and 2006, respectively. The carrying value of these holdings amounted to 1.8% of the Company's investment in bonds and 1.3% of the Company's total admitted assets at December 31, 2007.

At December 31, 2007, the Company's commercial mortgages involved a concentration of properties located in California (27.5%) and Texas (8.6%). The remaining commercial mortgages relate to properties located in 41 other states. The portfolio is well diversified, covering many different types of income producing properties on which the Company has first mortgage liens. The maximum mortgage outstanding on any individual property is \$75.0.

6. Annuity Reserves

At December 31, 2007 and 2006, the Company's annuity reserves, including those held in separate accounts and deposit fund liabilities that are subject to discretionary

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis

(Dollar amounts in millions, unless otherwise stated)

withdrawal (with adjustment), subject to discretionary withdrawal (without adjustment), and not subject to discretionary withdrawal provisions are summarized as follows:

	<u>Amount</u> <i>(In Thousands)</i>	<u>Percent</u>
December 31, 2007		
Subject to discretionary withdrawal (with adjustment):		
With market value adjustment	\$ 214,697	1.9 %
At book value less surrender charge	1,168,046	10.6
At fair value	<u>1,693,450</u>	<u>15.3</u>
Subtotal	3,076,193	27.8
Subject to discretionary withdrawal (without adjustment):		
At book value with minimal or no charge or adjustment	6,936,965	62.7
Not subject to discretionary withdrawal	<u>1,042,988</u>	<u>9.5</u>
Total annuity reserves and deposit fund liabilities before reinsurance	11,056,146	100.0 %
Less reinsurance ceded	<u>10,892</u>	
Net annuity reserves and deposit fund liabilities	<u>\$ 11,045,254</u>	
December 31, 2006		
Subject to discretionary withdrawal (with adjustment):		
With market value adjustment	\$ 271,325	2.4 %
At book value less surrender charge	1,225,832	10.8
At fair value	<u>2,000,906</u>	<u>17.6</u>
Subtotal	3,498,063	30.8
Subject to discretionary withdrawal (without adjustment):		
At book value with minimal or no charge or adjustment	7,025,008	61.9
Not subject to discretionary withdrawal	<u>819,298</u>	<u>7.3</u>
Total annuity reserves and deposit fund liabilities before reinsurance	11,342,369	100.0 %
Less reinsurance ceded	<u>11,869</u>	
Net annuity reserves and deposit fund liabilities	<u>\$ 11,330,500</u>	

Of the total net annuity reserves and deposit fund liabilities of \$11.0 billion at December 31, 2007, \$9.2 billion is included in the general account, and \$1.8 billion is included in the separate account. Of the total net annuity reserves and deposit fund liabilities of \$11.3 billion at December 31, 2006, \$9.2 billion is included in the general account, and \$2.1 billion is included in the separate account.

7. Employee Benefit Plans

Defined Benefit Plan: ING North America Insurance Corporation (“ING North America”) sponsors the ING Americas Retirement Plan (the “Retirement Plan”), effective as of December 31, 2001. Substantially all employees of ING North America and its subsidiaries and affiliates (excluding certain employees) are eligible to participate, including the Company’s employees.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

The Retirement Plan is a tax qualified defined benefit plan, the benefits of which are guaranteed (within certain specified legal limits) by the Pension Benefit Guaranty Corporation ("PBGC"). As of January 1, 2002, each participant in the Retirement Plan (except for certain specified employees) earns a benefit under a final average compensation formula. The costs allocated to the Company for its employees' participation in the Retirement Plan were \$7.8, \$9.1 and \$7.6 for 2007, 2006 and 2005, respectively. ING North America is responsible for all Retirement Plan liabilities.

Defined Contribution Plans: ING North America sponsors the ING Savings Plan and ESOP (the "Savings Plan"). Substantially all employees of ING North America and its subsidiaries and affiliates (excluding certain employees) are eligible to participate, including the Company's employees other than Company agents. The Savings Plan is a tax qualified profit sharing and stock bonus plan, which includes an employee stock ownership plan ("ESOP") component. Savings Plan benefits are not guaranteed by the PBGC. The Savings Plan allows eligible participants to defer into the Savings Plan a specified percentage of eligible compensation on a pretax basis. ING North America matches such pretax contributions, up to a maximum of 6% of eligible compensation. All matching contributions are subject to a 4 year graded vesting schedule (although certain specified participants are subject to a 5 year graded vesting schedule). All contributions made to the Savings Plan are subject to certain limits imposed by applicable law. Amounts allocated to the Company for the Savings Plan were \$7.0, \$7.0 and \$6.3 for 2007, 2006 and 2005, respectively.

