

ReliaStar Life Insurance Company
Separate Account N
VOYA ADVANTAGE CENTURYSM
CONTRACT PROSPECTUS – May 1, 2016

The Contracts. The contracts described in this prospectus are flexible premium individual fixed and variable Advantage CenturySM deferred annuity contracts issued by ReliaStar Life Insurance Company (the “Company,” “we,” “us,” “our”). They are issued to you, the contract owner, on a nonqualified basis, or in connection with retirement plans qualifying for special treatment under the Internal Revenue Code of 1986, as amended (“Tax Code”). Prior to October 1, 2002, the contracts were issued by Northern Life Insurance Company.

Why Reading This Prospectus Is Important. This prospectus contains facts about the contracts and their investment options that you should know before purchasing. This information will help you decide if the contract is right for you. Please read this prospectus carefully and keep it for future reference.

Investment Options. The contracts offer variable investment options and three fixed interest options. When we establish your account you instruct us to direct account dollars to any of the available options. Some investment options may be unavailable through certain contracts or plans, or in some states.

Variable Investment Options. These options are called subaccounts. The subaccounts are within Separate Account N, a separate account of the Company. Each subaccount invests in one of the mutual funds listed on the next page. Earnings on amounts invested in a subaccount will vary depending upon the performance of its underlying fund. You do not invest directly in or hold shares of the funds.

Risks Associated with Investing in the Funds. The funds in which the subaccounts invest have various risks. Information about the risks of investing in the funds is located in “**INVESTMENT OPTIONS**” on page 11 and in each fund prospectus. Read this prospectus in conjunction with the fund prospectuses, and retain the prospectuses for future reference.

Fixed Interest Options: Fixed Account A; Fixed Account B; Fixed Account C.

Except as specifically mentioned, this prospectus describes only the variable investment options offered through Separate Account N. However, we describe the fixed interest options in **APPENDIX I** to this prospectus.

Compensation. We pay compensation to broker/dealers whose registered representatives sell the contracts. See “**CONTRACT DISTRIBUTION**” for further information about the amount of compensation we pay.

The contracts are not deposits with, obligations of or guaranteed or endorsed by any bank, nor are they insured by the Federal Deposit Insurance Corporation (“FDIC”). The contracts are subject to investment risk, including the possible loss of the principal amount of your investment.

Availability of Features. Not all features are available in all states. The contracts may not be available in all states, including New York. Some funds may be unavailable through certain contracts and plans or in some states.

Getting Additional Information. If you received a summary prospectus for any of the funds available through your contract, you may obtain a full prospectus and other fund information free of charge by either accessing the internet address, calling the telephone number or sending an email request to the email address shown on the front of the fund’s summary prospectus. You may obtain the May 1, 2016, Statement of Additional Information (“SAI”) without charge by calling us at 1-877-884-5050 or writing us at the address listed in “**CONTRACT OVERVIEW – Questions: Contacting the Company.**” You may also obtain a prospectus or an SAI for any of the funds by calling that number. This prospectus, the SAI and other information about the separate account may be obtained by accessing the Securities and Exchange Commission (“SEC”) website, www.sec.gov. Copies of this information may also be obtained, after paying a duplicating fee, by contacting the SEC Public Reference Branch. Information on the operations of the SEC Public Reference Branch may be obtained by calling 1-202-551-8090 or 1-800-SEC-0330, emailing publicinfo@sec.gov, or by writing to the SEC Public Reference Branch, 100 F Street, NE, Room 1580, Washington, D.C. 20549. When looking for information regarding the contracts offered through this prospectus, you may find it useful to use the number assigned to the registration statement under the Securities Act of 1933. This number is 333-100207. The SAI table of contents is listed on page 51 of this prospectus. The SAI is incorporated into this prospectus by reference.

Additional Disclosure Information. Neither the SEC nor any state securities commission has approved or disapproved the securities offered through this prospectus or passed on the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense. We do not intend for this prospectus to be an offer to sell or a solicitation of an offer to buy these securities in any state that does not permit their sale. We have not authorized anyone to provide you with information that is different from that contained in this prospectus.

CONTRACT OVERVIEW

The following is intended as a summary. Please read each section of this prospectus for additional information.

Contract Design

The contracts described in this prospectus are individual deferred fixed and variable annuity contracts. They are intended to be retirement savings vehicles that offer a variety of investment options to help meet long-term financial goals and provide for a death benefit and guaranteed income options. The term “contract” in this prospectus refers to individual fixed and variable annuity contracts.

Who’s Who

You*: The individual who purchases the contract.

Contract Holder*: The person (or non-natural owner) to whom we issue the contract. Generally, you. The contract holder generally has all rights under the contract. However, pursuant to Treasury Department regulations, the exercise of certain of these rights by participants in Tax Code Section 403(b) plans may require the consent and approval of your employer and/or plan sponsor or its delegate. See **“FEDERAL TAX CONSIDERATIONS – Taxation of Qualified Contracts–Distributions – Eligibility – 403(b) and Roth 403(b) Plans.”**

We may also refer to the contract holder as the contract owner.

We (the “Company”): ReliaStar Life Insurance Company. We issue the contract.

For greater detail, please review **“PURCHASE AND RIGHTS.”**

* Some contracts may be purchased by and issued directly to employers sponsoring certain plans, including 457 and 401 plans. The terms “you,” “contract holder,” and “contract owner” apply to these employers, who have all rights under the contracts.

The Contract and Your Retirement Plan

The contracts may be issued on a nonqualified basis (“nonqualified contracts”), or for use with retirement arrangements under Tax Code Sections 403(b), 408, 408A or 457 of the Tax Code (“qualified contracts”). We may also, at our discretion, issue nonqualified contracts for use with retirement arrangements under Tax Code Section 401.

Use of an Annuity Contract in a Retirement Plan. Under the federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of a qualified retirement account (such as a 401, 403(b), Roth 403(b), 408, 408A, or 457 retirement plan), an annuity contract is not necessary to obtain this favorable tax treatment and does not provide any tax benefits beyond the deferral already available to the tax qualified account itself. Annuities do provide other features and benefits (such as the guaranteed death benefit or the option of lifetime income phase options at established rates) that may be valuable to you. You should discuss your alternatives with your financial representative taking into account the additional fees and expenses you may incur in an annuity. See **“PURCHASE AND RIGHTS.”**

Questions: Contacting the Company

To answer your questions, contact your sales representative or write or call us at:

Customer Service
P.O. Box 5050
Minot, ND 58702-5050
1-877-884-5050

Sending Forms and Written Requests in Good Order

If you are writing to change your beneficiary, request a withdrawal or for any other purpose, contact us or your sales representative to learn what information is required for the request to be in “good order.” Generally, a request is considered to be in “good order” when it is signed, dated and made with such clarity and completeness that we are not required to exercise any discretion in carrying it out.

By contacting us, we can provide you with the appropriate administrative form for your requested transaction.

We can only act upon requests that are received in good order.

Contract Facts

Free Look/Right to Cancel. You may cancel your contract within ten days (some states require more than ten days) of receipt. See **“RIGHT TO CANCEL.”**

Death Benefit. Your beneficiary may receive a financial benefit in the event of your death prior to the income phase (described in **“Contract Phases,”** below). Any death benefit during the income phase will depend upon the income phase payment option selected. See **“DEATH BENEFIT”** and **“INCOME PHASE.”**

Withdrawals. During the accumulation phase, you may withdraw all or part of your account value. Certain fees and taxes may apply. In addition, the Tax Code restricts full and partial withdrawals in some circumstances. See **“WITHDRAWALS.”**

Systematic Withdrawals. These are made available for you to receive periodic withdrawals from your account, while retaining the account in the accumulation phase. See **“SYSTEMATIC WITHDRAWALS.”**

Loans. If allowed by the contract and the plan, loans may be available during the accumulation phase. These loans are subject to certain restrictions. See **“LOANS.”**

Fees and Expenses. Certain fees and expenses are deducted from the value of your contract. See **“FEE TABLE”** and **“FEES.”**

Taxation. Taxes will generally be due when you receive a distribution. Tax penalties may apply in some circumstances. See **“FEDERAL TAX CONSIDERATIONS.”**

Contract Phases

Accumulation Phase (accumulating dollars under your contract)

STEP 1: You provide us with your completed application and initial purchase payment. We establish an account for you and credit that account with your initial purchase payment.

STEP 2: You direct us to invest your purchase payment in one or more of the following investment options:

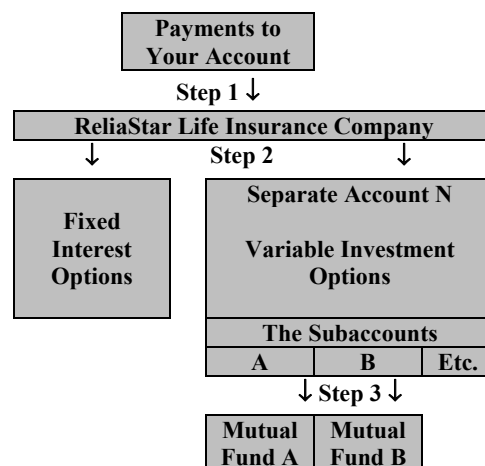

- Fixed Interest Options; or
- Variable Investment Options. (The variable investment options are the subaccounts of Separate Account N. Each one invests in a specific mutual fund.)

STEP 3: Each subaccount you select purchases shares of its assigned fund.

Income Phase (receiving income phase payments from your contract)

When you want to begin receiving payments from your contract you may select from the income phase payment options available. See **“INCOME PHASE.”** In general, you may:

- Receive monthly income phase payments for your life (assuming you are the annuitant);
- Receive monthly income phase payments for your life with a 10-year fixed period certain, where payments continue to your beneficiary for the remainder of the period if you die before the end of the period;
- Receive monthly income phase payments for your life and for the life of another person; or
- Select other income phase payments the Company may offer that are fixed or vary depending upon the performance of the variable investment options you select.

FEE TABLE

The following tables describe the fees and expenses that you will pay during the accumulation phase when buying, owning, and withdrawing account value from your contract. See “INCOME PHASE” for fees that may apply after you begin receiving payments under the contract.

Maximum Transaction Expenses

The first table describes the fees and expenses that you may pay at the time that you buy the contract, withdraw account value from the contract, take a loan from the contract or transfer cash value between investment options. State premium taxes currently ranging from 0% to 4% of purchase payments may also be deducted.*

Early Withdrawal Charge (as a percentage of amount withdrawn) ⁸	
Applicable to Texas K-12 TSA contracts	8%
Applicable to all other contracts	7%
Partial Withdrawal Processing Fee ⁹	\$25.00
Transfer Charge ¹⁰	\$25.00
Loan Processing Fee ¹¹	\$25.00
Loan Interest Rate Spread (per annum) ¹²	3%

Maximum Periodic Fees and Charges

The next table describes the fees and expenses that you will pay periodically during the time that you own the contract, not including fund fees and expenses.

Maximum Annual Maintenance Fee ¹³	\$30.00
--	---------

Separate Account Annual Expenses

(as a percentage of average account value)	
Maximum Mortality and Expense Risk Charge	1.25%
Maximum Administrative Expense Charge	0.15%
Optional One-Year Step Up (Reset) Death Benefit Endorsement Charge ¹⁴	0.15%
Maximum Total Separate Account Annual Expenses	<u>1.55%</u>

In this section:

- Maximum Transaction Expenses;
- Maximum Periodic Fees and Charges;
- Fund Fees and Expenses; and
- Examples.

See the “Fees” section for:

- How, When and Why Fees are Deducted;
- Redemption Fees;
- Reduction or Elimination of Certain Fees;
- Premium and Other Taxes; and
- Charge for the Optional One-Year Step Up (Reset) Death Benefit Endorsement.

We may have used the following terms in prior prospectuses:

- **Contingent Deferred Sales Charge** – Early Withdrawal Charge
- **Annual Contract Charge** – Annual Maintenance Fee
- **Contract Year** – Account Year
- **Administrative Charge** – Administrative Expense Charge
- **Reallocation Charge** – Transfer Charge

Texas K-12 TSA contracts are voluntary 403(b) annuity contracts for employees of K-12 public schools in Texas who purchased the contract on or after June 1, 2002. These contracts meet the requirements established by the Teachers Retirement System of Texas in support of Senate Bill 273.

* State premium taxes may apply, but are not reflected in the fee tables or examples. See “FEES – Premium and Other Taxes.”

⁸ The early withdrawal charge for contracts applies to each purchase payment and reduces over time. In certain cases this charge may not apply to a portion or all of your withdrawal. These fees may be waived, reduced or eliminated in certain circumstances.

⁹ The Company does not currently impose a partial withdrawal processing fee, but reserves the right to charge a fee not to exceed the lesser of 2.0% of the partial withdrawal amount or \$25, including partial withdrawals made as a part of a systematic withdrawal program. See “FEES – Early Withdrawal Charge.” See also “SYSTEMATIC WITHDRAWALS.”

¹⁰ The Company does not currently impose a charge for transfers between the subaccounts or to or from the fixed interest options. However, we reserve the right, to the extent permitted by state law, to assess a \$25 charge on any transfer or to limit the number of transfers, including transfers made under the dollar cost averaging program or the asset rebalancing program.

¹¹ This is the maximum fee we would charge. We are not currently charging this fee. See “LOANS.”

¹² This is the difference between the rate charged and the rate credited on loans under your contract. Currently the loan interest rate spread is 2.5% per annum; however, we reserve the right to apply a spread of up to 3% per annum. For example, if the current interest rate charged on a loan is 6.0%, the amount of interest applied to the contract would be 3.5%; the 2.5% loan interest rate spread is retained by the Company. See “LOANS.”

¹³ The Company currently deducts an annual maintenance fee of \$30 from the account value, but reserves the right to waive the charge when the account value exceeds \$25,000. We also reserve the right to waive this charge where the annual purchase payments, less any cumulative partial withdrawals, equal or exceed \$5,000.

¹⁴ The 0.15% fee is only charged to contract owners who choose the optional death benefit endorsement. This endorsement is not available for contracts issued in the States of Texas and Vermont.

Fund Fees and Expenses

The next item shows the minimum and maximum total operating expenses charged by the funds that you may pay periodically during the time that you own the contract. The minimum and maximum expenses listed below are based on expenses for the funds' most recent fiscal year ends without taking into account any fee waiver or expense reimbursement arrangements that may apply. Expenses of the funds may be higher or lower in the future. More detail concerning each fund's fees and expenses is contained in the prospectus for each fund.

Total Annual Fund Operating Expenses	Minimum	Maximum
(expenses that are deducted from fund assets, including management fees, distribution (12b-1) and/or service fees and other expenses)	0.10%	1.51%

See "FEES – Fund Fees and Expenses" for additional information about the fees and expenses of the funds, including information about the revenue we may receive from each of the funds or the funds' affiliates.

Examples

The following examples are intended to help you compare the cost of investing in the contract with the cost of investing in other variable annuity contracts. These costs include transaction expenses, contract fees, separate account annual expenses, the annual maintenance fee of \$30 (converted to a percentage of assets equal to 0.106%), and fund fees and expenses applicable to that type of contract.

Maximum Fund Fees and Expenses Examples. The following examples assume that you invest \$10,000 in the contract for the time periods indicated. The examples also assume that your investment has a 5% return each year and assume the maximum contract fees and expenses and the **maximum** fees and expenses of any of the funds. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

Example A: If you withdraw your entire account value at the end of the applicable time period:				Example B: If you do not withdraw your entire account value or if you select an income phase payment option at the end of the applicable time period:			
<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$962	\$1,454	\$1,856	\$3,472	\$319	\$976	\$1,657	\$3,472

Minimum Fund Fees and Expenses Examples. The following examples assume that you invest \$10,000 in the contract for the time periods indicated. The examples also assume that your investment has a 5% return each year and assume the maximum contract fees and expenses and the **minimum** fees and expenses of any of the funds. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

Example A: If you withdraw your entire account value at the end of the applicable time period:				Example B: If you do not withdraw your entire account value or if you select an income phase payment option at the end of the applicable time period:			
<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$831	\$1,053	\$1,152	\$2,068	\$178	\$553	\$952	\$2,068

CONDENSED FINANCIAL INFORMATION

Understanding Condensed Financial Information. In APPENDIX III of this prospectus, we provide condensed financial information about Separate Account N subaccounts you may invest in through the contract. The numbers show the year-end unit values of each subaccount over the past ten years. For subaccounts not available ten years ago, we give a history from the time purchase payments were first received in the subaccounts under the contracts.

Financial Statements. The statements of assets and liabilities, the statements of operations, the statements of changes in net assets and the related notes to financial statements for Separate Account N and the statutory basis financial statements and the related notes to financial statements for ReliaStar Life Insurance Company are located in the Statement of Additional Information.

THE COMPANY

ReliaStar Life Insurance Company (the “Company,” “we,” “us,” “our”) issues the contracts described in this prospectus and is responsible for providing each contract’s insurance and annuity benefits. All guarantees and benefits provided under the contracts that are not related to the separate account are subject to the claims paying ability of the Company and our general account. We are a stock life insurance company organized in 1885 and incorporated under the insurance laws of the State of Minnesota. Prior to October 1, 2002, the contracts were issued by Northern Life Insurance Company (“Northern”), a wholly owned subsidiary of the Company. On October 1, 2002, Northern merged into the Company, and the Company assumed responsibilities for Northern’s obligations under the contracts.

We are an indirect, wholly owned subsidiary of Voya Financial, Inc. (“Voya[®]”), which until April 7, 2014, was known as ING U.S., Inc. In May 2013, the common stock of Voya began trading on the New York Stock Exchange (“NYSE”) under the symbol “VOYA” and Voya completed its initial public offering of common stock.

We offer individual life insurance and annuities, employee benefits and retirement contracts. We are authorized to do business in the District of Columbia and in all states, except New York. Our principal executive offices are located at:

20 Washington Avenue, South
Minneapolis, MN 55401

Product Regulation. Our annuity, retirement and investment products are subject to a complex and extensive array of state and federal tax, securities, insurance and employee benefit plan laws and regulations, which are administered and enforced by a number of different governmental and self-regulatory authorities, including state insurance regulators, state securities administrators, state banking authorities, the SEC, the Financial Industry Regulatory Authority (“FINRA”), the Department of Labor (“DOL”), the IRS and the Office of the Comptroller of the Currency (“OCC”). For example, U.S. federal income tax law imposes requirements relating to insurance and annuity product design, administration and investments that are conditions for beneficial tax treatment of such products under the Tax Code. See **“FEDERAL TAX CONSIDERATIONS” for further discussion of some of these requirements.** Additionally, state and federal securities and insurance laws impose requirements relating to insurance and annuity product design, offering and distribution and administration. Failure to administer product features in accordance with contract provisions or applicable law, or to meet any of these complex tax, securities, or insurance requirements could subject us to administrative penalties imposed by a particular governmental or self-regulatory authority, unanticipated costs associated with remedying such failure or other claims, harm to our reputation, interruption of our operations or adversely impact profitability.

PURCHASE AND RIGHTS

Use of an Annuity Contract in Your Plan. Under the federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of a qualified retirement account (such as 401, 403(b), Roth 403(b), 408, 408A, or 457 retirement plan), an annuity contract is not necessary to obtain this favorable tax treatment and does not provide any tax benefits beyond the deferral already available to the tax qualified account itself. Annuities do provide other features and benefits (such as the guaranteed death benefit or the option of lifetime income phase options at established rates) that may be valuable to you. You should discuss your alternatives with your financial representative taking into account the additional fees and expenses you may incur in an annuity.

Valuation Date: Any day that the NYSE is open for trading.

When considering whether to purchase or participate in the contract, you should consult with your financial representative about your financial goals, investment time horizon and risk tolerance.

Contract Rights

Under 403(b) plans, you generally hold all rights under the contract and may make all elections under the contract. However, pursuant to Treasury Department regulations that were generally effective on January 1, 2009, the exercise of certain of these rights may require the consent and approval of your employer and/or plan sponsor or its delegate. See **“FEDERAL TAX CONSIDERATIONS – Taxation of Qualified Contracts – Distributions – Eligibility – 403(b) and Roth 403(b) Plans.”** For information regarding contracts issued to certain employers sponsoring 401 or 457 plans, see **“CONTRACT OVERVIEW – Who’s Who.”**

How to Purchase

The contract holder may purchase a contract from us by completing an application and making an initial purchase payment. Upon our approval, we will issue a contract and set up an account for the contract holder under the contract.

For nonqualified contracts, the following purchase payment methods are allowed:

- One lump sum;
- Periodic payments; or
- Transfer under Tax Code Section 1035.

For qualified contracts, the following purchase payment methods are allowed:

- One lump sum;
- Periodic payments; or
- Rollovers or exchanges, as permitted by the Tax Code. Currently the contracts do not allow rollovers from a 401(a), 401(k), 403(b), Roth 403(b) plan or from an IRA into contracts used with 457 plans.

Contributions to a Roth 403(b) contract must be made by salary reduction (to the extent allowed by the contract), paid to us on your behalf, as permitted by the Tax Code.

The minimum amount we will accept as a lump-sum purchase payment is \$5,000. Periodic purchase payments may not be less than \$200 annually for 403(b) and Roth 403(b) contracts and \$50 per payment for all other contracts. The minimum payment to Fixed Account C is \$5,000. We reserve the right to reject any purchase payment to an existing account if the purchase payment, together with the account value at the next valuation date, exceeds \$1,000,000. Any purchase payment not accepted by the Company will be refunded.

Any reduction of the minimum initial or subsequent purchase payment amount will not be unfairly discriminatory against any person. We will make any such reduction according to our own rules in effect at the time the purchase payment is received. We reserve the right to change these rules from time to time.

Acceptance or Rejection of Your Application. We must accept or reject your application within two business days of receipt. If the application is incomplete, we may hold any forms and accompanying purchase payment(s) for five business days. We may hold purchase payments for longer periods, pending acceptance of the application, only with your permission. If the application is rejected, we will notify you of the reasons and the application and any purchase payments will be returned to you.

Allocating Purchase Payments to the Investment Options. We will allocate your purchase payments among the investment options you select. However, for contracts issued in states that require a refund of all purchase payments made, we will credit the initial purchase payment to the Fidelity® VIP Government Money Market Portfolio subaccount during the right to cancel period, plus five calendar days. See “**RIGHT TO CANCEL.**” Allocations must be in whole percentages and there are limits on the number of investment options you may select. **When selecting investment options you may find it helpful to review “INVESTMENT OPTIONS.”**

Factors to Consider in the Purchase Decision. The decision to purchase or participate in a contract should be discussed with your financial representative. Make sure that you understand the investment options it provides, its other features, the risks and potential benefits you will face, and the fees and expenses you will incur when, together with your financial representative, you consider an investment in the contract. You should pay attention to the following issues, among others:

- **Long-Term Investment** – These contracts are long-term investments, and are typically most useful as part of a personal retirement plan. Early withdrawals may be restricted by the Tax Code or your plan, or may expose you to early withdrawal charges or tax penalties. The value of deferred taxation on earnings grows with the amount of time funds are left in a contract. You should not participate in a contract if you are looking for a short-term investment or expect to need to make withdrawals before you are 59½;
- **Investment Risk** – The value of investment options available under the contracts may fluctuate with the markets and interest rates. You should not participate in a contract in order to invest in these options if you cannot risk getting back less money than you put in;
- **Features and Fees** – The fees for these contracts reflect costs associated with the features and benefits they provide. As you consider a contract, you should determine the value that these various benefits and features have for you, given your particular circumstances, and consider the charges for those features; and
- **Exchanges** – Replacing an existing insurance contract with this contract may not be beneficial to you. If a contract will be a replacement for another annuity contract you should compare the two options carefully, compare the costs associated with each, and identify additional benefits available under the contract. You should consider whether these additional benefits justify incurring a new schedule or early withdrawal charges or any other increased charges that might apply under these contracts. Also, be sure to talk to a qualified financial professional or tax adviser to make sure that the exchange will be handled so that it is tax-free.

Other Products. We and our affiliates offer various other products with different features and terms than these contracts, which may offer some or all of the same funds. These products have different benefits, fees and charges, and may offer different share classes of the funds offered in this contract that are less expensive. These other products may or may not better match your needs. You should be aware that there are other options available, and, if you are interested in learning more about these other products, contact your registered representative. These other options may not be available under your plan.

RIGHT TO CANCEL

When and How to Cancel. You may cancel your contract within ten days of receipt (some states require more than ten days) by returning it to Customer Service or to your sales representative along with a written notice of cancellation.

Refunds. We will issue you a refund within seven calendar days of our receipt of your contract and written notice of cancellation.

For all contracts except IRA and Roth IRA contracts, unless your state requires otherwise, your refund will equal the purchase payments made plus any earnings or minus any losses attributable to those purchase payments allocated among the subaccounts. In other words, where a refund of purchase payments is not required, you will bear the entire investment risk for amounts allocated among the subaccounts during this period and the amount refunded could be less than the amount paid. For IRA and Roth IRA contracts, your refund will equal all purchase payments made or the contract value, whichever is greater.

If your state requires that we refund all purchase payments made, we will allocate the initial purchase payment to the Fidelity® VIP Government Money Market Portfolio subaccount during the right to cancel period, plus five calendar days. If you choose to keep the contract, after this period, the purchase payments will be allocated among the investment options you selected.

INVESTMENT OPTIONS

The contract offers variable investment options and fixed interest options. When we establish your account(s) (and your accounts may be established at different times), you instruct us to allocate account dollars to any of the available options. We may add, withdraw or substitute investment options subject to the conditions in the contract and in compliance with regulatory requirements.

Variable Investment Options

These options are subaccounts of Separate Account N. Each subaccount invests directly in shares of a corresponding mutual fund, and earnings on amounts invested in a subaccount will vary depending upon the performance and fees of its underlying fund. You do not invest directly in or hold shares of the funds.

Separate Account N

We established Separate Account N (the “separate account”) on October 1, 2002, under the insurance laws of the State of Minnesota. The separate account is registered as a unit investment trust under the Investment Company Act of 1940, as amended (the “1940 Act”). It also meets the definition of “separate account” under the federal securities laws. Prior to October 1, 2002, the separate account was known as Separate Account One of Northern Life Insurance Company, which was created in 1994 under Washington law. In connection with the merger of Northern and the Company, the separate account was transferred to the Company.

Although we hold title to the assets of the separate account, such assets are not chargeable with the liabilities of any other business that we conduct. Income, gains or losses, whether or not realized, of the separate account are credited to or charged against the assets of the separate account without regard to other income, gains or losses of the Company. All obligations arising under the contract are obligations of the Company. All guarantees and benefits provided under the contract that are not related to the separate account are subject to the claims paying ability of the Company and our general account.

Funds Available Through the Separate Account

The separate account is divided into “subaccounts.” Each subaccount invests directly in shares of a corresponding fund. The funds available through the subaccounts of the separate account are listed in the front of this prospectus. We provide a brief description of each fund in **APPENDIX II**. Please refer to the fund prospectuses for additional information and read them carefully. Fund prospectuses may be obtained, free of charge, from Customer Service at the address and phone number listed in **“CONTRACT OVERVIEW – Questions: Contacting the Company,”** by accessing the SEC’s website or by contacting the SEC Public Reference Branch.

Insurance-Dedicated Funds (*Mixed and Shared Funding*). The funds described in this prospectus are available only to insurance companies for their variable contracts (or directly to certain retirement plans, as allowed by the Tax Code). Such funds are often referred to as “insurance-dedicated funds,” and are used for “mixed” and “shared” funding.

“Mixed funding” occurs when shares of a fund, which the subaccount buys for variable annuity contracts, are bought for variable life insurance contracts issued by us or other insurance companies.

“Shared funding” occurs when shares of a fund, which the subaccount buys for variable annuity contracts, are also bought by other insurance companies for their variable annuity contracts. In other words:

- Mixed funding – bought for annuities and life insurance; and
- Shared funding – bought by more than one company.

Possible Conflicts of Interest. With respect to insurance-dedicated funds, it is possible that a conflict of interest may arise due to mixed and shared funding, a change in law affecting the operations of variable annuity separate accounts, differences in the voting instructions of the contract holder and others maintaining a voting interest in the funds, or some other reason. Such a conflict could adversely impact the value of a fund. For example, if a conflict of interest occurred and one of the subaccounts withdrew its investment in a fund, the fund may be forced to sell its securities at disadvantageous prices, causing its share value to decrease. Each insurance-dedicated fund’s board of directors or trustees will monitor events in order to identify any material irreconcilable conflicts that may arise and to determine what action, if any, should be taken to address such conflicts. In the event of a conflict, the Company will take any steps necessary to protect contract holders and annuitants maintaining a voting interest in the funds, including the withdrawal of the separate account from participation in the funds which are involved in the conflict.

For additional risks associated with each fund, please see the fund’s prospectus.

Selection of Underlying Funds. The underlying funds available through the contract described in this prospectus are determined by the Company but ultimately selected by the Plan Sponsor. When determining which underlying funds to make available, we may consider various factors, including, but not limited to, asset class coverage, the alignment of the investment objectives of an underlying fund with our hedging strategy, the strength of the adviser’s or subadviser’s reputation and tenure, brand recognition, performance and the capability and qualification of each investment firm. Another factor that we may consider is whether the underlying fund or its service providers (e.g., the investment adviser or subadvisers) or its affiliates will make payments to us or our affiliates in connection with certain administrative, marketing and support services, or whether affiliates of the fund can provide marketing and distribution support for sales of the contracts. **(For additional information on these arrangements, see “Revenue from the Funds.”)** We review the funds periodically and may, subject to certain limits or restrictions, remove a fund or limit its availability to new contributions and/or transfers of account value if we determine that a fund no longer satisfies one or more of the selection criteria and/or if the fund has not attracted significant allocations under the contract. We have included certain of the funds at least in part because they are managed or subadvised by our affiliates.

We do not recommend or endorse any particular fund, and we do not provide investment advice.

Voting Rights

Each of the subaccounts holds shares in a fund and each is entitled to vote at regular and special meetings of that fund. Under our current view of applicable law, we will vote the shares for each subaccount as instructed by persons having a voting interest in the subaccount. If, however, we determine that we are permitted to vote the shares in our own right, we may do so.

If you are a contract holder under the contract, you have a fully vested interest in the contract and may instruct the Company how to cast a certain number of votes. We will vote shares for which instructions have not been received in the same proportion as those for which we received instructions. Accordingly, it is possible for a small number of persons (assuming there is a quorum) to determine the outcome of a vote.

Each person who has a voting interest in the separate account will receive periodic reports relating to the funds in which he or she has an interest, as well as any proxy materials and a form on which to give voting instructions. Voting instructions will be solicited by written communication before the meeting.

The number of votes, whole and fractional, any person is entitled to direct will be determined as of the record date set by any fund you invest in through the subaccounts. Additionally:

- During the accumulation phase, the number of votes is equal to the portion of your account value invested in the fund, divided by the net asset value of one share of that fund; and
- During the income phase, the number of votes is equal to the portion of reserves set aside for the contract's share of the fund, divided by the net asset value of one share of that fund.

We may restrict or eliminate any voting rights of persons who have voting rights as to the separate account.

Right to Change the Separate Account

We do not guarantee that each fund will always be available for investment through the contract. Subject to certain conditions and restrictions applicable to certain types of retirement plans and state and federal law and the rules and regulations thereunder, we may, from time to time, make any of the following changes to the separate account with respect to some or all classes of contracts:

- Offer additional subaccounts that will invest in new funds or fund classes we find appropriate for contracts we issue;
- Combine two or more subaccounts;
- Close subaccounts. We will provide advance notice by a supplement to this prospectus if we close a subaccount. If a subaccount is closed or otherwise is unavailable for new investment, unless we receive alternative allocation instructions, all future amounts directed to the subaccount that was closed or is unavailable may be automatically allocated among the other available subaccounts according to the most recent allocation instructions we have on file. If the most recent allocation instructions we have on file do not include any available subaccounts, the amount to be allocated will be returned unless we are provided with alternative allocation instructions. Alternative allocation instructions can be given by contacting us at the address and telephone number listed in **“CONTRACT OVERVIEW – Questions: Contacting the Company.”** See also **“TRANSFERS”** for information about making subaccount allocation changes;
- Substitute a new fund for a fund in which a subaccount currently invests. In the case of a substitution, the new fund may have different fees and charges than the fund it replaced. A substitution may become necessary if, in our judgment:
 - ▷ A fund no longer suits the purposes of your contract;
 - ▷ There is a change in laws or regulations;
 - ▷ There is a change in the fund's investment objectives or restrictions;
 - ▷ The fund is no longer available for investment; or
 - ▷ Another reason we deem a substitution is appropriate;
- Stop selling the contract;
- Limit or eliminate any voting rights for the separate account; or
- Make any changes required by the 1940 Act or its rules or regulations.

We will not make a change until the change is disclosed in an effective prospectus or prospectus supplement, authorized, if necessary, by an order from the SEC and approved, if necessary, by the appropriate state insurance department(s).

The changes described above do not include those changes that may, if allowed under your plan, be initiated by your plan sponsor.

We reserve the right to transfer separate account assets to another separate account that we determine to be associated with the class of contracts to which the contract belongs.

Fixed Interest Options

For a description of the fixed interest options, see **APPENDIX I**.

Selecting Investment Options

When selecting investment options:

- **Choose options appropriate for you.** Your sales representative can help you evaluate which investment options may be appropriate for your individual circumstances and your financial goals;
- **Understand the risks associated with the options you choose.** Some subaccounts invest in funds that are considered riskier than others. Funds with additional risks are expected to have values that rise and fall more rapidly and to a greater degree than other funds. For example, funds investing in foreign or international securities are subject to risks not associated with domestic investments, and their investment performance may vary accordingly. Also, funds using derivatives in their investment strategy may be subject to additional risks. Because investment risk is borne by you, you should carefully consider any decisions that you make regarding investment allocations. You bear the risk of any decline in your account value resulting from the performance of the funds you have chosen; and
- **Be informed.** Read this prospectus, all of the information that is available to you regarding the funds – including each fund’s prospectus, statement of information and annual and semi-annual reports and **APPENDIX I**. After you select the options for your account dollars, you should monitor and periodically re-value your allocations to determine if they are still appropriate.

Furthermore, be aware that there may be:

- **Limits on Availability of Options.** We may add, withdraw or substitute funds, subject to the conditions in your contract and compliance with regulatory requirements. See **“INVESTMENT OPTIONS – Right to Change the Separate Account.”** Some subaccounts or fixed interest options may not be available in all contracts or in some states. In the case of a substitution, the new fund may have different fees and charges, investment objectives or policies than the fund it replaced;
- **Limits on How Many Investment Options You May Select.** Generally, you may select no more than 18 investment options at any one time during the accumulation phase of your account. Each subaccount and each fixed account selected counts towards this 18 investment option limit; and
- **Reinvestment.** The funds described in this prospectus have, as a policy, the distribution of income, dividends and capital gains. There is, however, an automatic reinvestment of such distributions under the contracts described in this prospectus.

FEES

The charges we assess and the deductions we make under the contract are in consideration for: (1) the services and benefits we provide; (2) the costs and expenses we incur; and (3) the risks we assume. The fees and charges deducted under the contract may result in a profit to us.

The following repeats and adds to information provided in “**FEE TABLE.**” Please review both sections for information on fees.

Transaction Fees

Early Withdrawal Charge

Withdrawals of all or a portion of your account value may be subject to a charge.

Amount. A percentage of the purchase payments that you withdraw. The percentage will be determined by the early withdrawal charge schedule that applies to your account.

Account Year of Withdrawal Minus Account Year of Purchase Payment	Early Withdrawal Charge (as Percentage of Purchase Payments) ¹⁵
Less than 2	7.0%
2 or more but less than 3	6.0%
3 or more but less than 4	5.0%
4 or more but less than 5	4.0%
5 or more but less than 6	2.0%
6 or more	0.0%

Early Withdrawal Charge Applicable to Texas K-12 TSA Contract	
Account Year of Withdrawal Minus Account Year of Purchase Payment	Early Withdrawal Charge (as Percentage of Purchase Payments) ¹⁶
Less than 1	8.0%
1 or more but less than 2	7.0%
2 or more but less than 3	6.0%
3 or more but less than 4	5.0%
4 or more but less than 5	4.0%
5 or more but less than 6	2.0%
6 or more	0.0%

Types of Fees

The following types of fees or deductions may affect your account:

- **Transaction Fees:**
 - ▷ Early Withdrawal Charge;
 - ▷ Partial Withdrawal Processing Fee;
 - ▷ Transfer Charge;
 - ▷ Loan Processing Fee and Loan Interest Rate Spread; and
 - ▷ Redemption Fees.
- **Periodic Fees and Charges:**
 - ▷ Annual Maintenance Fee;
 - ▷ Mortality and Expense Risk Charges;
 - ▷ Administrative Expense Charge; and
 - ▷ Optional One-Year Step Up (Reset) Death Benefit Endorsement Charge.
- **Reduction or Elimination of Certain Fees**
- **Fund Fees And Expenses**
- **Premium and Other Taxes**

Account Year/Account Anniversary: A period of 12 months measured from the date we established your account and each anniversary of this date. Account anniversaries are measured from this date.

¹⁵ For qualified contracts, the early withdrawal charge will be 0.0% after the twelfth account year regardless of the table above. For all contracts issued in Utah after May 6, 2003, and New Jersey after May 1, 2016, the withdrawal charge will be 0.0% after the tenth account year.

¹⁶ Ten years from the original issue date the withdrawal charge will be 0.0% regardless of the table above.

Purpose. This is a deferred sales charge. It reimburses us for some of the sales and administrative expenses associated with the contract. If our expenses are greater than the amount we collect for the early withdrawal charge, we may use any of our corporate assets, including potential profit that may arise from the mortality and expense risk charges, and the administrative charge, to make up the difference.

First In, First Out. The early withdrawal charge is calculated separately for each purchase payment withdrawn. For purposes of calculating your early withdrawal charge, we consider that your first purchase payment to the account (first in) is the first you withdraw (first out).

For example, if your initial purchase payment was made three years ago, we will deduct an early withdrawal charge equal to 5.0% of the portion of that purchase payment withdrawn. The next time you make a withdrawal we will assess the charge against the portion of the first purchase payment that you did not withdraw and/or your subsequent purchase payments to your account in the order they were received.

Earnings may be withdrawn after all purchase payments have been withdrawn. There is no early withdrawal charge for withdrawal of earnings.

Free Withdrawals. There is no early withdrawal charge if, during each account year, the amount withdrawn is the greater of:

- Earnings; or
- 10% of purchase payments subject to the early withdrawal charge, as of the last account anniversary.

You may take four free withdrawals each account year. If the first withdrawal in an account year exceeds the free withdrawal amount, the excess is subject to an early withdrawal charge. If the first withdrawal in an account year equals the free withdrawal amount, any other withdrawals made during that account year may be subject to an early withdrawal charge.

If the first withdrawal in an account year is less than the free withdrawal amount, any unused percentage of the free withdrawal amount may be applied against three additional withdrawals during the account year.

The unused percentage of the free withdrawal amount is computed by us on the date of any withdrawal request made during an account year based on:

$$[\text{Greater of A or B}] - C$$

Where:

A = Earnings;

B = 10% of purchase payments subject to early withdrawal charges as of the beginning of the account year; and

C = Any prior withdrawals made during the same account year period.

Early Withdrawal Charge Waivers Under All Contracts. These waivers apply to all contracts, unless otherwise specified. Please also read the following subsection regarding additional waivers available under certain contracts.

This charge is waived for portions of a withdrawal that are:

- Used to provide income phase payments to you;
- Paid due to the owner or annuitant's death during the accumulation phase or, in the case of a nonqualified contract, the annuitant's death during the accumulation phase;
- For qualified contracts issued in connection with 403(b) plans only, withdrawn after the fifth account year, where the annuitant has separated from service after attaining age 55 (may not be available in all states); or
- Paid upon termination of your account by us. See **"OTHER TOPICS – Involuntary Terminations."**

Early Withdrawal Charge Waivers Under Certain Contracts. These waivers only apply to certain contracts. You should refer to your contract to determine which waivers apply to you.

The charge is waived for portions of a withdrawal from a 403(b) contract that are:

- Applied to a contract offered by another approved provider under your plan;
- Withdrawn due to separation from service from your employer; or
- Withdrawn due to a hardship as defined by the Tax Code.

Partial Withdrawal Processing Fee

Amount. We do not currently charge a partial withdrawal processing fee, but we reserve the right to charge a fee not to exceed the lesser of 2% of the amount withdrawn or \$25.

Purpose. This fee reimburses us for administrative expenses associated with processing partial withdrawals.

Transfer Charge

Amount. We do not currently charge a transfer fee. However, we reserve the right, to the extent permitted by state laws and regulations, to charge a fee of \$25 per transfer for any transfer and to limit the number of transfers, including transfers made under the dollar cost averaging program and the asset rebalancing program.

Purpose. This charge reimburses us for administrative expenses associated with transferring your dollars among investment options.

Loan Processing Fee and Loan Interest Rate Spread

For a discussion of the loan processing fee and loan interest rate spread, the fees and costs that may be associated with loans, please see “LOANS – Charges.”

Redemption Fees

Certain funds may impose redemption fees as a result of withdrawals, transfers, or other fund transactions you initiate. If applicable, we may deduct the amount of any redemption fees imposed by the underlying mutual funds as a result of withdrawals, transfers or other fund transactions you initiate and remit such fees back to that fund. Redemption fees, if any, are separate and distinct from any transaction charges or other charges deducted from your contract value. For a more complete description of the funds’ fees and expenses, review each fund’s prospectus.

Periodic Fees and Charges

Annual Maintenance Fee

Maximum Amount. \$30.

When/How. Each year during the accumulation phase, we deduct this fee from your account value. We deduct it on your account anniversary and at the time of full withdrawal.

Purpose. This fee reimburses us for our administrative expenses related to the contracts, the separate account and the subaccounts.

Waiver. We reserve the right to waive the annual maintenance fee under certain circumstances. For example, we may waive the charge if the account value exceeds \$25,000 on the date this fee is to be deducted. We may also waive this charge where the annual purchase payments, less any withdrawals, equal or exceed \$5,000. However, we reserve the right to reinstate the fee on contracts qualifying for the waiver.

Mortality and Expense Risk Charges

Maximum Amount. The amount of these charges, on an annual basis, is equal to 1.25% of the daily value of amounts invested in the subaccounts. We may charge a different fee for different funds (but not beyond the maximum amount).

When/How. We deduct these charges daily from the subaccounts corresponding to the funds you select. We do not deduct these charges from the fixed interest options.

Purpose. These charges compensate us for the mortality and expense risks we assume under the contract. Namely:

- Mortality risks are those risks associated with our promise to make lifetime income phase payments based on annuity rates specified in the contract and the funding of the guaranteed death benefit and other payments we make to owners or beneficiaries of the accounts; and
- Expense risk is the risk that the actual expenses we incur under the contract will exceed the maximum costs that we can charge.

If the amount we deduct for these charges is not enough to cover our mortality costs and expenses under the contract, we will bear the loss. We may use any excess to recover distribution costs relating to the contract and as a source of profit. We expect to earn a profit from these charges.

Administrative Expense Charge

Maximum Amount. The amount of this charge, on an annual basis, is equal to 0.15% of the daily value of amounts invested in the subaccounts.

When/How. We deduct this charge daily from the subaccounts corresponding to the funds you select. We do not deduct this charge from the fixed interest options.

Purpose. This charge helps defray our cost of providing administrative services under the contracts and in relation to the separate account and subaccounts.

Optional One-Year Step Up (Reset) Death Benefit Endorsement Charge

If you have purchased the optional one-year step up (reset) death benefit endorsement, we will charge a fee equal to an annual rate of 0.15% of the average daily value of amounts invested in the subaccounts. This fee will be charged monthly. See “**DEATH BENEFIT – Optional One-Year Step Up (Reset) Death Benefit Endorsement.**” This endorsement is not available for contracts issued in the States of Texas and Vermont.

Reduction or Elimination of Certain Fees

When sales of the contract are made to individuals or a group of individuals in a manner that results in savings of sales or administrative expenses, we may reduce or eliminate the early withdrawal charge, the annual maintenance fee, the mortality and expense risk charge or the administrative expense charge. Our decision to reduce or eliminate any of these fees will be based on one or more of the following:

- The size and type of group to whom the contract is offered;
- The type and frequency of administrative and sales services provided;
- The use by an employer of automated techniques in submitting purchase payments or information related to purchase payments on behalf of its employees; or
- Any other circumstances which reduce distribution or administrative expenses.

The exact amount of contract charges applicable to a particular contract will be stated in that contract. For contracts issued as funding vehicles for Tax Code Section 403(b) plans, early withdrawal charges may be waived under certain circumstances. We currently provide a reduced early withdrawal charge for purchasers of contracts issued as tax deferred annuities for Tax Code Section 403(b) plans to employees of certain school districts which, in our judgment, have provided cost reduction benefits to us in the distribution of its contracts.

The reduction or elimination of any of these fees will not be unfairly discriminatory against any person and will be done according to our rules in effect at the time the contract is issued. We reserve the right to change these rules from time to time. The right to reduce or eliminate any of these fees may be subject to state approval.

Fund Fees and Expenses

As shown in the fund prospectuses and described in “**FEE TABLE – Fund Fees and Expenses**,” each fund deducts management/investment advisory fees from the amounts allocated to the fund. In addition, each fund deducts other expenses, which may include service fees that may be used to compensate service providers, including the Company and its affiliates, for administrative and contract owner services provided on behalf of the fund. Furthermore, certain funds deduct a distribution or 12b-1 fee, which is used to finance any activity that is primarily intended to result in the sale of fund shares. Fund fees and expenses are deducted from the value of the fund shares on a daily basis, which in turn affects the value of each subaccount that purchases fund shares. Fund fees and expenses are one factor that impacts the value of a fund’s shares. **To learn more about fund fees and expenses, the additional factors that can affect the value of a fund’s shares and other important information about the funds, refer to the fund prospectuses.**

Less expensive share classes of the funds offered through this contract may be available for investment outside of this contract. You should evaluate the expenses associated with the funds available through this contract before making a decision to invest.

Revenue from the Funds

The Company or its affiliates may receive compensation from each of the funds or the funds’ affiliates. This revenue may include:

- A share of the management fee;
- Service fees;
- For certain share classes, 12b-1 fees; and
- Additional payments (sometimes referred to as revenue sharing).

12b-1 fees are used to compensate the Company and its affiliates for distribution related activity. Service fees and additional payments (sometimes collectively referred to as sub-accounting fees) help compensate the Company and its affiliates for administrative, recordkeeping or other services that we provide to the funds or the funds’ affiliates, such as:

- Communicating with customers about their fund holdings;
- Maintaining customer financial records;
- Processing changes in customer accounts and trade orders (e.g., purchase and redemption requests);
- Recordkeeping for customers, including subaccounting services;
- Answering customer inquiries about account status and purchase and redemption procedures;
- Providing account balances, account statements, tax documents and confirmations of transactions in a customer’s account;
- Transmitting proxy statements, annual and semi-annual reports, fund prospectuses and other fund communications to customers; and
- Receiving, tabulating and transmitting proxies executed by customers.

The management fee, service fees and 12b-1 fees are deducted from fund assets. Any such fees deducted from fund assets are disclosed in the fund prospectuses. Additional payments, which are not deducted from fund assets and may be paid out of the legitimate profits of fund advisers and/or other fund affiliates, do not increase, directly or indirectly, fund fees and expenses, and we may use these additional payments to finance distribution.

The amount of revenue the Company may receive from each of the funds or from the funds’ affiliates may be substantial, although the amount and types of revenue vary with respect to each of the funds offered through the Contract. This revenue is one of several factors we consider when determining contract fees and expenses and whether to offer a fund through our contracts. **Fund revenue is important to the Company’s profitability and it is generally more profitable for us to offer affiliated funds than to offer unaffiliated funds.**

Assets allocated to affiliated funds, meaning funds managed by Directed Services LLC, Voya Investments, LLC or another Company affiliate, generate the largest dollar amount of revenue for the Company. Affiliated funds may also be subadvised by a Company affiliate or by an unaffiliated third party. Assets allocated to unaffiliated funds, meaning funds managed by an unaffiliated third party, generate lesser, but still substantial dollar amounts of revenue for the Company. The Company expects to earn profit from this revenue to the extent it exceeds the Company's expenses, including the payment of sales compensation to our distributors.

Revenue Received from Affiliated Funds. The revenue received by the Company from affiliated funds may be based either on an annual percentage of average net assets held in the fund by the Company or a share of the fund's management fee.

In the case of affiliated funds subadvised by unaffiliated third parties, any sharing of the management fee between the Company and the affiliated investment adviser is based on the amount of such fee remaining after the subadvisory fee has been paid to the unaffiliated subadviser. Because subadvisory fees vary by subadviser, varying amounts of revenue are retained by the affiliated investment adviser and ultimately shared with the Company. The sharing of the management fee between the Company and the affiliated investment adviser does not increase, directly or indirectly, fund fees and expenses. The Company may also receive additional compensation in the form of intercompany payments from an affiliated fund's investment adviser or the investment adviser's parent in order to allocate revenue and profits across the organization. The intercompany payments and other revenue received from affiliated funds provide the Company with a financial incentive to offer affiliated funds through the Contract rather than unaffiliated funds.

Additionally, in the case of affiliated funds subadvised by third parties, no direct payments are made to the Company or the affiliated investment adviser by the subadvisers. However, subadvisers may provide reimbursement for employees of the Company or its affiliates to attend business meetings or training conferences.

Revenue Received from Unaffiliated Funds. Revenue received from each of the unaffiliated funds or their affiliates is based on an annual percentage of the average net assets held in that fund by the Company. Some unaffiliated funds or their affiliates pay us more than others and some of the amounts we receive may be significant.

If the unaffiliated fund families currently offered through the Contract that made payments to us were individually ranked according to the total amount they paid to the Company or its affiliates in 2015 in connection with the registered variable annuity insurance contracts issued by the Company, that ranking would be as follows:

- Fidelity® Variable Insurance Product Portfolios;
- American Funds Insurance Series®;
- PIMCO Variable Insurance Trust;
- Wanger Advisors Trust;
- Franklin Templeton Variable Insurance Products Trust;
- Pioneer Variable Contracts Trust;
- Neuberger Berman Advisers Management Trust; and
- Lord Abbett Series Fund, Inc.

If the revenues received from the affiliated funds were taken into account when ranking the funds according to the total dollar amount they paid to the Company or its affiliates in 2015, the affiliated funds would be at the top of the list.

In addition to the types of revenue received from affiliated and unaffiliated funds described above, affiliated and unaffiliated funds and their investment advisers, subadvisers or affiliates may participate at their own expense in Company sales conferences or educational and training meetings. In relation to such participation, a fund's investment adviser, subadviser or affiliate may help offset the cost of the meetings or sponsor events associated with the meetings. In exchange for these expense offset or sponsorship arrangements, the investment adviser, subadviser or affiliate may receive certain benefits and access opportunities to Company representatives and wholesalers rather than monetary benefits. These benefits and opportunities include, but are not limited to: co-branded marketing materials, targeted marketing sales opportunities, training opportunities at meetings, training modules for personnel and opportunities to host due diligence meetings for representatives and wholesalers.

Please note certain management personnel and other employees of the Company or its affiliates may receive a portion of their total employment compensation based on the amount of net assets allocated to affiliated funds. See also “**CONTRACT DISTRIBUTION.**”

Fund of Funds

Certain funds may be structured as “fund of funds.” These funds may have higher fees and expenses than a fund that invests directly in debt and equity securities, because they also incur the fees and expenses of the underlying funds in which they invest. These funds are affiliated funds, and the underlying funds in which they invest may be affiliated as well. The fund prospectuses disclose the aggregate annual operating expenses of each fund and its corresponding underlying fund or funds. These funds are identified in the investment option list in the front of this prospectus.

Premium and Other Taxes

Maximum Amount. Some states and municipalities charge a premium tax on annuities. These taxes currently range from 0.0% to 4.0%, depending upon the jurisdiction.

When/How. We reserve the right to deduct a charge for premium taxes from your account value or from purchase payments to the account at any time, but not before there is a tax liability under state law. For example, we may deduct a charge for premium taxes from purchase payments as they are received, or from the account value immediately before you commence income phase payments, as permitted or required by applicable law.

In addition, we reserve the right to assess a charge for any federal taxes due against the separate account. See “**FEDERAL TAX CONSIDERATIONS.**”

YOUR ACCOUNT VALUE

During the accumulation phase, your account value at any given time equals:

- The current dollar value of amounts invested in the subaccounts; plus
- The current dollar values of amounts invested in the fixed interest options, including interest earnings to date.

Subaccount Accumulation Units. When you select a fund as an investment option, your account dollars invest in “accumulation units” of the Separate Account N subaccount corresponding to that fund. The subaccount invests directly in the fund shares. The value of your interest in a subaccount is expressed as the number of accumulation units you hold multiplied by an “accumulation unit value,” as described below, for each unit.

Accumulation Unit Value (“AUV”). The value of each accumulation unit in a subaccount is called the accumulation unit value or AUV. The AUV varies daily in relation to the underlying fund’s investment performance. The value also reflects deductions for fund fees and expenses, the mortality and expense risk charges and the administrative expense charge (if any). We discuss these deductions in more detail in “**FEE TABLE**” and “**FEES.**”

Valuation. We determine the AUV every normal business day that the NYSE is open, after the close of the NYSE (normally at 4:00 p.m. Eastern Time). At that time, we calculate the current AUV by multiplying the AUV last calculated by the “net investment factor” of the subaccount. The net investment factor measures the investment performance of the subaccount from one valuation to the next.

$$\text{Current AUV} = \text{Prior AUV} \times \text{Net Investment Factor}$$

Net Investment Factor. The net investment factor for a subaccount between two consecutive valuations equals the sum of 1.0000 plus the net investment rate.

Net Investment Rate. The net investment rate is computed according to a formula that is equivalent to the following:

- The net assets of the fund held by the subaccount as of the current valuation; minus
- The net assets of the fund held by the subaccount at the preceding valuation; plus or minus
- Taxes or provisions for taxes, if any, due to subaccount operations (with any federal income tax liability offset by foreign tax credits to the extent allowed); divided by
- The total value of the subaccount's units at the preceding valuation; minus
- A daily deduction for the mortality and expense risk charges, the administrative expense charge, and any other fees deducted daily from investments in the separate account. **See "FEES."**

The net investment rate may be either positive or negative.

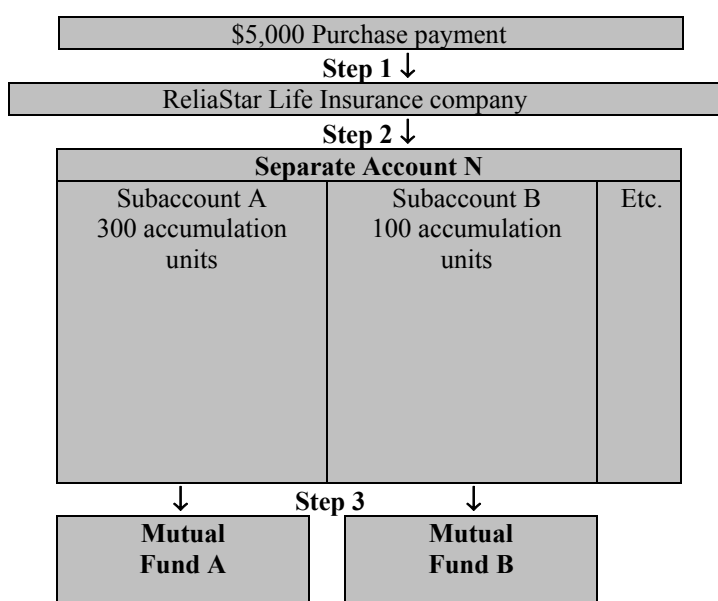

Hypothetical Illustration. As a hypothetical illustration, assume that your initial purchase payment to a qualified contract is \$5,000 and you direct us to invest \$3,000 in Fund A and \$2,000 in Fund B. Also assume that on the day we receive the purchase payment the applicable AUVs after the next close of business of the NYSE are \$10 for Subaccount A and \$20 for Subaccount B. Your account is credited with 300 accumulation units of Subaccount A and 100 accumulation units of Subaccount B.

Step 1: You make an initial purchase payment of \$5,000.

Step 2:

- You direct us to invest \$3,000 in Fund A. The purchase payment purchases 1,000 accumulation units of Subaccount A (\$3,000 divided by the current \$10 AUV); and
- You direct us to invest \$2,000 in Fund B. The purchase payment purchases 250 accumulation units of Subaccount B (\$2,000 divided by the current \$20 AUV).

Step 3: The separate account purchases shares of the applicable funds at the then current market value (net asset value or "NAV").

Each fund's subsequent investment performance, expenses and charges and the daily charges deducted from the subaccount, will cause the AUV to move up or down on a daily basis.

Purchase Payments to Your Account. If all or a portion of your initial purchase payment is directed to the subaccounts, it will purchase subaccount accumulation units at the AUV next computed after our acceptance of your application as described in **"PURCHASE AND RIGHTS."** Subsequent purchase payments or transfers directed to the subaccounts that we receive in good order by the close of business of the NYSE (normally at 4:00 p.m. Eastern Time) will purchase subaccount accumulation units at the AUV computed as of the close of the NYSE on that day. The value of the subaccounts may vary day to day. Subsequent purchase payments and transfers received in good order after the close of the NYSE will purchase accumulation units at the AUV computed as of the close of the NYSE on the next business day.

TRANSFERS

During the accumulation phase you may transfer amounts among the available subaccounts, and from the subaccounts to either Fixed Account A or Fixed Account B. Amounts may be transferred from Fixed Account C to one or more subaccounts only, and requires participation in the dollar cost averaging program. Transfers from Fixed Account C to Fixed Account A or Fixed Account B are not allowed. Transfers from Fixed Account A, Fixed Account B, or the subaccounts to Fixed Account C are not allowed.

We do not currently charge a transfer fee. However, we reserve the right, to the extent permitted by state laws and regulations, to charge a fee of \$25 for each transfer and to limit the number of transfers.

Transfer Requests. Requests may be made in writing, by telephone or, where available, electronically. Transfers must be made in accordance with the terms of the contract.

Limits on Frequent or Disruptive Transfers

The contract is not designed to serve as a vehicle for frequent transfers. Frequent transfer activity can disrupt management of a fund and raise its expenses through:

- Increased trading and transaction costs;
- Forced and unplanned portfolio turnover;
- Lost opportunity costs; and
- Large asset swings that decrease the fund's ability to provide maximum investment return to all contract owners.

This in turn can have an adverse effect on fund performance. **Accordingly, individuals or organizations that use market-timing investment strategies or make frequent transfers should be aware that:**

- **We suspend the Electronic Trading Privileges, as defined below, of any individual or organization if we determine, in our sole discretion, that the individual's or organization's transfer activity is disruptive or not in the best interest of other owners of our variable insurance and retirement products; and**
- **Each underlying fund may limit or restrict fund purchases and we will implement any limitation or restriction on transfers to an underlying fund as directed by that underlying fund.**

Consequently, individuals or organizations that use market-timing investment strategies or make frequent transfers should not purchase or participate in the contract.

Excessive Trading Policy. We and the other members of the Voya[®] family of companies that provide multi-fund variable insurance and retirement products have adopted a common Excessive Trading Policy to respond to the demands of the various fund families that make their funds available through our products to restrict excessive fund trading activity and to ensure compliance with Section 22c-2 of the 1940 Act.

We actively monitor fund transfer and reallocation activity within our variable insurance products to identify violations of our Excessive Trading Policy. Our Excessive Trading Policy is violated if fund transfer and reallocation activity:

- Meets or exceeds our current definition of Excessive Trading, as defined below; or
- Is determined, in our sole discretion, to be disruptive or not in the best interests of other owners of our variable insurance and retirement products.

We currently define "Excessive Trading" as:

- More than one purchase and sale of the same fund (including money market funds) within a 60 calendar day period (hereinafter, a purchase and sale of the same fund is referred to as a "round-trip"). This means two or more round-trips involving the same fund within a 60 calendar day period would meet our definition of Excessive Trading; or
- Six round-trips involving the same fund within a rolling 12 month period.

The following transactions are excluded when determining whether trading activity is excessive:

- Purchases or sales of shares related to non-fund transfers (for example, new purchase payments, withdrawals and loans);
- Transfers associated with scheduled dollar cost averaging, scheduled rebalancing, or scheduled asset allocation programs;
- Purchases and sales of fund shares in the amount of \$5,000 or less;
- Purchases and sales of funds that affirmatively permit short-term trading in their fund shares, and movement between such funds and a money market fund; and
- Transactions initiated by us, another member of the Voya family of companies, or a fund.

If we determine that an individual or entity has made a purchase of a fund within 60 days of a prior round-trip involving the same fund, we will send them a letter warning that another sale of that same fund within 60 days of the beginning of the prior round-trip will be deemed to be Excessive Trading and result in a six month suspension of their ability to initiate fund transfers or reallocations through the Internet, facsimile, Voice Response Unit ("VRU"), telephone calls to Customer Service, or other electronic trading medium that we may make available from time to time ("Electronic Trading Privileges"). Likewise, if we determine that an individual or entity has made five round-trips involving the same fund within a rolling 12 month period, we will send them a letter warning that another purchase and sale of that same fund within 12 months of the initial purchase in the first round-trip will be deemed to be Excessive Trading and result in a suspension of their Electronic Trading Privileges. According to the needs of the various business units, a copy of any warning letters may also be sent, as applicable, to the person(s) or entity authorized to initiate fund transfers or reallocations, the agent/registered representative, or the investment adviser for that individual or entity. A copy of the warning letters and details of the individual's or entity's trading activity may also be sent to the fund whose shares were involved in the trading activity.

If we determine that an individual or entity has violated our Excessive Trading Policy, we will send them a letter stating that their Electronic Trading Privileges have been suspended for a period of six months. Consequently, all fund transfers or reallocations, not just those that involve the fund whose shares were involved in the activity that violated our Excessive Trading Policy, will then have to be initiated by providing written instructions to us via regular U.S. mail. Suspension of Electronic Trading Privileges may also extend to products other than the product through which the Excessive Trading activity occurred. During the six month suspension period, electronic "inquiry only" privileges will be permitted where and when possible. A copy of the letter restricting future transfer and reallocation activity to regular U.S. mail and details of the individual's or entity's trading activity may also be sent, as applicable, to the person(s) or entity authorized to initiate fund transfers or reallocations, the agent/registered representative or investment adviser for that individual or entity, and the fund whose shares were involved in the activity that violated our Excessive Trading Policy.

Following the six month suspension period during which no additional violations of our Excessive Trading Policy are identified, Electronic Trading Privileges may again be restored. We will continue to monitor the fund transfer and reallocation activity, and any future violations of our Excessive Trading Policy will result in an indefinite suspension of Electronic Trading Privileges. A violation of our Excessive Trading Policy during the six month suspension period will also result in an indefinite suspension of Electronic Trading Privileges.

We reserve the right to suspend Electronic Trading Privileges with respect to any individual or entity, with or without prior notice, if we determine, in our sole discretion, that the individual's or entity's trading activity is disruptive or not in the best interests of other owners of our variable insurance and retirement products, regardless of whether the individual's or entity's trading activity falls within the definition of Excessive Trading set forth above.

Our failure to send or an individual's or entity's failure to receive any warning letter or other notice contemplated under our Excessive Trading Policy will not prevent us from suspending that individual's or entity's Electronic Trading Privileges or taking any other action provided for in our Excessive Trading Policy.

The Company does not allow exceptions to our Excessive Trading Policy. We reserve the right to modify our Excessive Trading Policy, or the policy as it relates to a particular fund, at any time without prior notice, depending on, among other factors, the needs of the underlying fund(s), the best interests of contract owners, participants, and fund investors, and/or state or federal regulatory requirements. If we modify our policy, it will be applied uniformly to all contract owners and participants or, as applicable, to all contract owners and participants investing in the underlying fund.

Our Excessive Trading Policy may not be completely successful in preventing market-timing or excessive trading activity. If it is not completely successful, fund performance and management may be adversely affected, as noted above.

Limits Imposed by the Underlying Funds. Each underlying fund available through the variable insurance and retirement products offered by us and/or the other members of the Voya family of companies, either by prospectus or stated policy, has adopted or may adopt its own excessive/frequent trading policy, and orders for the purchase of fund shares are subject to acceptance or rejection by the underlying fund. We reserve the right, without prior notice, to implement fund purchase restrictions and/or limitations on an individual or entity that the fund has identified as violating its excessive/frequent trading policy and to reject any allocation or transfer request to a subaccount if the corresponding fund will not accept the allocation or transfer for any reason. All such restrictions and/or limitations (which may include, but are not limited to, suspension of Electronic Trading Privileges and/or blocking of future purchases of a fund or all funds within a fund family) will be done in accordance with the directions we receive from the fund.

Agreements to Share Information with Fund Companies. As required by Rule 22c-2 under the 1940 Act, we have entered into information sharing agreements with each of the fund companies whose funds are offered through the contract. Contract owner trading information is shared under these agreements as necessary for the fund companies to monitor fund trading and our implementation of our Excessive Trading Policy. Under these agreements, the Company is required to share information regarding contract owner transactions, including but not limited to information regarding fund transfers initiated by you. In addition to information about contract owner transactions, this information may include personal contract owner information, including names and social security numbers or other tax identification numbers.

As a result of this information sharing, a fund company may direct us to restrict a contract owner's transactions if the fund determines that the contract owner has violated the fund's excessive/frequent trading policy. This could include the fund directing us to reject any allocations of purchase payments or contract value to the fund or all funds within the fund family.

Value of Your Transferred Dollars. The value of amounts transferred into or out of subaccounts will be based on the subaccount unit values next determined after we receive your transfer request in good order at Customer Service or, if you are participating in the dollar cost averaging or automatic reallocation programs, after your scheduled transfer or reallocation.

Telephone and Electronic Transactions: Security Measures. Telephone transactions may be automatically available to you when you complete the contract application, unless you specifically decline to have such telephone privileges. In some states, you must affirmatively elect to have telephone privileges. The election may be made in the application or by completing a telephone reallocation form. A unique identifier or personal password will be assigned to you when your telephone privileges are established. To prevent fraudulent use of telephone or electronic transactions (including, but not limited to, Internet transactions), we have established security procedures. These may include recording calls on voice recording equipment, requiring completion of a "telephone reallocation" form, written confirmation of telephone instructions and use of a unique identifier or personal password to execute transactions. You are responsible for keeping your unique identifier or personal password and account information confidential. If we fail to follow reasonable security procedures, we may be liable for losses due to unauthorized or fraudulent telephone or other electronic transactions. We are not liable for losses resulting from telephone or electronic instructions we believe to be genuine. If a loss occurs when we rely on such instructions, you will bear the loss.

Dollar Cost Averaging Program. Dollar cost averaging is an investment strategy whereby you purchase fixed dollar amounts of an investment at regular intervals, regardless of price.

Currently, under this program you may, during the accumulation phase, elect one of the following transfer options:

Option One:

- You may direct us to automatically transfer a fixed dollar amount or a specified percentage from the subaccounts or Fixed Account A to any of the other subaccounts or to Fixed Account A or Fixed Account B, or from Fixed Account C to the subaccounts. However, transfers from Fixed Account C to Fixed Account A or Fixed Account B are not allowed. Also, no transfers to Fixed Account C are allowed from any subaccount or from any other fixed option.
- Transfers from Fixed Account A may be made on a monthly, quarterly, semi-annual or annual basis. Transfers from Fixed Account C may be made on a monthly basis only.

Option Two:

- You may direct us to automatically transfer the interest earned on amounts invested in Fixed Account B to any one or more of the subaccounts.
- Only automatic transfers of 100% of interest earned are allowed. We will only transfer interest that is earned after you have elected this option. Reallocations may be made on a monthly, quarterly, semi-annual or annual basis.
- To elect transfers of this type, your account value must be at least \$10,000 and the Fixed Account B account value must be at least \$5,000. We reserve the right to discontinue these transfers when the Fixed Account B account value becomes less than \$5,000.
- Transfers from Fixed Account B to the subaccounts or to Fixed Account A are allowed, subject to certain conditions. See **APPENDIX I**.

Dollar cost averaging neither ensures a profit nor guarantees against loss in a declining market. You should consider your financial ability to continue purchases through periods of low price levels. There is no additional charge for this program and transfers made under this program do not count as transfers when determining the number of free transfers that may be made each account year. To obtain an application form or for additional information about this program, contact your sales representative or call us at the number listed in **“CONTRACT OVERVIEW – Questions: Contacting the Company.”**

We reserve the right to discontinue, modify or suspend the dollar cost averaging program and to charge a processing fee not to exceed \$25 for each transfer made under this program.

Automatic Reallocation Program (“Asset Rebalancing”). Asset rebalancing allows you to reallocate your account value to match your current investment allocations by reallocating account values from the subaccounts that have increased in value to those subaccounts that have declined in value or increased in value at a slower rate or to Fixed Account A. Asset rebalancing also allows you to reallocate account values invested in Fixed Account A. We automatically reallocate your account value on each quarterly anniversary of the date we established your account (or any other date as we allow). Asset rebalancing neither ensures a profit nor guarantees against loss in a declining market.

There is currently no additional charge for this program and transfers made under this program do not count as transfers when determining the number of free transfers that may be made each account year. You are eligible to participate in this program if your account value is at least \$10,000. To obtain an application form or for additional information about this program, call us at the number listed in **“CONTRACT OVERVIEW – Questions: Contacting the Company.”** You must choose the applicable subaccounts and the percentage of account value to be maintained on a quarterly basis in each subaccount. All values in a selected subaccount will be available for rebalancing.

You may instruct us at any time to terminate this program by written request to us at the address listed in **“CONTRACT OVERVIEW – Questions: Contacting the Company.”** Any value in a subaccount that has not been reallocated will remain in that subaccount regardless of the percentage allocation, unless you instruct us otherwise. If you wish to continue the reallocations after they have been terminated, you must complete an application and have at least \$10,000 of account value.

We reserve the right to discontinue, modify or suspend the asset rebalancing program and to charge a processing fee not to exceed \$25 for each reallocation between the subaccounts or to or from the unloaned account value of Fixed Account A. The account value in Fixed Account C is not eligible for participation in this program.

Transfers from the Fixed Accounts. For information on transfers from the Fixed Accounts, see **APPENDIX I** of this prospectus.

WITHDRAWALS

Subject to any applicable retirement plan or Tax Code restrictions (see **“Withdrawal Restrictions”** below), you may withdraw all or a portion of your withdrawal value at any time during the accumulation phase. No withdrawals are permitted from Fixed Account C. Contracts issued in connection with qualified retirement plans (other than IRAs and Roth IRAs) generally require that the plan sponsor, or its delegate, certify that you are eligible for the distribution.

Steps for Making a Withdrawal. You must select the withdrawal amount:

- Full Withdrawals: You will receive your withdrawal value, reduced by any applicable tax, redemption fees, and maintenance fees; or
- Partial Withdrawals: You may request withdrawal of either:
 - ▷ A gross amount, in which case the applicable early withdrawal charge, redemption fees and taxes will be deducted from the gross amounts requested; or
 - ▷ A specific amount after deduction of the applicable early withdrawal charge, redemption fees and taxes.

Requests for partial withdrawals are subject to the following conditions:

- The minimum amount of any partial withdrawal must be \$1,000;
- The account value may not fall below the greater of \$1,000 or any outstanding loan balance divided by 85%;
- We may charge a processing fee of \$25 or, if less, 2% of the amount partially surrendered;
- Unless otherwise agreed to by us, we will withdraw dollars in the same proportion as the values you hold in the investment options in which you have an account value; and
- You must properly complete a disbursement form and deliver it to Customer Service.

Withdrawal Restrictions. Some plans may have other limits on withdrawals, other than or in addition to those listed below:

- Section 403(b)(11) of the Tax Code generally prohibits withdrawals under 403(b) contracts prior to your death, disability, attainment of age 59½, severance from employment, or financial hardship of the following:
 - ▷ Salary reduction contributions made after December 31, 1988; and
 - ▷ Earnings on those contributions and earnings on amounts held before 1989 and credited after December 31, 1988. Income attributable to salary reduction contributions and credited on or after January 1, 1989, may not be distributed in the case of hardship. Other withdrawals may be allowed as provided for under the Tax Code or regulations;
- Effective January 1, 2009, 403(b) regulations impose restrictions on the distribution of 403(b) employer contributions under certain contracts. See **“FEDERAL TAX CONSIDERATIONS – Taxation of Qualified Contracts – Distributions – Eligibility – 403(b) and Roth 403(b) Plans”**;
- Participants in the Texas Optional Retirement Program. You may not receive any distribution before retirement, except upon becoming disabled as defined in the Tax Code or terminating employment with Texas public institutions of higher learning. Conditions under which you may exercise the right to withdraw and the right to advance the date on which an income phase payment option is to begin are limited. These restrictions are imposed by reason of the Texas Attorney General’s interpretation of Texas law; and
- 401(k) plans generally prohibit withdrawal of salary reduction contributions and associated earnings prior to your death, disability, attainment of age 59½, severance from employment, or financial hardship (only contributions, and not the earnings, may be withdrawn on financial hardship).