Other Benefit Plans: In addition to providing retirement plan benefits, the Company, in conjunction with ING North America, provides certain supplemental retirement benefits to eligible employees and health care and life insurance benefits to retired employees and other eligible dependents. The supplemental retirement plan includes a nonqualified defined benefit pension plan, and a nonqualified defined contribution plan, which means all benefits are payable from the general assets of the Company. The postretirement health care plan is contributory, with retiree contribution levels adjusted annually. The life insurance plan provides a flat amount of noncontributory coverage and optional contributory coverage.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

Assumptions used in determining the accounting for the defined benefit plans and other benefit plan as of December 31, 2007, 2006 and 2005 were as follows:

	<u>2007</u>	<u>2006</u>	<u>2005</u>
Weighted average discount rate	6.5 %	5.9 %	5.5 %
Rate of increase in compensation level	4.2 %	4.0 %	4.0 %

The annual assumed rate of increase in the per capita cost of covered benefits (i.e. health care cost trend rate) for the medical plan is 9.0%, decreasing gradually to 6.5% over five years. Increasing the assumed health care cost trend rates by one percentage point in each year would increase the accumulated postretirement benefit obligation for the medical plan as of December 31, 2007 by \$0.5. Decreasing the assumed health care cost trend rates by one percentage point in each year would decrease the accumulated postretirement benefit obligation for the medical plan as of December 31, 2007 by \$0.4.

The Company expects to pay the following benefits:

<u>Year ending December 31,</u>	<u>Benefits</u>
	<i>(In Thousands)</i>
2008	\$ 5,221
2009	5,394
2010	5,598
2011	5,716
2012	5,618
Thereafter	25,158

The measurement date used for postretirement benefits is December 31, 2007.

On December 8, 2003, the Medicare Prescription Drug Impairment and Modernization Act of 2003 (the "Act") was signed into law. The Act introduced a prescription drug benefit under Medicare, as well as a federal subsidy to sponsors of retiree health care benefit plans that provide a benefit that is at least actuarially equivalent to Medicare. The 2008 expected benefit reduction in the net postretirement benefit cost for the subsidy related to benefits attributed to former employees is less than \$0.3. There is no effect of the subsidy on the measurement of net periodic postretirement benefit cost for the current period.

The Company does not expect to contribute to any plans during 2008.

8. Separate Accounts

Separate account assets and liabilities represent funds segregated by the Company for the benefit of certain policy and contract holders who bear the investment risk. Revenues

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

and expenses on the separate account assets and related liabilities equal the benefits paid to the separate account policy and contract holders.

The general nature and characteristics of the separate accounts business follows:

	Non-Indexed Guarantee Less than/ equal to 4%	Non- Guaranteed Separate Accounts	Total
		<i>(In Thousands)</i>	
December 31, 2007			
Premium, consideration or deposits for the year	-	328,909	328,909

Gross amount of reserve	5,111
Reinsurance reserve credit	-

9. Federal Income Taxes

The Company files a consolidated federal income tax return with its parent ING AIH, a Delaware corporation, and other U.S. affiliates. The Company has a written tax sharing agreement that provides that each member of the consolidated return shall reimburse ING AIH for its respective share of the consolidated federal income tax liability and shall receive a benefit for its losses at the statutory rate. A list of all affiliated companies that participate in the filing of this consolidated federal income tax return has been provided to the Department of Insurance.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

Current income taxes incurred consisted of the following major components:

	Year ended December 31		
	2007	2006	2005
		<i>(In Thousands)</i>	
Federal tax expense on operations	\$ 110,413	\$ 97,155	\$ 86,763
Federal tax expense (benefit) on capital gains (losses)	9,008	(14,367)	1,527
Total current tax expense incurred	<u>\$ 119,421</u>	<u>\$ 82,788</u>	<u>\$ 88,290</u>

The main components of deferred tax assets and deferred tax liabilities are as follows:

	December 31	
	2007	2006
	<i>(In Thousands)</i>	
Deferred tax assets resulting from book/tax differences in:		
Deferred acquisition costs	\$ 124,648	\$ 126,938
Insurance reserves	180,919	157,965
Investments	15,305	18,807
Compensation and benefits	40,150	39,122
Nonadmitted assets and other surplus items	28,863	17,937
Litigation accruals	15,262	20,470
Costs of collection and loading	10,490	7,601
Other	58,101	31,641
Total deferred tax assets	<u>473,738</u>	<u>420,481</u>
Deferred tax assets nonadmitted	<u>(259,262)</u>	<u>(206,439)</u>
Admitted deferred tax assets	<u>214,476</u>	<u>214,042</u>
Deferred tax liabilities resulting from book/tax differences in:		
Investments	9,260	8,501
Deferred and uncollected premium	61,127	56,290
Depreciable assets	18,145	18,099
Unrealized gain on common stocks	5,418	16,610
Insurance reserves	3,306	2,876
Total deferred tax liabilities	<u>97,256</u>	<u>102,376</u>
Net admitted deferred tax asset	<u>\$ 117,220</u>	<u>\$ 111,666</u>

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

The change in net deferred income taxes is comprised of the following:

	December 31		
	2007	2006	Change
		<i>(In Thousands)</i>	
Total deferred tax assets	\$ 473,738	\$ 420,481	53,257
Total deferred tax liabilities	97,256	102,376	(5,120)
Net deferred tax asset	<u>\$ 376,482</u>	<u>\$ 318,105</u>	<u>\$ 58,377</u>
Remove current year change in unrealized gains			(11,193)
Change in net deferred income tax			47,184
Remove other items in surplus:			
Additional minimum pension liability			626
Current year change in nonadmitted assets			(10,926)
Other			(403)
Change in deferred taxes			<u>\$ 36,481</u>

The provision for federal income tax expense and change in deferred taxes differs from the amount which would be obtained by applying the statutory federal income tax rate to income (including capital items) before income taxes for the following reasons:

	Year Ended December 31		
	2007	2006	2005
		<i>(In Thousands)</i>	
Ordinary income	\$ 260,307	\$ 230,315	\$ 277,470
Capital gains (losses) net of IMR, net of taxes	12,164	(18,027)	(6,666)
Total pretax book income	<u>\$ 272,471</u>	<u>\$ 212,288</u>	<u>\$ 270,804</u>
Provision computed at statutory rate	95,365	74,301	94,781
Dividends received deduction	(12,804)	(19,020)	(1,631)
Interest maintenance reserve	(5,253)	(12,928)	(6,395)
Reinsurance	(5,715)	38,419	894
Other	11,347	(873)	3,396
Total	<u>\$ 82,940</u>	<u>\$ 79,899</u>	<u>\$ 91,045</u>
Federal income taxes incurred	\$ 119,421	\$ 82,788	\$ 88,290
Change in net deferred income taxes	(36,481)	(2,889)	2,755
Total statutory income taxes	<u>\$ 82,940</u>	<u>\$ 79,899</u>	<u>\$ 91,045</u>

The amount of federal income taxes incurred that will be available for recoupment in the event of future net losses is \$0, \$0 and \$69.5 from 2007, 2006 and 2005, respectively.

Under the intercompany tax sharing agreement, the Company has a payable to ING AIH of \$89.9 and \$24.6 for federal income taxes as of December 31, 2007 and 2006, respectively.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

The Company's transferable state tax credit assets are as follows:

Method of estimating utilization of remaining transferrable state tax credit	State	Carrying value at December 31, 2007	Unused credit remaining at December 31, 2007
		<i>(in thousands)</i>	
Estimated credit based on investment in Low Income Housing investment	GA	\$ 1,336	\$ 2,657
Total State Tax Credits		<u>\$ 1,336</u>	<u>\$ 2,657</u>

A reconciliation of the change in the unrecognized income tax benefits for the years is as follows:

	Amount
Balance at January 1, 2007	\$ 42.3
Additions for tax positions related to current year	2.6
Additions for tax positions related to prior years	8.9
Balance at December 31, 2007	<u>\$ 53.8</u>

The Company had \$53.8 of unrecognized tax benefits as of December 31, 2007 that would affect the Company's effective tax rate if recognized.

The Company recognizes accrued interest and penalties related to unrecognized tax benefits in Current federal and foreign income taxes and Federal and foreign income tax incurred on the Balance Sheets and Statements of Operations, respectively. The Company had accrued interest of \$8.4 as of December 31, 2007.

The Company is under audit by the Internal Revenue Service ("IRS") for tax years 2002 through 2005. It is anticipated that the IRS audit of tax years 2002 and 2003 will be finalized within the next twelve months. Upon finalization of the IRS exam, it is reasonably possible that the unrecognized tax benefits will decrease by up to \$16.1. The timing of the payment of the remaining allowance of \$37.7 can not be reliably estimated.

Under prior law, the Company was allowed to defer from taxation a portion of income. Deferred income of \$32.6 was accumulated in the Policyholders' Surplus Account and would only become taxable under certain conditions, which management believed to be remote. In 2004, Congress passed the American Jobs Creation Act of 2004 allowing certain tax-free distributions from the Policyholders' Surplus Account during 2005 and 2006. During 2006, the Company made a dividend distribution of \$35.0 which eliminated the \$32.6 balance in the Policyholders Surplus Account and, therefore, eliminated any potential tax on the accumulated balance.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

10. Investment in and Advances to Subsidiaries

The Company has four wholly owned insurance subsidiaries at December 31, 2007, ReliaStar Life Insurance Company of New York (“RNY”), ING Re (UK) Limited, Whisperingwind I, LLC (“WWI”), and Whisperingwind II, LLC (“WWII”).