Calculation of Your Withdrawal. We determine your account value every normal business day that the NYSE is open, after the close of the NYSE. We pay withdrawal amounts based on your account value as of the next valuation date after we receive a request for withdrawal in good order at Customer Service.

Taxes, Fees and Deductions

Amounts withdrawn may be subject to one or more of the following:

- Early Withdrawal Charge. See **“FEES – Early Withdrawal Charge.”**
- Annual Maintenance Fee. See **“FEES – Annual Maintenance Fee.”**
- Partial Withdrawal Processing Fee. See **“FEES – Early Withdrawal Charge – Partial Withdrawal Processing Fee.”**
- Redemption Fees. See **“FEES – Redemption Fees.”**
- Tax Penalty. See **“FEDERAL TAX CONSIDERATIONS.”**
- Tax Withholding. See **“FEDERAL TAX CONSIDERATIONS.”**

To determine which may apply to you, refer to the appropriate sections of this prospectus, contact your sales representative or call us at the number listed in **“CONTRACT OVERVIEW – Questions: Contacting the Company.”**

Withdrawal Value: Your account value less any outstanding loan balance and early withdrawal charge.

Delivery of Payment. Payments for withdrawal requests will be made in accordance with SEC requirements. Normally, your withdrawal amount will be sent no later than seven calendar days following our receipt of your properly-completed disbursement form in good order. No interest will accrue on amounts represented by uncashed withdrawal checks.

SYSTEMATIC WITHDRAWALS

A systematic withdrawal is a series of automatic partial withdrawals from your account based on a payment method you select. You may elect to withdraw a specified dollar amount or a percentage of the account value on a monthly, quarterly, semiannual or annual basis. The amount of each systematic withdrawal must be at least \$300.

Systematic Withdrawal Availability. We reserve the right to modify or discontinue offering systematic withdrawals. However, any such modification or discontinuation will not affect any systematic withdrawals already in effect. We may add additional systematic withdrawal options from time to time.

Requesting a Systematic Withdrawal. To request systematic withdrawals and to assess terms and conditions that may apply, contact your sales representative at the number listed in “**CONTRACT OVERVIEW – Questions: Contacting the Company.**”

Terminating Systematic Withdrawals. You may discontinue systematic withdrawals at any time by submitting a written request to Customer Service.

Charges. Systematic withdrawals are subject to early withdrawal charges. Although we currently do not impose a processing fee, we reserve the right to charge a processing fee not to exceed the lesser of 2% of each systematic withdrawal payment or \$25.

Taxation. Systematic withdrawals and revocations of elections may have tax consequences. Amounts withdrawn may be included in your gross income in the year in which the withdrawal occurs, and withdrawals prior to your reaching age 59½ may also be subject to a 10% federal tax penalty. See “**FEDERAL TAX CONSIDERATIONS.**”

Features of a Systematic Withdrawal

A systematic withdrawal allows you to receive regular payments from your contract without moving into the income phase. By remaining in the accumulation phase, you retain certain rights and investment flexibility not available during the income phase. Because the account remains in the accumulation phase, all accumulation phase charges continue to apply.

LOANS

Loans Available from Certain Qualified Contracts. If allowed by the contracts and the qualified plan for which the contract is issued, a loan may be available from the account value prior to your election of an income phase payment option or the annuitant’s attainment of age 70½. Loans are only allowed from amounts allocated to subaccounts and certain fixed accounts. Additional restrictions may apply under the Tax Code, ERISA (if applicable), your plan, or due to our administrative practices, or those of a third party administrator selected by your plan sponsor, and loans may be subject to approval by the plan sponsor or its delegate. We reserve the right not to grant a loan request if you have an outstanding loan in default. Loans are not available from nonqualified contracts, IRAs, 457, or Roth 403(b) contracts.

A loan may be requested by properly completing the loan request form and submitting it to Customer Service. Read the terms of the loan agreement before submitting any request. Processing of loan repayments (including pricing of such repayments) may be delayed for administrative reasons, including but not limited to submission of repayment without a proper loan coupon, or where the amount of a repayment differs from the amount printed on the loan coupon. We may also refuse to accept certain forms of loan repayments, if applicable, (traveler’s checks, for example) or restrict the amount of certain forms of loan repayments (money orders totaling more than \$5,000, for example). In addition, we may require information as to why a particular form of payment was used (third party checks, for example) and the source of the funds of such payment in order to determine whether or not we will accept it. Use of an unacceptable form of payment may result in us returning your loan repayment. **Please contact us at the number or address listed in “CONTRACT OVERVIEW – Questions: Contacting the Company” for further information.**

Charges. Loans are subject to an applicable early withdrawal charge. We reserve the right to charge a processing fee not to exceed \$25. Interest will be charged on loaned amounts. The difference between the rate charged and the rate credited on loans under your contract is currently 2.5% per annum (i.e., a 2.5% loan interest rate spread). We reserve the right to apply a loan interest rate spread of up to 3% per annum.

DEATH BENEFIT

During the Accumulation Phase

When Is a Death Benefit Payable? During the accumulation phase, a death benefit is payable when the contract holder or in certain circumstances, annuitant dies.

Who Receives Death Benefit Proceeds? If you would like certain individuals or entities to receive the death benefit when it becomes payable, you may name them as your beneficiaries and/or contingent beneficiaries. Unless you have instructed us otherwise, if more than one beneficiary has been named, the payment will be paid in equal shares. If you die and no beneficiary or contingent beneficiary exists, or if the beneficiary or contingent beneficiary is not living on the date payment is due, the death benefit will be paid in a lump sum to your estate.

Designating Your Beneficiary. You may designate a beneficiary on your application and may change the designated beneficiary at any time before income phase payments begin by sending us a written request. Upon our receipt of your written request in good order (see **“CONTRACT OVERVIEW – Questions: Contacting the Company”**), we will process the change effective the date it was signed. Any change in beneficiary will not affect any payments made or affect any actions taken by us before the request was received. We are not responsible for the validity of any beneficiary change.

Death Benefit Amount. If you (for contracts owned by a natural person), or the annuitant (for contracts owned by a non-natural person in connection with a 457 plan) die prior to the income phase, the person you have chosen to be your beneficiary will receive a death benefit. The death benefit will be the greatest of three amounts: (1) the account value on the claim date less any outstanding loan balance; (2) the sum of all purchase payments, adjusted for any amounts deducted from your account (including withdrawals, payments made under an income phase payment option, loans and fees and expenses); or (3) the account value on the sixth account anniversary immediately preceding your death (i.e., the account value on the latest of the 6th, 12th, 18th, etc. account anniversary), adjusted for purchase payments made and for amounts deducted (including withdrawals, payments made under an income phase payment option, loans and fees and expenses) since that anniversary. If you or the annuitant, as described above, die after age 80, your beneficiary will receive the greater of (1) or (2) above.

If your contract is a nonqualified contract owned by a non-natural person and the annuitant dies, the beneficiary will receive the account value only. In that situation, neither the death benefit in (2) or (3) above will be available, nor can the optional one-year step up (reset) death benefit be purchased.

For contracts owned by a natural person, if the annuitant dies and is not the same as the contract owner, the contract owner will automatically be named as the new annuitant and no death benefit will be payable.

This section provides information about the death benefit during the accumulation phase. **For death benefit information applicable to the income phase, see “INCOME PHASE.”**

Terms to Understand:
Account Year/Account Anniversary: A period of 12 months measured from the date we established your account and each anniversary of this date. Account anniversaries are measured from this date.

Annuitant(s): The person(s) on whose life(lives) or life expectancy(ies) the income phase payments are based.

Beneficiary(ies): The person(s) or entity(ies) entitled to receive death benefit proceeds under the contract.

Claim Date: The date proof of death and the beneficiary's right to receive the death benefit are received in good order at Customer Service. Please contact Customer Service to learn what information is required for a request for payment of the death benefit to be in good order. Generally, a request is considered to be in “good order” when it is signed, dated and made with such clarity and completeness that we are not required to exercise any discretion in carrying it out.

Contingent Beneficiary: The person(s) or entity(ies) designated to receive death benefit proceeds under the contract if no beneficiary is alive when the death benefit is due.

Optional One-Year Step Up (Reset) Death Benefit Endorsement

You can purchase an endorsement that enables you to change the sixth account anniversary immediately preceding your death, in option (3) above, to the account anniversary immediately preceding your death. The death benefit determined based on the account anniversary immediately preceding your death may be more or less than the amount of the death benefit determined based on the sixth account anniversary immediately preceding your death. It may be possible that you will not realize any benefit from the purchase of the endorsement. The charge for this endorsement is equal to an annual rate of 0.15% of the average daily value of amounts invested in the subaccounts, charged on a monthly basis. This endorsement is not available for contracts issued in the States of Texas and Vermont.

Payment of the Death Benefit Before Income Phase Payments Begin

The beneficiary may choose one of the following three methods of payment:

- Receive a lump-sum payment equal to all or a portion of the account value;
- Apply some or all of the account value to any of the income phase payment options (in no event may payments to a beneficiary extend beyond the beneficiary's life expectancy or any period certain greater than the beneficiary's life expectancy); or
- Any other distribution method acceptable to us.

Until a death benefit request is in good order and a payment option is selected, account dollars will remain invested as at the time of your death, and no distributions will be made.

The timing and manner of payment are subject to the Tax Code's distribution rules. See **"FEDERAL TAX CONSIDERATIONS – Distributions – General."** In general, the death benefit must be applied to either an income phase payment option within one year of the contract holder's or annuitant's death or the entire account value must be distributed within five years of the contract holder's or annuitant's date of death. For nonqualified contracts, an exception to this provision applies if the designated beneficiary is the surviving spouse, in which case the beneficiary may continue the contract as the successor contract holder and generally may exercise all rights under the contract.

Requests for payment of the death benefit in a lump sum will be paid within seven calendar days following the next valuation after we receive proof of death and a request for payment. Requests for continuing income phase payments or another form of distribution method must be in writing and received by us within the time period allowed by the Tax Code or the death benefit will be paid in a lump sum and the contract will be canceled.

Payment of Death Benefit or Proceeds

Subject to the conditions and requirements of state law, full payment of the death benefit or proceeds ("Proceeds") to a beneficiary may be made either into an interest bearing retained asset account that is backed by our general account (described in **"The Retained Asset Account"** below) or by check. For additional information about the payment options available to you, please refer to your claim forms or contact us at the address shown in **"CONTRACT OVERVIEW – Questions: Contacting the Company."** Beneficiaries should carefully review all settlement and payment options available under the contract and are encouraged to consult with a financial professional or tax adviser before choosing a settlement or payment option.

The Retained Asset Account. The retained asset account, known as the Voya Personal Transition Account, is an interest bearing account backed by our general account. **The retained asset account is not guaranteed by the FDIC and, as part of our general account, is subject to the claims of our creditors.** Beneficiaries that receive their payment through the retained asset account may access the entire Proceeds in the account at any time without penalty through a draftbook feature. The Company seeks to earn a profit on the account, and interest credited on the account may vary from time to time but will not be less than the minimum rate stated in the supplemental contract delivered to the beneficiary together with the paperwork to make a claim to the Proceeds. Interest earned on the Proceeds in the account may be less than could be earned if the Proceeds were invested outside of the account. Likewise, interest credited on the Proceeds in the account may be less than under other settlement or payment options available through the contract.

Taxation. In general, payments received by your beneficiary after your death are taxed to the beneficiary in the same manner as if you had received those payments. Additionally, your beneficiary may be subject to tax penalties if he or she does not begin receiving death benefit payments within the timeframe required by the Tax Code. See **“FEDERAL TAX CONSIDERATIONS.”**

INCOME PHASE

During the income phase you stop contributing dollars to your account and start receiving payments from your accumulated account value.

Initiating Payments. To start receiving income phase payments, you must notify us in writing of all of the following:

- Payment start date;
- Income phase payment option (see the income phase payment options table in this section); and
- Choice of fixed, variable or a combination of both fixed and variable payments.

Your account will continue in the accumulation phase until you properly initiate income phase payments. If you have not selected an income phase payment option or a required minimum distribution payment method (for qualified contracts) before the payment start date, we will apply the fixed account values to provide fixed annuity payments and the subaccount values to provide variable annuity payments, both in the form of a Life Income with Payments Guaranteed for ten years (120 months) to be automatically effective. You may change the income phase payment option by notifying us in writing before the payment start date. Once an income phase payment option is selected, it may not be changed.

We may have used the following terms in prior prospectuses:

- **Annuity Provisions**-Income Phase;
- **Annuity Payout Selection**-Income Phase Payment Option; and
- **Annuity Payout**-Income Phase Payment

Also, income phase payments are sometimes referred to as “annuity payments.”

What Affects Income Phase Payments. Some of the factors that may affect income phase payments include: your age, gender, your account value, the income phase payment option selected (including the frequency and duration of payments under the option selected), number of guaranteed payments (if any) selected, and whether you select variable or fixed payments. As a general rule, more frequent income phase payments will result in smaller individual income phase payments. Likewise, income phase payments that are anticipated over a longer period of time will also result in smaller individual income phase payments.

Fixed Payments. Amounts funding fixed income phase payments will be held in the Company’s general account. The amount of fixed payments does not vary with investment performance over time.

Variable Payments. Amounts funding your variable income phase payments will be held in the subaccount(s) you select. The subaccounts available for investment during the income phase may be different than those available for investment during the accumulation phase. For information about the subaccounts available during the income phase, please contact Customer Service. Payment amounts will vary depending upon the performance of the subaccounts you select. For more information about how variable income phase payments are determined, call us for a copy of the SAI. See **“CONTRACT OVERVIEW – Questions: Contacting the Company.”**

Transfers. After income phase payments begin, you may transfer between subaccounts once per year.

Assumed Net Investment Rate. If you elect variable payments, the assumed net investment rate is 3.0%. If the investment performance of the subaccounts you selected exceeds 3.0%, your income phase payments will increase. Conversely, if the investment performance of the subaccounts you selected is less than 3.0%, your income phase payments will decrease.

Minimum Payment Amounts. The income phase payment option you select must result in monthly payments of at least \$100. We reserve the right to change the frequency of income phase payments to intervals that will result in payments of at least \$100.

If the account value less any outstanding loan balance at the payment start date is less than \$5,000, we reserve the right to issue a lump-sum payment and cancel the contract.

Restrictions on Start Dates and the Duration of Payments. Unless otherwise agreed to by us, the start date must be the first business day of any calendar month, and the earliest start date is the first business day of the first month that is at least 60 days after issue. If you do not select a start date, or, for qualified contracts, if you do not select a required minimum distribution payment method, the start date will be the annuitant's 85th birthday. The latest start date is the annuitant's 99th birthday. If income phase payments start when the annuitant is at an advanced age, such as over 95, it is possible that the contract will not be considered an annuity for federal tax purposes. You may change the start date by notifying us in writing at least 30 days before the start date currently in effect and the new start date. The new start date must satisfy the requirements for a start date.

For qualified contracts only, income phase payments may not extend beyond:

- The life of the annuitant;
- The joint lives of the annuitant and beneficiary;
- A guaranteed period greater than the annuitant's life expectancy; or
- A guaranteed period greater than the joint life expectancies of the annuitant and beneficiary.

See **"FEDERAL TAX CONSIDERATIONS"** for further discussion of rules relating to income phase payments.

Charges Deducted. When you select an income phase payment option (one of the options listed in the tables on the following page), a mortality and expense risk charge, consisting of a daily deduction of 1.25% on an annual basis will be deducted from amounts held in the subaccounts. This charge compensates us for mortality and expense risks we assume under income phase payment options and is applicable to all income phase payment options, including variable options under which we do not assume a mortality risk. In this situation, this charge will be used to cover expenses. Although we expect to earn a profit from this fee, we do not always do so. For variable options under which we do not assume a mortality risk, we may make a larger profit than under other options. We may also deduct a daily administrative charge of 0.15% annually from amounts held in the subaccounts. We are currently deducting this charge.

Death Benefit During the Income Phase. The death benefits that may be available to a beneficiary are outlined in the following income phase payment options table. If a lump-sum payment is due as a death benefit, we will make payment within seven calendar days following the next valuation date after we receive proof of death acceptable to us and the request for the payment in good order at Customer Service. If continuing income phase payments are elected, the beneficiary may not elect to receive a lump sum at a future date unless the income phase payment option specifically allows a withdrawal right. We will calculate the value of any death benefit at the next valuation date after we receive proof of death and a request for payment. Such value will be reduced by any payments made after the date of death.

Payment of Death Benefit or Proceeds

Subject to the conditions and requirements of state law, full payment of the death benefit or proceeds ("Proceeds") to a beneficiary may be made either into an interest bearing retained asset account that is backed by our general account or by check. For additional information about the payment options available to you, please refer to your claim forms or contact us at the address shown in **"CONTRACT OVERVIEW – Questions: Contacting the Company."** Beneficiaries should carefully review all settlement and payment options available under the contract and are encouraged to consult with a financial professional or tax adviser before choosing a settlement or payment option. See **"DEATH BENEFIT – The Retained Asset Account"** for more information about the retained asset account.

Partial Entry into the Income Phase. You may elect an income phase payment option for a portion of your account dollars, while leaving the remaining portion invested in the accumulation phase. Amounts applied to income phase payments are treated as a withdrawal from the contract, and we reserve the right to deduct any premium taxes not already paid under the contract. Whether the Tax Code considers such payments taxable as income phase payments or as withdrawals is currently unclear; therefore, you should consult with a tax and/or legal adviser before electing this option. The same or different income phase payment option may be selected for the portion left invested in the accumulation phase.

Taxation. To avoid certain tax penalties, you or your beneficiary must meet the distribution rules imposed by the Tax Code. Additionally, when selecting an income phase payment option, the Tax Code requires that your expected payments will not exceed certain durations. See **“FEDERAL TAX CONSIDERATIONS”** for additional information.

Income Phase Payment Options

Subject to the conditions and requirements of state law, the following table lists the income phase payment options and accompanying death benefits available during the income phase. We may offer other income phase payment options under the contract from time to time.

Once income phase payments begin the income phase payment option selected may not be changed.

Terms to understand:

- **Annuitant(s):** The person(s) on whose life expectancy(ies) the income phase payments are based; and
- **Beneficiary(ies):** The person(s) or entity(ies) entitled to receive a death benefit under the contract.

Lifetime Income Phase Payment Options	
Life Income	<p>Length of Payments: For as long as the annuitant lives. It is possible that only one payment will be made should the annuitant die prior to the second payment’s due date.</p> <p>Death Benefit-None: All payments end upon the annuitant’s death.</p>
Life Income with Payments Guaranteed for 10 Years*	<p>Length of Payments: For as long as the annuitant lives, with payments guaranteed for 10 years (120 months).</p> <p>Death Benefit-Payment to the Beneficiary: If the annuitant dies before we have made all the guaranteed payments, we will continue to pay the beneficiary the remaining payments.</p>
Life Income-Two Lives	<p>Length of Payments: For as long as either annuitant lives. It is possible that only one payment will be made if both annuitants die before the second payment’s due date.</p> <p>Death Benefit-None: All payments end upon the death of both annuitants.</p>

FEDERAL TAX CONSIDERATIONS

Introduction

The contract described in this prospectus is designed to be treated as annuities for U.S. federal income tax purposes. This section discusses our understanding of current federal income tax laws affecting the contracts. The U.S. federal income tax treatment of the contract is complex and sometimes uncertain. You should keep the following in mind when reading this section:

- Your tax position (or the tax position of the designated beneficiary, as applicable) determines the federal taxation of amounts held or paid out under the contracts;
- Tax laws change. It is possible that a change in the future could affect contracts issued in the past, including the contracts described in this prospectus;
- This section addresses some, but not all, applicable federal income tax rules and does not discuss federal estate and gift tax implications, state and local taxes or any other tax provisions;
- We do not make any guarantee about the tax treatment of the contract or transactions involving the contract; and
- No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of those set forth below.

In this Section:

- **Introduction;**
- **Taxation of Nonqualified Contracts;**
- **Taxation of Qualified Contracts;**
- **Tax Consequences of Enhanced Death Benefits;**
- **Possible Changes in Taxation; and**
- **Taxation of the Company**

When consulting a tax and/or legal adviser, be certain that he or she has expertise with respect to the provisions of the Internal Revenue Code of 1986, as amended (the “Tax Code”) that apply to your tax concerns.

* Guaranteed period payments may not extend beyond the shorter of your life expectancy or until age 95.

We do not intend this information to be tax advice. No attempt is made to provide more than a general summary of information about the use of the contract with non-tax qualified and tax-qualified retirement arrangements, and the Tax Code may contain other restrictions and conditions that are not included in this summary. You should consult with a tax and/or legal adviser for advice about the effect of federal income tax laws, state tax laws or any other tax laws affecting the contract or any transactions involving the contract.

Types of Contracts: Nonqualified or Qualified

The contract described in this prospectus may be purchased on a non-tax-qualified basis (nonqualified contracts) or on a tax-qualified basis (qualified contracts).

Nonqualified Contracts. Nonqualified contracts do not receive the same tax benefits as are afforded to contracts funding qualified plans. You may not deduct the amount of your purchase payments to a nonqualified contract. Rather, nonqualified contracts are purchased with after tax contributions to save money, generally for retirement, with the right to receive annuity payments for either a specified period of time or over a lifetime.

Qualified Contracts. Qualified contracts are designed for use by individuals and/or employers whose purchase payments are comprised solely of proceeds from and/or contributions to retirement plans or programs that are intended to qualify as plans or programs entitled to special favorable income tax treatment under Sections 401(a), 401(k), 403(b), 408, 408A or 457(b) of the Tax Code. **Employers or individuals intending to use the contract with such plans should seek legal and tax advice.**

Roth Accounts. Tax Code Section 402A allows employees of public schools and certain Tax Code Section 501(c)(3) organizations offering 403(b) plans to contribute after-tax salary contributions to a Roth 403(b) account. Roth accounts provide for tax-free distributions, subject to certain conditions and restrictions. If permitted by us and under the plan for which the contract is issued, we will set up one or more accounts for you under the contract for Roth after-tax contributions and the portion of any transfer or rollover attributable to such amounts.

Taxation of Nonqualified Contracts

Taxation of Gains Prior to Distribution or Annuity Starting Date

General. Tax Code Section 72 governs the federal income taxation of annuities in general. We believe that if you are a natural person (in other words, an individual) you will generally not be taxed on increases in the value of a nonqualified contract until a distribution occurs or until income phase payments begin. This assumes that the contract will qualify as an annuity contract for federal income tax purposes. For these purposes, the agreement to assign or pledge any portion of the contract value will be treated as a distribution. In order to be eligible to receive deferral of taxation, the following requirements must be satisfied:

- **Diversification.** Tax Code Section 817(h) requires that in a nonqualified contract the investments of the funds be “adequately diversified” in accordance with Treasury Regulations in order for the contract to qualify as an annuity contract under federal tax law. The separate account, through the funds, intends to comply with the diversification requirements prescribed by Tax Code Section 817(h) and by Treasury in Reg. Sec. 1.817-5, which affects how the funds’ assets may be invested. If it is determined, however, that your contract does not satisfy the applicable diversification requirements and rulings because a subaccount’s corresponding fund fails to be adequately diversified for whatever reason, we will take appropriate steps to bring your contract into compliance with such regulations and rulings, and we reserve the right to modify your contract as necessary to do so;
- **Investor Control.** Although earnings under nonqualified annuity contracts are generally not taxed until withdrawn, the IRS has stated in published rulings that a variable contract owner will be considered the owner of separate account assets if the contract owner possesses incidents of investment control over the assets. In these circumstances, income and gains from the separate account assets would be currently includible in the variable contract owner’s gross income. Future guidance regarding the extent to which owners could direct their investments among subaccounts without being treated as owners of the underlying assets of the separate account may adversely affect the tax treatment of existing contracts. The Company therefore reserves the right to modify the contract as necessary to attempt to prevent the contract owner from being considered the federal tax owner of a proportional share of the assets of the separate account;

- **Required Distributions.** In order to be treated as an annuity contract for federal income tax purposes, the Tax Code requires any nonqualified contract to contain certain provisions specifying how your interest in the contract will be distributed in the event of your death. The nonqualified contracts contain provisions that are intended to comply with these Tax Code requirements, although no regulations interpreting these requirements have yet been issued. When such requirements are clarified by regulation or otherwise, we intend to review such distribution provisions and modify them if necessary to assure that they comply with the applicable requirements;
- **Non-Natural Owners of a Non-Qualified Contract.** If the owner of the contract is not a natural person (in other words, is not an individual), a nonqualified contract generally is not treated as an annuity for federal income tax purposes and the income on the contract for the taxable year is currently taxable as ordinary income. Income on the contract is any increase in the contract value over the “investment in the contract” (generally, the purchase payments or other consideration you paid for the contract less any nontaxable withdrawals) during the taxable year. There are some exceptions to this rule and a non-natural person should consult with a tax and/or legal adviser before purchasing the contract. When the contract owner is not a natural person, a change in the annuitant is treated as the death of the contract owner; and
- **Delayed Income Phase Starting Date.** If the contract’s annuity starting date occurs (or is scheduled to occur) at a time when the annuitant has reached an advanced age (e.g., after age 95), it is possible that the contract would not be treated as an annuity for federal income tax purposes. In that event, the income and gains under the contract could be currently includible in your income.

Taxation of Distributions

General. When a withdrawal from a nonqualified contract occurs before the contract’s annuity starting date, the amount received will be treated as ordinary income subject to tax up to an amount equal to the excess (if any) of the contract value (unreduced by the amount of any surrender charge) immediately before the distribution over the contract owner’s investment in the contract at that time. Investment in the contract is generally equal to the amount of all purchase payments to the contract, plus amounts previously included in your gross income as the result of certain loans, assignments or gifts, less the aggregate amount of non-taxable distributions previously made.

In the case of a surrender under a nonqualified contract, the amount received generally will be taxable only to the extent it exceeds the contract owner’s investment in the contract (cost basis).

10% Penalty. A distribution from a nonqualified contract may be subject to a penalty equal to 10% of the amount treated as income. In general, however, there is no penalty on distributions:

- Made on or after the taxpayer reaches age 59½;
- Made on or after the death of a contract owner (the annuitant if the contract owner is a non-natural person);
- Attributable to the taxpayer’s becoming disabled as defined in the Tax Code;
- Made as part of a series of substantially equal periodic payments (at least annually) over your life or life expectancy or the joint lives or joint life expectancies of you and your designated beneficiary; or
- The distribution is allocable to investment in the contract before August 14, 1982.

The 10% penalty does not apply to distributions from an immediate annuity as defined in the Tax Code. Other exceptions may be applicable under certain circumstances and special rules may be applicable in connection with the exceptions enumerated above. A tax and/or legal adviser should be consulted with regard to exceptions from the penalty tax.

Tax-Free Exchanges. Section 1035 of the Tax Code permits the exchange of a life insurance, endowment or annuity contract for an annuity contract on a tax-free basis. In such instance, the “investment in the contract” in the old contract will carry over to the new contract. You should consult with your tax and/or legal adviser regarding procedures for making Section 1035 exchanges.

If your contract is purchased through a tax-free exchange of a life insurance, endowment or annuity contract that was purchased prior to August 14, 1982, then any distributions other than annuity payments will be treated, for tax purposes, as coming:

- First, from any remaining “investment in the contract” made prior to August 14, 1982 and exchanged into the contract;
- Next, from any “income on the contract” attributable to the investment made prior to August 14, 1982;
- Then, from any remaining “income on the contract;” and
- Lastly, from any remaining “investment in the contract.”

In certain instances, the partial exchange of a portion of one annuity contract for another contract is a tax-free exchange. Pursuant to IRS guidance, receipt of partial withdrawals or surrenders from either the original contract or the new contract during the 180 day period beginning on the date of the partial exchange may retroactively negate the partial exchange. If the partial exchange is retroactively negated, the partial withdrawal or surrender of the original contract will be treated as a withdrawal, taxable as ordinary income to the extent of gain in the original contract and, if the partial exchange occurred prior to you reaching age 59½, may be subject to an additional 10% penalty. We are not responsible for the manner in which any other insurance company, for tax reporting purposes, or the IRS, with respect to the ultimate tax treatment, recognizes or reports a partial exchange. We strongly advise you to discuss any proposed 1035 exchange or subsequent distribution within 180 days of a partial exchange with your tax and/or legal adviser prior to proceeding with the transaction.

Taxation of Income Phase Payments. Although tax consequences may vary depending on the payment option elected under an annuity contract, a portion of each income phase payment is generally not taxed and the remainder is taxed as ordinary income. The non-taxable portion of an income phase payment is generally determined in a manner that is designed to allow you to recover your investment in the contract ratably on a tax-free basis over the expected stream of income phase payments, as determined when income phase payments start. Once your investment in the contract has been fully recovered, however, the full amount of each subsequent income phase payment is subject to tax as ordinary income.

Annuity contracts that are partially annuitized after December 31, 2010, are treated as separate contracts with their own annuity starting date and exclusion ratio. Specifically, an exclusion ratio will be applied to any amount received as an annuity under a portion of the annuity, provided that annuity payments are made for a period of 10 years or more or for life. Please consult your tax and/or legal adviser before electing a partial annuitization.

Death Benefits. Amounts may be distributed from a contract because of your death or the death of the annuitant. Generally, such amounts are includible in the income of the recipient as follows:

- If distributed in a lump sum, they are taxed in the same manner as a surrender of the contract, or
- If distributed under a payment option, they are taxed in the same way as annuity payments.

Special rules may apply to amounts distributed after a beneficiary has elected to maintain the contract value and receive payments.

Different distribution requirements apply if your death occurs:

- After you begin receiving annuity payments under the contract; or
- Before you begin receiving such distributions.

If your death occurs after you begin receiving annuity payments, distributions must be made at least as rapidly as under the method in effect at the time of your death.

If your death occurs before you begin receiving annuity payments, your entire balance must be distributed within five years after the date of your death. For example, if you die on September 1, 2016, your entire balance must be distributed by August 31, 2021. However, if distributions begin within one year of your death, then payments may be made over one of the following timeframes:

- Over the life of the designated beneficiary; or
- Over a period not extending beyond the life expectancy of the designated beneficiary.

If the designated beneficiary is your spouse, the contract may be continued with the surviving spouse as the new contract owner. If the contract owner is a non-natural person and the primary annuitant dies, the same rules apply on the death of the primary annuitant as outlined above for the death of a contract owner.

Some contracts offer a death benefit that may exceed the greater of the purchase payments and the contract value. Certain charges are imposed with respect to these death benefits. It is possible that these charges (or some portion thereof) could be treated for federal tax purposes as a distribution from the contract.

Assignments and Other Transfers. A transfer, pledge or assignment of ownership of a nonqualified contract, the selection of certain annuity dates, or the designation of an annuitant or payee other than an owner may result in certain tax consequences to you that are not discussed herein. The assignment, pledge or agreement to assign or pledge any portion of the contract value will be treated as a distribution for federal income tax purposes. Anyone contemplating any such transfer, pledge, assignment, or designation or exchange, should consult a tax and/or legal adviser regarding the potential tax effects of such a transaction.

Immediate Annuities. Under Section 72 of the Tax Code, an immediate annuity means an annuity:

- That is purchased with a single purchase payment;
- With annuity payments starting within one year from the date of purchase; and
- That provides a series of substantially equal periodic payments made annually or more frequently.

While this contract is not designed as an immediate annuity, treatment as an immediate annuity would have significance with respect to exceptions from the 10% early withdrawal penalty, to contracts owned by non-natural persons, and for certain exchanges.

Multiple Contracts. Tax laws require that all nonqualified deferred annuity contracts that are issued by a company or its affiliates to the same contract owner during any calendar year be treated as one annuity contract for purposes of determining the amount includible in gross income under Tax Code Section 72(e). In addition, the Treasury Department has specific authority to issue regulations that prevent the avoidance of Tax Code Section 72(e) through the serial purchase of annuity contracts or otherwise.

Withholding. We will withhold and remit to the IRS a part of the taxable portion of each distribution made under a contract unless the distributee notifies us at or before the time of the distribution that he or she elects not to have any amounts withheld. Withholding is mandatory, however, if the distributee fails to provide a valid taxpayer identification number or if we are notified by the IRS that the taxpayer identification number we have on file is incorrect. The withholding rates applicable to the taxable portion of periodic annuity payments are the same as the withholding rates generally applicable to payments of wages. In addition, a 10% withholding rate applies to the taxable portion of any non-periodic payments. Regardless of whether you elect to have federal income tax withheld, you are still liable for payment of federal income tax on the taxable portion of the payment.

Certain states have indicated that state income tax withholding will also apply to payments from the contracts made to residents. Generally, an election out of federal withholding will also be considered an election out of state withholding. In some states, you may elect out of state withholding, even if federal withholding applies. If you need more information concerning a particular state or any required forms, please contact your sales representative or call us at the number listed in “**CONTRACT OVERVIEW – Questions: Contacting the Company.**”

If you or your designated beneficiary is a non-resident alien, then any withholding is governed by Tax Code Section 1441 based on the individual’s citizenship, the country of domicile and treaty status, and we may require additional documentation prior to processing any requested transaction.

Taxation of Qualified Contracts

Eligible Retirement Plans and Programs

The contract may be purchased with the following retirement plans and programs to accumulate retirement savings:

- **401(a) and (401(k) Plans.** Sections 401(a) and 401(k) of the Tax Code permit certain employers to establish various types of retirement plans for employees, and permit self-employed individuals to establish these plans for themselves and their employees;
- **403(b) and Roth 403(b) Plans.** Section 403(b) of the Tax Code allows employees of certain Tax Code Section 501(c)(3) organizations and public schools to exclude from their gross income the purchase payments made, within certain limits, to a contract that will provide an annuity for the employee’s retirement. The Tax Code also allows employees of 501(c)(3) organizations to contribute after-tax salary contributions to a Roth 403(b) account, which provides for tax-free distributions, subject to certain restrictions;

- **Individual Retirement Annuities (“IRA”) and Roth IRA.** Section 408 of the Tax Code permits eligible individuals to contribute to an individual retirement program known as an Individual Retirement Annuity (“IRA”). Section 408A of the Tax Code permits certain eligible individuals to contribute to a Roth IRA, which provides for tax-free distributions, subject to certain restrictions. **Sales of the contract for use with IRAs or Roth IRAs may be subject to special requirements of the IRS. The IRS has not reviewed the contracts described in this prospectus for qualification as IRAs and has not addressed, in a ruling of general applicability, whether the contract’s death benefit provisions comply with IRA qualification requirements;** and
- **457 Plans.** Section 457 of the Tax Code permits certain employers to offer deferred compensation plans for their employees. These plans may be offered by state governments, local governments, political subdivisions, agencies, instrumentalities and certain affiliates of such entities (governmental employers), as well as non-governmental, tax-exempt organizations (non-governmental employers). Participation in a 457(b) plan maintained by a non-governmental employer is generally limited to highly-compensated employees and select management (other than 457(b) plans maintained by nonqualified, church-controlled organizations). Generally, participants may specify the form of investment for their deferred compensation account.

Special Considerations for IRAs. IRAs are subject to limits on the amounts that can be contributed, the deductible amount of the contribution, the persons who may be eligible, and the time when distributions commence. Contributions to IRAs must be made in cash or as a rollover or a transfer from another eligible plan. Also, distributions from IRAs, individual retirement accounts, and other types of retirement plans may be “rolled over” on a tax-deferred basis into an IRA. You may roll over a distribution from an IRA only once in any 12 month period. Beginning in 2015, you will not be able to roll over any portion of an IRA distribution if you rolled over a distribution during the preceding 1-year period. This limit applies by aggregating all of your IRAs, including SEP and SIMPLE IRAs as well as traditional and Roth IRAs, effectively treating them as one IRA for purposes of this limit. Please note that this one-rollover-per-year rule does not apply to: (1) the conversion of a traditional IRA to a Roth IRA, (2) a rollover to or from a qualified plan, or (3) a trustee-to-trustee transfer between IRAs. Please consult your own tax and/or legal adviser if you have additional questions about these rules.