Amounts invested in and advanced to the Company’s subsidiaries are summarized as follows:

	December 31	
	2007	2006
	<i>(In Thousands)</i>	
Common stock (cost - \$362,112 in 2007 and \$208,413 in 2006)	\$ 331,847	\$ 330,204

Summarized financial information as of and for the year ended December 31 for these subsidiaries is as follows:

	2007	December 31	2005
		2006	
		<i>(In Thousands)</i>	
Revenues	\$ 1,268,542	\$ 590,335	\$ 524,362
Income before net realized gains on investments	(399,930)	18,991	38,186
Net (loss) income	(404,896)	18,180	37,755
Admitted assets	4,021,681	3,055,769	2,815,419
Liabilities	3,521,871	2,725,565	2,529,249

The Company received cash dividends from RNY of \$18.7, \$27.6 and \$20.8 during the years ended December 31, 2007, 2006 and 2005, respectively. The Company received cash dividends from NWNL Benefits Corporation of \$1.1, \$0 and \$0 during the years ended December 31, 2007, 2006 and 2005, respectively.

On October 27, 2006, the Company created a South Carolina domiciled, wholly owned subsidiary, WWI, as a limited liability company. WWI received its licensure as a special purpose financial captive insurance company (“SPFC”) from the Director of the South Carolina Department of Insurance on May 29, 2007. After receiving all required and customary regulatory approvals, WWI commenced doing business as an SPFC on May 29, 2007. The Company’s adjusted carrying value of WWI is \$0 as of December 31, 2007. The Company contributed capital to WWI of \$63.7, \$7.4 and \$0 during the years ended December 31, 2007, 2006 and 2005. During 2007, the Company ceded premium and ceded reserves to WWI of \$44.8 and \$155.3, respectively. The amount of insurance in force ceded to WWI was \$30.7 billion at December 31, 2007.

On October 27, 2006, the Company created a South Carolina domiciled, wholly owned subsidiary, WWII, as a limited liability company. WWII received its licensure as a SPFC from the Director of the South Carolina Department of Insurance on October 26, 2007. After receiving all required and customary regulatory approvals, WWII commenced

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

doing business as an SPFC on November 1, 2007. The Company's adjusted carrying value of WWII is \$0 as of December 31, 2007. The Company contributed capital to WWII of \$82.1, \$3.7 and \$0 during the years ended December 31, 2007, 2006 and 2005. During 2007, the Company ceded premium and ceded reserves to WWII of \$573.3 and \$611.5, respectively. The amount of insurance inforce ceded to WWII was \$475.9 at December 31, 2007.

Effective January 15, 2007, the Company entered into a Stock Purchase Agreement with Superior Vision Services, Inc. ("SVS"), a Delaware corporation, and Bolle, Inc., a Delaware corporation, pursuant to which SVS purchased all of the Company's rights, title and interest in all the shares of SVS owned by the Company for a cash purchase price of \$33.8. The transaction closed on January 26, 2007. The Company recognized a gain of \$30.7 from the transaction.

11. Reinsurance

The Company is involved in both ceded and assumed reinsurance with other companies for the purpose of diversifying risk and limiting exposure on larger risks. To the extent that the assuming companies become unable to meet their obligations under these treaties, the Company remains contingently liable to its policyholders for the portion reinsured. To minimize its exposure to significant losses from retrocessionaire insolvencies, the Company evaluates the financial condition of the retrocessionaire and monitors concentrations of credit risk.

Assumed premiums amounted to \$733.1, \$675.1 and \$566.5 for 2007, 2006 and 2005, respectively.

The Company's ceded reinsurance arrangements reduced certain items in the accompanying financial statements by the following amounts:

	2007	December 31 2006	2005
		<i>(In Thousands)</i>	
Premiums	\$ 1,132,722	\$ 398,621	\$ 393,117
Benefits paid or provided	910,420	379,191	395,382
Policy and contract liabilities at year end	2,867,408	2,404,221	2,131,021

The Company does not have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel the agreement.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

12. Capital and Surplus

Under Minnesota insurance regulations, the Company is required to maintain a minimum total capital and surplus of \$2.0. Additionally, the amount of dividends which can be paid by the Company to its shareholder without prior approval of the Minnesota Division of Insurance is limited to the greater of the net gain from operations excluding realized capital gains or 10% of surplus at December 31 of the preceding year.

Lion loaned \$100.0 to the Company under a surplus note dated December 1, 2001. The surplus note provides, subject to the regulatory constraints discussed below, that (1) it is a surplus note which will mature on September 15, 2021, with principal due at maturity, but payable without penalty, in whole or in part before maturity; (2) interest is payable at a variable rate based upon an annualized yield rate for U.S. Treasury Bonds payable semi annually; and (3) in the event that the Company is in default in the payment of any required interest or principal, the Company cannot pay cash dividends on its capital stock (all of which is owned directly by Lion). The surplus note further provides that there may be no payment of interest or principal without the express approval of the Minnesota Department of Commerce. For the year ended December 31, 2007, 2006 and 2005, interest paid totaled \$4.7, \$4.7 and \$4.6, respectively. There is no accrued interest for the years ended December 31, 2007 and 2006.