Special Considerations for Roth IRAs. Contributions to a Roth IRA are subject to limits on the amount of contributions and the persons who may be eligible to contribute, are not deductible, and must be made in cash or as a rollover or transfer from another Roth IRA or other IRA. Certain qualifying individuals may convert an IRA, SEP, or a SIMPLE to a Roth IRA. Such rollovers and conversions are subject to tax, and other special rules may apply. Beginning in 2015, you will not be able to roll over any portion of a Roth IRA distribution if you rolled over another IRA distribution during the preceding 1-year period. This limit applies by aggregating all of your IRAs, including SEP and SIMPLE IRAs as well as traditional and Roth IRAs, effectively treating them as one IRA for purposes of this limit. Please note that this one-rollover-per-year rule does not apply to: (1) the conversion of a traditional IRA to a Roth IRA, (2) a rollover to or from a qualified plan, or (3) a trustee-to-trustee transfer between Roth IRAs. Please consult your own tax and/or legal adviser if you have additional questions about these rules.

A 10% penalty may apply to amounts attributable to a conversion to a Roth IRA if the amounts are distributed during the five taxable years beginning with the year in which the conversion was made.

Special Considerations for Section 457 Plans. Under 457(b) plans of non-governmental employers, all amounts of deferred compensation, all property and rights purchased with such amounts and all income attributable to such amounts, property and rights remain solely the property and rights of the employer and are subject to the claims of the employer’s general creditors. 457(b) plans of governmental employers, on the other hand, are required to hold all assets and income of the plan in trust for the exclusive benefit of plan participants and their beneficiaries. For purposes of meeting this requirement, an annuity contract is treated as a trust.

Taxation

The tax rules applicable to qualified contracts vary according to the type of qualified contract, the specific terms and conditions of the qualified contract and the terms and conditions of the qualified plan or program. The ultimate effect of federal income taxes on the amounts held under a qualified contract, or on income phase (i.e., annuity) payments from a qualified contract, depends on the type of qualified contract or program as well as your particular facts and circumstances. Special favorable tax treatment may be available for certain types of contributions and distributions. In addition, certain requirements must be satisfied in purchasing a qualified contract with proceeds from a tax-qualified plan or program in order to continue receiving favorable tax treatment.

Adverse tax consequences may result from:

- Contributions in excess of specified limits;
- Distributions before age 59½ (subject to certain exceptions);
- Distributions that do not conform to specified commencement and minimum distribution rules; and
- Other specified circumstances.

Some qualified plans and programs are subject to additional distribution or other requirements that are not incorporated into the contract described in this prospectus. No attempt is made to provide more than general information about the use of the contract with qualified plans and programs. Contract holders, participants, annuitants, and beneficiaries are cautioned that the rights of any person to any benefit under these qualified plans and programs may be subject to the terms and conditions of the plan or program, regardless of the terms and conditions of the contract. The Company is not bound by the terms and conditions of such plans and programs to the extent such terms contradict the language of the contract, unless we consent in writing.

Contract holders, participants, and beneficiaries generally are responsible for determining that contributions, distributions and other transactions with respect to the contract comply with applicable law. **Therefore, you should seek tax and/or legal advice regarding the suitability of a contract for your particular situation.** The following discussion assumes that qualified contracts are purchased with proceeds from and/or contributions under retirement plans or programs that qualify for the intended special federal tax treatment.

Tax Deferral. Under federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of a qualified plan (as described in this prospectus), an annuity contract is not necessary to obtain this favorable tax treatment and does not provide any tax benefits beyond the deferral already available to the qualified plan itself. Annuities do provide other features and benefits (such as the guaranteed death benefit or the option of lifetime income phase options at established rates) that may be valuable to you. You should discuss your alternatives with a qualified financial representative taking into account the additional fees and expenses you may incur in an annuity.

Contributions

In order to be excludable from gross income for federal income tax purposes, total annual contributions to certain qualified plans and programs are limited by the Tax Code. We provide general information on these requirements for certain plans and programs below. You should consult with a tax and/or legal adviser in connection with contributions to a qualified contract.

401(a), 401(k), 403(b) and Roth 403(b) Plans. The total annual contributions (including pre-tax and Roth 403(b) after-tax contributions) by you and your employer cannot exceed, generally, the lesser of 100% of your compensation or \$53,000 (as indexed for 2016). Compensation means your compensation for the year from the employer sponsoring the plan and includes any elective deferrals under Tax Code Section 402(g) and any amounts not includible in gross income under Tax Code Sections 125 or 457.

This limit applies to your contributions as well as to any contributions made by your employer on your behalf. An additional requirement limits your salary reduction contributions to a 401(k), 403(b) or Roth 403(b) plan to generally no more than \$18,000 (2016). Contribution limits are subject to annual adjustments for cost-of-living increases. Your own limit may be higher or lower, depending upon certain conditions.

With the exception of the Roth 403(b) contributions, purchase payments to your account(s) will generally be excluded from your gross income only if the plan meets certain nondiscrimination requirements, as applicable. Roth 403(b) salary reduction contributions are made on an after-tax basis.

457(b) Plans. The total annual contributions (including pre-tax salary reduction contributions) made by you and your employer to a 457(b) plan cannot exceed, generally, the lesser of 100% of your includible compensation or \$18,000 (as indexed for 2016). Generally, includible compensation means your compensation for the year from the employer sponsoring the plan, including deferrals to the employer's Tax Code Section 401(k), 403(b), Roth 403(b), and 125 cafeteria plans in addition to any deferrals to the 457(b) plan.

Catch-up Contributions. Notwithstanding the contribution limits noted above, if permitted by the plan, a participant in a 401(k), 403(b), Roth 403(b) or 457(b) who is at least age 50 by the end of the plan year may contribute an additional amount not to exceed the lesser of:

- \$6,000; or
- The participant's compensation for the year reduced by any other elective deferrals of the participant for the year.

Special 457 Catch-ups. Additional special catch-up provisions may be available for 457(b) Plans ("Special 457 Catch-ups") during the three years prior to the participant's normal retirement age. Note that the Special 457 Catch-ups cannot be used simultaneously with the catch-up contribution provisions referenced above. Specifically, a participant may elect to defer the larger of: twice the deferral limit (\$36,000); or the basic annual limit plus the amount of the base limit not used in prior year (only allowed if not using age 50 and over catch-up contributions.) For advice with respect to these catch-up provisions, please consult your own tax and/or legal adviser.

Distributions – General

Certain tax rules apply to distributions from the contract. A distribution is any amount taken from a contract including withdrawals, income phase (i.e., annuity) payments, rollovers, exchanges and death benefit proceeds. We report the gross and taxable portions of all distributions to the IRS.

401(a), 401(k), 403(b) and Governmental 457(b) Plans. Distributions from these plans are taxed as received unless one of the following is true:

- The distribution is an eligible rollover distribution and is directly transferred or rolled over within 60 days to another plan eligible to receive rollovers or to a traditional IRA in accordance with the Tax Code;
- You made after-tax contributions to the plan. In this case, depending upon the type of distribution, the amount will be taxed according to the rules detailed in the Tax Code; or
- The distribution is a qualified health insurance premium of a retired public safety officer as defined in the Pension Protection Act of 2006.

Please note that rollover distribution of a pre-tax account is reported as a taxable distribution.

A distribution is an eligible rollover distribution unless it is:

- Part of a series of substantially equal periodic payments (at least one per year) made over the life expectancy of the participant or the joint life expectancy of the participant and his designated beneficiary or for a specified period of 10 years or more;
- A required minimum distribution under Tax Code Section 401(a)(9);
- A hardship withdrawal;
- Otherwise excludable from income; or
- Not recognized under applicable regulations as eligible for rollover.

IRAs. All distributions from an IRA are taxed as received unless either one of the following is true:

- The distribution is directly transferred to another IRA or to a plan eligible to receive rollovers as permitted under the Tax Code; or
- You made after-tax contributions to the IRA. In this case, the distribution will be taxed according to rules detailed in the Tax Code.

10% Additional Tax. The Tax Code imposes a 10% additional tax on the taxable portion of any distribution from a contract used with a 401(a), 401(k), or 403(b) plan (collectively, qualified plans), or amounts from a governmental 457(b) plan that are attributable to rollovers from qualified plans, or IRA or Roth IRA unless certain exceptions, including one or more of the following, have occurred:

- You have attained age 59½;
- You have become disabled, as defined in the Tax Code;
- You have died and the distribution is to your beneficiary;
- You have separated from service with the plan sponsor at or after age 55;
- The distribution amount is rolled over into another eligible retirement plan or to a traditional or Roth IRA in accordance with the terms of the Tax Code;

- You have separated from service with the plan sponsor and the distribution amount is made in substantially equal periodic payments (at least annually) over your life or the life expectancy or the joint lives or joint life expectancies of you and your designated beneficiary;
- The distribution is paid directly to the government in accordance with an IRS levy;
- The withdrawal amount is paid to an alternate payee under a Qualified Domestic Relations Order (“QDRO”); or
- The distribution is a qualified reservist distribution as defined under the Tax Code.

In addition, the 10% additional tax does not apply to the amount of a distribution equal to unreimbursed medical expenses incurred by you during the taxable year that qualify for deduction as specified in the Tax Code. The Tax Code may provide other exceptions or impose other penalty taxes in other circumstances.

Qualified Distributions – Roth 403(b) and Roth IRA. A partial or full distribution of purchase payments to a Roth 403(b) or a Roth IRA account and earnings credited on those purchase payments (or of in-plan rollover amounts and earnings credited on those amounts, as described in the “In-Plan Roth Rollovers” section below) will be excludable from income if it is a qualified distribution. A “qualified distribution” from a Roth 403(b) or a Roth IRA account is defined as a distribution that meets the following two requirements:

- The distribution occurs after the five-year taxable period measured from the earlier of:
 - ▷ The first taxable year you made a designated Roth contribution to any designated Roth account established for you under the same applicable retirement plan as defined in Tax Code Section 402A;
 - ▷ If a rollover contribution was made from a designated Roth account previously established for you under another applicable retirement plan, the first taxable year for which you made a designated Roth contribution to such previously established account; or
 - ▷ The first taxable year in which you made an in-plan Roth rollover of non-Roth amounts under the same plan;
 AND
- The distribution occurs after you attain age 59½, die with payment being made to your beneficiary, or become disabled as defined in the Tax Code.

A distribution from a Roth account that is not a qualified distribution is includible in gross income under the Tax Code in proportion to your investment in the contract (basis) and earnings on the contract.

Distributions – Eligibility

401(a) Pension Plans. Subject to the terms of your 401(a) pension plan, distributions may only occur upon:

- Retirement;
- Death;
- Disability;
- Severance from employment;
- Attainment of normal retirement age;
- Attainment of age 62 under a phased retirement provision if available under your plan as described in the Pension Protection Act of 2006; or
- Termination of the plan.

Such distributions remain subject to other applicable restrictions under the Tax Code.

401(k) Plans. Subject to the terms of your 401(k) plan, distributions from your 401(k) employee account, and possibly all or a portion of your 401(k) employer account, may only occur upon:

- Retirement;
- Death;
- Attainment of age 59½;
- Severance from employment;
- Disability;
- Financial hardship (contributions only, not earnings); or
- Termination of the plan (assets must be distributed within one year).

Such distributions remain subject to other applicable restrictions under the Tax Code.

403(b) and Roth 403(b) Plans. Distribution of certain salary reduction contributions and earnings on such contributions restricted under Tax Code Section 403(b)(11) may only occur upon:

- Death;
- Attainment of age 59½;
- Severance from employment;
- Disability;
- Financial hardship (contributions only, not earnings);
- Termination of the plan (assets must be distributed within one year); or
- Meeting other circumstances as allowed by federal law, regulations or rulings.

Such distributions remain subject to other applicable restrictions under the Tax Code.

Effective January 1, 2009 and for any contracts or participant accounts established on or after that date, 403(b) regulations prohibit the distribution of amounts attributable to employer contributions before the earlier of your severance from employment or prior to the occurrence of some event as provided under your employer's plan, such as after a fixed number of years, the attainment of a stated age, or a disability.

If the Company agrees to accept amounts exchanged from a Tax Code Section 403(b)(7) custodial account, such amounts will be subject to the withdrawal restrictions set forth in Tax Code Section 403(b)(7)(A)(ii).

Pursuant to new tax regulations, before we process a withdrawal request we generally are required to confirm with your 403(b) plan sponsor or otherwise that the withdrawals you request from a 403(b) contract comply with applicable tax requirements.

457(b) Plans. Under 457(b) plans, distributions may not be made available to you earlier than:

- The calendar year you attain age 70½;
- When you experience a severance from employment; or
- When you experience an unforeseeable emergency.

A one-time in-service distribution may also be permitted under a Section 457(b) plan sponsored by a tax exempt entity if the total amount payable to the participant does not exceed \$5,000 and no amounts have been deferred by the participant during the two-year period ending on the date of distribution.

Lifetime Required Minimum Distributions (401(a), 401(k), 403(b), Roth 403(b), 457(b) Plans and IRAs)

To avoid certain tax penalties, you and any designated beneficiary must also satisfy the required minimum distribution rules set forth in the Tax Code. These rules dictate the following:

- Start date for distributions;
- The time period in which all amounts in your contract(s) must be distributed; and
- Distribution amounts.

Start Date. Generally, you must begin receiving distributions by April 1 of the calendar year following the calendar year in which you attain age 70½ or retire, whichever occurs later, unless:

- Under 401(a), 401(k), and governmental 457(b) plans, you are a 5% owner, in which case such distributions must begin by April 1 of the calendar year following the calendar year in which you attain age 70½; or
- Under 403(b) plans, the Company maintains separate records of amounts held as of December 31, 1986. In this case distribution of these amounts generally must begin by the end of the calendar year in which you attain age 75 or retire, if later. However, if you take any distributions in excess of the minimum required amount, then special rules require that the excess be distributed from the December 31, 1986 balance.

Time Period. We must pay out distributions from the contract over a period not extending beyond one of the following time periods:

- Over your life or the joint lives of you and your designated beneficiary; or
- Over a period not greater than your life expectancy or the joint life expectancies of you and your designated beneficiary.

Distribution Amounts. The amount of each required minimum distribution must be calculated in accordance with Tax Code Section 401(a)(9). The entire interest in the account includes the amount of any outstanding rollover, transfer, recharacterization, if applicable, and the actuarial present value of other benefits provided under the account, such as guaranteed death benefits and any optional living benefit.

50% Excise Tax. If you fail to receive the required minimum distribution for any tax year, a 50% excise tax may be imposed on the required amount that was not distributed.

Lifetime required minimum distributions are not applicable to Roth IRAs during your lifetime. Further information regarding required minimum distributions may be found in your contract or certificate.

Required Distributions upon Death (401(a), 401(k), 403(b), Roth 403(b), 457(b) Plans, IRAs and Roth IRAs)

Different distribution requirements apply after your death, depending upon if you have begun receiving required minimum distributions. Further information regarding required distributions upon death may be found in your contract.

If your death occurs on or after the date you begin receiving minimum distributions under the contract, distributions generally must be made at least as rapidly as under the method in effect at the time of your death. Tax Code Section 401(a)(9) provides specific rules for calculating the minimum required distributions after your death.

If your death occurs before the date you begin receiving minimum distributions under the contract, your entire balance must be distributed by December 31 of the calendar year containing the fifth anniversary of the date of your death. For example, if you die on September 1, 2016, your entire balance must be distributed to the designated beneficiary by December 31, 2021. However, if distributions begin by December 31 of the calendar year following the calendar year of your death, then payments may be made within one of the following timeframes:

- Over the life of the designated beneficiary; or
- Over a period not extending beyond the life expectancy of the designated beneficiary.

Start Dates for Spousal Beneficiaries. If the designated beneficiary is your spouse, distributions must begin on or before the later of the following:

- December 31 of the calendar year following the calendar year of your death; or
- December 31 of the calendar year in which you would have attained age 70½.

No Designated Beneficiary. If there is no designated beneficiary, the entire interest generally must be distributed by the end of the calendar year containing the fifth anniversary of the contract holder's death.

Special Rule for IRA Spousal Beneficiaries (IRAs and Roth IRAs Only). In lieu of taking a distribution under these rules, if the sole designated beneficiary is the contract owner's surviving spouse, the spousal beneficiary may elect to treat the contract as his or her own IRA and defer taking a distribution until his or her own start date. The surviving spouse is deemed to have made such an election if the surviving spouse makes a rollover to or from the contract or fails to take a distribution within the required time period.

Withholding

Any taxable distributions under the contract are generally subject to withholding. Federal income tax withholding rates vary according to the type of distribution and the recipient's tax status.

401(a), 401(k), 403(b), Roth 403(b), 457(b) Plans. Generally, eligible rollover distributions from these plans are subject to a mandatory 20% federal income tax withholding. However, mandatory withholding will not be required if you elect a direct rollover of the distributions to an eligible retirement plan or in the case of certain distributions described in the Tax Code.

457(b) Plans of Non-Governmental Employers. All distributions from these plans, except death benefit proceeds, are subject to mandatory federal income tax withholding as wages. Wage withholding is not required on payments to designated beneficiaries.

IRAs and Roth IRAs. Generally, you or, if applicable, a designated beneficiary may elect not to have tax withheld from distributions.

Non-Resident Aliens. If you or your designated beneficiary is a non-resident alien, withholding will generally be 30% based on the individual's citizenship, the country of domicile and treaty status. Section 1441 does not apply to participants in 457(b) plans of non-governmental employers, and we may require additional documentation prior to processing any requested distribution.

In-Plan Roth Rollovers

Tax Code Section 403(b) plans may add a "qualified Roth contribution program," under which employees can forego the current exclusion from gross income for elective deferrals, in exchange for the future exclusion of the distribution of the deferrals and any earnings thereon. That is, participants may elect to make non-excludable contributions to "designated Roth accounts" (instead of making excludable contributions) and to exclude from gross income (if certain conditions are met) distributions from these accounts (instead of having distributions included in gross income).

If permitted under the plan for which the contract is issued and provided the plan offers an applicable Roth account (a Roth 403(b) account), non-Roth amounts may be rolled over into a corresponding Roth account within the same plan. The Tax Code provides that, generally, an in-plan rollover to a Roth account is taxable and includable in gross income in the year the rollover occurs, just as if the amount were distributed and not rolled into a qualified account. Please note that in-plan rollovers into a Roth account are not subject to withholding. Consequently, an individual considering such a transaction may want to increase their tax withholding or make an estimated tax payment in the year of the rollover. Amounts rolled over into an in-plan Roth account cannot subsequently be converted back into a non-Roth account.

A partial or full distribution of in-plan Roth rollover amounts and earnings credited on those amounts (or of purchase payments made by salary reduction to a Roth account and earnings credited on those purchase payments, as described above) will be excludable from income if it is a qualified distribution as defined in the "Qualified Distributions – Roth 403(b) and Roth IRA" section above.

In-plan Roth rollovers are not subject to the 10% additional tax on early distributions under Tax Code Section 72(t) that would normally apply to distributions from a 401(k) or 403(b) plan (or from a governmental 457(b) plan to the extent such amounts are attributable to rollovers from a 401(a), 401(k) or 403(b) plan). However, a special recapture rule applies when a plan distributes any part of the in-plan Roth rollover within a five-year taxable period, making the distribution subject to the 10% additional tax on early distributions under Tax Code Section 72(t) unless an exception to this tax applies or the distribution is allocable to any nontaxable portion of the in-plan Roth rollover. The five-year taxable period begins January 1 of the year of the in-plan Roth rollover and ends on the last day of the fifth year of the period. This special recapture rule does not apply when the participant rolls over the distribution to another designated Roth account or to a Roth IRA but does apply to a subsequent distribution from the rolled over account or Roth IRA within the five-year taxable period.

Due to administrative complexity, certain in-plan Roth rollovers may not be available through the contract. Additionally, the tax rules associated with Roth accounts and in-plan Roth rollovers can be complex and you should seek tax and/or legal advice regarding your particular situation.

Assignment and Other Transfers

401(a), 401(k), 403(b), Roth 403(b) and 457(b) Plans. Adverse tax consequences to the plan and/or to you may result if your beneficial interest in the contract is assigned or transferred to persons other than:

- A plan participant as a means to provide benefit payments;
- An alternate payee under a QDRO in accordance with Tax Code Section 414(p); or
- The Company as collateral for a loan; or
- The enforcement of a federal income tax lien or levy.

IRAs and Roth IRAs. The Tax Code does not allow a transfer or assignment of your rights under these contracts except in limited circumstances. Adverse tax consequences may result if you assign or transfer your interest in the contract to persons other than your spouse incident to a divorce. Anyone contemplating such an assignment or transfer should contact a tax and/or legal adviser regarding the potential tax effects of such a transaction.

Tax Consequences of Enhanced Death Benefits

The contract offers an optional endorsement that offers a death benefit that may exceed the greater of purchase payments and the contract value. It is possible that the IRS could characterize such a death benefit as other than an incidental death benefit, which may result in currently taxable income and could affect the amount of required minimum distributions. Additionally, because certain charges are imposed with respect to some of the available death benefits it is possible these charges (or some portion thereof) could be treated for federal tax purposes as a distribution from the contract. Please consult with your tax and/or legal adviser about the tax consequences of enhanced death benefits. This endorsement is not available for contracts issued in the States of Texas and Vermont.

Same-Sex Marriages

The contract provides that upon your death a surviving spouse may have certain continuation rights that he or she may elect to exercise for the contract's death benefit and any joint-life coverage under a living benefit. All contract provisions relating to spousal continuation are available only to a person who meets the definition of "spouse" under federal law. The U.S. Supreme Court has held that same-sex marriages must be permitted under state law and that marriages recognized under state law will be recognized for federal law purposes. Domestic partnerships and civil unions that are not recognized as legal marriages under state law, however, will not be treated as marriages under federal law. Please consult your tax and/or legal adviser for further information about this subject.

Possible Changes in Taxation

Although the likelihood of changes in tax legislation, regulation, rulings and other interpretation thereof is uncertain, there is always the possibility that the tax treatment of the contracts could change by legislation or other means. It is also possible that any change could be retroactive (i.e., effective before the date of the change). You should consult a tax and/or legal adviser with respect to legislative developments and their effect on the contract.

Taxation of the Company

We are taxed as a life insurance company under the Tax Code. The separate account is not a separate entity from us. Therefore, it is not taxed separately as a "regulated investment company" but is taxed as part of the Company.

We automatically apply investment income and capital gains attributable to the separate account to increase reserves under the contracts. Because of this, under existing federal tax law we believe that any such income and gains will not be taxed to the extent that such income and gains are applied to increase reserves under the contracts. In addition, any foreign tax credits attributable to the separate account will be first used to reduce any income taxes imposed on the separate account before being used by the Company.

In summary, we do not expect that we will incur any federal income tax liability attributable to the separate account and we do not intend to make any provision for such taxes. However, changes in federal tax laws and/or their interpretation thereof may result in our being taxed on income or gains attributable to the separate account. In this case we may impose a charge against the separate account (with respect to some or all of the contracts) to set aside provisions to pay such taxes. We may deduct this amount from the separate account, including from your contract value invested in the subaccounts.

CONTRACT DISTRIBUTION

General. The Company's affiliate, Voya Financial Partners, LLC, serves as the principal underwriter for the contract. Voya Financial Partners, LLC, a Delaware limited liability company, is registered as a broker-dealer with the SEC. Voya Financial Partners, LLC is also a member of FINRA and the Securities Investor Protection Corporation ("SIPC"). Voya Financial Partners, LLC's principal office is located at One Orange Way, Windsor, Connecticut 06095-4774.

We sell the contracts through licensed insurance agents who are registered representatives of broker/dealers that have entered into selling agreements with Voya Financial Partners, LLC. We refer to these broker/dealers as “distributors.” Voya Financial Advisors, Inc. is a distributor affiliated with the Company that has entered into a selling agreement with Voya Financial Partners, LLC for the sale of our variable annuity contracts.

Registered representatives of distributors who solicit sales of the contracts typically receive a portion of the compensation paid to the distributor in the form of commissions or other compensation, depending upon the agreement between the distributor and the registered representative. This compensation, as well as other incentives or payments, is not paid directly by contract owners or the separate account, but instead is paid by us through Voya Financial Partners, LLC. We intend to recoup this compensation and other sales expenses paid to distributors through fees and charges imposed under the contracts.

Compensation Arrangements. Registered representatives who offer and sell the contracts may be paid a commission. The maximum percentage amount that may be paid with respect to a given purchase payment ranges from 0.0% to a maximum of 6.75% of the payments to an account. Asset-based compensation of up to 1.0% may also be paid.

Individual registered representatives may receive all or a portion of compensation paid to their distributor, depending upon the firm’s practices. Commissions and annual payments, when combined, could exceed 6.75% of total purchase payments. To the extent permitted by SEC and FINRA rules and other applicable laws and regulations, we may also pay or allow other promotional incentives or payments in the form of cash payments or other compensation to distributors, which may require the registered representative to attain a certain threshold of sales of Company products. These other promotional incentives or payments may not be offered to all distributors, and may be limited only to Voya Financial Advisors, Inc. and other distributors affiliated with the Company.

We may also enter into special compensation arrangements with certain distributors based on those firms’ aggregate or anticipated sales of the contracts or other criteria. These arrangements may include commission specials, in which additional commissions may be paid in connection with purchase payments received for a limited time period, within the maximum commission rates noted above. These special compensation arrangements will not be offered to all distributors, and the terms of such arrangements may differ among distributors based on various factors. These special compensation arrangements may also be limited only to Voya Financial Advisors, Inc. and other distributors affiliated with the Company. Any such compensation payable to a distributor will not result in any additional direct charge to you by us.

Some personnel may receive various types of non-cash compensation as special sales incentives, including trips, and we may also pay for some personnel to attend educational and/or business seminars. Any such compensation will be paid in accordance with SEC and FINRA rules. Employees of the Company or its affiliates (including wholesaling employees) may receive more compensation when funds advised by the Company or its affiliates (“affiliated funds”) are selected by a contract holder than when unaffiliated funds are selected. Additionally, management personnel of the Company, and of its affiliated broker-dealers, may receive additional compensation if the overall amount of investments in funds advised by the Company or its affiliates meets certain target levels or increases over time. Compensation for certain management personnel, including sales management personnel, may be enhanced if management personnel meet or exceed goals for sales of the contracts, or if the overall amount of investments in the contracts and other products issued or advised by the Company or its affiliates increases over time. Certain management personnel may also receive compensation that is a specific percentage of the commissions paid to distributors or of purchase payments received under the contracts, or which may be a flat dollar amount that varies based upon other factors, including management’s ability to meet or exceed service requirements, sell new contracts or retain existing contracts, or sell additional service features such as a common remitting program.

In addition to direct cash compensation for sales of contracts described above, through Voya Financial Partners, LLC, we may also pay distributors additional compensation or reimbursement of expenses for their efforts in selling contracts to you and other customers. These amounts may include:

- Marketing/distribution allowances that may be based on the percentages of purchase payments received, the aggregate commissions paid and/or the aggregate assets held in relation to certain types of designated insurance products issued by the Company and/or its affiliates during the year;
- Loans or advances of commissions in anticipation of future receipt of purchase payments (a form of lending to registered representatives). These loans may have advantageous terms, such as reduction or elimination of the interest charged on the loan and/or forgiveness of the principal amount of the loan, which may be conditioned on sales;

- Education and training allowances to facilitate our attendance at certain educational and training meetings to provide information and training about our products. We also hold training programs from time to time at our own expense;
- Sponsorship payments or reimbursements for distributors to use in sales contests and/or meetings for their registered representatives who sell our products. We do not hold contests based solely on sales of this product;
- Certain overrides and other benefits that may include cash compensation based on the amount of earned commissions, representative recruiting or other activities that promote the sale of contracts; and
- Additional cash or noncash compensation and reimbursements permissible under existing law. This may include, but is not limited to, cash incentives, merchandise, trips, occasional entertainment, meals and tickets to sporting events, client appreciation events, business and educational enhancement items, payment for travel expenses (including meals and lodging) to pre-approved training and education seminars, and payment for advertising and sales campaigns.

We pay dealer concessions, wholesaling fees, overrides, bonuses, other allowances and benefits and the costs of all other incentives or training programs from our resources, which include the fees and charges imposed under the contracts.

The following is a list of the top 25 distributors that, during 2015, received the most compensation, in the aggregate, from us in connection with the sale of registered variable annuity contracts issued by the Company, ranked by total dollars received:

- | | |
|--------------------------------------|--|
| • Voya Financial Advisors, Inc.; | • AXA Advisors, LLC; |
| • GWN Securities, Inc.; | • OneAmerica Securities, Inc.; |
| • PlanMember Securities Corporation; | • Centaurus Financial, Inc.; |
| • Lincoln Investment Planning, Inc.; | • Raymond James Financial, Inc.; |
| • LPL Financial Corporation; | • ProEquities, Inc.; |
| • CUSO Financial Services, L.P.; | • Transamerica Financial Advisors, Inc.; |
| • Sunset Financial Services, Inc.; | • Parkland Securities, LLC; |
| • Royal Alliance Associates, Inc.; | • Wells Fargo Advisors, LLC; |
| • Cetera Financial Group; | • Ameritas Investment Corp.; |
| • Legend Equities Corporation; | • SagePoint Financial, Inc.; |
| • Securities America, Inc.; | • Quest Capital Strategies, Inc.; and |
| • GLP Investment Services, LLC; | • S I I Investments Inc. |
| • National Planning Corporation; | |

This is a general discussion of the types and levels of compensation paid by us for the sale of our variable annuity contracts. It is important for you to know that the payment of volume or sales-based compensation to a distributor or registered representative may provide that registered representative a financial incentive to promote our contracts and/or services over those of another company, and may also provide a financial incentive to promote one of our contracts over another.

The names of the distributor and the registered representative responsible for your account are stated in your enrollment materials.

Third Party Compensation Arrangements. Please be aware that:

- The Company may seek to promote itself and the contracts by sponsoring or contributing to events sponsored by various associations, professional organizations and labor organizations;
- The Company may make payments to associations and organizations, including labor organizations, which endorse or otherwise recommend the contracts to their membership. If an endorsement is a factor in your contract purchasing decision, more information on the payment arrangement, if any, is available upon your request; and
- At the direction of the contract holder, the Company may make payments to the contract holder, its representatives or third party service providers intended to defray or cover the costs of plan or program related administration.

The OMNI Financial Group, Inc. (OMNI) is a third party administrator which has established a Preferred Provider Program (“P3”) and has recommended the Company for inclusion in the P3 program based upon the Company meeting or exceeding the established P3 qualifications and standards. For plans that utilize OMNI services and have enrolled in the P3 program, the Company pays OMNI \$36 per year for each actively contributing participant to cover a share of the plan administration fees payable to OMNI.

OTHER TOPICS

Order Processing

In certain circumstances, we may need to correct the pricing associated with an order that has been processed. In such circumstances, we may incur a loss or receive a gain depending upon the price of the fund when the order was executed and the price of the fund when the order is corrected. Losses may be covered from our assets and gains that may result from such order correction will be retained by us as additional compensation associated with order processing.

Anti-Money Laundering

In order to protect against the possible misuse of our products in money laundering or terrorist financing, we have adopted an anti-money laundering program satisfying the requirements of the USA PATRIOT Act and other current anti-money laundering laws. Among other things, this program requires us, our agents and customers to comply with certain procedures and standards that will allow us to verify the identity of the sponsoring organization and that contributions and loan repayments are not derived from improper sources.

Under our anti-money laundering program, we may require customers, and/or beneficiaries to provide sufficient evidence of identification, and we reserve the right to verify any information provided to us by accessing information databases maintained internally or by outside firms.

We may also refuse to accept certain forms of payments or loan repayments (traveler’s cheques, cashier’s checks, bank drafts, bank checks and treasurer’s checks, for example) or restrict the amount of certain forms of payments or loan repayments (money orders totaling more than \$5,000, for example). In addition, we may require information as to why a particular form of payment was used (third party checks, for example) and the source of the funds of such payment in order to determine whether or not we will accept it. Use of an unacceptable form of payment may result in us returning the payment to you.

Applicable laws designed to prevent terrorist financing and money laundering might, in certain circumstances, require us to block certain transactions until authorization is received from the appropriate regulator. We may also be required to provide additional information about you and your policy to government regulators.

Our anti-money laundering program is subject to change without notice to take account of changes in applicable laws or regulations and our ongoing assessment of our exposure to illegal activity.

Unclaimed Property

Every state has some form of unclaimed property laws that impose varying legal and practical obligations on insurers and, indirectly, on contract owners, insureds, beneficiaries and other payees of proceeds. Unclaimed property laws generally provide for escheatment to the state of unclaimed proceeds under various circumstances.

Contract owners are urged to keep their own, as well as their beneficiaries’ and other payees’, information up to date, including full names, postal and electronic media addresses, telephone numbers, dates of birth, and Social Security numbers. Such updates should be communicated to Customer Service in writing at the addresses provided in “**CONTRACT OVERVIEW—Questions: Contacting the Company**” or by calling 1-877-884-5050.

Cyber Security

Like others in our industry, we are subject to operational and information security risks resulting from “cyber-attacks,” “hacking” or similar illegal or unauthorized intrusions into computer systems and networks. These risks include, among other things, the theft, misuse, corruption and destruction of data maintained online or digitally, denial of service attacks on websites and other operational disruption and unauthorized release of confidential customer information. Although we seek to limit our vulnerability to such risks through technological and other means and we rely on industry standard commercial technologies to maintain the security of our information systems, it is not possible to anticipate or prevent all potential forms of cyber-attack or to guarantee our ability to fully defend against all such attacks. In addition, due to the sensitive nature of much of the financial and similar personal information we maintain, we may be at particular risk for targeting.

Cyber-attacks affecting us, any third party administrator, the underlying funds, intermediaries and other affiliated or third-party service providers may adversely affect us and your account value. For instance, cyber-attacks may interfere with our processing of contract transactions, including the processing of orders from our website or with the underlying funds, impact our ability to calculate AUVs, cause the release and possible destruction of confidential customer or business information, impede order processing, subject us and/or our service providers and intermediaries to regulatory fines and financial losses and/or cause reputational damage. Cyber security risks may also affect the issuers of securities in which the underlying funds invest, which may cause the funds underlying your contract to lose value. There can be no assurance that we or the underlying funds or our service providers will avoid losses affecting your contract that result from cyber-attacks or information security breaches in the future.

Contract Modifications

We may change the contract as required by federal or state law or as otherwise permitted in the contract, including any changes required to maintain the contract as a designated Roth annuity contract under the Tax Code, regulations, IRS rulings and requirements. Certain changes will require the approval of appropriate state or federal regulatory authorities.

Legal Proceedings

We are not aware of any pending legal proceedings that are likely to have a material adverse effect upon the Company’s ability to meet its obligations under the contract, Voya Financial Partners, LLC’s ability to distribute the contract or upon the separate account.

- **Litigation.** Notwithstanding the foregoing, the Company and/or Voya Financial Partners, LLC, is a defendant in a number of litigation matters arising from the conduct of its business, both in the ordinary course and otherwise. In some of these matters, claimants seek to recover very large or indeterminate amounts, including compensatory, punitive, treble and exemplary damages. Certain claims are asserted as class actions. Modern pleading practice in the U.S. permits considerable variation in the assertion of monetary damages and other relief. The variability in pleading requirements and past experience demonstrates that the monetary and other relief that may be requested in a lawsuit or claim oftentimes bears little relevance to the merits or potential value of a claim.
- **Regulatory Matters.** As with other financial services companies, the Company and its affiliates, including Voya Financial Partners, LLC, periodically receive informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the Company or the financial services industry. It is the practice of the Company to cooperate fully in these matters. Regulatory investigations, exams, inquiries and audits could result in regulatory action against the Company or subject the Company to settlement payments, fines, penalties and other financial consequences, as well as changes to the Company’s policies and procedures.

The outcome of a litigation or regulatory matter and the amount or range of potential loss is difficult to forecast and estimating potential losses requires significant management judgment. It is not possible to predict the ultimate outcome for all pending litigation and regulatory matters and given the large and indeterminate amounts sought and the inherent unpredictability of such matters, it is possible that an adverse outcome in certain litigation or regulatory matters could, from time to time, have a material adverse effect upon the Company’s results of operations or cash flows in a particular quarterly or annual period.

Payment Delay or Suspension

We reserve the right to suspend or postpone the date of any payment of benefits or values under any one of the following circumstances:

- On any valuation day when the NYSE is closed (except customary weekend and holiday closings) or when trading on the NYSE is restricted;
- When an emergency exists as determined by the SEC so that disposal of the securities held in the subaccounts is not reasonably practicable or it is not reasonably practicable to fairly determine the value of the subaccount's assets; and
- During any other periods the SEC may by order permit for the protection of investors.

The conditions under which restricted trading or an emergency exists shall be determined by the rules and regulations of the SEC.

Payment of benefits or values may also be delayed or suspended as required by court order or other regulatory proceeding.

Transfers, Assignments or Exchanges of a Contract

A transfer of ownership or assignment of a contract, the designation of an annuitant, payee or other beneficiary who is not also the contract owner, or the exchange of a contract may result in certain tax consequences to the contract owner that are not discussed herein. A contract owner contemplating any such transfer, assignment, or exchange of a contract should contact a competent tax adviser with respect to the potential tax effects of such a transaction.

Involuntary Terminations

Your contract will terminate if:

- The entire account value is withdrawn on or before income phase payments begin;
- The account value is paid in a lump sum as the death benefit before income phase payments begin; or
- Subject to state laws and regulations, the outstanding loan balance equals or exceeds the account value less any early withdrawal charges.

In addition, we reserve the right to terminate a contract if you have not made any purchase payments for a period of two full years and the guaranteed monthly benefit under the life annuity with payments for ten or 20 years would be less than \$20 per month when you reach age 71 or at the end of the twelfth contract year, whichever is later.

Reports to Owners

At least once in each account year we will provide you with a statement of your account value and, if appropriate, any outstanding loan balance. If you elect to receive your statements electronically, we will send you a notification email informing you that your statement is available online. Otherwise, written statements will be mailed to the last known address of record. Confirmation of every financial transaction made under the contract will be made immediately; however, confirmation of periodic payments made through salary reduction arrangements will be made quarterly.

To reduce expenses, only one copy of most financial reports and prospectuses, including reports and prospectuses for the funds, will be mailed to your household, even if you or other persons in your household have more than one contract issued by us or one of our affiliates. Call us at the number listed in “**CONTRACT OVERVIEW – Questions: Contacting the Company**” if you need additional copies of financial reports, prospectuses or annual and semi-annual reports or if you would like to receive one copy for each contract in all future mailings.

CONTENTS OF THE STATEMENT OF ADDITIONAL INFORMATION

The SAI contains more specific information on the separate account and the contract, as well as the financial statements of the separate account and the Company. The following is a list of the contents of the SAI:

APPENDIX I

THE FIXED ACCOUNTS

General Disclosure

- Fixed Account A, Fixed Account B and Fixed Account C (collectively, the fixed accounts) are investment options available during the accumulation phase.
- Amounts allocated to the fixed accounts are held in the Company's general account which supports insurance and annuity obligations.
- All or a portion of your purchase payments may be allocated to the fixed accounts.
- Interests in the fixed accounts have not been registered with the SEC in reliance on exemptions under the Securities Act of 1933, as amended.
- The fixed accounts have not been registered as investment companies under the Investment Company Act of 1940.
- Disclosure in this prospectus regarding the fixed accounts may be subject to certain generally applicable provisions of the federal securities laws relating to the accuracy and completeness of the statements.
- Disclosure in this appendix regarding the fixed accounts has not been reviewed by the SEC.
- Additional information about the fixed accounts may be found in the contracts.

Interest Rates

- The fixed accounts have an interest rate that is set periodically by the Company. Under this option we assume the risk of investment gain or loss by guaranteeing the amounts you allocate to this option and promising a minimum interest rate and income phase payment. The minimum guaranteed interest rate is set forth in the contract. The Company, may credit interest in excess of the guaranteed rate. Amounts applied to the fixed account are guaranteed to earn the interest rate in effect at the time money is applied for 12 months from the date a purchase payment is received. Subsequent interest rates for that amount are credited with excess interest at the rates in effect for the then current 12 month period. Among other factors, the safety of the interest rate guarantees depends upon the Company's claims paying ability.
- The Company determines excess interest credits, if any, based on a number of factors, including, but not limited to, investment yield rates, taxes, contract persistency, other experience factors and Company profit objectives. In order to encourage new purchase payments or transfers, the Company may at certain times credit a higher initial interest rate to new purchase payments or transfers than it would otherwise credit based on other factors. As the Company resets interest rates beginning 12 months after a purchase payment or transfer is received, and annually thereafter, any higher initial interest rate credited may be discontinued at any time. The relatively higher initial interest rates are credited with the expectation that over time the Company will lower interest rates, or not raise them as quickly as it otherwise might, on those same purchase payments or transfers. Due to all of these factors, the initial interest rate may be higher than, and not representative of, the rates that will be credited in subsequent years for existing purchase payments or transfers.
- The Company is not aware of any statutory limitations on the maximum amount of interest it may credit, and the Board of Directors has set no limitations. However, inherent in the Company's exercise of discretion in this regard is the equitable allocation of distributable earnings and surplus among its various contract holders, contract owners and stockholders.

Transfers from the Fixed Accounts. Subject to the conditions applicable to transfers among subaccounts, transfers of unloaned amounts from Fixed Account A may be made to the subaccounts or to Fixed Account B any time during the accumulation phase. During the income phase transfers into or between the fixed accounts are not allowed.

Transfers of amounts in Fixed Account B to the subaccounts or to Fixed Account A are subject to the following conditions:

- Transfers may only be made during a reallocation period which begins 30-days before and ends 30 days after an account anniversary and only one transfer may be made during such period (reallocation period);
- Your request for transfer must be received by us no more than 30 days before the start of a reallocation period and no later than ten days before the end of a reallocation period;
- Transfer amounts may not exceed the greater of 25% of the Fixed Account B account value or \$1,000 (if the balance in Fixed Account B after such transfer would be less than \$1,000, the entire account value may be transferred); and
- Transfer amounts may not be less than \$250 (if the balance in Fixed Account B is less than \$250, the entire account value must be transferred).

Transfers of amounts in Fixed Account C are subject to the following conditions:

- Transfers must begin within 30 days of deposit and must be in substantially equal payments over a 12-month period. Transfers will occur any time before the 29th day of each month (reallocation date). You may instruct us on which day you want the transfer to occur;
- If additional purchase payment(s) are received for allocation to Fixed Account C, the balance of Fixed Account C will be adjusted to reflect the subsequent payment(s) and transfers will be recalculated based on the remaining 12-month period;
- You may change the subaccount(s) receiving Fixed Account C transfers by written request before the reallocation date. Only one transfer from Fixed Account C shall take place at any one time;
- If transfers from Fixed Account C are discontinued prior to the end of the 12-month period, the remaining balance of Fixed Account C will be reallocated as directed by you; and
- Transfers from Fixed Account C to Fixed Account A and Fixed Account B are not permitted.

Transfers into Fixed Account C from any subaccount or from any other fixed option are not allowed.

After the start of the income phase, reserves supporting fixed income phase payments cannot be reallocated. We reserve the right to allow transfers from Fixed Account C in excess of the limits described above on a non-discriminatory basis.

Dollar Cost Averaging. Amounts you invest in the fixed accounts may be automatically transferred into the other investment options. Transfers from Fixed Account C to Fixed Account A and Fixed Account B are not permitted. Transfers from Fixed Account A may be made on a monthly, quarterly, semi-annual or annual basis. Transfers from Fixed Account C may be made on a monthly basis. Interest earned on amounts invested in Fixed Account B may be automatically transferred into the other investment options. See **“TRANSFERS – Dollar Cost Averaging Program.”** Additionally:

- Only automatic transfers of 100% of interest earned in Fixed Account B are allowed, and transfers to Fixed Account A or Fixed Account C are not allowed. We will only transfer interest that is earned after you have elected this option. Reallocations of this type may be made on a monthly, quarterly, semi-annual or annual basis; and
- To elect transfers of this type, your account value must be at least \$10,000 and the Fixed Account B account value must be at least \$5,000. We reserve the right to discontinue transfers of this type when the Fixed Account B account value becomes less than \$5,000.

Withdrawals. Under certain emergency conditions we may defer payment of any withdrawal for a period of up to six months or as provided by federal law. Withdrawals will be made on a last-in first-out basis (i.e., the most recent purchase payment and associated earnings on that purchase payment will be the first to be withdrawn from the contract value, followed by the next most recent purchase payment and associated earnings, and so on).

Loans. Loans are not allowed from Fixed Account C. See **“LOANS.”**

Charges. We do not make deductions from amounts in the fixed accounts to cover mortality and expense risks. We consider these risks when determining the credited rate. We expect to derive a profit from the determination of the credited rate. If you make a full withdrawal, the amount available from the fixed accounts will be reduced by any applicable early withdrawal charge and annual maintenance fee. See **“FEE TABLE” and “FEES.”**

Guarantee. We guarantee that the fixed account value will not be less than the amount of purchase payments and transfers allocated to the fixed account, plus interest at the minimum guaranteed rate disclosed in the annuity contract, compounded annually, plus any additional interest which we may, in our discretion, credit to the fixed accounts, less the sum of all annual administrative charges or early withdrawal charges, any applicable premium taxes and any amounts withdrawn or reallocated from the fixed accounts.

APPENDIX II

FUND DESCRIPTIONS

The investment results of the mutual funds (funds) are likely to differ significantly and there is no assurance that any of the funds will achieve their respective investment objectives. You should consider the investment objectives, risks and charges, and expenses of the funds carefully before investing. Please refer to the fund prospectuses for additional information. Shares of the funds will rise and fall in value and you could lose money by investing in the funds. Shares of the funds are not bank deposits and are not guaranteed, endorsed or insured by any financial institution, the FDIC or any other government agency. Fund prospectuses may be obtained free of charge at the address and telephone number listed in “CONTRACT OVERVIEW – Questions: Contacting the Company,” by accessing the SEC’s website or by contacting the SEC Public Reference Branch. If you received a summary prospectus for any of the funds available through your contract, you may obtain a full prospectus and other fund information free of charge by either accessing the internet address, calling the telephone number or sending an email request to the email address shown on the front of the fund’s summary prospectus.

Certain funds offered under the contracts have investment objectives and policies similar to other funds managed by the fund’s investment adviser. The investment results of a fund may be higher or lower than those of other funds managed by the same adviser. There is no assurance and no representation is made that the investment results of any fund will be comparable to those of another fund managed by the same investment adviser.

For the share class of each fund offered through your contract, please see the cover page.

Fund Name Investment Adviser/Subadviser	Investment Objective(s)
American Funds Insurance Series[®] – Growth FundSM Investment Adviser: Capital Research and Management Company SM	Seeks growth of capital.

RELIASTAR LIFE
VOYA ADVANTAGE CENTURYSM

INDIVIDUAL DEFERRED VARIABLE/FIXED ANNUITY CONTRACTS
ISSUED BY SEPARATE ACCOUNT N
AND
RELIASTAR LIFE INSURANCE COMPANY

Statement of Additional Information dated May 1, 2016

This Statement of Additional Information is not a prospectus, and should be read in conjunction with the current prospectus dated May 1, 2016 relating to the individual fixed and variable deferred annuity contracts issued by Separate Account N (the “separate account”) and ReliaStar Life Insurance Company (the “Company,” “we,” “us,” “our”). A copy of the prospectus may be obtained from Customer Service at P.O. Box 5050, Minot, North Dakota 58702-5050, by calling 1-877-884-5050, or from Voya Financial Partners, LLC, One Orange Way, Windsor, Connecticut 06095-4774.

Read the prospectus before you invest. Capitalized terms used in this Statement of Additional Information that are not otherwise defined herein shall have the same meaning as in the prospectus.

Financial Statements – Statutory Basis of ReliaStar Life Insurance Company	1

GENERAL INFORMATION AND HISTORY

ReliaStar Life Insurance Company (the “Company,” “we,” “us,” “our”) issues the contracts described in this prospectus and is responsible for providing each contract’s insurance and annuity benefits. All guarantees and benefits provided under the contracts that are not related to the separate account are subject to the claims paying ability of the Company and our general account. We are a stock life insurance company organized in 1885 and incorporated under the insurance laws of the State of Minnesota. Prior to October 1, 2002, the contracts were issued by Northern Life Insurance Company (“Northern”), a wholly owned subsidiary of the Company. On October 1, 2002, Northern merged into the Company, and the Company assumed responsibilities for Northern’s obligations under the contracts.

We are an indirect, wholly owned subsidiary of Voya Financial, Inc. (“Voya[®]”), which until April 7, 2014, was known as ING U.S., Inc. In May 2013 the common stock of Voya began trading on the New York Stock Exchange under the symbol “VOYA” and Voya completed its initial public offering of common stock.

The assets of the separate account are held by the Company. The separate account has no custodian. However, the funds in whose shares the assets of the separate account are invested each have custodians, as discussed in their respective prospectuses.

SEPARATE ACCOUNT N

We established Separate Account N on October 1, 2002 under the insurance laws of the State of Minnesota. The separate account is registered as a unit investment trust under the Investment Company Act of 1940, as amended. It also meets the definition of “separate account” under the federal securities laws. Prior to October 1, 2002, the separate account was known as Separate Account One of Northern, which was created in 1994 under Washington law. In connection with the merger of Northern and the Company, the separate account was transferred to the Company.

Purchase payments to accounts under the contract may be allocated to one or more of the available subaccounts and/or to any available Fixed Account which for retail series contracts includes Fixed Account A, Fixed Account B and/or Fixed Account C (which are part of the general account of the Company).

We may make additions to, deletions from or substitutions of available investment options as permitted by law and subject to the conditions of the contract. The availability of the funds is subject to applicable regulatory authorization. Not all funds are available in all jurisdictions, under all contracts, or under all plans.

A complete description of each of the funds, including their investment objectives, policies, risks and fees and expenses, is contained in the prospectuses and statements of additional information for each of the funds.

OFFERING AND PURCHASE OF CONTRACTS

Effective January 1, 2004, the contracts are distributed by Voya Financial Partners, LLC, the principal underwriter for the contracts and an affiliate of the Company. Voya Financial Partners, LLC, a Delaware limited liability company, is registered as a broker-dealer with the SEC. Voya Financial Partners, LLC is also a member of the Financial Industry Regulatory Authority, and the Securities Investor Protection Corporation. Voya Financial Partners, LLC’s principal office is located at One Orange Way, Windsor, Connecticut 06095-4774. Prior to January 1, 2004, the contracts were distributed by Washington Square Securities, Inc. (WSSI), an affiliate of the Company. The contracts are distributed through life insurance agents who are registered representatives of Voya Financial Partners, LLC or of other broker-dealers who have entered into sales arrangements with Voya Financial Partners, LLC. The offering of the contracts is continuous. A description of the manner in which contracts are purchased may be found in the prospectus under the sections entitled “PURCHASE AND RIGHTS” and “YOUR ACCOUNT VALUE.”

Compensation paid to the principal underwriter Voya Financial Partners, LLC for the years ending December 31, 2015, 2014 and 2013 amounted to \$5,503,597.27, \$6,052,710.51 and \$6,384,887.27, respectively, in connection with the distribution of all registered variable annuity products issued by Separate Account N of the Company. These amounts reflect compensation paid to Voya Financial Partners, LLC attributable to regulatory and operating expenses associated with the distribution of all registered variable annuity products issued by Separate Account N of the Company.

INCOME PHASE PAYMENTS

When you begin receiving payments under the contract during the income phase (**see “INCOME PHASE” in the prospectus**), the value of your account is determined using accumulation unit values as of the 10th valuation before the first income phase payment is due. Such value (less any applicable premium tax charge) is applied to provide income phase payments to you in accordance with the payment option and investment options elected.

The annuity option tables found in the contract show, for each option, the amount of the first income phase payment for each \$1,000 of value applied. When you select variable income payments, your account value purchases annuity units (“Annuity Units”) of the separate account subaccounts corresponding to the funds you select. The number of Annuity Units purchased is based on your account value and the value of each Annuity Unit on the day the Annuity Units are purchased. Thereafter, variable payments fluctuate as the Annuity Unit value(s) fluctuates with the investment experience of the selected investment option(s). The first income phase payment and subsequent income phase payments also vary depending on the assumed net investment rate of 3% per annum.

If the actual net investment rate on the assets of the separate account is equal to the assumed investment rate, income phase payments will remain level. If the actual net investment rate exceeds the assumed investment rate, income phase payments will increase. Conversely, if it is less, then the payments will decrease.

When the income phase begins, the annuitant is credited with a fixed number of Annuity Units (which does not change thereafter) in each of the designated investment options. This number is calculated by dividing (a) by (b), where (a) is the amount of the first income phase payment based upon a particular investment option, and (b) is the then current Annuity Unit value for that investment option. As noted, Annuity Unit values fluctuate from one valuation to the next (**see “YOUR ACCOUNT VALUE” in the prospectus**); such fluctuations reflect changes in the net investment factor for the appropriate subaccount(s) (with a seven day valuation lag which gives the Company time to process payments) and a mathematical adjustment which offsets the assumed net investment rate of 3% per annum.

EXAMPLE:

Assume that, at the date income phase payments are to begin, there are 3,000 accumulation units credited under a particular contract or account and that the value of an accumulation unit for the 10th valuation prior to retirement was \$13.650000. This produces a total value of \$40,950.

Assume also that no premium tax charge is payable and that the annuity option table in the contract provides, for the income phase payment option elected, a first monthly variable income phase payment of \$6.68 per \$1000 of value applied; the annuitant’s first monthly income phase payment would thus be 40.950 multiplied by \$6.68, or \$273.55.

Assume then that the value of an Annuity Unit upon the valuation on which the first income phase payment was due was \$13.400000. When this value is divided into the first monthly income phase payment, the number of Annuity Units is determined to be 20.414. The value of this number of Annuity units will be paid in each subsequent month. Suppose there were 30 days between the initial and second payment valuation dates. If the net investment factor with respect to the appropriate subaccount is 1.0032737 as of the 10th valuation preceding the due date of the second monthly income phase payment, dividing this factor by $1.0024331 = 1.0000810^{10}$ (to take into account 30 days of the assumed net investment rate of 3.0% per annum built into the number of Annuity Units determined above) produces a result of 1.000839. This is then multiplied by the Annuity Unit value for the prior valuation (\$13.400000 from above) to produce an Annuity Unit value of \$13.411237 for the valuation occurring when the second income phase payment is due.

The second monthly income phase payment is then determined by multiplying the number of Annuity Units by the current Annuity Unit value, or 20.414 times \$13.411237, which produces a payment of \$273.78.

PERFORMANCE REPORTING

We may advertise different types of historical performance for the subaccounts including:

- Standardized average annual total returns; and
- Non-standardized average annual total returns.

We may also advertise certain ratings, rankings or other information related to the Company, the subaccounts or the funds.

Standardized Average Annual Total Returns. We calculate standardized average annual total returns according to a formula prescribed by the SEC. This shows the percentage return applicable to \$1,000 invested in the subaccounts over the most recent month-end, one, five and ten-year periods. If the investment option was not available for the full period, we give a history from the date money was first received in that option under the separate account or from the date the fund was first available under the separate account. As an alternative to providing the most recent month-end performance, we may provide a phone number, website or both where these returns may be obtained.

We include all recurring charges during each period (e.g., mortality and expense risk charges, annual maintenance fees, administrative expense charges (if any) and any applicable early withdrawal charges).

Non-Standardized Average Annual Total Returns. We calculate non-standardized average annual total returns in a similar manner as that stated above, except we may include returns that do not reflect the deduction of any applicable early withdrawal charge. Some non-standardized returns may also exclude the effect of a maintenance fee. If we reflected these charges in the calculation, it would decrease the level of performance reflected by the calculation. Non-standardized returns may also include performance from the fund's inception date, if that date is earlier than the one we use for standardized returns.

SALES MATERIAL AND ADVERTISING

We may include hypothetical illustrations in our sales literature that explain the mathematical principles of dollar cost averaging, compounded interest, tax deferred accumulation, and the mechanics of variable annuity contracts. We may also discuss the difference between variable annuity contracts and other types of savings or investment products such as personal savings accounts and certificates of deposit.

We may distribute sales literature that compares the percentage change in accumulation unit values for any of the subaccounts to established market indices such as the Standard & Poor's 500 Stock Index and the Dow Jones Industrial Average or to the percentage change in values of other management investment companies that have investment objectives similar to the subaccount being compared.

We may publish in advertisements and reports, the ratings and other information assigned to us by one or more independent rating organizations such as A.M. Best Company, Duff & Phelps, Standard & Poor's Corporation and Moody's Investors Service, Inc. The purpose of the ratings is to reflect our financial strength and/or claims-paying ability. We may also quote ranking services such as Morningstar, Inc. and Lipper Analytical Services, Inc. which rank variable annuity or life subaccounts or their underlying funds by performance and/or investment objective. We may categorize the underlying funds in terms of the asset classes they represent and use such categories in marketing materials for the contracts. We may illustrate in advertisements the performance of the underlying funds, if accompanied by performance which also shows the performance of such funds reduced by applicable charges under the separate account. We may also show in advertisements the portfolio holdings of the underlying funds, updated at various intervals. From time to time, we will quote articles from newspapers and magazines or other publications or reports such as The Wall Street Journal, Money Magazine, USA Today and The VARDS Report.

We may provide in advertising, sales literature, periodic publications or other materials information on various topics of interest to current and prospective contract holders or participants. These topics may include the relationship between sectors of the economy and the economy as a whole and its effect on various securities markets, investment strategies and techniques (such as value investing, market timing, dollar cost averaging, asset allocation, constant ratio transfer and account rebalancing), the advantages and disadvantages of investing in tax-deferred and taxable investments, customer profiles and hypothetical purchase and investment scenarios, financial management and tax and retirement planning, and investment alternatives to certificates of deposit and other financial instruments, including comparison between the contracts and the characteristics of and market for such financial instruments.

EXPERTS

The statements of assets and liabilities of Separate Account N as of December 31, 2015, and the related statements of operations and changes in net assets for the periods disclosed in the financial statements, and the statutory basis financial statements of the Company as of December 31, 2015 and 2014, and for each of the three years in the period ended December 31, 2015 included in the Statement of Additional Information, have been audited by Ernst & Young LLP, independent registered public accounting firm, as set forth in their reports thereon appearing elsewhere herein, and are included in reliance upon such reports given on the authority of such firm as experts in accounting and auditing.

The primary business address of Ernst & Young LLP is 200 Clarendon St., Boston, MA 02116.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Participants of
ReliaStar Life Insurance Company

We have audited the accompanying statements of assets and liabilities of each of the investment divisions disclosed in Note 1 as of December 31, 2015, of ReliaStar Life Insurance Company Separate Account N (the “Account”), and the related statements of operations for the year or period then ended, and the statements of changes in net assets for the years or periods ended December 31, 2015 and 2014. These financial statements are the responsibility of the Account’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Account’s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Account’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2015, by correspondence with the transfer agents or fund companies. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of each of the investment divisions disclosed in Note 1 constituting ReliaStar Life Insurance Company Separate Account N at December 31, 2015, the results of their operations for the year or period then ended, and the changes in their net assets for the years or periods ended December 31, 2015 and 2014, in conformity with U.S. generally accepted accounting principles.

The accompanying notes are an integral part of these financial statements.

1. Organization

ReliaStar Life Insurance Company Separate Account N (the “Account”) was established by Northern Life Insurance Company (“Northern Life”) to support the operations of variable annuity contracts (“Contracts”). In 2002, Northern Life merged with ReliaStar Life Insurance Company (“ReliaStar Life” or the “Company”). The Company is an indirect, wholly owned subsidiary of Voya Financial, Inc. (“Voya Financial”), a holding company domiciled in the State of Delaware.

In 2009, ING Groep N.V. (“ING”) announced the anticipated separation of its global banking and insurance businesses, including the divestiture of Voya Financial, which together with its subsidiaries, including the Company, constituted ING's U.S.-based retirement, investment management, and insurance operations. On May 2, 2013, the common stock of Voya Financial began trading on the New York Stock Exchange under the symbol “VOYA”. On May 7, 2013 and May 31, 2013, Voya Financial completed its initial public offering of common stock, including the issuance and sale by Voya Financial of 30,769,230 shares of common stock and the sale by ING Insurance International B.V. (“ING International”), an indirect, wholly owned subsidiary of ING and previously the sole stockholder of Voya Financial, of 44,201,773 shares of outstanding common stock of Voya Financial (collectively, “the IPO”). On September 30, 2013, ING International transferred all of its shares of Voya Financial common stock to ING.

On October 29, 2013, ING completed a sale of 37,950,000 shares of common stock of Voya Financial in a registered public offering (“Secondary Offering”), reducing ING's ownership of Voya Financial to 57%.

Throughout 2014, ING completed the sale of an aggregate of 82,783,006 shares of common stock of Voya Financial in a series of registered public offerings. Also during 2014, pursuant to the terms of share repurchase agreements between ING and Voya Financial, Voya Financial acquired 19,447,847 shares of its common stock from ING. As of the end of 2014, ING's ownership of Voya Financial had been reduced to approximately 19%.

In March of 2015, ING completed a sale of 32,018,100 shares of common stock of Voya Financial in a registered public offering. Concurrently with this offering, pursuant to the terms of a share repurchase agreement between ING and Voya Financial, Voya Financial acquired 13,599,274 shares of its common stock from ING.

As a result of these transactions, ING satisfied the provisions of its agreement with the European Union regarding the divestment of its U.S. insurance and investment operations, which required ING to divest 100% of its ownership interest in Voya Financial together with its subsidiaries, by the end of 2016. ING continues to hold warrants to purchase up to 26,050,846 shares of Voya Financial common stock at an exercise price of \$48.75, in each case subject to adjustments.

The Account is registered as a unit investment trust with the Securities Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended. ReliaStar Life provides for variable accumulation and benefits under the Contracts by crediting annuity considerations to one or more divisions within the Account or a fixed account (an investment option in the Company's general account), as directed by the contract owners. The portion of the Account's

RELIASTAR LIFE INSURANCE COMPANY
SEPARATE ACCOUNT N
Notes to Financial Statements

assets applicable to Contracts will not be charged with liabilities arising out of any other business ReliaStar Life may conduct, but obligations of the Account, including the promise to make benefit payments, are obligations of ReliaStar Life. Under applicable insurance law, the assets and liabilities of the Account are clearly identified and distinguished from the other assets and liabilities of ReliaStar Life.

At December 31, 2015, the Account had 87 investment divisions (the “Divisions”), 16 of which invest in an independently managed mutual fund portfolio and 71 of which invest in a mutual fund portfolio advised by affiliates, either Voya Investments, LLC (“VIL”) or Directed Services LLC (“DSL”). The assets in each Division are invested in shares of a designated mutual fund (“Fund”) of various investment trusts (the “Trusts”).

The Divisions with asset balances at December 31, 2015, and related Trusts are as follows:

2. Significant Accounting Policies

The following is a summary of the significant accounting policies of the Account:

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments

Investments are made in shares of a Division and are recorded at fair value, determined by the net asset value per share of the respective Division. Investment transactions in each Division are recorded on the trade date. Distributions of net investment income and capital gains from each Division are recognized on the ex-distribution date. Realized gains and losses on redemptions of the shares of the Division are determined on a first-in, first-out basis. The difference between cost and current fair value of investments owned on the day of measurement is recorded as unrealized appreciation or depreciation of investments.

Federal Income Taxes

Operations of the Account form a part of, and are taxed with, the total operations of ReliaStar Life, which is taxed as a life insurance company under the Internal Revenue Code ("IRC"). Under the current provisions of the IRC, the Company does not expect to incur federal income taxes on the earnings of the Account to the extent the earnings are credited to contract owners. Accordingly, earnings and realized capital gains of the Account attributable to the contract owners are excluded in the determination of the federal income tax liability of ReliaStar Life, and no charge is being made to the Account for federal income taxes for these amounts. The Company will review this tax accounting in the event of changes in the tax law. Such changes in the law may result in a charge for federal income taxes. Uncertain tax positions are assessed at the parent level on a consolidated basis, including taxes of the operations of the Separate Account.

Contract Owner Reserves

The annuity reserves of the Account are represented by net assets on the Statements of Assets and Liabilities and are equal to the aggregate account values of the contract owners invested in the Account Divisions. Net assets allocated to contracts in the payout period are computed according to the industry standard mortality tables. The assumed investment return is elected by the annuitant and may vary from 3.5% to 5.0%. The mortality risk is fully borne by the Company. To the extent that benefits to be paid to the contract owners exceed their account values, ReliaStar Life will contribute additional funds to the benefit proceeds. Conversely, if amounts allocated exceed amounts required, transfers may be made to ReliaStar Life. Prior to the annuitization date, the Contracts are redeemable for the net cash surrender value of the Contracts.

Changes from Principal Transactions

Included in Changes from principal transactions on the Statements of Changes in Net Assets are items which relate to contract owner activity, including deposits, surrenders and withdrawals, benefits, and contract charges. Also included are transfers between the fixed account and the Divisions, transfers between Divisions, and transfers to (from) ReliaStar Life related to gains and losses resulting from actual mortality experience (the full responsibility for which is assumed by ReliaStar Life).

Subsequent Events

The Account has evaluated subsequent events for recognition and disclosure through the date the financial statements were issued.

3. Financial Instruments

The Account invests assets in shares of open-end mutual funds, which process orders to purchase and redeem shares on a daily basis at the fund's next computed net asset values ("NAV"). The fair value of the Account's assets is based on the NAVs of mutual funds, which are obtained from the transfer agent or fund companies and reflect the fair values of the mutual fund investments. The NAV is calculated daily upon close of the New York Stock Exchange and is based on the fair values of the underlying securities.

The Account's assets are recorded at fair value on the Statements of Assets and Liabilities and are categorized as Level 1 as of December 31, 2015 based on the priority of the inputs to the valuation technique below. There were no transfers among the levels for the year ended December 31, 2015. The Account had no liabilities as of December 31, 2015.

The Account categorizes its financial instruments into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument.

- Level 1 - Unadjusted quoted prices for identical assets or liabilities in an active market. The Account defines an active market as a market in which transactions take place with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 - Quoted prices in markets that are not active or valuation techniques that require inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - a) Quoted prices for similar assets or liabilities in active markets;
 - b) Quoted prices for identical or similar assets or liabilities in non-active markets;
 - c) Inputs other than quoted market prices that are observable; and
 - d) Inputs that are derived principally from or corroborated by observable market data through correlation or other means.

- Level 3 - Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant expectations in valuing the asset or liability.

4. Charges and Fees

Under the terms of the Contracts, certain charges and fees are incurred by the Contracts to cover ReliaStar Life's expenses in connection with the issuance and administration of the Contracts. Following is a summary of these charges and fees:

Mortality and Expense Risk Charges

ReliaStar Life assumes mortality and expense risks related to the operations of the Account and, in accordance with the terms of the Contracts, deducts a daily charge from the assets of the Account. Daily charges are deducted at annual rates of 1.25% to 1.40% of the average daily net asset value of each Division of the Account to cover these risks, as specified in the Contracts. These charges are assessed through a reduction in unit values.

Asset Based Administrative Charges

A charge to cover administrative expenses of the Account is deducted at annual rates up to 0.15% of the assets attributable to the Contracts. These charges are assessed through a reduction in unit values.

Contract Maintenance Charges

An annual Contract maintenance fee of up to \$35 may be deducted from the accumulation value of Contracts to cover ongoing administrative expenses, as specified in the Contracts. These charges are assessed through the redemption of units.

Contingent Deferred Sales Charges

For certain Contracts, a contingent deferred sales charge ("Surrender Charge") is imposed as a percentage that ranges up to 8.00% of each premium payment if the Contract is surrendered or an excess partial withdrawal is taken as specified in the Contract. These charges are assessed through the redemption of units.

Other Contract Charges

Certain Contracts contain optional riders that are available for an additional charge, such as minimum guaranteed accumulation benefits and minimum guaranteed withdrawal benefits. The amounts charged for these optional benefits vary based on a number of factors and are defined in the Contracts. These charges are assessed through the redemption of units.

Fees Waived by ReliaStar Life

Certain charges and fees for various types of Contracts may be waived by ReliaStar Life. ReliaStar Life reserves the right to discontinue these waivers at its discretion or to conform with the changes in the law.

5. Related Party Transactions

During the year ended December 31, 2015, management fees were paid to DSL, an affiliate of the Company, in its capacity as investment adviser to Voya Investors Trust and Voya Partners, Inc. The Trusts' advisory agreements provide for fees at annual rates ranging from 0.10% to 1.25% of the average net assets of each respective Fund.

Management fees were also paid to VIL, an affiliate of the Company, in its capacity as investment adviser to Voya Balanced Portfolio, Inc., Voya Intermediate Bond Portfolio, Voya Money Market Portfolio, Voya Strategic Allocation Portfolios, Inc., Voya Variable Funds, Voya Variable Portfolios, Inc., and Voya Variable Products Trust. The Trusts' advisory agreements provide for fees at annual rates ranging from 0.17% to 0.90% of the average net assets of each respective Fund of the Trust.

(a) As investment Division had no investments until 2011, this data is not meaningful and is therefore not presented.

(b) As investment Division had no investments until 2013, this data is not meaningful and is therefore not presented.

(c) As investment Division had no investments until 2015, this data is not meaningful and is therefore not presented.

A The Fund Inception Date represents the first date the fund received money.

B The Investment Income Ratio represents dividends received by the Division, excluding capital gains distributions, divided by the average net assets. The recognition of investment income is determined by the timing of the declaration of dividends by the underlying fund in which the Division invests.

C The Expense Ratio considers only the annualized contract expenses borne directly by the Account, excluding expenses charged through the redemption of units, and is equal to the mortality and expense risks, administrative, and other charges, as defined in the Charges and Fees note.

D Total Return is calculated as the change in unit value for each Contract presented in the Statements of Assets and Liabilities. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.

Report of Independent Auditors

The Board of Directors and Stockholder
ReliaStar Life Insurance Company

We have audited the accompanying statutory-basis financial statements of ReliaStar Life Insurance Company, which comprise the balance sheets as of December 31, 2015 and 2014, and the related statements of operations, changes in capital and surplus and cash flows for each of the three years in the period ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with accounting practices prescribed or permitted by the Minnesota Department of Commerce, Division of Insurance. Management also is responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, to meet the requirements of Minnesota, the financial statements have been prepared in conformity with accounting practices prescribed or permitted by the Minnesota Department of Commerce, Division of Insurance, which practices differ from U.S generally accepted accounting principles. The variances between such practices and U.S. generally accepted accounting principles are described in Note 1. The effects on the accompanying financial statements of these variances are not reasonably determinable but are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the effects of the matter described in the preceding paragraph, the statutory-basis financial statements referred to above do not present fairly, in conformity with U.S. generally accepted accounting principles, the financial position of ReliaStar Life Insurance Company at December 31, 2015 and 2014, or the results of its operations or its cash flows for each of the three years in the period ended December 31, 2015.

Opinion on Statutory-Basis of Accounting

However, in our opinion, the statutory-basis financial statements referred to above present fairly, in all material respects, the financial position of ReliaStar Life Insurance Company at December 31, 2015 and 2014,, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2015,, in conformity with accounting practices prescribed or permitted by the Minnesota Department of Commerce, Division of Insurance.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

1. Organization and Significant Accounting Policies

ReliaStar Life Insurance Company (the “Company”) is domiciled in Minnesota and is a wholly owned subsidiary of Voya Holdings Inc. (“Voya Holdings”) which changed its name from Lion Connecticut Holdings Inc. on September 1, 2014), a Connecticut holding and management company. Voya Holdings is a wholly owned subsidiary of Voya Financial, Inc., a publicly traded corporation with its common stock listed on the New York Stock Exchange, under the symbol “VOYA.”