The Company received capital contributions from Lion of \$95.0 and \$200.0 during 2007 and 2006, respectively.

Life and health insurance companies are subject to certain Risk Based Capital ("RBC") requirements as specified by the NAIC. Under those requirements, the amount of capital and surplus maintained by a life and health insurance company is to be determined based on the various risk factors related to it. At December 31, 2007, the Company meets the RBC requirements.

13. Fair Values of Financial Instruments

In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases, could not be realized in immediate settlement of the financial instrument. Accordingly, the aggregate fair value amounts presented herein do not represent the underlying value of the Company.

Life insurance liabilities that contain mortality risk and all nonfinancial instruments have been excluded from the disclosure requirements. However, the fair values of liabilities under all insurance contracts are taken into consideration in the Company's overall management of interest rate risk, such that the Company's exposure to changing interest

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

rates is minimized through the matching of investment maturities with amounts due under insurance contracts.

The carrying amounts and fair values of the Company's financial instruments are summarized as follows:

	December 31			
	2007		2006	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
	<i>(In Thousands)</i>			
Assets:				
Bonds	\$ 13,636,553	\$ 13,554,631	\$ 13,365,486	\$ 13,298,650
Preferred stocks	122,290	116,393	129,773	129,710
Unaffiliated common stocks	23,653	23,653	3,045	3,045
Mortgage loans	2,411,673	2,449,158	2,134,551	2,135,988
Contract loans	683,218	683,218	674,130	674,130
Derivative securities	(84,655)	(154,619)	2,243	(2,286)
Cash, cash equivalents and short term investments	185,882	185,882	341,241	341,241
Separate account assets	3,432,705	3,432,705	3,688,327	3,688,327
Liabilities:				
Dividends payable	14,565	14,565	14,186	14,186
Separate account liabilities	3,432,705	3,432,705	3,686,705	3,686,705
Payable for securities	29,876	29,876	-	-

The following methods and assumptions were used by the Company in estimating the fair value disclosures for financial instruments in the accompanying financial statements and notes thereto:

Cash, cash equivalents and short term investments: The carrying amounts reported in the accompanying Balance Sheets for these financial instruments approximate their fair values.

Bonds and equity securities: The fair values for bonds, preferred stocks and common stocks reported herein are based on quoted market prices, where available. For securities not actively traded, fair values are estimated using values obtained from independent pricing services or, in the case of private placement investments, are estimated by discounting the expected future cash flows. The discount rates used vary as a function of factors such as yield, credit quality, and maturity, which fall within a range between 3.4% and 11.8% over the total portfolio. Fair values determined on this basis can differ from values published by the SVO. Fair value as determined by the SVO as of December 31, 2007 and 2006 is \$14.0 billion and \$13.9 billion, respectively.

Mortgage loans: Estimated fair values for commercial real estate loans were generated using a discounted cash flow approach. Loans in good standing are

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

discounted using interest rates determined by U.S. Treasury yields on December 31 and spreads applied on new loans with similar characteristics. The amortizing features of all loans are incorporated in the valuation. Where data on option features is available, option values are determined using a binomial valuation method, and are incorporated into the mortgage valuation. Restructured loans are valued in the same manner; however, these loans were discounted at a greater spread to reflect increased risk. All residential loans are valued at their outstanding principal balances, which approximate their fair values.

Derivative financial instruments: Fair values for derivative financial instruments are based on broker/dealer valuations or on internal discounted cash flow pricing models, taking into account current cash flow assumptions and the counterparties' credit standing.

The carrying value of all other financial instruments approximates their fair value.

14. Commitments and Contingencies

Guarantee Agreement: The Company, effective January 2002, entered into a Guarantee Agreement with two other ING affiliates whereby it is jointly and severally liable for a \$250 obligation of another ING affiliate, Security Life of Denver International Limited ("SLDI"). The Company's Board of Directors approved this transaction on April 25, 2002. The two other affiliated life insurers were Security Connecticut Life Insurance Company (subsequently merged into the Company on October 1, 2003), and Security Life of Denver Insurance Company. The joint and several guarantees of the two remaining insurers are capped at \$250. The States of Colorado and Minnesota did not disapprove the guarantee.

Investment Purchase Commitments: As part of its overall investment strategy, the Company has entered into agreements to purchase securities of \$161.7 and \$122.4 at December 31, 2007 and 2006, respectively. The Company is also committed to provide additional capital contributions of \$294.7 and \$166.4 at December 31, 2007 and 2006, respectively, in partnerships reported in other invested assets not on the balance sheets.