Prior to May 2013, Voya Financial, Inc., together with its subsidiaries including the Company, was an indirect, wholly owned subsidiary of ING Groep N.V. (“ING”), a global financial services holding company based in The Netherlands, with American Depositary Shares listed on the New York Stock Exchange. In 2009, ING announced the anticipated separation of its global banking and insurance businesses, including the divestiture of Voya Financial, Inc., together with its subsidiaries including the Company. On May 2, 2013, the common stock of Voya Financial, Inc. began trading on the New York Stock Exchange under the symbol “VOYA.” On May 7, 2013 and May 31, 2013, Voya Financial, Inc. completed its initial public offering of common stock, including the issuance and sale by Voya Financial, Inc. of 30,769,230 shares of common stock and the sale by ING Insurance International B.V. (“ING International”), an indirect, wholly owned subsidiary of ING and previously the sole stockholder of Voya Financial, Inc., of 44,201,773 shares of outstanding common stock of Voya Financial, Inc. (collectively, the “IPO”). On September 30, 2013, ING International transferred all of its shares of Voya Financial, Inc. common stock to ING. On October 29, 2013, ING completed a sale of 37,950,000 shares of common stock of Voya Financial, Inc. in a registered public offering, reducing ING’s ownership of Voya Financial, Inc. to 57%

Throughout 2014, ING completed the sale of an aggregate of 82,783,006 shares of common stock of Voya Financial, Inc. in a series of three registered public offerings. Also during 2014, pursuant to the terms of share repurchase agreements between ING and Voya Financial, Inc., Voya Financial, Inc. acquired 19,447,847 shares of its common stock from ING. As of the end of 2014, ING’s ownership of Voya Financial, Inc. had been reduced to approximately 19%.

In March of 2015, ING completed a sale of 32,018,100 shares of common stock of Voya Financial, Inc. in a registered public offering. Concurrently with this offering, pursuant to the terms of a share repurchase agreement between ING and Voya Financial, Inc., Voya Financial, Inc. acquired 13,599,274 shares of its common stock from ING. As a result of these transactions, ING satisfied the provisions of its agreement with the European Union regarding the divestment of its U.S. insurance and investment operations, which required ING to divest 100% of its ownership interest in Voya Financial, Inc. together with its subsidiaries, including the Company, by the end of 2016. ING continues to hold warrants to purchase up to 26,050,846 shares of Voya Financial, Inc. common stock at an exercise price of \$48.75, subject to adjustments.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

Description of Business

The Company is principally engaged in the business of providing individual life insurance and annuities, employee benefit products and services, retirement plans, and life and health reinsurance. The Company is presently licensed in all states (approved for reinsurance only in New York), the District of Columbia, Guam, and Puerto Rico.

Use of Estimates

The preparation of the financial statements of the Company requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes known, which could impact the amounts reported and disclosed herein.

Recently Adopted Accounting Principles and Actuarial Guidelines

Effective January 1, 2013, the Company adopted Statement of Statutory Accounting Principles (“SSAP”) No. 102, *Accounting for Pensions, a Replacement of SSAP No. 89*, and SSAP No. 92, *Accounting for Postretirement Benefits Other Than Pensions, a Replacement of SSAP No. 14*, (collectively, “SSAP No. 102/92”). The principal provisions of these statements include the following:

- The unfunded benefit obligation, including nonvested participants, if any, must be recognized in surplus.
- Nonvested participants must be included in the projected benefit obligation for pensions, and participants not yet eligible to retire must be included in the accumulated postretirement benefit obligation for postretirement benefits other than pensions.
- The amortization period for gains (losses) is the average future service of all active participants for postretirement benefits other than pensions.
- The amortization period for new prior service cost attributed to nonvested participants is the average future service until vesting date.
- The measurement date is required to be year-end.

The effects on the Company’s 2013 financial statements of adopting SSAP No. 102/92 at January 1, 2013 was an increase in surplus of \$3.2, and a decrease in liabilities of \$9.8 and a decrease to an intangible asset of \$6.6. The adoption had no impact on net income. See Note 7 for additional disclosures required by this statement.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

Correction of Errors

In 2015, the Company determined that it had overstated the payable to parent, subsidiaries and affiliates in prior years by \$1.4. To correct this error, the Company recognized a cumulative prior period adjustment to surplus of \$0.9, net of tax, in accordance with the provisions of SSAP No. 3, *Accounting Changes and Corrections of Errors* ("SSAP No. 3"). The tax effect of this adjustment was an increase to taxes payable of \$0.5. There was no impact to the Company's 2014 net income as a result of this adjustment.

During 2014, the Company discovered that it had previously used an incorrect discount rate for certain variable annuity contracts per the requirements of Actuarial Guideline XLIII ("AG43"). To correct for this error, the Company has recognized a cumulative prior period adjustment to surplus in 2014 of \$1.5 in accordance with the provisions of SSAP No. 3.

Basis of Presentation

The accompanying financial statements of the Company have been prepared in conformity with accounting practices prescribed or permitted by the Minnesota Department of Commerce-Insurance Division, which practices differ from United States Generally Accepted Accounting Principles ("U.S. GAAP"). The more significant variances from U.S. GAAP are:

Investments: Investments in bonds and mandatorily redeemable preferred stocks are reported at amortized cost or fair value based on a rating by the National Association of Insurance Commissioners ("NAIC").

The Company periodically reviews the value of its investments in bonds and mandatorily redeemable preferred stocks. If the fair value of any investment falls below its cost basis, the decline is analyzed to determine whether it is an other-than-temporary decline. To make this determination for each security, the following are some of the factors considered:

- The length of time and the extent to which the fair value has been below cost.
- The financial condition and near-term prospects of the issuer of the security, including any specific events that may affect its operations or earnings potential.
- The Company's intent to sell the security prior to its maturity at an amount below its carrying value.
- The Company's intent and ability to hold the security long enough for it to recover its fair value.

Based on the analysis, the Company makes a judgment as to whether the loss is other-than-temporary. If the loss is other-than-temporary, an impairment charge is recorded within net realized investment gains (losses) in the statements of operations in the period the determination is made.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

The Company invests in structured securities, including mortgage backed securities/collateralized mortgage obligations, asset backed securities, collateralized debt obligations, and commercial mortgage backed securities. Structured securities are reported at amortized cost or fair value based on a rating by the National Association of Insurance Commissioners ("NAIC"). They are amortized using the interest method over the period which repayment of principal is expected to occur. For structured securities in unrealized loss positions, the Company determines whether it has the intent to sell or the intent and ability to hold the security for a period of time sufficient to recover the amortized cost. If the Company has the intent and ability to hold the security to recovery, the Company must compare the present value of the expected future cash flows for this security to its carrying value. If the present value of the expected future cash flows for the security is lower than its carrying value, the security is written down to its present value of the expected future cash flows.

When an other-than-temporary impairment ("OTTI") is recorded because there is intent to sell or a holder does not have the intent and ability to hold the security for a period of time sufficient to recover the amortized cost basis, the security is written down to fair value. The total loss recorded is bifurcated between the interest related loss and the non-interest related loss. The interest related portion is deferred through the interest maintenance reserve ("IMR") and the non-interest related portion is included in the asset valuation reserve ("AVR") as prescribed by the NAIC.

Net realized gains and losses on disposed investments are reported in the statements of operations, net of federal income tax and transfers to the IMR.

Under U.S. GAAP, fixed maturities are designated at purchase as held to maturity, trading or available-for-sale, except for those accounted for using the fair value option ("FVO"). Held to maturity investments are reported at amortized cost and the remaining fixed maturity investments are reported at fair value. For those designated as trading, changes in fair value are reported in the statements of operations. Available-for-sale securities are reported at fair value with changes in fair value reported as a separate component of other comprehensive income (loss) in shareholder's equity. Using the FVO, securities are reported at fair value with changes in fair value reported in the statements of operations.

When the Company has determined it has the intent to sell or if it is more likely than not that the Company will be required to sell a security before recovery of its amortized cost basis and the fair value has declined below amortized cost ("intent impairment"), the individual security is written down from amortized cost to fair value, and a corresponding charge is recorded in net realized investment gains (losses) in the statements of operations as an OTTI. If the Company does not intend to sell the security and it is not more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis, but the Company has determined that there has been an other-than-temporary decline in fair value below the amortized cost basis, the OTTI is bifurcated into the amount representing the present value of the decrease in cash flows expected not to be collected ("credit impairment") and the amount related to other

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

factors (“noncredit impairment”). The credit impairment is recorded in net realized capital gains (losses) in the statements of operations. The noncredit impairment is recorded in other comprehensive income (loss) in shareholder’s equity.

Net realized capital gains and losses are reported in the statements of operations on a pretax basis in the period that the asset giving rise to the gain or loss is sold.

Asset Valuation Reserves: The AVR is intended to establish a reserve to offset potential credit related investment losses on most invested asset categories. AVR is determined by an NAIC prescribed formula and is reported as a liability rather than as a valuation allowance or an appropriation of surplus. The change in AVR is reported directly to unassigned surplus.

Interest Maintenance Reserve: Under a formula prescribed by the NAIC, the Company defers the portion of realized gains and losses on sales of fixed income investments, principally bonds and mortgage loans, attributable to changes in the general level of interest rates and amortizes those deferrals over the remaining period to maturity based on groupings of individual securities sold in five year bands. The Company reports the net deferral of IMR as a liability on the accompanying balance sheets. When the net deferral of IMR is negative, the amount is reported as a component of other assets and nonadmitted.

Cash and Short-term Investments: Cash and short term investments represent cash balances, demand deposits, and short term fixed maturity investments with initial maturities of one year or less at the date of acquisition.

Under U.S. GAAP, the corresponding caption of cash and cash equivalents includes cash on hand, amounts due from banks and other highly liquid investments, such as money market instruments and debt instruments with maturities of three months or less at the time of purchase. Short-term investments include investments with remaining maturities of one year or less, but greater than three months, as the time of purchase.

Derivatives: The Company follows the hedge accounting guidance in SSAP No. 86, *Accounting for Derivative Instruments and Hedging Activities* (“SSAP No. 86”) for derivative transactions. Under SSAP No. 86, derivatives that are deemed effective hedges are accounted for entirely in a manner which is consistent with the underlying hedged item. Derivatives used in hedging transactions that do not meet the requirements of SSAP No. 86 as an effective hedge are carried at fair value with the change in value recorded in surplus as unrealized gains or losses. Embedded derivatives are not accounted for separately from the host contract.

Under U.S. GAAP, the effective and ineffective portions of a cash flow hedge are accounted for separately. The effective portion of the gain or loss on the derivative instrument is reported as a component of accumulated other comprehensive income and reclassified into earnings in the same periods during which the hedged transaction impacts earnings in the same line item associated with the forecasted transaction. The ineffective portion of the derivative's change in

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

value, if any, along with any of the derivative's change in value that is excluded from the assessment of hedge effectiveness, are recorded in other net realized capital gains (losses). An embedded derivative within a contract that is not clearly and closely related to the economic characteristics and risk of the host contract is reported with the host contract on the balance sheets at fair value, and the change in fair value is recorded in income. For derivative instruments that are designated and qualify as a fair value hedge, the gain or loss on the derivative instrument, as well as the hedged item, to the extent of the risk being hedged, are recognized in other net realized capital gains (losses).

Mortgage Loans: Mortgage loans are reported at amortized cost, less write downs for impairments. If the value of any mortgage loan is determined to be impaired (i.e., when it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement), the carrying value of the mortgage loan is reduced to the lesser of either the present value of expected cash flows from the loan, discounted at the loan's original purchase yield or fair value of the collateral. For those mortgages that are determined to require foreclosure, the carrying value is reduced to the fair value of the underlying collateral, net of estimated costs to obtain and sell at the point of foreclosure. The carrying value of the impaired loans is reduced by establishing a permanent write-down recorded in net realized capital gains (losses).

Under U.S. GAAP, the Company also records an allowance for probable losses incurred on non-impaired loans on an aggregate basis, rather than specifically identified probable losses incurred by individual loan.

Deferred Income Taxes: Deferred tax assets and liabilities represent the future tax recoveries or obligations associated with the accumulation of temporary differences between the tax and financial statement bases of the Company's assets and liabilities. Deferred tax assets are provided for and admitted to an amount determined under a standard formula in accordance with SSAP No. 101, *Income Taxes, A Replacement of SSAP No. 10R and SSAP No. 10* ("SSAP No. 101"). A valuation allowance is required if based on the available evidence; it is more likely than not (a likelihood of more than 50 percent) that some portion or all of the gross deferred tax assets will not be realized. This assessment is determined on a separate reporting entity basis.

After reduction for any valuation allowance, the Company follows the admissibility formula laid out under SSAP No. 101. These provisions limit the amount of gross deferred tax assets that can be admitted to surplus to those for which ultimate recoverability can be demonstrated. This limitation is based on availability of taxes paid in prior years that could be recovered through carrybacks, the expected timing of reversals for accumulated temporary differences over the next three years to offset future taxes, surplus limits, and the amount of gross deferred tax liabilities available for offset. Any deferred tax assets not covered under the formula are nonadmitted.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

SSAP No. 101 requires all changes in deferred tax balances to be included as surplus adjustments; under GAAP, however, most changes in deferred tax balances are recorded in the income statement (with the exception of certain items that are recorded through Other Comprehensive Income or directly to the equity section of the balance sheet) as a component of the total income tax provision.

U.S. GAAP also requires that deferred taxes be included for all jurisdictions that determine taxes based on income. Thus deferred state income taxes must be booked under U.S. GAAP. SSAP No. 101, however, specifically prohibits establishing deferred state income tax assets and liabilities.

Investments in Real Estate: Investments in real estate are reported net of related obligations rather than on a gross basis. Real estate owned and occupied by the Company is included in investments, and investment income and operating expenses include rent for the Company's occupancy of those properties. Changes between depreciated cost and admitted asset investment amounts are credited or charged directly to unassigned surplus.

Under U.S. GAAP, property is carried at cost, less accumulated depreciation, and is reported gross of related obligations in other assets on the balance sheets. Any depreciation and rent expense are charged to operating expenses on the statements of operations. Rental income is reported as Net Investment income.

Policy Acquisition Costs: The costs of acquiring and renewing business are expensed when incurred.

Under U.S. GAAP, incremental, direct costs of contract acquisition and certain costs related directly to successful acquisition activities are capitalized. Indirect or unsuccessful acquisition costs, maintenance, product development and overhead expenses are charged to expense as incurred. In addition, the outstanding value of in force business acquired is capitalized. For certain traditional life insurance, to the extent recoverable from future gross profits, acquisition costs are amortized over the premium payment period in proportion to the present value of expected gross premium. For universal life insurance and investment products, to the extent recoverable from future gross profits, acquisition costs are amortized over the estimated lives of the contracts in relation to the emergence of estimated gross profits.

Premiums: Life premiums are recognized as revenue when due. Premiums for annuity policies with mortality and morbidity risk, except for guaranteed interest and group annuity contracts, are also recognized as revenue when due. Premiums received for annuity policies without mortality or morbidity risk and for guaranteed interest and group annuity contracts are recorded using deposit accounting.

Under U.S. GAAP, premiums related to traditional life insurance contracts and payout contracts with life contingencies are recognized as revenue when due. Amounts received for investment-

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

type, universal life-type, fixed annuities, payout contracts without life contingencies and fixed-indexed annuity contracts are reported as deposits to contract owner account balances. Revenues from these contracts consist primarily of fees assessed against the contract owner account balance for mortality and policy administration charges.

Benefits Paid or Provided: Benefits incurred for universal life and annuity policies represent the total of death benefits paid and the change in policy reserves.

Under U.S. GAAP, benefits and expenses for investment-type, universal life-type, fixed annuities, payout contracts without life contingencies and fixed-indexed annuity contracts include claims in excess of related account balances, expenses of contract administration and interest credited to contract owner account balances.

Benefit and Contract Reserves: Life policy and contract reserves under statutory accounting practices are calculated based upon both the net level premium and Commissioners' Reserve Valuation methods ("CRVM") using statutory rates for mortality and interest. Annuity policy and contract reserves under statutory accounting practices are calculated based upon the Commissioners' Annuity Reserve Valuation methods ("CARVM") using statutory rates for mortality and interest.

Under U. S. GAAP policy reserves for traditional products are based upon the net level premium method utilizing reasonably conservative estimates of mortality, interest, and withdrawals prevailing when the policies were sold. For interest sensitive products, the GAAP policy reserve is equal to the policy fund balance plus an unearned revenue reserve which reflects the unamortized balance of early year policy loads over renewal year policy loads.

Reinsurance: For business ceded to unauthorized reinsurers, statutory accounting practices require that reinsurance credits permitted by the treaty be recorded as an offsetting liability and charged against unassigned surplus. Policy and contract liabilities ceded to reinsurers have been reported as reductions of the related reserves. Commissions allowed by reinsurers on business ceded are reported as income when received. Losses generated in certain reinsurance transactions are recognized immediately in income, with gains reported as a separate component of surplus and amortized over the remaining life of the business.

Under U.S. GAAP, ceded future policy benefits and contract owner liabilities are reported gross on the balance sheets. Only those reinsurance recoverable balances deemed probable of recovery are reflected as assets on the balance sheets and are stated net of allowances for uncollectible reinsurance, which are charged to earnings. Gains and losses on reinsurance, including commission and expense allowances, are deferred and amortized over the remaining life of the business.

Nonadmitted Assets: Certain assets designated as "nonadmitted," principally disallowed deferred federal income tax assets, disallowed interest maintenance reserves, non-operating

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

system software, past due agents' balances, furniture and equipment, intangible assets, and other assets not specifically identified as an admitted asset within the NAIC *Accounting Practices and Procedures Manual*, are excluded from the accompanying balance sheets and are charged directly to unassigned surplus.

Subsidiaries: The accounts and operations of the Company's subsidiaries are not consolidated. Certain affiliated investments for which audited U.S. GAAP statements are not available, or expected to be available, are nonadmitted.

Under U.S. GAAP, the accounts and operations of the Company's wholly owned subsidiaries are consolidated. Intercompany transactions and balances are eliminated.

Policyholder Dividends: Policyholder dividends are recognized when declared.

Under U.S. GAAP, dividends allocable to participating contract owners are based on published dividend projections or expected dividend scales.

Participation Fund Account: On January 3, 1989, the Minnesota Division of Insurance approved a Plan of Conversion and Reorganization ("the Plan"), which provided, among other things, for the conversion of the Company from a combined stock and mutual life insurance company to a stock life insurance company.

The Plan provided for the establishment of a Participation Fund Account ("PFA") for the benefit of certain participating individual life insurance policies and annuities issued by the Company prior to the effective date of the Plan. Under the terms of the PFA, the insurance liabilities and assets (approximately \$114.0 and \$145.5 as of December 31, 2015 and 2014, respectively) with respect to such policies are included in the Company's financial statements, but are segregated in the accounting records of the Company to assure the continuation of policyholder dividend practices.

Reconciliation to U.S. GAAP: The effects of the preceding variances from U.S. GAAP on the accompanying statutory basis financial statements have not been determined, but are presumed to be material.

Other significant accounting practices are as follows:

Investments: Investments are stated at values prescribed by the NAIC, as follows:

Bonds not backed by other loans are principally stated at amortized cost using the effective interest method.

Loan-backed securities are stated at either amortized cost or the lower of amortized cost or fair value. Amortized cost is determined using the effective interest method and includes anticipated

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

prepayments. The retrospective adjustment method is used to determine the amortized cost for the majority of loan-backed and structured securities. For certain securities the prospective adjustment method is used, including interest only securities and securities that have experienced an other-than-temporary impairment.

Redeemable preferred stocks rated as high quality or better are reported at cost or amortized cost. All other redeemable preferred stocks are reported at the lower of cost, amortized cost, or market value and nonredeemable preferred stocks are reported at fair value or the lower of cost or fair value.

Common stocks are reported at fair value and the related unrealized capital gains/losses are reported in unassigned surplus along with adjustment for federal income taxes.

The Company engages in dollar reverse repurchase agreements with mortgage-backed securities ("dollar rolls") and reverse repurchase agreements with other collateral types to increase its return on investments and improve liquidity. Such arrangements meet the requirements to be accounted for as financing arrangements.

The Company also enters into repurchase agreements. These transactions involve a purchase of securities and an agreement to sell substantially the same securities as those purchased.

The Company engages in securities lending whereby certain domestic securities from its portfolio are loaned to other institutions for short periods of time. Initial collateral, primarily cash, is required at a rate of 102% of the market value of the loaned securities. For certain transactions, a lending agent may be used and the agent may retain some or all of the collateral deposited by the borrower and transfer the remaining collateral to the Company. Collateral retained by the agent is invested in liquid assets on behalf of the Company. The market value of the loaned securities is monitored on a daily basis with additional collateral obtained or refunded as the market value of the loaned securities fluctuates.

Short term investments are reported at amortized cost which approximates fair value. Short term investments include investments with maturities between three months and one year at the date of acquisition.

Partnership interests, which are included in other invested assets, are reported at the underlying audited GAAP equity of the investee. Changes in surplus from distributions are reported in investment income.

Residual collateralized mortgage obligations, which are included in other invested assets on the balance sheet, are reported at amortized cost using the effective interest method.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

Surplus notes acquired, which are included in other invested assets on the balance sheets, are reported at amortized cost using the effective interest method. See Note 12 for additional information related to an affiliate surplus note.

Realized capital gains and losses are generally determined using the first in first out method.

Cash on hand includes cash equivalents. Cash equivalents are short term investments that are both readily convertible to cash and have an original maturity date of three months or less from date of purchase.

The Company's use of derivatives is primarily for economic hedging purposes to reduce the Company's exposure to cash flow variability of assets and liabilities, interest rate risk, credit risk, and market risk. For those derivatives in effective hedging relationships, the Company values all derivative instruments on a consistent basis with the hedged item. Upon termination, gains and losses on instruments are included in the carrying values of the underlying hedged items and are amortized over the remaining lives of the hedged items as adjustments to investment income or benefits from the hedged items. Any unamortized gains or losses are recognized when the underlying hedged items are sold. The unrealized gains and losses from derivatives not designated as accounting hedges are reported at fair value through surplus. Upon termination, interest related gains and losses are included in IMR and are amortized over the remaining lives of the derivatives; other gains and losses are added to the AVR. The Company enters into the following derivatives:

Credit Contracts:

Credit default swaps: Credit default swaps are used to reduce credit loss exposure with respect to certain assets that the Company owns, or to assume credit exposure on certain assets that the Company does not own. Payments are made to or received from the counterparty at specified intervals. In the event of a default on the underlying credit exposure, the Company will either receive a payment (purchased credit protection) or will be required to make a payment (sold credit protection) equal to the par minus recovery value of the swap contract. The Company utilizes these contracts in replication relationships.

Equity Contracts:

Options: The Company uses call and collar options to hedge the book values of retirement plan assets. The Company pays an upfront premium to purchase these options. The Company utilizes these options in non-qualifying hedging relationships.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

Foreign Exchange Contracts:

Currency forwards: The Company uses currency forward contracts to hedge policyholder liabilities associated with the reinsurance contracts which are linked to foreign indices. The currency fluctuations may result in a decrease in account values, which would increase the possibility of the Company incurring an expense for guaranteed benefits in excess of account values. The Company also uses currency forward contracts to hedge currency exposure related to its invested assets. The Company utilizes these contracts in non-qualifying hedging relationships.

Foreign exchange swaps: The Company uses foreign exchange or currency swaps to reduce the risk of change in the value, yield or cash flows associated with certain foreign denominated invested assets. Foreign exchange swaps represent contracts that require the exchange of foreign currency cash flows against U.S. dollar cash flows at regular periods, typically quarterly or semi-annually. The Company utilizes these contracts in qualifying hedging relationships as well as non-qualifying hedging relationships.

Interest Rate Contracts:

Futures: The Company uses interest rate futures contracts to hedge interest rate risks associated with the CMO-B portfolio. Changes in the general level of interest rates can result in the potential for adverse changes in the portfolio. The Company enters into exchange traded futures with regulated futures commissions that are members of the exchange. The Company also posts initial and variation margin with the exchange on a daily basis. The Company utilizes exchange-traded futures in non-qualifying hedging relationships.

Interest rate swaps: Interest rate swaps are used by the Company primarily to reduce market risks from changes in interest rates and to alter interest rate exposure arising from mismatches between assets and/or liabilities. Interest rate swaps are also used to hedge the interest rate risk associated with the value of assets it owns or in an anticipation of acquiring them. Using interest rate swaps, the Company agrees with another party to exchange, at specified intervals, the difference between fixed rate and floating rate interest payments, calculated by reference to an agreed upon notional principal amount. These transactions are entered into pursuant to master agreements that provide for a single net payment to be made to/from the counterparty at each due date. The Company utilizes these contracts in qualifying hedging relationships as well as non-qualifying hedging relationships.

Swaptions: A swaption is an option to enter into a swap with a forward starting effective date. The Company uses swaptions to hedge the interest rate exposure associated with the minimum crediting rate and book value guarantees embedded in the retirement products that the Company offers. Increases in interest rates will generate losses on assets that are backing such liabilities. In certain instances, the Company locks in the economic impact of existing purchased swaptions by entering into offsetting written swaptions. Swaptions are also used to hedge against an

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

increase in the interest rate benchmarked crediting strategies within FIA contracts. Such increases may result in increased payments to contract holders of FIA contracts and the interest rate swaptions offset this increased exposure. The Company pays a premium when it purchases the swaption. The Company utilizes these contracts in non-qualifying hedging relationships.

SSAP No. 97, *Investments in Subsidiary, Controlled and Affiliated Entities* (“SSAP No. 97”), applies to the Company’s subsidiaries, and controlled and affiliated entities (“SCA”). The Company’s insurance subsidiaries are reported at their underlying statutory basis net assets, and the Company’s non-insurance subsidiaries are reported at the underlying GAAP equity amount adjusted to a statutory basis as promulgated by the NAIC Accounting Practices and Procedures Manual. Dividends from subsidiaries are included in net investment income. The remaining net change in the subsidiaries’ equity is included in the change in net unrealized capital gains or losses. SCA entities for which audited statements are not available or expected to be available are nonadmitted. Management regularly reviews its SCA’s to determine if an other-than-temporary impairment has occurred. During this review, management makes a judgment as to whether it is probable that the reporting entity will be unable to recover the carrying amount of the investment or there is evidence indicating inability of the investee to sustain earnings.

Contract loans are reported at unpaid principal balances but not in excess of the cash surrender value.

Land is reported at cost. Real estate occupied by the Company is reported at depreciated cost, and other real estate is reported at the lower of depreciated cost or fair value. Depreciation is calculated on a straight line basis over the estimated useful lives of the properties.

Aggregate Reserve for Life Policies and Contracts: Life, annuity, and accident and health reserves are developed by actuarial methods and are determined based on published tables using statutorily specified interest rates and valuation methods that will provide, in the aggregate, reserves that are greater than or equal to the minimum or guaranteed policy cash value or the amounts required by law. Interest rates range from 2.00% to 13.25% for 2015.

The Company waives the deduction of deferred fractional premiums upon the death of the insured. It is the Company’s practice to return a pro rata portion of any premium paid beyond the policy month of death, although it is not contractually required to do so for certain issues.

The methods used in valuation of substandard policies are as follows:

For life, endowment and term policies issued substandard, the standard reserve during the premium paying period is increased by 50% of the gross annual extra premium. Standard reserves are held on Paid-Up Limited Pay contracts.

For reinsurance accepted with table rating, the reserve established is a multiple of the standard reserve corresponding to the table rating.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

For reinsurance with flat extra premiums, the standard reserve is increased by 50% of the flat extra.

The amount of insurance in force for which the gross premiums are less than the net premiums, according to the standard of valuation required by the Minnesota Division of Insurance, is \$10.6 billion and \$15.7 billion at December 31, 2015 and 2014, respectively. The amount of premium deficiency reserves for policies on which gross premiums are less than the net premiums is \$339.2 and \$360.7 at December 31, 2015 and 2014, respectively. The Company anticipates investment income as a factor in the premium deficiency calculation in accordance with SSAP No. 54, *Individual and Group Accident and Health Contracts* (“SSAP No. 54”).

The tabular interest has been determined from the basic data for the calculation of policy reserves for all direct ordinary life insurance and for the portion of group life insurance classified as group Section 79. The method of determination of tabular interest of funds not involving life contingencies is as follows: one hundredth of the product of such valuation rate of interest times the mean of the amount of funds subject to such valuation rate of interest held at the beginning and end of the year of valuation.

Reinsurance: Reinsurance premiums, commissions, expense reimbursements, and reserves related to reinsured business are accounted for on a basis consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts. Reserves are based on the terms of the reinsurance contracts and are consistent with the risks assumed. Premiums and benefits ceded to other companies have been reported as a reduction of premium revenue and benefits expense. Amounts applicable to reinsurance ceded for reserves and unpaid claim liabilities have been reported as reductions of these items, and expense allowances received in connection with reinsurance ceded have been reflected in operations.

Electronic Data Processing Equipment: Electronic data processing equipment is carried at cost less accumulated depreciation. Depreciation for major classes of such assets is calculated on a straight line basis over the estimated useful life of the asset.

Participating Insurance: Participating business approximates less than 1% of the Company’s life insurance in force and less than 3% of premium income. The amount of dividends to be paid to participating policyholders is determined annually by the Board of Directors. Amounts allocable to participating policyholders are based on published dividend projections or expected dividend scales. Dividends expense of \$11.8, \$11.7 and \$12.2 was incurred in 2015, 2014 and 2013, respectively.

Benefit Plans: The Company provides noncontributory retirement plans for substantially all employees and certain agents. Pension costs are charged to operations as contributions are made to the plans. The Company also provides a contributory retirement plan for substantially all employees.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

Nonadmitted Assets: Nonadmitted assets are summarized as follows:

	December 31	
	2015	2014
	<i>(In Thousands)</i>	
Net deferred tax asset	\$ 130,051	\$ 117,101
Deferred and uncollected premium	8,451	10,585
Health care and other amounts receivable	684	2,596
Other invested assets	8,816	—
Other	3,989	3,763
Total nonadmitted assets	<u>\$ 151,991</u>	<u>\$ 134,045</u>

Changes in nonadmitted assets are generally reported directly in unassigned surplus as an increase or decrease in nonadmitted assets.

Claims and Claims Adjustment Expenses: Claims and claims adjustment expenses represent the estimated ultimate net cost of all reported and unreported claims incurred through December 31, 2015. The Company does not discount claims and claims adjustment expense reserves. Such estimates are based on actuarial projections applied to historical claim payment data. Such liabilities are considered to be reasonable and adequate to discharge the Company's obligations for claims incurred but unpaid as of December 31, 2015.

Guaranteed Benefits: For variable annuity guarantees, Actuarial guideline 43 – Variable Annuity Commissioners Annuity Reserve Valuation Method ("AG43"), is followed. This guideline interprets how to apply the NAIC Commissioners' Annuity Reserve Valuation Method to Variable Annuities ("CARVM"). The greater of the result under a single deterministic "Standard Scenario" and the average of the most severe 30% of randomly generated stochastic scenarios is held. Both reinsurance and hedging are also reflected. Taxes are not incorporated. All assumptions for the Standard Scenario are prescribed. For the stochastic scenarios, equity market returns must meet a calibration test. All other assumptions are set by the actuary using prudent best-estimates.

Separate Accounts: Most separate account assets and liabilities held by the Company represent funds held for the benefit of the Company's variable life and annuity policy and contract holders who bear all of the investment risk associated with the policies. Such policies are of a non-guaranteed nature. All net investment experience, positive or negative, is attributed to the policy and contract holders' account values. The assets and liabilities of these accounts are carried at fair value and are legally segregated and are not subject to claims that arise out of any other business of the Company. There are no product classification differences under GAAP.

Reserves related to the Company's mortality risk are included in life and annuity reserves. These reserves include reserves for guaranteed minimum death benefits (before reinsurance) that

RELIASTAR LIFE INSURANCE COMPANY

(Dollar amounts in millions, unless otherwise stated)

totaled \$17.7 and \$14.1 at December 31, 2015 and 2014, respectively. The operations of the separate accounts are not included in the accompanying financial statements.

2. Permitted Statutory Basis Accounting Practices

The financial statements of the Company are presented on the basis of accounting practices prescribed or permitted by the Minnesota Department of Commerce. The Minnesota Department of Commerce recognizes only statutory accounting practices prescribed or permitted by the State of Minnesota for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Minnesota Insurance Laws. The NAIC *Accounting Practices and Procedures Manual* has been adopted as a component of prescribed or permitted practices by the State of Minnesota. The Minnesota Commissioner of Commerce has the right to permit other specific practices that deviate from prescribed practices.

The Company is required to identify those significant accounting practices that are permitted, and obtain written approval of the practices from the Minnesota Department of Commerce.

On May 8, 2013, the Company, with the permission of the Minnesota Department of Commerce - Insurance Division, reallocated the gross paid-in and contributed surplus and the unassigned funds components of surplus, computed as of December 31, 2012, similar to the restatement of surplus that occurs pursuant to the prescribed accounting guidance for a quasi-reorganization under SSAP No. 72, *Surplus and Quasi-Reorganizations* (“SSAP No. 72”). The reallocation resulted in a decrease to gross paid-in and contributed surplus and an increase in unassigned surplus of \$618.7. This permitted practice had no impact on net income, total capital and surplus or risk-based capital.

As of December 31, 2015 and 2014, the Company had no such permitted accounting practices.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

At December 31, 2015 and 2014, investments in certificates of deposit and bonds with an admitted asset value of \$138.3 and \$160.3, respectively, were on deposit with state insurance departments to satisfy regulatory requirements.

Pre-2008 vintage subprime and Alt-A mortgage collateral continues to distance itself from the credit crisis and payment performance reflects a housing market firmly entrenched in recovery. While collateral losses continue to be realized, the amounts are steadily decreasing. Serious delinquencies and other measures of performance, like prepayments and loan defaults, have also displayed sustained periods of improvement. Reflecting these fundamental improvements, related bond prices and sector liquidity have increased substantially since the credit crisis. Home prices have moved steadily higher, further supporting payment performance. Year-over-year home price measures, while at a lower magnitude than experienced in recent years, appear to have stabilized at sustainable levels, when measured on a nationwide basis. This backdrop remains supportive of continued improvement in overall borrower payment behavior. In managing the Company's risk exposure to subprime and Alt-A mortgages, collateral performance and structural characteristics associated with various positions are taken into account.

The Company does not originate or purchase subprime or Alt-A whole-loan mortgages. Subprime lending is the origination of loans to customers with weaker credit profiles. The Company defines Alt-A mortgages to include the following: residential mortgage loans to customers who have strong credit profiles but lack some element(s), such as documentation to substantiate income; residential mortgage loans to borrowers that would otherwise be classified as prime but whose loan structure provides repayment options to the borrower that increase the risk of default; and any securities backed by residential mortgage collateral not clearly identifiable as prime or subprime.

Mortgage Loans and Real Estate

All mortgage loans are evaluated by seasoned underwriters, including an appraisal of loan-specific credit quality, property characteristics, and market trends, and assigned a quality rating using the Company's internally developed quality rating system.

The Company's mortgage loans on real estate are all commercial mortgage loans, held for investment, which totaled \$2,163.5 and \$2,137.5 as of December 31, 2015 and 2014, respectively. The carrying value of these loans is reported at amortized cost, less impairment write-downs.

The maximum and minimum lending rates for long-term mortgage loans acquired or made during 2015 were 8.2% and 3.5%.

Taxes, assessments and any amounts advanced and not included in the mortgage loan total were \$0.0 and \$0.0 as of December 31, 2015 and 2014, respectively.

Property insurance is required on all collateral securing commercial real estate mortgage loans. Generally the coverage is "all risk" at a level equal to the replacement cost of the

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

improvements. Additional coverage may be required to cover flood, windstorm and other risks associated with collateral type, use and location.

During 2015, the maximum percentage of any loan to the value of collateral at the time of the loan, exclusive of insured or guaranteed or purchase money mortgages was 76.3% on commercial properties.

Net Realized Capital Gains and Losses

Realized capital gains (losses) gains are reported net of federal income taxes and amounts transferred to the IMR are as follows:

	2015	December 31 2014	2013
		<i>(In Thousands)</i>	
Realized capital gains	\$ (37,959)	\$ 31,548	\$ 8,313
Amount transferred to IMR (net of related taxes of \$11,669 in 2015, \$11,997 in 2014 and \$(4,612) in 2013	21,671	(22,281)	8,566
Federal income tax benefit (expense)	19,484	(3,972)	9,644
Net realized capital gains	<u>\$ 3,196</u>	<u>\$ 5,295</u>	<u>\$ 26,523</u>

Realized capital gains include losses of \$26.8, \$3.6 and \$15.2 related to securities that have experienced an other than temporary decline in value during 2015, 2014 and 2013, respectively.

Proceeds from sales of investments in bonds and other fixed maturity interest securities were \$1.9 billion, \$1.8 billion and \$1.2 billion in 2015, 2014 and 2013, respectively. Gross gains of \$38.3, \$60.4 and \$23.8 and gross losses of \$46.3, \$22.3 and \$14.7 during 2015, 2014 and 2013, respectively, were realized on those sales. A portion of the gains and losses realized in 2015, 2014 and 2013 has been deferred to future periods in the IMR.

During 2013, the Company received a distribution of cash and securities in conjunction with a Lehman Brothers bankruptcy settlement ("Lehman Recovery"). In 2008, Lehman Brothers acted as a prime broker for assets held in a partnership owned by the Company. These partnership assets were subsequently written down to the then-assumed realizable value. The amount of the distributions in excess of the book value of these assets of \$41.2 was recognized as net realized capital gains in the 2013 statement of operations.

Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

Impairments on joint venture, partnerships and limited liability company holdings are taken when the market value is less than 90% of book value, and it is determined that the decline below book value is not recoverable. The fair value of these investments is based upon the Company's overall proportional ownership interest in the underlying partnership. The investment and the amount of the impairments for the years ended December 31, 2015, 2014 and 2013 are as follows:

(Dollar amounts in millions, unless otherwise stated)

Affiliate Surplus Note

On December 29, 2004, Voya Insurance and Annuity Company ("VIAC"), an affiliate of the Company, issued a 6.3% surplus note in the amount of \$175.0 to the Company. The note matures on December 29, 2034 and is included in other invested assets on the balance sheet. Since the surplus note does not have an NAIC rating of 1, per SSAP No. 41, *Surplus Notes*, Paragraph 10.b.i.(b), a statement factor was established for the surplus note of 0.95 and 1.0 as a multiple of the face amount for the years ended 2015 and 2014, respectively.

The carrying value of the surplus note at December 31, 2015 and 2014 was \$166.2 and \$175.0, respectively. Any payment of principal and/or interest made is subject to the prior approval of the Iowa Insurance Commissioner. For the years ended December 31, 2015, 2014 and 2013, interest paid was \$11.1, \$11.1 and \$11.1, respectively.

Reverse Repurchase Agreements and Securities Lending

The Company engages in dollar reverse repurchase agreements with mortgage-backed securities ("dollar rolls") and reverse repurchase agreements with other collateral types to increase its return on investments and improve liquidity. Such arrangements meet the requirements to be accounted for as financing arrangements. As of December 31, 2015 and 2014, the Company did not have any securities pledged in dollar rolls and reverse repurchase agreement transactions.

The Company also enters into repurchase agreements. These transactions involve a purchase of securities and an agreement to sell substantially the same securities as those purchased. As of December 31, 2015 and 2014, the Company did not have any securities pledged under repurchase agreements.

The Company engages in securities lending whereby certain domestic securities from its portfolio are loaned to other institutions for short periods of time. Initial collateral, primarily cash, is required at a rate of 102% of the market value of the loaned securities. For certain transactions, a lending agent may be used and the agent may retain some or all of the collateral deposited by the borrower and transfer the remaining collateral to the Company. Collateral retained by the agent is invested in liquid assets on behalf of the Company. The market value of the loaned securities is monitored on a daily basis with additional collateral obtained or refunded as the market value of the loaned securities fluctuates.

The Company had loaned securities, which are reflected as invested assets on the balance sheets, with a fair value of approximately \$82.1 and \$155.9 at December 31, 2015 and 2014, respectively.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

The aggregate amount of collateral received, by specific time period, for securities lending agreements at December 31, 2015 and 2014 are shown below. The Company does not have any repurchase agreements and does not participate in dollar repurchase transactions.

	<u>2015</u>	<u>2014</u>
	<i>(In Thousands)</i>	
Open	\$ 85,178	\$ 159,801

Total collateral reinvested	<u>\$ 85,194</u>	<u>\$ 85,194</u>	<u>\$ 159,810</u>	<u>\$ 159,810</u>

The maturity dates of the liabilities appropriately match the invested assets in the securities lending program.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

There were no amounts held as collateral for transactions that extend beyond one year at December 31, 2015 and 2014.

Federal Home Loan Bank Agreements

The Company is a member of the Federal Home Loan Bank of Des Moines (“FHLB”). Through its membership, the Company has conducted business activity (obtained a Letter of Credit ("LOC")) with the FHLB. It was part of the Company's strategy to utilize this LOC not for spread lending purposes, but in support of a contingent guarantee. There was no amount borrowed under the LOC as of, December 31, 2013 and the LOC was canceled on December 18, 2014. The company has determined the estimated maximum borrowing capacity from the FHLB as \$4.1 billion. The Company has the ability to obtain funding from the FHLB based on a percentage of the value of its assets and subject to the availability of eligible collateral. The limit across all programs is 20% of the general and separate accounts total assets of the Company, one quarter in arrears.

	2015			2014

Low-Income Housing Tax Credits

The Company had a carrying value of \$0.5 in Low-Income Housing Tax Credits (“LIHTC”) at December 31, 2015. The tax credits are projected to expire in 2018. The Company is unaware of any current regulatory reviews of the LIHTC property.

There were no impairments on LIHTC during 2015. Each quarter the book value of the LIHTC is compared to the present value of the future tax benefits discounted at the U.S. Treasury obligation of a similar duration to determine if an impairment exists.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

There were no write-downs or reclassifications made to LIHTC properties during the year due to forfeiture or ineligibility of tax credits including actual foreclosures, inadequate occupancy levels or compliance issues.

During 2013, Company decided to dispose of certain LIHTC as a means of exiting this asset class. Losses of \$21.2 are recognized in net realized capital (losses) on the statement of operations.

There were impairments on LIHTC in the amount of \$0.9 during 2013. Each quarter, the book value of the LIHTC is compared to the present value of the future tax benefits discounted at the U.S. Treasury obligation of a similar duration to determine if an impairment exists. As of December 31, 2013, all impaired LIHTC were disposed.

Troubled Debt Restructuring

The Company has high quality, well performing, portfolios of commercial mortgage loans and private placement debts. Under certain circumstances, modifications to these contracts are granted. Each modification is evaluated as to whether troubled debt restructuring has occurred. A modification is a troubled debt restructure when the borrower is in financial difficulty and the creditor makes concessions. Generally, the types of concessions may include: reduction of the face amount or maturity amount of the debt as originally stated, reduction of the contractual interest rate, extension of the maturity date at an interest rate lower than current market interest rates and/or reduction of accrued interest. The Company considers the amount, timing and extent of the concession granted in determining any impairment or changes in the specific valuation allowance recorded in connection with the troubled debt restructuring. A valuation allowance may have been recorded prior to the quarter when the loan is modified in a troubled debt restructuring. Accordingly, the carrying value (net of the specific valuation allowance) before and after modification through a troubled debt restructuring may not change significantly, or may increase if the expected recovery is higher than the pre-modification recovery assessment.

As of December 31, 2015, the Company had 9 commercial mortgage troubled debt restructured loans with a carrying value of \$5.0.

Of the 9 commercial mortgage loans, 8 were restructured in August 2013 with a pre-modification and post modification carrying value of \$9.3. These loans represent what remains of an initial portfolio of 20 restructures with a pre-modification and post modification carrying value of \$19.7. This portfolio of loans is comprised of cross-defaulted, cross-collateralized individual loans, owned by the same sponsor. Between the date of the troubled debt restructuring and December 31, 2015, these loans have repaid \$16.7 in principal.

As of the years ended December 31, 2015 and 2014, the Company's total recorded investment in restructured debts was \$5.0 and \$17.8, respectively. The Company realized losses related to these investments of \$0.0, \$0.0, and \$0.0 during 2015, 2014, and 2013, respectively.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

The Company has no contractual commitments to extend credit to debtors owing receivables whose terms have been modified in troubled debt restructurings.

The Company accrues interest income on impaired loans to the extent it is deemed collectible, that is delinquent less than 90 days, and the loan continues to perform under its original or restructured contractual terms. Interest income on non-performing loans is generally recognized on a cash basis.

4. Derivative Financial Instruments Held for Purposes Other than Trading

Upfront fees paid or received on derivative contracts are included on the balance sheets as an asset or liability and are being amortized to investment income over the remaining terms of the contracts.

Periodic payments from such contracts are included in investment income on the statements of operations. Accrued amounts payable to or receivable from counterparties are included in other liabilities or accrued investment income on the balance sheet. Gains or losses realized as a result of early terminations are recognized in income in the statement of operations or deferred into IMR and amortized into investment income.

Derivatives that are designated as being in an effective hedging relationship are reported in a manner that is consistent with the hedged asset or liability. Derivative contracts that are matched or otherwise designated to be associated with other financial instruments are recorded at fair value if the related financial instruments mature, are sold, or are otherwise terminated or if the interest rate contracts cease to be effective hedges. Changes in the fair value of derivatives not designated in effective hedging relationships are recorded as unrealized gains and losses in surplus.

The Company is exposed to credit loss in the event of nonperformance by counterparties on certain derivative contracts; however, the Company does not anticipate nonperformance by any of these counterparties. The amount of such exposure is generally the unrealized gains in such contracts. The Company manages the potential credit exposure from interest rate contracts through careful evaluation of the counterparties' credit standing, collateral agreements, and master netting agreements.

Under the terms of the Company's Over-The-Counter ("OTC") Derivative International Swaps and Derivatives Association, Inc. ("ISDA ") agreements, the Company may receive from, or deliver to, counterparties, collateral to assure that all terms of the ISDA agreements will be met with regard to the Credit Support Annex ("CSA"). The terms of the CSA call for the Company to pay interest on any cash received equal to the Federal Funds rate. Collateral held is used in accordance with the CSA to satisfy any obligations. Investment grade bonds owned by the Company are the source of noncash collateral posted, which is reported on the balance sheet.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

The table below summarizes the Company's types and amounts of collateral held, pledged and delivered related to OTC derivative contracts and cleared derivative contracts:

Collateral Type:	As of December 31, 2015		As of December 31, 2014	
	(In Thousands)			
Cash				
Held- OTC Contracts	\$	24,152	\$	22,610
Held- Cleared Contracts		16,941		—
Pledged- Cleared Contracts		—		9,667
Securities				
Held	\$	694	\$	4,160
Delivered		15,996		15,522

At December 31, 2015, the maximum length of the time over which the Company is hedging its exposure to variability in future cash flows for forecasted transaction does not exceeds two years. At December 31, 2015, the Company does not have any gains or losses classified in unrealized gains/losses related to cash flow hedges that have been discontinued because it was no longer probable that the original forecasted transactions would occur by the end of the originally specified time period, or within two months of that date.

The Company sells credit default swap protection, in conjunction with other investments, to replicate the income characteristics of otherwise permitted investments. The standard contract is five or seven years. In the event of default of the reference entity, the Company would be required to pay the notional amount of contract. At December 31, 2015, the total amount would be \$450.0.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

The table below summarizes the Company's derivative contracts, which are reflected as invested assets and a liability on the balance sheets, at December 31, 2015 and 2014:

	Notional Amount	Carrying Value	Fair Value
		<i>(In Thousands)</i>	
December 31, 2015			
Derivative contracts:			
Credit contracts	\$ 459,350	\$ (1,772)	\$ 3,116
Equity contracts	38,358	678	678
Foreign exchange contracts	121,681	13	8,982
Interest rate contracts	6,916,040	33,280	24,536
Total derivatives	<u>\$ 7,535,429</u>	<u>\$ 32,199</u>	<u>\$ 37,312</u>
December 31, 2014			
Derivative contracts:			
Credit contracts	\$ 450,000	\$ (3,445)	\$ 7,058
Equity contracts	34,565	1,143	1,143
Foreign exchange contracts	180,255	17	6,512
Interest rate contracts	6,699,270	28,958	17,951
Total derivatives	<u>\$ 7,364,090</u>	<u>\$ 26,673</u>	<u>\$ 32,664</u>

The net loss recognized by the Company in unrealized gains and losses for the years ending December 31, 2015 and 2014 resulting from derivatives that no longer qualify for hedge accounting is \$(0.3) and \$0, respectively.

5. Concentrations of Credit Risk

The Company held below investment grade corporate bonds with an aggregate book value of \$645.7 and \$757.2 and an aggregate market value of \$644.2 and \$808.1 at December 31, 2015 and 2014, respectively. Those holdings amounted to 4.9% of the Company's investments in bonds and 3.7% of total admitted assets at December 31, 2015. The holdings of below investment grade bonds are widely diversified and of satisfactory quality based on the Company's investment policies and credit standards.

The Company held unrated bonds of \$115.5 and \$208.6 with an aggregate NAIC fair value of \$115.8 and \$227.8 at December 31, 2015 and 2014, respectively. The carrying value of these holdings amounted to 0.9% of the Company's investment in bonds and 0.7% of the Company's total admitted assets at December 31, 2015.

The Company's commercial mortgage loan portfolio is diversified by geographic region and property type to manage concentration risk. The Company manages when originating commercial mortgage loans by generally lending only up to 75% of the estimated fair value of

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

the underlying real estate. Subsequently, the Company continuously evaluates all mortgage loans based on relevant current information including a review of loan-specific credit, property characteristics and market trends. Loan performance is continuously monitored on a loan-specific basis throughout the year. This review includes submitted appraisals, operating statements, rent revenues and annual inspection reports, among other items. This review evaluates whether the properties are performing at a consistent and acceptable level to secure the debt. The components to evaluate debt service coverage are received and reviewed at least annually to determine the level of risk.

The Company rates all commercial mortgages to quantify the level of risk. The Company places those loans with higher risk on a watch list and closely monitors these loans for collateral deficiency or other credit events that may lead to a potential loss of principal and/or interest.

Loan-to-value ("LTV") and debt service coverage ("DSC") ratios are measures commonly used to assess the risk and quality of commercial mortgage loans. The LTV ratio, calculated at time of origination, is expressed as a percentage of the amount of the loan relative to the value of the underlying property. An LTV ratio in excess of 100% indicates the unpaid loan amount exceeds the value of the underlying collateral. The DSC ratio, based upon the most recently received financial statements, is expressed as a percentage of the amount of a property's net income (loss) to its debt service payments. A DSC ratio of less than 1.0 indicates that property's operations do not generate sufficient income to cover debt payments. These ratios are utilized as part of the review process described above. LTV and DSC ratios as of the dates indicated are presented below:

	2015		2014	
	Carrying Value	%	Carrying Value	%
	(In Thousands)		(In Thousands)

(Dollar amounts in millions, unless otherwise stated)

If the value of any mortgage loan is determined to be impaired (i.e., when it is probable that the Company will be unable to collect on all amounts due according to the contractual terms of the loan agreement), the carrying value of the mortgage loan is reduced to either the present value of expected cash flows from the loan, discounted at the loan's effective interest rate, or fair value of the collateral.

The following table shows the Company's mortgage loan portfolio diversification by property type:

Property Type	As of December 31, 2015		As of December 31, 2014

7. Employee Benefit Plans

Defined Benefit Plan: Voya Services Company (“VSC”) sponsors the Voya Retirement Plan (the “Qualified Plan”).

The Qualified Plan is a tax qualified defined benefit plan, the benefits of which are guaranteed (within certain specified legal limits) by the Pension Benefit Guaranty Corporation (“PBGC”). The costs allocated to the Company for its employees’ participation in the Qualified Plan were \$4.4, \$4.7 and \$5.3 for 2015, 2014 and 2013, respectively. VSC is responsible for all Qualified Plan liabilities.

Beginning January 1, 2012, the Qualified Plan implemented a cash balance pension formula instead of a final average pay (“FAP”) formula, allowing all eligible employees to participate in the Qualified Plan, with this new cash balance pension formula. Participants earn a credit equal to 4% of eligible pay. The accrued vested cash balance benefit is portable; participants can take it when they leave the Company’s employment. For participants in the Qualified Plan, as of December 31, 2011, there was a two-year transition period from the Qualified Plan’s FAP formula to the cash balance pension formula. In accordance with the requirements of *SSAP No. 89, Accounting for Pensions, A Replacement of SSAP No. 8* (“SSAP No. 89”) the Company obtained Board of Director approval on November 10, 2011.

Defined Contribution Plans: VSC sponsors the Voya 401(k) Savings Plan (the “Savings Plan”). Substantially all employees of VSC and its subsidiaries and affiliates (excluding certain employees) are eligible to participate, including the Company’s employees other than Company agents. The Savings Plan is a tax qualified profit sharing and stock bonus plan, which includes an employee stock ownership plan (“ESOP”) component. Savings Plan benefits are not

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

guaranteed by the PBGC. The Savings Plan allows eligible participants to defer into the Savings Plan a specified percentage of eligible compensation on a pretax basis. VSC matches such pretax contributions, up to a maximum of 6.0% of eligible compensation. All matching contributions are subject to a 4 year graded vesting schedule (although certain specified participants are subject to a 5 year graded vesting schedule). All contributions made to the Savings Plan are subject to certain limits imposed by applicable law. Amounts allocated to the Company for the Savings Plan were \$6.2, \$5.5 and \$6.4 for 2015, 2014 and 2013, respectively.

Other Benefit Plans: In addition to providing retirement plan benefits, the Company, in conjunction with VSC, provides certain supplemental retirement benefits to eligible employees and health care and life insurance benefits to retired employees and other eligible dependents. The supplemental retirement plan includes a nonqualified defined benefit pension plan, and a nonqualified defined contribution plan, which means all benefits are payable from the general assets of the Company. The postretirement health care plan is contributory, with retiree contribution levels adjusted annually. The life insurance plan provides a flat amount of noncontributory coverage and optional contributory coverage.

The Company uses a private-fee-for-service Medicare Advantage program for post-Medicare eligible retired participants.

The Omnibus Plan: Certain employees of the Company participate in the Voya Financial, Inc. 2013 and 2014 Omnibus Employee Incentive Plan ("the Omnibus Plan") with respect to awards granted in 2013, 2014 and 2015. Certain employees also participate in various ING share-based compensation plans with respect to awards granted prior to 2013. Certain employees of the Company received awards under ING Group share-based compensation plans during 2013; however, such awards were converted into Performance Share Units ("PSUs") or restricted stock units ("RSUs") of the Voya Financial, Inc. common stock under the Omnibus Plan upon the closing of the IPO in May 2013.

The costs allocated to the Company under these holding company arrangements for employee participation were \$19.3, \$21.3 and \$15.1 for 2015, 2014 and 2013, respectively.

The Company also offers deferred compensation plans for eligible employees and certain other individuals who meet the eligibility criteria. The Company's deferred compensation commitment for employees is recorded on the balance sheet in other liabilities and totaled \$30.2 and \$30.4 for the years ended December 31, 2015 and 2014, respectively.

As of August 1, 2009, Voya's Postretirement Welfare Plans are no longer eligible for the Medicare Drug Subsidy ("RDS") that was being shared with retirees and beneficiaries. The 2016 expected benefit reduction in the net postretirement benefit cost for the subsidy related to benefits attributed to former employees is \$0.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

The amounts in unassigned funds (surplus) expected to be recognized in the next fiscal year as components of net periodic benefit cost are as follows:

	Pension Benefits			Postretirement Benefits		
	2015	2014	2013	2015	2014	2013
	<i>(In Thousands)</i>					
Net transition asset or obligation recognized	\$ 821	\$ 821	\$ 821	\$ —	\$ —	\$ —
Net prior service cost or credit	—	—	—	(765)	(791)	(792)
Net recognized gains and losses	1,621	1,694	897	(293)	(277)	(287)

The amounts in unassigned funds (surplus) that have not yet been recognized as components of net periodic benefit cost are as follows:

	Pension Benefits			Postretirement Benefits		
	2015	2014	2013	2015	2014	2013
	<i>(In Thousands)</i>					
Net transition asset or obligation	\$ 4,106	\$ 4,928	\$ 5,749	\$ —	\$ —	\$ —
Net prior service cost or credit	—	—	—	(4,421)	(5,212)	(6,004)
Net recognized gains and losses	13,727	14,599	8,941	(3,885)	(4,163)	(4,016)

Assumptions used in determining year-end liabilities for the defined benefit plans and other benefit plan as of December 31, 2015, 2014 and 2013 were as follows:

	2015	2014	2013
Weighted average discount rate	4.81%	4.36%	4.95%
Rate of increase in compensation level	4.00%	4.00%	4.00%

Assumptions used in determining expense for the defined benefit plans and other benefit plan as of January 1, 2015, 2014 and 2013 were as follows:

	2015	2014	2013
Weighted average discount rate	4.36%	4.95%	4.05%
Rate of increase in compensation level	4.00%	4.00%	4.00%

The annual assumed rate of increase in the per capita cost of covered benefits (i.e. health care cost trend rate) for the medical plan is 7.40%, decreasing gradually to 5.60% over five years. Increasing the assumed health care cost trend rates by one percentage point in each year would increase the accumulated postretirement benefit obligation for the medical plan as of December 31, 2015 by \$0.0. Decreasing the assumed health care cost trend rates by one percentage point in each year would decrease the accumulated postretirement benefit obligation for the medical plan as of December 31, 2015 by \$0.0.

The amount of accumulated benefit obligation for defined benefit pension plans was \$33.4 and \$35.0 for the years ended December 31, 2015 and 2014, respectively.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

The Company expects to pay the following benefits in future years:

Year ending December 31,	Benefits
	<i>(In Thousands)</i>
2016	\$ 3,369
2017	3,260
2018	3,273
2019	3,250
2020	3,149
2021 through 2025	14,659

The Company's expected future contributions are equal to its expected future benefit payments. The Company's 2016 future expected contribution is \$3.4.

The Company has multiple postretirement welfare benefit plans. The medical plans are contributory, with plan premiums and participants' contributions adjusted annually. The life insurance plan for retirees is contributory based on retirement date. Coverage for Medicare eligible retirees is provided through a fully insured Medicare Advantage plan. The Company's contribution toward the retiree medical Medicare Advantage plan cost is limited such that it will not increase by more than 4% annually.

The Company does not have any regulatory contribution requirements for 2016, and the Company does currently intend to make voluntary contributions of \$3.4 to the defined benefit pension plan for 2016.

8. Separate Accounts

Separate account assets and liabilities represent funds segregated by the Company for the benefit of certain policy and contract holders who bear the investment risk. Revenues and expenses on the separate account assets and related liabilities equal the benefits paid to the separate account policy and contract holders.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

The general nature and characteristics of the separate accounts business is as follows:

	Non-Indexed Guarantee Less than/ Equal to 4%	Non- Guaranteed Separate Accounts	Total

Total separate account aggregate reserves	\$ 37,604	\$ 2,199,298	\$ 2,236,902

The Company utilizes separate accounts to record and account for assets and liabilities for particular lines of business. For the years ended December 31, 2015 and 2014, the Company reported assets and liabilities from Individual Annuity, Group Annuity, Individual Life and Market Value Adjustment (“MVA”) product lines in separate accounts.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

Assets in the separate account are considered legally insulated from the general account, providing protection of such assets from being available to satisfy claims resulting in the general account. The assets legally and not legally insulated from the general account are summarized in the following table, by product or transaction type, as of December 31, 2015 and 2014:

Product or Transaction	Legally Insulated Assets	Not Legally Insulated Assets
	<i>(In Thousands)</i>	
December 31, 2015		
Individual Life	\$ 1,171,765	\$ —
Individual Annuity	910,441	—
MVA	14,071	—
Group Annuity	726	—
	<u>\$ 2,097,003</u>	<u>\$ —</u>
December 31, 2014		
Individual Life	\$ 1,261,138	\$ —
Individual Annuity	977,193	—
MVA	20,162	—
Group Annuity	722	—
	<u>\$ 2,259,215</u>	<u>\$ —</u>

In accordance with the products/transactions recorded within the separate account, some separate account liabilities are guaranteed by the general account. As of December 31, 2015 and 2014, the general account of the Company had a maximum guarantee for separate account liabilities of \$32.1 and \$32.2, respectively.

To compensate the general account for the risk taken, the separate account paid the following amounts in risk charges:

Year ended	Risk Charges
	<i>(In Thousands)</i>
2015	\$ 11,811
2014	11,798
2013	10,895
2012	9,743
2011	9,693

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

Total separate account guarantees paid by the Company's general account are as follows:

Year ended	Guarantees Paid
	<i>(In Thousands)</i>
2015	\$ 342
2014	438
2013	301
2012	256
2011	473

The Company does not engage in securities lending transactions within the separate account.

A reconciliation of the amounts transferred to and from the separate accounts is presented below:

	Year ended December 31		
	2015	2014	2013
	<i>(In Thousands)</i>		
Transfers as reported in the Summary of Operations of the Separate Accounts Statement:			
Transfers to separate accounts	\$ 107,909	\$ 117,398	\$ 124,995
Transfers from separate accounts	(204,429)	(213,902)	(201,656)
Transfers as reported in the Statements of Operations	<u>\$ (96,520)</u>	<u>\$ (96,504)</u>	<u>\$ (76,661)</u>

The separate account liabilities subject to minimum guaranteed benefits, the gross amount of reserve and the reinsurance reserve credit related to minimum guarantees, by type, at December 31, 2015 and 2014 were as follows:

	Guaranteed Minimum Death Benefit	Guaranteed Minimum/ Accumulation/ Withdrawal Benefit (GMAB/GMWB)
	<i>(In Thousands)</i>	
December 31, 2015		
Separate account liability	\$ 1,240,380	\$ 563
Gross amount of reserve	13,463	—
Reinsurance reserve credit	—	—
December 31, 2014		
Separate account liability	\$ 1,295,705	\$ 809
Gross amount of reserve	11,169	—
Reinsurance reserve credit	—	—

Assets supporting separate accounts with additional insurance benefits and minimum investment return guarantees are comprised of fixed maturities, equity securities, including mutual funds,

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

and other invested assets. The aggregate fair value of the invested assets as of December 31, 2015 and 2014 was \$2.1 billion and \$2.3 billion, respectively.

The Company has separate account accounts for which less than 100% of investment proceeds, net of contract fees and assessments, are attributable to a contract holder. The reinvestment of investment proceeds within the separate account did not result in the Company having a combined investment portfolio that exceeded the state investment limitations imposed on the general account.

9. Federal Income Taxes

The Company files a consolidated federal income tax return with its indirect parent, Voya Financial, Inc. and other United States ("U.S.") affiliates. The Company has a written tax sharing agreement, approved by the Company's Board of Directors, which provides that the Company will be allocated a tax liability based on its separate return tax liabilities. Any loss generated by the Company will only be benefited to the extent the consolidated tax group actually uses the tax benefit of the losses generated.

The following is a list of all affiliated companies that participate in the filing of this consolidated federal income tax return:

Australia Retirement Services Holding, LLC	Voya II Custom Investments LLC
Directed Services LLC	Voya Financial Advisors, Inc.
IB Holdings LLC	Voya Financial Partners, LLC
IIPS of Florida, LLC	Voya Financial Products Company, Inc.
ILICA Inc.	Voya Financial, Inc.
Langhorne I, LLC	Voya Funds Services, LLC

* A portion of the capital DTL has been used to offset ordinary DTAs.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

The admission calculation components by tax character of admitted adjusted gross deferred tax assets as the result of the application of SSAP No. 101 as of December 31, 2015 and 2014 are as follows:

	12/31/2015			12/31/2014			Change		
	Ordinary	Capital	Total	Ordinary	Capital	Total	Ordinary	Capital	Total
	<i>(In Thousands)</i>								
a. Federal income taxes paid in prior years recoverable through loss carrybacks	\$ 22,796	\$ —	\$ 22,796	\$ 15,534	\$ —	\$ 15,534	\$ 7,262	\$ —	\$ 7,262
b. Adjusted gross DTAs expected to be realized (excluding the amount of DTAs from (a)) after application of the threshold limitation (the lesser of (b)1 and (b)2 below)	133,990	20,599	154,589	153,724	26,296	180,020	(19,734)	(5,697)	(25,431)
1. Adjusted gross DTAs expected to be realized following the balance sheet date	133,990	20,599	154,589	169,258	26,296	195,554	(35,268)	(5,697)	(40,965)
2. Adjusted gross DTAs allowed per limitation threshold	XXX	XXX	214,766	XXX	XXX	262,373	XXX	XXX	(47,607)
c. Adjusted gross DTAs (excluding the amount of DTAs from (a) and (b) above) offset by gross deferred tax liabilities	110,577	9,271	119,848	118,829	6,520	125,349	(8,252)	2,751	(5,501)
d. Deferred tax assets admitted as the result of application SSAP No. 101 Total	<u>\$ 267,363</u>	<u>\$ 29,870</u>	<u>\$ 297,233</u>	<u>\$ 288,087</u>	<u>\$ 32,816</u>	<u>\$ 320,903</u>	<u>\$ (20,724)</u>	<u>\$ (2,946)</u>	<u>\$ (23,670)</u>

The ratio percentage and the amount of adjusted capital and surplus used to determine the recovery period and threshold limitation are as follows:

	2015	2014
	<i>(Amounts in Thousands)</i>	
Ratio percentage used to determine recovery period and threshold limitation amount	860.33%	1,022.26%
Amount of adjusted capital and surplus used to determine recovery period and threshold limitation	\$ 1,592,858	\$ 1,913,525

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

Below shows the calculation to determine the impact of tax planning strategies on adjusted gross and net admitted DTAs:

	12/31/2015		12/31/2014		Change	
	Ordinary	Capital	Ordinary	Capital	Ordinary	Capital
	<i>(Amounts in Thousands)</i>					
Adjusted gross DTAs	\$ 397,414	\$ 29,870	\$ 405,188	\$ 32,816	\$ (7,774)	\$ (2,946)
Percentage of adjusted gross DTAs by tax character attributable to the impact of tax planning strategies	0.00%	68.96%	0.00%	80.13%	0.00%	(11.17)%
Net Admitted Adjusted Gross DTAs	\$ 267,363	\$ 29,870	\$ 288,087	\$ 32,816	\$ (20,724)	\$ (2,946)
Percentage of net admitted adjusted gross DTAs by tax character admitted because of the impact of tax planning strategies	2.19%	68.96%	4.00%	80.13%	(1.81)%	(11.17)%

The Company's tax planning strategies include the use of reinsurance.

RELIASTAR LIFE INSURANCE COMPANY

Admitted capital deferred tax assets	<u>\$ 29,870</u>	<u>\$ 32,816</u>	<u>\$ (2,946)</u>
Admitted deferred tax assets	<u>\$ 297,233</u>	<u>\$ 320,903</u>	<u>\$ (23,670)</u>
Deferred Tax Liabilities			
Ordinary:			
Investments	\$ 71,181	\$ 76,395	\$ (5,214)
Deferred and uncollected premiums	23,917	22,804	1,113
Policyholder reserves	9,370	11,754	(2,384)
Other (including items <5% of total ordinary tax liabilities)	363	546	(183)
Subtotal	<u>\$ 104,831</u>	<u>\$ 111,499</u>	<u>\$ (6,668)</u>
Capital:			
Investments	\$ 15,017	\$ 13,850	\$ 1,167
Subtotal	<u>\$ 15,017</u>	<u>\$ 13,850</u>	<u>\$ 1,167</u>
Total deferred tax liabilities	<u>\$ 119,848</u>	<u>\$ 125,349</u>	<u>\$ (5,501)</u>
Net deferred tax assets/liabilities	<u>\$ 177,385</u>	<u>\$ 195,554</u>	<u>\$ (18,169)</u>

Valuation allowances are provided when it is considered unlikely that deferred tax assets will be realized. As of December 31, 2015 and 2014, the Company had valuation allowances of \$1.7 and \$1.7, respectively, that relate to foreign tax credits.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

The provision for federal income tax expense and change in deferred taxes differs from the amount which would be obtained by applying the statutory federal income tax rate to income (including capital items) before income taxes.

The significant items causing this difference are as follows:

	Year Ended December 31					
	2015		2014		2013	
	Amount	Effective Tax Rate	Amount	Effective Tax Rate	Amount	Effective Tax Rate
	<i>(Amounts In Thousands)</i>					
Ordinary income (loss)	\$ 128,708		\$ 172,380		\$ 158,761	
Capital gains (losses)	(16,288)		9,267		16,879	
Total pretax income (loss)	112,420		181,647		175,640	
Expected tax expense (benefit) at 35% statutory rate	39,347	35.0 %	63,577	35.0 %	61,474	35.0 %
Increase (decrease) in actual tax reported resulting from:						
Tax credits	(2)	— %	(2)	— %	(13,992)	(8.0)%
Reinsurance	19,783	17.7 %	19,451	10.7 %	(10,677)	(6.1)%
Liquidation of subsidiary	—	— %	—	— %	(10,154)	(5.8)%
Dividends received deduction	(4,338)	(3.9)%	(4,855)	(2.7)%	(3,930)	(2.2)%
Interest maintenance reserve	(8,874)	(7.9)%	1,594	0.9 %	(3,342)	(1.9)%
Other	(979)	(0.9)%	203	0.1 %	(3,687)	(2.1)%
Prior year tax*	—	— %	355	0.2 %	1,003	0.6 %
Total income tax reported	<u>\$ 44,937</u>	40.0 %	<u>\$ 80,323</u>	44.2 %	<u>\$ 16,695</u>	9.5 %
Current income taxes incurred	\$ 38,223	34.0 %	\$ 77,787	42.8 %	\$ (40,220)	(22.9)%
Change in deferred income tax**	6,714	6.0 %	2,536	1.4 %	56,915	32.4 %
Total income tax reported	<u>\$ 44,937</u>	40.0 %	<u>\$ 80,323</u>	44.2 %	<u>\$ 16,695</u>	9.5 %

* As part of the Company's process to adjust the tax provision to the actual tax return as filed, we changed our estimate of certain deferred tax assets by \$0.0, \$0.4 and \$1.0 for 2015, 2014, and 2013, respectively.

** Excluding tax on unrealized gains (losses) and other surplus items.

As of December 31, 2015, there is no operating loss. The Company has a foreign tax credit carry forward of \$1.7 offset by a full tax valuation allowance. The Company also has a low income housing tax credit carry forward of \$3.9.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

The Company's tax credit carry forwards expire as follows:

	Year of Origination	Year of Expiration	Tax Credit Carry Forwards
			<i>(In Thousands)</i>
Foreign Tax Credit	2007	2017	\$ 1,691
Low Income Housing Tax Credit	2013	2033	3,904
Low Income Housing Tax Credit	2014	2034	2
Total Low Income Housing Credit			<u>\$ 3,906</u>

There is \$40.9, \$77.3, \$0.0 of federal income taxes incurred from 2015, 2014, and 2013, respectively that will be available for recoupment in the event of future net losses.

There were no deposits admitted under Section 6603 of the Internal Revenue Code as of December 31, 2015.

The Company has no unrecorded tax liability as of December 31, 2015.

The Company has no tax loss contingencies for which it is reasonably possible that the total liability will significantly increase within twelve months of the reporting date.

The Company's transferable state tax credit assets at December 31, 2015 and 2014 are as follows:

Method of Estimating Utilization of Remaining Transferable State Tax Credit	State	Carrying Value	Unused Credit Remaining
(In Thousands)			
December 31, 2015			
Fixed credit at time of purchase	NC	\$ 2,895	\$ 3,520
Low Income Housing Investment	GA	501	319
Fixed credit at time of purchase	AL	1,060	831
Total State Tax Credits		\$ 4,456	\$ 4,670
December 31, 2014			
Fixed credit at time of purchase	AL	\$ 1,060	\$ 1,152
Fixed credit at time of purchase	TX	1,054	1,117
Low Income Housing Investment	GA	1,668	693
Total State Tax Credits		\$ 3,782	\$ 2,962

The Company does not have any non-transferable or nonadmitted state tax credit assets at December 31, 2015 or 2014.

The Company estimated the utilization of the remaining transferable and non-transferable state tax credits by projecting future premiums taking into account policy growth and rate changes,

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

projecting future tax liability based on projected premiums, tax rates and tax credits, and comparing projected future tax liability to the availability of remaining transferable tax credits.