Operating Leases: The Company leases office space under various noncancelable operating lease agreements that expire through December 2022. During the years ended December 31, 2007, 2006 and 2005, rent expense totaled \$7.9, \$10.7 and \$10.0, respectively.

At December 31, 2007, the minimum aggregate rental commitments for the upcoming five years and thereafter (including the impact of the sale leaseback transaction on January 3, 2008 – see Subsequent Events) are as follows:

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

Year ending December 31	Commitments
	<i>(In Thousands)</i>
2008	\$ 10,485
2009	5,992
2010	4,047
2011	3,791
2012	3,405
Thereafter	23,897

At December 31, 2007, the future minimum lease payment receivables under noncancellable sublease arrangements (including the impact of the sale leaseback transaction on January 3, 2008 – see Subsequent Events) are as follows:

Year ending December 31	Future minimum Lease Payment Receivables
	<i>(In Thousands)</i>
2008	\$ 3,082
2009	763
2010	-
2011	-
2012	-
Thereafter	-

Certain rental commitments have renewal options extending through the year 2022 subject to adjustments in the future periods.

The Company is not involved in any material sale leaseback transactions at December 31, 2007.

Legal Proceedings: The Company is involved in threatened or pending lawsuits/arbitrations arising from the normal conduct of business. Due to the climate in insurance and business litigation/arbitration, suits against the Company sometimes include claims for substantial compensatory, consequential or punitive damages and other types of relief. Moreover, certain claims are asserted as class actions, purporting to represent a group of similarly situated individuals. While it is not possible to forecast the outcome of such lawsuits/arbitrations, in light of existing insurance, reinsurance and established reserves, it is the opinion of management that the disposition of such lawsuits/arbitrations will not have a materially adverse effect on the Company's operations or financial position.

Regulatory Matters: As with many financial services companies, the Company and its affiliates have received informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the financial services

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

industry. In each case, the Company and its affiliates have been and are providing full cooperation.

Insurance and Retirement Plan Products and Other Regulatory Matters: Federal and state regulators and self-regulatory agencies are conducting broad inquiries and investigations involving the insurance and retirement industries. These initiatives currently focus on, among other things, compensation, revenue sharing, and other sales incentives; potential conflicts of interest; potential anti-competitive activity; reinsurance; sales and marketing practices (including sales to seniors); specific product types (including group annuities and indexed annuities); and disclosure. It is likely that the scope of these industry investigations will further broaden before they conclude. The Company and certain of its U.S. affiliates have received formal and informal requests in connection with such investigations, and are cooperating fully with each request for information. Some of these matters could result in regulatory action involving the Company. These initiatives also may result in new legislation and regulation that could significantly affect the financial services industry, including businesses in which the Company is engaged. In light of these and other developments, U.S. affiliates of ING, including the Company, periodically review whether modifications to their business practices are appropriate.

Investment Product Regulatory Issues: Since 2002, there has been increased governmental and regulatory activity relating to mutual funds and variable insurance products. This activity has primarily focused on inappropriate trading of fund shares; directed brokerage; compensation; sales practices, suitability, and supervision; arrangements with service providers; pricing; compliance and controls; adequacy of disclosure; and document retention.

In addition to responding to governmental and regulatory requests on fund trading issues, ING management, on its own initiative, conducted, through special counsel and a national accounting firm, an extensive internal review of mutual fund trading in ING insurance, retirement, and mutual fund products. The goal of this review was to identify any instances of inappropriate trading in those products by third parties or by ING investment professionals and other ING personnel.

The internal review identified several isolated arrangements allowing third parties to engage in frequent trading of mutual funds within the variable insurance and mutual fund products of ING, and identified other circumstances where frequent trading occurred despite measures taken by ING intended to combat market timing. Each of the arrangements has been terminated and disclosed to regulators, to the independent trustees of ING Funds (U.S.) and in reports previously filed by affiliates of the Company with the Securities and Exchange Commission ("SEC") pursuant to the Securities Exchange Act of 1934, as amended.

Action may be taken by regulators with respect to the Company or certain ING affiliates before investigations relating to fund trading are completed. The potential outcome of

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

such action is difficult to predict but could subject the Company or certain affiliates to adverse consequences, including, but not limited to, settlement payments, penalties, and other financial liability. It is not currently anticipated, however, that the actual outcome of any such action will have a material adverse effect on ING or ING's U.S. based operations, including the Company.

ING has agreed to indemnify and hold harmless the ING Funds from all damages resulting from wrongful conduct by ING or its employees or from ING's internal investigation, any investigations conducted by any governmental or self-regulatory agencies, litigation or other formal proceedings, including any proceedings by the SEC. Management reported to the ING Funds Board that ING management believes that the total amount of any indemnification obligations will not be material to ING or ING's U.S. based operations, including the Company.

15. Financing Agreements

The Company maintains a revolving loan agreement with Bank of New York, ("BONY"). Under this agreement, the Company can borrow up to \$100 from BONY. Interest on any borrowing accrues at an annual rate equal to: (1) the cost of funds for BONY for the period applicable for the advance plus 0.4% or (2) a rate quoted by BONY to the Company for the borrowing. Under this agreement, the Company incurred minimal interest expense for the years ended December 31, 2007, 2006 and 2005, respectively. Additionally, there were no amounts payable to BONY at December 31, 2007 and 2006.

The Company maintains a line of credit agreement with Svenska Handelsbanken ("Svenska"). Under this agreement, the Company can borrow up to \$100 from Svenska. Borrowings are guaranteed by ING AIH, with maximum aggregate borrowings outstanding at any time to ING AIH and its affiliates of \$100. Under this agreement, the Company incurred minimal interest expense for the years ended December 31, 2007 or 2006. There were no amounts payable to Svenska at December 31, 2007 and 2006. The Company did not have this agreement in 2005.

The Company maintains a line of credit agreement with PNC Bank. Under this agreement, the Company can borrow up to \$100. Borrowings are guaranteed by ING AIH, with maximum aggregate borrowings outstanding at any time to ING AIH and its affiliates of \$100. Under this agreement, the Company incurred minimal interest expense for the years ended December 31, 2007, 2006 and 2005. There were no amounts payable to PNC Bank at December 31, 2007 and 2006.

The Company maintains a reciprocal loan agreement with ING America Insurance Holdings, Inc. ("ING AIH"), a Delaware corporation and affiliate, to facilitate the handling of unusual and/or unanticipated short term cash requirements. Under this agreement, which expires December 31, 2010, the Company and ING AIH can borrow up

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

to 2% of the general account admitted assets as of the last day of the most recently concluded annual statement year. Interest on any Company borrowing is charged at the rate of ING AIH's cost of funds for the interest period plus 0.15%. Interest on any ING AIH borrowings is charged at a rate based on the prevailing interest rate of U.S. commercial paper available for purchase with a similar duration. Under this agreement, the Company incurred interest expense of \$2.8 for the year ended December 31, 2007.

The Company borrowed \$4.4 billion and repaid \$4.4 billion in 2007, borrowed \$2.2 billion and repaid \$2.2 billion in 2006 and borrowed \$3.2 billion and repaid \$3.2 billion in 2005. These borrowings were on a short term basis, at an interest rate that approximated current money market rates and excludes borrowings from reverse dollar repurchase transactions. Interest paid on borrowed money was \$0.1, \$0.5 and \$0.8 during 2007, 2006 and 2005, respectively.

The Company is the beneficiary of letters of credit totaling \$130.8; terms of the letters of credit provide for automatic renewal for the following year at December 31, unless otherwise canceled or terminated by either party to the financing. The letters were unused during both 2007 and 2006.

16. Related Party Transactions

Cost Sharing Arrangements: Management and services contracts and all cost sharing arrangements with other affiliated ING United States companies are allocated among companies in accordance with systematic cost allocation methods.

Investment Management: The Company has entered into an investment advisory agreement with ING Investment Management, LLC ("IIM") under which IIM provides the Company with investment management services. The Company has entered into an administrative services agreement with IIM under which IIM provides the Company with asset liability management services. Total fees under the agreement were approximately \$51.4, \$50.4, and \$49.2 for the years ended December 31, 2007, 2006 and 2005, respectively.

Services Agreements: The Company has entered into an inter-insurer services agreement with certain of its affiliated insurance companies in the United States ("affiliated insurers") whereby the affiliated insurers provide certain administrative, management, professional, advisory, consulting, and other services to each other. The Company has entered into a services agreement with ING North America Insurance Corporation ("INAIC") whereby INAIC provides certain administrative, management, professional, advisory, consulting and other services to the Company. The Company has entered into a services agreement with RNY whereby the Company provides certain administrative, management, professional, advisory, consulting and other services to RNY. The Company has entered into a services agreement with ING Financial Advisers, LLC ("ING FA") to provide certain administrative, management, professional advisory,

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

consulting, and other services to the Company for the benefit of its customers. Charges for these services are determined in accordance with fair and reasonable standards with neither party realizing a profit nor incurring a loss as a result of the services provided to the Company. The Company will reimburse ING FA for direct and indirect costs incurred on behalf of the Company. The Company entered into a services agreement with WWI and INAIC whereby the Company and INAIC provide certain administrative, management, professional, advisory, consulting and other services to WWI. The Company entered into a services agreement with WWII and INAIC whereby the Company and INAIC provide certain administrative, management, professional, advisory, consulting and other services to WWII. The total expense incurred for all these services was \$216.4, \$219.5 and \$172.6 for the years ended December 31, 2007, 2006 and 2005, respectively.