A reconciliation of the change in the tax contingencies tax benefits is as follows:

	<u>2015</u>	<u>2014</u>	<u>2013</u>
		<i>(In Thousands)</i>	
Balance at beginning of year	\$ 1,890	\$ 1,810	\$ 1,810
Additions for tax positions related to prior year	—	80	—
Reduction for tax positions related to prior year	—	—	—
Reduction for tax positions settled with taxing authorities	—	—	—
Balance at end of year	<u>\$ 1,890</u>	<u>\$ 1,890</u>	<u>\$ 1,810</u>

The Company had \$1.9, \$1.9 and \$1.8 of tax contingencies as of December 31, 2015, 2014 and 2013, respectively, which would affect the Company's effective tax rate if recognized. The timing of the payment of tax contingencies of \$1.9 cannot be reliably estimated.

The Company recognizes accrued interest and penalties related to tax contingencies in Federal income taxes and Federal income tax expense on the balance sheet and statements of operation, respectively. The Company had no accrued interest or penalties as of December 31, 2015, 2014 and 2013.

During April 2015, the Internal Revenue Service ("IRS") completed its examination of the Company's returns through tax year 2013. The 2013 audit settlement did not have a material impact on the Company. The Company is currently under audit by the IRS, and it is expected that the examination of tax year 2014 will be finalized within the next twelve months. The Company and the IRS have agreed to participate in the Compliance Assurance Process for the tax years 2014 through 2016.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

10. Investment in and Advances to Subsidiaries

The Company has three wholly owned insurance subsidiaries at December 31, 2015 and 2014, ReliaStar Life Insurance Company of New York (“RNY”), Roaring River, LLC (“RR”) and Roaring River II, LLC (“RRII”). At December 31, 2012, the Company also had Whisperingwind II, LLC (“WWII”) as a wholly owned subsidiary. As of December 31, 2013, the Company had dissolved WWII.

Amounts invested in and advanced to the Company’s subsidiaries are summarized as follows:

	December 31	
	2015	2014
	<i>(In Thousands)</i>	
Common stock (cost - \$283,016 in 2015 and \$283,016 in 2014)	\$ 314,870	\$ 298,764
Limited liability companies (cost - \$168,550 in 2015 and \$176,746 in 2014)	—	—
	<u>\$ 314,870</u>	<u>\$ 298,764</u>

Summarized financial information as of and for the year ended December 31 for these subsidiaries is as follows:

	December 31		
	2015	2014	2013
	<i>(In Thousands)</i>		
Revenues	\$ (1,067,524)	\$ 475,979	\$ 455,156
Income (Loss) before net realized gains and losses	680,015	(199,138)	(90,515)
Net income (loss)	465,283	(159,905)	(73,428)
Admitted assets	3,505,988	5,213,901	4,975,780
Liabilities	3,113,275	4,623,871	4,360,816

Asset and liability amounts for RNY, RR and RRII are included in the above table, however, the Company’s carrying amount for RR and RRII is zero.

The Company received no cash dividends from RNY during years ended December 31, 2015, 2014 and 2013.

On October 27, 2006, the Company created a South Carolina domiciled, wholly owned subsidiary, WWII, as a limited liability company. WWII received its licensure as a Captive from the Director of the South Carolina Department of Insurance on October 26, 2007. After receiving all required and customary regulatory approvals, WWII commenced doing business as a Captive on November 1, 2007.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

On October 1, 2012, all business in WWII was novated to FNL Insurance Company, LTD. (“FNL”). On April 26, 2013, a final return of capital of \$40.9 was paid to the Company from WWII. As of April 12, 2013, the Company dissolved this wholly owned subsidiary. The following table summarizes key financial information related to WWII:

	December 31		
	2015	2014	2013
		<i>(In Thousands)</i>	
Carrying Value of WWII	XX	XX	\$ —
Return of Capital from WWII	XX	XX	40,904
Dividends Received from WWII	XX	XX	—
Ceded Premium to WWII	XX	XX	—
Ceded Reserves to WWII	XX	XX	—
Ceded Insurance In Force to WWII	XX	XX	—

On September 12, 2008, the Company created a Missouri domiciled, wholly owned subsidiary, RR, as a limited liability company. RR received its licensure as a Captive pursuant to Missouri Revised Statutes Chapter 379 Sections 379.1353 to 379.1421 and the rules, regulations and interpretations of the Missouri Department of Insurance. After receiving all required and customary regulatory approvals, RR commenced doing business as a Captive on January 1, 2009. The following table summarizes key financial information related to RR:

	December 31		
	2015	2014	2013
		<i>(In Thousands)</i>	
Carrying Value of RR	\$ —	\$ —	\$ —
Contributed Capital to RR	—	—	—
Return of Capital from RR	5,000	—	20,000
Ceded Premium to RR	46,029	50,796	54,744
Ceded Reserves to RR	284,421	232,137	179,602
Ceded Insurance In Force to RR	32,857,699	33,983,642	35,237,830

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

On March 29, 2010, the Company created a Missouri domiciled, wholly owned subsidiary, RRII, as a limited liability company. RRII received its licensure as a Captive pursuant to Missouri Revised Statutes Chapter 379 Sections 379.1353 to 379.1421 and the rules, regulations and interpretations of the Missouri Department of Insurance. After receiving all required and customary regulatory approvals, RRII commenced doing business as a Captive on December 30, 2010. The following table summarizes key financial information related to RRII:

		December 31	
	2015	2014	2013
		<i>(In Thousands)</i>	
Carrying Value of RRII	\$ —	\$ —	\$ —
Contributed Capital to RRII	804	3,630	29,886
Return of Capital from RRII	4,000	50,000	109,886
Ceded Premium to RRII	103,705	128,469	135,850
Ceded Reserves to RRII	41,731	1,373,999	1,184,078
Ceded Insurance In Force to RRII	1,239,820	91,431,580	94,094,669

11. Reinsurance

The Company is involved in both ceded and assumed reinsurance with other companies for the purpose of diversifying risk and limiting exposure on larger risks. To the extent that the assuming companies become unable to meet their obligations under these treaties, the Company remains contingently liable to its policyholders for the portion reinsured. To minimize its exposure to significant losses from the reinsurer insolvencies, the Company evaluates the financial condition of the reinsurer and monitors concentrations of credit risk.

Assumed premiums amounted to \$95.7, \$103.1 and \$97.4 for 2015, 2014 and 2013, respectively.

The Company's ceded reinsurance arrangements reduced certain items in the accompanying financial statements by the following amounts:

	2015	2014	2013
		<i>(In Thousands)</i>	
Premiums for the year ended	\$ 2,169,812	\$ 3,019,436	\$ 2,030,961
Benefits paid or provided for the year ended	1,740,270	1,495,870	1,530,652
Policy and contract liabilities at year end	10,533,898	9,874,818	8,130,202

The amount of reinsurance credits taken for new agreements executed since January 1, 2015 to include policies or contracts that were in force or which had existing reserves established by the Company, were \$1.5 billion.

The Company has reinsurance agreements in effect under which the reinsurer may unilaterally cancel the agreement. The aggregate reduction in surplus of a unilateral cancellation by the

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

reinsurer which results in a net obligation of the reporting entity to the reinsurer is \$1.3, and the total amount of reinsurance credits taken for these agreements is \$1.2 as of December 31, 2015.

The Company estimates that an aggregate reduction in surplus of \$6.6 billion would occur in the event that all reinsurance agreements were terminated, by either party, as of December 31, 2015. This excludes any agreements under which the reinsurer may unilaterally cancel for reasons other than nonpayment of premium or other similar credits.

12. Capital and Surplus

Under Minnesota insurance regulations, the Company is required to maintain a minimum total capital and surplus of \$2.0. Additionally, the amount of dividends which can be paid by the Company to its shareholder without prior approval of the Minnesota Division of Insurance is limited to the greater of the net gain from operations excluding realized capital gains or 10% of surplus at December 31 of the preceding year.

A surplus note with a carrying value and par value of \$100,000,000 was issued by the Company to Voya Holdings on December 1, 2001 with September 15, 2021 as the date of maturity. On November 25, 2009, the surplus note transferred beneficial ownership from Voya Holdings to SLDI Georgia Holdings, Inc. ("SGH"). For the years ended December 31, 2015, 2014 and 2013, interest paid totaled \$2.6, \$2.8 and \$2.0, respectively. There is no accrued interest for the years ended December 31, 2015 and 2014. The interest rate associated with this surplus debenture varies. The amount of unapproved interest and/or principal associated with this surplus debenture is \$0.7, \$0.8, and \$0.6 as of December 31, 2015, 2014 and 2013, respectively.

Payment of the note and related accrued interest is subordinate to payments due to policyholders, claimant and beneficiary claims, as well as debts owed to all other classes of debtors, other than surplus note holders of the Company in the event of (a) the institution of bankruptcy, reorganization, insolvency, or liquidation proceedings by or against the Company, or (b) the appointment of a Trustee, receiver or other conservator for a substantial part of the Company's properties. Any payment of principal and/or interest made is subject to the prior approval of the Minnesota Insurance Commissioner.

Capital Contributions and Extraordinary Dividends

The Company contributed capital in the amount of \$0.8 on April 15, 2015, to its wholly owned subsidiary, RRII.

On May 5, 2015, the Company declared an ordinary dividend in the amount of \$194.0 to its sole shareholder, Voya Holdings, for ultimate distribution to Voya Financial, Inc., which was paid on May 20, 2015, after providing notice to the Minnesota Department of Commerce-Insurance Division.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

On June 3, 2015, the Company declared an extraordinary distribution in the amount of \$280.0 to its sole shareholder, Voya Holdings, for ultimate distribution to Voya Financial, Inc., subject to the approval of the Minnesota Department of Commerce-Insurance Division, which was paid on August 3, 2015, after receipt of such approval.

On December 28, 2015, the Company received a return of capital of \$5.0 from RR.

On December 30, 2015, the Company received a return of capital of \$4.0 from RRII.

On May 2, 2014, the Company declared an ordinary dividend in the amount of \$193.0 to its sole shareholder, Voya Holdings for ultimate distribution to Voya Financial, Inc., which was paid on May 19, 2014, after providing notice to the Minnesota Department of Commerce-Insurance Division.

On April 3, 2013, the Minnesota Department of Commerce - Insurance Division approved an extraordinary distribution of \$583.0 that was paid on May 8, 2013 to the Company's parent, Voya Holdings.

The Company did not receive any capital contributions from Voya Holdings during 2015, 2014 and 2013.

The Company contributed capital in the amount of \$1.6 and \$2.0 on April 14, 2014 and September 15, 2014, respectively, to its wholly owned subsidiary, RRII. RRII received approval from the Missouri Department of Insurance to pay a \$50.0 return of capital to the Company on November 3, 2014.

The Company contributed capital in the amount of \$7.3 and \$22.6 on June 17, 2013 and September 13, 2013, respectively, to RRII. RRII received approval from the Missouri Department of Insurance to pay \$29.9 and \$80.0 in returns of capital to the Company on December 17, 2013 and October 7, 2013, respectively.

On November 18, 2013, the Company received a return of capital of \$20.0 from RR.

Life and health insurance companies are subject to certain Risk Based Capital requirements as specified by the NAIC. Under those requirements, the amount of capital and surplus maintained by a life and health insurance company is to be determined based on the various risk factors related to it. The Company exceeded the minimum RBC requirements that would require any regulatory or corrective action for all periods presented herein.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

13. Fair Values of Financial Instruments

In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases, could not be realized in immediate settlement of the financial instrument. Accordingly, the aggregate fair value amounts presented herein do not represent the underlying value of the Company.

Life insurance liabilities that contain mortality risk and all nonfinancial instruments have been excluded from the disclosure requirements. However, the fair values of liabilities under all insurance contracts are taken into consideration in the Company's overall management of interest rate risk, such that the Company's exposure to changing interest rates is minimized through the matching of investment maturities with amounts due under insurance contracts.

The following methods and assumptions are used by the Company in estimating the fair value disclosures for financial instruments in the accompanying financial statements and notes there to:

Cash, cash equivalents and short term investments: The carrying amounts reported in the accompanying balance sheets for these financial instruments approximate their fair values.

Bonds and equity securities: The Company utilizes a number of valuation methodologies to determine the fair values of its bonds, preferred stocks and common stocks reported herein in conformity with the concepts of "exit price" and the fair value measurement as prescribed in SSAP No. 100. Valuations are obtained from third party commercial pricing services, brokers, and industry-standard vendor-provided software that models the value based on market observable inputs. The valuations obtained from brokers and third-party commercial pricing services are non-binding. The valuations are reviewed and validated monthly through the internal valuation committee price variance review, comparisons to internal pricing models, back testing to recent trades, or monitoring of trading volumes.

Fair values of privately placed bonds are determined using a matrix-based pricing model. The model considers the current level of risk-free interest rates, current corporate spreads, the credit quality of the issuer, and cash flow characteristics of the security. Also considered are factors such as the net worth of the borrower, the value of collateral, the capital structure of the borrower, the presence of guarantees, and the Company's evaluation of the borrower's ability to compete in its relevant market. Using this data, the model generates estimated market values which the Company considers reflective of the fair value of each privately placed bond.

For securities not actively traded, fair values are estimated using values obtained from independent pricing services or, in the case of private placement investments, are estimated

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

by discounting the expected future cash flows. The discount rates used vary as a function of factors such as yield, credit quality, and maturity, which fall within a range between 0.5% and 8.8% over the total portfolio. The Company's statutory fair values represent the amount that would be received to sell securities at the measurement date (i.e. "exit value" concept).

Mortgage loans: Estimated fair values for commercial real estate loans were generated using a discounted cash flow approach. Loans in good standing are discounted using interest rates determined by U.S. Treasury yields on December 31 and spreads applied on new loans with similar characteristics. The amortizing features of all loans are incorporated in the valuation. Where data on option features is available, option values are determined using a binomial valuation method, and are incorporated into the mortgage valuation. Restructured loans are valued in the same manner; however, these loans were discounted at a greater spread to reflect increased risk.

Derivative financial instruments: Fair values for derivative financial instruments are based on broker/dealer valuations or on internal discounted cash flow pricing models, taking into account current cash flow assumptions and the counterparties' credit standing.

The carrying value of all other financial instruments approximates their fair value.

Included in various investment related line items in the financial statements are certain financial instruments carried at fair value. Other financial instruments are periodically measured at fair value, such as when impaired, or for certain bonds and preferred stock when carried at the lower of cost or market.

The fair value of an asset is the amount at which that asset could be bought or sold in a current transaction between willing parties, that is, other than in a forced or liquidation sale. The fair value of a liability is the amount at which that liability could be incurred or settled in a current transaction between willing parties, that is, other than in a forced or liquidation sale.

Fair values are based on quoted market prices when available. When market prices are not available, fair value is generally estimated using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms and credit quality (matrix pricing). In instances where there is little or no market activity for the same or similar instruments, the Company estimates fair value using methods, models and assumptions that management believes market participants would use to determine a current transaction price. These valuation techniques involve some level of management estimation and judgment which becomes more significant with increasingly complex instruments or pricing models. Where appropriate, adjustments are included to reflect the risk inherent in a particular methodology, model or input used.

Derivatives are carried at fair value, which is determined using the Company's derivative accounting system in conjunction with observable key financial data from third-party sources, such as yield curves, exchange rates, S&P 500 Index prices and London Interbank Offered Rates

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

("LIBOR") and Overnight Index Swap Rates ("OIS"). For those derivatives that are unable to be valued by the accounting system, the Company typically utilizes values established by third-party brokers. Derivatives which qualify for special hedge accounting treatment are reported in a manner that is consistent with the accounting for the hedged asset or liability.

The Company's financial assets and liabilities have been classified, for disclosure purposes, based on a hierarchy defined by SSAP No. 100.

The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument. Financial assets and liabilities recorded at fair value on the balance sheets are categorized as follows:

- Level 1 - Unadjusted quoted prices for identical assets or liabilities in an active market.
- Level 2 - Quoted prices in markets that are not active or inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - a) Quoted prices for similar assets or liabilities in active markets;
 - b) Quoted prices for identical or similar assets or liabilities in non-active markets;
 - c) Inputs other than quoted market prices that are observable; and
 - d) Inputs that are derived principally from or corroborated by observable market data through correlation or other means.
- Level 3 - Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant expectations in valuing the asset or liability.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

The following table shows the Company's financial instruments and the Level within the fair value hierarchy in which the fair value measurements fall as of December 31, 2015:

	<u>Aggregate Fair Value</u>	<u>Carrying Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
	<i>(In Thousands)</i>				
Assets:

There were no transfers between Level 1 and Level 2 during 2014. The Company's policy is to recognize transfers in and transfers out as of the beginning of the reporting period.

Bonds: Securities that are carried at fair value on the balance sheet are classified as Level 2 or Level 3. Level 2 bond prices are obtained through several commercial pricing services, which incorporate a variety of market observable information in their valuation techniques, including benchmark yields, broker-dealer quotes, credit quality, issuer spreads, bids, offers and other reference data to provide estimated fair values. Fair value for privately placed bonds is determined using a matrix-based pricing model and are classified as Level 2 assets. When a price cannot be obtained from a commercial pricing service, independent broker quotes are solicited. Securities priced using independent broker quotes are classified as Level 3. The Company's level 3 fair value measurements of its bonds, common stock, preferred stock and equity and credit derivative contracts are primarily based on broker quotes for which the quantitative detail of the unobservable inputs is neither provided nor reasonably corroborated, thus negating the ability to perform a sensitivity analysis.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

Preferred and Common Stock: Fair values of publicly traded equity securities are based upon quoted market price and are classified as Level 1 assets. Certain preferred stock prices are obtained through commercial pricing services and are classified as Level 2 assets. Other equity securities, typically private equities or equity securities not traded on an exchange are valued by other sources such as analytics or brokers and are classified as Level 3 assets.

Cash and cash equivalents and short-term investments: The carrying amounts for cash reflect the assets' fair values. The fair values for cash equivalents and short-term investments are determined based on quoted market prices. These assets are classified as Level 1.

Assets held in separate accounts: Assets held in separate accounts are reported at the quoted fair values of the underlying investments in the separate accounts. Mutual funds, short-term investments and cash are based upon a quoted market price and are included in Level 1. The underlying instruments in bonds have valuations that are obtained from third-party commercial pricing services and brokers and are classified in the fair value hierarchy consistent with the policies described above for fixed maturities.

Derivatives: The carrying amounts for these financial instruments, which can be assets or liabilities, reflect the fair value of the assets and liabilities. Certain derivatives are carried at fair value (on the balance sheets), which is determined using the Company's derivative accounting system in conjunction with observable key financial data, such as yield curves, exchange rates, S&P 500 Index prices, LIBOR, and OIS, which are obtained from third party sources and uploaded into the system. For those derivatives that are unable to be valued by the accounting system, the Company typically utilizes values established by third party brokers. Counterparty credit risk is considered and incorporated in the Company's valuation process through counterparty credit rating requirements and monitoring of overall exposure. The Company's own credit risk is monitored by comparison of credit ratings from national rating services. It is the Company's policy to transact only with investment grade counterparties with a credit rating of A- or better. The Company also has certain swaps and options that are priced using models that primarily use market observable inputs, but contain inputs that are not observable to market participants, which have been classified as Level 3. However, all other derivative instruments are valued based on market observable inputs and are classified as Level 2.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

The following table summarizes the change in fair value of the Company's Level 3 assets and liabilities for the year ended December 31, 2015:

Description	Beginning of the Year	Transfers into Level 3	Transfers Out of Level 3	Total Gains and (Losses) Included in Net Income	Total Gains and (Losses) Included in Surplus	Purchases	Issuances	Sales	Settlements	End of the Year
<i>(In Thousands)</i>										
Bonds										
Foreign	\$ —	\$ 2,399	\$ —	\$ (565)	\$ 200	\$ —	\$ —	\$ —	\$ (1,625)	\$ 409
Common Stock	448	—	—	—	—	—	—	(245)	—	203
Derivatives										
Equity contracts	18	—	—	(27)	(23)	41	—	—	—	9
Separate accounts	831	—	(643)	1	(16)	—	—	(167)	(6)	—
Total	<u>\$ 1,297</u>	<u>\$ 2,399</u>	<u>\$ (643)</u>	<u>\$ (591)</u>	<u>\$ 161</u>	<u>\$ 41</u>	<u>\$ —</u>	<u>\$ (412)</u>	<u>\$ (1,631)</u>	<u>\$ 621</u>

Transfers into or out of Level 3 during the year ended December 31, 2015 are due to the variation in inputs relied upon for valuation each quarter. Securities that are primarily valued using independent broker quotes, when prices are not available from one of the commercial pricing services, are reflected as transfers into Level 3. These securities are generally less liquid with very limited trading activity or where less transparency exists corroborating the inputs to the valuation methodologies. When securities are valued using more widely available information, the securities are transferred out of Level 3 and into Level 1 or 2, as appropriate.

The following table summarizes the change in fair value of the Company's Level 3 assets and liabilities for the year ended December 31, 2014:

valuation methodologies. When securities are valued using more widely available information, the securities are transferred out of Level 3 and into Level 1 or 2, as appropriate.

14. Commitments and Contingencies

Claims-Related Extra Contractual Obligation and Bad Faith Losses Stemming from Lawsuits: Settlements are accomplished by compromising disputed claims. By entering a settlement, the Company does not admit any allegation made by a plaintiff and, instead, denies the allegations, including any allegation of bad faith or an entitlement to extra contractual damages. Typically, settlement amounts are not allocated to particular claims (contractual or extra-contractual). The cases (1) were resolved in one year period ending December 31, 2015; (2) contained an allegation of bad faith or sought extra-contractual damages; and (3) the settlement amount exceeded the death benefit amount.

The settlement amounts paid in excess of death benefit amounts during 2015 was \$0.0.

Guarantee Agreement: The Company, along with a Voya Financial, Inc. affiliate, SLD, provided a guarantee for the obligation of another Voya Financial, Inc. affiliate, SLDI, related to a reinsurance transaction that was scheduled to be in-force through December 18, 2023. The State of Colorado and the State of Minnesota did not disapprove the guarantee agreement. On December 18, 2014, the bonds insured by the unrelated insurance company were redeemed and the insurance policies were canceled thereby eliminating the underlying risk in the reinsurance contract. The guarantee obligation expired December 18, 2015, which was the end of the bankruptcy preference period on the underlying bonds. There were no payments required under the guarantee. The Company recorded a non-contingent liability for the ongoing obligation to provide the guarantee of \$0.8 as of December 31, 2014. This liability amortized over the bankruptcy preference period until the guarantee obligation expired.

The Company had provided a Letter of Credit (“LOC”) from the Federal Home Loan Bank of Des Moines in support of this contingent obligation, but the LOC was canceled on December 18, 2014.

Operating Leases: The Company is party to certain cost sharing agreements with other affiliated Voya Financial, Inc. companies. Included in those cost sharing arrangements is rent expense, which is allocated to the Company in accordance with systematic cost allocation arrangements. During the years ended December 31, 2015, 2014 and 2013, rent expense totaled \$2.0, \$2.0 and \$2.0, respectively.

The Company does not have any minimum aggregate rental commitments under the cost-sharing arrangements and service agreements. The Company does not have any future minimum lease payment receivables under the cost-sharing arrangements and service agreements.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

Legal Proceedings - The Company is involved in threatened or pending lawsuits/arbitrations arising from the normal conduct of business. Due to the climate in insurance and business litigation/arbitration, suits against the Company sometimes include claims for substantial compensatory, consequential or punitive damages and other types of relief. Moreover, certain claims are asserted as class actions, purporting to represent a group of similarly situated individuals. While it is not possible to forecast the outcome of such lawsuits/arbitrations, in light of existing insurance, reinsurance and established reserves, it is the opinion of management that the disposition of such lawsuits/arbitrations will not have a material adverse effect on the Company's operations or financial position.

Regulatory Matters - As with many financial services companies, the Company and its affiliates periodically receive informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with examinations, inquiries, investigations and audits of the products and practices of the Company or the financial services industry. Some of the investigations, examinations, audits and inquiries could result in regulatory action against the Company. The potential outcome of such regulatory action is difficult to predict but could subject the Company to adverse consequences, including, but not limited to, additional payments to beneficiaries, settlement payments, penalties, fines and other financial liability, and changes to the Company's policies and procedures. The potential economic consequences cannot be predicted, but management does not believe that the outcome of any such action will have a material adverse effect on the Company's financial position. It is the practice of the Company and its affiliates to cooperate fully in these matters.

Investment Purchase Commitments: As part of its overall investment strategy, the Company has entered into agreements to purchase private placements and commercial mortgages of \$118.5 and \$93.1 at December 31, 2015 and 2014, respectively. The Company is also committed to provide additional capital contributions of \$263.2 and \$82.3 at December 31, 2015 and 2014, respectively.

Liquidity: The Company's principal sources of liquidity are product charges, investment income, premiums, proceeds from the maturity and sale of investments, and capital contributions. Primary uses of these funds are payments of commissions and operating expenses, interest credits, investment purchases, and contract maturities, withdrawals, death benefits, surrenders and dividends to its parent.

The Company's liquidity position is managed by maintaining adequate levels of liquid assets, such as cash, cash equivalents, and short-term investments. In addition, the investment portfolio is primarily composed of high quality fixed income investments, which include significant holdings of US Government securities, high quality corporate bonds and agency backed residential mortgage backed securities. Asset/liability management is integrated into many aspects of the Company's operations, including investment decisions, product development, and determination of crediting rates. As part of the risk management process, different economic scenarios are modeled, including cash flow testing required for insurance regulatory purposes,

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

to determine that existing assets are adequate to meet projected liability cash flows. Key variables in the modeling process include interest rates, anticipated contract owner behavior, and variable separate account performance. Contract owners bear the investment risk related to variable annuity products, subject, in limited cases, to certain minimum guaranteed rates.

The fixed account liabilities are supported by a general account portfolio principally composed of fixed rate investments with matching duration characteristics that can generate predictable, steady rates of return. The portfolio management strategy for the general account considers the assets available-for-sale. This strategy enables the Company to respond to changes in market interest rates, prepayment risk, relative values of asset sectors and individual securities and loans, credit quality outlook, and other relevant factors. The Company's asset/liability management discipline includes strategies to minimize exposure to loss as interest rates and economic and market conditions change. In executing this strategy, the Company uses derivative instruments to manage these risks. The Company's derivative counterparties are of high credit quality.

On September 15, 2015, Fitch affirmed the Company's insurer financial strength ratings and maintained its Stable outlook. On March 16 2015, Fitch raised the Company's insurer financial strength rating to "A" from "A-" and assigned a Stable outlook. On September 4, 2014, Fitch affirmed the "A-" insurer financial strength rating of the Company and maintained its Positive outlook. On March 6, 2014, Fitch affirmed the "A-" insurer financial strength rating of the Company and revised the rating outlook to Positive from Stable.

On February 17, 2015, S&P raised the Company's insurer financial strength rating to "A" from "A-" and assigned a Stable outlook. On March 14, 2014, S&P affirmed the "A-" insurer financial strength rating of the Company and revised the rating outlook to Positive from Stable.

On March 3, 2015, Moody's raised the Company's insurer financial strength rating to "A2" from "A3" and assigned a Stable outlook. On May 13, 2014, Moody's affirmed the "A3" insurer financial strength rating of the Company and revised the rating outlook to Positive from Stable.

On August 18, 2015, A.M. Best affirmed the Company's insurer financial strength rating and maintained its Stable outlook. On July 3, 2014 A.M. Best affirmed the "A" insurer financial strength rating of the Company and maintained its Stable outlook.

The ratings of the Company by the rating agencies reflect a broader view of how the financial services industry is being challenged by the current economic environment, but also are based on the rating agencies' specific views of the Company's financial strength. In making their ratings decisions, the agencies consider past and expected future capital and earnings, asset quality and risk, profitability and risk of existing liabilities and current products, market share and product distribution capabilities, and direct or implied support from parent companies, among other factors.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

15. Financing Agreements

The Company has entered into a reciprocal loan agreement with Voya Financial, Inc. to promote efficient management of cash and liquidity and to provide for unanticipated short-term cash requirements. Under this agreement, which expires December 31, 2020, the Company and Voya Financial, Inc. can borrow up to 2% of the Company's admitted assets excluding separate accounts as of December 31 of the preceding year from one another. Effective January 2014, interest on any borrowing by a subsidiary under a reciprocal loan agreement is charged at a rate based on the prevailing market rate for similar third-party borrowing or securities. Under this agreement, the Company received interest income of \$0.1, \$0.2 and \$0.0 for the years ended December 31, 2015, 2014, and 2013, respectively.

As of December 31, 2015 and 2014, the Company had no outstanding receivable or outstanding payable from Voya Financial, Inc. under the reciprocal loan agreement. The Company incurred minimal interest expense on borrowed money during 2015 and 2014 and incurred no interest expense on borrowed money during 2013.

The Company is the beneficiary of letters of credit totaling \$436.1; terms of the letters of credit provide for automatic renewal for the following year at December 31, unless otherwise canceled or terminated by either party to the financing.

16. Related Party Transactions

Investment Management: The Company has entered into an investment advisory agreement with VIM under which VIM provides the Company with investment management services. The Company has entered into an administrative services agreement with VIM under which VIM provides the Company with asset liability management services. Total fees paid by the Company to VIM under the agreement were approximately \$33.0, \$33.1 and \$34.0 for the years ended December 31, 2015, 2014 and 2013, respectively.

Services Agreements: The Company has entered into an inter-insurer services agreement with its U.S. insurance company affiliates and other affiliates (collectively, the "affiliates") whereby the affiliates provide certain administrative, management, professional, advisory, consulting, and other services to each other. The Company has entered into a services agreement with VSC whereby VSC provides certain administrative, management, professional, advisory, consulting and other services to the Company. The Company has entered into a services agreement with RNY whereby the Company provides certain administrative, management, professional, advisory, consulting and other services to RNY. The Company has entered into a services agreement with VFP to provide certain administrative, management, professional advisory, consulting, and other services to the Company for the benefit of its customers. Charges for these services are determined in accordance with fair and reasonable standards with neither party realizing a profit nor incurring a loss as a result of the services provided to the Company. The Company will reimburse VFP for direct and indirect costs incurred on behalf of the Company.

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

The Company entered into a services agreement with RR and VSC whereby the Company and VSC provide certain administrative, management, professional, advisory, consulting and other services to RR.

Cost Sharing Arrangements: Management and services contracts and all cost sharing arrangements with other affiliated Voya Financial, Inc. companies are allocated among companies in accordance with systematic cost allocation methods.

Expenses allocated to the Company from affiliated entities under these cost sharing arrangements were \$264.0, \$238.0 and \$240.0 for the years ended December 31, 2015, 2014 and 2013, respectively. Expenses allocated by the Company to affiliated entities under these cost sharing arrangements were \$43.8, \$41.3 and \$38.1 for the years ended December 31, 2015, 2014 and 2013, respectively.

Tax Sharing Agreements: The Company has entered into a federal tax sharing agreement with members of an affiliated group as defined in Section 1504 of the Internal Revenue Code of 1986, as amended. The agreement provides for the manner of calculation and the amounts/timing of the payments between the parties as well as other related matters in connection with the filing of consolidated federal income tax returns. The federal tax sharing agreement provides that Voya Financial, Inc. will pay its subsidiaries for the tax benefits of ordinary and capital losses only to the extent the consolidated tax group actually uses the tax benefit of losses generated.

The Company has also entered into a state tax sharing agreement with Voya Financial, Inc. and each of the specific subsidiaries that are parties to the agreement. The state tax agreement applies to situations in which Voya Financial, Inc. and all or some of the subsidiaries join in the filing of a state or local franchise, income tax, or other tax return on a consolidated, combined or unitary basis.

Effective January 1, 2014, in conjunction with the Company's novation of reinsurance from Whisperingwind III ("WWIII") to SLD, the Company terminated its interest rate swap agreement ("IRSA") with Voya Financial, Inc., and Voya Financial, Inc. terminated its mirror IRSA with WWIII. The swap liability balance on the Company's balance sheet at December 31, 2013 was approximately \$21.0 and was adjusted to \$0.0 as of the effective date of the novation.

17. Guaranty Fund Assessments

Insurance companies are assessed the costs of funding the insolvencies of other insurance companies by the various state guaranty associations, generally based on the amount of premium companies collect in that state. The Company accrues for the cost of potential future guaranty fund assessments based on estimates of insurance company insolvencies provided by the National Organization of Life and Health Insurance Guaranty Associations and the amount of

RELIASTAR LIFE INSURANCE COMPANY
Notes to Financial Statements – Statutory Basis
December 31, 2015

(Dollar amounts in millions, unless otherwise stated)

premiums written in each state. The accrual methodology follows a retrospective-premium-based guaranty-fund assessments construct. The Company has estimated this liability to be \$9.4 and \$9.8 as of December 31, 2015 and 2014, respectively, and has recorded a liability in accounts payable and accrued expenses on the balance sheet. The Company has also recorded an asset in other assets on the balance sheet of \$8.9 and \$10.2 as of December 31, 2015 and 2014, respectively, for future credits to premium taxes for assessments already paid and/or accrued. The periods over which the guaranty fund assessments are expected to be paid, the related premium tax offsets expected to be realized and the additional industry support expected to be paid are unknown at this time.

There are no premium tax offsets where it is reasonably possible that an impairment has occurred in accordance with SSAP No. 5R.

A reconciliation of assets recognized is presented below:

	Year ended December 31	
	2015	2014
	<i>(In Thousands)</i>	
Assets recognized from paid and accrued premium tax offsets and policy surcharges beginning of the year	\$ 10,159	\$ 6,327
Decreases current year:		
Premium tax offset applied	839	665
Changes in premium tax offset capacity / other adjustments	121	—
Adjustment to estimate	347	—
Increases current year:		
Adjustment to estimate	—	4,346
Changes in premium tax offset capacity / other adjustments	—	151
Assets recognized from paid and accrued premium tax offsets and policy surcharges end of the current year	<u>\$ 8,852</u>	<u>\$ 10,159</u>

18. Accident and Health Contracts

The change in the liability for unpaid accident and health claims and claim adjustment expenses is summarized as follows:

	2015	2014
	<i>(In Thousands)</i>	
Balance at January 1	\$ 237,976	\$ 241,195
Less reinsurance recoverables	103,903	93,765
Net balance at January 1	<u>134,073</u>	<u>147,430</u>
Incurred related to:		
Current year	32,002	22,749
Prior years	(16,913)	(3,417)
Total incurred	<u>15,089</u>	<u>19,332</u>
Paid related to:		
Current year	12,132	8,458
Prior years	27,644	24,231
Total paid	<u>39,776</u>	<u>32,689</u>
Net balance at December 31	109,386	134,073
Plus reinsurance recoverables	117,967	103,903
Balance at December 31	<u><u>\$ 227,353</u></u>	<u><u>\$ 237,976</u></u>

The change in incurred losses and loss adjustment expenses attributable to insured events of prior years is generally the result of ongoing analysis of recent loss development trends, but also includes a reduction due to retroactive reinsurance of worker's compensation carve-out reserves. Incurred and paid claims are presented net of reinsurance. Original estimates are increased or decreased as additional information becomes known regarding individual claims.

The liability for unpaid accident and health claims and claim adjustment expenses is included in accident and health reserves and unpaid claims on the balance sheet.

The Company currently does not actively write any health insurance premium subject to the Affordable Care Act Risk sharing provisions. The Company's existing health insurance business consists of grandfathered policies issued prior to March 23, 2010 that are not Qualified Health Plans ("QHP"), as defined in the Affordable Care Act. As a result, the Company does not have any admitted assets, liabilities or revenue elements under any program regarding the risk sharing provisions of the Affordable Care Act for the reporting period ending December 31, 2015.

19. Retrospectively Rated Contracts

The Company estimates accrued retrospective premium adjustments for its group life and health insurance business through a mathematical approach using an algorithm of the Company's underwriting rules and experience rating practices. The Company records accrued retrospective premium as an adjustment to earned premium. The amount of group life premiums written, net of reinsurance, by the Company that was subject to retrospective rating features was \$12.2, \$10.7, and \$10.8 for December 31, 2015, 2014, and 2013, respectively. This represented 89.8%, 43.5%, and 30.0% of the total group life premiums written, net of reinsurance, for December 31, 2015, 2014 and 2013, respectively. The amount of group health premiums written, net of reinsurance, which are subject to retrospective rating features by the Company was \$1.7, \$3.1, and \$2.1 for December 31, 2015, 2014 and 2013, respectively. This represented 3.3%, 6.6%, and 8.8% of net group health premiums written at December 31, 2015, 2014 and 2013, respectively.