Tax Sharing Agreements: The Company has entered into federal tax sharing agreement with members of an affiliated group as defined in Section 1504 of the Internal Revenue Code of 1986, as amended. The agreement provides for the manner of calculation and the amounts/timing of the payments between the parties as well as other related matters in connection with the filing of consolidated federal income tax returns. The Company has also entered into a state tax sharing agreement with ING AIH and each of the specific subsidiaries that are parties to the agreement. The state tax agreement applies to situations in which ING AIH and all or some of the subsidiaries join in the filing of a state or local franchise, income tax, or other tax return on a consolidated, combined or unitary basis.

Interest Rate Swap

Effective June 29, 2007 the Company entered into an interest rate swap agreement ("IRSA") with ING AIH. The IRSA is in conjunction with a combined coinsurance and modified coinsurance agreement effective June 30, 2007 with WWIII. The duration of the agreement is 30 years. The notional value of this interest rate swap is \$87.1 with this transaction having minimal impact to the income statement.

17. Guaranty Fund Assessments

Insurance companies are assessed the costs of funding the insolvencies of other insurance companies by the various state guaranty associations, generally based on the amount of premium companies collect in that state. The Company accrues the cost of future guaranty fund assessments based on estimates of insurance company insolvencies provided by the National Organization of Life and Health Insurance Guaranty Associations and the amount of premiums written in each state. The Company has estimated this liability to be \$4.8 and \$5.0 as of December 31, 2007 and 2006, respectively, and has recorded a liability in accounts payable and accrued expenses on the balance sheets. The Company has also recorded an asset in other assets on the balance sheets of \$3.9 and \$3.8 as of December 31, 2007 and 2006, respectively, for future credits to premium taxes for assessments already paid.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements - Statutory Basis
December 31, 2007

(Dollar amounts in millions, unless otherwise stated)

18. Unpaid Accident and Health Claims

The change in the liability for unpaid accident and health claims and claim adjustment expenses is summarized as follows:

	<u>2007</u>	<u>2006</u>
	<i>(In Thousands)</i>	
Balance at January 1	\$ 1,413,922	\$ 1,383,413
Less reinsurance recoverables	66,414	84,102
Net balance at January 1	<u>1,347,508</u>	<u>1,299,311</u>
Incurred related to:		
Current year	534,043	503,149
Prior years	<u>27,645</u>	<u>8,187</u>
Total incurred	<u>561,688</u>	<u>511,336</u>
Paid related to:		
Current year	185,112	188,754
Prior years	<u>372,488</u>	<u>274,385</u>
Total paid	<u>557,600</u>	<u>463,139</u>
Net balance at December 31	1,351,596	1,347,508
Plus reinsurance recoverables	78,061	66,414
Balance at December 31	<u><u>\$ 1,429,657</u></u>	<u><u>\$ 1,413,922</u></u>

The liability for unpaid accident and health claims and claim adjustment expenses is included in accident and health reserves and unpaid claims on the Balance Sheets

19. Retrospectively Rated Contracts

The Company estimates accrued retrospective premium adjustments for its group life and health insurance business through a mathematical approach using an algorithm of the Company's underwriting rules and experience rating practices. The amount of net group life premiums written by the Company at December 31, 2007, that are subject to retrospective rating features are \$107.8, that represented 15.8% of the total net group life premiums. The amount of net group health premiums written by the Company at December 31, 2007, that are subject to retrospective rating features are \$12.7, that represented 2.0% of the total net group health premiums written. The amount of net group life premiums written by the Company at December 31, 2006, that are subject to retrospective rating features are \$95.9, that represented 11.0% of the total net group life premiums. The amount of net group health premiums written by the Company at December 31, 2006, that are subject to retrospective rating features are \$15.8, that represented 1.0% of the total net group health premiums written. The amount of net group life premiums written by the Company at December 31, 2005, that are subject to retrospective rating features are \$99.0, that represented 12.0% of the total net group life premiums. The amount of net group health premiums written by the Company at

ING Mid Atlantic Service Center	Yes	Deferred Compensation	Payment	91,302

The aggregate amount of premiums written through managing general agents or third party administrators during 2007 is \$177.8.

21. Subsequent Events

On January 3, 2008, the Company closed on transactions to sell four home office properties in Minneapolis for \$117.0 in cash. The Company will recognize a gain in the statement of operations of \$44.7 associated with these sales in 2008. Three of the properties have sale leaseback components to the transaction; therefore the gain related to these properties (approximately \$41.7) will be segregated as special surplus funds and subsequently amortized to unassigned surplus over the lease term. In addition, we have recognized in footnote 14 the impact of the future leases, effective January 3, 2008, associated with the sale leaseback and the reduction of future minimum lease receivables that are no longer applicable due to the sale leaseback.

The Company has contributed capital of \$90 to WWI since December 31, 2007.
